## THE Editor's Corner...

By Joe Harrison

Speculation swept through the streets of Spur like wild fire Wednesday as reports of an oil well "blowing in" east of town circulated among the citizenry.

After running our legs off chasing down rumors, including a jaunt to Dickens to determine the well's location—this is about the only thing we could verify.—It is located on Mrs. Mary Copeland's place east of town on the south one-half of section 203, H & GN Railroad Co. survey, block No. 1, southwest corner, Fletcher Oil and Gas Corporation are the contractors.

The drilling site is bounded by Joe Long on the southwest and Tol King on the southeast.

After listening to street talk from so many angles we didn't know what to think—we decided the logical step would be to go see for ourselves. We drove out and onto the rig site. They were drilling merrily away, although slowly as if in a hard formation.

The well is said to have blown in Tuesday night. If it did, it must have been on a small scale for when we saw the rig it looked clean—no trace of oil on the ground.

However, we understand the workers had been instructed not to say anything.

It could be that the well did blow in and they sealed it and are continuing to contract depth. But you could write a book on "could be's" and "if's."

Another era in history is coming to a sentimental close tomorrow when the Bell Telephone Company will change to its new, modern, dial system.

However, all the current employees of the phone company will remain, with the exception of the operators.

Progress catches us all. In the printing industry the linotype machine took the place of several printers; the tractor moved the horse off the farm and now a dial is replacing the familiar "number please."

Time, marches on!

Along with the new dial system, Spur will have a new "fire alarm" system. Twelve special telephones have been installed in strategic places—City Hall, Hospital, and in several firemen's homes. Any time a fire is called in, all twelve phones will ring simultaneously.

The caller will then tell where the fire is, and the person who answers will push the siren button that will be installed with each of the special phones. In this manner, Spur will continue to have a fast fire or emergency reporting system.

Rotarians were buzzing the later part of last week over a program given by Fred Jennings and Congressman George Mahon. Jennings told of his early day experiences in Spur while Mahon commented on the rivalry between the services regarding the missile program.

Congressman and Mrs. Mahon dropped by the office for a short visit with us enjoyed.

The flu bug is still lingering in Spur. C. L. Berry reports that 27 missed school Wednesday. Most are thought to be flu cases.

Due to our chasing wild geese, we didn't make it to the weather station this week and therefore we don't know how much rain fell in the area, but we understand about five inches fell near Calgary and over an inch in and around Spur.

**WHO'D A THOUGHT IT!**  
An Australian was trying to impress a visiting Texan with the wonders of Australia, but was having little success. Just then a kangaroo went hopping by. Drawled the Texan: "Ah! I grant you one thing, that's for sure. Your grasshoppers are bigger'n ours."

RESIDENTS OF THIS AREA who are pictured above in the Ralston Purina Company offices in St. Louis, were among approximately 300 farmers from this section who visited the Purina Research Farm at Gray Summit, Missouri, Monday, September 30, and spent the following day seeing the company's research laboratories and general office. Thousands of farmers from all sections of the United States and many foreign countries visit the Purina farm each year to see results of experiments conducted in livestock and poultry feeding and management. The 728 acre farm is devoted entirely to farm research projects. Pictured above, from left to right are: 1st row: Glen Moody, Crosbyton; A. M. Karr, Spur; Preston Weaver, Crosbyton; O. J. Stanley, Tahoka; and Donald Danforth, Purina's Board Chairman. 2nd row: Marion Jordan, Spur; Eldon Reynolds, Spur; S. C. Reynolds, Spur; R. K. Looper, Lubbock; and John W. Shaw, Lubbock.

## Bulldogs To Test Tigers

The Spur Bulldogs may field a flu-riddled football team tomorrow night when they travel to Slaton to meet the Tigers of Coach Leonard Ehrler for the third conference game for each school.

Six members of the traveling squad were reported out of school by High School Principal C. L. Berry. They are: Starters, Guard Leslie Albin; End Ronnie Cloude; Back Kenneth Gilcrease.

Three other members of the traveling squad out are Halfback Kenneth Suits; Tackle Milton Webb and End Joe Castor. Altogether 27 students were reported absent by Berry—most are thought to be flu victims.

The Tigers are one of the most improved teams in the district although their record shows four losses and only two wins. The defeats were all registered against top area football powers, including state favorite Lockney, Stamford, Canyon and Seagraves.

The Tigers were dealt a 52-6 drubbing by the Bulldogs last year.

It is possible that the boys who are out now, may be ready for duty Friday night. Randal Gilcrease who has been out since the Anson game, scrimmaged some earlier in the week and will probably see limited duty tomorrow night.

**SPUR 19, ABERNATHY 12**  
The Spur Bulldogs spotted the Abernathy Antelopes one touchdown and then came storming back for their second district win in as many starts, they downed their Abernathy rivals 19-12, before a large homecoming crowd here last Friday night.

Abernathy scored the first time they had the ball, with Dannie Miller taking the ball on a tricky double reverse and racing 40 yards untouched. Try for point failed and Abernathy held a 6-0 lead with only three minutes gone in

the first period. Abernathy kicked short to guard Jim Gabriel who returned ten yards to the Abernathy 45. On the first play Kenneth Gilcrease kept for one yard, then on the next play, Alan Kissinger burst through the right side of the Antelope line and romped 44 yards to paydirt. The play was nullified by a holding penalty and Gilcrease kicked

On the next play, Abernathy fumbled and End Ronnie Cloude pounced on the loose pig hide and the Bulldogs were in business on the Abernathy 6. From there they scored in four plays with Halfback Ray Don Powell scoring the touchdown from two yards out. Suits missed the conversion and the teams were tied, 6-6 with six minutes left in the first quarter.

Early in the second quarter the Bulldogs capitalized on another break when Gilcrease recovered an Antelope fumble on the Abernathy 30 yard line. Spur moved the distance in only six plays as Kissinger raced for one, five and

seven yards; Watson added five in two tries, and Powell carried for three to the seven yard line where he scored. Suits again missed the point and the scoreboard read Spur 12, Abernathy 6.

Spur came right back in the second period and moved to the Abernathy four yard line. The drive was sparked by a 30 yard pass, Gilcrease to Kissinger. How-

## Farm Bureau Slates Convention Oct. 22

The Dickens County Farm Bureau will hold its annual convention next week, October 22, in the Dickens School Building at 7:30 p.m.

A complete financial report for the past fiscal year will be given along with a report on services that are offered by the local offices.

Each year resolutions concerning local, state and national issues are discussed and adopted at this convention. The Resolution Committee is composed of G. B. Morris, M. L. Kelley, Clyde Crausby and E. F. Shugart.

Directors will be elected for the coming year. A Farm Bureau membership drive is now in progress.

**Blumberg Appointed Aide-de-Campe To VFW Commander**  
E. B. Blumberg, local rural mail carrier, has been appointed National Aide-de-Campe to the Commander-in-Chief of the Veterans of Foreign Wars, Richard L. Roudebush, Indianapolis, Indiana.

In making the announcement, Commander Roudebush said: "I deem it a great honor to have E. B. Blumberg serve on my personal staff. His outstanding work on behalf of our organization has not only earned him the highest respect in his own community, but on a state and national level also."

**Brother Of Spur Woman Buried In Oklahoma**  
Funeral services were held Saturday at 10 a. m. for Newt Cooper, 69, who died Oct. 9 at his home in Midwest City, Okla.

Services were conducted at the Harrell Funeral Chapel with interment in Bunyan cemetery. Cooper is a former resident of this area and was reared at Bunyan. He left here in 1947.

Survivors include his wife, the former DeOtt Price, Dublin; one son, Zack, San Francisco, Calif.; one daughter, Mrs. Chester Moffett, Midwest City, Okla.; and four sisters, including Mrs. Ida Cornelius, Spur.

## Switch To New Dial System Due Tomorrow At Noon

### Area Man Drowns In Fishing Mishap

Weldon Tarrant, 44, of Afton, drowned in Lake Kemp near Seymour, Sunday about 3 p. m. when a sudden storm capsized the boat from which he was fishing. He and three other men, Dumont Bridge, Raydell Mullins and Mickey Hale were in a fourteen foot metal boat when high waves struck them, overturning the boat.

The four men clung to the boat about an hour before Tarrant became exhausted and lost his grip. He sank before his companions could reach him. Mr. and Mrs. Jim Sisk of Levelland rescued the other men.

Firemen from Seymour tried to revive Tarrant but he did not respond. He was custodian of Patton Springs High School in the Afton community and had lived at Roaring Springs many years before moving to Afton. He is survived by his wife and six children also several brothers and sisters.

Funeral services were held Wednesday at the First Baptist Church with Rev. Arnold Bickel officiating. Burial was in Roaring Springs Cemetery with Euday Seales of Matador in charge.

### TCU Ranch Class To Visit Area

Ranch Training students from Texas Christian University will spend a week in the Stamford and Spur area October 20 through 25. The purpose of the trip will be to study all phases of ranching on the SMS cattle ranches and surrounding areas.

The group will also visit the Spur Experiment Station. The group will be under the direction of Arthur H. Courtaid, Director of Ranching Training.

The following students will make the trip: Billy Carpenter, Fort Worth; Bobby Cromwell, Fort Worth; John Lee Henderson, Jr., Ozona; Clarence Judd, Stratford; Jerome Kline, Dallas; Lamar LeBron II, Wilmington, Delaware; Monty Montgomery, Corpus Christi; Charles V. Rohrer, Buffalo, Oklahoma; Joseph William Posa, San Augustine; and Robert E. Wagner, Garden City, New York.

This program is in its second year, and it is unique in its presentation of the study of the ranching business. The following courses are taught: Soil and Water Conservation; Practical Grassland Management; Beef Cattle, Hog and Sheep Production; Forage Crops; Feeds and Feeding; Practical Ranch Jobs and Management; Farm and Ranch Records and Finance; and Marketing and Processing.

**ACC Professor Is Featured Speaker At P-TA Meeting**  
Dr. Paul Southern of Abilene Christian College was the featured speaker for the Parent-Teacher Youth Development Workshop held in Stamford on Wednesday, October 16, at the Oliver Elementary School.

Dr. Southern spoke on Problems of Youth, Delinquency, and Attitudes Toward Youth. A panel of delegates discussed Youth Development in the Home, School, Community, and Church.

During the afternoon, the workshop divided into groups to study problems and ideas related to pre-school, elementary, junior high and young adult ages.

Mrs. Alfred C. Berry, Stamford P-TA City Council President, was general chairman for the meeting. Her assistant was Mrs. C. B. Wallace.

### Fire Marshal Orders City-Wide Clean Up

Russell Powers, City Fire Marshal, has issued a special order, requesting that all vacant lots be cleared of excessive growth of weeds and grass.

The order pertains to both renters and land owners who live on property in the city limits of Spur.

The weeds and grass are deemed a fire hazard and must be cleared.

### Bob Wright To Lead Methodist On Laymen's Day

Sunday, at 11 a. m., Bob Wright, of Lubbock, will be the speaker for the annual observance of Laymen's Day at the First Methodist Church in Spur. Bob Conner will preside, and the laymen will have charge of the entire service.

Wright is an Associate Lay Leader for the Methodist Churches in the Lubbock District. He is a member of the board of stewards in First Methodist Church, Lubbock, and is a member of the committees for evangelism, building, and finance, in his home

western University, and after serving three years in the U.S. Air Force in World War II, was discharged, and earned his law degree at Southern Methodist University. He is a past president of the Lubbock County Bar Association, and is a member of the law firm of Wright and Waters, in Lubbock.

The public is invited to attend the services, and hear Wright. He is the son of Rev. and Mrs. Cal C. Wright, Spur.

### City Council Passes New Fire Ordinance

The City Council has passed an ordinance prohibiting the parking of any vehicle in or upon any alley within the fire zone of the City of Spur.

The new ordinance carries a misdemeanor sentence and a fine of not more than \$200 to any person so convicted.

The new ordinance is termed an "emergency" measure and will go into effect upon publication.

The new measure was adopted in an effort to clear the alleys of the business section in case of fire.

### Mayor Reese McNeill To Place First Call On New Dial Equipment Friday

Tomorrow is the big day in Spur's telephone history. It will "ring out the old, ring in the new" here at 12:01 p. m. when Spur's new dial telephone system is put into operation by Southwestern Bell Telephone Company.

"Ring out the old" means an end to the manual telephone system which has served the city since telephones were first installed here.

"Ring in the new" heralds the advent of the automatic telephone system—a significant milestone in the city's communications history. It will mean that Spur will have the finest, most modern telephone service available anywhere, J. C. Oakley, telephone company manager, said.

"Everything is in readiness for the switchover," Oakley said on the eve of the inauguration of the new system.

Spur's growth can be measured by its expanding telephone system," Oakley noted.

Mayor Reese McNeill will make the first call on the new dial equipment at 10 a. m. Friday morning when he will place a long distance call.

District managers from Lubbock and Abilene are expected to attend; they are Dave Dillard, Abilene; and R. Styles, Lubbock. There were less than 300 telephones in Spur. Today there are 730 telephones here.

As the time for change to dial approaches, October 18, at 12:01 p. m., a few last calls will be trickling through the present switchboard and the last familiar "Number, please" will be heard. At 12:00 a final check of calls being handled will be made to assure that no emergency calls are involved. Then the cutover order will be passed to telephone men who will go into action at the present office and at the new building.

Key cables which have been "half-tapped" so that they would be connected to both central offices while the new dial system was under construction will be cut so that all lines will tie only to the new dial office. Simultaneously at the new dial building, hundreds of small "blocking tools" will be quickly yanked out of the dial equipment by men pulling away hundreds of them at a time by means of connecting cords. Then each telephone in the city will be connected directly to the new dial switching equipment. The power switch in the old central office will be thrown and the new dial system will be in operation.

With these moves, too, every telephone number in the city will change.

The actual change to dial operation will take perhaps one minute or slightly longer to perform. But the job to be done in sixty seconds climaxes several months of painstaking effort by telephone technicians all over the country.

A new telephone addition was constructed; loads of dial telephone equipment was engineered, built to order, delivered, placed, and wired. A group of Western Electric installers were on the job. Installation of the new system required several thousand hand-soldered wire connections.

Mr. and Mrs. Homer Wilson and daughters of Midland visited last week end in the home of his parents, Mr. and Mrs. Leonard Wilson and while here they attended the Ex-Student Homecoming celebration.

### Jim Garrett To Become Manager For Spur System

Jim Garrett of Sweetwater will become manager for Southwestern Bell Telephone Company here when Spur changes to dial service at 12:01 p. m. tomorrow.

Garrett replaces J. C. Oakley who has been the telephone company manager for Spur since April, 1952.

"This change is being made to help the company provide even better service for the people of Spur," Oakley said.

Stamford is one of the exchanges managed by Garrett, Oakley explained. In view of this, it was only logical to move Spur into the group of exchanges Garrett handles, he added.

"It has been a real pleasure working with and helping serve the people of Spur," Oakley said.

Oakley will continue to have his headquarters in Plainview and will remain as manager for several towns in that vicinity.

No other changes are planned, Oakley said.

Mrs. Thelma Scott will continue as the company's service representative in the Spur business office.

### Methodist Training School To Begin Sunday Afternoon

A leadership Training School, for Sunday School teachers and other Church leaders, will begin Sunday afternoon at 2 p. m., at the First Methodist Church.

The school will be under the direction of Rev. Charles E. Lurick, the Executive Secretary for Christian Education for the Northwest Texas Conference, Miss Barbara Sommerville, Conference Youth Director, and Mrs. Harold Morris, an approved instructor in children's work. Paul T. Marion will be manager of the school, Mrs. Paige E. Gollhar, dean, James Jay, secretary and Jackson East, treasurer.

Courses are offered for workers with children, youth, and adults. Anyone, sixteen years of age and over, may enroll in one of the classes.

The first class sessions will begin Sunday afternoon at 2 p. m., and will continue at 7:30 p. m. Monday, Tuesday, and Wednesday. Workers from any church in this community, or from surrounding communities, are welcome to attend the class sessions, according to Rev. Cal Wright, the pastor.

**Winless Texas Tech Tackles Baylor Bears In Lubbock Saturday Night**

Baylor University is the next big stumbling block in Texas Tech's path to a football victory this season, since the Red Raiders are hosts to the Bears here Saturday night.

Both teams have played better football than their records, 2-2 for Baylor and 0-4 for Tech, indicate. Both have been dealt heavy blows by the flu, and possibly, illness may have cost each a pair of victories in their past two games.

Indications are that the Southwest's most widely-acclaimed passer and hard-luck performer, Baylor's Doyle Traylor, will be in top form for the game Saturday night. Disabled most of two previous seasons, Traylor had to sit out much of last week's 20-17 upset at the hands of Arkansas.

Tech, too, should be almost completely back in shape after some severe bouts with the flu. In addition, its only letterman quarterback, John Riddle of Artesia, N. M., should be available for full duty. Riddle, who broke a hand in September, was used sparingly in the fourth quarter of Tech's 26-14 loss to Texas Western last week and looked like he could shoulder more of the burden this week.

Tech's ranks will still be thinned by the loss of guard Billy Woodlin of Roaring Springs, who broke a thumb last week.

Wayne Harris was a Tuesday night guest of Wright Hinson. Mrs. Doll Warshaw visited a few days last week with Mr. and Mrs. Frank Hadderto and children.

down after an illegal motion penalty set the Bulldogs back to the nine.

Spur returned the second half kickoff to their 25 yard line, and after two plays lost three yards. Gilcrease tried a pass into the flat. Donnie Apperson intercepted, stumbled, almost went down, regained his balance and raced into the end zone with the tying touchdown. Point failed and the score was tied 12-12, with two minutes elapsed in the third quarter.

Spur's final and winning touchdown came with seven minutes remaining in the game. Following a 15 yard penalty, the only one they were assessed, Abernathy had Apperson kick from his own twelve. The kick was high and short, and took a backward bounce on the 25 and rolled to the Abernathy 15 where Center Don Kidd fell on the ball.

Watson picked up two, Kissinger took a running pass from half-back Kenneth Suits and raced to the Antelope one yard line before being run out of bounds. Kissinger then scored with a plunge over right tackle. Suits converted and Spur had their second district win, without a defeat, 19-12.

Gilcrease and Kissinger were outstanding on defense along with Glen Hairgrove. Gilcrease recovered a fumble and Kissinger got the first interception. Hairgrove accounted for several yards loss for Abernathy as he broke through often from the defensive left halfback slot of Spur.

Kissinger also played a fine game offensively as he paced Bulldog ball carriers with 54 yards.

**Tech Stadium Expansion Committee Seeks To Raise \$1,700,000 By '60**

The Texas Tech Stadium Expansion Committee has started a program to raise \$1,700,000 for expansion and new construction at Jones Stadium prior to the 1960 full Southwest Conference participation of Red Raiders, Marshall Pennington, its chairman, revealed today.

Offices to headquarter the drive have been opened in suite 233 of the Insurance Building, 2109 Avenue "Q", and has been occupied by a staff to administrate the program by which funds for the program to be raised, he said.

The committee chairman explained that expansion of the stadium was needed to accommodate expected heavy attendance at games when the Red Raiders host Southwestern Conference games here in the future. State money is not available for the needed expansion, he said. The Clifford B. and Audrey Jones Stadium was opened in 1947 and seats 28,000.

Funds for the expansion will come from large donors and from the exercising of seat options on the better seats, Pennington revealed. He noted, however, that the contracts of current seat option holders would be honored in the fund-raising program.

Pennington said that opportunity to claim options for stadium seats would not be offered until final plans for the construction and the campaign organization were completed, probably in early November.

**FROM WHERE I SIT . . .**

BY JOE HARRISON

John Taylor, Head Basketball coach and chief scout at Slaton, sat beside us in the press box last Friday night and we had a nice chat about the upcoming game between Spur and Slaton this week.

Coach Leonard Ehrler, Head Coach at Slaton, is a long-time friend of this writer. Ehrler is a devoted coach, perhaps to the extreme, but we do know that he wants a victory over Spur very much.

Last year Spur ran wild over Slaton, and several Slaton boys were injured—one received a broken leg—we understand. You can bet they'll be out for revenge this year.

According to Taylor, Slaton had seven men out with the flu or other illness when they played Lockney last week. As you know, Lockney beat the Tigers 25-0. Which gives an indication that Slaton may be the most improved team in the league.

Slaton fans are hungry for a winning season, and this might be the one. Spur will carry a 3 won, 1 lost and 2 tied into the game. Slaton has won two and lost four, holding victories over Post and Roscoe.

Arkansas must have something besides integration trouble as evidenced by their 20-17 win over Baylor. At the beginning of the season, Baylor was being boomed as a favorite to cop the Southwest Conference crown.

The Aggies are holding their own about as expected, but the Texas Longhorns indicated they may be rough by playing Oklahoma a stout game. According to the latest ratings, the Aggies are third in the nation, Oklahoma second, being bumped from the top rung by Michigan State.

In area AA ratings, Lockney continues to pace the field with Spur moving up from number 10 to a tie for 6th trailing Floydada who rests in fourth place.

Dickens County CHECKERBOARD NEWS BY ELDON REYNOLDS CLARY POULTRY AND EGG

Now... You may grow 320 lb. calves in only 4 months!

Three hundred - twenty pound heifer calves at only 4 months of age!

You dairy-men would love to have a barn full of calves like that, wouldn't you?

Especially if you could sell all the whole milk that your dam produces!

At Purina's research farm last year, 89 calves were raised on Nursing Show and Calf Startena.

At four months, Holstein heifer calves averaged 320 pounds - a full one-third heavier than is considered good growth for calves of that age.

And, they were raised for less than half the cost of whole milk feeding!

Purina Nursing Chow and Calf Startena - built and proved under typical farm conditions - are designed to grow 320 pound Holstein calves at only 4 months.

Ask us for Nursing Chow-Calf Startena... a complete Calf Program.

Take full advantage of the good egg market!

You folks with laying hens and pullets are in the right business this year!

Fall and winter egg prices look good, and this should be a profitable poultry year.

Get top results from your home grown grain by feeding it with Purina Laying Concentrates.

Actual records from one and a quarter million hens proved Purina Laying Concentrates, mixed with home grown grain, can save up to five cents per dozen eggs compared to average U. S. feed costs.

Let us work out an economical feeding plan to help your layers turn out more eggs... at low cost per dozen.

Farrowing to market in only 4 2/3 months on Purina

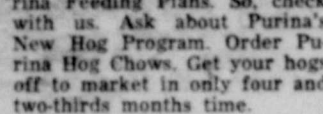

Farrowing to market in only 4 2/3 months. Think of it! Farrowing to market in only 4 2/3 months.

On Purina's New Hog Program you may now grow your hogs to preferred market weights in only four and two-thirds months time.

This New Purina Hog Program lets you make even more efficient use of your home-grown grain than previous Purina Feeding Plans. So, check with us.

Ask about Purina's New Hog Program. Order Purina Hog Chow. Get your hogs off to market in only four and two-thirds months time.

They all go for Purina Dog Chow

The next time you stop at our Checkerboard Store, remember we have Purina Dog Chow, too!

Hunting dogs, farm dogs, lap dogs... they ALL go for Purina Dog Chow.

Robinet gave his daughter in marriage. She was gowned in an original model of white Chantilly-type lace and nylon tulle over net and satin featuring long tapered sleeves, a sheer yoke and a high neckline framed by a lace Mandarin collar.

The bride's silk illusion veil was joined to a crown of pearls accented with a teardrop at the front. She carried a Bible covered with white rosebuds and satin leaves embedded in puffs of nylon illusion.

Mrs. H. F. Harris of McAdoo attended as matron of honor in a blue taffeta dress with a bouquet of white French carnations.

Curtis Brown of Lubbock served as best man while ushering duties were assumed by Darrel York and Ray Robinett.

A reception followed in the Community House with Mrs. Waldo Havens, Mrs. Billy Ray Webster and Mrs. Roy Robinett assisting in hospitalities.

The bride traveled in a beige suit with brown accessories.

Mrs. Young is a 1957 graduate of Crosbyton High School. Her husband attended Post High School and served in the US Army two years.

BETTER SCHOOLS -- AND YOU

by HENRY TOY, Jr., President National Citizens Council for Better Schools

WHAT MAKES A SCHOOL "GOOD"? Americans just don't stay in one place. I've moved four times since I've been married and I'll bet I'm not permanently settled yet.

This mobility of our population creates problems for the schools and for the parents of school children.

There's the classic case of an enormous housing development thought of by the engineers. They made space for a community swimming pool, super markets, churches, police stations, fire house.

Parents who have to move for one reason or another write us and ask whether the schools are good in the communities they're going to.

Find out how many teachers a school has for how many students. Find out if the students are going to school full-time or if they have to go on half-day sessions.

A few years ago, we asked major corporations what they looked for in deciding where to build a plant.

They told us that one of the first things they found out was how good the schools were.

It's a community that lets its schools go to bed is one that's keeping new blood and new industry out of town.

Send it to Better Schools, 9 East 40th Street, New York 16, New York, and I'll let you know what other communities are doing.

Class of 1953 Holds Annual Reunion

Approximately seventeen members of the Class of 1953 met at the home of Mr. and Mrs. George Gabriel, 901 N. Trumbull, for their annual Homecoming Reunion.

A light dinner of sandwiches, soft drinks, potato chips and cake and ice cream were served to the class as they arrived and were seated in the living room.

After enjoying the refreshments, the class retired to the playroom upstairs where they were shown colored slides and colored moving pictures of their Senior year and Senior trip.

After the film and slides were shown a short business meeting was held. Dues were collected from each class member and officers for 1958 were elected.

Pat Young and Glinna Jones were elected co-representatives for the class and plans were made for the Homecoming next year.

The meeting was adjourned and the class went to Jones Stadium to see the football game.

Hostesses were: Mrs. O. W. Pierce, Miss Jennie Pierce, Mrs. Irwin Cross, Post; Mrs. Fred Humble, Mrs. Roy Robinett, Mrs. Elmer Havens, Mrs. H. L. Morris and Mrs. Billy Webster of McAdoo.

Refreshments of cake, ice cream and punch were served to S. J. Shields, Mike Fisher, Carl Winkler, Frank and Larry Hadderton, Wayne Warshaw, Mary Etta Alley, Barbara Parsons an dthe honoree, Freda Parsons.

Lones Ray Warren, a nephew of Mrs. Elmer Havens of Ft. Smith, Arkansas, visited last Sunday with Mr. and Mrs. Elmer Havens.

We have several on our sick list this week. They are: Wayne Harris, W. C. and R. G. Havens, Barbara Parsons and Jo Ann Smith. We wish for them a speedy recovery.

Class Of '28 Has Annual Reunion

The class of 1928 held its annual Homecoming party on Saturday, October 12, at the Ag Hall on the High school campus.

After greeting each other, a business meeting was held. They decided the class would have a float at the next Homecoming parade.

Officers were elected for the coming year and Jack Simmons was re-elected class representative and Mrs. Inez Karr secretary-treasurer.

Each one present paid their dues. A greeting card was signed by each one present to be sent to Mrs. Allie Joplin who could not be present, due to the illness of her mother.

Refreshments of sandwiches, cookies, deviled eggs, potato chips, pickles, olives, coffee and soft drinks were enjoyed by thirteen exes of the '28 class.

Those present were: Harold Karr, Virgie and Archer Powell, Lena East, Velma Smith, Verna Watson, Jack Simmons, Jerry Ensey, Inez Karr, all of Spur, and Opal Nickels of McAdoo, Velda Crouch Brandenburg of Houston, Elнора Britton Smith of Ahlone and Nell Goff Clay of Graham.

Prospective Cub Scouts Study Fire Prevention

Mrs. Charles Nickels and Mrs. Clomer Randall met with the Prospective-Cub Scouts at the VFW Post Home Wednesday, October 9 at 3 p. m.

The program was opened with the Pledge to the Flag and Cub Scout Promise. Roll call was answered with a tip on fire prevention and each boy was presented with a Junior Fire Marshall Badge for his tip.

Mrs. Randall gave a program on Fire Prevention and Mrs. Nickels gave an outline on the life of Columbus.

The boys sang "Davy Crockett" as the mothers prepared refreshments.

The next meeting will be at the VFW building with both groups meeting together.

## SAYS STATE FIRE MARSHALL Children's Halloween, Christmas Costumes Are Aften Fire Hazards

State Fire Marshall William A. Harrison today urged parents to use extreme caution to make sure their children are safe from fire during the approaching holiday season.

"During the period from Halloween through Christmas we receive frequent reports of children being burned to death when flammable costumes and party decorations catch fire," Harrison said. Parents should insist that costumes and decorations be fire-resistant and should not use candles at children's parties.

Remember your child's clothing can burn, so know what he's wearing, Harrison cautioned. Do not dress your child in such fast burning materials as sheer, fuzzy, long-napped materials, or flimsy nets and gauze. Safer materials are wools, and medium and heavy weight smooth fabrics.

Remember that just about any clothing will burn if the wearer is careless. So train your children to be careful in the presence of open flames, heaters, stoves and other sources of ignition.

Children's clothing is most frequently burned while playing with matches, playing around stoves and heaters and too close to outdoor fires. Parents should provide a metal box for matches and keep it in a spot out of the reach of children and away from the heat of the stove. With the approach of cold weather, parents should have the complete home heating unit checked, and should always carefully supervise outdoor fires.

"Youngsters are so curious about everything they see that they seem to expose themselves to every possible fire hazard," Harrison said. Last year over 4,000 children in the United States under 14 years of age burned to death, and

## 346 Due Calls In November Draft

The state quota for Texas draft boards in November calls for 346 men, Colonel Morris S. Schwartz, state Selective Service director said Friday.

The state's November call of 346 compares with a quota of 338 for October and 387 for September. The November call is the state's share of a national call for 7,000 men.

Colonel Schwartz said no men were scheduled to take pre-induction physical and mental examinations in November except possibly transfers from other states or "isolated special cases in Texas."

Local board quotas for the November induction are scheduled to be mailed by state Selective Service headquarters Friday.

The November quota will be filled with men who are at least 22 years old on November 1, with the exception of volunteers or delinquents, who may be younger.

## Dallas Judge Says Parents Often Blamed Unjustly For Delinquency

(Editor's Note: This is the first of a series of articles on the state's growing problem of juvenile delinquency by one of Texas' foremost authorities on the subject, District Judge Sarah T. Hughes of Dallas, who has handled more than 25,000 juvenile and family relations cases, along with an even greater number of other civil cases in 22 years on the bench. "Family law is probably the most important phase of the law," says this internationally known jurist, whose work has been honored in Europe and Asia as well as the United States, and whose name was put in nomination for the vice presidency of the United States in 1952. A discussion of a different aspect of the problem will appear every other week.)

Many helpful things can be done to counteract our mushrooming problem of juvenile delinquency—and they must be done by individuals and organizations, as well as by parents.

In fact, I have become somewhat irritated with parents getting too much of the blame for this problem. The changed conditions of modern times impose a great responsibility on the community as well as on parents, and we as members of the community must examine the need and get busy providing more of the remedy.

For instance, more boys are arrested for auto theft than for any other crime. Unlocked parked cars are a great temptation for boys who have time on their hands and yearn for a car of their own.

How do the changed conditions of living and of children's growing-up affect our youngsters? In the generations immediately past, children had a big place in family life: They had jobs to do—many important chores around the home and, often, the farm—and so a child had the sense of importance, of his own worth, that all of us must have. There was little time for the idleness that breeds mischief.

Today is marked by the industrialization of cities, the high percentage of cars available to teenagers, movies, picture books, TV (much of all this with subject matter beyond the adolescent's ability not to grasp but to digest properly) and very few chores around the home. So the job of the parent is much more difficult today than it used to be—and much more time-consuming.

What is the responsibility of the community? It is to counteract these changed conditions with all the insight that it can summon and with all the means that it can

JUDGE SARAH T. HUGHES

muster, in a deeply serious effort. Here are some suggestions I have developed from the thousands of juvenile cases that have come before me in my 22 years of handling civil cases as a district judge in one of the populous areas of our state:

1. We must provide much more thoroughly for the time that young people have on their hands these days by establishing AND SUPPORTING far more widely and completely than we now do such character-building organizations as Boy Scouts, Girl Scouts, YMCA, Junior Achievement, club gardens, etc.

2. We must provide more community centers, "teen canteens," parks, schools, churches. And these youth centers must be organized in units small enough for adequate supervision so that they themselves do not become centers for delinquency.

3. As well as offering organization and leadership in these group projects, the community's individuals must try to make themselves good friends to children on a personal basis, must listen to them, share with them, encourage them, give them jobs.

4. But the community's responsibility doesn't end with the provision of character-building facilities. The community must provide more adequately by far than we now do for those who become delinquent. We must increase detention facilities and raise the number of parole officers, among other things. We have come a long way from 1828 when, in New Jersey, a 13-year-old boy was hanged for theft. But we have a long way still to go.

How can we get on the road will be discussed in my next article.

## Letters to the Editor...

Dear Editor:  
We need badly a reorganization of some phases of the government. I think the present method of selecting members to the Supreme Court was outmoded before it began. The power of appointment is in the President's hands, and he wants judges on the bench who will agree with his ideas of how the government should be run. This is not the function of the Supreme Court.

The function of the Supreme Court is to decide cases entirely on the basis of the Constitution of the United States. The President usually selects politicians, whether they are in the Senate, or whether they are Attorneys General, or some other special pet to whom he feels an obligation. Of course, this is the entirely wrong concept of a Supreme Court. We want men on the Supreme Court who are outstanding in their judicial capacities, rather than men who will carry out the President's orders. A man with outstanding judicial capacity will judge the cases that come before him according to the Constitution of the United States, rather than make laws of his own, which has been done in recent months. The Legislative bodies consisting of the House of Representatives and the Senate are the ones according to our constitution

which should make and enact the laws.

Taking all these things into consideration, the President should be deprived of naming anyone to the Supreme Court, which would get this matter completely out of politics. The man named to fill a vacancy should be named by members of the Supreme Courts in each state of the union, based on his outstanding judicial abilities. Then, the Senate should ratify the selection of this man. This method would clear up all chances of a politician being on the Supreme Court to carry out the dictation of the President, as in the case when Roosevelt tried to pack the Supreme Court, and the present Supreme Court, which has nullified the Smith Act and condoned the action of party or parties that would do all in their power to overthrow our government. All the communists in prison for these charges were pardoned as not guilty of any crime. These communists came from underground, infiltrated our churches, labor organizations, civic organizations and every other phase of American life. They're in our schools teaching our children communism. If you, my fellow American, are in favor of this, I am not. I can assure you that the present method of infiltration has caused the downfall of all the

countries that have turned to communism. Your Supreme Court condones this action as the proper thing.

If you desire any action taken by your Senator or Congressman during this next term, let them know your feelings, because lack of action may be fatal to all of us. An amendment to the constitution can be made and adopted whereby our Supreme Court members will be men of judicial capacity and not just politicians.

The communists have declared that they will take over the United States, and they will do just that unless you act to demand an amendment to the constitution whereby the Supreme Court cannot free all communists and permit them unlimited infiltration. So, act before it is too late!

District supervisors met in regular monthly session in Spur last Thursday. Attending were E. F. Shugart, Clark Forbis and K. P. Brantner. Others attending were SCS technicians John H. Taylor and Ben Oliver; County Agents Bob Berry and Mark Geeslin; and Nina Grace.

Four shredding machines will be purchased in the near future by the district for the use of district cooperators in shredding cover crops and for weed control in their grass plantings. District custodians will have charge of the machines along with other presently district owned equipment.

E. F. Shugart was re-elected district supervisor in Zone 4 last week. His term will be for five years.

Victor Arrington, the district's top conservation farmer for 1956, is harvesting seed from sixty acres of irrigated Sorghum Alnum. He estimates his yield will be about 800 lbs. seed per acre. The stalk will be baled for hay according to Arrington. The crop

Complications**  
By Loyd Womack, Jr.

After the ball game Friday night some of the gang assembled around a TV set to catch some of the football scores from the surrounding territory. Before the high school scores were given, the announcer told of President Eisenhower attending a football game that same night and of him jumping to his feet on a 69 yard pass play.

One of the gang said, "I wonder if the people behind the told him to sit down so they could see?"

This sarcastic question was brought on by the following incident.

About 30 members of the Class of 1953 assembled in a reserved section at Jones Stadium after having a very successful reunion just prior to the game. We were all elated and proud that we could be together again and that we had won first place in the float contest.

We were so enthused over the game that we forgot about the people behind us as we were intent on cheering the Bulldogs on to victory over Abernathy.

We kept jumping up and down and people behind us complained about not being able to see—and we don't blame them.

For this action the Class would like to apologize, because we're sorry that we kept anyone from seeing the game. We would have gladly moved but it was a little hard to shuffle 30 class members around a packed stadium so we had to stay there if we wanted to sit together.

Of course, many times during the game we forgot and jumped up when the Bulldogs started for a touchdown and again the people behind us couldn't see. We are sorry that we blocked their vision.

But—  
We are not sorry for the fact that we stood up and cheered for the Bulldogs. We are not sorry that we showed a lot of enthusiasm and spirit over the game. We wanted our team to win and the more noise and hullabaloo we made, the better we liked it.

We realize that we are young and full of pep and energy and we're glad we are. We're glad that we still have the strength and energy to jump up and down. We're glad that we feel strongly enough for our team to stand up on the kick-off—which is customary—and other things to show that we're rooting for them.

Who knows, when we get big and all grown up and have our \$250.00 in the bank, we will probably be a little more reserved too. We'll probably be like a lot of people around Spur and will feel too old and rundown to jump and yell for the Bulldogs. We'll probably think it's silly and not necessary like a lot of you think.

Until that time, which is still a long time off, we'll be standing up and hollaring long and loud for our team and if we get in your way just hit us on the head with a popcorn box and we'll move with no hard feelings—unless we can't. If we can't, that's just tough for you.

One of the great things about football is that it provides the means for one to whoop and holler and blow off steam. It gives one a chance to forget his worries and join in with fellow supporters in a robust atmosphere to root for the team.

Why don't you try it—it might make you feel young again.

Here is a fishing tip for National Fisherman's Week, which begins on Father's Day: at the end of a day fishing, don't dump your live bait into the water.

This advice is passed along from the Sports Fishing Institute of Washington, D.C., by smoothie Virginia Woods, who already has selected her Father's Day gift for a smooth shaver—a fisherman's kit.

Ginny urges anglers to empty minnow buckets on the shore instead of into the lake. Small fish used for live bait, such as carp and chub, multiply rapidly and can soon overrun a lake and crowd out the game fish like bass and trout.

The Sports Fishing Institute says that fishermen who keep their bait minnows out of the lake are making one of the best possible investments in their own future fishing.

**Proposed Constitutional Amendment Would Increase Aid To Aged, Blind and Needy Children**  
On November 5, 1957, three proposed constitutional amendments will be submitted for approval to the voters of Texas. One of these, House Joint Resolution No. 2, would provide increased payments

from State funds to needy aged persons (over 65), needy blind, and needy children (under 16). Total authorized State expenditures for these purposes would be increased from \$42 million to \$47 million per year.

The maximum payment out of State Funds to each needy and aged person could be as much as \$25 per month, a \$5 increase over the present \$20 limit. But State payments could not rise above \$21 per month unless matched by Federal funds.

There is no individual limit on amounts paid to needy blind or needy children under our present constitutional provisions or under the proposed amendments.

Under present laws, the maximum monthly payment of old age assistance to any individual in which the Federal government will share the costs with the State is \$60. The immediate effect of increasing the State's per person limit would be to provide this full \$60 amount, instead of the \$38 limit now in effect.

According to figures published by the Texas Industrial Conference, for the fiscal year 1956, these three programs cost the State \$41,996,045, while the total State and Federal costs for Texas was \$130,669,700.

Under the proposed amendment, as under present laws, no payments may be made to needy

aged or needy blind persons while an inmate of any state supported institution.

An additional requirement is that such persons must have actually resided in Texas for at least 5 of the 9 years immediately preceding the filing of an application for assistance. And they must have resided in Texas for 1 year preceding the application.

A needy child over 1 year old must have resided in the state continuously for 1 year preceding application. Or if the child is less than a year old, its mother must have continuously resided in Texas for 1 year preceding the application for assistance.

Friday, October 18, at noon, your new dial telephone will be placed in service. At that time, men will make the final connections at the central office, putting the dial switches in action, and Spur's new dial system will come to life.

1. Look up the number in the new dial directory. All numbers will be changed.
2. Wait for the hum (dial tone) before you dial.
3. Dial, according to instructions in the front of your new DIAL directory.
4. Be sure to dial the TWO letters and FIVE figures of the listed telephone numbers.

Until noon, Friday, continue to give your calls to the operator. After that date, dial all calls.

## CHANGE TO SHAMROCK 10W-30 MOTOR OIL NOW AND PROTECT THE LIFE OF YOUR CAR'S ENGINE AND BATTERY

The development of Shamrock 10W-30 Motor Oil is based on the fact that the typical passenger car engine operates most of its useful life in the temperature zone between the cold start and normal operating temperatures. All oils thicken as temperature decreases. The difference between Shamrock 10W-30 and conventional oil is that it thickens less at low temperature. The effect on your car's performance is important. When you change to Shamrock 10W-30, the improvements you'll notice immediately are: (1) that even on the coldest mornings the engine will turn over quickly and easily, and (2) a marked increase in gasoline mileage. These advantages are the most obvious, but not necessarily the most important. Frictional wear in the engine takes place at a very high rate during the first few strokes when starting an engine with little or no lubricant on the cylinder walls. 10W-30 reduces this wear, slowing quickly... replenishing the oil film. At high temperatures a thicker lubricant does a better job of keeping metal surfaces apart. Accordingly, 10W-30 being thick at high temperatures gives your engine full protection at this end of the temperature range, too. With Shamrock 10W-30 in the crankcase you will: (1) extend the life of your car's engine, (2) extend the life of your battery, (3) increase gasoline mileage and (4) reduce the octane requirement. We don't claim miracles for it, but you probably will.

QUALITY YOU CAN MEASURE BY YOUR CAR'S PERFORMANCE
