Her only income was a \$200 per month social security check. Better still, the grocery bill, for which the house was sold to collect, was not even says she didn't even know she owed the money.

When we noticed this article some of the boys at the coffee shop that they hadn't heard the last of it. This is editorial copy if there ever was any.

Later this week we noticed ing in, and efforts are being made to determine how such an act could be perpretated without the widow being properly notified of the impending sale. This little incident touched off quite an investigation in Indiana, and mark my words you haven't heard the last of

Recently a service station attendant changed the oil in a car with 23,000 miles on the speedometer. He noticed that a lubrication job was also badly needed, so he politely suggested it to the driver. She replied, willingly enough, "Go ahead if you want to ... but I thought all that was done at the factory!"

Of course, this couldn't happen to you, but with cars getting more and more complicated every year, proper and frequent lubrication is more important than ever.

Phillips 66 Dealers specialize in lubrication. They have complete charts and specifications for all makes of cars, and what's more, they use them! Stop in next chance you get and watch how thorough Phillips 66 attendants are when they lubricate a car . . . it's a pleasant surprise for most motorists!
