**Tips on Taxes**  
LEGISLATIVE NEWS SERVICE OF THE TEXAS PRESS ASSOCIATION, AUSTIN

Austin.—As a tax measure of major interest, the sales tax which was the subject of a great deal of discussion during the early days of the session, has given way to other tax proposals. A suggestion, which at the present time is claiming more attention than any other single tax measure, is one which proposes a radical departure in raising revenue and controlling production of oil.

The proposal embodies a repeal of the gasoline tax and the gross production tax on oil as its major revenue features. By a sharply graduated tax on oil production, beginning, in some bills carrying the idea into effect, with one cent per barrel on production from wells with maximum daily output of five barrels and scaling up to much higher rates as the per well production increases. The top bracket calls for \$1 per barrel tax on production of wells in excess of 1000 barrels per day.

The bills on this subject carry into effect suggestions made by Ernest O. Thompson, member of the railroad commission, who claims that problems of both oil conservation and taxation would be solved by its adoption. The graduated tax on oil production, would automatically regulate oil production to the market demand, supporters of the bill claim, and at the same time provide an easy and equitable means of obtaining revenue. The bill is facing determined opposition, and the chief argument offered

**What Is**

**ATHLETE'S FOOT**

Over 30 Million Americans Now Have It—  
Is This Dreaded Disease Becoming a Plague?

Athlete's Foot is a fungus germ (finea) which appears on the feet in the form of a little yellow blister, causing severe irritation and itching—especially between the toes. This disease is very contagious and is spreading with alarming rapidity among all classes of people.  
The failure to successfully treat Athlete's Foot in the past has been due largely to the fact that these germs hibernate in the pores of the shoes. Salves and liquids applied only to the feet DO NOT PENETRATE THE PORES OF THE SHOES.  
Medical Science has recently de-

**Slain Sheriff**

Lee Sproul, sheriff of Jeff Davis County for 19 years, who was killed Friday near Ft. Davis, Texas, by one of three youthful tramps suspected of burglarizing the home of Sproul's brother. Two youths surrendered. The third was captured by a posse. "I thought he was a cow, which I wanted to kill for food," said J. T. Farmer, 19, who shot Sproul.

ed against it is that it will place Texas oil at a disadvantage by imposing a serious price differential. Hearings are being held, and the measure will doubtless undergo considerable modification. Opinion seems that while the proposal in its present form has little chance of adoption, there is a strong likelihood that the present state production tax on oil of two per cent of its sale price will be changed to a definite sum per barrel. This would stabilize state income from this source.

The House has passed a bill authorizing the creation of a special division in the comptroller's department to enforce collection of gasoline taxes, as well as providing more drastic penalties for evasion of these taxes. It is claimed that the state is losing from three to four million dollars per year in taxes from this source and at the same time subjecting legitimate dealers to unfair competition by gasoline "bootleggers." This is regarded as a highly important tax measure.

The comptroller at present has a field force of only thirty men. Until recently he had only 25 men. The personnel increase was made possible by reducing salaries and thus using the same appropriation to employ a larger number of field men. This force has the duty of enforcing collections of the following taxes: gasoline, gross receipts, inheritance and cigarette. Combined, they brought into the state treasury about forty million dollars last year.

The field men have many other duties, such as auditing records of county tax collectors and generally protecting the state's interests in tax matters. It is obvious that such a small force cannot adequately deal with the thousands of different persons, firms, corporations and county officials, throughout the

**Prairie Fire Takes 20 Sections Land**

Swath 10 Miles Long, 2 Miles Wide Swept Bare Near Ozona

A prairie fire which raged for more than five hours Thursday, Feb. 23, starting at the dump ground on the highway east of Ozona, swept nearly twenty sections of grass land bare and burned to death a number of sheep, cutting a swath approximately two miles wide and ten miles long in a north-easterly direction, it was reported. Several hundred volunteers fought to control the fire for a number of hours, with brooms, brush, wet sacks, and other implements. The blaze is thought to have started from trash being burned at the dump ground.

Light rains falling the following week are expected to bring out the grass and weeds over the burned area in a few more days, replacing the lost range before lambing starts.

Let The News print it!

state. Serious leaks in state revenue are inevitable. Comptroller Shepard estimates that at least five million dollars is lost annually in evasions of the gasoline tax and cigarette tax, besides considerable losses in inheritance taxes and losses in ad valorem taxes, because of inability of the field men to make regular and thorough audits. With these evasions stopped, Shepard believes the state would now be on a cash basis, even without any other needed reforms in fiscal affairs.

Senator Moore of Greenville has introduced a bill limiting benefits of the Confederate pension to those who are in actual need. There is a large deficit in this fund and the total claims are increasing, due to liberalizing provisions of the law. For example, payments increased from \$2,917,000 in 1930 to \$3,562,000 in 1932.

The House has passed a bill reducing the poll tax to \$1. The Senate is yet to act on the measure.

Proposals to reduce the gasoline tax below four cents per gallon were rejected by the House during the past week.

**NOTICE OF ELECTION**

To the Resident Property Taxpaying Voters of Sutton county, Texas:

Take Notice—that an election will be held on the 18th day of March, A. D. 1933, within said county of Sutton in obedience to an order of the Commissioners' Court of Sutton county duly made on the 13th day of February, A. D. 1933, which is as follows:

**THE STATE OF TEXAS**  
County of Sutton.

Whereas, the Commissioners' Court of Sutton county, on the 11th day of February, 1931, in pursuance to a petition by R. A. Halbert and eighty others, ordered that an election be held in Sutton county on the 28th day of March, 1931, to determine whether or not the bonds of Sutton county should be issued in the amount of \$175,000.00 for the purpose of construction, maintenance and operation of macadamized, gravel or paved roads and turnpikes, or in aid thereof, and whether or not a tax should be levied on all taxable property in Sutton county, subject to taxation, for the purpose of paying the interest on said bonds and provide a sinking fund for the redemption thereof at maturity the said order being recorded in Volume 3, page 6, of Minutes of Commissioners' Court, and,

Whereas, said election was held in pursuance to such order and the result thereof was in favor of the issuance of such bonds, as shown by order of Commissioners' Court of Sutton county, of date April 13, 1931, recorded in Volume 3, page 18, of Commissioners' Court Minutes, and,

Whereas, thereafter, by order dated May 16, 1931, recorded in Volume 3, page 19, et seq., of Minutes of Commissioners' Court of Sutton county, in pursuance of said election ordered that the bonds of said county, to be known as "Sutton County Road Bonds, Series 1931," be issued in the amount of \$175,000.00, to be numbered consecutively from 1 to 175, inclusive, in denominations of \$1000.00 each, the bonds to be dated May 15, 1931, become due and payable serially as follows: \$2000.00 on May 15, 1932, and \$2000.00 on May 15th of each year thereafter up to and including the year 1936 and \$4000.00 on May 15th of each year thereafter during

**KARL P. MEISTER**

the years 1937 to 1941, both inclusive, and \$5000.00 on May 15th, of each year thereafter during the years 1942 to 1946, both inclusive, and \$6000.00 on May 15th of each year thereafter during the years 1947 to 1951, both inclusive, and \$8000.00 on May 15th of each year thereafter during the years 1952 to 1956, both inclusive, and \$10,000.00 on May 15th of each year thereafter during the years 1957 to 1961, both inclusive, the said bonds to bear 5½ per cent per annum interest, the interest payable semi-annually; and,

Whereas, in pursuance to said order, the bonds of said county were issued and printed, as in said order specified, and bonds numbered 1 to 20, both inclusive, of said issue were sold and bonds numbered 3 to 76, both inclusive, of said issue were registered in the office of the Comptroller of the State of Texas; and,

Whereas, during the year 1932 the Highway Department of the State of Texas took over the entire construction, maintenance or operation of the highways, and ceased having or requiring the counties to

furnish any part of the funds for such road work, and the purpose for which said bonds were voted and issued became terminated, and no longer necessary; and,

Whereas, bonds Nos. 21 to 175, both inclusive, of said issue and series of bonds, numbered and maturing as hereinbefore set out, now remain unsold and remained unsold at the time of the passage of H. B. No. 55, Chapter 31, 3rd called session 42nd Legislature, approved and effective September 22, 1932; and,

Whereas, the Commissioners' Court of Sutton county, Texas, on this, the 13th day of February, A. D. 1933, being in regular session with all members present, acting upon its own motion as provided by law, having considered the matter and it appearing to the court that an election should be held to determine whether or not such road bonds Nos. 21 to 175, both inclusive, of said issue r series of said bonds shall be revoked or cancelled;

It is therefore considered and ordered by the court, acting upon its own motion, that an election be held in said Sutton county, State of Texas, on the 18th day March, A. D. 1933, which is not less than thirty days from the date of this order, at which election the following proposition shall be submitted to the resident qualified tax paying voters of said county for their action thereon:

Shall the Road Bonds of Sutton county, Texas, Nos. 21 to 175, both inclusive, for \$1000.00 each, known as "Sutton County Road Bonds Series 1931," issued by order of the Commissioners' Court of Sutton county, Texas, of date May 16, 1931, in pursuance to an election held March 28, A. D. 1931, said bonds maturing serially, \$2000.00 in 1939, \$4000.00 each year thereafter during the years 1940 and 1941, both inclusive, and \$5000.00 each year thereafter during the years 1942 to 1946, both inclusive, and \$6000.00 each year thereafter during the years 1947 to 1951, both inclusive, and \$8000.00 each year thereafter during the years 1952 to 1956, both inclusive, and \$10,000.00 each year thereafter during the years 1957 to 1961, both inclusive, and bearing interest at the rate of 5½ per centum per annum.

Notice of said election shall be given by publication in a newspaper in said county for three consecutive weeks before the date of said election, and in addition thereto there

shall be posted notices of said election at four public places in said Sutton county, Texas, one of which shall be at the courthouse door, for three weeks prior to said election.

Said election shall be held at the various election precincts in said county, and at the voting places in said election precincts, as follows, to-wit:

No. 1, at the courthouse in the town of Sonora; No. 2, at the Shurley ranch; No. 3 at the Cedar Hill school house; No. 4, at the Owensville school house; No. 5, at the Arthur Stuart ranch.

And the following named persons are hereby appointed judges of said election in the respective election precincts:

Precincts	Judges of Election
No. 1	O. L. Richardson
No. 2	J. M. Puckett
No. 3	D. Q. Adams
No. 4	E. D. Reiley
No. 5	A. T. Stuart

Said election shall be held under provisions of Acts 1932, 42nd Legislature, 3rd C. S. Chapter 31, and only qualified voters who are property taxpayers of said Sutton county, Texas, shall be allowed to vote, and all voters desiring to support the proposition shall have written or printed on their ballots the words:

"For the Revocation or Cancellation of Road Bonds."

And those opposed shall have written or printed on their ballots the words:

"Against the Revocation or Cancellation of Road Bonds."

The manner of holding said election and canvassing and making returns thereof shall be governed by the General Laws of this State.

The county clerk of said Sutton county shall forthwith issue a notice of said election stating in substance the contents of this election order and the time and place of said election, and said notice shall be published in a newspaper published in Sutton county for three (3) successive weeks prior to said election and in addition to such publication the county clerk of Sutton county shall post such notice, for three (3) weeks prior to said election, at four public places in said Sutton county, one of which shall be at the courthouse door.

Given under my hand and seal of office this the 17th day of February, A. D. 1933.

(Seal) J. D. LOWREY,  
County Clerk, Sutton Co. Texas.

**Your Power Supply**

As much electricity as you can use—or as little as you may require; at the place where you want it, at the time when you want it—reliable and continuous, always ready, instantly delivered.

These standards of electric service have resulted from years of building.

Large, efficient power plants—and widespread networks of transmission lines to serve groups of towns—have resulted in the ample, inexpensive power supply available evrywhere today.

The West Texas Utilities Company, with three major generating stations, nineteen auxiliary plants and over 2,500 miles of transmission lines, is providing this modern power supply to 125 progressive cities and towns in West Texas, the "Land of Opportunity."

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

**HEALTH NOTES**

**STATE OFFICER TELLS TREATMENT FOR MEASLES**

Austin, March 8.—Measles are quite prevalent throughout the state, according to reports reaching the Texas State Department of Health. Dr. John W. Brown, state health officer, has the following to say in regard to this disease:

"Many persons still insist that measles is nothing serious and that children should get it early and get it over with. However, measles is a very widespread, highly contagious disease and over one hundred children in Texas die of it each year. Children generally have active disease 7 to 14 days after contact with a person ill with measles. Children must be excluded from school for a period of 21 days from onset.

"One never knows at the beginning how serious the attack will be, so a physician should be called when measles is suspected. Most deaths from this disease occur in children under five years of age. If you have a baby or very young child, your first consideration must be to keep him out of houses where measles exists. Prevent him from

**HE BEAT THE GIRLS**

Kenneth Benson, high school senior in Winchester, Mass., entered the state cooking contest and carried off first honors from a field that included thirty-three girls.

playing with children who, you think, may have the disease.

"If your child shows signs of measles, running nose, sneezing, eyes red and watery, put him to bed at once. While waiting for the doctor see that the child is kept warm. The room should be well ventilated, but glare and draughts prevented. Give him a light diet of milk, soup and cereal. Keep him in bed until the doctor permits him to be up. When recovering from measles he is less able to withstand other diseases. The doctor should see the child two or three times a year following recovery to guard against bad after effects."

**Huling Attends Stock Shows**

J. M. Huling of Sonora last week attended county stock shows in Mason and Menard, as well as the Sonora show here Saturday. Sunday and Monday he was in San Angelo for the regional show there. Friday he will leave for a three or four-day stay at the Fort Worth show.

**Cattle Feeders See Increased Returns**

**Demonstration Methods Raise the Price Home Feed 30 Per Cent**

If all cattle feeders in Texas did as well last year as the 1516 men and boys who fed out 71,919 head by demonstration methods, they increased the sale price of their home-raised feed 30 per cent, and are likely to repeat the gains again this year, declare livestock specialists in the Extension Service at Texas A. & M. college. There are not as many cattle on feed this winter as last but there are practically as many on feed in co-operation with county farm demonstration agents as last year. This represents about half of all cattle being fed.

Cattle feeding today is not the speculative game it once was, but is a plan many farmers are using to sell their feed, specialists point out. Net profits from feeding have remained about the same for the last two years, demonstration records reveal, and extension service men do not expect them to vary greatly when the cattle are sold this spring. Demonstration cattle sold in the spring of 1931 returned an average of \$3.50 per head for labor and investment, and the crop sold in the spring of 1932 averaged \$4.50 per head in return on labor and investment. Expressing this return in terms of an increased price for home grown feed, about 30 per cent was added to the value of this feed each of these years by selling it through the cattle. The manure obtained in feeding operations is generally regarded as a fair offset for the labor.

One of the features of last year's feeding was the large increase in creep feeding of calves. Of the men and boys who fed cattle in co-operation with county agents, 18 per cent creep fed their calves, which represented 28 per cent of the calves fed by demonstration methods. Creep feeding is a new way of inducing quick and early growth in calves by providing young calves grain and cottonseed meal and hay in creeps inaccessible to their mothers. The calves learn to eat while nursing and grazing, and usually go into the feed lots outweighing other calves about 100 pounds. This added gain is produced at a very low cost. Creep fed calves also go on feed in the feed lot more quickly and make better after-goins.

Four-H club boys outstripped all others last season in net returns per calf, with average returns for labor and investment of \$20.27. This was possible through the premium prices so many obtained in auction rings at livestock shows.—The Cattleman.

**Livestock Value Is Lower Than Before**

**Department Agriculture Report Gives Relative Valuations**

Washington, March 9.—Livestock on farms of the country on January 1 this year was valued today by the department of agriculture at \$2,661,985,000, as compared with \$3,195,532,000 on January 1 a year ago, and \$4,453,902,000 on January 1, 1931.

Horses and colts numbered 12,163,000, or 96.2 per cent of the previous year, and were valued at \$658,864,000, or \$54.15 a head, as compared with \$674,611,000, or \$53.37 a head the previous year.

Mules and mule colts numbered 4,981,000, or 97.9 per cent of the previous year and were valued at \$300,391,000, or \$60.31 a head, as compared with \$308,617,000, or \$60.64 a head the previous year.

Cattle and calves numbered 65,129,000, or 103.9 per cent of the previous year, and were valued at \$1,297,828,000, or \$19.93 as compared with \$1,668,742,000, or \$26.63 a head the previous year.

Sheep and lambs numbered 51,630,000 or 96.8 per cent of the previous year, and were valued at \$149,544,000, or \$2.90 a head, as compared with \$181,051,000, or \$6.14 a head the previous year.

Cows and heifers numbered 25,136,000, or 102.7 per cent of the previous year, and were valued at \$732,749,000, or \$29.15 a head, as compared with \$968,247,000, or \$39.57 a head the previous year.

Heifers (included in cows and heifers) numbered 4,641,000, or 99.1 per cent of the previous year.

Mrs. Winnie Aldwell III Mrs. Winnie Aldwell, who has been spending the winter in San Angelo, suffered a sudden illness Monday and has been seriously sick thi week, although her condition is not regarded as being of immediate danger.

**Airplane Murder and Suicide After Fantastic Plot**

A wierd plan of five San Benito, Texas, boys to steal an airplane and fly to Yucatan, in southern Mexico, has resulted in the airplane murder of Lehman Nelson, flying instructor, and the suicide of Erin McCall. Confidence given a San Benito girl regarding the proposed Mexican junket by the boys resulted in quick solution of the mystery by Valley investigators. The blood-drenched plane is pictured above. At left is Nelson, the ill-fated instructor. Right is McCall, murderer and suicide. None of the boys was more than 21. McCall shot Nelson in the back of the head, and attempted to land. On finding that he had damaged the plane beyond repair, he shot himself, too.

**Demand Increases for Wild Horses**

**Wranglers Surprised at Recent Revival of Their Trade**

Rifle, Colo., March 7.—Wild horses, for many years vagabond rulers of the ranges of western Colorado, are feeling again the slithering lariat and the branding iron.

After almost a score of years they are being herded again into corrals and freight cars as an old western industry is revived.

Not since the early days of the World War has there been such demand for horses as there is today, wild horse dealers and wranglers

declared today. The roaming herds, descendants of Spanish horses of the days of the conquest, have been unmolested for many years and have increased greatly.

The wary old leaders who kept out weather eyes for water hole hazards and hiding cowboys are gone, but the new leaders are learning of the fence pole traps.

The new demand for horses has led to shipments to virtually every state, but the South and Middle West are the best markets. Almost any kind of horse and even the midget burro are in demand. Wild broncos, retired saddle horses, mules, but most of all the savage mustangs, are wanted.

Keeping up with the revived industry, carpenters are busy repair-

ing old traps and woodsmen are cutting new poles.

The horsemen deliver them wild or tame—preferably wild. Buyers who don't specify get carloads of raging horse flesh right off the range. For the benefit of the others, impromptu rodeos stir prairie dust into the air every day as the "hoss wranglers" ride them into shape for saddle use.

Horsemen here are not concerned with the causes of the sudden revival of their trade, but they "calculate" its because farmers can raise hay, but not gasoline.

Mr. and Mrs. Ed L. Mears of Menard returned last week to their home after a visit with their daughter, Mrs. Joseph Vander Stucken.

#### Mrs. A. P. Prater Is Hostess Thursday To Two-Bit Club

Mrs. A. P. Prater entertained at her home, Thursday afternoon of last week, with five tables of bridge for members and guests of the Two-Bit Club.

Members present were Mesdames Joe Hull, George D. Chalk, Hilton Turney, Ernest McClelland, Alton Hightower, and Marshall Huling; and the Misses Faye James, Annela Stites, Muriel Simmons, Zella Lee Thorp, Lydia Archer, Joanna Stokes, and Addah Myers.

Guests attending were Mesdames Tom White, Jack Earhart, R. A. Halbert, John Hamby, B. M. Halbert, jr., H. V. Stokes, and A. W. Awalt.

The hostess, assisted by her mother, Mrs. M. M. Stokes, served a most attractive plate carrying out a red and white color scheme appropriate to the date, Texas Independence Day. Red-tinted pears with whipped cream, star-shaped sandwiches, and clear punch with red ice cubes, served with accompaniments of cream cheese, potato chips, and roasted pecans, beautifully carried out the Texas colors and symbol.

Miss Harva Jones, who was visiting here from the University of Texas, at Austin, came in for the latter part of the afternoon.

High score winners were announced as Mrs. Chalk, for club, and Mesdames McClelland and Huling, for guest. Mrs. Huling cut high. Low score went to Mrs. Turney.

#### Queen of Clubs Is Entertained Sat. by Mrs. Joe B. Ross

Mrs. Joe Brown Ross entertained the Queen of Clubs at her home Saturday afternoon, with five tables of members and guests attending.

A St. Patrick's motif was carried out in bridge accessories and refreshments—the latter consisting of a salad course.

High score at bridge went to Miss Alice Karnes, for club, and Mrs. Virgil Powell, for guests. Mrs. J. A. Ward, jr. was holder of low club score.

Members present were Mesdames Sam Allison, Frank Bond, John Fields, John Hamby, Marshall Huling, L. L. Stuart, Joseph Vander Stucken, R. C. Vicars, Tom White, and Ward; and the Misses Karnes, Joanna Stokes, and Bonnie Glasscock.

Guests attending were Mesdames Ben Martin of Eagle Pass, A. G. Blanton, Gordon Stewart, Powell, Carl Morrow, Ben Cusenbary, and A. C. Elliott.

#### Highland Club Enjoys Program on Literature

Mrs. W. P. McConnell, jr. Leads Interesting Study; Miss Kinsey Hostess at Stewart's

The Highland Study Club greatly enjoyed the first of a series of three programs on literature Friday afternoon of last week at the ranch home of Mrs. G. F. Stewart, when Miss Miranda Kinsey was acting hostess and Mrs. McConnell conducted the study, giving a most informative paper entitled "A Survey of Texas Literature" which laid the foundation for the two programs scheduled to follow.

Miss Virginia Rogers had as her topic "John Lomax and John Sjoander," and Mrs. H. R. Bahan spoke on "Cowboy Ballads."

Miss Kinsey charmed the group with the clever arrangement of her review of "Ranch Verses," by William Lawrence Chittenden, illustrating each type with an example.

Members present responded to roll call according to their assignments for the year, giving respectively such answers as explanations of word derivation or pronunciation, flower lore, jokes, or whatever type of response is regularly expected of each individual. This manner of participation by all at each meeting creates much interest, it is said.

Miss Kinsey, assisted by Mrs. Stewart, served delicious refreshments of pie and whipped cream with coffee and dainty accompaniments.

The next meeting will be held at the Humble Station "B," Friday, March 17, with Mrs. McConnell as hostess and Miss Kinsey as leader. The subject for discussion will be "Fiction Writers."

Attending last week's meeting were the following: Mesdames S. S. Bundy, Hugh Rieck, Olin Ridenhauer, Stewart, Bahan, and McConnell, and the Misses Rogers, Isobel Guinn, and Qinsley.

Plans were discussed for next year's program during the afternoon.

#### MISS BABCOCK AMONG 13 HIGHEST AT C. I. A.

Special to The News.

Denton, March 6.—Miss Gertrude Babcock, daughter of Mr. and Mrs. O. G. Babcock of Sonora, is one of the 13 students in a student body of 1250 at the Texas State College for Women (C.I.A.) who made all "B's" during the first semester of 1932-33.

Miss Babcock's name has been placed on the Dean's special honor roll, according to Dean E. V. White. Miss Babcock is a senior at the college majoring in illustrating and painting. She is a member of the Alice Freeman Palmer Club, a literary organization for the promotion of interest in literature and the arts.

#### Young Woman's Missionary Is Just Organized

New Group Meets Monday Afternoon with 24 Charter Members; Officers Elected

The Young Woman's Missionary Society was organized at the Methodist church Monday afternoon, March 6, with 24 charter members, under direction of Mrs. Robert Rees.

Mrs. J. D. Westbrook was elected president of the new organization, with other officers as follows: Mrs. P. J. Taylor, vice-president, Mrs. Jack Earhart, recording secretary; Mrs. Russell Long, treasurer; Miss Joanna Stokes, assistant treasurer, Mrs. R. C. Vicars, corresponding secretary; Mrs. J. C. Morrow, superintendent of publicity; Mrs. H. V. Stokes, superintendent of study; Mrs. C. W. Trainer, superintendent of local work; Mrs. Marshall Huling, superintendent of supplies; Mrs. J. F. Hamby, "World Outlook" agent.

The group will meet each Monday in the basement of the church at 3 o'clock.

At the first meeting, the Rev. E. P. Neal, pastor of the church, spoke to the group on the potentialities of a young woman's missionary society. Short talks were made by Mrs. Rees and Mrs. George B. Hamilton, president of Woman's Missionary Society. A devotional period was conducted.

Refreshments were served following the meeting by Mesdames Westbrook and Taylor.

Mrs. Taylor is chairman of the program committee, and will plan next week's meeting, which is to consist largely of definitions of duties of officers.

#### INAUGURAL SINGER

Olga D'Allez, wife of Maj. Emer Leager, United States military attaché in Poland, Czechoslovakia and Rumania, who was selected to sing at the inaugural ball in Washington March 4. The lyric of one song was written expressly for her by former Queen Marie of Rumania.

#### Drama Meeting of Club Is Next Week

Original Plan of Night Meeting Abandoned for Afternoon

The Sonora Woman's Club's program on "The Drama," originally scheduled for next Thursday evening, will be given at the regular club hour, 3 o'clock, Thursday, it has been announced by the program committee. Members are requested to make this correction in their yearbooks.

Mrs. W. C. Warren will have as her subject for discussion, "The Theater of 1933," and Mrs. W. R. Nisbet will give a sketch of the life and works of Eugene O'Neill. Various circumstances beyond control of the committee necessitated changes in the program.

#### CHILD WELFARE STUDY CLUB MEETS TUESDAY

The Child Welfare Study Club met at the high school building Tuesday afternoon at 2:30 o'clock, preceding the regular monthly meeting of the Parent-Teacher Association, to which it is auxiliary.

Mrs. W. C. Warren had as her subject, "Playing for Health," and Mrs. Lois Landrum discussed "Investing in Sleep for Children."

The club will be in charge of the annual Summer Round-up of pre-school children for examination and medical care, sponsored by the P. T. A.

#### P. T. A. Enjoys Address by the Rev. Z. E. Parker

Third Grade Presents Charming Bird Sketches; Officers and Delegates Elected

"As goes the school, goes the church and the community," said the Rev. Z. E. Parker, pastor of the Sonora Baptist church, in a stirring address on "What the Community Owes the Child," before the Sonora Parent-Teacher Association at its regular monthly meeting Tuesday afternoon in the high school auditorium.

Choosing as his texts, Genesis 4:9 and Timothy I, 5:8, Mr. Parker stressed the debt owed by parents to the child, in three main respects: mental and physical training, spiritual training, and proper type of environment; closing with an appropriate allusion to the respective choices of homes by Abraham and Lot, and the subsequent outcome.

The meeting opened with an invocation by the Rev. Mr. Parker, followed by a series of bird talks and songs presented by children of the third grade, directed by Miss Ruth Tipton, with Miss Marie Watkins accompanying the songs.

Little Miss Doris McDaniel introduced this portion of the program with an explanation of what was to follow. Alyne Landrum described the appearance and various characteristics of Robin Red Breast, after which Doris Keene displayed pictures made by the students of the bird himself, in appropriate colors. Billy Sid Evans described the home of Mr. Robin Red Breast, after which Doris Meckel discussed habits of Mrs. Robin Red Breast. Harold Briscoe related the fondness of robins for cherries. The entire class then took the stage for the singing of three songs: "Robin," "Robin Red Breast," and "Cherries." An unusual amount of response to training was exhibited in the rendition of these numbers.

Mrs. W. L. Davis gave the message from the state president, after which she introduced Mr. Parker.

In the business session, minutes of the last meeting and of an executive board meeting, held just before the regular meeting Tuesday, were read by Mrs. R. S. Covey, secretary, and adopted. The association approved the action of the board in voting to repeat the summer health round-up this year, placing it in the hands of the child welfare study club, auxiliary to the general association; and also approved the taking of the annual scholastic census by the P. T. A.

Enumerators for this census, to be assisted generally by Supt. R. S. Covey, were appointed as follows: West Sonora, Mrs. Tom Driskell and Mrs. H. L. Taylor; portion of town between the draws, Mrs. J. W. Trainer and Mrs. E. E. Sawyer; South Sonora, Mrs. A. W. Awalt and Mrs. W. C. Warren; country, Mrs. W. C. Gilmore, R. S. Covey; Mexican section, Adolph Flores, and assistant as yet unnamed.

A state certificate was presented to the organization for completion of the summer round-up according to specifications last year.

Mrs. S. T. Gilmore formally presented to the school picture of the late S. M. N. Marrs, former state superintendent of public instruction; sent by Mrs. Marrs, through Mrs. Gilmore, as a token of the esteem felt for the Sonora schools by Mr. Marrs, who had had 100 portraits of himself made shortly before his death to be sent to schools in which he felt an especial interest, Sonora being particularly named as a recipient. The picture was received by Mr. Covey who stated that it would be framed and hung in the Sonora high school in memory of Mr. Marrs.

Mrs. Gilmore also presented a letter from Miss Violet Greenhill of the division of child welfare of the state, commending Sonora for the creation of a county health board.

Communications from Mrs. Thomas H. Head, president of the sixth district of Parent-Teacher associations, were read by Mrs. Covey and Mrs. George Baker, respectively, outlining plans for the district P. T. A. meet to be held in Ozona March 30 and 31, and April 1.

The association voted to authorize Mr. Covey to urge passage of any bills which have been recommended for passage in the legislature by the state president of the P. T. A., in cases where the opinion

#### PERSONALS

Mr. and Mrs. R. A. Halbert attended the stock show in San Angelo Monday and Tuesday.

Mr. and Mrs. E. C. Beam were in town from their ranch Wednesday.

Mr. and Mrs. Edmond Heinze spent the week in Miles visiting with their parents and relatives.

Mr. and Mrs. Roy Baker and their little daughter, Margaret Ruth, were visitors at the Ranch Experiment Station Monday.

Mr. and Mrs. Andrew Moore and little daughter, Martha Jo, returned Sunday afternoon from a visit of several days in Austin. Monday they attended the stock show in San Angelo.

#### 'The Medical World' Is Program Topic

Mesdames S. R. Hull, S. T. Gilmore and George Baker Speak

"The Medical World" was last Thursday's topic in the Sonora Woman's Club's contemporary events program for the year, with Mrs. S. R. Hull giving an intensely interesting paper on "The New Surgery," Mrs. S. T. Gilmore presenting vital facts concerning "Preventive Medicine," and Mrs. George Baker speaking on "Psychology versus Illness" for Mrs. L. W. Elliott, who was unable to be present.

Roll call was answered with the names of well-known physicians by the following members present: Mesdames W. L. Davis, R. S. Covey, W. R. Nisbet, P. J. Taylor, W. C. Warren, W. E. Caldwell, John Fields, Hull, Gilmore, and Baker; and the Misses Jamie Gardner, Dorothy Baker, and Nan Karnes.

#### CLUB IRIZ PLANS DANCE FOR TUESDAY, MARCH 21

Members of the Club Iriz plan to give a dance on Tuesday evening, March 21, at Valencia Hall.

Speeches by members of the club and other Mexican clubs are scheduled for 4 o'clock on the same afternoon, with dancing to begin at 7 o'clock, it is announced.

W. N. U. Meets Wednesday

The Woman's Missionary Union of the Baptist church met in regular session at the church Wednesday afternoon. Questions for the Bible program for next week were given out.

### Decoration for the White House

Forbes W. Morgan (left) of New York, uncle of President-Elect Roosevelt, standing beside the 84½-pound sail fish which he landed off Miami beach after a 35-minute struggle. The prize, which measures eight feet and is the largest caught this winter, is to be sent to the White House as a gift to the next President, after it has been mounted.

### Horse-Traders—

(Continued from page 4)

bain," we wanted to know.

"Yes, indeed," Tobe replied. "The old paint works I traded for was stone blind, had a bad case of the heaves and spavined in both hind legs."

"Do you think there was collusion between the man you traded with and the two men who diagnosed your horse?" asked the store bookkeeper in a tone slightly tinged with sarcasm.

**May Have Been "Coincidence"**  
"Of course, it may have been a mere coincidence but I'll have you figure it out and give me your opinion when you have plenty of time," Tobe answered, while fire flashed from his eyes. "But here is what happened while I was passing through the crowd a few hours after making the trade: I overheard one of those human pole cats say to the other that he would bet the rascal on my head had never grown over and was still soft."

"What did your wife say when she found out how you'd been cheated?" asked the shoe salesman. "None of your darn business," Tobe shot back at him as he left us to wait on a customer.

Like the Turk of classic lore, the coming of the flivver made the horse-trader fold his tent and silently steel away, never to return to his old haunts. That motor contraption, with its chugging, spluttering and foul smells did not appeal to Mr. Horse-trader as a medium of barter. It could not be coached and groomed and made to prance, cavort and stand on its hind legs by merely touching its sides with a pair of spurs.

However, it is a fortunate thing for this generation that we have no class of men who can manipulate old out-of-date cars as successfully as the professional horse-traders used to manipulate old run down horses, for if we did lots of us would be cajoled into trading late model automobiles for antiquated model A's.—Joe Sappington in the Rising Star Record.

### Called Away by Mother's Illness

Mrs. H. V. Stokes was called to Lampasas Friday by the illness of her mother, Mrs. H. B. Casbeer, who has been in poor health for some weeks, and who was to be taken to Temple for treatment last week-end. Mrs. Stokes left Saturday.

### How Doctors Treat Colds and Coughs

To break up a cold overnight and relieve the congestion that makes you cough, thousands of physicians are now recommending Calotabs, the nausealess calomel compound tablets that give you the effects of calomel and salts without the unpleasant effects of either.

One or two Calotabs at bedtime with a glass of sweet milk or water. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you wish, no danger.

Calotabs are sold in 10c and 35c packages at drug stores. (Adv.)

### Campfire Circle

#### RE-DEDICATION

**A Credo for Camp Fire Girls**  
I believe in the future;  
I believe, therefore, in the Today,  
and I try to make my life a joy to myself and a pleasure to those about me.

I realize the destiny in me.  
I try to find the beautiful in life,  
and where it is not, I create beauty.

I feel my responsibility as a citizen of a great nation; I feel my glory as one of the mothers of the new generation which with new eyes and with steadier steps will reach the high places that now are but a purple haze on the horizon.

I believe in the new womanhood which combines the beauty of the old womanhood with citizenship and social consciousness.

I know I am and hold within me the promise of the future.  
I realize my responsibility.  
I do not flinch nor falter.  
I am a Camp Fire Girl.

—R.W.

### WANTED: TWELVE MILLION JOBS

If an individual analysis could be made of the lives of a majority of the people who are out of employment it would, no doubt, be a revelation. Not in all cases, of course, because thousands of people in all professions who are well qualified are out of employment. In a majority of cases one would likely find that the individual failed to realize soon enough in life the importance of a practical training in some good vocation or profession.

For instance, look what radio is doing. Could our forefathers have had the opportunities that radio offers to prepare themselves, we feel sure they would have welcomed them with outstretched arms. This is the age of radio and it is the means of communication of the future. It is true that radio is yet a mere infant, and only a few people have any conception of what a giant it is to become. With its growth is coming a new order of things.

Never in the history of the world has the future held such opportunities for a real service for those who are well trained in radio. Unlike most of the professions, radio is not overcrowded. So far, it has attracted only young men into the profession, and this means more jobs with better pay for those who are qualified.

Every young man who is casting about for a suitable vocation would certainly do well to investigate the possibilities offered in radio. The South's foremost School of Radio is operated by the Tyler Commercial College and School of Business Administration at Tyler, Texas. An interesting booklet descriptive of this big school will be sent to anyone interested. Address the Tyler Commercial College and School of Business Administration, Tyler, Texas, and ask for Booklet "R-6."—Advertisement.

### Glass That Bends; Both Bullet and Stone Proof

Unbreakable glass is said to have been invented 2,000 years ago. An artist appeared before Tiberius with a glass cup which he dashed on the ground. It was not broken but merely dented like a piece of metal. Then he hammered the cup back into shape with a mallet. Tiberius asked if anybody else knew the secret, and when the inventor answered "No," had him beheaded lest this wonderful glass should depreciate the value of gold!

Now the secret which died with its discoverer so long ago has been again revealed in Germany, where glass has been produced with neither splinters nor breaks. To test it three adults used a long sheet of 9-50th of an inch thickness as a see-saw, and the glass is reported to have shown an elasticity similar to that of highly-flexible steel.

As a further test, a heavy steel ball was dropped from a height of 10 feet on the glass without leaving any impression.

Railway authorities and the motor-car trade are keenly interested in this glass, and it may be that the police will not be indifferent to it, as its general use for shop windows would tend to reduce, if not abolish, the "smash-and-grab" menace.—Tit-Bits.

### Good Pup, but Got in Bad: He Ruined Guest's Teeth

A New York family had a young dog of which it was very fond. He was a good puppy, except for the fact that he would on occasion chew things he was not supposed to masticate. His worst exhibition in this line happened at the family's country place on Long Island at a time when several guests were staying over the week-end. It was warm and some of the guests left their doors ajar. In the morning the dog was discovered by a member of the family chewing on something but apparently making little headway. Examination disclosed that it was an upper plate containing the "store teeth" of a rather sensitive guest, who wished it believed that his ivory smile was all his own. There was nothing to be done. Those teeth were beyond wearing. The family could only wait in horror for their guest to wake to toothless tragedy.—Detroit News.

### Marigold an Old Flower

The Tagetes marigolds are ordinarily of two kinds, the African and the French marigolds, which have been cultivated for several centuries. The French marigolds are smaller, spreading, free flowering, brown and yellow in color, and lasting all summer. The African are taller, long stemmed, large flowered and used considerably for cut-flower purposes. These colors are lemon and orange. Varieties of both kinds are visited by certain birds of the late season, and seem to furnish them with seeds as food. Most marigolds are grown from seed sown in the greenhouse and the seedlings transplanted to open ground from flats or boxes. No other annual gets such a uniform start, nor transplants from flats to the open ground so easily.

### Pumpkin-Headed Brides

"Your story about the innocent young bride who thought the grocer had cheated her because he sent her a hollow pumpkin, reminds me," writes W. B. C., "of that other young bride who had received from her husband's aunt in Maine a nice large pumpkin with the aunt's recipe for making old-fashioned pumpkin pie. 'It was lovely for her to send it, dear,' said the bride appreciatively, 'but I'm afraid I can't do anything with it.'  
"Why not?" asked her husband.  
"Why, the recipe reads: 'First, boil the pumpkin,' and you know I haven't a pot in the house that will hold that enormous thing!"—Boston Transcript.

### Rockefeller Foundation

The Rockefeller foundation was incorporated May 14, 1913, and originated in a trust fund established by John D. Rockefeller of \$100,000,000, which has been greatly added to since. Its object is to receive and manage funds for the purpose of promoting the well-being of mankind throughout the world. Some of the great achievements have been the establishment of medical research which greatly helped to ameliorate the sufferings of the soldiers in the World war, and the campaign for the extermination of hookworm, which is one of the most destructive parasites.

### Beetles Get There First

Most prominent among creative insects are the most "modern" of them in the sense that their forms and habits show most change in comparatively recent geologic times—the bee and their kin, and the butterflies and moths. These two specialized insect groups have shown more development since the beginning of the age of mammals than have most members of that most varied group of all insects, the beetles. Plant-dependent beetles had their structures and habits fixed when bees and butterflies were getting started on their modern evolutionary courses.

# STOP!

# LOOK

at Today's Prices

Then

# BUY!

THAT "PRICES ARE RISING" is a fact backed by by stock shortages all along the line from retailer to manufacturer. And there is a shortage of "supplies" in most homes as well. Operating on a limited budget people have used the old things until they simply can't be used any more.

If the things you and your family use are giving out, if your reserve supplies are running low, NOW is the time to stock-up . . . NOW before the RISING MARKET catches you napping and you are forced to pay far more for the things you simply must have.

And here is another tip: you'll find that the best way to obtain full advantage of today's prices is to watch carefully the ads that appear in The News. BUY NOW before rising prices take from your dollar its present value and use The News AS YOUR BUYING GUIDE.

### Sheep & Goat—

(Continued from page 1)

ered from 7 per cent to 2 1/4 per cent interest, with 1 1/4 per cent added for liquidating the loan, making the total annual rate 3 1/2 per cent, or one-half the present rate. Judge Elliott reported that the committee would likely go to Washington soon, now that the administration has been changed, to work in the interests of this and any other favorable legislation proposed. Cooperation of national livestock organizations has been sought by the two state associations.

Correspondence was read by E. B. Baggett, jr., secretary of the association, pertaining to restoration of the privilege of sale in transit with through rate privileges on stock shipment. At present if stock is sold in transit or on any market, then it becomes an entirely new shipment if it is shipped to another market. This regulation was adopted about one year ago by railroads as their interpretation of an Interstate Commerce ruling.

The ranch interests are backing Chas. A. Stewart, manager of the livestock traffic commission at Ft. Worth, in his contention that the I. C. C. ruling does not prescribe such a policy. He is seeking to have the roads restore the former privileges.

Dr. I. B. Boughton, veterinarian at the Ranch Experiment Station, told of work now being done at the station. Orders for soremouth vaccine total 1,108,000 at present, and big shipments are going out every day. Boughton emphasized the fact that a man who has had light or scattered trouble with the soremouth should not vaccinate. Vaccination will infest the range with scabs from the vaccination sore on the flank, and the spread of the disease to unvaccinated animals later will be increased. He said that unless a lot of trouble and loss has been experienced it would be better to go ahead without vaccination.

The resolutions committee reported at the afternoon session. The association adopted its findings. The Anderson bill in the state legislature, which would force the owners of streams and live water to give access to the water and leave gates open was condemned as an invasion of property rights. Approval was given the Parr bill, which would regulate the sale of stock remedies. In times past many spurious medicines have been sold.

Other resolutions thanked the Sonora Lions Club for its hospitality and expressed regret at the death of C. C. Belcher, Del Rio wool man and lawyer. Regret was also expressed of illness which prevented Judge James Cornell of San Angelo and W. E. Glascock of Sonora from attending the meeting.

Committee members present were Pres. T. A. Kincaid, E. B. Baggett, jr., Massie West, Arthur Hoover, Ozona; W. H. Reick and S. S. Bundy, Roosevelt; Roy Ridenhower and Jones Peril, Junction; J. T. Baker, Ft. Stockton; Jess Koy and J. A. Whitten, Eldorado; Robert Real, Kerrville; T. L. Drisdale, Juno; Frank Montague, Bandera; Arthur Henderson, Van Court; Charlie Miller, San Angelo; and L. W. Elliott, W. H. Dameron, Fred Earwood, W. R. Cusenbary and Tom Bond, Sonora.

### Baptist Church—

(Continued from page 1)

making and equipping the basement, for accomplishment of which the Woman's Missionary Union has already accumulated almost \$1000. The old church will be used until the basement is finished.

The standing building committee will consist of L. W. Elliott, chairman; Orion Brown, church treasurer, who will also act as committee treasurer; A. C. Elliott, W. D. Martin, Ben F. Meckel, and W. E. Wallace.

The committee which will represent the W. M. U. in building plans

WASHING and ironing at reasonable rates. Mary Hoskin, phone 200.

LOST—Wicker rocking chair, between Eldorado and Sonora, last Saturday. Finder please report to News office.

consists of Mesdames J. H. Brasher, J. A. Cauthorn, Hi Eastland, L. W. Elliott, and W. D. Martin.

This recent step toward progress on the part of the church climaxes a highly successful year's work, according to the Rev. Mr. Parker, who took the pastorate here April 28, 1932, since which time there have been 50 additions to the church membership, two of which were made last Sunday.

### Lions Club—

(Continued from page 1)

last Thursday night. W. E. Caldwell, J. D. Lowrey and George H. Neill were appointed a nominating committee to select candidates for the club's offices beginning July 1. The election is to be held this month.

President W. C. Gilmore appointed Geo. E. Smith, Geo. B. Hamilton and Tom Davis as a committee to assist ladies serving in putting up and taking down tables each week.

An essay contest for high school students on the subject: "If I Were a Lion What Would I Want My Lions Club to Do?" was announced.

R. S. Covey gave an interesting account of a recent trip to the national convention of the National Educational Association in Minneapolis.

Next week's program committee is E. P. Neal, Geo. H. Neill and W. R. Nisbet.

### Revival Meeting—

(Continued from page 1)

present for the Sunday morning service.

On Friday evening of last week the Rev. Mr. Nixon preached his last sermon of the two-week series. Expressions of appreciation of Mr. Nixon's work were spoken by the pastor, and by the Rev. Z. E. Parker, pastor of the Baptist church, who stressed the importance of continuing the good work already started. A rising demonstration of appreciation was given by young people lining the front seats of the congregation.

Following the services the "Comanches" and the "Apaches," competing sides in an Epworth League contest held during the meeting, enjoyed a bean and chicken banquet in the basement of the church, the winners eating chicken and the losers, beans.

The services were financed, throughout, by means of voluntary contributions. Mr. Nixon's services being offered without assurance of compensation.

### Warehouse—

(Continued from page 1)

Suggs' estimate was second lowest, it being approximately \$8,000. The low bid of J. D. Westbrook of San Angelo was not accepted. Suggs' firm built the Sonora high school a few years ago and is well known here.

Work would have been started the first of this week had not the bank holiday interfered.

The annex will increase the present 800,000-lb. capacity of the firm about 1,000,000 pounds, permitting

## LADY LUCK

### Is a Fickle Jade

PERHAPS you say "I've always been lucky—everything will be all right." But you must remember that luck has a habit of changing. Leaving the future to chance sometimes proves disastrous. Why not plan now regular and systematic saving, which this bank will be glad to help you work out. Then your future will be secure and rainy days will be something for someone else to worry about.

**First National Bank**  
Capital and Surplus \$225,000.00

the handling here of almost a full season's accumulation. It will make the local house one of the largest in the country.

The building will be 80x100 feet, connected with the present building by double doors on the north. It will have floors and walls of concrete, with a flat composition roof. It is hoped to have the structure ready for use during the latter part of the spring wool season.

Portable stacking equipment for use in both buildings is planned.

### Stock Show—

(Continued from page 1)

been done in former years, because of the bank holiday. Neither ranchmen nor business men could contribute anything but checks and these could not have been used in paying expenses of the trip to

other shows. The show was held in front of the W. E. Glascock residence in order that Mr. Glascock, suffering from injuries from a recent accident, might see the stock and the judging.

Other ranking, in addition to the first six, follow: seventh, Jack Turney; eighth, Edgar Glascock; ninth, V. J. Glascock; 10th, Vincent Roueche; 11th, V. J. Glascock; 12th, Alvis Johnson; 13th, Joseph Logan; 14th, Cleve Jones; 15th, Marvin Smith; 16th, Jack Turney; 17th, Jack Turney; 18th, Wilburn Glascock; 19th, Junior Schwiening; 20th, Sue Glascock.

A calf and ten lambs fed by Lem Eriel Johnson were not shown because of the owner's illness.

Miss Harva Jones has returned to Austin, where she is a student in the University of Texas, after a week-end visit with her parents, Mr. and Mrs. C. T. Jones.
