NO. 8

BUSINESS MEN'S LUNCHEON CLUB MET TUESDAY NOON; PERMANENT ORGANIZATION

Program Outlined for Extension of Trade Territory. To Promote Good Will Trips in This Section.

Some thirty Muleshoe business men met last Tuesday at noon at the McCarty Lunch Room at which time it was voted to make the Business Men's Luncheon Club a permanent organization.

All were enthusiastic over the prospects for the future development of country surrounding Muleshoe, and a program was outlined for the promotion of better trade relations in this territory. Scores of new settlers are coming in on the north and south of the city, and the merchants are offering goods of the best quality at attractive prices. Various forms of entertainment will be had for the weekends, this to be announced later.

E. R. Hart was elected chairman, and it was decided to have another meeting next Tuesday. A committee was appointed to make all necessary arrangements. A number of problems were discussed at the Tuesday meeting, among which were the Saturday tree shows and drawings. Ample funds are to be raised for the expense of any program which may be decided upon, and a membership fee is to be charged. The members to receive the benefit of all advertising which may be put on.

A committee was also appointed to work out plans and arrange for the appropriation of expense money and to make a report at the meeting next week. Members of this committee are: J. M. Mareh, A. V. McCarty, Jr., K. K. Smith, J. E. Aldridge and C. S. Holland.

The committee wishes to announce that every business in Muleshoe is wanted in the organization so that they may work together for the benefit of all. The possibilities are unlimited and the future will be only what we make it. Let every business man be present next Tuesday at noon and pledge his support to the advancement of his town and community.

WORKERS' MEETING PROGRAM

The following program has been arranged for the Workers' Meeting of West Plains Baptist Association, to be held April 15-16:

April 15th, 8:00 p. m.—Devotional Service.
8:30 p. m.—Sermon by J. W. Harter.

April 16th, 9:30 a. m.—Devotional—G. C. Hurckell.

10:00 a. m.—The People Called Baptist; Who Are They?—H. B. Strickland.

10:30 a. m.—What Distinguishes Them from Other Christians?—J. W. Saffie.

11:00 a. m.—The Duty of Church and Pastor—L. W. Williamson.

11:30 a. m.—Sermon—Rev. J. C. Sizemore, of Amarillo.

12:30 p. m.—Lunch.

1:30 p. m.—Board Meeting.

2:30 p. m.—W. M. U. led by Mrs. J. E. Smith.

Devotional—Mrs. H. B. Strickland.

Sunbeam Work—Mrs. Griffiths.

How to Enlist Our Women—Mrs. Covington.

Benefits of an Associational W. M. U.—Mrs. Barron.

3:30 p. m.—Our Relationship as Churches—C. F. Booth.

4:00 p. m.—Our Relationship as Pastors—J. E. Moore.

BREAKS WORLD RECORD

Eric Krenz of Stanford university, who has broken the world's record discus throw with a toss of 163 feet 3/4 inches. The throw was witnessed and checked by officials of the A. A. U. and P. A. A.

MARCH SHIPMENTS OF PRODUCE AMOUNT TO MORE THAN \$8,000.00

Produce shipped from Muleshoe during the month of March amounted to \$8,196.80. These shipments included all kinds of produce, which goes to show that Muleshoe territory is diversifying in its production and that the farmers of this section recognize Muleshoe as their shipping point. The Muleshoe territory covers a large area, and the local facilities for handling large quantities of farm products gives it an advantage that is appreciated by the farmers. Produce shipments are now on the increase, and it is estimated that they will average better than \$7,500.00 per month for the year.

ANOTHER MEETING OF FARMERS ANNOUNCED FOR THURSDAY NIGHT

A meeting of farmers of the Muleshoe community was held at the Court House last Friday night to discuss the question of planting truck in this community on a large scale. Mr. Deal, of Portales, N. M., representative of Newton & Wallace, produce buyers, was here to give what information was needed. No definite action was taken at the time but another meeting is to be held Thursday night.

The company is asking for the larger part of the acreage to be planted to tomatoes, and it is thought that a sufficient amount will be planted to induce the produce company to build a packing shed here.

There is no doubt but what this would be a great thing for Muleshoe and vicinity and everyone that is interested is asked to be at the meeting Thursday night.

VELVET BEANS BUILDING FARMS

Mr. Vernon—How a county agent demonstration in terracing and crop rotation converted a worn-out farm into fertile fields that are producing half a bale or more of cotton to the acre and 40 bushels of corn, is the story of C. F. Walls of Union community here. Several years ago Mr. Walls terraced this farm which had been in cultivation more than 50 years and from which most of the top soil had washed away. He then began to rotate cotton and corn with cowpeas and later to plant velvet beans between the corn rows. The success of this farmer in growing and turning under these legumes, together with other similar demonstrations, resulted in more than 100 Franklin County farmers planting velvet beans with their corn last year. It has been found that they must be planted very early in the season to be successful.

Local Markets

These prices are furnished by the local buyers, and are for your convenience.

Kafir	90c
Maize	95c
Corn, ear	55c bu.
Corn, shelled	75c to 77c

Hides	6c
Cayons, 8-lb. and up	25c
Cayons, under 8-lb.	18c

(Prices furnished by the Muleshoe Produce Co. subject to change without notice.)

ENGINEERS HERE LAST WEEK SURVEYING TOWN FOR SEWER SYSTEM

The engineering firm of Montgomery and Ward had men here this week surveying the town for the purpose of furnishing an estimate on the cost of a sewer system. It is necessary that the sewer system be laid in the town before the work of paving the streets can be started, and as soon as it is known what the cost on the system will be the improvement plan, recently approved by the citizens of Muleshoe will be taken up. It is understood that a utilities company is asking for a franchise for the sewer system.

FRENCH MILITARY HONORS FOR AMBASSADOR HERRICK

Paris—France will render military honors to the late Myron T. Herrick, American ambassador on Thursday, and then will send the body of the beloved American back to his native land aboard the newest and fastest French cruiser, the Tourville.

ALL QUALIFIED VOTERS MAY PARTICIPATE IN TRUSTEE ELECTION

In a recent issue of The Journal there appeared a ruling by the Attorney General of Texas effecting the election of county school trustees, which held that only the qualified voters in common school districts were qualified to vote in such elections. County Judge J. E. Adams has received a later ruling on the question, in response to a letter he wrote to the State Department of Education. The concluding paragraph of the later ruling of the Attorney General reads as follows:

"One of such trustees is to be voted upon and elected from the county at large by the qualified voters of ALL the school districts except such school districts as are known as MUNICIPAL independent school districts; that one trustee is to be elected from each commissioner's precinct by the voters residing in the respective commissioner's precincts and who reside in any district not a municipal independent school district."

In the letter Judge Adams received from the State Department of Education, a list of all the municipal independent school districts in the State is given. There is no such district in Bailey County, hence all qualified voters residing in the county will have a right to vote in the forthcoming county school trustee election.

EARLY 'EXTERMINATION' OF REBELS PREDICTED—CALLES

Mexico City—General Calles telegraphed President Portes Gif Tuesday afternoon that "the extermination of the traitors headed by Escobar, and others is at present merely a question of hours, although I fear that those chiefly responsible for this brutal uprising are personally safe, many thousands away from the battle."

STAMPS QUARTET TO SING AT YL NEXT TUESDAY NIGHT

We are informed that the famous Stamps Quartet will sing at YL on Tuesday night, April 9th. They were to have been there last Tuesday night, but we understand, but for some reason their engagement was postponed. Everyone who appreciates good singing should hear them next Tuesday night.

BANQUET AT LEGION HOME LAST FRIDAY AN ENJOYABLE AFFAIR

Legion men who were not present at the banquet last Friday evening were just like the men in the Army who went A. W. O. L. on pay day, they missed something good. The Auxiliary was in attendance, and a good number of business men were guests, these making some talks that were appreciated by the Legion. About seventy persons were in attendance, including out of town guests. The boys were disappointed in one part of the program, H. D. Woods and Judge J. A. Raley, Jr., of Lubbock, and Guy L. Gibbs of Plainville were to have been here, but failed to arrive. All were anxious to have these men but they were unavoidably detained. However, we had some excellent talks by Mr. Chas. Whitacre, Commander of the Lubbock Post of the American Legion and Mr. F. Lattimore of Lubbock, Star-Telegram representative. These men made a hit with the home folks and they are assured of a hearty welcome any time they may pass this way.

The dinner, which was arranged by Mrs. E. J. Vance, was exceptionally fine and everyone present wished to hasten the day when another such could be had. She was assisted by Miss Opal Morris and Miss Eula Neeley—these young ladies wearing the uniforms of the Army and Navy. Judge J. E. Aldridge as toastmaster, promoted a spirit of comradeship which made the affair a success.

Violin selections by Miss Virginia Egbert brought hearty applause, after which everyone stood and sang America, this ending one of the most enjoyable evenings ever spent at the Legion Home.

Wife Loses Her Ring, Hubby Finds It in Pie

Mill City, Ore.—L. G. Foster claims the distinction of having had one of the most valuable pieces of lemon pie in history. When he attacked a generous piece of the pie, Foster discovered an expensive diamond ring. He was jubilant until his wife exclaimed, "That's mine!" Mrs. Foster had removed the ring and placed it on a window ledge just above the table where she made the pie. When she finished her work, she searched for the ring, without success. Foster found it—with his teeth.

Panhandle-Plains Dairy Show Has Large Attendance

The Muleshoe delegation to the second annual Panhandle-Plains Dairy Show at Plainview Wednesday numbered more than a hundred of the citizens of the town and community. Several of our business men and a number of farmers represented Muleshoe on this occasion. About 40 cars made the trip.

It is very evident that dairying is on the increase in the Panhandle-Plains section of the Great West, and many of the farmers of this immediate vicinity are becoming more interested in this feature of the farm program.

The exhibits at the show comprised a wide variety of pure bred dairy cattle, as well as all kinds of dairy products. Also some grade cows, not in the pure bred class but good producers, were on exhibition.

An enormous crowd, representing every section of the Plains country, was present at the show on the day the local delegation attended the event. Wednesday, in fact, was probably the biggest day of the show. Some of the citizens of this community were present on other days, but the community proper was represented on Wednesday.

ONE MULESHOE FARMER SHIPPING WHOLE TRAIN LOAD OF FEED PRODUCTS

Mr. Will Beller, living on the Clois Green farm near Ladbudny, made a large shipment of Sudan seed from Muleshoe this week. The total amount was 300,000 pounds, representing a sum of about \$10,000. He also has about 27 cars of maize, kafir and corn yet to be shipped, which, altogether, will make a fairly good train load. Mr. Beller makes Muleshoe his shipping and trading point.

MOVEMENT TO ESTABLISH MUSEUM FOR TECH COLLEGE

Lubbock, Texas.—A meeting to sponsor a movement for a museum at Texas Technological College has just been held. The geology department of the college has already begun a collection of objects of interest in its own field, and it is the hope of the committee to create and sponsor similar action in every department and to help encourage donations of all kinds, but particularly all those whose origin is in the South Plains country.

A temporary organization was made with the following officers: Mr. R. A. Stuhalter, president; Miss Vivian Johnson, first vice-president; Dr. John C. Granberry, second vice-president; Mrs. Mary Dale Buckner, secretary-treasurer; Dr. M. A. Stainbrook, curator.

The plan is to promote collection of materials by schools and departments. Each department will have cases for its own collections placed in the science building with the objects already on exhibit by the geology department. The home economics school will center its attention on the collection of costumes and pottery, but will welcome other donations in its field.

A souvenir pine block taken from the White House in 1927, when it was being remodeled, has been sent to Professor R. A. Stuhalter. Mr. Stuhalter is very proud of the relic and will see that it has a prominent place in the proposed museum.

JOSEPH M. DIXON

Joseph M. Dixon of Montana, former United States senator and governor, has been named assistant secretary of the interior to succeed E. C. Finney, who has been transferred from that post to the office of solicitor.

MULESHOE BOY WINS HONORS IN LAMB COUNTY INTERSCHOLASTIC MEET

A communication was received by The Journal this week from Sudan, informing us of the honors won in the recent Interscholastic Track Meet in Lamb County by a Muleshoe boy. We are glad to publish the communication below:

"Rufus Galbraith, who is finishing his Senior year in our school, represented Sudan High School in the Lamb County Interscholastic Track Meet last week as an extemporaneous speaker. He spoke 'like a Philadelphia lawyer,' and has gained the place among the entire student body as their representative when a talk is to be made on any subject pertaining to the goodwill of Sudan High. "Although he has only been a student in our school for about three months, he has been chosen by his eighteen Senior classmates to be historian of his class in May, when the graduating class will end its year."

OFFICERS ELECTED BY BAILEYBORO P. T. A. LAST FRIDAY NIGHT

The Baileyboro School community met at the new school auditorium on March 22nd. After a very nice program by the primary class, we enjoyed a splendid talk by Mrs. John Dean of Sudan, in regard to the benefit and purpose of a Parent-Teachers Association in the community, and voted to organize the following Friday night.

On Friday night, March 29th, the Baileyboro school began the organization of the Parent-Teachers Association with 35 charter members, and voted to assess each member 25 cents for dues for the year, to affiliate with the State P. T. A. On account of much rain and more bad roads, our District Vice President and also Mrs. Dean were unable to attend, but their presence is requested on Thursday, April 4th, to complete the organization.

The officers of the new organization are:

Mrs. George Blackshear, President. Mrs. Clifford Wallace, Vice-President.

Mrs. J. L. Howard, Secretary. Mrs. Willis Lee, Treasurer.

Mrs. John Blackshear, Historian. A committee was appointed to solicit new members, and also a program committee was appointed.

After the first program in the new auditorium, the parents and teachers, realizing the need of a piano, started a move to secure one for the school. Superintendent A. L. Stringer headed the list with a \$5.00 donation. Within 15 or 20 minutes \$10.00 was raised as first payment, and Messrs. J. M. Bell and A. L. Stringer were chosen to purchase and install in the auditorium a Star piano, which we now enjoy.

Reporter

J. H. McDonald, of Comstock, Texas, was a Muleshoe visitor the first of the week.

WHERE IS TACK?

It is understood that Col. E. R. Tack, of the Amarillo News, is due in Muleshoe today. As we go to press the Colonel has not made his appearance and this office has been busy most of the morning answering inquiries about Tack.

The Colonel has become involved in an argument over the changing of the name of Muleshoe, which is getting hotter every day, he favoring the side opposed to the change. These people are worried for fear Tack has met with some of the so-called "highbrows" and has been induced to switch his support. However, it is hoped that this is not the case and we believe that the Colonel will be on hand when the show starts.

Prospects were never better in this immediate section of the Plains than now. Good rains have put the wheat in fine shape, grass is coming along on the ranges, new settlers are arriving almost every day and everyone is optimistic. A new organization known as the Business Men's Luncheon Club has been formed and these folks are going to work in real earnest for the advancement of Muleshoe and its trade territory. If there is a business man in town who is not a member of this Club, be sure and join at the next meeting, which is next Tuesday. Cooperation is what we need—get in the collar.

The first edition of the Clovis (N. M.) Evening News-Herald arrived at the exchange table Wednesday. This is Clovis' new daily which is being published by Mr. Mack Stanton, formerly of Kansas.

Mr. Stanton has shown his faith in Clovis by establishing this daily, which, judging by the first edition, is going to be one of the best in the Southwest.

Kindly Shoppers Had Consolated Mary Ellen

On a shopping expedition in the Christmas holidays, little Mary Ellen had a dollar with which to buy a present for dad. On the way downtown with her mother they met her aunt and little cousin. Arriving in a large department store, the children received permission to go to the toy department while some shopping in another part of the store was done by the elder folk.

After about an hour the mother and aunt saw a crowd collected at the basement stairs and found Mary Ellen in the center of the group in tears, with several of the women weeping copiously, she having thought she had lost her dollar.

Everything was lovely when mother explained she had her pocketbook and the present was then bought for dad.

The next day while on another shopping trip with her mother, Mary Ellen had 90 cents that her mother did not know she had.

"Where did you get that money, Mary Ellen?" asked her mother.

"You know yesterday, when I thought I had lost my dollar, those women made me take it,"—Indianapolis News.

Citizen Coolidge Takes a Walk

You couldn't exactly call this picture "Reamin' in th' Gloamin'" but Opey and Oel are enjoying a little stroll down Mainstreet Street. Reardon, leader of the pack, is the dog. Sorry you remember that—was it so fresh? You know.

Town Talk

Mrs. W. B. Hicks and Mrs. Nina Eirud were attending the annual Conference of the Women's Missionary Society at Plainview Wednesday.

Mr. Wiley, factory representative for the Chevrolet Motor Company, was in Muleshoe last Monday.

Judge Campbell was a Portales visitor Wednesday of this week.

H. A. Mason and C. M. Tate of near Haskell were business visitors in Muleshoe last week-end.

Red Bradbury of Jacksonville, Texas, prospecting in this section the first of the week. He was accompanied by his wife and son, and they expressed themselves as being highly pleased with the Muleshoe country.

Oliver Jones is at Mineral Wells, Texas, for the benefit of his health. Mr. Jones has been troubled with rheumatism and will probably be gone four or five weeks.

E. L. Gardner returned to Oklahoma last Saturday after spending several days here looking after business interests.

A. V. Weldon of Oklahoma was looking over this section of the country the first of the week with the intention of locating near Muleshoe.

Mr. D. C. Middleton and family of McKinzie, Tennessee, stopped over in Muleshoe last Tuesday while enroute to California. They stated that they had heard of Muleshoe quite often and had been planning to visit this country for some time.

H. A. Douglass was a business visitor in Clovis last week-end.

Born, to Mr. and Mrs. Geo. Johnson, a fine girl.

J. H. Sexton and Joe Dotson, carpenters, are here from St.anton, working with W. C. Gordon, contractor.

J. L. McDill and C. L. Lacy of Lubbock are registered at the Hotel Muleshoe. They are plasterers by trade and are working under a local contractor.

Mr. and Mrs. G. A. Dunn, who were in Muleshoe for some time last year, are stopping at the Hotel Muleshoe this week. They returned here from South Texas last week.

ERNE GROSS WINS

BATTLE WITH WILLIS
Ernie Gross, light-heavyweight champion of New Mexico, won his battle with Ray Willis last Tuesday night at the Clovis Amusement Auditorium. It was a battle from the first gong to the last, but Gross was never at any time in danger of losing his title.

Fight fans from here enjoying the fracas were the Hon. Pat R. Bobo, T. E. Arnold, James Ross, J. J. Lacy, K. K. Smith and Luther Ragsdale. Another art impinged Misses Opal Morris Marie Pickard, Mose Glasscock and Gladys Fuller. Also Mr. Chas. Whitacre.

Coincidence

Hempstead, N. Y.—"It's the first time I ever talked to a princess," remarked a policeman on examining the license of a young woman who had parked overtime. "And it's the first time I ever talked to a policeman," replied Mrs. W. B. Leeds (Princess Xenia of Russia). A \$10 fine is in the offing apparently.

HUNT FOR EARLY AMERICAN LIFE

Prehistoric Man May Have Lived in This Country.

Denver, Colo.—Scientists are digging into the earth in many sections of the western plains country, seeking more light on fairly well established contentions that prehistoric man existed in America millions of years ago.

The work being done contradicts to a great extent the common belief that the life of man in America did not approach the antiquity found in Europe. Harold J. Cook, honorary curator of paleontology at the Colorado museum of natural history, gave a synopsis of recent scientific achievements in this region when he addressed the Colorado-Wyoming academy of sciences at Denver university.

"During the Pleistocene age we have ample evidence that various races of hibern invaded America from Asia," he said. "In fact, Asia is now generally admitted to have been the center of development and dispersal of mammalian life throughout tertiary times. 'Now, with all these things in mind, is it not logical to believe that early man, developing under such conditions, could migrate into America quite as well as the game he hunted, at any time he could get there?'"

Following out this line of thought, Doctor Cook told of recent discoveries tending to substantiate the theory. At the town of Colorado, in southeastern Texas, were found skeletons of a new type of extinct, flat horned bison, and remains of two races of elephant, a large camel, various extinct horses and other typical Pleistocene mammals.

"In taking out an articulated skeleton of one of these flat horned bison," Cook said, "representatives of the Colorado museum found three arrow heads definitely associated in the matrix with it and under conditions that preclude the possibility of error. They were undoubtedly shot into that very buffalo."

At about the same time fossil remains of a large extinct bison were found near Poleson, N. M.

"The American museum, New York, was invited to participate in the work this last summer," said Cook, "and did so. Here, associated with the bison, has been found a number of an absolutely new type and of the finest grade of workmanship known in flaked stone.

"Fortunately, four of these were exposed undisturbed in position where found during the course of these excavations. There is no question of definite association here of these flint points with a race of extinct bison."

Island of Heligoland

Slowly Crumbling Away
Heligoland—This little German island, English North sea outpost until 1890, has lost 12,000 square meters swallowed up by mountainous waves when recent fierce gales caused havoc along the west European coast as far as Norway.

The damage done here and to the neighboring East Frisian island chain has led the Prussian survey department to appoint a commission to make a scientific study of the whole coastline to ascertain if there is any dangerous acceleration in the gradual subsidence of the German North sea shores.

It is known that the whole coast is sinking, but only at the rate of about ten inches in the last 100 years. Continuing investigations are expected to show whether the sinking process calls for extra precautions.

Documents Prove Origin of Vatican Art Works

London.—A small but valuable collection of manuscripts relating to work done by eminent Italian artists for the Vatican is to be found in Soho, the foreign restaurant quarter of London. They are the property of Barberi, the padrone of the Taverna Medicea.

So precious are these manuscripts that Barberi exhibits them rarely. They bear the signatures of such illustrious artists as Bramante, Donatello, Mantegna, Ghiberti and Pietro della Francesca. All were acquired by their owner in London during the World War.

The most important was written by Michelangelo in Italian. It is his agreement to erect the tomb of Pope Julius II in St. Peter's, and is dated 1513.

Bandit Returns Funds

Acapulco, Mexico.—J. Chabiron, a famous local rebel chief, has returned for himself a reputation for open honesty. He invariably returns money obtained from public offices in the towns he raids. He considers such money "borrowed" for the cause.

Old Trolley Cars as Resort Cottages

Benton Harbor, Mich.—J. J. Gachunas, proprietor of the labor resort, a romantic spot on the St. Joseph river six miles east of here, announces that he has purchased old interurban trolley cars and expects to convert them into summer cottages.

At least six of the huge interurbans have been in service twenty years on the run from Benton Harbor to Ben Olive, Indian Lake and Chicago.

From Pasturized Cows

"I do hope you keep your cows in a pasture," said Mrs. Newlywed as she spoke to the milkman.

"Yes, madam," replied the milkman. "of course we keep them in a pasture. 'I'm so glad,'" gushed Mrs. Newlywed. "I have been told that pasteurized milk is much the best."—Watchman-Examiner.

Mounting his bicycle after fracturing his skull in a fall, Henry Endon of Jackson, Miss., rode seven miles to a physician, and will recover.

NOTICE OF SALE

STATE OF TEXAS, COUNTY OF BAILEY.

NOTICE IS HEREBY GIVEN That by virtue of a certain Order of Sale issued out of the Honorable District Court of Bailey County, of the 2nd day of April, A. D. 1929, by J. L. Alsop, Clerk of said District Court of Bailey County, Texas, for the sum of one hundred sixty-six and 86-100 (\$166.86) Dollars and costs of suit, under a Judgment, in favor of Muleshoe National Farm Loan Association in a certain cause in said Court, No. 462 and styled Muleshoe National Farm Loan Association, a Corporation vs. Charles H. Long and wife, Elsie Mae Long and Emil Wellandt, placed in my hands for service, I, H. A. Douglass, as Sheriff of Bailey County, Texas, did on the 3rd day of April, A. D. 1929, levy on certain Real Estate, situated in Bailey County, Texas, described as of said Subdivision recorded in the Deed Records of Bailey County, Texas, in Vol. 3, Pages 350 and 353, save and except one acre of land heretofore conveyed by Emil Wellandt and wife to Bailey County Cemetery Association out of the Northwest corner of said tract, situated in Bailey County, Texas, and levied upon as the property of Charles H. Long and wife Elsie Mae Long and that on the first Tuesday in May, A. D. 1929, the same being the 7th day of said month at the Court House door of Bailey County, Texas, in the city of Muleshoe, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said order of Sale and said Judgment I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Charles H. Long and wife Elsie Mae Long.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County.

Witness my hand, this 3rd day of April, A. D. 1929.

H. A. DOUGLASS, Sheriff, Bailey County, Texas.

Ten Reasons why 300,000 careful buyers have chosen the New Chevrolet Six since January 1st

Ever since the date of its introduction, the new Chevrolet Six has swept triumphantly on to greater and greater heights of popularity. Value for value and price for price—buyers have compared it with other cars in the low-price field. And the result has been an overwhelming public preference—over 300,000 buyers since January 1st. And everywhere the enthusiasm is constantly increasing—for the new Chevrolet Six combines, as does no other car in the world, those ten great fundamental factors which careful buyers are now demanding in the cars they buy.

6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder valve-in-head motor, the new Chevrolet provides that smooth, quiet, flexible performance which is the distinguishing characteristic of the truly fine automobile. At every speed, the power is delivered easily, freely and without annoying vibration. You can ride and drive for hours without annoying rumble or noise fatigue—every mile a delight for both driver and passengers.

6-Cylinder Getaway

And in sheer brilliance of performance, as well as in smoothness and quietness of operation, the new Chevrolet Six is a revelation. An automatic acceleration pump results in remarkably fast acceleration whenever the accelerator is suddenly depressed. And a new high-compression, non-detonating cylinder head eliminates every trace of "lugging"—even when you have occasion to accelerate swiftly in high gear.

6-Cylinder Speed

Naturally, Chevrolet's powerful six-cylinder valve-in-head motor might be expected to provide speed in abundance. But even more important than the speed of the new Chevrolet Six is the smooth, quiet, restful comfort you experience at every point on the speedometer. You can open the throttle wide with a feeling of complete security—and you come to the end of a full day's drive entirely free from the weariness caused by engine noise and body rumble.

6-Cylinder Power

The great reserve power of the new Chevrolet Six is a constant delight. The steepest hills are taken with ease. Heavy roads are negotiated without the necessity for frequent gear-shifting. And even at the higher speeds, there is always that feeling of confidence which comes from the knowledge that additional power is at hand . . . instantly available for whatever need may arise.

Modern Safety Features

The new Chevrolet Six is equipped with every modern safety and convenience feature—typified by a full ball bearing steering mechanism, non-locking 4-wheel brakes with separate emergency brake, foot controlled adjustable two-beam headlights, automatic fuel pump, theft-proof Electrolock, electric motor temperature indicator, and Fisher VV windshield and adjustable driver's seat in all closed models. As a result, it is one of the easiest and safest cars in the world to handle.

Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would be considered exceptional in any automobile. But in the new Chevrolet it is nothing short of sensational—for here it is combined with operating economy of *better than 20 miles to the gallon of gasoline*. As a result, those who can afford to own *any* automobile can afford to own and operate a Chevrolet Six!

Exceptional Riding Comfort

Another vital factor that has influenced hundreds of thousands in their selection of the new Chevrolet Six is its exceptional riding comfort. Built on a wheelbase of 107 inches . . . offering the deep-cushioned luxury of bodies by Fisher . . . and with the entire upper structure cradled on four long semi-elliptic shock absorber springs—it travels the roughest highways with amazing comfort. And its balance on turns and curves is

equally exceptional—for the rigid frame and the long springs reduce sideway to the minimum.

Beautiful Fisher Bodies

The marvelous bodies on the Chevrolet Six reveal, as never before, the matchless artistry that has made the Fisher name renowned throughout the world for excellence in coachcraft. Longer, lower and roomier . . . finished in attractive, long-lasting colors . . . and upholstered in rich deep-tufted fabrics that give to the interiors an air of custom elegance—they introduce into the low-price field an entirely new measure of style and distinction.

Proved Dependability

Before the new Chevrolet Six was presented to the public, it had been tested for more than a million miles on the roads of the General Motors Proving Ground. Never did a new motor car go into the hands of its owners more thoroughly proved in every detail. And now, reports of its performance on the highways of the nation pay glowing tribute to its endurance and dependability.

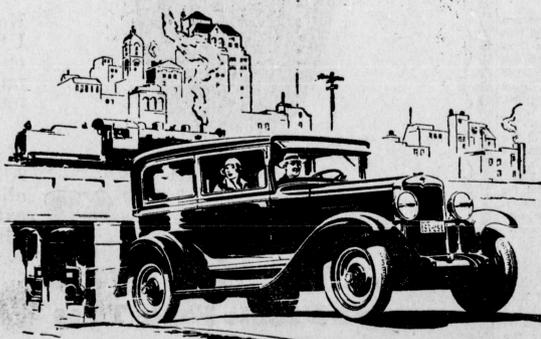

Amazingly Low Prices

Many people do not realize that this marvelous new six-cylinder Chevrolet is actually offered in the price range of the four. Compare total delivered prices as well as factory prices when determining automobile values. You will find Chevrolet delivered prices include the lowest handling and financing charges available.

PELLAGRA REDUCED BY DIET
Anderson—The reduction of pellagra cases from 51 to 31 in three years' time in his personal practice is credited by a local physician here to the effect of home demonstration work which emphasizes the importance of correct diet in eliminating this disease. Lean meat, milk, eggs, fresh fruit and vegetables, the women are shown, are essential parts of the daily menu.

What's Doing In West Texas

Spearman will be burning natural gas by August 1st. Six inch pipelines are to be laid to the town from the Stinnett field to supply the commodity. The price is to be reduced from 75 cents to 65 cents per 1000 cubic feet of gas.

Fert Stockton is experiencing a lively building boom. The new opera house when completed and furnished will represent an expenditure of \$75,000. Brick business houses costing \$20,000 are being built and plans for more are being made. Many substantial residences are going up.

Santa Anna, after completing a new school building and a modern city hall, has now started excavation preliminary to paving five blocks of the town's main streets. Plans are being considered for additional paving to be done upon the completion of these five blocks.

Although having an adequate water supply at the present time, Childress is preparing for the future by purchasing a tract of 280 acres of land at a price of \$16,000 to be used in drilling water wells. A dam may be built later to make a lake.

Contract has been let for the new Silverton High School building to cost approximately \$85,000.00. The building will be completed by September. It will be modern in every respect and will be built and equipped with the latest and most modern of conveniences and material.

Tulia will represent Swisher County at the second annual Panhandle-Plains Dairy Show in Plainview April 2 to 5 with three hundred citizens headed by the Tulia High School Band of thirty-two pieces. Eighty-six head of dairy cattle are being fitted for the show.

More than 500 car loads of maize, kafir and other sorghum grains have been shipped from Tahoka this season. One hundred cases are yet to be shipped. A car load of heads consists of about 20 tons, and bring about \$17.00 per ton.

Ten percent of the farmers in Dickens County took advantage of the poultry and dairy short course conducted by E. N. Holmgren and E. R. Eudaly at Spur, and are putting into practice the knowledge gained. Many farmers have taken up the idea of diversification in farming around Spur.

The outlook for dairying in Haskell County is better now than ever before, due to the various organizations in several towns boosting for creameries. Farmers in this section realize that the cow is hard to replace on the farm when it comes to an income the year around.

Forty head of dairy cattle will be taken from Lookney and Floyd county to the Panhandle-Plains Dairy Show. A Floyd County delegation, composed of farmers and business men of the county, are planning to attend the show in unison on Wednesday, April 23rd. The delegation will be led by the Floydada Band.

The South Plains District Convention of the West Texas Chamber of Commerce to be held in Tahoka April 24th will sponsor a "My Home Town" oratorical contest, at which all high school children under 21 years of age will be eligible. Secretary C. C. Williams of the Chamber of Commerce has mailed out rules and regulations.

Two well known West Texas women will be on the program of the Oil Belt District Convention of the West Texas Chamber of Commerce which will be held on April 18. They are Lexie Dean Robertson, poetess, of Rising Star, and Christine Carter, vocalist, of Breckenridge.

Some of the recent charities of the Moran Delphian Club have been the buying of a memorial window in the new Methodist Church for \$75.00. The club started the piano fund for the high school with a contribution of \$60.00. A window in the new Christian Church for \$75.00 was also purchased.

HERE FROM NEBRASKA
Mr. and Mrs. B. F. Tucker of Broken Bow, Nebraska, are spending a few weeks in this community, visiting relatives and looking over the country. They are pioneer residents of Broken Bow, where Mr. Tucker is engaged in the real estate business. He has several brothers and sisters around Muleshoe.

W. M. U. MEETING
W. M. U. met with Mrs. Strickland in Bible lesson, with Mrs. Shirley as leader. An unusually interesting program was enjoyed by all present. There were 12 members present. A short business session was entered into. Our society meets next Monday with Mrs. Walker in study course.
Reporter

Mr. John Ritchie, Insurance man of Lubbock, was a business visitor in Muleshoe last Friday.

WHITEWASH FOR POULTRY VERMIN

College Station.—The increase more rapidly in warm weather and it is advisable to thoroughly clean out poultry houses now to kill lice, mites and blue bugs. A whitewash painted or sprayed on the interior of the house is recommended by E. N. Holmgren, poultry specialist in the Extension Service. Such a mixture may be made by slacking one bushel of quick lime in 12 gallons of hot water, dissolving two pounds of common salt and one pound sulphate of zinc in two gallons of boiling water, pouring this into the first mixture, adding two gallons of skim milk and mixing thoroughly.

WEALTH AND HEALTH FROM GARDENS

Hugleville.—From two acres of garden, Mrs. J. J. Kloppen, a home demonstration club woman in Walker County, canned 1628 containers and sold \$410 worth of products last year. Mrs. Frederic, also of this county, put up 1704 cans of garden stuff and sold products amounting to \$210. Nearly 90,000 cans of fruits and vegetables were preserved by home demonstration methods in the county last season. Miss Pearl Ellison, county home agent reports, and the value of these products came to \$35,194.40. "The value of gardening and canning is hard to overestimate," she says, "for an ample supply of healthful foods enables women to serve their families balanced meals that go far toward eliminating doctor bills."

Skeddadle!
Rufe Johnson's pet bound disappeared. Rufe put the following ad in the paper:

"Lost or run away—one liver-colored bird dog called Jim. Will show signs of hydrophobia in about three days. The dog came home the following day.—Herald of Gospel Liberty."

Tech Receives Souvenir Pine Block From White House

Lubbock, Texas.—A rectangular block of pine wood which was taken from timbers in the roof of the White House while the structure was being remodeled in 1927 has just been received by Professor R. A. Studhalter of Texas Technological College. For 113 years these longest pine beams held the roof of one wing of the executive mansion safely over the heads of 28 presidents of the United States.

The wood was originally built into the mansion during the administration of President James Madison in 1816. Year before last when the supporting timbers of the roof were taken down the wood was found to be in perfect state of preservation, although no treatment had been given to lengthen the life of the wood.

In 1814, after the Battle of Bladensburg, the British soldiers, with their flaming torches, came thronging up Pennsylvania Avenue and burned the White House, the fire destroying the interior and seriously damaging some of the masonry. President Madison and his wife, Dolley, made a dramatic departure from the executive mansion fleeing up Pennsylvania Avenue just ahead of the British.

Reconstruction was begun shortly after the fire, the new roof being held in place by sturdy wood trusses which were taken out in 1927 and found to be in an almost perfect state of preservation, and are an interesting example of early workmanship. The timbers, all hand sawn, are held together not only by hand mortising, but with dovetail and heavy wrought iron straps pounded out by hand.

Incidentally it is of interest that President Ulysses S. Grant, who occupied the White House in 1873, and to whom the condition of the roof was first reported, was the grandfather of Lt. Col. U. S. Grant, III, under whose direction, as Chief of the Office of Public Buildings and Parks in Washington, the recent remodeling and renovation has been carried out.

Master of Them ALL!

Like the teeth of a powerful bulldog, those big, deep, sharp blocks of tough rubber cut in and engage on slippery roads, bringing your car to a sure, safe stop.
Note how these blocks or "teeth" are placed IN THE CENTER of the tread.
Note how the "teeth" also extend UP THE SIDES—to prevent skids on turns—to take hold in ruts—to pull out when tires sink deeply into mud, sand, or slush.
More than 20 years have proved the All-Weather the safest and best of all non-skid treads. Now comes this extra-deep-cut extra tough, super-edition of that same famous tread to master the very worst driving conditions.

PAINTS WASHINGTON FIRST MILLIONAIRE

Lawyer Describes Business Genius of General.

New York.—The first American millionaire was George Washington, according to Eugene E. Prussing, Los Angeles lawyer, formerly of Chicago, who has just completed thirteen years of research into Washington's career as a business man. Summing up the results of his study in the American Magazine, Mr. Prussing says:

"It is customary to think of Washington as soldier and statesman. He was also a man of business, successful farmer, builder of transportation, engineer, pioneer and promoter. He was a man of broad commercial vision and rare business ability. He spent one-fourth of his life in public service and yet left behind him a record of business achievement and a fortune that entitles him to be called our first millionaire. He started life with but a few cents of his own. When he died the land and other investments that he directed to be sold were worth, by his own conservative estimate in his will, \$330,000, and this did not include some of the most valuable portions of his estate.

"To many of us Washington is a mythical figure, his deeds and fables like that of the self-righteous little boy and the hypothetical cherry tree. As a matter of fact, he was a very different sort of person. He was a man who would have been perfectly at ease in a group of modern big business men around the directors' table. And he enjoyed fox hunting and dancing, as the modern man enjoys golf.

Was Good Business Man.
"In his ideals, his sense for giving value as well as getting it, his insistence on exact statistics, his zeal for big constructive undertakings, for striking into virgin fields, seizing opportunities, opening avenues to development, his instinctive siding-up of the possibilities of profit in a deal—in all these matters and others like them, his attitude was strikingly similar to that of the best of modern business. He did not definitely formulate any rules for moneymaking, but he followed certain basic principles throughout his career."
Washington's apprenticeship in business started soon after his father's death, which occurred when the boy was twelve.

"From that time," Mr. Prussing says, "he was pretty much on his own, and was always faced with the problem of making a living.

Washington's first job was as an apprentice surveyor with G. W. Fairfax. At seventeen he became official surveyor of Calpepper county, and began his life work as an engineer. He had the thrifty idea of not taking all his pay in cash. He knew where the best acres were located, and, believing that land prices would rise, he began putting his extra pay into good land.

Made \$15,000 a Year.
His returns on farming later averaged as high as \$15,000 a year. He ran a gristmill at Mount Vernon. He conducted fisheries on ten miles of waterfront, shipping his product to England and the West Indies. He maintained a ferry across the Potomac, which paid a handsome profit. He devoted six years as managing director of a company which was engaged in drainage and lumbering operations in Virginia, and he was president of the Potomac River company, a navigation and development enterprise which eventually evolved into the Chesapeake & Ohio and the Baltimore & Ohio railroad systems. He purchased 55,000 acres of land in Pennsylvania, Ohio and West Virginia.

"In business he was careful about exacting value and giving it. He reformed his contracts and promises according to the spirit as well as the letter, even when doing so involved heavy losses.

"Washington ran his business affairs by exact knowledge. He always knew where he stood. He kept complete records of receipts and expenditures and of all business transactions.

Mississippi Boy of 10

Wears Size 25 Shoes
Racine, Wis.—A pair of size 25 shoes has just been made for a ten-year-old schoolboy by a Racine shoe manufacturing company. The purchaser is Robert W. Weston, an elementary school student of Alton, Miss. The boy is 6 feet 10 inches tall and weighs 250 pounds.

Five square feet of leather were used to manufacture the structure. Physicians say that if the boy continues to grow he will be nine feet tall when he reaches maturity.

World's Biggest Tooth

Is 50,000 Years Old
Boston, Mass.—The largest tooth in the world, measuring 11 feet 2 inches in length and weighing more than 300 pounds, has just arrived at the Harvard Dental school museum. It came from the jaw of a mastodon, and scientists estimate it is more than 50,000 years old. The tooth was found in a hole in the bank of the Foxon river, a tributary of the Yukon in Alaska.

HOME MADE FURNITURE POLISH DEvised

Donna.—An economical method for making a very satisfactory lemon oil furniture polish has been worked out by Mrs. George W. Vaughan, a home demonstration club woman who lives here. "I take olive or sweet oil and put in as many lemon peels as it will cover," she says, "using fresh peels with lots of oil in it. I let this stand for perhaps a week and then strain out the peel and the oil is ready for use. For new furniture the oil should be applied and then allowed to stand for about an hour before polishing, but for old furniture it is best to let it stand for several hours. This oil gives an excellent polish which doesn't come off in a day or two but is good for several weeks with just a little rubbing and polishing."

Subs for Dad
New York.—Seymour Aguld, ten years old, appeared in Traffic court for his sick father. So good was his plea that sentence was suspended.

Of Course, If You Don't Care—IT REALLY DOESN'T MATTER

IF—its a matter of indifference when guests cast appraising glances around your home and note critically the style of long ago.

IF—you don't care what they think of your taste and appreciation of how a home should be dressed.

IF—its all the same to you that the children would rather go to the movies or entertain themselves and their friends elsewhere because the home is drab and "tacky."

THEN—of course, it doesn't matter at all that the furniture styles are changing and that perhaps your home is hopelessly out of date and not so comfortable and modern as it should be.

BUT MOST FOLKS DON'T FEEL THAT WAY

CUTWORMS EASILY CONTROLLED

College Station—Cutworms do not seem to be generally prevalent this season, but where they are damaging gardens and crops by cutting off the plants, poisoned bran mash will very effectively control them. This is made up of 20 pounds bran, one pound Paris Green, two quarts cane molasses, and six lemons, using both juice and rind which has been previously run through a meat grinder. The ingredients should be mixed with enough water to make a mash that is thoroughly moist but not sloppy. R. R. Reppert, entomologist in the Extension Service, suggests that hill crops may be protected by placing one-fourth of a teaspoonful at the base of each hill and row crops by sprinkling the mash along in a thin line at the base of the plants.

CITATION BY PUBLICATION

THE STATE OF TEXAS, TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY—

GREETING:

You are hereby commanded, That you summon, by making publication of this Citation in some newspaper published in the County of Bailey, if there be a newspaper published therein, but if not, in the nearest county wherein a newspaper is published, once each week for four consecutive weeks previous to the return day hereof, R. L. Brown and D. P. Brown, whose residences are alleged to be unknown, to be and appear before the Honorable District Court at the next regular term thereof, to be held in the County of Bailey, at the Court House thereof, in Muleshoe, Texas, on the 6th day of May, 1929, then and there to answer a petition filed in said Court, on the 6th day of May, 1929, in a suit numbered on the docket of said Court No. 490, wherein E. R. Hart is Plaintiff and R. L. Brown and D. P. Brown, the Continental Gin Co., Fairbanks, Morse & Co., Inc. and Whaley Lumber Co. are Defendants. The nature of Plaintiff's demand being as follows, to-wit:

A suit in trespass to try title to recover the title and possession of and quiet Plaintiff's title to certain lands situated in Bailey County, Texas, parts of sections Nos. 39 and 40, in block Y, of the W. D. and F. W. Johnson's sub-division No. 2, in Farmers and Bailey Counties, Texas, and the tract of land herein used for being wholly in Bailey County, Texas, and particularly described as, Beginning at an iron stake marked S. E. 40, same being the Southeast corner of said Section 40, Block Y, thence North with the East line of said Section 40, and the West line of Section 53, 508.5 feet, a wooden stake; thence North 54 degrees and 32' West 211.6 feet; thence South 33 degrees and 57' West 95.2 feet to a wooden stake on the North line of the Pecos & Santa Fe Railway right of way; thence with the North line of said right of way South 54 degrees and 52' East 248 feet to a railroad monument on the North line of Section 39 in said Block Y, thence East with the North line of said Section 39 and the South line of said Section 40, 174.4 feet to a railroad monument on the North line of said right of way; thence with the North line of said railway right of way South 54 degrees and 52' East 170.3 feet to the East line of Section No. 39, of said Block Y; thence North with said East line of said Section 39, 98.5 feet to the place of beginning and containing 5.01 acres of land. Plaintiff alleging that he has title to said land under a judgment of the District Court of Bailey County, Texas, in Cause No. 61, entered December 29, 1924, against R. L. Brown fore-

closing a lien upon said land as against the defendant, R. L. Brown and the Continental Gin Co., and against the Farmers and Merchants National Bank of Farmersville, Texas, and a judgment rendered by said Court in cause No. 186 on the 9th day of June, 1926, in favor of the plaintiff against R. L. Brown establishing that the first mentioned judgment was a valid and subsisting and live judgment and the lien as foreclosed in said judgment was valid and subsisting—

and ordering the Clerk to issue an Order of Sale; an Order of Sale issued on said judgment, the return of the Sheriff indorsed thereon showing that he sold said property to the plaintiff herein and a deed made by H. A. Douglass, as Sheriff under authority of said judgment, and Order of Sale conveying said property to the plaintiff and under a judgment rendered in said District Court in cause No. 248 on the 31st day of December, 1927, in favor of the plaintiff, E. R. Hart, against defendant, R. L. Brown, for the title and possession of said land and plaintiff alleging that R. L. Brown is the common source of title and that plaintiff's title to said land is superior to any claim, title or lien the defendants or either of them, may have against, upon or to said land and the plaintiff by a second count in said petition setting up a further cause of action wherein it is alleged in substance that on the 29th day of December, 1924, he recovered a judgment in the District Court of Bailey County, Texas, in cause No. 61, on the docket of said Court against R. L. Brown for \$1730.00 with interest thereon from that date at the rate of 10 percent per annum and costs of suit and foreclosing a materialman's lien as it existed on the 20th day of July, 1923, and a deed of trust lien as it existed on the 19th day of July, 1923, against and upon the above described land in favor of the plaintiff and against the defendant, R. L. Brown, the Continental Gin Co., and also against the Farmers and Merchants National Bank of Farmersville, Texas; that the said liens were valid and subsisting liens on and after the days as stated in said judgment; that on the 9th day of June, 1926, plaintiff recovered a judgment in said District Court in cause No. 186 against R. L. Brown decreeing that the above described judgment was a valid and subsisting lien on and against the land as foreclosed in said judgment was a valid one and ordering the Clerk of said District Court to issue an Order of Sale, to sell the above described land and further finding and decreeing that there was due and owing on the first mentioned judgment the sum of \$1289.68 and for costs of suit and that the cost of suit in said suits Nos. 61 and 186 aggregated the sum of \$134.37; that said amount remains wholly unpaid and the defendant, R. L. Brown, fails and refuses to pay same; that the plaintiff has a valid and subsisting lien against and upon said land securing him in the payment of his liens against and upon said land as against all defendants, and for general relief.

HEREIN FAIL NOT, and have you before said Court, on the said first day of the next term thereof, this day of the next term thereof, to show, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Muleshoe, Texas, this 2nd day of April, A. D. 1929.

J. L. ALSUP, Clerk, District Court, Bailey County, Texas. By Lola Lipscomb, Deputy.

VOLUME 7. MULESHOE, BAILEY COUNTY, TEXAS. FRIDAY, APRIL 5TH, 1929. NO. 3

BUSINESS MEN'S LUNCHEON CLUB MET TUESDAY NOON; PERMANENT ORGANIZATION

Program Outlined for Extension of Trade Territory. To Promote Good Will Trips in This Section.

Some thirty Muleshoe business men met last Tuesday at noon at the McCarty Lunch Room at which time it was voted to make the Business Men's Luncheon Club, a permanent organization.

All were enthusiastic over the prospects for the future development of country surrounding Muleshoe, and a program was outlined for the promotion of better trade relations in this territory. Scores of new settlers are coming in on the north and south of the city, and the merchants are offering goods of the best quality at attractive prices. Various forms of entertainment will be had for the weekends, this to be announced later.

E. R. Hart was elected chairman, and it was decided to have another meeting next Tuesday. A committee was appointed to make all necessary arrangements. A number of problems were discussed at the Tuesday meeting, among which were the Saturday free shows and drawings. Ample funds are to be raised for the expense of any program which may be decided upon, and a membership fee is to be charged, the members to receive the benefit of all advertising which may be put on.

A committee was also appointed to work out plans and arrange for the appropriation of expense money and to make a report at the meeting next week. Members of this committee are: J. M. March, A. V. McCarty, Jr., K. K. Smith, J. E. Aldridge and C. S. Holland.

The committee wishes to announce that every business in Muleshoe is wanted in the organization so that we may work together for the benefit of all. The possibilities are unlimited and the future will be only what we make it. Let every business man be present next Tuesday at noon and pledge his support to the advancement of his town and community.

WORKERS' MEETING PROGRAM

The following program has been arranged for the Workers' Meeting of West Plains Baptist Association, to be held April 15-16:

- April 15th, 8:00 p. m.—Devotional Service.
- 8:30 p. m.—Sermon by J. W. Harcor.
- April 16th, 9:30 a. m.—Devotional—G. C. Hurkell.
- 10:00 a. m.—The People Called Baptist: Who Are They?—H. B. Strickland.
- 10:30 a. m.—What Distinguishes Them from Other Christians?—J. W. Saffell.
- 11:00 a. m.—The Duty of Church and Pastor—L. W. Williamson.
- 11:30 a. m.—Sermon—Rev. J. C. Sizemore, of Amarillo.
- 12:30 p. m.—Lunch.
- 1:30 p. m.—Board Meeting.
- 2:30 p. m.—W. M. U., led by Mrs. J. E. Smith.
- Devotional—Mrs. H. B. Strickland.
- Sunbeam Work—Mrs. Griffiths.
- How to Enlist Our Women—Mrs. Covington.
- Benefits of an Associational W. M. U.—Mrs. Barron.
- 3:30 p. m.—Our Relationship as Churches—C. F. Booth.
- 4:00 p. m.—Our Relationship as Pastors—J. E. Moore.

BREAKS WORLD RECORD

Eric Krens, of Stanford University, who has broken the world's record discus throw with a toss of 162 feet 5 1/2 inches. The throw was witnessed and checked by officials of the A. A. U. and P. A. A.

MARCH SHIPMENTS OF PRODUCE AMOUNT TO MORE THAN \$8,000.00

Produce shipped from Muleshoe during the month of March amounted to \$8,196.80. These shipments included all kinds of produce, which goes to show that Muleshoe territory is developing in its production and that the farmers of this section recognize Muleshoe as their shipping point. The Muleshoe territory covers a large area, and the local facilities for handling large quantities of farm products gives it an advantage that is appreciated by the farmers. Produce shipments are now on the increase, and it is estimated that they will average better than \$7,500.00 per month for the year.

ANOTHER MEETING OF FARMERS ANNOUNCED FOR THURSDAY NIGHT

A meeting of farmers of the Muleshoe community was held at the Court House last Friday night to discuss the question of planting truck in this community on a large scale. Mr. Deal, of Fortales, N. M., representative of Newton & Wallace, produce buyers, was here to give what information was needed. No definite action was taken at the time, but another meeting is to be held Thursday night.

The company is asking for the larger part of the acreage to be planted to tomatoes, and it is thought that a sufficient amount will be planted to induce the produce company to buy and pack—shed here.

There is no doubt but that this would be a great thing for Muleshoe and vicinity and everyone that is interested is asked to be at the meeting Thursday night.

VELVET BEANS BUILDING FARMS

Mt. Vernon.—How a county agent demonstration in terracing and crop rotation converted a worn-out farm into fertile fields that are producing half a bale or more of cotton to the acre and 40 bushels of corn, is the story of C. F. Walls of Union community here. Several years ago Mr. Walls terraced this farm which had been in cultivation more than 50 years and from which most of the top soil had washed away. He then began to rotate cotton and corn with cowpeas and later to plant velvet beans between the corn rows. The success of this farmer in growing and turning under these legumes, together with other similar demonstrations, resulted in more than 100 Franklin County farmers planting velvet beans with their corn last year. It has been found that they must be planted very early in the season to be successful.

ENGINEERS HERE LAST WEEK SURVEYING TOWN FOR SEWER SYSTEM

The engineering firm of Montgomery and Ward had men here this week surveying the town for the purpose of furnishing an estimate on the cost of a sewer system. It is necessary that the sewer system be laid in the town before the work of paving the streets can be started, and as soon as it is known what the cost on the system will be the improvement plan, recently approved by the citizens of Muleshoe will be taken up. It is understood that a utilities company is seeking for a franchise for the sewer system.

FRENCH MILITARY HONORS FOR AMBASSADOR HERRICK

Paris.—France will render military honors to the late Myron T. Herrick, American ambassador, on Thursday, and then will send the body of the beloved American back to his native land aboard the newest and fastest French cruiser, the Tourville.

ALL QUALIFIED VOTERS MAY PARTICIPATE IN TRUSTEE ELECTION

In a recent issue of The Journal there appeared a ruling by the Attorney General of Texas effecting the election of county school trustees, which held that only the qualified voters in common school districts were qualified to vote in such elections. County Judge J. E. Adams has received a later ruling on the question, in response to a letter he wrote to the State Department of Education. The concluding paragraph of the later ruling of the Attorney General reads as follows:

"One of such trustees is to be voted upon and elected from the county at large by the qualified voters of ALL the school districts except such school districts as are known as MUNICIPAL independent school districts; that one trustee is to be elected from each commissioner's precinct by the voters residing in the respective commissioner's precincts and who reside in a district not a municipal independent school district."

In the letter Judge Adams received from the State Department of Education, a list of all the municipal independent school districts in the State is given. There is no such district in Bailey County, hence all qualified voters residing in the county will have a right to vote in the forthcoming county school trustee election.

EARLY 'EXTERMINATION OF REBELS PREDICTED—CALLES

Mexico City.—General Calles, telegraphed President Porfirio Gil Tuesday afternoon that "the extermination of the traitors headed by Escobar, and others is at present merely a question of hours, although I fear that those chiefly responsible for this brutal uprising are personally safe, many kilometers away from the battle."

STAMPS QUARTET TO SING AT YL NEXT TUESDAY NIGHT

We are informed that the famous Stamps Quartet will sing at YL on Tuesday night, April 9th. They were to have been there last Tuesday night, we understand, but for some reason their engagement was postponed. Everyone who appreciates good singing should hear them next Tuesday night.

BANQUET AT LEGION HOME LAST FRIDAY AN ENJOYABLE AFFAIR

Legion men who were not present at the banquet last Friday evening were just like the men in the Army who want a W. O. L. on pay day, they missed something good. The Auxiliary was in attendance, and a good number of business men were guests, these making some talks that were appreciated by the Legion.

OFFICERS ELECTED BY BAILEYBORO P. T. A. LAST FRIDAY NIGHT

The Baileyboro School community met at the new school auditorium on March 22nd. After a very nice program by the primary class, we enjoyed a splendid talk by Mrs. John Dean of Sudan, in regard to the benefit and purpose of a Parent-Teachers Association in the community, and voted to organize the following Friday night.

On Friday night, March 29th, the Baileyboro school began the organization of the Parent-Teachers Association with 35 charter members, and voted to assess each member 25 cents for dues for the year, to affiliate with the State P. T. A. On account of much rain and more bad roads, our District Vice President and also Mrs. Dean were unable to attend, but their presence is requested on Thursday, April 4th, to complete the organization.

Wife Loses Her Ring, Hubby Finds It in Pie

Milly City, Ore.—L. G. Foster claims the distinction of having had one of the most valuable pieces of lemon pie in history. When he attacked a generous piece of the pie, Foster discovered an expensive diamond ring. He was jubilant until his wife exclaimed, "That's mine!" Mrs. Foster had removed the ring and placed it successively under just above the table where she made the pie. When she finished her work, she searched for the ring, without success. Foster found it in the pie.

MULESHOE BOY WINS HONORS IN LAMB COUNTY INTERSCHOLASTIC MEET

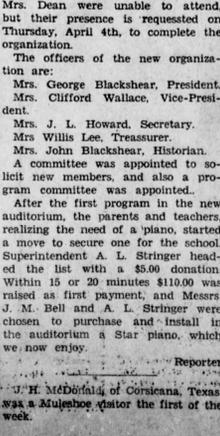

A communication was received by The Journal this week from Sudan, informing us of the honors won in the recent Interscholastic Track Meet in Lamb County by a Muleshoe boy. We are glad to publish the communication below:

"Rufus Galbraith, who is finishing his Senior year in our school, represented Sudan High School in the Lamb County Interscholastic Track Meet last week as an extemporaneous speaker. He spoke like a Philadelphia lawyer, and has gained the place among the entire student body as their representative when a talk is to be made on any subject pertaining to the goodwill of Sudan High School. Although he has only been a student in our school for about three months, he has been chosen by his eighteen Senior classmates to be historian of his class in May, when the graduating class will end its year."

MOVEMENT TO ESTABLISH MUSEUM FOR TECH COLLEGE

Lubbock, Texas.—A meeting to sponsor a movement for a museum at Texas Technological College has just been held. The geology department of the college has already begun a collection of objects of interest in its own field, and it is the hope of the committee to create and sponsor similar action in every department and to help encourage donations of all kinds, but particularly all those whose origin is in the South Plains country.

JOSEPH M. DIXON

Joseph M. Dixon of Montana, former United States senator and governor, has been named assistant secretary of the Interior to succeed E. C. Flinn, who has been transferred from that post to the office of solicitor.

Panhandle-Plains Dairy Show Has Large Attendance

The Muleshoe delegation to the second annual Panhandle-Plains Dairy Show at Plainview Wednesday numbered more than a hundred of the citizens of the town and community. Several of our business men, a number of farmers represented Muleshoe on this occasion. About 40 cars made the trip.

It is very evident that dairying is on the increase in the Panhandle-Plains section of the Great West, and many of the farmers of this immediate vicinity are becoming more interested in this feature of the farm program.

The exhibits at the show comprised a wide variety of pure bred dairy cattle, as well as all kinds of dairy products. Also some grade cows, not in the pure bred class but good producers, were on exhibition. An enormous crowd, representing every section of the Plains country, was present at the show on the day the local delegation attended the event Wednesday. In fact, was probably the biggest day of the show. Some of the citizens of this community attended on other days, but the county proper was represented on Wednesday.

ONE MULESHOE FARMER SHIPPING WHOLE TRAIN LOAD OF FEED PRODUCTS

Mr. Will Beller, living on the Oils Green farm near Lazbuddy, made a large shipment of sudan seed from Muleshoe this week. The total amount was 300,000 pounds, representing a sum of about \$10,000. He also has about 27 cars of maize, kaffir and corn yet to be shipped, which, altogether, will make a fairly good train load. Mr. Beller makes Muleshoe his shipping and trading point.

LUCKY TRIP

Lubbock, Texas.—A meeting to sponsor a movement for a museum at Texas Technological College has just been held. The geology department of the college has already begun a collection of objects of interest in its own field, and it is the hope of the committee to create and sponsor similar action in every department and to help encourage donations of all kinds, but particularly all those whose origin is in the South Plains country.

A temporary organization was made with the following officers: Mr. E. A. Studhalter, president; Miss Vivian Johnson, first vice-president; Dr. John C. Granberry, second vice-president; Mrs. Mary Dale Buckner, secretary-treasurer; Dr. M. A. Stainbrook, curator.

The plan is to promote collection of materials by schools and departments. Each department will have cases for its own collections placed in the science building with the objects already on exhibit by the geology department. The home economics school will center its attention on the collection of costumes and pottery, but will welcome other donations in its field. A souvenir pin block taken from the White House in 1927, when it was being remodeled, has been sent to Professor R. A. Studhalter. Mr. Studhalter is very proud of the relic and will see that it has a prominent place in the proposed museum.

The Muleshoe Journal C. S. HOLLAND, Editor

Entered as second-class matter at the Muleshoe Postoffice under the act of Congress, March 3, 1879.

Resolutions, Cards of Thanks, etc., are charged for at the rate of 10 cents per line.

Advertising rates on application.

SUBSCRIPTION RATES In Bailey County, 1 Year \$1.50 Outside of County \$2.00

WHERE IS TACK?

It is understood that Col. E. R. Tack, of the Amarillo News, is due in Muleshoe today. As we go to press the Colonel has not made his appearance and this office has been busy most of the morning answering inquiries about Tack.

The Colonel has become involved in an argument over the changing of the name of Muleshoe, which is getting hotter every day, he favoring the side opposed to the change. These people are worried for fear Tack has met with some of the so-called "highbrows" and has been induced to switch his support. However, it is hoped that this is not the case and we believe that the Colonel will be on hand when the show starts.

Prospects were never better in this immediate section of the Plains than now. Good rains have put the wheat in fine shape, grass is coming along in the ranges, new settlers are arriving almost every day and everyone is optimistic. A new organization known as the Business Men's Luncheon Club has been formed and these folks are going to work in real earnest for the advancement of Muleshoe and its trade territory. If there is a business man in town who is not a member of this Club, be sure and join at the next meeting, which is next Tuesday. Cooperation is what we need in the collar.

The first edition of the Clovis, (N. M.) Evening News-Herald arrived at the exchange table Wednesday. This is Clovis' new daily which is being published by Mr. Mack Stanton, formerly of Kansas. Mr. Stanton has shown his faith in Clovis by establishing this daily, which, judging by the first edition, is going to be one of the best in the Southwest.

Kindly Shoppers Had

Consoled Mary Ellen On a shopping expedition in the Christmas holidays, little Mary Ellen had a dollar with which to buy a present for dad. On the way downtown with her mother they met her aunt and little cousin. Arriving in a large department store, the children received permission to go to the toy department while some shopping in another part of the store was done by the elder folk.

After about an hour the mother and aunt saw a crowd collected at the basement stairs and found Mary Ellen in the center of the group in tears, with several of the women weeping copiously, she having thought she had lost her dollar.

Everything was lovely when mother explained she had her pocketbook and the present was then bought for dad. The next day while on another shopping trip with her mother, Mary Ellen had 50 cents that her mother did not know she had.

"Where did you get that money, Mary Ellen?" asked her mother. "You know yesterday, when I thought I had lost my dollar, those women made me take it."—Indianapolis News.

Citizen Coolidge Takes a Walk

You couldn't exactly call this picture "Roughin It In Montana," but Grace and Cal are enjoying a little stroll down Mainstreet Street, near Campden, Mass., on which they live now. Surely you remember Cal—used to be President, you know.

Town Talk

Mrs. W. B. Hicks and Mrs. Nina Elrod were attending the annual Conference of the Women's Missionary Society at Plainview Wednesday.

Mr. Wiley, factory representative for the Chevrolet Motor Company, was in Muleshoe last Monday.

Judge Campbell was a Portales visitor Wednesday of this week.

H. A. Mason and C. M. Tate of near Haskell were business visitors in Muleshoe last week-end.

eed Bradbury of Jacksonville, Texas, prospecting in this section the first of the week. He was accompanied by his wife and son, and they expressed themselves as being highly pleased with the Muleshoe country.

Oliver Jones is at Mineral Wells, Texas, for the benefit of his health. Mr. Jones has been troubled with rheumatism and will probably be gone four or five weeks.

E. L. Gardner returned to Oklahoma last Saturday after spending several days here looking after business interests.

A. V. Weldon of Oklahoma was looking over this section of the country the first of the week with the intention of locating near Muleshoe.

Mr. D. C. Middleton and family of McKimzie, Tennessee, stopped over in Muleshoe last Tuesday while enroute to California. They stated that they had heard of Muleshoe quite often and had been planning to visit this country for some time.

H. A. Douglass was a business visitor in Clovis last week-end.

Born to Mr. and Mrs. Geo. Johnson, a fine girl.

J. H. Sexton and Joe Dotson, carpenters, are here from Slaton, working with W. C. Gordon, contractor.

J. L. McMill and C. L. Lacy of Lubbock are registered at the Hotel Muleshoe. They are plasterers by trade and are working under a local contractor.

Mr. and Mrs. G. A. Dunn, who were in Muleshoe for some time last year, are stopping at the Hotel Muleshoe this week. They returned here from South Texas last week.

ERNE GROSS WINS

BATTLE WITH WILLIS Ernie Gross, light heavy-weight champion of New Mexico, won his battle with Ray Willis last Tuesday night at the Clovis Amusement Auditorium. It was a battle from the first going to the last, but Gross was never at any time in danger of losing his title.

Fight fans from here enjoying the fracas were the Hon. Pat R. Bobo, T. E. Arnold, James Ross, J. J. Lacy, K. K. Smith and Luther Ragsdale. Another art impounded Misses Ora! Morris Marie Pickard, Mose Glasscock and Gladys Fuller. Also Mr. Chas. Whitacre.

Coincidence

Hempstead, N. Y.—It's the first time I ever talked to a princess," remarked a policeman on examining the license of a young woman who had parked overtime. "And it's the first time I ever talked to a policeman," replied Mrs. W. B. Leeds (Princess Xenia of Russia). A \$10 fine is in the offing apparently.

MUNT FOR EARLY AMERICAN LIFE

Prehistoric Man May Have Lived in This Country

Denver, Colo.—Scientists are digging into the earth in many sections of the western plains country, seeking more light on fairly well established contentions that prehistoric man existed in America millions of years ago.

The work being done contradicts to a great extent the common belief that the life of man in America did not approach the antiquity found in Europe.

Harold J. Cook, honorary curator of paleontology at the Colorado museum of natural history, gave a synopsis of recent scientific achievements in this region when he addressed the Colorado-Wyoming academy of sciences at Denver yesterday.

"During the Pleistocene age we have ample evidence that various races of man invaded America from Asia," he said. "In fact, Asia is now generally admitted to have been the center of development and dispersal of mammalian life throughout tertiary times."

"Now, with all these things in mind, is it not logical to believe that early man, developing under such conditions, could migrate into America quite as well as the game he hunted, at any time they could get there?"

Following out this line of thought, Doctor Cook told of recent discoveries tending to substantiate the theory. At the town of Colorado, in southwest Texas, were found skeletons of a new type of extinct, flat horned bison, and remains of two races of elephant, a large camel, various extinct horses and other typical Pleistocene mammals.

"In taking out an articulated skeleton of one of these flat horned bison," Cook said, "representatives of the Colorado museum found three arrow heads definitely associated in the matrix with it and under conditions that preclude the possibility of error. They were undoubtedly shot into that very buffalo."

At about the same time fossil remains of a large extinct bison were found near Folsom, N. M.

"The American museum, New York, was invited to participate in the work this last summer," said Cook, "and did so. Here, associated with the bison, sixteen flint points were found of an absolutely new type and of the finest grade of workmanship known in flaked stone."

"Fortunately, four of these were exposed in a position where they had been found during the course of these excavations. There is no question of definite association here of these flint points with a race of extinct bison."

Island of Heligoland Slowly Crumbling Away

Heligoland.—This little German island, English North sea outpost since 1850, has lost 12,000 square meters swallowed up by mountainous waves when recent fierce gales caused havoc along the west European coast as far as Norway.

The damage done here and to the neighboring East Frisian island chain has led the Prussian survey department to appoint a commission to make a scientific study of the whole coastline to ascertain if there is any danger of acceleration in the gradual subsidence of the German North sea shores.

It is known that the whole coast is sinking, but only at the rate of about ten inches in the last 100 years. Continuing investigations are expected to show whether the sinking process calls for extra precautions.

Documents Prove Origin of Vatican Art Works

London.—A small but valuable collection of manuscripts relating to work done by eminent Italian artists for the Vatican is to be found in Soho, the foreign restaurant quarter of London. They are the property of Barberi, the padrone of the Taverna Medicea.

So precious are these manuscripts that Barberi exhibits them rarely. They bear the signatures of such illustrious artists as Bramante, Donatello, Mantegna, Raphael and Pietro della Francesca. All were acquired by their owner in London during the World war.

The most important was written by Michelangelo in Italian. It is his agreement to erect the tomb of Pope Julius II in St. Peter's, and is dated 1513.

Bandit Returns Funds

Acapulco, Mexico.—J. Calderon, a famous local rebel chief, has earned for himself a reputation for scrupulous honesty. He invariably returns money obtained from public offices in the towns he raids. He considers such money "borrowed" for the cause.

Old Trolley Cars as Resort Cottages

Benton Harbor, Mich.—J. J. Tarduma, proprietor of the Elmor resort, a romantic spot in the St. Joseph river six miles east of here, announces that he has purchased old trolley cars and expects to convert them into summer cottages.

At least six of the huge interurbans have been in service every day on the run from Benton Harbor to New Otis, Indian Lake and Dowagiac.

From Pasturized Cows

"I do hope you keep your cows in a pasture," said Mrs. Newlywed as she paid the milkman. "Yes, madam," replied the milkman, "of course we keep them in a pasture." "I'm so glad," gushed Mrs. Newlywed. "I have been told that pasteurized milk is much the best."—Watchman-Examiner.

Mounting his bicycle after fracturing his skull in a fall, Henry Endon of Jackson, Miss., rode seven miles to a physician, and will recover.

NOTICE OF SALE

STATE OF TEXAS, COUNTY OF BAILEY.

NOTICE IS HEREBY GIVEN THAT by virtue of a certain Order of Sale issued out of the Honorable District Court of Bailey County, the 2nd day of April, A. D. 1929, by J. L. Alsop, Clerk of said District Court of Bailey County, Texas, for the sum of one hundred sixty-six and 86-100 (\$166 86/100) Dollars and costs of suit, under a Judgment, in favor of Muleshoe National Farm Loan Association in a certain cause in said Court, No. 462 and styled Muleshoe National Farm Loan Association, a Corporation vs. Charles H. Long and wife Elsie Mae Long and Emil Wellandt, placed in my hands for service, I, H. A. Douglass, as Sheriff of Bailey County, Texas, did on the 3rd day of April, A. D. 1929, levy on certain Real Estate, situated in Bailey County, Texas, described as follows: Subdivision recorded in the Deed Records of Bailey County, Texas, in Vol. 3, Pages 350 and 353, save and except one acre of land heretofore conveyed by Emil Wellandt and wife to Bailey County Cemetery Association out of the Northwest corner of said tract, situated in Bailey County, Texas, and levied upon as the property of Charles H. Long and wife Elsie Mae Long and that on the first Tuesday in May, A. D. 1929, the same being the 7th day of said month, at the Court House door of Bailey County, Texas, in the city of Muleshoe, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said order of Sale and said Judgment, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Charles H. Long and wife Elsie Mae Long.

And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County.

Witness my hand, this 3rd day of April, A. D. 1929.

H. A. DOUGLASS, Sheriff, Bailey County, Texas.

Official Statement of the Financial Condition of the

Blackwater Valley State Bank

at Muleshoe, Texas, at the close of business on the 27th day of March, 1929, published in the Muleshoe Journal, a newspaper printed and published at Muleshoe, State of Texas, on the 5th day of April, 1929.

State of Texas, County of Bailey.

We, E. R. Hart, as President, and J. E. Aldridge, as Cashier, of said bank, each of us, do solemnly swear that the above statement is true to the best of our knowledge and belief.

E. R. HART, President. J. E. ALDRIDGE, Cashier. CORRECT ATTEST: S. E. MORRIS, C. A. ANDERSON, JNO. J. LACY, Directors. Subscribed and sworn to before me this 6th day of April, A. D. 1929. (Seal) E. PATRICK, Notary Public

It's HARD work to figure out a SOFT living

There is a golden harvest which brings in an income every day, the whole year through.

It is produced by our valuable farm friend, The Dairy Cow—a harvest that is comparatively easy to produce and market.

The Quality and Quantity of these Dairy Products depend upon the care you use in selecting your herd.

FOR ECONOMICAL TRANSPORTATION

Ten Reasons why 300,000 careful buyers have chosen the New Chevrolet Six since January 1st

Ever since the date of its introduction, the new Chevrolet Six has swept triumphantly on to greater and greater heights of popularity. Value for value and price for price—buyers have compared it with other cars in the low-price field. And the result has been an overwhelming public preference—over 300,000 buyers since January 1st. And everywhere the enthusiasm is constantly increasing—for the new Chevrolet Six combines, as does no other car in the world, those ten great fundamental factors which careful buyers are now demanding in the cars they buy.

6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder valve-in-head motor, the new Chevrolet provides that smooth, quiet, flexible performance which is the distinguishing characteristic of the truly fine automobile. At every speed, the power is delivered easily, freely and without annoying vibration. You can ride and drive for hours without annoying rumble or noise fatigue—every mile a delight for both driver and passengers.

6-Cylinder Getaway

And in sheer brilliance of performance, as well as in smoothness and quietness of operation, the new Chevrolet Six is a revelation. An automatic acceleration pump results in remarkably fast acceleration whenever the accelerator is suddenly depressed. And a new high-compression, non-detonating cylinder head eliminates every trace of "lugging"—even when you have occasion to accelerate swiftly in high gear.

6-Cylinder Speed

Naturally, Chevrolet's powerful six-cylinder valve-in-head motor might be expected to provide speed in abundance. But even more important than the speed of the new Chevrolet Six is the smooth, quiet, restful comfort you experience at every point on the speedometer. You can open the throttle wide with a feeling of complete security—and you come to the end of a full day's drive entirely free from the weariness caused by engine noise and body rumble.

6-Cylinder Power

The great reserve power of the new Chevrolet Six is a constant delight. The steepest hills are taken with ease. Heavy roads are negotiated without the necessity for frequent gear-shifting. And even at the higher speeds, there is always that feeling of confidence which comes from the knowledge that additional power is at hand . . . instantly available for whatever need may arise.

Modern Safety Features

The new Chevrolet Six is equipped with every modern safety and convenience feature—typified by a full ball bearing steering mechanism, non-locking 4-wheel brakes with separate emergency brake, foot controlled adjustable two-beam headlights, automatic fuel pump, theft-proof Electrolock, electric motor temperature indicator, and Fisher VV windshield and adjustable driver's seat in all closed models. As a result, it is one of the easiest and safest cars in the world to handle.

Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would be considered exceptional in any automobile. But in the new Chevrolet it is nothing short of sensational—for here it is combined with operating economy of *better than 20 miles to the gallon of gasoline*. As a result, those who can afford to own any automobile can afford to own and operate a Chevrolet Six!

Exceptional Riding Comfort

Another vital factor that has influenced hundreds of thousands in their selection of the new Chevrolet Six is its exceptional riding comfort. Built on a wheelbase of 107 inches . . . offering the deep-cushioned luxury of bodies by Fisher . . . and with the entire upper structure cradled on four long semi-elliptic shock absorber springs—it travels the roughest highways with amazing comfort. And its balance on turns and curves is

equally exceptional—for the rigid frame and the long springs reduce sideway to the minimum.

Beautiful Fisher Bodies

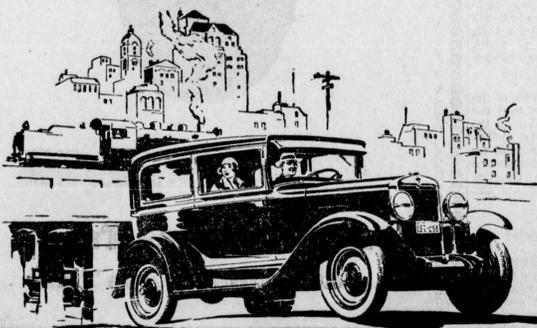

The marvelous bodies on the Chevrolet Six reveal, as never before, the matchless artistry that has made the Fisher name renowned throughout the world for excellence in coachcraft. Longer, lower and roomier . . . finished in attractive, long-lasting colors . . . and upholstered in rich deep-tufted fabrics that give to the interiors an air of custom elegance—they introduce into the low-price field an entirely new measure of style and distinction.

Proved Dependability

Before the new Chevrolet Six was presented to the public, it had been tested for more than a million miles on the roads of the General Motors Proving Ground. Never did a new motor car go into the hands of its owners more thoroughly proved in every detail. And now, reports of its performance on the highways of the nation pay glowing tribute to its endurance and dependability.

Amazingly Low Prices

Many people do not realize that this marvelous new six-cylinder Chevrolet is actually offered in the price range of the four. Compare total delivered prices as well as factory prices when determining automobile values. You will find Chevrolet delivered prices include the lowest handling and financing charges available.

**What's Doing
In West Texas**

Spearmen will be burning natural gas by August 1st. Six inch pipelines are to be laid to the town from the Stinnett field to supply the commodity. The price is to be reduced from 75 cents to 65 cents per 1000 cubic feet of gas.

Port Stockton is experiencing a lively building boom. The new opera house when completed and furnished will represent an expenditure of \$75,000. Brick business houses costing \$20,000 are being built and plans for more are being made. Many substantial residences are going up.

Santa Anna, after completing a new school building and a modern city hall, has now started excavation preliminary to paving five blocks of the town's main streets. Plans are being considered for additional paving to be done upon the completion of these five blocks.

Although having an adequate water supply at the present time, Childress is preparing for the future by purchasing a tract of 280 acres of land at a price of \$15,000 to be used in drilling water wells. A dam may be built later to make a lake.

Contract has been let for the new Silverton High School building to cost approximately \$85,000.00. The building will be completed by September. It will be modern in every respect and will be built and equipped with the latest and most modern of conveniences and material.

Tulia will represent Swisher County at the second annual Panhandle-Plains Dairy Show in Plainview April 2 to 5 with three hundred citizens headed by the Tulia High School Band of thirty-two pieces. Eighty-six head of dairy cattle are being fitted for the show.

More than 500 car loads of maize, kafir and other sorghum grains have been shipped from Tahoka this season. One hundred cases are yet to be shipped. A car load of heads consists of about 20 tons, and bring about \$17.00 per ton.

Ten percent of the farmers in Dickens County took advantage of the poultry and dairy short course conducted by E. N. Holmgren and E. R. Eudaly at Spur, and are putting into practice the knowledge gained. Many farmers have taken up the idea of diversification in farming around Spur.

The outlook for dairying in Haskell County is better now than ever before, due to the various organizations in several towns boosting for creameries. Farmers in this section realize that the cow is hard to replace on the farm when it comes to an income the year around.

Forty head of dairy cattle will be taken from Lockney and Floyd county to the Panhandle-Plains Dairy Show. A Floyd County delegation, composed of farmers and business men of the county, are planning to attend the show in unison on Wednesday, April 3rd. The delegation will be led by the Floydada Band.

The South Plains District Convention of the West Texas Chamber of Commerce to be held in Tahoka April 24th will sponsor a "My Home Town" oratorical contest, at which all high school children under 21 years of age will be eligible. Secretary C. C. Williams of the Chamber of Commerce has mailed out rules and regulations.

Two well known West Texas women will be on the program of the Oil Belt District Convention of the West Texas Chamber of Commerce which will be held on April 18. They are Lexie Dean Robertson, poetess, of Rising Star, and Christine Carter, vocalist, of Breckenridge.

Some of the recent charities of the Moran Delphin Club have been the buying of a memorial window in the new Methodist Church for \$75.00. The club started the piano fund for the high school with a contribution of \$50.00. A window in the new Christian Church for \$75.00 was also purchased.

HERE FROM NEBRASKA

Mr. and Mrs. B. F. Tucker of Broken Bow, Nebraska, are spending a few weeks in this community, visiting relatives and looking over the country. They are pioneer residents of Broken Bow, where Mr. Tucker is engaged in the real estate business. He has several brothers and sisters around Muleshoe.

W. M. U. MEETING

W. M. U. met with Mrs. Strickland in Bible lesson, with Mrs. Shirley as leader. An unusually interesting program was enjoyed by all present. There were 12 members present. A short business session was entered into. Our society meets next Monday with Mrs. Walker in study course.

Mr. John Ritchie, insurance man of Lubbock, was a business visitor in Muleshoe last Friday.

**WHITWASH FOR
POULTRY VERMIN**

College Station.—Lice increase more rapidly in warm weather and it is advisable to thoroughly clean out poultry houses now to kill lice, mites and blue bugs. A whitewash painted or sprayed on the interior of the house is recommended by E. N. Holmgren, poultry specialist in the Extension Service. Such a mixture may be made by slacking one bushel of quick lime in 12 gallons of hot water, dissolving two pounds of common salt and one pound sulphate of zinc in two gallons of boiling water, pouring this into the first mixture, adding two gallons of skim milk and mixing thoroughly.

**WEALTH AND HEALTH
FROM GARDENS**

Huntsville.—From two acres of garden, Mrs. J. J. Flippin, a home demonstration club woman in Walker County, canned 1628 containers and sold \$410 worth of products last year. Mrs. A. Frederick, also of this county, put up 1704 cans of garden stuff and sold products amounting to \$210. Nearly 90,000 cans of fruits and vegetables were preserved by home demonstration methods in the county last season, Miss Pearl Ellisor, county home agent reports, and the value of these products came to \$35,194.40. "The value of gardening and canning is hard to overestimate," she says, "for an ample supply of healthful foods enables women to serve their families balanced meals that go far toward eliminating doctor bills."

Skeddadle!

Rufe Johnson's pet hound disappeared. Rufe put the following ad in the paper:

"Lost or run away—one liver-colored bird dog called Jim. Will show signs of hydroboby in about three days. The dog came home the following day.—Herald of Gospel Liberty."

J. H. Motherall was attending to business in Clovis Saturday.

**Tech Receives Souvenir Pine
Block From White House**

Lubbock, Texas.—A rectangular block of pine wood which was taken from timbers in the roof of the White House while the structure was being dismantled in 1927 has just been received by Professor R. A. Studhalter of Texas Technological College. For 112 years these longleaf pine beams held the roof of one wing of the executive mansion safely over the heads of 26 presidents of the United States.

The wood was originally built into the mansion during the administration of President James Madison in 1815. Year before last when the supporting timbers of the roof were taken down the wood was found to be in perfect state of preservation, although no treatment had been given to lengthen the life of the wood.

In 1814, after the Battle of Bladensburg, the British soldiers, with their flaming torches, came thronging up Pennsylvania Avenue and burned the White House, the fire destroying the interior and seriously damaging some of the masonry. President Madison and his wife, Dolly, made a dramatic departure from the executive mansion fleeing up Pennsylvania Avenue just ahead of the British.

Reconstruction was begun shortly after the fire, the new roof being held in place by sturdy wood trusses which were taken out in 1927 and found to be in an almost perfect state of preservation, and are an interesting example of early workmanship. The timbers, all hand sawn, are held together not only by hand mortising, but with dowels and heavy wrought iron straps pounded out by hand.

Incidentally it is of interest that President Ulysses S. Grant, who occupied the White House in 1873, and to whom the condition of the roof was first reported, was the grandfather of Lt. Col. U. S. Grant, III, under whose direction, as Chief of the Office of Public Buildings and Parks in Washington, the recent remodeling and renovation has been carried out.

PAINTS WASHINGTON FIRST MILLIONAIRE

Lawyer Describes Business Genius of General.

New York.—The first American millionaire was George Washington, according to Eugene E. Prussing, Los Angeles lawyer, formerly of Chicago, who has just completed thirteen years of research into Washington's career as a business man. Summing up the results of his study in the American Magazine, Mr. Prussing says: "It is customary to think of Washington as soldier and statesman. He was also a man of business, successful farmer, builder of transportation, engineer, pioneer and promoter. He was a man of broad commercial vision and rare business ability. He spent one-fourth of his life in public service and yet left behind him a record of business achievement and a fortune that entitles him to be called our first millionaire. He started life with but a few cents of his own. When he died the land and other investments that he directed to be sold were worth, by his own conservative estimate in his will, \$330,000, and this did not include some of the most valuable portions of his estate.

"To many of us Washington is a mythical figure, hidden behind fables like that of the self-righteous little boy and the hypothetical cherry tree. As a matter of fact, he was a very different sort of person. He was a man who would have been perfectly at ease in a group of modern big business men, around the directors' table. And he enjoyed fox hunting and dancing, as the modern man enjoys golf.

Was Good Business Man.

"In his ideals, his sense for giving value as well as getting it, his insistence on exact statistics, his zeal for big constructive undertakings, for striking into virgin fields, seizing opportunities, opening avenues to development, his instinctive slaying-up of the possibilities of profit in a deal—in all these matters and others like them, his attitude was strikingly similar to that of the best of modern business. He did not definitely formulate any rules for money-making, but he followed certain basic principles throughout his career."

Washington's apprenticeship in business started soon after his father's death, which occurred when the boy was twelve.

"From that time," Mr. Prussing says, "he was pretty much on his own, and was always faced with the problem of making a living.

Washington's first job was as an apprentice surveyor with G. W. Fairfax. At seventeen he became official surveyor of Culpeper county, and began his life work as an engineer. He had the thrifty idea of not taking all his pay in cash. He knew where the best acres were located, and believing that land prices would rise, he began putting his extra pay into good land.

Made \$15,000 a Year.

His returns on farming later averaged as high as \$15,000 a year. He ran a gristmill at Mount Vernon. He conducted fisheries on ten miles of waterfront, shipping his product to England and the West Indies. He maintained a ferry across the Potomac, which paid a handsome profit. He devoted six years as managing director of a company which was engaged in drainage and lumbering operations in Virginia, and he was president of the Potomac River company, a navigation and development enterprise which eventually evolved into the Chesapeake & Ohio and the Baltimore & Ohio railroad systems. He purchased 53,000 acres of land in Pennsylvania, Ohio and West Virginia.

"In business he was careful about exacting value and giving it. He performed his contracts and promises according to the spirit as well as the letter, even when doing so involved heavy losses.

"Washington ran his business affairs by exact knowledge. He always knew where he stood. He kept complete records of receipts and expenditures and of all business transactions.

Mississippi Boy of 10

Wears Size 25 Shoes

Racine, Wis.—A pair of size 25 shoes has just been made for a ten-year-old schoolboy by a Racine shoe manufacturing company. The purchaser is Robert Willard, an elementary school student of Alton, Miss. The boy is 6 feet 10 inches tall and weighs 250 pounds.

Five square feet of leather were used to manufacture the shoes.

Physicians say that if the boy continues to grow he will be nine feet tall when he reaches maturity.

World's Biggest Tooth

Is 50,000 Years Old

Boston, Mass.—The largest tooth in the world, measuring 11 feet 2 inches in length and weighing more than 200 pounds, has just arrived at the Harvard Dental school museum. It came from the jaw of a mastodon, and scientists estimate that it is more than 50,000 years old. The tooth was found embedded in the bank of the Porcupine river, a tributary of the Yukon, in Alaska.

HOME MADE FURNITURE POLISH DEvised

Donna.—An economical method for making a very satisfactory lemon oil furniture polish has been worked out by Mrs. George W. Vaughan, a home demonstration club woman who lives here. "I take olive or sweet oil and put in as many lemon peels as it will cover," she says, "using fresh peel with lots of oil in it. I let this stand for perhaps a week and then strain out the peel and the oil is ready for use. For new furniture the oil should be applied and then allowed to stand for about an hour before polishing, but for old furniture it is best to let it stand for several hours. This oil gives an excellent polish which doesn't come off in a day or two but is good for several weeks with just a little rubbing and polishing."

Subs for Dad

New York.—Seymour Agaid, ten years old, appeared in Traffic court for his sick father. So good was his plea that sentence was suspended.

Of Course, If You Don't Care—

IT REALLY DOESN'T MATTER

IF—its a matter of indifference when guests cast appraising glances around your home and note critically the style of long ago.

IF—you don't care what they think of your taste and appreciation of how a home should be dressed.

IF—its all the same to you that the children would rather go to the movies or entertain themselves and their friends elsewhere because the home is drab and "tacky."

THEN—of course, it doesn't matter at all that the furniture styles are changing and that perhaps your home is hopelessly out of date and not so comfortable and modern as it should be.

BUT MOST FOLKS DON'T FEEL THAT WAY

Goodland News Items

Several people from this community have been attending the singing class at Wilson the past week.

An Easter egg hunt was greatly enjoyed by the children of the Goodland community on last Saturday afternoon.

There was a large attendance at Sunday School Sunday.

Most of the people from this community attended the entertainments rendered by the volunteer band from Wayland College on Saturday night, Sunday morning and Sunday afternoon. The programs were greatly enjoyed by all.

Mrs. Locke and Lois, Mr. and Mrs. Lawton and children spent the day with Mr. and Mrs. Reed Sunday.

Little Marie Beaty has been rent sick for the last few days.

A box supper will be given at the Wilson school house next Friday night.

Reporter

YL News Items

Mr. and Mrs. Bickel returned from Missouri last Thursday.

A contest between boys and girls of the Banner Sunday School class ended last Sunday. The girls won and the boys will give the girls a party.

A number of boys and girls from YL went on an April Fool's party Monday. They left school at noon without permission and returned immediately after school closed.

The Volley Ball girls enjoyed a wienie roast at the Sand Hills Tuesday night.

Reporter

CUTWORMS EASILY CONTROLLED

College Station.—Cutworms do not seem to be generally prevalent this season, but where they are damaging gardens and crops by cutting off the plants, poisoned bran mash will very effectively control them. This is made up of 20 pounds bran, one pound Paris Green, two quarts cane molasses, and six lemons, using both juice and rind which has been previously run through a meat grinder. The ingredients should be mixed with enough water to make a mash that is thoroughly moist but not sloppy. R. R. Reppert, entomologist in the Extension Service, suggests that hit crops may be protected by placing one-fourth of a teaspoonful at the base of each hill, and row crops by sprinkling the mash along in a thin line at the base of the plants.

CITATION BY PUBLICATION

THE STATE OF TEXAS TO THE SHERIFF OF ANY COUNTY—

STABLE OF BAILEY COUNTY—

GREETING:

You are hereby commanded, That you summon, by making publication of this Citation in some newspaper published in the County of Bailey, if there be a newspaper published therein, but if not, in the nearest county wherein a newspaper is published, once each week for four consecutive weeks previous to the return day hereof, R. L. Brown and D. P. Brown, whose residences are alleged to be unknown, to be and appear before the Honorable District Court at the next regular term thereof, to be holden in the County of Bailey, at the Court House thereof, in Muleshoe, Texas, on the 6th day of May, 1929, then and there to answer a petition filed in said Court, on the 6th day of May, 1929, in a suit numbered on the docket of said Court No. 490, wherein E. B. Hart is Plaintiff and R. L. Brown and D. P. Brown, the Continental Gin Co., Fairbanks, Morse & Company and Whaley Lumber Co. are Defendants. The nature of Plaintiff's demand being as follows, to-wit:

A suit in trespass to try title to recover the title and possession of and quiet Plaintiff's title to certain lands situated in Bailey County, Texas, parts of sections Nos. 39 and 40, in block Y, of the W. D. and F. W. Johnson's sub-division No. 2, in Farmer and Bailey Counties, Texas, and the tract of land herein sued for being wholly in Bailey County, Texas, and particularly described as, Beginning at an iron stake marked S. E. 40, same being the Southeast corner of said Section 40, Block Y, thence North with the East line of said Section 40, and the West line of Section 53, 508.5 feet, a wooden stake, thence North 84 degrees and 52' West 211.6 feet; thence South 35 degrees and 8' West 995.2 feet to a wooden stake on the North line of the Peccos & Santa Fe Railway right of way; thence with the North line of said right of way South 84 degrees and 52' East 248 feet to a railroad monument on the North line of Section 39 in said Block Y; thence East with the North line of said Section 39 and the South line of said Section 40, 174.4 feet to a railroad monument on the North line of said railway right of way; thence with the North line of said railway right of way South 84 degrees and 52' East 170.3 feet to the East line of Section No. 39, of said Block Y; thence North with said East line of said Section 39, 98.5 feet to the place of beginning and containing 5.01 acres of land, Plaintiff alleging that he has title to said land under a judgment of the District Court of Bailey County, Texas, in Cause No. 61, entered December 28, 1924, against R. L. Brown, fore-

closing a lien upon said land as against the defendant, R. L. Brown and the Continental Gin Co., and against the Farmers and Merchants National Bank of Farmersville, Texas, and judgment rendered by said Court in cause No. 186 on the 3rd day of June, 1926, in favor of the plaintiff against R. L. Brown establishing that the first mentioned judgment was a valid and subsisting and live judgment and the lien as foreclosed in said judgment was valid and subsisting— and ordering the Clerk to issue an Order of Sale; an Order of Sale issued on said judgment, the return of the Sheriff endorsed thereon showing that he said said property to the plaintiff herein and a deed made by H. A. Douglass, as Sheriff under authority of said judgment, and Order of Sale conveying said property to the plaintiff and under a judgment rendered in said District Court in cause No. 248 on the 31st day of December, 1927, in favor of the plaintiff, E. R. Hart, against defendant, R. L. Brown, for the title and possession of said land and plaintiff alleging that R. L. Brown is the common source of title and that plaintiff's title to said land is superior to any claim, title or lien the defendants or either of them, may have against, upon or to said land and the plaintiff by a second count in said petition setting up a further cause of action wherein it is alleged in substance that on the 29th day of December, 1924, he recovered a judgment in the District Court of Bailey County, Texas, in cause No. 41, on the judgment in said District Court against R. L. Brown for \$1730.00 with interest thereon from that date at the rate of 10 percent per annum and costs of suit and foreclosing a materialman's lien as it existed on the 20th day of July, 1923, and a deed of trust lien as it existed on the 19th day of July, 1923, against and upon the above described land in favor of the plaintiff and against the defendant, R. L. Brown, the Continental Gin Co., and also against the Farmers and Merchants National Bank of Farmersville, Texas; that the said liens were valid and subsisting liens on and after the days as stated in said judgment; that on the 9th day of June, 1926, plaintiff recovered a judgment in said District Court in cause No. 186 against R. L. Brown decreeing that the above described judgment was a valid and subsisting and live one and the lien as foreclosed in said judgment was a valid one and ordering the Clerk of said District Court to issue an Order of Sale, to sell the above described land and further finding and decreeing that there was due and owing on the first mentioned judgment the sum of \$1288 and for costs of suit and that the cost of suit in said suits Nos. 61 and 186 aggregated the sum of \$124.57; that said amounts remain wholly unpaid and the defendant, R. L. Brown, fails and refuses to pay any part of that the plaintiff has a valid and subsisting lien against and upon said land securing him in the payment of said money and that the defendants are asserting some claim to, or lien upon said land, but that any such claim or lien is inferior to plaintiff's lien securing his debt as evidenced by said judgments and praying that if he be denied a recovery on the first count of said petition, that he have judgment against the defendant, R. L. Brown, for the said sums of money with interest and costs of suit and for a foreclosure of his liens against and upon said land as against all defendants, and for general relief.

HEREIN FAIL NOT, and have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Muleshoe, Texas, this 2nd day of April, A. D. 1929.

J. L. ALSUP, Clerk.
District Court, Bailey County, Texas.
By Lola Lipscomb, Deputy.
