**Plans Complete for  
Scout Outing at  
Camp Louis Farr**

**Program of Mingled Instruction  
and Amusement Outlined;  
Begins Monday, May 29**

Camp Louis Farr for the Boy Scouts of the active towns of the Concho Valley Council, will open on Monday, May 29, on the famous Fayette Tankersley ranch near Mertzon. Cost for the entire week has been reduced to \$4 for each Scout.

The camp is located on the headwaters of Spring Creek where seven enormous springs furnish the water for the most beautiful stream in West Texas. The woodland in which the tents will be erected is without doubt the most attractive camping place in this section.

Camp Louis Farr is made available to the Scouts by Mr. Tankersley. It was named "Camp Louis Farr" in honor of the late L. L. Farr, who was the close friend and associate of many of the pioneers of West Texas.

The camp folder announces health, safety, happiness, food, fun, facts, adventures and romance. It lists 24 main subjects on the program including swimming, campcraft, nature lore, athletics, games, handicraft and dramatics. The Indian-Pioneer 24-hour game promises to be thrilling.

The regulations of Camp Louis Farr conform with the highest in the United States with respect to health and safety. The menu is carefully organized to give growing boys plenty of the right kind of food. A quart of sweet milk is served to each Scout daily and ice cream is made in the camp every day. The inspections of tents and the Scouts are very rigid and a doctor is in camp at all times to take care of any injuries or first aid.

The Scouts are carefully supervised at all times and there is one adult in camp for every twelve Scouts. The program is worked out on a schedule of 45 and 90 minute periods, giving time for Scout tests, hikes, swims, camp sports, sleep, rest, meals and everything that will make the boys have a happy and profitable time.

Several of the local Scouts are planning to attend the camp and get the intensive training for the full period.

**RADIO: THE WONDER OF  
THE AGE**

From the remotest corners of the earth one can sit in the quiet of his home and tune in on a most interesting program all because a genius discovered the principles of radio.

Little did this genius know he was opening up an industry in which millions of dollars would be spent creating employment for hundreds of thousands of men and women.

We make a specialty of training young men for radio. Our equipment is standard such as is prescribed by the government. Our instructors are licensed by the government, which means that they are qualified. Our broadcasting station, KKB, which operates on 1500 kilocycles, was secured primarily for the use and benefit of our students of radio. You learn to do by doing. You have an opportunity to work in the transmitter room with a licensed operator, thereby getting some experience you could not get in any other way.

No other radio school that we know of has three distinct advantages. Why not train in a school that enjoys a national reputation? The best is none too good and you are entitled to the very best.

Write for our radio booklet R-6 which fully describes our department of radio.

**Rain Delays Ball  
Games at Station**

Double Header Postponed from  
Sunday Until Thursday

Rains Saturday night and Sunday caused postponement of a couple of ball games and an outing planned at Station B for residents of station, as well as Stations A and C, and Sonora.

The double header, scheduled between Sonora and Station A and Stations B and C was moved up until Thursday, and a Sonora team went to the Station. No report of the outcome of the games is available as The News is printed.

**Catching Sap on Coolidge Sugar Lot**

The coming of spring is the signal for the maple trees to begin yielding their maple sugar sap. And so the old sugar lot of the late Calvin Coolidge once more takes on an active appearance. It was at this same old sugar lot that the late President and his father, Col. John Coolidge, worked yea. after year gathering the sap and boiling it down into maple sugar. It may be spring but still three feet of snow covers the ground here are the oxen dragging the maple sap to the sugar house for boiling down.

**NEW LAW MAKES TROT LINES AN  
ILLEGALITY IN KIMBLE COUNTY**

With the recent passage of a new law regarding fishing in the Llanos, it is now a violation of the law to fish with a trot line in this county, states Frank Cowsert, local game warden.

The law which is in effect now governing the means of catching fish in the Llanos and streams in the county is: It is unlawful to take any fish from any waters by any means other than ordinary hook and line or artificial bait. It is unlawful to use trot lines, bank hooks, or throw lines with more than two single hooks.

The new law regulating the length of catfish now states that no catfish under 12 inches may be kept. The old law gave the length at nine inches.

A pamphlet containing all the fish and game laws covering this county may be secured free from practically all the business houses and garages and tourists camps.

Fishing season is under full way

**PICK-UP IN ADVERTISING  
SIGN OF BETTER BUSINESS**

A sharp increase in advertising lineage throughout West Texas, particularly of foreign (or national) advertising, is encouraging both to newspaper publishers and to the public generally as a sign of better business.

Contracts started last week or this in The News included an eight-months' schedule for the Goodyear

Tire & Rubber Company, with the Sonora Motor Company as local agents; the Gulf Oil Company, whose products are sold here by the Gulf Service Station; by the Ford Motor Co., of which the Sonora Motor Company is also local agent; and the Goodrich Tire & Rubber Company, in co-operation with their local agent, J. T. Penick.

May 9, 1933

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

*Henry Ford*

### Camp Allison (Essie Rode, Reporter)

Mr. and Mrs. T. C. Baker visited in Sonora Tuesday.

Lum Adams and son, Leo, were business visitors in Sonora Friday.

Mr. and Mrs. Burt Rode, son, G. T., daughter, Miss Bessie, and Ben Rode visited in Sonora Friday.

### Bessie Sharp Gets Postponement, Aug.

Trial for Alleged Poisoner to Be Later, Dut to Absent Att'ys

Trial of Bessie Sharp, set in Fort Stockton for the May term of district court, has been postponed until the August term.

Bessie Sharp was tried in Del Rio in November, 1932, for the murder of her husband, Telefus Sharp, on a ranch near Sanderson two years ago. Following several days and nights of taking testimony, the case ended in a mistrial when the jury failed to agree after nearly four days of deliberation. The case was tried before Judge Joseph Jones, and was brought to Del Rio from Sanderson on a change of venue. Since the trial ended December 1, 1932, Mrs. Sharp has been in jail at Fort Stockton.

Postponement of the case was said in Fort Stockton to be due to the unavoidable absence of one of the defense attorneys, Coke Stevenson, who is speaker of the House at Austin. Judge C. S. Slatton of San Antonio is the other member of defense counsel.

The case will be tried in August in Fort Stockton before Judge Joe Montague, brother of Judge Brian Montague of Del Rio.—Del Rio Evening News.

Mr. Joe Norris spent last week in Center Point visiting her parents, Mr. and Mrs. Robert Lang.

### TYPICAL BEAUTY

This favored young Lady, June Glory, is said to fit perfectly the requirements laid down by beauty experts who attended the international beauty convention at Hollywood, Calif. Her measurements are: Height, 5 feet 5 inches; weight, 116 pounds; neck, 12 inches; shoulders 39 inches; waist, 25 inches; bust, 35 inches; hips, 36 inches; thigh, 20 1/2 inches; and calf, 13 3/4 inches.

### UVALDE OBSERVER SAYS FLOODS COMING IN JUNE

J. J. Bendele, weather prophet, says there is going to be a real flood in Uvalde. For the only time in 1,000 years will there be five moon changes in June. He has watched the

signs of the ants, trees and other means he has of predicting floods, and says they all point to heavy rains.

Bendele says the people of Uvalde should see that the Leona river bed was cleared of all brush from the Leona crossing south of town to the railroad

bridge on the Southern Pacific. The channel of the river is dammed with brush and it will mean the waters will spread over the town and that this brush should be cleared out.—Uvalde Leader-News.

<i>Gulfpride</i> .. No finer motor oil in the world	35¢	a quart (plus tax)

### HEALTH NOTES

Austin, May 19.—Texas loses more than five hundred of its children each year from just one preventable cause, according to the state health officer. Diphtheria, that ever present menace to children, is responsible for this great loss.

Dr. Brown said that all parents would not allow their children to run in front of trains or automobiles but many allow them to run the danger of contracting diphtheria. Children need not have this disease, as it is easily prevented by a simple, harmless treatment with toxoid.

If you have a child six months old or more, take him to your doctor and ask to have him immunized against diphtheria. Do not wait until your child goes to school, as babies and little children need this protection more than children who are going to school.

The treatment consists of two or three injections of toxoid, according to age, one week apart. Fewer do not protect. The doctor can tell if more are needed to protect the child by giving him the Schick test four to six months after the last treatment of toxoid. It takes that long for protection to develop.

There is no guess work about toxoid, it is a safe and proven preventive. Do not confuse toxoid with anti-toxin, the first prevents a child from catching diphtheria and the second, when used in treatment, cures a child sick with the disease, if given early enough. If your child is sick do not wait but call a doctor at once, as this disease develops rapidly.

### 18,000 Acres Land Week Sold by Swap

Cotton Farmers Promise Delivery Bale Per Acre in Payment

A record of selling 18,000 acres of Texas farm land in one week, with 500 to 1,000 more applicants than could be supplied, is partly attributed by Guion Gregg, veteran land salesman, to a story appearing in the Dallas News April 5. Demand for this land, offered under a unique plan by C. C. Slaughter of Dallas, was so great that plans are under consideration for similar sales of other tracts, according to Mr. Gregg, colonization manager for Mr. Slaughter.

Land offered in the sale consisted 160-acre tracts of virgin soil in Cochran county, sales being made to bona fide cotton farmers who agreed to deliver one bale of cotton for each acre, at the rate of ten bales per year, in payment. A total of 107 sales were made, mostly to West Texas farmers but with home-seekers applying from all over Texas, New Mexico, Oklahoma and Arizona. Inquiries from Northern and Eastern states also were received, but farms were sold only to experienced cotton farmers.

LOW-COST Hot Water... at the Turn of a Faucet...

with a Modern ELECTRIC Water-Heater

When you turn your "hot water" faucet you want... and NEED... an adequate supply of piping hot water. That, however, is only the primary requisite. If you can get this constant supply of hot water inexpensively, automatically and with perfect safety at all times, isn't that a perfect combination?

The modern ELECTRIC water heater gives you a surplus of hot water, and for good measure adds safety, cleanliness, health, dependability, quiet, comfort and convenience. Contrast these advantages with the flame noise, fumes, soot, smoke and odors of old-fashioned methods.

Ask a trained representative to show you the beautiful new electric water heaters now on display. They are equipped with emergency reliefs for both temperature and pressure... they offer all the well-known advantages of modern automatic electric water heating... they operate on the new "constant hot water service" plan that means LOW COST to you... and prices and terms are especially attractive!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

HIGHWAYS SHOULD BE INCLUDED

One resolution passed by the convention of the West Texas Chamber of Commerce in Big Spring is deserving of particularly strong support by virtually every county and every portion of West Texas. It suggested, and requested, that highway improvement be added to the three projects of reforestation, soil conservation, and flood control to be done under government supervision by the groups of young men conscripted from every part of the United States for working on these projects.

Speaking of government control in business—down in Uvalde there is being passed an ordinance requiring the licensing of boot-blacks. Control over the bootlegger may be the next step.
Over in Brady rains used to be worth a million dollars, if we believe the optimistic headlines of the Brady Standard.

THE STATE OF TEXAS  
County of Sutton—Before me, the undersigned authority, on this day personally appeared Mrs. A. J. Smith, county treasurer of Sutton county, who being by me duly sworn, upon oath, says that the within and foregoing report is true and correct.

MRS. A. J. SMITH,  
County Treasurer.  
Sworn to and subscribed before me, this 8th day of May, 1933.  
(SEAL) J. D. LOWREY,  
Clerk, County Court Sutton county, Texas.

Mrs. T. J. Martin of Brackettville arrived Monday afternoon for a visit with Mrs. S. T. Gilmore, with whom she spent the night, returning home Tuesday morning.

### Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, —once or twice a week for several weeks—and see how Nature rewards you with health. Calotabs purify the blood by activating the liver, kidneys, stomach and bowels. In 10 cts. and 35 cts. packages. All dealers. (Adv.)

### LARGEST FAT MAN

Joe Raggio of Philadelphia is considered the world's largest fat man. He weighs 750 pounds and has not been out of the house for fifteen years because he is too big to get through a doorway. He eats 12 pounds of spaghetti each day and 7 pounds of hot dogs, 1 gallon of coffee, 3 quarts of ice cream and 60 to 70 hard-boiled eggs. It takes 8 yards of cloth to make his pants and 5 yards for his shirt.

### Lubbock Expecting Thousand Lions for State Convention

Many Notables to Attend and Speak; Variety of Entertainment Planned

Special to The News.

Lubbock, May 18.—With a steady flood of reservations coming in daily from all parts of Texas, attendance estimates for the annual convention of the Lions Clubs of Texas, which is to be held here May 21, 22 and 23, is placed well over the thousand mark. State officials expect the convention here to set a new attendance record.

With 246 clubs in Texas, total Lions membership of 7,000 almost guarantees over 1,000 delegates to the state convention here, Ben Condray, president of the Lubbock club said today.

Chas. H. Hatton, Wichita, Kans., president of Lions International; Julien C. Hyer, Fort Worth, immediate past president, and other prominent Lions of the five countries affiliated with Lions International, the United States, Canada, China, Cuba and Mexico, will be here for the convention.

Under the direction of C. B. (Brownie) Akers, chairman of the entertainment committee, an array of local functions including a big chuck wagon barbecue, banquets, breakfasts, dances, golf, and other entertainment has been arranged. A post convention trip to Carlsbad Caverns in New Mexico has been planned.

Reports and discussion of underprivileged child work for the past year and discussion of a program for the next year will be prominent in the convention business session. Election of officers and selection of the next meeting place comes the last day of the convention, May 23.

Mesdames John Eaton and Geo. Baker spent Wednesday in San Angelo, where Mrs. Baker addressed the city council of San Angelo Parent-Teacher Associations on "Publicity."

### Cory Visits Llano County Grass Land

Specimens Collected to Observe in Search of Special Disease

V. L. Cory, range specialist of the Sonora Experiment Station, spent two days in the county this week. Accompanied by the county agent, various pastures were visited and specimens of grasses and weeds collected for observation and further identification.

Mr. Cory is working in connection with Dr. Schmidt of the experiment station in an effort to find the cause of a particular disease that is prevalent in some sections of the country. He stated that he

was well pleased with the Llano section and was glad to see everything so green and picturesque.—Llano News.

Miss Watkins Remaining Here  
Miss Marie Watkins announced this week that she will remain in

Sonora for the first six weeks of the summer and that she will continue classes in voice and piano during that time. She will spend the latter part of the summer at her home in San Antonio.

Rent it with a classified.

# Now Is a Good Time to Buy Printing...

Not that prices are likely to rise immediately, for printing costs do not vary in the same degree as commodity prices. Right now is a good time to buy, though, for you need plenty of printing, and good printing for the handling of increased business. Better days are here, and they're due to get still better. You'll want to place your business on a basis justified by better times and good printing will help. We'll gladly assist you in your plans, and the cost will be moderate. Just telephone 24.

"Creators of Distinctive Printing"

Picnics and Panics

By CORONA REMINGTON

THE birds flew close to the ground or sat in little groups on the leafy limbs; they were silent and subdued. It was a heavy, sodden day.
"What's the use of going on?" she asked her mother mournfully.

Historic Montreal Church Burns

Firemen are seen directing streams of water into the flaming roof of the historic St. Jacques Mineur church, Montreal's oldest and most famous religious edifice, during the fire that reduced the once beautiful structure into a mass of ruins.

FORMER DALLAS HOTEL BARTENDER LOCATED IN SALOON IN OLD MEXICO

It takes more than a brass rail and beer to make a bar and those persons looking forward to a profit on repeal are beginning to wonder where the old bartenders have lived during the Dark Ages of Prohibition.
When old bars which had been stored in basements since 1918 were looked over for possible polish and varnish, officials of the Adolphus Hotel started a search for the hotel's old bartender, Fred Lockwood.

It's Lonely in Borneo

By ALICE DUANE

SIGNS of spring may lightly turn a young man's fancy to thoughts of love, but not so surely as do thoughts of a good job. At least so it was with Brander Yates. He had been out of work for six months. He had spent what savings he had not previously lost and was down to his last ten dollars when out of the blue, as it were, appeared a perfectly good job.
Having no money to spend on theater tickets, flowers and taxis, he had of necessity assumed the semblance of a woman hater.

SCENES FOR WILD WESTERN SHOT IN STREETS OF KERRVILLE LATELY

HOWARD CRAGHEAD

After two years of disappointment, the Cleveland Indians may finally cash in on their \$25,000 pitching investment, Howard Craghead, who was purchased from the Oakland club of the Pacific Coast league in 1931.

Tuesday morning when a cowgirl was held up and robbed of a large sum of currency just after leaving the "Cattlemen's State Bank" on Earl Garrett Street peace officers stood by, directing motor traffic away from the scene of the crime and citizens by the scores lined the curbs to witness the outlawry.
Cameras ground away as sound apparatus recorded the shrieks of the heroine and the cruel words of the villain. It was Kerrville's first touch of the Hollywood atmosphere and the populace thoroughly enjoyed the show.
Officials, cameramen, technicians and members of the cast for "Rangers at War," a Kler-Phillips production, arrived in the city Monday afternoon.

Brazos Fish Thot Possibly a Whale

505-Pound Amphibian Examined at Biology Dept. A. & M.

Bryan, May 19.—What Dr. O. M. Ball, head of the department of biology at Texas A. & M. college, said may have been a young whale was killed in the Brazos river last week. The amphibian weighed 505 pounds and was 7 1/2 feet long, according to the Navasota men who killed it and brought it to shore. Before the creature could be identified, it was cut up and rendered, a considerable amount of oil being obtained.

Depression Not a Main Cause Suicide

Practice Frequent in Boom Times As During Periods of Stress

Chicago, May 18.—Jumping out of high windows is not restricted to depression days. In fact, it is almost as popular in "boom times" as in a time of economic distress.
Such was the evidence given the Illinois Society of Mental Hygiene by Dr. Franz Alexander, director of the Institute for Psycho-analysis, of Chicago.
"The statistical curves I have studied," he said, "show no definite relation between economic depression and suicide. Life insurance figures, for example, show a rise in the suicide rate in 1928, a year of the boom period, and since the start of the depression there has been no remarkable suicide increase."

**BORDEN COUNTY SENDS FIRST MAN TO PEN SINCE FOUNDING IN 1876**

The state of Texas has not been out a great deal toward paying court costs, or upkeep of prisoners in the state penitentiary from Borden county. John Day sent to the penitentiary from Borden county a few days ago was the first man ever to have been convicted of a felony in that county.

The county is in the 32nd judicial district, presided over by Judge A. S. Mauzey of Sweetwater.

Borden county was established in 1876, 57 years ago, but that lengthy stretch of history had not been filled with a single criminal conviction until about two years ago. John Day, a Scurry county resident, was sentenced to one year in the penitentiary for manufacture of liquor. He appealed, and was released on bond.

Wheels of justice ground slowly, but they finally affirmed the original sentence, by way of the Austin court of criminal appeals. Day was promptly re-arrested, and placed in the Scurry county jail, since Gail (county seat of Borden) does not offer a homelike bastille. He had been awaiting transportation since that time.

Borden county's first criminal case attracted considerable attention three years ago, but the cattle theft charge did not result in a conviction.—Nolan County News.

**Goat Show Planned at Rocksprings July**

T. A. G. R. A. Completes Outline of Program for Three Days

Plans for the 1933 show and sale of the Texas Angora Goat Raisers Association to be held at Rocksprings July 4-5-6, were finished Tuesday at a meeting of the directors of the association at Rocksprings.

This year's event which will be held in connection with the annual Erwards county fair, as has been

tion will be held at 8:30 p. m. July 4.

Annual dues were reduced from \$1.50 to \$1. A committee composed of J. W. Hutt, S. W. Dismukes and C. Bourland was appointed to select candidates for directors to be elected at the annual meeting.—Uvalde Leader-News.

**THE Comforts of the AMERICAN Home**

It is a well-known fact that—home for home—the American household has more comforts and conveniences than that of any other nation.

In foreign lands the modernized dwelling is found only in the better sections of the larger cities.

In America, even in remote rural districts, you find the radio, the vacuum cleaner, washing machine, up-to-date heating systems, telephones and numberless labor-saving appliances.

There is a well-kept look about residence, store or out-buildings with an atmosphere of prosperity and content. Did you ever stop to realize why this is so; how this condition was brought about?

It is largely due to advertising. And a big share of the credit belongs to newspaper advertising.

Stop and think how many of the foods you eat, the things you wear and other articles entering into your everyday life, you first heard of through newspaper advertisements.

You will then realize what a part they do play, or should play in your daily life.

Read the advertisements in the newspapers regularly and thoroughly, if you are not already doing so. They mean more to you than you can tell.

## Arthur Baird, San Antonio; Lion Head

Chosen Governor at Recent District Convention Attended by Stokes

Arthur Baird of San Antonio was elected district governor of Lions Clubs in district Texas 2-A at the district convention held last Wednesday in San Antonio. H. V. Stokes, president-elect of the Sonora club, attended the meeting.

Present district governor, the Rev. Chas. Nixon of Del Rio, presided at the meeting. Attendance from this part of the state was light, with only Sonora represented from group 23. Rio Grande Valley towns were strongly represented.

It was voted to hold a similar district convention next spring in Corpus Christi.

Duwain E. Hughes, San Angelo wool buyer, was a business visitor here Monday and Tuesday.

while, permanent projects which will pay themselves out. Minor political sub-divisions, such as road districts, water districts, cities and counties, are eligible to secure money for any project which they can convince the government is needed and which will pay itself out in a period of ten to thirty years.

Interest rates are not definite, but will vary from 4 1/2 to 6 per cent according to the amount of funds, the length of time, and other considerations.

Machinery has been set up whereby the West Texas Chamber of Commerce, from its Stamford offices, will assist towns in working up their applications and supporting information, and then send the applications to the Texas Relief Commission in Austin. From there it will be sent to Washington. From that point on negotiations will likely be made directly between

the R. F. C. in Washington and the applicant.

George E. Smith, city manager, George Baker, president, and F. E. Dungan, secretary of the Sonora Fire Department, represented Sonora in seeking the information. They spent Thursday and Friday in Big Spring at the convention, returning home Friday afternoon. They were accompanied by G. A. Wynn, who visited his brother, Tom Wynn, and family.

## A Good Lesson ---

FOR GRADUATES AND ALL OTHERS

## Learn to Save!

If that lesson is learned first, those that come later will be made much easier. The first requirement for business success is a consistent, careful plan of saving.

If the habit of saving is formed early in life many troubles later on may be avoided. There always comes a day when you will be glad that habits of thrift have been formed. Start right now!
