

THE MULESHOE JOURNAL

MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, JUNE 28TH, 1929.

NUMBER 23

NEW WHEAT IS COMING IN RAPIDLY; COMBINES RUNNING DAY AND NIGHT

Yield and Exceptionally Good Grade of Wheat Reported Throughout the Muleshoe Territory.

Harvesting in the Muleshoe territory afforded a splendid opportunity at this time to see what this grain can really produce. Combines were running day and night in the wheat fields throughout this section and trucks line the roads, loaded with the golden grain. As we go to press, a number of carloads have been shipped from here since the harvest began last Wednesday. The two elevators which are handling the crop are being operated at one time.

The first application for a marriage license in this territory was filed here Wednesday.

FIRST APPLICATION UNDER NEW MARRIAGE LAW WAS FILED HERE WEDNESDAY

The first application for a marriage license filed in the County Clerk's office in Bailey County, since the new marriage law became effective, was made this week. The contracting parties are Bill Hassenzahl of Leveland and Velma Morgan of Sudan.

MUSIC PUPILS ENTERTAINED

The music pupils of Mrs. C. S. Holland were entertained Friday afternoon, June 21, at the home of their teacher. The following program was given: "Green Pastures," Pauline Glascock and Mrs. Holland; "Tick Tock," Jean Willman; (a) "The Boatman's Tunes"; (b) "The Nodding Grass Star," W. B. Hicks, Jr., and Mrs. Holland; "Waiting for the Mail," Twila Farrell; "To A Wild Rose," Eunice Griffiths; "Pur Elise," Juno Glascock; Mazurka Elegante, Marguerite Hicks.

Following the program a musical game and contest were enjoyed and at the conclusion, a medal, offered to the student making the most progress during the nine months school term, was awarded to Eunice Griffiths. Refreshments were served to Misses Juno Glascock, Kathlene Willman, Marguerite Hicks, Twila Farrell, Eunice Griffiths, Jean Willman, Pauline Glascock and Master W. B. Hicks, Jr.

RECEIVES BROKEN ANKLE

Mrs. Walter Locke received a painful injury Wednesday afternoon when she fainted while getting out of her car near the depot. In falling, she had her ankle broken, and as there were no people near the station at that hour, it was some minutes before she was found and taken to the office of Dr. Matthews, who treated the injured ankle.

W. M. S. MEETING

The ladies of the W. M. S. Missionary Society met at the home of Mrs. W. B. Hicks with ten members present and one visitor.

The meeting was a social affair, so was turned over to the program leader, Mrs. Koons. The meeting opened by singing "Footsteps of Jesus." The Devotional reading was St. John's 1:39-42 and St. Luke 24:13-35.

Mrs. Nina Elrod read "The Call to Youth," and a vocal solo by Miss Opal Harvey was rendered, and a solo by Miss Iris Harden. Mrs. Hicks led in prayer. The meeting was then turned over to Mrs. Hicks, our President. A short business meeting was held, then the hostess served pineapple salad and ice tea. As each one departed they declared the hostess a very nice entertainer. The next meeting will be at the home of Mrs. Wyer. Reporter

Raising the Sea Wall

GOOD TIME PROMISED TO ALL WHO ATTEND FOURTH OF JULY CELEBRATION

"It won't be long now," Muleshoe's big Fourth of July celebration will be staged according to the plans of those in charge of the arrangements, and a good time is promised to all who come to town on that occasion. Next Thursday is the day.

The following attractions are announced: Morning-Horse races, mule race, pony race, burro race, greasy pig race, greasy pole climb, tug-of-war and guinea race.

Afternoon-Water fight, boys foot race, men's foot race, ladies' race, girls' race, sack race, potato race, three-leg race, fat men's race, old men's race (contestants to be 60 years of age), cracker contest, shoe tying contest and base ball game. Substantial prizes will be given in each one of these events.

In addition, \$75 in gold will be given away, as well as other prizes. Don't forget to ask for tickets when making purchases at the stores in Muleshoe during the Fourth. They may mean money to you.

AIRPORT OPENING FRIDAY

One of the biggest days in the history of Clovis will be on Friday of this week when the big airport is formally opened with appropriate ceremonies. Officials of the T. A. T. will be in attendance as well as many notables from the cities over New Mexico and West Texas. It is expected that Col. and Mrs. Chas. Lindbergh will be present, also Gov. Dillon, who is to be the guest of honor.

A big dance is to be held in the hangar at night. Three of the large planes which are to be used over the New York to Los Angeles route will be at the port for inspection.

LARGE MODERN LAYING HOUSE BEING ERECTED ON McADAMS POULTRY FARM

A new poultry house is being constructed on the McAdams Poultry Farm near Muleshoe. It is to be a modern laying house, 24 by 100 feet. This farm was established February 1, 1928, with a flock of 240 White Leghorn hens. During the first twelve months of its operation, a net profit of \$756.80 was realized from these hens.

Beginning with the original flock of hens on this farm, all flocks have been scientifically fed and cared for at all times, from the day they were hatched, until they were grown, and the same care has been continued throughout the producing stage.

As a result of such treatment, the farm has had a profit and is still doing so, hence the necessity for building more and larger houses to take care of the increased number of flocks.

With the pullets that are now coming in and the older hens that are already laying, the McAdams Poultry Farm will be the home of 2,000 or more pedigreed laying hens by next fall. Considering the fact that less than a year and a half ago the farm was started with only about 12 percent of this number, it is evident that the poultry business is a paying proposition when given the proper attention. Two essential points that should not be overlooked, however, are: The farm should be stocked with the very best grade of fowls, and all scientific care should be taken at all times.

LIGHT RAIN WEDNESDAY

After several days of hot weather, a good shower visited this section Wednesday evening. The rain was preceded by a strong wind and some hail fell, doing no serious damage however. As we go to press there has been no report of damage over the farm belt, and wheat was continuing to come into town this noon. Heaviest rain is reported west of Muleshoe. Reporter

QUARTERLY CONFERENCE CONVENES AT METHODIST CHURCH IN MULESHOE

The second Annual Group quarterly Conference of the Lubbock District convened with the local Methodist church at Muleshoe Wednesday, June 26th.

There are six towns in this group consisting of Leveland, Littlefield, Amherst, Sudan, Morton and Muleshoe. The reports from the several pastors indicate considerable progress in all phases of work.

The local Methodist church had the best report of all churches represented. The following were in attendance: George Terrintine, and Mr. Price of Littlefield; Rev. Shepperd, Mr. and Mrs. McGee, Mr. and Mrs. Wyatt, Mr. Holehauser, from Leveland; Mr. and Mrs. Dryden from Amherst and Sudan; Mr. and Mrs. Medlin, Mr. and Mrs. Frank Story, from Morton; D. B. Doak, O. H. Cline, W. T. Whiteside, K. Carter and Wesley Doak from Lubbock.

Lunch was served at the American Legion Home at 12:00 o'clock.

LOCAL VIOLIN TEACHER ON MUSICAL PROGRAM AT ALAMOGORDO MONDAY

At a musical program given by the Alamogordo Athletic Association at that place last Monday, Miss Virginia Egbert, who has been teacher of violin in Muleshoe for the past three years, rendered violin numbers, which is commented upon by the Alamogordo (N. M.) News as follows:

"One of the charming features of the evening was a violin number by Miss Virginia Egbert. This was the first time Miss Egbert has appeared before an Alamogordo audience, and she was accorded a generous applause. Her number in two parts was "Sourvenir de Wieniawski," by Haesche, and "Jeje Kaki," by Jeno Hubay. Miss Egbert showed herself to be an artist of splendid technique and training. It is to be hoped that she will be heard by Alamogordo audiences quite frequently. Miss Fidelia Duncan accompanied Miss Egbert at the piano."

REDO TO FEATURE BIG CELEBRATION AT AMARILLO JULY 3-5

Miller and King's Master Rodeo, to be staged at the Texan Park, which has a seating capacity of 7,500, under the auspices of the Tri-State Fair, at Amarillo, July 3, 4 and 5, is offering some of the greatest exhibitions of wild-west performances ever staged in the southwest.

Due to the fact that the Panhandle Plains wheat harvest will be on, President Wilbur C. Hawk has arranged for night as well as afternoon programs, thus enabling all farmers as well as business men to avail themselves of the entertainment.

Famous riders from all over the west will take part in the rodeo and all the features of the frontier days will be offered.

BREAKS OWN RECORD

SENATE AGAIN PASSES BILL TO CHANGE INAUGURAL DATE

By a vote of 64 to 9 the Senate agreed to Senator Norris' resolution proposing an amendment to the Constitution fixing the commencement of the terms of the President, Vice President and members of Congress and eliminating the short session of an old Congress following a general election.

The resolution, which has been agreed to in the Senate five times since 1922, in an identical or similar form, now goes to the House, where it has never received the two-thirds majority required for constitutional amendments. It was introduced in the Senate by Senator Norris of Nebraska, chairman of the Judiciary Committee.

The proposed amendment would fix the beginning of the terms of Senators and Representatives at noon, January 2, following the November election, and the commencement of the Presidential and Vice Presidential terms on January 15 following the election.

Sidewalks Would Help

One public asset to any town, whether large or small, is good sidewalks. This is an asset that is badly needed in Muleshoe, especially during wet weather. With a good system of sidewalks throughout the residence and business sections, together with cross walks at all street intersections, it would be much more convenient for the citizens of our town to attend to their daily affairs and to visit their neighbors, regardless of the mud and water in the streets. They would add to the good appearance of the town. Prospectors and other visitors to Muleshoe would be attracted by the nice walks and would speak a good word for the town. Such complimentary remarks have their value.

A sidewalk building campaign could be put on to advantage right now. Anyone who owns property in the town who does not have a sidewalk in front of their premises could start the move. Others would be almost sure to follow the example. At any rate, with a little agitation on the part of our industrial citizens, once the move is started it can be carried out successfully.

In view of the fact that there is a possibility of further street improvement, it would not be necessary to make the cross walks of expensive material but temporary crossings could be put down at small cost that would save more or less worry at times when the streets are practically impassable.

ADVICE TO MERCHANTS

In a recent radio talk, a well-known speaker had the following to say to the merchants of the small towns:

"To any merchants who may be listening in—I have a word of advice. Do not GIVE your local newspaper a dollar. Instead—BUY twice as much advertising as you think you can afford for a period of one year, then watch your business grow."

"The newspaper is an accurate mirror of the town in which it is published. If your town is a live town, one that can meet the intense competition of today, the newspaper will be filled each issue with snappy invitations to trade at the various business places of that town. Your newspaper is your weekly or daily contact with the people of your trade territory. Use it liberally and you will be surprised at the results. The merchants in any town where a real newspaper is published could afford to pay the subscription to the paper for every resident within 30 miles—they would get their money back many times over by increased contacts for their advertising messages.

"Boost for your newspaper—it is always boosting the community—and the boost you give will pay you big dividends."

AS GENERAL LEE SAW IT

In the early days of our country the famous General Robert E. Lee had been assigned to a post in New Mexico. To reach his destination, it was necessary for him to cross the great South Plains of Texas. It is said of him that after ascending the cap rock and riding out a distance, he was seen sitting on his horse, with his hat removed, thoughtfully gazing into the distance over the limitless acres of grass-covered lands. A subordinate approached him with the question, "General, what are you thinking about?" The reply was, "I am thinking of the unborn millions that will one day inhabit these fertile plains."—Exchange.

Produce Sam Says

We congratulate the farmers of this community for already having seen the advantages of diversified farming in making the farm pay. The cow, sow and the hen are bringing in a fine revenue for them.

German Officers Here to Study

Captain Warlimont of the Sixth Prussian Artillery regiment and Captain Speidel, Thirteenth Wuerttembergisches Infantry regiment, calling on acting chief of staff Brig. Gen. Albert J. Bowley to discuss the arrangement by which they have been detailed by the German government to receive instruction for one year in United States army service schools. At the right is Rudolf Leitner, first secretary of the German embassy.

FEDERAL GOVERNMENT ASKED TO AID RURAL SCHOOLS

The attention of the Advisory Committee on Education, organized to study ways in which the Federal Government may help education, has been called to the bill (H. R. 2570) to appropriate \$100,000,000 annually for rural schools, by the author of the proposal, Representative Brand of Urbana, Ohio.

Mr. Brand said that the cost of educating children in the rural schools is twice as great as the cost of educating them in the cities. "In the usual rural, consolidated school, there are twice as many trucks and truck drivers to carry children to school as there are teachers to instruct them," said Mr. Brand.

He pointed out that the high cost of education was responsible for a large part of the high taxes in rural communities, taxes which depressed land values and thereby diminished the capacity of that land to pay taxes.

Another hardship faced by the rural community is that many children, after \$2,000 has been spent on their education and \$2,600 on maintenance, go to the city and return no money to the country, said Mr. Brand. The Department of Agriculture had informed him, he said, that 200 children leave each county in Iowa for the cities every year.

WHAT 20 YEARS HAVE WROUGHT

The startling progress in the United States of industry, wages, luxuries and conveniences is secured by comparing some outstanding factors today and twenty years ago.

Twenty years ago the average working week was sixty hours, the average family income \$800, the average saving of ten million savings depositors \$700. Today the average working week of most workmen is forty-four hours, the average family income \$2,200, the average savings bank deposits of twenty-three million persons \$1,000.

Twenty years ago there were 312,000 automobiles; today there are 24,000,000. Twenty years ago there were no radios; today there are 8,000,000 sets. Twenty years ago there were 8,000,000 telephones; today there are 17,000,000.

FOREST FIRES REDUCED

Forest fires during the last five years on the National forests were held down for the entire period to about 1 1/2 percent of the total National forest area, the Forest Service reports. For the period 1924-'25, inclusive, the average area burned over each year was 570,795 acres—an average of 0.311 percent of the total National forest area—according to a compilation of fire data just completed by the Forest Service.

DESCRIPTION OF FARM RELIEF BILL

Washington, D. C.—Eight men designated by President Hoover will comprise the Federal Farm Board to work for stabilization of agriculture as contemplated in the farm relief bill finally approved by Congress.

The Secretary of Agriculture will serve as ex-officio member of the board without voting power.

The act represents the final expression of both legislative and executive branches of the Government to solve a problem which has troubled the country for nearly a decade.

The farm board will function with a half billion dollars at its command and with broadly defined powers based upon the theory that cooperative marketing controlled by the farmer himself can be made effective.

The immediate agencies through which the board will function are "compulsory" advisory councils. These will be set up for each main crop, or division of crops, as the board may decide, and will consult with the board as often as considered necessary.

On the basis of its own decisions and from the advice received from the commodity councils, the board is authorized to make loans to cooperative marketing associations to aid effectively in the marketing of crops, to construct suitable storing, processing and marketing facilities, to form clearing house associations and to conduct educational campaigns to increase the membership of cooperatives.

The heart of the bill so far as immediate circumstances are concerned, lies in the creation of stabilization corporations. The farm problem is considered to have been caused by the repeated existence of surplus, especially in the leading grains and cotton and the stabilization corporations will direct their attention to the surplus situation.

One stabilization corporation for each commodity is to be selected and each is authorized by the means of huge advantages of the board's half billion dollar revolving fund to buy up surplus stocks, store, process and dispose of them in such a way as is calculated to maintain a higher and steadier price level.

The bill has no equalization fee or debenture provision. The first was advocated so that the farmer himself could pay the cost of stabilization. The second was intended to boost the price of crops by giving exporters a debenture certificate amounting to one half the tariff on the commodity exported.

As it stands, the measure contemplates that the cooperatives and stabilization agencies must return to the treasury the money they borrow. It is hoped the organizations will function with profit. If there is a loss, the Government would stand it. The appointed members of the board will receive salaries of \$12,000 a year. After the board is first appointed, two members' terms will expire at the end of one year, two after two years, and two after six years. Thereafter all terms will be six years.

TO TEST HONEY

Although since the passage of the United States Food and Drug Act in 1906 only 16 cases of misbranded or adulterated honey have been called to the attention of the Food, Drug and Insecticide Administration at Washington, the stringent requirements on overheated honey in some foreign countries have made it desirable that all shipments of honey from this country be carefully examined as to quality. The Department of Agriculture, therefore, has made arrangements to include chemical tests of honey where official United States grade certificates are desired.

The Muleshoe baseball team lost another game to Rogers, N. M., last Sunday afternoon. Some of the regular players were absent and in spite of hard work and some really good playing by our boys, they could not cope with the Rogers team who, it is claimed, have not lost a game this season. The score was 14 to 2. The game was played at Rogers.

Dr. I. J. Sparks of Hereford was in Muleshoe yesterday. Dr. Sparks is seeking a new location to practice his profession and was favorably impressed with Muleshoe. He has been connected with the hospital at Hereford for several years.

What's Doing In West Texas

Paducah has broken ground for a new hotel. Charles Purden of Bowie will build a three-story fireproof hotel on some lots on the northeast corner of the public square. The hotel is expected to be ready for occupancy early in the fall.

Haskell is planning a big July 4 celebration, and is expecting the largest crowd ever assembled in the town. A variety of entertainments have been planned, including a barbecue and a series of motor cycle races.

Sweetwater building permits for 1928 neared the half million mark recently with the May permits standing at \$123,085. May building permits were more than one-third the total for the other four months of 1928, and strengthened indications that this would be a banner year for Sweetwater building.

Floydada's recent building permits have been \$100,000 with the announcement of the lease of a building to J. C. Penny on which will be spent \$2000. H. P. Watson Variety Company will occupy a building on which will be spent \$2,600 in remodeling. The Olympic Theatre will move to its new \$40,000 home this month.

Tuscola has started ditching on Main Street, preparatory to laying concrete curbs and guttering from the Santa Fe depot to the Abilene & Southern tracks, a distance of six blocks. It is intended to top the street with gravel and asphalt.

Petersburg's high school library will be left open during the summer on dated days. Magazines and books will be loaned, and as much time as desired may be spent in the reading room.

Lampasas is making plans to build a band stand for their Gold Medal Band, which has \$100 of the approximately \$600 necessary. The band has gone under the name of the Gold Medal Band ever since it won the title in the contest at a West Texas Chamber of Commerce convention.

Crosbyton has a farmer in the Owens community who has marketed over one thousand dollars worth of home-raised hogs in the last month. He also buys and feeds out several hundred hogs each year. The farmer, Sam B. Anthony, allows his boys to finance their schooling by working on the farm.

Vernon is the home of the new manager of the West Texas Chamber of Commerce. A. M. Bourland, president, will act as manager until during the annual convention at El Paso on October 24, 25 and 26. Former Manager Homer D. Wade will continue to officiate till July 15, when he will become manager of the Dallas Chamber.

West Texas Today for June will be mailed to more than 10,000 members of the West Texas Chamber of Commerce, this week. Some material for the publication is sent in by commercial executives, county agents and others, and some written by its editors and staff members of the regional organization.

Spearman's intensive sidewalk building campaign will keep the citizens from wading through mud, mire, sleet and snow next winter. Churches, schools and other public buildings will be connected by sidewalks to every part of town. Sand and gravel are being hauled at this time.

Turkey acquired its first unit of a chain of parks when two and one-half acres was recently purchased for a recreation center. The Turkey Enterprise and the Lions Club have cooperated in getting the park, and the equal of the park's cost is soon to be installed in equipment.

Van Horn and Roswell, N. M., will enter the Big Bend and Pecos Valley Inter-Mountain district conventions respectively of the WTCC during the fourth annual motorcade, the dates of which are from July 19 to 29. Approximately one hundred towns in the West Texas country will be visited by the motorcade.

HOUSE INVESTIGATION OF LAND BANKS URGED

Investigation of the Federal Joint Stock Land Bank administration by a special House Committee of seven members is proposed in a resolution introduced by Representative Crampton of Lapeer, Mich. It was referred to the House Committee on Rules. In an explanatory statement, Mr. Crampton called attention to failure of three joint stock land banks and unsatisfactory financial condition of others, adding that action at this session is desirable so that such an investigating committee may report to Congress at the regular session in December.

LIVESTOCK SHIPMENTS ARE NEW SERVICE BY TEXAS INTERURBAN

The McKinney Courier-Gazette reports carload livestock shipments on the interurban line of the Texas Electric are getting more frequent with six or seven carloads in one week from Howe, Van Alstyne and McKinney to Dallas or Fort Worth. "The people in the trade territory along its line appreciate the equipment and service the road offers them in the way of shipping facilities, which includes the handling of freight from the smallest parcel up to carload lots," says the Courier-Gazette.

EXPERTS LEARN WHAT BECOMES OF SNOW

The question of what becomes of the rain water and snow is answered by the Geological Survey as a result of a three-year study of Pomperaug Basin, in Connecticut, which is regarded as a typical area. This study was made in cooperation with the Connecticut State Geological and Natural History Survey. About 44 inches of water falls annually as rain or snow in this basin. Twenty-one inches of this flows out of the basin through streams. Twenty-three inches of it is returned to the atmosphere by the invisible process of evaporation from the soil, water surfaces, and surface objects and from being drawn up by roots of plants and given off through their leaves. Of the 21 inches of water that is carried away by the streams, 12 inches never gets into the ground but immediately runs off. About 8 inches of the river water first finds its way underground and reappears in springs and seeps. Enough water to cover the Pomperaug Basin area to a depth of 5 or 6 inches is every year drawn from underground by the roots of plants and released into the air.

NEW WAYS DEVELOPED TO MAKE ROAD SURFACES LAST LONGER

New developments in road construction and in truck design are contributing materially to the life of the road surface. The effect of six-wheel trucks on road pavements is only half as severe as the effect of four-wheel trucks of equal gross weight, according to tests by the Bureau of Public Roads. This indicates there is little doubt that the heavy trucks of the future will have six wheels. Large economies will result in the preservation of road surfaces and in wear and tear on vehicles, as well as in the cost of transportation by reason of the larger loads that may be carried on a single vehicle.

Experience has shown that fine crushed rock and gravel roads, of which there are thousands of miles in the Western States, are worn down at the rate of an inch a year and more by traffic of 500 vehicles a day. As a result of experiments conducted by the Highway Departments of Oregon and California, and the Bureau of Public Roads, a method of treating or "processing" these roads by mixture of light asphaltic oils with the surface course in place on the road has been developed which practically eliminates all wear, does away with the dust nuisance and forms an incomparably smoother, better road. The new method of construction is now being widely adopted.

Similar methods for the treatment of sand-clay and topsoil roads in the South, developed by the bureau in cooperation with the Highway Department of South Carolina, are being employed on a large scale in that area with similarly successful results and large economies.

Perryton—Five new bricks under construction, and many new homes being built.

Muleshoe, Texas

CITATION BY PUBLICATION

THE STATE OF TEXAS. TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY—GREETING:

You are hereby commanded, as you have once heretofore been commanded to summon L. O. Smallidge, to summon L. O. Smallidge, whose residence is unknown, and the wife, or wives, of L. O. Smallidge, whose name or names are unknown, and the heirs, devisees, legatees, and legal representatives of L. O. Smallidge and his wife or wives, and of each of them, the name of each of whom is unknown, by making publication of this citation once each week for four consecutive weeks previous to the return day hereof in some newspaper published in Bailey County, Texas; if there be a newspaper published therein, and, if not, then in the nearest county where a newspaper is published, to be and appear before the 69th Judicial District Court of Farmer County, Texas, at the next regular term thereof, to be begun and holden at the courthouse thereof in Farwell, Farmer County, Texas, on the second Monday in July, A. D. 1929, same being the 8th day of July, 1929, then and there to answer the second amended original petition of E. K. Warren & Son, a Michigan corporation, with a permit to do business in the State of Texas, filed in said court on the 30th day of May, A. D. 1929, in a certain suit pending in said court, styled E. K. Warren & Son vs. L. O. Smallidge et al. No. 744 on the docket of said court, wherein plaintiff's original petition was filed on June 5, 1928, and wherein E. K. Warren & Son is plaintiff and L. O. Smallidge, his unknown wife, or wives, and the unknown heirs, devisees, legatees, and legal representatives of L. O. Smallidge and his unknown wife, or wives, and of each of them, are defendants, the nature of plaintiff's cause of action being briefly as follows:

First Count: Plaintiff sues in trespass to try title alleging that about January 1, 1927, it was lawfully seized and possessed of the following described land located in Farmer and Bailey Counties, Texas, to-wit: North 132 acres of Section No. 88 in Capitol League No. 585, Block "X" W. D. and F. W. Johnson's Subdivision in Farmer and Bailey Counties, State of Texas, holding and claiming the same in fee simple; that on said date the defendants unlawfully entered upon and ejected plaintiff from said premises and unlawfully withheld from its possession thereof the sum of \$1000.00; that the reasonable annual rental value of said premises is the sum of \$500.00; that plaintiff holds title to said premises by virtue of regular and unbroken chain of conveyances from the sovereignty of the soil; that plaintiff holds superior legal title to said premises by virtue of retention of express vendor's lien in deed from plaintiff to L. O. Smallidge dated Oct. 8, 1925 conveying said property; that plaintiff is entitled to recover title and possession of said premises from defendants. Second Count: In the alternative, plaintiff alleges execution and delivery by L. O. Smallidge of deed conveying to L. O. Smallidge said real estate on Oct. 8, 1925; execution and delivery to plaintiff by said L. O. Smallidge in part payment for said land of 10 vendor's lien notes dated Nov. 1, 1926 payable to plaintiff, signed by L. O. Smallidge, bearing 10% interest, containing usual 10% attorney's fee clause, numbered 1 to 10, inclusive, due annually in numerical consecutive order beginning Nov. 1, 1926, each note being for \$300.00; that said deed expressly retained a vendor's lien on said real estate to secure payment of said notes; also execution by said L. O. Smallidge of usual form of deed of trust on said real estate to Wm. H. Kramer, trustee, dated Feb. 5, 1926; also securing said notes; non-payment of said notes maturing Nov. 1, 1926 and Nov. 1, 1927; acceleration of maturity of all said notes in accordance with provisions of said notes; default in the payment of all of said notes by defendants except as to interest to Nov. 1, 1926, to plaintiff's damage in sum of, to-wit: \$3700.00; accrual of 10% attorney's fee and of plaintiff's right to foreclose its vendor's and deed of trust liens on said real estate securing payment of said notes. Plaintiff prays judgment against defendants for title and possession of said property, writ of restitution, rents, damages and costs of suit; or in the alternative judgment for its debt evidenced by said notes, costs of suit, foreclosure of its vendor's and deed of trust liens on said property, for sale of said property in satisfaction of the judgment herein rendered, order of sale with force of writ of possession, that officer executing such writ place purchaser in possession of said property within thirty days after sale; plaintiff prays also for general relief in any event.

HEREIN FAIL NOT but have you before said court on said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same. Witness Gordon McCuan, Clerk of the 69th Judicial District Court of Farmer County, Texas. Given under my hand and seal of said court in office at Farwell, Texas, this 30th day of May, A. D. 1929. (Seal) GORDON McCUAN, Clerk, 69th Judicial District Court, Farmer County, Texas.

BEIGE AND BROWN COLOR SCHEMES EXPLOITED FOR DAYTIME ENSEMBLES

Ensembles which combine gay print with plain continue to feature on fashion's "front page." If the print in question happens to be a handsome silk in shades of beige and brown, and the material from which the coat is made, a beige basket weave, as instanced in the model pictured, then indeed are Madam Mode's instructions carried out to the letter. In regard to beige and brown and similar tones, they are the chic colors for the immediate moment—a fact attested in matter of costumes for every hour of the day and evening. The theory that brown and associated shades are strictly an autumn and mid-winter proposition has been disproved. Quite the smartest suits for travel and town wear are those tailored of soft leafy brown, ivory, the bloom of tangerine crepe, linen or satin climaxes the color study. For evening the frock of dusky brown net, nicely befringed and ex-

trusely bouffant, has become a favorite with the smart set. As to daytime ensembles of silk print, when done in tones of browns and yellows or creamy beige the topnotch of chic is achieved. Accessories which highlight the new browns, ranging from pale beige to vibrant reddish browns and on to darker tones, are outstanding. Especially in the matter of scarfs is brown played in every key. Favorite types are the long narrow scarfs formed of patches of brown, capucine and cream or pale beige silk seamed together in triangles or squares. A scarf in tones of brown calls for a pocketbook repeating the same colors. Among the handsomest handbags exploited this season are those corded in a solid patterning. When carried out in tones of brown and capucine they are especially attractive. JULIA BOTTOMLEY. (© 1929, Western Newspaper Union.)

RESTRICTION OPOSED ON TRADE FILMS

A protest against threatened French action requiring the American purchase of one French motion-picture film for every four American films imported into France was made in the Senate by Senator Shortridge of California. At the same time he introduced a resolution calling upon the Department of State for its protest against this action and all correspondence on the subject.

25,800 DEATHS DUE TO AUTO ACCIDENTS DURING 1928

Automobile accidents in the United States last year caused the loss of 25,800 lives, an increase of more than 400 percent in 17 years, according to W. H. Cameron, managing director of the American Safety Council. Electric railway fatalities have steadily decreased, showing only one death out of each 155,000,000 passengers in 1928.

HEADQUARTERS FOR EVERLITE FLOUR. HENINGTON'S GROCERY And Market

KNOW TEXAS

Texas is the leading Jersey cattle State in the Union, having passed Ohio, which formerly held the distinction. On January 1, 1929, there were 955,000 milk cows and heifers in Texas, an increase of 16,000 over 1928. Their value at \$61 a head was \$58,255,000. Texas' assessed values have increased 50 percent since 1913. Actual property values in Texas (\$9,850,888,000 in 1922) are estimated at more than \$12,500,000,000 now. In 1861 Texas assessed values were \$256,784,482. Texas truck growers are annually shipping 60,000 cars of fruit and vegetables to market, a development that largely has come about within the past fifteen years. The sweet potato has the distinction of leading in value the strictly vegetable crops of Texas.

Town Talk

Mrs. J. C. Hammonds was a Clovis visitor Monday.

H. A. Towery visited home folks in Plainview Friday.

Frances E. Miller of Sudan was in Muleshoe Tuesday.

Miss Maudie Douglass is visiting in Lubbock this week.

Miss Helen and Norma Elrod are visiting relatives in San Angelo.

V. C. Nelson of Sudan was a Muleshoe visitor Friday of last week.

A. J. DeBord and family visited Mrs. Doris Davis at Portales Sunday.

Mrs. G. A. Anderson and daughter, Fannie, were in Clovis last Thursday.

Mrs. I. F. Willman left last week for a visit with relatives in Nebraska.

Judge J. E. Dryden of Sudan was in town Wednesday on official business.

Mrs. Jess Elrod returned to her home in San Angelo Thursday of last week.

R. A. Thompson and son, Aubrey, were in White Deer the first of the week.

Mr. and Mrs. J. M. March and little daughter are in Hollis, Oklahoma this week.

Sherman Vance left Monday for Chicago, Ill., where he expects to enter school.

Mrs. John Fischer of Fillmore, Calif. was the guest of friends in Muleshoe Sunday.

J. C. Barron, cashier of the First National Bank of Sudan, was in town Thursday.

Jane and Marie Bucy have returned home from an extended visit in Long Beach, California.

H. C. Edmonds spent Sunday in Lubbock, the guest of Mr. and Mrs. Carl Slaton of that city.

Mrs. R. R. White and little daughter, of Lamesa are visiting in the home of Mr. and Mrs. E. J. Vance.

Miss Alva Douglass, who is attending summer school in Lubbock, spent the week-end with homefolks.

Messrs. Bill Porter and Milton Webb of Shamrock spent Sunday here, the guests of Miss Fannie Anderson.

Mrs. Alex. Paul has returned home from Clovis, where she has been in the Baptist Sanitarium for several days.

Mrs. L. Sikes and grandfather, Mr. Crow, of Abernathy, and Miss Fannie Anderson were in Lubbock Wednesday.

Miss Dorothy Wentland returned from Fillmore, California, Sunday and left Monday afternoon for her home in Chicago, Ill.

Sam Isenberg of Clovis stopped over for a short time in Muleshoe last Sunday. He was on his way to Lubbock to meet Mrs. Isenberg and children, who have been visiting in Dallas. Mr. Isenberg owns the Everybody's Store at Sudan and Clovis.

G. W. Hildebrandt and wife of Oklahoma City arrived here on Thursday of last week. They went out to their farm in the Longview community, where Mr. Hildebrandt has been looking after the work of harvesting his grain.

ELECTION NOTICE

Pursuant to the election proclamation issued by the Governor of Texas, notice is hereby given that an election will be held on Tuesday, the sixteenth day of July, 1929.

In each voting box of the four Commissioner's Precincts of Bailey County, Texas for the purpose of voting for or against the amendment to the State Constitution providing for a supreme court of nine members, and for continuous session of that court.

For or against the Amendment to the Constitution of the State of Texas fixing the salary of the Governor.

J. E. ADAMS, County Judge, Bailey County, Texas.

SPECIAL ELECTION NOTICE

From each of the Commissioner's Precincts of Bailey County a petition was presented to the Commissioner's Court asking that an order be passed calling a special election for the purpose of voting a special road tax not to exceed 15 cents on the \$100 valuation, and in pursuant to an order by the Honorable Commissioner's Court of Bailey County, Texas, on the 16th day of June, notice is hereby given that an election will be held on the 16th day of July, A. D. 1929 in each voting box of the four Commissioner's Precincts for the following purpose:

To vote for or against a special road tax not to exceed 15 cents on the \$100 valuation.

J. E. ADAMS, County Judge, Bailey County, Texas

AND THIS IS THAT THING CALLED "ELECTRICITY"

At last there is a satisfactory definition for electricity. The New York State Committee on Public Utility Information says:

"Electricity is something that starts the Lord knows where and ends in the same place. It is 1-36 of a second faster on its feet than its nearest competitor, back yard gossip, and when turned loose in Europe will get to the United States five hours before it starts. Nobody knows exactly what it is because it has never stood still long enough.

"Electricity is sometimes known as science gone crazy with the heat, and if you can understand its manoeuvres you can do anything with it except open a can of peanut butter at a picnic.

"Electricity was locked up in ignorance for centuries until Ben Franklin let it out with a pass key, and since then it has been pulling off more new stunts than a pet monkey.

"With it you can start a conversation, or stop one permanently, cook dinner, curl your hair, press your trousers, blow up a battleship, run an automobile or signal Mars, and many more things are being invented."

Miss Gertrude Short returned Wednesday from a few days visit in Lubbock.

T. S. Bryson of Plainview, formerly engaged in the lumber business in Muleshoe, was here Thursday on business.

Telegrams Sent to Governor Moody Anent White House Action Published by Request

We have been requested to publish the following telegrams, copies of which were sent to John N. James, Republican Chairman of Bailey County. The telegrams were addressed to Governor Dan Moody. One of them authorized by R. B. Creager, Republican National Chairman of Texas, the other by J. F. Lucey of Dallas, who was Vice-President of the Associated Hoover Clubs of Texas during the Presidential campaign. The telegrams were sent to the Governor urging him not to sign the Resolution condemning the entangling at tea of the wife of the negro congressman from Illinois. Editor's note.

Brownsville, Texas, June 20, 1929.

Hon. Dan Moody, Governor of the State of Texas, Austin, Texas.

Invitations to these affairs are extended to the wives of all members and are based on lists furnished by officers of the House and Senate. On this occasion Mrs. DePriest, as the wife of Congressman DePriest, was invited to one of a series of teas for the wives of members of the House and Senate. The names of none on the official list were omitted. The affair was wholly official and not personal or social. The President had not the slightest idea or intention of creating, destroying, or in any manner effecting existing social or racial lines or barriers. During the last Democratic administration, from 1913 to 1921, persons of negro blood were on various occasions invited to the White House table. The then Minister to Haiti, Bolonnenos, and his wife, both negroes were invited to attend diplomatic dinners at the White House on the following dates: Jan. 2, 1914; Jan. 21, 1916; Jan. 23, 1916; Jan. 9, 1917 and Jan. 10, 1917. Texas and the South will not and cannot profit by the preaching of a doctrine of hate.

Robert B. Creager.

Dallas, Texas, June 20, 1929

Hon. Dan Moody, Governor of the State of Texas, Austin, Texas.

I hope you will not by signing the resolution of the Legislature of Texas subject our State to the scorn that gentlemen everywhere will feel by this unwarranted insult to the first lady of the land and the contempt that informed people will hold towards this display of ignorance of White House custom confirmed by Grover Cleveland and Woodrow Wilson. This White House custom is purely official, everyone realizes that these functions are official and not social. It has long been the rule followed strictly by Woodrow Wilson and Grover Cleveland and all other Presidents of the United States that all persons in official life, their wives and families should officially be invited to open official gatherings in the White House. There is no discrimination to be made by the President or by the first lady of the land of names or to omit any name from the list which is furnished by Congress or the Diplomatic Corps. I trust that you will not add to this attempted disgrace of Texas by signing this Resolution. Certainly there is enough chivalry left in the State of Texas not to attack in this manner the first lady. In the light of reason, chivalry and justice, I believe you should return the Resolution to the Legislature.

J. F. Lucey.

SENATOR SMOOT WOULD PUT CIGARETTES UNDER DRUG LAW

Inclusion of tobacco and tobacco products within the scope of food and drug is provided in a bill (Senate 1468) introduced in the Senate by Senator Smoot of Utah. The measure, Senator Smoot stated, would also empower the food and drug insecticide administration to proceed against tobacco manufacturers whose advertisements and sales claims are partly or wholly unjustified by facts.

HOOVER'S OIL POLICY QUESTIONED IN SENATE

President Hoover's oil conservation policy of restricting drillings and leases on the public domain has been questioned in the Senate as the result of the discussion of the subject which has taken place at the oil conservation conference in Colorado Springs, Colo., at the suggestion of Mr. Hoover. The conference at which the Federal Government was represented by the Secretary of the Interior, Ray Lyman Wilbur; the Director of the Geological Survey, George Otis Smith, and Mark L. Requa of California, special representative of the President, was called in an effort to obtain an interstate agreement which would control the production in privately-owned and operated fields by limited drilling.

ADVICE TO MERCHANTS

In a recent radio talk, a well-known speaker had the following to say to the merchants of the small towns:

"To any merchants who may be listening in—I have a word of advice. Do not GIVE your local newspaper a dollar. Instead—BUY twice as much advertising as you think you can afford for a period of one year, then watch your business grow."

"The newspaper is an accurate mirror of the town in which it is published. If your town is a live town, one that can meet the intense competition of today, the newspaper will be filled each issue with snappy invitations to trade at the various business places of that town. Your newspaper is your weekly or daily contact with the people of your trade territory. Use it liberally and you will be surprised at the results. The merchants in any town where a real newspaper is published could afford to pay the subscription to the paper for every resident within 30 miles—they would get their money back many times over by increased contacts for their advertising messages."

"Boost for your newspaper—it is always boosting the community—and the boost you give will pay you big dividends."

AS GENERAL LEE SAW IT

In the early days of our country the famous General Robert E. Lee had been assigned to a post in New Mexico. To reach his destination, it was necessary for him to cross the great South Plains of Texas. It is said of him that after ascending the cap rock and riding out a distance, he was seen sitting on his horse with his hat removed, thoughtfully gazing into the distance over the limitless acres of grass-covered lands. A subordinate approached him with the question, "General, what are you thinking about?" The reply was, "I am thinking of the unborn millions that will one day inhabit these fertile plains."—Exchange.

German Officers Here to Study

Captain Warlimont of the Sixth Prussian Artillery regiment and Captain Speidel, Thirteenth Wuerttembergisches Infantry regiment, calling on acting chief of staff Brig. Gen. Albert J. Bowley to discuss the arrangement by which they have been detailed by the German government to receive instruction for one year in United States army service schools. At the right is Rudolf Leitner, first secretary of the German embassy.

FEDERAL GOVERNMENT ASKED TO AID RURAL SCHOOLS

The attention of the Advisory Committee on Education, organized to study ways in which the Federal Government may help education, has been called to the bill (H. R. 2570) to appropriate \$100,000,000 annually for rural schools, by the author of the proposal, Representative Brand of Urbana, Ohio.

Mr. Brand said that the cost of educating children in the rural schools is twice as great as the cost of educating them in the cities. "In the usual rural, consolidated school, there are twice as many trucks and truck drivers to carry children to school as there are teachers to instruct them," said Mr. Brand.

He pointed out that the high cost of education was responsible for a large part of the high taxes in rural communities, taxes which depressed land values and thereby diminished the capacity of that land to pay taxes.

Another hardship faced by the rural community is that many children, after \$2,000 has been spent on their education and \$2,000 on maintenance, go to the city and return no money to the country, said Mr. Brand. The Department of Agriculture had informed him, he said, that 200 children leave each county in Iowa for the cities every year.

DESCRIPTION OF FARM RELIEF BILL

Washington, D. C.—Eight men designated by President Hoover will comprise the Federal Farm Board to work for stabilization of agriculture as contemplated in the farm relief bill finally approved by Congress.

The Secretary of Agriculture will serve as ex-officio member of the board without voting power.

The act represents the final expression of both legislative and executive branches of the Government to solve a problem which has troubled the country for nearly a decade.

The farm board will function with a half billion dollars at its command and with broadly defined powers based upon the theory that cooperative marketing controlled by the farmer himself can be made effective. The farm board will study production methods, transportation conditions, marketing problems and other fields which affect agriculture and will make its findings available to the farmer.

The immediate agencies through which the board will function are "compulsory" advisory "councils." These will be set up for each main crop, or division of crops, as the board may decide, and will consult with the board as often as considered necessary.

On the basis of its own decisions and from the advice received from the commodity councils, the board is authorized to make loans to cooperative marketing associations to aid effective marketing of crops, to construct suitable storing, processing and marketing facilities, to form clearing house associations and to conduct educational campaigns to increase the membership of cooperatives.

The heart of the bill, so far as immediate circumstances are concerned, lies in the creation of stabilization corporations. The farm problem is considered to have been caused by the repeated existence of surplus, especially in the leading grains and cotton and the stabilization corporations will direct their attention to the surplus situation.

One stabilization corporation for each commodity is to be selected and each is authorized by the means of huge advantages of the board's half billion dollar revolving fund to buy up surplus stocks, store, process and dispose of them in such a way as is calculated to maintain a higher and steadier price level.

The bill has no equalization fee or debenture provision. The first was advocated so that the farmer himself could pay the cost of stabilization. The second was intended to boost the price of crops by giving exporters a debenture certificate amounting to one half the tariff on the commodity exported.

As it stands, the measure contemplates that the cooperatives and stabilization agencies must return to the treasury the money they borrow. It is hoped the organizations will function with profit. If there is a loss, the Government would stand it. The appointed members of the board will receive salaries of \$12,000 a year. After the board is first appointed, two members' terms will expire at the end of one year, two after two years, and two after six years. Thereafter all terms will be six years.

TO TEST HONEY

Although since the passage of the United States Food and Drug Act in 1906 only 16 cases of misbranded or adulterated honey have been called to the attention of the Food, Drug and Insecticide Administration at Washington, the stringent requirements on overheated honey in some foreign countries have made it desirable that all shipments of honey from this country be carefully examined as to quality. The Department of Agriculture, therefore, has made arrangements to include chemical tests of honey where official United States grade certificates are desired.

The Muleshoe baseball team lost another game to Rogers, N. M., last Sunday afternoon. Some of the regular players were absent and in spite of hard work and some really good playing by our boys, they could not cope with the Rogers team who, it is claimed, have not lost a game this season. The score was 14 to 2. The game was played at Rogers.

Dr. I. J. Sparks of Hereford was in Muleshoe yesterday. Dr. Sparks is seeking a new location to practice his profession and was favorably impressed with Muleshoe. He has been connected with the hospital at Hereford for several years.

What's Doing In West Texas

Paducah has broken ground for a new hotel. Charles Purden of Bowie will build a three-story fireproof hotel on some lots on the northeast corner of the public square. The hotel is expected to be ready for occupancy early in the fall.

Haskell is planning a big July 4 celebration, and is expecting the largest crowd ever assembled in the town. A variety of entertainments have been planned, including a barbecue and a series of motor cycle races.

Sweetwater building permits for 1926 neared the half million mark recently with the May permits standing at \$123,095. May building permits were more than one-third the total for the other four months of 1926, and strengthened indications that this would be a banner year for Sweetwater building.

Floydada's recent building permits have been \$10,000 with the announcement of the lease of a building to J. C. Penny on which will be spent \$2000. H. P. Watson Variety Company will occupy a building on which will be spent \$2,600 in remodeling. The Olympic Theatre will move to its new \$40,000 home this month.

Tuscola has started ditching on Main Street, preparatory to laying concrete curbs and gutters from the Santa Fe depot to the Abilene & Southern tracks, a distance of six blocks. It is intended to top the street with gravel and asphalt.

Petersburg's high school library will be left open during the summer on stated days. Magazines and books will be loaned, and as much time as desired may be spent in the reading room.

Lampasas is making plans to build a band stand for their Gold Medal Band, which has \$100 of the approximately \$600 necessary. The band has gone under the name of the Gold Medal Band ever since it won the title in the contest at a West Texas Chamber of Commerce convention.

Crosbyton has a farmer in the Owens community who has marketed over one thousand dollars worth of home-raised hogs in the last month. He also buys and feeds over several hundred hogs each year. The farmer, Sam B. Anthony, allows his boys to finance their schooling by working on the farm.

Vernon is the home of the new manager of the West Texas Chamber of Commerce. A. M. Bourland, president, will act as manager until during the annual convention at El Paso on October 24, 25 and 26. Former Manager Homer D. Wade will continue to officiate till July 15, when he will become manager of the Dallas Chamber.

West Texas Today for June will be mailed to more than 10,000 members of the West Texas Chamber of Commerce this week. Some material for the publication is sent in by commercial executives, county agents and others, and some written by its editors and staff members of the regional organization.

Spearman's intensive sidewalk building campaign will keep citizens from wading through mud, mire, sleet and snow next winter. Churches, schools and other public buildings will be connected by sidewalks to every part of town. Sand and gravel are being hauled at this time.

Turkey acquired its first unit of a chain of parks when two and one-half acres was recently purchased for a recreation center. The Turkey Enterprise and the Lions Club have cooperated in getting the park, and the equal of the park's cost is soon to be installed in equipment.

Van Horn and Roswell, N. M., will enter the Big Bend and Pecos Valley Inter-Mountain district conventions respectively of the WTCC during the fourth annual motorcade, the dates of which are from July 10 to 20. Approximately one hundred towns in the West Texas country will be visited by the motorcade.

HOUSE INVESTIGATION OF LAND BANKS URGED

Investigation of the Federal Joint Stock Land Bank administration by a special House Committee of seven members is proposed in a resolution introduced by Representative Cramton of Lapeer, Mich. It was referred to the House Committee on Rules. In an explanatory statement, Mr. Cramton called attention to failure of three joint stock land banks and unsatisfactory financial condition of others, adding that action at this session is desirable so that such an investigating committee may report to Congress at the regular session in December.

LIVESTOCK SHIPMENTS ARE NEW SERVICE BY TEXAS INTERURBAN

The McKinney Courier-Gazette reports carload livestock shipments over the interurban line of the Texas Electric are getting more frequent with six or seven carloads in one week from Howe, Van Alstyne and McKinney to Dallas or Fort Worth. "The people in the trade territory along its line appreciate the equipment and service the road offers them in the way of shipping facilities, which includes the handling of freight from the smallest parcel up to carload lots," says the Courier-Gazette.

EXPERTS LEARN WHAT BECOMES OF SNOW

The question of what becomes of the rain water and snow is answered by the Geological Survey as a result of a three-year study of Pomeroy Basin, in Connecticut, which is regarded as a typical area. This study was made in cooperation with the Connecticut State Geological and Natural History Survey. About 44 inches of water falls annually as rain or snow in this basin. Twenty-one inches of this flows out of the basin through streams. Twenty-three inches of it is returned to the atmosphere by the invisible process of evaporation from the soil, water surfaces, and surface objects and from being drawn up by roots of plants and given off through their leaves. Of the 21 inches of water that is carried away by the streams, 12 inches never gets into the ground but immediately runs off. About 8 inches of the river water first finds its way underground and reappears in springs and seeps. Enough water to cover the Pomeroy Basin area to a depth of 5 or 6 inches is every year drawn from underground by the roots of plants and released into the air.

NEW WAYS DEVELOPED TO MAKE ROAD SURFACES LAST LONGER

New developments in road construction and in truck design are contributing materially to the life of the road surface. The effect of six-wheel trucks on road pavements is only half as severe as the effect of four-wheel trucks of equal gross weight, according to tests by the Bureau of Public Roads. This indicates there is little doubt that the heavy trucks of the future will have six wheels. Large economies will result in the preservation of road surfaces and in wear and tear on vehicles, as well as in the cost of transportation by reason of the larger loads that may be carried on a single vehicle.

Experience has shown that fine crushed rock and gravel roads, of which there are thousands of miles in the Western States, are worn down at the rate of an inch a year and more by traffic of 500 vehicles a day. As a result of experiments conducted by the Highway Department of Oregon and California, and the Bureau of Public Roads, a method of treating or "processing" these roads by mixture of light asphaltic oils with the surface course in place on the road has been developed which practically eliminates all wear, does away with the dust nuisance and forms an incomparably smoother, better road. The new method of construction is now being widely adopted.

Similar methods for the treatment of sand-clay and topsoil roads in the South, developed by the bureau in cooperation with the Highway Department of South Carolina, are being employed on a large scale in that area with similarly successful results and large economies.

Perryton—Five new bricks under construction, and many new homes being built.

"When business is good, advertise SOME for more business; when business is bad, advertise MORE for some business."

Where Are You Going This Summer ?

Won't you come in and talk over with us the conditions your tires must meet? You want to travel without tire trouble, yet you wish to spend as little as necessary for tires right now. We'll study your needs and give you our honest advice.

Perhaps a low-price Goodyear Pathfinder will do fine. Again, it may be worth while to use Goodyear All-Weathers—regular or heavy duty. Or you may have a real economical need for Goodyear Double Eagles. We'll tell you, frankly, and we won't try to sell you a better grade of tire than you really should buy.

This is the real way to save money and bother on tires—to put your problems up to tire specialists who know the business and will honestly advise you. We also take into consideration how long you'll keep the car after you come back.

Millions More People Now Ride on Goodyear Tires!
Because Experience Proves Them The Best.

Phone No. 12

CITATION BY PUBLICATION

THE STATE OF TEXAS.
TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY—
GREETING:

You are hereby commanded, as you have once heretofore been commanded to summon L. O. Smallidge, whose residence is unknown, and the wife, or wives, of L. O. Smallidge, whose name or names are unknown, and the heirs, devisees, legatees, and legal representatives of L. O. Smallidge and his wife or wives, and of each of them, the name of each of whom is unknown, by making publication of this citation once each week for four consecutive weeks previous to the return day hereof in some newspaper published in Bailey County, Texas, if there be a newspaper published therein, and, if not, then in the nearest county where a newspaper is published, to be and appear before the 69th Judicial District Court of Parmer County, Texas, at the next regular term thereof, to be begun and holden at the courthouse thereof in Farwell, Parmer County, Texas, on the second Monday in July, A. D. 1929, same being the 8th day of July, 1929, then and there to answer the second amended original petition of E. K. Warren & Son, a Michigan corporation, with a permit to do business in the State of Texas, filed in said court on the 30th day of May, A. D. 1929, in a certain suit pending in said court styled E. K. Warren & Son vs. L. O. Smallidge et al. No. 744 on the docket of said court, wherein plaintiff's original petition was filed on June 5, 1928, and wherein E. K. Warren & Son is plaintiff and L. O. Smallidge, his unknown wife, or wives, and the unknown heirs, devisees, legatees, and legal representatives of L. O. Smallidge and his unknown wife, or wives, and of each of them, are defendants, the nature of plaintiff's cause of action being briefly as follows:

First Count: Plaintiff sues in trespass to try title alleging that about January 1, 1927, it was lawfully seized and possessed of the following described land located in Parmer and Bailey Counties, Texas, to-wit: North 132 acres of Section No. 88 in Capitol League No. 585, Block "Y" W. D. and F. W. Johnson's Subdivision in Parmer and Bailey Counties, State of Texas, holding and claiming the same in fee simple; that on said date the defendants unlawfully entered upon and ejected plaintiff from said premises and unlawfully withheld from it possession thereof to plaintiff's damage in the sum of \$100.00; that the reasonable annual rental value of said premises is the sum of \$500.00; that plaintiff holds title to said premises by virtue of regular and unbroken chain of conveyances from the plaintiff's ancestor, to-wit: that plaintiff holds superior legal title to said premises by virtue of retention of express vendor's lien in deed from plaintiff to L. O. Smallidge dated Oct. 8, 1925 conveying said property; that plaintiff is entitled to recover title and possession of said premises from defendants. Second Count: In the alternative, plaintiff alleges execution and delivery by it to L. O. Smallidge of deed conveying to L. O. Smallidge said real estate on Oct. 8, 1925; execution and delivery to plaintiff by said L. O. Smallidge in part payment for said land of 10 vendor's lien notes dated Nov. 1, 1925 payable to plaintiff, signed by L. O. Smallidge, bearing 10% interest, containing usual 18% attorney's fee clause, numbered 1 to 10, inclusive, due annually in numerical consecutive order beginning Nov. 1, 1926, each note being for \$300.00; that said notes expressly retained a vendor's lien on said real estate to secure payment of said notes; also execution by said L. O. Smallidge of usual form of deed of trust on said real estate to Wm. H. Kimer, trustee, dated Feb. 5, 1926; also securing said notes; plaintiff's ownership of said notes; non-payment of said notes maturing Nov. 1, 1926 and Nov. 1, 1927; acceleration of maturity of all said notes; to secure property with provisions of said notes; default in the payment of all of said notes by defendants except as to interest to Nov. 1, 1926, to plaintiff's damage in sum of, to-wit \$700.00; accrual of 10% attorney's fee and of plaintiff's right to foreclose its vendor's and deed of trust liens on said real estate securing payment of said notes. Plaintiff prays judgment against defendants for title and possession of said property, writ of restitution, rents, damages and costs of suit; or in the alternative judgment for its debt evidenced by said notes, costs of suit, foreclosure of its vendor's and deed of trust liens on said property for sale of said property in satisfaction of the judgment herein rendered, order of sale with force of writ of possession, that officer executing such writ place purchaser in possession of said property within three days after sale; plaintiff prays also for general relief in any event.

HEREIN FAIL NOT to have you before said court on said first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness Gordon McCuan, Clerk of the 69th Judicial District Court of Parmer County, Texas.

Given under my hand and seal of said court in office at Farwell, Texas, this 30th day of May, A. D. 1929.

(Seal) GORDON McCUAN, Clerk, 69th Judicial District Court, Parmer County, Texas.

BEIGE AND BROWN COLOR SCHEMES EXPLOITED FOR DAYTIME ENSEMBLES

Ensembles which combine gay print with plain continue to feature on fashion's "front page." If the print in question happens to be a handsome silk in shades of beige and brown, and the material from which the coat is made, a beige basket weave, as instanced in the model pictured, then indeed are Madam Mode's instructions carried out to the letter.

In regard to beige and brown and shadings thereon, they are the chic colors for the immediate moment—a fact attested in matter of costumes for every hour of the day and evening. The theory that brown and associated shades are strictly an autumn and mid-winter proposition has been disproved. Quite the smartest suits for travel and town wear are those tailored of soft leafy brown covert. The blouse of tangerine crepe, linen or satin cinna-mizes the color study.

For evening the frock of dusky brown net, muchly beruffled and ex-

travely bouffant, has become a favorite with the smart set. As to daytime ensembles of silk print, when done in tones of browns and yellows or creamy beige the toptouch of chic is achieved.

Accessories which highlight the new browns, ranging from pale beige to vibrant reddish browns and on to darker tones, are outstanding. Especially in the matter of scarfs is brown played in every key. Favorite types are the long narrow scarfs formed of patches of brown, capucine and cream or pale beige silk seamed together in triangles or squares.

A scarf in tones of brown calls for a pocketbook repeating the same colors. Among the handsomest handbags exploited this season are those corded in a solid patterning. When carried out in tones of brown and capucine they are especially attractive.

JULIA BOTTOMLEY.
(©, 1929, Western Newspaper Union.)

RESTRICTION OPPOSED ON TRADE FILMS

A protest against threatened French action requiring the American purchase of one French motion-picture film for every four American films imported into France was made in the Senate by Senator Shortridge of California. At the same time he introduced a resolution calling upon the Department of State for its protest against this action and all correspondence on the subject.

Marriage has always been a job, a profession if you want to give it a higher sounding name.—Woman's Home Companion.

25,800 DEATHS DUE TO AUTO ACCIDENTS DURING 1928

Automobile accidents in the United States last year caused the loss of 25,800 lives, an increase of more than 400 percent in 17 years, according to W. H. Cameron, managing director of the American Safety Council. Electric railway fatalities have steadily decreased, showing only one death out of each 155,000,000 passengers in 1928.

Witness Gordon McCuan, Clerk of the 69th Judicial District Court of Parmer County, Texas. Given under my hand and seal of said court in office at Farwell, Texas, this 30th day of May, A. D. 1929. (Seal) GORDON McCUAN, Clerk, 69th Judicial District Court, Parmer County, Texas.

KNOW TEXAS

Texas is the leading Jersey cattle State in the Union, having passed Ohio, which formerly held the distinction.

On January 1, 1929, there were 955,000 milk cows and heifers in Texas, an increase of 16,000 over 1928. Their value at \$61 a head was \$58,255,000.

Texas' assessed values have increased 50 percent since 1913. Actual property values in Texas (\$9,850,888,000 in 1922) are estimated at more than \$12,500,000,000 now. In 1861 Texas assessed values were \$256,784,482.

Texas truck growers are annually shipping 60,000 cars of fruit and vegetables to market, a development that largely has come about within the past fifteen years.

The sweet potato has the distinction of leading in value the strictly vegetable crops of Texas.

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered price includes only reasonable charges for delivery and financing.

Among all the delightful performance characteristics of the Outstanding Chevrolet—none is creating more widespread enthusiasm than its thrilling speed and flashing acceleration!

The great new six-cylinder valve-in-head engine responds to the accelerator with an eagerness that is literally amazing. Touring speeds are negotiated with such smooth, silent, effortless ease that you almost forget there's a motor under the hood. And when the throttle is opened wide—the pace is faster than the

most experienced driver would care to maintain!

Back of this exceptional performance is a brilliant array of engineering advancements—crystallized by a high-compression, non-detonating cylinder head... automatic acceleration pump... hopper manifold... semi-automatic spark control... and a heavier crankcase, costlier and dynamically balanced.

Come in and drive this car. Learn for yourself at the wheel, that no other car can approach it in the price range of the four!

Town Talk

Mrs. J. C. Hammonds was a Clovis visitor Monday.

H. A. Towery visited home folks in Plainview Friday.

Frances E. Miller of Sudan was in Muleshoe Tuesday.

Miss Maudie Douglass is visiting in Lubock this week.

Miss Helen and Norma Elrod are visiting relatives in San Angelo.

V. C. Nelson of Sudan was a Muleshoe visitor Friday of last week.

A. J. DeBord and family visited Mrs. Doris Davis at Portales Sunday.

Mrs. G. A. Anderson and daughter, Fannie, were in Clovis last Thursday.

Mrs. I. F. Willman left last week for a visit with relatives in Nebraska.

Judge J. E. Dryden of Sudan was in town Wednesday on official business.

Mrs. Jess Elrod returned to her home in San Angelo Thursday of last week.

R. A. Thompson and son, Aubrey, were in White Deer the first of the week.

Mr. and Mrs. J. M. March and little daughter are in Hollis, Oklahoma this week.

Sherman Vance left Monday for Chicago, Ill., where he expects to enter school.

Mrs. John Fischer of Fillmore, Calif., was the guest of friends in Muleshoe Sunday.

J. C. Barron, cashier of the First National Bank of Sudan, was in town Thursday.

Jane and Marie Bucy have returned home from an extended visit in Long Beach, California.

H. C. Edmonds spent Sunday in Lubock, the guest of Mr. and Mrs. Carl Slaton of that city.

Mrs. R. R. White and little daughter, of Lamesa are visiting in the home of Mr. and Mrs. E. J. Vance.

Miss Alva Douglass, who is attending summer school in Lubock, spent the week-end with homefolks.

Messrs. Bill Porter and Milton Weeb of Shamrock spent Sunday here, the guests of Miss Fannie Anderson.

Mrs. Alex Paul has returned home from Clovis, where she has been in the Baptist Sanitarium for several days.

Mrs. L. Sikes and grandfather, Mr. Crow, of Abernathy, and Miss Fannie Anderson were in Lubock Wednesday.

Miss Dorothy Wentland returned from Fillmore, California, Sunday and left Monday afternoon for her home in Chicago, Ill.

Sam Isenberg of Clovis stopped over for a short time in Muleshoe last Sunday. He was on his way to Lubock to meet Mrs. Isenberg and children, who have been visiting in Dallas. Mr. Isenberg owns the Everybody's Store at Sudan and Clovis.

G. W. Hildebrandt and wife of Oklahoma City arrived here on Thursday of last week. They went out to their farm in the Longview community, where Mr. Hildebrandt has been looking after the work of harvesting his grain.

ELECTION NOTICE

Pursuant to the election proclamation issued by the Governor of Texas, notice is hereby given that an election will be held on Tuesday, the sixteenth day of July, 1929.

In each voting box of the four Commissioner's Precincts of Bailey County, Texas for the purpose of voting for or against the amendment to the State Constitution providing for a supreme court of nine members, and for continuous session of that court.

For or against the Amendment to the Constitution of the State of Texas fixing the salary of the Governor.

J. E. ADAMS, County Judge, Bailey County, Texas.

SPECIAL ELECTION NOTICE

From each of the Commissioner's Precincts of Bailey County a petition was presented to the Commissioner's Court asking that an order be passed calling a special election for the purpose of voting a special road tax not to exceed 15 cents on the \$100 valuation, and in pursuant to an order by the Honorable Commissioner's Court of Bailey County, Texas, on the 10th day of June, notice is hereby given that an election will be held on the 16th day of July, A. D. 1929 in each voting box of the four Commissioner's Precincts for the following purpose:

To vote for or against a special road tax not to exceed 15 cents on the \$100 valuation.

J. E. ADAMS, County Judge, Bailey County, Texas

AND THIS IS THAT THING CALLED "ELECTRICITY"

At last there is a satisfactory definition for electricity. The New York State Committee on Public Utility Information says:

"Electricity is something that starts the Lord knows where and ends in the same place. It is 1-36 of a second faster on its feet than its nearest competitor, back yard gossip, and when turned loose in Europe will get to the United States five hours before it starts. Nobody knows exactly what it is because it has never stood still long enough.

"Electricity is sometimes known as science gone crazy with the heat, and if you can understand its manoeuvres you can do anything with it except open a can of peanut butter at a picnic."

"Electricity was locked up in ignorance for centuries until Ben Franklin let it out with a pass key, and since then it has been pulling off more new stunts than a pet monkey.

"With it you can start a conversation, or stop one permanently, cook dinner, curl your hair, press your trousers, blow up a battleship, run an automobile or signal Mars, and many more things are being invented."

Miss Gertrude Short returned Wednesday from a few days visit in Lubock.

T. S. Bryson of Plainview, formerly engaged in the lumber business in Muleshoe, was here Thursday on business.

Telegrams Sent to Governor Moody Anent White House Action Published by Request

We have been requested to publish the following telegrams, copies of which were sent to John N. James, Republican Chairman of Bailey County. The telegrams were addressed to Governor Dan Moody. One of them authorized by R. B. Creager, Republican National Chairman of Texas, the other by J. F. Lucey of Dallas, who was Vice-President of the Associated Hoover Clubs of Texas during the Presidential campaign. The telegrams were sent to the Governor urging him not to sign the Resolution condemning the entertaining at tea of the wife of the negro congressman from Illinois. Editor's note.

Brownsville, Texas, June 20, 1929.

Hon. Dan Moody, Governor of the State of Texas, Austin, Texas.

Invitations to these affairs are extended to the wives of all members and are based on lists furnished by officers of the House and Senate. On this occasion Mrs. DePriest, as the wife of Congressman DePriest, was invited to one of a series of teas for the wives of members of the House and Senate. The names of none on the official list were omitted. The affair was wholly official and not personal or social. The President had not the slightest idea or intention of creating, destroying, or in any manner effecting existing social or racial lines or barriers. During the last Democratic administration, from 1913 to 1921, persons of negro blood were on various occasions invited to the White House table. The then Minister to Haiti, Bolonnenos, and his wife, both negroes were invited to attend diplomatic dinners at the White House on the following dates: Jan. 2, 1914; Jan. 21, 1916; Jan. 25, 1916; Jan. 9, 1917 and Jan. 10, 1917. Texas and the South will not and cannot profit by the preaching of a doctrine of hate.

Robert B. Creager, Dallas, Texas, June 20, 1929

Hon. Dan Moody, Governor of the State of Texas, Austin, Texas.

I hope you will not by signing the resolution of the Legislature of Texas subject our State to the scorn that gentlemen everywhere will feel by this unwarranted insult to the first lady of the land and the contempt that informed people will hold towards this display of ignorance of White House custom confirmed by Grover Cleveland and Woodrow Wilson. This White House custom is purely official, everyone realizes that these functions are official and not social. It has long been the rule followed strictly by Woodrow Wilson and Grover Cleveland and all other Presidents of the United States that all persons in official life, their wives and families should officially be invited to open official gatherings in the White House. There is no discrimination to be made by the President or by the first lady of the land of names or to omit any name from the list which is furnished by Congress or the Diplomatic Corps. I trust that you will not add to this attempted disgrace of Texas by signing this Resolution. Certainly there is enough chivalry left in the State of Texas not to attack in this manner the first lady. In the light of reason, civility and justice, I believe you should return the Resolution to the Legislature.

J. F. Lucey.

SENATOR SMOOT WOULD PUT CIGARETTES UNDER DRUG LAW

Inclusion of tobacco and tobacco products within the scope of food and drug is provided in a bill (Senate 1468) introduced in the Senate by Senator Smoot of Utah. The measure, Senator Smoot stated, would also empower the food and drug insecticide administration to proceed against tobacco manufacturers whose advertisements and sales claims are partly or wholly unjustified by facts.

HOOVER'S OIL POLICY QUESTIONED IN SENATE

President Hoover's oil conservation policy of restricting drillings and leases on the public domain has been questioned in the Senate as the result of the discussion of the subject which has taken place at the oil conservation conference in Colorado Springs, Colo., at the suggestion of Mr. Hoover.

The conference at which the Federal Government was represented by the Secretary of the Interior, Ray Lyman Wilbur; the Director of the Geological Survey, George Otis Smith, and Mark L. Requa of California, special representative of the President, was called in an effort to obtain an interstate agreement which would control the production in privately-owned and operated fields by limited drilling.
