

A WEST TEXAS PAPER FOR WEST TEXAS PEOPLE Dickens Co. Times

Volume 4

SPUR, DICKENS COUNTY, TEXAS,

THURSDAY, APRIL 11, 1929

WHOLE NUMBER 227

Sweepstakes Cup won By Spur-Hi

The county track meet held at Spur, Saturday, was won by Dickens with a margin of four points to the sweepstakes going to Spur for the greatest number of points in all. Spur swept the field in the literary field and was close in track, also winning first in the tennis events.

All the schools of the county were represented and the majority of the students from these schools were in attendance. The literary events were held at the High School while the track events were held at the Fair Grounds. The cups and medals were given away to the winners on the corner by the Spur National Bank as Spur don't have large enough auditorium to handle 2,000 people.

Results of the track and field meet:

220 yard hurdles: First, Edgar; second, Borden; third, Hoover; fourth, Drennem. Time 26 min. and four sec.

Discus throw: First, McAteer; second, C. Latham; third, Blake; fourth, A. Latham. Distance 113 feet.

Running Broad Jump: First, Harkey; second, Reddell; third, Borden; fourth, Powell. Distance, 19 feet, 6 in.

220 yard dash: Senior; first, Edgar; second, Rickles; third, Perrin; fourth, Powell. Time 23.9 sec.

440 yard dash: Senior; first, Reddell; second, Mimmis; third, Lee; fourth, Borden. Time 59 sec.

Javelin throw: First, Borden; second, C. Latham; third, A. Latham. Distance 129 ft.

One Mile Run: First, Taylor; second, Littlefield; third, A. Latham. Time, 5 min. 20 sec.

880 yard dash: First, Jones; second, Lathams; third, Scoggins. Time 2 min. 21 sec.

One Mile Relay: First, Spur; second Croton. Time 4 min.

Pole Vault: First, Harkey; second, McAteer; third, Lane; fourth, Edgar. Height, 11 ft.

Junior Broad Jump: First, Borden; second, Stinnett; third, Lovern; fourth, Varson. Distance, 14 ft. and 7 in.

Junior High Jump: First, Spencer; second, Edwards; third, Reddell. Height, 5 ft.

Chin Up: First, Carson, 20 times; second, Stinnett, 19 times; third, Deaton; fourth, Cobb.

Junior 50 yard dash: First, Spencer; second, Stinnett; third, Carson; fourth, Borden. Time 6 and 4-5 sec.

Junior 100 yard dash: First, Stinnett; second, Spencer; third, Borden; fourth, Carson. Time, 11 and 4-5 sec.

Junior 440 yard relay: First, Spur; second, Dickens; third, Croton.

Senior 100 yard dash: First, Edgar; second, Perrin; third, Borden; fourth, Lane. Time 10.3 sec.

Shot Put: First, McAteer; second, Latham; third, McMahan. Distance, 41 ft. 6 in.

120 yard hurdles: First, Jones; second, Karr; third, Mimmis; fourth, Drennem. Time, 19 sec.

Senior High Jump: First, McAteer; second, Karr; third, Reddell; fourth, Rickles. Height, 5 ft. 10 in.

Sparks Buys Good Eats Bakery

Last week Mr. and Mrs. Sam Sparks, of the Spur Bakery, purchased the "Good Eats" Bakery from Huffman, Mr. and Mrs. Sparks extend the service of the Bakery and the Good Eats Bakery will not be operated at present. They expect to keep it in good condition in the event it should be needful to operate to supply the demands by the people.

Mr. and Mrs. Sparks have given the people of Spur country an excellent bakery since coming to our town, and it shall be their purpose to continue the good work even without competition.

Mr. and Mrs. Jim Noland, of Steel Hill, were in our city Monday doing some trading. Mr. Noland is one of the teachers in our section.

West Texas Utilities School A Big One

The cooking and demonstration school which was conducted under the auspices of the West Texas Utilities Company by Mrs. Stella Floyd, was a marked success. There were 110 ladies present the first day! 115 ladies present the second day and 111 present the last day. All who attended state that it was a great success and the ladies are still talking of the many useful recipes which they learned about.

Louie Hoffmaster, representative of the Hot Point Range Company was present and made talks in regard to the management and manipulations of the electric range. He stated that ladies could be very economical with the electric range or could make it very expensive commodity.

The West Texas Utilities Company are well pleased with the response the ladies gave them in this school and extend thanks for the fair consideration given them. We understand they sold a number of electric stoves, and this is fine for the ladies since an electric stove is the most practical and convenient stove that can be placed in the kitchen.

Let's Observe Health Conditions

While the "Clean-up campaign" is on in Spur it will be well worth our time to begin enforcing the law prohibiting the keeping of hogs within the city limits, the use of dry toilets, and the willful or negligent practice of some of our citizenship throwing empty cans and other rubbish on the streets and in the alleys. All cans and trash should be put in sacks or other containers and placed conveniently so they may be hauled off.

Heretofore, many of our citizens have carried this practice out but we feel that any have not done so due to the fact that the city has no way of having the trash removed, and they do not like going to the expense of having this done themselves.

This condition can be remedied by a small tax being levied in order that a man, wagon and team, or truck, may be employed by the month to do this. This would necessitate only a very small tax and eliminate much sickness in our city.

We should strictly enforce, also, our ordinance in reference to keeping clean all fruits and vegetables that are being offered for sale. The State law calling for the analysis of water being used in all cafes, hotels, and other places serving drinks; and for the physical examination of all employees in such places should be enforced. In this manner an epidemic of typhoid fever, or some other dreadful epidemic may be avoided.

So let's all join in making ours the cleanest, sanitary city in Texas. It is not so large, but what we can do this. Instead of having one or two "clean-up" days, let's have three hundred sixty five of them per year with every citizen co-operating.

J. E. MORRIS, M. D.
City Health Officer for Spur.

SPEER'S VARIETY STORE REMODELED

The Speer's Variety Store in appearance is a very different store compared with what it has been. It has been treated to a new coat of paint and all the fixtures have been put in new. Mr. and Mrs. Speer and all their helpers were very busy all last week getting ready for the business Saturday.

In addition to the new arrangements there has been an added stock of merchandise installed. Then to make business more lively, Mr. Speer started a line of real bargains to the people Saturday which are continuing through this week. This is one of the nearest liveliest stores in West Texas with a management wide awake to bar gains for the people.

J. P. Robinson was in our city Monday doing some trading.

New Member Added to Board

At the election for school trustees held in Spur Independent School District, J. H. Busby was the only person elected as a new member. L. E. Lee, E. A. Russell and E. J. Cowan, three retiring members, were re-elected. T. C. Ensey, one of the retiring members, would have been re-elected but he told many people that he would not serve on the Board any longer. Mr. Ensey had served two terms and felt that some one else should have the honor for this term. Spur has six members on the School Board as old members which gives a fine school board in regard to experience.

During the past two years Spur Schools have made wonderful progress. We do not know who is responsible for this growth in the schools. The School Board says it is the teachers and people, while Superintendent Cluck says it is the judicial action on the part of the School Board. It might be that the School Board, teachers and patrons all working together would have a great deal to do with this progress.

At the time the present Board was elected two years ago, the present Superintendent was also selected. At that time we had 632 scholastics enumerated in the schools. During March one year ago, Superintendent Cluck secured the scholastic census which totaled 1011. At the close of March this year the scholastic census showing that we have 1245 children in the district of scholastic age. In other words through the influence of our present school, we lack but 19 of doubling our scholastics in two years.

There is another very interesting feature in regard to our school that has been accomplished under the present administration. Two ago there was an indebtedness of nearly \$14,000.00 hanging over the school. Last year this indebtedness was cut to about \$6,000.00 through the Board and Superintendent bringing in addition revenue. This year the increase in the funds through the extra scholastic will be enough to easily pay off the remaining debt and possibly leave some money in the treasury.

There is one thing that both the School Board and Superintendent have stressed, and that is, that all children of school age be enumerated. Counting the State and County apportionment, each child enumerated brings \$17.00 into the treasury of Spur Schools. It is important that every child that has reached the 7th birthday on or before September 1st, and has not passed their 18th birthday by that date, be enumerated for it helps to keep the taxes down.

In addition to the liquidation of the above indebtedness the school has added two additional teachers, has prepared and equipped two extra class rooms, bought fire escapes and made other improvements. All of this would amount to several thousand dollars more.

Whether or not it is the school Board, or the Superintendent, or both, there has been some very fine co-operation on the part of those in authority. The beauty part about this fine work is, that no one individually wishes to assume the honor for it. This paper was unable to get any one to say who did this, but it is done, and since it has been done, we are very glad to know that the same men are to pilot our schools for another year at least.

Let's all pull for better schools and co-operate with our school officials in getting this idea over. There has been no trouble in our schools this year. Everything has worked in harmony, and a very fine school year is the fruit of this harmony. We are thankful for a good School Board, a good Superintendent, a good faculty and a good student body.

J. E. Crabtree, of Peacock, was in our city Monday doing some trading with our merchants.

Lee Watson, of McAdoo, was attending to business affairs in our city Monday.

Purchased Spur Drug Store

R. C. Carter, of Floydada, purchased the Spur Drug Store last week and has taken charge of the business. This business was owned by Dr. B. F. Hale and who has had personal charge of it for the past few weeks. It had been Dr. Hales' intention to personally manage the business and he let it be known that the business was for sale.

Mr. Carter has been in the drug business in Crosbyton the past eleven years and has been successful in that line. He was reared in Crosby County and is well known to all West Texas people. He is a live business man and knows how to serve the people in the drug store business. His coming to Spur will mean much to our city in a business way and we are glad to have Mr. Carter added to the list of business men in our city.

Mr. Carter will personally manage the business. He will be assisted by Cecil Westerman, who is a relative to Bob Westerman of our city.

Chautauqua Breaks Attendance Record

The festival program which is being conducted under the auspices of the Parent-Teachers' Association is drawing large numbers of people. The Spur Theatre building in which the chautauqua is being held, was filled Tuesday night and another filled house was the result last evening.

George Staples gave a very clever program in magic, cartooning and ventriloquism Tuesday evening. In fact, a number of people stated they did not know how he did it. Last evening was a musical program entitled "A Night in the Philippines" and was rendered by Oliver's Philippine Troubadours. A program that everybody enjoyed if they have a taste for high class programs.

There are three more numbers of these programs during the chautauqua course. Tonight we have Mr. E. Jefferson Gardner, who is one of the great platform lecturers of the day. His lecture on the subject, "The Joy of the Job," will be an inspiration to all who hear him. You cannot afford to miss this number. It will give you ideas in life that are worth while.

Tomorrow (Friday) afternoon, will be a program given by "Smilin' Bob" Hanscom and his associates. "Smilin' Bob" is all that his name implies, a whole bundle of fun and enjoyment for his hearers. If you have the pleasure of attending this number, you always will be glad of it. Be sure to be at the program with "Smilin' Bob."

Friday night, the people will be given one of the best dramatic entertainments of the day. It is entitled, "Smilin' Thru" and is the feature program for the chautauqua. If you were to see this play at some great city theater, it would cost you at \$2.50 to \$3.00 a ticket. It will be a program of rare standing to the people of this country, and you will want to see it.

All programs in the evening start at eight o'clock. People enjoy getting into the program and getting home early. You have at least two hours of fine entertaining program each evening. Miss Clara Mansfield, of Ardmore, Oklahoma, is here looking after the work. She is interested in getting as many people as possible to be at these programs, and we will say that it does not mean a dime more in money to her. The company gets just so much for the five numbers, and all over that goes into the treasury of the Parent-Teachers' Association. But Miss Mansfield is interested in seeing the people enjoy good programs. She is a former teacher and knows what the children enjoy. Also, she wants the best entertainment for your children.

If you have not purchased a ticket yet, get one, and join the

Mrs. Slaton Is Run Over By Car

Mrs. A. J. Slaton, living a few miles north of Spur was painfully injured here Friday by being run over with an automobile. Mrs. Slaton was driving the car on Burlington Avenue near Nichols Sanitarium and intercepted Mrs. Slaton as she was crossing the street to the Sanitarium. Another car was advancing up the street and Mrs. Slaton was watching this car while Mrs. Long was going down the street and was looking for a place to park at the curb. Neither of the ladies saw the other until it was too late.

Mrs. Slaton was knocked flat by the car which passed on over her but none of the wheels passed across her body. Her skull was fractured on the left side and the right side of her face was badly cut and bruised. It seems the force with which Mrs. Slaton was knocked was what caused the fracture in her skull.

A little 4-year-old daughter of Mrs. Slaton was also slightly injured by the car. A little brother of the child stated that he kept her from being run over with the car by shoving her to the side. Some by-standers who witnessed the accident seemed to think the car passed over the child, as it appeared to them that the little girl got up from the ground at the rear of the car.

A daughter in the family, Miss Tona Slaton, was undergoing an operation at the Nichols Sanitarium at the time of the accident. This was the reason that Mrs. Slaton was crossing the street at that point she was enroute to the sanitarium to be with her daughter.

At this time Mrs. Slaton is resting well and seems to be improving. While her condition was considered critical it is thought nothing serious will develop.

Hindman Sells Chrysler Interest

Thursday of last week, L. A. Hindman sold his interest in the Chrysler Agency to Roy L. Harkey. Mr. Harkey upon giving up the Hudson and Essex Agency, purchased an interest in the Chrysler business with Mr. Hindman. He has been in the automobile business in Spur the past seven years and has a great number of friends who stand by him in selling the Chrysler cars.

Mr. Hindman stated that he did not know just what he would engage in at this time. He said he had a couple of dollars ahead and would take a vacation until his funds run down to about four bits, and then would find something to do. He has much interest to employ him at this time with some farms to look after and other property interests we feel that he will be well employed.

MAN BADLY INJURED WITH TRAILOR

Bill Harvey, of Brownfield, was badly injured with a trailor about nine miles from Clairemont Sunday. Mr. Harvey and some other men were driving a car with a trailor attached in which they were delivering a horse from Clairemont to Brownfield. The trailor came loose and started into the bar-ditch. Mr. Harvey seeing this he bounded out of the car to guide the trailor from the ditch. He lost his balance when he landed on the ground, and trailor passed over his body causing many bruises and fracture in the skull. He was unconscious for many hours.

His friends brought him to the Nichols Sanitarium where he received surgical aid. His father,

crowds going to the chautauqua. The programs are being held in the Spur Theatre through the courtesy of Mr. Everts, our local theater manager. Mr. Everts will give a matinee this afternoon at the Spur Theatre from two o'clock until four, and from four until six o'clock, and whatever is taken in at these matinees will be given to the Parent-Teachers' Association to assist in taking care of the chautauqua expenses.

Home Beautification Club Starts Work

Last year a number of people in Spur entered the contest to see who could have the most beautiful home grounds. This work was conducted under the auspices of the Home Beautification Club which gave prizes to the three persons who made the highest scores. This work is being followed up again this year and prizes will be given the winner again.

If any one failed to get into this work last year, they cannot realize what an opportunity they missed. It really is thrilling to get to work on the home grounds and make the yard and garden look beautiful. If you have not entered into this work yet, try it this year, and learn what a thrill it is to have a nice, clean yard and the home surroundings to look neat and inviting.

We are publishing the score card that has been drafted by the committee. Read them and study them over, and then get busy to make Spur a more beautiful town.

Score-Card
Pointing Design, (arrangement of beds, hedges, gardens, etc. Continuity of bloom, color scheme.) 25 points.
Screening unsightly views, 30 points.
Absence of plant disease, 20 points.
Maintenance and neatness, 25 points.

Baseball Club For Spur Completes Organization

Permanent organization of the Spur Base Ball Club was effected at a meeting held last night, in the directors room of the Spur National Bank. Faust Collier was elected president, J. B. Reed, secretary and Treasurer, Bill McAlpin, business mgr., W. E. Edwards Mgr. Directors elected were: Ralph Jackson, L. H. Perry, Eric Ousley, E. C. Edmonds, and Cecil Hicks.

Abie Edwards, well known in West Texas baseball circles, was elected to manage the club. And from his past record, Spur fans may rest assured that they will have one of the fastest baseball clubs in West Texas. This year several players have all ready been working out and a full club will be going through training Thursday Sam Cheek who was with Edwards in Abilene, has been flashing on short stop. He was considered the classiest short stop in West Texas last year. Bully Clay and Edwards also have been doing some classy fielding and hitting. Morace Hodges, the other half of Abie Edwards second base combination last year, is to report Thursday. As will Charlie Norman and Benny Smith, who have established records in their hurling in West Texas. Local players on the roster are: Murry Lee, Bullik, Tillson, Bill McAlpin, Carr, Martin, Jordan, Dickson, and several others. From this material manager Edwards expects to develop practically a class D club. Hawks, manager of the Dickens club, last year, is to sport a Spur uniform this year, and he is practically a class D player.

Practice is to begin Thursday, and all fans are invited to come out and get a line of the club.

Don't forget to send in your suggestion for a name, for the Spur Club. You may be the lucky one and receive a season ticket.

A Booster sale of tickets is to be put on soon. Probably Saturday and every fan should buy

one and show that you are behind the club. A prize of five dollars in gold will probably be given to the one selling the most tickets. A number of High School and local girls are to wage the campaign.

The first game of the season will probably be played next Thursday, April 11th, and all business houses will probably be closed for the opening game. Big Spring of the West Texas League will probably be here for the opening games.

Rev. Hester, of McAdoo, was in our city Friday looking after business affairs.

Supt. W. W. Keefe, of Dickens Schools, was in our city Saturday taking in the County Meet.

Mrs. Eula Ford, of Afton, was doing some shopping in our city Saturday.

Man Clark, of Dickens, was transacting business with our merchants Monday.

Clean-Up Week Goes Over Big

There has never been a time in the history of Spur that "Clean-up Week" has insilled more interest than it has this week. Tuesday morning when the fire alarm was given, a great army of people armed with hoes, rakes, shovels and other weapons, were lined up at the Spur National Bank ready to make war on the rubbish in our town. This army had its various leaders and a company was sent to each section of the town and war for the rights of a clean city began.

All the streets and alleys, vacant lots, and everywhere there was any rubbish or trash, it was raked and piled up and burned or made ready for the wagons to get it. The stray mesquite bushes were made way with, and already the town has a very different appearance and looks like civilized people live here. People will be proud of our little town if we can get rid of all the surplus rubbish.

The campaign is to continue through today, and all parties who have not cleaned up their premises will be expected to do so. If any trash or rubbish is left about homes, it will be a very bad advertisement for the parties living in those homes. It is hoped that every home will be made as sightly as possible at this time, flowers should be planted where the weeds are now growing, and it does not cost a great deal to plant grass and have a nice front yard or lawn.

Again the health of our city demands that we keep it clean. Typhoid fever, malaria, etc., prevail only where there is a great deal of filth. The numerous flies are caused by piles of filth giving them a good place to breed. An ounce of prevention is worth a pound of cure, and let's do our best to prevent our loved ones and our friends from having a long, dangerous and expensive siege of sickness this summer. Let's prevent sickness, and the physician will not have to be called.

Methodist District Conference Meets In Spur Next Week

The District Conference of the Stamford District will meet in the Spur Methodist Church Monday Night, April 15.

Rev. Gaston Foote, of Haskell, will preach the opening sermon. The Conference will continue through Tuesday and Wednesday. Rev. J. H. Hamblen, presiding Elder of the Stamford District, will preside. The District is composed of 23 pastoral charges. All the pastors and some delegates from each church are expected to attend the Conference. The delegates will be entertained in the homes of the members. The ladies of the Spur Church will serve lunch for the delegates Tuesday and Wednesday in the basement of the church. All are invited to attend the sessions of the Conference.

Rev. Hester, of McAdoo, was in our city Friday looking after business affairs.

Supt. W. W. Keefe, of Dickens Schools, was in our city Saturday taking in the County Meet.

Mrs. Eula Ford, of Afton, was doing some shopping in our city Saturday.

Man Clark, of Dickens, was transacting business with our merchants Monday.

**Entirely new
Entirely novel
in their amazing value!**

So beautiful are the new Copeland "CS" models . . . so quiet and economical in operation . . . so cramfull of features . . . as to immediately establish an entirely new standard of value in medium-priced electric refrigeration!

Heavy gray porcelain on body exteriors, relieved by lustrous white porcelain tops, doors and louvre panels; one-piece porcelain interiors with rounded corners for easy cleaning. Massive, deep-etched automatic hardware; no insanitary drain pipe; shelves at convenient height; Coldtray for crisping salads or storing cubes; one or more double-depth dessert trays in every model; 2" and 2 1/2" highest quality insulation.

These amazing new all-porcelain models are available in 5, 7 and 9 cu. ft. storage capacities and furnish from 108 to 162 ice cubes or 10.6 lbs. of ice at one quick freezing! Come and see them . . . bring the family. For here is something that will fit your requirements nicely . . . at a price and on terms you can easily afford.

**HARDWARE DEPARTMENT
BRYANT--LINK COMPANY**

Copeland
DEPENDABLE ELECTRIC REFRIGERATION

There are other Copelands—low-priced, medium-priced and De Luxe—from 5 to 20 cu. ft. capacities. Also separate units for present ice boxes; multiple installations for apartments; water coolers; and commercial units for all purposes.

BANKERS AND BUSINESS MEN BUILD SUCCESSFUL DAIRY INDUSTRY

By H. B. OATES
Dairying in Mississippi was started because of the boll weevil. Everybody was hurt. Something had to be done or the country would remain in a serious financial condition. In parts of Texas we have been hurt by the boll weevil just as bad as was Mississippi but we have continued trying to raise cotton and have not developed dairying or stock farming to much extent. In Mississippi dairying was started as a relief measure. The new regime gave relief and development continued. Now those sections have a dependable source of income which is build-

ing a permanent system of agriculture.
Some counties bought a lot of cows, some bought pure bred sires and improved their herds and this was followed by small creameries cream stations, etc. The bankers and business men seeing their own plight got behind the dairy program in a united way and stayed behind it until some progress was made. The results were so encouraging to all concerned that they have continued to develop dairying.
Mississippi started with what what she had, bought such cows as could be found and began dairying. Most of the dairy development there has been made by farmers who never before had handled cows. Financing was done by

bankers who had never loaned money on dairy cows. Pasturage and equipment for dairy cows was furnished by landlords who never before had permitted anyone to raise anything but cotton. Merchants who never before had sold goods except on time, basing their expectation of collection on a cotton crop, took a chance and backed up the dairy movement.

The success of dairying in Mississippi and Tennessee may be attributed almost entirely to the financial support given by the bankers and business men. It's continued development which has now reached large proportions and is still growing rapidly is due to the continued support of the business men and the unity of purpose and united cooperation of practically every business man with the farmer and dairyman. They have not only started this new enterprise but they are still developing it. At four of the eight places we visited the local people keep a full time dairy expert employed to further develop dairying and assist those farmers now engaged in dairying. Follow up work has continued from the beginning of this new undertaking.

Mississippi has only one advantage over Texas: that is on pastures. At present the native pastures are better than ours. Bermuda, Carpet Grass and Lespedeza (Japan Clover) grow naturally in the valleys and branch bottoms, however, the area is not usually sufficient and oft times the stand is irregular, and now Mississippi has started a pasture improvement campaign. We could do the same in Texas and provide adequate pastures for our dairy cows and thus increase greatly the profits from them.

The cows in Mississippi are not as good as ours. The cows in Tennessee are better than ours. The prices paid over there are about the same as paid here in Texas. The farms are older and poorer. There is a larger proportion of tenants and a far larger proportion of negroes, yet with all these handicaps Mississippi has developed a dairy business of \$18,000,000. It is not natural advantages in Mississippi which has brought all this development. We have just as many favorable conditions for dairy development here here in Texas. It was the determination of the business men of the towns to see that dairying was established that put it over in Mississippi. The success of the project has spurred them to greater activity. So they continue to follow up with pasture improvement, herd improvement, scrub sire eradication, home grown feeds etc., which have resulted in more and larger milk plants.

The business men of these towns have been rewarded with a half million to a million dollars and even two million annually coming into the hands of their patrons and customers for dairy products. And this income is cash; twelve Tennessee had better soil, better pastures, fewer negroes and less cotton. Tennessee started dairying earlier than Mississippi and with some advantages over Mississippi has developed a larger dairy industry. However her greatest development did not come until the invasion of the boll weevil. After that the story of progress is the same as that in Mississippi. Our story in Texas is different, but with the same viewpoint, the same determination and the same united support, we can soon make the same progress in dairy development.

After many years some of our Texas communities have started on a dairy program. Recently several small creameries have been opened in northwest Texas and they have done well but we have not developed a sentiment for cows sufficient to cause large development anywhere. At Marshall, in East Texas, an effort was made similar to the efforts made in Mississippi towns in order to get something started. We stopped at Marshall on our dairy tour. Marshall worked for months, took a complete cow census, then sold the proposition locally by getting twenty five business men to put up \$1000 each as collateral for the purpose of organizing a Cow Finance Corporation. The Corporation may extend \$75 credit. The farmer puts up \$25 or reach \$100 cow he buys and pays the balance in twelve equal monthly payments from his milk checks.

With the large amount of work done at Marshall by the Chamber of Commerce and the County Agent in building up faith in the undertaking and the continued effort of these Agencies combined with that of a full time field man employed by the new milk plant it is believed that this undertaking will succeed in a big way. So

in every community visited on our tour, we found that dairy development was made possible only after the business men got behind it.

Will we have over production? Our answer is, not very soon, perhaps not in our life time. First we are not going to get everybody to milk cows. Second milk consumption per capita is increasing much faster than total production. The same is true as to consumption of butter and cheese. Third our cow population is not increasing very rapidly because farmers soon learn that poor cows do not pay well and send them to the butcher. Fourth, our human population is growing much faster than our cow population.

Let's cease making excuses and alibis. Our section has sufficient advantages to justify general dairy development. Our climate and soil is alright and we can plant and develop good pastures. We can raise most of our feed and our prices for milk are equal to those paid in the north and in the south. We have fewer tenants than Mississippi and but few negroes. Every banker and business man knows that the few men who are regularly selling dairy products are their best and most dependable customers. Why not all

Every Woman Knows

Every woman knows how easy it is to burn or scald herself while working in her home. Every woman knows that these burns and scalds are painful and sometimes very slow to heal. Every woman should know that the pain of burns and scalds will be quickly relieved, infection positively prevented and speedy healing assured if Liquid Borozone is instantly applied. unite in an effort to greatly increase this class of farmer customers.

This concludes our story of the dairy tour to Mississippi and Tennessee.

VIRGIL SMITH MOVES GROCERY

Last week Virgil Smith, of Smith & Johnson Grocery, bought the interest in the business owned by Dalton Johnston. He moved the store into the Sullivan Building just east of Wooten Wholesale Grocery Company where he reopened the business under the name of Smith's Grocery. Mr. Smith stated that he ex-

pects to continue serving the people in the best manner possible and will appreciate people visiting his store for their grocery needs. He will continue the delivery service with the business.

Lem Miller, groceryman of Roaring Springs, was greeting friends in our city last Friday. Joe E. Boteet, of near McAdoo, was in our city Friday greeting friends and taking in the track meet.

Cut Planting Costs This Spring!

John Deere No. 660 Two-Row Lister

Do your listing two rows at a time this spring! This John Deere Two-Row Lister will do the work of two one-row listers, and save you the cost of one man and two horses.

On top of this saving you'll get the accurate planting and good work for which John Deere listers are noted. Accurate planting is assured by the famous "999" drop for corn and the John Deere saw-tooth type picker wheel for cotton. Good work is assured because the No. 660 is equipped with genuine John Deere bottoms that scour and wear well. Seed plates can be furnished for a great variety of seeds.

You can use the No. 660 with horses or tractor. Row-spacing is quickly adjusted from 36 to 38, 40, or 42 inches.

All adjustments easily made from seat. Depth of covering and depth of listing controlled by levers.

Put this money-saving lister to work on your farm this spring.

When you have your party remember we can furnish you bread in any color scheme for your sandwiches. The best flavors and in many colors.

Spark's Butter Kist Bread is the personality of good eats. Also, try our cakes, pies, and other lines in high class bakery products. You will be delighted with them and at the same time avoid the task of preparing them.

THE SPUR BAKERY

CHEVROLET COMPANY
BREAKS RECORD IN MARCH
DETROIT, Mich., April 9.—All

monthly production records in the history of the Chevrolet Motor Company were broken in March, when the company produced 147,274 cars and trucks. A factory statement explained that this figure was considerably in excess of preliminary production schedules and was made necessary to more fully accommodate an increasing demand for the new car Chevrolet six.

This March record compares with 133,657 units for March of last year and with 121,249 for February of this year. It exceeded by nearly 7,000 units the best previous month in the history of the company, which was May, 1928 when output totalled 140,775 units.

The March performance enabled the company to exceed all records for the first quarter of the year, with a total of 354,701 units as compared with 342,184 for the first three months of 1928.

In preparation for what promises to be the biggest Spring business on record, the manufacturing division is operating on the heaviest schedule ever undertaken by the company. The company's sixteen giant factories are speeding toward capacity operation with all haste consistent with precision manufacturing, it was announced. Officials predict that the record activity planned for April will result in another monthly record and for the second consecutive month establish a new mark.

GUARANTY WITH USED CARS IS OAKLAND PLAN

PONTIAC, Mich., April 9.—Another progressive step recently taken by a prominent automobile manufacturer toward better business methods in the merchandising of used cars, came to light here today when the Oakland Motor Car Company announced adoption of a national policy under which all Oakland-Pontiac dealers will be asked to furnish a written guarantee with all reconditioned used cars.

Under terms of the guaranty, parts are furnished free to replace any found defective during the first 750 miles of driving, provided the mileage is run up within thirty days after the sale. The car also may be returned within 48 hours after the purchase if it proves unsatisfactory and the full purchase price applied to any other car, new or used, of equal or greater value in the dealer's stocks.

A written guaranty printed on lithographed bond paper is issued by the dealer to the purchaser at the time of the sale, while all cars carrying the guaranty also have a windshield sticker on which is printed, "Reconditioned GUARANTEEN Good Will Used Car."

The object of the new plan, according to M. L. Buck, manager of the used car department, is to provide the purchaser with concrete evidence of the good faith of the dealer who makes the sale. "Many of our reconditioned used cars are priced within the range of the cheapest new car, Mr. Buck stated. "If the money were invested in the small new car the purchaser would receive a standard warranty with it. In making a similar purchase of a good used car, he is entitled to a like measure of protection."

"We know that our dealers' reconditioned used cars are capable of performance comparable to a small new car. Consequently we aim to give the purchaser full assurance of our faith in the car by backing up our claims in writing."

The used car guaranty applies only to those cars which have been thoroughly reconditioned and refinished under the Good Will plan—a policy inaugurated some years ago by Oakland to lend individuality to the quality used cars handled by the Oakland dealer organization. The familiar figure of "Good Will Oakland," with the slouch hat and the inevitable stogie, is well known throughout the country through his association with the used car business of this company's dealers.

Featured on the used car guaranty form is a definition of good will as handed down by the United States Supreme Court. This states that "Good Will is the disposition of the pleased customer to return to the place where he has been well treated."

Provisions of the used car guaranty are designed to further this attitude on the part of the customer, Mr. Buck explained, because they elevate still higher the plane of relations between the dealer in Good Will used cars and the public.

R. M. Morgan, singing teacher at McAdoo, was greeting friends in our city last Friday.

SINGING CONVENTION NOTICE

The Dickens County Singing Convention will convene at Dickens City next Sunday, April 14. Everyone is urged to be present as we are expecting a big crowd and it is also time to elect new officers and you will want to put

NOTICE TO FARMERS

I will run in connection with my Saw Filing Business, a Repair and Carpenter shop.

J. M. GOODMAN

the ones in you think should have the place, so be on hand and have a part in the convention as it is here to stay and why not make it the "Best in the West."

We have plenty of material and if they would come on out, put their shoulders to the wheel and push we can put it over in a big way. And when we are gone on there will be someone to keep the good work going on as there is nothing that will help a community as much as a good singing class and all who have been in this work will say "amen" to this. We would not have much singing in our churches today if it were not for the older ones who kept the interest up and had a few good old country singing schools to keep the young ones awake. So let us who are in the work now do our best and maybe some of the others will fall in and we will not have been a failure after all.

MR. AND MRS. McCOMBS HONORED

On Thursday night, the P. M. W. club entertained at the home of Mr. and Mrs. Fay Vernon in honor of Mr. and Mrs. Orbie McCombs, who are moving to Sweetwater.

A very pleasant evening was spent in playing 42.

At the close of the games Mrs. Vernon in a very pleasing manner presented Mrs. McCombs with a bedroom chair as a remembrance of this and many other delightful occasions.

Lovely refreshments of salad, potato chips, crackers, and punch, were served.

Those present to enjoy this occasion, were: Mr. and Mrs. Stack, Dyess Teague, Barrow, Swan, McGlathery, Donoho, of Jayton, Vernon, Mrs. Gilbert Ousley, Crockett Misses Ora and Ara Brock, and the honorees.

BIRTHDAY PARTY

On Tuesday afternoon, Mrs. Edgar McGee entertained for her little daughter, Jammie, celebrating her birthday.

A number of little guests were present and enjoyed a very pleasant hour of games.

Refreshments were served to the following: Bonnie Campbell, Pat Hogan, Peggy Jane Hogan, Ruth Cowan, Ruby Cowan, Marian Hale, Ernestine Hale, Billie Putnam, Opal McGlathery, Billie Adie, Winfred Lee, Helen Lee, Lois Joe Follis, La Nelle Follis, Lorell Twaddell, Ann Mott, Buddie Mott, Mary Louise Lisenby, Spencer Lisenby, Ouida Lisenby, Dorothy Williams, Elizabeth Williams, Grace Williams, Sybil Williams, Ned Blackwell, Bert Backwell, Billie Starcher, James Zachry, Bobbie Twaddell and Peggy Jane Teague.

MISS WHITENER HONORED

Miss Uda Mae Whitener honored her mother, with a three-course birthday dinner on Wednesday, April 3, at 6 o'clock.

In the center of the snow white table was a large birthday cake with the present year and year of birth in pink and white figures. The color scheme of pink and white was also carried out in the ice course.

Covers were laid for five, the fortunate ones being Mesdames Roy Stovall, J. E. Morris, W. S. Campbell, M. E. Manning and the hostess.

Miss Eva Bell Hogan assisted Miss Uda Mae in serving the dinner.

Mrs. Whitener received a number of nice presents.

SHEPHERD-DARNELL

Mr. Mac Darnell and Miss Ula Mae Shepherd, both of Red Mud community, were married in Spur Sunday evening. The ceremony took place at the parsonage of the First Christian Church, with Rev. A. G. Abbott, the pastor, officiating. Several friends were present to witness the ceremony.

Friends join in wishing these fine young people happiness and success in their life's journey together.

Billie Morris, of the Pitchfork Ranch, was attending to business matters in our city Monday.

Rev. Hester, pastor of the M. E. Church, at McAdoo, was attending to business matters in our city Tuesday.

BAPTIST CHURCH

Orchestra at 9:30; Sunday School opening 9:45; class 10:00; Preaching 11:00; B. Y. P. U. 6:45; evening service 8:00.

You are welcome to come out. We especially invite all strangers to come and don't forget the Sunday school class each Sunday morning at 9:45 at the Spur Theatre for men and boys. Each one is urged to fill out their envelopes before coming to the church each Sunday morning, in order to have more time in the class room for the lesson. Our Pastor was out of town Sunday morning. Mr. Harcrow lectured to us on the subject of "The Church" was very inspirational and interesting. He also spoke at the evening service. Both were enjoyed very much. Bro. Rodgers is holding a meeting in Roaring Springs, having good success.—Reporter.

METHODIST CHURCH Sunday, April 14

Our Sunday School is growing. There is a class suited for every one. Come next Sunday and join us. The pastor will preach at 11 A. M. and 8 P. M.

These services last just one hour and every minute is interesting. All three Leagues meet at 7 P. M.

Come and help us make next Sunday a great day. The following week the District Conference meets with us and we want to have a good report.

We wish to meet your next Sunday at the church.

W. B. Vaughn, Pastor.

RED TOP CLUB NEWS

The Red Top Club met with Mrs. Fount Harrell on April the 1st.

The lesson was on yard beautification.

Mrs. Joe Thornton told us what

SOME SPEED

Major Seagrave ran an auto 231 miles an hour on a Florida track, and the entire world was thrilled by the news of the accomplishment. Some speed!

Far be it from us to detract from the importance of Major Seagrave's feat.

But let us analyze it thoroughly from the standpoint of its usefulness.

There's no public highways where autos can be allowed to go that speed. Therefore why build expensive autos that cannot be used when built?

It's dangerous even to look at a car going at that speed, the slightest deflection in its course being able to send it toward its spectators at a speed of 340 feet per second.

Increased speed is certainly not a desirable improvement in an automobile. Car designers should create products winning their laurels in other ways.

Sure, it's thrilling, to hear about this feat and others like it. But such accomplishments have nothing to do with progress of car production—it would be a tragedy more than anything else if the ordinary motorist were to be given the means to travel any quicker than he does now. The high speed car is merely an expensive sporting toy with no practical value, in our opinion.

makes the rural home attractive.

Mrs. Hill Rhodes talked on value of permanent planting and Mrs. Harrell talked on trees and plants suitable for this locality.

Miss Osborn told of the necessity of a planting-plan and demonstrated with pictures and drawings how to group our trees and flowers to make them give the most pleasing appearance. The next meeting will be with Mrs. W. G. Henson.

—REPORTER.

DOWN-TOWN BIBLE CLASS PERMANENTLY ORGANIZED

The Spur Down-Town Bible Class met at the Spur Theatre Sunday morning at 9:45. Much interest is still being manifested in this class, and a number of men were in attendance.

The following officers were elected for the first term: H. C. Harcrow, president, A. C. Hull, first vice-president, Jack Horner second vice-president, R. N. Cluck, third vice-president, Ralph Jackson was elected as secretary and treasurer. L. Wilson was put in charge of the music, and Mrs. Ralph Jackson was chosen as Pianist.

All men who are not already affiliated with some other Sunday school class of Spur are invited to come to this class each Sunday morning, where something especially entertaining will be given each time.—Reporter.

Mrs. D. W. Pritchett, of Dry Lake, was doing some shopping in our city Monday.

District Chamber of Commerce Convention At Tahoka

TAHOKA, April 8.—Messrs. Whitehead and Campbell of the West Texas Chamber of Commerce were here last Friday checking up on the arrangements for the South Plains District Convention of the West Texas Chamber of Commerce to be held here April 24th. After looking into the situation they expressed themselves as looking forward to the largest Chamber of Commerce Convention ever held on the South Plains.

Five towns have thrown their hats in the ring for the next convention. Ralls and Slaton stated last year that they would ask for the Convention in 1930. Abernathy Littlefield and Matador have sent word that they were coming after the Convention for 1930. Bands and other organizations have been promised from Lamesa, Slaton, the Convention in 1930. Abernathy Lubbock, Plainview, and Matador.

More interest is being manifested by the various cities of the South Plains as the time draws nearer the Convention. Most every town has stated that they expect to have a large delegation at the Convention. Entries keep coming in for the "My Home-Town" Speaking Contest.

News From Nichols Sanitarium

Oscar Weaver, of Highway community, is still in the sanitarium and is getting along fine. He had a very serious case but will be out before long.

Miss Ruth Robinett, of Post, underwent an operation Wednesday and seems to be getting along fine at this time.

Mrs. G. C. Overstreet, of Kalgary, underwent an operation Sunday and is doing fine.

Miss Leona Thomas, of Highway community, who underwent an operation the last of the week, is getting along fine after an operation some weeks ago.

Gordon Parks of Highway, is able to be up after an operation three weeks ago.

Hulin Cargile, of Roaring Springs, is still in the Sanitarium but is getting along fine after an operation for appendicitis.

Earl McCoy had to undergo an operation last week on his foot. A portion of the heel had to be removed. He is doing fine now.

Miss Tona Slaton, who underwent an operation Friday, is getting along all right at this time.

Mrs. W. P. Howell, of Kalgary, is getting along fine after an operation a few days ago.

Mrs. C. P. Ingram, city, is still improving after an operation of a few days ago.

Mrs. R. H. Boykin, of Swenson, was able to return home Monday after having been in the sanitarium two weeks from an operation.

Pauline Williams, who had been in the sanitarium a few days for treatment, was able to return home to Afton Tuesday.

C. A. Denson, Dry Lake, who got his arm broke last week, was brought to the sanitarium for an X-Ray picture and had the fracture set.

Helen Lawler, daughter of L. A. Lawler of Afton, fell Sunday and broke her left arm. She came to the sanitarium for an X-Ray picture and to get the fracture set.

I. J. Brazzel, of Big Spring, who was visiting in Spur, fell from a burro Sunday and broke his left arm. He came to the sanitarium where an X-Ray picture was made and the fracture set.

Norton Barrett, who got his arm badly cut last week, was able to have the stitches removed Saturday.

Mrs. H. E. Powell, who had been with the sanitarium for an operation, was able to return to her home at Kalgary Saturday.

AFTON HAS NEW PHYSICIAN

Dr. T. A. Atchison is now located at Afton and is doing general medical practice in that community. Dr. Atchison has had thirty three years' experience in the practice of medicine and keeps up with the advancement in his profession. He is anxious to meet the people of his community and gain their acquaintances.

RETAIL MERCHANTS WILL NOT MEET

In order to co-operate with the chautauqua program which will be on, the Retail Merchants of Spur will not hold their regular meeting Friday night. They insist on attending the chautauqua and want everybody else to enjoy this fine program too.

NEXT TUESDAY CLEAN-UP DAY

The Civic League of Spur is asking that people also observe Tuesday of next week as a "clean up" day and try to complete the work that was begun this week. The members of the league are asking that everybody with the corporate limits of Spur get all the trash, tin cans and other rubbish cleared away from their homes at once.

COTTON SCHOOL DELAYED

On account of the Ginners' Association being in session last week, the school on cotton classification did not start last week. However, the school is in progress this week with a fine class and good instructions. Mr. Harcrow states that there is plenty of time yet for people to enroll in this school and get a good course in the cotton business.

MANY ACCIDENTS! DOES IT PAY TO BE CAREFUL?

Collisions with cars without lights in the road, sometimes on seen because of meeting cars with glaring headlights, caused 12 deaths and 33 injuries.

Glaring headlights was given as the cause of accidents causing 67 injuries and 8 deaths.

No lights and insufficient lights were responsible for 55 injuries.

Collisions with solid objects—bridges, culverts, buildings, etc., claimed 9 lives and caused 71 injuries.

Defective brakes—no brakes, and defective steering gear caused injuries to 82 and claimed 6 lives.

Three persons lost control of cars and drove through plate glass show windows, injuring 6.

Injuries to 18 and 2 deaths were laid to the door of drivers "asleep at the wheel."

39 intoxicated drivers were responsible for injuries to 52 and the death of 7.

Twenty-two persons were thrown through windshield, there were 113 shattered windshields reported with consequent lacerations and cuts resulting.

A number of automobiles and trucks were reported "running into street cars."

Pedestrians Struck

Within the four month period 307 pedestrians were injured and 58 killed on our streets and highways. Of these 98 children under 15 years of age were injured and 22 killed.

Hit-and-run drivers struck cars and killed 4. 33 were injured.

Pedestrians struck by Hit-and-

run drivers, 19 with death toll of 8.

Railway Grade Crossing Accidents Collisions at grade crossings claimed 47 lives and injured 82 others. Of these were children under 15 years of age—6 injured and 3 killed.

Two little children under 5 years of age were killed while sitting on the track.

Children 441 children under 15 years of age were injured, and 140 killed in accidents of all kinds—the automobile taking the greatest toll. Running from behind parked cars, and playing in the street being the chief causes of accident.

D. W. Pritchett, of Dry Lake, was attending to business matters in our city Saturday.

A. C. Gentry, of Elton, was looking after business affairs in our city Monday.

T. E. McArthur, of Red Mud, was transacting business in our city Monday.

A. M. Hoover, of Twin Wells, was in our city Monday looking after business matters.

T. G. Cherry, of Soldier Mound, was greeting friends on our streets Monday.

a NEW series of
SPRING
Footwear Fashions

Milady's Shoe wardrobe—whether four pairs or forty—should include these "key" styles for the spring season. Then, she is prepared for any emergency with correct Footwear to fit the occasion. Shown are merely a few of the scores of styles now on display at prices that are truly purse-pleasing. A complete selection!

**BARRIER
BROS., INC.**

J. J. Wasson, of Croton community, was on our streets Friday morning after business interests.

D. W. Hughes of Duncan Flat, was transacting business in our city Friday.

O. P. Dupree, east of town, was attending to business matters in our city Friday.

**GREATER
PRODUCTION
EFFICIENCY**

Lower Costs—Greater Productive Efficiency

These are vital factors to the manufacturer who is planning to move his factory away from congested centers of population.

Widespread power distribution and improved transportation facilities have fitted the smaller cities and towns for industrial purposes. Where living costs are lower, a lower wage scale is as effective as high wages in the large cities. Where living conditions are pleasant and home owning within the reach of moderate incomes, workers are conservative, productive, permanent. Where getting to and from work is unhurried and uncongested, valuable human energy is conserved.

The cities and towns of West Texas have all of these advantages to offer. With its 70,000 horsepower of electricity available, its three great generating stations and 15 auxiliary plants, this company insures industries abundant, uninterrupted service, similar to that enjoyed in the great metropolitan cities.

**West Texas Utilities
Company**

FARM NOTES

By E. L. TANNER,
County Agent, Dickens County

A. A. Fry of the Red Mud community has just planted five acres of alfalfa. He planted on a sandy soil with a clay subsoil. He will use this alfalfa for hay. He says that he will plant ten acres of biennial white sweet clover near it which he will use as pasture for his fine Jersey cows. He has the sweet clover seed on hand and is only waiting for a good season. This will be planted on a three foot row and cultivated two or three times before turning loose. The three foot row has been demonstrated for sweet clover as the only sure way to get plenty of pasture the first year. If Mr. Fry gets his clover in by April 15 he will have pasture from June 15 'til after frost. This will be around five months. In following this system he is adopting the practice followed in the great dairy states namely alfalfa for hay and sweet clover for pasture. This is done on account of the near bloat proofness of the clover. In food value the plants are the same.

Some how or other those folks out at Red Mud worked some kind of scheme very successfully for picking out the Jersey cows in each car which brought only heifer calves. Out of the seven registered cows bought out there, six of the calves were heifers.

R. F. Harrell of the same community has just completed a key terrace on his farm which will control a bad wash in his field and also give him the use of this extra water by spreading it over considerable land. There is not a farm in Dickens County in which the spread and spill system can not be used to control any water which is coming in from the outside. Mr. Harrell attended a two-day terracing school last winter and after learning to operate a level he purchased one and now is running his own and neighbors lines. He is one of the 59 men in the county who took two full days training last winter and his own is one of the 19 levels placed in the county.

Now is the time for those who have flocks of good hens to begin to figure on a premium for infertile eggs after the middle of May. I believe I can say positively that any one who produces a good fresh clean infertile egg after the fifteenth of May will be given 25c per dozen as a minimum price from then on. When eggs are more than that they will be given in proportion for them. To get in on this all roosters must be off the yards by April 21. It takes three weeks for all eggs to become infertile. See your merchant about this.

Dickens County has an entry in the State Ton Litter contest. This is L. C. Murphy of Dickens. He has a litter of seven pigs which he entered several days ago. Any person who makes a litter average 225 pounds at 150 days of age gets a gold medal. The world's record which is held, by-the-way, here in Texas is 302 pounds in 150 days or five months. Another litter will be entered by the son of Forrest Martin who lives southwest of Highway Community. His boy will be a club boy and will enter a litter of nine pigs. There will be special prizes at the Fair this fall for all those who are in the Ton Litter Contest. I hope to get several more litters entered especially boys of club age.

**CHEVROLET TO GO
OVER 1,000,000 MARK**

The manufacturing facilities of Chevrolet Motor Company, numbering 16 great manufacturing plants in this country, are rapidly approaching the volume of output necessary to meet this year's revised annual quota which calls for the manufacture of 1,350,000 passenger car and truck units.

This was signified last week when W. S. Knudsen, president of the company, announced that March production would reach 140,000 units, an amazing output when it is considered that active production on the new six cylinder cars has been underway less than three months. Although no definite figures were issued it can be readily assumed that April's schedule will fall for an even larger production, and that mid-summer will witness a quantity output in all of Chevrolets assembly plants never before equalled by a manufacturer of six cylinder automobiles.

Mr. Knudsen related that February 249 units. With only 22 working ruary production amounted to 121, ion for the period averaged better days in the month. daily production than 5,500 a day.

phasis to the astounding achievement of the company last fall in These figures lend further encouragement to sixes with only a six week changing over from production of interim to effect necessary alterations.

Upon his return to Detroit a few days ago from a six weeks trip which took him across the northern part of the country and into the far west, R. H. Grant, Chevrolet vice president in charge of sales, spoke with marked optimism of the prevalent demand for Chevrolet new six cylinder car. Nearly everywhere he declared, dealers indicated to him that they found an increased market for the new product. The cars, he said, are being delivered to owners as fast as they can be distributed.

Come On With the Crowd—and Bring the Children

Transmission line construction and extension constitutes the principle activity of the West Texas Utilities Company the first three months of this year. Approximately 200 miles of transmission line is under construction, 70 miles of which is already completed. This extends pump service to the Shell Pipe Line Company and the Texas Pipe Line Company. The towns of Christoval and Blackwell were added to the company properties increasing the number of cities, towns and communities served by the West Texas Utilities Company to 110.

Among the major extensions is the building of 66,000 volt lines, with the necessary substations, from San Angelo to Eldorado, a distance of 36 miles and the construction of 30 miles of 66,000 line from Sonora to Ozona. This will close the 66,000 volt loop between San Angelo and Ozona, thus affording loop service to these towns in addition to providing another circuit to the Yates Oil Field. Also of equal importance is the construction of 28 miles of 66,000 volt line from Mason to the Gillespie County line to interconnect with the Central Light and Power Company, thus providing loop service to towns in this district.

Tying in with these lines and requiring further 66,000 volt extensions, are lines to serve five pump stations of the Shell Pipe Line Company and three of the Texas Pipe Line Company, each station having a connected load of 1,000 horsepower. This work has meant the reinsulating of 30 miles of 22,000 volt line for 66,000 volt operation between Menard and Junction, constructing 19 miles of 66,000 volt line from Junction to pipe line stations, 10 miles of 66,000 volt line from Yates oil field to pipe line stations, 10 miles of 66,000 from Eldorado to pipe line stations and 15 miles of similar voltage line to serve other stations.

In addition to these extensions the company is constructing 70 miles of telephone line between San Angelo and Sonora and 30 miles from Mason to the Gillespie county line to facilitate dispatching service.

Other important field extensions now are being made in the Wilbarger, Noodle Dome, Putnam and Yates fields.

An addition has been made to the Quitaque generating station where a 385 H. P. engine has been installed.

Street lighting systems have been installed in the Towns of Wellington and Junction and several other five year contracts for street lighting and city water pumping have been signed with several other towns.

Business conditions in the 42 counties served by the West Texas Utilities Company indicate appreciable improvement in nearly all lines. Several general rains over the properties has put the ground in condition for plowing

and planting and farmers are optimistic over the 1929 outlook. Dairy products are of an increasing importance as a source of revenue in rural districts.

Important strides are being made in the oil industry and electrification of oil operations is being steadily pushed in anticipation of heavy production and intensive drilling campaigns.

LEAVE FOR NEW FIELD

Mr. and Mrs. A. E. Coffman, who have been with Barrier Bros. since their opening here in the winter, tendered their resignations and left our city Saturday. Mr. Coffman owns a business at Ropes, Texas, which he thought he had sold to another party, but it developed that he had to take the business back which demanded that he and Mrs. Coffman go and look after it.

During their stay in our city, Mr. and Mrs. Coffman made many friends who regret to know they had to be called away.

Mr. Rivers is in charge at Barrier Bros. this week and will look after the business until a new manager can be sent here. Mr. Rivers has been in Spur the past ten days conducting the Big Easter Opening sale which has been in progress at this store and has many friends here.

MUNICIPAL PLANT SOLD FOR ONE DOLLAR

The light plant at Atlanta, Nebraska, owned and operated by the municipality for some years, has been sold by the town to the Nebraska Electric Power Company for one dollar, according to a recent report. The town disposed of the plant in order to rid itself of expense, as well as get 24-hour service instead of 12-hour service, and sufficient power for cooking, refrigeration and other domestic and industrial purposes.

ASKINS-CROW

Mr. Nolan Crow and Miss Gladys Askins were married in Spur Monday morning about eleven o'clock. Judge S. B. Roddy spoke the words which officially united them husband and wife. Just a few witnesses were present.

It seems these young people had contemplated getting married for some time. The license had been issued by the County Clerk March 30th, 1929.

SIMPSON'S BARBER SHOP

TAKES NEW APPEARANCE

The Simpson Barber Shop and Beauty Parlor has been undergoing some changes of late. The walls have been treated to a coat of new paint, and new covering has been placed on the floors. People going into this shop would think they were visiting a real city shop if they consider the appearance of the place.

Mr. Simpson, who owns and operates the shop, has often stated that he wanted Spur to have the best looking barber shop found in Texas, and if you will visit other shops and then come back to this one, you will say that he has about reached his goal. It is a neat shop and is conducted in a fine manner.

ARMSTRONG-BLAIR
Mr. Harold Blair, of Dickens,

and Miss Estell Armstrong, of near Spur, were married in Spur Sunday morning at ten o'clock. The wedding occurred at the home of Mr. and Mrs. John Luce. Rev. F. J. Berry, pastor of the Church of Christ, spoke the words which officially united these young people as husband and wife.

J. D. Kimbrell, of the Pitchford Ranch, was doing some trading in our city Monday.

One Of The Wonders Of The World Is The Housewives Friend

PRESS the little button—and light floods your home. Commonplace to you yet one of the wonders of the world, one of man's greatest achievements.

TURN the switch—and the electric vacuum cleaner picks up dirt and dust from rugs, from draperies, from furniture, from mattresses. Commonplace to us, yet it means the emancipation of woman from the slavery of housework.

PLUG into a floor or wall outlet—and coffee magically begins to percolate on the table before you or toast is browned right at your elbow or crisp warm waffles are made before your eyes. Commonplace to us, yet a convenience, a comfort, a resplendent pleasure that not even kings could conceive years ago.

ELECTRICITY is One of the Wonders of the World; it banishes drudgery from the home, for it makes possible the use of scores of time and labor-saving electrical appliances. ELECTRICITY is the Housewives' Friend! Don't begrudge yourself this great convenience, for, after all, it costs so little.

Some More About Your Neighbors

Last week we failed to get in the story about what our farmers are doing with the cream business. But we are glad to announce that there are many farmers who are proud of their records in cream production and willing

to let their neighbors know about it. We trust that many more farmers will send in reports of what they are doing along the lines of dairy and poultry business.

Mr. W. H. Young, near Spur, last year milked eight mixed breed cows and did not use feeds. He sold \$243.50 in cream and raised calves worth \$300.00. If you will compare this record with the best producers you will find it rather low, but even at that Mr. Young realized a great deal from his cows.

Mr. J. E. Poteet, on the edge of the Plains, says, "In answer to your letter received, will say that I got into the dairy business by the encouragement of Bankers and seeing what others were doing. We milked from five to seven cows and our cream pays us about \$40.00 per month. We fed home grown feed. I think our milk pays about as much as the cream by having hogs to feed it to, so I think it pays to have milk cows."

Mr. E. B. Buckner, of McAdoo, states that he milked four to five cows last year. Total sale from cream, eggs, poultry and hogs amounted to \$564.37. He used poultry and hogs with his cows. Raised five calves. He says, "If you want to pay as you go, stay with the cows. If you want to get in debt and stay that way, keep on with your one crop farming." He wants more and better cows.

Mr. B. J. Howell, of Espuela community, is making a living

from three cows and from hogs and poultry fed on skimmed milk. He says, "No more one crop farming for me." He is gradually drifting into the pure bred Jersey line.

Mr. G. F. Smith, of near McAdoo, milked six cows in 1928. He sold cream to the amount of \$562.15 besides having plenty of dairy products for his family. He considers skimmed milk worth half as much as cream. His cream sales for January this year were \$69.77, and for the first twenty one days in February were \$67.59. He uses home grown feeds with cotton seed meal, and says he was forced into the dairy business through crop failures.

Mr. M. Howell, near Spur, has been milking from six to ten cows during the past two years. He feeds home grown feeds, and has sold \$1750.00 in dairy products during that time. He has fourteen head of fine calves left over. He feeds the skimmed milk to the chickens and hogs. He stated that crops failed last year and the old dairy cows put him by.

Mr. J. P. Sharp, near Spur, started in the dairy business nine years ago with one cow. Five years ago he purchased another cow. Now he has eight good Jerseys besides a number he has sold. During the hot days in July and August he sold \$108.00 worth of cream from six cows. He sold calves at weaning time last year for \$135.00, and sold \$58.00 worth of hogs, and had plenty of milk, butter, eggs, chickens and hogs for home use. He values skimmilk very highly for pigs and poultry.

Wish other farmers would send in reports about what they are doing with cows and chickens.

We want to repeat a good cow feed: Feed all the bundle stuff they will eat, and in addition use the following concentrate:

- 200-lbs ground heads (maize, kaffir, cane, etc.
- 100-lbs wheat bran.
- 100-lbs cotton seed meal.
- 100-lbs of ground alfalfa or peavine hay.

Feed one pound of this mixture per day for each 2 1-2 pounds of milk the cow is giving. After one week increase the feed one pound per day and see if the cow increases milk production 2 1-2 pounds.

IT'S STRANGE

By L. W. Banta

It's strange what advantage the women folks have, o'er the masculines side of the race,

But I guess that it's right, as they're weaker in strength, and have a much handsomer face,

They can change their whole visage with power and paint, and build up the low places with clay, If they're not made just right they can fix themselves up, but as Nature made man, he must stay.

Their long fluffy locks are shorn close to their heads, they then get a permanent wave,

But man must go two times a week to the shop, cause he can't get a permanent shave.

She drops off the neck, and sleeves of her dress, she cuts the skirt off at the knees.

But if you put a man out in this sort of style, and blamed if he wouldn't freeze.

Just fancy a man with a sleeveless coat, with the collar cut down to his blades.

With his pantaloons cut off up to his knees, and his face painted different shades.

In winter he'd freeze, in summer he'd roast, his friends would all laugh at the sight,

But a woman is dressed in Parisian style, if she comes out in this sort of plight.

Should we men folks appear in our rayon attire, so the skin could be viewed through the weave.

With the whole of our calves showing through our silk hose, with a small piece of lace for a sleeve.

I fear that the ladies would all stay at home, and would ne'er venture out their retreat,

For the whole town would look like a circus parade, with a mil-

SPUR HARDWARE & FURNITURE COMPANY

SPUR'S OLDEST STORE

REALIZES \$3.20 PER HEN FOR LAST 12 MONTHS

DENISON, March 24.—Fred Morrison of Denison realized dur-

ing the last twelve months a net profit of \$3.20 each from his flock of 986 hens. Average production for the year was 212 eggs each and the net return was \$3,155.20.

Mr. Morrison's charges against his flock do not include any for labor. With the help of Mrs. Morrison and their two sons, he cares for his poultry, operates a dairy of fifty cows and cultivates 100 acres of ground, on which he grows most of the feed eaten by the livestock.

Until three years ago, Mr. Morrison's principal crop was cotton. Profits were unsatisfactory. In 1925 he bought 250 day-old chicks and after culling his flock and disposing of cockrels, he had seventy-five pullets. It is his purpose to increase the flock as rapidly as may seem practical until he has 2,000 hens. This year he will hatch 4,500 eggs from which he expects to raise 4,000 birds and from this number he will cull 1,500 pullets.

Mr. Morrison does not expect to increase his flock by 1,500 birds this year, but does hope to have 1,500 laying hens by January 1930. His rule is to renew his laying flock every twelve months, "Some times a hen is worth keeping until she is two or even three years old," Mr. Morrison told a representative of The News. "Ordinarily it is more profitable to keep them only one year."

Costs 48c Per Hen

"What does it cost you to produce a laying hen?" Mr. Morrison was asked.

"Forty-eight cents," was the reply. These figures are arrived at by figuring the total cost of hatching and caring for a flock until the pullets begin laying—about four and a half months—and subtracting from this amount any money received from the sale of cockerels and culled pullets.

Most of Mr. Morrison's eggs are sold for commercial hatching. They are handled through the community hatchery. The others are sold on the market. He has mated a few pens of heavy layers, and expects to dispose of a larger percentage of his product in this day as he becomes better established. At this time he is selling 2,500 eggs a week. Seventy-six per cent of his nearly 1,000 hens are laying. The percentage occasionally drops in the late fall as low as 85.

The flock is culled by "looking them over." Mr. Morrison prefers this to handling the birds. He figures that it can be done more quickly in this way and with him it is more satisfactory to cull by scrutinizing the birds carefully than it is to feel of them. Decision is made on basis of form—head, back and tail—color and quality of comb, brightness of eye and general demeanor of the fowl.

When Mr. Morrison brings his chicks from the hatchery he places 300 in a house 8x12 feet, with a 10x12 foot pen in front. The houses are lined with pup board, thereby adding to their warmth in winter and their coolness in summer. There is a brooder in each house. Self-feeders are used.

Chicks Get Big Pen.

After the chicks are about a week old—"when they have become used to coming back to the house," Mr. Morrison says—this small pen is removed and the little fellows have the run of a pen 35x125 feet, in which wheat, oats or barley has been planted. These houses and runways will be moved from year to year, thereby affording better pasture and tending to eliminate disease germs and vermin.

Laying hens are kept in houses of the semimonitor type with an open side facing the south. These houses are 45x20 feet, with turahm houses are 45x20 feet, with a run of forty-five square in front. Each house will accommodate 300 birds. When the weather is severe a piece of canvas is stretched along the open side of the house. This prevents drafts and keeps the temperature from going too low.

Droppings are removed from all houses twice each week. Scratch material is removed once a month, at which time the houses are thoroughly sprayed. A trough of disinfectant is kept at the entrance into which all who enter the pens must step. This is a precaution against infection.

Mr. Morrison uses self-feeders. He does not attempt to mix his own feed, preferring to buy commercial preparations.—Dallas News.

D. W. Thomason, of Highway, was attending to business matters in our city Saturday.

B. F. Johnson, of Dumont country, was attending to business matters in our city Monday.

Mrs. D. H. Dunn, of Croton community, was attending to business matters in our city Saturday.

CLEANING RIDES SUITS OF GERMS

So much destruction of clothes is needless, Largely because of saving we're heedless. Many a suit ending cleaning is let go too long, Then, when it comes to pieces we wonder what's wrong. Cleaning isn't just ridding the suite of grease and dirt; It's partly to get rid of germs that will hurt.

GIBSON GROCERY

An Eight-
a Studebaker—and a Commander

at **\$1495**—**\$1350**
Prices at the factory

THE NEW COMMANDER EIGHT COUPE FOR TWO—\$1495. COMMANDER SIX COUPE—\$1350. Ideal for business. Large luggage space under rear deck. Also available with rumble seat. Prices at the factory. Bumpers and spare tire extra.

THINK of it! An eight, a Studebaker—and a Commander—for \$1495. Worthy successor to the world-famous Commander which sped 25,000 miles in less than 23,000 minutes in heroic proof of its speed and staying power. Heir to the full fruits of Studebaker's engineering genius, which requires no further evidence than the fact that Studebaker today holds undisputed, every official speed and endurance record for fully equipped stock cars.

Today's Commander is emphatically today's motor car. Its superb performance is matched by forward, youthful style, which beautifully interprets that performance. Lower—lower looking—and steadier at great speed—because of its costly double-drop frame. Restful riding, such as motor-ing never knew until Studebaker introduced the luxury of

ball bearing spring shackles, is still further enhanced by hydraulic shock absorbers.

Available either with straight-eight or with six-cylinder motor; The Commander is offered by Studebaker, Builder of Champions, as "the greatest motor car ever built and sold at its price." Your first ride will prove it.

STUDEBAKER MODELS AND PRICES

UTILIZATION OF STRAW FOR INSULATION BOARD

The utilization of wheat straw for insulation board is now a practical process and this year one factory at St. Joseph, Mo. has purchased 30,000 tons of straw which is being manufactured into insulation board at the rate of 125,000 square feet daily, according to Prof. O. F. Sweeney, Iowa State College. It has been found that wheat straw after steel fingers in a shredder have separated it, produces long tough fibers which can be fabricated into a board that has great structural strength and will provide insulation in building that saves 25 to 40 per cent in fuel for used heating.

The practical application of insulation is recognized by engineers everywhere and farmers, too, are learning that insulation of poultry houses, hog houses and other buildings brings direct returns in saving of feed and fuel.

BUSINESS MEN'S CLUB GOING NICELY

The Business Men's Club which was organized a few weeks ago, is meeting with favorable success. Weber B. Williams is president of the organization, Whit Bumpus is secretary and W. W. Flournoy is the manager. The club has a board of directors that looks after it and sees that all Club Members conduct themselves in a good manner. Each member pays dues by the month and then enjoys the privileges of the Club. Pool and Billiards are the means of entertainment.

Each Thursday afternoon is declared Ladies' Day and no men are allowed to be in the Club rooms during this afternoon.

Ladies may go with their husbands any day, and we understand there is no charge to the ladies. The Club is in the basement of the Sullivan building, formerly occupied by the Spur Tailor Shop.

Mrs. W. M. Hendricks, of Lubbock, is in our city this week visiting her daughter, Mrs. J. Mort Smith.

Mr. and Mrs. Bill Roundtree and Mr. and Mrs. Dick Low of Hamlin were guests of Mr. and Mrs. J. C. Barrow during the week end.

Mr. O. E. Pryor, of Tatum, is her visiting his son Perry L. Pryor of Bryant Link Co.

H. O. Everts, of the Spur Theatres, is in Dallas this week looking after the show business and Mrs. Everts is taking care of the shows while he is away.

Mrs. H. F. Jackson, of Stamford is here this week the guest of her son, Ralph Jackson, of the C. E. Stone Company.

Miss Millicent Anderson, who has been visiting her sister Miss Ruth Anderson, returned home Sunday. Her sister and Mrs. Jerry Ensey accompanied to Eastland.

Mr. and Mrs. Joe Kellam are in Madril, Okla., this week moving their furniture to Spur. They purchased a nice residence from Mrs. Armine Lea on Carroll Avenue and soon will be living at home.

Mr. and Mrs. M. C. Golding are in Houston this week visiting their son, Bernard, who is in school there. They will visit Dallas markets and pick up a few bargains in dry goods for the Spur people, returning the last of the week.

Mr. and Mrs. R. D. Stewart and children left the last of the week for Shreveport, La., where they are visiting Mr. Stewart's parents. They expect to be away several weeks.

Prof. I. N. Lee, teacher at Duck Creek, was attending to business affairs here Saturday.

Austin Frazier, of Red Top, community, was doing some trading with our merchants Monday.

M. P. Duncan, of Twin Wells, was looking after business affairs in our city Monday.

F. W. Walker was doing some trading with our merchants Monday.

Ed Linesby was in from his farm at Croton Monday looking after business matters.

THOUGHTS OF THE EIGHTH COMMANDMENT

Thou shalt not steal.—Exodus xx, 15.

No good cause is ever achieved through iniquity, or sustained by dishonor.

No beneficent cause can be supported or subserved by evil deeds or misrepresentations.

Theft is simply a lie in action. So is forgery and so is counterfeiting.

There are many kinds of theft besides that of stealing material objects of value. There is theft of things intangible as well as tangible.

There is theft of thought and idea; there is theft of life itself.

Yes, even the theft of a soul is possible!

Many souls have been stolen. When one is robbed of every other worth-while possession he sometimes is made desperate to the extent of giving up every thought or care as to anything that is holy or true. He becomes indifferent to thoughts that are pure and good, and when he does, it is not far to the end.

Such a one gives way to actual participation in things wicked, with the inevitable results of ensuining destruction.

This is another warning that we should not become too much attached to earthly possessions.

So inexpressibly awful that no one who meditates upon the subject could ever be guilty of a crime or sin of such unspeakable enormity. Next to blaspheming God, this must be the most terrible sin of which man can be guilty.

And yet, how about those who are guilty of the sin of omission in such a stupendous matter?

Is he guiltless who makes no effort to warn others of the danger of the soul thief?

Is he guiltless who never gives the matter of the safety of other souls a thought?

Is he guiltless who confines all his activities to material things, however good they may be, and never to the promotion of such enterprises as have for their purpose the presentation of the claims of Him whom he should honor, serve and worship?

One of the most desolate wails to be found in the Bible is this, "No man cared for my soul." Reader, shall you be judged guilty of this awful sin of omission?

The soul of him who listens to the voice of the Good Shepherd shall never be stolen by either man

or devil.

Better that one have all his earthly possessions stolen from him, including his character and reputation, than, in the effort to retain these, he shall become weakened and allow the theft of his soul.

"What shall it profit a man if he gain the whole world and lose his own soul?"

It is a trite old saying that, "Murder will out." It is just as true that theft will out, and that lying will out, and that any crime or sin will out — no matter by whom committed, nor for what purpose.

GETS SAD MESSAGE

S. C. Rawlings, of our city, received a message Tuesday stating the death of his mother, Mrs. W. E. Rawlings, which occurred in Hot Springs, New Mexico about 10:50 that morning. The body will be shipped to Slaton for funeral services Friday, and Mr. Rawlings and his family will go there at that time.

Mrs. Rawlings had been suffering from rheumatism for some years and this was largely the cause of her death. She was 66 years old, having recently celebrated her birthday. She was born in Arkansas and came to Texas in 1869. She and her husband had lived fourteen years in Knox County and had been residents of Floydada for ten years. About seven or eight months ago, Mr. and Mrs. Rawlings sold out at Floydada and moved to New Mexico.

Friends join in extending sympathy to Mr. S. C. Rawlings and family in this sad hour.

WOMAN MISSING; HUSBAND IN JAIL

Mrs. John Garrett, who lived on the W. C. Garrett place about ten miles southwest of Spur, disappeared from her home sometime Monday night. Mrs. Garrett was clad in nothing but her night clothes, and remained out all day Tuesday. She came into her home Tuesday night and secured her clothing and disappeared again, hiding in a shiniery thicket near her home. Sheriff Barber conducted a search for her and she was found Wednesday morning.
