Horn Speaks At Armistice Day Celebration

(By Jephtha Craig)

Spur's Celebration of the 11th Anniversary of the Signing of the Armistice of the World War was climaxed Sunday evening at the Palace Theatre when Dr. Paul W. Horn, President of the Texas Technological College addressed a united assembly of Spur people. The Theatre was filled to capacity and the large crowd was ably handled by the Boyd M. Williams Post of the American Legion, sponsors of the celebration ceremony.

The program was started by the orchestra, which rendered several selections while the crowd was being seated. Rev. A. G. Abbott, Pastor of the First Christian Church acted as Master of Ceremony and announced the first song, "America." Rev. W. B. Vaughn, Pastor of the First Methodist Church pronounced the invocation. A free will offering for charity was taken. Last year the American Legion gave over \$150 for charity in the City of Spur. A male quartet composed of King, Patrick, Wolfe and Seale sang that beautiful old song "Faith of our Fathers." A reading "In Flanders Field" was given by L. Nell Heffner. The Scripture lesson was read by Rev. F. G. Rogers pastor of the First Baptist Church Isaiah 2:1-5 and Matthew 26:52. Mrs. Dan H. Zachry charmed the audience with a beautiful solo.

Rev. A. G. Abbott introduced Clifford B. Jones who made a few short remarks introducing the guest and speaker of the evening Dr. Paul W. Horn.

Dr. Horn divided his address into four main parts, the least of these he said was the expense of the World War in money and property. The estimated money cost of the World War was 250 billions of dollars. Making a comparison with the estimated wealth of the great State of Texas which is 12 and one-half billions the great loss financially can be seen.

The second point stressed by the speaker was the cost in human lives, estimated total of 15 million three times as much as that of the entire state of Texas.

The third point was the horrors of the warfare which have been illustrated and pictured since the war through the various papers and magazines. The mud, filth, disease and the countless horrors of the camps and battlefields that the men women and children of all nations suffered at this time.

The fourth and most important point brought out by Dr. Horn was the individual men of the war. There are those who never returned who we should always remember and honor who gave their lives that there might be peace. And then the men who returned and were miraculously and peculiarly saved, who live modestly and go about their business with us everyday.

Going back to the first point 80 per cent of the taxes we pay to the Federal Government goes to pay for past and future wars. For no other reason we should try to prevent another such catastrophe as waged for four years.

A very important result of the war was the uniting of the United States. The "Boys from the North" and the "Boys from the South" fought side by side and they were fighting for the United States. The sure remedy for war according to Dr. Horn is Righteousness and Love. These two factors according to the speaker were stressed by Jesus Christ and until they invade and become a part of the human heart we will not have universal peace.

The responsibility of preventing another war devolves on every individual. The individual that speaks and blasphemes against and blasphemes other nations, especially that other great Anglo-Saxon nation, Great Britain is paving the way for war and should be squelched by the individual. The state of Texas has courts to

VET CELEBRATES ARMISTICE DAY WITH OPERATION

Ashland, Ohio, Nov. 11—Harry Richter, a World War veteran, celebrated Armistice Day today by having a piece of shrapnel removed from his right leg.

He arranged before hand to have Dr. G. W. Mehl, surgeon to start the operation exactly on the eleventh hour of the eleventh day of the eleventh month of the year which is the eleventh anniversary of the armistice.

Dr. Mehl removed a one and a half inch piece of shell which lodged in Richters leg during the Argonne drive in September, 1918. —Lubbock Journal.

Bulldogs Play At Home Friday

(By Jephtha Craig)

Easing up after a hard game last Monday the Bulldogs take on the Lorenzo High School football team here Friday afternoon at 3:30 p. m. This is the first game at home for the Bulldogs in three weeks and a large crowd is expected to see the conquerors of the Post Antelopes in action.

Coach Taylor has been putting the team through some stiff work outs for the last two days and the team will be all set by Friday afternoon. Bonnie Hisey is still suffering from the kick he received in an ear at Post and it is doubtful if he will be used til the next week. Morgan, right guard is still suffering from a damaged ear received in practice last week but will probably see some action in this game. The balance of the squad is recuperating fast from the hard jolts of the previous game but all are expected to be in shape. Lee, a sub who has seen action in several of the games is suffering from a damaged nose but is showing up for practice.

The Lorenzo team defeated Hale Center last Monday and will do their best against the Bulldogs. The small scholls render surprises at times and this one is facing strong odds, but the score is not expected to be as large as it has in some of the games that Spur has played this year.

It was announced Wednesday morning that the Bulldogs had secured a game with the Colorado Wolves here next Wednesday afternoon. Colorado has a good record and has several victories to their credit and will probably present their strongest team here.

On Thanksgiving the Bulldogs face the Ralls Jackrabbits for another hard game, in the same class as Stalon and Post. Ralls is also an undefeated team and the press reports indicate that they will bring their entire high school and the greater part of the townspeople here for the game. Ralls is after the District Championship and with Lamesa and Lockney are undefeated. Lamesa plays Post the same day and the district championship of Class B. District 2 will probably be decided that day. We predict that Post will defeat Lamesa and that if Spur is right will defeat Ralls by as much as two touchdowns.

NOTICE TO TAX PAYERS

I will be in Spur Friday and Saturday, November 29-30 for the purpose of receiving taxes. All who want to take advantage of this convenience may do so.

G. L. Barber, Tax Collector. Notice printed November 14, 21.

M. E. Randall of Steel Hill was transacting business in our city Saturday.

Robt. Reynolds, our efficient County Clerk was over from the capitol Saturday greeting friends.

settle personal differences and it is just as plausible that the nations of the earth have courts to arbitrate their differences.

After the Legionnaires stood up the congregation arose and sang "Bless Be the Tie That Binds". The benediction was pronounced by Rev. M. H. Applewhite, pastor of the First Presbyterian Church.

Retail Merchants Secretary Resigns

Miss Ella Garner, who has been with the Retail Merchants Association since the organization in February has tendered her resignation to become effective Friday, November 15th. Miss Garners resignation comes as a surprise to a great many members of the association. Her reason for leaving the Association is that she has duties at home that require her time and she cannot give her best efforts to the office work.

Miss Garner proved to be a very valuable secretary since taking charge of the Associations office in February. Her work has been efficient and her wide knowledge of business affairs has been very valuable to the merchants of Spur. Miss Mabel Scudder of Abilene has accepted the position of secretary for the Association and is now here checking up on the routine of business. Miss Scudder has been with the Retail Merchants Association of Abilene for the past year and is very proficient in that work. Spur merchants are to be congratulated in securing the service of one so well qualified as Miss Scudder.

The regular office work will be looked after under about the same system as has formerly been done. There may be some other features included in the work and other duties will be added as the organization grows.

Pantages Denied New Trial; Gets Fifty Years

Los Angeles, Nov. 9.—Legal barriers intended to protect Alexander Pantages from punishment for a criminal assault on Eunice Pringle, 17 year old dancer, were struck down today in superior court and the 54 year old theatrical magnate was sentenced to San Quentin penitentiary for a term of from one to fifty years.

Pantages appeared shocked at the judgement. His face whitened, his hands clenched his chair, his lips twitched. But he did not speak. It was just three months today since the girl ran from Pantages offices in his theatre building screaming, "He's ruined me,—ruined me."

Judge Charles Fricke listened more than an hour to efforts of defense attorneys to delay the sentence. He rejected a motion for a new trial. He dismissed a motion for probation. Then he pronounced sentence, taking no regard of the commendation of clemency made by the jury as it convicted the vaudeville king.

The defense gave oral notice of appeal—the last impediment available in this court to aid Pantages in his fight for freedom. Today's appearance ended for a time the courtroom scene of the Pantages family. Mrs. Pantages yesterday was granted probation for ten years from the conviction of manslaughter for the death of Juro Rokumoto, Japanese gardener in an automobile accident last June. Mrs. Pantages paid \$78,500 to Rokumotos family and several of his friends who were riding in the gardeners car.

Mrs. Pantages is ill, and before her husband left the courtroom today he was granted a final request—that he be permitted to see her.—Lubbock Journal.

NOTICE

Percy Jones will hold service in the Presbyterian church at Spur on Sunday Morning, November 17, at eleven o'clock. The public cordially invited to attend.

H. P. Bell, Teacher at Prairie Chapel was transacting business in our city Saturday.

Chas. Whitener who has been quite a lot of concrete work at Amarillo this fall came in the first of the week and is spending a few days with his family.

Espuela Butter Being Shipped To Northern Markets

Last week the Spur Creamery shipped a carload of butter to the Chicago market. The shipment consisted of 351 tubs each weighing 63 pounds.

The record of the Spur Creamery is becoming widely known and the demand for Espuela Brand butter is growing. Spur Creamery is manufacturing a fine quality of butter and the public in general is beginning to find it out.

In a recent national test of samples of butter sent in by creameries all over the United States, four from Texas scored in the high honor mark. Espuela Brand, made by the Spur creamery was one of the four. The scoring standing at 92 points. This is a fine record for a creamery the size of the one in Spur.

Has Asked For Encampment

Mrs. Viola Dawson, pastor of the Nazarene Church, stated this week that her church had made a bid for the next Nazarene Young Peoples Society and Church Encampment. This meeting will be held at some point in West Texas next July starting on the 4th and continuing for ten days. It is not assured that the Spur church will be honored with the meeting yet but the local church has extended an invitation for the people to meet in Spur.

It would be a great thing if our little city could secure this encampment next summer. There will be from 1000 to 1500 people in attendance during those ten days. They will come from distant points bringing their cars, camping truck and other equipment for camping out with their families, and all of these people will need groceries, dry goods, laundry work and all other necessary things to live for those ten days. It will be a real opportunity for Spur merchants to do a service becoming to this great organization of people who will come here for both spiritual and temporal food.

The Northwest Texas Fair Association, no doubt, will be glad to lend the use of the fair park including all the buildings. This would be a fine place to camp, there is a building of sufficient size to hold all the people for services, and the exhibition buildings could be used in other ways.

The Nazarene church is making arrangements for a permanent camp where they can meet each year. If Spur can meet the requirements, it would be a fine thing for our town. We are located about the central point in the territory, and the great number of people coming each year would mean so much to our little city. It will be well to think along these lines.

MRS. DAWSON TO START MEETING AT ROARING SPRINGS

Mrs. Viola Dawson, pastor of the Nazarene church here, will begin a revival meeting in Roaring Springs next Tuesday. It being at the close of the conference year Mrs. Dawson was able to secure the Methodist church where the meeting will be held. This will be the first meeting held by the Nazarene church in that city, but the people in Roaring Springs will find Mrs. Dawson will bring them able gospel messages. There is not a person anywhere who has a greater love for humanity than that manifested by Mr. and Mrs. Dawson and the people of Roaring Springs will find that they stand for the principles of right in a very strong manner.

W. W. Haingrove of Shamrock, was in our country the first of the week visiting his parents and other relatives.

Spur Defeats Post 24 to 19

(By Jephtha Craig)

The Spur High Bulldogs showing the strongest offense and defense of this year defeated the Post Antelopes at Post Monday afternoon 24 to 19. There was an estimated crowd of 3000 people present over half of which were from Spur and Jayton. The Spur team was strongly supported from start to finish by the sidelines. The High School Pep Squad and band were there in full force and kept up the pep from start to finish.

Coach Taylor of the local High School made few substitutions and kept his first string in throughout the game. His brother Coach Harry Taylor used only two substitutes. The game was a thriller from the start with the passing and long end runs that ended twice in touchdowns for Spur. Few penalties were assessed on either side.

The game opened with Spur receiving the ball, Hahn fumbled when tackled on the first play and Post covered. In a few plays Post went over for their first touchdown. Post made another just before the quarter ended but Spur followed with one early in the second quarter. The first half ended without any further scoring but Spur had begun a strong drive down the field. Post made their other touchdown in the latter part of the third quarter. Spur made three touchdowns in the last quarter, Hahn scored the first one on a short right end run. Puckett scored the next with a 30 yard run around left end and Hahn scored the last with an 80 yard run after receiving a punt.

For Spur the Stars were eleven men, in the backfield Hahn, Puckett and Lewis were the strongest on offense while Puckett, Lewis and Rickles were the defensive stars. Lewis played the best game he has this year, backing up the line on defense with sure hard tackles. In the line Gaines and Barrett were the best on defense breaking through and tackling the runner from behind. Worthen was the outstanding end for Spur, breaking up passes, receiving passes and stopping the runner around his end. Reddell, substitute for Hisey who was hurt early in the game played a good game. Morgan at guard was easily the class of the linemen of both teams despite an injured ear which would seem to hold him back. Morrison and Holley should be given their share of the glory as they were in every play and helped to stop Big Moore.

For Post Luman and Moore were by far the best with Floyd running a close second in the backfield. Cross left end was the best end seen this year and is by far the best all round end in this district. Cross broke up more plays for Spur than any one man and was the cause of Spur not scoring any more than they did.

The Post Antelopes made 13 first downs to Spur's 14. Post completed 10 passes for 165 yards and Spur completed 3 for 48 yards. Post was penalized 4 times for a total of 20 yards and Spur was penalized five times for a total of 65 yards.

First Quarter

Post kicked in the end zone and Spur was given the ball on the 20 yard line. Hahn went around right end and fumbled when tackled Post covering the ball. Rea made three yards then lost four. Luman passed to Moore for first down. Floyd failed to gain around left end. Moore went over center for four yards. Luman made five over right tackle followed by one more over center. Moore went over center for touchdown. Luman place kicked goal for extra point.

Spur kicked to Moore on 10 yard line, return 30. Floyd made 22 yards around right end. No gain Luman made 6 over left tackle.

(Continued on Page 2)

W. P. T. Smith of Dry Lake was in our city Saturday doing some trading.

CHICAGO WAR MEMORIAL

Harold R. (Private) Peat, well known to Rotary Clubs as a world war hero and advocate of peace, is stirred not so much by the fact that Chicago ten years after the war, is to erect a war memorial, but as to just what form that memorial will take. As one who served in the ranks he is interested in the design that will be selected. Writing in the Rotarian for November he says, "No design in stone can ever tell the half of the unsung gallantry, heroism, and romantic chivalry of men in war. No one dare detract from the amazing valor of people in war—but had each private soldier a hundred medals won upon battlefield, no mothers son could emulate him unless we provide him another war of like proportions to the last or greater. Give the wealth of your imagination in monuments to the heroes of tomorrow, the Edisons, Lindberghs, Byrds, Pasteurs, and their kind; but for war, let the artists dare to paint truly for once." Private Peat offers some unorthodox suggestion for designs of the Chicago War Memorial, that will pique your interest, for even tho you violently disagree you will be bound to concede that the idea comes from a man who has experienced the things he writes about and we warn you, they are not all pleasant reading by any means.

Make California Trip And Back

Constable S. C. Rawlings and Deputy Sheriff E. R. Lee returned last Thursday from a trip to California. About three weeks ago Constable Rawlings arrested a man by the name of Moses Gayman in Spur on charges of lunacy. He was tried and convicted of the charge and while preparations were being made to send him to the state hospital at Wichita Falls Mr. Rawlings exchanged several telegrams with Gaymans sister in California. They requested that Gayman be brought to California and in conversation with Mr. Rawlings in regard to the trip he gave the following statements:

"We left Spur October 30 by way of Lubbock. Here it began to snow and the roads were muddy and slick until we passed through Littlefield. After we crossed the line of Mexico the roads were fine except for being a little rough. We traveled the northern route by way of Springerville, Flagstaff and Needles, arriving at Pasadena Saturday November 2. After talking to the relatives of Gayman and finding there was other business of his that needed looking after, they asked that we stay over until Monday which we did. Saturday evening we drove to Long Beach where we visited the Police Station and were treated in a most generous way. One policeman accompanied us over the towns of Long Beach, Los Angeles through Hollywood and all the nearby towns and places of importance which he knew. On our return the band played Department presented us with a couple of passes to Catalina Island. The ship was most beautiful and the trip enjoyable all the way. We saw lots of sharks, and flying fish on the trip.

"We spent three and one half hours on the Island. During that time we rode the glass bottom boat, seeing the beautiful plants rocks and shells in the bottom of the ocean, and fish of all kinds and sizes. As we boarded the ship for our return the band played "He is Coming Back Again" and as the ship plowed its way into the deep waters they waived us a good bye. As we left the harbor a large seaplane took off from the water, passed close to the ship, then bid us farewell. The day was beautiful, the water very calm and everybody enjoyed the trip.

"We left Long Beach on Tuesday, November 5th, came back by way of San Diego, Yuma, Tuscon, and El Paso, a distance of 1540

Bandeën Elected Manager West Texas C. of C.

At the meeting of the board of Directors at Stamford last Saturday D. A. Bandeën, of El Paso, was elected manager for the West Texas Chamber of Commerce by a unanimous vote. Mr. Bandeën has been with the El Paso Chamber of Commerce for sometime and is recognized as one of the best men in the State in Chamber of Commerce work. He will move to Stamford next week and take charge of the affairs of the office carrying out the work of the West Texas Chamber of Commerce under the direction of the Board of Directors.

The field of the West Texas Chamber of Commerce is divided into ten districts. The following men were selected to direct the work of the various districts: District No. 1 Will O'Brien of Amarillo; District No. 2 Clifford B. Jones of Spur; District No. 3, F. W. Kennerly of Quanah; District No. 4 Amon G. Carter of Ft. Worth; District No. 5 C. M. Caldwell of Abilene; District No. 6 B. Reagan of Big Springs; District No. 7, H. L. Birney of El Paso; District No. 8, John Perkins of Alpine District No. 9, John Q. Adams of Hallmark of Dublin. Winters; District No. 10, W. D.

A banquet was attended by 75 members of the Board. Col. R. L. Penick was master of ceremonies and also one of the speakers. President W. B. Hamilton of Wichita Falls was also a speaker at the banquet.

Producer of High Grade Cotton Here

D. W. Wilson, of Duluth, Ga., was in our city the first of the week looking over the country and summing up conditions. Mr. Wilson is the originator of the Wilson's Better Staple Cotton which he has been breeding for a number of years. He stated that he placed some of his cotton in this country for a number of years but climatic conditions were such that no one could tell what would be the outcome. He stated that if people would get to a decision on seed cotton that he would furnish seed for the next crop at cost in order to get the people to raising good cotton in this country.

He had to leave Wednesday in order to fill some other engagements. He stated that he would like to have remained here longer and look this country over but he had more engagements now than his limited time would justify.

To Hold Bakery Sale Saturday

The ladies of the Presbyterian Church will hold a bakery sale next Saturday. The sale will start about ten o'clock and will be at the south room of the new Palace Theatre. Cakes, pies and many other good things to eat will be sold. The ladies of Spur and the community will have an opportunity to purchase many extra good things for their Sunday dinners.

R. G. Beadle of Girard was in our city Saturday taking advantage of bargains offered by our merchants.

Mr. and Mrs. William Thompson were in our city Saturday doing some trading.

Emmett Ragsdale of Espuela, was attending to business affairs in our city Saturday.

J. C. Porter, of Craton community was looking after business matters here Saturday.

Paul Braddock of Afton, was attending to business interests in our city Saturday.

miles arriving in Spur Thursday evening at 9:30 o'clock."

SPUR VS POST GAME

(Continued from Page 1)

Moore followed with 5 more in the same place. Luman went over center for 8 yards, and around right end for three. Moore went over center for 1 yard. Floyd failed to gain. Luman made two yards around left end. Incomplete pass. Spur received the ball on downs.

Hisey punted to Post's 42 yard line. Incomplete pass. Rea made 4 yards over left tackle. Pass Luman to Moore for 5 yards. Moore made one yard over center and Luman made 8 yards around right end. Moore made two yards over center. Reddell for Hisey. Moore made 4 yards in two plays over left tackle. Floyd went around right end for 7 yards. Moore made one yard

over right tackle. Rea lost three yards around right end. Incomplete pass. Pass Luman to Rodgers for touchdown. Luman failed to kick goal.

Post kicked out of bounds and had to kick over. Puckett received the next on the 10 yard line and returned it to the 50. Puckett made three yards over left tackle. Lewis no gain. Rickles made one yard around left end. Lewis punted to the 35 yard line. Moore made two yards over center. Floyd fumbled the next and Worthen covered on Post 40 yard line. Hahn made 10 yards around right end. Score Post 13 Spur 0.

Second Period

Puckett made 5 yards around right end. Rickles followed with 5 around left end. Lewis made 15 yards around left end. Hahn went over center for two yards. Puckett made three yards in two plays over left tackle. Lewis went over left tackle for touchdown. Puckett failed to kick goal.

Puckett kicked to Moore on ten yard line. Return 20. Rea made 4 yards around right end. Moore made 2 yards over left tackle. Luman no gain. Luman punted to 17 yard line. Puckett no gain. Lewis made five yards around left end. Puckett punted to Post's 45 yard line. Floyd failed to gain around right end. Pass Luman to Cross for 12 yards. Luman tried two passes but both failed and Post was penalized 5 yards. Gaines threw runner for five yard loss around left end. Luman punted to Lewis on 25 yard line. Spur tried two passes but both failed and Spur was penalized five yards. Puckett punted to 45 yard line. Post penalized 15 yards for clipping. Luman made five yards over center. Floyd failed to gain around left end. Moore made four yards over left tackle. 15 yard penalty on Spur for holding. Moore made three yards over right tackle. Moore made 7 more yards in two line plays. Moore no gain. Incomplete pass. Post penalized five yds. for off sides. Pass Luman to Moore for 6 yards. Incomplete pass Spur's ball on downs. Puckett made 4 yards over center. 15 yard penalty on Spur for holding. Pass Lewis to Puckett for 14 yards. Pass Lewis to Worthen for 12

yards. Incomplete pass. Puckett made five yards around left end. Score Post 13 Spur 6.

Third Quarter

Rickles received the ball on 20 yard line, return 7. Puckett lost 7 on a bad pass from center. Rickles made 7 yards around left end. Puckett punted to Posts 35 yard line. No gain right end. Floyd failed to gain over left tackle. Incomplete pass. Luman punted to Spurs ten yard line. Hahn returned 9. Rickles made 3 yards around left end. Lewis made 18 yards over left tackle and cut back. Puckett one yard over right tackle. Rickles made 4 yards around right end. Pass Puckett to Hahn for 20 yards. Rickles no gain. Incomplete pass. Incomplete pass and Spur penalized five yards. Lewis punted out of bounds on Posts 21 yard line. Rea made 8 yards around right end. Floyd made 8 yards around left end. Luman thrown for a 2 yard loss. Luman made 3 yards over center. Floyd made one yard around right end. Post punted to Spur's 10 yard line. Lewis made 2 around right end. Puckett made 4 yards around left end. Incomplete pass. Puckett punted to Post 42 yard line. No gain. Moore made 5 yards over center. Moore made 6 yards over left tackle. Moore again over center for two yards. No gain. Incomplete pass. Pass Luman to Moore for touchdown. Kick blocked.

Spur received the ball on 20 yard line after Post kicked in the end zone. Lewis made three yards around right end. Lewis made 5 yards around left end. Puckett one yard over center. Puckett made 13 yards around right end. Lewis made one yard over right tackle. Two incomplete passes and Spur penalized 5 yards. Lewis punted to Floyd on Post 38 yard line. Floyd failed to gain around right end. Post fumbled and Barrett covered the ball. Lewis made 5 yards around left end. Puckett went over left tackle for 3 yards. Rickles made 2 yards around right end. Score Post 19 Spur 6.

Fourth Quarter

Lewis made 17 yards around right end. Hahn went around right end for touchdown. No goal. Puckett kicked to Moore on 10 yard line. Return 15. Floyd failed to gain around right end. Luman

made one yard over center. 5 yard penalty on Post for too much huddle time. Luman punted to Hahn on Spurs 40 yard line and he returned to Posts 33 yard line. Lewis made 4 yards around right end. Hahn no gain. Puckett went around left end for touchdown. No goal.

Puckett kicked to 10 yard line. Moore returned to 30. Rea made 2 yards over center. Moore made 8 yards over left tackle. Moore made three more yards over left tackle. Luman no gain. More 1 yard over center. Hahn took Lumans punt on Spurs 20 yard line and raced 80 yards through both teams for the touchdown. No goal.

Puckett kicked to 10 yard line. Moore returned to 34. Pass Luman to Moore for 10 yards. Rea made 5 yards over left tackle. Luman made 5 yards around right end. Floyd failed to gain over right end. No gain over right tackle. 2 incomplete passes and the ball went to Spur on downs. Rickles made one yard over left tackle. Puckett made three yards over right tackle. Hahn made 52 yards around left end. Rickles no gain. Lewis made three yards around left end. Lewis no gain. Puckett lost two yards and the ball went to Post on their 4 yard line. Gaines intercepts pass on 9 yard line. Rickles lost 5 yards around right end and Lewis failed to gain. Puckett no gain. Rickles no gain and the ball went to Post on downs. Ragsdale for Morgan. Hisey for Reddell. Floyd made two yards at right end. Incomplete pass. Floyd failed to gain. Incomplete pass.

The line up was as follows:

Spur	Position	Post
Hisey	L. E.	Cross
Morrison	L. T.	Browning
Morgan	L. G.	Crawford
Gaines (C)	C	Paxton
Holley	R. G.	Ferguson
Barrett	R. T.	Wood
Worthen	R. E.	Rodgers
Lewis	Q.	Luman (C).
Hahn	L. H.	Rea
Rickles	L. H.	Floyd
Puckett	F.	Moore

Referee Hemphill, Tech. Umpire Priz. Timers: Cross and Dickson. Head Linesman: Reed. Time of quarters 12 1-2 minutes. Weather: Fair and warm.

1925 BRIDGE CLUB

Mrs. H. H. Hardin delightfully entertained the 1925 Bridge Club with a Thanksgiving party Thursday afternoon. The prizes, sterling silver salt and pepper sets went to Mrs. F. W. Jennings and Mrs. C. L. Love.

An unusually attractive salad plate was served to the following: Mesdames R. R. Wooten, Nellie Davis, E. L. Tanner, E. F. Laverly, C. L. Love, Hill Perry, Sanders, Shirley Robbins, M. C. Golding, F. W. Jennings, Wallace from Jayton and Mrs. Price. A short business session was called by the president and Mrs.

Roy Harkey was elected to membership in the club.

W. W. Flournoy the hustling theatre man at Silverton was in our city the first of the week looking after business affairs and getting the remainder of his household goods moved home.

McADOO NEWS

The carnival which was held in McAdoo, Hallowe'en night was a great success. It was really the largest and best carnival ever held in McAdoo. All the booths which were nine in number, sold all their goods and each had a good supply. Especially the fortune teller who had not exhausted her forecasts of the future at the end. The athletic show, which was sponsored by the boys athletic society attracted a large crowd at all their shows. The negro minstrel attracted so much attention that the auditorium was filled to capacity. The event that caused the most excitement of the evening was the High School Queen contest. The Junior queen won the contest by a large majority of votes. The Queen Miss Katherine Rose was crowned in a very solemn and dignified way before a large audience. The entire proceeds for the evening was two hundred and seventy six dollars.

Some very fine chapel programs are being rendered by the different rooms and we are very glad to state that they are being attended by the parents. Everyone is invited to attend these programs and also our class room work. An order has been placed for new basketball suits for both boys and girls. Also, two new basketballs have been received and the

prospects are bright for the win of the county championship.

The trustees have recently approved the order for some much needed library books and it is hoped that the books will be received by the end of the week.

The new McAdoo mercantile building is now completed, but the company has not received its stock of goods. The building is the largest and nicest one in McAdoo. It would have been finished earlier had it not been for the wind which caused considerable damage and delay.

Katherine and Lucille Rose were two of the five girls from Dickens county to win a free trip to the Dallas fair in connection with the 4-H Club work. The trip was made possible by the Spur Chamber of Commerce. Katherine's club work won second place at the state fair. Both girls reported an enjoyable trip.

All farmers in the community that are interested in the planting better cotton met at McAdoo Saturday night, November 9. It is understood that all interested will buy a few sacks of high grade cotton seed.

J. A. Murphy of Espuela was looking after business affairs in our city the first of the week.

Lewis Daniels of Steel Hill was attending to business affairs in our city Saturday.

Get your adding machine paper at the Time Office.

Duck Creek Quacks

A number of the farmers are taking advantage of the rain last week by sowing wheat. Cotton picking is still the order of the day, but we have hopes it will soon be a memory.

School is progressing nicely. The trustees came up and installed 4 fine swings for the little folks Monday. This was a very welcome addition to the playground equipment as the little fellows did not have many ways of amusing themselves. The boys basket ball team is rounding into shape. There will not be enough large boys to have a senior team, but we have hopes of winning quite a few games with our juniors. The boys talk of having a match game in the next few days but so far we have not been able to learn of any nearby team that cares to have a tussel with us. Of course that does not mean that we are hard to beat but there are few schools nearby that have teams organized.

Audeen Simmons spent Sunday with Bertha Thomas.

Quite a few from here attended the singing at Girard last Sunday afternoon.

The party at Jessie Hagin's last Thursday night was enjoyed by a large crowd.

We regret to learn that Mr. and Mrs. Brisson Morris have moved to Weatherford.

Miss Evelyn Bennett spent the day Sunday with Miss Eula Mae Gregory.

Mr. Solie Thomas left Monday for Lubbock on a business trip.

Mr. and Mrs. McCurry and family spent Sunday and Sunday night with Mr. S. C. Thomas.

Mr. and Mrs. Jack Simmons returned from Dumas where they have spent the last three months.

Miss Mary Jane Simmons spent Thursday night with Evelyn Bennett.

Mr. and Mrs. T. E. Gregory visited with their daughter Mrs. Lee Nelson at Matador the past week end.

Mr. C. R. Bennett was called to the bedside of his brother who lives at Pote, Oklahoma. He returned last Thursday reporting that his brother was still dangerously

ill. We hope that he has news soon that his brother has improved.

D. G. Simmons left Friday on a business trip to Dumas.

Miss Hulsey spent the week-end with her sister Mrs. Bachman of Dickens.

Don't forget our Sunday School.

Chrysler Corp. Shows Good Gain

From figures contained in the financial statement of the Chrysler Corporation and subsidiaries as audited for business closing September 30th, it appears that the company did a fine business for the first nine months of this year. Just a few years ago Walter Chrysler, the founder of the company, was a mechanic in an automobile factory and there is where he obtained the foundation for his great business success.

The report shows that for the nine months closing September 30, that the sale of automobiles amounted to \$325,959,888.44. The cost of sales amounted to \$269,580,819.52 leaving a gross profit of \$56,379,068.92. Interest and brokerage amounted to \$2,900,807.88 is added to the gross profit making it amount to \$59,279,876.80.

The deductions for administration, engineering, selling, advertising and general expenses amounted to \$28,372,193.80. Then there was interest both paid and accrued which amounted to \$2,671,380.08 which made the total expenses for the nine months amount to \$31,043,573.88. If this sum be deducted from the gross profits as shown above would leave an income of \$28,236,302.92.

There has been no provision

made for payment of income taxes in any country at this time. However, the auditor sets out the amount which is \$3,505,883.63. If this be deducted from the income shown above it will leave \$24,730,419.29 which is a net income of nearly three million dollars per month.

Now the stockholders come in for their part so dividends are declared and paid out, so much each quarter. We find the report shows that these dividends amounted to \$13,335,764.25. If we take this amount from the net income it will leave a surplus of \$11,394,655.04. This is the amount left in the business as surplus for operating fund. Most any business should be pleased to pay a dividend amounting to four per cent of the gross business and still have a surplus of \$11,394,655.04.

However, this does not seem to be all the ready cash in the treasury of the firm. The report shows a balance of January 1st of \$48,225,210.46. If to this amount we add the surplus profit of the nine months business this year it will give a surplus amount of \$59,619,865.50. This is the pocket change the company left in the

cash register to take care of the deals in which ready cash is needed.

When Mr. Chrysler started in business a few years ago it was said he could not succeed. It is reported that there are a few people who are not yet convinced that this business is a success. It is generally conceded, however, that when any company can pay a dividend of more than ten per cent of the capital stock in nine months and still retain a surplus of more than eleven millions, there must be some reason to believe that business is succeeding.

In addition, to all this the Chrysler Corporation has taken over the entire Dodge Brothers business factory and all, fulfilled every contract of that company and has made all payments due to date and has provision for all other payments. Then there has been a new factory built complete which is capable of manufacturing one thousand Plymouth cars every 9 hours, and this has been built in addition to the old factory which makes the sixes. It is wonderful what push and business acumen can accomplish within a few years

MRS. E. L. TANNER HOSTESS TO DELPHIAN CLUB

The Delphian club met with Mrs. E. L. Tanner Tuesday, Nov. 5 at 1:30 P. M. An interesting program was enjoyed by a goodly number.

All members are requested to be present Nov. 19 at 1:30 p.m. when the club meets at the home of Mrs. R. E. Dickson with Mrs. Dickson as leader.

The subject for discussion deals with early german composers.

1. Define a chorale and show how the chorale became one of the formative influences of classical music—Mrs. J. E. Berry.
2. (a) Organ composition.
(b) Well tempered clavichord.
(c) The Passions—Mrs. W. T. Andrews.
3. Life of Handel—Mrs. Oran McClure.
4. Contrast Bach's "St. Matthew with Handel's "Messiah"—Mrs. R. E. Dickson.
5. Musical selections from Bach and Handel—Mrs. R. E. Dickson.

MRS. JAMES O. SMITH HOSTESS ON THURSDAY

On Thursday of last week Mrs. James O. Smith was hostess to her friends at a series of bridge and 42 parties.

Members of the 1925 bridge club were geusts at the morning hour when decorations suggestive of the Thanksgiving season were used.

Following the bridge games Mrs. Oran McClure was presented with a set of lovely maderia napkins as high score favor. Mrs. Shirley Robins won consolation, an attractive picture done in cross stitch. Other geusts were Mesdames F. W. Jennings, M. C. Golding, Nellie Davis, V. A. Hardin, Mac Watson, Joe Stotts, Gene Taylor, H. O. Everts and Miss Nellie B. Albin.

In the afternoon at 3:30 the geusts were the Joi De Voi club members and others. Beautiful fall flowers were effectively used about the room where tables were placed for bridge. High score prize a pretty green lunch set was won by Mrs. F. E. Ripley. Mrs. Bob Cluck won high geust score, while Mrs. H. O. Everts made low

both prizes being lovely strings of beads.

A delicious salad course was served to the following mesdames: H. O. Everts, F. E. Ripley, A. C. Hull, Houston Scarborough, David Burns, Dan H. Zachry, Cecil Fox, Clifford Jones, William Manning, Jack Rector, Willis King, Bob Cluck, W. E. Flint, Malcom Brannen, Al Van Dyke and Miss Lora Barrett.

At eight o'clock in the evening forty-two was enjoyed by a number of Mrs. Smiths friends. Unique plate favors of Dresden figures were presented to the following: Mesdams Roy Stovall, E. A. Russell, Johnie King, Margaret Newman, Bill Putman, Remington J. P. Carson, J. H. Busby, H. O. Everts, A. C. Hull, Misses Lora Barrett and Julia Mae Hickman.

MRS. W. F. GODFREY HOSTESS ON FRIDAY

On Friday afternoon of last week Mrs. W. F. Godfrey graciously entertained the members of the Friday afternoon club and other geusts at her home.

Games of 42 former the entertainment diversion for the afternoon. Geusts on the occasion were Mesdames Remington, Hill Perry, F. W. Jennings, E. L. Carr Russell, John King, Margaret Newman, B. F. Halle, Riley Wooten, P. C. Nichols, V. C. Smart, Tom Dickey, Nellie Davis, Turney Whigham, M. C. Golding, W. S. Campbell, C. P. Ensey, John Hazelwood, R. C. Forbis, Oran McClure, Geo. S. Link, W. T. Andrews J. P. Carson, L. R. Barrett, William Manning, Chas. Whitener, S. L. Davis, Jim Foster, E. S. Lee, Luther Hindman, Roy Stovall, and James B. Reed.

HELPING TO BUILD TEXAS

Pittsburg glass manufacturers are studying the silica sands near Denison as a source of supply for a new plant at Monterey, Mexico. Many Texas counties have silica sands available in inexhaustible quantities.

To shelter campers at White Rock, the Dallas Railway and Terminal Co. has presented to the city ten old street cars.

Lubbock has purchased an airport of 640 acres four miles north of the city and will improve it. Practically every ambitious town and city in Texas has provided some kind of airport facilities.

Trains on the Santa Fe's Orient extension from San Angelo to Sonora are operating as far as Christoval and will be in Sonora in December.

A million-dollar cracking plant at Iraan, Pecos County, is being built by the Humble Oil Co., which already owns one such plant at McCamey, erected at a cost of \$2,000,000.

Under the "calamity" clause of the State Constitution, Texas has given away tax money that during the life of the tax exemptions will probably total \$15,000,000. Every coast county except three—Harris, Jackson and Chambers—has either total or partial exemption from state taxes.

Wise County whose diversification ideas have prospered many of its farmers above the Texas average and which has a considerable income from dairying, truck and poultry, cashed in this year on some of its experimental vineyards. Planted three years ago, returns ran as high as \$200 an acre from grapes according to a DeCATUR dispatch.

Extension of the citrus fruits area northward from the lower Rio Grande valley is partly responsible for the estimated increase of 1,500,000 in citrus trees in the past year. Orchards of Webb County are coming into real bearing and Laredo expects this season to ship its first full carload of grapefruit, oranges and tangerines. When all the citrus orchards in the Texas valley are producing Texas will no longer be third in citrus fruit production, and it may be first in the next few years, as the demand for Texas citrus fruits is growing as the public learns to appreciate their superiority.

HOME OF HONEST VALUES

MEDITATIONS ON THE SEEN AND THE UNSEEN

For the things which are seen are temporal; but the things which are not seen are eternal.—Paul.

Notwithstanding we hear it often said, "I do not believe anything I can not see," such statement is manifestly untrue. We every day come into contact with and realize the existence of unseen things, physical and otherwise. For example, we do not see the mind, we do not see germs that are visible only with a microscope and we know that there are still smaller germs and bacteria known as bacteriophage, which cannot be seen, even with the aid of this wonder revealing device.

Leaving the kingdom of living creatures and entering that of physics we are at once impressed with the apostles statement as to the invisibility of eternal things when we think of what are usually termed the laws of nature. No one disputes the existence of gravitation, centripetal and centrifugal forces, adhesion, cohesion, repulsion and other forces. These are so manifest that it would be the ravings of a maniac to argue against their existence.

In the physical realm we must of necessity recognize and admit the existence of certain powers and influences which are the products of laws just mentioned when applied in certain ways to man, but which are not seen. Power, however produced, is invisible, whether it be electricity, steam, magnetism or any other. We know that these exist and we know their nature because of their manifestation through material objects and agencies.

The greatest fact of which man is conscious, or can be conscious the super miracle of all the ages is LIFE, which is invisible. We know that IS, just as we know the existence of other things above mentioned—by its manifestation.

Just as surely, even more surely, we must know by every urge of reason intellect, logic, that He who is infinite Life must and does exist, since every law of nature, every product of such laws, whether applied by man or through fortuitous circumstances and e-

vents brought about by what we are pleased to term "blind forces" are manifestations of HIS power. That He is Infinite Intelligence is deducible from the order and system everywhere demonstrated. These are not the products or results of "chaos and old night". Hence there must be existent in Him omnipotence, omniscience, omnipresence, since these are manifestly exercised and directed by Infinite Intelligence.

When we leave the animal kingdom and the field of physics and enter into that domain which man alone has the intelligence and reason to recognize, and therefore the only creature capable of appreciating it—the realm of the moral and spiritual—the thought of the eternality of things invisible is impressed upon us more than ever.

The resplendent virtues which man alone possesses, but does not always practice, are as invisible as are Gods attributes, or the spirits which occupy the land of supernal glories and endless peace.

This at once brings us to the realization that the real man himself is not seen by his brother. He is as invisible as the God that created him.

That same wonderful hero and Apostle of Jesus quoted at the beginning of this article says, rather emphasizing the sentence just preceding this one, "So then with the mind I myself serve the law of God; but with the flesh the law of sin." It is this mind man, this intelligence, which is not seen by man nor any other creature, but is seen and known of him who created him.

What Sees and Is Seen

Thus it is very natural that the physical man sees the physical man while the spiritual man sees the spiritual man. Neither sees the other, although each knows the other exists. When we come to dwell on these thoughts we find that it is rather marvelous that we can say that one has never seen his most intimate friend, not even that most heroic, truest and most self sacrificing friend, his own mother.

We know that the virtues exercised by the same evidence that we know that the physical law exists.

—their manifestation. We see the manifestation of love in kindly deeds; of life in creatures and other living things about us; of mind in material objects whose fabrication has been wrought by man, but we do not see either love, life nor mind.

We cannot see either of the five senses, but we do know that they exist in us. That man does not see his soul, mind spirit, does not mean that they do not exist, but he does know that they constitute his very being itself.

Even the conscience which make men Godlike he can neither, see, hear, feel, smell nor taste.

When one says that another man thought so, he has no way of knowing what he thought except he be told by the thinker, or else has deduced his conclusions from the actions for which the one spoken of is responsible. Even then he can not always be sure of his thought in detail.

Men are only too much disposed to assume certain conclusions without having sufficient reason for them, then stating such assumptions as facts, when they may be far from facts.

If men were capable of "reading" the minds of others to the uttermost, without aid from the one whose mind was to be read, or from surrounding conditions or circumstances, the world would be in a greater turmoil that it is now, or ever has been. Of course there would be a great many thots seen which are sublimely beautiful; and it is gratifying to know that men do have such thoughts, for which Go be praised.

Things might go on very well until men began to read ugly and wicked thoughts in each others minds.

There are a great many of this kind in them now, but they can't be seen. There would be no way of lying out of them. The offended would not listen to the protestations of innocence from the offender. And meanwhile he would be just as guilty of the same offense as the one against whom he feels resentment.

All Would Be Apprehensive
How much would you sleep tonight if you knew that tomorrow all your thoughts, good, bad and

indifferent, would be read by every one you met?

The consolation, you would have would be that every other person would just as badly scared as you, just as greatly embarrassed, just as cowardly because just as guilty even in his own conscience, as you would be. We know this, too; that, although the mind-reading can not be done, the thoughts that would cause the alarm are there just the same.

All would be found guilty—All ARE guilty. It is now and would be then just a matter of degree.

One thing is certain, a great many men would change their profession, business or trade. Things then would have to be done on the square.

And what a lot of good friends we'd find that we didn't know we had!

Glorious is the realization that after all there is very much more of good than evil in men!

One of the greatest possible causes for rejoicing is that we know, when we thing seriously of it, that there is very much more of good than of evil in the world. We realize this is true when we reflect that more of each persons life is peaceful and happy, free from pain and sorrow than otherwise. If there were more evil than good there necessarily would more unhappiness than happiness, more discomfort than comfort, more anxiety than tranquillity and peace.

The fact remains, however, that there is evil in plenty and therefore pain, sorrow and suffering in plenty, and it is our business to lessen these to the extent that it is possible with us.

Comforting Reflections
Comforting it is to know that there is more of laughter than tears in our lives, more of happiness than unhappiness, more of health than sickness, more joy than sorrow, more beauty than ugliness, more pleasure than pain.

If there were as many sighs as smiles, as many lines caused by sorrows as wrinkles caused by laughter, we surely would have a sad old world.

Were there as many sick as well as many suffering from accident as free from it, those who were

well would not be able to supply hospitals and doctors for the invalids and accident victims,

more grocery and dry goods stores than drug stores, more schoolhouses than insane asylums, more churches than jails and penitentiaries; more loving and affectionate fathers and mothers than human brutes to whom they have

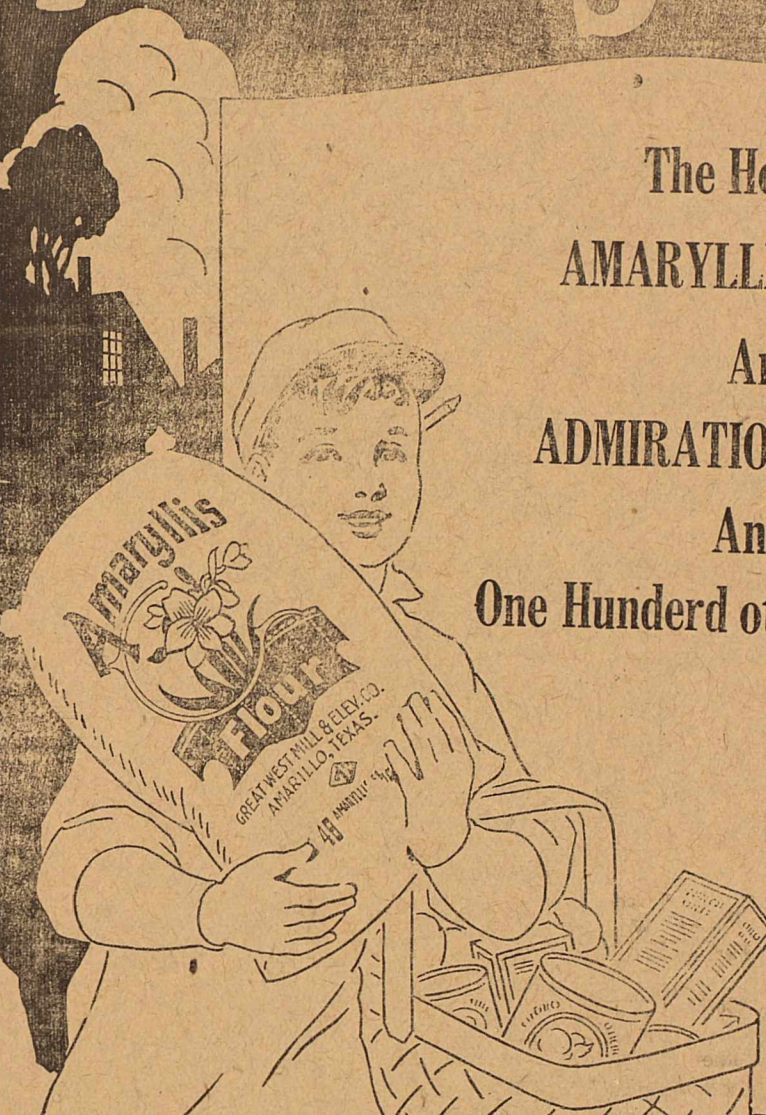

more grocery and dry goods stores than drug stores, more schoolhouses than insane asylums, more churches than jails and penitentiaries; more loving and affectionate fathers and mothers than human brutes to whom they have

whom they should lavish love and kindness.

All of which proves that right thought, honest motive and unselfish desire are found in the last analysis to be the power that moves the activities of the world

FARM NOTES

By E. L. TANNER,
County Agent, Dickens County

TERRACING SCHOOLS BEGIN NEXT WEEK

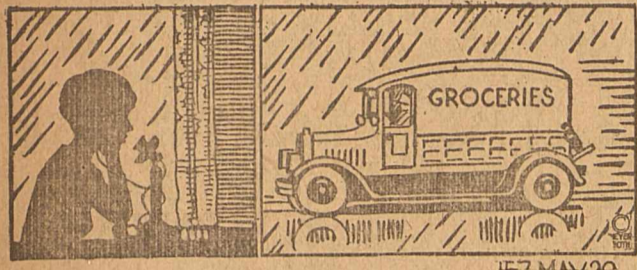

Terracing schools will begin in Dickens County next week. The first one will be on the place of W. M. Hunter who lives in the Wilson Draw community. This

school will be held on Friday and Saturday. It will last till Saturday noon. Mr. Hunter has over eight hundred acres which he is going to terrace this winter. He has purchased two terracing machines with seven foot blades with which he expects to do this work. He is anxious to get this work started as soon as possible. Part of this land is on the Plains. He says that he is satisfied himself that he is losing money on his

plains land until he has every row on a level and terraces put up all so.

Any farmer is welcome to attend any school given. It takes two days for a man to learn to operate a level with accuracy and to place terraces accurately. There is nothing high powered about running lines. It is simple and any average person can learn to do this work as well as any engineer he could hire.

The past winter there were 58 men who spent the two days at schools and who learned to operate a level. Seventeen farm levels were bought by these men and they ran over seven thousand acres before the season was over. Many of these men are running lines in the communities where they live and some of them all over the county. In case you do not wish to run your own lines you can get one of these men to run them for you.

SPUR DRUG CO.

R. C. Carter, Owner

ARE YOU KEEPING UP WITH WHAT THE FEDERAL FARM BOARD IS DOING?

The Federal Farm Board last week approved a national organization for the marketing of grain. What does that mean to the cotton farmer? The following information issued from the offices of the Farm Board at Washington gives the details of this and any farmer can do his own figuring as to what we of the cotton world will have to do to get lined up with this new movement to better agriculture.

With the filing of Articles of Incorporation at Wilmington, Delaware, to-day the Farmers National Grain Corporation, a central marketing agency for the grain cooperatives of the United States, came into legal existence with headquarters in Chicago. This is the first national commodity cooperative sales association to be set up under the guidance of the Federal Farm Board. Similar organizations for the wool and mohair and livestock cooperatives are in the process of formation and will be completed at an early date. Organization of the cooperatives handling other commodities on national or regional lines, dependent upon the particular commodity, is being fostered by the Farm Board in the hope that they, too, will put themselves in position to take full advantage of the provisions of the Agriculture Marketing Act.

The Farmers National Grain Corporation is organized on a strictly cooperative basis which will make use - to the greatest extent possible - of all existing farmer-owned grain marketing facilities. The organization will have adequate capital and if given the support of existing farmer-owned grain marketing association will handle annually a volume considerably in excess of 500,000,000 bushels of all grains. General and action will be in the hands of a tive management of the corporation. The by-laws provide, "shall be a person acceptable to the said Federal Farm Board."

medium through which the Federation provides a plan whereby a Farm Board may make loans to cooperative grain marketing associations, both for current marketing purposes and for the acquisition of physical facilities. Such an organization, if properly managed and properly supported by the farmer-owned grain marketing organizations, should not only reduce local and terminal marketing costs, and eliminate much waste in marketing, but also should exert a strong influence toward greater market-price stabilization.

The Farmers National Grain Corporation provides a plan whereby farmers may extend their cooperative grain marketing activities on extensive scale into the domestic terminal and export markets. The plan which has been provided is the result of conscientious effort on the part of a committee representing all types of existing farmer owned grain marketing agencies. Great pains have been taken to insure that the provisions are essentially fair to all types of grain marketing associations and provisions and provision has been made for insuring fair representation for all associations in accordance with the relative volume of business and support which they give to the corporation in future years. Best of all it provides a means whereby the grain producers may help themselves through their own efforts rather than by receiving what might be termed a direct dose out of public funds. With these provisions the new Corporation has a splendid opportunity for accomplishing worth while results for grain producers and should receive the full support of all existing farmer owned grain marketing associations.

At the call of the Federal Farm Board fifty-two representatives of thirty-six farmer owned grain marketing associations met in Chicago July 26 as the first step in the organization of the corporation. An organization committee of sixteen members was created with the Federal Farm Board in Chicago late in August, at which time a sub-committee of three members was designated to draft articles of incorporation and by-laws. This sub-committee conferred with the Farm Board in Chicago early in October and again in Washington two weeks later, when complete agreement was reached on the detail of organization. The sub-committee made its final report to the organization committee in Chicago October 25 and the articles of incorporation and bylaws were formally adopted and ordered filed.

The corporation has an authorized capital stock of \$10,000,000 and no patronage dividends will be distributed until the capital stock and surplus total \$20,000,000. Dividends on all stock will be limited to 8 per cent. Stock may be subscribed for only by farmer elevator associations, farmer owned grain sales agencies, and growers grain pools upon the minimum basis of one \$100 share for each 2000 bushels of all grains handled by the association. Stock may be paid for in full or on terms. If purchased on terms, ten per cent must be paid down, and the balance covered by five notes of equal amount one of which is payable annually.

Only associations meeting the provisions of the Capper-Volstead Act may subscribe for the capital stock of the corporation. The main provisions of this Act are:

1. That the membership shall be made up of agricultural producers.
2. That the association must be operated for the mutual benefit of its members.
3. That the Association does not do more business with non-members than with members and
4. The association must conform to one of the following: either that it follows the principle of one vote per member, or else dividends on capital stock must be limited to eight per cent.

At the present time, according to records in the Division of Cooperative marketing, Federal Farm Board, about fifty-four per cent of all farmers elevators in the United States of this Act. In addition, a States now comply with the provisions of the Act can do so by changing one or two provisions in their by-laws.

The corporation will have nineteen directors, seven of whom shall be selected by the farmers elevator associations, five by the farmer owned grain sales agencies, five by the growers grain pools and one each by the American Farm Bureau Federation and the National Grange, Patrons of Husbandry.

With the exception of the incorporating directors and part of the first Board, each director will hold office for a term of three years. The territory within which the corporation will operate is to be divided into five districts and directors from many districts will be nominated by the type of association which they represent, which nomination will be equivalent to election, at the annual meeting of stockholders in April of each year. Provision is made for reappointment of directors from time to time as inequalities develop.

In making arrangements to handle the grain, the corporation may buy the grain or handle it on a brokerage basis. The corporation will undertake to assist and strengthen its stockholding member associations, but where duplication of effort or wasteful practices exist, attempt will be made to eliminate such waste as soon as practicable.

CHEVROLET PRODUCTION BREAKS RECORD

Detroit, November 12—All October production records in the history of the Chevrolet Motor Co., were broken last month with an out put of 85,915 cars and trucks, it was announced at the central offices here today.

Compared with the output of 65,052 units for October last year, the 1929 October manufacturing volume shows a gain of more than 20,000 units. It indicates an increase of more than 900 cars and trucks a day over the showing for the corresponding month of a year ago.

Chevrolet's record October performance brings output up to 1,275,778 units as of November 1st. This is more cars than Chevrolet has ever built in an entire year

and is nearly five times the number of any other six cylinder car built in an entire year.

Due to the continued high demand, Chevrolet plants are working on the biggest November schedule on record. An indication of the volume of business that Chevrolet is doing nationally is seen in the report for the last ten days of October which shows a gain of 49 per cent over the corresponding period for last year. The figures for the period are 36,640 for the last ten days of this October as compared with 24,539 for the corresponding period of 1928.

WHY LEAVE YOUR CAR IN THE COLD

When we have a big storage room in a good warm building and storage at small expense. Every modern convenience, alemitte service, inclosed wash rack, best of service for your car. Best of oils—Quaker State, Mobiloil, Veedol, Texaco—The best on the market. Cold weather is here. Ask to have your radiator tested. We have Prestone, Whiz anti-freeze and denatured alcohol. Either is cheaper than a new radiator. Gives you complete protection.
