

FARM NOTES

By E. L. TANNER,
County Agent, Dickens County

(Continued from Page 1)

and a half feet of floor space for each hen and he can keep them shut up all winter as do all commercial poultrymen. Mr. Hagins is keeping a daily and monthly egg record of his flock and is following instructions from the A. M. College as to their feed and care.

Joe Rose of Duncan Flat Community has 325 White Leghorn pullets which are ready to come into laying now. Mr. Rose built a model laying house last summer and now has his pullets housed in that. He reports the use of carbolineum on the roosts as a preventive of bluebugs. He says that he painted the roosts the first day it turned cold and that he closed the north ventilation windows that night and that the fumes set his laying back but that he expects it to get back to full production soon. Mr. Rose is going to terrace his farm this winter.

W. S. Smiley of Duncan Flat reports a splendid stand on a patch of Alfalfa which he sowed last spring. This is on sandy land and on one which he has been trying to get a stand on for several years. He finally solved this by cutting the stalks which were more than waist high. He then turned around and broadcast grown pounds of common western green seed per acre. Then he covered this seed by merely run-

ning the stalkcutter over the land again. He was afraid to plow or even harrow this land on account of the fact that it blows badly in the spring. His stand now is perfect.

Mr. Smiley plants two rows of feed and one of a small variety of black cowpeas. He lets his feed get up about three inches high and then plants the peas. He says that if he waits longer than this to plant the peas that the feed gets ahead of them. He has never kept an accurate record of how much more he makes to the acre on his place on account of planting peas, but he estimates that his place is making at least half as much again as it would have made after trying this for five years. He is going to do some terracing this winter.

Terracing schools have been arranged for at the following places the past week: Wilsons Draw for Nov. 21 and 22 which is Thursday and Friday on the place of Mace Hunter; Croton on the place of Robt. Reynolds early in January; McAdoo on the place of George Harris; another school for north of McAdoo which has not been definitely located yet; Dry Lake at an early date probably on the place of Will Stacy; and others in process of organization. Any farmer is welcome to spend the entire two days learning to operate the farm level at one of these schools. These schools will be placed in every section of the county during the winter so that no farmer who is interested will not have a chance to learn. Indications are at present that about fifteen thousand acres will be contoured or terraced by spring.

Ott Denson, who lives three mile north west of Spur has eight Jersey cows which have fed themselves, raised four heifer calves and four bull calves, and fed his family since the middle of last April. This is the middle of the hail strip and he has been without roughness a good part of the time and pasture also. He has had to buy all of his feed except what little pasturage he had during that time. He uses as his grain feed the ration which E. R. Eudaly gave at the poultry and dairy school held last April. This mixture is 200 pounds of ground maize heads; 100 pounds wheat bran; 100 pounds cottonseed meal; and 100 pounds alfalfa hay. All this is ground together and he has been feeding it as follows: During the summer he fed each cow one ten pound lard bucket full of this mixture morning and night. He turned them onto what pasturage he had. Early in November he turned them into a wheat pasture and stalk field which does not amount to much. However the wheat is good. His milk yield doubled and he has cut his grain feed in half. At present his feed bill is five dollars per week and his cream check is ten dollars per week.

McADOO NEWS

One of the most interesting and best chapel programs that has been rendered this year was given by the Sophomore class, Monday A. M. November 11. We are glad to state that it was attended by many parents and several ex-students. The main speakers for the morning were Mr. Bass and Mr. Charles McLaglin and Mr. Bailey Frazer who are ex-soldiers of the World War. They related a great many interesting war experiences. The audience sang several songs.

Marshall Formby, Jr. and Milton McDonald returned home Saturday from Tech to visit until Monday with their parents.

The McAdoo Mercantile Company opened its business to the public Saturday Nov. 9 Cake and coffee were served to all visitors.

The stork was very busy last week, Making Mr. and Mrs. Leonard Dennis and Mr. and Mrs. Ben Eldredge the proud parents of a boy and girl respectively.

It is estimated that an inch of rain fell during the latter part of last week. The rain was very beneficial and just what the barley and wheat needed. Much barley has been sown by farmers of McAdoo for the much needed winter pasture.

Thursday night, November 14, was the regular P. T. A. meeting night. A large crowd was present and a good program was given by Miss Osborn the Home Demonstration Agent and the McAdoo 4-H Club girls.

Something new and interesting was given at the School auditorium Friday night, in the "Human Checker game". The admission was 15 and twenty cents and the proceeds went to the Primary grades.

PROGRAM OF WORKERS MEETING TO BE HELD WITH DICKENS BAPTIST CHURCH, NOV. 21 and 22, 1929

Thursday Evening
7:30 Song Service Conducted for the session—Mr. Batman.
7:45 Devotional—Pastor H. T. Harris.

The Thrift Hour

The hour when a little time spent in reading the advertising in this newspaper can be made to play a big part in the status of the family savings account... Consistent ad reading gives you first hand information TODAY about the quality and prices of the purchases you intend making TOMORROW.

The merchants of this city place their various offers before you each week in order that you may know in advance what the market affords. These advance suggestions, when acted upon, enable the buyer to make the most of every dollar spent... You too, will find that reading the ads will make an astonishing difference in your daily expenses... An hour spent in ad reading is truly —“The Thrift Hour.”

THREE IN THE RACE HAVE BEEN BOLTERS

It looks as if all 3 of the principal candidates for Governor next year are to come from the "bolter brigade" Barry Miller made speeches for the "bolter" candidate George Clark, against the Democratic nominee, Jim Hogg in 1892. Also he supported George E. B. Peddy, the Republican nominee for United States Senate, against Earle B. Mayfield, the Democratic nominee in 1922. After being kicked out of office Jim Ferguson turned viciously on the Democratic party using a brand of profanity that we do not care to publish, an ran for President as the head of a new party which he tried to propagate. (1920). And Tom Love scratched Al Smith last year. So there you are. What you boys that detest a "bolter" going to do about it?—Lynn County News.

J. N. Raney, a dairyman of Madison county finds that blood tells in milk cattle. He has two cows that look so much alike he can hardly tell one from the other, but there is a vast difference in the yield of milk and profit therefrom. One is a registered cow he bought last year for \$175. She produces four gallons of milk a day, from which a profit of \$41.50 a month is obtained above the cost of feed. The other cow gives a gallon and a half of milk a day, from which a profit of only \$15 per month above the cost of feed is had. Both cows are fed a balanced ration and graze on a rich Bermuda grass pasture.

Compliments from his friends don't make a Spur husband feel any better after he has heard his wife's description of him. We are cowards, every one of us. All of us will buy a useless remedy for the toothache and suffer a week before we will have the tooth pulled.

FEED

Will Be Scarce This Fall You Can't Afford To Let Any Of It Waste

Repairs are much cheaper than feed Prepare Now To take care of the feed you make—or buy.

Let us figure a new barn for you, or the repairs on your present barn. We carry a complete line of material of truck beds, trailers, etc.

TRI-COUNTY LBR. CO.

There is nothing that pays bigger dividends in comfort than having an extra cover ready when a cold wave comes at night. Some of our girls ideas of a real boy friend is one who gives her flowers in the winter time when they cost the most.

The salesman can demonstrate it for a full six months but the third day after you drive it as your own it is a used car. We have observed at late that nobody around our community ever asks what became of Grover Bergdoll and we take it that they don't give a rap.

Present day scientists are using a lot of time telling us how the next war is going to be fought, when what we want to know is how to cross the street without getting wrecked.

Truly, it would be nice to have sufficient means to take a months vacation when the doctor advises us that we need a rest.

All of us are looking forward to the time when Gabriel will blow his trumpet in the last day, but if he uses a saxophone many of us won't be able to appreciate it. It is a sad condition that when a boy who really falls in love with a girl, does not pay some attention to her ability as a bread maker, instead of her ability to drive a car.

Now that so many communities have done away with the old time church bell, may be one reason why so many people do not recognize when Sunday comes.

If spot lights were kept off of automobiles there would be less chance of them being shined into an advancing drivers face and causing a wreck.

According to our city marshal the world would be better if the high rate of speed at which we travel was matched by the importance of what we do after we get there.

BEING CHECKED

It was only a few years ago that we were expressing our alarm over the general migration from the farm to the city, but the draft seems to have subsided and the pendulum is beginning to swing the other way. In 1925 more than 800,000 rural dwellers deserted the farms and flocked to the cities; in 1926 this number exceeded 1,000,000. Last year it was reduced to 600,000. Farm labor appears to be learning that unemployment in the cities makes it constantly more difficult to secure work, and since the rush from the farm is being checked city labor realizes there is less chance of landing a job on the farm. So view from both sides, it is proving a fine thing for both farm and city. We still have a labor problem in this country, and we always will have. But drifting about is not going to solve it, and the farm laborer around Spur who has steady employment at a fair wage will be doing well if he stick to his job.

BOYS AND BULLETS

As the hunting season is coming on, we feel it timely to caution the fathers of Spur against leaving guns, shells or ammunition of any kind lying around where the children can get hold of them. Only last week four small boys were injured in an eastern town while attempting to drive a bullet from a cartridge with a hammer and nail, the cartridge exploding while they hovered over it. This is but one of scores of like accidents happening all over the country. When weapons are kept in the house they should be put away where the children cannot get to them, and especially is this true of the ammunition intended to be fired in them. To keep them loaded and within reach of the little ones is nothing short of criminal. Weapons have their place. But they are a menace in the hands of the youngsters under any and all conditions.

We heard a friend of ours declaring that the State of Texas in an agricultural way, had deteriorated more than fifty per cent in the past twenty five years. He further stated that in his opinion that the time was coming when the state would be resodded with good grass and be given over to the raising of good cattle. All crops being outlawed. It is our opinion that he has the wrong idea. All over the state diversification is getting a foot hold and when once our farmers go to practicing it generally there will be an increase in the productiveness of the farm. Right now cotton is the thing that is hurting Texas farmers, and the sooner they find

it out the better off they will be.—Ropes Hustler.

NOTICE TO TAX PAYERS

I will be in Spur Friday and Saturday, November 29-30 for the purpose of receiving taxes. All who want to take advantage of this convenience may do so.
G. L. Barber, Tax Collector.
Notice printed November 14, 21.

TEAGUE'S MUNICIPAL PLANT NEARS COMPLETION

Teague's new municipal power plant is nearing completion and it is expected that the plant can be

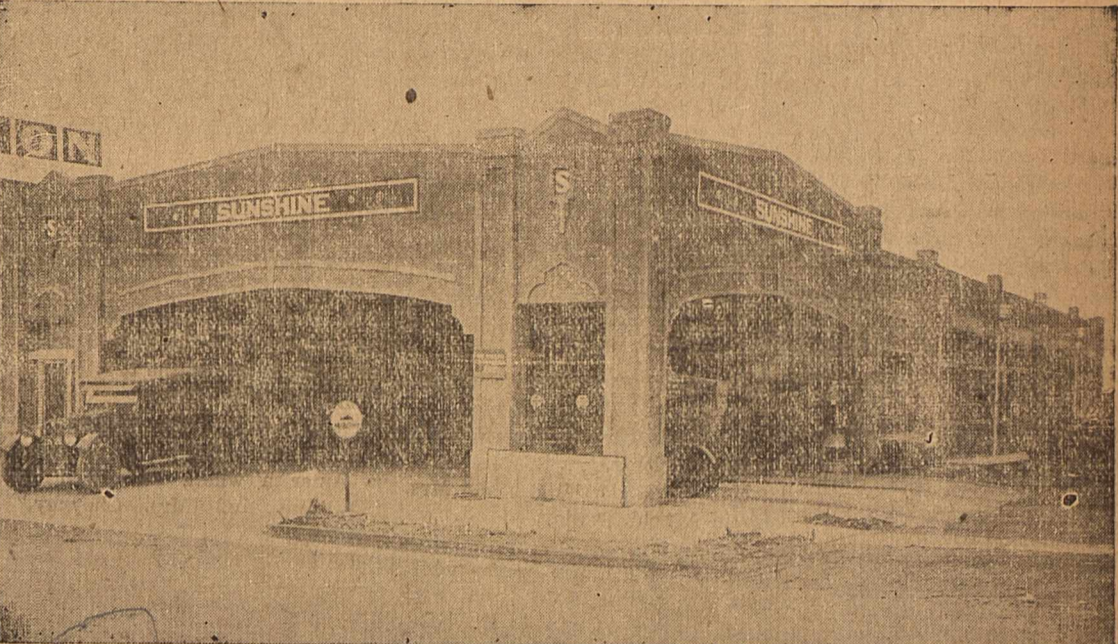

put into operation by Nov. 15, according to press dispatches. The system is to cost approximately \$115,000 and is to be paid out of revenues of the plant.

A number of citizens of Teague subscribed for revenue warrants against the plant in order that the initial payment could be made. Payment of the warrants is to be made after the balance against the plant is paid, this arrangement assuring support of the project by the warrant holders. Mayor S. W. Robinson of Teague, assisted by several prominent citizens, led the movement for home ownership in Teague.

Mrs. V. S. Ford of Calgary was doing some shopping with our merchants Saturday.

Tate-Lax

For constipation, rheumatism, acute an chronic, indigestion, stimulates biliary secretion. Its guaranteed to Satisfy.

WHY LEAVE YOUR CAR IN THE COLD
When we have a big storage room in a good warm building and storage at small expense. Every modern convenience, alemitte service, inclosed wash rack, best of service for your car. Best of oils—Quaker State, Mobiloil, Veedol, Texaco—The best on the market. Cold weather is here. Ask to have your radiator tested. We have Prestone, Whiz anti-freeze and denatured alcohol. Either is cheaper than a new radiator. Gives you complete protection.
