

# Acme Life Insurance Co.

A Texas Old Line Legal Reserve Company

Invites you to visit our offices in the Spur Security Bank Building where we will be pleased to furnish you with complete information about your life insurance program and explain to you our convenient Monthly Pay Plan—

**No Dues — No Assessments  
No Joining Fees**

No guess work about what you pay, nor what your beneficiary will receive—A guaranteed rate and guaranteed 100 per cent cash payment at maturity of policy—

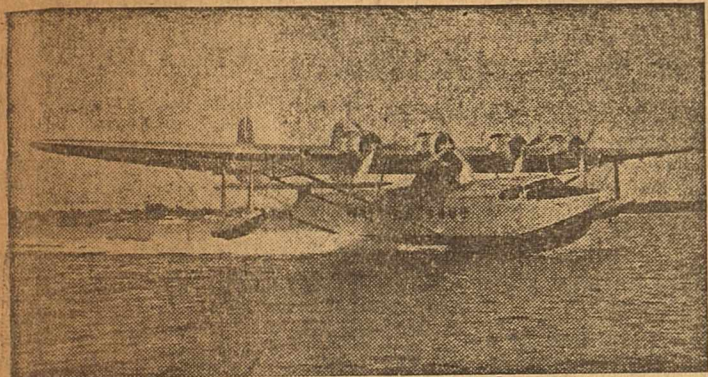

**Standard Values — Cash Loans, Paid Up Insurance and Extended Insurance Available After Three Years.**

FOR EXAMPLE AT AGE 35: Monthly premium per \$1,000 is \$2.55. The maximum amount possible to deposit to mature this Policy is \$578.00. At maturity it will have a cash value of \$566.00 and is fully paid up for life for \$1,000.00. Should you elect to surrender the policy for its cash value, your net cost for the 20 years protection would be only \$12.00 or 60c per year for \$1,000.00.

YOURS TO SERVE WITH SAFE, SURE, SOUND, LIFE INSURANCE

The Pan American Clipper, sister-ship of the famous sixteen-ton Brazilian Clipper. The Pan American Clipper, now on the Pacific Coast, will probably be the first commercial plane to fly the aerial "causeway" described in The Literary Digest.

### Steamship Will Lay Pacific Air-Bases

North Haven Will Complete Links in Pan American's Chain to Orient

EARLY in April the steamship North Haven, a good-sized vessel of 15,000 tons, will leave the shores of California to launch a new epoch in transpacific travel. The Literary Digest reports. Carrying a crew of seventy-four trained construction men and forty-four airway technicians, she will lay across the world's widest ocean a series of five air-bases, like giant stepping-stones, from one to another of which liners of the Pan American Airways will soon be fitting, connecting the Continent of North America with China by air.

**Aerial Causeway**  
The North Haven's journey will constitute the last section of a program for conquering the Pacific that began in 1931, when Juan T. Trippe, President of the line, set in motion a four-year regimen of research and training that produced the series of "Clipper Ship" flying-boats and trained crews capable of maneuvering them over long ocean-stretches under virtually all conditions of flying weather.

**California to China**  
The operating airway will extend from California to Hawaii, 2,100 miles; thence to Midway Island, 1,150 miles; to Wake Island, 1,200 miles; to Guam, 1,450 miles; to Manila, 1,500 miles; thence 700 miles northward to connect with the 3,000-mile system of the Pan American-Chinese air-lines in China, which control strategic routes to the trade-areas of the Far East.

Earl Sparks, of the Acme Life Insurance Company, was visiting friends on the Plains Sunday.

## WTCC Convention . . . Soon Be Here

BY MAX BENTLEY  
Chairman Editorial Board  
WEST TEXAS TODAY

The 1935 general convention of the West Texas Chamber of Commerce is five weeks away. Dates are Monday-Tuesday-Wednesday, May 13-14-15. Host city is Plainview.

Plans are maturing on a half-dozen fronts to make the convention notable, in the number of paid registrations, number of towns represented, in color, and—most important—in quickly getting to the heart of what West Texas needs for its prosperity and development and in formulating a program of work calculated to meet those needs. The organization's 1935-36 year, from convention to convention, then will be devoted to carrying out the program laid down as the membership's mandate at Plainview.

The Westex Chamber is now a full-statured organization of service. Through its remarkable life it has come through the various stages from (1) organization to hopefulness, (2) hopefulness to testing under stress, and (3) successful testing into its present era of vigorous maturity. Since 1918, year of its birth, it has only had one goal: to be of service to its territory. There is no denying that it has accomplished greatly and that today it is at the peak of its strength and efficiency and usefulness. With enormous prestige, completely staffed paying its way as it goes along, there is no reason why it should not serve us for many, many more years, growing bigger and better

as its years increase.

The convention will major this year on the following three points, all fundamental in the life of West Texas:

**TAXATION.** A clear-cut program will be devised with the objective of obtaining needed relief for the sorely pressed property owner who pays 75 per cent of the taxes of Texas although holding only 33 1-3 per cent of its wealth. On an average, ad valorem or real estate taxes in this state total an annual assessment of 3.75 per cent of the investment, and property is not earning 3.75 per cent or anywhere near it.

Arthur P. Duggan, state senator, will be chairman of the Taxation group conference. Duggan is a member of the Senate's tax program committee, considered one of its authorities in the field of taxation.

**AGRICULTURE.** In this group conference close examination will be made of the Bankhead bill for determination whether the West Texas Chamber should favor its continuance, with important changes, or favor its abandonment altogether. The regional organization already is on record as opposing the acreage control features and favoring domestic allotment instead.

Clifford B. Jones of Spur, former WTCC president, will be chairman of the Agricultural group conference.

**TERRITORIAL DEVELOPMENT.** A great diversity of problems will be considered by this group conference, with emphasis upon development of the Chamber's soil erosion program, and the Brazos river and other developments.

Ray H. Nichols, of Vernon, WTCC vice-president, will be chairman of the Territorial Development group conference.

Business of the convention will move

smoothly and rapidly, with most of the routine work accomplished in committees and cleared before the 200 directors in their various luncheon-sessions. The all-important Convention Work Committee will do its job under chairmanship of W. B. Hamilton of Wichita Falls, another former WTCC president. Resolutions will be submitted in groups daily at their directors' meetings, instead of being submitted to the general convention assembly, as heretofore. The change over is a part of the plan to speed up the work and to bring the organization in closer contact and under closer control of its directorate.

An unusual feature now in the planning is a Governor's Banquet, tentatively set for Tuesday evening, May 14th. Acceptance already has been given by James V. Alfred, Governor of Texas; and invitations have gone to the executives of New Mexico and Oklahoma. Presence of the Oklahoma governor, E. W. Marland, is considered virtually assured. He is expected to arrive on a special train to be operated by the Good-will Tours Committee of the Oklahoma City Chamber of Commerce. Maury Hopkins, manager of the Oklahoma City Chamber of Commerce's Industrial Division, is bringing this representative Sooner group to Plainview. Hopkins formerly was assistant manager of the West Texas Chamber.

The two big convention contests, My Home Town and Poster, are open to entries, with indications that they will be larger than ever. Amarillo was first to sign its entry blank in the My Home Town contest; El Paso second; then in order, Floydada, Pampa and Spur, which has named Tommy Glasgow as its entry. Dumas is No. 1 entry in the Poster contest, followed by Munday, Electra and Floydada.

Fight for the 1935 convention apparently is between Amarillo, last year's runner-up to Plainview; and Wichita Falls, the 1927 host city. Lines have been closely drawn and each city is sending a large delegation. There may be other contestants, among them Brownwood, Mineral Wells, and El Paso. Usually a city has to put in its bid at least one year before it comes a close contender.

As to music, ten bands are expected with twice as many quartets and floor show attractions that will participate in the annual Revue. No. 1 band of course is Ralls' New Deal Band under director Jimmie Thornhill, since it is the organization's 1935 official band. Others are expected from Lubbock (two), Amarillo, Wichita Falls, Tulla, Anton and other points. The orchestra and floor show entertainers from North Texas State Teachers College, Denton, will be on hand again; and strong probability exists that the convention will entertain the National Orchestra of Mexico. It will be on Texas tour in May, and is being invited to Plainview.

## Don't Experiment

If you have an itching skin, get a bottle of BROWN'S LOTION from your druggist today; a liquid remedy for ITCH, ECZEMA, IMPETIGO, (sores on children), ATHLETE'S FOOT, TETTER, POISON IVY, BARKER'S ITCH, MOSQUITO or CHIGER BITES, Itching and infection are checked by the first application. Don't use messy salves and bandages. BROWN'S LOTION is sold by City Drug Store of Spur, 60c and \$1.00 bottles. First bottle sold with MONEY BACK GUARANTEE.

Robt. Butler, of McAdoo, was transacting business in our city Monday.

McADOO

Mr. and Mrs. C. Gollihar have gone to Washington for a visit with their son, Paige Gollihar and family.

Mr. and Mrs. Vernon Goodwin of Roaring Springs, spent the week end at McAdoo visiting Mr. and Mrs. Edwards, grandparents of Mrs. Goodwin and Mrs. Goodwin's mother, Mrs. Gene Bass and family.

Mr. and Mrs. Will Eldredge were looking after business matters in Spur Saturday.

Miss Edith Neeley has returned to Abilene after several days visit with her father, C. C. Neeley and family.

Colene McCarty of Afton, was transacting business in McAdoo Tuesday of last week.

Mr. and Mrs. Jim Derr returned home Saturday from Hillsboro where they had been visiting relatives.

C. C. Neeley and family went to Roby Thursday to see his little son for a few days visit with relatives.

Mr. and Mrs. Frank Edgar and family were among the many business visitors in Crosbyton Saturday.

Miss Etella Cooner, a former teacher of McAdoo school, was a guest of Mrs. A. M. Lay during the week end. Mrs. Louie Gilmore and Billie Doris of Meadow, returned home the first of the week from a visit with relatives and friends here.

Wilbur Isaac is in Oklahoma visiting his wife, Mrs. Isaac is a teacher in an Oklahoma school at the present time. She will return home with her husband following the close of her school.

The Caprock Union League met at McAdoo Thursday night. Rev. Woodrow Adcock of McMurry College, was present at the meeting and presented a very splendid sermon. Several League members from Spur and Roaring Springs were present, with Roaring Springs carrying the banner home with them.

GOVERNMENT ASKS NRA TEST AT ONCE IN POULTRY CASE

The Government has decided to test at once the validity of the National Industrial Recovery Act by cooperating to bring before the Supreme Court at once the case of the United States versus the A. L. A. Schechter Poultry Corporation, of Brooklyn and others. In this case the Second Circuit Court of Appeals in New York rendered a decision favorable to the Government on 17 counts and unfavorable on 2.

According to the Department of Justice, the case involves the constitutionality of the Recovery Act in respect to the delegation of legislative powers and to the power of Congress under the commerce clause to control through a code local activities in the poultry industry alleged to affect interstate commerce.

The case will test the validity of the NIRA "right across the board", in the opinion of Donald R. Richberg, acting chairman of the National Industrial Recovery Board.

"The opinion and decision in the Schechter case, in which the court unanimously sustained the constitution-

ality of the National Industrial Recovery Act, is the most important judicial opinion rendered on the NRA," said Mr. Richberg. "The defendants were convicted by a jury of conspiracy, violation of the NIRA, and of the code of fair competition for the live poultry industry. The court of appeals sustained the convictions except violations of minimum wages and maximum hours, which were not

sustained by two of the judges for reasons expressly confined to this particular case." Mr. Richberg said he thought that the Supreme Court would rule favorably on wages and hours because the decision of the circuit court in the Schechter case was based on conditions in a particular and peculiar industry and applied only to it. The Justice Department expressed

hope that the Schechter case could be taken up by the Supreme Court during the May term.

CLUB NEWS

DEMONSTRATORS FIT FOUNDATION PATTERNS

Four non-club members and two club members were fitted with foundation patterns in an all-day demonstration given by Mrs. F. B. Crockett and Mrs. Roy Johnson, wardrobe demonstrators in the Espuela home demonstration club Monday.

Those fitted with patterns were Mrs. S. T. Battles and Mrs. Roy Johnson, club members and Mrs. Ben Saxson, Mrs. Wylie Morgan, Mrs. Surcy Mosely, and Mrs. W. F. Neaves. Mrs. Kimmel was fitted with a skirt pattern.

Mrs. Crockett recently helped in an all-day pattern school in Dumont. She has fitted her sister with a pattern this week.

CHAIRMAN MAKES GOOD SALESWOMAN

Mrs. I. E. Abernathy, chairman of the Finance Committee of the Dickens County Home Demonstration Council, believes in working at the job. The duty of the committee of which she is chairman is to see that the budget for the year is raised.

Each Council Member was to sell at least five books. Many have gone over this number but some have failed to dispose of that many.

The books are well worth the price asked for them. The recipes are the favorite ones of the members contributing them. The book is well-arranged having both a table of contents and an index making it easy to find the recipe wanted.

OUR STATE FLOWER

The Texas Bluebonnet, originally called Buffalo Clover, was adopted by the Legislature as our State Flower in 1901.

Those present were: Meses. Sam Nally, Geo. Nally, Floyd Barnett, I. E. Abernathy, Leonard Joplin, Jno. Bachman and Charles Applegate as visitor.

COUNCIL MAKES PLANS FOR CLOTHING CONTEST

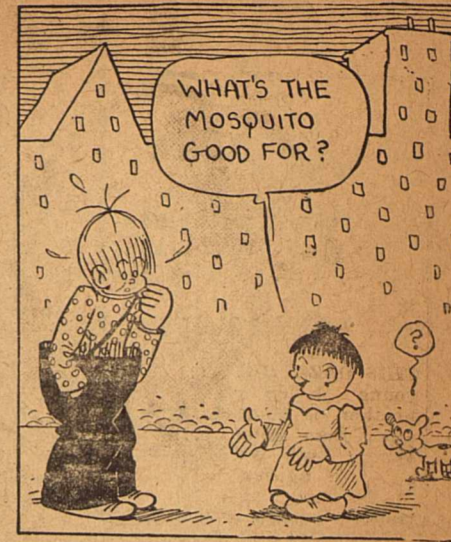

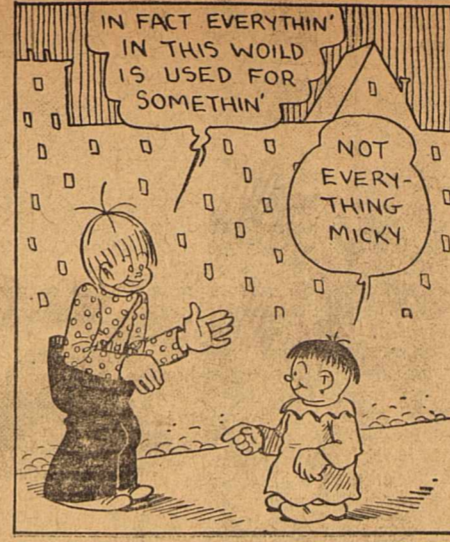

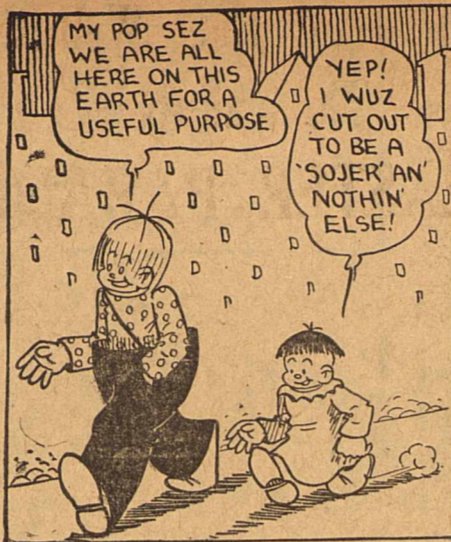

June 15 is the date set for the County Clothing Contest in the meeting of the Dickens County Home Demonstration Council in March. The state wardrobe contest plans designate that the Class I demonstrators shall use heavier cotton materials for their dresses as prints, gingham, broadcloth, etc.

Scholarships to the A. and M. Short Course will be given to the winners in each Class I and II for the demonstrators and for the cooperators.

Those attending council were: Mrs. F. B. Crockett, Mrs. J. L. Hagins, Mrs. R. C. Alexander, Mrs. Clark Forbis, Council Officers; Miss Clara Pratt, Home demonstration agent; Mrs. Floyd Barnett, Mrs. I. E. Abernathy, Mrs. Jno. Bachman, Soldier Mound; Mrs. Jim Eldredge, Mrs. W. I. Moore, Miss Hazel Moore, McAdoo; Mrs. Matt Howell, Mrs. J. C. Childers, Red Top;

CLUB TO MODEL SCHOOL DRESSES

The school dresses, a fourth goal in clothing in the girls' club work this year, are to be made and modeled in a style show Wednesday morning, May 22, the McAdoo 4-H club decided in their meeting Tuesday.

Club members present were Clara Rich, Juanita Rose, Vanel Medford, Modine Nettles, Louise Dozier, Wanda McLaughlin and LaRue Holmes.

SLIGHT DECLINE IN LABOR PAYROLL

Industrial and commercial employment in Texas declined slightly during March in comparison both with the previous month and the corresponding period last year, according to the University of Texas Bureau of Business Research.

Reports from 1,578 representative Texas establishments covering the week which ended March 16 show a total of 68,971 employees, an average decline of one-half per cent from the month before and 1.4 per cent from the corresponding week last year.

Groups showing improvement over the two comparable periods were: Electric railway car shops, foundries, machine shops, hotels, laundries, dry

RECIPES AND MENUS By Department of Home Economics Texas State College for Women (CIA)

In the routine of meal preparation it is often possible to conserve time and energy by planning each day to have some food ready for the day that is just ahead. It requires but little additional time to prepare sufficient amounts to serve from twice.

Breakfast: Baked apple, Puffed wheat, cream, bacon, hot toast, coffee, or milk.

Luncheon: Cream of pea soup, crackers, peach salad, graham fruit muffins, butter, tea.

Dinner: Hot meat loaf, tomato sauce, baked potato, stewed tomatoes, jellied vegetable salad, fruit cup, cookies.

Breakfast: Stewed apricots, corn flakes, cream, griddle cakes, vegetable coffee or milk.

Luncheon: Cold meat loaf, vegetable salad, date nut sandwiches, cocoa or tea.

Dinner: Broiled liver and onions, creamed potatoes, stewed tomatoes, corn bread, butter, prune rice cream

celaning, millwork, retail and wholesale stores.

RECIPES

MEAT LOAF: 1-2 lb. veal, 1-2 lb. pork, 1 lb. beef, 1-2 onion, 1-2 t. salt, 2 T chopped parsley, 1-4 t. pepper, 1 egg, 1-2 cup milk, 1 cup cracker crumbs, 4 slices fat.

Grind meats in food chopped, mix with seasonings, egg, milk, and crumbs. Place in a small loaf tin and lay the pork slices on top. Bake in a hot oven (425 F) 15 minutes then reduce to a low oven (250 F) and bake about 1-4 hours. Serve with tomato sauce.

PRUNE RICE CREAM: 1 T gelatin, soaked in 1-4 cup cold water and dissolved in 1-2 cup boiling water, 1 cup cooked rice, 1 cup prune pulp, 2 T lemon juice, few grains salt.

Mix well. When it begins to stiffen, fold in 1 cup of whipped cream. Serve with whipped cream or a prune sauce.

JELLIED VEGETABLE SALAD: 1 level T gelatin soaked in 1-4 cup cold water and dissolved in 1 cup boiling water, 1-4 cup sugar, 1-4 cup vinegar, 1 T lemon juice, 1-2 t. salt.

Combine the above ingredients. When it begins to set fold in 1 cup chopped celery, 1-2 cup shredded cabbage, 2 T chopped green pepper or pimento. Other vegetables may be substituted as desired.

PATTON SPRINGS GIRL WINS FIRST PLACE AT DISTRICT MEET

Miss Lizzie Lou Baxter a senior in the Patton Springs High School, won first place in the essay writing contest at the District Interscholastic League meet at Lubbock, April 5.

Miss Baxter will compete in the Regional meet at Canyon next Saturday. The winners in the various regional meets will go to Austin to compete in the State Meet, May 3 and 4.

Miss Baxter is a high ranking student in English in the Patton Springs High School. Miss Amelia Hargis is head of the English Department of the school and is Miss Baxter's instructor. Both Miss Baxter and Miss Hargis are to be congratulated upon the success of the former in the stiff competition overcome at the District Meet.

In addition to her regular school duties, Miss Baxter is the leader for the Patton Springs Girls 4-H club, under the direction of Miss Pratt, the county home demonstration agent.

Miss Baxter is intensely interested in writing, and intends to continue to prepare herself in that field. Her ambition has for years been to become an authoress. She is making an auspicious beginning.

SCHOOL HOT LUNCHES BY RELIEF COMMISSION

The school lunch program being carried on in 640 Texas schools by the Texas Relief Commission for children of relief roll families has done so much to correct dietary deficiency of some 42,000 boys and girls that plans already are under way to continue the program next fall.

During April, \$119,333 of general relief funds will be expended over the state at school lunch rooms to provide these children with adequate food. Results of the program are indicated by the benefits enumerated in a report from a school official in Bowie county, which said,

"On health charts . . . the average increase in weight of students who have been given this service is three pounds or more above the average increase of the school.

"The percentage of attendance in this group is far above the average for the entire school and above that of these same students before the

lunches were provided. "From all indications, the average grade for these children has improved four or five per cent since the service was instituted."

In the problem of discipline, "at least three-fourths of our problem cases have been eliminated since this service started . . . Well fed children are easily pleased."

Mrs. Helen Swanson, consultant dietitian of the Commission, estimates the cost of these hot lunches at approximately 12 1-2 cents per plate.

WOMANS MISSIONARY SOCIETY

The Womens Missionary Society of the Methodist Church met in the home of Mrs. Koon April 15th with 18 members present. After a short business session, we enjoyed a lesson in our new study, "The Teaching of Jesus on Human Relations."

Mrs. J. R. Laine and Mrs. C. B. Jones gave a very interesting report of the conference that met in Childress last week.

The meeting will be in the home of Mrs. J. M. Foster next Monday. —Reporter.

Device "Reads" for Blind

FOR an invention that enables a blind person to read any book or paper, the John Price Wetherill Medal will be awarded on May 15 to Robert E. Naumburg, of New York, by the Franklin Institute, Philadelphia. As reported in The Literary Digest Mr. Naumburg's invention, known as the Visagraph, "reads" printed words for the blind with the aid of a photoelectric cell, and embosses each letter, several times enlarged, upon a strip of paper which passes under the fingertips of the operator.

TAXES PILED ON TAXES

For a great many years a large part of the public has looked with dread to the appearance of Federal income tax day. Individuals and industries were forced to turn into the treasury vast sums that might otherwise have been used for investment, building, and the creation of employment.

Now the citizens of the country don't face merely one income tax day —millions of them face two and even three. In the city of New York, for example, residents must pay the federal income tax, a state income tax, and finally a municipal income tax.

A similar situation is met by the citizens of New Castle county, Delaware which is now levying a county come tax, in addition to the state and federal taxes, as a means of financing relief expenses.

The aim of legislatures in these days seems to be to pile as many taxes on top of taxes as a long-suffering public will stand. The upshot is that the tax collector, in many cases, is receiving all the surplus a business or an individual earns. There is no money left for investment, for home construction, for industrial expansion. And the cause of recovery suffers accordingly.

One wonders how much longer the public's patience will last. America is becoming one of the most tax-ridden nations on earth—and only an aggressive, informed and active public movement against exorbitantly expensive government can save us from eventual tax bankruptcy.

J. C. Bryant and R. B. Bryant, of Stamford, were in our city Wednesday checking over the business of the local Bryant-Link Company store.

T. L. Rankin, of Calgary, was attending to business affairs in our city Tuesday.

Rolfe and his circus sliphorn tooters, Tim and Irene, comics, Phil Duey and Lucy Monroe.

**FLOATING POWER Aids** Tests for Radio Compass—William G. Lear, inventor of the new Lear Radio Compass, proved the efficiency of his new equipment before installing a unit in a plane. A complete radio unit was installed in a Plymouth sedan and for weeks the car rode the "beam to the desired point." The new simplified Lear device makes the radio compass feasible even for the "sportsman" pilot.

**HONORING HEROES OF PEACE**—The Memorial Extension Commission urges Americans to memorialize local celebrities and their own beloved dead. Photo shows Memorial Day tribute by a Boston fire chief to a predecessor.

**MICKEY TELLS JIMMY HOW**—Mickey Cochran, catcher and manager of Detroit, and former catcher of the Philadelphia Athletics, chatting with Jimmy Fox of the 'As, who succeeds Cochran, as catcher for the team.

**MRS. BEDWELL PASSES AWAY**

Mrs. Mattie (Dixon) Bedwell died at the home of her daughter, Mrs. L. A. Welborn, last Thursday after a short illness. Funeral services were held at Beulah Baptist Church in Stonewall County Friday, Rev. J. V. Bilberry, a former pastor and friend to the family, in charge. Interment followed in Beulah cemetery near Peacock.

The following life sketch was contributed to the Times by a friend: Mattie Dixon Bedwell was born in Parker County July 1, 1859. She was married to J. F. Bedwell March 5, 1879. There were born to their family three girls: Mrs. G. W. Myers, Mrs. L. A. Welborn and Evalena. She was converted and joined the Baptist church in 1881. The family moved to Jack county in 1891 and lived there seven years.

Then moved to Stonewall county in 1899. She joined the Beulah Baptist Church in Stonewall County in 1901. Mrs. Bedwell had lived in Dickens County about three years.

**CHEAP MONEY FOR FARMERS' COOPERATIVES**

Farmers' cooperative associations operating in Texas may obtain loans from the Houston Bank for Cooperatives at a new, low interest rate of 4 1-4 per cent, it was announced Thursday by Sterling C. Evans, president of the bank. The new rate will apply on all "physical facility" loans closed or after April 10, 1935. This represents a reduction of one fourth of one per cent from the former rate of 4 1-2 per cent. The Houston Bank for Cooperatives makes loans to farmer owned and controlled associations that may be organized for a number of cooperative purposes, including ginning cotton, packing citrus fruits and buying and selling of various commodities. There now are more than 350 such organizations operating in Texas. Merchandising or operating loans to such associations are made by the Houston Bank for Cooperatives at the rate of three per cent.

**Beautician School At Lubbock Monday**

With twenty-five manufacturers of nationally advertised products participating, the West Texas-New Mexico Beauty School and Equipment Show to be held at Lubbock, April 22, 23 and 24, will have the biggest array of beauty shop equipment ever assembled in West Texas. Approximately five hundred beauty parlor owners and operators are expected to attend the show. In the equipment will be the largest number of gas system dryers ever displayed at a trade show in Texas, a combination electric manicure and eye brow machine and other late merchandise available for the beautician industry. Three men will be featured on the three day program: Jay Parker, Chicago, international authority on hair styling; Geo. W. Scoggins, Abilene, leader in the combination "hair style and hat style" art; and Professor James Monroe Harvey, astrologer and entertainer.

A full day of instruction, demonstrations, etc., will be featured from 9:30 a. m. to 9:00 p. m. each day. Tuesday evening, April 23, the "modern Cinderella", a young lady taken from Lubbock County Relief rolls, will be crowned queen at a hair-dress style show, and the final evening, the "Lady for a Day" will reign as queen at a carnival ball. The show is being sponsored by the Russell Morrison Company of Lubbock.

**ESPUELA HAPPENINGS**

Miss Lois Vincent and Bill Brown were married by Rev. Thomas Cobb April 7 at the home of the bride's sister, Mrs. Ernest Wells. We wish them a happy life. Mr. and Mrs. Ernest Wells and Mr. and Mrs. Elmer Bilberry went to Espuela to church services a Saturday night.

**ELECTED TO C. I. A. 'WHO'S WHO'**

Because of unusual ability these students stand out in their individual field and are being placed on the college "Who's Who" as representatives of class of 1935. A special section of the year book at Texas State Teachers College for Women (CIA), to be issued about May 5, will be devoted to them. Outstanding in leadership at the college is Miss Anne Durrum of Clarksville, who is president of the

students government association. In the writing field Miss Jean Thompson of Fort Worth, who is serving as editor of the student newspaper, and Miss Joyce Hunter, Royce City, editor of the college quarterly, rank foremost. Miss Leona Bounds, Celina, was named for the scholarship honor. In the fine arts, Miss Annabel Hodges, Shreveport, La., stands out in art; Miss Nancy Dawe, Big Spring, in music; and Miss Gladene Parr, Waelder, speech. Miss Lucille Lang, Temple, won the honor in athletics, and Miss Evelyn Martin, Gilmer, in home economic.

Short Rainfall in Midwest
Indicates Severe Drought Again

Department of Agriculture Announces That Supply of
Moisture in Ground Is Less Than Amount in
Same Period Last Winter

AS the dust storms subsided in the drought-stricken plains of the
West, official reports indicated that a repetition of last sum-
mer's severe drought may be expected.

The United States Department of Agriculture, as reported in The
Literary Digest, stated that "on the eastern slopes of the Rocky
Mountains and in the western Great Plains area the drought not only
is unrelieved, but it has been in-
tensified by lack of normal precipi-
tation during the last six months.
In most parts of this region the
supply of moisture in the ground is
less than it was last year at this
time."

The weather map for December
of 1934 and the first two months of
meteorologist of the U. S. Weather
Bureau.

The drought situation as of March 1, before the worst of the recent
dust storms began. Comparison with maps covering the same
period last year leads The Literary Digest to predict the possibility
of another severe drought this summer.

1935, said the Department of Agri-
culture, looks much like the map
for the winter of 1933-34. Both
winters were colder than normal in
the Northeast and warmer than
normal over all the rest of the coun-
try. It was this condition that
ushered in the drought of last sum-
mer, most widespread and disas-
trous experienced in the United
States since weather records have
been kept.

Does it mean that there will be
drought again this summer? No
scientific weather forecaster would
venture a guess; there is no known
method by which weather can be
predicted with assurance more than
thirty-six to forty-eight hours in ad-
vance. If anyone could invent a
sure method of forecasting as far
as six months ahead his fortune
would be made. It would be one of
the greatest contributions to science
and the welfare of humanity of all
time, said Dr. James H. Kimball,

Panama Canal Sur-
renders Title As Worlds
Biggest Excavation

This week, or next—the exact time
is difficult to determine when dealing
with huge masses of material—the
Panama Canal, until now the world's
greatest excavation job, will hold the
title no longer.

In the next few days, according to
The Literary Digest, the Utah Copper
Company will move the 232,000,001st
cubic yard of material from its vast
mine at Bingham Canyon, near Salt
Lake City. Round figure estimates
place the amount of material moved
in the construction of the Panama
Canal at 232,000,000 cubic yards.

Boulder Dam Dwarfed
Engineers have been accustomed to
think of the Boulder Dam project as
an enormous undertaking, yet it re-
quired the movement of only 8,000,000
tons of sand and gravel, equivalent
to 4,500,000 cubic yards of concrete
in place. This was child's play com-
pared with the wholesale removal of
material at the Utah mine.

One hundred and seventy Empire
State Buildings, each 1,370,000 cubic
yards in volume, would disappear from
sight in the mine's vast pit. It was
pointed out last week by A. B. Par-
sons, Secretary of the American In-
stitute of Mining and Metallurgical
Engineers, that even the morning-
mist atop the Empire State Building,
1,250 feet above the streets of New
York, would be hidden if the building
were erected in the mine's lowest lev-
el, 1,500 feet below the crest.

The huge hole at Bingham Canyon,
an open-pit working, is an eye-filling
spectacle. A visitor need only walk
part way up the east slope of the can-
yon to see unfolded before his
the whole panorama of the world's largest
man-made hole. It is nearly a
square mile in area, and just short
of a third of a mile deep.

To date approximately 2,000,000
tons of refined copper have come out
of the mine since work was started
in 1905. It is the principal working of
the Kennecott Copper Company, largest
copper producer in the United
States. The idea of mining the low-
grade ore, known as porphyry, was
conceived about 1889 by Daniel C.
Jackling, then a comparatively un-
known thirty-year old Missouri min-
ing engineer.

At that time the scheme was re-
garded as wild, unreasonable and im-
possible of success.

To-day Jackling is known as the
"father of the porphyries." President

ties of rain would be necessary to
restore anything like normal con-
ditions. At the same time, if the
moisture comes too fast, it will do
more harm than good, for the pres-
ent denuded condition of much of
the area would permit the water to
run off rapidly, causing destructive
erosion.

Condition Not Permanent
Joseph B. Kinser, chief of the
Division of Climate and Crop
Weather of the U. S. Weather
Bureau, scouted the notion that the
drought has been caused by exces-
sive cultivation of the affected
areas, or that the dry spell indi-
cates a radical and permanent
change of climate in America.

Willis R. Gregg, Chief of the
Weather Bureau, dealt with the
drought thus, in a report to Sec-
retary Wallace:
"There is nothing to indicate that
the 1934 drought constitutes a per-
manent change to desertlike condi-
tions."

of the Utah Copper Company, and
four other large mining organizations,
and chairman of the Operating Com-
mittee of Kennecott Copper, he is a
big, virile man—the old-fashioned, two
fisted type of mining-engineer and
business leader.

PROPOSED CONSTITUTIONAL
AMENDMENTS

It seems now that there will be a
number of proposed constitutional
amendments will be submitted to the
people for their ratification at the

1936.
Among these will be Senate Joint
Resolution No. 14 which proposes to
raise the salary of the Governor of
Texas from \$4,000 per year to \$12,-
000. It seems fitting that this should
be done. The present salary of the
Governor was set in constitutional con-
vention more than 50 years ago, at a
time when conditions were much dif-
ferent from what they are today. The
Governor's salary in Texas is smaller
than that of any other state in the
union everything else considered.
Oklahoma which has about one third
the area and about one third the pop-
ulation of Texas pays its governor
\$10,000 per year. Is it possible that a
governor in Texas is worth only forty
per cent of what the governor of
Oklahoma is worth?

Senate Joint Resolution proposes
that the salary of the Attorney Gen-
eral be increased from \$4,000 per year
to \$10,000. This is only a forward step
any lawyer qualified to be Attorney
General of Texas is able to make more
money than that in regular practice.
And when a person is elected to that
office, he usually has to give up a
good law practice to serve the people
in that capacity. Again, a good salary
will be an inducement for better legal
talent to seek the office. The office
of Attorney General is a very impor-
tant one and should have as good tal-
ent in it as could be found in the
state.

The office of Secretary of State is
not remunerated as it should be. If

the salary of this office is raised to
about three times what it pays now,
better qualified persons could be se-
cured to fill the position. A good man
in that office can save the state much
money because that office is the
clearing house of all the state govern-
ment.

A number of proposed amendments
were introduced into the Senate by
Senator Moore. Lieutenant Governor
Woodul favored these amendments
when he was in the Senate, and if
people will just think the matter over
carefully, no doubt the salary of ev-
ery executive office in the state will
be increased.

under execution, and make good and sufficient deed, and to place the purchaser of the same in possession thereof within 30 days after the day of sale, and you apply the proceeds thereof to the payment and satisfaction of said sum of \$7,672.00/100 Dollars, together with the interest that may be due thereon, and the further sum of THIRTEEN AND 25/100 (\$13.25) Dollars, costs of suit, together with your legal fees and commissions for executing this writ. And if the said property shall sell for more than sufficient to pay off and satisfy said sums of money, then you are hereby directed to pay over the excess thereof to the defendants as stated above. But if you fail to find said property, or if the proceeds of such sale shall be insufficient to satisfy said judgment, then you are directed to make the money, or any balance remaining unpaid, out of any other property of defendant, as in case of ordinary executions.

Herein Fail Not, but due return make hereof within 60 days, showing how you have executed the same. Given under my hand and seal of the 78th District Court of Wichita County, at my office in Wichita Falls, Texas, this 8th day of April, 1935. R. L. SANDERFORD, Clerk, District Court Wichita County, Texas. By Edna Benner, Deputy. (Published April 11, 18, 25, 1935.)

**Public Service School**  
DEFINITE training for public service has long been part of the educational program of Turkey, Siam, Persia, and China. As reported in *The Literary Digest*, local experiments leading to municipal and State work have been made in Kalamazoo, Cincinnati, and Los Angeles.

Now the National Institute of Public Affairs, a non-partisan, non-profit-making organization has embarked on such a venture in cooperation with the Federal Government. Fifty-four college students and graduates are engaging in a three-months' study of government activities from the vantage-point of desks in the various government agencies in Washington.

**A Quick Way To Better Pay**  
The most important objective in any educational program is the ability to earn a good living. For in this modern age when there are so many things that require a substantial income, such as a car, good clothes, pleasant vacations, and facilities for entertaining friends, money has become more than ever a symbol of success.

shortest route to these laudable rewards. It provides early incomes, congenial surroundings, association with successful people, and broad opportunities for development of talent and culture.

It has therefore been the life-work of Draughon's Colleges to make it possible for young people to step into good incomes at the earliest possible time and begin the accumulation of a bank account that will gratify the wholesome desires of a happy life.

A new booklet, "Planning Your Future", describes today's inspiring opportunities in business and a proven method of securing good starting positions for graduates. Clip and mail for your copy today. Address nearest Draughon's College, Dallas, Wichita Falls, Abilene, or Lubbock.

**Crime Costs More Than Nation's Education**

THE total cost of crime has been estimated as high as \$13,000,000,000 annually, or nearly three times the appropriation for the Administration's work-relief bill. Potential criminals now in school number, it is estimated, more than the United States Army.

By far the greater part of the huge annual crime bill is spent in the apprehension and trial of criminals, and in housing them in reformatories, jails, and prisons. By way of contrast, the estimated total income for all education from kindergarten through college, public and private, reporting to the United States Office of Education in 1931-'32, was \$3,083,808,785. As *The Literary Digest* points out, the penitentiary looms larger than the school.

## RUPTURE

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Hilton Hotel, Lubbock, Tuesday and Wednesday only, April 23 and 24, from 9 A. M. to 5 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthens the weakened

parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicine or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge or fit them if desired. Add. 6538 N. TALMAN Ave. Chicago. For 15 years assistant to F. H. Seelye famous rupture expert of Chicago.

**ANTI-PAIN PILLS**

foreclosure of a Deed of trust lien on the following described property, to-wit:  
Being the southwest quarter (1-4) of Section No. 283, Certificate No. 10/2037, H & G N RR Co. Survey, Block No. 1 described by metes and bounds as follows:  
BEGINNING at a set stone marked "NW. 260" an iron pipe at S. W. Corner of Section No. 283,  
Thence North No degrees 20 minutes West, with West line of said section No. 283, 950 varas.  
Thence North 89 degrees 40 minutes East 985 varas.  
Thence south no degrees 20 minutes East 950.4 varas.  
Thence South 89 degrees 40 minutes West, with south line of said section No. 283, 985 varas to the place of beginning and containing 165.83 acres of land:—  
as said Deed of Trust lien existed on the 10th day of March, 1927, and it is ordered and decreed by said judgment that said property be sold as under execution in satisfaction of said judgment. And if said property shall sell for more than sufficient to pay off and satisfy said sums of money, the excess should be paid over to the Defendants, Hugh J. Gray and Ora S. Gray. But if said property shall not sell for enough to pay off said sums of money, the balance due shall be made as under execution, and such order of sale shall have the force and effect of a writ of possession, and the officer executing same shall make a good and sufficient deed, and place the purchaser of said property in possession thereof within 30 days from date of sale.  
Therefore, you are hereby commanded that you proceed to seize and sell the above described property, as

**Your wife will know why we buy from Western Electric**

As the world's best purchasing agent, she applies the same rules of thrifty buying used by the Bell System.

As one of the 24 associated companies of the Bell System, we buy most of our equipment and much of our supplies from Western because we get bargains there, because we get uniform quality and the assurance of exact performance... and because Western Electric parts are so designed that future improvements and developments will fit into and work with equipment already in use.

These factors help us materially in achieving the Bell System policy of good telephone service at fair cost to the user.

switchboards, show similar variations in the amount saved.

But the important point, clearly indicated, is that Western's prices are appreciably lower to us than open market prices.

As a special study based on 3,000 separate items of telephone equipment and supplies indicates this fact: Western Electric, as supply unit of the Bell System, sells to Bell operating companies for a fourth less, on the average, than the lowest price offered by independent supply firms.

This of course does not mean a saving of a fourth on every item bought from Western Electric. Some supplies... paper, paints, poles, for example... range from 5 to 17 per cent under usual market prices. Others, such as telephones, cables and

**No strings to this offer**

Here's a test that will prove to your own satisfaction that the Ford V-8 truck can haul more tons—more miles—with more satisfaction—at less cost.

Put your own driver back of the wheel—have him test the new Ford V-8 truck on any hauling job—with your loads—and let the results speak for themselves. We will furnish the truck, the oil and the gas—it won't cost you a dime to find out exactly why Ford V-8 trucks earn bigger profits for their owners.

Ask your driver what he thinks of the comfort and convenience of the cab...the ease of handling...the speed and ability of the 80 h. p. V-8 engine. Then ask us about the Ford factory reconditioned engine and parts plan that keeps your truck at peak condition yet reduces maintenance costs.

**AUTHORIZED FORD DEALERS OF THE SOUTHWEST**

**SELLING TEXAS THROUGH THE CENTENNIAL**

The Texas Centennial of 1936 was put on the forefront as a gigantic effort on the part of the State to sell Texas to the Nation when C. E. Turner, Finance Director of the Texas Centennial central exposition, addressed the Southwestern Sales Managers Conference at Dallas Monday, at which delegates emphasized the rosy outlook for business improvement on a substantial scale in the Southwest. "This is the biggest selling effort ever made by Texas," asserted Mr. Turner. "It makes every Texan a salesman of the wares of his State. Dallas' part in the sales campaign is to furnish the sample and display rooms through its central exposition. We hope that those who visit the sample rooms also will go through the factory and hope many will decide to live and to invest in Texas. Texans today are selling Texas on the same basis as did Stephen F. Austin when he started his colonization. His successful salesmanship brought about the Texas of today. His colonization work was a selling scheme that resulted in the embryonic Texas. One hundred years afterward we again are selling Texas as a grown-up, in another selling job parallel and

to be regarded as an equally pioneer undertaking. We are selling wares as well as land, but it all is based upon the soil, for Texas has vast acreage populated by only 6,000,000 or so people, leaving plenty of room for all who might come to this State. Its resources merely have been scratched".

**EVERYBODY HAS NEURALGIA AT TIMES**

Neuralgia is one of the commonest of medical terms. And naturally so, because neuralgia is an exceedingly common complaint. Few people, however, could accurately define it. They well know when they have it, though. It applies to any pain that follows a nerve's course, though it is usually applied to the nerve which lies close to the surface of the cheeks. This nerve sends branches and sinuses behind the eyebrows, nose, below the cheek bone and to the teeth. It is frequently very difficult to locate the real cause of this type of pain. There are many conditions that arise in the areas of influence of this nerve. And when one of them develops there is plenty of it. In this respect, as one authority aptly puts it, "The tiny part which is inflamed is like a radio station which sends waves of

sound into the carrying ether to be picked up by any one who tunes in. The nerve is like a many-wired antenna which catches the message and takes it to the tuned-in brain. While, as indicated, neuralgia can have a large number of causes, one of the more general of them is a decayed tooth. As a matter of fact it is not at all uncommon to find a decayed lower tooth reflecting pain into the upper jaw and even the temple.

It follows that much of the neuralgia could be prevented by the simple practice of proper daily dental hygiene and the semi-annual visit to the dental chair. This fact is becoming more and more appreciated is obvious in the greatly increasing numbers of persons who are making a daily rite of oral hygiene, and who also routinely every six months visit their dentist for professional prophylaxis and check-up.

**Two Propaganda Plays Open Run**

**Communism Preached Openly By Vigorous Young New York Dramatist**

IN less than ninety days, toiling with the unrest of his times as a central theme, a young actor in the New York theater has become the most exciting spokesman of the world of workers yet has produced and, perhaps the most articulate dramatic available in the theater. Clifford Odets, almost a boy, lean, nervous, aflame with indignation at what he sees around him, is the author of three plays which have made his name a new conjure in drama and his work a new power for the restoration of drama, reports *The Literary Digest*.

*Taxi Strike Portrayed*  
 He had written a short play about the 1934 taxicab drivers' strike in New York. A bitter, contemptuous arraignment of the criminal forces which herded the deluded drivers and exploited them, the Group Theatre gave it special Sunday night performances in a downtown theater. In a few weeks the public clamor for the work of Odets had risen to that point where this producing organization had to bring it up into Broadway for regular showing. To it was added another short Odets play: "Till The Day I Die," an anti-Nazi propaganda based on the information smuggled out of Germany in a letter.

*Candid Propaganda*  
 This play and "Waiting For Lefty," the taxicab strikers' play, have been made into an evening's program. It is an evening of candid propaganda. His Nazi play is the first one to take note of the plight of Communists in Germany.

"Waiting For Lefty" is Mr. Odets at the sum of his best. His play roves the streets before the relief trappers started their extermination campaign, annual losses amounting to from 25 to 75 per cent. One farmer reported the loss of 300 chickens annually to coyotes.

From the standpoint of value as work relief project, trapping permitted this type of aid to be extended to

relief clients living in remote rural districts who generally, because of their isolation, have to take direct relief.

Two former clients in this county are now full time employees of the federal government as a result of experience gained in these projects.

was extra to their regular 8-page edition and exhibited much study and workmanship being in two colors, with automobile stores and displays. It seems the business firms of Snyder are using the Times as a means to get things going there.

**SLAYING WOLVES BY RELIEF WORK**

More than 2,000 predatory animals of which 1,674 were coyotes, were trapped by relief clients in Frio county during the past year on projects set up in connection with the Bureau of Biological Survey.

Thousands of dollars worth of poultry and farm products have been saved in the county as a result of this project, declared County Agent N. H. Hunt, and many farmers and ranchmen have asked R. T. Barnhart, county relief administrator, to station trappers on their places to continue the program.

The dog pack and coyote proof fences have pushed coyotes and other predatory animals from the sheep and goat hill country of Central Texas down into Southwest Texas, where poultry coop raids by preying packs in broad daylight are still not uncommon.

Farmers in Frio county now report they are able to raise their entire crop of turkeys, whereas before relief trappers started their extermination campaign, annual losses amounting to from 25 to 75 per cent. One farmer reported the loss of 300 chickens annually to coyotes.

From the standpoint of value as work relief project, trapping permitted this type of aid to be extended to

relief clients living in remote rural districts who generally, because of their isolation, have to take direct relief.

**20TH CENTURY STUDY CLUB**

The Twentieth Century Study Club met Tuesday with Mrs. H. C. Foote, Mrs. B. P. Hale presided in the absence of the president. Roll call was answered with assigned subjects.

Music Week to be sponsored by the City Federation was announced for May 6, 7, 8. Plans for observance of the Wofan's Day were made. The club voted to make the donation to be sent to permanent headquarters fund through the City Federation.

A most enjoyable program was given with Mrs. Hale as leader. "The End of the Trail" and "Days End", one act plays representing life in the mountain states of the West, were reviewed by Mrs. Hale and Mrs. Kelley. Mrs. Hale, also, gave an interesting paper on "Life Among Mountaineers", in the Eastern States.

Mrs. Foote served fruit nectar, sandwiches and cake during the social hour.

Members, please take notice that the next meeting will be held May 7 instead of May 1 as is given in the Year Book. Mrs. Cowan will be hostess. —Reporter.

L. B. Grizzle, of Kalgary, was transacting business in our city Tuesday and bought a policy with the Acme Life Insurance Company while here.

**A NEW UNDERTAKER IN SPUR**

Webber Williams, hustling undertaker and embalmer, is moving at a fast gate and with a smile these days. While there is a new undertaker in town, Webber is not dreading competition, for he feels he has that under control for the present.

Webber B. Jr., arrived Saturday morning to make his home with Mr. and Mrs. Williams at least for the next eighteen or twenty years and to spread sunshine and happiness all through the lives of his devoted parents and loving little sister. In speaking of his name Mr. Williams stated that if he had enough fight in him to overcome that, he was not uneasy about his not making a success in life.

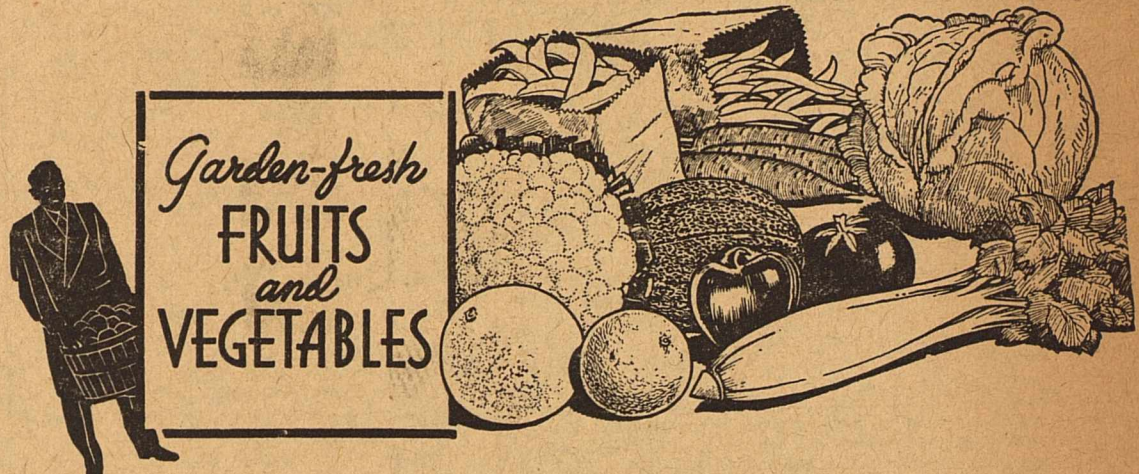

Mr. Williams' boss is making some complaint relative to Mr. Williams having to call home so many times each day to see how the new heir is getting along. Mr. Campbell stated that he realizes what a thrill it is to have a son in the home and feels that in due course of time everything will be all right. At least there is harmony unless Webber, Jr., feels that he is being mistreated and asks his daddy to make a few midnight races just for his comfort and pleasure.

Mrs. Williams and the young son are reported doing fine and it is thought Mr. Williams will acquire normal adjustment before many days.

Mr. and Mrs. Hamp Collett were in Turkey Sunday visiting their daughter, Nell, who is a nurse in the Standier sanitarium there.

Mrs. Bob Davis, of Post, is in our city visiting relatives and friends
