NINETEENTH YEAR, No. 20

WORK ORDERS RECEIVED ON HIGHWAY 214 PROJECT

Bailey County Wheat Growers Vote In Favor Marketing Quotas

Approved By Majority Of Eligible Voters

Although the vote in Bailey county was not heavy, a tabulation of ballots showed an overwhelming majority in favor of the wheat quota system as voted upon last Saturday. The count was 51 for to 3 against, representing 85 percent of the eligible voters of the county.

Returns for the United States show considerably more than the necessary two-thirds majority needed to put the quota system into effect.

The sweeping approval registered by the farmers exceeded the expectation of agricultural officials, who had predicted a favorable majority of 75 percent.

As a consequence, growers were assured of a government crop loan for wheat of 85 percent of parity, or about 87 cents a bushel, compared with last year's loan rate of 56 percent of parity, or about 72 cents per bushel. Legislation recently approved authorized the higher loan in the event quotas were approved. This was the first time wheat farmers had been asked to approve quotas.

Leads Singing At Baptist Revival

EUELL PORTER

Attendance at the Baptist revival is the best in many years, with good crowds attending both morning and evening services. Rev. C. J. McCarty, pastor of the Calvary Baptist church, Lubbock, is doing the preaching, and bringing some excellent services to the people.

Many out-of-town visitors are attending the evening services.

The choir, under the direction of Euell Porter of Bryan, Tex., has received unusual praise for its excellent 30-minute song program each evening.

The meeting will close Sunday, June 8.

Local Lions Club Assists In First Friona Meeting

Twelve members of the Muleshoe Lions Club were in Friona Tuesday night, assisting the Friona club with their first meeting. Luncheon was served in the new club building by members of the Friona Junior Women's Club.

The Muleshoe organization is sponsor for Friona, and will attend Charter Night on June 24, to assist in the ceremonies.

At the first meeting, a quiz program was featured in which Muleshoe members did the "asking." A recording of the proceedings was made, so that it would become a permanent record for the Friona club.

Those attending from here were: Horace Taylor, Pat Bobo, Walker Moeller, Dr. D. D. Lancaster, Sam Logan, Rev. R. N. Huckabee, J. C. Smith, Harold Weyer, Tye Young, Sam Fox, Cecil Tate and Ray C. Moore.

Bain Rites Held At Clarendon

Funeral services for R. L. Bain, 78, father of Mrs. Charles Didway of Muleshoe, were held May 28 at Clarendon, Tex., with burial in the cemetery there.

Mr. Bain, a resident of the Clarendon section for more than 20 years, passed away at his home in Clarendon Wednesday of last week. He was born in Leon county, Texas, and lived in Wise county, Texas, and near Lawton, Okla., before moving to Donley county. He was a retired farmer.

Survivors besides Mrs. Didway are his wife, Mrs. Nora Bain; a daughter, Mrs. Stella Hill of Amarillo; and seven sons, Joseph, Regan, Olin and James, all of Clarendon, Charlie of Childress, Tex., Grady of George West, Tex., and Howard of Chattanooga, Ga., Okla.

Mrs. Didway and her two children are expected to return this week from Clarendon, where they have been for the past two weeks.

TO CAPTAIN LONGHORNS

Jack Stone of Sudan, well known by several Muleshoe young people, has been elected captain of the University of Texas baseball team for next season. He played second base on this year's Longhorn nine, champions of the Southwest conference.

Moisture Brings Forecast Of Bumper Crop Yields

Muleshoe Scouts Leave For Camp At Post

Eight Muleshoe Boy Scouts, accompanied by their Scoutmaster, Clyde Bray, and Guide Holt, left Sunday for Camp Post, official camp of the South Plains council, Boy Scouts of America. The camp, located near Post, Tex., opened June 1 and will close for the first period on June 7. More than 200 South Plains Scouts are attending the camp.

Paul Eubanks, Mataador, state representative, is directing the camp, assisted by Joe Hutchinson, Sudan superintendent of schools, and J. C. Grimes, field Scout executive. Howard Holmes, veteran life guard, is directing the waterfront and life-saving activities.

An excellent camp cook and capable camp doctor is in charge of health and safety of Scouts. Fike Godfrey, Spur; Dr. E. L. Reed, Texas Tech; Bill Lane, Spur; Cecil Batten, Lubbock; Cecil Fox, Spur, and Howard Schmidt, Lubbock, will complete the camp staff.

Archery, marksmanship, swimming, life saving, campfires, hikes, Indian lore, taxidermy, horsemanship, other craftwork, Grand Coulee, wide games, Scoutcraft, pioneering, Navy day and many other activities make a full calendar of Scout activities for the week.

The camp is associated with the National Rifle association, Order of the Arrow, national camping association, and the American Red Cross Life Saving service. Scouts may earn and receive medals, bars and pins in these groups.

Muleshoe Scouts attending the camp are: Irvin St. Clair, Paul Gardner, Dick DeShazo, Billie Lane, Bill Pearson, Dan Bray, Billie Jim St. Clair, Homer D. Foster.

Gale Holt took the Scouts and Scoutmaster to the camp Sunday in his pick-up truck. He will return to Post for them at the end of the camp period.

Lounge Rooms At City Hall Get Fixtures

New fixtures were received this week and are being installed in the new reading and lounge rooms at the city hall.

It is hoped to have these quarters completely finished within the next two or three weeks so that people coming in to shop from other communities will find their stay more pleasant.

The rooms are to be furnished with comfortable chairs, tables, books and magazines, and writing material.

The fire boys have not as yet completed the furnishing of their club room, but this will be done shortly, it was stated. Plans for completely furnishing these rooms will be discussed at a meeting of business men this week, it is understood.

Oil Mill Plans Are Revived Here

Plans for locating a cotton seed oil mill here are being revived and with favorable results expected, it was stated last week.

Facts and figures on the locality have been turned in to the Texas State Industrial Board by the industrial committee of the chamber of commerce, and contacts have been made which very likely will result in the location of a plant here.

Interested concerns have been making investigations here for several weeks, and business men are lending all possible aid in order to secure the new industry. With the proper effort, it can and should be done.

Marines To Enlist Youths At 17 Now

Age limit for enlistment in the United States Marine Corps has been lowered to include youths 17 years of age. Formerly, the minimum age for enlistment was 18. The maximum age is 30.

The new regulation is expected to result in thousands of enlistments of 17-year-olds throughout the nation.

Men enlisting in the Marine Corps reserve, formerly required to serve a minimum of four years, will have to remain in the service only for duration of the emergency.

"A friend," said Uncle Aben, "is a man that laughs at you, funny stories, even if they ain't so good, and sympathizes with you misfortunes, even if dey ain't so bad."

A "CAPITAL" DRINK

After a visit to the State Capital recently it is stated on good authority that some of the Bailey county officials claim that buttermilk down there retails at two glasses for 65 cents. At this rate, a pound of butter would cost \$21.63; a pound of oleo, \$16.81; a cow-hide would make only one shoe for a left-handed nigger, and if laid end to end, would reach— This, according to The Journal statistician.

Club Luncheon Is Served By Progress Ladies

Muleshoe business men had an opportunity to see what Home Demonstration club women were accomplishing when the ladies of the Progress club served lunch last Friday at the American Legion hall. It was a grand feast, with platters of ham, sausage and fried chicken, with all the trimmings.

The Progress club ladies are raising funds to send a delegation to Beaumont on September 1, where the state convention of the H. D. clubs is to be held. They have information to charter a bus, as they are boosting Mrs. Wm. G. Kennedy for state president. After the convention, they will make a tour of south Texas cities before returning home.

Ladies assisting in serving the luncheon were: Miss Bessie Winslow, Mesdames: J. J. Gross, W. G. Kennedy, Ross Goodwin, E. J. Gulley, Marie Malby, L. R. Hogan, Doc Wilhite, Hattie Jennings, Lula Neidham, C. M. Baker, Dave Standifer, Marjorie Springstube, Veta Self, Iva Smith, J. L. Gregory, "Raz" Renfrow and Elzada McMahan.

Prospects Good For Vegetables Around Muleshoe

Many vegetable growers in this section report crop conditions good in spite of excessive rain the past two weeks. Weeds have gotten a start in some instances, but with a few days of good weather all crops will be cleaned out.

Plans for some system of orderly marketing are going forward, and it is thought that by harvest time a shed and loading dock will be available for efforts to better conditions here.

Many growers have not learned that green beans cannot be packed in gunny sacks and sold with any degree of success, and that there is little demand for tomatoes which are not graded.

As one grower stated last week, the work of getting a better system into practice is slow, but eventually it will be done. But the fact remains that so long as this is put off, the more money is being lost to growers.

Try a Journal Classified.

Muleshoe Youths Receive Degrees

James Kelly Walton, son of Mr. and Mrs. J. K. Walton, Jr., who have resided on the Government Game Preserve in south Bailey county for the past few years, was a candidate for graduation at Texas Technological college, Lubbock, this year.

Commencement exercises were held at the college Monday evening of this week. Young Walton received his bachelor of science degree in geology.

Roysten E. Willis, son of Mrs. Jess Mitchell, received his M. A. in history. He is also a Muleshoe boy.

A rattlesnake, which had five rattles and a button, was killed by W. B. and Horace McAdams Friday afternoon in Hubert Rutherford's garage. Incidentally the rattles and button were not counted until after the snake was dead.

Consistent Gains Registered In Texas Business During Past Year, Survey Shows

AUSTIN, June 2.—Consistent gains have been registered by Texas business during the last year, it is revealed by the University of Texas Bureau of Business Research, citing a 11 percent margin for April over April, 1940.

All the six major business factors making up the Bureau's composite index of Texas business stacked up increases since April 1940, ranging from 7.2 to 20.6 points.

Employment gained 7.2 points; payrolls 12.6 points; miscellaneous freight loadings, 14.3 points; runs of crude oil to refinery stills, 20.6 points; department store sales, 8.3 points, and consumption of electric power, 10.6 points.

Other business factors charted by the bureau showed the following gains over a year earlier.

Postal receipts, up 14.1 percent.

Building permits, up 20.8 percent.

Lumber production, up 15.3 percent.

Among the unfavorable notes were purchase of savings bonds, down 9.4 percent; new chartered to corporations, down 16.6, compared to 128 in April year ago; commercial failures, compared to 17 in April a year ago.

Canning Factory To Process Beans, Tomatoes Only

Information received this week from James H. Case, manager of the canning factory, is to the effect that they will be unable to process corn or peas this year.

Recently the Department of Agriculture amended rules so that more vegetables could be grown for processing. Tomatoes, corn, peas and snap beans are especially in demand, and it was thought some weeks ago that the local factory could handle all these.

However, additional machinery would have to be installed, and it will be impossible to do this for the present crop.

The factory can easily handle the crop of beans and tomatoes. Mr. Case stated, and recommends Early Stringless and Giant Stringless varieties.

Movement Of New Wheat To Start Soon

With the first car of the new 1941 wheat crop shipped from Crowley the movement of wheat from the Texas area was expected to increase over the week-end and be in full swing by the middle of the month, officials of the Santa Fe Railroad announced today.

Railway officials anticipated one of the heaviest movements from the wheat belt states since the record crop of 1931 and are busy organizing rolling equipment and power to handle the heavy task.

Government officials, grainmen and shippers are cooperating with the railroads in an effort to speed handling so that there will be no lack of cars. The government handlers have appealed to farmers and shippers to refrain from using cars for storage. They point the unusually heavy crop coupled with national defense orders presents a problem which can best be handled through complete coordination of all forces interested in perfect handling.

They also urge wheat growers to avail themselves of as much farm storage as possible so the maximum facility will prevail to move the bumper crop.

While the Texas wheat has an earlier start than the crop in New Mexico, Oklahoma and Kansas, movement in those states is expected to start about the middle of June.

Monthly Workers Meet May 27 At Enochs Church

The monthly Workers Conference of the West Plains Baptist Association met May 27, with Pastor J. E. Moore and the Enochs church. A good attendance was present to hear the inspiring messages from the speakers. Seventeen of the 23 churches were represented.

A beautiful basket dinner was served at the noon hour by the ladies of the Enochs church and others who helped who were not members.

The next meeting will be held with Pastor R. W. Harris and the Watson church on Tuesday, June 24.

Americanism: Handing out millions to make South Americans love us; offering visiting officials by failing to give them the usual souvenirs.

Four Miles Of Shoulder Work To Be Started

Highway improvement work will start within the next few days on 214, south of Muleshoe, according to information received by the county commissioners here last Friday.

A copy of the work order from District Engineer George M. Garrett to the commissioners stated that WPA had appropriated \$8,685, and the State Highway Department \$4,000 for the purpose of laying caliche shoulders with asphaltic topping on four miles of road just south of Muleshoe.

This work has been needed badly for some time, as the section to be improved includes part of the sand hill country, and is difficult to hold in place.

Some months ago, the Highway Department announced that very little, if any, highway work could be done in Bailey county, due to the necessity for building defense roads in the eastern part of the state. However, the commissioners kept working on the problem, with the result that money was finally appropriated.

When County Judge Jim Cook was asked for information on the project, he stated that the commissioners had secured it (imagine a judge giving a bunch of commissioners credit for something), and that the work order was a surprise to him.

The job will furnish work for thirty or more men for the next three months, it was said, and when finished, the High Way 214 is first class shape.

Following is a copy of the work order:

State Highway No. 214. From 4 1/2 miles south Muleshoe 4 miles south. Mr. George M. Garrett, District Engineer, Lubbock, Texas.

Dear Sir:

It is your authority to commence construction of the work proposed in the approved PS&E of the above project on a date agreed upon between you and the local WPA authorities.

The WPA has appropriated \$8,685.00 to cover their share of the construction costs. The State has provided \$4,000 from the District No. 5 contingent fund to cover the cost to the state for this project.

Yours very truly
D. C. Greer,
State Highway Engineer.

Women Invited To Attend Red Cross Sewing Tuesday

Tuesday afternoon of next week, June 10, all women of Muleshoe and surrounding communities are invited to attend a meeting at the Home Economics room at Muleshoe high school, at which time sewing for the American Red Cross will be done. One o'clock is the hour set for the sewing to begin. Sewing machines in the Home Economics department will be available for use. The room is equipped with large tables on which garments can be cut out.

For the past several weeks local groups have been meeting each week to do Red Cross sewing and they have been doing good work, but it is desired that more ladies attend and take part in the sewing.

Mrs. Henry Clements and Mrs. Will Harper are two Muleshoe women who are assisting with sponsoring the sewing.

Gram Given By Melody Makers Tuesday

Monday evening of this week, Melody Makers, a church choir, presented an evening program at the school building at Maple.

Members of the choir are: Opal L. Jimmy Biggs, Jessie Carter, H. T. Carter, Zane Rhea, Ruth Harrison, Roselle Frison, Dexter Nehut, Mable Carl Penny, Dutch Powell, Sh. Shaw, Jane Toombs, Mary Toombs, Verleene Vanlandingham and Ruth Worland.

The program for the evening is:

Rock of Ages.

When I Hear the Welcome Bells Ring.

Jonna Rise Up and Shine.

When the Clouds Roll By.

See, 'Tid Love to Be a Monkey at the Zoo—Lillian Carter.

The Creaking Old Mill on the Rock—Jimmy Biggs.

Sexual Rose—Ruth Shaw.

Can Hear His Voice—Quartet (Ruth Shaw, Verleene Vanlandingham, Mable Pack, Jimmy Biggs).

Cotch Dance and Song—Six Girls.

Little More—Quartet.

Seven Now Is In View—Quartet.

I Can Make Somebody Happy—Quartet.

Division Has Been Bought—Quartet.

Lillian Carter.

Cathedral of Dreams.

Paradise Valley.

I Have a New Life.

Wedding of Jack and Jill—D. Fourth and Fifth Grades.

Sockpucker Song.

The Wonderful.

oman Levi.

Reflection Waltz—Billy Stafford and Lillian Carter.

My Uncle—Leonard Gandy, 3 O'Neil.

Happy Little Home In Rock of Antilem.

BANK OFFICIALS D ANNUAL MEETING

Osborn, cashier of the State Bank, Mrs. Osborn, Mrs. Inez F. Bobo, assistant cashier of the bank, and C. W. Burke, bookkeeper, attended the Panhandle Bankers' convention at Amarillo, Texas, last week.

Monday was a bank holiday in honor of the anniversary of the death of Jefferson Davis. The convention activities included a dinner at the Country Club Monday afternoon, at which visiting Plains officials were guests of the clearing house association.

SAFER TIRES

9.1% Stronger Cords after 5-million mile test

Back and forth, up and down, with every roll of your tires, the cords are constantly flexing... until sometimes they break because of flexing-fatigue.

There is one way to prevent or reduce this type of tire failure. That is to strengthen the cords, which is exactly what Lee has done!

After the famous 5-million mile Florida Road Test, Lee cords averaged 9.1 per cent stronger than the average of the other tire cords.

This extra safety... and extra miles, too... cost nothing extra in first-line Lee DeLuxe Tires. They sell for less than you guess!

Drive in for new low prices, trade-in offer, and easy-pay plan.

LOCAL HAPPENINGS

Miss Frankie Deppin, who has been attending West Texas State college at Canyon, returned to her home here last weekend to spend the summer months.

Mrs. Bonnie McReynolds of Lubbock, attended to business and visited friends in Muleshoe Friday afternoon of last week.

Mr. and Mrs. E. C. Harvey of Haskell, visited friends in Muleshoe and looked after land in the southwest part of Bailey county the first of this week.

Mrs. S. C. Beavers, and sons, Spencer and Billy, have been visiting relatives and friends in Vernon for the past few days.

Miss Zoe McReynolds, who has been attending Texas Tech at Lubbock, returned to Muleshoe last weekend where she will spend part of the summer vacation visiting homefolks and friends.

Donald Burhman returned to Muleshoe the latter part of last week from Omak, Wash., where he has been employed for the past several weeks.

Mrs. Anna F. Moeller, Mrs. C. H. Horsley, Mrs. Hertha Walker and two daughters returned to Muleshoe Thursday of last week from Hot Springs, N. M., where they had spent several days.

Miss Sybil West, daughter of Mr. and Mrs. Bert West of Muleshoe, went to Plainview last week where she will enter nurse's training at a hospital.

Prof. and Mrs. P. C. Windsor left Muleshoe the latter part of last week for Edmondson, where he will be employed as book-keeper with an elevator firm during the summer.

P. M. Donaldson and Bill Young of Plainview, visited friends and transacted business in Muleshoe Monday afternoon.

Mr. and Mrs. Glenn Yonaka and children were Clovis, N. M. visitors Sunday afternoon.

Mr. and Mrs. Paul Carmichael of the Baileyboro community are the parents of a daughter, born Saturday, May 17, at a Littlefield hospital.

Mr. and Mrs. Delma McCarty, and two sons of Spur, visited here last weekend with Miss Elizabeth Harden and Mrs. I. W. Harden. "Sonny Boy" McCarty remained for an indefinite visit with his grandmother, Mrs. Harden.

Miss Oleta Parker returned to work at the clinic in Muleshoe Monday morning after having been absent from her duties for the past several days because of illness.

Mr. and Mrs. J. F. Carter of Maple were in Muleshoe last Monday. They stated that farming operations were being delayed considerably by rain in that part of the county.

A marriage license was issued in Muleshoe Monday, June 2, by M. G. Bass, county clerk, to Miss Pauline Blue and D. M. Simmons, both of the Bula community. The couple was married at the courthouse by Rev. R. N. Hugkabee, local Methodist pastor.

Judge Jim Cook and Commissioners D. Warner and Arthur Shafer were business visitors in Lubbock last Friday.

Born to Mr. and Mrs. T. J. Lowe of the Bula community, a son named Elbert Glenn, a Littlefield hospital, Tuesday, May 20.

Joe Bill Alsop of Littlefield, was a business visitor in Muleshoe Tuesday.

W. G. Harlan came home from West Texas State College at Canyon last week.

L. C. Olds of Friday was here on business Friday morning of last week.

Mr. and Mrs. Walter May of Oklahoma City and Miss Ruby Woods of Wayne, Okla., spent the weekend in the home of their sister, Mrs. Olen Jennings. On Sunday Mr. and Mrs. Jennings, and daughter, Dixie Lee, Mr. and Mrs. May and Miss Woods visited the Carlsbad Caverns. The visitors plan to return to their homes Monday of this week.

Mr. and Mrs. W. H. Kistler, Mrs. Beulah Moeller, Mr. and Mrs. J. D. Thomas, and two children of Farwell, Tex., and Merle Kistler of Pomona, Cal., visited Saturday and Sunday in Abilene with Gene Kistler, and family.

Miss Rosa Renfrow, who has been attending Texas Tech at Lubbock, returned to her home in Muleshoe Thursday of last week, where she will spend the summer vacation with her parents, Sheriff and Mrs. W. E. Renfrow.

Miss Loray Covington attended a welfare workers meeting in Lubbock last weekend.

Miss Hortense Nordyke of Lubbock was in Muleshoe last Friday. She is a teacher in the Progress schools.

Ozell Tate and Wm. G. Kennedy were in Morton on business last Wednesday.

Commissioner Harold Mardis was in Lubbock last weekend.

Mr. and Mrs. Bill Collins were Clovis, N. M., visitors last Sunday afternoon.

Merle Kistler of Pomona, Cal., is here for a short visit with his parents, Mr. and Mrs. W. H. Kistler, and other relatives and friends.

NEW DEFENSE SHORT COURSES TO BE HELD

AUSTIN, Tex., June 2 — Eight new engineering defense short courses will get underway during June at the University of Texas, open in some cases to students only with a strong high school background.

New courses and class-opening dates are as follows: aeronautical engineering, June 9, 2 weeks; diesel and gasoline engines, June 10, 12 weeks; machine design metal processes and engineering, June 15, 13 weeks; materials inspection and testing, June 9, 12 weeks; structural drafting, June 4, 12 weeks; strength of materials, June 2, 13 weeks; plane surveying and map drafting, June 9, eight and one-half weeks; water treatment and sewage treatment plant operation, June 9, 13 weeks.

W. E. Woolrich, University engineering dean, urged that applicants contact University engineering offices for specific entrance requirements relative to each course. All expenses above students' living cost are being defrayed by the Federal government.

Trade at Home.

Taxes Will Take Much Of Income

WASHINGTON — Tax experts figured that the tax collector will take one out of every \$4 of the national income in the coming fiscal year.

National income is expected to climb to a record of ninety billion dollars in the twelve months beginning next July 1. But taxes also are slated to reach the unprecedented figure of twenty-two billion dollars — counting federal, state and local levies.

This means taxes will consume about 25 percent of all the money paid out to Americans during the period for wages, dividends, royalties, rents, interest and individual business profits.

Biggest share of the taxes will go into the Federal Treasury — approximately \$12,700,000,000 (billions). States will collect about four billion dollars and cities, schools and other local units about \$3,000,000,000 (billions).

Existing federal taxes are slated to take about \$9,225,000,000 (billions) and the Treasury asked this week for \$3,500,000,000 (billions) in new levies.

On May 1, defense stamps and savings bonds went on sale at 16,000 post offices, thousands of banks and other agencies.

Congress members dealing with tax legislation said they believed the public was ready to accept the heavier tax burden. Most indicated, however, a disposition to await reaction to various alternative tax suggestions before deciding how the money would be raised.

Goodland News

Twenty ladies or more met at the school house last Monday and quitted three quilts for Mrs. Joe Millsap. Also many lovely and useful gifts were showered on Mrs. Millsap, who lost her home by fire several weeks ago. Refreshments of iced tea, cakes and cookies were enjoyed by the ladies.

Mrs. O. C. Kirk made a visit last week to Temple. Mrs. Sanderson, who accompanied her as far as Knox City, visited her mother, Mrs. Bill Bule, and son, Bobbie Ladd, made the return trip home from Stamford with Mrs. Kirk and Mrs. Sanderson.

Rev. Crockett filled his regular 10 o'clock appointment Sunday. There were 27 present at Sunday school and church.

Mrs. Cass Stegall and Mrs. M. D. Gaddy are on the sick list this week.

Miss Bernice Sanderson, student at Texas Tech, returned home last week to the summer.

Mrs. Raymond Shelton entertained the Ladies Diversity Club Wednesday afternoon. Business was taken care of, then Mrs. Mathey brought a large package to Mrs. Shelton from the "post office." The package contained many lovely "going away" gifts from the club members. Refreshments of lemonade and peanut butter cookies were served to: Mesdames Nunnally, Pete Tarleton, Stegall, Galt, T. G. Gaddy, M. D. Gaddy, Goodrum, Lester, Lancaster, Morris Gant, Keim, Rose and Misses Fay Gant and Wilda Kelm.

Mr. and Mrs. Woodrow Cagle of Bledsoe were visitors in this county Sunday.

Mr. and Mrs. Cass Stegall and daughter spent several days in Lubbock last week.

Mr. and Mrs. J. A. Johnson were rudely awakened one morning last week during the heavy rains, when the roof of their half dugout caved in. Mr. and Mrs. Johnson were not hurt, but the household furniture was damaged considerably. Several neighbors and friends assisted them in getting moved into a two-room house on Mr. Johnson's place.

TEXAS LIQUOR TAXES SHOW BIG INCREASE

AUSTIN, June 2 — Liquor consumers poured \$481,224 in taxes into the state treasury during the month of May, an increase of \$28,832 over May of last year.

Liquor Administrator Bert Ford said revenue had increased consistently every month this year. He reminded that the recent increase from 96 cents to \$1.28 in the per gallon levy and the new impost of 22 cents on each liquor prescription became effective June 1.

Official Field For Senator Is Announced

AUSTIN, Tex. — The official ballot for the June 28 U. S. senatorial election will contain the names of 29 candidates, 25 Democrats, two Republicans, one Independent and one Communist.

One of the largest fields ever to run for a single office in Texas the list, certified to county clerks by the Secretary of State, included an attorney general, two congressmen, a governor, a laundry operator, a chiropractor, a minister, a plumber, a physician and a citrus rancher.

DEMOCRATIC PARTY
Joseph C. Bean, Bay City, 66.
Dr. John R. Brinkley, Del Rio, 55, a physician.

REPUBLICAN PARTY
E. A. Calvin, Houston, 66, secretary taxpayers association.
Arion B. Cyclone Davis, Dallas, 60.

Martin Dies, Orange, 40, congressman.
Commodore Basil Muse Hazard, Fort Worth, 52.

Robert Grammar Head, Fort Worth, 35.
O. F. Heath, Sr., Dallas, 50.
Budda Hicks, Houston, 48, merchant.

Lyndon B. Johnson, Johnson City, 32, congressman.
W. W. King, Bronson, 61, farmer and cafe operator.

Gerald C. Mann, Austin, 34, attorney general.
Sam Morris, Del Rio, 41, Baptist minister.

Starl C. Newsome, Jr., Dallas and Gilmer, 46, farmer.
W. Lee O'Daniel, Austin, 51, businessman and governor.

Floyd E. Ryan, Houston, 30, lawyer.
Walter A. Schulz, Burton, 39, teacher.

C. L. Somerville, Dallas, *47, lawyer and law school operator.
Joseph (Doc) Thompson, Waco, 41, insurance agent.

Edwin Waller, III, San Marcos, 70.
W. C. Welch, Port Arthur, 54, chiropractor.

John C. Williams, Rockport, 45.

COMMUNIST PARTY
Pollitte Elvins, Pharr, 63, citrus rancher.

Enoch Fletcher, Grand Saline, 42.

INDEPENDENT
W. R. Jones, San Antonio, 51, laundry operator.

COMMUNIST PARTY
Homer Brooks, Houston, 30, party secretary.

SUMMER SCHOOL AT WTSC SET

CANYON, June 2 — West Texas State College opened June 4 what some observers have called a streamlined summer session.

The session will consist of five week terms, the first on July 9 and the second August 1. By having classes six days a week instead of five, West Texas has shortened the summer session by two weeks without increasing the regular amount of which may be earned. It will be approximately 1 1/2 in length.

The decrepit car crept up the toll bridge. "Fifty cent the gateman." "Sold," replied the driver.

the ROAD AHEAD

Old Man Texas is today looking ahead and planning. Beside the great farming and ranching country which Texans have built, he sees a new industrial empire here.

Already the start has been made. Some industries, such as petroleum, are now showing what can be done to utilize Texas' vast natural resources. Today this industry refines with Texas labor over four-fifths as much oil as the State produces. Its

products make up nearly one-half of all Texas manufacturing. Altogether petroleum provides the living for almost one-sixth of our people.

But this is only a beginning.

Texas has many other raw materials, unexcelled by any other State. Texas has in oil and gas the cheap and dependable fuel supply essential to industry. Texas is the gateway to Latin America, our new foreign market.

Each new industry means more jobs. It makes added tax values for our State and local governments, bigger payrolls for our workers, and greater prosperity for you and every other Texan.

WILL HE GO FROM

High Chair to High Bench?

JUDGING BY APPEARANCES this young man appears to be judging, but only a foolish fortune teller would try to guess whether he will ever reach the Supreme Court.

Obviously, this wide-eyed baby's future is unpredictable. But you can pry into the future when you want a winning oil for your motor. You can easily forecast the high quality of your choice. How?

Phillips refines many oils because car owners' requirements vary as much as their cars and pocket-books. But when you want our **best oil**, there is no room for doubt or hesitation. Phillips speaks out plainly and directly. Tells you that **Phillips 66 Motor Oil** is our finest quality... the highest grade and greatest value... among all the oils we offer.

When you replace winter-worn oil with fresh summer grade, or make the regular 1,000-mile change, pick a winner: ask for **Phillips 66 Motor Oil**.

It's **HARD** to tell... but **EASY** to pick a winning oil

Phillips Finest Quality

Former Kaiser Dies In Holland

Former Kaiser Wilhelm II of imperial Germany died Wednesday at his exile estate of Doorn in the backwash of a new German conquest almost 23 years after he fled from the crumbling failure of his own European war plan.

The 82-year-old former emperor died at 11:30 A. M. (4:30 A. M. EST) in a sudden relapse of an illness which brought members of his family to his bedside last week.

An intestinal disorder, complicated at the last by a lung embolus caused his death.

He will be buried next Monday at Doorn. On the orders of Adolph Hitler, a military funeral with full honors is to be accorded imperial Germany's last emperor.

ATTEND WEDDING ANNIVERSARY AT FARWELL

Mr. and Mrs. R. J. Klump and Mr. and Mrs. H. H. Carlyle, and son, H. H. Jr. all of Muleshoe, attended the 31st wedding anniversary of Mr. and Mrs. W. J. Matthews at Farwell Sunday.

A lovely turkey dinner, featuring a wedding cake, was served to a large number of relatives and friends of the Matthews.

Mr. and Mrs. Matthews were married at Farwell by Rev. Sam Tipton thirty-one years ago.

Trade at Home.

Local Happenings

W. H. Atwey, who has just completed his second year of study at Texas Tech, Lubbock, returned to his home here last Saturday. He accompanied his parents, Mr. and Mrs. W. H. Atwey from the Hub city.

Miss Lela Mae Barron, who has been a student at Hardin-Simmons University at Abilene the past term, returned to her home in Muleshoe last weekend, where she will spend the summer with her mother, Mrs. Lela Barron.

Miss Wanda Farrell, student at Texas Tech in Lubbock, returned to her home in Muleshoe Monday afternoon to spend part of the summer visiting homefolks and friends.

Lawrence Carr of Haskell, has been visiting in Muleshoe for the past few days with his sister, Mrs. L. S. Barron.

Miss Mary Dennis returned to Muleshoe Saturday afternoon of last week from Abilene, where she has been attending Hardin-Simmons University for the past term.

Morris Gaston, former Muleshoe resident, who now lives in Lubbock, where he attends Texas Tech, was here the latter part of last week looking after land interest and visiting friends.

Mr. and Mrs. A. E. Newton of Baleyboro, attended to business and visited in Muleshoe Thursday afternoon of last week.

Miss Hattie Ray Griffiths, who has been attending Baylor University at Waco the past year, returned to her home in Muleshoe last weekend, where she will spend the summer visiting her parents, Mr. and Mrs. Ray Griffiths.

Attorney Kucerice of Lubbock was a business visitor in Muleshoe Thursday of last week.

Howard Towery of Lubbock, formerly of Muleshoe, was here Wednesday of last week visiting friends and attending to business.

Miss Maxine Maltby left last Thursday for Lincoln, Kansas, to enter Bethany college, where she is studying for a degree in public school music. Miss Maltby holds a B. M. degree in violin from Bethany.

Mrs. Sam Logan left last Thursday for Mineola, Texas, to attend the funeral of an aunt. She joined her father, R. C. Brittain, at Breckenridge, who accompanied her.

FLASH! FLASH! Dust Bowl Johnson has conceded that the drought is over and has shipped his dust bowl Jeeps to Georgia.

Mr. and Mrs. Dee Brown of Oklahoma Lane attended preaching services at the Baptist church Sunday morning.

Lady Forest Pittman of Levelland spent the weekend with her aunt, Mrs. Edd Johnson.

Prof. and Mrs. W. C. Cox returned last week from a visit with relatives and friends in East Texas and Oklahoma.

Bailey County Commissioners' Court sat on the county's equalization board Monday of this week, and at last accounts the boys seemed to be doing pretty well.

Mr. and Mrs. Vance Wagnon and daughters, Sondra and Jo Addine, were in Clovis Saturday of last week.

We suggest that Opal's Shoppe send Miss Doris Hamilton on a shopping tour to Dallas, or have a part of Dallas come to Muleshoe.

Clarence Jones and Cletus Holloman were Portals, N. M. visitors Sunday afternoon.

Daniel Burrison of Meridian, arrived here the latter part of last week to spend the summer months visiting his brother, Bruce Burrison.

H. M. Reed of Ralls, Texas, was in Muleshoe Saturday on business.

Mr. and Mrs. George Wily, and family, of Friona, were in Muleshoe Thursday of last week on business.

Mr. and Mrs. Everett Srene, and son, Johnny of Clovis, visited in Muleshoe Saturday in the home of Mr. and Mrs. W. P. McAdams.

Claude Riley returned to Muleshoe Friday evening from Austin, where he has been attending the University of Texas this year. He will resume his position here with Taylor's Ice and Produce, where he has been employed during the summer months for the past few years.

Miss Freda Harvey, who has been attending West Texas State college at Canyon for the past school year, returned here last weekend to spend the summer.

Sleep while you want ad works.

RETAIL FOOD PRICES CLIMB 1.5 PERCENT IN DAYS

WASHINGTON — Retail food prices increased 1 1/2 percent in the month ended May 13, the Bureau of Labor Statistics reported Saturday.

The bureau said all food prices increased, with major changes in dairy products, fresh fruits and vegetables, pork and lamb.

If the diet of everyone in the United States could be raised to what is accepted as a good diet, approximately 20 percent more milk, 35 percent more eggs, 70 percent more citrus fruit, and 100 percent more of some types of vegetables would be consumed than have been used in recent years.

Mr. and Mrs. Warren Powers, and family of Farwell, visited friends in Muleshoe last weekend.

Timely Hints
Paste blotting paper on the bottom of rough vases that sit on polished furniture. They will not scratch... During hot weather do not dampen clothes too far in advance of the ironing for they mildew quickly. If you do not finish your ironing at one time, shake your clothes out to dry and sprinkle them later on... Stains that form around the water edge of vases may be removed by moistening tea leaves with vinegar and cleaning vase.

For A Picnic
A subscriber gives us this idea for a picnic table-cloth. She made a large picnic table-cloth of easily laundered percale. In the corners she made pockets in which a stone was placed to keep the cloth from blowing in the wind.

For Buttons
When making buttonholes on sheer fabrics baste a piece of material under place where you cut the hole. Cut through both thicknesses and make button-hole.

HEY! TAKE YOUR HAND OFF!

Electric Motor Reduces Cost Of Operating Ensilage Cutter

Three to five cents per ton is the power cost with such a set-up.

Farmers having high line electric service can cut their silage costs from 15 to 25 cents per ton by using a portable five-horsepower motor instead of a 15 to 30-horsepower tractor to operate the cutter. Part of that worthwhile saving comes from greatly decreased power costs—the electric motor requiring but approximately one kw-hr. per ton of ensilage cut, and elevated—and part from the smaller crews needed (two to eight instead of 12 to 20 men).

Practically all of the modern silage cutters can be successfully operated by a five-horsepower electric motor. However, some of the older cutters do not have the proper clearance between the ends of the fan wings and the fan housing to give satisfactory elevation at slow speeds and, as a result, cannot be driven by a motor of such low power. In such cases, an especially if the quantity of silage is large, it generally will pay to replace the old cutter with one of modern design.

Although the power required is influenced by the quantity of the fodder, the size of the bundles and method of feeding, the size of the cut and the height of the silo, there are several factors controllable by the operator which are of equal or greater importance. The knives on the cutter should be sharpened twice each day so that each set is used for only half a day's run. They should be set closely but without striking the shear bar which must have a true, sharp edge and which should be reversed or replaced if rounded by wear.

The speed of operation is extremely important — the higher it is the greater the power required per ton of ensilage. Therefore, the cutter should be run at the lowest effective speed that will insure against clogging. The blower pipe should be kept free of dents and must be set so as to form a vertical line from the cutter to the elbow. Sharp angles at the cutter or bends in the pipe greatly reduce the capacity of the pipe.

The motor and cutter frame should be set level and firmly secured. The belt preferably should be of three-ply rubber, endless or spliced, should not be crossed if possible to avoid it and should not be allowed to rub on the cutter frame. The motor should pull from the under side, leaving the belt slack on top and an idler, if used, should always be against the slack side of the belt.

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the act of Congress, March 3, 1879.
C. S. HOLLAND, Editor R. L. JONES, Business Manager

SUBSCRIPTION RATES
In Bailey County, one year, \$1.50; Outside of County, one year, \$2.00

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. Advertisements which remain in this paper for the time specified or until ordered out. All notices, matters not for whom nor for what purpose, if the object is to raise money by subscription for a cause, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Opinions, criticisms, or statements of respect will also be charged for at the same rate.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon being brought to the attention of the publisher.
In local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A Journal Subscription, only \$1.50 a year

WHY THE INDIFFERENCE?

Close friends of the administration and supporters of "all out aid" to Britain, including war cannot, or will not, understand why the vast majority of people are so indifferent to the plea for aid to European democracies. They either forget, or do not care what the public thinks when it hears a speaker on one radio program or another, or they are so busy with their own affairs that they are indifferent to the plea for aid to European democracies. They either forget, or do not care what the public thinks when it hears a speaker on one radio program or another, or they are so busy with their own affairs that they are indifferent to the plea for aid to European democracies.

The plain truth is that the whole defense business is approaching the "rotten" stage—if it has not already arrived. And, if half the reports are true, the rotten part is in and around the national capital. We have all heard the Chief Executive and his people on Tuesday that "everything is moving along according to plan," and on Wednesday lambast labor and manufacturer alike for their cussedness.

SHORT SHOTS

There is a boy in Chicago, or somewhere, who sees everything exactly reversed from what it really is. My, my, how lovely this country's affairs must look to him.

"Spending money wisely now halves the work in the garden later," says a city magazine. Yes, and by spending a little more you can hire a man and get rid of the rest.

If you have a girl selling kisses at the festival, be sure she's pretty. That will guarantee the wyes coming along, and so double the return.

Sometimes I think the chief trouble is that the solid part of America's backbone is all in the big knob at the top end. My wife is a reactionary and she needs a change. But she can't see saving five minutes in the kitchen with some contrivance that it takes ten minutes to adjust and ten minutes to clean afterwards.

Washington Snapshots

by JAMES PRESTON

Behind-the-hand whisper in Washington tell of new plans for a reorganization of the defense setup in an effort to speed the rearmament drive. The present machinery, as nearly everyone admits is hopelessly hit and miss, and particularly unwieldy because everything has been handled through a bottleneck—the White House.
For example, OPM cannot decide whether to build new steel plants until the President makes up his mind whether they are needed. Leon Henderson and his price regulators cannot determine whether legislation is needed to strengthen their powers until the President reaches a decision; and so on.
The President naturally spends a large part of his time worrying over details of that kind. The truth is that William Knudsen is as right now as he was a year ago when he said the only defense bottleneck is "Time." Valuable time is lost while things drip thru the White House funnel.

OUR PRESENT DAY ARMY

There is some criticism in high quarters of our present Army program. The critics argue that too many of our ranking officers are still thinking in terms of the last war, and have been incredibly blind to the lessons of this war.
The Army's program calls for comparatively few mechanized divisions. Backbone is still the traditional infantry. While there will be more specialization than in the past, the emphasis will remain on tremendous masses of men with only basic training. The critics believe that what we need is a small, mobile, intensely specialized 100 percent mechanized Army. They point out that the German divisions which defeated the French army of 3,000,000 numbered only 250,000 men, and that German casualties were astonishingly light. The theory seems to be that a few highly trained soldiers with weapons is worth a mass of untrained soldiers armed

YOUR NAME?

By CHARLES DIDWAY

SMITH
During the presidential campaign of 1928 when Alfred E. Smith, then governor of New York, carried the Democratic banner, some wag remarked: "If none but the rest of the Smiths in this country voted for 'Al' he would be elected." While this statement was more presumptuous than anything else it served to remind us of the thousands of Smiths in the country. There are Smiths in every county in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Originally Smith denoted mechanical craftsmen in general and is not, as often presumed, a mere contraction of the word blacksmith. Its meaning was not restricted to workers in any particular craft. Back in the days when surnames were into style, there were gunsmiths, swordsmiths, silversmiths, goldsmiths, nailsmiths, and many other kinds of smiths.
Smith was its derivation to Old English verb "smitan" (to smite, to strike).
Famous Smiths in this country have been John Smith (not the one who signs all the hotel registers), English colonist and founder of Virginia, Alfred E. Smith, ex-governor of New York and a presidential candidate in 1928; Gen. E. Kirby Smith, soldier and educator; Joseph Smith, Mormon prophet, and F. Hopkinson Smith, author.

RUTHERFORD

From Rutherford, a place in Roxburghshire, comes this Scottish surname of local origin. The meaning of Rutherford has been traced to "ruddy ford," or river-crossing where the water is reddish. Daniel Rutherford, Scottish chemist, discovered the element nitrogen.
Next week we will write about the names Hanson, Harvey, Keane and Pool.
Watch for your name, and in the meantime we welcome any correspondence concerning this column. If your name is an unusual one and you don't know its meaning, direct "Your Name" Column, Muleshoe Journal. Perhaps we can tell you something of interest about it.

CUNNINGHAM

Cunningham is a Scottish local name, from a district in Ayrshire. The meaning of the name is "town, or settlement of the king or chieftain," from "cunning" (king, chief), and "ham" (haven, town).
The only solution believed to exist for the name Pratt is that it is a personal name from the Anglo-Saxon "praet," which means cunning, wise. Bela Pratt (1867-1917) was an American sculptor.
Next week we will write about the names Hanson, Harvey, Keane and Pool.

THE GUN SITUATION

Sportsmen all over America are alarmed at the possibility of not being able to buy any kind of rifle or pistol within a few months. Manufacturers are frank in stating that the defense program is hindering the production of all their facilities for the production of arms for the army. Several companies have assured us that they will be able to produce rifles and pistols within a few months. Manufacturers are frank in stating that the defense program is hindering the production of all their facilities for the production of arms for the army. Several companies have assured us that they will be able to produce rifles and pistols within a few months.

MEN LIKELY TO BE RETAINED IN TRAINING

WASHINGTON — Indefinite military duty for the national guard was considered a virtual certainty by army officials today because of the unlimited national emergency proclaimed by President Roosevelt.
An early request to Congress for authority to retain the 291,000 guardsmen in service beyond the current single year of training was accordingly anticipated, although no final decision has been reached on the question.
In the light of the threat to American security pictured by the chief executive, an informed official suggested it would be "hardly logical" to demobilize 18 full divisions of trained troops, representing more than half the number of such major units under arms in all the expanding land forces.
Jody Gordon was twenty now. She didn't exactly know Lew Gordon; nobody did that. But it was fairly apparent that his stubborn bid for supremacy in western cattle was intended in her behalf, and without her would have been meaningless to her.

CHAPTER III

That Lew Gordon had a daughter was not so surprising as that he had only one child. She clung all his life to the memory of the wife he had lost when their first child was born.
Jody Gordon was twenty now. She didn't exactly know Lew Gordon; nobody did that. But it was fairly apparent that his stubborn bid for supremacy in western cattle was intended in her behalf, and without her would have been meaningless to her.
Because Gordon hadn't wanted his girl flitting around through the

THE SMOKY YEARS

By ALAN LE MAY W.N.U. Release

INSTALLMENT 2 THE STORY SO FAR:

King-Gordon in power and wealth, but he had gained his position through wholesale cattle rustling and gunplay. Their opposing interests came to a showdown when the Government announced the auctioning of the Cryng press of Ben Thorpe's ruffians at the auction, getting his own boys into lights, Jody Gordon was waiting here for news of what had happened to the Cryng Wolf. Bill Roper vaulted the foolish little picket gate, scuffed the mud off his boots on the high front steps, and let himself in. He sent a Comanche war gobbler ringing through the house, but Jody was already flying into the room.

CHAPTER II

An hour spent in the Wells Fargo office with the deputy commissioner, filling out forms, signing papers, ended as Dusty King and Bill Roper strolled with Lew Gordon on the board walk. It was the first time the three had had a word alone since the Cryng Wolf had passed into the hands of King-Gordon.
"Well," said Dusty King, "I've got her."
"Maybe," Gordon said, "this is our chance. Maybe now we can get the cow business on a sound basis, here in the north, and have some order, and decent law."
"You'll never get a 'sound basis' until Ben Thorpe is bust," Dusty said. "What law enforcement we get in the West is rotten through and through with office holders that Thorpe owns."
"Some day," Gordon said slowly, "Ben Thorpe has got to go."
"Some day? Lew, we've got him beat!"
"King's exuberant mood of victory was not to be dampened. "You want law and order?" he chortled. "We'll show 'em law and order!"
"That puts me in mind," said Gordon, "of a fellow named me here to give to you." He handed Dusty King a little twisted scrap of paper, torn off the corner of something else. Dusty untangled it, looked at it, and none showed it to the others. Five words were penciled on it in sprawling black letters:
IN GOD'S NAME LOOK OUT

"Who's this from, Lew?"
Gordon's lips moved almost soundlessly. "Dry Camp Place."
Roper knew that name, without knowing what lengths of outlawry he had brought Dry Camp Place, where he was today. Rewards backed by Ben Thorpe were on Dry King's scalp over half the West; probably it was as much as his life was worth to show himself in Ogallala now.
"Dusty King tossed it off with a shrug. "Oh—! I suppose Thorpe is getting drunk some place and bragging about what all he's going to do to me, when he catches up." Dusty's teeth showed in his infectious grin. "I suppose Dry Camp thought I ought to know about it."
"He's right," said Lew Gordon. "We do want to look out, all of us, all the time."
"We always had to look out," Dusty scoffed.
"It'll be more so now. There isn't anything in the world Ben Thorpe's people will stop at. Dusty's teeth showed in his infectious grin. "I suppose Dry Camp thought I ought to know about it."
"He's right," said Lew Gordon. "We do want to look out, all of us, all the time."
"We always had to look out," Dusty scoffed.

Enochs News

(Last Week's News) Mrs. Lathy Speck, and daughter, Elvadean, made a business trip to Muleshoe recently...

Mrs. Bates of Enochs has been ill this week. Little Miss Ann Lois Alford of Enochs was operated on for appendicitis in a Lubbock hospital...

Mr. and Mrs. W. J. Sullivan moved in their new home last Saturday. The Buha school closed Friday, May 30.

Most everyone is planting and replanting now after the big rains. Mrs. Joe Speck's sister has returned to her home at Rochester...

Miss Alice Marie Howell visited Miss Catherine Lee and Lenora Lee Thursday evening. Mr. and Mrs. Butch of Enochs and Mrs. Penn Ridding made a business trip to Muleshoe Thursday.

By Bessie Vinson There were 69 present at Sunday school last Sunday. The Rev. Building was here visiting her mother, Mrs. Cora Vinson and family.

Mr. and Mrs. G. T. Malby were in Muleshoe last Friday. Mr. and Mrs. Vernon Vinson and children visited in the West Camp community with her mother, Mrs. J. L. Herrington, last Sunday.

Mr. and Mrs. George Gross and son have moved to Lockney, Tex. Farewell Party Honors Mrs. Sparks

The mothers of the children in the primary department of the Wilson school, Maple, and Mrs. Clyde McCormack were hostesses at a farewell party and shower Wednesday, May 28, honoring Mrs. Sparks, Maple primary teacher and daughter, Nina Beth and LaMoine, at the home of Mrs. McCormack.

Refreshments were served to more than 30 patrons and the primary children, who were present to pay honor to Mrs. Sparks and a shower of more than 100 gifts was presented to the honoree and daughters.

Mrs. Sparks is moving to Progress, where she has been elected teacher for the fourth and fifth grades in that school. The patrons and many friends of Mrs. Sparks regret that she is leaving, but wish her success where she goes.

An old colored man got up one night in a revival meeting and said: "Brothers and sisters, you know and Ah knows dat Ah ain't been what Ah oughter been. Ah's robbed henroasts, an' stole haws, an' stole lies, an' got drunk, an' slashed folks w' mah razah, an' shot craps, an' cussed an' swore; but Ah thank de Lord dere's one thing Ah ain't nebbber done; Ah ain't nebbber lost mah religion."

Another lovely party honoring Mrs. Pierce was a breakfast given by Mrs. Charles Lenau at her home Friday morning. A large bride's bouquet of pink roses, mock orange and lilies of the valley surrounded by small bouquets of the same flowers with white satin ribbons leading to each plate, formed the centerpiece for the breakfast table.

Covers were laid for the honoree, Mesdames Margaret Ann Swanson, Lucille Farrell, John Smith, and Misses Norma Elrod, Holly Ann Bucy, Norma Faye Swanson, and Misses Mary Sue Osborn, Holly Ann Bucy, Betty Moeller, and Grace Churchill, who served dainty pink and white sandwiches, flower shaped cookies and nuts. Plate favors were miniature brides.

Plate favors were miniature brides.

Refreshments of mixed cookies, cake and punch were served to Mr. and Mrs. Stovall, Mr. and Mrs. E. C. Chiswood, and daughter, Grace, Mr. and Mrs. L. P. Bynum, Mr. and Mrs. H. L. Lowry, Royce Lowry, Mrs. H. B. Johnson, James Roy Johnson, Mr. and Mrs. E. J. Gully, L. C. Gully, Dyantha Swift, Tom Radney, and son, Thomas, Elizabeth Har- den, Vivian Guthrie, Mr. and Mrs. Tye Young, Pluma Whisenant, Mr. and Mrs. Byron Gwyn, and daughter, Joyce, Mr. and Mrs. Harold Mardis, and sons, Helen Jones, Mrs. M. V. Stovall, Mrs. Mattie Griffin, Raymond Evans, Mrs. O. A. Lambert, and daughter, Mr. and Mrs. D. C. Stovall, and son, David, Jr., Miss Bessie Vinson, Mr. and Mrs. W. G. Kennedy, and children, Stanley Kennedy, Elzada McMahan, Mr. W. B. Harlan, Mr. John Stovall, Mr. Davill Outley and Mrs. Cap Needham, and son.

Shower Given To Honor Stovalls Tuesday night of last week, a post-nuptial shower was given for Mr. and Mrs. F. B. Stovall in the home of Mr. and Mrs. Cap Needham, with Mrs. D. C. Stovall as hostess.

Mrs. W. G. Kennedy and Miss Elzada McMahan carried in the box of gifts and presented them to Mr. and Mrs. Stovall, who then opened them and expressed their thanks to everyone. Refreshments of mixed cookies, cake and punch were served to Mr. and Mrs. Stovall, Mr. and Mrs. E. C. Chiswood, and daughter, Grace, Mr. and Mrs. L. P. Bynum, Mr. and Mrs. H. L. Lowry, Royce Lowry, Mrs. H. B. Johnson, James Roy Johnson, Mr. and Mrs. E. J. Gully, L. C. Gully, Dyantha Swift, Tom Radney, and son, Thomas, Elizabeth Har- den, Vivian Guthrie, Mr. and Mrs. Tye Young, Pluma Whisenant, Mr. and Mrs. Byron Gwyn, and daughter, Joyce, Mr. and Mrs. Harold Mardis, and sons, Helen Jones, Mrs. M. Stegall H. D. Club Meets May 21

Wednesday, May 21, was club day. The club was to meet with Miss Gentry, home demonstration agent, at Mrs. Robert Adams', but owing to rainy weather, Miss Gentry could not be there.

Four members and one visitor were present, although the rain was pouring down. We had a nice visit with Mrs. Adams. Ice cream and cookies were served. Our next meeting will be with Mrs. Ernest Sneepe on June 4.

The club women presented a play, "Which Shall He Marry," May 16. A nice crowd was present. The club received \$14 as proceeds from the play.

Needlecraft Club Members Meet With Mrs. Wright Thursday afternoon of last week at a regular meeting, members of the Needlecraft club met in the home of Mrs. Jessie Wright.

Numerous kinds of needlework and visiting were enjoyed, after which refreshments were served by the hostess to the following: Mrs. Frances Robb, Mrs. Aleene Dyer, Mrs. W. M. McHorse, Mrs. Ellen Spence, Mrs. Ruby Troutman and one new member, Mrs. Maude Young.

Members of the club will meet at the home of Mrs. Ruby Troutman Thursday afternoon of this week (today).

Miscellaneous Shower Honors Recent Bride Mesdames W. C. Bucy, Connie Gupton, Ray Moore and Margaret Ann Swanson were hostesses at a miscellaneous shower for Mrs. Homer Pierce, the former Miss Florence Stone, Saturday afternoon at the Methodist annex.

In the receiving line were the hostesses and Mrs. A. F. Stone, mother of Mrs. Pierce, Mrs. Norma Elrod registered the guests. The bride's book, hand-painted by Miss Elrod, was her gift to the bride.

Mrs. C. S. Holland played while the guests were assembling and the music changed to the Bridal Song from "Lohengrin" as Mrs. Pierce entered. She was accompanied by Misses Holly Ann Bucy and Mary Sue Osborn down the long room to the gift laden table.

The bride theme was observed in the decorations of the tea table, which was laid with lace and centered with a gaily decorated scene wreathed with gypsophila and pink roses. White candles burned in silver holders.

Mrs. Jess Osborn and Mrs. Charles Lenau presided at the tea service, assisted by Mrs. Swanson and Misses Mary Sue Osborn, Holly Ann Bucy, Betty Moeller, and Grace Churchill, who served dainty pink and white sandwiches, flower shaped cookies and nuts. Plate favors were miniature brides.

Another lovely party honoring Mrs. Pierce was a breakfast given by Mrs. Charles Lenau at her home Friday morning. A large bride's bouquet of pink roses, mock orange and lilies of the valley surrounded by small bouquets of the same flowers with white satin ribbons leading to each plate, formed the centerpiece for the breakfast table.

Covers were laid for the honoree, Mesdames Margaret Ann Swanson, Lucille Farrell, John Smith, and Misses Norma Elrod, Holly Ann Bucy, Norma Faye Swanson, and Misses Mary Sue Osborn, Holly Ann Bucy, Betty Moeller, and Grace Churchill, who served dainty pink and white sandwiches, flower shaped cookies and nuts. Plate favors were miniature brides.

Muleshoe Library News

"The Longhorns" by J. Frank Doble, is one of the latest books received at the library, and for those who have read other books of this famous writer no introduction is necessary.

"The Longhorns" is a tribute to that hardy breed of cattle that made Texas famous back in the trail herd days. The Longhorns were more than a breed—they were a race.

It was an old saying that all the meat from the hind quarters of one of these steers could be packed into its horns. But old-timers also said that it was "prime eatin'."

Mr. Doble tells of the Spanish conquistadores, who brought their cattle with them; of ranching in the turbulent Colonial times; of abrupt justice of the rope. He paints a word picture of the awful stampede, with riders going down beneath the battering hooves of the fear-crazed longhorns.

This race of cattle made history — Texas history, and there is none more absorbing. The writer was raised in the brush country, where the longhorn made his last stand. No historian or naturalist has ever so related an animal to the land, to men and to history.

The Best Food for the Most People At the Lowest Cost . . .

They went foraging sometimes—those soldiers of the American Revolution whose rations consisted only of "beef, rice, biscuits, milk, peas and beer," according to records in the office of the Quartermaster Corps in Washington. For meals were often skimpy for hungry young men and almost always monotonous in a time when supplies were limited by the season and crude methods of transportation.

A soldier in the army commanded by General Washington would rub his eyes if he could be at mess in any of the camps where American boys are trained today. Golden oranges from tropical lands, fresh peas although it is only April, lettuce and tomatoes and half a fried chicken apiece with potatoes and gravy and ice cream for dessert. What is this anyhow? A banquet or a soldier's dinner?

Much has happened in the 165 years since the Continental Army marched to victory. A pioneer people has become a great industrial nation and the food industry, through new methods of preservation, storage and trans-

portation has reached a point where we are better fed than any people have ever been before in the history of the world—both in our homes and in the training camps.

Fast refrigeration trains and trucks rush the products of Florida and California to the cities of the North and East so that we can all have green vegetables and fresh fruit all winter long. Other foods are "quick frozen" at the point of origin, with all of their flavor as well as their food value intact. Still others are put up in tin, or glass or cellophane for indefinite keeping or are stored in great electric refrigerator plants made possible by another phase of industry.

No one single thing has made the food industry of the United States the most efficient in the world, but a series of developments brought about by men and women working diligently under a system of free enterprise to achieve the results they believed were possible. Technicians in the great commercial laboratories, experts in the canning companies, fruit and vegetable growers and

livestock men, transportation specialists have all striven to bring the finest products of the gardens, farms and ranches to the largest number of people at the lowest possible cost. That, in a nutshell, is the story of what a free industrial system is able to achieve. And in sharp contrast between the limited rations of the army that won for us our independence and the balanced diet of the army of 1941 that is making America strong, we have a clear picture of what has happened. The end is not yet as each month brings still more developments in the keeping and transportation of foods so that we women, as well as Uncle Sam, can go on to still better, easier, more completely nourishing meals for our families.

TEXAS REGISTRANTS IN TRAINING

State Selective Service Headquarters recently announced the Army's sixteenth and seventeenth calls on Texas' 351 local boards for 2,319 trainees to be delivered for induction during the period June 11, and on the seventeenth call 2,103 white men will be inducted between June 12 and June 19.

When these two calls have been completed, Texas will have 29,704 men in training under the Selective Service Act. Texas is credited with 825,429 men registered last October, and the quota reassigned by the War Department for the first year of the program ending June 30 is approximately 33,213 trainees.

General Page said that Texas leads the nation in number of 6,540; calves, 20 cars to 813; men furnished the Armed forces, sheep 253 cars to 541.

In addition to the 29,704 men called under Selective Service, Texas has more than 80,000 men—all volunteers serving the Army, Navy, Marine Corps, National Guard and Coast Guard.

FIRST CAR OF WHEAT SHIPPED FROM CROWELL

The first car of wheat from an anticipated bumper Texas crop was shipped over the Santa Fe Railroad last Saturday from Crowell to the Lone Star elevator at Fort Worth.

The car originated from the Farmers Co-op elevator. The wheat, according to reports, tested 60 pounds to the bushel out of a field with an average yield of 15 bushels per acre, which is considered a good average for that territory.

Railway officials advise that Texas wheat harvesting will be in full swing by June 7.

Government officials are urging shippers, grain and elevator men to cooperate with the railroads in expediting loading and unloading of all cars.

HOG SHIPMENTS SHOW GAIN OF 31 PERCENT

AUSTIN, Tex., June 2 — A gain of 31 percent in hog shipments over a year earlier marked the Down in San Antonio, Tex. Press Association and other newspapermen and others from all over the state gathered in LaGrange last Sunday to do honor to Maestro Ben F. Harigel, through its chair of commerce helped to arrange the big event, which included a delicious dinner and a complete program, both entertaining and enlightening. The LaGrange committee consisted of C. G. Frazer, E. F. Siebel and C. G. Robson. A special anniversary edition of the Journal will appear this week. It deals mostly with historical data of the area during the half century.

Total livestock shipments declined 4 percent to 9,616 carloads, 413 cars to 813; men furnished the Armed forces, sheep 253 cars to 541.

Zeke Says

Nugent Ezekiel Brown

AUSTIN — (Special) — This has been a momentous week in the matter of legislation, both state and nationally speaking. At least, from the national angle, the President's new proclamation calling for an all-out emergency was a momentous piece of news. Under that proclamation, the President in the coming weeks will likely make many moves that will mean much to these United States.

In Austin, the 47th legislature is getting fast into the habit of overriding the veto of the governor on most any kind of legislation that falls into that category. About the weekend, it looked as though the legislature is still at least two weeks from adjournment.

O'Daniel Opens at Waco

In the senatorial race, all of the major candidates are really getting warmed up while most of the people of the state pay little attention to it. Governor O'Daniel was scheduled to make his opening Monday night at Waco, where he opened his two campaigns for governor. That he would be a large crowd was not doubted by anyone, least of all the Governor's opponents in the race which will end on June 23. Gerald C. Mann was claiming, at the week-end, that a big majority of members of three service clubs in Beeville, with Martin Dies taking second place, according to Mann's headquarters. Lyndon Johnson was in East Texas last week, telling all who heard him that "you have heard my president confirm it," meaning that he (Johnson) had first warned of what the President was due to say in the latter's fireside chat last week. Martin Dies still looks like the second strongest man in the race. He made a speech in Austin one night last week and made some strong converts to his cause. Maverick Defeated for Re-election

Down in San Antonio, Tex. Press Association and other newspapermen and others from all over the state gathered in LaGrange last Sunday to do honor to Maestro Ben F. Harigel, through its chair of commerce helped to arrange the big event, which included a delicious dinner and a complete program, both entertaining and enlightening. The LaGrange committee consisted of C. G. Frazer, E. F. Siebel and C. G. Robson. A special anniversary edition of the Journal will appear this week. It deals mostly with historical data of the area during the half century.

Friend Honor Ben F. Harigel

Members of the South Texas Press Association and other newspapermen and others from all over the state gathered in LaGrange last Sunday to do honor to Maestro Ben F. Harigel, through its chair of commerce helped to arrange the big event, which included a delicious dinner and a complete program, both entertaining and enlightening. The LaGrange committee consisted of C. G. Frazer, E. F. Siebel and C. G. Robson. A special anniversary edition of the Journal will appear this week. It deals mostly with historical data of the area during the half century.

Bills Still Pending

There are many bills still pending business before both houses in Austin with the oil proration bill being one of the most important. Other bills not yet passed by both houses include a number of the various appropriation bills that must be taken care of before the legislators go home. It looks now as though the legislators have about decided to play a game with the governor and wait to see whether or not he will be elected to the Senate and, if so, if he will resign so Coke Stevenson can become governor. If Coke once gets in the chair, legislators believe he would call a special session to consider any unfinished business. In the meanwhile, the two houses are "marking time" mostly on their five-dollar a day, just sort of watching and waiting. The readiness with which they pass bills over the governor's veto indicates something, the little feeling that they would like to see the governor resign. But then, supposing the governor does not get elected to the senate, then he will still be governor. And the fight would really be on between him and the legislature.

Auto Vacuum Aids Angler.

To many the call of the open road also means the call of the open water. The automobile and good roads have brought thousands of beautiful lakes and streams within reach of the vacationist or the week-ender. Fishing seasons throughout the country are opening, and these young people were among the first to seek their favorite stream. They carry their own boat, "lasher" the top of their Chevrolet, and held securely with a new vacuum-grip holding device actuated by vacuum power from the motor. Note the tube connecting boat rack with motor vacuum.

Safest Drivers In Texas Chosen

AUSTIN — The Texas Motor Transportation Association selected Texas' Safest Truck and Bus Drivers at its Seventh Annual Convention held in Dallas last week. John Odum, with a record of 1,450,000 miles during 14 years of driving without an accident was selected as Texas' safest truck driver. Mr. Odum is employed by the Red Ball Motor Freight Lines. Earl F. Hardin, who has been driving for the Panter Bus Line in Uvalde for 14 years, qualified as Texas' safest bus driver with a record of 1,892,940 miles without an accident. Jimmy Brodnax of Houston, employed by Central Freight Lines, was selected as Texas' champion truck driver for the second year. He will represent Texas at the national contest to be held in Madison Square Garden in New York in October.

Installation For Eastern Star Officers Tuesday

Tuesday evening of this week private installation of new officers of the Eastern Star was held. The meeting was opened with the regular meeting being conducted, after which the following officers were installed: Mrs. Mary Hart, associate matron; R. J. Klump, worthy patron; Howard Carlyle, associate patron; Mrs. Elizabeth Gardner conductress; Mrs. Emma Dee Cox, associate conductress; Mrs. Opal Brooks, marshal; Mrs. Bill Mathis, chaplain; Mrs. Dori Taylor, organist. Star Points were: Mrs. E. Cox, Ada; Mrs. Jackie Ruth; Mrs. Melzine Elliott; Mrs. Opal Booth, Martha; Naomi St. Clair, Electa. Miss Elizabeth Hardin, being worthy matron, was the installing officer, and Mrs. B. Mathis served as installing marshal. Other officers of the local chapter will be installed at the regular meeting. Past matrons of the chapter presented Miss Harden with electric iron, and the chapter presented her with a beautiful Eastern Star ring. She was recipient of a sash, a book from her officers of the year. Retiring officers were each presented with key rings bearing Eastern Star emblem, gifts from Miss Harden. The hall was appropriately decorated for the occasion with fragrant flowers. Refreshment of ice cream a cake were served by the worthy matron and worthy patron.

6 CARS DIED IN OVERHEATED DEATH VALLEY TO PROVE THAT YOURS CAN LIVE LONG

New Oil a Life-Giver. 5-quart fill—None Added—Lasted all of 13,398 Miles . . .

more than Twice the mileage averaged by 5 other big-name oils in fiendish Destruction Test . . . Impartial . . . CERTIFIED

THIRST killed gold-feverish Forty-Niners in Death Valley. You can stand there today on our Hemisphere's bottom, 279 feet below sea level. And some of the worst heat on U. S. Weather Bureau records will be drying you up.

... America's hotspot! . . . where 6 identical everyday cars scorched along, testing 6 different motor oils, till 6 new engines were junk. Every condition was the same for all. Qualified authorities eyed every move. Speed: 67 miles an hour for all. The Referee had bought 5 of the oils right off the market; millions know their names well. The other oil was decidedly new. And this new oil that authentically delivered more than twice the mileage averaged by the others is named

CONOCO Nth MOTOR OIL

Now on Sale here for Your Car
How could one fill of this popular-priced Conoco Nth oil keep lasting—without one added drop—for an official total of 13,398.8 miles? How could Conoco Nth oil outlast them all by 5,683 miles or more, even outlasting one "rival" by 8,268 miles! . . . Certified.

New Synthetic in Conoco Nth

You know of vitamin synthetics . . . man-made . . . replacing Nature's life-givers sacrificed in some modern food processing. Similarly, the latest refining methods steal life-giving elements from motor oils. But more than making up for that today—in popular-

priced Conoco Nth oil—is Thialkene inhibitor . . . man-made. (Conoco Patent 2,218,132.) It inhibits or checks the effect of foul leftovers created by the normal engine explosions. Thus Conoco Nth stays more like its own good self . . . helps the engine keep fit—good way to save quarts.

A triumph matching famed Conoco OIL-PLATING

Another wondrous synthetic—long in use under the famed Germ Processed oil patent—still makes Nth oil give your engine OIL-PLATING . . . lubricant that can't all quickly drain down from inner parts. Instead, it's able to stay plated up . . . on guard against wear in advance, while you are using Conoco Nth oil. In addition you get the life-giving aid that foiled Death Valley . . . that eclipsed other oils tested . . . that made one 5-quart fill of new Conoco Nth last 13,398 miles. Certified.

That's like a mad extreme—beyond the utmost allowed by authorities on the

subject. You'd never make your own car stand such proving-ground torture. But you want as wide a margin of engine protection and oil economy as your money will buy this Summer, and Conoco Nth has nailed up plain evidence. Ask today for Conoco Nth at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

CERTIFIED: I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. M. J. Jellin
Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

IMPARTIAL broken-in alike, after engines had been taken apart for the Referee, to check uniformity. All cars tuned alike. Same desert route for all. Handling evened up by alternating drivers. One 5-quart fill per car and no more . . . engines under lock.

LOCALS

Virgil Webb of the Needmore community was in town last Saturday, calling at The Journal office for a short visit. Virgil and Mrs. Webb had recently been on a trip to the Rio Grande country with the intention of doing some fishing. However, he stated that excessive rains had ruined the sport at that time, so there were no tall fish stories to tell.

Carl Elrod of Las Cruces, New Mexico, has been visiting in Muleshoe this week with his grandnephew, Mrs. Mills Barfield. Carl is on the staff of the Las Cruces Sun-News.

Among those from here attending the Pioneer Celebration in Clovis this week were: Mr. and Mrs. Buck Woods, Mr. and Mrs. Ray C. Moore, Mr. and Mrs. Chas. Leman, Mrs. George Johnson and daughters, Mr. and Mrs. Toad Waggon, Mrs. Gale Holt, Mrs. Arthur "Bits" Holt and daughter, Mr. and Mrs. Richard Moore, Miss Jewell Faith, Miss Edith Barber, Edsel Bynum, Mayor R. L. Brown, S. C. Beavers, Mr. and Mrs. W. H. Kistler, Merle Kistler, Mr. and Mrs. H. A. Douglass, Mr. and Mrs. W. H. Awtrey, Mr. and Mrs. Roland Bigham, Mr. and Mrs. Charles Holden and daughter, Mrs. B. W. Gwyn, June and Edward Gwyn, Mr. and Mrs. Tye Young, "Babe" Cooper, Mrs. W. E. Young, Mr. and Mrs. Homer Millsap, Mr. and Mrs. Clarence Jordan, Mack Bell, Mr. and Mrs. Guy Sterling, Herman Sterling and John Hill-dreath.

Fifth Anniversary Program Announced For Nation-Wide Crocheting Contest

Exquisite Decorative Doilies are Crocheted

Local women are invited to participate in the Fifth Anniversary Celebration of the annual National Wide Crochet Contest, it was revealed this week with the announcement that local, county and state fairs will again act as preliminaries to the famous national competition. As features of the Anniversary program, special new divisions of entry have been created for this year, and special awards will be made. More than 400,000 women are expected to compete.

As in the past, the contest will name the National Crochet champion, the crocheter whose work is judged finest in workmanship and design over thousands of competitors. Articles crocheted in mercerized crochet cotton, started since January 1940, and receiving first premiums at 1941 fairs will automatically become eligible for the final judging.

Forty-four "making crocheters" will also be chosen in addition to the grand national winner, and will share in the \$1,450 prize money to be awarded. The national Crochet champion herself will receive a gold crochet hook and \$250 in cash prizes, and will travel to New York as the guest of the contest to receive her awards. If she comes from within a radius of 100 miles of New York, she will receive an alternate trip to Bermuda.

In recognition of the Anniversary Celebration, women becoming eligible for the final national judging this year, will receive a gift, in the form of a distinctive lapel pin. All crocheters who have become eligible each year, in the five year history of the contest, will be presented with attractive pencils, inscribed with the contestant's name.

Local crocheters, it is felt, will be greatly interested in the new divisions of the contest, which have been created for the Anniversary program. A special \$50 award will be made for the best

Condemned Prisoner: Warden, I need exercise.
Warden: Exercise? What kind of exercise?
Prisoner: Oh, I just want to skip the rope.

Man (at the gate to a little boy): "Is your mother home?"
Little Boy: "Say you don't suppose I'm mowing this lawn because the grass is long, do you?"

MANN FAMILY AT HOME

In the living room of their attractive Austin cottage, the Gerald C. Mann family is pictured grouped around the piano as Mrs. Mann plays. Attorney General Mann turns the music, and the children, Lola Ann and Gerald, Jr., watch and listen. Lola Ann, who is eight years old, is also an accomplished musician and plays for her "Pop" when he visits Austin during his campaign for the United States Senate.

Where's the best place to choose your new car?
ON THE ROAD!

WELL MATCH the "showroom value" of the Ford with anyone... but if you want to know how great a car this is, take one out on the road!

TEST THE PERFORMANCE... IN ACTION. There never was another low price engine like this 90 horsepower Ford V-8. Take it out in traffic—then step out on the open road—challenge the toughest hills. Draw your own conclusions!

TEST THE RIDE... IN ACTION. Ride on the pavement, then ride the roughest road you know. You'll find the new Ford ride is the kind of ride you like. Smooth where the going's good. Soft and steady over the bumps.

TEST THE ROOM... IN ACTION. Measurements show

this Ford greatest in its whole field in actual passenger space. A ride will show what this means. Bigness counts and here it is!

TEST THE VALUE... IN ACTION. Stop with the biggest hydraulic brakes anywhere near the price. Rest your toe on the pedal of a fine-car type of semi-centrifugal clutch. Flick through the gears with the easy, silent kind of finger-tip shift that high-priced cars use.

90 HORSEPOWER - V-8 SMOOTHNESS

FORD HAS THE QUALITY FEATURES
V-8 POWER—90 smooth horse power. There never was a low price engine like this before.

NEW BEAUTY—When you look at the smooth flowing lines you see one of the few cars with really up-to-date styling this year.

A NEW RESTFUL RIDE—On the new Ford "Slow Motion Springs." A soft, quiet ride wholly new this year.

EXTRA VALUE—New ease of control with positive mechanical, fine-car type shift—extra-big hydraulic brakes—and the famous Ford semi-centrifugal clutch.

Assembled in Texas by Texas Workers

Registration Day For New Group July 1

A second Registration Day for Selective Service will be held throughout the nation on July 1 for all American male citizens who have not previously registered and have reached the age of 21 years on or before that date.

President Roosevelt ordered the registration under the Selective Service Act Monday, saying in his proclamation that another registration is "required in the interests of national defense."

Selective Service officials estimate that approximately one million men will be required to register for service on that day.

Registration will take place in the United States proper, in Puerto Rico, Hawaii, and Alaska, and every male citizen who has become 21 years of age since the last registration day on Oct. 16, 1940, will be required to comply with the regulations.

Local draft boards throughout the United States and territories will be in charge of this second registration, selective service officials have announced.

According to plans, a new national lottery, similar to that held last fall, will be conducted to determine priority for service among the new registrants. The new registrants would then be added to the bottom of the present list of men available for service to await call and classification by the local boards.

Authorities have expressed the opinion that many of the young men registered in July may be summoned to the army before the end of this year, despite the fact that men registered last fall will come ahead of them on the priority lists. This opinion is based on the fact that many of the 16,500,000 men registered last fall are employed in essential industries or deferred for other reasons.

The President, in his proclamation, urged employers throughout the nation to arrange to allow their employees time off for registration when the day arrives.

Commencement Exercises Held At Lazbuddy

Thursday evening of this week, commencement exercises will be held at Lazbuddy high school auditorium to which the public is cordially invited. The theme of the program will be "Our American Way" and the speaker will be the

Registration followed by the invocation by Mr. L. L. Stone.

An address, "Education in American Democracy," will be given by Miss Marguerite Huddnail, after which a song by the senior girls will be given.

Cordell Brown will deliver an address on "Civic Responsibility," followed by a talk on "Learning to Live Together," by Jimmy Seaton.

The salutatory, "Tolerance," will be given by R. B. Seaton.

The valedictory, "An Appreciation of American Government," will be presented by Merl Gough, who is the highest honor student of the graduating class.

G. C. Tiner, superintendent of the Lazbuddy school, will present certificates of honor, and E. L. Caddell, principal, will present diplomas to members of the class.

"Is old Angus a typical Scotsman?"
"Is he? He's saved all his toys for his second childhood."

Texas Wheat Allotment Set

COLLEGE STATION, June 2.—The Texas wheat acreage allotment for 1942 has been set at 3,748,141 acres, B. F. Vance, state administrative officer in charge of the AEA has announced. The allotment, which is 505,194 acres smaller than the 4,253,335 acres allotted the state for 1941, was sent to the state AAA office by the United States Department of Agriculture in Washington, Vance said. Proportionate cuts in acreage were given other states he added, since the national acreage allotment was cut from 62,000,000 acres to 55,000,000 acres.

Doctor: "I don't like the looks of your husband."
Mrs. Contractor: "I don't like his looks either, but what can I do about it?"
Buy it in Muleshoe.

Make Every Farm a Factory Every Day of the Year

Outlook Much Better

The Outlook is much better for those who diversify where possible. They have found out that a "One Crop" idea does not pay. The farm "sidelines" of cream, eggs, poultry often provide a weekly pay check. It counts in paying the bills of the family. Observation has taught all of us that the ground silo, cow, sow and hen must have a place on the well regulated farm. It forms the money crop when field crops fail to come up to the standard.

China Seeking Fliers In U. S.

WASHINGTON — The army is permitting trained combat pilots and mechanics to resign from the air corps to volunteer for wartime flying in China.

Authoritative sources disclosed this week that the move is part

of a new Chinese government program to obtain skilled American fliers and aircraft technicians for service on commercial airlines and, possibly, for military duty against Japan.

The war department refuses to discuss the matter, but other quarters said details of the plan were arranged between the state department and the Chinese embassy.

One source said that a number of fliers and mechanics already had signed up for China. He said the men would gain experience under actual combat conditions which, is impossible to obtain in training.

The airmen, who will retain their American citizenship, will be subject to recall for service with the air corps when and if needed.

Mrs. R. L. Brooks and daughter, Bonnie, were Lubbock visitors Saturday afternoon.

Meet John Doakes, Typical Motorist

Meet Mr. John Doakes, the typical American motorist. He is between 40 and 45 years old, has a wife and two children, a boy and a girl. He works and lives in a small community of less than 5,000 inhabitants, and the value of his home and farm is between \$4,500 and \$4,800. The chances are 90-50 that he owns the property himself.

Although he is self-reliant and self-supporting, his income is relatively low, only \$20 to \$30 weekly. His bank account shows a balance of \$500, and the face value of his insurance policies show a total of \$900.

This is the picture of the typical American motorist as revealed by studies of the American Petroleum Industries Committee.

The Doakes family rides in a closed car that is between four and five years old and is now worth about \$225, although it was worth more when it was bought in the used car department of the local automobile merchant more than a year ago. The fact is that the Doakes family has never bought a brand new car, believing they could get more transportation for their money by purchasing their vehicles second-hand.

The Doakes family drives about 8,500 miles a year. Most of this driving is done during school and recreational periods. Only ten percent of the trip is for work, ever, are farther than 30 miles from home.

Like all Americans these days, the Doakes family is becoming tax conscious. The federal and state gasoline taxes they pay each year on the 650 gallons of motor fuel they use totals \$35.75, while their license plates and drivers licenses cost them \$12.50 more. In addition, they paid federal taxes on lubricating oil, tires and tubes, parts and accessories, so that when the family budget was closed at the end of the year, the Doakes family discovered that their automobile taxes had amounted to almost \$50.

DEFERMENT FOR SKILLED WORKERS TO BE ASKED

Gen. J. Watt Page, State Selective Service Director, urges the cooperation of all Texas local boards to make certain that no man is called for direct military training who is more useful for national defense in civilian occupation.

Stressing the need for this careful selection, General Page called attention to the recent announcement by National Selective Service Headquarters that the Office of Production Management and other national defense agencies report increasing shortages not only of skilled workers, but also in vital professions. He cautioned local boards against calling men needed in factory or field and concerning the necessity of maintaining an adequate reservoir of professional and technical specialists by permitting promising students to complete professional training.

"While the recruitment of a large peacetime Army is essential to the national defense," General Page said, "it is equally important that there be no interference with the production of defense supplies and material. We must arm, feed and clothe the military forces of democracy and we must also maintain the morale of the civilian population by protecting public health and general welfare. To do this, we must make careful and intelligent investigation of every registrant to be sure in each case that a call to military training will not interfere with equally important

civilian work for national defense."

Selective Service regulations with respect to occupational deferments, General Page declared, have the purpose of guiding local boards to three major results: (1) Prevention of avoidable shortages of necessary workers in the nation's program for defense production; (2) Protection of the national industrial training program by deferment of individuals when there is evidence that they are "in training or preparation" for an occupation or employment necessary to the maintenance of "national health, safety or interest"; and (3) Anticipation of possible exhaustion of pools of highly skilled workers not now employed in defense activities but probably necessary in the near future for expansion of defense production, when such men "but for a seasonal or temporary interruption would be engaged in such defense activity."

Intelligent deferment of registrants must also include students in certain specialized and technical fields, General Page declared. He pointed out that recent studies made by the Office of Production Management have shown the supply of manpower is either "dangerously low," or there are indications of shortages in the near future in seventeen professional and technical fields.

The eight in which the more critical situation exists are: Civil Engineering, Electrical Engineering, Mining and Metallurgical Engineering, Mechanical Engineering, Chemistry, Medicine and Dentistry. The other nine are: Agricultural Engineering, Surveying, Pharmacy, Physics, Biology and Bacteriology, and four branches of Geology (Geophysics, Meteorology, Hydrology, and Cartography).

Students in these fields should be deferred, General Page said, "so long as they continue to be necessary men in preparation or training for activities necessary to national interest. Such deferments, he emphasized, must be made individually under the "necessary man" provisions of Selective Service regulations and should include students who have been deferred until next July 1, as well as those still to be classified.

TEXAS' 1941 TOMATO CROP IS LATE

COLLEGE STATION, June 2.—Texans will eat their home grown tomatoes later than usual this year, according to a horticulturist, reports that rain in the Rio Grande Valley has delayed harvesting and disease has caused some damage to plants. Rio Grande tomatoes are usually the first to market the first week in May, but it was mid-May before shipping began this year.

Tomatoes in the Yoakum area will also be delayed because of unfavorable weather this year, Robsrook says, and it is expected the crop will be ready for market after the latter part of May. Plantings in southeast Texas are rather light, but excessive rainfall has retarded growth and shipments are not expected to begin until June. The Jacksonville area also had heavy rains and the peak of the tomato movement is not likely to be reached before mid-June. In the northeast section near Avery and Bogata a large acreage was planted and if favorable weather continues the quality should be excellent.

Jacksonville and northeast Texas as growers have found a ready market in canneries in recent years, producers selling their ripe and pink tomatoes for canning and shipping the remainder to ripen and reach the market. The total acreage of tomatoes in Texas has increased regularly during the past three years, and, although this year's plantings equals that of last year, the crop is likely to be smaller on account of unfavor-

able growing conditions. The 10-year average acreage for the state is 37,000 but in 1939, 52,000 acres were planted. Robsrook suggests that growers put in acreage late acreage to sell to regional canners where available. However, those undertaking late plantings should not stake the tomato plants as is commonly done in the east Texas section. Where plants are tied upright the fruit is likely to suffer sun blistering. The suckers should be allowed to grow on the plants to provide shade for the tomatoes which will be harvested during July.

TIME COMING WHEN EGGS WILL BE SOLD BY GRADE

COLLEGE STATION, June 2.—The time will come when eggs will be sold in Texas according to government grade.

In making this prophecy, Myrtle Murray, extension service specialist in home industries, points out that 10 states already have made grading compulsory. She believes the ideal method of marketing eggs would be for the producer to deliver his eggs to a central place where they could be candled and graded by an expert, then sold by grade according to grade. This means the best eggs would draw a premium price.

Eggs are not sold in sufficient volume in many sections of this state to justify the expense of employing licensed graders.

The United States Standard is used as a basis for grading eggs at many of the large terminal markets in the country. Under this plan, eggs graded by a licensed operator, are placed in sealed cartons with certificates of quality approved by the Agricultural Marketing Service. Not only the grade, but the date of grading, and the size of the egg are given on the certificate. Size is important, Miss Murray says. A dozen eggs should be uniformly large, uniformly medium or uniformly small, and all should be fairly uniform in shape. Color is least important, but all white or all brown eggs are more desirable.

Care is an important factor in maintaining the quality of eggs. They should be gathered in a wire basket and kept in a cool place where there is a good circulation of air. This helps prevent deterioration. Eggs should be gathered at least twice daily and marketed two or three times a week. Poultry specialists of the A. & M. college extension service have prepared material on the grading of eggs during summer months, and copies are obtainable from the office of county extension agents.

PRESSURE COOKERS ARE IMPORTANT DEFENSE TOOLS

COLLEGE STATION, June 2.—Whether farm women realize it or not, their pressure cookers are important tools for national defense.

Texas farm women this spring can put their pressure cookers to work in an "all out" drive for better health. In addition, other pressure cookers are owned by schools, counties, community canning plants, and welfare agencies, says Grace I. Neely, specialist in food preservation for the A. & M. college extension service. Usually pressure cookers cost from \$9 to \$15, but many farm women say they pay for themselves several times because they save fuel, spoilage and time. Families with large food budgets need not only efficient canning equipment but steady producing gardens if they are to keep their pressure cookers at work full time. In some Texas counties, the specialist says, home demonstration club women are raising a surplus of four-pot pressure cookers which will be canned for school lunch projects.

Poultry, beef, pork and fish, as well as fruits and vegetables, can be canned safely in a pressure cooker. If homemakers follow directions, they can have a safe food supply with a minimum amount of spoilage, for the temperature under steam pressure canning is higher than in open-kettle boiling, and it kills bacteria.

What most families like best about pressure cookers is that they add pars of peas, beans, carrots, corn and other things to their storage shelves — the kind of non-acid vegetables they could not safely can before, and the kind that changes tiresome and deficient diets to balanced diets.

PRAIRIE CHICKENS ARE HARD HIT BY FLOOD

Texas lost practically its entire crop of the Attwater prairie chicken when flood waters in Colorado and several other south central Texas counties swept away the nests of the birds. It is reported to the executive secretary of the Game Department.

Prairie chickens, once very abundant in Texas, are now so scarce that the state legislature recently passed a bill maintaining the present close season on the birds. Texas has two varieties of the chickens, the Attwater, found on the coastal plains and the lesser prairie chicken, which is found in a few counties in the Panhandle.

Destruction of the nesting areas of the prairie chicken is the biggest cause of their decline in number. Cotton and other crops now grow where the chickens once thrived in the Panhandle, while the rice acreage is increasing each year in south Texas and the range of the birds is extremely limited. It is not considered likely that Texas will ever have a long open season on the birds, although it is barely possible that the Game Department will be able to restore the birds to a number sufficient to allow a very short season eight or ten years from now.

At a particularly loud clap of thunder a lady walking along a London street involuntarily and visibly started. "It's all right, lily," said a passingurchin. "It ain't 'tiler, it's Gawd."

Motor Service Co
ARCH B. POOL, Mgr.

"CARE WILL SAVE YOUR CAR"

This has been our slogan for many years. We have earnestly tried to impress this on the minds of the operators of motor vehicles. We know from experience that a greater percent of the repair expenses could have been avoided by proper care and maintenance. At this time it is even more important than ever before. The manufacturers of parts and supplies for all kinds of motor equipment are most loyal supporting the National Defense Program with their manufacturing facilities, and it is going to be very difficult to obtain parts to make repairs on our automobiles, trucks and tractors; in fact there is already a shortage of many items. Therefore, it becomes necessary for us to try to take the best of care of our equipment so that we may avoid loss of valuable time caused by breakdowns. Most every operator of motor equipment knows the importance of proper care if he will only stop and think.

Why abuse your car or truck by careless neglect when a little time and a small amount of money spent for checking and lubrication will prolong the life of that car or truck and avoid loss of valuable time. Why not think this over and see if you are giving your car, truck or tractor the care it deserves. Good Lubrication, Clean Oil, Sensible Handling—Again we say:

"Care Will Save Your Car"
