Masons Observe Washington's Birthday

Masons and their wives were present Monday evening at the Masonic Hall to observe the Washington Birthday program. There were more than 100 members of the order and their wives present, and everybody enjoyed a good time.

Members of the Eastern Star organization gave their floor drill at the beginning of the program. The Spur Chapter, O. E. S. is one of the best in West Texas and they exhibited the floor drill in a fine way.

At nine o'clock everybody was at ease to hear the address of the President of the United States. Everybody present seemed in harmony with the President's discourse. The President outlined the war conditions and stated that the government did not have anything to keep from the people, but there are many things to keep from the enemy. He said, "Japan does not know how many airplanes were destroyed at Pearl Harbor, and I am not going to tell them." Then he continued that we had destroyed more planes for Japan by far than Japan had destroyed for us.

The President outlined that the most important thing for our country now is "uninterrupted production". He said that the Nazi countries have reached the peak of their production while we are just getting started. He stated that three things are necessary:

1. Don't stop work for a day.
2. No special gains or special advantages to any group.
3. Be willing to give up all conveniences if needed.

The remainder of the program for the evening was the discussion of Washington from three angles. First, the Life of Washington as a Christian. Rev. H. L. Burnam related a number of accounts that were proof of Washington living a clean Christian life.

The second topic was Washington's difficulties and leadership in the Army. This was discussed by Martin Pope who related various accounts of the difficulties which Washington met and his ingenuity in overcoming them. The greatest feature about Washington was, that he did not give up, but always carried through with his plans.

Rev. H. L. Thurston discussed Washington as a Mason. He was made a Mason at Fredericksburg Lodge, starting the work in his 21st year. He afterward became Worshipful Master of the Lodge at Alexandria Va. and was serving in that office when he became president of the United States.

One of the best numbers on the program was given by Lester Ericson, a Past Master of Spur Lodge. He explained in a monitory manner the working tools in Masonry. Then he gave a very fine lecture on the Bible, emphasizing that the Bible is always found upon the altar in the lodge room and is to be the rule and guide to all Masons. Then he gave a very fine address telling what the Bible will do for people if they will read it and study it as they should.

Other features of the program were the singing of sacred songs, and the meeting closed with a benediction.

Refreshments of cherry pie and mint tea were served to all present.

William King Perry (Uncle Bill to his many friends) passed away in Lubbock Tuesday afternoon about two o'clock. The nurse phoned the Doctor at his home to rush back and Uncle Bill was gone when he arrived. An acute heart attack had taken him out.

To My Friends of Spur Territory

I am taking this opportunity of bidding you goodby, as I was not able to see all of you personally as I would have liked. I am off to the United States Army, but before I go, I want to tell all my friends that I have enjoyed working among you the past 16 years. I hate to leave—but we all do. We must all fight for that which our Country stands. Our forefathers made it safe for us to live in, and it is our duty to preserve our Freedom. I am as willing to go as were the ones who have already gone. I wish to thank everyone for your kindness in the past, and I hope to see all of you when I return.

Very sincerely yours,

BUY U. S. DEFENSE BONDS—Home Nursing Class

Those in charge of this work have been asked many questions in regard to when these courses will begin. The directors in the work have authorized the statement that the work cannot begin until the text books to be used have been received from Red Cross headquarters at St. Louis. Also, those who have agreed to teach this work, even though they be registered nurses, must have the approval of Red Cross officials at St. Louis.

In answer to the many questions asked, all that the leaders in the work can say is, that just as soon as the text books have been received and the instructors are approved by the Red Cross organization, then will the work start in Red Cross home nursing training.

More help is needed in conducting these home nursing courses. If there be any registered nurses in the county, or if there be people who have been registered nurses and are not following the profession now, will you be kind enough to make a report to either Mrs. Martin Pope or Mrs. M. H. Brannen both at Spur. Do this at once, please.

The County Home Demonstration Agent's office has been moved from Spur to Dickens where an office space has been arranged. This office has been in Spur ever since it was established several years ago, the people of Spur furnishing office space free to the county.

Mrs. Iola Mae Chapman, District Home Demonstration Agent, was here Saturday to supervise the moving of the office equipment and furniture to the county seat. Miss Faye Bass the new County Home Demonstration Agent, will announce her office hours later. She started her new duties Monday, and she seems to think that she has a great field of work and stated that the ladies she had met that she is favorably impressed with their interest in this work.

The Home Demonstration work is one of the most important movements in our county, and it is hoped that the ladies will get a lot of good from it. People usually get from any movement just about in proportion to the interest they take.

Active pallbearers were: L. E. Lee, A. R. Howe, Cecil Fox, George Lisenby, Austin Bell and S. A. Lawrence. Flower bearers were: Mildred Calvert, L. cille Stevens, Marjorie Cole, Nadine Brewer, Velma Nell Glenn and Oleta Howe.

He was born in Bell County June 14, 1885. He came to Dickens County in 1913 and made his home here for some time. He moved to the Northern Panhandle and was making his home at Dumas at the time of his death. He was not married and had no immediate family nearer than the survivors named above.

BUY U. S. DEFENSE BONDS—Conservation Work Duck Creek District

The farmers of the Duck Creek Soil Conservation District were busy last week establishing soil and water conservation practices on their farms. Those building terraces were: A. C. Sharp, John Sharp, Fred Arrington, A. J. Allen, C. D. Elkins, Henry Elmore, O. B. Ratliff, R. T. Atchison, L. F. Cooper, W. F. Markham and Bynum Britton.

Terrace lines were run on the following farms: R. R. Wooten, A. C. Sharp, Henry Elmore, Ernest Scott, S. L. Benefield, G. A. Benham, D. O. Thompson, W. R. George, C. M. Hager, C. R. Edinburg, W. J. Willmon, J. B. Steadham and R. F. Willmon. Terracing and contouring will save our soil and water and thus help gain our goals of farm production. The basic thing in the whole agricultural scheme is keeping the farm production rolling—piling a 1942 high production record for all time on top of the record production of 1941, as that was piled on top of a record production in 1940.

The size of the production job facing farmers is indicated by the fact that there are only two items of farm production where 1942 output is not expected to be increased over 1941. Wheat acreage is down. Hay production the same. All other products are to be increased.

Not only the production goals, and the obstacles in the way of reaching them, are bigger now. Shortages of farm labor, machinery, and production supplies will become more serious. Therefore Secretary Wickard warned, "For wheat, cotton, and tobacco the goals should not be exceeded. To do so would waste precious labor and supplies. For the other commodities, if farmers are able to exceed the goals and processors can handle the products, the Nation's interests would be served." Farmers must produce to the limit in 1942 the things where shortages may occur, because if the war is a long one, it will become progressively harder to get production.

Funeral Services For Grandmother Morgan

Funeral services for Mrs. Ellendea Love Morgan, familiarly known to people of this country as Grandmother Morgan, were held at the First Methodist Church Sunday afternoon at two o'clock. Rev. H. L. Thurston, the pastor, conducted the services. Interment followed in Spur cemetery with Campbell's Funeral Chapel in charge of arrangements.

Active pallbearers were: Clark E. Morgan, Bynum Britton, Harold Karr, Bob Morgan, Jr., Sam Marchbanks, and Elton Garner.

The deceased is survived by two sons: A. B. Morgan of Amarillo and Wylie Morgan of Spur. Two children had preceded her in death: Bob Edward Morgan and Mrs. Robert Boyer.

Mrs. Morgan's maiden name was Ellendea Love Sprayberry and she was a daughter of the late Mr. and Mrs. Jackson Sprayberry of Abbeyville, Mississippi. She was born in Mississippi April 11, 1856, and would have been 86 years of age her birthday anniversary in April. She came to Jones County, Texas, in 1881, and was married to T. C. Morgan at Fort Worth that year. The family moved to Dickens County in 1910, and she had made her home here since that time until two years ago when she went to Amarillo to live with her son, A. B. Morgan, and family.

Early in life she made a profession of the Christian religion and became affiliated with the Methodist church. She was a devoted member until her death and attended church services consistently as long as her health would permit. She always exemplified a Christian attitude and was ready under all occasions to render assistance to friend or stranger when such assistance was needed.

There are 19 grand children and 12 great grandchildren in the family.

BUY U. S. DEFENSE BONDS—Large Crowd Enjoys Band Concert

The High School auditorium was almost filled with people Friday evening to enjoy the School Band concert. About fifty musicians entertained the people for close to two hours and no one was tired of listening after that time.

The program consisted of eight selections with a short intermission at the close of the first four. The number represented different styles of music in order that everybody present might enjoy at least part of the program, but from the many favorable comments, it appears that everybody enjoyed every selection.

There were two numbers of outstanding features. One of these was "Ballet Egyptian," a suite in four parts and composed by Alexandre Luigini. Mr. Lively had enjoyed the privilege of playing in a band in Chicago with the composer as the director of that selection. It was a fine number.

Another selection was a Tone Poem, presented in the form of a dedication and composed by Carl Frangkiser. This selection in a manner, asked what your ideals at the dawn for that day. To what are you going to "Dedicate" your efforts for this day? It was a wonderful selection and was well rendered by our Band.

Another selection deserves special mention which was a vocal solo presented by Miss Merle Lewis, a High School teacher. The caption was, "My Heart at Thy Sweet Voice," and was from Samson and Delilah. Miss Lewis has a beautiful clear voice which sounded all over the large auditorium. She was accompanied by the Band.

The Director has promised that other band concerts shall be enjoyed by the people before this term of school closes. People should appreciate these special efforts of Mr. Lively and the Band members, and should deem it a privilege to hear our fine school band.

SPEED... at a telephone job that is vital

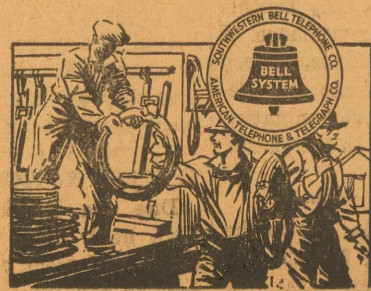

Telephone construction crews everywhere have been breaking records month after month.

Within the space of a year, Southwestern Bell crews completed extensive telephone systems at scores of military or military supply locations in Texas, Missouri, Kansas, Arkansas, and Oklahoma, finishing each job on time... or ahead of time.

In some exchanges where the in-rush of workers in armament plants created an extraordinary demand, these crews have helped to double the number of telephones in service.

All told, 30,000 Bell Telephone folks in the Southwest march ahead these days, doing their best with such materials as are available to give you... and the nation... all the telephone service possible in time of war.

SUPER ONE-STOPPERS FOR THRIFTY SHOPPERS, FRI.-SAT.-MONDAY SAVE YOUR CAR AND TIRES

We and everyone else know that in this particular year with price advances and merchandise as scarce as it is, it is needless to stimulate business, yet we won't break that custom of past years, regardless of advancing prices and priorities. Thousands upon thousands of new merchandise we have in stock was contracted months ago, based on cotton and livestock that was almost one half of what it is today. When eggs were 15c a dozen and money was much harder to get.

We could not offer these values if we did not guess at the future and hit, yes we guessed for you and it is now up to you to take advantage of it. We will expect you.

FRIDAY, SATURDAY AND MONDAY

Many of the items are here in very large quantities as it is not our intention to advertise any item unless we have sufficient of said item to take care of any normal run. Many times our customers run over us, so please come as soon as possible and take advantage of the bargains.

Just A Reminder---

Be Good to your Electric Appliances and they'll be good to you!

We're ALL soldiers and in the army NOW. And that means new responsibilities.

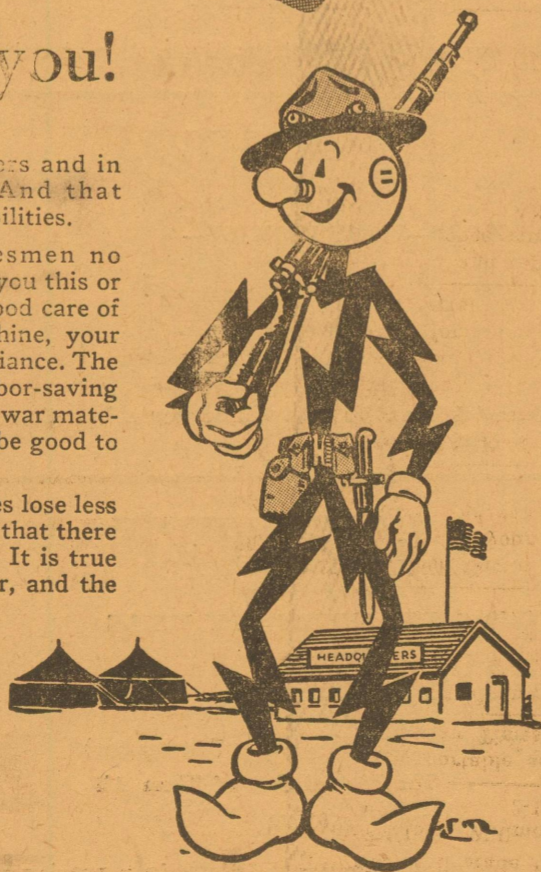

For us, our salesmen no longer blithely offer you this or that appliance. We must advise that you take good care of your electric refrigerator, your washing machine, your sweeper, radio, food mixer, and every other appliance. The factories that make these marvelous time and labor-saving servants are being turned to the manufacture of war materials. Be good to these appliances—and they'll be good to you.

It is true that meats shrink less and vegetables lose less of their vitamins with electric cooking. It is true that there is less food spoilage with electric refrigeration. It is true that the electric washing machine, the sweeper, and the food mixer all have greatly relieved women of tiresome, unnecessary household drudgery and save time and energy for wartime work. And it is true that both workers' and children's eyes show less strain when the lighting is good.

So, as soldiers fighting for our American way of living, it is our duty to provide electric service for all these things which are normal in peacetime and imperative in wartime.

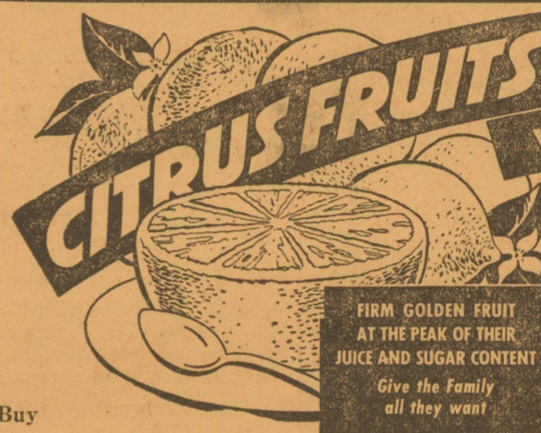

Hence, it is proper also to urge that you keep your electric appliances in good condition... get longer wear out of them.

Whenever needed, ask the advice of our servicemen. They, too, are in the war... rendering an essential service.
