The appearances of both the Palace Theatre and the Spur Theatre have been greatly improved recently. Mr. Lunsford, the manager, has had both buildings newly painted and decorated and both buildings look tops now. The main color is white with black outlines and yellow and orange trimmings.

When it comes to theatres Spur is up to par in buildings and in type of shows. Many cities would be glad to have the accommodations that are being afforded at the Palace and the Spur Theatres.

When it comes to classes of shows, Spur gets them on the circuit as quickly as does Dallas, and usually at about half the price. People of Spur country should feel proud of the type of theatres we have the privilege to enjoy.

## Texas Defense Guard Needs More Men

The strength of Company D, Texas Defense Guard here at Spur continues to lag behind the requirements of the Adjutant General's Department. At this time the local unit has 46 enlisted men and three commissioned officers. The full strength should be 75 enlisted men and 3 commissioned officers. Advice has been received from the Adjutant General that unless Company D appreciably increases its strength before September 1st, the company will be disbanded and the men mustered out of service. It will be very unfortunate for Dickens County if the Company is allowed to disband. Other cities and towns of Texas are begging for a company of the Guard, and at the same time it appears that the people of Dickens County do not appreciate fully the value of the Guard to the U. S. A. and Texas. Originally, there were allowed only a limited number of Texas Defense Guard companies in Texas, and Spur was very fortunate in obtaining a unit. Other cities are anxiously waiting for some town to fall out of the Guard in order that they might obtain a company. They know it's value to them, the U. S. A. and to Texas.

Recently, 13 new men were added to the company, but more are needed yet. All but one of these men are students in the Spur High School. These young men are learning fast and will make exceptionally good soldiers. We need more of these young men now. Any young man 16 years of age or older is welcome to join now. The training that they can receive now will prove of great value to them in the event they are eventually inducted into the armed services of America. This message is a plea to the citizens of Dickens County to act at once to fill the local company.

New shotguns have been issued and new uniforms are being furnished the men coming into the Guard. Two new sub-machine guns will be furnished shortly. Federal support is in the offing and before long the Guard will be fully recognized by Federal military leaders. They realize they need the Guard as a source of officers in the armed services of America.

Opportunity awaits young men. Serve your Nation at home! Join the Texas Defense Guard now! Drills each Thursday night at 8:30 near Hill Street and Burlington.

## Spur Tailor Shop Quitting Business

John A. Moore, who has owned and operated the Spur Tailors the past ten years, is closing the business out until after the war is settled. The machinery and equipment has been moved out and stored and the building has been refinished on the inside for use for other businesses. Mr. Moore stated Tuesday that the building will be for rent. The Stamford Production Credit Corporation occupies part of the building now.

The remainder of the building will make a nice office or other business location for any one. It has all modern conveniences, well lighted and good ventilation.

## HAMILTON ELECTED BY SMALL MAJORITY

According to latest official returns John A. Hamilton has secured a majority of 197 votes for the office of District Attorney for the 110th Judicial District. The race in the four counties were very close, and Hamilton carried three of the four counties over opponent, L. D. Ratliff, Jr., by small margins. The vote by counties is:

	Hamilton	Ratliff
Brisco	775	367
Floyd	1370	1252
Motley	871	235
Dickens	1617	653
Totals	3669	3471

Dr. and Mrs. C. B. Jones and Dr. and Mrs. Goodwin of Texas Tech. spent a few days at the Jones Ranch, last week.

## A Number Join West Texas Organization

A report from J. A. Rix, finance chairman for the West Texas Chamber of Commerce, stated a number of Spur business men had accepted membership in that organization. The West Texas Chamber of Commerce has member towns in West Texas and Eastern New Mexico and has been of untold value to the people of Texas as a whole.

It is the largest regional organization of its kind in the United States. It was through the work of this organization that farmers secured reduced transportation rates on shipments of grains and feeds, and the merchants received reduced freight rates in West Texas.

Members of the organization in Spur are:

## McClure Residence Destroyed by Fire

About four o'clock Monday morning fire was discovered in the residence of Mrs. Ann McClure on Hill Street. When the family awakened flames were going into two rooms and a hall, and were under strong headway.

The Spur Fire Department answered the call and fought diligently for a long time before the flames were brought under control. The entire east side of the building was a complete loss, and the west side is so charred, smoked and burned that it is doubtful if it can be repaired.

The family just had time to escape and were unable to secure even wearing apparel for the day. All furniture is damaged and most of it completely destroyed.

The residence was one of the most beautiful in Spur and cost several thousand dollars to construct. The loss will run around \$15,000.00 to \$20,000.00 with only a small amount of insurance.

## Garage Injured By Fire

The garage in the north end of the D. D. Ince Blacksmith Shop operated by Henry Johns, was greatly damaged by fire Monday afternoon. Fire started in the rear of a car in the garage, and it is thought to be spontaneous combustion caused by an oiled rag or something. Several men attempted to drag the car out of the garage, but the gas tank exploded which sent flames in ever direction.

The Spur Fire Department answered the call and soon the flames were brought under control and extinguished. Quite a lot of damage was incurred in both garage equipment and the building, and the car seemed a total loss.

## CHURCH OF CHRIST AT DICKENS IN REVIVAL

WITH THE BOYS IN SERVICE

Dickens County Times

Dear Sirs: Not having time to write to everyone, I thought I would send it to you.

As far as I know now, I like the Marines fine, it is the best branch of service a fellow can get into. The only thing that hurts, is that you can't even see town for seven weeks, but I have just three more weeks left and then I can tell you more about the country.

Most of the fellows in my Platoon are from Louisiana, and everyone are swell. When we go to work we go at it hard, that's one reason the Marines are so rough.

I guess I had better stop for now, it is time for taps. If any one wishes to write to me, I will be more than glad to hear from them.

Pvt. Stephen Barclay  
Platoon 520 R.D.M.C.B.  
San Diego, Calif.

P.S. Fred Kinney, Fred Martin and myself sure stand out for Spur.

## ABOUT THE BOYS

Pvt. Thomas C. Williams, who has been stationed in North Carolina, has been transferred to Camp Carson, Colorado. He is now in Service Batter 99 F. A. at that camp, and says he is glad of the change as

the weather in North Carolina is very war.

Doyle Fry, whose whereabouts is unknown, is reported from Washington to be very ill in a base hospital somewhere. His parents, Mr. and Mrs. Gene Fry, received a telegram stating he is very low, then received a second telegram which stated there is a slight improvement in his condition.

## RECEIVES PROMOTION IN SERVICE

George W. Reynolds, of the U. S. Army Medical Department, has been promoted to rank of sergeant. He is with the Williams Beaumont Hospital at Fort Bliss where he has been in service more than a year. He is a Dickens County boy who volunteered long before the first draft was under consideration.

**Revival at Rising Star Begins Sunday**

Reverend J. H. Patterson, D. D., pastor for several years of the Westminster Presbyterian Church of Fort Worth will begin a meeting Sunday, August 9th, and will continue thru Sunday night, August 16th, at the Rising Star Community School Building, 12 miles south of Girard. Dr. Patterson will assist the pastor, Reverend John C. Ramsey. Dr. Patterson before coming to Fort Worth was a successful pastor in Florida. He was born in Scotland and is a great man of God. Dr. Patterson loves Gospel singing and one of his greatest objectives in a meeting is to have the congregation sing the Gospel thru simple but direct Gospel themes in songs. If the congregation does not know a song he soon has everybody singing it. He believes much in the Holy Spirit and expects his congregations to spend much time in prayer. Dr. Patterson has held meetings in many places. None who can possibly do so, should fail to hear Dr. Patterson at every service. The night services will be at 9 p. m. All denominations are invited and especially people from the surrounding communities. Mr. Ramsey who for two years has been serving as pastor at Rising Star Community Sunday School and Church Services has just returned from the Ministers and Bible Conference at Kerrville. The work at Rising Star is under the direction of the 1st Presbyterian Church session of Spur. Sunday School next Sunday at Rising Star will be at 2:30 p. m., and the only Preaching Service next Sunday will be at 3:15 p. m. The night services will not begin until Monday night, the 10th.

The attractive red, white and blue window sticker, pictured above, is the new yardstick of patriotism in the War Bond drive throughout the nation. With the slogan, "Everybody every pay day, ten percent," sweeping the country, patriotic Americans on the home front are rallying to their Government's appeal for funds with which to help finance the war. The home which displays the "ten percent" sticker is doing its share toward Victory for America and the United Nations. The stickers are being distributed through local War Savings Chairmen. U. S. **Duck Creek Soil Conservation District News**

Fire is one of the greatest hazards of our farmers and ranchers. At a time when it is mandatory that we conserve all our resources, we should double our efforts to protect our pastures from fire. Grass is one of the most, if not the most important of all our resources, and may be destroyed in a matter of minutes by a careless match or cigarette. Destroy the grass and the production of beef and dairy products is also destroyed—destroy the grass and the soil is immediately vulnerable to the ravages of wind and water, leaving it useless for production of any of the food products so vitally needed at this time. In time, and under favorable conditions, grass will come back on burned acres, but speed is the cutting edge of the sword we wield against the Axis and we can't afford to waste time in working to regain an asset we lost by carelessness. Let's all do our very best to prevent grass fires.

During the past week, the Supervisors of the Duck Creek Soil Conservation District approved 11 Farmer-District Agreements voering a total of 15,621 acres. The agreements were signed by the following farmers: Paige Gollihar (3 Farms), Katie Conatser, C. B. Jones, Chas. McLaughlin, O. H. Hamlin, C. A. Allen, G. G. Allen, C. H. Harris and H. S. Armstrong.

Three and eight tenths miles of terraced lines were run last week on the farms of Mr. C. H. Harris and Mr. H. S. Armstrong.

**JESTER TO OPEN HIS CAMPAIGN FRIDAY NIGHT**

—Opening his runoff battle for the State Railroad Commission, Beauford Jester will discuss the importance of his campaign in a radio speech to a statewide audience from his home town, Corsicana, at 9:30 p. m. Friday, August 7. The talk will be carried over a fifteen station network.

"Texas oil and transportation are vitally important to our war effort," Mr. Jester said. "Most of the oil that will fly our planes, power our mechanized divisions, and fuel the ships of America and her Allies will come from Texas. There must be no bottlenecks in Texas' oil production and transportation facilities."

"The people of Texas need a war veteran and a fully qualified Railroad Commissioner who will see to it that every industry regulated by the commission can and does function at its maximum in our war effort," Mr. Jester declared.

A native of Corsicana, Jester is a graduate of Texas University and served from 1932 to 1935 as chairman of the university's board of regents. He interrupted his law studies to go overseas in 1917 as an infantry captain in the 90th Division. He saw action in the St. Mihiel and Meuse-Argonne offensives. Returning to the practice of law after the Armistice, he completed his studies and has practiced in Corsicana ever since. He has taught a Sunday school class in the Methodist church since 1924, and since 1935 has been a member of the State Advisory Board of the National Youth Administration.

**SENATOR SMITH MAKES STATEMENT**

Senator John Lee Smith, of Throckmorton, high man in Saturday's primary for Lieutenant Governor, issued the following statement today:

"According to late returns I am leading Senator Beck by over 35,000 votes. This is, of course, very gratifying to me. I am grateful to the many loyal friends throughout Texas who faithfully labored in my behalf. I had not a single paid worker. These friends carried my candidacy to the people. I trust always to be worthy of such confidence.

"The recent campaign was one between gentlemen. All my opponents were excellent and worthy men. There was no abuse and no bitterness.

"In the run-off campaign, I am sure the same high type of campaign will be conducted. Senator Beck is my friend and I am sure our campaign, though strenuous, will be pleasant."

"At 6:00 P. M. July 29, the figures in the Lieutenant Governor's race for the two high men were:

John Lee Smith ..... 182,207  
Harold Beck ..... 146,423."

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts, and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. 1 INCH TALLER - 10 LBS. HEAVIER!

... and ELECTRIC POWER, too, has grown to Meet the Wartime Needs of 1942!

Plenty of Electricity on Hand

WASHINGTON, July 22. (AP)—J. A. Krug, chief of the power branch of the War Production Board, expressed confidence today that war production would not be crippled by a shortage of electric power. "We have sufficient electric power," he said, "to meet all the requirements of war production and for essential civilian needs, if used wisely—as far as we can see ahead."

West Texas Utilities Company

WAR DEPARTMENT figures show that today's average soldier is nearly an inch taller and ten pounds heavier than in 1917—a great gain for one generation and a real tribute to the men of science and the men of industry who helped build Bill's husky frame.

We're glad electric service had a hand in it.

Food experts discovered new vitamins and better diets for Bill; doctors developed new serums, drugs and healing techniques; and electric research worked out new and better ways to refrigerate... preserve... his food so it would be fresher, safer, cheaper.

Even before Bill was born, electric servants freed his mother of much household drudgery—so that she and her children might be healthier and happier.

At the same time that the electric industry was helping Bill to develop into a stronger, healthier man than his dad, it also was expand-

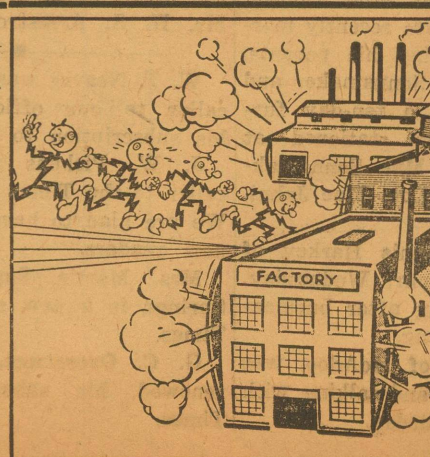

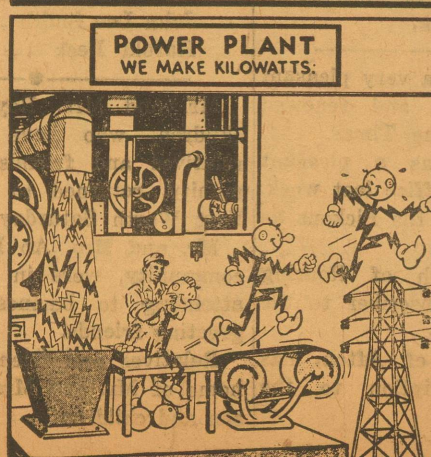

ing to provide the power vitally needed in 1942. In back of Bill today is plenty of electricity for building tanks and planes, guns and ships... power to run the factories making weapons with which Bill will win the war!

Actually, this country now has five times more electric power than we had in 1917.

And over 90 per cent of ALL the nation's commercially generated electricity is being provided by companies like this institution... companies that developed the American way, free to work and create things that men and women want and need for everybody's benefit.

This company "grew up" that way—organized by a few men with foresight to see West Texas' great need for ample, cheap electric power. Today it represents the savings of thousands of small stockholders, operating under good business management, regulated by the government, paying taxes, and providing excellent service at low cost.

Q. Does horseradish have seeds, and is it raised from seeds?

W. B. D., Albany, N. Y.  
A. Horseradish produces seed but it seldom matures, has a very low percentage of germination, and is never used for propagation. The common practice is to save laterals and odds and ends trimmed off when No. 1 roots are sent to market. Store over winter in a cool, moist heap of sawdust, and set them out in the spring. Choose rich, deep, moist loam; fertilize heavily and fit it well; mark off three-foot rows and poke holes 18 inches apart in the row with a pointed stick. Set the roots top end up and two inches deep in these holes, and maintain clean cultivation. Dig crop in the fall.

Q. What can one do to grow a good garden and control scab on potatoes?

J. M. B., Port Henry, N. Y.  
A. Work in some manure or humus and fertilizer, and keep out weeds. Potato scab lives over on the the seed and in the soil. Buy certified seed and treat it. Do not repeat potatoes on the same soil more than once in five years.

Q. What is the formula for soaking paper in some solution to be used as crack filler in floors?

S. T., Fort Plain, N. Y.  
A. There are several recipes, but the best I know is to soak newspaper a day or two in water, drain it, then chop it up in raw linseed oil to form a thick paste. Add a little shellac or glue and paint; pour or use a putty knife to fill the cracks.

Q. I plant morning glories in a window box for a porch railing. Would it hurt the morning glories to keep them cut back so they won't climb through an opening in the roof and bloom up there?

Mrs. W. C. F., Oneonta, N. Y.  
A. My experience with morning glories is that the rougher you treat them, the better they grow. Naturally they climb toward sunlight, so keep them cut back to where you want them.

Q. Some kind of a grub or borer is attacking my young fruit trees, under the bark at the roots just under the ground. Can I prevent them or get rid of them?

J. Z., Watervliet, N. Y.  
A. Grubs or borers are a serious pest on apples and peaches and sometimes injure other trees. Where one has only a few trees, the practical remedy is to look them over spring and fall, and dig out any borers that may be present, using a pocket knife and a piece of flexible wire.

## County Home Demonstration Agent News

Steam the vegetables; sulphur the fruit; then let them dry. It's as simple as that, says Fae Bass, County Home Demonstration Agent for A. & M. Extension Service, who has in the past two months given about twenty demonstrations on drying fruits and vegetables. This was the first method of preservation used by our forefathers centuries ago. And it is still a valuable one in our modern age.

Now that there is a major scarcity of containers as well as time, why shouldn't we take advantage of this easy, economical and, yes, attractive way of saving every bit of available food? We are told that next year there will be a noticeable shortage of canned foods on the grocers' shelves. So, that means that it will be left partly up to us whether we want to eat or not.

Vegetables most adaptable to drying, according to the agent, are fresh corn, green shelled beans and peas, and sweet potatoes. Also good are okra, snap beans, and peas, and squash. Mrs. M. E. Tree of Highway says she dries corn every year, and her family likes it better than canned corn because it has a fresher, more natural flavor.

Vegetables which are steamed before they are dried have a better flavor, keep better, and require less soaking before cooking. Steam corn 15 min. before cutting from the cob; steam shelled peas and beans 15 min.; sweet potatoes, 6-8 min.; and okra, 4-8 minutes. Mrs. Hobart Lewis said her okra which she steamed had a better color than did her neighbor's who did not steam hers.

Sulphuring fruit helps retain Vitamin A & C and color; it also prevents souring and insect attacks during drying. Sulphuring is done by burning 1 teaspoon of sulphur per pound of prepared fruit in a tight box with the fruit—peaches for 3 hours, apples for 30 minutes, and plums 20 to 25 minutes.

Vegetables and fruits may both be dried either over the stove, in the oven with the doors left open, or in the sun, in wire or slatted trays which permit a maximum amount of air to circulate around them.

Further information on drying fruits and vegetables may be had by calling or writing Miss Bass, or referring to the bulletin "Drying Foods at Home" which is available at her office at Dickens or at the Public Library at Spur.

## Notice to Retail Merchants

All retail merchants in Dickens County are reminded by L. E. Lee, chairman of the Dickens War Price and Rationing Board, that they must file with the local board by August 10 a list showing cost-of-living articles and their ceiling prices which the merchants has added to his stock since July 1.

"The filing of such lists by the tenth of each month is made mandatory by General Maximum Price Regulation No. 1", Mr. Lee pointed out. He also called attention to the fact that many retail merchants still have not filed the initial listing of cost-of-living articles and their ceiling prices, which should have been in the hands of the Dickens County War Price and Rationing Board not later than July 1.

"Failure to file that list is a violation of the General Maximum Price Regulation," Mr. Lee said, "and we have been advised that the state office of Price Administration staff is now making a field survey to determine how many merchants have filed this list."

The results of this survey, he said, are to be turned over to the OPA compliance and investigation department, for immediate attention. Any merchant who still has not obtained a copy of the General Maximum Price Regulation, or of Bulletin No. 2—"What Every Retail Merchant Should Know About the GMPR"—can get copies by applying to the office of the Dickens County War Price and Rationing Board, Spur, Texas. Mr. Lee stressed that compliance with Price Control is an essential duty in waging the war "on the Home Front".

## Farmers and Stockmen Can Be Assisted

In order to help meet the growing demand for saddle and draft horses and mules, Texas farmers and stockmen who need a stallion or jack should make application immediately to the Jack and Stallion Division of the State Department of Agriculture, Austin.

The department issued that statement today with the announcement that there are now several of the state-owned jacks and stallions available. The stallions include Belgian, percheron and saddle types.

The animals may be leased by stockmen or farmers for \$30 yearly, with the remuneration to be derived from breeding fees. The fee limit is \$10. The animals will be delivered to the leasor free of charge by the department.

Curtailed supplies of rubber and gasoline is expected to bring about a greater demand for horses and mules, and thereby increase the demand for the services of the state-owned jacks and stallions. It is estimated that the state animals have already increased the wealth of the state by about \$3,000,000, although since its creation in 1934, the Jack and Stallion Division has never cost the people of the state a penny for its upkeep and administration.

Mr. Fry was in Spur Monday and stated that he is going to see as many people as he can to do what he can honestly to win. Many of his friends in town stated he will make a very fine commissioner if elected.

Mr. Haile will use the animal with his herd of Poll Herefords of which he has about fifty very fine cows. In addition he has four very fine Domino registered cows on his ranch. All of his cattle are either registered, or are subject to registration.
