Charles Starrett helps the rangers back up Uncle Sam in "Riders of the Northland," with Russ Hayden!
 Showing at the Palace Theatre Friday and Saturday.

Glenn News

Mrs. D. W. Hughes, of Duncan Flat, returned from Corpus Christi last week where she had been visiting her daughter, Miss Christia Hughes, who is employed there.
 Miss Bernice Anderson was in Matador the last of the week visiting relatives and friends.
 Fred Eary was transacting business and meeting friends in Roaring Springs the past week-end.
 The revival meeting at Duncan Flat started last Friday night and will continue through this week.
 A sister of Clara Baxter, of California, is visiting relatives and friends here and at Spur.
 Mr. and Mrs. Hop Gibson are visiting relatives and friends in Arkansas.
 Howard Wood has returned from California after spending a visit there with friends.
 Edna Jean and Barbara Ruth

Hughes celebrated their birthday anniversaries August 9 and 11. Edna Jean was five years of age August 9, and Barbara Ruth did not report her age. They were given a birthday party the evening of August 11 and received many nice presents. All day suckers were plate favors and ice cream was served to all. Each guest left wishing them many more happy birthdays.
 —Reporter.

Mrs. Mary Berta Hankey, who has been associated with the Spur Post Office for a number of years, has been transferred to Leesville, La., where she will be connected with the Post Office department Thursday of last week was her last day in the Spur office.
 Mr. and Mrs. Bill Abernathy and two children of Pampa, visited in the home of Mr. Abernathy's parents, Mr. and Mrs. Ira Abernathy, of north of Spur, over the week-

Beauford Jester Asks to Serve You

Beauford Jester of Corsicana is asking the people of Texas to elect him as their Railroad Commissioner to fill the unexpired term of Jerry Sadler resigned. Mr. Jester is one of the outstanding lawyers and business men of Texas, and his record toward his fellow man is clear. He holds the high esteem of the leading citizens of Texas, those people who stand for high ideals in society and government.
 He served as a member of the Board of Regents of the university of Texas, and planned the program which has made our state university one of the leading educational institutions of America. People who are acquainted with his work in this respect point with pride to his accomplishments as a university director.
 Beauford Jester was born in Corsicana in 1893, the son of a distinguished East Central Texas family. His father, the late George T. Jester, was lieutenant governor from 1894 to 1898, and Beauford Jester was only three years old when the

first oil well west of the Mississippi was brought in near Corsicana.
 He grew up in the town's first oil boom days, went to public schools, led a normal, average-boy's life that included participation in sports of all types and instilled in him a spirit of fair play that comes so strongly from the playing fields.
 After his graduation from the high school here, he went to the University of Texas at Austin, from which he graduated in 1916 with a B.A. degree. The following year he registered in the University's law school.
 The World War halted his education and he entered the army, going to the first officer's training camp at Leon Springs. He was sent overseas and saw service as a front-line infantryman in the Meuse-Argonne offensive and at Saint Mihiel. He came out of the war an infantry captain and was stationed with the army of occupation until 1920, when he came back and returned to his classes.
 Upon graduating from the University's law school in 1922, Beauford Jester went to Corsicana, where he had been brought up, to start his practice. The next year the Powell oil field came in, and once more he found himself in the middle of an oil boom, this one more gigantic than the one of his youth. The oil men who came to Corsicana in 1923 were a varied group. There were some veterans, some wildcatters, some new-comers to the game. Beauford Jester knew them all and they knew and respected him.
 He practiced law in their midst and earned a reputation for fairness that has given him the solid support of those old Corsicana residents, many of whom have now scattered to all parts of the state.

PAID BY CHAMBER OF COMMERCE & ROTARY CLUB

JUDGE E. C. NELSON

Candidate for Chief Justice Court of Civil Appeals
Saturday, Aug. 22nd

DOES TRAINING COUNT?

If not, why have schools and colleges? Judge Nelson has had the best literary and legal training our country affords.

DOES EXPERIENCE COUNT?

Should a Chief Justice have had some actual experience as a practicing lawyer? Should he have had some experience before the Court he seeks to preside over? Judge Nelson has had years of experience, both as a practicing lawyer and as a trial judge.

SHOULD REPRESENTATION BE EQUAL?

The Lubbock area already has one of the judges of this Court; and the Vernon area has one. Isn't it fair for the northern part of the district to continue to have a representative on the Court?

WHO SHOULD CHOOSE THE CHIEF JUSTICE?

The people? Or a group of Lubbock lawyers? Judge Nelson did not ask any group whether he might run for the office; and he has not sought any endorsements. If elected, he will be under no obligations to any such group. He will be able to chart the course of the law fairly for all. Is that what you want? If so, VOTE FOR JUDGE E. C. NELSON.

(Political advertisement. Paid for by friends of Judge Nelson)

A Victory Beverage For Victory Demonstrators

Good grape juice can be made from thoroughly ripe grapes without using any sugar.

Grape Juice, as are other fruits, is a good source of necessary food elements which are so important now in keeping the people of our nation strong!

Better flavor and more attractive color are obtained by mixing the juice of different varieties of grapes. Thus varieties with a deep red color may be used in combination with light colored grapes, and tart and sweet varieties may be blended for flavor. Blending should be done after extracting the juice and before processing and bottling.

Steps in making juice.
1. Wash grapes on the stem thoroughly and crush into aluminum, wooden or earthenware vessel. DO NOT USE TIN, IRON OR STEEL CONTAINERS.

2. If highly colored juice is desired, heat the crushed grapes, stirring constantly, to 145 degrees F. (about till the steam begins to rise). Of the color of the juice comes from the inner skin. Heating the crushed grapes and pressing while hot will produce a rich wine color.

3. After heating, extract the juice by pressing, or hang up in a drain bag and squeeze.

4. Filter the juice through cotton flannel cloth or jelly bag and blend or sweeten if necessary.

5. Pour into bottles or fruit jars, filling to neck of bottle or jar. Cap or cork.

6. Place in pasteurizer (may be large pot or wash boiler) having a false bottom, and cover with water completely. Heat and hold at 165 F. as follows:

Pint bottles or jars 30 minutes
Quart " " 35 minutes
1-2 gal. " " 45 minutes
Gallon " " 60 minutes

7. Place bottles or jars on side when removed from pasteurizer to test for leaks and to sterilize caps and lids.

8. Store in cool, dark location until all settling and precipitation in the bottles or jars has taken place.

(Four to eight months).

9. If a perfectly clear juice is desired, uncap bottles after all settling has taken place, filter, rebottle and pasteurize.

Caution: When first heated with stems on the grapes, avoid higher temperature than 145 degrees F. since a higher temperature will extract tannin from the stems and tartaric acid from the seed, giving the juice an undesirable flavor. In pasteurizing, temperature should not go above 165 degrees F. as this tends to destroy the natural flavor of the juice.

Very truly yours,
Fae Bass
Co. Home Demonstration Agent

McMurry College Plans Dual Program 1942-43 Session

The longtime program for thoroughly educating the student and fitting him for larger usefulness in government work will be continued while a streamlined curriculum for the production of the "quickies" who must go immediately into services will be carried on simultaneously.

Foremost in the additions to the college curriculum is the military preparedness course which is designed for men who are expecting to be called into the armed forces. The instructors will select from courses in mathematics, physics and chemistry such phases as will be useful to assist a man to quick promotions. Only four and one-half months are required to complete this work and 12 hours of college credit will be given the student. The unique feature of this and all of the other streamlined courses offered by McMurry is that they all give college credit and after the war is over, the student may return and apply these hours on a regular college degree or transfer them elsewhere.

McMurry has been chosen by the government for its Civilian Pilot Training program. This includes an eight-week, full-time ground and flight course with the tuition, board and room, transportation to and from the airport, insurance, and medical fees paid by the CAA. Enlistments for this are made through regular military channels.

A Good Safe Place To Trade
B. SCHWARZ & SON
SPUR, TEXAS
"The Store Of Little Profit"

COLLEGE CLOTHES

... as busy as any war factory, this center of Fashion for the 1942-43 college student. In these days when you must, of necessity, demand a longer term of life from your college clothes, America's army of young men and women will even more enthusiastically accept the rigid standards of quality. They are not unmindful of their duties and not the least undetermined to continue their education to better prepare them for the responsibilities of the future.

Everything essential to your college wardrobe can be bought here at one store, meaning ... Savings in travel ... in time ... and in money. Makeout a complete list of your needs and bring them with you. Vera Shepard and Mrs. Reed will be glad to go over them with you, with careful consideration to every detail entering into this college year.

College Requirements

VERA SHEPHERD AND MRS. REED ADVISES YOU TO PURCHASE EARLY THIS YEAR Because:

... due to the fact that so many factories have converted to the war effort, this merchandise has been selected early and in greater quantities than last year ... the acute scarcity of woolen fabrics ... and the almost impossibility of getting re-orders and replacements makes it necessary for you to purchase your fall wardrobe now in order that you may obtain the smartest styles and colors.

An increasingly popular and particular course is that of defense stenography. McMurry pioneered in shortening and intensifying the business course in which a student may qualify in shorthand, typing and business English in only four and one-half months. Nine hours college credit will be given.

Mr. and Mrs. J. L. Hurst, of Abilene, are the proud parents of a son and heir, born at Abilene, August 12. Mother and son are doing fine. Mrs. Andy Hurst and Mrs. Erie Foster, are in Abilene to visit the new grandson.

PATTON SPRINGS FUTURE FARMERS
The Patton Springs Chapter of Future Farmers of America, went on their summer encampment August 4-5-6-7. The ten boys attending were: Carral Allen, Billy Joe Baber, G. A. Benham, C. V. Young, R. C. Rich, Leo Baxter, Treman Middlebrooks, George Middlebrooks and Billy Joe Starks, accompanied by the Vocational Agriculture teacher, Mr. Edward White.

The boys spent the biggest part of this time at Lake Buffalo, where they enjoyed some very fine fishing and boat riding. We had several con-

test at the encampment and the boys showed some very fine spirit in these contests. The boys carried away some fine scores in the swimming contest. We came home Friday and were happy to get home to work, for we knew we were needed. The boys all enjoyed their trip very much.

Billy Joe Starks, Reporter.

Mr. and Mrs. Horace Gibson and daughters, Francis and Doris, returned from Ruidoso, New Mexico, Friday night, where they have been on their vacation.
