NUMBER 7.

REVIVAL CONTINUES TILL MONDAY

LARGE CROWDS ARE ATTENDING EACH SERVICE, AND THE INTEREST IS GROWING ALL THE WHILE

MANY CONVERSIONS—38 JOINED BAPTIST CHURCH

No Service Saturday Morning—Ordinances of Baptism Will Be Administered Sunday Afternoon at 4:00 O'clock in the Baptist Church—Closing Service Monday Morning

The big revival under the auspices of the Baptist church which began on the 10th of this month, is still in progress and is attracting good crowds.

Rev. Finney, pastor of the Baptist church at Midland is doing the preaching, and he is being heard with greater interest each service. His sermons carry with them an earnestness on his part that reaches the people, and the results are being felt from one end of the city to the other. He is a plain, practical preacher, preaches right at the practical side of life, gets right among the people where they live and tells them about their meanness.

We have been unable to learn the number of conversions to date, but there has been a goodly number, and thirty-eight have united with the Baptist church either by profession of faith or church certificates.

There will be no morning services Saturday. Sunday there will be Sunday School at 10:00 o'clock, preaching at 11:00 o'clock and again at night at 8:15.

MORNING WEDDING AT HOME

June Graduate Is Bride of Floyd S. Frazier Now in Business in Texas Town

Another charming member of the Long Beach Polytechnic High School graduating class of last June has found the nuptial altar attractive. Miss Hazel E. Armstrong this morning becoming the bride of Floyd S. Frazier a Long Beach boy now in business in Lubbock, Texas.

The ceremony was solemnized in the presence of the two families at the home of the parents of the groom Mr. and Mrs. W. C. Frazier, 1228 Bishop street. Rev. Andrew F. Mitchell, pastor of the First Friends Church, officiating.

The bride wore a traveling suit of dark blue with a tailored hat, and carried red roses. A prettily appointed wedding breakfast was served following the ceremony, after which the young people left for Los Angeles and tomorrow morning will leave for Lubbock, Texas. They will be accompanied by the mother of the bride who came here to attend the commencement exercises and after a visit here had intended to take her daughter home to Lubbock with her.

Mrs. Frazier is the daughter of Mr. and Mrs. H. E. Armstrong of Lubbock, Texas, but has spent the past three years here with her grandmother, Mrs. Addie R. Wilcox, of 238 West Sixth street, attending the Polytechnic High School from which she was graduated a few weeks ago.

Mr. Frazier is a former Long Beach boy, being a charter member of the El Rodeo Club, and a high school graduate of 1910. He is now engaged in the vulcanizing business in Lubbock.—Long Beach Press, Long Beach California.

CLYDE GILLETTE GREEN

Adopted Grand Son of Mr. and Mrs. W. M. Green Drowned While Boating in Oklahoma

The following account of the drowning of Clyde Gillette Green which occurred last Sunday is taken from an Oklahoma paper: Clyde Gillette Green, adopted son of Mr. and Mrs. G. W. Green, was drowned in Roebuck lake at 5:30 o'clock Monday morning, the death being due to overturning of a boat that was occupied by Green and Avery Stewart, both employees of the Saint Louis and San Francisco Railway company.

As the boat turned over Stewart started for the bank, seventy feet away and expected Green to follow him. Stewart reached a point about half way to the bank, when he shouted to Green to go back to the boat. Stewart himself turning back to the boat. Before he reached the vessel, Stewart saw Green go down. Meantime A. W. Jigger and George Tam, also Frisco employees had been watching the two men and were both enroute to aid Green, who was but eighteen years of age, sank only the second time when Jigger reached the place where he went down. By this time Stewart had arrived at the point and in 23 minutes the men who accompanied the young man had him on the bank and had tried to resuscitate him. They worked with him for an hour, meantime one of them had sped to Grant to get Dr. Allen, who arrived and said that the victim was beyond human aid.

Clyde Green was the brother of Mrs. G. W. Green, whose husband is the chief dispatcher of the Frisco here. The young fellow was but 18 years of age and graduated from the Fort Smith high school the first of June. Since that time he had been working for Agent F. T. Coffin at the city ticket office. While a brother of Mrs. Green, her husband had adopted him as a son and he was known here as the son of Mr. and Mrs. Green, and had become popular among the young people of Hugo.

The young men who composed the party at Roebuck lake were all Frisco employees. G. W. Green is chief dispatcher here and issued the pass to W. E. Boyd and others, all going down on the local Saturday afternoon. In the party, going down were W. E. Boyd, D. J. Blevins, A. W. Jigger, E. L. Ayles, George Tam, Avery Stewart and George McKnight.

Avery Stewart was the companion of Clyde Green in the boat. The two were running a trot line and both got on one side of the boat, overturning it. Stewart struck out for the shore, calling on Green to do likewise. Both were ducked when the boat overturned, and each came to the top at about the same time. Jigger and Tam saw Green come up and go down again. They were a hundred yards away and both started for the doomed youth, but he never rose again. Stewart could not see Green as he was swimming to the shore, but the fact that the young man was not beside him caused him to turn back.

Word reached Hugo in a short time after the accident. G. W. Green, one of the best known Frisco men on the Central or Red River divisions, hurried in an automobile to the scene of the death, but too late to be of any aid to the young man.

The death of young Green is a tragedy that is hard to realize. The Greens came here from Fort

Smith and the majority of people believed that he was a son of Mr. and Mrs. G. W. Green, they treating him as such. The young fellow had endeared himself to the younger set of society and was known to all of the young people in the city.

That Green was taken with water cramp when he struck the water is almost certain. When found his muscles were taut and there was every evidence of water cramp. The fact that he sank only once after being overturned in the boat, is evidence that his life was fortified the moment he struck the water. Young Stewart did not pay any attention to the young man, save that when Green failed to follow him, he went back. He does not remember hearing a call for help, save that he is certain Green made some sort of shout as he went down the last time.

The body was sent via Madill to Chelsea Monday for burial. Mr. and Mrs. Green and W. E. Boyd, the latter having held the fatal pass to Roebuck lake, accompanying the remains.

The water in Roebuck lake is very deep. The water is a part of the old Red river channel and is in the form of a horseshoe. Where the boat was overturned the lake is about 150 yards wide and the two young men were approximately in the middle of the lake. Avery Stewart looked toward what he thought was the nearest bank, swimming toward it. The water is fully twenty feet deep there. It is said that Green sank in water fully twenty feet deep, but those who know the lake well say that the water is not less than thirty feet deep where his body was discovered.

Back From Denver

The delegation of Knight Templars have returned from the Conclave which was held in Denver last week, and they are all most highly pleased with their trip and the sights of that wonderful city are marvelous to behold. The delegation that went from Lubbock was a live bunch, and they were talking Lubbock to people who came from all parts of the United States and no doubt many will be induced to come to Lubbock through the introduction the K. T. boys gave this magnificent country.

They were patriotic enough to run a splendid display ad in the Denver Post, which paper boasted of a circulation of over 80,000 copies, and the Chamber of Commerce Secretary is receiving inquiries about Lubbock in response to that advertisement. All it takes is to tell people about Lubbock and they are sure to become interested.

E. N. Gunther, Ethel Gunther, Warren Burnham and E. Heinschard, touring the country in their magnificent automobile with "Rastus" hold ob de steerin' wheel, stopped over night in our city en route home to San Antonio, having been out in Cool Colorado for several weeks past.

Owen Shelton, active Vice President of the First State Bank and Trust Company, of Abilene, an old time friend of Jno. W. Baker, of the First National Bank, of this city, was here last Friday, on a pleasure trip through this section.

D. M. DeVitt's big ranch freight wagon was here this week loading up with wire, post and other building materials, which to do some improving on the ranch.

J. L. Higginbotham and W. A. Parsons were here Monday from the ranch. Mr. Parsons is from Waco, and is visiting Mr. Higginbotham on the ranch west of Lubbock.

THE LUBBOCK COUNTRY CLUB

ORGANIZATION TO BE PERFECTED AND CHARTERED UNDER STATE LAWS

WILL CREATE PARK, LARGE LAKE AND BATH HOUSE

Have a Place of Recreation Under the Management of The "Country Club" Will Have Capital Stock of \$10,000—One Hundred Share Holders

A move is now on foot to organize what is to be known as the Lubbock Country Club, which organization will have as its object the provision of a place of recreation for the people of this community.

It is to be chartered under the laws of the state of Texas, and the share holders, one hundred in number are to hold one share of \$100. The stock has all been sold and application for charter will be made within a few days.

It is the intention of this club to procure grounds for a park, and to create a large lake at a suitable point on the canyon, have a bath house, boat houses and other necessary arrangements for those who participate to enjoy themselves most pleasantly.

Of course it will take some time to get everything to the point of satisfaction, but there will be a start made within a very short time. As soon as the

necessary amount of ground can be procured, men will be put to work on the dam across the canyon and as the work progresses other improvements will be made.

This is a splendid move. It is something that this city has needed for a number of years and the people here have realized the need of it as is evidenced by the ease with which the stock was all sold.

It will be a great thing for the town and the people, and the Avalanche hopes to be able to report within a few weeks that actual construction work has begun.

The exact location has not yet been decided upon, but two or three places are being figured on and no doubt a definite location will be procured within a few days. One of the proposed sites being on the canyon north-west of the city about two miles, while others are further down the canyon.

Acuff News

Acuff, Texas, Aug. 19, 1913. — Weather still hot and dry. But most everything in the way of crops are holding up well.

The protracted meeting came to a close Monday night with eight added to the church by baptism. Bro. Wallace did some good preaching in this meeting.

C. K. Kelsey and family, of Lorenzo, attended the meeting Sunday.

The singing school closed last Friday with the singing much improved at this place.

S. S. Rush is putting up a new wind mill on his farm.

J. T. Brown has just had a fine lot of millet baled by Looney Bros. They are now baling at L. O. Burford's.

Charlie Layne, of Houston, Texas, a member of the Layne & Bowler Well Co., was in our country Saturday. He was showing a Mr. Sims and wife and Mr. Pitts, of Austin, the Burford and Wortham wells.

J. J. Baker's new house is nearing completion and it looms up far away.

Miss Glens and Leona Burns have been visiting at their sister's, Mrs. E. R. Davis.

Miss Loyal Gilliland, of Lubbock, is visiting her uncle, L. O. Burford and family this week.

Mr. Norris and wife, of Lubbock, spent Sunday at Acuff.

Mrs. McCollum, of Lockney, was a visitor in our neighborhood Sunday.

E. Gilliland and family, of Lubbock, attended the meeting Sunday.

HAPPY JACK.

Mrs. S. H. Guinn, who has been spending a few weeks out here with the family of her brother-in-law, H. G. Guinn, returned to her home in Rusk last Monday afternoon.

C. D. Lester returned Saturday from a few days visit with relatives in Canyon City.

Miss Ona Webb, saleslady in the Lubbock Mercantile Company's store, is taking her vacation, beginning with the 20th, and will visit several plains towns and will be accompanied by her mother. They will go to Crosbyton first and then to Lockney, and will come back to Tahoka, where they will spend several days on a ranch near that place.

We are glad to see R. H. Lowrey able to be about even if it is only by the aid of a crutch. The injuries sustained last Thursday proved quite painful, and it will be several weeks we fear before he has good use of his foot.

W. D. Benson and W. H. Bledsoe are off on legal business in the courts at Amarillo this week.

To the Citizens of Lubbock

The Chamber of Commerce is very desirous that the literature which it sends out from time to time, shall reach the right people. Therefore we ask you to give us the names of any number of people whom you would like us to send literature. If you have any friends who might be interested in what Lubbock is, add their names. By getting a good list we will be better enabled to do the most good. Please mail or hand this list to the Secretary as soon as possible. Sign your name at the bottom, so we may know who is helping us.

The above circular is being sent out to various citizens of Lubbock, with the hope that they will act upon this request. If we can get such a list, it will be of great service to us. Should you get no blank, send in a list any way.

Geo. W. Briggs, Secretary.

A WOMAN'S SACRIFICE

God Almighty did not create man to hide behind the petticoats of a woman. God Almighty did create man to be the protector of womanhood and to assume responsibility for his own blunders whether criminal or otherwise. William Sulzer of New York scored a pitiful finish. It was not a dramatic one. It was not heroic. He did not place his back to the wall and face his foes like a man with red blood in his veins and iron in his heart. There was no climax on the Sulzer side. A woman loved the sorely tried governor of New York. Loving him, she offered herself as a sacrifice. He accepted it, but the world over men who are manly will forgive the woman and turn away in disgust from the man. Even if she had been guilty of using his campaign funds for gambling purposes in Wall street, it was the duty of the husband to have faced his foemen and to have gone down with drums beating and flags flying. In Sulzer there is a yellow streak. When a man has the yellow streak in his makeup he cannot hide it. When the time for action comes the streak appears. When there is

a call for manhood to show itself, the braggart appears and the weakling takes his place. Governor Sulzer must face trial. He has been impeached by a legislature composed of members of his own party. He has been branded as a derelict by the man who placed him in high office. He has been weighed and found wanting by the men with whom he associated daily for twenty years. It may be possible for him to disprove the charges of his political enemies. He may be vindicated by the court of last resort. He may retain his seat and serve out his term as governor of the greatest state of the union. He may do all this. But the cowardly acceptance of the sacrifice of a woman to save him from public ignominy and political death is a crime against manhood that will never be condoned by the men of the empire state. His enemies did not crucify him. William Sulzer crucified himself. Fort Worth Record.

HE WAS A MAN

The term "speed mania" is expressive of more than "one who goes recklessly." Speed mania is a disease and the speed maniac is one who goes recklessly "because he can't help it." Such an one is not to be harshly blamed for fast driving of an automobile; he is to be excoriated for driving an automobile at all. The Fort Worth man who sold his automobile because he found he could not resist the temptation to purr along the road at the rate of sixty miles an hour, showed common sense, and this he backed up with his will. Unable to control his desire for speed as long as he owned the car, he "took thought of the morrow," said "I will not!" and gave up the tempter. He was something of a man. Hillsboro Mirror.

MEET THEM ON THE LINE

Just as soon as the surveyor's stakes are set, work will begin immediately on the Lubbock road to the county line, and it is expected that all wagon and auto travel will turn over this road and Lubbock will be asked to come across with their part of this work, as the road will certainly be a great thing for them, and we believe the business men will fall in line. Terry County Herald. There should be no delay in meeting the road workers from

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a running ear or the mucous lining of the tube is thickened and you have a deafening roar in the ears. The inflammation can be taken out and the tube restored to its normal condition; hearing will be restored. No other cure is known. We will give you a full refund if you do not get relief. Write for circulars, free. F. J. CHENEY & CO., Toledo, O. Soft by Druggists. Take Hall's Family Pills for constipation.

this end of the line. There should be a graded road all the way from this point to Brownfield. Lubbock is the place, the Terry county people want to trade if they can get the right kind of road to travel over, but they are going to go to the place where the road is better, and we don't blame them. If the Terry county people are anxious enough to put their road in good condition to the county line, then Lubbock surely will meet them at the county line. Now is the time to get busy.

In the House last Friday, Representatives Humphrey, Fuller, McDaniel and others introduced a joint resolution looking to the calling of a constitutional convention to frame a new constitution for Texas. The resolution provides that an election is to be held on the first Tuesday after the first Monday in November, 1914, for the purpose of voting on the question whether or not a constitutional convention shall be called. In the event that the proposition prevails, the Thirty-fourth legislature is directed to pass the necessary laws for holding the convention, election of delegates, which is to be in 1915.

The Optimist Vs. The Pessimist

Two gay frogs, from inland bogs,
Had spent the night in drinking,
As morning broke and they awoke,
While yet their eyes were blinking
A farmer's pail came to the wale
And caught them quick-as-winking.
Ere they could gather scattered senses,
Or breathe a prayer for past offenses,
The granger grave—that guileless man—
Had dumped them in the milk-man's can;
The can filled up, the cover down,
They soon are started off to town.
The luckless frogs began to quake,
And sober up on cold milkshake.
They quickly find their breath will stop,
Unless they swim upon the top,
They swim for life and kick and swim
Until their weary eyes grow dim,
Their muscles ache, their breath grows short,
And gasping, speaks one weary sport,
"Say, dear old boy, it's pretty tough
To die so young. But I've enough
Of kicks for life. No more I'll try it,
I was not raised on a milk diet."
"Tut, tut, my lad," the other cries,
"A frog's not dead until he dies;
Let's keep on kicking that's my plan,
We may yet see outside this can."
"No use, no use," faint-heart replied,
Turned up his toes and gently died.
The braver frog, undaunted still,
Kept kicking with a right good will,
Until, with joy too great to utter,
He found he'd churned a lump of butter,
And climbing on that chunk of grease,
He floated round with greatest ease.
Moral
When times are hard—no trade in town—
Don't get discouraged and go down,
But struggle still—no murmur utter
A few more kicks may bring the butter.

Our Second Shipment of Deering Ideal Row Binders Has Arrived

I can now supply your orders for the celebrated Deering Row Binder. If you want one they are ready for you. All you have to do is hitch your team to one and pull it into your field and go to work harvesting your crop.

The Deering Ideal corn binder makes a big saving possible, not only in manual labor, but also in the number of hands required and wages and board for extra men. At the same time, the corn binder does from five to eight times as much work per day under average conditions as a man would do. Tall and short corn is handled with equal ease. The corn binder can pay for itself in a short time under such favorable conditions. When a corn grower becomes acquainted with the merits of the Deering corn binder, he would not be without one, as its great superiority over the old hand methods becomes quite apparent under actual observation in the field.

The corn binder will be found of special advantage when the green corn is to be cut for immediate feeding to stock, or put through the stamper, as a large area can be cut quickly to conserve the plant juices when the corn is in just the right condition to cut for these purposes.

ROLLER AND BALL BEARINGS

Roller bearings and ball bearings are used on the Deering corn binder making it run much lighter than is generally supposed for a machine of this kind.

CUTTING DEVICE

The cutting mechanism on the Deering corn binder consists of a reciprocating and two stationary knives. The large-reciprocating section cuts the stalks that are not completely cut by the stationary knives, and also cuts all tough weeds, vines, or green undergrowth between the hills.

BUNDLE CARRIER

The bundle carrier is of a large capacity, strongly and substantially built, and correctly located. It is tripped by means of a small foot lever convenient to the operator.

THE ROSS ENSILAGE CUTTER

After cutting your feed crop with the Deering Binder you will want to put a lot of it in a silo and the Ross Ensilage Cutter which I am offering for sale and now have on exhibition is the most practical and one of the very best on the market. Come in and get full particulars about it. See the machine now. We want to tell you more about it, but have not the space to devote to it here.

Other Features

The interference by stalks or weeds is eliminated by the use of several adjusting bell knuckles instead of rings, pins, cotters or ordinary knuckles.

The driver's seat is so located that he can see and control the entire machine and also give the proper attention to the team.

The conveyor chains carry the stalks in an upright position to the binding attachment immediately after the corn is cut, without any unnecessary handling. These chains can be adjusted to meet varying conditions of corn.

The Deering Corn Binder leaves a clean, even stubble.

The binder is of proper width so that neither the main wheel nor the grain wheel run on the rows of stubble.

The binding attachment can be adjusted forward or backward the same as on the grain binder.

A 3-horse evener is regularly furnished with each machine.

I am prepared to furnish you with Deering Binder Twine too, and it is recognized as the very best. If you own a binder you need a Deering Knife Grinder, which I have in stock. It's worth its weight in gold, but costs much less. Ask about them.

Chamber of Commerce Column

A subscription to the Chamber of Commerce is an investment, not a donation. We have no initiation fees, and we do not tell you what you should pay. And \$1.00 per month is as willingly accepted as \$100.00, if that is the measure of your idea of what you should invest in the development of your county. Any one can belong.

It is the concerted effort that wins. The initiative in all great movements may have been given by individuals. But the day is past when the leadership of the individual can take the place of the concerted effort. Citizens of a thrifty, growing city like Lubbock are all partners in a great enterprise. It is the duty of the partners in an enterprise, as if certainly should be their pleasure, to make that enterprise a success. Even the least can help some. Are you doing your share?

Read the request on the first page of the *Avalanche*, and act immediately. Send in your list, even though you do not get a blank. This list will be very valuable in our work, but only as you help make it so, by sending in the names.

THE SELFISH MAN

Reading people are entitled to know that there is a manufacturer in the city who made possible the following story. That manufacturer may recognize himself, but his obstinacy was unaffected by the pleading and the arguing of the committee, and it will not be moved now that, sans identity, he gets into this column.

That manufacturer declined to take a membership in the Chamber of Commerce. "I don't want to belong. I wish you luck," is all that he would say. He could not be induced to give any reason for his refusal to belong. Then he was taken in hand by one of the men of the committee as follows: "You made all your money in Reading, didn't you? What did

you ever do for the city? You came to Reading to make money, didn't you and you've made it haven't you?"

"I pay taxes," said the man. "But you don't get any credit for that," was the answer. "You have to pay taxes or the city would be after you. You don't get any credit for doing what you have to do."

"I have given employment to labor," the man offered.

"Yes, but you never gave employment to anybody that you didn't want," he was told. "And you are one of the selfish kind," was the continued rejoinder, "who wants to sit back and watch the others work for the town while you do nothing for anybody."

You help boost your city by spending money at home. And then you have a certainty of getting some of that money back, in the way of business interchange. See the point?

You get your living out of Lubbock or in Lubbock. Do you make the return all good citizens should, by helping the city along the road to greater prosperity and growth?

A visit to the State Experiment Farm shows many interesting features. Mr. Corey is experimenting with various products, trying to find out what is best for this country. For instance, he has 51 kinds of cotton growing on the place, and several varieties of many other crops. The farmers of this section would do well to get acquainted with the superintendent. Mr. Corey informs us that he will have some seed for sale this year, such as Sudan grass, which, he says is one of the best crops for dry farming, taking the place of alfalfa, which can best be grown only with water.

Geo. W. Briggs, Secretary. Your neighbor knows his majestic range uses little fuel—bakes perfectly—keeps abundance of water good and hot and costs practically nothing for repairs. Let us show you why. Call during our demonstration week, Sept. 1st to Sept. 6th inclusive, Western Windmill Co. 7 2t

Miss Wren Jordan leaves this week on an extended trip including in the number of places to visit, Comanche, Stephenville, and finish her journey at Temple, where she will enter King's Daughters Sanitarium, to take training as a nurse. She will be accompanied as far as Comanche by a nephew of Mrs. Jordan, who has been visiting here several weeks.

Don't ask us to give you the \$8.00 worth of ware with a majestic range after our demonstration week, as that special offer applied to that week only Sept. 1st to Sept. 6th inclusive, Western Windmill Co. 7 2t

Rev. J. T. Hicks, presiding elder of the Plainview District was here Sunday and preached at the Methodist church at the 11:00 o'clock hour. Monday morning a business session of the quarterly conference was held and the business of the church looked after. The pastor's report was very satisfactory and shows great progress in the church work. It is the expectation that the report at the end of the year will be one of the best that has ever been made from this work.

BOUQUETS

The bouquets tossed the News by the newspaper boys at different places are appreciated very much, and we wish to assure everyone that as long as we remain in Matador we will get out a good paper. If we can't get patronage enough to enable us to get out a good paper we can very easily go where we can get patronage, but we sincerely believe that the business men of Matador will give us the patronage a good, spicy local paper deserves. Our reception in a social way has been one of the most pleasant experiences of our lives and, like Micawber, we confidently believe that something will "turn up" in a business way very soon.—Motley County News.

We like the noise the Motley County News editor makes. He is a man of our own style. Bouquets are nice to wear to Sunday school or a social gathering and pretty to ornament the room with, but they are not accepted at the window of the bank for deposit. They do not swell the bank account one bit. It takes money and heaps of money to run a good paper, and we have no patience with any other sort. If people do not think enough of their town and the man that runs the paper to give him their business and their moral support he is lacking in back bone and self respect if he does not get up and hike—shake the dust of their town off his feet and go where he is appreciated. This old world is too big to while away life in places where we are not wanted. We like the way the News says it. If the business men and citizens of Matador and Motley county don't tie on to the News they are lacking somewhere.

VALUE OF ADVERTISING

W. Holt Harris, Chairman Mercantile Committee C. S. Association says: "It is easy enough to distinguish between the store that advertises and the one that does not. One is packed with customers who eagerly buy the goods for sale while the other is conspicuous by the absence of purchasers. Nowadays the merchant who does not advertise is doomed to certain commercial death and while the demise is sometimes slow and without clamor it is inevitable nevertheless. Up-to-date men of business realize this and yearly set aside

a fund for advertising. The money appropriated for this department is looked upon as an investment rather than an expense, just as a person sometimes invests money in real estate or stocks and bonds. It is sure to come back with interest, providing of course the merchant delivers the goods.

"Advertising is of little account unless the goods are behind it."

LOVE OF THE BEAUTIFUL

In a recent address Mrs. E. P. Turner, Chairman Rural Homes and Schools, Farm Life Commission in part said: "We should give more attention to beautifying the home and its surroundings. Nature has given us every facility for making the premises attractive. The most beautiful and luxuriant vegetable growths in the world abound in their natural state in Texas and they are easily transplanted and cultivated. The wonderful variety of ornamental shrubbery permits a full expression of our aesthetic tastes.

"It is a sad day for the family when the head of the home gets too busy to make the flower bed, plant a tree and fence the hogs out of the yard. We dislike to think of a mother going through the summer without gathering roses and of children whose sweet faces are never brightened by flowers and who have no shade to play under.

"Unkept premises always make the home dreary and lonely. There is nothing more repulsive than weeds where there should be flowers and grass. No matter how humble or poor, Nature, with a lavish hand, has provided entertainment for us all."

CATCHES A LIVEWIRE

Homer Knowles, former editor of the Messenger, informs us that he has closed a deal for a newspaper plant at Hale Center, in Hale county. Mr. Knowles is well pleased with the outlook for a paper there and feels confident of success. We sincerely trust that all of his desires will be realized.—Motley County News.

The Hale Center Livewire has been successful in jarring loose about a good rounded out half dozen owners, lessees, etc. during the past five years and has the greater part of that time has been lying idle. We wish Mr. Knowles better success however and hope he will make one more good booster for the beautiful South Plains.

Though the vote was uncomfortably close the pool halls were voted out of Chillicothe being 225 votes cast 115 against and 110 for.

A boom has been started to run Senator Claude Hudspeth of El Paso for governor. We rather think Texas has better gubernatorial material.

I. O. O. F. Association

The South Plains Odd Fellows Association met at Post City, Thursday and Friday, August 7 and 8 and a very enjoyable as well as profitable session. The Post City Odd Fellows compose as hospitable organization as found any where, and they made the stay of the visitors among them a real outing.

The public program was held at the Methodist church in the afternoon, commencing at 4:30 o'clock, and the audience gave close attention to every number, and highly enjoying this part of the Association meeting. Following is the program given:

Invocation by the Rev. J. T. Howell of the Methodist church. Song, Opening Ode.

Address of Welcome on behalf of the City, the Rev. Nicholson. Response, R. J. Murry, of Slaton Lodge.

Address of Welcome on behalf of Post City Lodge No. 727, I. O. O. F., A. L. Daren.

Response, Jno. W. Baker, of Lubbock Lodge.

Reading, Miss Viola Talley, of Slaton.

Address, "Fraternity," R. A. Baldwin of Slaton Lodge.

Reading, Miss Bertha Proctor of Slaton.

Address, "Odd Fellowship," L. P. Loomis, President of the Association.

At the night session the Slaton Lodge was given the banner on the rendition of the First Degree. Slaton took the banner at the 1912 session, also.

The business session of the Association was called to order at the Odd Fellows Hall on Friday at 8:30 o'clock a. m. by President Loomis. The committees were assigned their work, and the Association adjourned until the afternoon session.

The Association went in a body on an inspection tour of the Postex cotton mills, and the treat that awaited the visitors on this trip was indeed a surprise.

The mills are very complete, taking the cotton out of the wagon when it is picked, ginning it, converting it into thread and weaving it into cloth and finishing the cloth into pillow slips and bed sheets.

The Association reconvened at 2 o'clock and finished the business of the Association at the election of officers. M. J. Edwards, of Post City, was elected President and R. A. Baldwin, of Slaton, Vice-President; and Mrs. Jno. W. Baker, of Lubbock, was elected Second Vice-President and Mrs. W. W. Royalty, of Lubbock, was re-elected Secretary-Treasurer. The visitors were treated to a watermelon feast and an auto ride. The ride as well as the visit to the mills displayed more than ever the large amount of money Mr. C. W. Post, of Battle Creek, Mich., is investing in making his town a little city of beauty, prosperity and civic culture.—Slatonite.

A SURE REMEDY FOR LAZY LIVER

Go to the Red Cross Drug and Jewelry Store for this Safe, Reliable Remedy and Get Your Money Back if It Fails

There are very few remedies that gain the confidence of druggists as Dodson's Liver Tonic does. The Red Cross Drug and Jewelry Store sells it and backs up the sale of every bottle with the money back guarantee that the price will be refunded if it fails to give complete satisfaction.

Dodson's Liver Tonic costs 50 cents a bottle. It is the safest and best remedy for torpid liver, constipation, biliousness, etc., that has ever been sold in this city. It takes the place of dangerous calomel and does not lay you up as a dose of calomel often does. A bottle in the house is as good as fifty cents in the bank. If you or your family need a liver tonic you have the medicine ready. If it fails you get your money back.

Be sure you get Dodson's Liver Tonic when you ask for it. There are imitations of it that may disappoint you.

Belled Bottles Next
Not many papers are published without carrying an account of the accidental poisoning of some child or grown person. Even doctors and nurses are not exempt from making mistakes. The fact that so many are thus poisoned should cause everybody to use great care in seeing that all bottles are properly labeled and that poisonous medicines are kept out of reach of children, and that bottles are never used the second time and the label not changed. Some writers are proposing a law to compel druggists to use bottles with small bells affixed for all dangerous drugs, the idea being that as soon as the bottle is picked up the bell would call attention to the fact that the medicine is poisonous. The suggestion seems to be a good one. — Abilene Reporter.

LUBBOCK, TEXAS, THURSDAY, AUGUST 21, 1913

Market Letter
To the Avalanche:

Kansas City Stock Yards, Aug. 18, 1913.—After Tuesday last week's receipts of cattle increased and prices eased off a little. Prime fed cattle declined very little from the high time. Kansas grass cattle lost 25 to 50 cents, feeders 25 to 35 cents, butcher cattle 10 to 25 cents, quarantine steers 10 to 25 cents, butcher grades unchanged. Estimators were at sea respecting prospective supply for today, and that item did not, therefore, influence the market last week. Quarantine cattle closed firm Friday, some sales 20 higher. Receipts of cattle today amounted to 24,000 head, and the market is amply able to take care of them. All classes are selling well, butcher grades of natives, quarantine cattle and stock cattle leading in the demand. No great number of dry weather cows are here. Oklahoma shippers report that unless good rains come soon fifty per cent of the cattle remaining in the quarantine district heretofore destined for the fall market will be sent to the cotton seed mills. In Kansas wherever there is old corn on hand a similar policy is popular, as confidence in the winter market for fat cattle is pretty general among stockmen. The large number of buyers from Iowa and states east of the Mississippi here in the last two weeks testified to that. Prime heavy steers sold at \$8.85 today, fair to good \$7.60 to \$8.35, Kansas grass steers \$6.25 to \$8.00, quarantine grass steers \$5.25 to \$6.50, grass cows \$4.50 to \$6.00, veal calves \$7.00 to \$9.25, stock steers \$5.50 to \$7.25, feeders \$6.25 to \$8.00.

Hogs have been selling better since Thursday, including today, when they advanced 5 to 10 cents. Packers show more interest, possibly on account of the growing activity of outside order buyers, who secured 15 per cent of all the hogs that arrived here last week. Quality is also better, and few sales are under \$8.00 today. Top today is \$8.60, bulk \$8.00 to \$8.45. A three car drove sold to a packer at \$3.55. Receipts 5000 here today. Sheep and lambs are selling

stronger since the middle of last week, the best native lambs today \$7.25. Dealers say choice Utah lambs would bring \$7.50 on today's market. Straight Utah yearlings brought \$5.10 today, mixed Utah weathers and yearlings \$4.75, mixed Utah weathers and ewes \$4.40, medium Utah lambs, 51 pounds, \$6.50. Receipts are running light, 5000 here today, and the supply will be moderate for some weeks ahead, as natives are about done running, and Westerns have not fairly started as yet.

J. A. Rickart,
Market Correspondent.

A Note of Thanks
We desire to express our sincerest thanks to all who in any way assisted us during the prolonged illness of our husband and father.

The hopelessness of our efforts has made the last several months very strenuous, and but for the sympathy and timely assistance of our neighbors, we should have been much discouraged before the end came.

But there is no cloud so dark but has its silver lining, no affliction so severe but in the providence of God may serve some beneficial purpose. It takes the night to bring out the stars. Even so, we think, has this trial served to reveal to us the many virtues of heart and soul of our neighbors, and we assure you that, whatever vicissitudes the future may bring us, we shall ever remember your many acts of kindness with the deepest gratitude.

Very respectfully,
Mrs. J. C. Atwood and family.

Farmers Paradise
O. M. Rhea returned Sunday from Glenrose, Somerville county, where he has purchased twenty acres of land. There are two fine flowing wells on the land he has purchased. He will move immediately to his new home. O. M. says the country around Glenrose is a farmers paradise.—Snyder Farm News.

We hope Mr. Rhea will not be disappointed when he gets down there. We hope it will be a paradise indeed, and that he will make good and do good and be good while he is there.

MISSIONARY AUXILIARY NOTES

How glad we were to welcome new members and see the familiar faces of those who had been out of town for some time at our last devotional meeting. To our absent members I would say, if you only realized how interesting and instructive these meetings are you would surely be in your place.

Next Monday we study II Kings and I Chronicles at our Bible Study Lesson. Let every member of the class be in her place at 4 p. m.

"ETERNAL VIGILANCE, ALL AT IT, AND AT IT ALL THE TIME."

This expression taken from Miss Belle Bennett's message at the late Council Meeting would be a good motto for our auxiliaries.

With this before us perhaps we would try harder to enlist the sympathy and aid of the nine-tenths of the women and girls of our church who are not interested in missions. The harvest is ripe, workers are few and money is lacking. We need to bestir ourselves.

The Deaconess Advocate makes the following statement:

The American Bible Society has just issued an edition of the entire Bible in the Chinese Hingwa dialect, using the English alphabet, instead of the difficult Chinese characters. The translation was made by four Chinese scholars under the direction of the missionary, Rev. William N. Brewster, and is sold for about one-fifth of its cost. A striking proof that the bible finds an open door in the new China comes from Hunan Province, where a careful canvass of the business houses of a large city shows that not more than one in thirty of them decline to purchase copies of the Scriptures.

PROTRACTED MEETING

A protracted meeting will be held at the South Side Christian church, in Lubbock, beginning the 27th day of August, 1913, and continue for a period of about two weeks. Bro. J. E. Chase of Benjamin, Texas, is coming with a view of taking the pastoral work of this church permanently and will begin his work here with this meeting. He is an able and experienced minister in both pastoral and evangelistic work and his presence and services will be duly and fully appreciated by all who attend these services. A cordial invitation is extended to the general public to come and take part in all the meetings. Especially will the song services be made an interesting feature and all singers are specially invited to attend and take part. Remember the date. The first service will begin at 8:15 p. m., 27th instant. Officers of Church.

There will be no preaching services at the Methodist church Sunday. Sunday School at the usual hour.

CUMBERLAND MEETING

The protracted meeting began Sunday at the Cumberland Presbyterian church and the services are being faithfully attended. Good preaching is being done, and there will no doubt be great results from the series of sermons that are being preached.

SOME FACTS ABOUT SEAWEED

Great Variety of Use Found for it in Various Parts of the World.

Some interesting facts about seaweeds which are used as food or for producing vegetable gelatines or glues are brought out by Messrs. Perrot and Galin in the French Oceanographic Institute. Seaweeds are not much used in Europe except for alkalies or iodine preparation. In the north coast regions of France the seaweed is used by the peasants as a manure upon the fields. Medical uses can be mentioned, and the variety called Iceland moss is collected in Brittany to a considerable extent, this reaching twenty tons of dry seaweed in 1901. One variety of seaweed is a very good vermifuge, and is extensively used for this purpose in Corsica. On account of the iodine which they contain some seaweeds are remedies against goitre and scrofula. As to food uses, this seems to be limited to the Brittany region, and only the poorer population consumes it. Although limited in Europe, the use of seaweeds as food is widespread in the extreme Orient. In Japan edible seaweed is prepared in a number of ways, and it is much cultivated. Iodine is not manufactured in that country at present. One use is for preparing agar-agar, gelose and vegetable glue. Seeing that the gelatines from this source are scarcely nutritious, the authors explain their extensive use by the manner of living, and as the populations consume great quantities of fish and rice it is thought that the gelatinous substances aid in digestion and in the intestinal functions. It is valuable for all mentation and export.—Scientific American

Candles Used as a Clock

Various expedients for measuring time were in use before the invention of clocks. Alfred the Great caused six tapers to be made for his daily use. Each taper was twelve inches long and of proportionate diameter. The whole length was divided into twelve parts of one inch each, of which three would burn for one hour, so that each taper should be consumed in four hours. The six tapers, lighted one after another, lasted twenty-four hours.

Evidently Strong Beverage

"Yes," said the fair young thing, "that punch you have just tasted is made from a recipe that has been treasured in the family for centuries. The earliest authentic record we have of it was in the lifetime of my great-great-grandfather, whose suit of armor stands in the hall." "If you drank much of that punch," observed the young man, who had had two glasses of it, "he must have wished he was wearing that armor on his inside instead of his outside."

G. G. Johnson returned Tuesday

CATTLE RANGES GOOD

Menard, Schleicher and Sutton Counties have had Good Rains - San Angelo Country is Dry

Reports of inspectors for the Cattle Raisers' Association of Texas for the last week, show Texas cattle are generally in good condition. Many of the reports included information that cattle ranges are dry, but all of them stated that cattle are not suffering.

Cattle shipments are light. None of the inspectors told of large shipments of cattle and most of them stated no cattle were being shipped. The inspector in the San Angelo country reported the range dry. In the counties south of San Angelo, Menard, Schleicher and Sutton, there were rains recently and the range is in splendid condition. In part of the country west of San Angelo the range is dry. Cattle west and south of San Angelo are reported to be in good condition. The range inspector for Hall, Donley and Armstrong counties reported the range is dry and crops have been injured.

The Midland country received a heavy rain recently, and the inspector reported that the range is in good condition, with cattle in splendid shape. In the Rio Grande valley conditions are good, according to the inspector. The range at Sinton, Kingsville and Brownsville is in good condition. The range at Goliad and Beeville is in good condition. There have been no recent cattle shipments. The inspector at Del Rio, Eagle Pass and Spofford report good ranges and cattle in good condition. -Fort Worth Record.

ASSIGNMENT OF TEACHERS

Supt. Wester Announces Assignment of Teachers for 1913-14 Session of the School

Following is the assignment of teachers for the Lubbock public schools subject to such changes as the superintendent and board think best for the interest of the

school: English, G. N. Atkinson; Latin and German, P. F. Brown; History and Civics, W. T. Bowers; Mathematics and Science, H. P. Webb; Mathematics, J. K. Wester; seventh grade and Spanish, Miss Mary V. Beard; sixth grade, Miss M. L. Walker; fifth grade, Mrs. F. V. Brown; fourth grade, Miss Johnnie Collins; third grade, Miss Deane Lowe; high second and low third, Mrs. W. S. Norton; second grade, Miss Grace Rucker; high first, Mrs. R. R. Haynes; low first, Mrs. J. K. Wester; music, Miss H. Brown.

School will begin the first Monday in September, which is the first day. We hope parents will have their children ready and enter them the first day of school and send them regularly

during the entire term as the success of the child depends largely on his being in school every day. Children under seven years of age may be admitted by paying tuition at the rate of \$1.50 per month in advance, provided they enter by the first of October, as after this a new class will have to be formed for these little fellows—they may enter again the first of Jan. 1914.

If your child is seven years old any time during the session and you intend sending him to school please start him the first of the year so that he may be graded with the rest of the children.

The last legislature extended the scholastic age to twenty-one years, hence all pupils living within the Lubbock Independent School District who will be twenty-one years of age after September the first, 1913, are entitled to the benefits of the public school without paying tuition, and those living outside of the district will have to pay tuition, unless their parents become bona fide citizens of said district.

Pupils from seven to seventeen may be transferred, but pupils over seventeen cannot be from

the fact that they were not enumerated for the year 1913. Everybody is invited to attend the opening exercises of the school Monday, September the first at 9:30 a. m.

Family and Other Relatives Attended Funeral at Big Springs Last Week

The Big Springs Herald gives out the following additional information regarding the families of Riley and Smith the principals in the recent murder at Slaton: "Riley made his home in this city many years, and while here he was engaged in the real estate business and bore a good reputation and was a quiet and peaceable citizen.

"J. W. Smith was 35 years, eight months and 21 days of age, had made his home in this city a number of years; conducting a furniture store here until recently. He was at present engaged in the drug business having recently purchased the drug stock of A. L. Wasson. He was a good citizen, a kind husband and loving father and the heart-felt sympathy of our people go to the sorrowing wife and two sons. The remains were brought to this city from Slaton on passenger train No. 3 Monday night and funeral services held at the family residence at 10 o'clock Wednesday morning conducted by Rev. A. C. Miller.

"In addition to a wife and two sons deceased leaves a father, four sisters and two brothers. Two sisters Mesdames D. A. Brown, of Comanche and W. A. Schrader, of Athens, were here to attend the funeral; his brothers, M. I. Smith, of Adamville and N. S. Smith, of Humboldt, Tenn., were unable to reach here until Wednesday night."

LUBBOCK GETS DIRECT SERVICE
Change of Train Service on Texas and Pacific Will Furnish Lubbock Better Train Service

The time between Fort Worth and Lubbock will be shortened a half a day. Aug. 31 with the establishment of the new train service on the Texas & Pacific, now scheduled by George D. Hunter, general passenger agent.

Train No. 1 will be made up in Fort Worth and will leave the Texas & Pacific passenger station at 8 p. m. and arrived in Sweetwater the next morning at 5 o'clock. This train will connect with the Santa Fe at Sweetwater, giving direct service to Post City, Lubbock, Plainview and all Staked Plains points on the Santa Fe and its connecting lines.

San Angelo will receive direct service via the Orient. Mr. Hunter has just returned to Dallas from San Angelo, where he conferred with Orient officials. The Orient will change its time so that its train will leave Sweetwater at 5:30 a. m. and arrive at San Angelo at 8:30 a. m. Returning from San Angelo the train will leave San Angelo at 7 p. m. and arrive in Fort Worth

at 6:55 a. m.

The new train will carry a through Pullman car from Fort Worth to San Angelo. The car will contain a drawing room, twelve compartments, electric lights and fans.

Connection will also be made with the Wichita Valley at Abilene and Haskell counties practically a double service.

People living along the Santa Fe and Orient will be able to come to Fort Worth during the night, spend the day in the city attending to business and return the following night. Fort Worth Star-Telegram.

SPECIAL DEMONSTRATION

And Sale On
Great Majestic Ranges

ONE WEEK ONLY Sept. 1st to Sept. 6th ONE WEEK ONLY

SAVE \$8.00

As a special inducement during our demonstration week only, with every MAJESTIC RANGE sold (prices always the same) we will give free one handsome set of ware as illustrated here.

Every piece of this ware is the best of its kind. Not a piece that is not needed in every kitchen. It cannot possibly be bought for less than \$8.00. This ware is on exhibition at our store. **DON'T FAIL TO SEE IT.**

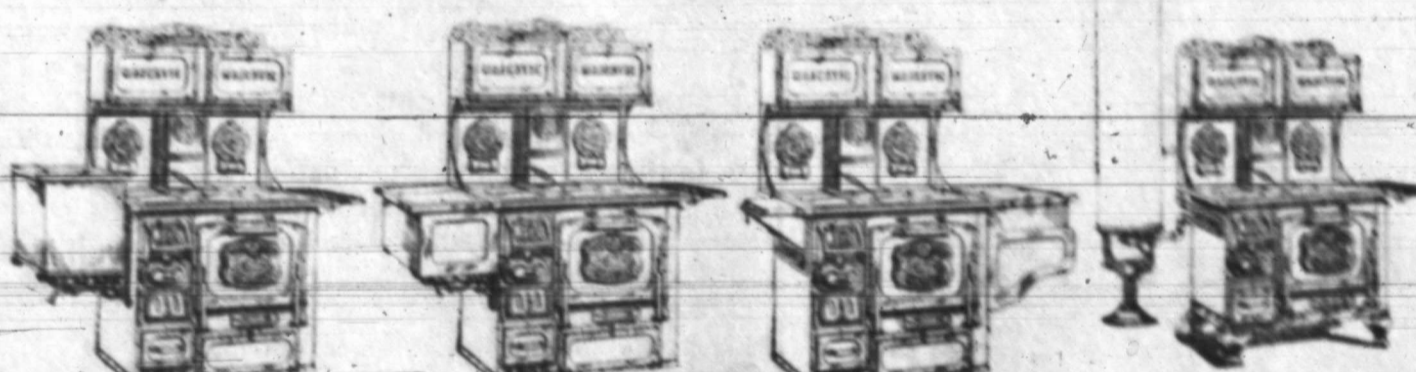

SPECIAL

All during this week a special demonstrator direct from the MAJESTIC FACTORY will be glad to show you "ALL ABOUT RANGES"—SHOW YOU why the MAJESTIC is the best range on earth at any price.

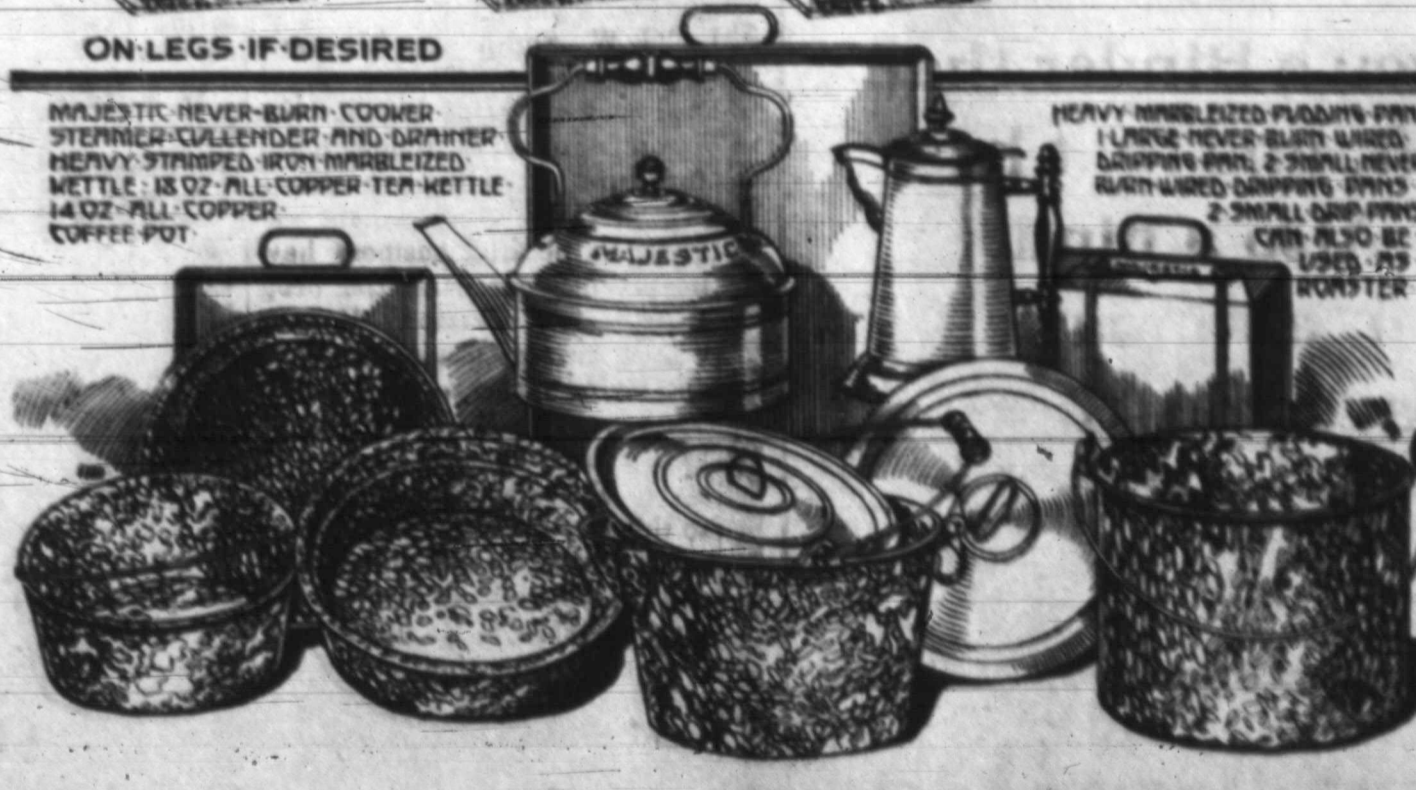

COME, IF YOU INTEND TO BUY OR NOT EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. DON'T OVERLOOK a chance to KNOW THINGS shown by one who knows. COME.

SET OF WARE FREE

MAJESTIC RANGES ARE MADE IN ALL SIZES AND STYLES

ON LEGS IF DESIRED

MAJESTIC NEVER-BURN COOKER STEAMER-COLENDER AND DRAINER
HEAVY STAMPED IRON ENAMELED KETTLE - 18 OZ. ALL COPPER TEA KETTLE - 14 OZ. ALL COPPER COFFEE POT

HEAVY ENAMELED PLATING PAN - LARGE NEVER-BURN WARE DRIPPING PAN - 2 SMALL NEVER-BURN WARE DRIPPING PANS - 2 SMALL GRIP PANS - ONE ALSO BE USED AS ROASTER

WHICH SHALL IT BE?

Do you intend to continue laboring, burning valuable fuel and destroying high-priced food with that old, worn-out cook stove?

You know that old stove eats up a lot of fuel each year.

You know that you have trouble in getting it to bake just right, in fact, spoil a batch of bread every once in a while, you know it costs considerable for yearly repairs.

Stop and think and figure.

Wouldn't it pay you to buy a good range—a range with a reputation—

THE GREAT MAJESTIC MALLEABLE AND CHARCOAL IRON RANGE?

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos board—parts being malleable can't break—has a movable reservoir and an oven that don't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), boils 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "sight unseen," you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges where most ranges are weakest.

AGRICULTURAL PROSPERITY
Diversification Has About Solved the Agricultural Question in the Lone Star State.

The Montgomery Advertiser mentions the fact that the only eight counties in any State which produce over 1,000,000 bales of cotton are the counties of Collin, Ellis, Fannin, Kaufman, Hill, McLennan, Navarro and Williamson, which produced in the aggregate last year 1,024,713 bales, and it adds: "No doubt prosperity abounds in those eight counties, but we have a curiosity to know if a great many of the farmers in those counties do not buy much of their corn from Kansas. We have some great cotton growing counties in Alabama, but we are ashamed to confess that Alabama still continues to buy a great deal of corn from the West."

In order to enlighten our contemporary about these great cotton-producing counties, we will say that it is improbable that a bushel of Kansas corn finds its way into one of them. These are not only the largest cotton-producing counties of the State, but they are likewise heavy corn-producing counties. Acreage and prospects considered, these counties ought to produce this year 1,200,000 bales of cotton and from 25,000,000 to 35,000,000 bushels of corn, with probably 5,000,000 bushels of oats.

It is one of the fundamentals of Texas prosperity that crops are now so diversified the majority of farmers have to buy very little corn except in years that are unusually dry. With favorable seasons from this time on, the corn production of the State ought to reach from 150,000,000 to 200,000,000 bushels. This is not a large yield for Texas, considering the vast needs of the State, but it means that few farmers will have to buy from Kansas.

Moreover, Texas farmers are now going heavily into forage crops, and even where the corn yield is not heavy, the corn requirements will not be large.

Diversification has not accomplished all for Texas that is desirable, but it is making fine headway and he may hope that before another decade passes every Texas farmer will be able to live at home and have other money-crops besides cotton to enrich him.

Years ago, Texas was considered a very poor corn state, but it now ranks about sixth or seventh, and it is but a question of time until first place is reached, not to be surrendered save in years of exceptional seasonal misfortune. We are learning how to make corn even in dry weather, and the acre yield is steadily increasing. Scientific farming, once rare in any part of the state, is gaining adherents by the thousands annually, and the old shipshod methods are giving away as men come to understand that agriculture is a science of first magnitude requiring trained minds and hands.

Texas is far in the lead of the south in this respect. This may not show in average yields for the reason that the man with the

NINETY ACRES, BALE PER ACRE

It was a pleasure of the editor this week to visit the farm of Mr. Day near Estacado, and we will say that he has the best all-round crop we've seen in Crosby county. He conducted us all over his farm and in the field we found 90 acres of cotton, and it is simply fine. Mr. Day says that with reasonable showers during this and next month he

will make 90 bales off this cotton.

His corn, kaffir and maize are equally as good. He was harvesting his millet and stated that it would make more than two tons per acre. It certainly is as fine as we have seen. Truly, Crosby county is making the crop this year.

Post City Post

Last week the annual Convention of the I. O. O. F. for this district was held in Post City and the attendance was excellent. Many delegates and visitors were present and almost every county in the western part of the state was represented, either directly or indirectly. The program and work done was interesting and profitable and was highly beneficial to all who attended. On Friday evening the meeting adjourned and on Saturday the visitors returned to their homes, after what we hope was a pleasant visit to our city, and left our people with a most pleasing memory of their meeting with us.

Last Wednesday morning a fire alarm was turned in and in a

short time the streets were filled by an anxious crowd. The fire was located at John Pou's residence in the southern part of town and was put out with little difficulty. Damage was slight and the building practically uninjured.

J. M. Teague returned Monday from Plainview where he has been for the past month. Mr. Teague states that from Lubbock on the north to Amarillo, and on into Kansas it is extremely dry and the crop prospects are very discouraging.

Commissioner's court met in Seminole Monday morning, it being time for the regular quarterly term. The court went through its regular routine of business and adjourned Tuesday at noon.

The court has inspected the road work that is being done on the public road between Seminole and the county line east and found the work progressing nicely. We understand Lamesa is taking steps toward improving the other end of the road and that actual work will begin in the near future.

A protracted meeting has been in progress at the Methodist church this week with C. H. Ledger of Seminole doing the preaching assisted by the pastor the Rev. Callaway.

Considerable interest has been manifested. The preaching has been an inspiration and draws good crowds at both the morning and evening services.

Mrs. C. S. Fields and daughter, Clara, of Fort Worth, and Mrs. W. H. Sewell and son, William, of Abilene, Miss Manley, of Stamford, are visiting Mr. and Mrs. A. B. Robertson out at the ranch this week.

Mr. Dow of Lubbock, father of the editor of the Avalanche, is here this week in the Methodist meeting which is being conducted at the Methodist church. He has been traveling over Texas for the past four or five weeks and especially in the so called best farming sections of the state and he stated here Saturday that the best crops he has seen in his 5 week trip are between Slaton and Lamesa. That means, too, that Slaton country has fine crops for there are good crops in other parts of the state. The Plains are making good in every respect and farmers are in splendid shape.

Elmo Bounds is suffering from slow fever this week. He returned about a week ago from Plainview and was taken to his bed soon after returning home.

J. B. Cate, local manager of the J. M. Radford Grocery Co., made a trip to Crosbyton Monday afternoon.

C. E. Summers, father of Theodore Summers of this place, who has been spending a week or so in this country, visiting his son and old acquaintances, left Monday afternoon for his home in Alto, Texas. He authorized us to send him the Avalanche for a year, that he might hear how things were getting along in this part. We will give him 52 big doses for the money paid.

J. J. Fry returned Thursday morning from a trip to Lubbock, Farwell and other points on business connected with the proposed Denver and Gulf Ry. and was well pleased by progress being made on the preliminary work. Big Springs Herald.

J. C. Holly, of Blythe, Texas, was here the first of the week purchasing supplies from our merchants. He states that the greater part of the trade from that part of Gaines county will be done at Lubbock from now on. The prices are better here than elsewhere and the stocks are so large that people can get what they want.

M. J. Patton, Florence Patton, Lee Patton and Lula Aingell, all of Lorenzo composed a party that came over to the South Plains metropolis Sunday, and were guests at the Howard Hotel while in the city.

Mrs. Jas. L. Dow and children returned Saturday from Colorado, where they visited a week with relatives.

Mrs. H. E. Armstrong accompanied by her son-in-law and daughter, Mr. and Mrs. F. Frazier, arrived Saturday afternoon from Long Beach, California, and joined Mr. Armstrong who has been here for several months past.

Mrs. W. H. Wolcott, who has been visiting at the home of Mr. and Mrs. Raleigh Martin the past week, returned to her home in Midland Monday afternoon.

Albert Jones, formerly a citizen of this county, now of Uvalde, came up Monday and was enroute to Crosby county where he will visit relatives for a few days.

Mrs. John Agnew, who had been spending a few weeks at Clyde, returned home Monday morning.

As a new season is near we continue Special Discounts on Low Footwear, Summer Suits, Skirts and other lines.

10 per cent off on ALL SLIPPERS—Nettleton, Walk Over, Queen Quality and others whether priced by us or the manufacturers.

15 per cent off on ALL SUMMER SUITS.

15 per cent off on ALL SKIRTS.

Remember our values in Suits and Shoes at regular prices are unmatched, also that it is not inferior qualities, but the best, that we now offer at discount. But you must hasten, already the lines are being broken.

We believe all men will like Nettleton and Walk Over Shoes and all women will like Queen Quality Shoes, because there are certain things in these shoes they all want, namely: STYLE, which means right lines. COMFORT, which means right fit. FLEXIBILITY, WEAR, which means quality.

In most shoes you get some of these qualities, in those just mentioned you get all of them. That is why they are preferred—why discreet buyers the world around wear them—why we offer them to you.

There is considerable Slipper season yet. Come in and let us fit you up.

A handsome foot counts for nothing in an unshapely shoe. But if a woman's shoes look well, her feet will look well. A million women wear "Queen Quality" Shoes for this reason alone.

When you leave work put on our Good clothes.

GET BACK IN THE ROUND HOUSE

We do not "work you" on the price when you buy clothes from us. We want your trade for life, and we go after it with just two things; QUALITY and VALUE. You can't go out of OUR store with a suit that does not fit you as it should; we wouldn't let you. You can't get poor stuff from us at any price, WE DON'T KEEP IT.

No sweat shop labor makes OUR clothing.
