LUBBOCKITES WENT TO BROWNFIELD

MANY LUBBOCK BUSINESS FIRMS WERE REPRESENTED IN THE NUMBER WHO VISITED BROWNFIELD MONDAY

BROWNFIELD PEOPLE LIKE TO TRADE HERE

Interested in Getting Better Roads to Our Town and Commissioners are Favorably Inclined Toward Connecting With Lubbock Road and is Now Doing Considerable Road Work in This Direction

According to previous announcements, there was quite a bunch of representative business men of Lubbock who composed a party that went to Brownfield Monday to meet the people of that town and county on a "renew-acquaintance" trip, and to talk over trade relations, good roads and everything else that tends toward the mutual interests of the two towns and the country adjacent.

The party left Lubbock about 9:30 a. m., and after a brisk drive in the required number of autos necessary to carry the number without uncomfortably crowding, we arrived in the county seat of Terry county a few minutes before J. R. Hill rang the dinner bell. After enjoying a splendid dinner at that popular hostelry, we began to mix with the Brownfield people, meet our many old acquaintances and form new ones.

The business men of Brownfield seemed to be enjoying a nice trade, and as it was during the monthly session of the Commissioners' Court, there was quite a number of people from the rural districts, and we had a opportunity of meeting and conversing with farmers and mechanics, and learned through them that everything is in fine condition in Terry.

We found the Terry county people most friendly toward Lubbock and like to do their trading at this point, the bad and crooked road having to be a few miles to other points, and they are interested in the better roads proposition. They are glad to know that Lubbock is succeeding so nicely in putting a road through in their direction that means a shorter route and better road-bed to our town. Not only the people in general are interested, but the Commissioners of Terry County are doing a great deal toward building better roads through the county. The several directions from Brownfield, one of which is Lubbockward, and we are confident that this road will be connected with the road that Lubbock is putting through toward Brownfield, and the outcome will be a better, straighter road to and from Brownfield and Lubbock.

The Brownfield people want to come to Lubbock, and we want them to come, and good roads will get them, regardless of distance, and we will have good roads.

En route home, we side-tracked enough to visit the feed pens of Tiersh and Scully, who had a number of fine-looking young steers on ensilage feed as we have ever seen and they were just about ready to go to the market. The city is popular among the stock raisers of the Terry county, and a number of additional livestock feeders cooks will be put up during the coming summer and fall.

The trip was a profitable one, and in the near future Lubbock merchants and business men are planning a more extended trip into the town, east and southwest.

We extend to each and every one a hearty "Come-to-Lubbock!"

ASPIRES TO STATE OFFICE

John W. Baker, President of First National Bank, Aspires to the Office of State Treasurer

To the Democracy of Texas:
Yielding to the wish of my friends and prompted by my personal desires, I hereby announce my candidacy for State Treasurer of Texas, subject to the action of the Democratic Primaries.

If you see fit to elect me to this high office, I promise to give you my very best service, and believe that my 15 years of active business life will enable me to discharge the duties of the office in an efficient and satisfactory manner.

I reside in a portion of our state that has had but little representation in the state official family at Austin, having had but one member.

This section of the state, extending north from the San Angelo branch of the Santa Fe, and west from the Abilene & Southern, and Abilene & Northern Railroads, contains 75 counties, with an area of about 70,000 square miles, with a population of 100,000, being considerably larger than the combined areas of the eight smallest states of the Union, feels that it is now entitled to a place in the State House, and trusts that the good people of the balance of the state will assist it in obtaining this deserved and worthy distinction.

In connection with my announcement, I desire to submit the following brief history:

My father, Robert Baker, with his father's family, came to Texas from Alabama in 1831, and settled near Bastrop, Texas. He, with two brothers, James and Obed, were soldiers of the Confederacy, as was also my mother's two brothers, J. R. and W. D. Woods.

I was born in Bastrop county in 1871, and at the age of 11, with my father, moved to Williamson county and settled on a farm. I obtained my education in the public schools of that county, and I also taught two years in that county.

In 1888 I removed to Taylor county, and in 1891 I accepted a position with George Clayton, General Merchant-Business, Abilene, Texas, and remained in his employ until 1898, when I became connected with E. S. Hughes Company, Wholesale and Retail Hardware Dealers, of Abilene, Texas, which position I held until April, 1904, when I moved to Lumberton, Texas and engaged in the mercantile business.

I located at Lubbock in 1907, and in November, 1908, was elected Assistant Cashier of the First National Bank, and served in that capacity until January, 1910, was elected Active Vice-President, and served as such until January, 1911, at which time was elected President of said bank, in active charge of it, and am still holding that position.

I am a Proctedive, Woodrow Wilson, Prohibition Democrat, and an active member of the Baptist church, the Masonic, Odd Fellows, and W. O. W. lodges.

During my lifetime I have held many positions of responsibility and trust and refer with pleasure to those whom I have served, as to how I discharged my obligations.

If the sovereign voters of Texas see fit to elect me to the honorable office of State Treasurer, I will have the honor and the responsibility imposed, and shall endeavor to preserve the honor, and discharge the responsibility to the satisfaction of the citizenship of the greatest state in the Union. J. W. BAKER.

BOYS' PLAYGROUND

The members of the South Side Christian church voted Sunday to establish and maintain a boys' playground on their block of lots, just south of the church. Committees are at work, perfecting plans, which will doubtless take concrete form within the next few days, and progress satisfactorily made to assure the opening by spring. We feel that this is a move in the right direction, and a playground under suitable supervision will be a fine thing for the boys and meet a long-felt necessity.

A complete write-up of the project will be given in those columns as soon as the detail are worked out by the committee in charge. It is interesting, see either the pastor or Sunday school superintendent, J. D. Quick.

E. H. Campbell and family, of Oklahoma City, were in Lubbock Tuesday, enroute to Austin, New Mexico, on a pleasure trip.

A. E. Weaver and family have returned from Waco.

THE FARMER'S SIDE

Spectator Writes in Defense of Farmers Buying Abroad if Merchants Put in Competitive Crops

Lubbock, Tex., Feb. 8, '14.
To the hustling men of Lubbock,
About the discussion concerning "Mail Order Houses," and the farmers of Lubbock vicinity patronizing the same, and by so doing are working against themselves, etc., I believe there are two sides to the same proposition. Let it be said, to begin with, I have never patronized a mail order house for anything I could buy at home. Fundamentally, I believe the principle involved is wrong. The more question of price is not a sufficient argument to weigh in the scales of justice.

And yet, can you blame the farmer? Everyone knows that for a long time he has not been able, in this country, to make more than a living at the business of farming. Last year there was introduced and purchased a new fair product, known as Sudan grass, which was found to be both productive and a valuable crop to raise. For the first time in years the farmer was to have his business. What was the result? Every business man nearly in town has reacted at least in preparing to own, rent or plant Sudan grass this year. That is not all, they are now trying, some of them, to contract their crop at a fixed price, which can only have one effect, viz: to greatly lower the price of wool next year, and to increase the production, which will also tend to reduce the price and discourage the industry in the future.

I am of the opinion that the "business" man persists in the destroying the business of farming, that he cannot complain if the farmer buys his goods elsewhere. There is no valid argument that can weigh in favor of the man in the mercantile business engaging in the production of Sudan grass, that will not weigh in favor of the farmer buying his goods away from home. Will any business man attempt to justify his course in this particular? Does his business man engaged in the production of Sudan grass in the year 1913, is destroying the farming business that ran. If he argues not, let him keep still when the farmer buys his goods away from home for the same reason.

A SPECTATOR

♦ ABERNATHY HAPPENINGS ♦

Mrs. E. P. Cross left Friday morning for Odessa, Texas, where she will visit relatives and friends. Mrs. Geraldine O'Neal, who has been attending school here, accompanied Mrs. Cross.

Mr. and Mrs. Will Miller became the happy parents of a new boy last Saturday morning.

Mr. Struve, one of our merchants, is having some improvements made on his place this week.

We had a small attendance at Sunday school last Sunday, on account of the bad weather.

The children of Mr. and Mrs. E. J. Jones, little Ruth and Robert, are up, but little Ruth is not doing so well at present.

The sale of Mr. Miller's last Wednesday was well attended.

The ladies of the Methodist and Baptist churches served a dinner, proceeds, \$18, to go for church purposes.

Mr. McElwee has about completed an underground silo.

The experience of farmers who shun in this part has proven very satisfactory, and others now talking of erecting silos this year, with the hope of thus realizing better results from their crops.

Rev. D. C. Ross is this week attending the Presbytery and Missionary Institute at Ft. Worth.

Four or five cartloads of Abernathy people under the leadership of Mrs. Tom Fletcher and Mrs. Lashley Crow, went to Ft. Worth last Saturday night and put on two plays. They report a good time.

EXCLUSIVE TOUCH

The Women's Missionary Society of the First Presbyterian church extends a general invitation to all members of like organizations of other churches to meet them at 3 o'clock p. m., on Wednesday, Feb. 18, '14, at the home of Mrs. J. S. Johnson.

The chief feature of the afternoon will be a talk by Mrs. Wagoner, on her experiences as a teacher in a Mission school in Egypt.

Messrs. J. S. Robinson and R. D. McElwee presented the South Side Christian church with a beautiful official "commemorative service" book, Feb. 1. The object of the contribution was the three excellent church women for their splendid gift.

LUBBOCK NEEDS FIRE PROTECTION

PRESENT FIRE-FIGHTING FACILITIES ARE INADEQUATE TO THE NEEDS OF THE TOWN

MUST GIVE DEPARTMENT BETTER EQUIPMENT OR QUIT

Effort Will Be Made By Business Men to Raise Sufficient Funds to Purchase Auto Truck For Firemen's Use—It Means Much, and Business Men and Property Owners Should Take Interest

There is no question as to the truth of the above statement. When we watch the efforts of our so-called "auto" truck, as it moves slowly, almost unable to carry 400 to 500 feet of hose besides the driver, we wonder just when it will happen that we will have a destructive fire.

There are several reasons why we need a better auto truck. In the first place, the present outfit, when it does go as it should to a fire, is unable to carry a sufficient supply of hose for use in a large fire. There are also many houses which are now out of reach because of the small amount of hose carried. As it is now, if a fire should start, only a few hundred feet from the last hydrant, the fire company would be helpless until they made an extra trip to headquarters for more hose.

We understand that the city has money to use in such a purchase, but of what value is it at the city hall? It is a well-known fact that the first few minutes of a fire are the time to put it out. Every minute's delay means additional difficulty in stopping the destruction. Many a fire that has destroyed hundreds and thousands of dollars' worth of property might have been put out with little or no damage, if the firemen could have reached the scene with the proper apparatus at the proper moment.

At the present time, Lubbock is very scattered, and often the firemen must go a long distance to reach the fire. A large number of the fires are out of reach of our present water system. The city has a fine chemical engine in the city hall, but it stands there useless, as there is no way of getting it to the fire. Many a fire could be extinguished by this chemical engine without the use of water, which often does more damage than the fire. Many a home which is out of reach of water could be saved if the chemical apparatus could be taken quickly to the fire, but there it stands, useless!

We have as willing and skillful a

bunch of firemen as can be found in any volunteer department. These men have responded fine after time, risked ruining their clothes, and worse, to save property in this city, and they should be given a great deal of credit for their faithfulness. But they are about discouraged. They feel, and rightly, that after such efforts for the sake of the city, with an outfit that is utterly inadequate all this time, that it is about time for them to get a better equipment, or quit entirely. We are informed that such is the situation, that unless something can be done to better conditions, we are liable to lose our firemen. And who can blame them?

What can be done? Here is the proposition: With an expenditure of about \$1,000 an adequate fire truck can be obtained which will not only carry hose for use, but several firemen at the same time. Upon this truck can be mounted the city's chemical engine. And with all this load this truck will be able to travel over 25 miles an hour if necessary. Think of what this means. It means that it will enable the department to reach scores of houses that are now beyond reach. It means that every house in the city can be reached in a few minutes with the chemical, and thus many a house can be saved that would otherwise burn. It means that enough firemen can be carried on the truck to use the chemical instantly, or to start one or more streams of water on the fire. In other words, it means that many a building that under present conditions would burn, could be saved.

The city, at the present time, is unable to purchase such an outfit, so a committee of business men will be appointed soon, and they will wait upon the citizens and raise this amount. If the people of Lubbock can be brought to realize what it means to have an equipment that will do the work, it will not be difficult to get the money. You know the next fire may come to you, and then what? We understand that several of the leading business men have stated that they would subscribe liberally to such a fund. They realize the need.

MILLAN WELL A DANDY

New Pumping Plant Started up Tuesday is Proving a Great Success—Splendid Flow of Water

A number of Lubbock people visited the McMillan ranch Tuesday morning to see the new pump and engine. Mr. Vaughn now has a 95-horse power Deere engine, and 1,200-gallon American pump. The two were producing the goods all right, and everything was running smoothly. The installing engineer stated that with such an outfit, three inches of water could be put on an acre of land at a cost of 40¢, plus the expense of spreading the water. He estimated that 10 acres could be irrigated in a day, and when the land is laid out right and properly ditched, one man can handle the water. Ten acres at 40¢ per acre, plus the wages of one man, is \$3.20 or 52¢ per acre for a three-inch run. But suppose it took even three men to handle the water, it would cost but 81¢ per acre for irrigation.

In this country, where but two or, at the most, three irrigations are made in a season, and with such an irrigation the crops can be doubled, it seems as though an irrigation plant would be a good thing for every farmer.

Men who have studied the irrigation problem where they depend upon the flow of water for their water, state that such a plant would be a good thing for every farmer.

Mrs. J. A. Jordan left Wednesday afternoon for Fort Worth, Stephenville, McKinney and other points, where she will visit relatives and friends for several weeks.

We heard recently of a man, who sold his irrigation farm in Colorado for \$500 an acre, and came to the Plains and bought land. He states that he believes that his land in the Plains is worth more, acre for acre, than his \$500 land was. He also says that the well irrigation proposition has the other beat in every way.

With an engine such as Mr. McMillan has installed, a man can start his machinery to work and go away and leave it for a half a day, knowing that it will run and do its work. This engine burns fuel oil, which costs but 7¢ per gallon.

A. C. Buchanan was in the city Wednesday. He says he is getting real tired of bacheling—Mrs. Buchanan having been gone about two weeks on a visit to her sick mother.

Mrs. J. A. Jordan left Wednesday afternoon for Fort Worth, Stephenville, McKinney and other points, where she will visit relatives and friends for several weeks.

Harry Hall, who worked in W. S. Norton's jewelry repair shop during the absence of Mr. Norton, returned to his home in Sweetwater, Friday of last week.

J. C. Bowles was in from Shallowater, Wednesday, looking after business matters.

J. H. Moore is holding a fire-room training course near his home in the north part of town.

LUBBOCK, TEXAS, THURSDAY, FEB. 12, 1914.

When the Hon. Thomas H. Ball appeared before the Pro Mass Meeting last Saturday at Fort Worth, he received the ovation of his life. The whole meeting went wild. They cheered and cheered him until it looked like he would not get to speak, but finally he got the ear as well as the eye of the throng, and his words were words of wisdom. He spoke like a statesman. He is one of the biggest men among us, and capable of filling any position within the gift

of the Texas people. And they are again turning to him as the one man capable of uniting sentiment and concentrating interest in behalf of our great cause. No telling what will happen within the next few weeks; but it will happen right! On with the battle!—Texas Christian Advocate.

BY MRS. D. ROBINSON

(Delayed)

Mesdames Ratliff and Ed Vaughn entertained the Aggie Embroidery Club, Friday of last week, at the home of Mrs. Ratliff in West Lubbock. Mrs. Bryant and Mrs. McDonald are to fill the vacancies made by Mesdames Dow and Norris.

A very pleasant and profitable afternoon was spent, chatting and embroidery. Refreshments were served to the following: Mesdames R. I. Barksley, McMurry Richie, L. E. Baker, Biggers, F. E. Craig, Downing, Lindsey, Atkins, Chase, Oscar Tubbs, Craig, Vaughn, Ratliff, Misses Reed and Burns.

The club will meet with Mrs. Atkin, Feb. 4th.

Mesdames Merrill and Cosby entertained the Wednesday Needle Club at the home of Mrs. Cosby last Wednesday afternoon. The invited guests were Mesdames Davidson, Robbins, Haynes, Wagner, Woodridge, Ed Robinson, Gibbs, Ballinger. After a very pleasant afternoon, refreshments of marshmallow pudding, cake and coffee were served.

The club will meet with Mrs. Woodridge the second Wednesday in February.

Mrs. O. L. Slaton was hostess for the Auction Bridge Club Tuesday afternoon. Mrs. S. P. Robbins won high score. Delightful refreshments of ham sandwiches, apple pie with whipped cream and tea were served to Mesdames Moody, Powell, John Penney, Peebler, Rush, Smith McWhorter, Priest, Robbins, Thomas, D. Robinson, Boerner, Posey, Sowder, Merrill and Mrs. Kimerlin, of Clovis.

The club will meet with Mrs. S. P. Robbins, on the third Tuesday in February.

Mrs. L. B. Wright entertained a few of her friends to an elegant 6 o'clock dinner last Saturday evening, in honor of Mr. Wright's birthday. The table with its beautiful linen, cut glass and flowers was the admiration of all present. The center-piece was a lovely bouquet of carnations and ferns. Mrs. Schenck assisted Mrs. Wright in serving. Courses of soup, turkey and accessories, salads, cake, coffee and ice cream were served to their order and only those who have been fortunate enough to partake of Mrs. Wright's hospitality and knew of her skill in the culinary art can realize how delicious each course was to the guests.

After partaking of dinner, the party was entertained with some excellent music, vocal and instrumental, rendered by Mrs. Hopkins, and the evening was one long to be remembered, and on bidding our friends goodbye, each wished Mr. Wright many happy birthdays, and that we might have the honor to be with him on many more such occasions. The invited guests were Judge and Mrs. Schenck, Mr. and Mrs. Donaphan and daughter, Mrs. J. S. Johnson, Mr. and Mrs. Hopkins and Judge and Mrs. Haynes. —A Guest.

Clement Moore

Married, at Cleburne, Texas, January 6, 1914, Mr. Perry Clement, of Putnam, and Miss Mildred Moore, of Lubbock. The wedding took place in the hotel parlors at Cleburne, the bride being the guest of her former friend and schoolmate, Mrs. O'Hare, who was formerly Miss Hattie Robinson of this place. The parlors were beautifully decorated for the happy occasion and an elegant reception was tendered the young couple by Mrs. O'Hare and her Cleburne friends. Miss Mildred is the youngest daughter of Mr. and Mrs. C. B. Moore, and has lived in Lubbock for a number of years. She is a young lady of charming personality and sterling worth; she graduated with honors from our public school and has since held several responsible positions in our city. She numbers her friends by her acquaintances, and Mr. Clement is indeed to be congratulated in having won so charming a bride.

Mr. Clement is a young man of fine Christian character and splendid bus-

iness qualifications. He was connected with the Radford Grocery Company here for two years as bookkeeper, and was held in the highest esteem by his employers. He is at present in the grocery business for himself at Putnam, Texas, where he and his bride will reside.

The best wishes of the Lubbock people will go with them to their new home.

MR. LAZARUS OPTIMISTIC

Believes That Money Matters Are to Soon Loosen up—That Railroads Will Then Extend

Mr. Sam Lazarus, of St. Louis, president of the Q. A. & Pacific, says: "Opportunity makes thieves of all."

This was a preface remark when he was asked what the effect of the "currency law" will be on the financial situation of the country. Mr. Lazarus believes that as soon as the locations of the proposed regional banks are announced, business conditions will show marked improvement and money panics will be a thing of the past, so far as this country is concerned. "Which would you rather have," he asked, "a clearing house, John Smith, or Uncle Sam's John Smith?—Uncle Sam's of course." Mr. Lazarus predicts that within three months, the money situation in the Southwest (and in this section, too) will be easy; in fact, will be normal. Mr. Lazarus is a long-headed man of business, and usually sees clearly into a financial proposition, therefore his views are that the new currency legislation eliminates the opening statement that "opportunity makes thieves of all," because it removes the chance for such financial buccannery as had grown up under the inflexible currency system which has, under President Wilson, been relegated to the graveyard of national horrors. MIGHT LEAD PROS PRICE OF ORIENT FIXED
Houston Man Answers Telegram Sent From Waxahachie—Will Do What He Thinks Best for Principles
Line Will Probably be Bought in By a Committee Representing The Bondholders

Waxahachie, Tex., Jan. 28.—That Thomas H. Ball, of Houston, might be willing to lead the prohibition forces as their candidate for Governor in the present contest, should the piece be tendered him by the county mass meetings to be held in February, or in the Fort Worth Convention announced for Feb. 21, is indicated in a telegram received from him this afternoon by a local newspaper.

Mr. Ball's telegram was in reply to a wire sent him this morning, in which he was asked the direct question, "if he would accept the nomination of the Fort Worth Convention for Governor, if the other candidates would get out of the way?" After quoting the question in his reply, Mr. Ball said:

"I have no right to expect other candidates to withdraw in my favor. I have no reason to believe they would do so, only one expressing such a willingness, and that one only suggesting my name with a number of others."

"I do not know that the county mass conventions to be held Feb. 14, of the Fort Worth Convention on the 21st, would desire my nomination over that of some one of the announced candidates or some one not announced."

"Should the unexpected conditions which you mention happen, and those named by me occur, I will do what I think is right and best for the advancement of the principles which I have at heart. I sincerely hope that the occasion will not arise for any action on my part."

Community Co-Operation

Copyrighted Farm and Ranch-Holland's Magazine. By R. K. Phillips.

Not long since, I was making a drive through a North Texas county. The contour of the country was rolling, with strips of woodland alternating the cultivated fields. On making a turn in the road came upon a recently built community school house. It was painted white, with green blinds, and set in grove of native oaks. There was an air of abundance, prosperity and progress about the very building. It seemed to say: "I am the representative of this community; look on me and you will know the kind of men who built me, and the manner of children who will come to me to be taught."

That building did typify the community, as I found afterwards. The parents of the school were honest, law-abiding Americans of more than average thrift and intelligence. They had voted bonds and built the school house and seated it, and there was a special tax to supplement the state funds for the payment of the teachers. Two teachers had been employed for a period of seven months, and both patrons and children were looking forward to a happy school year.

Now, I believe that such schools are the hope of the American people today. We need thousands of them dotting our broad land, and we need teachers who will go into them and teach our boys and girls the essential principles of right living. Furthermore, we need to train up the coming generation to stay at home and stay in the country, and not be holding out constantly to them the allurements of city life, and the great rewards that are to be gained in the learned professions, politics or commercial pursuits. We have enough

merchants, lawyers, doctors and politicians, such as they are, and judging from the present drift, the supply is not likely to run short, but we do need more men of sense and sinew, who are willing to help solve the problems that are giving our people so great concern today. Oratory won't do it; theorizing in any shape or form will do but little good. It is going to take hard work, backed up by common sense, to get out of the woods.

As has been preached by Farm and Ranch for years, the country school should be the nucleus of the social life of the community. It should be the place where the grown people, as well as the children, could go for instructions; and it should also be the place where all could get recreation and amusement.

But before much can be done there must be the individual desire to better conditions, to get out of the rut we are in at present. So, coming back to where we started, it is up to individuals, scattered here and there, in country, in city and in town, to begin the good work in their own particular communities, and then to keep it in progress. We do not need to go back to the little red school house of our fathers, but we do need to go forward to a better school house than any which our fathers have ever dreamed.

THE STATE OF TEXAS

Whereas, by virtue of a certain order of sale, issued out of the District Court of Lubbock County, Texas, in Cause No. 763, wherein A. M. Clayton, as plaintiff, recovered judgment against H. W. Colvard and Mrs. Gertrude G. Calvin as defendants, for the sum of \$2,017.62, with interest on said sum at the rate of 8 per cent per annum from the date of said judgment, which was November 28, 1913, and for cost of suit, I did on the 4th day of February, 1914, at 5 o'clock p. m., levy upon the following described tracts of land, all being situated in Lubbock County, Texas:

Lots 11 and 12, in Block 94, in the original town of Slaton, Texas, together with two certain houses located on said lots; also one certain dwelling house which is located on Lot 6, in Block 44 of the original town of Slaton, in Lubbock County, Texas; and on the 3rd day of March, 1914, the same being the first Tuesday in said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the court house door of said Lubbock County, Texas, I will offer for sale and sell for cash at public auction, all the right, title and interest that the said H. W. Colvard and Mrs. Gertrude G. Calvin had or held in and to said above described tracts of land, on the 4th day of March, 1914, and at any and all times since said date; and will apply the proceeds of said sale to the payment of the balance on the judgment aforesaid.

Witness my hand this 4th day of February, 1914.

WIN QUARANTINE FIGHT

E. B. Spiller Notified that Assistant Secretary of Agriculture Withdrew Recommendation to Repeal Law

Secretary of the Cattle Raisers' Association of Texas, E. B. Spiller was notified by wire Wednesday morning of last week, that Assistant Secretary Galloway, of the Department of Agriculture, had withdrawn his recommendation, for the repeal of the law of 1884, according to the Fort Worth Record of Feb. 5th.

This is a great victory for the Cattle Raisers' Association of Texas, which inaugurated and led in the fight against this law. The announcement was made in a bulletin, issued in December by the Department of Agriculture, to the effect that part of the law of 1884, permitting movement of cattle from below the quarantine line to interstate markets for immediate slaughter, should be repealed, and before cattle from below quarantine line could be shipped to any market other than those in the state in which produced, they would have to be clipped twice under government supervision.

Cattle Raisers' Association Protest The Cattle Raisers' Association of Texas, seeing the great loss that would result from the repeal of this law, and the uselessness of this action, immediately protested and took steps to prevent the repeal of this part of the statute.

Delegates from the Cattle Raisers' Association of Texas to the American Livestock Association meeting, recently held in Denver, prepared and introduced resolutions on the subject, which were unanimously adopted.

All the different state handling Texas cattle supported the Texas Association in its stand, even in states above quarantine line, as they recognized the unfairness of the proposed action.

Many Cities Pass Resolutions At San Antonio, El Paso, San Angelo, Fort Worth, St. Louis, Kansas City, Oklahoma City and other points as well, resolutions were adopted protesting against the repeal of certain parts of the law, and these resolutions were forwarded on to senators and congressmen and pressure was brought to bear in every quarter to have the measure stand as it is.

Oscar Callaway, representative in congress from the Fort Worth district, was one of the leaders opposing the repeal of the measure, and it is estimated that the cattlemen of Texas will be saved \$3,000,000 that they would have lost in the next four or five months, had the recommendation of the assistant secretary of agriculture been passed.

The Cattle Raisers' Association announces that they are going to continue to fight the tick, and point with pride to the vast area that has been cleared during the past two years.

W. J. VESEY vs. No. 581

J. F. BUGG, et al. Whereas, by virtue of a pluries execution issued out of the District Court of Lubbock County, Texas, on a judgment rendered in said court on the 18th day of December, A. D. 1912, in favor of the said W. J. Vesey and against J. F. Bugg, as principal and F. O. McWhorter and L. W. Roberts as endorsers, in Cause No. 581, on the docket of said court:

I did, on the 20th day of January, A. D. 1914, at 1 o'clock p. m., levy upon the following described tracts or parcels of land, situated in the District Addition to the Town of Lubbock, Lubbock County, Texas, and known as Lots Nos. 18, 17, 18, 19 and 20 in Block 27; and Lots 1 and 4, in Block 24; and Lots Nos. 18, 19, 20 and 21, in Block 41, as the same are delineated upon the map of said addition, as the same appears of record in the Deed Records of Lubbock County, Texas:

Said real estate levied upon as the property of the defendant J. F. Bugg and was levied upon to satisfy the balance due on said judgment, being the sum of \$14.85, with interest thereon at the rate of 8 per cent from March 4th, 1912, and cost of suit. And on the 3rd day of March, A. D. 1914, being the first Tuesday in said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the court house door of said county, I will offer for sale and sell at public auction for cash all the right, title and interest of the said J. F. Bugg in and to said property.

Dated at Lubbock, Texas, this 20th day of January, A. D. 1914.

TEXAS AND THE LEGISLATURE

Announcing that he will not be a candidate for re-election, Representative Crisp of DeWitt makes some observations that are worthy of attention. He stresses the importance of legislative service and deprecates the insufficient pay of the members. It is quite true that the legislative office is one of commanding importance to the people, especially if its duties are performed intelligently, honestly and patriotically. It is also true that there is much legislative failure, due to many causes not necessary to discuss here, and yet we recall no legislature since reconstruction of which it cannot be said that it accomplished much good. Sometimes people are inclined to blame the personnel of the legislature for its shortcomings, and in some respects the personnel has been to blame, but on the whole, the Texas Legislatures have been intelligent. There has been, in the judgment of Texas farm and fireside, too much brawling over prohibition for 10 years past. The harmony of the body has been destroyed by irreconcilable differences at times, and this has caused many of the public interests to suffer. Very likely these differences would have arisen if the ablest men of the state had constituted the legislative body, since behind the legislature there was more or less excitement among the people. When all is said, however, we must admit that the state exacts too great a sacrifice of men who serve in the legislature. The pay is, indeed,

ridiculous, and under present conditions, many of the best and most competent citizens of the state will not consent to serve. This is unfortunate. If the compensation were sufficient to enable the legislator to pay his actual expenses, the personnel might reach a higher standard. No man wants to give several months of his time to the state and foot the greater part of the bill. When the compensation was fixed at \$5 a day, \$5 would buy more than \$15 will buy now. A salary of \$1,500 a year would not be excessive pay for a legislator, and this could be paid without much greater cost to the state. If the membership of the house were reduced to 30 or 100 members. Members could then serve without rushing to get away within 60 days. They could give every measure careful consideration, and this would be an important gain for the people, assuming, of course, that more adequate compensation would tempt the best and most competent men to offer for the office. Since we are living in a progressive age, it may be that in time we shall have to make some important changes in our legislative system. It has been suggested, for instance, that in view of the large area of the state, and the impossibility of all members knowing existing conditions in every part, that it may be necessary to have half a dozen district commissions, empowered to deal with the strictly local interests of the people of each district, and relieve the state body of all local legislation entirely. That might relieve the gov-

eral body of so much strife over precinct, county and other questions involving the local welfare and personal rights of citizens, leaving to it the broader questions of state polity in which no material conflict could arise. We think the better pay ought to be forthcoming, and the district commission system has its merits that are worth investigating, for in time we may be compelled to consider the feasibility of adopting it.—Texas Farm and Fireside.

OPTIMISM IS IN THE AIR

Analyzing and discussing the conditions that prevail in the realms of business and finance, Henry Clews, the New York banker, writes in his current weekly Financial Review, as follows:

The monetary outlook is for prolonged ease for weeks to come, and a steady accumulation of loanable funds; more so than usual at this season. Just now the world's money markets are in remarkable unison, all of them being controlled by cheap money, dull trade, a revival in investment demands and fear of a flood of new issues. In Europe the slackness of business is now an even more important factor in the money market than the strain from the Balkan war, which has practically passed away. Hoardings are now being released and will soon be lubricating the wheels of industry. Naturally, the situation, while improving in Europe, is not entirely free from distrust. Such conditions do not exist in the United States. Happily we are not burdened with militarism, nor is the country suffering in any degree from over-production. On the contrary, scarcity in many lines is a common complaint. If anything, we are suffering from under-production, which is one of the main causes for high prices and prevailing discontent. Our chief grievances have arisen from either deficient or ill-directed legislation, as well as from blind and revengeful hostility to big business, resulting from the latter's past misdeeds. Greater changes in these respects, however, have taken place than are generally recognized. Big business is generally in a repentant mood and quite willing to accede to reasonable public demands. The changed attitude of big business toward the public, and the less bo-

L. B. WRIGHT, "THE HOUSE FURNISHER."

The attitude of the government toward big business, should tend to put the radical agitator out of business and, in time, to soften the public unrest which has had so much to do with impeding business recovery. Since the first of the year, a very sudden change has taken place in business sentiment, for reasons heretofore explained. This rebound has been, perhaps, almost too violent, and a reaction such as experienced this week was perfectly natural. If not desirable, as a restraint upon our mercantile business temperament. Real improvement can be observed in the business situation, as demonstrated in the slow but steady increase in demand for steel products; also a greater activity and steadiness in all the textile markets. The outlook for spring trade is generally regarded as

encouraging, and the universal change from a spirit of extreme pessimism to one of rational optimism is due, in time, to lead to still further improvement, because economic and business conditions at home are essentially sound. Of course, there is more or less distrust of what Washington may do during the session preceding a congressional election, but much confidence is expressed in the ability of President Wilson to restrain radical tendencies. Newspaper reports say that no less than 40,000 men are needed to fill vacancies in British regiments. The advertisement will point out that the young men who enlist will be fed, clothed, housed, get \$2.50 a week pocket money and have free medical attention, as well as receiving a pension at the age of 35 years, if the recruit is not over 18 years old at the time of enlistment. If you are interested in the health of the people of this city, the health of your neighbor, the health of your own family, now is a mighty good time to begin cleaning up. OUR GLORIOUS BROTHERHOOD
Nowhere in the whole country will one find such a close relationship of brotherly feeling as is daily demonstrated among mankind right here in this glorious section of the Golden West. We are brothers here, and we know the beauty of heart to heart existence. A gentle pat on the back, a warm handshake, a smile of greet-

ing—these are the emblems of brotherhood, and we have them with us every day. Life is but a short span, and the journey to the grave is but a few fleeting moments. He who halts along the way to scatter the sunshine of love is a real leader of his race, and makes for higher ideals; higher realisms. Give to the world her just portion of cheer. Give to life your better

part. Join your better impulses to an ever struggling army of soldiers marching to a common victory, and great will be your reward. Every human being is born into the world for a purpose; to fill some niche, and all should be offered up to the great melting pot that the dross may be eliminated and the gold remain. We are soldiers, all, whether we be for the right or wrong, and

he who shows his colors makes due warning of his offerings. Battle for the right. Battle that the golden mood of endeavor shall be yours to command. Join the great brotherhood and march hand in hand. It will mean a radiant sunset and the seed of your planting will be the harvest measure for those who follow.

THE USED-TO-BE DAYS
Mankind hopes for immortality. It is a primal instinct developed into a real belief through educational influences. In this we find the reason for man's belief that the days of yesterday were better than the to-days. Times are continually changing, and it is hard for us to adjust ourselves accordingly. We felt deep satisfaction in old-time comforts and conveniences, but they served their day and were laid on the shelf for more up-to-the-minute methods. Modern methods of procedure mean an increase in action. Old joints, stiffened with rheumatism, rebel against it; they cry out for ease and slow-going. 'Tis but natural, and therefore the white-things are not what they used to be: these are not as good days as the "longago!"
The best time on earth is right now! It is ours. The days that are gone belong to the buried past. The future is based on hope. The right now is ours and it is the golden time of action.
Of course, times change. New needs arise and new conditions must be found to meet them. This makes for progress, and without change we digress into pigmies. Get on the firing line and hustle! It is your duty. It is all of life. It is loyalty to every principle connected with your being. Forget the used-to-be days.

THE LUBBOCK WAY
One bustling dry goods firm in Lubbock had four solid pages of advertising in the Avalanche last week. Lubbock is a good town and has the best country paper that comes to our exchange table. Business men like this dry goods firm make towns, and place the newspaper upon where they can do something else. Any town north whom has to have a good newspaper, and the newspaper has to have patronage.—Molloy County Messenger.
It's the Lubbock way. Our merchants appreciate the efforts of the Avalanche in its portrayal of the advantages of the Lubbock country, and they also appreciate the fact that in order to make their business a success, they must necessarily tell the people what they have to sell, hence the big ads in this paper, the continued growth of the town and increasing trade of our merchants.
Begin now preparing for the county fair this fall, for it's a sure shot.

COUNTY FEDERATION OF CLUBS

It is time that the hum of industry
should be heard from the Lubbock
County Federation of Clubs!
Already, the question is being asked:
What are they doing? Will they
succeed? There is only one way in
which to answer these questions, and
that is by doing something.
The life of the federation depends
upon the individual club, and the
more clubs the greater the strength
and the wider the circle of influence.
Every club be it ever so small, can
contribute strength of membership,
strength of intellect and financial
strength; and each is of inestimable
value in carrying on any great work.
Every community in this county
should have a Woman's Club of some
kind as the leading feature of the
social center idea. Wives and Mothers
of Lubbock County, what are you
doing to keep that spirit of helpful-
ness, co-operation and social inter-
course, that used to express itself in
corn-shuckin's, quilting parties and
debating societies? Are the boys
and girls satisfied on the farm? They
ought to have something to break the
monotony of country life; they should
be given a chance to develop that
community spirit that should charac-
terize every neighborhood.
Unless the rural women organize,
it seems to me that our County Fed-
eration will fail to accomplish the
things that the promoters intended.
Because the strength of numbers is,
or will be in the rural districts.
Mrs. Warner, of Claude, Texas, in
her address before the State Federa-
tion said: "Two-thirds of the women
of Texas are rural women. If their
strength were united, organized and
utilized, they would become the same
power for good in the country that
organized womanhood is in our cities,
and I believe we have reached a
place in our development as a nation
where the Rural Woman's Club must
be! Why? Because the rural woman
needs it, she deserves it, and she
must have the social and mental stim-
ulus that the rural club will bring
her, if we are to hold her in the
country, and the rural woman must
stay in the country; if the city and
nation are maintained.
The rural woman and the city woman
should be brought closer together.
There is a feeling existing between
the two that should not exist, and
can see no better plan to eliminate

this feeling than organization; for,
as has been said, prejudice dies, and
sympathy is born when women work
together for the same object. There
is no East, West, North or South,
when women meet in club work; nor
is it to be presumed that only women
in middle life are to perform this
task,—but the grandmothers, and the
young matrons; and the youth of our
school girls, are all needed in this
great work.
Let rural organization be the fore-
word in this our great undertaking.
It is to be hoped that each com-
munity and each club will put forth
their best efforts to accomplish this
purpose, and, instead of inquiring what
we will gain by this movement, rather
let us ask—what can we, as indi-
viduals, contribute? Let us not hide
our talents within the four walls of
the home, but pass them on to
someone else; let us strive for an
organization in every school district
in our county during the year 1914.
There is a committee appointed to
assist in organizing community clubs,
where their services are needed.
Every member of the federation
should consider it their duty to do all
they can to arouse interest in this
movement.
I would be glad if the clubs of
this county would publish a report
of their work for the year 1913. Let
the people know what you are doing.
There will be a call meeting of the
County Federation during this month.
The date will be announced later.
Each community is urged to send
representatives to this meeting.
PRESIDENT
of Federated Clubs.

BE A BOOSTER ROOSTER AND CROW!
Do you know there's lots of people Settin' round in every town— Growlin' like a broody chicken— Knockin' every good thing down? Don't you be that kind of cattle. Cause they ain't no use on earth. You just be a booster rooster. Crow and boost for all you're worth. Exchange. Scratch for your "hen" and chickens. Point to them the golden grains; But keep crowin' like the dickens For Lubbock on the Plains!

The Chamber of Commerce is becoming more and more a center of activity in the city and county. This is as it should be. Around this organization should center everything which is for the betterment of both county and city. There is nothing selfish in its purpose. We are not working for one class of men, but for the benefit of all. And because we are working for the best interests of all, we need the co-operation of all.

The excursion to Brownfield, undertaken by many business men last Monday, was a success in many

ways. It helped create a still more friendly feeling between the two towns. It has helped advertise the advantages of Lubbock as a trading point. And it has helped crystallize the movement for better roads. We hope that during the coming summer other and perhaps more extended excursions may be made.

Those who took the trip last Monday have come back boosters for better roads. We wish every citizen could travel over some of the roads we bumped over, for it would emphasize the need of getting better facilities into our city.

We are expecting every day to receive our new booklet advertising Lubbock. This is a 4-page book, with a two-colored cover, filled with pictures and interesting facts about our country and city. It is for free distribution, and while we will have only a limited supply, everyone who desires the book and will use it to good advantage, is welcome to come and get one or more.

A bank teller received a \$1.00 check the other day, with 12 indorsements upon it. That means that that dol-

lar went into the hands of 12 different people and served to pay for \$12.00 worth of goods and work. That is just what our money does when we spend it at home. Money sent away never comes back. Money sent here goes from hand to hand and makes things easier for a good many. Why is it, that money is easy when the time comes for the shipment of the winter-fod cattle? Because the stockmen has raised something of value, sold it, and large sums of money come into local circulation. But, suppose every stockman, instead of spending and investing this money in Lubbock, sent away for all his goods, or invested it elsewhere; suppose everyone did that—we would have hard times locally. There is nothing like keeping our money moving locally.

We heard of a farmer in another country who was 14 miles from one town and three miles from another. He did all his trading at the town 14 miles off, instead of the one only three miles away. Why? The town 14 miles distant had built an excellent road past his place, while the other town had not. See?

We understand that the South Side Christian church is planning to build a play ground near their building. The pastor asked the boys what the church could do for them, and they promptly told him. This is a good move. You say, "we have plenty of

room for boys to play in." That isn't the point. Wouldn't you rather have your boy play where you know he is under good influences than not? The years from 10 to 16 are crucial years in the youngster's life; and, "as the twig is bent, the tree is inclined." Many a criminal got his first lesson while a boy. We build jails, etc., to take care of the criminal, which we have, partially at least been to blame for.

ITS GREAT SUCCESS CONTINUES

We are glad to hear that the Tyler Commercial College is continuing to meet with great success, and that its January attendance has been the largest in the history of the school. The institution has at its head a thoroughly experienced business man, he has not only had twenty-odd years' experience in handling commercial schools, but has had much valuable business experience in other lines, and is today identified with a number of Texas' leading business enterprises. Our people realize that a thorough business training comes from one who possesses real business ability and business experience. This is proven by the fact that this institution is the largest school of Bookkeeping, Business Training, Shorthand, Typewriting, Business Administration and Finance, and Telegraphy, in America. They use their own text books—prepared from the standpoint of what the business world demands, rather than that of the theoretical school room. Some merchants are able to do twice the business of others, with the same capital invested. This is due to the difference of the methods of the two men. The same is true of business colleges; the reason that one secures a larger patronage, gives a more thorough training, places more of its graduates into high-salaried positions, is because of its superior methods. We will be glad to see our ambitious young men and women write for a free catalogue of the Tyler Commercial College, of Tyler, Texas, that they may see what other young people have accomplished after spending a few months in this, America's greatest business training school. LANE YIELDS TO PROS

W. P. Lane Decides to Submit His Candidacy to Better Judgment of Prohi. Democrats

Austin, Tex., Feb. 3.—W. P. Lane, candidate for Governor, will submit his candidacy for Governor to the Prohibition elimination convention at Fort Worth, Feb. 21, according to statement from Lane printed in an "extra" of an afternoon paper.

Lane, however reserves the right to withdraw from the convention in the event any "political expediency" develops. Lane, according to this statement, severely scores Lieutenant Governor Mayes for the latter's claim that he can "draw votes from the enemy's camp" and asserts that he (Lane) expects no anti votes, but is certain of success if the pros back him. Mayes already has submitted his name to the Pro Convention.

are usually thin and easily worried, sleep does not refresh and the system gradually weakens from insufficient nourishment.

Scott's Emulsion corrects nervousness by the force of concentrated medical nourishment. It restores the healthy action of body cells, enriches the blood, sharpens the appetite, and feeds the nerve centres by distributing energy and power all over the body.

Don't resort to alcoholic mixtures or drug concoctions that stimulate and stupefy. Get a bottle of Scott's Emulsion for your nerves—nothing equals or compares with it, but insist on Scott's.

FREED FROM CATTLE TICKS

17,000 Additional Square Miles in Eight Southern States to Have Quarantine Raised February 16

Washington, D. C., Jan. 28.—The territory in the South freed from cattle ticks and released from quarantine has been increased by 17,000

square miles by an order issued by the Acting Secretary of Agriculture, effective Feb. 16, 1914, releasing additional portions of Virginia, North Carolina, Tennessee, Georgia, Alabama, Mississippi, Oklahoma and Texas. This action has been taken as the extermination of the ticks which spread splenic or Texas fever of cattle. The total area released

since the beginning of the work in 1906, now aggregates 215,908 square miles, and amounts to about 30 per cent of the territory infected at the time the work was undertaken.

Tennessee is the first of the states extensively infested by the ticks to be entirely freed from this pest and released from quarantine. The order just issued releases a portion of Marion county, which was the last remaining part of the state to be cleaned up and released. The success of the work in Tennessee has been achieved through hearty co-operation by state and county officers and cattle owners with the federal authorities. Several other states have also made rapid progress in getting rid of the ticks and now have large free Moore, Hoke, Scotland, Robeson and New Hanover.

In Georgia—The counties of Morgan and Franklin.

In Tennessee—The remainder of Marion county.

In Alabama—Portions of the counties of Jackson and Sumpter.

In Mississippi—The counties of Clay, Jasper, Smith, Scott and Lawrence, the remainder of the counties of Lowndes, Holmes, Madison, Attala, Rankin, Neshoba, Chickasaw, and portions of the counties of Claiborne, Warren, Yazoo, Sharkey, Bolivar, Newton, Grenada, Leake, Monroe, Jones and Lafayette.

In Oklahoma—The county of Cotton and the remainder of the counties of Tillman, Grady, Craig and Ottawa, and portions of the counties of McClain, Osage and Delaware.

In Texas—The remainder of the counties of Foard, Knox, Haskell and Mitchell, and portions of the counties of Throckmorton and Wilbarger.

The order also provides for a feeding station for non-infected cattle at the stockyards of the Fort Worth & Denver City Railway at Wichita Falls, Texas, in addition to the feeding stations already authorized at other points in the quarantined area.

PAY POLL OR FINE PANHANDLE CATTLE PLENTIFUL

Law Not Generally Known—A Heavy Fine For Non-Payment and Extra Road Work Required

There is a law on the statute books providing a severe penalty for non-payment of poll taxes.

In view of the fact that it seems to be the general impression that a man who does not pay his poll tax merely loses his vote, we are this week publishing a condensed section of the statute, which was kindly furnished us by Atty. G. E. Hamilton, showing that a man will have to pay a penalty and work the road three extra days, if he fails to pay up.

Read the section printed below, then dig down in your jeans and make a be-line for the court-house—its your last chance.

Article 6572, Rev. Stat. 1911, Provides that the Tax Collector shall furnish to the County and Precinct Road Superintendent of his county a list of all those citizens subject to a poll tax, by the first day of May each year, who have not paid such poll taxes, and such delinquent persons shall be subject to three days extra road duty, as a penalty to pay such taxes, and in case they refuse to do the work when summoned, or to pay \$2.50 in lieu thereof, shall be prosecuted and fined in any sum not to exceed \$25.—Matamoros Messenger.

General Freight Agent of Denver Reports Bright Prospects for Northwest Texas Stockmen

According to W. F. Sterley, General Freight Agent of the Ft. Worth & Denver, there are more cattle to be seen along the railroad between Fort Worth and Texline than ever before since the construction of the road. Sterley has just returned from a trip over the Fort Worth & Denver and says the prospects for the farmers and cattlemen in Northwest Texas were never brighter.

"One can see more cattle," he said Friday, "in riding 50 miles on our line, than they could have seen in the panhandle days of the cattle business had they ridden the full length of the road. The great feed crops and the growing grain have brought the cattle into this section of the state for wintering. In the days of long grass and short hay, cattle were not to be seen from the car windows, but now every grain field was well stocked with cattle."

The raising of dairy milk, maize and sorghum in the Panhandle and the northern tier of Texas counties is making that section the feed lot of Texas, says Sterley.

Butter Wanted—Must be fresh and clean, or I cannot use it in my BUTTERFLAKE. Will pay cash.—R. H. Martin. (32-11)

Carl Bethel, the boy supposed to have been the one killed by a freight train near Eastland, the body of which was buried in Granbury, showed up in Cisco from Carbon, last week to meet his father, and returned to Hamilton with him.

Martin's BUTTERFLAKE Bread costs you more to make, but the price is the same to you. (32-11)

Contestants Should Get Down to Hard Work, if They Would Win the Handsome Grand Prize or Cash Ones

The third count closes Feb. 18th. You have a golden opportunity knocking at your door, clamoring for admittance. It is up to you.

Have you seen a track meet? The man ahead has set a hot pace, perhaps for his own good. The trailer is coming into his own on that last lap. It is a magnificent exhibition of gameness the man behind gives as he comes from the rear with pounding feet and breath. At the very tape he snatches victory. It is inspiring.

Between now and the closing day of the third count, Feb. 18th, there may be such an upheaval in the standing of the contestants that the leader of today may be down in the last by that time. They may not. They have shown splendid work in the past and let this be their warning. If they are wise, it will be. Over-confidence has beaten more athletes than you can number.

Any of the prizes are worth winning, and are well worth working for. The Avalanche has pointed out the advantages of the Popular Voting Contest so often that it will not reiterate the wonderful possibilities to the contestants who undertook the race. It is an opportunity that offers itself but once in a life time.

The contest is nearing its final close, so get busy; don't let the days slip by without having gotten together a bunch of votes. Get your friends busy by getting busy yourself—that's what counts. By your endeavors you interest others—an endless chain, which works for your good.

Every interested merchant and advertiser has plenty of coupons and is anxious to give them out when the conditions are fulfilled. Ask for the coupons—get your friends to ask for them. Don't let this beautiful Obermeyer plan, which the Avalanche is giving get away from you. Put on your hustling clothes and most engaging smiles, and go after votes.

Remember to have your friends to trade with the merchants who are giving the coupons.

Remember that many of our leading merchants are interested in the contest, and are giving 25-vote coupons with dollar purchases. Also those who do not understand the rules and regulations of this contest can call at this office or write us and we will go over the proposition with them.

Until the next count we are going to offer the following big bonuses:

For every seven new subscriptions, a bonus of 10,000 extra votes, making a total of 14,200.

For every seven renewal subscriptions, a bonus of 8,000 extra votes, making a total of 11,500.

For every seven back subscriptions, a bonus of 6,000 extra votes, making a total of 8,000.

For every 40 Merchants' Coupons brought to this office and counted by the publisher or one of his assistants, a bonus of 1,000 extra votes will be given, making a total of 2,000.

Coupons for votes on subscriptions when presented at this office by any contestant, will be counted the same as cash toward a bonus. For example, if a candidate presents for coupons for new subscriptions that have been handed to her, together with the three cash subscriptions, she is entitled to a bonus.

Five ten and twenty-year subscriptions are in themselves a bonus, and cannot be counted in the group of seven at more than the value of five, ten or twenty single subscriptions.

These coupons may be collected from any and all merchants who are in the contest.

Merchants' Coupons, counting 25 votes each, can be procured with every cash purchase amounting to one dollar at:
JOHN P. LEWIS & CO.

To the two contestants having the largest number of votes between now and Feb. 18th, we shall divide a cash prize of \$40.00, as follows: To the contestant having the largest number of votes, \$27.50; and to the second, \$12.50. This gives every contestant an equal chance to win this money, regardless of their present standing.

Remember that all votes count on the piano, but the cash prizes have nothing to do with the final count.

The ballot box will close for the third count on February 18, at 6:30 o'clock, p. m.

The following is a list of contestants and the total number of votes received by each at last count:

Mrs. Vaughn	190 000
Mrs. Elgns	149 850
Mrs. Summers	95 850
Mrs. Atkinson	43 725
Miss Mathews	27 100

LUBBOCK LOOKING GOOD
To the average citizen old Lubbock looks good; to the visitor, it looks good; to the investor, it looks good; even to the kicker, it looks good—if he would admit it. In the main, the old town is really in the swim, and those who are here and making it their home seem to be well satisfied with the prospects for the year. Lubbock has no boom on—and deliver us from such—but the growth that the town is enjoying is the kind that counts—its substantial; the buildings that have been put up are substantial, the sidewalk improvements are here to stay, and it all counts a great deal in our favor when people come to see our town. It means more than we often think. Keep the good work going!

Your children will enjoy a delicious slice of Martin's BUTTERFLAKE Bread when they come home from school. It's a health builder. (32-14)

WOMEN AFTER VOTES

Woman's Political Union Will Open Headquarters in Houston, Texas—Ready for Campaign

The Women's Political Union will open soon and begin an active campaign to obtain the ballot in Texas. Sub-organizations will be started in every county.

Mrs. Florence Kelley, of New York, noted suffragette, will speak Feb. 7, and efforts are being made to secure Dr. Anna Shaw, who says she will come if possible, and take part in the fight. To start the campaign, the women yesterday held a cake and candy sale, the proceeds of which will be devoted to the work.

Martin's BUTTERFLAKE Bread costs him more to make, but the price is the same to you. (32-14)

WHEN OUT OF SORTS START YOUR LIVER WORKING

No Matter What Ails You, Dodson's Liver Tonic is Usually a Big Help in Getting Well. Avoid Calomel.

Nine times out of ten, when you are ill or out of sorts, your liver is out of order, and getting it in order again will make you feel better. When your liver is sluggish and torpid, and you are constipated and bilious, it is impossible to feel well.

There is a time when a great number of people took calomel when so troubled. But this is not true today. It has become widely known that calomel often has had after-effects which are even dangerous to the life. The use of Dodson's Liver Tonic instead of calomel has spread wonderfully, because it has proved so beneficial in so many households. Red Cross Pharmacy recommend and guarantee Dodson's Liver Tonic instead of calomel and guarantee to refund purchase price (50c) to you instantly, without question, if you are not perfectly pleased with the way in which it relieves you from constipation, sick headache, biliousness, etc. It "liven's the liver" and is a pleasant-tasting vegetable liquid, easy to take and causes no pain, no gripes, no bad results, no change from your regular duties and habits.

To test Dodson's Liver Tonic is a sensible matter, because you get your money back if you are not satisfied. Remember Martin's new Bread is a guaranteed proposition. If it does not please you, your money will be cheerfully refunded. Tell your grocer you want Martin's BUTTERFLAKE. (32-14)

A GREAT GRAPE COUNTRY

The Lubbock country promises to become one of the very best grape sections in the state of Texas. There are vineyards growing all over this county; in addition to this, there are thousands of additional vines being set this year. Mr. Scroggins, who resides three miles south of Lubbock, has a splendid vineyard which produced much fruit last fall, and he is this year planting over 7,000 vines, which will increase his vineyard to a considerable size.

Remember Martin's new Bread is a guaranteed proposition. If it does not please you, your money will be cheerfully refunded. Tell your grocer you want Martin's BUTTERFLAKE. (32-14)

BIG CATTLE DEAL

The largest livestock deal put through in South Texas for the past 12 months has just been completed at San Antonio. By its terms, Blocker & Jennings purchased all the livestock holdings of Gen. Geronimo Trevino, in Mexico. Ten thousand head of cattle are to be delivered and 1,000 calves will later be acquired. The purchase price has not been announced, but it will run into six figures.

Your children will enjoy a delicious slice of Martin's BUTTERFLAKE Bread when they come home from school. It's a health builder. (32-14)

Charged for Murder of John Stewart At Snyder—Remanded to Jail—Husband Out on Bail

Snyder, Tex., Feb. 6.—Deputy Sheriff posted at the doors of the District Court room have been searching every man that entered to hear evidence in the preliminary hearing of Mrs. Minnie Latham, slayer of John T. Stewart, on January 20th, which began Thursday.

The real motive for the killing has not yet come to light, the only explanation thus far being the woman's statement on the day of the killing, that Stewart had wronged her.

Mrs. Latham and her husband, also under arrest as a result of the killing, sit together in the court room, beside their attorney, and under guard of a number of officers. There has been no demonstration to cause a fear of violence, however. The hearing is being conducted before Justice of the Peace G. W. Brown.

Between 40 and 50 witnesses were sworn when the trial opened. Mrs. Latham, apparently, pays close attention to the proceedings though she seldom speaks to her attorney, and then only to answer a question. She appears nervous and much of the time she keeps her eyes covered with a handkerchief.

TWO KILLED BY AUTO

Two men from Lorrain, Mr. Howell, a merchant and Deputy Sheriff Norrell were killed Friday, near Hermleigh by the overturning of an automobile. They were dead when found, one lying across the other, with the car on top of them.

LARGE SCHOOL APPORTIONMENT

State Superintendent of Public Instruction Announces Apportionment \$2.00 Per Capita

Austin, Tex., Feb. 2.—State Superintendent of Public Instruction W. F. Daugherty today announced an apportionment of \$2.00 per capita for the public schools of Texas, for the month of February. This means the distribution of \$2,997,140 among the public schools for February, there being 1,498,570 scholars. Of this amount \$1,300,190 is appropriated to the common school and independent districts of less than 150 scholars, and \$796,950 to the larger independent districts. Today's apportionment is the largest that has been made during the present scholastic year, and brings the total per capita apportionment, so far made, up to \$3.50, which is just one-half of the total apportionment per capita for the year.

RE-SHIP SHEEP TO NEW MEXICO

San Angelo, Feb. 2.—New Mexico sheep men, who shipped large herds from the New Mexico ranges into this section several months ago, are now preparing to re-ship to that state. Range conditions in that state are said to have improved to such an extent that there is now plenty of grass and woods. The first shipment will be made Tuesday, when Price Henry, a Carlsbad sheepman, will send 6,000 head to New Mexico.

FIGHT ON PROXY SURE

Mayes' Defies Walker—Lane Prepares 2,000-Word Statement and Decides To Keep It Back

Austin, Texas, Feb. 2.—Lieutenant Governor Will H. Mayes today threw down the gauntlet to Judge A. W. Walker, of Dallas, in a communication to the Dallas man, in the course of which Mayes, who is seeking the prohibition Democratic nomination for Governor, denounced that in defiance of the expressed hope, advice and prejudiced belief that proxies will not be allowed, he will urge his friends in every county to send in their proxies to the Fort Worth Convention, in case they cannot attend.

W. P. Lane, State Comptroller and a candidate for the nomination, had prepared today a mysterious 2,000-word statement which he characterized as "red-hot," but after announcing he would give out the statement, he decided to withhold it. It may be given out tomorrow. Its nature is not yet known.

Mayes' declaration makes it practically certain that the big fight of the convention, which will be held in Fort Worth, February 21, will come over the question of whether proxies should be allowed.

"Despite your expressed hope, your advice and your prejudiced belief that proxies will not be allowed," says Mayes to Walker, "I shall urge my friends in every county of the state to meet in their county on Saturday, February 14, instruct their delegates, and urge them to attend the Fort Worth Conference, but where they can not attend, I shall insist they send their instructions and their proxies."

The proxy question, according to Judge Walker's statement, issued last Friday, must be settled on the floor of the convention, and this fact, taken in connection with Mayes' statement of Saturday, tends to indicate that all chances of the candidate bowing to the decision of the meeting in Fort Worth is past.

Mayes, in his statement, argued that if proxies were not allowed, the meeting there would resolve itself into a meeting of several hundred delegates from Tarrant and Dallas, and the surrounding counties, with a mere scattering from the major portion of the state—a division so uneven as to prevent the conference being representative, he claimed.

Taking into consideration that an expressed willingness to submit to the vote of the convention on the proxy question, would imply willingness to accept its verdict on the question of his candidacy, regardless of the decision, there appears to be little likelihood that Mayes' name will go before the meeting at all.

Such a result would leave the name of Cullen F. Thomas the only one certain to go before the convention, though the meeting was called with the understanding that any prohibition Democrat might be picked for indorsement.

ENSILAGE-FED SHEEP

J. A. Wilson Topped the Market With His Ensilage-Fed Lambs And His Young Sheep

Mr. J. A. Wilson has demonstrated to his own satisfaction the value of ensilage as a feed for sheep. He put over 250 yearlings, weathers, ewes and lambs on a combination feed of ensilage and kafir chaps and cotton

seed cake for 50 days, and then shipped them to the market with the following results: The yearlings topped the market by 15c; the weathers, by 10c; while the ewes by not being quite finished enough, went 10c under the highest price, and the lambs received the highest price of the native lambs. He fed on an average of five pounds of ensilage, three-quarters of a pound of kafir chaps and one-half pound of cotton seed cake

GAINES COUNTY SILOS

Ensilage Fed Steers Attract Attention Of Feeders in Gaines County—Other News Items

J. D. McKeen passed through Seminole Tuesday with about 150 head of steers, en route to the Horace Walling place, where they will be placed on silage. These steers have been fed silage and cotton seed cake

all winter at the Blain place, south of town. A large crowd of men was on the streets to view these steers, and they created a great deal of comment. A number of these steers were selected from the herd and weighed, the crowd gazing at their weight. In every instance the weight was considerably under-purposed. The largest steer, "Jumbo," weighed 1,285 pounds; the next largest weighed 1,150, and the balance ranged from 750 to 1,050 pounds. Several pictures were taken of these cattle, and if they prove alright, a cut will be made and the picture reproduced in the Sentinel.

Mr. McKeen, by the assistance of J. W. Byrd, of the State Bank, is demonstrating the value of silage as a ration for steers. In this work the gentlemen are doing a great work for Gaines county. Unfortunately, we have a number of doubting Thomases as to the true value of the silo and ensilage, but having, once been convinced of its true value, our columns will not be slow to take advantage of it.—Seminole Sentinel.

INTRODUCING Martin's BUTTERFLAKE Bread

It should be your ambition to learn to do some one thing better than any other.

So it has been mine to make the best loaf of bread ever made. Why should not a Lubbock man do this?

I have studied the art from the days when it was baked on the crude cone shaped ovens, step by step until this present day. And still I have not been satisfied; I wanted to make a better loaf. I first tried it by hand mixing but found that dough could not be properly mixed by hand. I bought a power mixer, but till I was not contented. I must have a better oven so that the perfect loaf could be baked properly. The results did not meet with me being satisfied. I must be in a brick building where I could keep the temperature under perfect control. This would be an expensive move as it would mean the erection of another oven, and the purchase of a new equipment. But I have never let expense stand between me and my ambition. You know I made the move. But still I was not satisfied. My old formula I had been using was good, but before I advertised BUTTERFLAKE bread it must be the perfect loaf. It must be a loaf when you taste the flavor your verdict would be the "Best Ever."

I am proud of my BUTTERFLAKE bread because I know it will please you. To protect you from the imitations I have placed a small label on the end of each loaf, to let you know its "Martin's Butterflake Bread."

Do not accept any bread without this label if you want BUTTERFLAKE BREAD.

EDISON TALKING PICTURES

Thomas A. Edison, whose inventions for more than a third of a century have held the world breathless and made the tales of the "Arabian Nights" seem commonplace by comparison, has surpassed his own wonder record of Electric light, Phonograph, Kinetoscope and countless other marvels by his latest magical invention—the Kinetophone. Youngest of all the wonderful children of that wonderful brain, but requiring the most of mechanical ingenuity, the most of long sustained and determined effort, it seems destined most of all to preserve for him his title "The Wizard of Menlo Park." The Kinetophone or Edison Talking Pictures, will have their first local presentation at the Lyric Theatre (matinee and night), Thursday, Feb. 19th, with a complete change of program and subjects at matinee and night.
