## WILSON YOUNG PEOPLE MARRIED AT SLATON

Mr. Walter Savell and Miss Essie Coleman of Wilson, were united in matrimony last Sunday afternoon at 4 o'clock at the Methodist parsonage in Slaton, Rev. T. C. Willett, officiating in his usual happy manner.

The bride in this happy event is a daughter of Mr. and Mrs. C. A. Coleman, one of the most honored and highly respected families in the entire community, and she has, by her charming personality and many admirable traits of character, surrounded herself with a large circle of warm and admiring friends.

The groom is a prosperous and highly respected young farmer of that section who numbers his friends by his acquaintances, and is worthy in every respect of the fair girl he has won for his life companion. He was in the service of his country overseas until about two months ago, when he received an honorable discharge. —Slaton Slatonic.

## LABOR ON SOUTH PLAINS UNSETTLED—MANY LEAVING

From the great numbers of laborers who have been on the north plains helping in the harvest of wheat and other small grains, and the many that have been on the south plains in different sections, who passed through Lubbock on every train this week ago, and that our labor in this country is very much unsettled. This is due, we understand to a great extent, by the unsettled and rainy weather which has prevailed over the country.

There have been a great many young boys, that came from the different sections of the state to the plains for harvest work and many of them are now returning home to enter school. However the larger majority of the laborers from Central and East Texas, are now enroute to the oil fields.

This week we also notice a great influx of Mexicans to Lubbock county, many from New Mexico, bringing in from twenty to thirty, at the same time there seems to be as many leaving on trains bound for New Mexico. The local Chamber of Commerce has requests daily regarding the working conditions in this county for fall work. There will no doubt be a great many come here for the cotton picking season.

George W. Briggs and Rev. V. H. Pollard left Tuesday morning for Barstow, where they will attend the Presbytery of the South. Presbyterial church to be held in that city this week.

Mr. Tom Holt, of Idalou, groceryman and grain buyer, was here one day this week attending to business matters.

## RED CROSS WILL MAKE MEMBERSHIP CAMPAIGN

A request urging the Lubbock Chapter of the Red Cross immediately to appoint a local director for the Texas Red Cross Roll Call for 29,000,000 members Nov. 3 to 11, has been received by A. B. Conley, Jr., Chapter Chairman from Alfred Fairbank, Manager of the Southwestern Division, American Red Cross, of St. Louis.

"All Red Cross Chapters and Chapters," Manager Fairbank writes, "immediately consider and appoint their most able citizen to direct their respective campaigns to the end that the Red Cross may be endowed with loyal and interested members and sufficient cash to direct its energies to the remarkable opportunities for service in the United States and in the different Chapter communities that daily are presenting themselves.

"Last year the influenza had made the fighting of the armistice and the Christmas season all interfered with the Roll Call. This year we aim to avoid all these difficulties and in addition we have some 700,000 returned soldiers every one of whom is a prospective Red Cross member.

"There is no reason why the Southwestern Division—Missouri, Kansas, Texas, Arkansas and Oklahoma—cannot reach its quota of 2,000,000 members and why it cannot exceed its splendid achievement of last year of more than 2,500,000.

"The Division Director, as previously announced, will be Edward Hidden, St. Louis banker and financier, who recently has gained wide commendation as chairman of the Welcome Home Committee for returned fighters. The quota for Lubbock will be modest."

## PERRYTON SELECTED AS THE COUNTY SEAT

The opening of Perryton, in Ochiltree county took place on Friday last, and it is said that there were fully five thousand people at the opening. With the exception of the falling of the airplane which resulted in the severe injury of two men, possibly fatal in one case, the opening was a great success. When at a height of from 150 to 200 feet the airplane, with the pilot and a passenger by the name of Thomas, fell to the ground narrowly missing the car of Geo. W. Long, which was filled with the family of Mr. Long and some friends.

At the county seat election, which was held on Saturday, an overwhelming vote was cast in favor of moving the county seat from Ochiltree to Perryton, the vote being 290 for Perryton and 53 for Ochiltree.—Higgins News.

**TAXABLE VALUES OF TEXAS  
SHOW GREAT INCREASE**

Austin, Texas, Sept. 9.—Texas taxable values for 1919 are estimated at \$3,101,000,000 from the tax rolls, which are nearly completed. This is an increase of approximately \$83,000,000 over the preceding year.

While this increase is not as great as was expected by economic observers, they advance two reasons for the shortcoming.  
 First, the three-year drought which extended over a large portion of Texas caused many cattle to be either shipped out of the state or slaughtered. Homes and farms also depreciated under its influence, and business establishments went down in value.

The second cause is perhaps the greatest. During 1918, the period of accumulation of property rendered in 1919, Texas was pouring millions of dollars into Liberty bonds instead of investing it in taxable property.

The tremendous oil development in Texas is not reflected in the 1919 tax rolls, as most of this development was subsequent to January 1, and these rolls are based upon property owned at that time. Tax experts estimate that Eastland county alone will swell the next tax roll approximately \$90,000,000. However, the oil boom came to several counties early enough to double their property rendered this year.

Dallas and Harris counties are the richest, according to the estimate. It gives Dallas \$162,202,400, an increase over the preceding year of \$16,000,000. Harris is credited with \$143,248,522, an increase of \$2,000,000.

**LORENZO FIRM HIT HARD BY  
TUMBLE IN MAIZE MARKET**

We learn this week from the many visitors from Lorenzo, that one firm which has been buying maize this season in that territory was hit hard by the slump in prices; in the inability to secure shipping facilities and the fact that they may sustain through the present wet spell.

This firm has at least seven hundred tons of maize in the field, rick- ed out in the open. They have been trying to secure cars for the shipment of the maize for some time, and now that the several days of rainy weather is on, they go doubt will suffer a great loss by its deterioration.

**ANNOUNCEMENT**

After several years of close observation and careful inspection of the entire state of Texas we are convinced that this section of the country offers wonderful opportunities to the small farmer and we believe that a great future is ahead for it as a cotton growing and stock farming section.

**We Have, Therefore**

Secured at great expense suitable land for subdivision into small tracts which we are now selling to farmers from other sections of Texas where farming lands are bringing high prices, thereby enabling those people to acquire homes in tracts of farming size for less money, and have opened a branch office in Lubbock to handle the sale of this land and other properties.

**We are Now Offering**

these farms at fair prices and on reasonable terms to actual settlers. The land is all extra choice, cat claw land, located near good school and railroad station, in a section well adapted to cotton, corn, and all other feed crops, as well as fruits, truck, etc.

While we expect to dispose of this land to farmers from other parts of Texas, we also offer the people of this section an opportunity to buy, and if you, Mr. Farmer or Mr. Tenant want to acquire a choice farm home on terms that will enable you to pay it out, we shall be glad to have you discuss this land with us.

**The Purpose of This Advertisement**

is to announce to the people of this section that we recognize its merits and are fully convinced that your country will within a very short time be equal to other well developed farming sections of Texas where lands are bringing fabulous prices. Believing this we are willing and ready to do our share in assisting in this development and directing our organization toward the rapid colonization of undeveloped lands, and to co-operate with you with this purpose in view.

**We, Therefore Ask Your Co-operation and Assistance**

Are you now doing your share to bring about this rapid development and are you willing to increase your efforts toward co-operating with us and the other people of your community in making this country a better and more prosperous place to live in?

**A Word About Ourselves**

This firm has been in business in Hillsboro, Texas, for the past 26 years. Our business dealings have covered the entire State. Our motto is **FAIR DEALING TO EVERY-ONE AND HIDE-BOUND HONESTY IN EVERY TRANSACTION.** We gladly refer you to any business organization, bank or individual in our home community as to our record and integrity.

We have built up a large and well equipped organization and are in close touch with buyers from every section of the State. **THEREFORE, if you have land in small or large tracts that you wish to sell, we SOLICIT YOUR PATRONAGE AND OFFER YOU THE SERVICES OF A WELL ORGANIZED SALES FORCE AND OUR YEARS OF EXPERIENCE IN HANDLING YOUR PROPERTY.**

We are also equipped to handle farm and ranch loans at reasonable rates and with liberal pre-payment options.

Our Mr. Wesley Read will be in charge of our branch in Lubbock with offices on second floor of the Lubbock State Bank Building. Mr. Read has had a wide experience in this field of work and is well equipped to handle your business.

We extend to one and all a cordial invitation to call at our office so that we may get acquainted and co-operate with you in upbuilding this country.

There are a large number of persons literally afraid of a hospital and regard it as a disgrace to be sent to one. Yet in fact the hospital is one of the most helpful and needed institutions of civilization, and the natural place of resort in a severe illness, or in case an operation is to be performed. A hospital is equipped so that care and skilled attention can be given far better than in one's own home. Trained nurses

and experienced physicians know better what we need in our sickness and pain than the loved ones of our own family. The old, unreasonable fear of the hospital is a relic of the days when limbs were sawed off without anesthetics amid unpleasant surroundings. All that is changed and the hospital should be welcomed as an institution of mercy, a home of rest and cure.—Hamilton Record.

State Health Officer Goddard has just issued a warning to the people that a renewal of the flu epidemic may be expected during the coming winter. About all the safeguarding that any of the physicians are able to give out is simply to observe closely the rules of health, by keeping the system in good condition, which would likely cast the disease germs off without any ill effect. A very important safeguard for our city would be to have a genuine town cleaning and eliminate all filth and rubbish from the town. This will possibly save more lives in Lubbock than any other one thing should the flu start again.

Judging from reports from Post, there is going to be considerable oil developments in the vicinity of Justiceburg in the near future. The large companies have their geologists at work in the field, and much leasing of lands is being engaged in. There are a number of rigs for tests being erected and within a short time there will be great development of the oil districts in that vicinity.

The rains of the past week, though not appreciated as much by the farmers as some rains have been, the ranchman is in smiles, in anticipation of better range conditions for the winter. All people cannot be pleased at the same time, but the west is going in for a big wheat crop next year and a bigger grain and cotton crop. Just stake yourself to the west. She is here with the goods.

Over in Floyd County the election on road bonds was called off just before the election. The Plainview News says that the county judge had been in Austin and conferred with the Attorney General and the state highway commission, and it was decided it would be unwise to issue the bonds even though the proposition carried.

That large numbers of people have come back to the western counties is shown by the heavy enrollment of the schools of the western part of the state. All schools that we have heard of have opened with a larger enrollment this year than last and some of them the largest in the history of the schools.

Pat Nix of Vernon, Texas, was here the first of the week and purchased a half section of land near Lubbock and will move here with his family about the first of next year. Mr. Nix becomes a reader of the Avalanche, beginning with this issue.

### AN ORDINANCE.

At meeting of City Commission, Sept. 9th, 1919, the following ordinance was made:

An Ordinance forbidding the placing of paper, lumber, stone, brick, weeds, boxes and all kinds of trash in the streets and alleys of the City of Lubbock, Texas, or such being allowed to remain thereon by the person in control, or owner of, of the abutting property; providing a penalty for the violation hereof; and declaring an emergency.

Be It Ordained by the City Council of Lubbock, Texas:

Sec. 1. Any person placing paper, boxes, weeds, lumber, stone (brick or other kind of trash) in any public street or alley within the City of Lubbock, Texas, shall, upon conviction, be punished as hereinafter provided.

Sec. 2. Any person in control of any premises abutting a public street or alley within the City of Lubbock, Texas, whether as owner, tenant, manager or lessee, who shall permit any of the articles mentioned in Section 1 hereof to remain in such street or alley for a period of five days from the first accumulation thereof, shall, upon conviction, be punished as hereinafter provided.

Sec. 3. Any person found guilty of violating either of the preceding Sections of this Ordinance shall be punished by a fine of not less than five Dollars, nor more than Twenty-five Dollars.

Sec. 4. The fact that such articles as herein referred to are liable to cause and spread fires, creates an emergency and public necessity, so that the provision requiring an Ordinance to be read at two several meetings should be suspended, and this to be adopted and enacted at the meeting of its introduction and reading, and it is so ordered.

This September 9th, 1919.  
L. H. SIMPSON, Mayor,  
Pro-Tem, City of Lubbock, Texas.  
Attest, J. R. GERMANY, Sec'y.

### HIGHWAY DIRECTORS MET IN AMARILLO MONDAY

At a monthly meeting of the Directors of the Florida-Colorado Highway Association last Monday in Amarillo, President Blair, of Temple, announced that the State Highway Department had adopted the plan, and that the highway was to be run.

At a regular meeting of the State Highway Commission, the following motion was made and adopted: "That the State Highway Commission of Texas represent as the Texas part of the Florida to Colorado highway that part of highway number 8, beginning at Orange, thence to Houston, thence to Richmond, and that portion of highway number 36, beginning at Richmond, thence to Bellville, thence to Brenham, thence to Caldwell, thence to Cameron, thence to Temple, thence to Belton, thence to Lampasas, thence to Goldthwaite, and also that portion of Highway number 7, beginning at Goldthwaite, thence to Brownwood, thence to Coleman, thence to point of intersection of State Highway number 30; also that portion of No. 30, beginning at the point of intersection of number 7, thence to Abilene, also that portion of highway number 1, beginning at Abilene, thence to Sweetwater; also that portion of No. 7, beginning at Sweetwater, thence to Lubbock; thence to Plainview, thence to Tulia, thence to Canyon, thence to Amarillo; also that portion of No. 5, beginning at Amarillo, thence to Channing, thence to Dalhart, thence to Texline.

This highway will be something like three thousand miles in length and will pass through the central portion of Texas. At this time almost every county along the route has arranged to handle their portion of the road. Something like six hundred miles of this road is now in first class shape, and it is thought that in twelve months from this time that the entire road will be in first class condition.

LARGE FIRM ESTABLISHES BRANCH IN LUBBOCK

The firm of the Simons-Read Company of Hillsboro, Texas, has recently established a branch office in Lubbock, with Mr. Wesley Read, one of its members, in charge.

Mr. Read stated to an Avalanche reporter that his firm had been investigating the Lubbock country for several months and had become convinced that it is highly desirable as a cotton growing, feed raising, and stock raising country, and that he is highly pleased with the rapid development now going on and with the personnel of its citizenship.

"We have been doing business all over Texas for the past 25 years," Mr. Read stated, "and especially in the black land sections where farming lands have practically advanced in price beyond the reach of the smaller farmer and the tenant of small means. In our judgment, the lands to be found around Lubbock and on the South Plains are equally as good as any land in the black land belt, and we know from experience that they will produce as much more returns per acre over a period of years as farming lands in Central Texas that are bringing enormous prices, and at a considerable cost in cultivating."

Having a large business among the smaller farmers and tenants in Central Texas, we have very carefully selected a tract of land near Lubbock which we have subdivided into small farms and will colonize these farms with central Texas people. We believe that we are doing these farmers a great favor in enabling them to acquire choice farms at low prices and on reasonable terms in such a country as the Lubbock country has proven itself to be and we do in great hopes that the people of this section will welcome these new comers with open arms and render them whatever assistance they may need in adapting themselves to the changed surroundings and different methods of farming."

My firm also has an office in the oil fields in charge of a number of the firm, and farmers and investors from that section are being directed by us to the Lubbock Country."

Mr. Read will reside in Lubbock indefinitely and the Avalanche is glad to welcome him on behalf of the citizenship. He is a young man of a good many years experience, affable, clean cut, and progressive, and comes very highly recommended. He volunteered his services to the government early in 1917, was accepted and served as Lieutenant in the flying branch of the air service, having only recently been released. He has been connected with his present firm for the past ten years, and has been inspecting farm lands for the farm loan department of a large Eastern life insurance company for a number of years.

Mr. Read has established offices on the second floor of the Lubbock State Bank building and has extended an invitation through the Avalanche, welcoming the people of Lubbock to call on him to get acquainted.

# Camel CIGARETTES

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

CAMELS are a cigarette revelation any way you consider them! Take quality, or refreshing flavor and fragrance; or that wonderful mellow-mild-smoothness you never before got in a cigarette smoke! Yet Camels are so full-bodied and so full-of-satisfaction you marvel that so much delight could be put into a cigarette!

Camels expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your taste! You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarette aftertaste or unpleasant cigarette odor! Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes, or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply when you travel.

## Real Music

It is only real music which appeals to the soul. Real music means different things to different people.

- To some it is restful and soothing.
- To others it is a source of inspiration.
- To all it is an essential.

Then to enjoy music as music really is, you have to have in your home the artists themselves, or

### SHALLOWATER SCHOOL OPENED MONDAY 15TH

Our school opened on the 15th instant. The attendance of patrons was large and enthusiastic. Many spoke encouragingly regarding the school. The enrollment of students was the largest in the history of the school for the first day. All the high school grades are at work; the freshman class is especially large.

Among the highly appreciated visitors at the opening were: Miss Halsey, Home Demonstration Agent, Mr. Thompson, Farm Demonstration Agent; and Judge Moore, ex-officio County Superintendent; each of whom delivered a very helpful address. It was truly an inspiring hour for the entire community.

Recently the County Board of Trustees classified us as a Rural High School, the first Rural High School in Lubbock county. We understand that other good schools in the county have followed in this important step for rural schools. Well has it been said: "The High Schools are the people's Colleges." We wish them well and proffer our help in every way possible. We believe in them and shall expect help and inspiration from them. Friendly rivalry will be appreciated. It is our aim to be classified as a Rural High School by the State Department of Education during the year and thus join the State affiliation.

New departments just added are: Domestic Science, which will be closely supervised by Miss Halsey; Art will be taught by Miss Jewell Broadfoot, the Head of our Department of Music, which, too, is a new department. We realize it is a great undertaking to establish a distinct Department of Music, but with Miss Broadfoot, of Longview, Texas, at the head of it, and our reliable patrons supporting it, we feel assured

A fair sample of the corn that grew this year in Lubbock county was brought to the Chamber of Commerce sample room this week from the Hunt Brothers Farm, two miles south of town. The stalk measured 12 foot 2 inches in length. The ear grew 8 feet and 2 inches from the butt, and was well developed, measuring exactly 12 inches in length. The height of the stalk of corn was so great that it was placed on display after much difficulty at the Chamber of Commerce sample room.

### Goddard, State Health Officer, Sounds Note of Warning

On the twenty-first day of last September, the first case of influenza in Texas was reported to the State Health Department. This first case was followed in rapid succession by others from different parts of the State.

No equinoctial storm ever recorded, reached such a fury or exacted a toll in loss of life comparable to this pandemic which made its appearance in our State last fall.

It is a well known fact among medical men, that one of the special characteristics of influenza is that it recurs in cycles, and with each return records a heavy mortality. In each cyclic outbreak in the past the disease has reappeared in the fall and winter for from one to three years following the initial outbreak.

The great epidemic of 1889 was followed by outbreaks in the fall and winter for three years following, and with an increasing mortality rate each year. The same history is recorded of epidemics of influenza in Europe, and in fact as far back as we

have been able to gather statistics, each initial outbreak of influenza has been followed by recurrence in the next two or three years following. Since it is well known that history repeats itself, we may reasonably expect a recurrence of this dreadful disease this fall and winter, with a high mortality, especially from pneumonia.

I can not predict with certainty that we will have another epidemic of influenza this fall and winter, but I can with certainty say that if we do not, the history of epidemics of influenza in the past, will not hold good for the future.

In the light of past knowledge and experience, it would be nothing short of criminal to take no steps to protect the public against a possible recurrence of last season's devastation. Based on incomplete statistics from rural and urban reports, it is estimated that there were approximately 450,000 deaths from influenza in the United States and approximately 25,000 in Texas, from the recent epidemic. The epidemic last year which swept over the country with hurricane like rapidity, found the country depleted of its doctors and nurses, many communities having neither. At this time most of them have been released from the army and have come back to us rich in experience and trained in public health work.

The excessively heavy rains this year have caused an unusually heavy growth of vegetation which is apparent not only in the small villages and towns, but even in places in our largest cities; while pools of stagnant water, and litters of garbage are to be seen in far too many places.

I am now calling upon you to begin an active campaign in anticipation of a possible recurrence of influenza, and as a matter of civic pride and health protection in general.

In every village, town and city, Health Boards should be organized, or rejuvenated, where they already exist, and "CLEAN-UP CAMPAIGNS" put on, and every possible means taken to be prepared for any emergency.

Local Health Officers should at once call a meeting of their local health boards if they have one, or a meeting for the purpose of organizing one if they do not already have one, and then enlist the aid of the Commercial Clubs, Civic Clubs, or Boards of Trade, Social Welfare Workers, Parent-Teachers Associations and all other organizations interested in civic advancement and the betterment of health conditions in their communities.

I am calling upon the newspapers of the State to join me in this note of warning and trust that every paper in the State will not only copy this article, but add such comment as they feel will be helpful in promoting this defensive work in the interest of humanity.

If these preventive measures are not taken, then from past experiences with influenza, you may reasonably expect your community to suffer the penalty of YOUR NEGLIGENCE.

C. W. GODDARD, M. D., State Health Officer.

#### A BATCH OF NEW HOPE HAPPENINGS

Farmers are all smiles since the good rain we had the first of the week.

### Lubbock County Agricultural Agent Had Busy Year

Lest we forget of the valuable services Lubbock county has received this year through her county agricultural agent, we recall some of those things that have kept him busily engaged.

January and February of this year the farmers of this county were confronted with a shortage of feed for cattle, hogs and horses. The services of the agent was used in securing half rate shipping license. These rates applied to farmers who bought in carload lots, and were procurable only through a county agricultural agent. In this one instance of his services, it is conservatively estimated that a saving of \$35,000 was made for the farmers of our county, besides that, locations were made in drouth counties, of a shortage of seeds, kaffir, sudan, maize, etc., that many of our farmers had raised for seed purposes. These places were communicated with by the County Agent and a market established for many dollars worth of these seeds.

The Spring months were and are naturally the busiest time of the year, other than the harvesting season. Vaccination of thousands of cattle was aided by the county agent. Preparation for the spring time cultivation of land also received his attention. And in these months there was also organized Boy's Clubs, The sheep and wool growers association, and many incidental things that are likely not to come under the direct observation of the casual onlooker, was done and aided by the county agent. We remember the insect scares, but none of us remember those times as distinctly as our county agent, who was out early and into the country, studying and giving advice to combat them, and only a small loss was sustained in our county by the insects.

In June and July most of the time was devoted by the agent in gathering the wool crop of the South Plains Sheep and Wool Growers Association, into the warehouse he had secured for storage of this wool, and in securing members into the association, and interesting buyers to be at the sale that was so successfully carried out.

Now that the busiest time of the year is at hand for the farmers of this county, it is well also to remember that the county agent is busy. Only a few days ago through his efforts a meeting was called for the discussion of labor problems that are facing the plain farmers more than any other at the present time. At this meeting there was a fixed price set for cotton picking, and a general discussion of securing labor. Since that time, the agent has been working in hand with the Chamber of Commerce for finding labor. Communications have been carried on daily with all sections of the country that are liable to have surplus labor. Not only that but the helping in the rally day for the Girls and Boys Clubs to be held here Saturday has required a great deal of his time. This Rally is taking on aspects at this writing to be a great success from a standpoint of interest that has been created in better products raised in our county. The labor situation is being met. There is now places located through the agent and chamber of commerce that labor can be found, will be found and shipped to this country.

Not only these, but the thousands of small and seeming insignificant things that come before the county agricultural agent, have been successfully met by him. And while we have devoted this much space to the Agricultural Department we would not overlook the important and valuable work that our Home Demonstration Agent, Miss Millie M. Halsey, has done. Her work is unquestionably the most proficient of any county agent that we have ever known, and Lubbock county people, especially the farm wives and daughters will bear us out in the statement that she has put in her entire time in the interest of this department. Her work has covered such a great variety of things that it would require several columns in our paper to numerate.

We believe we voice the sentiment of the majority of Lubbock people when we say that these two departments in Lubbock county are well worth every cent of money spent in their employ.

### CHAS. H. BOYD IS NOW IN ENID, OKLAHOMA

News from Charles H. Boyd, who was once one of the mechanical experts of the Stamford Leader, tells us that he is now, with the Enid, Oklahoma, Daily Eagle, where he has a very fine place. Charlie Boyd is easily one of the best men in the mechanical part of a print shop ever in Stamford, and we are just as sure that he will make himself felt for good in the Enid shop as we can be. Mrs. Boyd has been here with her parents, J. Van Steenwyk and family, for some time, but will leave soon for Enid.—Stamford Leader.

Mr. Boyd, for a number of months was foreman of the Avalanche Mechanical Department, and it was with much regret that we saw him leave our plant.

### IMPROVEMENTS TO BE MADE ON LITTLEFIELD ROAD

Wednesday morning of last week the County Commissioners of Lubbock county, met the commissioners of Lamb county, on the Lamb county line, for a discussion and an agreement upon the bettering of road conditions effecting both counties. It was agreed by the commissioners of Lubbock county, that about eight miles of road, between Shallowater and the Lamb county line, would be put in fine shape. The work of grading and marking will be started in a short time and probably finished within ten days or more from the time of commencement. In turn, the Lamb County commissioners, will put the road from their county line in a like shape.

"That all roads might lead to Lubbock" seems to be the real object in view of our commissioners. Of course it would of necessity be a blessing the country people deserve. But in effect, it is more of a financial investment for the citizens of our town. By the building and promotion of good or better roads from this fine territory northwest of Lubbock, not only does it mean the turn in tide of trade that has for some time gone to other places, but securing a hold up on the general trade and travel of that country, so that in future years, surely not very distant, when those fertile pastures, thousands upon thousands of acres are opened up for settlement, and when homes have been made, that naturally their point of trade and travel will be to our city. We believe the promotion of good roads into this territory is as much good for our city, as that which has been and is being maintained for towns and counties south. The commissioners think that not more than

### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off and dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

**TEXAS CORN CROP WILL  
YIELD 250,000,000 BUSHELS**

It is estimated by the Bureau of Markets of the Department of Weights and Measures that the Texas corn crop this year will reach 275,000,000 bushels, while the normal consumption of the State is approximately 250,000,000 bushels. So Texas will have corn to sell this year to outside markets.

In addition to the corn, there have been abundant crops of other kinds made, thus reducing the consumption of corn.

The oat crop is said to have been unusually large, although much of it has been damaged because of having been exposed to rain. While this did not materially damage the grain, it was made unsaleable to a certain extent, and the growers are expected to use their oats for home consumption and sell their corn, in many instances.

**Calomel SALIVATES  
AND MAKES YOU SICK**

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

THE STATE OF TEXAS,  
To the Sheriff or any Constable of Lubbock County, Greeting:  
You are hereby commanded to summon Hazel Everline, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District, to appear at the next regular term of the District Court of Lubbock County, Texas, to be held at the Court House thereof, in Lubbock, Texas, on the 2nd. D. 1919, in a suit numbered on the docket of said Court, No. 1268, wherein George F. Everline is Plaintiff, and Hazel Everline is Defendant; the nature of plaintiff's demand being as follows:  
That plaintiff has been an actual bona fide inhabitant of the State of Texas, for twelve months, and of Lubbock County for more than six months next preceding the filing of this suit. That on March 2, 1912, plaintiff was lawfully married to defendant, and cohabited with her, as her husband until about September 14, 1914, when defendant left plaintiff with intention of abandonment, and did then and there abandon him, since which time plaintiff and defendant have not cohabited as husband and wife, and said abandonment took place more than three full years prior to the filing of this suit. That no children were born of said marriage and there are no property rights to litigate in this cause. Plaintiff prays for divorce from the defendant, costs of suit, etc.  
Herein fail not, but have you before said court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

**FALL GARDENS VERSUS THE  
HIGH COST OF LIVING**

Faced with the high cost of living, anyone who has available a small plot of ground should feel this year very grateful to the powers that be for the present season that Texas is enjoying. Everyone agrees that a good garden is one of the most effective ways of escaping the high cost of food. Already the splendid gardens which even the most indifferent gardener has enjoyed this year have had their marked effect in bringing down or rather in keeping down the household expenses.

As a rule the gardens of Texas give out about this time or earlier and our fall months are so dry that the gardener becomes discouraged and few people of this State make any effort to grow fall vegetables. But almost as if in answer to our pressing need the present season is an exception. There is now in any soil of this State that deserves the name of garden, sufficient moisture to insure good vegetable crops if we will just prepare the ground and do the planting. Most of this planting should be done right now.

The list of vegetables that one can feel sure will mature in their garden this fall is almost as numerous as for spring planting. Of course, turnips, beets and mustard for greens are positively assured. Garden peas, beans of all kinds, lettuce, cabbage, radish, carrots, parsnips and spinach are almost equally certain. While it is just a little late, even a small patch of Irish potatoes may still be planted. For fall potatoes it is best to plant the small whole potato and these will be all the better if they have been sprouted before planting.

In putting seed into the ground for a fall crop it is well—even though there is plenty of moisture, to plant a little deeper than in the spring.

In order to insure a stand of lettuce it is not a bad plan to sprout the seed before sowing. Spread them on a damp cloth, cover with another damp cloth and place in a cool place for a day or two. Sow in bed as soon as the sprouts begin to appear and keep well watered.

By all means use the fall garden as a club against the high cost of living. It will save your pocket book and health at the same time. The Congress has a limited number of Garden Bulletins which it will send to anyone applying.

**ONE HUNDRED THOUSAND  
SCHOOL TEACHERS SHORT**

According to a report of the National Educational Association there will be at the opening of the schools of the country this September 100,000 teaching places without teachers and if these places are filled at all they will have to be filled with untrained and inexperienced teachers who are in the business only temporarily and are using it as a stepping stone to something better. According to the same report, one-fourth of the teachers in the American public schools are under 19 years of age, mere boys and girls, without the training and experience to do the work they are undertaking to do; one-fourth have had no more education than that afforded by the elementary schools or through the seventh grade; about one-half of them have not finished high school and only about one-twentieth of them have professional training.

It is estimated that in the Texas schools alone there will be 4,000 vacancies at the beginning of this school year. It is stated that during the past year 4,500 of the best women teachers and 1,200 of the best men in the Texas schools have left the profession. There are hundreds of teaching places in the Panhandle without teachers.

**SOME PARAGRAPHS FROM  
THE SLATON SLATONITE**

Miss Annie Thompson, a popular saleslady at Robertson Dry Goods Co., was a visitor in Lubbock last Saturday morning.

Miss Frances Burton entered a sanitarium in Lubbock this week and underwent an operation for appendicitis. She is getting along nicely.

Mrs. Paul Owens went to Lubbock this week and underwent an operation in a sanitarium there Wednesday. Late reports indicate that she stood the operation fine and is getting along nicely.

J. M. Robertson of the Post Ranch, south of Slaton, brought in the first bale of new cotton here yesterday. It was not learned what the cotton brought, but he was given a nice premium. Another bale was also brought in during the day. Cotton is beginning to open and will soon be moving freely around here.

Rev. J. H. McCauley, pastor of the local Baptist Church, attended the meetings of the Brownfield Baptist Association at Tahoka this week.

Probably the greatest revival meeting ever held in Slaton closed at the Methodist Church Sunday night after continuing two weeks. During the last week Evangelist G. A. Klein, of Memphis, Tenn., accompanied by Harry Beckman as chorus director, was here and assisted the pastor, Rev. T. C. Willett. The attendance was unusually large at both morning and evening services and the interest was good. As a result of this meeting a large number were added to the Methodist Church, a number reclaimed, and many who were members of other denominations but did not hold their membership here were induced to give their names in order that the pastors of the city might get their letters. The Methodists have been planning a new church for many months, but many things came up to hinder them and the prospect was not very encouraging. However, about \$7,000 had been pledged, and on Sunday night Evangelist Klein took up the matter of a new church building, asked for additional pledges and the response was very gratifying. With the amount already pledged about \$11,000 has been raised for the new church, and the building committee has already bought some material and are preparing to have a house of worship at an early date that will be a credit to Slaton.

Messrs. Dee Whitley and Richard Whitely of Terry county, passed through here last Saturday enroute home, after spending a few days in the Plainview country.

John C. Scudday, farmer-stockman of Terry county, was in town one or two days the latter part of last week attending to business.

## HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prins, of this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time... I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. Moore, judge of the county court of said county on the 23rd day of April, 1918, during a regular term thereof, hereby notifies all persons indebted to said estate to come forward and make settlement, and those having claims against said estate to present them to her at her residence in Lubbock, Lubbock County, Texas, where she receives her mail, this 27th day of August, A. D. 1919.

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

The two bales of cotton sold here on Tuesday were the first on the market this week. One weighed 508 lbs. and the other 496 and 28 cents per pound was paid by Simpson and Jones. The two bales brought \$330.72, counting the bonus. At present prices a 500 lb. bale of cotton will bring \$140.00, which is not bad and is much better than it will be by Christmas, unless we miss our guess. We look for 15 cent cotton by the date mentioned.

E. B. Thompson and family left last Saturday for Floydada to make their future home. He has been conductor on the Santa Fe north of Lamesa for over a year. He did not make the run on through to Soash. The railroad has not sold tickets through to Soash since the government has had charge of this road.

M. Rich, of Anson, was here on Tuesday and purchased the 80 acres of land from Mr. Casbeer, also from Anson, which lies north of town.

G. A. Haney, on Tuesday received a message that his daughter-in-law, Mrs. Ira Han had on Monday, died at Cincinnati, Ohio. Mrs. Haney had been married but six months and appendicitis was the cause of her death. Mr. G. A. Haney and wife had lately visited his son in Cincinnati and we certainly extend to the family our sincere sympathy.

The contract for the drilling of a four thousand foot test on the holdings of the Lamesa Oil and Gas Co., was let to James W. McCarley, of Beaumont, Texas, and drilling will begin as soon as he can get his drill on the grounds. Ye of little faith sit up and take notice of what we told you last week. Things are going to get lively in this region at once.

Rev. E. E. Robinson, pastor of the Methodist Church, of Plainview, and Rev. A. L. Moore, presiding Elder of the Plainview District, were here last Friday for a short visit with Rev. Griswold.

## CHRISTIAN ENDEAVOR HOLDS SUCCESSFUL CONVENTION

Delegates have returned from Littlefield, where they attended the eighth annual district convention of Christian Endeavor, which was held Friday, Saturday and Sunday, Sept. 5, 6 and 7th. According to those persons who have attended the annual gatherings the past few years, the 1919 convention was the most successful ever held. The convention convened Friday evening, September 5th, with Mr. David M. Warren, of Amarillo, presiding. The address of welcome was delivered by Judge C. D. Hensley, of Littlefield, the response was given by Miss Kate Arnold, of Memphis. Rev. E. C. Mobley of Amarillo delivered the principal address Friday evening, his subject being "Loyalty to Christ." He touched upon many current topics and his address was warmly received.

The Saturday morning session was opened with Rev. J. M. Asbell, of Hereford leading the quiet hour service. It was during this service that Miss Jessie Butts, Field Secretary, Texas C. E. Union, presented the "Loyalty Campaign" which will be the main task of the C. E. movement for the next two years. Addresses were made Saturday night by Rev. J. M. Asbell of Hereford on "Loyalty in Service" and by Rev. T. H. Pollard of Lubbock on "Christian Endeavor Facing the problems of Americanization." Rev. Asbell also preached the Sunday morning sermon.

That there is a great need for the development of young people for church work was stressed in the discussion of junior and intermediate departments Sunday afternoon, methods for the organizing of strong young peoples societies were presented. Miss Florence Besse Hopping, of Littlefield, talked on Missionary activities in some cities. The regular C. E. meeting was held out of doors at 7:00 o'clock, the subject being "Our relations to others, Friendliness and Neighborliness." At the evening service Rev. Pollard preached on "Whatever he would like to have me do." Miss Butts had charge of the installation of the new district officers at this service. P. Hicks Daniel, of Amarillo, was unanimously re-elected president of the district. Other officers are: Miss Ruth Arnold, Memphis, Vice President; Miss Mae Womack, Hereford, Secretary; James York, Amarillo, Treasurer; Chairman of departments of the district work are: Missionary, Miss Lucille Thomas, Amarillo; Intermediate, Miss Kate Arnold, Memphis; Junior, Miss Abena Richardson, Memphis; Citizenship and Community service, Arthur Mueller, Littlefield; Introduction, Mrs. E. K. Edmonds, Littlefield; Efficiency, Luther Griffin, Hale Center; Evangelistic, Hollis Galley, Hereford; Quiet hour, Miss Minnie Ross, Amarillo; Tenth Legion, Miss Dorothy Boardman, Hereford; Life work recruits, Rev. T. H. Pollard, Lubbock; Publicity, B. B. Holland, Amarillo; Pastor Counselor, Rev. E. C. Mobley, Amarillo.

The financial pledges for district work were secured easier than at any other convention. The district assessment is \$250.00 and \$300 in pledges were raised quickly, the pledges were as follows: First Christian Church, Amarillo, \$50.00, Presbyterian Church Amarillo \$35.00, Memphis Senior society \$40.00, Memphis Intermediate society \$10.00, Hereford Christian society \$20.00, Hereford Presbyterian society \$40.00, Hale Center Presbyterian society \$15.00, Littlefield Union society \$25.00, personal pledges \$65.00. Littlefield's hospitality to the visiting delegates could not have been excelled. The visitors were taken in to the homes of the residents and shown every possible courtesy. The aggressive Littlefield society arranged a banquet, which was given Saturday evening, the first ever held by the district.

The Memphis delegation asked that the convention be held in that city next year. At the meeting of the district council composed of the officers and departmental chairman, it was unanimously agreed upon to accept the invitation of Memphis.

## SOME ITEMS FROM THE RALLS BANNER

The cotton season is now open in Ralls, the first bale having arrived in town Tuesday. It was raised by Clyde Smith, of the League 4 community. The bale was ginned by Dean & Webb, and sold to C. E. Dean for 30 cents per pound, and a premium of \$54.50 was given Mr. Smith by our business men.

So large is the yield, and so rapidly have farmers been bringing maize to town that the market has become flooded, and as a consequence a considerable break in prices has occurred. The folly of rushing the market is again fully demonstrated, and the

need of a large warehouse for storing farm products is again made forcibly apparent. Just so long as farm products of any kind are crowded on the market, as maize has been during the past few weeks, so long will prices suffer as a result. In order to obtain anything like a fair price the remainder of the maize crop should be marketed as slowly as possible. The Floyd County Baptist Association, of which the Ralls church is a member, was in session this week at Crosbyton. A most pleasant and profitable meeting is reported.

## COUNTY JAILS CONTAIN 278 INSANE PATIENTS

All the Texas insane will be transferred from jails to asylums within the next 30 days, according to a statement issued by the governor, and this will be the first time in a long period when the jails are emptied of the insane.

There is now a total of 178 insane patients in the county jails. They are as follows: white men, 94; white women, 49; negro men, 71; negro women, 63; Mexicans, 6. The East Texas Hospital for the Insane at Rusk is now open, and patients will be received at the rate of 75 a week.

### You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

**GROVE'S TASTELESS CHILL TONIC** restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

**GROVE'S TASTELESS CHILL TONIC** is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

## IN MEMORY OF MRS. EDGAR ABNEY

Not since the writer has been old enough to realize what death means has it seemed that the penalty was more severe than in the death of our friend and neighbor, Mrs. Edgar Abney, of Center community.

It would seem as if we would have to say "Oh, she cannot be spared." But by one sin entered into the world, and so death passed upon all men. It is inevitable. We must all succumb sooner or later. When one has lived out a natural life time, their race is run and their work is finished, it is some times a relief to see our friends and loved ones pass from this troublous world into the quiet sleep of death; but in the case of our friend her work was only begun.

A family of eight lovely children left without the care and devotion of a Christian mother.

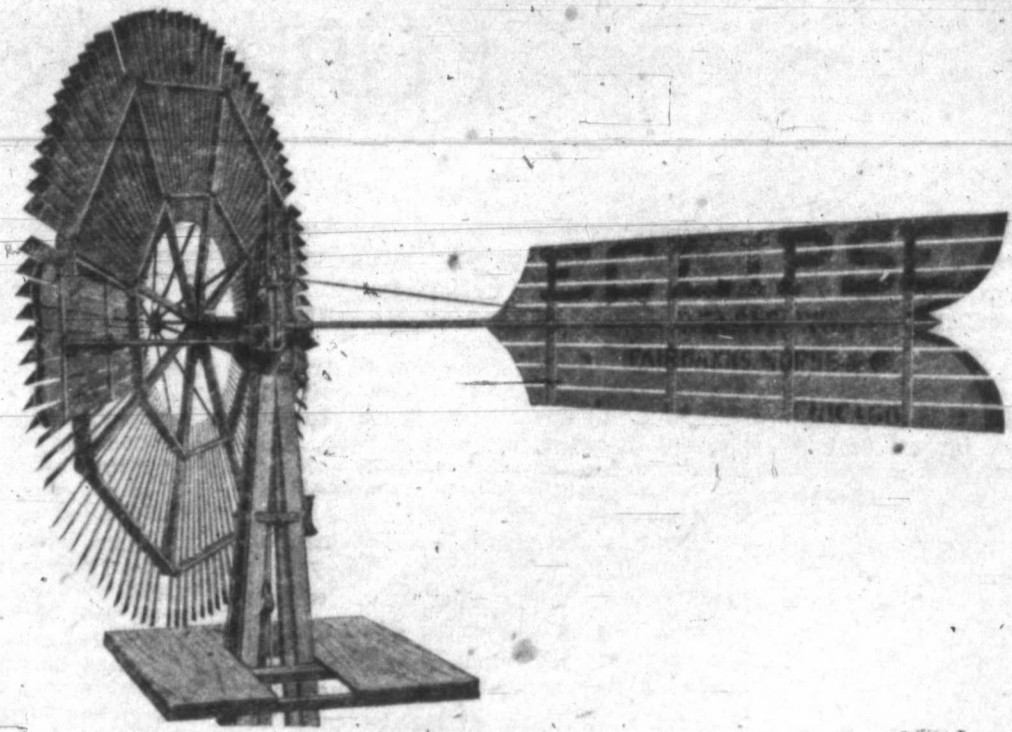

The characters yet to be moulded, the little hands trained and the little feet guided in paths of right.

Catherine Ellaphare Ritchie, was born May 19, 1881 in Williamson County, Ill., died in Lubbock county, Texas, Sept. 2, 1919. She was married to Edgar Abney in Illinois, Nov. 19, 1899. Ten children were born to them, two of which died in infancy. Both Mrs. Abney and her husband were converted in 1910, at Plainview, Martin Co., Texas, and united with the Missionary Baptist Church. Their present membership being at Abernathy, Texas. Her pastor, Rev. Hembry, preached the funeral discourse. Mrs. Abney had been in failing health for several years. On March 2nd she was taken to a sanitarium in Lubbock where physicians thought she could be operated upon and cured, but she was never able to be operated upon, as complications set up that rendered it impossible. She developed plural tuberculosis, to which she succumbed after nearly six months of intense suffering. She was hopeful of recovery up to within a short time of her death, and would often speak of the time when she could be up and take care of the children. When she realized she was going she seemed resigned and said to her husband "take care of the children", then went quietly to sleep. But it is not an everlasting sleep.

"For since by man came death, by man came also the resurrection of the dead. For as in Adam all die, even so in Christ shall all be made alive." Then shall be brought to pass the saying that is written: "Death is swallowed up in victory. Oh Death, where is thy sting? Oh grave, where is thy victory?" for again it is written, "For the hour is coming, in which all that are in the graves shall hear his voice, and shall come forth." These are the promises of God.

Mrs. Abney believed in God. Mr. Abney believes in God and his promises. "He is faithful who has promised." To these promises we point our friends for consolation, in the loss of this faithful wife and mother, and may he look to this source also for wisdom and strength to raise the little children left to his care. To the eldest daughter on whom the burden will fall so heavily our heart goes out in sympathy and love.

A Friend and Neighbor. Messrs. Robert Webb and John Herd, of Crosbyton, were business visitors here last Friday.

## THE ECLIPSE MILL

Is the Mill for You---It is the Cheapest Pumping Power on Earth

Sold for 50 years—some of them erected 38 years ago still running. When you consider the life of an Eclipse mill it is certainly economy to buy one. Many ranchmen have used the Eclipse mill for years and it is no trouble to find mills which have been used for 10 to 20 years and good for many years to come.

The Eclipse is made from the best material that can be gotten, true to pattern, so that they are perfectly balanced. They have few working parts to wear out. The fans in the wheel are wider than any others, hence have more wind surface, consequently more power.

If you want satisfaction and service, you want the Eclipse.

### EXPLANATORY FOR THE AMERICAN LEGION

A petition has been circulated requesting a local post at Lubbock for the ex-service men of Lubbock county. Plans are now being made for a big meeting to organize the Post and elect officers for the ensuing year. Every ex-soldier in Lubbock County should belong. The State Convention is to be held in Dallas, October 10-11, and the National Convention at Minneapolis, Nov. 10-11. In explanation of what the Legion stands for, we quote the following, as given to us by ex-captain J. J. Noone:

"There has been considerable misunderstanding concerning the American Legion and in order to correct any false impressions, the following summary of the organization and what it stands for, is given:

"Any soldier, sailor or marine who served honorably between April 6, 1917 and November 11, 1918, is eligible to become a member.

"The preamble of the constitution reads as follows: 'For God and Country we associate ourselves together for the following purposes: To uphold and defend the Constitution of the United States of America; to maintain law and order; to foster and perpetuate a 100 per cent Americanism; to preserve the memories and the incidents of our association in the Great War; to inculcate a sense of individual obligations to the community, state and nation, to combat the autocracy of both the classes and the masses; to make right the master of might; to promote peace and good will on earth; to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship by our devotion to mutual helpfulness.'

Here are some of the matters taken up by the Legion and what has already been done: It demanded investigation of the pardon and subsequent honorable discharge by the War Department of convicted conscientious objectors; it strongly condemned the activities of the I. W. W.'s, the anarchists, and the International socialists; it recommended that Congress take steps to reclaim arid, swamp and cut over timber lands, to afford ex-service men an opportunity to establish homes, for themselves and a fitting place in the constructive work of the country; it initiated a campaign to secure to ser-

### 200 DISABLED SOLDIERS TO BE GIVEN A. & M. TRAINING

Two hundred disabled soldiers are to be instructed at A. & M. College this year, President W. B. Bizzell announced recently. These men are to be sent under the direction of the Federal Board for Vocational Education. Although assignments have not been announced as yet, it is understood that the men to be sent here are all Texas boys.

Smaller groups of disabled soldiers also are to be sent to the Grubbs Vocational College at Arlington, and John Tarleton at Stephenville. Educational facilities at the Prairie View State Normal also have been offered the Government for giving instruction to disabled negro soldiers. These three schools are branches of the Agricultural and Mechanical College of Texas. A large number of wounded men already are studying at Arlington. The contingent to be sent to A. & M. will specialize in bee keeping, poultry and animal husbandry and farm tractors, though other courses

### ONE HUNDRED THOUSAND SCHOOL TEACHERS SHORT

According to a report of the National Educational Association there will be at the opening of the schools of the country this September 100,000 teaching places without teachers and if these places are filled at all they will have to be filled with untrained and inexperienced teachers who are in the business only temporarily and are using it as a stepping stone to something better. According to the same report, one-fourth of the teachers in the American public schools are under 19 years of age, mere boys and girls without the training and experience to do the work they are undertaking to do; one-fourth have had no more education than that afforded by the elementary schools or through the seventh grade; about one-half of them have not finished high school and only about one-twentieth of them have professional training.

It is estimated that in the Texas schools alone there will be 4,000 vacancies at the beginning of this school year. It is stated that during the past year 4,500 of the best women teachers and 1,200 of the best men in the Texas schools have left the profession. There are hundreds of teaching places in the Panhandle without teachers.

### SHERIFF'S SALE

#### THE STATE OF TEXAS.

County of Lubbock. Whereas, by virtue of an execution issued out of the District Court of Lubbock County, Texas, on a judgment rendered in said court on the 4th day of August, A. D. 1919, in favor of J. A. Hodges and against L. N. Simmons, A. Judd, W. D. Benson and Arthur Kelsey, No. 1194 on the Docket of said Court, and to me, as sheriff, directed and delivered, I did, on the 5th day of September, A. D. 1919, at 3 o'clock P. M., levy upon the following described tracts and parcels of land situated in Lubbock County, Texas, and belonging to Arthur Kelsey, to-wit:

Lot 9 in Block 150; Lots 5 and 7 in Block 195; Lots 11, 12 and 13 in Block 149 and East Half of Lots 6, 7, 8, 9, and 10 in Block 128, all said lots and blocks being situated in the town of Lubbock, in Lubbock County, Texas; also Surveys 117 in Block C, E. L. R. R. Co., in Lubbock County, Texas, containing 634.06 acres; and on the 7th day of October, 1919, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the Courthouse door of Lubbock County, Texas, in the town of Lubbock, I will offer for sale and sell at public auction, for cash, all the right, title and interest of said Arthur Kelsey in and to said property.

Witness my hand this the 4th day of September, A. D. 1919.
