NUMBER 20

LUBBOCK COUNTY RURAL SCHOOLS

NOT ONLY DOES CITY OF LUBBOCK RANK HIGH IN EDUCATIONAL LINES BUT THE RURAL SCHOOLS ALSO

SEVERAL FINE BRICK BUILDINGS DOT THE COUNTRY

The People in This Country are Great Believers in Education, and Have Made Provision for Building Good Schools and Equipping Them for High Grade Work.

(By R. Kenneth Evans.)
As stated in last week's issue of the Avalanche there is nothing more important to the successful development of resources and the encouraging of immigration than the maintenance of adequate school systems. Last week's article showed conclusively that so far as city schools are concerned Lubbock ranked among the leading cities of the State and the State Board of Education gives the city credit for being at the top of the list. The school facilities of Lubbock city consist of high school, and one of the best equipped teaching, one of the widest diversified courses of study and ranking equal to the high schools of such cities as San Antonio. The ward schools are maintained along the same high standard of efficiency which makes Lubbock citizens rightfully proud of their city schools.

But the interest in educational facilities has not by any means been limited to the city of Lubbock. Naturally Lubbock being the center of commercial activity in the Plains country the course of study would run higher and better facilities be arranged but from the standpoint of rural schools Lubbock county has the same high rank compared to other Texas counties as Lubbock city does to other Texas cities.

There are twenty-two schools in Lubbock county and attached counties with twenty-two districts. Forty-four teachers will be employed in the county schools, there being five one-teacher schools, three 2-teacher schools, twelve 2-teacher schools, two 4-teacher schools. Two of these schools are attached to the Lubbock county school system although they are located, one in Hockley county and one in Cochran county, these districts being in counties attached to Lubbock county. Every school in Lubbock county receives the maximum of taxation, viz: fifty cents per one hundred dollar valuation. The same holds true of the Hockley county district. This affords ample funds for the maintenance of a high grade rural school system.

The one district in Hockley county maintaining a school this year is at this time building a two-story and basement brick school building to cost approximately \$12,500, and will be furnished with about \$2500 worth of fixtures and equipment. Bonds were recently voted in that county for \$15,000 to erect this building and equip it. One teacher employed in this district and the grades taught are from the first to the eighth grade inclusive and handled by the State regulated course for rural schools. The term is nine months. Eight rooms will be provided in the new building which will call for an increase in the staff of teachers. The basement of the building will be used for the installation of a modern heating plant and arrangements are made at this school providing for agriculture, manual training and domestic science. The homes of the teacher provided for by the district. This is a typical western school district where much pride is taken in the maintenance of an up-to-date school.

The Cochran district is an exceptionally large one, one-half the county, but a school having a home for two children. This shows conclusively the interest that is taken in providing ample school facilities for all living in this section of the State and while this is probably the smallest populated school district in the entire State of Texas, much pride is taken in its maintenance and upkeep. A nine-month term is taught, the work being from the first to the fifth grades inclusive.

All the rural schools in Lubbock county have the State regulated course with an average term of eight months. The enumeration for the rural schools this year is 921, as compared to 872 last year. The enrollment for last year was 1030, but as all teachers have not rendered their reports for this year it is impossible to give the exact enrollment, although it will show a substantial gain over last year, due to the steady immigration to this section of the Plains country.

The reader may get some idea of the spirit with which those at the head of the progress and development of this section, push the development of the school system through to completion. During the last three years in Lubbock county \$100,000 including bonds issues which have been voted for new buildings, has been expended in the erection of new buildings and the installation of additional equipment and fixtures. Old buildings have been remodeled, old fixtures and equipment has been discarded and replaced with new and next year the same plans will be followed out in order to insure Lubbock county maintaining the high standard of efficiency with which it is now accredited.

The teachers employed in the county schools are the most efficient available anywhere. Last year four of these teachers had permanent State certificates, twenty-five had State first grade certificates, twelve

had State second grade certificates, and one had a county second grade certificate, the graded certificates all being issued by the State superintendent of schools. The average salary paid the instructors in the rural schools was \$728.66 for men and \$538.50 for women instructors, under last year's arrangements, this year however, there will be a substantial increase in the pay of the rural district teachers, just what that amount will be has not been figured.

The reader may also get some idea of the efficiency of the rural schools of Lubbock county when it is stated that in 1917 and 1918 for fifteen of the schools in the county \$7,250 State aid was granted, which means that fifteen of these schools came up to the State requirements for buildings, course of study and general arrangements. Application was made for \$7,500. In 1918-1919 sixteen schools applied for \$8000 and were granted \$6450. For this year the application for \$10,000 for twenty schools has been submitted, which includes all districts in Lubbock county, with every assurance that it will be received because of the high state of efficiency of these twenty districts compared to the State regulations, making the entire county system of schools a thing perhaps unequalled by any other county in the State. State aid has been granted to the amount of \$9376.00, with two applications not yet acted upon. The reason for this extensive aid is the many improvements, length of terms, salaries and extreme low values on properties in the various districts for taxation purposes. After this year it is generally understood that the commissioners court will raise the taxes for school maintenance which will enable the districts to maintain even a higher degree of efficiency and will also make it unnecessary to ask for so much State aid in the maintenance of the school system. The general consensus of opinion among the residents of the various districts is that too much taxes for school purposes could not be voted and according to those familiar with conditions and the general feeling among the people they would gladly vote a double taxation rate compared to what it is now, or one dollar on the hundred dollar taxable valuation of the various districts. If they had the opportunity.

This year it is planned to have uniform examinations in all rural schools, graded by the teachers of the Lubbock city schools. The idea of this uniformity of examination is to ascertain a substantial basis from which to work determining the qualifications for the rural pupils to enter the Lubbock city schools. By the end of the year this county will have nine brick rural school buildings, out of the twenty-two districts in the three counties, either completed or in course of construction, five of these being provided with chemical toilets and other sanitary arrangements. Judge J. H. Moore, county judge and superintendent of schools has worked in this capacity for the last three years and all of these buildings with the exception of one, have been secured under his administration, also all districts have been brought to the full limit of taxes. He has taken great pride and interest in the maintenance of adequate school facilities for the county and has worked unceasingly for this plan. The county board of trustees at present composed of J. P. Webb, W. O. Sheely, Bob Crump, J. W. Ellison and T. J. Richardson, are constantly working with Judge Moore for the increased standard of efficiency of the rural schools and the improvement and erection of new buildings. The local boards of trustees also. During his administration Judge Moore has adjusted many questions that have come up relative to school sites and the increase of salaries to teachers and through his efforts many improvements have been brought about. Much credit is given the County Judge by those familiar with his work in the county and much of the "efficiency" of the schools system in the rural district has been brought about by him.

The following synopsis will show the class of equipment provided in the various districts of the county. In district number one a frame building is provided with two rooms, remodeled to meet the State requirements at an additional cost of about \$900. Two teachers are employed. First to eighth grade work inclusive, is taught and a home is provided for the teacher at the school.

District number two has a two room frame building remodeled at an additional cost of \$600. Two teachers are employed and first to ninth grade work is taught.

Districts numbers three and four each have a new two room frame building erected at a cost of \$3,000 and furniture installed at a cost of \$600. Two teachers are employed, teaching from the first to the eighth grade work inclusive.

District number five has a three room frame building remodeled to meet State requirements at an additional cost of \$800. Three teachers are employed and the grade work is from the first to the tenth inclusive.

District number six has a new brick building with three rooms erected at a cost of \$7,000 and has two school rooms and an auditorium with a seating capacity for 300 with opera chairs and a stage. New furniture costing \$800 has been installed. Two teachers are employed teaching from the first to ninth grades inclusive.

District number eleven is a rural high school and has a two-story brick building erected at a cost of \$4,000 with three rooms and furniture installed at a cost of \$900. This school is equipped with a Delco lighting plant from the first to the tenth grades inclusive. A home for the teachers is also provided.

District No. 14, a new district has a new two-room frame building costing about \$2000 and furniture and equipment costing about \$300. It is one teacher school.

District No. 15, a new district, has a building of two rooms costing about \$2000, and furniture costing about \$500. This district plans much larger things. It is a two-teacher school.

District No. 16 has recently voted bonds and will erect a two story brick with four rooms, or three rooms and an auditorium, at a cost of approximately \$8000. It has two teachers for the present.

District No. 17, one of the largest in the county, has erected a two-story and basement brick, a four-teacher school, classified by the county board as a rural high school, and having several rooms and a large auditorium. It purposes incorporating domestic science and manual training and agriculture. Already having a music department. This district voted \$12,000 of bonds for building and equipment.

District 19, Idalou, is another district believing in progress and having just completed an elegant two-story brick, with six class rooms and auditorium. It voted bonds to the amount of \$8000 for this purpose, and has purchased extensive furniture and fixtures. Four teachers are employed.

District 20 has a two-room frame building recently remodeled at an additional cost of something like \$1000 and new furniture and equipment, being a two-teacher school.

District 21 has recently voted \$5000 with which to erect a modern brick building, the present building erected two years ago at a cost of \$1000 having proven to be too small. This is a two-teacher school.

District 24 has recently erected a four-room building including an auditorium, at a cost of more than \$8000. It has purchased a fine lot of furniture, employs this year three teachers. With it is consolidated for the year 1919-20 District No. 12 and a part of District No. 8 in Hockley county, and two autos will be provided for transportation at a cost of around \$1600 to \$1800. This expenditure if it proves successful, will be the forerunner of other districts doing likewise.

District 25 is a new district which has voted \$2000 of bonds and erecting a two-room frame building, and employing one teacher for the present.

District 26, has a splendid two-room frame building costing about \$2500, employs two teachers, and making fine progress.

District 30 is a county line district but under the jurisdiction of Lubbock county, having a good new two-room frame building costing about \$2000. Employs two teachers, and doing fine work.

From the above, it is readily seen that the people of Lubbock County believe in education, and are keeping their schools to the front at all times.

COTTON MARKET UP AND DOWN THIS WEEK

A break of two hundred points in the cotton market prices was quoted here Wednesday below the mark quoted Tuesday. Today's quotations, however, show a gain of one hundred and seventy-four points over Wednesday's quotations. Parties keeping in touch with the market here believe the break Wednesday was in order to throw much of the cotton on the market that was being held.

Approximately seventy-five hundred bales have been ginned in the county. About three thousand or more of these have been ginned in our city, nearly two thousand of which were classed by the Government cotton classifier.

GIN AT BIG SPRING DESTROYED BY FIRE

Big Spring, Texas, Nov. 11.—The Wester and Bly gin was completely destroyed by fire about 9:30 Monday night. This was an eight-stand gin and one of the best in West Texas. The loss is estimated at forty thousand dollars, insurance twelve thousand.

The loss is an especially heavy one to the county as the ginning of cotton will be seriously interrupted as the two other gins are handicapped by a shortage of fuel.

CAMPAIGN STARTS SOON FOR SOLDIERS' SANITARIUM

Austin, Tex., Nov. 12.—"Good hearts for Bad Lungs" Treat Texas Soldiers in Texas, is the slogan and winning appeal adopted by Major John C. Townes, Jr., for the State-wide drive, Nov. 19th to 26th inclusive, to raise funds for the erection of a Memorial Hospital at Carlsbad for Texas soldiers who have been stricken with the fearful white plague—tuberculosis.

Citizens with good hearts are urged to respond generously to this last call of the war and provide comforts for the poor boys with diseased lungs. It is a pathetic condition and can only be remedied by liberal response to the request for funds made by the Benevolent War Risk Society of Texas, which Gov. Hobby is president and who is asking that citizens do their part.

All of the school children are asked to give something, as well as the prosperous citizen and those who can well afford to aid in such a worthy cause. Children raising over fifty cents will be listed on Governor Hobby's honor roll and thus become identified in a movement that appeals to the good hearts of good citizens. All civic clubs, ministers and business men are being asked to do their part, and none can refuse.

The federal government is offering free medical treatment and all cost of maintenance for the tuberculosis if the citizens will but provide the hospital buildings. The government has no hospitals in Texas, hence the appeal. If it is not heeded the boys will have to go elsewhere or stay-at-home and spread the malady. What shall it be?

"There can be but one answer," says Major Townes. "Give to your utmost during the drive and help it in every way. Ask your neighbor to do his part too."

Major John C. Townes, who was in charge of the Selective Draft in Texas, has opened headquarters in Austin as head of the campaign by the Benevolent War Risk Society to collect 500,000 to erect hospital buildings at Carlsbad for the care of tubercular ex-soldiers of the State. According to the Federal Public Health Service, there are now more than 4,000 boys in Texas who contracted tuberculosis while in the Service, of whom a rapidly growing proportion demands immediate hospital treatment.

The week of November 19th to 26th inclusive has been set aside for a great drive to collect funds for the care of these Texas boys, and Major Townes has called upon the members of the Local Draft Boards throughout the State to aid in the movement.

"Every citizen is expected to give liberally in this, the last drive of the World War," said Major Townes. "The offerings are at Thanksgiving and as all Texans have much to be thankful for, they should not overlook this opportunity to aid the afflicted soldier boys who went forth to give their lives for their country. If the buildings are not erected the boys will be sent to other states where the climate is less desirable than that of Texas, or as an alternative they may elect to stay at home and possibly spread the dread infection to families, their friends, and their neighbors."

"Give generously," implores Major Townes, "that our boys may remain at home and have proper care and treatment. It will be our last act of the War."

HOBBY MAKES NO COMMENT THOMASON ANNOUNCEMENT

Austin, Tex., Nov. 8.—Governor Hobby makes no comment today when apprised of the entrance into the gubernatorial race of Speaker R. E. Thomason of El Paso, whose formal announcement was made today in El Paso.

When asked if he would be a candidate in next year's primary, Governor Hobby answered that he had not reached a decision in the matter. There is much speculation in State House circles as to whether Governor Hobby will again be a candidate for the high office he now occupies.

There had been some comment here that Thomason and Hobby would not be opposing candidates for Governor, and that if one ran the other would not.

Speaker Thomason received many pledges from members of the Legislature and citizens in this section when his friends let it become known that he would be a candidate for Governor; the information having been made public on the eve of the adjournment of the last special session.

ABILENE METHODIST ATTENDING CONFERENCE HERE

A large number of Methodist preachers and laymen from Abilene and other parts of Central West Texas left Abilene for Lubbock Monday night, where the annual meeting of the Northwest Texas Conference will open Wednesday morning.

Among the party going from Abilene were: Bishop Wm. F. McMurry; Presiding Elder J. G. Miller, D. D.; Dr. J. E. Carpenter, pastor First Church; The Rev. J. W. Hunt, pastor St. Paul's. About twenty pastors and laymen from points along the Wichita Falls, between Abilene and Wichita Falls joined the Abilene party here Monday night. Mr. Comer M. Woodward, of Dallas, who preached at St. Paul's Sunday night, also is attending the conference.—Abilene Reporter.

M. B. Sawyer, retired cattleman, and one of Terry County's most successful farmers, was here this week attending to business matters.

METHODIST CONFERENCE SESSION

FIRST SERVICE OF CONFERENCE HELD TUESDAY NIGHT WHEN REV. HENSON OF MEMPHIS, TEX., PREACHED

BISHOP M'MURRAY OPENED BUSINESS SESSION WED.

Dr. Stewart, of Birmingham, Ala., Arrived Thursday and Will Deliver a Lecture Each Forenoon and Preach at Night During the Conference Session Here.

As early as Monday morning preachers and delegates began to arrive in our city to be present at the Annual Conference, and they are still coming. The first service of the Conference was held at the church Tuesday night, when Rev. John R. Henson, of Memphis, Texas, preached a splendid sermon to a good size audience.

Wednesday morning at nine o'clock, Bishop W. F. McMurry, opened the conference with devotional services, and this was followed by addresses of welcome from the City of Lubbock, by the mayor, C. E. Parks, the town and county in general by Judge J. H. Moore, and in behalf of the Chamber of Commerce, Secretary George W. Briggs.

The former secretary called the roll.

A. L. Moore was re-elected secretary, and on his nomination, J. W. Hunt, A. W. Waddill, W. L. Lightfoot, C. R. Kidd, L. B. Smallwood and Geo. P. Palmer were elected assistants, the last four being designated as statistical secretaries.

The hours of meeting and adjournment were fixed at 8:30 A. M. and 12 M. The bar of the conference was designated as embracing the first eight pews of the main auditorium back to the cross aisle.

The standing committees as nominated by the presiding elders were read by A. W. Hall and the report adopted.

The Bishop announced the reference of the usual communications to their respective Boards and Committees.

The following visitors were introduced: Dr. R. L. Russell, Home Mission secretary; Dr. Caspar S. Wright of First Church Austin, representing the Bible Chair at the State University; Dr. T. F. Sessions, Vice-president of Southwestern University; J. G. L. Mitchell, a superannuate of the Southwest Missouri Conference; Rev. J. M. Shuford, and Rev. T. H. Polard, pastor of the Presbyterian church.

In answer to Question 17, "Are all the preachers blameless in their life and official administration?" The following were called, reports heard and their characters passed: J. G. Miller, J. W. Story, A. W. Hall, W. E. Lyon, A. L. Moore, J. T. Hicks, and G. S. Hardy. The name of M. Phelan was called and character passed. He was reported as being unable to be present.

The Bishop exhorted the conference on the subject of Church building, stating that next year ought to be a year of church building and revivals.

Under question 17, the following were called, their characters passed and names referred to the committee for the superannuate relation: J. L. Hollers, H. C. Jolly, J. M. B. Baker, S. G. Vaughn, J. A. Hyder, Jno. R. Steele, W. E. Caperton, A. B. Keen, J. B. Wood, A. B. Roberts, Geo. F. Fair, J. A. Crutchfield, R. S. Heiser, J. W. E. Bachman, L. E. Riddle, D. C. Ross, M. D. Hill, T. B. Hillburn, V. H. Trammell, M. W. Rogers, C. S. McCarter, B. F. Gasaway and C. E. Lynn.

The name of J. R. Wood was called and referred to the committee of Memoirs.

In answer to question 18, "Who are supernumerary?" the following were called, their characters passed and their names referred to the committee for the supernumerary relation: D. W. Hawkins, R. B. Bonner, Leon Henderson, Thos. Hanks, W. B. Kirkpatrick, J. G. Putman, Dr. Jno. E. Neal, J. B. McCarty, C. S. The name of A. T. Culbertson, L. Jackson and R. B. Evans were called and their characters passed.

After the usual announcements, the Doxology was sung and Dr. Russell pronounced the benediction.

Thursday—Second Day.
Thursday morning's session was opened with devotional services, conducted by Rev. J. B. Cochran, presiding elder of the Roswell district, New Mexico Conference. The conference stood and sang No. 388, "A Charge to Keep I Have." Bro. Cochran led in prayer and then read the Sixth Chapter of Galatians as the morning lesson.

referred to the committee for the supernumerary relation.

J. T. Hicks called up the name of E. B. Bowen, who appears in last year's minutes as a transfer to the East Oklahoma Conference and thru some oversight or misunderstanding not having been received there, his name was restored to the roll by conference vote.

Question 2, "Who remain on Trial?" was called, the following reported, their characters passed and having passed an approved examination, they were advanced to the class of the second year: Justin V. G. Anderson, W. B. Hicks, I. B. Sanford, T. W. Shepherd, and Raymond Van Zandt.

The following, not having been before the committee, their characters were passed and they remain in the class of the first year: J. A. Bell, T. W. Brabham, H. G. Scoggins.

The class of the second year was called, the following reported, their characters passed and having passed an approved examination, were advanced to the class of the third year: subject to election to Deacon's orders and admission into full connection: Claud Rather Kidd and George Washington Montgomery.

C. W. Foote, a deacon, W. E. Hamilton, an elder and J. W. McCrary, a deacon reported their characters passed and they were advanced to the class of the third year having stood an approved examination, subject to admission into full connection.

The characters of C. M. Haddick, J. A. Townsend and J. E. Yeats were passed, but not having been before the committee remain in the class of the second year.

The name of W. L. Vaughn was called, his character passed and under question 3, was discontinued at his own request.

A. J. Weeks, editor of the Texas Christian Advocate, was introduced by the Bishop and addressed the conference in the interests of the Advocate.

G. S. Wyatt and J. David Crockett addressed the Conference and Rev. J. G. L. Mitchell sang at the Bishop's request, an old rallying hymn of Methodism.

Under Question 8, "Who are located this year?" the following were called, their characters passed, and they were located at their own request: J. E. Carpenter, Marvin G. Malden, L. E. Jackson, C. F. Carmack, and Harry M. Long.

Under Question 17, the following were called, reports heard and having stood an approved examination, are subject to election to elders orders: G. H. Gattis, J. W. Leggett, W. L. Lightfoot, C. C. Tyler, J. H. Hicks, C. C. Tyler, J. W. Brown.

J. H. Hicks character was passed and having stood an approved examination on both the third and fourth years and served the required time, was passed by both committees and is subject to election to elders orders.

H. L. Hughes, an elder, reported, his character passed and having stood an approved examination completes the required course.

B. W. Wilkins reported, his character passed, and having been elected to elders orders at the last session of the conference, was declared eligible to ordination.

The following members of the class of the third year were called, reports heard, characters passed and having stood an approved examination were advanced to the class of the Fourth year: J. E. Boyd, J. Fred Cooke, G. O. Davis, W. A. Hitchcock, H. W. Hanks, J. W. Israelite, C. M. Killian, H. C. Gordon, and A. O. Hood.

The following were called, their characters passed, but not having been before the committee, remain in the class of the Third year: C. A. Duncan, S. W. Franklin, J. L. Rucker and S. H. Young.

Under Question 13, Claud Rather Kidd and George Washington Montgomery, traveling preachers and William O. Duckworth a local preacher of the Stamford District, were elected to deacons orders.

Under question 15, G. H. Gattis, J. W. Leggett, W. L. Lightfoot, C. C. Tyler, J. W. Brown, and J. H. Hicks were elected to elders orders.

The order of the day for 10 o'clock Friday morning was made the reception of the class into full connection, and immediately following the submission of the proposed change in the 23rd article of Faith.

On motion it was ordered that when we adjourn to meet at 6:30 in conference session.

Dr. Russell, addressed the Conference briefly and the usual announcements were made, followed by the Conference singing "Come Thou Fount," and the benediction by J. A. Crutchfield.

This is the report of the work of the Conference up to the time of going to press. The next issue of the Avalanche will contain the remainder of the work of the session together with a list of the appointments of the entire Conference.

It is understood that the business of the Conference will be finished by Saturday night and that the appointments will be made.

The name of C. D. Pipkin was called, his character passed and he was

**PLANTING COTTON SEED
WILL BE SCARCE**

The State Department of Agriculture is receiving many letters asking where cotton seed may be bought for next year's planting.

These inquiries come as a result of excessive rains which have ruined the germinating qualities of many thousands of tons of seed and unless farmers get their cotton seed now and store them, it is almost certain that no enough seed can be had next spring to plant a normal acreage.

Therefore, we are writing this letter to the members of the farmers institutes, urging them to buy their cotton seed this fall, if they need any, for fear that they may not be able to buy them at all next spring.

Again, if you have good sound seed for sale, write T. S. Minter, Director of Bureau of Markets, Austin, giving him the variety, quantity and quality of the seed you have for sale and he will list your offering in the Market Journal free and otherwise assist you in finding a market for same.

If you wish to buy cotton seed for next year's planting, write Mr. Minter and he will give you a list of those who may have seed for sale.

Bear in mind that we do not handle any one's money nor the seeds offered. We simply put the buyer and seller in direct communication with each other.

We would appreciate any assistance that any local newspapers may give by publishing this letter, and thus assist the farmers in the sections where said papers go to buy or sell their cotton seed.

Sincerely yours,
J. W. NEILL,
Director of Farmers' Institutes,
T. S. MINTER,
Director of Bureau of Markets.

**SIMMONS COLLEGE TO
CHANGE TO UNIVERSITY**

At a meeting of the Board of Trustees of Simmons College held recently President J. D. Sandefer recommended that Simmons College should become Simmons University with the opening of the fall term of 1921.

President Sandefer also recommended a building program calling for five new buildings within five years to cost \$750,000 and the addition of \$500,000 to the endowment fund.

After discussion by the trustees the Board unanimously and enthusiastically indorsed the President's recommendations and steps will be taken to carry out the program.

Simmons is to receive \$500,000 from the \$75,000,000 Campaign which the Southern Baptist Convention is now conducting, the Texas quota being \$16,000,000.

The buildings to be erected within five years will be: A fine arts building, chapel and library, two new dormitories, one for women and one for men, and a \$300,000 administration building, the completion of which program will give the institution ample housing facilities to properly accommodate a student body of 2,500.—Abilene Reporter.

**E. E. WOFFORD'S FATHER
DIED AT PLAINVIEW**

Ben Wofford died in this city Sunday afternoon at 1:30 o'clock, from chronic Bright's disease. The funeral was held at the Methodist church, of which he had been a life-long member, yesterday afternoon, Dr. Ernest E. Robinson conducting the service. Interment followed at the cemetery.

The deceased leaves seven sons and daughters—Mrs. A. W. Sternberg of Tulsa, Mrs. Ben Hardy of Stratford, Mrs. Morris Randall of Seymour, Fred Wofford of Lockney, H. A. and C. D. Wofford of Lubbock, all being present at the funeral except the latter, who was on a hunting trip to the El Paso county, and could not be reached.

Mr. Wofford was 72 years, three months and seven days of age, having been born in South Carolina in 1847. He was married there to Mollie Lancaster and she was the mother of the sons and daughters mentioned above. The family moved to Texas thirty years ago, settling near Albany, in Shackelford county. His wife died fifteen years ago, and twelve years ago he married Mrs. Bramley Shoemaker, whose death occurred three weeks ago in this city. For the past five years he made his home in Mineral Wells, but was this fall unable to return to that place.—Plainview News.

**Camel
CIGARETTES**

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

CAMELS are a cigarette revelation any way you consider them! Take quality, or refreshing flavor and fragrance; or, that wonderful mellow-mild-smoothness you never before got in a cigarette smoke! Yet Camels are so full-bodied and so full-of-satisfaction you marvel that so much delight could be put into a cigarette!

Camels expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your taste! You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarette aftertaste or unpleasant cigarette odor!

Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Camels are sold everywhere in essentially sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

FOGGY?

If Bilious, Constipated or Headachy take "Cascarets."

Tomorrow the sun will shine for you. Everything will seem clear, rosy and bright. Your system is filled with liver and bowel poison which keeps your skin sallow, your stomach upset, your head foggy and aching. Your meals are turning into poison, gases and acids. You can not feel right. Don't stay bilious or constipated. Feel splendid always by taking Cascarets occasionally. They act without griping or inconvenience. They never sicken you like Calomel, Salts, Oil or nasty, harsh pills. They cost so little too—Cascarets work while you sleep.

the South Plains section, state that the serious problem that has confronted the settlement of our country is readily being overcome. One firm says that many owners of large holdings here have decided to cut their ranges up in small parts and put them on the market. They account for this by the fact that with the present prices which they can receive for this land, it is too expensive to run cattle altogether any more.

M. B. Kincaid, of Farmington, N. M., formerly a resident of Youkum county, is here this week looking after his business interests in this section. Mr. Kincaid says crops in the northwestern part of New Mexico were better this year than any time in its history.

H. E. Thomas, former Western Union employee of this place, but now of Amarillo, was here over Sunday visiting with acquaintances.

**Wouldn't Life be Pleasant
if it Always Rained---**

A PATRIOTIC BANKING SERVICE

There is no credit in being patriotic nowadays. It is plain duty.

Believing that all essential business should be prosperous, booming and expanding, it is the policy of this Bank to encourage and help every legitimate business activity.

Whenever we can be of service to farmers or business men along these lines, it shall be our patriotic pleasure to assist.

COMMUNITY FAIR WILL BE HELD AT SHALLOWATER

Judge W. D. Crump was in from his ranch near Shallowater Monday and invited us out to attend the community fair that will be held at the Shallowater school house Saturday afternoon. There will be a display of the canning club of that place and some of the children will have their exhibits on display. There will no doubt be a most creditable display and the public is

invited to attend. The exhibition will be held in the afternoon of Saturday, November 15th.

E. B. Porter arrived here Monday morning from Temple, Texas. Mr. Porter will probably make this place his permanent home in the future.

Misses Beulah Bell Bennett and Alma Armstrong, went to Lubbock to attend a re-union of ex-students of the College of Industrial Arts Saturday.—Plainview News.

SLATS' DIARY

Friday—When the teacher ast me 2 describe the Manners & Costumes of the Natives of the Cannonball eyelands I wasnt able 2 Describe so I sed I didnt know. So she ast Jake which was holding up his hand which was dirty like common. So she sed Jake you may tell us. He replied & sed they haint enny manners or Costumes ary 1.

Saturday—Jake sed 2 me he knowed how 2 make butter out of grass. I bet him a rubber Balune he diddent. He sed 2 feed grass 2 the cow which wood give milk & then you churn the Butter. He hassent got his Balune yet. Mebbly he wont neither.

Sunday—teacher allowed me 2 go home from Sunday skool early today. The way it happened was this away. She sed Repeat the 10nd commandment & I sed it was Eat drink and be Mary today and tomorrow youll be Dry. She sed 2 study yure Bible. Which I did only I diddent study enny. Chikken for dinner.

Monday—More chicken today. ma give me the neck 2 eat & I objected to it & pa sed when he was a little boy he had all ways et the neck & the back & the nuckles. I ast him did he like them & he sed Yes he did. So I sed 2 him Well you can have mine. He diddent.

Tuesday—pa was playing on the Fonograf & decided he wood get a church peace so he went 2 the Telephone & rung up & then the person which answered sed What do you want & pa sed Take Me as I Am. The fellow sed Who you think yure a tawking 2. Pa sed Haint you the Musick store which sells Fonograf records & the man sed No this is the Police stashun. Pa rung off.

Wednesday—After skool was out Jake & me went a hicky nutting out 2 ole man Skinneres thicket. we had only just got our sacks full when ole man Skinner cum along & he sed Wol you kids a doing in my woods now get out. So we started 2 pick up our sacks & he sed Empty them durn you. We did. That ole man is 2 stingy to give a duck a drink.

Thursday—the Teacher ast Jane 2 name the canal which carries the fud thru the body after the stum-mick Digested it. She replied & sed it was the Alimony canal. I sickered & she frose me with 1 of her looks.

CANYON NEWS ITEMS OF THE PAST WEEK

Hallowe'en came and past, and everyone enjoyed it by picking cotton. So very few pranks were played in Canyon community.

The social center met last Friday night, not very many were present, but we are going to expect a larger crowd next time. They have decided to give an entertainment to improve the school grounds. Committees were appointed to arrange the program, and decide when to give it. It will be a Thanksgiving entertainment and the time will be set later. The committees are composed of Misses Hazel Green and Evies Beville.

James and Clayton Gamill were in town Saturday evening.

John Jackson and Raymond Pinkerton were Lubbock visitors Saturday.

Miss Erna Sides entertained with a singing Sunday night.

Miss Viola Williams took supper with Evies Beville Sunday night.

Mrs. H. M. Williams is not improving very rapidly.

Mr. and Mrs. C. A. Beville and son, C. A. Jr., of Temple, are visiting in the home of their parents, Mr. and Mrs. J. H. Beville.

Leonard Williams has been very ill this week.

Miss Althea Fulton and Miss Lyons, who are teaching the Bledsoe school this term were visitors in the home of Miss Evies Beville Saturday night. Miss Fulton visited Miss Beville last summer and during her visit she made many friends who welcome her back again. Each and everyone welcome Misses Fulton and Lyon back again.

Mr. and Mrs. A. L. Beville, of Detroit, Mich., arrived here last week to visit in the home of their parents, Mr. and Mrs. J. H. Beville. They came over land without any car trouble, only two punctures. They like the plains better than any country they came through. They are expecting to spend most of this winter here, and in Los Angeles, Calif. Before returning home they will also visit in Colorado.

Miss Ona Fowler spent Saturday night with Pearl Lambert of Idalou.

Miss Hazel Green gave a splendid reading last Friday night, which everyone enjoyed very much. Miss Beville gave a beautiful piano solo.

Mr. Raymond Pinkerton of Ranger is spending a few weeks with home folks.

Mr. Barnett's nephew, Mr. Johnson, has returned home after a weeks visit with them.

Mr. William Day was a visitor in the Beville's home Saturday night. Mr. Day has not been in our community in quite awhile. But we hope he wont wait as long next time before returning.

The Bledsoe people wish to announce that the singing will be at Bledsoe the fifth Sunday in this month, next Sunday is singing day at Idalou.

The committee on the Thanksgiving entertainment have announced that they will have a Box supper the last Friday night in November. Everyone is invited to come and bring a box or come to buy one.

Miss Ritta Metcalf spent Saturday night with Miss Evies Beville.

Mr. and Mrs. Jim Gassaway spent the week-end visiting Mrs. Gassaway's sister, Mrs. Fincher.

Misses Ola Teal and Velva Teal and brother Herbert, of Idalou, were at Canyon Friday night.

Colds Cause Grip and Influenza

LAXATIVE BROMO QUININE Tablets relieve the case. There is only one "Bromo, Quinine" E. W. GROVE'S signature on the box.

Mr. and Mrs. Scott Wright, of Greenville, Texas, who have been visiting with parents at Lorenzo, for some time, passed through here Monday morning enroute home.

PHONE 603

LUBBOCK, TEXAS

To the Farmers of Lubbock County

If you have any notes coming due soon on your land upon which you are paying a high rate of interest, it would be well to call and see me in regard to a loan through the Federal Land Bank. These Government loans are called "Mortgages that never come due." You pay 5 1/2 per cent interest and 1 per cent on the principal each year, making a total of 6 1/2 per cent which automatically pays off your loan in 34 1/2 years time. Think what you could save and besides a Federal Loan on your land will increase its value. If you are a renter and contemplate buying a home we can help you secure it with a Federal Farm Loan.

For further information see me at the Citizens National Bank, Lubbock, Texas.

COAL STRIKE WILL BE CALLED OFF

Indianapolis, Ind., Nov. 11.—The way for the final adjustment of the controversy between the bituminous coal operators and the United Mine Workers of America, which resulted in a strike of 425,000 union miners and action by the government in the federal court, appeared in sight tonight.

While the miners' representatives, who earlier in the day had agreed to comply with the mandate of United States District Judge, A. B. Anderson and late today mailed an order rescinding the strike, were discussing the future policy of the organization, telegrams were received from Secretary of Labor Wilson and Thomas T. Brewster, chairman of the operators scale committee, by John L. Lewis, acting president of the miners, inviting the miners' representatives into a conference.

In commenting on the telegram from Mr. Brewster, Ellis Searles, editor of the United Mine Workers' Journal and other officials of the organization who were under the impression that Mr. Brewster's message was sent after he had received Secretary Wilson's invitation, declared they saw in the operators' offer a deliberate attempt to entrap the miners into a tacit acknowledgment that the Washington wage agreement was still in force. The miners have contended throughout the controversy that the wage contract has expired.

After the general committee, which went into session at two o'clock today, as a policy committee had decided to accept the invitation of Secretary Wilson and refuse that of Mr. Brewster, the committee adjourned at five o'clock.

William Green, secretary-treasurer of the union, explained that every district in the United States would be represented at the conference Friday. The miners who will attend the meeting will include the international officers, district presidents or whom ever the districts choose to send, members of the executive board and of the scale committee.

Although the strike has been called off, court action in the case has not been completed. Miners' attorneys are completing their writ of error with a view to appealing the case to the United States circuit court of appeals and expect to file their petition within the next two or three days. From the standpoint of the government, the miners are not absolved from further obedience to the court's injunction, through withdrawal of the strike order and unless the case is dismissed, injunction writs served on more than sixty of the United Mine Workers officials are returnable before December 2.

Patriotic devotion to the government and American ideals and institutions caused the United Mine workers of America to comply with the order of the United States court to withdraw the strike order, according to a statement made tonight by Ellis Searles.

S. M. Braswell, of Clarendon, editor of the Clarendon News, is in the city this week attending the session of the Annual Conference, and paid the Avalanche a fraternal call. Mr. Braswell reports everything in fine shape over Clarendon way.

TOM GREEN COUNTY SCHOOLS MAY CLOSE

San Angelo, Nov. 7.—Unless fuel can be obtained at schools in Tom Green, Sterling and Coke counties will have to dismise. This was the tenor of telegrams which were transmitted to the state superintendent's office yesterday. The schools of this section are wholly dependent upon coal. Action on the matter is expected at once.

JONES COUNTY CATTLEMAN BUYS REGISTERED CATTLE

Harris Eagen, Jones county cattleman, bought forty-three head of registered heifers near Lubbock this week and shipped them Tuesday to his ranch near Hamlin. Mr. Eagen visited a short time while here with acquaintances.

A. Judd Commission Co., is located on lower floor in the rear of Security State Bank Bldg. See him if you want quick sales and a square deal. List your property with him. (201)

AGRICULTURAL WORKERS URGE FARMER TO GO SLOW

H. P. Davis, former State Representative of Van Zandt county, and now representative of the Department of Agriculture, accompanied by T. G. Marks, district advisor of the department, of Tahoka, are in our city this week in the interest of the campaign recently augmented by the Department of Agriculture and recommended by the West Texas Chamber of Commerce.

Mr. Davis says that cotton of West Texas is a better grade and better staple than that of the Eastern part of the State, yet "the farmers there are getting from \$15 to \$20 per bale more from the same classed cotton than those of West Texas." It is found by the Department of Agriculture as Mr. Davis says, that "mildling cotton of east Texas has a stain of yellow and brings more money than the same grade of West Texas with a perfect white color." Therefore the West Texas Chamber of Commerce heartily indorses the action of the Department in requesting and urging our farmers to be a little slow in selling their cotton and demand the same price as that paid in other sections of the State.

Nor is this the only problem confronting the cotton farmers of West Texas as stated by Mr. Davis. Careful investigation by the Department of Agriculture established the fact that conservative estimates of this year's crop put the total decrease in number of bales to be raised this year in the United States to ten million bales. "Seed cotton for next year is one of the most important items to be dealt with by our farmers. Some sections of the State and other sections of the South from which most all the best grades of cotton seed is sold to farmers of West Texas, are without this commodity. "It behooves the farmers of West Texas," continued Mr. Davis, "to look out for their seeds for the coming year." By that he means to select from the present crop the seed from the cotton of the best grades and staples and save for seed.

The seriousness of the seed situation can be fully appreciated by the farmers when it is known that Mebane cotton seed, one of the favorites of West Texas, that is raised for these purposes especially at Lockhart Texas, is scarce. The raiser of this seed cotton has recently inserted information in the leading papers of our State, stating that farmers could not count on getting their seed from him for planting the next crop.

"There is less half and half cotton raised this year in West Texas than there is in East Texas; there is more of the best grades such as Rowden, Lone Star, Truitt and other like seeds raised this year in West Texas than there is in East Texas, yet the farmers of this section are receiving less money per bale than those of East Texas." Mr. Davis is extremely anxious for the farmers of the South Plains to wake up to true situation and do all in their power to secure justice.

"Don't plant any more acreage next year than this. Keep the price of cotton at the present price level," is the advice given to the cotton farmers by Mr. Davis.

"EVENTUALLY" BACK TO LUBBOCK "WHY NOT NOW"

Blevins Tidwell, former citizen of the South Plains, present field manager of the Lubbe Petroleum Co., of Abilene, stopped over here a short time this week enroute home after transacting business in Terry county a few days. Mr. Tidwell has been making his home in Abilene nearly two years, but now—

"Lately my wife has decided that Lubbock was the best place to live," says Mr. Tidwell, "and we're moving here in a few days to again make our home and make it permanently at Lubbock."

It's a rare case when a family lives for awhile in this blessed section of the State and moves to other sections and remain very long. There are opportunities and—and—there's "something else that brings them back," as Mr. Tidwell says.

ESTABLISHES ELECTRICAL REPAIRING BUSINESS

A. D. Chase has recently opened an electrical supply station and repairing shop in our city—in the Merrill hotel building in the same space now occupied by G. K. Watkins Jewelry store.

Mr. Chase proposes to keep a complete stock of the best electrical fixtures in conjunction with his repair shop. Interior wiring, etc., will be given special attention. He has secured the services of M. H. Lawrence an electrical expert who has moved his family to our city recently to make their permanent home.

Come to Lubbock.

Meet Your Friends

Whenever you want to meet your friends or neighbors in Lubbock or have any business to transact tell them to meet you at the Farmers National Bank.

We invite you to make use of our spacious lobby where we have set aside a place and provided a table, chairs, stationery, pen and ink for your use and where you can transact your business and visit without being disturbed.

Our officers will be glad to help you if you need any financial advice or any assistance. Come in and make yourself at home.

WE ARE HERE TO SERVE YOU

The Farmers National Bank

LUBBOCK, TEXAS

Member Federal Reserve System

FINANCIAL CONDITION OF LUBBOCK TERRITORY BETTER

With less than half of the cotton crop for this year marketed and not more than one-fifth of the feed crops sold in Lubbock county, Lubbock banks show a decided increase in deposits. It is conservatively estimated now that our banks here more than \$2,000,000.00 on deposit or more than a half million gain of a few weeks ago. Account of sudden slumps in the market price of maize, kafir and other like grains of this country, it has been held by our farmers for better prices. Corn, and there is quite a lot of it, has never been touched in the fields yet. There are few if any of the farmers betting on the outcome of the cotton price, all seemingly glad of the chance to dispose of it at 40 cents per pound rather than hold.

The first picking of the cotton crop is hardly finished, many seem to be doubtful as to whether half this crop is gathered or not. Pretty weather during the past week with the big influx of cotton pickers brought more cotton to town for market than any week prior this season. Many farmers believe, the second picking of cotton will turn out more to the acre than the first.

Last Saturday, we are assured by the Lubbock Bankers, was a record breaker in our county for a day set for paying-off notes; those that had accumulated here the past two years on account of extreme hard financial conditions. "I never saw as many notes paid off in one day in my life," is what one of the oldest bankers of our city remarked, when speaking of conditions at the present time. At this particular bank there is more than \$1,000,000.00 on deposit and growing rapidly.

Besides the money brought into the country by the big crops there are the many land deals and sales that have enhanced the deposits. Many hundred thousand dollars have been handled by the local banks the past few weeks by oil dealers from the northwest Texas oil fields who are investing liberally in the wonderful offerings of Lubbock county and the South Plains.

HOBBY GRANTS FULL PARDON TO E. W. FRY

Austin, Texas, Nov. 8.—Governor Hobby has granted an unconditional pardon to E. W. Fry, former County Judge of Young County and a member of the Thirty-Fourth Legislature, convicted of forgery and sentenced to two years in the penitentiary. The Governor's action was officially announced today, the following notations being made by the Governor on the application for pardon:

"The conclusion of the Board of Pardon Advisers is ordered filed in fully explanatory of this case and in connection with the granting of this pardon."

Before reaching a decision Governor Hobby held several hearings, listening to arguments made by friends of Fry in support of the application for pardon and also to protestants. At these hearings the members of the Board of Pardon Advisers were present. The case against Fry which had been pending before the Court of Criminal Appeals for some time, was not finally disposed of until about fifteen days ago, when the court overruled a motion for rehearing, the court having previously affirmed the judgment of the trial court.

PLAINVIEW WILL HAVE COTTON GIN NEXT YEAR

E. C. Lamb and D. Hefflefinger are promoting a plan to assure the farmers in the Plainview territory that they will have facilities for ginning a big cotton crop next year. With only a few hours canvass nearly all the stock of the company was subscribed this afternoon. It is the plan of Mr. Lamb and Mr. Hefflefinger to build the gin provided only that no other parties can be secured who will build one. It is thought probable that a large gin company which has gins in most of the North Texas towns will build a gin here. However, if no gin is built by anyone else a large modern gin will be erected by the local company in time to take care of next year's crop.—Plainview Herald.

Mr. and Mrs. J. C. Blair, former residents of this city are here today from Crosby county visiting with friends.

Shallowater Conservation Club.
The club met last Thursday, not many members were able to attend. Miss Halsey was with us and plans were made for the community fair, which will be held at this place Saturday afternoon.

Plans were also made to send one club girl from this place to the Dallas Fair next year. We hope all the other women's clubs will do the same so the canning club girls can be represented at the Dallas Fair.
We extend a hearty invitation to all of the community to our community fair. The first Community Fair held in the county.
Secretary.

SOME QUESTIONS ON THE COTTON SITUATION

1. What did it cost the farmers of East and South Texas to raise this year's crop where it takes 5 to 50 acres to make a bale?

2. What did it cost the farmers of West Texas to make this crop where it has taken them three years to make it?

3. If it cost more than 45 cents a pound, on an average in the whole State to make this crop as it has been estimated by the State Department of Agriculture, why should not the farmers get it? Are they not entitled to some profit the same as other people?

4. Why cannot the farmers, merchants, and bankers of the South cooperate to control the price and thus enable the farmers to get what their cotton is worth?

5. Why is middling stained cotton in other parts of the State selling for \$15 to \$20 more per bale than is the middling white cotton of West Texas? Will not the farmers, merchants and farmers of West Texas unite and stop this unjust discrimination?

H. P. DAVIS,
T. G. MARKS,
Field Workers State Department of Agriculture.

Jno. T. Smith, formerly of Dickson, Tenn., is now located in Lubbock and will labor with and for the Church of Christ regularly. You are cordially invited to hear him each Lordship's morning and evening and to attend all services of the church. Sunday School 9:30 A. M. Preaching and Worship at 10:45 A. M. Preaching 6:30 p. m. SOCIETY NOTES

The Wednesday Needle Club will meet with Mrs. Tom Arnett November 19th, with an all-day party. All members are expected to be present to enjoy the good dinner.

Celebrating the first anniversary of the Armistice, the Elks entertained Tuesday night with an informal dance. About thirty couples were in attendance and among them were visitors from Slaton and Littlefield. The Lubbock Orchestra furnished excellent music, and the occasion was greatly enjoyed.

Needle Club.

The 1911 Needle Club was delightfully entertained Thursday at the T. B. Duggan home with Mrs. Duggan and Mrs. Ponton as hostesses. Many dainty Christmas gifts are being made now and the club is working diligently. At the close of the afternoon Mrs. Duggan and Mrs. Ponton served fruit salad, bread and butter sandwiches, salted nuts and tea to Meses. J. S. Johnson, L. T. Martin, W. S. Bledsoe, W. C. Rylander, Fred Boerner, and A. B. Conley Jr.

Party.

Mrs. E. L. Klett and Mrs. L. C. Ellis entertained with a lovely party on last Saturday afternoon, at the home of Mrs. Klett. The rooms were decorated with yellow and white chrysanthemums. Seven tables of players enjoyed the game of "42". Delicious home-made candy was served between the games. At the close a dainty lunch, consisting of chicken salad bread and butter sandwiches, olives, coffee and whipped cream was served.

Birthday Party.

(Contributed.)
Last Wednesday afternoon Robert E. Karper Jr., invited a number of his little friends to his beautiful home on the Experiment Station, to enjoy with him his third birthday. Exactly at the appointed hour the little guests began to arrive. They were met at the door by Robert, and his mother, and after they had all assembled, Mrs. Karper asked the little folks to come with her to the dining room. When the doors were thrown open the children were amazed to see the beautiful snow scene the room represented. The dining table was covered with snow, and in the center stood the snow tree, and around this tree snow balls attached to strips of white crepe paper, which hung to the edge of the table, each child drew a snow ball and found it filled with candy. Streamers of white crepe paper hung from the ceiling, and came down around the table. The buffet represented a big snow bank, and on top

sat the birthday cake, with three burning candles on it.

After the children had enjoyed with Robert the little gifts, he had received they were again invited into the dining room and seated in a circle and this time the birthday cake was cut and enjoyed.

While the children were enjoying their good eats, Mrs. Karper did not forget the mothers, who were fortunate to be invited. They were served with delicious coffee, with whipped cream, toasted cinnamon sandwiches, pickles, and candy.

As the evening shadows began to lengthen the little tots departed, declaring to Master Robert that they had a pent a delightful afternoon.

Those enjoying with Robert his third birthday were: Mary Wilson, Kathleen Klett, Carroll Hale Thompson, Ruth and Helen Wagner, Edward Karper, Shelby Polard, Chas. E. Maedgen Jr., Pargett Maddox, John Gerald Thompson, Neil Wright Jr., and Gwendolin Thompson.

Mr. and Mrs. Cleve George, from Portales, N. M., visited their relatives Mr. and Mrs. Wm. George last week.

Mr. Hal Thomas, of Amarillo visited friends in the city Sunday.

Mrs. Wm. Murray was called to Big Spring last Thursday by the illness of her mother. She returned Saturday and her mother was able to accompany her home.

Mr. R. B. Haynes and little daughter, from Tahoka, visited Mr. Haynes parents, Mr. and Mrs. E. R. Haynes for the week-end.

Mr. Claude Martin has returned from Eastland and is with his parents, Mr. and Mrs. D. T. Martin.

Rev. and Mrs. J. B. Cole, from Crosbyton, visited relatives and their many friends here Tuesday.

Miss Johnnie Collins visited Miss Lilah Porter this week.

Miss Nichols is visiting at her home in Clifton this week.

Miss Pansy Posey was the guest of her sister, Mrs. E. O. Nichols, in Plainview, last week.

Mrs. J. C. Truett and little son, of Temple, visited her sister, Mrs. Ed Allen, for two weeks.

Mr. Aynes Robinson left Tuesday for Amarillo, where his mother, Mrs. Jones Robinson Sr., will join him and they will go to their home in Wichita Falls.

Mrs. W. S. Posey accompanied her grandmother, Mrs. Boerner to Sweetwater last week. Mrs. Boerner is on her way home at Ennis.

Mr. and Mrs. Homer Talbert and Mrs. Cooper, of Littlefield, were visitors in our city Tuesday.

Mrs. Burleson, of Lamesa, visited her sister, Mrs. Stockbridge, this week.

Miss Lottie Settle spent the week-end here with her parents and returned to Slaton Monday-morning.

Rev. and Mrs. George Shearer, of Childress, are among our conference visitors this week.

Mr. W. T. Petty, of Tahoka, was an Armistice day visitor in our city. Mrs. Alice Coulter of Tullia, passed

through Lubbock Friday and visited at the A. B. Ellis home. Mrs. Coulter was en route to Lovington, N. M., where she will make an extended visit with her son-in-law and daughter, Mr. and Mrs. A. L. Tarleton.

HOW TO STORE YOUR MOTOR CAR DURING WINTER MONTHS

Very frequently there are motor car owners who travel to another climate during the winter or who prefer using closed cars during the cold months, or who, for some reason or other, wish to store their touring models until spring. For such owners the service department of the Liberty Motor Car Company has prepared the following instructions which will be found perhaps more thorough than any of the kind ever before issued.

"The prime object to have in mind is protection against cold and dampness, two factors which can do more injury to your car than 20,000 miles of driving.

"The first and obvious thing to do is to look over your garage and see if it is weather-proof. If it could be hermetically sealed it would be ideal, but, as this is impractical, do the next best and see that all cracks and openings are closed up, doors fit properly and generally prepare it so that you will be snug and warm as possible. Now as to preparation of the car itself:

"1. Wash and thoroughly clean the car and jack it up from under the frame. Do this by placing wooden trestles under the frame, the best points of support being close up against the two front axle bolt brackets of the front springs. Supporting the chassis in this manner relieves all weight from the springs and wheels.

"2. Remove all tires from the rims and completely exhaust air from the inner tubes and rub them down well with soapstone, sprinkle with French chalk, fold them up perfectly flat, care being taken not to crease them, and place in inner-tube bags. The tires should be laid down flat. Store both tires and tubes in a dark place.

"3. Clean and shellac all rims.

"4. Drain off water from the radiator and cylinder block. Flush out the radiator with hose. To insure that all water has been emptied from cylinder block and water pipes, start up motor and run slowly for a few minutes. This will convert any water into steam which might have collected in the water jackets. Replace any plugs removed to drain off the water and close drain cocks.

"5. Empty gas tank and drain carburetor.

"6. Disconnect electrical cables at battery and remove the battery. Smear the ends of cable with vaseline. Fill with distilled water and store in a dry place where there is no danger of freezing. (Battery should be taken to a charging station and recharged every two months in order to best preserve it.)

"7. Release clutch by propping open with strip of wood between clutch pedal and floor board.

"8. Wipe all machine parts of motor and transmission, clutch and steering gear with oil-soaked rag. Cover motor completely with canvas, burlap or an old rug, and replace bonnet.

"9. Oil all steering joints and connections and wrap up with rag.

"10. Fill shackle bolt oil cups with oil and wrap up with rag. Fill and screw down all grease cups.

"11. Pry open spring leaves and inject graphite and bandage with rag or canvas.

"12. Put the top up and cover the whole car with a dust sheet which will completely cover the car on all sides and attach tape or cords to the ends and tie together underneath the eaz.

"Also write the following reminders on a tag and tie to the steering wheel, so that you will be sure to do these things when you want to again drive your car in the spring.

1. Fill radiator with water.

2. See that drain cocks are closed.

3. Empty oil sump and refill with fresh oil.

4. Thoroughly oil and grease as per oiling chart.

5. Refill battery with distilled water and charge.

6. Flush out carburetor with gas. If the above features are carefully carried out, you can lock the door of your garage and have the assurance that when the time comes to use your car again, it will look and drive as well as the day you put it away."

Claude B. Hurlbut left last Sunday for Brownwood where he will spend the week attending to business matters and visiting with acquaintances.

Mrs. J. A. Rix left today for Big Spring, where she will visit a short time with relatives and friends.

Letter No. Two

Not ONE Man in FIFTY Carries Sufficient Life Insurance

This statement will prove itself, and will be determined solely upon the wages of the man himself, or upon the salary that he can earn, or upon his income.

There is but ONE way to protect this earning power in man, and that is to INSURE THAT LIFE which furnishes the power.

MORAL—Insure while you are physically fit.

SPRAY MATERIAL

(By H. E. Mays, Horticulturist, Extension Service.)

Many fruit growers are planning to spray their orchards this winter and summer. Too great care cannot be exercised in selecting the materials to be used. There are no "cure-alls" to be used in spraying. A material that can be applied to kill insects will probably have little or no value in the control of fungus diseases. The right material must be applied at the right time in order to show any results from the spraying operation. If the wrong material is applied, it may not only have no value in the control of the specific pest mentioned, but it may seriously injure the tree to which it is applied. If the proper material is used you can expect positive results.

The following are the more common insecticides and fungicides that are used in the control of the insects and diseases of fruits.

Bordeaux Mixture—Bordeaux mixture is the original fungicide. It does not have an insecticidal value. It is used in the control of the grape diseases, apple and pear diseases, and combined with an insecticide is added to the control of insects that attack these fruits. Bordeaux mixture is made by combination of copper sulphate (bluestone), and lime water. This material must not be used on any of the stone fruits. Instructions for making this material may be secured on application to this office.

Commercial Liquid Lime Sulphur—Commercial liquid lime sulphur is the standard winter spray for all fruits. As a winter spray it has both insecticidal and fungicidal value. It will control the San Jose scale, peach leaf curl and be of some value in the control of scabs and blotches in the winter forms. It can also be used as a summer spray for apples and pears, but never as a summer spray for stone fruits.

Self-Boiled Lime Sulphur—The preparation, as the name implies, is a mixture of lime and sulphur and is prepared by boiling only with the heat that is secured by the slacking of the stone or rock lime. This material must be made in the orchard at the time it is to be applied. It should never be allowed to stand over night before being used. This is a material for the control of scab and brown rot, which are the diseases that cause injury to the stone fruits after they are formed.

Arsenate of Lead—Arsenate of lead is a standard insecticide for the control of chewing insects that attack fruits and vegetables. This must be applied at the proper time for the control of the specific insects for which it is applied. This is used in combination with any of the fungicides given above and may be used without injury to the plants to which it is applied. This is attainable either in a powder or paste form. When used as a paste twice as much must be used as when used as a powder. It is not practical to buy the ingredients and try to make arsenate of lead on the farm. It can be more economically prepared in the large factories, and there will be less danger of securing an improperly made material than will by making it on the farm.

The success of your operations in controlling insects and diseases also depends on the pressure with which they are applied. The higher the pressure, the better the results. In any orchard of 10 acres or more a power spray machine should be se-

Money to Loan on Homes

I will loan you the money to buy, build or repair residence or business property, with on or before prepayment option, easy monthly payments.

CLAUDE B. HURLBUT

Citizens Nat'l Bank Bldg. Lubbock, Texas

cured to apply this material with. In most communities of Texas there are a number of men who would be glad to pay to have their work done by a power machine. Therefore it is profitable to many men who have secured power machines to do this work for them.

Tenaha Farmers' Co-operative Society.

M. E. Hays, Horticulturist, has just been advised that the Tenaha Farmers' Co-operative Society has completed the organization and raised the capital stock of \$500, which money has been collected and deposited in the bank, and has applied to the Secretary of State for a charter under the rules of Farmers' Incorporation law.

The purpose of this Society is primarily for the marketing of fruit and vegetables in that community co-operatively. This organization is an outgrowth of a campaign conducted in Shelby County by County Agent, L. G. Smith, and members of the special staff of the Extension Service. The members have pledged acreage in truck whereby they will have enough produce to market in car lots next season. The produc-

tion of truck and fruit crops is not a new enterprise in this section. However, they do not feel that their production has been justified by the competition marketing which they have been carrying on there. They have decided that it is better to cooperate, rather than compete with each other on the local market; hence the formation of this organization. The principal crops that will be handled by the Society next season will be tomatoes, peppers, sweet potatoes and peaches.

The directors of the Society are: E. B. Sanford, Paxton, President; A. R. Davis, Tenaha, Vice-President; D. S. Hurst, Paxton, Secretary; and W. B. Robertson and J. B. King, Tenaha. This organization has 100 members and is one of the several that have been formed under the direction of the special staff of the Extension Service in co-operation with the county agents.

CARD OF THANKS

I take this method of thanking the teachers and pupils and all others connected with helping me in picking cotton. S. J. Shipp. 201

We Don't Believe

That your storage battery has had a fair chance in the past—due to the fact that the Distilled Water was caught in a metal container—and therefore was not pure distilled water.

Through the courtesy of Mr. Adams, manager of the Lubbock Laundry, we have been permitted to place a wood container to catch the water—and you can now have the assurance of having pure distilled water put in your battery.

Yours for real Battery and Ignition Service.

MOORE BROTHERS SADDLES - HARNESS

The proper application of industry combined with a knowledge of every phase of the business, with those admirable traits of character that starts the fundamentals of the undertaking, is a feature of the Saddlery and Harness business now being conducted in our city, by the present owners, R. G. and G. H. Moore. Acquired knowledge of every phase of this business is being put into proper application, in carrying on of this business. It is regarded as one of the highest, in proportion of merits, in the section served by Lubbock.

Messrs. R. G. and G. H. Moore founded or established their present business in our city about four years ago. This location is on one of the prominent streets of our city, or in the very heart of the business section. The building in which this business is being maintained occupies a space of about 25 by 65 feet. The north side of the square or where Moore Brothers have their store is now recognized as one of the busiest sections of our city.

Moore Brothers believe that every customer deserves the personal attention in their business. Probably there is no other firm in our city who can justly claim a more thorough knowledge of the intimate details of the construction of products which they serve the public with. For instance both of these men have a thorough knowledge of the saddle, harness, and repair work; having been in the school of actual experience the better part of their lives. Therefore they are able and willing to guarantee the workmanship turned out by their concern.

Moore Brothers handle auto tops; they thoroughly understand the construction of, and the materials used, in making a good, neat appearing top for cars and offer to the public unexcelled service in this line.

The construction of harness is no mean item of intrinsic value to the running of this business. They know how to make harness, and they know good harness when they see it. You can bank on the quality of the harness goods carried in stock or made-to-order by them.

Moore Brothers stock does not stop with these however. They have a complete line of household goods and fixtures; bought with excruciating care and offer you the advantage of these goods at a price reasonable and consistent. In addition they have stocks of stoves, including ranges, carpets, cedar chests, rugs, dining tables, beds and toilet articles, with a nice stock of tents.

Moore Brothers invite the farmers of Lubbock and adjoining counties who are in need of anything in the harness, saddlery or furniture line to visit their store, inspect their line and figure with them on prices.

The Saddlery and Harness department is fully equipped with the latest necessary machinery and in this department only those of extraordinary skill are employed to do this important work. Moore Brothers have an enviable reputation on the South Plains for turning out the best work in their saddlery and harness business, with that of making and putting on auto tops, of any concern in this section. Lubbock is indeed proud of Moore Brothers' position in this field.

**O. E. SEARS LAND
COMPANY**

If the people of West Texas could be made to realize the value of the work done in the development of this wonderful section by the real estate men, they would instantly start the erection of a monument to them. There has not been a single advancement made in the history of the unparalleled development of this immediate section, which includes the finest rural schools, churches, etc., with which this section is more than blessed that cannot be traceable back to the work done by the real estate firms of our city.

These things are of the past and the truth of these statements cannot meet fair denial. Today as in the past, for we have not yet entered that state of commercial and agricultural maturity, the real estate men are on the grounds, boosting, and pushing forward every interest that is best for the quick and efficient development of a country whose prospects were never brighter than at the present time.

With these things that indirectly help every commercial industry of our country, the real estate firms are advocating a division of many of the larger land interests in our section of which there are numerous ones. It is a fact undisputable and known to every man in our country that unless many of these large acreages are sub-divided and in no short time, they will be one of the biggest factors of hindrance to commercialism of the South Plains country. This country as we have often said is entering upon an era of intensive farming combined with a small herd of cattle or sheep. Upon the division of these holdings of which we have mentioned is based the amount of development we shall see.

In the firm of O. E. Sears Land Company we give you a fair example of men who are backing this wonderful developing factor. This firm comprises the personnel of O. E. Sears and W. B. Powell and are well known over this section of the State. Mr. Sears moved from Whitewright to this country in 1917 and purchased twelve hundred and eight acres of our land. Since that time or during the time he has lived here he has actively engaged in buying and selling lands in Lubbock, Terry, Lynn, Crosby and Hockley counties. It is a fact worth knowing that in this time Mr. Sears has sold more than one million dollars worth of South Plains property. This was done without one dissatisfied customer.

W. B. Powell is one of the best known business men of Lubbock, having moved here in 1902. Four years during the first entrance into our community, he was employed on his father's ranch north of town. In 1906 Mr. Powell moved to town and engaged in the land and abstract business which he has been following as a profession nearly fourteen years. September 1st, 1919, the O. E. Sears Land Company was formed and in the past two months this enterprising firm have sold more than half a million dollars worth of property.

These men are active live-wire real estate dealers and know the value of real estate on the South Plains. They are ever willing and ready to show any man who might be interested in this wonderful section the many farms, ranches and other property they have listed. Those who have property here and do not wish to sell it should not list it with the O. E. Sears Land Company.

METHODIST CONFERENCE NOW IN SESSION HERE

Continued from page 1 this section

ments will be read Sunday night. All the local pulpits will be filled by Methodist preachers Sunday morning, but we have been unable to obtain the names of those who will preach and the pulpit they will occupy.

There is a good representation of the preachers present, and connectional men, but the representation of laymen is very light. The reason given for this is that the shortage of labor in every line of business and the urgent necessity of gathering the crops.

THOMASON ANNOUNCES FOR GOVERNORSHIP

El Paso, Texas, Nov. 8.—Robert E. Thomason, Speaker of the House of Representatives and until recent years a Gainesville attorney, announced his candidacy for Governor here tonight.

Mr. Thomason is Representative from the El Paso District and was elected Speaker without opposition. He was prosecuting attorney at Gainesville for a number of years before removing to West Texas.

As a member of the Legislature he was the author of the present "clean election law," joint author of the zone bill which enacted prohibition about the army camps and active in the passage of other prohibition laws as well as woman suffrage.

Speaker Thomason was reared on a farm near Gainesville and is a graduate of Southwestern University at Georgetown and also the law department of the University of Texas.

Mr. Thomason will later open headquarters at Dallas and will open his campaign in his old home town of Gainesville.

SPIKES AND LEWIS, REAL ESTATE AND FARM LOANS

Ten room modern dwelling on sidewalk, east front, nice shade trees, reasonably close in at extra special price for the next ten days. Also

A nice six-room modern dwelling well situated, at special price. Ask to see them. Spikes & Lewis. 201

J. C. Duff was in Brownwood the first of this week on a short business visit returning home Tuesday.

J. L. Randal, druggist of Brownfield, is here this week attending the Methodist conference as a delegate.

Mrs. W. L. Farmer of Slaton, was accompanied here by her husband today, where Mrs. Farmer will receive medical treatment by physicians in a local sanitarium.

Mrs. W. E. Ballew is visiting at the home of her mother in Bonham this week. She was accompanied by her husband as far as Sweetwater last Friday.

C. A. Holcomb, sheriff, returned last Friday from Stamford, where he was called to attend the bedside of his father. Mr. Holcomb's father died shortly after his arrival.

Messrs. W. J. Maxwell, W. W. Bryan and J. B. Rogers, of Fort Sumner, N. M., were visitors here one day this week.

A. G. Turner and family, of Quanah, recently arrived in our city and will make this place their permanent home.

Dr. Wade M. Lockman. Registered Osteopathic Physician. Drugless treatment of chronic diseases. Burrus Bldg. Phone 67. (20-1)

Lubbock, Texas

REPUBLICANS WIN IN OKLAHOMA ELECTION

Oklahoma City, Ok., Nov. 8.—At 10 o'clock tonight sufficient returns, although unofficial, had been received from today's election for Congress in the Fifth Oklahoma District, to show that J. W. Harrell, Republican had defeated Claude Weaver, Democrat, for the unexpired term of J. B. Thompson, Democrat, who died recently. Figures at Democratic headquarters gave Weaver the four southern counties of the district—Garvin, McClain, Murray and Cleveland—aggregating a majority of 2,112, while the three northern counties of the district—Oklahoma, Logan and Payne—went strong for Harrell, giving him a lead of 2,700. Republican headquarters claims the office for Harrell by 700 to 1,000 majority.

Weaver made his race on a platform pledged to support the League of Nations and President Wilson's policies in general, while Harrell pledged to opposition to the League

**L. H. Shelton
At Shoe Shop**

Agent for Georgia Government tested marble, granite and other monumental stones. Monuments erected without charge.

of Nations, peace treaty and other administration policies.

Recent calls for labor to work in the cotton fields and the condition of the crop, together with poor weather, held the vote down, according to election board officials. The normal vote of the Fifth District is approximately 50,000, but women voting today hoisted the total possible to 100,000.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 50c per bottle.

Come to Lubbock.

EASES A COLD

WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine. Trust upon Pape's!

Come to Lubbock.

PIONEER RANCHMAN-FARMER DIES AT HIS HOME HERE

Daniel M. Jay, age 84 years, 10 months and 23 days, born in Illinois, one of the South Plains' earliest settlers, died at his home in our city, Saturday night following a short illness.

The deceased has resided in Lubbock about three years, coming here from Estacado, where he resided for about twenty-three years. During his residence on the South Plains he engaged in the farming and ranching business and made a success. Three years ago, because of the weight of years, he retired from active farming and moved to our city.

He is survived by a wife and several children. J. B. Jay, of Gerard, Kansas, and a brother and his wife, of Midland, both sons of the deceased were here to attend the funeral service which was held Tuesday afternoon, conducted by Elder Smith. Interment was made immediately following in the Lubbock cemetery.

Representative R. A. Baldwin of Slaton, was here Wednesday attending to business matters.

COTTON PICKERS LURED BY TALES OF HIGH PRICES

Monday morning of this week there were near a hundred cotton pickers landed at Lubbock. The biggest part of the motley crowd were negroes who as they say "had been told of the enormous money being made in picking cotton on the South Plains." There are a few farmers who have offered as much as \$3.50 per hundred for cotton picking in this country, but that class is very scattering and in most cases the cotton is poorer than the average. The average price being paid now here is \$3.00 per hundred and board, but many of these men heard only of the \$3.50 per hundred and board, while others claimed that more money than that was offered here. When asked why they had not come here earlier one of the negroes replied: "See boss, loze white men down home wooden let us come till we picked all their fust." Overtime he continued the farmers and other men in Texas where the negroes are plentiful, would scare many of them about coming here and told them that as the negro said "Dem white folks out dere to Lubbock would run us out."

There probably was a time in the earlier history of the South Plains that the negro might not remain peaceably, but with the present conditions they have to be endured, so that the great crops of our country can be gathered and sold. They are here now, hundreds of them, and from the number of wagon loads of cotton coming into town daily they are gathering the "fleece dough".

NEGRO COTTON PICKER SHOT TUESDAY MORNING

Lassie Darden, a negro employed by J. T. Lokey, a farmer living ten miles south of this city, was shot and probably fatally wounded at seven o'clock Tuesday morning by another negro employe of the same farm, following a quarrel. A thirty-two automatic pistol was used, the bullet entering below the heart and penetrating as far as the outer skin.

Mr. Lokey wired Sheriff Holcomb directly after the shooting and Mr. Holcomb accompanied by Marshal Mitchell left in their car for the scene of the shooting. Upon arrival at the scene the pistol was found and negro witnesses of the shooting informed them that the negro who did the shooting had fled. Mr. Holcomb, Mr. Mitchell and Deputy Jones, of Slaton, who was called to the scene, followed tracks left by the fleeing negro and in their cars started out in search for him. Deputy Jones went up the Canyon on one side while another man remained in the middle of the canyon and Sheriff Holcomb stayed on the other side of the canyon. The negro was found about seven miles south of Slaton on the east side of the canyon by Deputy Jones. He was lying down in the grass trying to conceal himself. He was brought here by Sheriff Holcomb and Marshal Mitchell and locked in the county jail to await action of the Grand Jury.

Darden, the victim was brought to town for treatment by local physicians and died some time Tuesday night.

From reports the shooting was brought about by grievance of gaming, the victim having won money from the other negro. Following a quarrel early Tuesday morning Thomas, it is alleged, pulled his gun and shot.

LOCAL WOODMEN WILL STAND RULING OF GRAND LODGE

At the regular weekly meeting Tuesday night of the local Woodmen of the World, following a discussion made by several of the members on the subject of raise in rates recently ruled by the Grand Lodge, the members of the Lubbock Lodge decided the raise was just and pledged to stand by the Grand Lodge's ruling. This decision was made after the report of Deputy A. Judd, had been heard and approved. Mr. Judd attended a recent call meeting of the Texas Lodges at Waco where the purpose was for a discussion of the raise in rates.

The general opinion of members now is that competitive insurance companies published untrue statements in regard to the recent ruling of the Grand Lodge of the Woodmen. We are informed by Deputy Judd that the raise in rates is insignificant in as much as it will effect only old members of the order for a short period and does not effect the rates on new members.

T. Q. Dyres, of Vernon, Texas, writes us to send him the Avalanche and states that he will be a resident of Lubbock county by the first of next year. He has bought a section of land twenty-two miles northwest of Lubbock, but will rent a farm near town, where he will reside next year.

SOME NEWS ITEMS FROM TERRY COUNTY HERALD

Pool & Goodwin shipped out ten cars of calves this week to parties at Amarillo. Those that saw them tell us that this was the finest bunch of calves ever shipped from these pens.

Our old friend T. J. Price, of the north side, informed us this week that he just had 2000 gallons of old cane syrup that he made this season and the editor took a bucket home with him and tried it out. This old farmer—not so powerful old either—has made more than \$2,000.00 out of good sorghum molasses alone this season, besides numerous other things to be gathered yet, and yet there are people dying with chills and fever in the east that think you will starve in the west. Oh! If people just only knew better.

Mr. and Mrs. Body got in this week from Florida, well satisfied to make the Plains country their home in the future. They, together with Mrs. Body's sister, Mrs. Smith, of Littlefield, Texas, are here visiting their parents, Mr. and Mrs. J. M. Shields.

Homer Ingle, an erstwhile barber of this place, who went from here to Big Spring, and from thence to Lubbock, was down this week looking after his property interest on the west side of the square. He is just gradually working his way back to Brown.

The West Texas gin was layed up for repairs a half day this week on account of a burned out bearing. They were in the same boat with the Herald. Luck must have struck on them in a sympathetic strike.

S. H. Weaver returned the latter part of last week from Coleman County, where he went to attend to business matters.

John Weaks, who recently enlisted with the infantry and was stationed at Fort Bliss, El Paso, Texas, is here this week on a short furlough for a visit with home folks.

ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Headache, Colds, Pain, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monocetio-acidester of Salicylicacid.

S. A. BARNES PRESIDING ELDER OF PARIS DISTRICT

Rev. S. A. Barnes, for three years pastor of the First Methodist church at the corner of Tenth and Lamar, was made presiding elder of the Paris district during the annual conference held in Terrell last week.

Rev. Barnes is succeeded by Dr. H. D. Knickerbocker, of Houston, who has already arrived in the city to become familiar with his new work. Other changes wrought by the conference in the personnel of the Wichita Falls district include the appointment of Rev. Sam - Black, of Gaitesville, to succeed Rev. J. Sam Barcus as presiding elder of the district. Rev. Barcus, for four years in the service of Wichita Falls and district has been given the pastorate of the First Methodist Church at McKinney where he and his family plan to move next week.—Wichita Falls Times.

Rev. Barnes is well known in this section of Texas having been pastor at Plainview and at other points in the South Plains, and has also been a visitor in Lubbock a number of times.

J. A. Wilson left Tuesday morning for Dallas where he will be for a few days transacting business. Mr. Wilson will also visit in the northwest Texas oil fields before returning.

Ben T. Smith of Littlefield, was in town one or two days the first of this week attending to business.

MODERN UTENSILS WILL BE USED FOR CANNING

"Many citizens of the county are realizing the value of modern utensils employed in canning meats, potatoes and other like edibles," says Miss Halsey, Home Demonstration Agent. "Several have placed orders with me for Steam Pressure Canning apparatus to be used."

AVALANCHE ADS PAY, SAYS LOCAL COMMISSION DEALER

Three classified ads at a total cost of \$1.20 entered in the Avalanche a few weeks ago by a local real estate commission firm, in which two small tracts of land near town were advertised for sale, brought more than thirty inquiries, many from distant points, such as Fort Worth and others over the State. The commission firm stated that within two weeks after the insertion he had sold the two tracts and two other farms in the county which were directly attributable to the advertising done, which cleared the immediate commission firm more than \$600.

A hint to the wise is sufficient. N. Smith, farmer of the south part of Lynn county, was here one day this week prospecting. Mr. Smith may sell his farm in Lynn county and move to Lubbock in the near future.

Charles Schuler, farmer of the Petersburg community, was here one or two days this week attending to business matters.

"BACK TO GOD'S COUNTRY" IN 52 DEG. BELOW ZERO

Production of "Back to God's Country," by James Oliver Curwood, which will be shown at the Lyric soon, was accomplished after two months of extreme hardship suffered by a company of sixteen principals.

The setting for the picture is laid in the Arctic regions and the great majority of the scenes were taken while the temperature hovered about the 52 degree below zero mark. Camera men suffered frost bitten hands the moment they took off their fur gloves. It was necessary to keep the cameras in action all the time in order to keep the emulsion on the film from freezing. It was necessary for all supplies for the company to be transported over barren lands of ice by dog teams.

Mr. Curwood, author of the story, was on location for three weeks. Fearing an attack of pneumonia, his friends forced him to leave against his wishes.

POULTRY EXPERT TO MAKE DEMONSTRATION HERE SOON

F. W. Kazmeier, poultry husbandman of the Extension Department of A. & M. College, will be in Lubbock county November 22, to hold demonstrations in culling flocks.

This is a very important event for chicken raisers of our county and as Mr. Kazmeier will only be here one day Miss Halsey, Home Demonstration Agent, is trying to make arrangements so that one demonstration will be made at Lubbock and Slaton. Further announcement about this important demonstration will be made next week.

BIG DEAL THIS WEEK IN 2-YEAR-OLD HEIFERS

Whittington, Crocker Bros. & Huddleston, Amarillo stockmen, were visitors to Midland this week, here to close a deal with Clayton & Elkin Bros., in which the latter have been sold 2300 2-year-old heifers, at \$65 around. In deal a lease on 50 sections, known as the Fasken South Camp pasture, was thrown in. These cattle were shipped to Midland from Amarillo last fall, and pastured at South Camp since then. Delivery in the deal was completed the first of this week.—Midland Reporter.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

THE SHALLOWATER HALLOWE'EN FROLIC

On the night of October 31, there was a delightful Hallowe'en party and box supper given at the Shallowater High School building. The people were met at the entrance by ghosts, who led them up a perilous stair-way, which was dimly lighted by Jack-O'Lanterns, and inhabited by ghosts and spooky noises, to the auditorium, which was decorated profusely in the Hallowe'en colors. Games such as the Cracker Eating contest were enjoyed by all those who were fortunate enough to not have their mouths covered with their masks. Meanwhile the audience was entertained by the Shallowater String Band. The boxes were sold by our able auctioneer, Mr. Stringer, to the highest bidder. We are very proud of our boys, for being so liberal in buying the many boxes brought by the women and girls. Mr. A. J. Samsill, after much bidding, succeeded in obtaining the "boxed cat," much to the amusement of all present. After the boxes were all sold, the men and boys found their partners, after much merriment, and confusion, on account of the disfigurement of their faces. They then descended another spooky stairway to the women's club room, which was beautifully decorated, in the ordinary Hallowe'en fashion. Here we all enjoyed a delicious supper, after which fortunes were told by "Hagar and Her Helpers," the Fairy and the Elf.

The box supper was given for the benefit of the school in general, and we appreciate the generosity of all who helped in any way, especially the "out of town" visitors.

\$138.33 was realized from the sale of boxes, the fortune telling, and the candy, peanuts, and pop-corn sold by the small Fairies and Brownies.

There will be a community fair held at Shallowater, Saturday, November 15. Everybody invited to come and see what we are doing. A basket ball game between the Shallowater team and the teachers of Hardy and Shallowater, will be one of the interesting features of the day.

George S. Slover, president of the Clarendon College, of Clarendon, Texas, is here this week attending the District Conference.

Regulate the bowels when they fail to move perfectly. HERBINE is an admirable bowel regulator. It helps the liver and stomach and restores a fine feeling of strength and buoyancy. Sold by All Druggists.

pleasant to take, neutralize acidity and help restore normal digestion.

MADE BY SCOTT & BOWNE MAKERS OF SCOTT'S EMULSION

Ross Renfro, cattleman of Terry county, was in town Wednesday transacting business.

Miss Grace Howard has recently accepted a position in the abstract office of R. A. Holland, as typist.

THE LUBBOCK AVALANCHE

Free Theatre Tickets!

Beginning Friday, November 14th

We are glad to announce that we will entertain our customers at either the Lindsey or the Lyric Theatres at any time except Saturday nights or when there is a special for which there is an extra price being charged.

TERMS---A Child's Ticket for Each \$2.50 Spent With us or an Adult's Ticket for Each \$6.00 Spent With us

Positively Neither Given Unless Duplicate Sales Checks are Presented. Your Loss---Not Ours, if You Misplace Your Sales Checks

Save your duplicate sales checks and when they amount to either of these amounts they will be taken up in exchange for the tickets or S. & H. Green Trading Stamps, as you prefer.

We sell you as cheap as anybody—Sears-Roebuck included—these are extra. They cost us, to be sure, but the extra volume of business they bring reduces our overhead so that, after all, we can sell cheaper.

OUR BIG SALE

is sure enough a whizzer for our sales have exceeded by far a high mark we had set.

Bigger Cuts Being Put on all the Time

We are going to cut down this big stock. Our store we built, we thought big enough, but too much goods for it and we are now selling to get more room.

Watch for red tagged items for not everything is cut. We are lucky to have a good stock and our prices are not based on what we would have to pay to put them in stock again.

Delineator Bargain--\$1.20 per Year

For the balance of November we'll have very special the Delineator over our counter, 12 months for just one-half price.

This is the best known and accepted style book, has entertaining reading, high class advertising and artistic pictures, one of these features more than worth the price of the magazine.

This price possible because we get a large quantity monthly by boat via Galveston.

Hand in your subscription today to one of our salesladies. They get the commission. We prefer they get it than have a solicitor come here to work the town.

No More Charge Approvals Or Charge Business

Our time is too much taken selling for cash to bother with having things taken out "on approval." Pay for the goods and if returned we'll be glad to refund your cash.

All returns to be made in the city must be made in one day. Country customers may have until the following Saturday.

OUR TERMS ARE CASH and the discount we give for cash are above named stamps or tickets.

Barrier Bros. Dry Goods Company's Department Store

Lubbock, West Side Square and Broadway.

Stores Also at Brownfield, Floydada, Plainview.

The Successful Hostess DEALS WITH US

There's a good deal in the cooking of a meal, but there's more still in the buying of the groceries.

When you entertain you want the best there is.

Your guests will know at the first meal if you trade with an up-to-date grocery store.

Trade With Us

and your guests will be delighted in the menu.

COLD WAVE HIT LUBBOCK MOTORISTS UNEXPECTEDLY

The cold wave which struck the South Plains Tuesday evening about eleven o'clock played havoc with many motorists who failed to drain their cars of water. One ranchman who stopped over here for the night and left his car in a garage, found the water in the radiator frozen on Wednesday morning and the engine cracked. There were many leaky radiators on the streets Wednesday. The thermometer registered 12 degrees Wednesday morning.

Many families in the city are unable to get coal; some having ordered several weeks ago, but on account of the bad weather and scarcity are compelled to borrow from their generous neighbors. It's a common incident, these mornings to see men out returning home after visiting the neighbors coal shed, carrying a scuttle of the precious fuel.

CAPT. NOONE RECEIVES MEDAL FOR PATRIOTIC SERVICES

Capt. John J. Noone, cashier of the Farmers National Bank of this city, recently received a nice bronze medal from the citizens of Cloud County, Kansas, for patriotic services rendered in the late war. Capt. Noone spent many months overseas in the service of his country.

REV. A. B. ROBERTS REPORTED DANGEROUSLY ILL

The many friends of Rev. A. B. Roberts regret to know that he is very sick of his home in this city, with heart disease. He is well known and highly esteemed by the people of the county.—Plainview News.

Rev. Roberts is well known by a large number of people in this community, who will be sorry to learn of his serious illness and hope for a speedy recovery.

HINES-PERKINS WEDDING ON TUESDAY EVENING

Ansel Hines and Miss Myra Perkins were quietly married Tuesday evening at the home of the bride's parents, Mr. and Mrs. Joe Perkins, who reside about eight miles northwest of this city.

Mr. Hines returned the past summer from overseas service and has been employed since his return by the Hunt Grocery Company of this city.

Mr. and Mrs. Hines are spending the week visiting with friends in Plainview and will return here soon to make their home.

LOCAL CITIZENS RETURN FROM HUNTING TRIP

Messrs. C. L. Adams, E. E. Wolford and Bob Oliver returned the latter part of last week from a hunting trip into Jeff Davis county. The trip extended over a period of fifteen days. These men report that game is plentiful in the Davis mountains this season. They were guests at the Kingston ranch while in that section.

MARRIAGE LICENSES ISSUED HERE RECENTLY

The following license for marriage were issued here recently, as shown by Clerk's record:
W. B. Hilton and Miss Alice Williamson.
Wm. H. Heath and Etta Lou Riddle.
Ansel Hines and Miss Myra Perkins.
James T. Hadaway and Laura Moody.

AGED LADY IS PICKING COTTON THIS WEEK

Grandma Acuff, aged ninety-two years is making a hand in the cotton patch this week. Last Monday afternoon she went to the cotton patch and after two o'clock she picked 25 pounds before night, and each succeeding day was making as good or better record.

National Thanksgiving Proclamation

The text of the annual Thanksgiving proclamation, issued by President Wilson follows:

"By the president of the United States of America:

"A proclamation:

"The season of the year has again arrived when the people of the United States are accustomed to unite in giving thanks to Almighty God for the blessings which he has conferred upon our country during the twelve months that have passed. A year ago our people poured out their hearts in praise and Thanksgiving that, through Divine aid the right was victorious and peace had come to the nations which had so courageously struggled in defense of human liberty and justice. Now that the stern task is ended and the fruits of achievement are ours we look forward with confidence to the dawn of an era which the nation will find recompensed in a world of peace.

"But to attain the consummation of the great work to which the American people devoted their manhood and the vast resources of their country, they should, as they give thanks to God, reconsecrate themselves to God, reconsecrate themselves to the principles of right which triumphed through His merciful goodness. Our gratitude can find not more perfect expression than to bulwark with loyalty and patriotism those principles for which the free people of the earth fought and died.

"During the past year we have had much to make us grateful. In spite of the confusion in our economic life, resulting from the war, we have prospered. Our harvests have been plentiful and of our abundance we have been able to render succor to less favored nations. Our democracy remains unshaken in a world

torn with political and social unrest. Our traditional ideals are still our guides in the path of progress and civilization.

"These great blessings, vouchsafed to us, for which we devoutly give thanks, should arouse us to a fuller sense of our duty to ourselves and to mankind to see to it that nothing we may do shall mar the completeness of the victory which we helped to win.

"No selfish purpose animated us in becoming a participant in the world war, and with a like spirit of unselfishness we should strive to aid by our example and by our co-operation in releasing the enduring welfare of all peoples and in bringing into being a world ruled by friendship and good will.

"Therefore, I, Woodrow Wilson, president of the United States of America, hereby designate Thursday, the 27th day of November, next, for observance as a day of Thanksgiving and prayer by my fellow countrymen, inviting them to cease on that day from their ordinary tasks and to unite in their homes and in their several places of worship in ascribing to God, the Author of all blessings and the Pastor of our destinies.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia, this fifth day of November, in the year of Our Lord, one thousand, nine hundred and nineteen, and of the Independence of the United States, the one hundred and forty-fourth.

"(Signed) WOODROW WILSON
(Seal) By the President
Robert Lansing, Secretary of State.

The NEW EDISON

"The Phonograph with a Soul"

is found in homes where true music is demanded, where only real music is permitted.

Do you care whether your phonograph gives you real or imitation music?

If you do, you can be sure you are getting real music if you will purchase a New Edison. Over two thousand celebrated music critics say that the New Edison RE-CREATES music of any description so that it cannot be detected from the living artist, even when heard in direct comparison with the original—that it gives you real music, something they did not believe possible for a phonograph.

We should be glad to have you visit our store and hear this wonderful musical instrument—at your convenience.

Irregular bowel movements lead to chronic constipation and a constipated habit fills the system with impurities. HERBINE is a great bowel regulator. It purifies the system, vitalizes the blood and puts the digestive organs in fine vigorous condition. Sold by All Druggists.

C. H. Grollman, president of the firm of C. H. Grollman & Company left the first of this week for a business visit to New York and other eastern markets. Mr. Grollman will be absent from our city about two weeks. He will purchase new goods for his store while away.

SOME HEALTH NOTES FROM THE STATE DEPARTMENT

Austin, Texas.—"Over two out of every three school children of Texas have defective teeth," declared Miss Pearl N. Hyer, Public Health Nurse of the Texas Public Health Association, today.

Miss Hyer based this estimate upon the nursing work and physical examinations in twenty Texas cities where she has examined 2,482 school children. Out of this number, she has found 1,760 to have defective teeth.

Among the 2,482 children whom she has examined during the twelve months ending November 1, 1919, Miss Hyer has found a total of 4,345 defects.

"One can scarcely realize the number of children in the State who have some physical defect," said Miss Hyer. "Even the parents of the children do not realize that their little ones may have some defect, which may be easily corrected in childhood. This shows the necessity for a public health nurse in counties and schools—to recognize and help remedy whatever is wrong. This is one of the things which the Texas Public Health Association is trying to bring to the people of the State."

Many of the children examined by Miss Hyer are afflicted with defective hearing, according to her report—302 in number; while 384 have been found to need glasses to correct their vision. Those suffering from granulated eyelids were 100 in number; while 272 have diseased gums. Another serious defect found was that 1527 of the Texas children whom she examined were suffering from chronic trouble of the tonsils.

Miss Hyer's work consists of personal examination of children and adults; giving health lectures to nurses; carrying out Child Welfare work; lecturing to school children; doing regular nursing work, and assisting in carrying the Modern Health Crusade to the children of Texas. She has talked to 11,596 people in the Crusade work, and during the year has reached over 21,000 Texans, mostly school children.

Miss Hyer is carrying on the work of the Texas Public Health Association in advocating a Public Health Nurse for every county, city, and large community. The Association is financed in this work by means of the sale of Red Cross Christmas Seals, and the Campaign this year will be held from December 1st, to 10th. The Texas quota for good health is \$200,000 for 1920, ninety per cent of which will be used exclusively in the State towards fighting tuberculosis and in the betterment of general health conditions.

Lay a bet on rolling 'em with

PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes with Prince Albert is just about as joyous a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

Awaiting your say-so, you'll find tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and—that classy, practical pound crystal glass humidor with sponge moisture top that keeps Prince Albert in such perfect condition!

R. J. Reynolds Tobacco Company
Winston-Salem, N. C.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 30c.

COURTESY and CHEERFULNESS

Some people have an idea that drug stores are pretty much the same the world over. They do not consider the fact that stores have character just the same as individuals. Study the stores in any community and you will soon learn as to how they differ. At our store customers are greeted with a smile and a word of welcome. Courteous attention is given to them while shopping and we do everything in our power to guard their interests.

We shall appreciate an opportunity to prove to you that our drug shop is different.

DO YOU KNOW A BETTER CHRISTMAS GIFT?

Many a man or woman remembers that Christmas, many years ago, when The Youth's Companion was for the first time numbered among the family gifts; and how, long after many another present was broken or lost or discarded, the paper continued week after week to offer its treasure of stories and counsel and inexhaustible entertainment.

Today the Companion brings into the home that same zest of expectancy that you felt when you were in your eager youth and when you watched so impatiently for the postman's coming every Thursday. Would it not be worth while to give to some one of your friends or to a family that same Christmas pleasure?

By ordering before Christmas the new subscriber will get the opening chapter of Charles B. Hawes' splendid serial of the Maine coast, The Son of a "Gentleman Born."

New subscribers for 1920 will receive:

1. The Youth's Companion—52 issues in 1920.
2. All remaining weekly 1919 issues.
3. The Companion Home Calendar for 1920.
4. All the above for \$2.50.

McCall's Magazine for 1920, \$1.00—the monthly fashion authority. Both publications for only \$2.95.

THE YOUTH'S COMPANION
Commonwealth Ave. & St. Paul St., Boston, Mass.
New Subscriptions Received at this Office.

W. C. Rylander, district manager of the Kansas City Life Insurance company, left the latter part of last week for Dallas.

My Motto is: Efficient, Scientific service. I am a graduate of six drugless schools, I will be pleased to have you investigate my reputation and ability. We are permanently located in Lubbock, rooms seven and eight, Burrus Bldg., where I have been for eighteen months. Phone 540, or write Dr. M. T. Council, Chiropractic Masseuse, Lubbock, Texas. 201p

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. PROF. HEMMERTS says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as a guard over our well-being, sifting out the cinders and ashes from the general circulation.

A blockage in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of May-apple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

POSITION GUARANTEED

"Kellogg's Korn Krisp—Corn Flakes—in the Green Package"

K!-K!-K!

When you say K K K to your grocer he knows you want

Kellogg's ROASTED KORN KRISP

All you need for

- Breakfast or lunch
- with milk or cream
- Fine for dessert, too,
- with fruit—and cream, too, if you like.

Ask your neighbor if he has tried Kellogg's Korn Krisp—anyway just try them once yourself. Then you WILL know how good they are. Your grocer will gladly give your money back if you don't like them best of all thick corn flakes.

Generous "waxtite" package (goodness-preserving—Look for the Roastin' Ear.)

Be sure this signature is on the package—

W.K. Kellogg

"Kellogg's Korn Krisp—Corn Flakes—in the Green Package"

FEED GRINDING

The coal situation is such at present that we cannot offer you service in this line, but we are here with the equipment of grinding your feed and cleaning field seeds of all kinds.

Thomas Grain & Fuel Company

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers.

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off. When Frezzone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

POTASH TESTS MADE IN SOUTH PLAINS

Austin, Texas, Nov. 8.—For the last several months a series of tests of the potash contents of the briny lakes and self-encrusted basins of Western Texas has been in progress. These analyses cover many samples and the results show that potash in enormous quantities exists in some of the lakes and basins. It is now only a question of developing a sufficient supply of the potash-laden water to justify pumping and piping it to the nearest railroad points, where it is proposed to install evaporating plants for extracting the product. Besides potash, the lakes and basins contain other valuable products, including common salt, epsom salt, globular salt and iodine.

Practically all of the saline deposits in the South Plains country of Texas within a radius of 100 miles of O'Donnell have been leased for potash prospecting and development purposes. Three salt lakes on the ranch of M. V. Brownfield, near Brownfield, about thirty miles west of O'Donnell, are under lease to the Triangle Products Company of Clovis, N. M., which is owned by Messrs. Ainsworth, Lindsey and Gurley. Jesse Ainsworth Jr., head of the company, is said to be a practical potash and salt operator, with interests in Western Nebraska and Hutchinson, Kan. This company has its plans well advanced for the construction of plants for extracting potash and other products from the brine at

Brownfield and Meadow, Texas. The Fort Worth Nitrate Products Company of Fort Worth, has purchased from Messrs. Ainsworth, Lindsey and Gurley the deposit known as Big Salt Lake, situated on the line between Lynn and Terry counties. It covers three sections of land. Test wells were sunk in the bed of this lake and at other points. Samples which were taken of the water and other material received from these holes were analyzed by the Fort Worth laboratories, and in several instances they were shown to run high in potash. Basing the estimate for the entire 1920 acres, which the lake covers, on the general average of the samples that were analyzed, the following results were obtained: On an assumed depth of 20 feet, although wells were sunk 45 feet and the conditions found the same as at 20 feet, there are 53,317,440 tons of potash-bearing material in the lake; of this total amount, 34,656,336 tons, or 65 per cent, are mud; 18,666,104 tons, or 35 per cent, are brine. Of the total amount of brine, 9,105,142 tons, or 22 per cent, are salt, and 20 per cent, or 6,931,267 tons, of the mud is salts. The tests showed that 6 per cent, or 246,326 tons, of the salts in the brine is potash, and 8 per cent, or 554,501 tons, of the salts in the mud is potash. This makes a total of 800,827 tons of potash in the lake, on a 20-foot basis. The analyses were carried out still further and show that 60 per cent, or 6,032,025 tons, of the salts is common salt; 20 per cent, or 2,207,391 tons, is epsom salts, and 10 per cent, or 1,108,670 tons, is globular salt. All told, the value of the potash and other products of this lake is estimated at more than \$125,000,000.

Potash-Bearing Basins. Another saline deposit that covers about six sections of land on 640 acres each is situated about seven miles west of O'Donnell. It is known as Frost Lake and is situated on the ranches of N. S. Frost and S. F. Singleton. The crystal-covered surface of the lake embraces only a small part of the big depression. Several test wells have been drilled in the deposit with most wonderful results, it is said. One of these wells is situated a few hundred yards from the border of the lake itself. The hole was put down to a depth of 208 feet and the deposit was found to be rich in crystals all the way from the surface to the bottom.

Another well was drilled in the basin, on the land of Mr. Singleton, at a distance of one-half mile from the lake. A sample that was taken from this well was analyzed and showed solids, 6.56 per cent; potash of original basis, 85 per cent; potash dry basis, 12.95 per cent. The tests of the contents of this basin covered a big area and the results lead to the belief that the whole basin is potash-bearing. The total quantity of available materials, both briny and mud, in Frost Lake and surrounding basin is estimated to aggregate more than 200,000,000 tons.

At a distance of about two miles northeast from Frost Lake and upon the ranch of Mr. Singleton is Gooch Lake. Test wells in exploration of potash are also being drilled at this lake and basin. One well, which was drilled on the edge of the lake to a depth of sixty feet, struck a small artesian flow of brackish water. An analysis of a sample of this water showed some potash. The Gooch Lake is of considerable size, and in

WAGONS

We have just received a new shipment of Farm Wagons, which will meet your demands in every respect. Equipment of this wagon is especially arranged for advantage of the user.

THE BANK BEHIND THE FARMER

The Farmer who is without the backing and support of a strong bank, is treading upon dangerous ground.

The business of farming is, at times, precarious; and no farmer can afford to be without the protection that is afforded by a friendly connection with a helpful bank.

Open an account with us; handle your business through this bank, and establish the credit you may later need.

The Citizens Nat'l Bank

"THE BANK OF PERSONAL SERVICE" LUBBOCK, TEXAS

dry seasons its bed is covered with a thick layer of incrustated salt crystals that gives it the appearance of being covered with snow. From the lake there arises a terrible and almost stupefying stench, which is thrown off by the remarkable chemical ingredients of the water. Although four springs empty into the lake, its water is so poisonous that it is surrounded by a strong fence, so cattle can not get in and drink it. It is certain death to cattle and other animals.

Various other lakes, scattered through a big scope of territory, in the O'Donnell section, are of a similar nature, so far as outward appearances go to the ones where tests show potash contents. Charles H. Doak of O'Donnell and others have leased a number of the lakes and basins.

B. G. Slaughter, a chemical engineer of Philadelphia, was attracted to the potash possibilities of the deposit, and not long ago he made a visit to several of the lakes, taking his own samples. He is said to have expressed surprise at the extent of the deposits and the high percentage of potash as shown by the analyses of the samples. One chemist refused to certify to his analyses of samples, because the potash percentage ran so high as to excite his suspicion. To satisfy himself he visited the deposits and took his own samples, which when analyzed corroborated the analyses he had previously made.

It is stated that the tests have amply proved the existence of potash in paying quantities, and that it only remains for a sufficient water supply to be developed to handle the product in order to make the industry a commercial success. In reporting the analysis of a sample of briny water from one of the test wells a chemist wrote:

"Our laboratory sample, showing 6.56 per cent solids, could be used for leaching mud from other lakes, where there is a large amount of potash present, if this water is conveniently located to these lakes, or it is just possible that you could make a commercial proposition out of pumping this water into a solar or other evaporating system and disposing of the resulting solids, which would be of commercial value known as 'kainit'."

No Geological Survey. The region where these potash lakes and basins are found is one part of the country of which there

has never been made a geological survey, either by the Federal or State Government. According to announcement that recently came from Washington, the United States Geological Survey plans to make an investigation of the potash deposits in the O'Donnell section in the near future.

In the Panhandle of Texas, about 175 miles north of the localities where potash is now being found, the United States Geological Survey drilled a deep test well in search for potash, finishing the hole a year ago or more. This well is at Cliffside, a few miles from Amarillo. Only a trace of potash was found in the borings, it is said. The United States Geological Survey and the Bureau of Economic Geology and Technology of the University of Texas maintain jointly a potash investigating and testing station at Amarillo, under the direction of Orby C. Wheeler.

It is interesting to note that the so-called salt lake of the South Plains region of Texas were always shunned by purchasers of land. They were regarded as more than worthless. Now, however, every farmer and ranchman who happens to have one of these unsightly and foul-smelling spots upon his land stands a chance of reaping a big financial profit thereby. One ranchman has seven such lakes upon his land leased for potash purposes for a period of twenty-five years. By the terms of the lease he receives \$7,000 a year and 5 per cent royalty on the value of all potash and other products that may be produced from the lakes.

W. B. Dillard and wife, of Lorenson, were in town Monday of this week shopping and visiting with friends.

SOME LOCAL ITEMS FROM THE LYNN COUNTY NEWS

Mr. E. S. Davis, of Tahoka, has given to the Texas Methodist Orphanage at Waco, one eighth of his royalty on 50 acres of his land in Desdemonia Oil field. This is now estimated to be worth \$37,000.00. This is the second gift he has made, for benevolence, of his royalties in this oil field, having given one-eighth of his royalties on the same tract of land, to the "Superannuate Endowment Fund" of the Central Texas

Conference, of the Methodist church. The Tahoka Public schools dismissed Monday afternoon, Nov. 3rd in order to give the pupils a chance to help gather the immense cotton crop in Lynn county. It is not known just how long the school will be closed. On account of the shortage of help in this section the trustees found it advisable to close for a few weeks. Drillers, H. H. and G. G. Greene, are this week shipping the tools that were used to drill the oil well of the Tahoka Oil & Gas Company to Post,

where they have a contract to drill a well in that section. The first frost of the season visited Tahoka last Friday night. A heavy fog prevailed during the night. The frost was not heavy enough to materially damage the crops. The leaves have begun to shed off the trees, which reminds us that old man Winter is fast approaching with his heavy coat of ice. F. E. Redwine returned late Monday from Waco, where he had been with the Lynn County Agricultural exhibit at the Waco Cotton Palace.

Mr. Redwine brought back with him a photograph of the Lynn county exhibit, and was very enthusiastic over the showing it made. Thousands of the Cotton Palace visitors read all about our section of the country in the literature distributed. Reports reached here Wednesday that Lynn County had won the fifth prize in the agricultural exhibit at the Cotton Palace. The quality of the Lynn County exhibits were not surpassed, but others won over us for the reason that more exhibits were entered. Here is a list of counties that won

prizes in the county show: Bell, first; Tarrant, second; Donley, third; Dickens, fourth; Lynn, fifth; Hamilton, sixth; Jones, seventh. Mr. and Mrs. L. C. Heare, of Miami, on the north plains of Texas, are visiting with their son, J. L. Heare and wife, of the Santa Fe depot this week. They are on their way to Austin, where they will spend the winter with a younger son, who is attending a law school at the State University. Mr. Heare is an extensive land owner near Miami.

CONTRACT AWARDED FOR WELL IN CASTRO COUNTY
Hereford, Deaf Smith Co., Texas, Nov. 8.—Contract has been awarded to the Seven States Oil Company of Memphis, Tenn., by D. C. Laird of this city for a well to be dug on the Laird ranch, about eighteen miles south of here in Castro County. This is the fifth contract to be let and with this well there will be a test in every direction from Hereford and within eighteen miles of this city.

ANNOUNCING THE NEW

We are agents for this well known and popular car and have them in stock at our store and invite you to come in and look the New Chevrolet over and let us show you why it is one of the very best cars on the market today at a price that you will agree is extremely liberal. THINKS ANY MAN CAN OWN HOME ON SOUTH PLAINS

"Any man who is willing to work, can own a home on the South Plains," says John W. Lain, a farmer of Ralls, who was here last Friday trading and attending to business matters. Mr. Lain says he came here about a year ago with his wife, bought one hundred and sixty acres at \$32.50 per acre. He and his wife farmed this land this year and were out only \$9 for hired labor. He says he will gather more than a half bale of cotton per acre for which he expects to get no less than forty cents per pound. If they have reasonable luck in gathering the crop, Mr. Lain says they will gather 35 bales of cotton. Besides making a living, he will pay for the land and have several hundred dollars left in the bank. This is characteristic of many farmers this year.

"You oil countries! You'll have to bring in some big gushers to get even with this country, with its cotton."

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Lubbock County—Greeting:

You are hereby commanded to summon B. M. Mimms, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 72nd Judicial District; to appear at the next regular term of the District Court of Lubbock County, Texas, to be held at the Court House thereof, in Lubbock, Texas, on the 2nd Monday in December, A. D. 1919, the same being the 8th day of December, A. D. 1919; then and there to answer a petition filed in said Court on the 21st day of October, A. D. 1919, in a suit numbered on the docket of said Court, No. 1275, wherein Mattie Mimms, is Plaintiff and B. M. Mimms, is Defendant; the nature of plaintiff's demand being as follows:

That plaintiff has been an actual bona fide inhabitant of this state for more than twelve months, and has resided in this county for more than six months.

That the plaintiff and defendant were lawfully married in Martin County, Texas, on December 30, 1906.

That the defendant, the said B. M. Mimms, left the plaintiff on September 23, 1915, with the intention of abandonment, and has abandoned her for more than three years prior to the filing of this suit.

Wherefore, Plaintiff prays that defendant be cited to appear and answer this petition, and that she be granted judgment dissolving the bonds of matrimony existing between plaintiff and defendant, and that she be divorced from the defendant, and for such other and further relief, general and special, in law or in equity, to which she may be entitled, etc.

Herein fail not, but have you before said court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Lubbock, Texas, this 21st day of October, A. D. 1919.

SAM T. DAVIS,

Clerk District Court, Lubbock County, Texas.

(Seal) (17-4)

Right off
the Farm!

Here's a food product that really does come right off the farm—Crockett & Weil's Country Made Syrup. It's a genuine cane syrup, made in the good old-fashioned Southern way; just pure cane juice cooked in an open evaporator.

REAL Country Made SYRUP

The Crockett & Weil Kind

is the very best syrup you ever tasted for that very reason. There's nothing taken out and nothing added—for it isn't needed. When you take pure cane juice, boil it right and pack the syrup right—why, you get the best kind of syrup ever made. That's the Crockett & Weil kind all the way. They are busy now, right down in the Louisiana cane fields, making Country Made Syrup. Leading grocers will soon have it, so when you order say: "The Crockett & Weil Kind."

(We'll tell you why: there are lots of so-called country made syrups produced in factories.)

CROCKETT & WEIL
ALEXANDRIA, LA.
REAL COUNTRY MADE SYRUP

SOME ITEMS OF INTEREST FROM RALLS

A telegram from John Bullock, a brother of Shorty, conveys the sad intelligence that his son, Rex, 5 years old, was killed as the result of a horse falling on him recently.

A son of Mr. and Mrs. Butler Adams happened to the misfortune of falling from a cotton wagon this week and breaking his leg.

J. W. Smith was in Tuesday with another bale of cotton, making 13 he has marketed up to that time. One of these bales brought him the handsome sum of \$250, and none of them less than \$200. Tillers of Plains soil are fortunate mortals. Many of them will make \$10,000 this year, and it is likely that a few will make \$20,000.

Plains soil is constantly springing new surprises on the people, and producing results that indicate that even the oldest inhabitant is not acquainted with its wonderful productive qualities. W. M. Brown, one among our substantial citizens and extensive farmers, tells us that he has a spot of ground that is now producing the second crop of Irish potatoes. The first crop of potatoes were as large as teacups, and the second crop is near enough maturity to be the size of hen eggs, and Mr. Brown's family is feasting on new potatoes at will.

Something over 2500 bales of cotton have been marketed in Ralls up to the present writing, and the price has ranged from 38 to 42 1-2 cents per pound.—Ralls Banner.

Mr. and Mrs. S. B. Pearson and Mrs. Pearson's mother, Mrs. M. S. Berry, passed through here the latter part of last week enroute from Broncho to Aspermont. They stopped over here a short time to visit

with relatives and acquaintances and left Saturday morning. They are moving to Aspermont to make their home.

Mrs. Olive Whipp and two daughters, are here this week from Lynn county visiting with friends and acquaintances.

As Dead as the Dodo

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist.

Take "Dodson's Liver Tone" Instead!

Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and it is likely to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults.

Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

NEWS ITEMS FROM THE SLIDE COMMUNITY

Mr. Jim Izard and wife from New Home passed through the community Friday enroute to Lubbock.

Mr. W. B. Copeland and two girls motored over to Mrs. C. E. Moreman's last Thursday afternoon.

Earl Ellison carried a bale of cotton to town Friday.

Miss Mille M. Halsey from Lubbock was in the community Friday.

Bob Murphy packed cotton for C. L. Reiger Friday.

INTERESTING BATCH OF NEW HOPE NEWS

We had another rain last Saturday night.

Ooo! How good the fire felt Wednesday morning when we found the water froze in the bucket.

There will be preaching at New Hope Sunday afternoon. Everybody is cordially invited to come.

Mr. and Mrs. Bouch and family of Lubbock attended the singing Sunday afternoon.

Miss Beulah Evens took dinner with Miss Edith Richardson Sunday.

Miss Maggie Bounds spent Saturday and Sunday with homefolks at Lubbock.

Mrs. S. P. Eoff and daughter, Miss Vinaetta, spent last Thursday at the Pate home.

Mr. and Mrs. M. Rhoades spent a while with Mr. and Mrs. M. Keesee Sunday morning.

Misses Vera Shipman, Roberta Johnson and Eva Maples, Messrs. Rhea Pierce, Floyd Shipman, Linna Johnson, Jim and Ed Teal, Furman Shipman, and two or three other young people whose names we failed to learn, of the Union Community, attended singing at New Hope Sunday afternoon.

Mr. and Mrs. S. D. Stewart and family visited Mrs. Mamie Wylie Sunday.

Miss Mae Cowart visited Miss Roberta Johnson of the Union community after singing Sunday afternoon.

Mr. Calvin Eoff was a Lubbock visitor Saturday evening.

Mr. Rasco Cowart was seen going toward the Battin home after singing Sunday afternoon.

Mr. M. Keesee was in Lubbock on business Monday morning.

Misses Onita and Pauline Pate visited their aunt, Mrs. L. C. Boyd, awhile Sunday afternoon.

A number of the New Hope and Union young people enjoyed a singing given by Miss Loula Kate Wylie Sunday night.

Mrs. Lewis Richardson is on the sick list this week.

Mr. Cecil Richardson and two boys who are picking cotton for Mr. John Tyson, attended Sunday school at Union Sunday morning.

Miss Neva Cowart happened to an accident Sunday morning, when the horse she was riding became frightened and ran into the fence, and cut a gash in one of her arms.

Miss Edith Richardson is staying with her brother, Mr. Lewis Richardson this week.

BLEDSOE SCHOOL RECEIVES \$305.00 FROM BOX SUPPER

A box supper given at the Bledsoe School house Halloween evening netted the school \$305. This money will be used to purchase a nice piano for the school, which was badly needed.

NEW PASTOR OF CHRISTIAN CHURCH ARRIVES HERE

Elder J. T. Smith and family arrived in our city last Friday from Dickson, Tenn. Elder Smith will assume his duties here as preacher for the Church of Christ.

A. V. Raymer and daughter, Miss Tracy, passed through here Tuesday enroute to Coke county, where they will spend the winter. Mr. Raymer and daughter have been visiting with Noah Bell of Terry county during the summer. Mr. Raymer is a father of Mrs. Bell.

T. C. Ivey passed through here Tuesday enroute home in Yuskum county, after visiting in eastern New Mexico for several days.

Are You Outfitted in Clothes?

YOU may not really know just what you need for winter; lots of men wait for cold weather to discover that last year's overcoat, or suit, won't do.

Or that the pile of socks has suddenly shrunk by a heavy discard; or that the warm underwear you were counting on is pretty well shot to pieces.

Good idea to look these things up now, before you need them. It's better to buy now than later; merchandise is scarce.

Most of our goods are higher priced at wholesale than we paid for them; some goods would cost as much to replace them as we are asking for them. Better get yours now. Hart Schaffner & Marx fine suits and overcoats.

Mail Orders Given Prompt and Careful Attention

PLAINVIEW HIGH IS CHAMPION OF PLAINS

Plainview high school foot ball team claims to be champion of the Plains, and has shown it deserves the honor.

In a hard-fought game at Lamar grounds Friday afternoon it defeated Wayland college by a score of 7 to nothing, and made that score in one dash for the goal and a perfect kick.

The high school has defeated Amarillo, Canyon Normal and other Plains teams, making a total score of 108, without a single score to any opponent.—Plainview News.

LOCALS FROM THE POST CITY POST

J. W. Lovelady, our popular cattle broker, reports the following cattle sales: Aims Brothers 100 fat cattle, to J. F. Lee, of Seymour; J. B. Slaughter 502 head calves to Dickerson and Arnett, of Lamesa. Mrs. J. W. James, 100 head cows and calves to J. F. Lee.

Joe B. Hutto, one of our hustling farmers marketed 2 bales of cotton last week that netted him something over \$500.00. And several more farmers have done equally as good if not better than Mr. Hutto. Verily this is a great year for our producers and this is the greatest country yet for them to do well and prosper.

This week Mr. Cavett, one of our Plains farmers closed a deal in which he takes charge next year, of the J. D. Donaldson farm in Lynn County. We hate to lose such farmers as Mr. Cavett from our own county, but are thankful that he will still be our neighbor over in Lynn county.

Sunday morning Miss Edna Hume, the beautiful and accomplished daughter of Mr. and Mrs. J. D. Hume of Post, was married to Mr. Seale, of Moran, Texas. This noble couple

have our best wishes for a long and happy life. They will live in Moran.

REPORT OF MARKETING AT KANSAS CITY MONDAY

Liberal receipts of cattle, made up mostly of Kansas, Oklahoma, grass fat steers and Southwest rangers sold at steady to 25 cents lower prices. Best killers and stockers and feeders were steady. Though hogs receipts were liberal the local market remained steady at a good margin over other points. There was active demand for sheep and lambs at steady prices.

Today's Receipts. Receipts today were 35,000 cattle, 14,000 hogs, 9000 sheep, compared with 27,000 cattle, 8000 hogs, and 7000 sheep a week ago, and 35,600 cattle, 14,100 hogs and 8300 sheep a year ago. Cattle receipts from New Mexico were the largest of the season. A few loads arrived from Utah and the Northwest.

Beef Cattle. Compared with total receipts of cattle, good killing grades both fed and grass fed were scarce, and sold at steady prices. The common to plain kinds were plentiful and sold at weak to 25 cents lower prices. The best offerings brought \$17.25. Several bunches of short fed steers sold at \$15.00 to \$17.00. Prime steers were lacking. Grass fat steers sold at \$8.50 to \$13.50, few below \$9.50. Butcher grades were about steady. "Canner" cows sold at \$5 to \$5.75 and killing grades \$6.50 to \$11.25. Veal calves were 25 to 50 cents lower at \$8.50 to \$16.00. Bulls brought \$5 to \$8.50.

Stockers and Feeders. Demand for stockers and feeders was not as urgent as on preceding Mondays. The best grades met a ready outlet but large supplies of common to fair kinds were lower and sold slowly. Feeders sold at \$8.50 to \$13.25. Those below \$9.50 were plain to common quality. Stockers

SHEEP FOR SALE AT LUBBOCK

Best herd of Ramboulette Ewes ever brought to Lubbock. All Bucks are registered. These sheep sheared 13 pounds this year. All young—one to three years. Will sell in any sized bunch to suit. This is an opportunity for the farmer. Bankers all recommend sheep business. Talk with your banker. See

Poole Earnest or Henry Shumake
PHONE 102

brought \$7.75 to \$11.25, stock calves \$8 to \$12, and stock cows and heifers \$6 to \$8.50.

Hogs. The hog market was steady at last week's advance until near the close when some sales were 15 cents lower. The top price was \$15.50, and the bulk of the offerings sold at \$14.90 to \$15.50, or 50 cents higher than a week ago. Though receipts showed a moderate increase compared with preceding Monday's the movement is far short of normal for this season of the year, and packers are paying \$2 more than they had counted on a month ago. Feeders are eager for all the pigs and thin hogs offered and good feeding grades are selling as high as fat hogs.

Sheep and Lambs. Steady prices prevailed in the sheep market. Receipts were about normal for this season of the year. Few range lambs were offered. Some short fed native lambs brought \$14. Fat lambs are quoted at \$14 to

\$14.75, ewes \$7 to \$8, and yearlings \$10 to \$10.75. Western feeding lambs are selling at \$11.50 to \$13.25. Charles M. Pipkin, Market Correspondent.

MRS. CLARENCE HOFFMAN DIED NEAR SLATON
Mrs. Clarence Hoffman, aged 19 years, 5 months, and 7 days, died at the family home, eight miles south of Slaton, last Saturday. Death resulted from pneumonia, following an attack of influenza. Deceased had only been married to Mr. Hoffman about four months. The body was prepared for burial by the Howerton Undertaking Co. and was shipped to St. Jo, for interment, where she was reared.—Slaton Slatonite.

Smith's Candyland has just received fresh shipment of fine box chocolates, and Goodness knows they're good.

Royalty to Trade for Land

I will trade some of the best producing royalty in the Desdamaona Oil Field for a farm near Lubbock. Price must be right and good land. If interested get in touch with me.

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady.
Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Prina of this place, says: "After the birth of my last child... I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time... I knew I must have some relief or I would soon be in the bed and in a serious condition for I felt so badly and was so nervous and weak I could hardly live. My husband asked Dr. — about my taking Cardui. He said, 'It's a good medicine, and good for that trouble', so he got me 5 bottles... After about the second bottle I felt greatly improved... before taking it my limbs and hands and arms would go to sleep. After taking it, however, this poor circulation disappeared. My strength came back to me and I was soon on the road to health. After the use of about 5 bottles, I could do all my house-work and attend to my six children besides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of mild, vegetable, medicinal ingredients with no bad after-effects. Thousands of women have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

Jno. W. Wood, of Abilene, is among the guests here in attendance upon the Annual Conference.

GOVERNMENT WILL DEPORT ALL UNDESIRABLE ALIENS

Washington, Nov. 10.—Deportation proceedings have been instituted in a number of cities to rid the country of the violent radicals caught in the nation-wide raids which have been in progress since Friday, Attorney General Palmer announced tonight. Instructions have gone to all department of justice agents, the attorney general said, to permit no delay in instituting formal hearings, preliminary to the actual deportation. Assurances have been received from other government departments having to do with deportations that action would be taken to expedite the cases. In the meantime the clean-up of the country will continue. Mr. Palmer announced tonight that there must be no "let up."

The total number actually held on deportation warrants had reached 391 tonight, while from some cities in which radical leaders were picked up reports had not reached the department. Efforts of the department representatives, it was stated, are being directed more particularly at the union of Russian Workers. This organization, branded by the attorney general as the most dangerous anarchistic group in the country, was said to have wide ramifications, with the department agents still uncovering new evidences of its activities.

PARAGRAPHS FROM THE SEMINOLE SENTINEL

The many friends of Mrs. Mattie Trimble will be glad to learn that she is doing nicely and on the road to recovery since undergoing a very serious operation at Lubbock Thursday this week.

C. E. Slaton this week purchased 45 yearlings from J. W. Quinn of the west part of the county, also 25 from New Mexico parties.

Lane Barton returned Friday from Lubbock where he carried his daughter, Mildred, and son, Avery, the first of the week for operations for tonsillitis and adenoids.

Cox & Heard recently sold Bert Ancell 100 cows and calves belonging to New Mexico parties. To be delivered next week.

W. P. Leslie, prominent attorney, of Colorado, is here attending conference.

NO GREAT CALAMITY WILL RESULT FROM STAR GROUPING

The Plainview News, The Avalanche and several other papers over this section of country published an article recently that created quite a stir and much comment. This article predicted some dire results from the effect of the coming together of a number of the planets, which occurrence was predicted would be about the 17th of December.

One of the News' readers took the pains to write to O. H. Truman, of the Lowell Observatory, at Flagstaff, Arizona, as to the matter. Prof. Truman is one of the world's most eminent astronomers and presides over one of the greatest observatories in the world. His opinions are more weighty on astronomical matters than any or all of the so-called weather prophets. Prof. Truman's letter is dated Nov. 7 and is as follows:

"I had not heard of the article by Foster to which you refer, but have just answered some similar inquiries to yours in regard to another article by a man named Porter, along the same lines as Foster's."

"It is a fact that on Dec. 17, and for some days before and after that date, six of the planets, Neptune, Saturn, Jupiter, Mars, Mercury and Venus, will be roughly in the same direction from the sun, Uranus in the opposite direction and the earth somewhere near at right angles. This is doubtless a very unusual grouping, though nothing but a calculation which it would take too long to make would tell how often it occurs. I should think, nevertheless, that this grouping or others equally remarkable must have happened several times in the course of recorded history."

"However, no bad results are to be feared from it. There is no evidence of any influence of the planets either upon the sun or the earth; no evidence that they produce sun spots, for example; and it is highly improbable that they do. And sun spots have no influence on the weather of the earth, of which anyone knows. Great spots have often happened, without any bad effects."

"Sun spots occur most frequently at times averaging about 11 years apart; at these times there is a general increased activity in the sun, of which the spots are only a symptom; there is a slightly greater emission of heat; Northern Lights on the earth are frequent; 'magnetic storms,' by which is meant not thunder storms, but unusual variations in the magnetism of the earth, are common; and occasionally the electric currents set up in the earth are such as to put the wire telegraph out of commission for hours at a time. I remember one case, for example, where the east and west wires in eastern Canada could not be worked at all for several hours, while the north and south lines were not affected. Then as the solar maximum passes, all these activities slowly die down; and in due time build themselves up again for the next maximum. But nothing dangerous or destructive happens."

"I think it is too bad that such stories as that you read gain wide circulation. People believe them—they have no reason to do anything else; and if no other harm results, when these terrifying predictions fail to materialize, science as a whole is discredited. There are as many disreputable men in proportion in the scientific world or at least posing as scientists, as there are any place else—and no more."

"I am glad you gave me a chance to in some degree remove the bad effects of such an article."

LOCAL ITEMS FROM THE LORENZO ENTERPRISE

The home being erected in the west part of town is going up at a rapid pace and will soon be ready for occupancy. This home will be an attractive addition to the residential section of our city. The place is owned by Mr. Earhart who is local manager of the Murphy Lumber Co. Rev. Underwood, now pastor of the First Baptist church of Lamesa, has accepted a call as pastor of this church and will begin his work here within the course of a few weeks. He will make his home at Estacado as he has a charge and also owns some property there.

Owing to the prevailing pretty weather last Saturday the crowds that generally throng our streets on those days were unusually small, most of the farmers having taken to the cotton fields. Those who had necessary business in the city did not tarry long. Our merchants, however, did a dandy business and did not fall very short of their usual Saturday run.

Rev. B. W. Wilkins, who for four years has been the pastor of the First Methodist Church here will leave soon and assume duties in another charge. Dr. Wilkins has done his work well here and commands the respect and friendship of our entire citizenship who know him to be a devout and consecrated man in the service of the Master. So it is with deep regret that his church and outside friends see him go and pray God's rich blessing upon him and his family wishing his labors crowned success in the new field.

GOVERNMENT WILL ISSUE QUOTATIONS ON COTTON

Washington, D. C., Nov. 12.—To give to producers and others information regarding actual cotton prices in their local or near-by important markets, the Bureau of Markets of the United States Department of Agriculture is inaugurating a cotton price quotation service and will issue reports from five important points in the cotton belt. Cottonseed prices also will be covered.

The first report is to be issued from Memphis, Tenn., for the district immediately surrounding that point; other reports will follow from district headquarters at Atlanta, Ga.; New Orleans, La.; Charlotte, N. C.; and Dallas, Texas, for the territory immediately surrounding each of these points.

HOMESEEKERS

THERE IS A SECTION OF COUNTRY in the Northeastern corner of TERRY COUNTY that is the most attractive on the entire South Plains and IS ATTRACTING MORE ATTENTION JUST NOW THAN ANY OTHER PART OF TEXAS!

WHY? Because the land is the choicest, redish, cat claw loam to be found anywhere—it is land that will produce more cotton and corn per acre and a greater variety of crops than any other land on the South Plains and, we believe, than any other land in Texas. During 1917 and 1918 it supplied large shipments of corn and other feeds to the rest of the country.

WE REFER TO THE COUNTRY SURROUNDING THE STATION OF MEADOW, on the S. P. & S. F. Ry. Seagraves branch, about 27 miles Southwest from Lubbock. It is so attractive to land buyers that more land has been sold there during the past three months than in any other section of the Plains. It is so attractive to other investors that a gin in time for next season's crop is assured. A lumber yard will be in operation in the near future, and bankers have become interested in a bank organization there.

OUR HOLDINGS

in that section comprise 5000 acres of the choicest land and adjoin the townsite. We have placed these lands on the market in small tracts ranging in size from 136 acres up to 640 acres. Several have already been sold to both Central Texas people and to local people.

IT WAS OUR PURPOSE

to place on this land our friends from Central Texas where we have been doing business 26 years because of the fact that the best lands there were selling around \$200 to \$300 per acre and it was impossible for the small farmer to buy and pay for such high priced land. We believed, too, and STILL MAINTAIN THAT THE SOUTH PLAINS COUNTRY CONTAINS THE BEST LAND IN TEXAS AND THAT IT WILL PRODUCE MORE, ACRE FOR ACRE, OVER A PERIOD OF TEN YEARS THAN THE HIGHEST PRICED BLACK LAND IN TEXAS.

WE APOLOGIZE

to the people of this country—the pioneers who came, saw and conquered—who pushed back the cow man and claimed this rich country for its created purposes—that of the greatest agricultural section of Texas—those who have developed the West and made farming within its boundaries successful and profitable—WE APOLOGIZE to you for not offering you an opportunity to get in on the ground floor of what we consider a splendid opportunity to buy land at the right price, on long and reasonable terms—the best land on the Plains and located in a section that will develop so rapidly that increased values are bound to come and where you will realize in even a short year a profit on the land you buy.

OUR EXPERIENCE of 26 years in handling land and colonizing large tracts in Texas FULLY CONVINCES US THAT THERE WILL BE A PROFIT OF AT LEAST \$10.00 IN EVERY TRACT THAT IS BOUGHT, IMPROVED AND CULTIVATED BEFORE ANOTHER YEAR ROLLS AROUND.

WHY

THE REASON IS PLAIN. It has happened at Ralls, Lorenzo and other communities on the South Plains where lands have jumped to fabulous prices that when actual settlers are assured, (and we will not sell to any man unless he expects to improve and cultivate the land or have it done); that when business enterprises are assured so that marketing and purchasing facilities will be sufficient, that such development invariably causes increased land values; that others want in on the deal, and that large profits are realized by those who have pioneered.

These things are already assured for Meadow. There will be a large number of farms improved and cultivated in the MEADOW SECTION—business enterprises are already assured. THEREFORE:

THESE MEADOW LANDS WILL ADVANCE IN PRICE AND SELL RAPIDLY AT GOOD PROFITS OVER PRESENT PRICES.

It was John D. Rockefeller who said that the man who gets rich in the oil game is the man who gets there before the drill. APPLY THIS TO A LAND PROPOSITION. The man who gets there first realizes the profits that always come later.

PROOF

The proof of the pudding is in the eating. The pudding has been sampled and found better than anticipated. That is, the land is selling rapidly—a Ralls business man who knows the Plains has bought an entire section—he could sell at a profit if he desired. Everyone who knows this land says it sold too cheap. We believe it ourselves.

We have some choice tracts remaining. We are offering these tracts with a small cash payment, allowing purchaser to secure loan which will be paid us, and will carry the balance due us in ten annual notes at 7 per cent, allowing on or before privilege.

FOR CONVENIENCE TO YOU we have established an office in Lubbock on Second Floor of the Lubbock State Bank Building, in charge of our MR. WESLEY READ and MR. R. J. ELLINGTON. These gentlemen are at your service.

IT IS NECESSARY

FOR YOU TO ACT QUICKLY. THE LAND IS SELLING RAPIDLY AND IF SALES IN THE NEXT TWO WEEKS HOLD UP AS WELL AS THEY HAVE THE PAST TWO WEEKS THE LAND WILL ALL BE SOLD. GET YOUR FRIENDS TOGETHER WHO ARE INTERESTED AND COME OVER AT ONCE—WE FURNISH TRANSPORTATION TO MEADOW AND RETURN.

NOW IS THE TIME TO ACT—A DAY OR TWO LOST FROM YOUR CROP WILL BE THE BEST INVESTMENT YOU HAVE EVER MADE WHEN YOU BUY THIS LAND AND GET READY TO SELL IT. DO NOT DELAY UNTIL THE OTHER FELLOW GATHERS ALL THE PLUMS. OPPORTUNITY COMES TO EVERY MAN ONCE—GRASP IT.

The Liberty Belles

MISS KATHLEEN LE BARON
Guitarist, Lyric Soprano, Reader, Ukelele

MISS VERA KRAKE
Dramatic Soprano, Irish Harp, Pianologist, Ukelele

MISS ELSIE BEMONT
Alto, Violinist, Mandolinist, Ukelele

These three charmingly-talented young ladies present a program of infinite delight. Their youth and charm, their vivaciousness, is in sharp contrast with their evident training and experience before public audiences. Each member of the trio has, in unique combination, almost equal vocal and instrumental ability. It is seldom, indeed, that singers are equally proficient instrumentalists, and vice versa, yet competent critics have declared THE LIBERTY BELLES to be, in fact, brilliantly proficient in both attainments.

THIEVES TAKE FISH, MONEY AND SMOKING TOBACCO

Thieves have made several hauls lately in our city, taking with them various kinds of articles. One man reports that at his hotel, thieves have made several trips, each time taking money, or in all trips they have carried about \$85 away with them. The last time they visited at this place the man says they took money, cigarettes and even all the smoking tobacco in sight. Officers are watching carefully and if these thugs don't watch, they will wake up some bright sunny morning to see a nice view of our city, through windows, protected by heavy bars.

One of the last heard of thefts here and probably the most peculiar was when three cans of fish, sent out from San Marcos Texas by the Bureau of Fisheries, of Washington, to Messrs. J. M. Marcy, A. V. McCarty and G. M. Eubanks. Mr. McCarty happened to be at the train on which the fish were brought in; they were accompanied by a government official who was caring for them. Mr. McCarty signed up for the fish from the officer and went back to town to secure conveyance for the fish. After he did this he went back to the depot and found it there, but the cans and the fish gone—they haven't returned yet.

Carroll Thompson says they will find the fish or the cans, for the cans bear the government ownership label. Mr. McCarty says he will gladly give the man who took the fish away \$5 if he will only return the cans.

J. B. Nail was in to see us Monday. He and family have just moved into town from the farm near Slide. Mr. Nail was unfortunate to get his hand and neck badly burned a few days ago, but is getting along nicely.

Mrs. S. T. Oliver, mother of Mrs. Melvin Walker, of this city, who has been here visiting at the home of her daughter, left the latter part of last week for her home in Meridian, Texas.

NOTICE OF TRUSTEE'S SALE!

THE STATE OF TEXAS,
County of Lubbock.

WHEREAS, on the 13th day of June, A. D. 1917, John R. King and wife, Alta D. King, did execute and deliver to me, A. W. May, Trustee, a certain material man's lien deed of trust which is recorded in Volume 2, Page 84 of the Mechanic's lien records of Lubbock County, Texas, on Lots numbered 11 and 12 in Block No. 35 in the Original Town of Lubbock in Lubbock County, Texas, together with the improvements thereon, to secure the payment of the following described note, to-wit: One note for \$400.00 dated June 13th, 1917, executed by John R. King and Alta D. King, payable to the order of the Cicero-Smith Lumber Company at Lubbock, Texas, in monthly installments of \$35.00 per month, due on or before the 13th day of each and every month thereafter, the first installment to fall due on the 13th day of July, 1917, with interest on the principal at the rate of 8 per cent per annum payable annually as it accrues; past due interest to bear interest at the rate of 8 per cent per annum; and providing that failure to pay any installment of said note or

any installment of interest when due shall at the option of the holder mature the whole of said note; and further providing that in the event default is made in the payment of any part of said note or interest thereon and the same is placed in the hands of an attorney for collection that ten per cent. additional shall be added as a collection fee; and further providing that said note was given for lumber and materials to be furnished by the Cicero-Smith Lumber Company to John R. King and wife, Alta D. King, for the erection and completion of improvements to be added to and made a part of the frame dwelling house located on the above described lots and that a material man's lien had been given and created against said property and improvements to secure the payment of said note and

WHEREAS, the Cicero-Smith Lumber Company is still the legal holder and owner of said note and lien securing same and default has been made in the payment of same and since the maturity thereof said note has been placed in the hands of an attorney for collection and the principal, interest and attorney's fees due thereon is long past due and unpaid and said John R. King and wife, Alta D. King have failed and refused and still fail and refuse to pay same or any part thereof except \$15.00 paid thereon on Sept. 20th, 1918, and

WHEREAS, the Cicero-Smith Lumber Company has requested me, as Trustee, to enforce said trust: Now, therefore, notice is hereby given that I, A. W. May, Trustee, by virtue of the authority vested in me by the deed of trust aforesaid will offer for sale and sell the above described property at public sale to the highest bidder for cash within the hours prescribed by law for sales, on

the first Tuesday in December, A. D. 1919, the same being the second day of said month, in front of the court house door of Lubbock County, Texas, in the Town of Lubbock in said Lubbock County, Texas, to satisfy

the above described indebtedness, principal, interest and attorney's fees and cost of sale.
WITNESS MY HAND, This first day of November, A. D. 1919.
19-3 A. W. MAY, Trustee.

INDIGESTION CAN'T STAY

Stomach Pain, Sourness, Gases, and Acidity ended with "Pape's Diapepsin"

Out-of-order stomachs feel fine at once! When meals don't fit and you belch gas, acids and undigested food. When you feel indigestion pain, lumps of distress in stomach, heartburn or headache. Here is instant relief.

Just as soon as you eat a tablet or two of Pape's Diapepsin all the dyspepsia, indigestion and stomach distress caused by acidity will end. These pleasant, harmless tablets of Pape's Diapepsin always put sick, upset, acid stomachs in order at once and they cost so little at drug stores.

Everett Lokey returned Sunday from El Paso where he had been a few days transacting business.

MIDLAND YOUNG MAN KILLED AT RANGER

L. Roe Pollard, a young man from Midland, Texas, was shot in cold blood shortly after midnight last night by a man he had never seen before. The tragedy occurred in front of the Metropolitan cafe on Pine St. L. C. Gordon, of Muskogee, Okla., was placed under arrest shortly after the shooting. He is now in the city jail awaiting action by county authorities.

Pollard had just stepped out of the Metropolitan cafe, according to eyes witnesses to the shooting, when a man approached him, said a few words, and shot him. The bullet passed through the victim's kidney, liver and intestines.

Pollard was rushed to the Ranger General Hospital in a Jones-Cox ambulance and physicians performed an operation in an effort to save his life. Little hope is held for his recovery.—Ranger Times.

F. F. Mays and wife returned last Sunday from their visit to different points in Texas. Mrs. Mays visited with relatives at Henderson and Dallas and Mr. Mays visited at Sylvester.

BIG APPROPRIATION SOUGHT FOR ROADS

Because the people of the United States have grown accustomed to big events, it is likely that few gave attention to the news item that Senator Sheppard of Texas had introduced a bill providing for appropriation of \$400,000,000 to carry out the Federal good roads act. Yet this marks the second step in a long-delayed and necessary journey on the part of this Nation.

For many decades the roads of America have caused derision, discomfort and the waste of many millions of dollars. The latter item include graft, poor construction and loss to the farmers and others who used the highways for transportation of merchandise to market. Foreign visitors could not understand American anarchy, seeing the immensity of the business involved and having a distinct recollection of the wonderful highways of Europe. Some States, it is true, learned their lesson, but to the majority a good road was a rarity.

But the American is learning—and quickly. The work started in 1916 has been such a speaking, paying success that there is little doubt Senator Sheppard's bill will pass Congress and that \$400,000,000 will be expended in further improvements from 1921 to 1924.

Big Work Under Way.
The distance across the United States from the Atlantic to the Pacific is approximately 3,500 miles. In three years with the Federal Government putting up practically dollar for dollar with the States, 15,069 miles of good roads have been approved and will be carried out prior to 1921 in every commonwealth in this Nation. Or, by way of comparison, enough roadway to span the nation between coasts four times, with something left over for a detour into Canada.

Considering the magnitude of the crop production of the United States of the present day, it is regarded as indeed fortunate that there are so many miles of good roads for the hauling to market. In fact, there is little doubt that the increased mileage of usable highways has proved a vital factor in increasing crop production and enhancing the Nation's wealth, as statistics testify.

The various commonwealths simply floundered when good roads were considered. Some were progressive, the majority indifferent. It was evident that Federal aid and supervision were necessary to convince the people. The first chapter in the successful story of good roads construction was written in 1912 when Congress voted an appropriation of \$500,000 for experimental purposes. This was expended in worth while demonstrations, and so successful were they that in 1916 little effort was required to get a bill through Congress for an appropriation of \$75,000,000, to be expended in five years, together with \$1,000,000 a year for roads in National parks and forest reserves.

This sum was augmented this year, however, by a supplemental

MY FATHER PLOWED THIS WAY, AND HIS FATHER BEFORE HIM; AND THEIR WAY IS GOOD ENOUGH FOR ME

I DON'T CARE FOR ANY WALKIN' IN MINE, I LIKE TO RIDE WHEN I DO MY PLOWIN' GIDAP!

CHASE MEAT MARKET

West Broadway Phone 136

appropriation of \$200,000,000 for the States and \$3,000,000 annually for the parks and forests, carrying the work to 1921. This was a grand total of \$275,000,000 for the general work, and \$19,000,000 for the forests.

But this appropriation has not been entirely expended, even on paper, contrary to methods generally used in expending Governmental appropriations. Up to Aug. 31, 1919, the 15,069 miles of road planned, under way, or actually constructed, had cost but \$172,078,788, of which the Federal Government had contributed \$70,715,743.

Although the plan was to have the Federal Government contribute dollar for dollar with the States, this is not always done, as the United States can not expend more than \$20,000 a mile. In many cases States have desired road improvement in particularly unfavorable localities, and in these instances the States have gladly paid the excess costs of construction. This accounts for the discrepancy in the figures cited.

FORMER KAISER WILL NOT BE SURRENDERED

The Hague, Saturday, Nov. 8.—Former Emperor William came to Holland a year ago next Monday. Since that time there has been no demand, officially or unofficially, for his extradition or delivery up to the allies, nor has Holland at all changed its viewpoint toward him.

The Associated Press learned this today from sources that are unquestionable. Holland's viewpoint as regards William Hohenzollern may be stated frankly as follows: The Netherlands, which for centuries has accorded political refuge to all, considers the former Emperor and Crown Prince as refugees—not as royalty, but as persons entitled to the same rights as any plain Johann Schmidt who fled to Holland during the war. This principle is so strongly held by the Government and also by the press of Holland that nothing is likely to change it, it is asserted.

CROP PRODUCTION ESTIMATE MADE BY GOVERNMENT

Washington, Nov. 8.—Crop production estimates issued today by the department of agriculture in its November crop report include: Corn 2,940,250,000 bushels; buckwheat 20,120,000; potatoes 352,025,000; sweet potatoes 102,956,000; tobacco 1,216,588,000 pounds; flax seed 9,450,000 bushels.

Apples (total) 144,429,000; apples (commercial) 24,416,000; sugar beets 7,298,000 tons; kaffirs (six states) 123,343,000 bushels; cranberries (three states) 546,000 bushels; onions (14 states) 10,784,000 bushels; cabbage (nine states) 388,000 tons; sorghum syrup 33,668,000 gallons; clover seed 967,000 bushels; peanuts 44,996,000 bushels.

The quality of corn was announced as 89.1 per cent, compared with 85.6 last year. Weight per measured bushels this year is as follows: Wheat 56.2 lbs.; oats 31.1 and barley 45.2. Stocks of old corn on farms November 1 are estimated at 72,263,000 bushels, compared with 114,678,000 a year ago.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply Iron and Quinine suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and Iron to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood. The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 50c per bottle.

**USE "DANDERINE" IF
HAIR IS COMING OUT**

For a few cents you can save
your hair and double
its beauty

To stop falling hair at once and rid the scalp of every article of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Your hair will grow strong, thick and long and appear soft, glossy and twice as beautiful and abundant. Try it!

NOTICE OF ELECTION.

Pursuant to an Order of the City Commission of the City of Lubbock, Texas, it is ordered that an election be held within said City of Lubbock, on the 1st day of December, 1919, at the Office of the City Secretary of the City of Lubbock, Texas within the usual hours, to determine whether or not bonds of the said City in the sum of One Hundred Thousand (\$100,000.00) dollars shall be issued, for the purpose of paving and permanently improving of streets within the said City of Lubbock; said bonds to be in denominations of One Thousand dollars each, to bear interest from date of issuance at the rate of not exceeding 6 per cent per annum, payable semi-annually on the First day of each December and First day of each June thereafter until such

bonds have been retired, and if, at such election, it shall be determined by a majority vote of the properly qualified property tax paying voters voting at such election that such Bonds shall be issued, that it shall be the duty of the City Commission of the City of Lubbock, Texas, to levy a tax sufficient to meet the interest, as it accrues upon such bonds, and to provide a sinking fund to retire such bonds at their maturity; said bonds shall be payable at Forty (40) years from their date, with the option of the City to retire all or any part of such issue at any interest paying time ten years after issuance, upon giving sixty (60) days notice at the places of payment of such bonds of intention so to take up, and J. D. Wood, L. H. W. Terry, and H. K. Porter, are hereby appointed as Judges, and

are hereby appointed as clerks of such election; and those favoring the issuance of such Bonds shall have written or printed upon their ballots, the words "For the Issuance of \$100,000.00 paving Bonds and levy of tax to meet interest and sinking fund," and those opposing the issuance of such Bonds shall have written or printed upon their ballots, the words "Against the issuance of \$100,000.00 paving Bonds and levy of Tax to meet interest and sinking fund."

And I, C. E. Parks, as Mayor of the said City of Lubbock, Texas, hereby direct that Notice of said election be published for thirty (30) days immediately preceding the same in some newspaper published in the English language, within said city, and has been so published for more than one year preceding the date of the first publication hereof, and also by posting up written or printed notice thereof at three (3) public places within this city.

In Testimony Whereof, I have caused these presents to be attested by the City Secretary of the City of Lubbock, Texas, and the Corporate Seal thereof, this 28th day of October, A. D. 1919.

C. E. PARKS, Mayor,
City of Lubbock, Texas.
Attest: J. R. GERMANY, City Secy.
(Seal) City of Lubbock, Tex.

The following resolution was introduced, and upon motion, was duly passed:

IT IS ORDERED that an election be held whereat the property tax paying voters of the City of Lub-

bock, Texas, may determine whether or not bonds in the sum of Fifteen Thousand (\$15,000.00) Dollars shall be issued for the purpose of improving, repairing and extending the light and power plant of this city, said bonds to be in denominations of One Thousand (\$1,000.00) Dollars each, and shall bear interest from date of issuance at the rate of six per cent per annum, interest payable semi-annually on the first days of January and July of each year thereafter, payable at forty (40) years from their date, with option of the city to retire any or all of such bonds at any interest paying date after ten years from date of issuance, and if said vote be in favor of the issuance of such bonds, a tax will be levied sufficient to meet the interest accruing thereon, and to retire such bonds at their maturity; said election to be held on the First day of December, 1919, at the office of the City Secretary of the City of Lubbock, Texas, in the said City of Lubbock; J. D. Wood, L. H. W. Terry, and H. K. Porter are hereby appointed to hold such election. Those desiring to vote in favor of the issuance of such bonds shall have written or printed on their ballots the words "For the issuance of \$15,000.00 light and power bonds," and those desiring to vote against the issuance of such bonds shall have written or printed on their ballots the words, "Against the issuance of \$15,000.00 light and power bonds."

The Mayor of this City is directed to give the proper notices of this election by having a properly certified copy of this resolution published in some newspaper as is required by law, and posting up legal notices of such election.

THE STATE OF TEXAS,
City and County of Lubbock.

We, C. E. Parks, as Mayor, and J. R. Germany, as City Secretary, do hereby certify that the above and foregoing is a true and correct copy of the Resolution passed by the City Commission of the City of Lubbock, Texas, October 28, 1919, relative to order for an election to determine if light and power bonds in the sum of \$15,000.00 shall be issued by this City.

In Testimony Whereof, Witness our official signatures, attested by the Seal of said City, this October 29th, 1919.

C. E. PARKS, Mayor,
City of Lubbock, Texas.
J. R. GERMANY, Secy.
(Seal) City of Lubbock, Texas.

The following resolution was introduced, and upon motion, was passed:

IT IS ORDERED That a proposition be submitted to the properly qualified property tax paying voters of the City of Lubbock, Texas, at an election to be held at the office of the City Secretary of the City of Lubbock, Texas, on the 1st day of December, 1919, to determine whether or not bonds of this City shall be issued in the sum of Ten Thousand (\$10,000.00) dollars for the purpose of repairing, rebuilding and extend-

Miss Francis Burton, of Slaton, was here the first of this week visit-

**"Gets-It" Peels Off
Corns Painlessly**

Off They Come Like Banana Skin. 2 or 3 Drops, That's All.

There's a murderous, painful way to get rid of corns, and then there is the peaceful, glorious "peel-it-off" "Gets-It" way. After you have tried "Gets-It" you will say "never

Cut it! Quish! "Gets-It" Peels It! again! to all other methods. This is because "Gets-It" is the only corn-remover on earth that makes corns peel off just like a banana skin. Two or three drops will do the work, without fussing or trouble. You apply it in 2 or 3 seconds. It dries immediately. "Gets-It" does the rest, without bandages, plasters, blood-bringing knives or razors. Get rid of that corn-pain at once, so that you can work and play without corn torture. He sure to use "Gets-It." It never fails. "Gets-It," the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill.

Sold in Lubbock and recommended as the world's best corn remedy by LUBBOCK DRUG CO.

ing with Miss Grace Howard.

Mrs. A. (a new bride) — "Look! Here is my first loaf of bread. Isn't it a dandy? Tom says I sure am some cook, but really it's this beautiful!"

COLE'S DOWN RANGE

that Mother gave me for my wedding present. Its even, steady fire makes cooking and baking a pleasure."

Miss C. — "Yes, that's a fine looking loaf of bread all right, but why do you try to boil your teakettle on the back lids?"

Mrs. A. — "Oh! That's another fine thing about this range—you can cook on all six lids, not just two as in other ranges. It never ruffles your temper with soot and dirt, for it is equipped with Cole's Hot Blast Draft, which Tom says burns all burnable material in our fuel, gas and all—wasting nothing and saving a lot on our fuel bill. Tom says it is just the range for newweds like us, or anybody who really wants to save."

Miss C. — "It is such a neat looking range!"

Mrs. A. — "Yes, the smooth nickel trimming and plain body are so easy to keep clean, and the high top makes sweeping and scrubbing underneath the stove very easy. Now you couldn't have a finer wedding present, and I do hope that each of you will get one when you are married."

Come to our store and see this beauty, and let us show you its features and some of its 151 new ideas.

Ward Crim, of Abernathy, was here Monday of this week attending to business matters.

MUST HAVE A PROFIT TO RAISE COTTON

(By S. C. Hoyle, Editor Extension Publications, A. & M. College, Texas.)

There seems to have been a prevalent opinion that the south must raise cotton or starve, but this fallacy is rapidly being exploded and the southern farmers are taking a determined stand as evidenced by their stand at the first World's Cotton Conference held in New Orleans on October 13th to 16th inclusive, at which time the strongest note was the unalterable resolves of the Southern farmers not to raise cotton unless they could do so at a profit, according to Director T. O. Walton, Assistant Director W. B. Lanham and Walton Peete, of the Extension Service, A. and M. College, of Texas, who were delegates to this conference.

Leading farmers from all southern states were positive in their statements that many other crops adapted to southern soils and climatic conditions could be produced with more net profit than cotton is produced under present conditions and prices. This attitude was no doubt startling to the New England and European spinners who evidently came to the convention expecting to find the same conditions which existed in the South a decade ago still governing the cropping system of southern farmers and that they were compelled to raise cotton whether the price was high or low.

The adoption throughout the South of the principles involved in "Safe Farming" which doctrine originated in Texas, has wrought a revolution in Southern agriculture, and this conference furnished an opportunity to reveal the new conditions to the cotton world.

In speaking of the matter T. O. Walton predicted that in the future the spinners of the world will devote their efforts to stabilization rather than reduction of cotton prices.

It was indeed gratifying to all the Texas delegation to note the attention given to the plans devised by Mr. Peete of the Extension Service and the United States Bureau of Markets to inaugurate a better system of marketing cotton by farmers in their local markets. The Texas plan was generally discussed and unanimously approved by the convention. A resolution was adopted asking its extension to other cotton growing states.

There was unanimity of all interests represented in support of demands for better baling and handling of cotton to the end that needless waste and damage be prevented. One or two groups objected to specific

recommendations concerning gin compression and selling on net weight, but the fact that nine of the eleven groups endorsed these two important reforms.

These gentlemen report the meeting a success from every point of view and are of the opinion that much good will result to the cotton industry in the south as a result of the bringing together of the varied interests concerned in the production of cotton and the attainment of a better understanding of the needs and requirements of each.

Rob a sore throat with BALLARD'S SNOW LINIMENT. One or two applications will cure it completely. Sold by all Druggists.

CITATION BY PUBLICATION

THE STATE OF TEXAS.
To the Sheriff or any Constable of Lubbock County, Greeting:
You are hereby commanded to summon, Richard C. Lake and Thomas B. Tomb, composing the partnership of Lake, Tomb & Company, and the unknown heirs of said Richard C. Lake and Thomas B. Tomb; James Elkins, John M. Elkins, and Morris Brinn, and the unknown heirs of James Elkins and John M. Elkins and Morris Brinn, by making a publication of this citation once each week, for four consecutive weeks, previous to the return date hereof, in some newspaper published in your county, if there be a newspaper therein published, but if not then in any newspaper published in the 72nd Judicial District; to appear at the next regular term of the District Court of Lubbock County, Texas, to be held at the Court house thereof in Lubbock on the 2nd Monday in December, A. D. 1919, same being the 8th day of December, A. D. 1919, then and there to answer a petition filed in said court on the 6th day of November, A. D. 1919, in a suit numbered on the docket of said court, No. 1281, wherein Philip P. Wise is plaintiff and Richard C. Lake and Thomas B. Tomb, composing the partnership firm of Lake, Tomb & Company, and the unknown heirs of said Richard C. Lake and of Thomas B. Tomb; and James Elkins and John M. Elkins and Morris Brinn and the unknown heirs of said James Elkins, John M. Elkins and Morris Brinn, are defendants; the nature of plaintiffs demand being as follows:

Plaintiff alleges that on November 1st, 1919, he was lawfully seized and possessed of the title to Section 68, Certificate No. 661, H. E. & W. T. Railroad Company, 640 acres of land, in Block 20, located in Lubbock county, Texas, according to the original field notes thereof as recorded in Book 2, page 367 of the Lubbock County Surveyors' Records; that on said date the defendants unlawfully entered into possession of said premises and ejected plaintiff therefrom and still withhold possession of said premises to plaintiffs damages in the sum of \$5000.00. Plaintiff prays for his damages, that he recover the title and possession from each and all of the defendants and that writ of restitution issue. Plaintiff also claims and asserts title to said land as described under the Three Year Statutes of Limitations as defined in Article 5672 Revised Civil Statutes of Texas; and also claims under the Five Year Statutes as defined in Article 5674, Revised Civil Statutes of Texas; and also claims and asserts title under the Ten Year Statutes of

Limitation as defined in Article 5675 of the Revised Civil Statutes of Texas, claiming title under said statutes of limitation to all land as above referred to.
Herein fail not, but have you before said court on the first day of the next term thereof, this writ with

your return thereon, showing how you have executed the same.
Witness my hand and official seal, at my office in Lubbock, Texas, this 6th day of November, A. D. 1919.
SAM T. DAVIS, Clerk,
District Court, Lubbock Co., Tex. (Seal) (19-4)

MAXWELL KARGER
 Director General

COMING TO THE LINDSEY THEATRE

Friday and Saturday, Nov. 21st and 22nd
 The Bride Will Show You Your Choice Seat

Mrs. M. J. Henderson, of Lynn County, is here this week visiting at the home of her son, J. E. Henderson and attending the District Conference of the Methodist church.

Rev. Cole, pastor of the Baptist church at Crosbyton, formerly a resident of this city, was over Wednesday transacting business and visiting with friends.

BISHOP McMURRY DEDICATED ST. PAULS CHURCH, ABILENE

On his way out to Lubbock to hold the session of the Annual Conference Bishop McMurry stopped at Abilene over Sunday and dedicated St. Paul church at that place. Rev. J. W. Hunt, has been pastor there the past year and has done a great work. He has wrought great things to pass in Abilene and the big church debt that was hanging over the church has all been paid and there is money in the bank to the credit of the church and this dedication ceremony is a credit to the pastor, the church board and the membership in general.

HUSBY CANNOT PAY POLL TAX FOR WIFEY SAYS LAW

Austin, Tex., Nov. 10.—A husband cannot pay poll tax and secure a receipt for his wife, without a written order from the wife, according to an answer made by the attorney general's department today to inquiries from several points in the state.

Mrs. M. D. Jones, of Slaton, was here the first of the week shopping and visiting with friends.

COMMISSIONERS HOLD SHORT SESSION THIS WEEK

Commissioners' Court held a short session this week and adjourned until next Monday on account of the District Conference which will be in session here this week and other matters of interest to the commissioners. The following is a copy of the minutes of the session held this week as same appears from the Commissioners' Court Docket:

Motion made to declare the result of the County Park election and carried: Election favorable to levying of the tax as shown on page 1, book 2, election returns, carried.

Motion made and carried to declare the results of special election held November 4 on Constitutional Amendments as shown by record of Elections book, page 2; carried.

Motion made and carried to allow all election officers at the Special Election held November the 4th, \$2 each per day except those of precinct 4 and of these \$4.00 per day.

Report of Sheep Inspector W. M. Haddock approved.

W. F. Jackson's bond as public weigher approved.

Motion made and carried to employ J. H. Clay to rebuild furnace and extend flue on Court House at \$235; he to furnish all material and labor.

Motion made and carried to adjourn until next Monday with 1 day per diem each.

MAN IN JAIL CHARGED WITH FORGING CHECKS

Richard Evans, of Sweetwater, is in jail here charged with having forged the names of some Plainview people to checks which he presented at local banks. He was brought from Sweetwater by Sheriff Terry last Sunday night. It is said that he signed the name of Tom Shelton, a farmer of near here to one of the checks and a fictitious name to the other. One of the checks was endorsed by a fictitious name and the other by his real name.—Plainview Herald.

The following is a record of the votes cast November the 4th in the various precincts of the county for and against a tax for County Parks: Precinct 4, 115 for, 21 against; Precinct 5, 34 against and 16 for; Precinct 11, 5 for and 2 against; Precinct 19, 2 for and 1 against. Results, total for 131; against 55; majority of 76 in favor of tax.

SCIENCE TALKS

A celebrated scientist referring to cod-liver oil said that Nature had given the world "almost a ready-made food".

SCOTT'S EMULSION

is richest Norwegian cod-liver oil, elaborated in a scientific manner, very much as Nature wraps up each globule of butter-fat. Scott's is not unlike cream in consistency, but many assimilate it easier than they do other fats.

Scott's Emulsion is concentrated nourishment that helps keep the body strong. Give it a trial.

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous "S. & B. Process," made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed.

Scott & Bowne, Bloomfield, N. J. 19-25
