LUBBOCK, LUBBOCK COUNTY, TEXAS, THURSDAY, MAY 27, 1920

NUMBER 48

THE HOME SITUATION IS SERIOUS

PEOPLE SEARCHING LUBBOCK DAILY FOR HOMES, AND LEAVE WITH A BAD IMPRESSION OF OUR TOWN

LARGE NUMBER OF RENT HOUSES MUST BE PROVIDED

If Lubbock Maintains a Reputation For Favoring People Who Would Make residence Here, More Recognition of the Home Situation is Essential—And Quick Action is Imperative.

This morning a widow lady with a small babe in her arms and a child about 8 years old by her side, presented herself at the office of the chief clerk of the local railroad and requested him to have her car of household furnishings shipped back to Belton. This action was made necessary the lady says because it was "impossible to find a place to live in Lubbock." Several days of fruitless hunting for a place to rent or a place that could be purchased without expending a large amount of money was made by this lady. Her household goods were held in the car until a place in which they could be put could be found. "Why do you people send out your continuous requests of 'come to Lubbock,' when you have nothing to offer one who has small financial means or one who does not care to 'become' a resident of this town? The Avalanche man did not dare attempt an answer.

Mr. Cline, chief clerk at the local station, can cite one to many instances where cars of household goods were held for several days by people searching the town for homes. He says that the biggest percentage of these people usually divert their cars to other towns and leave knocking Lubbock. Only yesterday Mr. Cline had such an experience and the car in question was sent to Amarillo, the owner having searched here for a home for several days.

L. H. Hungate, traffic inspector, who came here during the past winter and established quarters here, "because of the central location of Lubbock and that its reputation as a town was good" will leave here shortly and make his home in Plainview. Mr. Hungate has no good word to speak of Lubbock, other than "its physical location." He says that he can not find suitable quarters in Lubbock for his family and that the town of Lubbock is doing nothing to relieve the situation. In the strongest words the Avalanche man has had occasion to listen to regarding this town, Mr. Hungate said, "Lubbock is holding out its hands for money on-

ly, offering very little inducements to the new comers or those who might intend coming here and depending solely upon its enviable location on the South Plains, while Plainview was extending a helping hand and rendering aid in securing homes for those who wish to abide there." (We did not strike him either!)

Whether these complaints are justifiable as a whole or not does not relieve Lubbock of its obligations to see that every reasonable thing and all energy obtainable should be done and used in stamping out the prejudices arising over the home situation.

These are conditions that the Avalanche regrets very much to report. We dislike for the people away from Lubbock to think that these are facts, but many of our own people are not aware of the seriousness of the situation, and there is no concerted effort so far as we are aware being made to remedy the shortage of homes for Lubbock.

The fact that there is not an empty house in the city, and scarcely a vacant room that is not snapped up the minute it is known that it is vacant, is in a way complimentary to the city's growth and popularity, but when nothing is being done to increase the number of buildings in the city in order to house those who want to come to our city is not a good advertisement for the town.

To this plea will come the wall that there is no money in renting houses. In the general run of rent houses there may not be, but neatly built comfortable modern houses command a class of tenants that are willing to pay a rent sufficient to pay the owner a good interest on the investment plus the upkeep, taxes, etc., and would prove congenial and make the town splendid citizens. This matter certainly deserves more consideration than it is receiving at the present time, and we shall suffer great losses in many ways if there is not something done, and that soon, to relieve the situation.

SANTA FE TO SPEND \$20,000 IN LUBBOCK

According to F. J. McKie, Superintendent of the Slaton division of the P. & S. F. Ry., who was here Monday transacting business, the Santa Fe will expend \$20,000 on additional track in the Lubbock yards. These improvements will be an extension of one of the yard tracks and the construction of another one the entire length of the yards. This was brought about by the steady growth of the business here which has for several months been increasing steadily. Several times during the past Fall and Winter there were so many cars in the Lubbock yards that it was almost impossible in many instances to handle the many trains going out and coming into this city.

"The Santa Fe system is behind eighty million dollars in improvements," according to Mr. McKie, which would have been spent improving and extending roads owned and operated by the system during the period under which the roads were under Government control. Mr. McKie stated that the Slaton division of this system had received or was in position to get, \$300,000, which will be used in improvements that are essential to care for the growth of the country's demands.

SEVERAL BRICK BUILDINGS NEARING COMPLETION

The Lub-Tex Motor Company's building on the west side of the Bradley Garage is nearing completion and will be ready for occupancy within a few days. Fast finishing work is now being done in the J. H. Moore building, North Singer street, which will be the new home of the Buick Garage. Construction on the display rooms for the Oldsmobile automobile company on the north side of the square, which is being constructed by J. B. Earhart, is well under way. The new two story brick, which is in a way complimentary to completion and will be the home of Ed Wilson's grocery, which will open up about the middle of June. The Roscoe Wilson brick on west Broadway is starting skyward this week. This building when completed will be the home of Floyd Beall's drug store.

Besides the numerous buildings in the business district that are well under way, there are many residences being built. Some of brick, others part brick, and all of them will be really nice homes.

ONLY STORE AT GOMEZ BURNS SUNDAY A. M.

The last and only store remaining in the oldest town in Terry county, owned and operated by A. P. Moore, one of the best known mercantile men in the South Plains, was burned early last Sunday morning. The fire which caught from within the building from an unknown origin. This establishment was one of the largest and best equipped complete mercantile establishments in Terry county and the loss is estimated at not less than \$8,000. No insurance was carried on stock or building. We are informed by J. E. Moore, son of A. P. Moore, who was here Wednesday of this week attending to business matters, that the store will be rebuilt on a larger scale.

TO THE PREVIOUS SERVICE MEN

Do you know what the pay increase means to the army? On first enlistment it means for the private of the first class, \$39.80 per month. Corporal, \$43.20. Sergeant, \$45.60. Sergeant Staff, \$52.80. Do you know that the government now does the laundry for the enlisted man, thus making his pay absolutely clear of necessary expenses?

Do you know that the army is now about 75,000 men short, and that it will lose about 75,000 more the next year, and that the previous service man coming in now is almost assured of being made a non-commissioned officer before the end of the year?

JOHN S. McCURMUMEN DIED AT HOME OF SON

John S. McCrummen, age 78 years and 8 months, died May 25th at the home of his son, Clyde, 5 miles northwest of this city. The deceased has lived in Lubbock county more than fifteen years and has made his home with his son since coming to this country. He is survived by two sons: Clyde and Jesse McCrummen of Vernon; three brothers, M. C. and W. T. McCrummen of Lubbock, and L. M. of Eastland; two sisters, Mrs. L. M. Knight and Mrs. E. A. Frazier, also of Lubbock, and six grandchildren.

Funeral services were conducted Wednesday afternoon at the home of Clyde McCrummen by Rev. W. A. Bowen, pastor of the Baptist church of this city, and interment followed in the Lubbock cemetery.

BARRIER BROS. USING MUCH ADVERTISING SPACE

The big dry goods store of Barrier Brothers at this place, are using quite a lot of advertising space this week. They have four pages of space in the Avalanche, besides using a liberal amount in all of the nearby papers. These people are making some very attractive reductions in every department, and expecting a very liberal response to their invitation to visit their store during the next four weeks of bargain attractions.

THE TEACHER SITUATION IN TEXAS IS SERIOUS

Seventeen of Fort Bend County's fifty-one teachers resigned during the current year, according to County Superintendent Mimmie M. Mayes. The report shows that but two applicants, sixteen years of age, took the last examination, asking the lowest grade certificate issued by the state. W. G. Smiley, county superintendent of Harris County, says twenty-five teachers resigned, and that the monthly pay of some teachers equals the weekly pay of carpenters in Houston. Miss Adice Cameron, superintendent of Waller county, reports but one applicant for a certificate, saying probably forty county teachers will be employed next year without experience as the lowest pay per year is \$200. Superintendent DeFee reports that Brazoria County paid as little as \$45 per month for teachers, saying some donations were used to increase some salaries.

Forty schools in Hopkins County were taught at the close of the term by teachers having lower qualifications or holding lower certificates than at the beginning of the term, says Dan J. Thompson, County Superintendent. During the year 131 of 23 applicants sought second grade certificates and 90 were without experience in Franklin County. Mount Vernon paid grade teachers \$70 per month, \$16 less than the average for the State, and gave the high school teachers, excluding superintendent and principal, \$833 per year, \$16 per week. One Fannin county teacher resigned every third day of the session, says F. A. Spencer, County Superintendent. Vacancies he says, have been filled with teachers of lower qualifications or less experience, or both. More than one-fourth of Delta County's teachers have resigned, where the lowest pay was \$50 per month, according to County Superintendent W. B. Wheeler, who says none of the recent applicants for certificates have taught, their average age being seventeen.

Two Erath County schools have remained closed for lack of teachers this year, according to County Superintendent Mary Marrs. During the year one-tenth of the teachers have resigned, the lowest salaries paid being \$280 per year. Nine out of ten applicants are without experience, and the tenth has taught less than one year. Miss Ulala Howard, County Superintendent of Eastland County, reports four rooms or schools remained closed for lack of teachers. In this county the WEEKLY pay of carpenters equals the MONTHLY pay of the poorest paid teachers. In Comanche County, Mrs. J. E. Deely, County Superintendent, reports the monthly pay of a carpenter exceeds the annual pay of the lower rated teachers. To supply the call fourteen persons have asked the lowest grade certificates, twelve, whose average age is seventeen, have never taught. Brown County, says Miss Carrie Reeves, County Superintendent, had no resignations. Four places could not be filled, and three schools remained closed for lack of teachers.

One-fifth of the Bastrop County schools were taught this year by teachers without experience, according to County Superintendent T. N. Powell. Teachers received an average of \$42 per month, paying \$30 for food; poorer paid teachers got \$50 per month and carpenters \$42 per week. County Superintendent Joe F. Sargent says teachers received as little as \$10 per week and paid \$6 of it for board in Guadalupe County. Ten resignations in Caldwell County caused five rooms or schools to remain closed and two other places could not be filled, reports Miss Leona Dodd, County Superintendent. At the last examination there were less than half as many applicants as vacancies, and they were without experience. Gonzales County, according to Superintendent J. C. Cochran, has shown its devotion by building teacherages from private funds, yet the lowest salaries paid are less than \$14 per week.

LUBBOCK COUNTY LOSES COURT YARD HAND

Lubbock county's court house yard this week will lose a weed chopper. A telegram was received here Wednesday from the Sheriff at Roswell, N. M., to the effect that C. E. McBride was wanted in that city on a charge of forgery, thus Sheriff Holcomb landed him in the Lubbock county jail to await disposition.

McBride, after posing as a detective here last week to officers was later found in possession of a suit of clothes belonging to a gentleman employee of the Western Union. Arrangements were made and a trial was heard before Judge Moore. A plea of acknowledgement of the guilt was made and a fine assessed. He claimed to have no money with which to pay his fine and that he was unable to get it from any source. It was then decided that he should help in keeping the court house in good shape and to work on the yard. Nights were being spent in the jail. After receiving the telegram Wednesday, Sheriff Holcomb informed the man that he could work inside the jail until further notified. According to Mr. Holcomb, the man seems feeble-minded.

CITY LAYING SIDEWALKS IN RESIDENCE DISTRICT

The concrete crossings of the downtown district or that portion where paving will be done, are being taken up in blocks and hauled to the residence district where crossings are needed. This is being done we are advised, at a small expense and the benefit to the city will be great. Engineering work is being done on parts of the square this week. Several teams are employed with plows and scrapers. Much of the dirt taken of the streets will be used in building up the court house yard, and will result in an improved appearance in the park.

FIREMEN PLANNING CONVENTION

VARIOUS IDEAS OF ENTERTAINMENT ARE BEING WORKED OUT AND VISITING FIREMEN TO BE WELL ENTERTAINED

REMODELING OF OLD FIRE STATION IS NECESSARY

Proposal Will Be Submitted To The City Regarding The Purchase of Old Woodman Hall Which is Second Story of the Fire Station Building, So That Lower Floor Can Be Used For Truck

The Lubbock volunteer fire department met Tuesday evening with the members of the Board of Directors of the Chamber of Commerce for the purpose of discussing and making plans for the entertainment of the Panhandle Volunteer Firemen's Convention. Agreed date which was set for 23, 24 and 25 of August for the entertainment of these one hundred and fifty or more delegates to the "Convention City" was made. Proposals for the entertainment to be furnished the men was also tentatively agreed upon, although not definitely included an auto drive down the Yellowhouse Canyon and a banquet served on the Canyon. Other and numerous proposals for entertainment were made and it was then decided that it would be best to have the fire department of Lubbock appoint a committee which will in turn work with a committee appointed by the president of the Chamber of Commerce. It will be the duty of this general committee, as outlined Tuesday evening, to be in charge of supervision of the entertainments, receptions, etc., of the convention days. This committee will start their work immediately and no doubt next week a clear outline of the convention program will be made.

One of the most important things which Lubbock will derive from entertaining the convention will be the creation of more interest in the volunteer fire department. Very few people realize that Lubbock leads the entire western portion of Texas in winning prizes in fire contests held during the past few years. Yet the condition of the fire department is any thing but flattering. Financial consideration has not been given this department by the Lubbock citizens as justly, according to well-informed people, who attended the meeting Tuesday evening. Lubbock is only fortunate that insurance rates are not higher than what they are now, according to an insurance man. The city of Lubbock has not adequate facilities in which to insure a quick

GOVERNMENT MAN KILLS LARGE LOBO WOLF

R. L. Paulk, predatory animal hunter in the employ of the government, was in Lubbock Thursday morning exhibiting the hide and skull of a noted lobo wolf which he killed April 23 on the S. ranch in the western portion of Cochran county. Some ranchmen claim this wolf has been depredating in the west part of Texas and eastern New Mexico for the last fifteen years. Mr. Paulk was sent to that section on March 1, and equipped with traps, guns, horse and bloodhound, has killed a number of coyotes and other destructive animals, but always seeking this arch enemy of the calves and sheep of that vicinity. He says that to his knowledge, six calves have been killed by this wolf since March 1st, this year. Mr. Paulk rode onto the wolf hiding in the tall sage-grass and after his dog had been knocked out, shot the wolf through with his pistol. The pistol shot only wounded him, however. A 30-30 rifle shot brought him down. The dry hide measures 6 feet and 4 inches from tip to tip and the animal would weigh about 100 pounds according to the hunter.

A few of the ranchers near where he killed the big wolf expressed their appreciation by making up a purse for which he says he desires to thank them. Mr. Paulk was on his way to Kent county, where he will spend some time hunting in the vicinity of Clairemont.

C. A. BURRUS ELECTED CASHIER OF BANK

The many friends of C. A. Burrus, who for the past ten years, has been connected with the Citizens National Bank of this city, will be glad to hear of his election to the position of Cashier of this large banking institution. Mr. Burrus is a native South Plainsman, having been born and raised in this section. The resignation of Ura Embry as vice president and cashier was accepted by the Board of Directors of this bank recently. Mr. Embry is now manager of the Leader, one of the largest dry goods establishments on the South Plains.

SPECIAL SALESMAN NARROWLY ESCAPES DEATH

Driving a horse at the speed of only fifteen miles an hour, H. H. Griffith, special salesman of the Rix Furniture and Undertaking Company narrowly escaped death when for some unknown reason, the machine turned over. Several pieces of glass struck Mr. Griffith in the face, leaving slight gashes. Two gashes on the scalp was also received. The accident happened out of Big Spring about forty-five miles. Another man was in the machine with Mr. Griffith, but received only very slight injuries in the accident. The horse body was completely demolished in the accident and was loaded onto another machine and hauled into Lubbock.

SANTA FE ENGINEER MEETS WITH CITY COUNCIL

The division engineer of the Panhandle & Santa Fe Ry., met with the Lubbock City Council at the council's regular meeting last Tuesday evening. Discussion of the drainage of the city was made and the proposal of constructing a large culvert underneath the tracks east of town to carry off the water. There was also a discussion made of who was entitled to bear the expense of constructing the culvert, but was disposed of at the Tuesday evening's meeting.

LUBBOCK DEFEATS SLATON IN BASEBALL 4 TO 3

In one of the fastest games of the season Lubbock defeated a fast team from Slaton Tuesday afternoon on the Lubbock grounds. In the first two or three innings Slaton got the lead of three scores and it looked as though they would have a run-off with the game. However, with two outs and two men on bases a clean hit made by Herbert Stubbs gave Lubbock two scores, which was followed in the next inning by another score by Lubbock on clean hits. The game was tied and all were on their toes the balance of the game. In the sixth inning another score was made by Lubbock.

Featuring the game was the fact that all scores made by the local team was the result of clean hits and all scores made by Slaton were directly due to errors. Barry pitched a good game, striking out ten men. The score, line-up, hits, etc., were as follows:

THOMASON AND NEFF EQUAL IN STRENGTH AT CONVENTION

According to returning delegates from the State Convention held at Dallas this week the consensus of opinion among the convention delegates is that Pat M. Neff and R. E. Thomason are equals in chances for Governor. These men also state that although B. F. Looney had about five hundred followers from his section at the convention, the real race will be between Thomason and Neff. The convention sent delegates to the National Convention unopposed yet favorable to McAdoo for President. Indorsement of the National and State Democratic Administrations was made in forms of adopted resolutions. The name of J. W. Bailey was seldom, if ever, mentioned at the convention, according to delegates and it is generally conceded and unanimously so among the political leaders of the State that Bailey will not be a factor in the Governor's race.

BARRIER BROS. SELL STORE AT PLAINVIEW

The firm of Barrier Bros., dry goods retailers, well known over the South Plains, has recently disposed of their store at Plainview. The sale was made to Cecil & Company, merchants of that city. In conversation with G. C. Barrier, manager of the store in Lubbock, we find that this progressive firm is concentrating their efforts in Lubbock and the Lubbock territory. He informs the Avalanche representative that soon they will bring the store now being operated at Brownfield, to Lubbock, and remain in this city as a point of concentration until at least the market conditions assume more steady and favorable proportions.

FATHER OF MRS. RADFORD DIES AT BIG SPRING

John DeKalb Birdwell, pioneer cattleman of Howard county, and one of the few men who lived in this section that participated in many bloody Indian fights, father of Mrs. O. Radford of this city, died at his home in Big Spring, May 24th, following a continued illness. Funeral services were held in Big Spring May 25th, and interment was made in the Big Spring cemetery.

SENTENCED TO 99 YEARS; CATES' APPEALS CASE

The jury which heard the evidence in the case where the State of Texas charged Sam Cates with the killing of Judge J. W. Burton, well known Crosby county attorney, turned in a verdict last Thursday evening of guilty, and assessed punishment of ninety-nine years in the penitentiary. The case has been appealed and will be heard again in the Criminal Court of Appeals in Austin.

Missionary Facts
The fires of love have burned a new meaning into the word "foreign." And they have illumined the world with a new, radiating light which is penetrating everywhere. Invention and discovery with scientific use of their results have worked mightily toward reducing the world to a neighborhood, but to this end, love has done even more. To a conquering church with compassion in its heart latitude and longitude count little. "Foreign missions" there, is simply the movement of the people of God toward other people who are still waiting to hear that the kingdom of heaven is at hand.

A true neighbor is a man of compassionate heart, not the one who finds the mark of the neighbor in others, possesses the marks of neighborliness in himself. Whether your neighbor lives next door or on the other side of the world. We are our brothers' keepers.

The nations of the world today are in the same neighborhood. True, there is a vast difference in customs, languages, etc., but there are no geographical lines, no national, no race, no class prejudice, in the heart of God. "Go ye into all the world and preach the gospel to every creature." As we have opportunity let us do good unto all men. "The rising tides of democracy what are they but the mighty surging of His spirit who calls upon all men to stand together upon one level and utter with Him those blessed and equalizing words, "Our Father!"

What use to win the war for dem-

ocracy, unless we win the world for Christ? "Science cannot kill war, commerce, progress, law, education, cannot end war. Who will end war? The world has had three historic scourges—famine, pestilence, and war. Commerce killed famine; science killed pestilence, only religion can kill war, for religion creates the new heart. Without religion we are without hope in the world. Without God we are lost." The world's sole hope. It has taken 100 years for the church to establish a force of 1,000 missionaries in the field. At the end of the next four years, there must be 2,000.

Millions wait for an army of rescue. The King has summoned us. Listen! Is he calling you?

SANITARIUM

FEES

Reports have been persistently circulated the past few weeks that the Lubbock Sanitarium has raised its rates.

The facts are, that our rates have not been changed since last September. Our rates today are the same as they have been for eight months. This rate is six dollars per day, which includes room, board and usual nursing.

Our fees for operations are just the same as they have been ever since the institution was built and are the usual fees charged everywhere for such work.

Our many satisfied patrons all over the country will testify to the above facts.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. RED CROSS SERVICE.

Clean-Up Notes
The success of our recent clean-up campaign, conducted under the supervision of the local Chapter of the American Red Cross, was directly proportionate to the co-operation and support accorded the movement by the citizens and business interests of Lubbock. Owing to the fact that a number of wagons and vehicles for the hauling of trash failed to report for duty after having been promised, rendered it impossible to get all trash and rubbish hauled within the allotted time.

We are informed that every effort will be made to haul any trash from sections of the town which have not yet been reached. It is the plan of the Red Cross to obtain wagons, trucks or other vehicles as fast as possible for this purpose. Persons who have their trash ready for hauling, are urged to wait patiently for the arrival of these trucks or wagons.

It is desired to thank particularly the members of the local Patrol of the Boy Scouts for their loyalty and co-operation in this work.

A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel lous you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bowels and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

HOW TO LOWER YOUR MEAT BILLS

(Hints from the Department of Justice).
No Steer Without Good Meat at Low Price

WANTED—A steer composed entirely of loins and ribs.—H. C. L. Unfortunately, "there ain't no such animal." If a porterhouse steer could be developed by a live stock Luther Burbank, we could all have porterhouse or sirloin steaks and rolled roasts from the first and second ribs—next to the loin, and therefore most expensive, as your butcher will tell you.

Nearly everybody wants high-grade cuts, but there aren't enough ribs and loins to go around. These cuts compose but 27 per cent of the carcass, the loin constituting 18 per cent.

What's the answer? If people would buy more chucks—they make excellent steaks—or briskets and clods (all fore-quarter cuts) there would be cheaper sirloin and porterhouse steaks. Ask your butcher or food economist about the possibilities of the fore quarter, also cheap cuts from the hind quarter. Then there is the flank. Ever eat a good flank steak? It possesses a flavor that cannot be duplicated. The full flank composes 4 per cent of the beef carcass, the square-cut chuck about 24 per cent.

In New York and other eastern cities far removed from the packing house center, ribs and loins can be sold at lower prices than in Illinois, because of the heavy demand by the foreign-born population for rounds, chucks, rumps, and other cuts less popular in the West. The least expensive part of the beef carcass is the shank, which is excellent for stews and soups. The round will supply roasts as well as steaks. Pot roasts, steaks and braising meat are furnished by the rump at medium expense. Chucks supply roasts, steaks and stews. The shoulder clod, another economical cut, is used by well-taught cooks for steaks and pot roasts. There is a large variety of extra portions that many housewives know little about, such as the heart, liver, kidneys, lungs and sweetbreads.

But you must know something about beef cuts to know what to buy and how to buy. Then you can neglect the costly steaks for the time and return to them when the price has been equalized by the more general buying of the less-familiar cuts. Woman purchasing agents of the home, in learning more about the various cuts and their culinary possibilities, will have impressed upon them a knowledge of the limited quantity of loins and ribs and the excessive demand for them which causes the price to keep up.

When ordering the foods for the day, the meat part of the meal is always the first planned, and the remainder built around it. Housewives should be familiar with all cuts and then cook them so as to get the best flavor.

Rump Pot Roast of Beef With Dumplings
2 pounds beef rump.
1-4 pound salt pork.
1-4 cupful carrots, onion, celery and turnips.
1 teaspoonful parsley.
1 bay leaf.
4 cloves.
1-4 teaspoonful pepper.
Salt.
3 cupfuls of water.

Wipe the meat, dredge with flour and brown the entire surface in pork fat. Place on a rack in a kettle, surround with vegetables, spices and water. Season, cover closely and simmer slowly four hours, keeping the liquid below the boiling point. Remove the meat and vegetables to hot platter. Thicken stock and serve

with vegetables as a sauce around the meat. The sauce may be strained if desired.

Dumplings

2 cupfuls flour.
4 teaspoonfuls baking powder.
1-2 teaspoons salt.
2-teaspoons fat.
2-3 cupful milk, more if needed.
Mix and sift dry ingredients. Work in shortening, add milk gradually, pat out one-half inch in thickness, cut with small biscuit cutter. Cook from 12 to 15 minutes. Do not lift the lid while cooking.

This mixture may be made slightly thinner and dropped from a spoon into the stock for cooking.

Smothered Beef

3 pounds of rump or clod.
3 large onions sliced.
3 tablespoons oil or drippings.
2 tablespoons mild prepared mustard.
Flour mixed with salt and pepper.
1 teaspoon celery seed.
1 cupful strained tomatoes or 1-2 can tomato soup.

Dredge meat with flour. Brown well in heavy pan. Brown onions in oil; add mustard, celery seed and tomatoes. Pour this sauce over meat

Special Steels Eliminate Useless Weight in a

MAXWELL

The reason the Maxwell engine is so responsive and yet thrifty, the reason the tires roll into big mileage is due largely to one fact: A Maxwell is burdened with no useless weight.

Special steels make this so. They are made to Maxwell's own formulae. No other steels in any car are just like them.

These special steels are of great strength and make possible the ideal Maxwell con-

struction of brute strength with light weight.

Obviously, they are high priced metals. They equal, pound for pound, the steels in any car built.

The wisdom of their use in the Maxwell becomes evident when one observes the rapid growth in public favor of this remarkable car.

Consider that nearly 400,000 of them are now in use; that 100,000 more will be added to this total in 1920.

C. E. Maedgen, president of the Security State Bank & Trust Company of this city, accompanied by his wife and little sons, left Monday morning of this week for Galveston where Mr. Maedgen will be in attendance at the convention of the Texas Bankers' Association. SOME LOCAL ITEMS FROM CROSBYTON REVIEW

District Court convened Monday morning with all the officers present and ready to proceed with the case of the State of Texas vs. Sam Cates for the murder of Judge J. W. Hurlburt about two months ago. R. E. Huffines, attorney for Cates, made a motion for a change of venue and after the usual argument, the Judge overruled the motion and immediately after the noon hour the selection of a jury from the 150 veniremen who had been summoned was begun and about half of the jury was selected before adjournment for the day. Tuesday morning the selection of the jury was resumed, and the twelfth juror was accepted something after 5 o'clock in the afternoon, after which court adjourned for the day. Thursday morning argument in the case was heard, District Attorney McGuire and Underwood & Simpson, attorney from Amarillo, representing the State, and R. E. Huffines, of Pilot Point, representing the defendant. Argument was closed before noon and the jury retired. After deliberating until about 4:30 o'clock they reported to the court that they had reached a decision and handed in a verdict finding the defendant guilty of murder and assessed his punishment at confinement in the State penitentiary for a period of 99 years.

At the Baptist parsonage yesterday morning, May 19th, at 8:30, Mr. W. E. Busby and Miss Magnolia Hicks were united in marriage. The young people left at once for Fort Worth where they will reside at 1811 South Jennings Street. Miss Hicks is a daughter of Mr. and Mrs. Hicks and is one of the worthiest girls of Crosbyton, while the fortunate groom bears every mark of being a worthy young man.

The Review regrets to hear of the death of Grady Wooten which occurred at the home of his parents, Mr. and Mrs. J. O. Wooten on the East Plains, Tuesday morning, after only a few days' illness with pneumonia. He was about 22 years of age. The Review extends deepest sympathy to the bereaved relatives in this sad loss.

At a special meeting of the board of directors of the Citizens National Bank of Crosbyton held some time ago, I. R. Powell was unanimously selected to succeed the late L. B. Culwell as president of this banking institution. Mr. Powell is one of our most widely known ranchmen, is one of the early settlers of the county, is a safe and solid man in every respect, with splendid business judgment, and we congratulate the bank directors in making such a strong selection. El Paso Morning Times On the Governor's Race

The following excerpt in regard to the Governor's race in Texas is taken from an editorial which appeared in the El Paso Morning Times of April 28, 1920:

"The campaign for the governorship will really begin in earnest after the precinct conventions of Saturday. There are five candidates in the field, but up to date only two of them, Pat Neff of Waco, and former Senator Bailey of Gainesville, have made any considerable progress with the voters. Mr. Neff, if opinions of trained political observers are worth anything, is reasonably certain to receive the support of the so-called progressive element which is backing the Wilson administration, while Senator Bailey is everywhere recognized as the champion of the old-fashioned Democrats who believe in the maintenance of the traditional doctrines of the party and who would call a halt on the latter-day mania for the centralization of authority in Washington.

Messrs. Looney, Thompson and Lewelling, the remaining three candidates, have climbed upon the administration band wagon, but there is reason to believe they are generally regarded as excess baggage and may be invited to step down and out and make way for the one man who will have a chance to defeat Senator Bailey.

NEFF ENDORSED BY McLENNAN COUNTY DEMOCRATS

Waco, Texas, May 5.—At the meeting of the McLennan County Democratic Convention which convened in Waco on May 4th for the purpose of selecting delegates to the State Convention in Dallas, the following resolution was unanimously adopted:

Be it resolved by the McLennan County Democratic Convention that we heartily endorse the candidacy for Governor of our fellow-citizen, the Hon. Pat M. Neff.

We do this because we know he is equipped by education, practical experience, and the highest type of personal character.

We do this because of his manifest courage and straight-forward conduct of every trust committed to him, whether as office holder or private practitioner of law.

We do this because of our faith in him as the exponent of progressive democracy and his one hundred per cent Americanism shown in his conduct among us.

We do this because we want our fellow Texans to know that in his election we will have a governor who will class along with the immortal best who ever occupied that position in Texas.

We do this because we know that he has temperamental poise, judicial character, sound judgment, reverent and respectful disposition, keen sense of honor and justice in dealing with others, and withal because he is an up-standing nobleman among his fellowmen.

We endorse him without hesitation, commend him to our fellow Texas Democrats without mental reservation and pledge ourselves to do every honorable thing we can to the end that he may be elected.

15th Anniversary

The Western Windmill Co.

With the close of the month of May, we round out our fifteenth year of business in Lubbock.

On the first of June, 1905, just fifteen years ago, we acquired the business which had been operated by Stringfellow & Hume for three years prior to that date, under the management of Smylie C. Wilson. Mr. Wilson became the manager of our business, and still continues in that capacity. Geo. T. Morrow, who came to Lubbock a short time after Mr. Wilson opened the business for Stringfellow & Hume, and was with that firm until we purchased the business, has continued to render efficient service in helping us to supply the needs of our customers, and is still with us. Mr. Gus Niblack has been with us for the past six years and is thoroughly acquainted with the needs of our customers, and is always anxious to serve them.

Mr. Neves has been with us only a few months but is a capable hardware man.

We began business in a little wooden shack, 25x50 feet, on the south side of the square. In 1910 we built the brick store building, 50x125 feet, which we still occupy, and which was the first brick store building erected in Lubbock. About two years later, we bought the property which we have used and are still using as a warehouse, and which gives us 50x100 feet of warehouse room.

We have grown up with Lubbock, have always been, still are and always will be for a bigger and better Lubbock. We believe we are the oldest business establishment in Lubbock, under one continuous ownership and management.

We believe in Lubbock and Lubbock people, and have stayed with you through thick and thin, good years and bad, dry or wet.

We have enjoyed a most liberal patronage and co-operation of the people of Lubbock and Lubbock County and we want to thank every one for the co-operation we have had, in building up the business we enjoy. With the equipment we have and the long experience we have had in business here we feel that we are better prepared to care for the needs of the people than any others could be.

If you are not our customer, we know of no reason why you should not be. Come to see us and let us show how well we can serve you.

Lubbock is at least ten times as large as it was when we began business here, and our business has kept pace with the city.

Let's all pull together and see if within the next fifteen years we can't be more than ten times as large as we are today.

Yours for a bigger and better Lubbock and a bigger and better business.

We call attention to the following list of goods to be found in our immense stock.

KUPPENHEIMER CLOTHES

Are just as popular with the farmer in this progressive West Texas as with the professions.

There is a lot of buncombe in the newspapers about cheaper prices. Labor has not reduced prices has it? Cotton is still over 40c and we haven't heard of a decline in wool. Suits we have bought for fall are higher than ever. So you had better take advantage of these reductions.
