

### Small Cars Show Paces, Much Room for Improvements

By the United Press. -NEW YORK, July 23. — The smaller one-man racing cars have had a whirl on the faster board bowls. It appears that there is much room for improvement before they will reach the speed and endurance of their larger brothers.

After motors of 183 cubic inches piston displacement had been successfully raced for three years, it was decided to reduce the size of the motors. Specifications called for cars of 122 cubic inches. They were raced for the first time at Indianapolis on May 30 and made an excellent showing on the 2 1/2 mile brick oval, where the best average time for the long grind of 500 miles is 94 1/2 miles an hour made by Jimmy Murphy in a 183-inch car in 1922. Milton, who won the race this year in the first of the smaller cars, averaged 90.95 miles an hour.

The average was considered excellent for the Indianapolis track, which approximates the conditions of road racing. The straightaways are long, but the turns which are practically flat compared with the complete banks of the oval bowl courses.

Experts were more than pleased with Milton's average. They contended that had Milton been pushed in the last half of the race, as he was in the first, when he was establishing new records, that Murphy's high mark of the previous year would have been shattered. The contention, being based, of course, on the belief that Milton's speedster could have remained intact during the sustained attack on time and distance.

Then came the July 4 race at Kansas City, the first time the small cars were raced on a speedy board bowl, where the pilots ride the cars to the last inch of speed.

#### Only Four Finished.

Out of twelve starters, only four finished the event and two of the finishers would have been culled from any logical list of likely contenders before the start of the race. The pace was too rapid for the plucky motors.

Eddie Hearne cautious, conservative, driver never picked as a winner, but always chosen for a first division place in the list of finishers romped into first money at Kansas City after several of the favorites had rolled their cars to the hospital.

That is Hearne's usual course. Driving with the experience that comes from years of competition, he always keeps his car within striking distance of the romping youngsters who step out into the lead and attempt to maintain a burning pace. If they are successful he takes less money—but when they break up, he jauntily drives into the lead.

For the remainder of the season the pilots will be wheeling their cars on the faster tracks—one mile, mile and a quarter and mile and a half bowls. The pace will be fast. Murphy averaged better than 115 miles an hour in one 250-mile event at Los Angeles with his sensational 183-inch car. It is evident that the racing laddies will have to put some endurance into their mounts if they are to exceed or even maintain the speed of last season's events. Murphy turned in a few laps at Kansas City at 119 miles an hour. If the cars would stay together at that rate, all would be well.

### Floresville Editor Write of Houston's Coming to Lubbock

Lubbock is making rapid gains in every way, and often we are congratulated upon the class of people who are turning their attention to this section of the great South Plains.

The following article taken from the Floresville Chronicle-Journal indicates the genuine character of one of our new citizens, J. T. Houston, who is one of the owners of the Citizens National Bank and who took up his work at that institution Monday morning.

The following article is taken from the Chronicle-Journal of July 20th.

Floresville has a splendid family and a family prominent in the business affairs of our little town. We are so glad to see them making their home in this thriving city of Lubbock. J. T. Houston, Representative and Mrs. V. Houston, left last Saturday afternoon for Lubbock where he will engage in the banking business. Mrs. Houston and two children will remain here for a few days but expect to join Mr. Houston shortly.

Joe Tom Houston is a Floresville product. He was reared in this city and attended the public school here for a number of years. He is one of the most widely known and universally liked young men who ever claimed Floresville as his home. After finishing school in San Antonio he went to Washington, D. C., where he attended Georgetown University for two years. Upon his return from college he engaged in the real estate and loan business with his father, one of the most extensive operators in South Texas. He has made a splendid success and by his attentiveness to business and courteous and gentlemanly manner, has won a wide circle of friends among all ages and all classes.

Joe Tom, as he is best known to all, was elected a member of the City Council last April and was taking a keen interest and an active part in the deliberations of that

body when he decided to make the change. He has always been a booster and loyal to his home town and we regret very much to see him depart just at a time when his usefulness was beginning to be felt.

for a number of years. Mr. Houston has associated himself with Mr. W. D. Green, of Shriners and Mr. Studeman of Moulton, the three having recently purchased the controlling interest in

the Citizens National Bank of Lubbock, one of the leading financial institutions of that section. They will all three be actively connected with the bank.

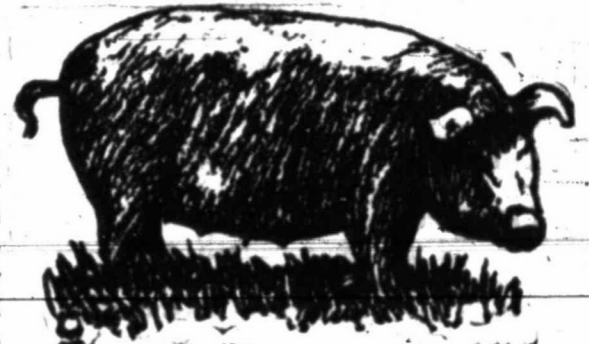

many admiring friends of this young man and his family in wishing them all the success and happiness they can hope for in their new home.

GASSERS & CUBS SPLIT TWIN BILL AT CLOVIS SUN.

CLOVIS, N. M., July 23.—The Gassers and the Cubs divided a double bill here Sunday afternoon. The Cubs annexed the first game by a score of 9 to 3 while the Gassers took the second one by a score of 5 to 2. Features of the two games were Tucker's home run with the bases full and the pitching of Thomas.

Morgan started for Amarello in the first game but was retired early in favor of Burlinson. Province scored for Amarello in the first as a result of his and Caffey's single and a Cub error. They scored again in the second as a result of an error, a single by Morgan, and a sacrifice by Whitehead. Pironne doubled in the eighth and was sacrificed home by Farley and Lawrence. Clovis started in the first when Clary went to first after being hit by a pitched ball, Mahin doubled, Tucker was also hit by a pitched

ball, filling the bases. Shaw sacrificed Clary home. Wise went to first when Moore made a throw that was a little high and Mahin and Tucker scored during the play. In the second File walked and stole second, Clary singled, Mahin singled, Tucker parked the ball scoring four men. A single, two sacrifices, and a passed ball accounted for a score in the fourth, and a single by Routh and a double by Young netted one run in the fifth.

Thomas held the Cubs almost helpless in the second game, allowing only three hits, a single by Mahin, a double by Hill and a home run by Young. He struck out 9 men and did not walk a single batter. Caffey hit a single and a homer for the Gassers and Province a single, and a double.

LOCALS NOSE OUT 3 TO 2 OVER SLATON IN ELEVENTH

Jumping on the offerings of Manner in the early stages of Sunday afternoon's matinee, when the local amateurs met Slaton, the locals took the edge on the contest,

an eleven though they did not score until the fourth, which was later tied up by the visitors, they nosed out ahead in the eleventh inning for a 3 to 2 victory.

Lewis Hunter for the locals had the visiting boys at his mercy all the way, giving up only five safeties, one of which was DeLong's circuit clout in the seventh, when he droye one over the left field fence.

Manner for the visitors went well, but was hit in the pinches, which with errors on the part of his team mates, counted heavily against him. The locals counted a couple in the fourth when Blackmon singled. Honey walked, and Blackmon scored when Hensley grounded on to pitcher, and Kerr muffed the throw at third in an attempt to catch the Batteries: McQuillan, Ryan and Snyder; Reinert, Wilson and Wist-ers.

# At the Churches

## Methodist

Sunday school was well attended, and the offering was up to the usual tithing level.

At the morning hour Rev. Chas. W. Ferguson, acting pastor, preached to a large and attentive congregation.

A Young People's Forum was held at the church at four o'clock in the afternoon, at which time the acting pastor made a short talk, which was followed by an open and frank discussion of the social problems of Lubbock, and the place the church should take in the social activities of its young members.

This meeting was well attended, and the interest was such as to merit much favorable comment.

The Epworth League program was conducted by Mrs. Ferguson, and was interesting throughout.

At the evening hour Rev. Ferguson preached a very interesting sermon, Presiding Elder Dr. E. E. Robinson having been included among his hearers.

Dr. Robinson will preach at both the morning and evening hours on the 1st Sunday in August.

## Cumberland Presbyterian Revival Closes

The Cumberland Presbyterian Revival that has been in progress thru the past two weeks on Tenth street under the direction of Rev. J. E. Bell, Synodical for the Indiana Synod of the Cumberland Presbyterian church came to a close Sunday night. Rev. Bell thru-out the entire series of services shunned not to "Preach the whole counsel of God" in the old-time old-fashioned way, and which won its way into both unsaved and saved souls. There was twenty conversions and reclamations, together with a large class both at the morning and evening service who were granted membership into the local communion.

While the revival did not reach out as far as it would have could more time been used, but it is certain that eternity alone will be able to reveal the benefits both to the saved and unsaved. God give us men real men, the cause of Christ demands strong minds, ready hand, and loving hearts, and such a man Brother Bell has proven by years of service to be together with his laborers within our city. May God bless him and his labors thru-out the next two weeks as he wages the war against unrighteousness in the City of Floydada.

The local church expressed itself in positive terms that the slogan for service would be "Forward" until our next annual revival effort which will begin on next July 13, 1924. And it is in the mind of the official board to run the services in 1924 some four weeks or more.

May God's richest blessings rest upon Lubbock and her churches in the eternal salvation of her hundreds lost and away from God. Many thanks to the Avalanche and her management for her splendid services, and all others who in any way contributed to the success of the revival that has just closed.

## Baptist Church

The Baptist revival meeting came to a close Sunday evening after a very successful meeting of two weeks. Many professions of faith in Christ were witnessed. Quite a number of whom united with the

church. Next Wednesday evening, at 8:30 o'clock at the church, they will be buried with Christ in baptism. All members are urged to be present at that service. Let's all get into the work now and live a life of service. Church members should be present at every service of the church. Our new building is now well under way of construction. We will soon have a beautiful place to meet and worship and serve God. If you have made pledges to the building fund, please get that they are paid when due to C. A. Burrus or Jno. Denman.

## Health Census for U. S. to Begin July 4th, It Is Planned

WASHINGTON, July 23.—A great nation-wide study of the health of each man, woman and child in the United States will be undertaken July 4, 1924, the U. S. Public Health Service has announced.

"The National Health Council, a combination of the 13 greatest medical and public health organizations in America, during the year beginning July 4 next, will endeavor to persuade every person in the United States to take a peep into the future to see what the condition of his health will be a few years hence," the announcement stated. "Anybody who does not like what he sees will be told what he can do to better it.

"For ages men have sought to probe the future by reading stars, consulting the oracles, visiting fortune tellers and mediums, and even by watching for the groundhog and reading the goosebone. But always when men sought information concerning the future they coupled their request with the question, 'Will I be there to see the prophecy fulfilled?'

"It is not so difficult as it may seem to predict how long a man will retain his health or will live. His expectation of life is particularly easy to estimate. Subtract his age from 80, and if his health is good he will probably live for more than two-thirds of the difference.

"But is his health good?" "A life insurance company can answer that question pretty accurately. Unless it does so it is bound to go bankrupt sooner or later. Finally it examines you physically, not merely to find out whether you are sound at the moment, but whether you have any unsuspected disease whose existence neither you nor

## Governor Pinchot of Pennsylvania Is In for A-Fight

HARRISBURG, July 23.—A controversy, similar in many respects to the famous Ballinger-Pinchot episode of the Taft administration, has been under way here since the inauguration of Gifford Pinchot as governor of Pennsylvania.

A dispute over the control of two branches of the state government started the row. Direct control of the geological survey, headed by Dr. George H. Ashley, noted geologist, was desired by the governor.

Likewise, he sought in his proposed department of commerce, the bureau of statistics and information. Both of these agencies are lodged by virtue of the constitution in the department of internal affairs, corresponding to the Federal Department of the Interior.

The clash has come about between Governor Pinchot and Secretary of Internal Affairs James F. Woodward, both of them elected on the same ticket last fall. Both

officials are responsible only to the people and removable only through impeachment proceedings.

One of Pinchot's first statements when he became governor was a proposal that the department of internal affairs be abolished. Under the Pennsylvania constitution this would require an amendment submitted to two sessions of the legislature and voted on by the people. His first skirmish to abolish the department was lost by refusal of the legislature to pass the amendment. In the battle that followed, however, Pinchot was a victor. In his reorganization code he provided for transfer of the geological survey to the department of forests and waters. The purpose of this, he said, was to have a coordinating agency under his control, to conduct the giant power survey of eastern states, a power which he now advocates.

## J. W. BURLESON AND WIFE AT HOME FROM ROSWELL

J. W. Burleson and wife returned to their home here Monday after having spent several days looking after their farms at Redland and Roswell, N. M.

Mr. Burleson exhibited a picture of an irrigation well which is on his farm near Roswell. The well is furnishing water for the irrigation of ninety acres of land, which is planted to a variety of crops.

The well was producing six hundred gallons of water per minute at the time the picture was taken. Irrigation farming is profitable in New Mexico, according to Mr. Burleson.

Fire believed to have originated from a short in an electric wire attached to the battery, broke out in a Ford Coupe owned by the Royalty Motor Company, Sunday afternoon near the Chocolate Shop on Avenue I.

C. and since that time more than 100 eruptions are said to have taken place. A much more remote history of Etna has been pieced together by modern geologists who look upon the whole island of Sicily as a contribution from the gerta reservoir of molten material under the mountain. They picture a time when the sea rolled over the site of Sicily. Then Etna's tip emerged; and thru the ages it has steadily built itself and Sicily up.

Strong Friendly Helpful

Regardless of the amount of resources a bank has, it's strength depends mostly upon the ability to protect it's depositors. Most people know that banks, like other businesses, are operated for profit, and though it is the duty of a bank to first protect its owners—stockholders, it could not profit without giving its customers a strong, helpful and friendly service.
