

# THE LUBBOCK DAILY AVALANCHE

VOL. 1. NO. 251.

LUBBOCK, LUBBOCK COUNTY, TEXAS, SUNDAY, AUGUST 19, 1923.

UNITED PRESS SERVICE

## MINERS ARE STANDING PAT

### General Rains Cover The South Plains

REPORTS FROM WIDE TERRITORY INDICATES A GENERAL PRECIPITATION OVER ALL TERRITORY NORTH OF T. P.

LATE FEED AND COTTON WILL BE BENEFITTED AND RANGE WILL ALSO BE GREATLY IMPROVED BY COMING OF RAIN AT THIS TIME

Crop prospects throughout the south plains were bettered by a general rain which fell Friday night and Saturday morning.

Though the rain was light in Lubbock, reports received at this office Saturday were to the effect that a large portion of the country received as much as from one to one and one fourth inches of rain, the Idaho community having been especially favored as crops were not damaged to any great extent by the continued drought and this rain is believed to be enough to mature all of the growing crops.

Ben Brieger, a farmer whose home is between Lubbock and Slaton, stated that he had received approximately one inch of rain, but that the ground was so dry that another rain would be necessary to mature the crops in his community.

#### Good Rain At Crosbyton

CROSBYTON, Aug. 18.—A fine rain fell here last night, which will materially benefit feed and cotton throughout this section.

#### One And A Half To Two Inches At Hale Center

HALE CENTER, Aug. 18.—Rain began falling here last night about eight o'clock and continued through the night till about four o'clock this morning. Reports indicate that the precipitation has amounted to one and a half or two inches throughout this section.

Crops were needing rain badly, and this rain will be of great benefit to them, and will also give moisture for fall planting of wheat.

#### Good Rain At Littlefield

LITTLEFIELD, Tex., Aug. 18.—It began raining here Friday afternoon at 5 o'clock and continued a steady down pour for about six hours. Approximately 3 inches fell and the entire Littlefield tract territory was covered.

The benefits from this general heavy rain cannot be estimated. Good feed crops are now assured; the cotton will be greatly benefitted, and winter grass for the rangers will be fine.

Not in the history of the country have lands sold so rapidly as now and

this section is developing literally by leaps and bounds.

#### 11-2 Inch Rain Fell At Slaton

SLATON, Aug. 18.—One and one half inches of rain fell here last night, which has changed conditions in this section very materially. It is believed now that there is everything favorable for above an average cotton crop in this vicinity, and that young feed crops will be greatly benefitted.

#### Heavy Rains At Ralls

RALLS, Aug. 18.—A heavy rain fell in the vicinity of Ralls last night, which will be of great benefit to young cotton and late feed stuff. The report at Ralls is that the rain is general over the entire South Plains section.

#### STATE RANGERS ORDERED TO PORT ARTHUR; INVESTIGATE MURDER

AUSTIN, Aug. 18.—State rangers were ordered to Port Arthur today by acting Governor Davidson to investigate the slaying of B. A. Harris, city detective. Four rangers were in the party that left here today. This action followed a telephone conversation with District Judge McDowell, of Beaumont.

#### MAN BURNS TO DEATH IN EXPLOSION OF TANK

BECKVILLE, Texas, Aug. 19.—Alex Spaid, 63 years old, formerly of Clayton, N. M., was burned to death here Tuesday night in a tank explosion. The accident occurred about 8:30 p. m. He died at 2 o'clock Wednesday morning. He is survived by two sons and one daughter.

### Terry County Will Furnish Band, Melons, Corn and a Host of Delegates to Assist Lubbock In Her Texas Tech. Celebration

J. E. Shelton, secretary of the Brownfield Chamber of Commerce, and W. G. Cook, also of Brownfield, were in Lubbock Saturday helping to complete arrangements for Terry County's participation in the Texas Tech celebration to be held here Tuesday, August 28th.

Mr. Shelton announced that together with Brownfield's "Ten Thousand Dollar Band," and a host of delegates, they hope to furnish one hundred or a thousand watermelons—the sky is the limit as Terry county will have all that Lubbock will take—and some ten thousand roasting ears.

Mr. Cook is to have charge of cooking the corn, which will be done here on the 28th in order that it will be "hot" when eating time is announced. Some of his friends from Terry county claim that he is recognized in exclusive circles as one of the best hands in all West Texas in the preparation of "corn" and of course his services in this connection will be appreciated by all present.

Lubbock businessmen are elated over the splendid cooperation that is being shown by all our sister cities and counties of the south plains, and it is only this spirit that can win in a proposition as great as that of making all who come to celebrate the location of the Tech. College realize that the south plains and all West Texas is as one huge family of hard working, ambitious people.

#### FLOGGINGS NUMEROUS IN TEXAS, OKLA. AND GA.

DALLAS, Aug. 18.—A new wave of flogging and kidnapping occupied the attention of the authorities of Texas, Oklahoma and Georgia, and martial law has been extended to several towns in Tulsa county, following threats that have been made of floggings throughout the state.

#### CONE JOHNSON VERY ILL AT HIS HOME IN TYLER

TYLER, Texas, Aug. 19.—Cone Johnson, veteran lawyer and statesman of Tyler, is seriously ill at his front street home here. He had just recovered from a serious illness of late winter, when again stricken here late week. Mr. Johnson is 63 year old and was admitted to the bar here in 1883.

#### \$100,000 FIRE LOSS REPORTED IN HUMBLE OIL TANK FIRE AT WEBSTER

HOUSTON, Aug. 18.—The loss in the fire in the Humble Oil Company's tank farm, at Webster, which was brought under control last night, is placed at \$100,000. Over sixty thousand barrels were stored in the tanks destroyed by the fire. The tanks held ninety four thousand barrels, but more than a thousand barrels were saved by pumping the oil from the bottom of the tanks.

#### INVESTIGATION TO CONTINUE IN TRUANCY SCHOOL AFFAIR

CHICAGO, Ill., Aug. 18.—The investigation into the truancy school affair will be continued, Judge McKinley announced following the testimony given at the hearing to secure the release of one of the inmates, in Habeas corpus proceedings. Twelve boys testified and told of the numerous beatings administered, and said immorality was forced upon them.

#### KLANSMAN HOLD FUNERAL SERVICES FOR BOY WHO WAS STABBED

INDIANAPOLIS, Ind., Aug. 18.—While a hundred white robed Knights of the Ku Klux Klan stood in a silent semicircle in front of the home of Robert Watson, nineteen year old stabbing victim, the rector of the Invisible Empire conducted funeral services over the body of the youth and declared that "he died a martyr for our cause."

#### STATE TREASURER PREDICTS DEFICIENCY WILL INCREASE

AUSTIN, Aug. 18.—The prediction was made by the state treasurer today that the deficit in the general revenue fund will reach three and one-half million by the beginning of the next fiscal year.

#### GIRL MYSTERIOUSLY DISAPPEARED FROM AUSTIN SATURDAY

AUSTIN, Aug. 18.—Police are trying to solve the disappearance of Miss Mattie Truehardt, age eighteen, of Holland, Texas, who has been taking a business course here.

#### MEEKER IS APPOINTED STAMFORD FIRE CHIEF

STAMFORD, Tex., Aug. 18.—The vacancy of the position as Fire Chief caused by the resignation of Dick Rowland, has been filled by C. L. Meeker. Mr. Meeker is well known in this section having lived here for quite a number of years and was formerly Fire Chief of the same organization and rendered splendid service.

#### DAVIDSON RELINQUISHED REINS OF OFFICE SATURDAY

AUSTIN, Aug. 18.—For the second time within the month Lieutenant Governor T. W. Davidson relinquished the reins as acting governor.

#### COMPARISON OF JULY COTTON OF YEAR AGO

WASHINGTON, Aug. 18.—The amount of cotton consumed during July exclusive of linters totaled 461,475 bales compared with 458,002 in July of last year according to the report of the census bureau. In the cotton growing states 380,181 as compared with 304,676, in July last year.

#### SPECIAL ADVERTISING—AN EDITORIAL

The Avalanche does not wish to pose as a guardian angel over the business people of Lubbock, and we are not going to undertake to do so, but we do want to make this statement in justice to ourselves and to our customers.

Advertising is being solicited in Lubbock by out-of-town parties, under the assumption that a paper in a nearby town is getting out a Tech special, and many of our people are falling for the stunt, at so much per fall—in many cases more money than these firms spend with the local paper in an entire month.

This is the game: Mr. Soandso comes to town. He goes to the newspaper office and gets the lowest rate on a big amount of advertising, we will say \$30.00 a page. Mr. Soandso then goes to the business men of the town and solicits a writeup, telling the same old story over and over again that about who is who in that line of business and puts six or eight of these Who is Who on a page and charges from fifteen to twenty-five dollars each for them making this page net him about a hundred dollars, and leaves town. The man who forked up the coin is but little better off.

Just why people will continue to fall for such we do not understand, but they do and a like proposition is being put over at Lubbock even at this time.

What we want to say before we close this statement, however, is that the Avalanche has nothing to do with his proposition. It was offered to us, but we turned it down or rather our prices did not suit, and we protected our merchants in that way, but some of you fell for it, anyway, but do not charge this item to advertising account at the end of the year and swear you are spending too much money with the Avalanche.

#### POINCARÉ HAS ENGLISH NOTE READY

PARIS, Aug. 18.—With Poincaré's reply to the British reparations note completed and reported ready for delivery in London this week, a London newspaper printed an article written by Philippe Millet an unusually well informed man regarding the government affairs, declaring that the Franco-British view point, regarding reparations and the occupation of Ruhr "irreconcilable" and that England doubts the legitimacy of the Franco-Belgian occupation of the Ruhr.

#### STREET FIGHTING BY K. K. K. IS FREQUENT IN SHUBBLEVILLE

STUBBLEVILLE, Ohio, Aug. 18.—This city has been the scene of bitter street fighting between citizens' mobs and klansmen during the past week. However quiet has been practically restored by the mayor's order to prohibit any kind of gatherings. Several klans meetings were reported across the river from this city in West Virginia, but they were marked by no outbreaks. The Klansmen Building across on the hill just outside of the city fled in automobiles when a crowd of several hundred persons rushed up the hillside toward them.

#### BROTHERS TAKEN FROM JAIL AT PORT ARTHUR—BEATEN BY MOB

PORT ARTHUR, Aug. 18.—Clay Dunn and brother C. H. Dunn, returned to their homes this morning after having been badly beaten. They were seized by a mob and emerged from the jail last night where they had been confined pending investigation in connection with the murder of detective Harris, of this city.

#### DEPUTIES ADDED TO PORT ARTHUR FORCE

PORT ARTHUR, Aug. 18.—Simultaneously with the announcement that rangers had been ordered to this place, authorities say that five extra deputies have been sworn in to help run down the kidnapers. Seven other men have been arrested in connection with the killing of detective Harris, and were released on bond, or voluntarily left town last night when it was apparent that trouble might be expected. The arrest of the men made in connection with this report, that an organized effort is on foot to "get" Port Arthur policemen, according to what the officers have learned from these men.

#### BRO. OF COL. E. M. HOUSE DIED AT HOUSTON TODAY

HOUSTON, August 15.—T. W. House, age seventy-seven, brother of Col. E. M. House, who was a close advisor of President Wilson, died today following several months illness. He was postmaster here during the Wilson administration.

#### CITY OF LUBBOCK WILL INSTALL NEW PUMP MONDAY; 200 H. P. MOTOR WILL BE ADDED TO PLANT EQUIPMENT

KANSAS CITY, Aug. 18.—Three men were injured when the refining still at the Ranger Refining and Pipe Line Plant Company, exploded shooting flames a hundred feet high. This fire is the second within the past month. The loss will probably only reach about five thousand dollars this time. The gas was being drained when the explosion occurred and it is believed that a spark from the furnace of a locomotive is responsible for the fire.

#### THREE MEN INJURED IN EXPLOSION IN KANSAS

Martin S. Ruby, city manager of Lubbock, returned to his home here Saturday from Dallas where he went to purchase parts for a new pump which has just been received. The parts needed were lost in shipment and in order to save time, Mr. Ruby went to manufacturers at Dallas and had them replaced.

#### BAND TAX LAW WILL BE ASKED NEXT YEAR

FORT WORTH, Aug. 18.—Appointment of J. C. Collum of Jayton, C. O. Yarbrough of Weatherford and G. Ward Moody of Lamesa as a committee of three to present the proposed "band tax law" advocated by the Texas Band Teachers association for legislative action, was the feature of the day's activities of a special business session held by the organization here today.

#### GOVERNMENT CHARGE FRAUD AGAINST O'MALLEY CO.

WASHINGTON, Aug. 16.—The Postoffice Department has issued a fraud order barring the mails to O'Malley Oil Promoters, of Dallas, Texas. The Government charges that false and fraudulent representations had been made in the sale of stock, and that O'Malley specialized in selling stock to Catholic priests.

#### RAISING QUEEN BEES BRINGS A CALIF. TEXAS MAN AN ANNUAL REVENUE OF MORE THAN \$50,000

Raising queen bees brings a California, Texas man an annual revenue of more than \$50,000, most of which is clear profit. Breeding queen bees is done partly by artificial means. He figures on obtaining about 100 queens from every hive of 2,000 to 3,000 working bees, instead of only one queen. Queen bees bring from \$1 to \$2.75 each.

### MINERS OPERATORS STANDING AT DEADLOCK

NEW YORK, Aug. 18.—The Anthracite and operator have determined to stand squarely on the present policies when the conference is resumed here Monday, in the Atlantic city neither side are prepared to evacuate their position. This means that negotiations will start again when they meet Monday and will be exactly where they were when the deadlock came in the conference this week.

The miners seem to look upon it that the life of their organization relies upon the recognition of the check off system, and the operators are determined it shall not be enforced and base their plea on grounds of it being illegal.

The Coal Commission has threatened to make public the condition which would not sway the public opinion to either side, and threw fear into the operators and miners, by threatening to publish the reported dissatisfaction with conduct on both side.

#### Government Will Act

WASHINGTON, Aug. 19.—The federal government is prepared to take any steps to prevent a shutdown of the hard coal mines.

A virtual ultimatum to that effect was announced to Chairman John Hays Hammond, of the United States Coal Commission, following a conference with President Coolidge.

The President was given a complete report of the New York conference which resulted in the operators and miners agreeing to resume negotiations Monday.

"If they fail to agree the Government is ready for the emergency and will take other steps," Hammond said.

#### PORT ARTHUR, WICHITA FALLS AND AMARILLO ARE NOW QUIET

AUSTIN, Aug. 18.—The situation at Port Arthur, Wichita Falls and Amarillo are quiet according to information received at the Governor's office following the recent floggings and sending of rangers to Port Arthur and Amarillo.

Police at Port Arthur said that no further assistance is needed to keep order. Meantime investigations are under way.

WEATHER	
N. Carolina, Sunday, no change in temperature.	S. Carolina, Sunday, fair.
Georgia, Alabama, Extreme Northwest Florida, partly cloudy in north local thunder showers in south portion, Sunday no change in temperature.	Florida, generally fair Sunday.
Louisiana, Sunday partly cloudy probably scattered thunder showers in east portion cooler in north portion light to moderate south to northwest winds on the coast.	Arkansas Sunday fair warmer in northwest portion.
Oklahoma Sunday fair somewhat warmer.	East Texas Sunday generally fair cooler in northeast portion.
West Texas Sunday generally fair unsettled in extreme west portion warmer in north portion.	

# UNITED STATES COAL COMMISSION NOTIFIES MINERS AND OPERATORS TO CONTINUE TO PRODUCE COAL

By the United Press  
**NEW YORK, Aug. 17.**—A formal notice has been served on anthracite miners and operators by the United States Coal Commission that they must get together and advise the Commission by eight o'clock tonight, just exactly what specific points they are unable to agree upon.

Plans are made for a joint session of miners and operators and were told by the commission to decide whether they reach an agreement on the new contract in the anthracite fields. Whether in the event they cannot agree they can get together on some plan whereby a continuance of the mining of coal may be continued. In case no agreement can be reached a third party will be brought in to try to affect

an agreement of some sort. Everything is going to be done by the United States Coal Commission to keep the mines running, stated one of the members of the commission today.

## DISCOVERY OF OIL AT RANKIN BRINGS ON A BIG TOWN BOOM

**RANKIN, Texas, Aug. 17.**—After lying practically dormant for several years, Rankin is at last awakening to the possibilities of its future, and the citizens recently formed themselves into a Chamber of Commerce, employed a secretary, and are preparing for growth and development.

This change in its future outlook

was brought about recently by the discovery of oil by the Texon Oil Company in their Santa Rita Well, 15 miles east of the city. During the past few days things have been undergoing a change. Unlike other oil centers, business did not fluctuate and the town sprang into a thriving metropolis over night. To the reverse, the change for the better is coming about methodically and gradually, but coming just the same. Business men are going about their affairs quietly, building has begun, quietly and steadily. There is no intense excitement, no spurt of activity scheduled to disconcert, only an undercurrent of interest sufficient to add incentive to business and bring about a number of material and determined improvements.

## MOTHER AND DAUGHTER LEAP TO DEATH THIS MORNING

**NEW YORK, Aug. 17.**—Hand in hand, Mrs. Anna Stearns, sixty and daughter Florence, thirty plunged to death from a sixth story window today.

# More Ships in the World Now than Before the Great War

**LONDON, Aug. 17.** (United Press)—A marked increase in the world's total tonnage since June, 1914, is revealed by the latest edition of "Lloyd's Register," which shows how the world has made up for the ravages of war.

The total tonnage of sea-going iron and steel steamers and motor vessels owned by the principal maritime countries of the world in June, 1923, was 57,939,000 tons compared with 42,504,000 tons in June 1914.

The largest contributor to this increase as the United States, with 10,579,000 tons; white Japan, 1,768,000; Italy, 1,330,000; France, 1,347,000 and Holland, 1,135,000 are next in order. Great Britain's share of the increase is almost negligible for a country with such

a shipbuilding record, amounting to but 200,000 gross.

**England Falling Off**  
 The percentage of world shipping owned by Great Britain has fallen from 44.2 per cent in 1914 to 33 per cent while the United States, in pre-war days, almost a negligible factor, has jumped into second place with 21.4 per cent of the world's total of 12,416,000 tons.

Despite prevailing economic conditions in Germany, that country has made remarkable strides since 1920. Germany's pre-war maritime fleet had a tonnage of 5,459,296 tons, but this has fallen to 672,671 tons in 1920. Today, however, the figure is given as 2,590,073, tons, indicative of the tremendous effort put forth by Germany to regain lost maritime prestige.

Among the interesting mass of information listed by Lloyd's the gradual supersession of coal by oil fuel is indicated. In 1914-88.84 per cent of the world's shipping relied exclusively on coal but in 1923 the figure had dropped to 68.87 per cent. Oil fuel for boilers in the same period rose from 2.65 to 24.23 per cent, while oil, ets, for

internal combustion engines rose from 0.45 to 2.56 per cent. Ships relying on sail-power only now muster but 4.34 per cent of the world's shipping, compared with 8.06 in 1914.

Great Britain still occupies pride of place for ship construction, more than half the tonnage now building in the yards of the world being in British hands. America and Germany naturally have the most new tonnage, the United States figure being 57.3 and Germany's 52.6. It is noteworthy that of the world's shipping, only 12 per cent consists of vessels 25 year old—which may be considered almost ready for the shipbreaker—whereas 35 per cent of existing tonnage is less than five years old.

**AMARILLO TO VOTE ON TAX INCREASE FOR WATER**  
 AMARILLO, Aug. 19.—The City Commission published Wednesday an ordinance authorizing the Mayor to call for a popular election to be held Nov. 3 to amend the city charter to make possible an increase of the city tax rate from \$1.30 to \$1.90 on each \$100 valuation, to provide for the expense of installing a water system, as heretofore outlined by the commission and the water board.

Mayor H. B. Jones explained that such limit of taxation may never be needed, but the power to levy the higher rate is desired for safety.

Under the present charter \$1.30 is all that can be levied.

**GOVERNMENT'S RUM POLICY IS UNCHANGED**  
 WASHINGTON, Aug. 19.—The general policy of the Government against seizing rum runners outside the three-mile limit will not be changed as a result of the decision of Federal Judge Woodruff at Brooklyn Tuesday, it was indicated Wednesday at the Treasury.

# GLORIA SWANSON in

A breezy American girl winning love and happiness amid hot Spanish passions and intrigue—that's Gloria Swanson in this silken romance. Never was the star so wonderfully gowned, so warmly alluring.

"My American Wife"

PRESENTED BY JESSE L. LASKY  
 A Paramount Picture

## R AND R LINDSEY

The Foremost Theatre of West Texas

South of Panama—warm seas, warm passions, warm-lipped senioritas—and "MY AMERICAN WIFE."  
 The tinsel world of high society and the revels of the underworld; the sporty tang of the race tracks and the tense excitement of a duel at dawn.  
 Imagine Gloria's exotic beauty in a warm Spanish setting! Imagine dashing Antonio Moreno as her hot-blooded lover. Imagine the love scenes, the dazzling gowns, the glorious thrill of lovers facing a hostile world together. Surely it would be terrible if you miss "MY AMERICAN WIFE."

—also—  
 AL ST. JOHN IN

# British Business Turns Away From Europe to Seek Other Markets; the Change in Affairs May Effect Cabinet

NEW YORK, Aug. 18 (United Press).—Premier Stanley Baldwin, of Great Britain, is facing a revolt within the conservative party against his European policy.

A complete change in the British attitude toward France and Germany is in the making, and the new Prime Minister will have to accept the altered viewpoint of Britain's financiers and international traders or he will be forced to resign.

The dangers of political entanglements on the continent of Europe are now being regarded by "Big Business" in Great Britain as too costly a price to pay for commercial progress in that area. Premier Baldwin is being warned that Great Britain wants him to arrange his policy so that if a new war breaks out between Germany and France the British Empire will not be involved. The Franco-Prussian war was fought with Great Britain a neutral. A new war can be waged under similar conditions if the Germans let Belgium alone and do not approach the Channel ports, there by leaving Great Britain unmolested.

**Keep England Out**

If Germany were to agree to these conditions, the Germans would be given a free hand in a war of revenge, according to the conditions being laid down by British financiers and merchants. The American policy of avoiding entanglements abroad is appealing to the British, as suitable to their own present needs.

Instead of pushing into continental entanglements for the purpose of gaining foreign trade, the British are now seeing their commercial future in other parts of the world. The British colonies, the Far East and South America have been examined by London's experts and have been found to possess better possibilities for commercial expansion than the European continent.

Premier Baldwin has not yet got this point of view. He is an obstinate politician and has always paid attention to precedent and inherited policies. Great Britain's natural line of industrial development for generations has been to maintain a certain balance of power in Europe and to concentrate her efforts upon making customers for herself among the Europeans. In conformity with this commercial incentive the British have been involved in numerous European wars. The war have been made to pay many times over in improving commercial intercourse through the new prestige added to the British Empire.

**World War Too Costly**

But the World War went too long for commercial advantages to be

reaped within the borders of Europe for an indefinite time to come. Great Britain has won additional security through Germany's downfall, but at a large expense in overturned commercial markets.

Nevertheless, the full force of precedent still dominates the official policy of the British government. The search for new markets amid the ruins of war has always been an important part of British constructive statesmanship. The search since the Versailles peace conference however, has been with little success.

While the politicians persist in the time-honored custom, the British financiers and business men, who always have to work the markets once they are recovered, have concluded that new ground must be broken. So the Baldwin ministry is being urged to cease its fruitless discussions with France and Germany and turn to other parts of the world.

Already the cry has met with some success, as the construction of the new naval base at Singapore shows. But it will have to be heard in whole if a ministerial breakup is to be avoided by the Baldwinites.

## FLOYD COUNTY JOINS PANHANDLE INSTITUTE

CANYON, Texas, Aug. 19.—R. P. Jarrett, of the Education Department of the West Texas State Teachers College, who is to be director of the Panhandle-Plains Counties Institute which meets in Canyon September third to seventh, stated today that Floyd County had decided to come into this Institute. There are a total of twenty-two counties represented in this meeting and the attendance is expected to be more than eight hundred. This will be one of the largest Institutes in the State.

## LOW PRICE ACCOMODATIONS ARE ASSURED TEACHERS

CANYON, Aug. 19.—The Commercial League of Randall County, working with the West Texas Teachers' college of this place is endeavoring to assure the eight hundred or more teachers who will be in the city from September third to seventh attending the Panhandle-Plains Counties Institute the best accommodations at a minimum price. These teachers come from twenty-two counties of the Panhandle of Texas. The Commercial League supports the Institute each year by furnishing it a generous sum of money which is used to bring better talent before the teachers.

## FRENCH IN RUHR CAUSE BOOST OF WINE PRICES

BERLIN, August 18. (United News).—The French occupation of the Ruhr is boosting the price of Rhine wine. While German owners of Rhineland vineyards have no objection to this, it is causing distress in Berlin's cabarets.

German in the Rhine occupied area refuse to pay the export duties the French demand, and hence the wine remains in the owner's cellars. Day by day it grows more mellow, and while Germany thirsts the owners are contentedly waiting the day when restrictions will be lifted and they can ask vastly higher mark charges than would be possible at present.

The prices of wine are kiting everywhere. A bottle of Rhine wine of the vintage of '21—the best wine year in a generation—now commands in first class restaurants a price that would compare favorably with American charges before prohibition.

Meanwhile occupied Germany is busily producing "ersatz" or substitute liquor, weird chemical compounds that make a bottle of bootleg stuff seem pure gold.

## SONORA CITIZENS PROTEST TARIFF REDUCTION RATES

SONORA, Texas, Aug. 17.—A copy of a petition sent to the United States Tariff Commission at Washington, has just been received by the West Texas Chamber of Commerce, which was signed by more than 40 business men and cattle raisers of Sonora in which they are protesting vigorously against the proposed reduction of tariff on the importation of cattle to the United States.

Should the tariff reduction asked by certain interests of the North and Eastern states be granted it would practically destroy the beef cattle industry of the Southwest.

Also a letter from W. L. Adwell, president of the First National Bank of Sonora in which he heartily approves the attitude of the West Texas Chamber of Commerce on their stand against the reduction of the present tariff.

## MARVIN JONES REPRESENTS FARMERS IN BOLLWORM INVESTIGATION

BROWNFIELD, Tex., Aug. 18.—W. R. Hunter of the United States Department of Agriculture, in charge of the Federal Pink Boll Worm quarantine in the Southwest, has indicated to the Brownfield Chamber of Commerce that he will recommend sending a special representative to the Plains Region of East New Mexico this fall for the purpose of ascertaining whether or not the quarantine may be removed in certain given districts of the Plains region of East New Mexico.

Several months ago efforts were made by the Terry and Plains counties Chambers of Commerce to induce the government to release this quarantine, on the grounds that there had never been any infected cotton on the plains region. East New Mexico proper, and for that matter only a small infected area of the Pecos Valley region, and the matter was placed before the West Texas Chamber of Commerce, who were asked to make proper representations to Washington in order to protect the movement of the cotton between New Mexico plains regions and Texas points. Congressman Marvin Jones of Amarillo on behalf of the West Texas Chamber of Commerce made the proper representations at Washington.

## TEXAS WHEAT GROWERS APPROVE WEST TEXAS C. OF C.

AMARILLO, Texas, Aug. 18.—The Executive Board of the Texas Wheat Growers Association has passed resolutions endorsing the actions of the West Texas Chamber of Commerce in its work for the improvement of agriculture and farm conditions in West Texas, and especially for their action in securing reductions in grain rates between West Texas points and Southeast centers, by which the discrimination heretofore applying against West Texas and in favor of Oklahoma, Kansas, Nebraska in the shipment of grains to the Southeast has been obliterated and a parity established by which West Texas can henceforth compete on an equitable basis so far as freight rates are concerned.

## WANTED WAGON AND TEAM JAILED WITH HIM

DALLAS, Texas, Aug. 18.—Ranger Captain R. D. Shumate was puzzled when he arrested a farmer here from drunkenness and the farmer demanded that his team and wagon be placed in jail with him. The man was arrested when he stopped in front of a parked automobile and demanded loudly that the occupants of the car "drive on."

"Cap, I can't leave this team," he pleaded with Shumate. "Would you go off and leave your team like this?"

When he was promised that his horses would also be arrested, the inebriated one readily consented to go to jail.

## DENTON COUPLE NEARLY DROWNED IN CLEAR CREEK

DENTON, Texas, August 18.—Miss Bessie Alexander and Rudolph Bedrick, 18 narrowly escaped death by drowning when Miss Alexander jumped into Clear Creek after Rudolph had waded into warm water over his head.

Unable to swim, the girl cried for help and was rescued by the boy's father who then saved his son.

## MANY VISIT THE TOMB OF LANDRU, THE FRENCH "BLUE BEARD"

PARIS, Aug. 18. (United News).—The grave of Landru, the French "blue-beard", in the potters' field near Versailles, bids fair to outdo the splendid tomb of Napoleon as a place of pilgrimage for Americans.

Morbid curiosity has led hundreds of tourists to visit the last resting place of the man who was executed after at least twelve of his fiancée's disappeared, the supposition being that he burned their bodies in a furnace. Some have placed wreaths and potted plants on his grave.

Landru was convicted despite the fact that none of his fiancées was found dead or alive.

The prediction made by Landru's attorney, after his client was sentenced to death, that some of Landru's sweethearts would put in an appearance some day; causing the judge and jury to be haunted by the executed man, has never materialized.

The whereabouts of the women remains as much a mystery today as ever.

All men are born helpless, but some help less than others.

Friday. 1921 Bridge Club will meet with Mrs. C. L. Quillen at eight thirty o'clock.

Aluminum Demonstration Will Be Held.

Monday afternoon at the home of Mrs. H. O. Waters, 1621 Broadway an Aluminum demonstration take place of the regular meeting of Circle Number one of the Ladies Auxiliary.

Mr. Duke will conduct the demonstration and a small admission fee of twenty-five cents each will be charged and the proceeds will go the Auxiliary circle. The demonstration will consist of cooking a roast with apples and onions without water, cooking griddle cakes without grease, cooking a cake on top of the stove and numerous other methods of cooking with Wear Ever Aluminum.

Auxiliary Of The First Presbyterian Church Meets.

The circles of the Ladies' Auxiliary of the First Presbyterian church met Monday afternoon in a social meeting at the home of Mrs. Frank A. White, 1619 Main street with Circle Number one entertaining.

About thirty members were present and a very interesting program was rendered. The subject, "Medical Missions" was led by Mrs. J. M. Lewis and the main topic of discussion was the collection of articles for the loan closet.

The president, Mrs. J. F. Bacon has called a meeting of the Auxiliary for Monday afternoon at four o'clock. Business of importance will be transacted and a good attendance is expected.

Misses Pansy and Evelyn Posey Entertain.

One of the most enjoyed occasions of the week was that of the party given Thursday evening at the home of Mr. and Mrs. W. S. Posey, 1218 Ninth street with Misses Pansy and Evelyn Posey entertaining.

A wealth of pink roses were artistically used in the decoration. At bridge high score for ladies was made by Miss Ruth Slaton and high score for men was made by Louis Hunter.

A lovely salad course consisting of frozen salad, meat, sandwiches, iced tea, potato chips and olives was served.

Fruit punch was served throughout the evening to the following: Mrs. E. O. Nichols of Plainview, Misses, Lula Mae Cravens, Ruth Slaton, Mary Alice Johnson, Vernon Brown, Sue and Ruby Cook, Margaret Robbins, Virginia Conley Elma Pierce, Ena Everton, Eunice Smith, Ruth Bradley of Post, Mary Dickinson, Blanche Bacon, Francis Conley, Julia Johnson and the hostesses; Messrs: Dr. Harry Bloom, Herbert Lowery, Bob Johnson, Louis Hunter, Bushey Reed, Bud Roberts, Kenneth Kimbro, Ross McWhorter, Spencer Wells, Dr. Birdsong, Hes. Montgomery, Eric Posey and Joe Flaig.

Mrs. Sam F. Cooper Entertains At Bridge And Forty-Two.

Mrs. Sam F. Cooper was a charming hostess at her home, 1602 Avenue O, with a party Friday afternoon. A profusion of Golden Glow furnished motif for the lovely decoration. The centerpiece for the dining table was an enormous bowl of the featured flower, blending with the many filled vases arranged in the entertaining suite. The guests were favored with vocal

instrumental selections by Miss Eva Everton. At bridge Mrs. J. T. Hutchinson was awarded a pretty vanity for high score honor and Mrs. O. L. Peterman was presented with a powder puff for low score prize.

At forty-two Mrs. John Lemond was presented with a potted fern for high score honor and a powder puff was awarded Mrs. T. V. McKinney for low score prize. Led punch was served through out the games and at the close of which angel food cake and banana nut cream were the delicious refreshments served.

Those playing bridge were: Messdames, J. O. Smith, M. J. Smith, W. O. Stevens, Clark M. Smith, M. L. Price, Sam Denman, O. L. Slaton, C. L. Quillen, B. C. Dickinson, Frank Winn, Gib Jackson, O. E. Sears, Guy McAfee, A. B. Conley Jr., W. B. Powell, Joe Hilton, J. T. Hutchinson, W. H. Meador, Thad Thomas, Herd Jones, Curtis A. Keen, Norwood, E. R. Friend, O. L. Peterman, Misses Della Wilkinson, Vernon Brown, Ena Everton and Ruth Slaton. Those playing forty-two were: Messdames, R. Q. Pierce, Fred Spikes, R. D. Benson, John LeMond, Temple Ellis, T. V. McKinney, Charles Middleton and the hostess.

Baptist Ladies Auxiliary Meets.

The four circles of the Baptist Ladies Auxiliary entertained with a social Monday afternoon, Aug. 13th, from four to six o'clock at the beautiful home of Mrs. R. A. Barclay on Broadway.

The rooms were attractively decorated with garden flowers. After the scripture reading by Mrs. W. A. Bowen, followed a very interesting program consisted of vocal, instrumental solos, readings and talks.

The beautiful violin duet by Misses Lula Denham and Blanche Fann, accompanied by Mrs. Frank Barclay was highly enjoyed, also the reading by Miss Naomi Hawkins.

The guests for the afternoon were: Messdames, Robert Jennings, H. H. Griffith, Curtis A. Keen, Guy McAfee, Claud Hurlbut, M. B. Hillburn, J. T. Hutchinson, W. D. Green, Elmer Conley, Paul Morgan, J. V. Spikes, Ernest Conley, B. C. Dickinson, O. L. Peterman, Howard Wheelock and the honoree, Mrs. Louis Steves of Post City.

Several earnest prayers were offered in behalf of the home. A short business session was held and fifty dollars was pledged to the scholar ship fund.

At the close dainty refreshments of sandwiches and ice tea were served to the following members and visitors: J. E. Alexander, I. J. Osborne, J. K. Miller, A. L. Hawkins, John Pigman, W. A. Stahl, W. E. Twitty, E. L. Law, G. A. Gunn, J. W. Jennings, A. W. Jackson, F. G. Sadler, S. M. Flournoy, J. L. Ratcliff, Fann, A. L. Harris, E. K. Mitchell, B. F. Dixon, J. M. Denham, Carl Roberts, W. C. Bryan, W. S. McElroy, T. J. Moore, W. A. Bowen, Archie Hall, H. O. Waters, R. W. Heim, Joseph Jennings, Frank Barclay and Misses Lula Denham, Blanche Fann, Naomi Hawkins, Gladys Hall and Charlotte Hopkins. REPORTER

Mr. and Mrs. Earhart Surprised.

Friday evening, Mr. and Mrs. E. P. Earhart, Sr., were surprised when on returning from a visit to the farm of Judge Bean, they found assembled at their home, 1016 Ave. O, their relatives, who live in and near Lubbock, whose desire it was to celebrate the fiftieth wedding anniversary of this worthy couple. A bounteous luncheon, served buffet style, was laid in the dining room. Victrola music, conversation, and reminiscences of other days occupied the time till the hour of departure. Those in attendance, were: The guests of honor, Mr. and Mrs.

E. P. Earhart, Sr., Mr. and Mrs. J. B. Earhart, Mr. and Mrs. E. W. Earhart, Jr., Mr. and Mrs. F. W. Groce Mr. and Mrs. Chester Wright and family of Shallowater, Judge and Mrs. Geo. R. Bean and daughters, Misses Blanche, Alice and Sallie, and son Russell, Mr. and Mrs. R. A. Sowder and daughter, Kathryn.

Teachers of Baptist Sunday School Entertain.

The teachers of the First Baptist Primary Sunday School entertained the pupils and, others with a picnic Friday afternoon at Tumble N pool. Fifty-four children were present and the mothers and visitors present were: Messdames, L. G. Shaw, T. G. Waldrip, Ed Hutson, J. W. Neaves, J. W. Robinson, F. L. Mathis, J. L. Ratliff, E. L. Klett, J. C. McCasland, L. W. Pittman, H. P. McRae, W. L. Brown, R. L. Pendergrass, A. L. Harris, Miss Couch and Miss Blanche Fann.

Honoring Mrs. Louis Stevens of Post City.

Mrs. W. O. Stevens paid compliment to her daughter, Mrs. Louis Stevens of Post City Thursday afternoon, when she entertained the younger set with a delightful afternoon of bridge.

Marigold and gold clusters of garden flowers added a touch of charm to the beautiful home on Avenida O.

During bridge delicious punch was served and cake and cream was served at five thirty.

Miss Ena Everton graciously presided at the piano with several popular numbers. Cut flowers favored, with dainty vanities going to several ladies.

Mrs. Louis Stevens and her charming baby daughter have been guests for several days of Mrs. Stevens, and the young folks who have met Mrs. Stevens, Jr. wish that her visit might be longer.

The guests for the afternoon were: Messdames, Robert Jennings, H. H. Griffith, Curtis A. Keen, Guy McAfee, Claud Hurlbut, M. B. Hillburn, J. T. Hutchinson, W. D. Green, Elmer Conley, Paul Morgan, J. V. Spikes, Ernest Conley, B. C. Dickinson, O. L. Peterman, Howard Wheelock and the honoree, Mrs. Louis Steves of Post City.

Personals

Mr. and Mrs. J. O. Jones, accompanied by Mrs. Jones' sisters, Messdames, J. A. Raley of Wichita Falls and J. A. Winton will leave Monday to attend a family reunion at the home of their parents, Mr. and Mrs. H. G. Bedford, who live near Midland. The elderly people have passed their eightieth birth days.

Mr. and Mrs. Sam F. Cooper will leave Thursday for Lamesa, where they will make their future home. Mr. Cooper will be engaged in the furniture and hardware business in that city.

Mrs. V. A. Fann, has gone to Eastern markets to buy millinery and ladies' ready-to-wear stock for Hodges Brothers store. Mrs. Fann is experienced in this line and will have complete charge of these departments upon her return.

Mrs. John Dalrymple and daughter, Irma, accompanied by Miss Ida Bell Hudson and Ernest Hudson, returned Friday from a camping trip on the Palo Duro Canyon. They were joined at Canyon by Mr. Dalrymple, Miss Ida Bell Hudson and Ernest Hudson of Temple, are guests in the home of Mr. and Mrs. John Dalrymple.

Mr. and Mrs. John Ely, were here Friday from their ranch near Emsy, N. M.

RED CROSS ITEMS

Nutrition classes conducted under the auspices of the Grady County Chapter of the Red Cross in Chickasha, Oklahoma, and vicinity, have been closed for the year, having accomplished gratifying results.

The main classes were in the North Ward School in Chickasha and in the Pocasset School, 14 children in the former and 54 in the latter schools were badly underweight. These children were examined by volunteer physicians and county superintendents of education in each place co-operated closely in the examining weighing and measuring as well as in the subsequent nutrition instruction which was given by Mrs. Coryell, the County Home Demonstration Agent, assisting the Red Cross Chapter officials.

1,260 children were reached in this work. Hot lunches were put in 17 schools. The Public Health committee provided the funds for sugar and cocoa and the pupils furnished their own milk for the serving of hot cocoa and milk, and the children who brought their own lunches, ate their food instead of throwing it away as they formerly had done.

A decided improvement in the discipline as well as in the health of the children was noted and the percentage of underweight was greatly reduced in the course of the year. One father was so much pleased with the improvement in his child that he said at the close of the class, "If Mrs. Coryell had done nothing more than the improvement she has brought about to my little girl, she has earned all this county has to pay her."

This nutrition work was started about four years ago after Mrs. Coryell had attended a Nutrition Institute at Oklahoma City, which was conducted by the Red Cross and the State Extension Service. A baseball club has been organized in the Oklahoma Chapter, American Red Cross, at Oklahoma City. The team is under the direction of Jess Whitehead, supervisor of boys' work at the Community Center at Oklahoma City, and thus far it has the record of no defeats. The club is known as the Red Cross nine and always plays under that title.

The American Red Cross has taken action in two grave disasters overseas, the eruption of Mount Etna in Sicily and the terrific earthquake in Persia.

Through the State Department, the Red Cross cable Ambassador, Richard Washburn Child, at Rome, expressing its profound sympathy to the Italian people in their great calamity and inquiring whether the American Red Cross can be of any assistance in relieving the distress of the people affected. Should this offer be accepted, the American Red Cross stands ready to act.

For the immediate relief of the earthquake sufferers in Persia, the Red Cross is sending, through the State Department, an appropriation of \$5,000. Reports state this to be one of the most disastrous earthquakes experienced in recent years. More than 2,700 people have been killed outright, thousands more injured, 39 towns completely destroyed and many villages partly razed.

The damage is estimated at \$10,000,000.

The Red Cross donation will be received by Dr. Kornfield, of Columbus, Ohio, the American Minister at Teheran, for use where most needed. W. Edward Ryan, an experienced disaster relief worker, formerly with the American Red Cross in snow in charge of reorganizing the public utilities at Teheran. It is possible the Persian government may make use of his services in connection with the relief operation.

Freda Burkhardt and Dora Mae Beicher of Center Grove School, Carroll County, Missouri, won first prizes in a health poster contest conducted jointly by the Red Cross, American Legion and the Carrollton Chamber of Commerce. The second prize was won by Lois Burkhardt of the Center Grove School and the third prize, by Frenchen Edwards of Rolling Green School.

Several of our latest books were not late enough.

When we all wear uniforms. Paris has been discussing the old question of whether simplicity and economy in living and dressing, or spending according to one's financial ability, is best for a nation's business. M. Dior, Minister of Commerce, advises French women to wear more complicated rows, more trimmings on the hats, and in general to exhibit what Thorstein would call "reputable wastefulness."

The cry that the luxury trades will suffer when people practice thrift is, of course, an old one. Our own business structure is built on a basis of more wastefulness than is perhaps generally recognized. If one waits until his winter suit is worn out before buying a new one, employees of the clothing factory built to supply men with new suits at every season, or with every new fashion.

BLOW HOT, BLOW COLD.

By Ethel G. Peterson

Last evening I saw a six-year-old rush down the walk, to throw both arms about his mother, who was returning from a shopping trip; his face was aglow, his eyes shining with joy. Then I was dismayed to hear the mother say pettishly, as she pushed him aside, "For goodness sake, leave me alone. Can't you see that I'm tired, and have my arms full?"

No, a six-year-old doesn't often notice such things unless his attention is called to them. I watched his bright face change, his lips quivering, and his eyes filling with tears. I could scarcely keep from picking him up and comforting him.

Now, as it happened, a few days before I had watched the same young mother romping on the lawn with her boy and girl, and had seen her end the game by gathering them both into her arms with almost passionate affection.

I know she really loves her children, but she is a "blow hot, blow cold" mother, who when tired or nervous treats her children with like dislike; then perhaps the next day she bestows extravagant caresses upon them. Poor children they never know what they are going to receive at the hands of their mother. Yet, she would emphatically resent any imputation of unfairness in her conduct toward them!

I heard another mother of this same general type scolding her little daughter one day unsparringly for what—a tear in her glove! I wondered at her harshness, myself, and was amused when the child looked up at her, and asked respectfully, "Mama, what would you have left to say if I stole something?" I wondered too.

A week later the same child disobeyed a strict order of her mother's and came tremblingly to tell me about it. I advised her to go to her mother at once, and have it over with. She finally promised to, though she said, "I know mama will whip me, for she said she would."

A few days later I had an opportunity to question her as to the outcome. She laughed, and said, "Oh, mama was busy sewing, and she just said 'Well, you've been very naughty, and I'll certainly punish you if you do it again!'"

That is the mother who at one time pounces upon a child and punishes her for some mere trifle, and at another time overlooks a much more serious fault for which the child herself expects to be punished.

Are you a "blow hot, blow cold" mother whose children never know what to expect or are you by your own poise, fairness, and self-control cultivating the same desirable qualities in them?

FLOWERS AND CLOTHES

By HEDDA HOYT.

NEW YORK, N. Y., July 26.—Not long ago an exotic, little Broadway actress told me that her favorite flower was the wallflower. I had forgotten that such a flower existed except as a fictional expression where an unattractive girl is referred to as a "wallflower."

"And why the wallflower?" I asked her.

"There is no other flower with its coloring—it's lovely shading from golden brown to a deep russet and dull orange. It is not a conspicuous flower. In fact, few people know it yet anyone familiar with its grandmother's garden will recall it standing serenely on its straight stock—overpowered by brilliant hued, hollyhocks, marigolds and berries, but dignified, in its inconspicuousness. It's odor is like no other flower—sweet without being sickening. Inconspicuous beauty always attracts me more than conspicuous beauty. A conspicuously beautiful woman is always conscious of the Stevens; a beautiful girl is being admired and that spoils her.

Dressing Without Clash. "I feel the same way about clothes. The best dressed women are not conspicuously gowned but wear wonderfully made garments of subdued coloring. One might not notice them in a crowd but they can stand close inspection. Their shoes, gown, hat, make-up gloves, and accessories all coincide with another. There is no clashing of color. They wear no reeking perfumes, no fadish jewelry. Like the wallflower they stand out amid a galaxy of colors because of their inconspicuousness."

"But you do not follow the wallflower rule for dressing?" I suggested.

"Ah no!" she smiled, "I am not

really beautiful. Only the truly beautiful woman needs no color background. Her own beauty becomes less apparent when surrounded by fadish styles or colors. Clothes, for her should be merely a background—a dull-finished frame for a beautiful picture.

"Mrs. Lydgy Hoyt, or Julia Hoyt, as she is known upon the stage, is a perfect type of the beauty I describe. Her clothes are always of subdued cut and coloring. Her tall, slender figure, her dark eyes and hair, and her classical features are always more attractive when she wears black than if she wore a brilliant color. In fact, she seldom wears anything but black or black and white combinations. Her shoes are never fadish. Her hats are usually simple untrimmed shapes that form a perfect outline for her lovely face. I always describe the beauty of Julia Hoyt—never the clothes of Julia Hoyt—thought she is always extremely well dressed.

Depend On Clothes. "Many actresses like myself are referred to as 'beauties' when we are not beautiful at all. It is because we are not beautiful that we have to depend upon clothes to make us appear beautiful. I have in mind a certain well known dancer who is renowned for her beauty—all America bobbed their locks because of her and yet if one were to see her at a bathing beach one would be completely disillusioned. It takes conspicuous clothes to make her beautiful.

"But she still insists that the real beauty is more attractive when in inconspicuous clothing. Her face and form should outshine her garments. Like a perfect diamond she is more beautiful in a simple setting than when surrounded by an over-powering setting."

Consider The Beach Lily!

By the United Press. NEW YORK, Aug. 11.—Consider the lily of the beach. She toils not—neither does she swim.

At every beach we find them—these lilies of the beach! Their complexions are as white as the foam of the sea. Lo! They parch not and peel not, but wax fat on the sands under enormous umbrellas. Be the sun's rays too bright, they are goggled in amber lenses. What sun penetrates thru their sunglasses hits not flesh, but layers of powder.

H. R. Phillips and family, of Roman passed through Lubbock this morning on an automobile trip thru this section.

J. R. Dyche, of Amarillo, is here today-looking after business.

L. A. White, of Cisco, is among the prospectors to Lubbock.

Henry Seala, of Eastland, transacted business here Thursday.

Mrs. J. F. Barnes arrived in Lubbock this morning from her home at Waco.

Dr. J. M. Bailey and brother, Jim O. Bailey, of Memphis, Tennessee, are in Lubbock this week, looking after business.

R. E. Wafer and J. L. Showers, of Vernon, are among the prospectors to the south plains this week.

A. R. Bowen, of Memphis, Tennessee, is in Lubbock on a short business visit.

plete freedom for swimming. Vacation girls find it preferable to all other types of suits and since the ban on all the one-piece has been lifted at most resorts, the woman who goes in for swimming as a sport need have no qualms about wearing what she pleases.

Certainly the one-piece, designed for swimming purposes, is less conspicuous and shocking than the long-sleeved, high-necked frock which ends at the hips, boldly displaying naked limbs for no apparent reason.

Double rubber caps with the chin strap are quite the best set for the swimmer. One cannot readily enjoy the water with aids of hat and bandana handkerchiefs flowing in the foam. Even the girl with the permanent wave hesitates a bit before getting her hair wet, as continual applications of cold water tend to eliminate the curl.

Coin in Bathing Suits. Rubber upper-arm bracelets for swimming have tiny pockets in which

Entered at the Postoffice at Lubbock, Texas, for transmission thru the mails as second class matter.

NOTICE—It is not the intention of the Avalanche to cast reflection on the character of anyone knowingly, and if through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

AVALANCHE PUB. CO.

GOOD SPORTS.

One of the most satisfying features of the entire Technological campaign, in our estimation, has been the splendid manner in which the contesting cities who failed to get the location have all united in sincere congratulations to the winner—Lubbock.

Lubbock is indeed glad that the people in the territory embraced for the location of the Texas Technological College are good sports, and are willing to accept the choice of five of the strongest educational heads in the state for the location of the great state school.

Lubbock looks upon the locating of the college as a victory for the Plains and for West Texas. Lubbock is merely the home of the College but it is for all of West Texas, and it is no further from East Texas than it would have been from West Texas had it been located in that section of the state and we are sure that its location here in our splendid climate will be so invigorating and healthful to the students that it will be a genuine Godsend to the boys and girls of the state.

Lubbock is glad of the good sportsmanship displayed and we want every section of the state to feel welcome when they come to our town. When the people all over Texas know the true conditions of this country and are permitted to see with their own eyes this great country any dissatisfaction that might exist now would be forever dispelled. Come to Lubbock and see.

THE NATIVE SONS OF TEXAS

Limestone County is fortunate in being the birth place of "The Native Sons of Texas." The organization, recently chartered under the laws of the State of Texas, is being received gladly by loyal Texans who view with hope and concern the future of this commonwealth and look to the past with just pride and in-

spired pleasures. No State faces a more brilliant future than does Texas. The Native Sons of Texas look to the future as well as the past. They hope to perpetuate the worth while things of the halcyon days of yore and stimulate loyalty and patriotism and love in the hearts and souls of Texas yet unborn. Such a mission is to be commended. Such a service will be a boon to the State and to the Nation which will parallel many worthy achievements of heroes dead and gone but not forgotten. The idea of such an organization sprang up several years ago in the hearts of certain members of the Steele family of this county. The time and the opportunity for the birth of the organization ripened until it could no longer be denied existence and only a few months ago application was made to the State of Texas for a charter by Hampton Steele, L. C. Steele and L. L. Steele, son, grandson and great grandson of Alfonso Steele, the last survivor of the fields of San Jacinto, also of this county. It is not a political organization but is purely patriotic with a lofty ideal and a worthy mission. All native born sons of Texas are eligible to membership and those fortunate enough to have first seen the light of day in this state should eagerly send in their names and applications for membership.—Mexico Daily News.

SOME THINGS THAT ARE NECESSARY

The Avalanche has no desire to advocate such things as will over tax the property owners of the City of Lubbock, as we realize that this can be done, but there are some things that must be done to promote the best interests of the people here, and our town, and we feel sure that there can be little or no opposition to the things that are absolutely needed.

It is a certain thing that Lubbock must increase her water supply. There is plenty of it in the ground, but there must be additional means of getting it to the surface. From all indications it would seem that Lubbock must have another big well, and a larger reservoir if people throughout the city are to have all the water that they can use and need for all purposes.

Long extensions have been made recently in the water lines of this city, which will require an additional amount of water to supply the demands. This is one of the things that is absolutely necessary, and should have the whole-hearted support of all of the people of this city, and every property owner should have the city commission know that they are behind them in anything that is necessary to do for the betterment of the town and the community.

COMPLETE THE CITY AUDITORIUM

We feel that it is necessary for the completion of the auditorium. If Lubbock is going to make the present one do for a while it certainly should have some additions made to it, and be put in condition so that it can be used at all times of the year. It does well enough possibly for the warm summer months, but it will be entirely useless when it becomes cold weather, when a fire will be necessary for the comfort of the people. We believe that should have the attention of the people at this time and that there will be a floor put in the building, and made comfortable for those who may desire to use it during the winter months. Too much money has been expended on the building up to this time to just let it stand there unequipped for public use.

EDITORIAL COMMENTS ON THE TECH. COLLEGE

All the Panhandle-Plains country rejoices with Lubbock people in the location of the Texas Technological College in that splendid and growing city of the plains of Texas.

The action of the locating board in naming Lubbock for the new school will meet with the approval of the western part of the State, especially those who have given careful consideration to the location of the present State institutions and that part of the State needing most a standard college. While the Herald editor had hoped that the school might be located further to the north on the plains, yet it must be admitted that locating it at Lubbock will come nearer meeting the demands of that section of the State now unserved by a State institution of higher learning than any other town visited by the board, when considering that section of the territory described in the Act creating the school, lying below the cap rock.

The locating of the school at Lubbock is a victory for the Panhandle-Plains section of Texas that should cause every citizen of this section to feel proud and give hearty approval to the judgment exercised by the board in making their final decision. Knowing the personnel of the committee as we do it was our judgment and belief from the very first that the school would be located on the plains. To have located it below the cap rock would have failed to meet the needs of a section of the State that is so different from the other sections, because of the high altitude and different farm problems. But now there can be no serious agitation for another State institution of higher learning for many years to come. Under the provisions of our State Constitution all of the higher institutions of learning must be supported from the general revenues of the State, excepting the State University has an available fund now amounting to about \$300,000 annually but is being used for permanent buildings for that institution. For the support of the various State schools for the next two years the recent session of the Legislature appropriated out of the general revenue \$5,635,251.40 for the first year and \$5,459,226.00 for the second year and this does not include the million dollars appropriated for the new Technological College, \$100,000 for an Extension Service building at the A & M College, \$300,000 for an administration building at the North Texas Teachers College at Denton and \$110,000 for enlarging the power and heating plant for the C. I. A. at Denton.

As large as these appropriations may seem to the average tax payer of the State it is a well known fact that every State institution is without sufficient buildings to properly care for the student bodies now attending the schools, and for this reason it is the hope and wish of every governing board and management of the schools now established and supported by the State, that no more schools be created at least until the present ones have been properly equipped to meet the demands upon them. This situation played a leading part in the locating of the new school and after the locating board spent twenty-four days carefully considering the various towns making application for the school, we feel certain that it was no big task for them to determine first that the school should be located above the cap rock and on the plains section of the State.

With such a school as the Tech school is intended to be, located at Lubbock and the State Teachers College at Canyon, the Panhandle section of the State will be a great center of learning and thousands of boys and girls will become college graduates, who otherwise would never have the opportunity for a college education. So it is that great rejoicing is manifest on the part of the people of this section and hearty commendation is extended to the board for their wisdom and well considered work, and we do, that their final decision is the result of an honest and conscientious endeavor to the right thing toward the entire State.

Now, next most interesting part that will command the attention of those most concerned as to the welfare of the new school will be the selecting of a president who will have the task of organizing and putting the institution on a basis that will make it the great school it is intended to be. It is a big undertaking and the future of the school largely depends upon the man who plans the building program and organizes the teaching faculty etc. But the board of directors are men and women of that type who know the importance of making no mistake in the election of a president and we feel assured that their work will prove as satisfactory as that of the locating board. The board is expected to take action in the matter at an early date.—Herald.

LARGE CROWDS HEAR NELSON AT CHURCH OF CHRIST

The Church of Christ meeting that is in progress at the city auditorium is well-attended, and we greatly appreciate Brother Nelson's services. He is teaching us many good lessons and his interesting and easy manner of speaking leads much to these meetings. You are invited to come and hear him. Church Reporter.

Dyke Cullum, of Cullum Brothers, returned to his home here Saturday from Dallas and Mineral Wells. His son, Dyke, Jr., accompanied him to Mineral Wells and will visit with his grandmother, Mrs. A. L. Howard, until fall.

Mrs. Walter Cox, of Lamesa, visited her sister, Mrs. H. W. Painter, of Lubbock, last week.

Hubbers Took First of Nine Games To Be Played With Amarillo Gassers For The Panhandle-Pecos Valley Pennant

The Lubbock Hubbers proved their worth at Amarillo Saturday afternoon by walking away with the first game of the nine game series to be played to determine the winner of the pennant in the Panhandle-Pecos Valley League.

The score was 5 to 4. This game may bring about some changes in the Amarillo management's confidence in the team, as it was announced yesterday that they would not take advantage of the opportunity to displace one of their regular men with one from among the other teams in the league.

The Hubber management decided that because of a serious weakness in the pitching staff this rule would be put into good use, however, the particulars of the game Saturday do not relate any connection with this ruling.

The whole thing in a nut-shell is that those Hubber boys are in Amarillo to win. They walked away with the first half of the season, got trimmed down to second place in the last half, and are all tuned up to take the bulk of the nine games to be played with the gassers.

Of course we cannot expect too much of our Hubbers, but nevertheless, local fans have it that another come-back will be staged on the Gasser field this afternoon when the two teams meet, as those Hubbers have no idea of when to quit when the winnings start going their way.

There are still eight games to be played, however, this number could be very materially reduced by the Hubbers taking more than their share of the play-off games before the Gassers realize what is being done.

Interest in baseball was never more intense in Lubbock than at this time. The Hubbers have a bunch of "home-folks" here who are counting on them tearing down all that the Gassers put up in the way of resistance, and all indications are that they will not disappoint.

DISASTROUS TYPHOON ON HARBOR AT HONG KONG, CHINA

HONG KONG, Chin, Aug. 18.—Many lives were lost today and great damage reported to shipping in a disastrous typhoon which swept the harbor here. The wind reached the greatest velocity recorded at this point since for many years and the storm lasted more than an hour. Two steamers, including a British submarine, are reported sunk with a loss of life yet undetermined.

REPORT OF MARINES BEING KILLED NOT CONFIRMED

WASHINGTON, Aug. 18.—Navy yard department officials while awaiting answers to cabled inquiries expressed disbelief in the reports that seventeen Marines were killed in an uprising in Santo Domingo. The only foundation for the report seems to be what was considered the sudden departure of the Cruiser Rochester, from Panama to Santo Domingo, which gave rise to the rumors that something was wrong.

Mrs. Ben F. Smith and son, Lester, of Snyder, were in Lubbock Friday and Saturday guests at the home of Mr. and Mrs. Liff Sanders.

ENGINEER KILLED; TRAIN CREW INJURED WHEN ENGINE EXPLODES

By the United Press. GALVESTON, Aug. 18.—Engineer T. A. Abrams was instantly killed and four trainmen were probably fatally injured today when a Gulf, Colorado and Santa Fe engine boiler exploded near Alvin, Texas. Parts of the locomotive were scattered hundreds of feet from the place of explosion. No special cause has been figured out what caused the explosion.

CHICKEN BARBECUE AND LIVESTOCK SALE AT EASTLAND

EASTLAND, Tex., Aug. 18.—A big chicken barbecue and auction sale will be staged at this place on Saturday, August 25th when after a good feed, some very fine well bred jersey dairy stock will be sold and no doubt to those who wish profitable individual cows for their use will find this a very valuable opportunity as well as the Poland China fanciers will also have a splendid opportunity to get a good type sow or pig to start with a profitable hog for the future.

DAWSON COUNTY CLUB MEMBERS MEET AT POST

LAMESA, Tex., Aug. 18.—The club members of Dawson County composed of the live stock, Agricultural and Poultry Clubs will hold their three days annual encampment, Aug. 23-25 inclusive at Post City. This city was accepted as the place of their meeting this year on account of the cordial invitation of the mayor and citizens of Post.

BIG ATTENDANCE EXPECTED AT PANHANDLE TEACHERS INSTITUTE

CANYON, Aug. 18.—President J. A. Hill of the West Texas State Teachers' College of this place said today that preparations are being made daily to take care of a large student body at this institution with the beginning of the fall term on September twenty-fifth. The latest addition to the teaching staff is Mr. Ralph Horton, A. B., A. M., who for the past year has been teaching in the History department of the East Texas State Teachers' College at Commerce, Texas, and who comes with the highest endorsement of men with whom he has worked.

\$10,000 Brick School To Be Built in New Hope Community

J. A. Birdsong and L. C. Boyd, trustees of the New Hope School were in Lubbock Saturday looking after the interests of their school. It has been announced that a ten thousand dollar brick school building will be constructed for the New Hope community, bids for which will be accepted by County Superintendent E. R. Haynes in the near future.

COMMENCEMENT EXERCISES OF CANYON SUMMER SESSION

CANYON, Aug. 18.—The commencement exercises of the summer session of the West Texas State Teachers' College will begin here on Sunday morning with the baccalaureate sermon, which will be preached by Reverend Mr. Gordon Lang, a pastor of the Presbyterian church, who is to be head of the department of sociology and economics for the coming year.

PRESIDENT HILL ATTENDING STATE TEACHERS ASS'N.

CANYON, Aug. 18.—President J. A. Hill leaves Saturday for Fort Worth where he will attend a session of the executive committee of the Texas State Teachers' Association on Monday. On Tuesday he will be in attendance at the State-wide rally in the interest of public education in Texas which is to be held in Waco. This meeting will have for its consideration the educational survey of the State of Texas which is to be made during the scholastic year 1923-24.

PLAINVIEW MAN RE-ELECTED TO BOARD OF DEVELOPMENT

PLAINVIEW, Texas, Aug. 18.—At the recent meeting of the Board of City Development of Plainview Mr. W. E. Risser was unanimously elected president for another term. Just a few years ago when Mr. Risser was holding this same office his aggressiveness put by the paving of the square and main streets of Plainview and as chairman of the committee in charge of the city cemetery he succeeded in cleaning up and beautifying this place by donning overalls and taking the lead with team and wagon. It is unnecessary to say that a man of this type who was re-elected to office unanimously is not the best of the city.

PUBLIC SPEAKING TAUGHT AT UNIVERSITY OF TEXAS

AUSTIN, Aug. 18.—Courses in public speaking have been offered to students attending the University of Texas summer school. During the first term classes were conducted in reading and speaking, extemporaneous speaking, argumentation and debate and oral English. During the second term practically the same courses have been offered. The course in oral English is intended primarily for teachers, since it considers the problems which confront teachers of oral English in the secondary school and offers methods for solving these problems. The reading and speaking courses are a foundation course in delivery. Training in thinking before an audience is the aim of the course in extemporaneous speaking.

FORD TO ADOPT METHOD OF BURNING COAL TWICE

NEW YORK, Aug. 18.—The method of burning coal twice, and thus reduce the cost of automobile production, has been perfected by New York scientists and the matter has been taken over by Henry Ford. Ford, who has conducted the experiment, said "the method is practical and successful beyond a doubt" and Mr. Ford is now constructing a building at Detroit where the process will be put in operation.

RICHARDS TO ERECT BUSINESS HOUSE AT SEMINOLE

SEMINOLE, Aug. 18.—Wm. Richards has purchased the lot north of the building now being erected by C. C. Coates. He is now figuring with local contractors for a modern fire-proof concrete or tile building. The contract will be let immediately and this firm expects to occupy same when completed with their grocery business.

SENATOR CONDEMNS PRACTICE OF BOBBING HAIR; OLD CONTENTION

NASHVILLE, Tenn., Aug. 18.—A plea which he said was made by Augustus Caesar to Roman women: "cease to bob your hair" was repeated here by Senator W. R. Webb, at Bell Buckle, Tenn. In addressing the state legislature, Peabody college, Webb said Caesar realized the danger of "modernism" as is evidenced by his plea to women to allow their hair to grow.

BIG OIL GUSHER BURNING IN MULL FIELD NEAR HOUSTON

HOUSTON, Aug. 18.—Resisting all efforts for thirty hours to bring it under control, the gusher Dolbart-68 in the Mull field east of Houston, continues to burn fiercely and a battery of steam boilers are being placed around the well in an effort to turn live steam on the flames and extinguish them. The fire is destroying thousands of dollars worth of oil daily.

NO MORE CIRCUSES FOR GERMANS; COST TOO MUCH

BERLIN, (By mail to United Press).—Germany is about to see the end of the wandering circus. Little Habs and Fritz, back in 1914, could take in any of 20 or 25 big circuses which wandered here and there under their big tops about Germany. Today only five major circuses remain in Germany and these have dwindled so that they really amount to very little. The situation results, as almost every other new development, from the economic situation in Germany. The German public is just as interested in and just as anxious to go and see a good major circus today as it was in 1914, but the high costs of feeding animals, etc., simply puts the price of tickets beyond the reach of even Germany's millionaires. Circus entertainers are able to find employment in other countries, since their type of work is international in its appeal.

## President of the National Association of Base Ball Players Sets Forth some Rules Regarding Closing of the Season

The following letter has been received by President Hunter of the Panhandle-Pecos Valley Baseball League setting forth the rules of baseball governing the teams and Mr. Hunter has requested that same be published for the benefit of those interested.

As the present season draws to a close please permit me to caution you regarding the playing of Inter-League Post Season Series, and the Play-off Series in Leagues that have operated under a Split-Season schedule. Leagues whose pennant winning Club contemplates an Inter-League Series with the winner of another league should make early application to this office for the appointment of a proper "Board of Control" to have charge of, and to make such "rules and regulations" as will govern said series. No Inter-League Series can be played between Leagues of unequal classification without permission from this office. See articles 32 our National Association agreement.

In all Leagues playing a Split-Season Schedule such series shall be played under the supervision of the League President. Twenty per cent (20 per cent) of the gross receipts of such series shall go into the league treasury, the balance to be divided between the two contesting clubs. Contracts of all players participating in such a series are automatically extended from the close of their regular season to the end of such play-off series, at the rate of 1-30 of their regular monthly salary. Said players to receive no other compensation. Please govern yourself accordingly. Yours Truly, M. H. SEXTON, Pres.

### JOE DOWNEY RECEIVES INJURIES IN BOUT WITH FIRPO

By the United Press.  
**INDIANAPOLIS, Ind., Aug. 18.**—Joe Downey, of Columbus, Ohio, who stayed through a ten round bout with Firpo, was today taken to a hospital suffering from injuries received in the fight. Downey took a very severe beating. Downey was unconscious for some time after the bout was ended.

### SEVENTEEN YEAR OLD GIRL CHAMPION OF TENNIS

By the United Press.  
**PORRETT HILL, N. Y., Aug. 18.**—Helen Willis, seventeen years old, a California star, became American Woman Tennis Champion when she defeated Mrs. Molla Mallory, seven times Champion, six to one. The girl was given a great ovation.

### DO YOU KNOW?

- Q. Who is the world's champion billiard player?  
 A. The title, "world's champion billiard player," is generally associated with the best player at 18.2 ball line billiards and Willie Hoppe is the champion.
- Q. How much is Firpo to get for fighting Jack Dempsey?  
 A. This question is being asked many times. It is understood that Firpo is to get a percentage of the gate receipts with the condition that the percentage does not run over \$100,000. That would indicate that he might get \$100,000, but he might draw less.
- Q. Is Sir Thomas Lipton going to challenge again for the American Yacht Cup?  
 A. If Sir Thomas hasn't officially issued his challenge up to this time, he has indicated his intentions of doing so. He is now building a new challenger and the races probably will be held next summer.
- Q. Is Jess Willard broke?  
 A. Not unless he has spent \$250,000 in the last month, and Jess was never reckless with his cash.
- Q. What is considered the best outfield in baseball?  
 A. B. The Cincinnati Reds, with Roush, Burns, Duncan and Harper, claims to have the best outfield in baseball.
- Q. How many Jewish players are there in the major leagues?  
 A. Sam Bohne, infielder for the Cincinnati Reds, is said to be the only one.
- Q. What are the nationalities of the boxing champions?  
 A. Jack Dempsey is of Irish descent; Mike McTigue is Irish born; Johnny Wilson is of Italian descent; Mickey Walker is of Irish parentage; Benny Leonard is Jewish; Johnny Dundee is an Italian; Joe Lynch is of Irish extraction, and Pancho Villa is a Filipino.
- Q. What became of Man o' War?  
 A. Man o' War is now in the stud. The first of his get are year-

### MAN HURT IN BALL GAME IN SERIOUS CONDITION

**BRECKENRIDGE, Aug. 19.**—R. W. Fawcett, field superintendent of the Hipower Gasoline Company, is in a hospital here in an unconscious and critical condition as the result of an injury received when a baseball hit him in the temple. He was playing on his company's team in a game with another local team when the accident occurred.

### LIGON PICNIC AND BARBECUE POSTPONED UNTIL SEPT. 5th

W. A. Pierce, manager of the Ligon Townsite Company announced Saturday that the Ligon picnic and barbecue which was to have been held on the 27th of this month, had been postponed on account of the Texas Tech celebration to be held here August 28th. Mr. Pierce pointed out that the people of Ligon are eager to help in any way to celebrate the location of the school, and that they will be here to celebrate with the people of Lubbock on that date.

### BACK FROM A TRIP TO NEW MEXICO POINTS

W. M. Crawford of the Lubbock Plumbing and Supply Company, returned Friday night from a trip to Roswell and other points in New Mexico. He was accompanied on the trip by his family, Mrs. Sam Dixon, a sister of Mrs. Crawford from Plains and T. W. Covington and family of Slaton. They spent four days in the vicinity of Roswell, and had a fine trip, and enjoyable time. Mr. Crawford said it rained a good rain just on top of the Caprock, this side of Roswell, but that it did not cover a very large territory.

### HEAVY RAIN AT LIGON FRIDAY NIGHT REPORTED

Chard and Guy Pierce, of Ligon, arrived in Lubbock Saturday to visit homefolks. They report that a heavy rain fell in that section Friday night and that crop prospects are especially good for this season.

### AMARILLO BOARD OF CITY DEVELOPMENT ENDORSE ON TO LUBBOCK

**AMARILLO, Aug. 19.**—The Board of City Development lent its endorsement last night to the Texas Technological College jubilee at Lubbock, Tuesday, August 28, with the appointment of an "On-to-Lubbock" committee.

Members of the committee are A. E. Meyer, J. H. Paul, J. N. Riggs and John B. Gilvin. This committee will supervise arrangements for a special train to Lubbock. Announcement was made that a special train could be obtained with 125 passengers. The Amarillo delegation is expected to work for the Amarillo Tri-State Exposition while the members spend the day in Lubbock. It is probable that a band will be taken along and that special insignias will be worn by the Amarilloans.

### FIRST LADY OF LAND HONORS TRANSFERRED TO MRS. COOLIDGE

**WASHINGTON, Aug. 18.**—Life in the Whitehouse and the responsibilities of being first lady of the land are only memories to Mrs. Warren G. Harding, as the responsibilities were shifted to Mrs. Coolidge today, when the widow of the late president stepped out of the Whitehouse and gave place to Mrs. Coolidge. It was with dry eyes and a firm step that Mrs. Harding surrendered the great building to her successor.

### TULSA ASKS THAT TROOPS BE WITHDRAWN FROM CITY

**TULSA, Okla., Aug. 17.**—Recommendation that the number of National Guard troops on duty here be reduced was contained in a telegram dispatched late today by Adjutant General Shof to Governor J. C. Walton. The monarchists are not despairing, though they realize that never in the world's history has a dethroned dynasty returned to power if it resigned itself to its fate, as Wilhelm is doing. Such followers as Wilhelm still has

### INCH RAIN IN COCHRAN COUNTY FRIDAY NIGHT

Chas. Burrus returned to Lubbock Saturday from the Burrus ranch in Cochran county and reported that about one inch of rainfall was received there Friday night. Mr. Burrus is elated over range prospects, and declared that the cattlemen of that section were never more optimistic than now.

### CANYON WILL SEND THIRTY PIECE BAND TO TECH CELEBRATION, HERE

**CANYON, Aug. 18.**—Canyon will be well represented at the Texas Tech celebration which is to be held in Lubbock on the twenty-eighth day of August. The West Texas State Teacher's College had expected to send its thirty-piece band for this occasion, but as the gala day falls after the close of the summer session it will be impossible to keep the band together for the occasion. However the College will be officially represented by D. A. Shirley, L. P. Sheffy, Travis Shaw, R. A. Terrill, and Mrs. T. V. Reeves who have been appointed by President Hill to act in that capacity. President Hill and family will attend the festivities if he is in this part of the state at that time. The Commercial League of Canyon is also making plans to join the Lubbockites at this time and help to make the twenty-eighth day of August a date that will long be remembered in the history of Lubbock and the Paphandle-Plains country.

### Fomer Kaiser Is Resigned to His Fate; Wife Is Not

**BERLIN, Aug. 18.**—Ex-Kaiser Wilhelm has resigned himself to his fate. Not so his followers, and according to the belief of many strong monarchists, not so his new wife, Herminie. Advocates of the Hohenzollerns, or at least advocates of the monarchical idea, are extremely diligent for a return of the monarchy and they are to put it mildly, displeased that Wilhelm now shows no interest about again mounting the throne in Germany. Some quarters believe his wife, ambitious to an extreme, would like to be a second Zita and force him to attempt to become again the ruler of the Reich. The monarchists are not despairing, though they realize that never in the world's history has a dethroned dynasty returned to power if it resigned itself to its fate, as Wilhelm is doing. Such followers as Wilhelm still has

accuse him of too great indifference and to much laissez-faire toward the question of the fall of the Hohenzollerns, who almost 300 years long ruled as the kurfursts over the mark Brandenburg, who 300 years ago set upon their heads the kingly crown of Prussia, and 50 years ago assumed the kaisership over a united German Reich.

It may be said that the Kaiser party is more kaiserly than the Kaiser himself. The Kaiser lost many ardent supporters when the wed Princess Hermine so soon after the death of his faithful Kaiserin, Augusta Victoria. Some said it showed a lack of piety, and a posthumous infidelity toward the woman who, for 30 years, was his true and sacrificing companion.

**Wilhelm the Helpless.**  
 Others, however, say that the Kaiserin herself probably would have approved this outcome, for she realized the weakness and the helplessness of Wilhelm II, a cripple from birth as the result of an operation on his mother at that time.

The Kaiser's coolness to his mother and his dislike for the English—his mother was Queen Victoria's daughter—are probably traceable to that event. The former Kaiserin spoiled the Kaiser. She herself made his breakfasts, poured his tea, buttered his toast and carved the meat. Her death left him even more helpless and almost tragically lonesome. However, the opposition to the new marriage, both within the Hohenzollern family and in kaiseristic circles, is ebbs somewhat, and hence the pro-kaiser politicians are again venturing to arise their voices for action out of Doorn.

### SOLDIERS AS FARMERS

**OTTAWA, Ont., (United Press).**  
 Loans aggregating more than \$100,000,000 have been made to ex-soldiers of Canada in settling them on farms throughout the Dominion, according to Major John Barnett, chairman of the Soldiers' Settlement Board, which has had charge of placing veterans on the land. "Thirty thousand of them," said Major Barnett, "have so far been located on the land, representing a farm community of 130,000 people. Figures show that 85 per cent of them are making good."

### HEALTH SPECIALIST VISITS CAYNON; ADDRESSES STUDENT BODY

**CANYON, Texas, August 19.**—Dr. W. M. Martin, health specialist addressed an enthusiastic audience of students and townspeople at this place today on the subject of physical and mental health. Dr. Martin is ninety-two years old and appears about fifty. Among many other interesting things Dr. Martin contends that the business of the public school is to find the greatest ability of the child and then develop it, and that this can only be accomplished if the child is taught to keep his body healthy. Dr. Martin said: "The time ought to come when it will be a misdemeanor for a school teacher to be arraigned and punished for negligence."

### COLLEGE BOYS COMPLETE FILLING OF COLLEGE SILO

**CANYON, Texas, Aug. 18.**—Professor T. A. Fritts, of the Agriculture department of the West Texas State Teacher's College said today that the boys who are in charge of the College dairy had just completed the filling of the silo with Indian corn for winter use; the barns are well stored with the best of alfalfa hay, and winter wheat is being sown on thirty acres of land. Mr. Fritts stated that the dairy is in better condition at the present time than it has been at any time in the past and that improvements are being made constantly in the barns and in the dairy herd.

# The Way the Folks Around Snyder Feel About the Location of the Tech College As Shown by the Editor

Scurry County Times:—The Times editor got out of the office a while yesterday and visited among our business men and citizens generally, and we find them without an exception feeling optimistic and in good spirits over the loss of the Tech. They all say "Let's Go." The watch word is go forward—Let's build the Katy. We are surprised to find such good cheer and optimism prevailing over such big disappointments. They say that they are glad it is over—that they are satisfied and "let's forget it" is the suggestion of every one. That's fine! This kind of spirit is a wonderful thing in the life of any town and county.

We are surprised ourselves that we could look at the situation so cheerfully. We were surprised and delighted that all of Scurry county can feel as it does and are ready to congratulate Lubbock and say to her: "You are welcome to the Tech. We hope you will make it go. You will have our best wishes in the matter." This is the true Western spirit and we are glad that we live and are a part of a town and county that can look at these matters in the light they do.

The general sentiment prevailing in Snyder is that we are a better town today than when we started after the Tech. All the money we have spent has been well invested, and that we will receive big returns on our enterprises is the general viewpoint. We are on the highway going to the North and every one that goes to the Tech College at Lubbock will have to come through Snyder. They will see one of the prettiest towns in West Texas. They will see and fall in love with our surroundings and the spirit of our people. Seeing they will decide to return again and bye and bye they will become one of us.

While another view point in the loss of the Tech, generally, is that out of the work an agitation for the Tech there has been arisen a new Snyder. Our people has seen a new vision. We are today a better and bigger town in every way. They say that they are ready to engage in any kind of work looking to making a bigger and better Snyder.

To all these view points the Times subscribes to most heartily and will promise to be under the town and county in every possible way. We are proud of our people and see big things ahead of us. Snyder has seen a new vision and that vision is going to make a better and bigger town. There is one angle that is exceptionally pleasing is the fact that our town and county are one.

standing together. Harmony prevails and they have resolved themselves into one purpose and one thought and that is: We will make Snyder and Scurry county better in every way; that we are ready to spend and be spent in the building of our town and community.

The general sentiment among our people today in Snyder is that we will go after the Katy extension and bring the road to Snyder from Rotan. One business man remarked to us: "subscribed to the bonus guarantee on the Tech site. I am ready to divert this guarantee as a fund to build the Katy." We believe that this business man votes the sentiment of every man in Snyder and Scurry county subscribing to the fund.

The Times wishes to say that its editor feels fine over the situation. We predict big things for our people now that the Tech question has been definitely settled. It is the best thing that could have come to West Texas generally or have this school question settled once for all. For the past ten years all West Texas towns have practically stood still as a result of the vision that they would some day be the home of a State educational institution. Little progress has been made in the past ten years by reason of this vision. West Texas towns have been under the spell of gifts from the State in a way of State schools, and therefore they have not relied on their own resources. If Snyder had not had this vision for the past ten years the Katy would have been extended to Snyder long ago. So with all West Texas towns that have not relied on their own resources, and have depended too much on this political phantom, this vision of schools and endowments, and have not built like they ought to have in this space of time.

We believe that we are striking the keynote in this summing up the situation, and also stating some future facts when we state that we expect to see more genuine progress in our own building and county development with the next five years in West Texas than we have witnessed within the last 15 years. Why not? The idea of a State educational institution for this section of West Texas has for ever been removed from the minds of our people and now they will get down to the bedrock of home building. We expect not only to see Snyder make rapid strides forward but we expect to see growth with us in Sweetwater, Colorado City, Big Spring, Stamford, Abilene, San Angelo, Post and all other towns in West Texas proportionately.

The Times editor is overjoyed at the happy turn of affairs. For the past ten or twelve years West Texas has been torn asunder by politics of a semi-state partisan nature. West Texas has not felt that she was getting a square deal, and West Texas has grumbled. This State school business has been at the bottom of this political unrest, and it has dwarfed us in vision and been a stumbling block in our paths of progress. The Times would not turn its hands to the verdict reached at Fort Worth, Wednesday. We would not again open this school question at any price. We are glad it is settled and that for all time to come. And in its settlement we believe that a distinct blessing is coming to West Texas people. Out of the trouble past there is coming to West Texas better things. There is coming to this great section under the caprock, and extending hundreds of miles in all directions, a wave of material blessings and happy state of the public mind that will surpass all understanding. Now that politics has been removed from West Texas we see a vision of a people united in home building, in advancement along all lines. We see a vision of a happy, progressive, contented people. Yes, we see a new star arising in West Texas, and that Star is the Star of Hope of better things for our people. Its beneficial rays will stretch from one end of this vast empire to the other, bring material blessings to the people that have blazed the way for the future greatness of a great section of our Common Wealth.

The writer this evening in a happy frame of mind. That mind is the result of a decision reached and shared in by all Scurry county people to the effect that we graciously accept the results of the Locating Board, locating the school at Lubbock. A frame of mind where in we Scurry county people have pledged anew our faith in our town and county, upon the altar of Eternal sacrifice and co-operation, and have resolved to become a bigger and better people and build homes in Scurry county bigger and better towns and cities. Let the same spirit brood over the face of all West Texas, and let the decision be, that forgetting the past will press forward to higher mark in community building.

## BOY SAVED FATHER FROM DROWNING IN CLUB POOL

GAINESVILLE, Texas, Aug. 18.—What might have been a tragic ending of a happy event was averted at the reunion of the family of J. Z. Keel of this city by the heroism of Virgil Keel who saved his aged father from drowning. The older Keel attempted to swim the Rod and Gun Club Lake and became exhausted in the middle of the body of water. His son swam to his rescue. Between 30 and 40 relatives of the Keel family were present at the reunion.

## Hays Getting Money to Build a Studio Home for the Girls

LOS ANGELES, Aug. 18 (United Press).—A campaign is now under way in movieland to raise the dignity of "extra" work and to form a colony of extras so that all may obtain a reasonable living and form a substantial part of Hollywood life.

Hollywood wants fewer drifting girls—girls who are given to chance acquaintances, and who because of lack of proper environment, are tempted to listen to improper advances by men influential in the studios.

Several years ago the Y. W. C. A. in Hollywood started the Studio Club, a temporary home for girls coming to Hollywood to go into the movies. It housed 20 girls. They were supposed to stay only for two weeks, while they got located elsewhere, although thereafter they were urged to make the Studio Club a social center. The Studio Club has always been filled to capacity. The two week's rule has never been enforced, and girls were housed there for several months, until they could get on their feet financially. Membership in the Studio Club is not limited to girls who aspire to be actresses, but is open to all girls who work in the movies—stenographers, film cutters, scenario readers and secretaries.

**Hays' Campaign**  
A campaign, headed by Will Hays, movie czar, and the big producers, to raise \$150,000 for a new Studio Club building, to house 100 girls and serve as a recreation center and club house for all movie girls in Hollywood. Girls would be permitted to live at the new club for as long as a year, unless the rush of girls to Hollywood becomes greater than at present.

"The majority of girls who come to us are of good type, clean, wholesome and serious-minded," one of the club's secretaries told the United Press. "Most of them are from small towns, and are generally girls who have gained some fame in home town amateur theatricals. Most of their families are in moderate cir-

cumstances. Of course, a large number of them are quite unsophisticated as to the ways of the world and the dangers that beset a single girl in the motion picture or any other large business. I feel sure the club has saved a great many girls from going astray. Where girls have told us of improper advances we have taken the matter up with the studio heads, and usually have put an immediate stop to such a man's activities.

**Must Work to Live**  
"After a few weeks many girls who have come with high hopes of becoming stars run out of money, and confess to us that they must have work to live. Then we try to get them located in other lines in the movies where they can make a god living, if they are qualified for the work, or if not, we try to get them work of some sort in Los Angeles stores.

"Far too many girls who have only small savings come to Hollywood, only to realize too late that even if they have the ability it takes time to break in to a point where they can earn enough on which to live. Any girl—if she must come to Hollywood, ought to have money enough to live for six months at least. She should also have a good wardrobe, as a girl without plenty of clothes for all occasions cannot qualify for the wide variety of scenes which require extras.

"Of course, a part of the girls who come to Hollywood, there is a fast set, who hope to win success in another way, and the last place they would think of coming would be the Y. W. C. A."

## LOCAL MEN PURCHASED CONCESSIONS FOR SALE OF DRINKS AND EATS

F. H. Stanton, local confectionery man, purchased the concession to sell hamburgers on the streets of Lubbock during the Texas Tech. Celebration on August 28, and the cold drink concessions were purchased by Messrs. O. R. Phillips and Pennington.

The sale of the concessions was made by the Chamber of Commerce officials in a meeting held at the courthouse this morning.

Nice things about hot weather is nothing else matter much.

## TWO IMPORTANT TREATIES BECAME EFFECTIVE YESTERDAY

By the United Press  
WASHINGTON, Aug. 18.—The five-power naval disarmament treaty calling for the scrapping of battle ships, and the Four-Power Pacific Pact, designed to remove the war menace in the far east, became effective today.

These treaties are the principal accomplishments of the Washington Disarmament Conference.

## PLENTY OF MUSIC

SAN FRANCISCO, Aug. 18. (United Press).—Martial music that quickens the pulse and makes the feet step forward with the old-time military precision is an important element in the success of any gathering of former service men.

San Francisco streets will resound with the martial notes of 100 bands and drum corps when members of the American Legion gather here on October 15 for their annual four day's national convention.

Thousands of dollars in cash prizes and many valuable gold and silver trophies will be distributed among the best musical organizations.

The Clover Leaf Creamery pays just as much for your cream as you can get elsewhere. Our test is absolutely fair—to your advantage. We need all the cream you can spare and, being a home institution, paying as much as you can get others to pay, we believe that you should let us have all your cream.

### WE MAKE BUTTER OUT OF YOUR CREAM FOR SOUTH PLAINS PEOPLE.

There is a great and growing demand for Clover Leaf Creamery Butter and with your support we should be able to create a market that will revert back to your own profit.

PLEASE BRING US YOUR CREAM!

# Clover Leaf Creamery

## ANNOUNCING the INSTALLATION of OUR CONTINUOUS

# DeLAVAL Clarifying System

Here's another investment of thousands of dollars added to the already modern plant of the Lubbock Tailoring Company. The installation of our continuous Clarifying System is an innovation in Cleaning that is in use only in the large cities. Let us tell you how it benefits you:

The old method of cleaning with gasoline brought about this problem: As soon as gas struck your clothes dirt was loosened—gas cuts dirt quickly—but the process of cleaning your clothes in gasoline the old way did not dispose of the grit taken from clothes—it was left in the gas and naturally, in your clothes to a great extent. The Clarifying System keeps a steady stream of ABSOLUTELY CLEAN GASOLINE going through the cleaning process—the used gas is taken from the receptacle just as swiftly as new. Just like washing your clothes in a running stream, none of the dirty water is used again.

The main idea in the mind of the management of the Lubbock Tailoring Company is to provide the very highest class of service to its patrons of Lubbock and the South Plains. Until we have secured the most modern and most efficient operating plant in the Southwest we shall never be satisfied.

We ask you for your business because we can, in turn, give you a more valuable service. Next time Phone 85 and our wagon will call at your home or place of business.

## Lubbock Tailoring Co.

ERIC POSEY, Manager

## "Bill" Dollar Asks People to Know Their Own City.

### NASHVILLE "BILL" FEELS OF SCHOOLS IN THAT CITY

(Copyright 1923, F. W. Mozart)

"Be an example to Lubbock and not a problem," said a man today in the hearing of Lubbock "Bill" Dollar. He was engaged in conversation with another man and "Bill" was taking it all in. "What a place Lubbock would be if everyone were like you. You don't know what makes Lubbock great and you don't make any attempt to find out."

This conversation set "Bill" to thinking, and after a while he said "I wonder how many people there are in Lubbock who can write down what makes our city great."

**Unconscious Knocker.**  
"Through inability to give this information," continued "Bill," "a person becomes an unconscious knocker of Lubbock, for every opportunity which presents itself to boost, by giving detailed information, about this wonderful city, is lost because they couldn't take advantage of it."

"Any person who travels has come in contact with people from other cities who seldom miss an opportunity to tell about their own cities to any one who will listen. No matter how willing we may be to tell what we should know about our advantages, we are handicapped at the start through a lack of real knowledge that is serviceable."

**Education Urged.**  
"Something should be done to disseminate this information in such a way that it can be absorbed without any great mental effort. Some attempts have been made through printed circulars, and other means, to get these facts into the hands of outsiders, but the whole fault lies principally with the insiders. Every person in Lubbock should have enough information about this city right on tap so that he or she could hold their own in a conversation when it comes to comparisons."

"As a matter of policy, civic duty, and pride, let the people of Lubbock be educated to a full understanding of what we have, so that an appreciation and knowledge of our Lubbock should be a habit and not an effort."

**Nashville "Bill" Enters.**  
Nashville "Bill" Dollar said at this time, "Let me tell you what the city I call home has been doing for along time. Our school children have been led to discover their city by having them write one careful exercise in the English course each term on such subjects as "What Nashville Manufactures," "The Value of the Cumberland River to Nashville," "How Our City Is Governed," "Poets of Historic Interest Around Nashville,"  
"By the time the pupil has passed through the ten terms of the gram-

mar school grades, his ten exercises have driven into him the fact that he lives somewhere, that the city has an excuse for being and some relation to the rest of the world; and in doing this the child's mental raining has not been neglected."

**Trade and Industries Reviewed.**  
"In geography and history, the boys and girls are required to touch over and over again Nashville's trade and industries, as well as the lives of Tennessee's eminent men. For example, in the sixth grade the students learn about the lumber, textile and other industries of Nashville, something about river and railroad transportation, the territory covered by domestic and foreign trade, etc."

"Besides classroom work," continued Nashville "Bill," "the pupils under the care of their teachers, have been sent out in groups to study the work of factories, foundries, warehouses, coffee roasting plants, mills and municipal institutions."

**Study Real Life.**  
"The public school children of Nashville are having their minds trained to work, by studying real life, and the people of that city cannot help taking a keen and active interest in schools which take such an interest in them."

"By the kindness of the city merchants the schools obtained invoices freight bills, contracts of sale, and other like papers, of trade and these, in part, take the place of arithmetic books. The work is made as interesting as possible to the children, for they are doing problems of real life, and the names in the problems are the names of firms and business houses that they hear and see every day."

**How About Adopting This?**  
"There is not much doubt, then," said Lubbock "Bill," "that these young folks would be able to name the manufacturing plants of their city and their products is there?"

"We are engaged now in educating a wonderful group of children in Lubbock and in a few years they will be taking their place in the business world. It is much more important for them to know what is going on around about them than it is to know when Theophrastus or Sophocles was born."

"Like any good citizen, I want to see my family, the famous Dollar family, grow. I want dozens of brothers for each one that is now circulating in Lubbock. Manufacturing plants will be the medium through which these new dollars will be born. If our people are educated to the point of appreciation for what we have and the needs of the future, the day will not be long coming when the dreams of the boosters will come true."

### TO TEACH THRIFT IN ALL CHICAGO PUBLIC SCHOOLS

CHICAGO, Aug. 18. (United Press).—Thrift has taken its place beside the three R's.

When Chicago school children answer the first bell of the fall term on September 4 they will find a course in "How to Save" ranked in importance with reading, writing and arithmetic.

The course, which aims to be suggestive, allowing teachers to adapt it to their particular needs; was prepared by Peter A. Mortenson, superintendent of schools after a series of conferences with local bankers.

"Save your pennies" will be drilled into the minds of all pupils from the first to the eighth grades. Pamphlets will serve as texts and will supplement discussions in class while also being used in reading and arithmetic classes. During arithmetic periods, interest and wage problems will be worked out to show the result of thrift.

**First Grade Thrift.**  
First grade pupils are to get their first ideas of saving from reading "The Little Red Hen." Lessons in thrift will be drawn from the tale of "That Ant and the Grasshopper" for the second grades.

By the time the pupil has reached the eighth grade he will be solving problems dealing with compound interest or stock and bond investments.

Proverbs and maxims, according to Superintendent Mortenson, are important factors in impressing the young mind with ideas of saving. Some of the choice ones which the children will learn during the next school year are:

"Take care of your nickles and in time they will take care of you."  
"Light purse, heavy heart."  
"The penny spent never returns."  
"An empty sack cannot stand upright."

"The Wrigley building was built by a man who sold gum."  
"Economy makes happy homes and sound nations."  
"A penny saved is a penny earned."

Bankers who are co-operating with the schools plan to open special windows in their institutions where savings of children may be deposited.

Detroit will have a 29-story hotel. All hotels are higher.

## Plainview Will Be Well Represented at "Tech" Celebration

Jed Rix, of the Rix Furniture and Undertaking Company, is in receipt of a letter from Meade F. Griffin, of Plainview, county judge of Hale County, congratulating Lubbock on having been designated the official location for the Texas Technological College.

Judge Griffin stated in his letter that Plainview will be well represented at the Tech Celebration to be held here on August 28th.

The people of Lubbock will be especially delighted to welcome the people of our sister city, and Mr. Rix has answered the letter here mentioned urging Judge Griffin to be energetic in "rounding up" all of the people of the north plains and bringing them to Lubbock en masse.

### SECRETARY OF UNIONS SAY LABOR CANNOT GET SQUARE DEAL

ATLANTA, Ga., Aug. 18.—Railroad Labor cannot secure a square deal as long as there are three public representatives on the United States Rail Labor Board, says Frank Morrison, secretary to the American Federation of Labor, who addressed the Sixty-Eighth convention of the International Typographical Union, The Esch-Cummins bill can never be successful, he declared, because "it is packed" against labor.

### CAPTAIN MILLER DIES AT AGE OF 81 YEARS

AMARILLO, Aug. 19.—Captain Will A. Miller, Sr., pioneer of the Panhandle and one of the greatest immigration men that ever helped to settle this section of the country, died at his home 2009 Polk Street yesterday afternoon at 5:30 o'clock after an invalidity of three years.

Captain Miller was 81 years old and had lived for the past 22 years in Amarillo. He brought thousands of people to the Panhandle country and until three years ago was actively in business.

### LIGHT RAIN AT AMARILLO LATE THURSDAY AFTERNOON

AMARILLO, Aug. 19.—Thirty-five one-hundredths of an inch of rain fell in Amarillo beginning at 5:30 o'clock Thursday night. The rain fell heavily for a short time and stopped about 6 o'clock. Slight showers fell occasionally during the early part of the night.

The rain broke a drouth of several weeks, and will assist materially in bringing out row crops.

A waterspout fell at Texline yesterday afternoon and 1000 feet of track on the Colorado and Southern at Des Moines, 40 miles north of Texline was washed out, according to reports from the Fort Worth and Denver late last night.

There will be only a short delay in the schedule.

### EL PASO WOMAN FOUND JEWELS IN YEAST CAKE

By the United Press  
EL PASO, Texas, Aug. 18.—Police spent a fruitless day looking for two valuable diamond rings which Mrs. J. M. Kirkman reported lost. Mrs. Kirkman finally remembered she had received two cakes of spoiled yeast from her grocer and laid her rings on them.

The cakes swelled and enveloped the jewels and when the woman looked into the yeast her rings were there.

## Wichita Falls Man Is Pleased With the Location of College

L. H. Shelton, of Lubbock, has just received a letter from J. D. Beggs, of Wichita Falls, offering hearty congratulations to Lubbock upon having been given the Texas Technological College.

Mr. Beggs, who is an official of the Singer Sewing Machine Company, declared that he has been keeping a close watch on the development of this section of the plains for a number of years, and that he was not at all surprised on learning that the locating committee had seen fit to locate the college here.

Mr. Beggs stated that he is very eager to have a district distributing agency of the Singer Company located in Lubbock, and that he is hopeful that time will not be long until this has been effected.

Mr. Beggs expressed lasting confidence in Lubbock and her ability to "make good" with the people who are looking to her for leadership in developing the territory adjacent to the school into the highest state of usefulness.

Only a short time before fall; not, however, a fall in prices.

## SAVE---

Have you investigated the savings department of this bank? You will find here a savings department of unexcelled service. Just ask any of the officials and they will tell you about how we can help you to save regularly and start your savings to working for you.

 Responsive Reading No. 8.  
 Prayer.  
 Hymn No. 147.  
 Scripture Lesson.  
 Hymn No. 50.  
 Sermon—By Pastor "Putting First Things First."  
 Prayer.  
 Hymn No. 296.  
 Benediction.

### Christian Science

Christian Science services are held every Sunday morning at 11 o'clock in the cotton exchange room of the Kershner building.  
 Subject for Sunday is "Soul." You are cordially invited to attend.

## BIG IMPROVEMENTS WILL GREAT ATHLETICS AT THE UNIVERSITY

Special to The Avalanche.  
 AUSTIN, Tex., Aug. 19.—Improvement work which has been going on at the University of Texas all summer under the direction of the athletic council is nearing completion, and when the four thousand students who make up the long term quota of the institution arrive in September they will find gymnasium facilities at Texas doubled and many improvements in the methods of carrying on athletics of every kind.

The physical well being of the student who comes to the University is attended to in the athletic department of the institution. It is the duty of Texas, in the opinion of L. Theobald, director of physical training and chairman of the athletic council, to turn out men who are developed physically as well as mentally, and who will represent Texas as clean types of all-around citizens. With this aim in view, a complete course of physical education is mapped out for the student, in addition to the many forms of voluntary athletics. The compulsory athletics include one year of calisthenics, and recreational games as prescribed and directed by the athletic staff. The second year is also compulsory, but the student is allowed to choose the form of athletics in which he will be interested after leaving college, so that he will continue to derive benefit from it.

A real feature of the work, is the corrective training, those students who are defective physically are not dismissed from physical training, but have a certain kind of training prescribed for them, which will be of benefit to them. In this way many defects are corrected, and much good is done the student both from a physical and mental point of view it is stated.

As a part of the work, two courses in physical education are now at the University, and many students are turned out who take over positions of directing physical work in the high schools and colleges.

In the intramural department every phase of student life is taken in, and all kinds of athletics are conducted. This department is under the direction of Harry Whitaker, coach of the Longhorn football eleven last year. Boarding houses, fraternities, fraternities, organizations, departments of the University, all come under this chat, and all engage in rivalries in swimming, football, baseball, basketball and the dozens of other forms of athletics. In this way large numbers of students receive the benefits of the games.

In preparation for a larger number of students this fall, two new gymnasiums have been constructed. The new gymnasium will contain a large amount of new equipment, handball courts, basketball courts and the like, and will add much interest to this department of the University, which

has grown remarkably during the past years. Much attention is also paid to athletics among University girls, as the same amount of prescribed physical training must be taken, and numerous athletic games are conducted in which keen rivalry is aroused. Swimming, basketball, tennis, indoor baseball, archery, aesthetic dancing and other sports come under this head. Anyone coming into contact with the University during ordinary times and observing the many forms of healthful athletics could help remarking on the change from the time when no one except crack athletes got any benefit from physical training, Mr. Belmont said.

## Simpson Has Good Plan to Light Lubbock for Celebration

L. H. Simpson, of Simpson's Electric Shop, is going to see to it that Lubbock is well lighted for the Tech celebration.

He has strung a bunch of lights from the top of his building across the street to the Lubbock Creamery Building, which will illuminate that portion of the city to such an extent that one visitor will just have to take notice of this improvement. Mr. Simpson stated that he is willing to help make Lubbock one of the brightest towns in all West Texas, and has worked out a small chart showing where and how the city should be lighted for the best effect. There will be all kinds of uses for these additional lights. It would be well for the businessmen to have them installed and keep in place permanently. It will be but a short while now until the fair when thousands of visitors will throng our streets both by day and by night. Lubbock's looks well enough in the day time, but it is up to us all to see that there are more lights at night.

Let's light Lubbock. With the West Texas college located at Lubbock, which is a fine little city in Northwest Texas, the majority of boys in what is known as West Texas will continue to be served by the Old Reliable, viz., the Agricultural and Mechanical College at College Station.—Houston Post.

## GOOD MEETING OF MEDICAL SOCIETY AT LOCKNEY LAST TUESDAY

Special to The Avalanche.  
 FLOYDADA, August 9.—Dr. E. F. McClendon of Plainview pointed out at the regular monthly meeting of the Medical Society of Floyd, Hale, Briscoe, and Swisher Counties held in Lockney Tuesday that this society can boast that in the four counties there is not a doctor or druggist who has ever taken out a license to permit the prescription of whiskey or other intoxicating liquor. It was further pointed out that this is probably not equalled by so large a territory anywhere in the nation.

The meeting was attended by physicians from Lockney, Floydada, Plainview, Tulia, and Silverton. Drs. Smith and Andrews of Floydada conducted an interesting clinic during the sessions of the society. The meeting next month will be held at Floydada in the new Smith & Smith Sanitarium which is nearing completion.

## BURNING LAKE THREATENS MAGAZINE AT PORT ARTHUR, CALIFORNIA

By The United Press.  
 LOS ANGELES, Cal., Aug. 18.—A boiling lake of burning oil reached a point within three hundred feet of Fort MacArthur's magazines at San Pedro during the night. Trenches were dug to divert the fiery fluid away from the magazines. Two hundred toiled with picks and shovels in intense heat in order to save the government property. Residence and buildings that were near the flames were picked up bodily and carried out of danger.

The fire started when an explosion occurred in the hundred and fifty thousand barrel tank of the General Petroleum Company early Friday. It appears now that practically all danger has been successfully averted.

## ELECTION WAS QUIET IN DUBLIN, ONLY 8 WOUNDED

DUBLIN, Aug. 15.—During a free state election meeting today at Kinvarra, on the Clare-Calloway border, a free fight is reported to have occurred in which revolvers were used and eight persons were wounded and taken to hospitals.

What is more fitting than red tape causing trouble in Russia?

INTEGRITY & SERVICE

**1924 MODEL**

**THE STUDEBAKER LIGHT-SIX FIVE-PASSENGER TOURING CAR \$995**

## 130,000 Owners Know the Value of this Studebaker

Every unit in the new 1924 Studebaker Light-Six Touring Car has proved its dependability in public use.

There are refinements and improvements, of course, but the underlying principles of design and construction which have made enthusiasts of 130,000 purchasers of this model in three years' time, are not radically changed.

In our opinion, the 1924 Light-Six stands out as the greatest value and closest approach to mechanical perfection in moderate priced cars yet produced.

It is practically free from vibration. Studebaker accomplishes this largely by machining the crankshaft and connecting rods on all surfaces. This requires 61 precision operations. It is an exclusive Studebaker practice on cars at this price—and is found only on a few other cars—and they're priced above \$2500.

Absence of vibration prolongs car life.

New all-steel body of striking beauty. One-piece, rain-proof windshield with attractive coil lights set in base. Quick-action coil ventilator. Door curtains, bound on three sides by steel rods, open with doors. Removable upholstery in leather. Door pocket flaps with weights hold them in shape. Upholstered in genuine leather. Large rectangular window in rear curtain. Chief-proof transmission lock. Standard non-skid coil tires, front and rear.

causes slower depreciation, reduces the cost of operation and adds to the enjoyment of driving.

The Light-Six motor embodies the most advanced design known to automobile construction. It represents an achievement in the manufacture of quality cast-in big volume.

Aside from its mechanical excellence, the Light-Six is handsome in design, extremely comfortable, sturdy and economical to operate just as it is in initial cost. It is powerful, speedy, has a pick-up range that is seldom taxed and never exhausted, is easy to handle, and convenient to park.

Its crumpled all-steel body, one-piece, rain-proof windshield, ten-inch cushions upholstered in genuine leather, and coil lamps are among many features heretofore to be had only in higher priced cars.

For 71 years the name Studebaker has stood for unflinching integrity, quality and value.
