VOL. 1. NO. 255.

LUBBOCK, LUBBOCK COUNTY, TEXAS, THURSDAY, AUGUST 23, 1923.

UNITED PRESS SERVICE

## PLANES CROSS CONTINENT IN 27 HRS

### Meet Abilene Boosters Today

THEY WILL BE HERE IN FULL FORCE AT 6:30 O'CLOCK THIS EVENING AND THEY WANT TO MEET YOU—COME!

Another great opportunity is extended Lubbock, that of being entertained by the Abilene Trade Trippers here Thursday evening from six thirty, o'clock to somewhere about eleven o'clock.

The Simmons College Cowboy Band is making the trip with the boosters and will lead them through the main street of Lubbock, and to the courthouse lawn where they will offer the entertainment of the evening.

It has been pointed out that a crowd in all they want—just a bunch of folks interested in Abilene, and West Texas in general. They will offer all the entertainment including band music, splendid talks by their leading business men and city officials, and other such features as they might introduce.

That Lubbock people are proud of any opportunity to welcome the representatives of our neighboring towns to the city is not questioned, and there will in all probability be a large crowd at the depot to greet the Abilene delegation as they arrive on their special train Thursday evening.

Abilene, it must be remembered, was among the very first of the candidates for the location of the Texas Tech College to wire congratulations to Lubbock upon her having been designated as the official location, and it is up to us to continue that spirit of friendliness that exists between the two towns—they are not mad at Lubbock because we got the Texas Technological College and we most certainly don't blame them for having made a perfectly good scrap for the school.

If you can't do any more than stand on a street corner and give up a few yells for Abilene be sure and don't fall down on that. Shake hands with the fellows, tell them you are glad they saw fit to compliment us with a visit and in every way possible make them feel at home.

To say the least some of the

(Continued On Page 2.)

#### COURTHOUSE LAWN AT LAMESA SOAKED WITH BEER BY SHERIFF

LAMESA, Aug. 23.—A few nights ago Deputy Sheriff Henderson looted a car loaded with beer just outside the City Limits, made a raid and captured several hundred bottles. The very spectacular thing of the affair was the opening of this beer on the Court House Lawn at Lamesa. These bottles were all piled up in the presence of about 700 men and opened one at a time by the Sheriff and the company poured out on the ground such quantities that it made a little rivulet across the lawn on the public square.

#### WORK PROGRESS RAPIDLY ON EXCAVATION OF CHURCH CANYON

CANYON, Aug. 23.—Work is progressing rapidly on the excavation for the new sixty thousand dollar Methodist church which is being erected here. C. W. Warweil of the building committee stated today that the work would be rushed with all possible speed as it is desired to have it completed as early in the coming school year as possible.

#### COLORADO WELL MAKES 300 BARRELS DAILY

COLORADO, Aug. 23.—H. C. Miller No. 1 of the Sloan Oil Co. section 22, block 28, is producing 300 barrels daily through the bridge. The crew is still drilling out the bridge following a shot of 180 quarts. The well is standing full making regular head flows. Colorado oil men believe the well will flow when cleaned out and tubed. The production is being turned into the pipeline.

#### AL SMITH CLUB IS ORGANIZED BY BOOSTERS IN CHICAGO

CHICAGO, Ill., Aug. 23.—An Al Smith club in Illinois will enter his name as Democratic President in the primary in that state next spring, according to the latest political movement inaugurated by the Democrats of the state of Illinois. The members of this club contend that Smith would be popular, not only because he signed the bill repealing the dry law in New York City, but hoped to be elected on the Democratic ticket by those who believe the Volstead act stands, is utterly opposed to Democratic ideas and not popular with the mass of Democrats.

#### STUEBENVILLE OFFICIALS NOT TO PASS ORDINANCE AGAINST GATHERINGS

STUEBENVILLE, Ohio, Aug. 22.—Plans of city officials to pass an ordinance prohibiting all public assemblages and parades in the city was dropped when leaders of the local organization, Ku Klux Klan, announced that there would be no meeting of the Klan Thursday night. Feeling has been tense since last Wednesday night when a fight occurred between Klansmen and citizens.

#### AUTO LICENSE TAX IS NOT AVAILABLE TO THE SCHOOL FUND

AUSTIN, Aug. 23.—The State Automobile registration license tax is not an occupation tax and consequently no part of it is required to go into the available school fund, attorney general's department has ruled, in an opinion handed down to the State Treasurer. Had the tax been held as an occupation tax levy, one fourth of the money thus collected would go to the school fund, under the provision of the law. Approximately \$2,600,000 would have been available annually.

#### LILLIAN MCKENZIE MAY BE IN HANDS OF BEGGAR IN NEW YORK

NEW YORK, August 23.—Lillian McKenzie, three months old baby who was kidnapped Saturday and for whom police are still searching, is being used by a beggar as a sympathetic lure for collecting alms, police believe. A woman carrying an emaciated baby and making a house to house begging tour, has been reported to police. The baby's description corresponds with that of the missing infant. The baby's mother has been revived after a total collapse.

#### DEPOSITORS STORM DOORS OF DENVER BANK WHEN IT FAILS TO OPEN

DENVER, August 23.—Scores of depositors stormed the doors of the Interstate Trust Company State Bank here this morning after it failed to open its doors after an all night meeting of the board of directors. On request of the bank's officials the State Bank Examiner ordered the doors closed. The bank is said to have been one of the strongest financial institutions of the city.

#### TYLER BOOSTING EAST TEXAS STATE FAIR

TYLER, Aug. 22.—The first of four trade excursions into this section of East Texas to boost for the East Texas State Fair to be held here September 25 to 29, was scheduled to leave here today. Other excursions will leave on the 24th, 29th and 31st. Practically every town of any size will be visited by the excursionists. The excursions are under the auspices of the Tyler Chamber of Commerce.

#### SANTA CLAU ARRIVES FROM AMSTERDAM ON STEAMER CODY

GALVESTON, Tex., Aug. 21.—Over four months too early "Santa Claus" arrived here last week from Amsterdam Holland on the steamer Cody. Three hundred and fifty tons of Christmas toys from the mammoth European factories were stocked aboard the Cody when she docked at the local wharf. Personal of the shipping lists disclosed that the German firms are branching out from their traditional dolls and china toys into the manufacture of ingenious mechanical toys, here-to-fore almost exclusively American.

#### FLOOD DAMAGE IN COLORADO TOTALS MORE THAN MILLION

DENVER, August 23.—Damage resulting from cloud burst and floods in eastern and southern Colorado is estimated at one million dollars. The heaviest damage is reported at Fowler, Colorado, when a reservoir burst releasing a wall of water, flooding fields and undermining bridges and highways. Pueblo experienced the highest water since the disastrous flood of 1921. Traffic over the bridge there is barred because of the bridge being weakened by the flood. Residents in the valley were warned of the danger and fled to high ground. No further damage is expected.

#### POLICE ROUNDING UP DRUG ADDICTS AT HOUSTON; ARREST 49

HOUSTON, August 23.—Forty-nine persons were taken in a dragnet and by police to round up drug addicts, starting yesterday under orders to "pick up" every drug addict to be found in the city. Officers are continuing their search. Most of the suspects are charged with vagrancy, and a few were released after making two hundred dollar bond.

#### UNCONSTITUTIONALITY OF DIPPING LAW IS UPHELD BY HOUSTON JURY

HOUSTON, Aug. 23.—The State law compelling the dipping of cattle for prevention of ticks is unconstitutional, according to a jury in the case of C. West, Harris county cattleman, who was found guilty when tried for failure to dip his cows. Attorney for West, who lost several head of cows in previous dippings, contends that the law is unconstitutional which compelled a citizen to destroy his property without the price of compensation, and the jury upheld the contention.

#### DEPARTMENT OF JUSTICE HAD REPRESENTATIVES AT SCRANTON, Pa.

WASHINGTON, August 23.—Officials of the American federation of labor received information here today that department of justice representatives were in Scranton, Pa., the headquarters of the United Mine Workers, or that they were there recently. While at Scranton, it was said, the representatives prepared to file an injunction to stop the strike called for September 1st.

#### KANSAS REPUBLICANS WOULD NOMINATE SEN. CURTIS FOR PRESIDENT

TOPEKA, Kan., Aug. 23.—A movement was made public today to make United States Senator, Charles Curtis, of Kansas, the next Republican choice for President. This movement was launched by warm, loyal friends of the Senator. Senator Curtis has made no statement, whatever as to his feelings in the matter.

#### HOME WILL BE MADE FOR AGED WOMEN SOON

SAN ANTONIO, Aug. 22.—A home for aged women is provided by the will of E. B. Chandler, local philanthropist, who died in Gloucester, Mass., July 9. The Chandler homestead here is set aside for the home. The estate Chandler left is valued at \$500,000 and relatives are to receive annuities from the income on the property.

#### A TRADE DOLLAR MADE IN 1876 AT VAN ALSTYNE

VAN ALSTYNE, Tex., Aug. 21.—A "trade dollar," now found only in museums or treasured as relics—is in the possession of J. B. Bailey, local business man. It was minted in 1876 and contains a fraction—over 432 grains of silver. "Average politician is a comedian," says Dawes. It won't make any mad. All are above the average. Talk is cheap. That is why they call it the gift of gab.

### DELIVER MAIL FROM CALIFORNIA TO LONG ISLAND IN LESS THAN THE SCHEDULED TIME, NEW IS PLEASED

Postmaster General Predicts the Service Will Be Made a Permanent Feature After This Successful Demonstration

WASHINGTON, Aug. 23.—A confident expression that continuous transcontinental air mail service will be firmly established in the near future was made today by Postmaster General New. He expressed a keen delight in the result of the first experimental flight, looking to twenty-eight hour service, and pointed out that the experiments had been so successful that the prediction of a continuation of the service is warranted.

President Coolidge also expressed great pleasure in the achievement when Mr. New called at the White House to report the successful flights.

#### WEST TEXAS ODD FELLOWS TO MEET IN ABILENE SEPT. 12-13

ABILENE, Aug. 23.—Preparations for the annual meeting of the West Texas I. O. O. F. Association which meets in this city September 12 and 13, are going steadily forward and between 200 and 300 visitors are expected to attend the convention. J. J. Allen, vice president, and U. S. Hamilton, secretary of the Association, will visit Sweetwater Tuesday night in regard to the convention. Further announcements as to the convention will be made later, it was stated.

#### MAIL RECEIVED AT L. I. MINOOLA, L. I. AUG. 3.—LETTERS MAILED IN SAN FRANCISCO YESTERDAY ARRIVED HERE AT 11:20 TODAY.

CHICAGO, Aug. 23.—Five mail planes were in the air yesterday, the second day of the five-day test of transcontinental aerial mail, with a successful night flight record between Chicago and Cheyenne, and indications that western mail which left Cheyenne, Wyo., at 8:35 p. m. mountain time last night would reach New York before daylight. Due to storms and fogs in Wyoming, the mail which left San Francisco at 5:59 a. m. Pacific time yesterday, was delayed all night in reaching Cheyenne, and shortly before noon, central standard time, today was enroute to Omaha on the eastern flight. Except for the interference of the elements which held Pilot H. A. Colison at Laramie, Wyo. overnight, in spite of three starts, the San Francisco mail in all probability would have reached New York within the 28-hour schedule.

#### BEAUMONT TAILOR SHOT TO DEATH BY BROTHER OF POLICE CHIEF

BEAUMONT, August 23.—Bob Word, brother of a former chief of police of Port Arthur, is being held in connection with the shooting to death of H. C. Bickham, manager of a leading tailoring company here. Bickham was shot at his apartments within three blocks of police headquarters. Five shots entered the body and after the shooting word walked to police headquarters and surrendered. He refused to make any statements and the cause of the shooting is unknown.

#### BITUMINOUS MINERS MAY JOIN THE ANTHRACITE FORCES IF THERE IS A COAL STRIKE DECLARED SEPT. THE 1st

ATLANTIC CITY, Aug. 23.—The bituminous miners in District two will co-operate with the anthracite miners in the event a strike is declared by the latter, James Marks, president of that district, stated today when conferring with John L. Lewis, head of the mine workers. He did not state what the cooperation would be but Lewis said that a coal famine threatens the country, through Samuel Warriner, Chairman of the Operators' policy committee said that an anthracite strike would only "slightly inconvenience anthracite users."

#### GOVERNORS CALLED TO STUDY COAL SITUATION

WASHINGTON, Aug. 23.—Governors of the principal anthracite consuming States were invited last night by Federal Fuel Distributor Wadleigh to meet in a conference at New York, Aug. 28, to discuss the adoption of an emergency program for distributing coal supplies in event of suspension of work in the anthracite fields. The Interstate Commerce Commission and the principal railroads serving coal areas will be represented at the conference. Wadleigh will present a distribution plan for consideration by the conference. The State executives to whom the invitation was addressed included the Governors of Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont and Maryland and the commissioners of the District of Columbia.

"An important subject to be discussed," Wadleigh advised the Governors, "will be the matter of education of the consumer in the use of fuels other than anthracite, as it is felt that a systematic plan of public instruction can be made of great service in the practical and efficient use of such fuels as will thereby reduce the actual cost of heat with resulting savings to the consumer and the community."

### Rotarians Endorse Amendment of the Charter of the City of Lubbock and Will Boost the Election August 30th

A very enthusiastic meeting of which we are now compelled to stand on a street corner and give up a few yells for Abilene be sure and don't fall down on that. Shake hands with the fellows, tell them you are glad they saw fit to compliment us with a visit and in every way possible make them feel at home.

The program was conducted by Jed Rix, whose keen understanding of the responsibilities of the Rotarians was readily recognized.

The principal subject for discussion was the election that will be held on the 30th of this month to amend the charter of the city of Lubbock in order that the tax rate might be raised from one dollar and fifty cents per one hundred dollars valuation to two dollars and fifty cents.

In regard to the necessity of the election going in favor of the amendment the Rotarians were urged to work as one upon the proposition, and to place their every ounce of influence into the work.

The fact that through the success of the election depends the ability of Lubbock to remedy the conditions of her streets was stressed.

Mrs. W. H. Bledsoe spoke upon the "Civic Improvements That Must Be Made," pointing out that thru providing for the pavement of the streets the citizens could eliminate a host of disadvantages against

work. Mayor Percy Spencer spoke from facts and figures viewpoint of the situation, and pointed out that the amendment of the charter is necessary in providing funds for the pavement of our streets.

He stated that it was upon a request of a number of prominent citizens of Lubbock that the city commission was prompted to call the election.

The fact that the city of Lubbock must provide pavement water and sewer lines to the Texas Technological College was cited, and the mayor insisted that the Rotarians help in the passage of the amendment.

The next meeting of the club will be held at the First Baptist Church with the ladies of that church in charge of the luncheon.

#### WEST TEXAS PUTS IN CALL FOR COTTON PICKERS

FORT WORTH, Aug. 23.—West Texas has put in its first call for cotton pickers and gathering of the crop will soon be under way in all sections of the State, according to C. W. Woodman, in charge of the United States Farm-Labor Bureau, which is located in the Fort Worth Chamber of Commerce. There is now a real shortage of pickers in Tarrant and adjoining counties. More than 1,800 cotton pickers were sent from Fort Worth week before last, Mr. Woodman said.

#### TEACHERS ARE COMING MOSTLY FROM FARM HOMES

DENTON, Aug. 22.—Judging from enrollment records at Normal Texas State Teachers College, those who are in the future to teach young Texans, come mostly from farm homes. Of the total of 1715 attending the college, 1029 come from homes where the head of the family is a farmer.

WEATHER	
Louisiana tonight and Friday partly cloudy, probably local showers in south portion warmer in north portion. Friday light to moderate northerly winds on the coast.	Arkansas tonight, fair, warmer in northeast and extreme northwest portion, Friday, fair warmer.
Oklahoma tonight and Friday, fair warmer.	East Texas tonight and Friday partly cloudy, probably local showers on east coast warmer in north and west portions Friday light to moderate northerly winds on the coast.
West Texas tonight and Friday generally fair, warmer in the Panhandle tonight, warmer Friday.	

Lubbock Daily Avalanche

Published Sunday morning and every Afternoon except Saturday by

THE AVALANCHE PUB. CO. (Incorporated)

JAS. L. DOW, Editor; Neal Douglass, Jr., City Editor; J. E. Griffith, Adv. Mgr.

Entered at the Postoffice at Lubbock, Texas, for transmission thru the mails as second class matter.

NOTICE—It is not the intention of the Avalanche to cast reflection upon the character of anyone knowingly, and if through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

AVALANCHE PUB. CO.

DON'T EVER GIVE UP

Some one said poor Snyder did not get the Tech. Well, we know so much about that. Snyder had rather taken out and was really not taking advantage of her opportunities, but the Tech agitation brought her to realize that there were vast opportunities still open and since they have started are using every effort to secure Katy extension and when they get it there will be something doing in Snyder. We had rather have a direct road to Fort Worth than two Tech colleges now. Open this great section to direct connection with the great centers and you will build a town on something beside boarding houses and that is a large part of what schools offer a town. Austin, Texas has an insane asylum, a blind asylum, all the state offices, St. Edwards College, one of the biggest Catholic colleges in the state, a Presbyterian theological Seminary and numerous other state institutions and yet it is about the sorriest town we ever lived in. It takes live people as well as public institutions to make a town and if Lubbock shall continue to push her school will be worth much to her but if she thinks it all over but the shouting she will profit little by her newly acquired institution. Stay on the job Snyder never say fail, let one good turn prompt only to greater achievement and you will be there with the goods and in two years you will forget where the Tech was located.—Lamesa Reporter.

There is an old saying that there are more and bigger fish in sea than have been caught out of it. This holds true to this day and while the Texas Technological College is a whale of a fish, at the same time there are some bigger ones yet, and Lubbock does not expect to catch all of the choice ones. The extension of the Katy may possibly be brought through Lubbock, and we would not refuse to let it come to our city, but Snyder no doubt has a good chance to land it, and we wish them well, and congratulate them on their determination to continue to go after big things.

BUY YOUR COAL NOW

Industrial consumers are urged by F. R. Wadleigh, Federal Fuel Distributor, to take advantage of the present situation, and buy their supply of coal for fall consumption. He issued this statement:

'If industrial consumers hold off from purchasing coal during the summer and enter fall months with insufficient stocks, they are then likely to find themselves in a difficult position and the country's rail transportation facilities overburdened, with consequent delay in movement of traffic, shortage of equipment and congestion at yards and terminals.

Industrial consumers can, by purchasing and storing to capacity as much as possible of their fall and winter coal requirements, aid the railroads, industry generally, and the interests of the whole country.

LITTLE AVALANCHES

Anyway the corner loafers are not much affected by the prevailing unrest.

The modern dancers keep fox trotting in a very laborious way, though could no doubt hire laborers to do it for them.

Some people seem to think that the American dollar is not

so much use in getting ahead as the American holler.

So far no one has predicted that President Coolidge will get out and make speeches at every cross roads at the next election.

There is said to be too much turnover in industry, but the men say there is none too much of the good old apple tart kind.

There are some automobile repair-men who should be given considerable credit if they leave a car running as well as they found it.

EDITORIAL COMMENTS ON THE TECH COLLEGE

The locating board for West Texas Technological College after being in session nine hours and after considering the claims of 36 different towns, finally voted unanimously for Lubbock, which will get the million dollar State institution. Of course some of the other towns and communities thought they had the best location, but all of the 36 except one had to bow, and it seems that the losers took their disappointment in a good humor and pledged their support to the school. This is the true Western spirit. They fight hard while they are fighting, but they always bow when they are whipped and are ready to start all over again. Lubbock is fortunate in securing this school, and we look for that town to take on considerably of a boom on account of it. Good live men like to locate where there are good schools. It might be possible now for Lubbock to secure another drawing and in the way of a newspaper editor. We are ready to consider propositions. The locating board in this case is composed of Mr. and Mrs. Gardner, the latter, privileged to have the first and last word. Florence A. dette.

PUBLIC OPINION

WHAT WILL OUR ANSWER BE?

Now that we have the Tech College and we rejoice that right here in its location, we should and do rejoice with thankful hearts, and we do not think it should be considered the findings of a wild imagination if we say that the glorious rain of last night seems to be the expression of the great love of all good.

When we traveled over this western part of Texas especially, these plains, in 1916, while working with the state department of agriculture, often made mention of the fact that the time would come when this much overlooked section of this great State would need and would have an agricultural college or a branch of the present A. & M. College.

I was my thought then, and has been, that Lubbock was the proper location for such school, and when the fallness of time came and the location was made, my feeling was not with in our hearts.

Now that all these good things have come to us what will our answer be? As the Avalanche has kindly and foretoldly stated recently, we should assume our responsibility with meekness and soberness and those who have property to sell should price it as reasonable as the circumstances and good business will warrant.

Remember vacant lots are of no service in building a city. Our foundation is now laid, let us all now join in building wisely and well, let's say to those who would come and cast their lot with us, come along and we will do thee good.

When we have said this, then let our actions be in line with our promise, and such united effort will make a city most beautiful and a place very desirable in which to live.

Why not a spirit of rivalry, each citizen striving to excel in plans and in service.

All out for Lubbock and the big celebration!

WELTON WINN

MEET ABILENE BOOSTERS TODAY

(Continued From Page 1.)

best business men in West Texas will be here Thursday evening to represent Abilene, and it is up to us to prove our appreciation of their visit.

CON SINGLETON AT HOME FROM JACKSBORO, TEXAS

Con Singleton and family returned to their home here Wednesday from Jacksboro, where they attended the funeral of two of the small children of his sister, Mrs. H. D. Davis. Mr. Davis was reported very seriously ill, but when they reached Jacksboro they found that he had made a slight improvement, and is now doing very well.

H. G. LOVE AND PARTY AT HOME FROM COLORADO

H. G. Love, Frazier McCrummen and A. H. Travis and families returned to their homes here Tuesday from a vacation trip through Colorado. Mr. Love was in a Colorado town when he received the news of the Texas Tech being located at Lubbock, and but for the fact that other members of the party made necessary explanations to peace officers he would doubtless have been detained

for several days. "I was unable to keep quiet under those circumstances," Mr. Love explained in relating the incident. We are pleased to note that these good people are at home more thoroughly sold on Lubbock and the plains country.

The smallest thing on earth may be an atom, but the too smallest is an electric fan.

refreshing lemon pie and ice tea by the hostesses.—Contributed.

The change from the city auditorium to their church building was effected by the Broadway Church of Christ for both their services Tuesday. At the evening service Evangelist Nelson discussed the subject, "How God Speaks to Man, Mediate or Immediate?" "God having of old time spoken through the fathers in the prophets by divers portions and in divers manners, hath at the end of these days spoken unto us in His Son."  
Nelson said in part:  
"God spoke directly, or immediately, to Adam until his sin. He spoke to Noah, to Abraham, and to Moses. After Moses, God gave his messages to the people through prophets. Now he speaks to us in His Son. Jesus spoke not his own words, but the words of God. These he gave to his Apostles through the Holy Spirit. The Apostles gave them to the people. The Gospel is the power of God unto salvation. It pleased Him through the foolishness of preaching, to save them that believe." "God is in Christ reconciling the world unto himself." The word of reconciliation was committed unto the Apostles. "We beseech you, be ye reconciled to God."

words "based on the United States Law" were struck from the resolution which was then unanimously approved.  
The Mexican Ambassador, during the debate on the project, declared the Mexican delegation could not accept that part of the resolution containing reference to the dry law of the United States.

## TEX CONSERVATIONISTS TO MEET IN CANTONE ON AUGUST 27-28

## LOCAL HAPPENINGS

Mrs. Homer L. Pharr accompanied by her sister-in-law, Mrs. Chapman, of Old Mexico, left Wednesday for Sulphur Springs, to spend several days visiting relatives and friends.  
Miss Lois Kirby, an employee of the United States department of agriculture, is here visiting her sister, Mrs. Johnnie Spikes.  
Miss Yeager, state inspector of Maternity homes of Austin, was in Lubbock the first of the week, leaving Wednesday afternoon to continue her tour of West Texas.  
Joe Hess and wife returned Wednesday from a vacation trip into the mountains of New Mexico. Mr. Hess is manager of the Joe Hess Real Estate Company and is also secretary of the Lubbock Building and Loan Association, at which job, he has worked very faithfully for some time, the rest and recreation of the trip having been amply deserved.

## FAVOR DRY LAW FOR LATIN AMERICA

RIO DE JANEIRO, (By mail to United Press)—The second International Congress of Mutuality and Social Providence meeting here recently with delegations present from Mexico and leading South American countries, approved a resolution urging all Governments represented to adopt an alcohol prohibition law.  
An original resolution urging the countries to adopt a law based on the United States dry law seemed to have been in favor with the majority of the Congress, but due to objection by the Mexican Ambassador to Brazil, who was heading the delegation from his country, the

## AT THE CHURCHES

**Missionary Society**  
District No. 3 met Monday afternoon at the home of Mrs. Sims, with Mesdames Coffee and Madrox, as joint hostesses. We had 16 present and three visitors. Our meeting opened with Mrs. Robinson, our chairman in the chair. Mrs. Wolfarth conducted the devotional, with "What a Friend We Have in Jesus" as our opening song. The scripture lesson was taken from 6th chapter of John and all present took part in reading. Our subject for study was "Christ Winning China Through Training Centers." Mrs. Robinson read us a leaflet on the training school at Nanking, China. We also had a leaflet read on the "Evangelistic Centers" by Mrs. Conner. Although the cloud came up and made us feel that we were really going to have rain, we had a very pleasant afternoon. Mesdames Blair and Collum were our new members for the afternoon.  
Mrs. Robinson invited us to meet with her, but as we will have a joint social meeting with the other three districts, we will hold her invitation until later.  
We were served to a plate of

All meat that is brought in on Monday morning may be delivered to the fair grounds where it will be taken care of.

## TRENT RECEIVED FIRST BALE OF COTTON MONDAY

TRENT, Tex., Aug. 20.—The first bale of the 1923 cotton crop was brought to Trent last Monday morning by Mr. Rosson, who lives on the Harrison place east of town. The

cotton was ginned by the Southside gin and was bought by the Star Hardware company. The bale weighed 502 pounds and was sold for 25.50 cents per pound. The seed was sold for \$31 per ton. A premium of \$25 was made up among the Trent merchants and given to Mr. Rosson. The ginning was also donated. There has been one other bale ginner since then.

## OMAHA FACING SERIOUS PROBLEMS ON ACCOUNT OF WATER FAMINE

OMAHA, Neb., Aug. 23.—With fifteen thousand men out of employment because of the shut down of industry on account of the recent drought on the Missouri river which occurred Monday, stopping on the water mains

with mud and muddying the water to the extent that it cannot be used, a water famine is on and there is a crisis on in that city that is going to be hard to meet.

There is grave danger of an epidemic of typhoid breaking out, according to the city health department, and every effort possible is being put forth to prevent such. The supply of water is now about forty percent mud, and the occasion has brought on a bitter political fight over the water situation.

It is claimed by one faction that the cause is the cause of negligence of city authorities, and big damage suits may be filed right away against the city.

Petrels applauded an act, good or bad, says Actor A. V. Powell. Many applauded acrobats.

## LUBBOCK HUBBERS EVEN UP SERIES WITH GASSERS IN AN ELEVEN INNING GAME PLAYED ON LOCAL GROUND

Dick Morgan was a little too much for the Gassers here yesterday, and although he got off to a bad start with four hits in the first two innings, which coupled with two errors on the part of his teammates, spotting the visitors to three runs, he lightened beyond the second, and had the Gassers helpless, giving them only three hits in the nine innings following.

The locals counted one in the first on a walk and an overthrow of second by Shaw, scoring Shepard, but Pipkin also pitched excellent ball, and the Hubbers could not count further until the eighth inning when Jackson's triple, a walk, a sacrifice fly and a single, scored Jackson and Shepard for the tying run, and two extra innings were required to break the tie.

In the eleventh Brown lead off with a double to right, O'Neil laid one down on third base line which he beat out, and Battle was safe when Lowrance fielded his grounder and threw wide to second in an attempt to catch O'Neil, filling the bases with nobody out. Mueller then drove one to the right field wall, which Caffey fielded, but could not catch Brown at the plate, who scored the winning run.

Long runs for spectacular fielding and catching featured the play of the Gassers, the infield especially robbing the Hubbers of what might easily have gone for hits, and fielding was made difficult by the heaviness of the ground following the rain of the early part of the day. Clouds hung low, not only threatening a downpour at any minute, but they were assisted by a cold wind from the north which had its effect.

This victory gives the Hubbers an even break with the Gassers for the series, each having two games to their credit, and the scene of battle now is shifted to the Gasser City for two games, today being rest day, following which Friday will see the re-opening of hostilities.

On next Sunday the clubs will again return to our local terrain, which game may possibly be the last of the series, and the last of the season.

The box score:

## Many Entries Coming In for Tennis Tournament August 28th

The entries for the coming West Texas Tennis Tournament to be held here August 27-28 are coming in fast. From the present indications there will be at least fifty men taking part. Tennis has always been a popular sport in this section but has lacked organization. With this number of men entered the people will be assured of some of the best matches of tennis that have ever been held on the Plains.

President Felty and Doc McCrummin will again represent the home city in doubles and are expected to do as well as they did at San Angelo when they carried off the cup. Several other local racket men are rounding into shape. Clark of the University of Texas, Waters of Texas A & M, Mr. Woods, Mr. Oates and Ray C. Mowry are expected to enter. With this array of talent it will be hard for any other town to carry off the trophies offered.

## Carlisle Is Preparing For Exhibit at the South Plains Fair

Messrs. J. W. Jennings and Geo. Briggs attended a community meeting at Carlisle last night in the interest of the fair. This community is going ahead with its plans to take part in the fair in every way possible. They will have a booth in the agricultural building as well as many individual exhibits. Mr. Burroughs stated that with the experience Carlisle had last year, they expect to make the other communities

hustle for the first prize this year. The singers of the community are also planning to enter the singing contest for rural communities. At the meeting it was also decided to do their part in the celebration on the 28th. Fried chicken, "devilish" eggs and potato salad will be prepared in abundance for the dinner on that day.

## PAVING BEGUN AT COLORADO LAST MONDAY

COLORADO, Aug. 23.—Excavations for the first unit of paving on Second street were commenced Monday. The first contract calls for nine blocks within the business district, to be paved with concrete base and 2-inch top Warrentile bitulithic. A complete white way street lighting system, using 11-foot ornamental steel posts, each carrying five arc lights, is to be installed in connection with the paving. The first concrete for the reinforced concrete bridge across Lone Wolf creek in East Colorado, went into forms Monday afternoon. This will make the second new bridge to be constructed on Second street, over which the Bankhead Highway passes through the city. The new bridge over the Colorado River was completed a few months ago.

**POISON FOR BOLL WEEVIL PRODUCED BY ELECTRICITY**  
DALLAS, Texas, Aug. 23.—Calcium arsenate is now produced by electricity in an electro-chemical process that has just been perfected after extensive experiments by A. M. Kennedy of Alabama. It is claimed that the electro-chemical product comes up to the government requirements and that it can be produced at a cost twenty per cent lower than the prices now being paid for the poison. One of the limiting factors in producing a cotton crop during the past few years has been the scarcity and high price of calcium arsenate. The new electrical process of making this poison promises to make the production of cotton less expensive and more certain.

### REPORT ON COTTON CROP OVER TEXAS

The Dallas News has just completed a survey of the conditions of cotton throughout the state and indications seem to be that the crop has been made, and the most important matter now is to harvest it as cheaply as possible and market it at a fair price. Indications are that both of these hopes may be realized, and for this reason an optimistic outlook prevails throughout business and agricultural circles in spite of the short crop resulting from the hot dry weather of the last two months.

Estimates throughout Texas place the 1923 cotton crop at above last year's yield in most places. Some late cotton may be helped by rain, but the benefit that will thus accrue will be of minor importance. The crop is "spotted" more this year than for several seasons and those sections that have been visited by "spotted" rains will produce almost an average crop, it is reported in many instances.

While the drought of the last two months has reduced prospects for a bumper crop to one that will be little above that of last year, it has also lessened damage from worms, weevils and other pests.

Because of the hot, dry weather cotton has opened from two to three weeks earlier than last year throughout the State, and picking is well under way in all sections. Indications are the crop will be moving to market in large volume by Sept. 1, and it is believed fall business will begin earlier this year than usual.

#### Business Outlook Promising

While all sections of the State report cotton deteriorating because of the drought, there is an optimistic undertone in all reports indicating that farmers and business men are not discouraged because hopes for a bumper crop were not realized and that a good fall and winter business is expected. It is believed the reduced production will aid in insuring a good price for cotton this fall and that aside from the European situation there is sufficient domestic demand to guarantee a steady market.

Business conditions throughout the State are reported to have held up well during the summer months and a decided increase is expected this fall. Bankers in many communities have pledged themselves to furnish sufficient money to market the cotton crop and believe money will be easier this fall than since the period of inflation following the war.

Merchants, while not disposed to buy recklessly, are reported pur-

chasing large stocks in Dallas and other markets for fall trade.

Building activities and conditions in other lines are reported improving and it is believed the outlook generally is quite promising.

#### FAIR EXHIBITS

Suggestions on standardization of fair exhibits have been prepared by the Extension Service, at the request of a number of fair secretaries who desire to encourage uniform and standardized exhibits.

The purpose of the suggestions is to assist community, county and district fair secretaries in improving the general classification of all exhibits shown. The classification given are similar to those used by the large fairs. By following these classifications, the community, county and district fair secretaries will be able to have exhibits entered and judged in such a manner as to teach the exhibitors the correct types of livestock and the best type and proper preparation of agricultural products for competition.

The Basis on which agricultural and livestock products should be judged is their commercial value. The type shown at the fair should be the best for market or for breeding purposes. The Extension Service thru its county agents will give encouragement to fair organizations in securing agricultural displays that will give the grower and breeder the best possible idea of how to approximate the ideal types by the actual demonstration of quality products. This will in a large measure be of assistance in permanently establishing the best standards for livestock and field crop improvement.

The type of home products to be exhibited at the fair should be those that will make the human being more efficient, and these products will be judged upon their practical and aesthetic value. Whether the product be food, clothing or household goods, home demonstration agents are encouraging home economic displays at the fairs that will stimulate in the homemakers, the desire to create and maintain such standards in homemaking activities as will continually lead toward the encouragement of better practices in homemaking. Efforts are being made to raise the conception of the importance of homemaking to the highest standard possible of attainment. Friendly competition with one's neighbors at the com-

munity or county fairs has a splendid effect in raising standards in the selection and preparation of food, clothing and in the construction and decoration of household items and other products that vitally affect the welfare of the rural home. Every possible encouragement should in our judgment, be given to this phase of fair exhibits.

If interested write to the Extension Service, A. & M. College of Texas for a copy which will be sent you free.

#### FLINT CONE POINTS SCIENTISTS BACK TO THE FIRST AMERICAN

ST. LOUIS, Mo., Aug. 23. (United Press)—A real "cave-man" may have lived in prehistoric times in America, according to recent discoveries by a Smithsonian Institute investigator in Missouri.

Most everyone knows that, before the Indians, there were the "found" builders. But lack of any evidence of a real "primitive man," such as the Neanderthals and the Cro-Magnons of Europe, has led geologists to believe that the Americans may be a newer continent.

Gerald Fowke, anthropologist, working under the direction of the Smithsonian Institute, however, has just returned from Stratman Cave, on the Gasconade River, in Marion County, with a flint cone from

which arrowheads had evidently been chipped, in a stratum many feet below the strata which carry evidences of the earliest Indians.

In the layer above the rock stratum in which the cone was found, Fowke found remains of what are thought to have been Indians, but of a more primitive type than any now known. The jaws were "prognathous," that is the jaws protruded far forward from the head.

No other evidences of human activity were found in the stratum with the more ancient cone. Fowke said that examination by the ethnology experts of the Smithsonian had brought the statement that he came of "chert," a quartz-like stone had undoubtedly been worked by humans. The chipping was quite regular.

"Nothing quite like it has ever been found at such a depth in this region, and the experts say it is doubtful if anything like it has been found in America," Fowke said.

There are hundreds of caves along the Gasconade in the Ozarks and Fowke has made excavations in many of them in recent years, in search of evidences of the First American.

Steam heating in England is scarce, it is known. Eye on the large hotel, a guest waiting heat lights his own fire and pays the manager from fifty cents to \$1 for the privilege.

#### A PRAIRIE ROSE PRESENTED AT CROSBYTON

The Pep Gee Club, of the Lubbock High School, very ably presented their play "A Prairie Rose" at Crosbyton on Monday evening and at Ralls the following evening.

Large attendances were reported at both places, and many compliments were given those who presented the play.

The proceeds were beyond expectations, and the young people are very eager to present the play to their homefolks on the evening of August 30th.

They are hopeful that the people of Lubbock will give them much support by attending the play. It is especially well directed, and will please all who see it.

#### COLORADO SCHOOLS WILL START WITH NEW EQUIPMENT, BIG ENROLLMENT

COLORADO, Aug. 23.—The Colorado schools will open Monday, September 3, with a full faculty of 22 teachers, H. L. Hutchinson, president of the school board, stated Monday. It is expected that 800 of the 1000 scholastics within the district will be registered the opening day.

Since school opened last year, Hutchinson school, a modern ten-room fire proof structure, has been

built and equipped and several thousand dollars expended on the high and grammar school buildings. The Colorado schools will open this year with the best plant in the history of our city. Considerable money has recently been expended by the district in making improvements to the campus. Included in the program for new equipment is play ground apparatus for the grammar and junior departments costing one thousand dollars.

#### AMBROSE DESIGNATED OFFICIAL DECORATOR

Cal. Ambrose, representing the Southwestern Decorators Supply Company, of Dallas, and who for the past five years has been the official decorator for the State Fair of Texas, at Dallas, has been awarded the contract to decorate the court house square, the courthouse proper and the streets of Lubbock. The contract having been let by the Chamber of Commerce.

After communicating with the State Fair officials and the officers of the Dallas Chamber of Commerce, the Lubbock Chamber of Commerce designated Mr. Ambrose as the official decorator for the town for the Texas Tech Celebration to be held August 28th.

Mr. Ambrose has also received the contract to decorate some of the stores of the city.
