UNITED PRESS SERVICE

40,000 PEOPLE VISIT IN LUBBOCK

CYRUS ADLER CHASED BY ANGRY MOB OF GIRLS RELATIVES

By the United Press.
CHICAGO, Ill., Aug. 28.—Cyrus A. Adler, twenty-four years of age, son of Max Adler, millionaire, vice president of Sears, Roebuck and Company, faces an arraignment in police court on a charge of attacking Miss Sylvia Wagner, and for carrying concealed weapons. Adler is under guard after he had been chased from the home of the girl's aunt by an angry mob of her friends and relatives who wanted to "lynch him." He stood the mob off with a revolver. It is alleged that the attack was made during an automobile ride.

The Lubbock People Have Exerted Every Effort To Light City

The people of Lubbock responded to the proclamation of the mayor to sweep the streets at seven o'clock Monday evening, as a result of which the city was enabled to do a very good job of cleaning the town last night.

The large hose carried by various companies of the fire department with efficiency and much results, all of the dirt and trash having been driven from the pavement.

Lubbock is an idyllic and company galore is here to view here, and that our visitors may carry home a good impression of Lubbock is the ambition of all our people.

The splendid co-operation that was shown last evening when the business men gave much of their attention to the sweeping of the streets, merely a continuation of the earnest effort they so ably displayed before the arrival of the locating board before their decision in Lubbock's favor had been made.

The people of Lubbock are in a class to themselves who are coming to doing effective civic work, and that they will continue to win great things for Lubbock and West Texas may be expected.

WEST TEXAS PIONEER DIED AT SWEETWATER LAST TUESDAY

SWEETWATER, Aug. 28.—Mrs. M. J. Millsaps, age 73 years died at her home on Lamar street Tuesday evening at 7:30 o'clock after a lingering illness. She is the widow of C. J. Millsaps, who died and was buried at Roby, Texas, about twenty years ago.

The family moved to this country thirty years ago and settled in Fisher county, near Roby. Mr. Millsaps was one of the first men to demonstrate that this part of the country was fitted for agriculture and he aided in the upbuilding and developing of Fisher and Nolan counties. Mrs. Millsaps moved here twenty years ago and had been a resident of Sweetwater since that time. She was well known in Sweetwater and Nolan county and while living here made many friends who will mourn her death.

Mrs. Millsaps is survived by nine children, seven girls and two boys, and all were present at the funeral.

The daughters are Mrs. S. Terrell and Mrs. Irma M. Weekley, both of Post City; Mrs. W. A. Mount of Roby, and Mrs. R. L. McCauley, Mrs. Gerald Fitzgerald, Mrs. H. J. Heath and Mrs. C. A. Ingram, all of Sweetwater. The sons are John W. Millsaps and William J. (Bud) Millsaps of Sweetwater.

PECOS CELEBRATED BY SERVING BARBECUED CHICK

PECOS, Texas, Aug. 27.—Information at West Texas headquarters is to the effect that the Pecos Chamber of Commerce has just pulled off a splendid feed of barbecued chicken and rare trimmings which was some thing new and very much out of the ordinary of some of the members of the Pecos Valley Water Users of Texas. The Pecos River treaty commission and party when they arrived Monday in Pecos in charge of Hon. J. G. Love president of the former organization after having made a careful survey of the Pecos river from Santa Fe to the Texas State line.

The barbecue was held at the Alamo picnic grounds and the committee was treated to some large home grown watermelons and the address by Senator Hanna of New Mexico and R. E. Thomason representative of Texas whose speeches were in a diplomatic strain still there is hope that the matters of the Pecos River can be speedily adjusted so that the conservation of the flood waters of the river can be successfully used by the farmers of both states with entire satisfaction.

Women powder their noses in public, so why can't men shave on the cars as they ride to work?

ENDURANCE AND SPEED TEST WILL BE MADE IN AIRPLANE FLIGHT

By the United Press.
SAN DIEGO, Cal., Aug. 28.—Refueling in mid air Captain Lowell and Lieutent John P. Richter, hopped off at five minutes of seven this morning in the third attempt to establish a speed, distance and endurance record for twenty-five kilometers or more. They are attempting a fifty hour ordeal. The flight may last for three days.

GENEVA OFFICIAL TRYING TO PREVENT LIES IN FIGURES

By HENRY WOOD
(United Press Staff Correspondent)
GENEVA, Aug. 27 (United Press)—For the purpose of keeping statistics from lying so much in the future, as they have in the past, the International Labor Bureau has just summoned an international conference of statisticians to be held at Geneva October 29.

Some sixty yodd nations, consisting virtually every nation in the world that is sufficiently advanced in its systems of administration as to keep statistics, are expected to have delegations present.

The fundamental purpose of the conference is to arrive at a common basis of standards for all countries. The International labor bureau has found that this purpose is very difficult to accomplish, and has established an effective basis for a world wide international study of labor and social problems.

DISCOVERY OF OIL IS CELEBRATED AT TITUSVILLE

TITUSVILLE, Pa., Aug. 28.—(United Press)—Today marked the passing of 64 years since the striking of oil in the well drilled by Col. F. L. Drake of Titusville, Pa., formally ushered in what has since become the great petroleum industry.

In recent years celebration of "Drake Day" has been held locally, but with increasing interest at Titusville, Bradford, Pleasantville, and City, Warren and Butler in Pennsylvania, and at Tulsa, Okla., this year the celebration was national, both in character and regional representation.

There was no drafting of political, sectional or competitive lines in the shaping of the program which in addition to its reunion and social features brought practical messages to minders in the business, with A. C. Bedford, chairman of the board of managers of the Standard Oil Company of New Jersey, as the chief speaker.

SIMMONS COLLEGE SIGNS A. B. HAYS AS 1923-24 COACH

ABILENE, Texas, Aug. 27.—Head Coach A. B. Hays of the Simmons College football eleven has just signed "Tex" Bryan, famous Southern grid star to coach the line for the Simmons Cowboys this season. Bryan is known to Texas football fans because of his own record while on the squad of Washington and Lee, and more recently for his connections with the Texas Longhorns. He has been coaching the Varsity line of Texas J. and whipping the "Shorthorns" into shape during the past few seasons.

Official announcement has just been made that "Tex," whose name, by the way, is Bernard D. Bryan, would help Coach Hays and Assistant Coach, Y. P. Kuhn, in putting out a winning Cowboy eleven this season. Prospects are the best in many years for a top team with eleven letter men returning, the backfield practically intact and unusual high school material from which to draw.

Flashing across the football horizon as one of the South's most brilliant stars some years ago, Bryan established for himself and enviable record while at Washington and Lee, playing on the Varsity the entire time he was there. After he had completed his work at that school he stayed to become a coach and assisted in putting on the field winning teams. Since leaving Washington and Lee "Tex" has been studying law at the University of Texas, and acting as line coach.

LOVE-MAKING SHOULD BE TAUGHT IN CHURCHES

KALAMAZOO, Mich., Aug. 28. (United Press)—Love-making is a science and should be taught as other science in church, if not in regular schools.

This was the declaration of Dr. Henry Tralle, New York Sunday School authority, speaking before the Michigan Baptist Assembly and training school here.

"Every church should be equipped with a secluded nook in which the young people could do their courting," Dr. Tralle said.

"Girls in the adolescent age should be given sex instruction in church, and should have a wholesome association with the opposite sex. If the church would take more interest in the love affairs of the young people there would be more happy homes."

Come to Lubbock!

SEARCH CONTINUES FOR KIDNAPPED MCKENZIE GIRL

By the United Press.
NEW YORK, Aug. 28.—The search for Lillian McKenzie, who was kidnapped a week ago, will be extended to the Long Island baby farm.

A man here yesterday gave the parents of the child a fitting description of a baby there, and they are hopeful that when the search is extended to the baby farm that the kidnapped child will be found and recovered. The description tallies with that of Lillian. The baby was placed there only a few days ago.

Martin County Has Record Representation Headed by Band

That the people of Martin county are glad that the Texas Tech College has been located and are willing to work for its development in one of the great educational institutions of the country, and its primary shows when the people of Stanton, the county seat, arrived here from their homes and city, Monday afternoon.

The delegation of many who accompanied the arrival of the Martin county delegation that that county has the largest representation of any other county in the state in figures are based upon population.

PEAS RIVER DAM MAY BE NEXT WATER PROJECT

CROWELL, Texas, Aug. 27.—C. S. Clark, member of the State Board of water engineers, spent several days in Crowell where he was called to look over the feasibility of a dam across Peas river some 25 miles north east of Crowell for the purposes of irrigation large bodies of land in Ford County.

Mr. Clark after careful investigation think that such a proposition is practical unless there is some gypsum caves that would lead to underground sands which would convey the water out of the lake.

GERMANY'S GREAT NEED OF GOLD CAUSES DISCOVERY OF RICH GOLD MINES WORKED MANY YEARS AGO

By GUS M. OEHM
(United Press Staff Correspondent)
BERLIN, Aug. 28 (United Press)—Germany, in dire need of gold to stabilize her finances, is turning to the mountainous region of her southland, where gold—in greater quantities—is to be found.

German prospectors, working with governmental sanction, are wielding the pick and sifting the sands as the lure of gold, with which to pay reparations, stabilize the mark, and enrich the individual draws them to the old and new fields.

Abilene Man Is Handled Rough By Masked Robbers

T. I. Hall was attacked and \$87 taken from a hiding place when two men entered his home on Willow street, between South Fourth and South Fifth, Sunday night about nine o'clock. Mr. Hall was alone in the house and did not recognize his assailants according to chief of police Burch.

Two men knocked at the door of Mr. Hall's home at about nine o'clock Sunday night and said that one of them wanted some liniment for a sprained wrist, according to the report of the police department. Mr. Hall got out of bed and opened the door. He was shoved backward by the two men, both whom he recognized.

CHILD'S LETTER TO 'UNCLE' HERBERT HOOVER

MOSCOW, Russia, (By mail to United Press)—Herbert Hoover may be "The Honorable" in official and diplomatic circles, but to about five million Russian youngsters he is "Uncle" Hoover. Of the hundreds of letters daily pouring into the American Relief Administration headquarters in Moscow perhaps the most appealing are those addressed to "Uncle" Hoover from his tiny nephews. Here is a typical child letter, translated literally.

"Dear Uncle Hoover: For half a year sister and I have had dinner in your kitchen in Petrograd. Had you not thus helped us, we would have died of hunger. God bless you and your children for that good deed. Now we are better off, papa is working and on Sundays we even get meat. We should like very much to correspond with somebody of the American children. We can write in Russian and German. Yours gratefully, Ernest and Nersis Pirvitz, Kazanskaya 45, flat 36, Petrograd."

U. S. SCIENTISTS READY IN MEXICO FOR SUN'S ECLIPSE

PHILADELPHIA, Aug. 28. (United Press)—Deep down in the hills of Mexico, near Yerbaniz, State of Durango, an American astronomical expedition, headed by John A. Miller, vice-president of the Swarthmore College and director of the Philadelphia Sproul Astronomical Observatory, is waiting to observe a solar eclipse on September 10.

The scientists, while observing the eclipse of the sun, plan to test the Einstein theory on the bending of light. Dr. Miller claims that if the Einstein theory is true, the ray of light coming from a star, near so large a body of the sun, would be sent out of its course.

Stars apparently in the neighborhood of the sun would not appear in the same position at the time of the eclipse as they did some months before.

The test of the theory will be made in a comparison of the starry field made on the day of the eclipse with the photographs of the same field made some months before.

Dr. Miller also aims to solve the problem of the release of energy by the sun, which he believes may be comparable to the release of energy by the atom. The tests will be made by a sixty foot camera.

Other similar groups of scientists will observe the same eclipse from different points and will compare their photographic records on the phenomenon.

Professor W. W. Campbell, of the Lick Observatory last year actually verified the Einstein theory when he photographed the eclipse from Austria. The value of the work was impaired by a small refraction and Dr. Miller plans to further carry on the verification.

With Dr. Miller are Mrs. Miller, Prof. R. W. Merritt and Mrs. Merritt, Prof. R. W. Wright of Swarthmore, Prof. H. D. Curtis, of the Allegheny Observatory, Prof. Simeon Altier, of the University of Kansas, three students from Swarthmore and two students from Harvard.

CHANGES IN COLLEGE UNION

NEW YORK, (United Press)—Prof. Paul Van Dyke of Princeton will retire in September as director of the continental division of the American University Union in Europe, with headquarters in Paris, and will be succeeded by Prof. Algonquin Coleman of the University of Chicago, it was announced at Columbia University by Dr. John W. Cantiliffe, secretary of the Union. Dr. H. S. Kraus, a Columbia man, will remain as assistant director.

At the same time Dr. G. E. MacLean will cease to be the Director of the British division, with headquarters in London. President C. A. Dunway of Colorado College has been chosen to succeed him. R. H. Simpson will continue as assistant director.

MANY LARGE DELEGATIONS HEADED BY BANDS ARE HERE TO GIVE EXPRESSIONS OF SITE APPROVAL

Many Attended The Speaking Program At The City Auditorium This Morning

Lubbock today has enjoyed the honor and pleasure of being the host to all Texas.

With practically every town in West Texas represented with large and enthusiastic delegations, brass bands, and all kinds of exhibits, Lubbock is crowded to the utmost.

The courthouse lawn, and all of the streets thereabouts have been thronged since early this morning, many of the visitors having arrived last night and "pitched their tents" within the city limits in order to be on hand when the music from the first parading band was heard this morning.

DALLAS FARMER KILLED

DALLAS, Aug. 28.—John Delfite, age sixty, a farmer who lived near LeFlore, was shot near his home today.

Henry Salvor was arrested in connection with the shooting. He was brought to Dallas to jail. He refused to talk about the incident.

Former Owner Tech Site Here To Celebrate The Location

John Niblick, former owner of the Tech site, arrived in Lubbock Monday to attend the Tech celebration and to look after business relative to the location of the school.

Mr. Niblick was owner of the larger portion of the land upon which the college will be located, and was here last April at which time he sold the site to the State thru the steering committee of Lubbock.

This is one of the finest bodies of land to be found anywhere and Mr. Niblick declared this morning that he would not have sold it to an individual, but that as the state wanted it for educational purposes he felt that it would be best to sell it.

The fact that this tract was made available by Mr. Niblick gave Lubbock an additional advantage over the other contestants for the college, and we are genuinely glad to have him here to help celebrate the location of the college here, inasmuch as she is one of the mainstays who helped Lubbock to get the school.

Mr. Niblick has many friends in Lubbock who are pleased to have him visit here, and they are in hopes he will decide to cast his lot with the people here by moving to Lubbock. He is a real builder, and would help in the future development of the Plains country.

Abilene Man Is Handled Rough By Masked Robbers

T. I. Hall was attacked and \$87 taken from a hiding place when two men entered his home on Willow street, between South Fourth and South Fifth, Sunday night about nine o'clock. Mr. Hall was alone in the house and did not recognize his assailants according to chief of police Burch.

CHILD'S LETTER TO 'UNCLE' HERBERT HOOVER

MOSCOW, Russia, (By mail to United Press)—Herbert Hoover may be "The Honorable" in official and diplomatic circles, but to about five million Russian youngsters he is "Uncle" Hoover. Of the hundreds of letters daily pouring into the American Relief Administration headquarters in Moscow perhaps the most appealing are those addressed to "Uncle" Hoover from his tiny nephews. Here is a typical child letter, translated literally.

"Dear Uncle Hoover: For half a year sister and I have had dinner in your kitchen in Petrograd. Had you not thus helped us, we would have died of hunger. God bless you and your children for that good deed. Now we are better off, papa is working and on Sundays we even get meat. We should like very much to correspond with somebody of the American children. We can write in Russian and German. Yours gratefully, Ernest and Nersis Pirvitz, Kazanskaya 45, flat 36, Petrograd."

all that has been Lubbock's opportunity to be host to so many prominent Texans, as special trains, special cars and hundreds of automobiles have arrived throughout the day, bringing hosts to the celebration.

Colorado, Jayton, Lamesa, Post City, Southland, Plainview, Brownfield, Lorego and Stanton bands have been on the job since early this morning and it is hard for the people of Lubbock to amply express their appreciation to these organizations for the splendid work they are doing to entertain the visitors.

The Stanton delegation conducted a splendid parade at eight thirty this morning, following with Crosby county, lead by the Lorenzo performed band.

Terry county had more than a band, automobiles and decorated trucks in their parade—they had folks—lots of them—little and big ones, following in the path of the band. Those people carried with them cards and banners bearing "Terry's Tech Too" with one huge "T" used for the beginning of each word. Several Terry county farmers carried great stalks of corn, which was not only novel, but gave one a better idea of what is produced in that section of the country.

The Community Auditorium was filled to capacity at ten o'clock this morning when the speaking program was begun. Music was furnished by the Chamber of Commerce Band.

There was little deviation from the program as outlined, and the speakers were greeted with many cheers from the audience. Many of them having been involved in the fight for an institution of higher education in West Texas the termination of which is being celebrated today.

Col. Clark M. Mullin and officers of Battery C, 1st Field Artillery, together with many of the young men of Lubbock who had charge of the feeding of the crowds, had everything well in hand at the noon hour and all plans, that had been carefully made, seemed to have worked out with due success.

There was ample supply of the various articles of food, and if anyone leaves Lubbock without having had sufficient to eat while here it was not Lubbock's fault.

At eleven forty-five o'clock a special table which had been prepared for the various band organizations was piled high with food, and the band men marched through, being served upon the left and upon the right by energetic workers. The band men have the hardest work of anyone, and it was the ambition of those in charge to see to it that each member had special attention of this occasion.

The band men have the hardest work of anyone, and it was the ambition of those in charge to see to it that each member had special attention of this occasion.

Ever since the Angles and Saxons left their home on the Baltic to move to England, the white race has moved West. Until 1900 that rule held in the United States as the arrows indicate.

Then came Jim Hill, seeking colonies for lands along his railroads in the Northwest by the power of advertising. Canada, California and Florida also have helped change a natural tendency.

The International Wheat Show is restoring a natural tendency, bringing homeseekers back to lands near home which they have overlooked. The Southwest could easily take care of a million more farmers in the next ten years.

men friends as possible, straight back to America and turn 'em loose on a beetle that's been eating up crops in parts of the United States. Seven or eight years ago some fruit trees shipped from Japan to New Jersey contained in the earth about the tree roots some insect grubs that the plant quarantine inspectors at the American port failed to find. The grubs got by. When they reached New Jersey they became beetles, and applied themselves industriously to propagating their species and eating up everything in sight. They've been doing both things ever since.

The U. S. Department of Agriculture sent to Japan a couple of its best entomologists. "Since these beetles live in Japan," said the department, "they must have insect enemies in Japan. Because all insects have enemies. So go to Ja-

pan. Find another beetle, or a bug or a beast or a bird or something that just naturally hates this first beetle like pizen and tries to kill him on sight. When you find that creature send us all you can get. We'll turn 'em loose on Beetles No. 1, and there'll be a cruel war in New Jersey."

The bug hunters haven't found what they want yet—but they're still looking.

Added to her other honors Germany, poor Germany, is suffering with a hoopskirt revival.

They say the daltz will return this fall. This is the third fall they have said it.

The country hedhugs have enjoyed their vacations on city people very much this summer.

New York cop arrested a bootlegger. Sounds like a case of mistaken identity to us.

Come to Lubbock!

Lubbock, Texas

Dr. R. B. Hutchinson
Dentist
Office, 131
Res. 122

Bush Building

WICHITA, Kan., Aug. 27.—One million more farmers in the Southwest in the next ten years, is the goal set by directors of the International Wheat and Farm Products Exposition, which will be held September 24 to October 6 in the municipally owned Forum at Wichita.

Thru Texas, Oklahoma, New Mexico, Colorado, Kansas and Arizona, are millions of acres of unfarmed lands. They are adjoining farms which today are wonderfully productive. They are vacant, not because of lack of value, but because the farmers who would settle on them if they knew their worth have been sidetracked. They have gone to lands where the climate is less favorable, where markets are further away, and where agricultural problems are yet unsolved. Many have gone to live under a foreign flag.

Historians have marveled at the Great Anglo Saxon migration of two and three centuries ago when 80,000 people crossed the Atlantic in 140 years to settle in America, but the last twenty-three years has witnessed the greatest migration in the history of the human race. From 1897 to 1922 there migrated from the United States into Canada 1,425,460 people, mostly farmers who came from the Mississippi Valley, passing up the fertile Southwest to settle in the Prairie Provinces. From 1900 to 1920 Canada increased its population from 1,453,933 people to 3,426,861 people, due largely to migrations from Kansas, Oklahoma, Texas and neighboring states.

Montana and Florida have also taken thousands of fine farmers who otherwise would have followed the natural westward trend of migration begun fifteen centuries ago when the Angles and Saxons left their homes south of the Baltic Sea to move west into England, their-

by pushing the Celts still further west into Ireland.

Canada, the Northwest, California and Florida, have made these great gains due to well planned campaigns of advertising coupled up with exhibitions of their products. Their campaign still is going on.

Business men and farmers of the Southwest are adopting methods of the Canadian, the Californian, and the others.

At the International Wheat Show farmers from the states further north and east have an opportunity to see the advantages of the Southwest from an agricultural standpoint.

The Wheat is a great educational institution, designed to advance the farmer. It is a great entertainment where farmers and business men of the Southwest may meet and hear the finest grand opera in the world, the best know-how in the world, an agricultural fair, industrial exhibits and other features spread out on 264,000 feet of floor space. This show also is designed to put more farmers on farms in the Southwest.

Political tinkering with insurance rates based on "good time averages" is always extremely dangerous or expensive to either the insured or the taxpayer, when the periodical crisis arrives.

IS HEREBY EXTENDED TO OUR DISTINGUISHED GUESTS:

GOVERNOR PAT M. NEFF

STATE SENATORS AND REPRESENTATIVES

LOCATING BOARD OF THE TECHNOLOGICAL COLLEGE

BOARD OF REGENTS OF THE TECHNOLOGICAL COLLEGE

EDUCATORS OF TEXAS AND OTHER STATES

VISITORS FROM ALL OVER THE WORLD

We heartily welcome you today and trust that you are as happy in being our guests as this city is happy in having you with us.

This is a momentous hour for Lubbock-South Plains and Panhandle-West Texas, and the entire State of Texas, and you have your part in making the occasion one that shall long be remembered. We consider it a very great joy to entertain you and sincerely trust that your visit will result in a blessing to this city, and will give the greatest impetus to the Educational Institution this day launched on the sea of our dreams. May the boys and girls of the present and future generations revere the names of those men and women who have wrought so nobly in the work. May the largest dividends ever paid on one of Life's investments be paid to those who have sacrificed much in order to obtain this great College.

DISTINGUISHED VISITORS make this a great day for Lubbock and for the Technological College, and possibly when YOUR boy and YOUR girl shall enter her halls of learning, may they rejoice in the memory that you were present on this historic day and materially assisted in its success.

SITE—SELECTED FOR COLLEGE.

The official locating board has designated Lubbock as the site for the new Texas Technological College. The decision was based upon conclusions drawn from the briefs filed by the thirty-six applicant towns and from an inspection tour extending over twenty-five days.

Farm and Ranch congratulates Lubbock. Even to a larger extent does she felicitate that vast dominion for whose service the western institution has been designed.

and ranch homes of the western part of Texas. It is the men and women, not stone and brick, who make greatness. It is zeal and courage and a generous spirit that are going to put the new institution at the forefront of agricultural education.

It is not alone the ambitious youth of West Texas who are to be blessed. It is West Texas agriculture, West Texas manufactures, West Texas enterprise of every description.

The Plains country is a good place to do these things. Lubbock is 3,241 feet above sea level—high enough, it would seem, for the observing student to catch a true vision of what the West Texas panorama means in terms of opportunities.

With the site selected, West Texans may be pardoned if they indulge in air castles for a while.

There are all kinds of selfish people in this world, but the big, great glutton of them all is the parking hog. He is among the select few who enjoy many and distinct privileges at the expense of the general public.

LITTLE AVALANCHES

The women are seeking equality of the sexes in the courts, while men demand it in the homes.

The politicians are trying to get the people worked up about the straw ballots, but the straw that interest the most now are those they insert into the ice cream soda.

After they get the base ball rules fixed up for another year, the people will be prepared to think about amending the constitution.

The people are making up their minds whom they want for president, but the politicians will decide whom they will have.

As Mrs. Coolidge is reported to be a good cook, no one should refuse an invitation to dinner at the White House for fear he will not get enough to eat.

Scissored Editorial

THE PARKING HOG

Even after the City Marshal has gone to the trouble of marking on the streets white lines within which to park individual cars, the parking hog pays no attention to the markers.

We've thought some very unpleasant things about the parking hog, but can't express all of them at this time, so we'll present what our friend Homer Steen, of The Floyd County Hesperian, has to say.

There are all kinds of selfish people in this world, but the big, great glutton of them all is the parking hog. He is among the select few who enjoy many and distinct privileges at the expense of the general public.

"Think of the other fellow. Park at the proper angle and close in to the other cars. This means YOU!"

DO YOU KNOW?

Q. Is Ty Cobb to be replaced as manager of the Detroit Tigers? R. O. E.

A. It was reported that Bill Donovan was going to manage the Tigers next year, and that Cobb was going to buy into a major league club. Since then it was understood that Ty signed a three-year contract after Frank Navin had failed to secure Kid Gleason to manage the team.

Q. Who is coach of the Yale football team? For how long? W. A. D.

A. Tad Jones is football coach at Yale, and indications point that he will be there some time. He recently became interested in the coal business in New Haven and, apparently, is planning to make his home there for an indefinite period.

A detourist tells us the speed limit is often one mile an hour.

TEXAS PROGRESS NOTES

Lufkin—Extensive improvements are being made in the plant of the City Light and Water Company. Denton—Extension of the cables

of the telephone company here into the north and west ends of the city which has been under way for several months is practically completed.

Ballinger—Additions to the city water system will practically double the capacity of the plant. The filtration system has been improved.

Bryan—Reorganization of the Bryan-College Traction Company has been completed and the interurban railway between this city and College Station will continue in operation with improved facilities.

Wichita Falls—The new water supply for this city that comes from the great four and a half million dollar project just being completed is now available and the water problem of this city is solved for all time.

Wylie—A modern street lighting system is being installed here by the Texas Power & Light Company.

Kendry—An election on a proposal to vote bonds for extension of the city water system has been set for September 3rd.

Aspermont—A light and power plant that is under construction here will be operating in October with a capacity for all the needs of the community.

Strawn—An election on a proposal to vote bonds in the sum of \$150,000 for construction of a water works system here will be called by the city authorities within the next few days.

Sherman—Improvements by the Municipal Gas Company in this city which were started last winter have been completed at a cost of \$45,000. New mains have been laid in many sections.

Greenville—Construction of a water main to supply outlying parts of this city will begin in a short time. Plans are under way also to increase the capacity of the city water plant.

TO CHANGE NAME OF THE FUNERAL CAR

WILMINGTON, Del., Aug. 25.—The Pullman car "Superb" which was used by President Harding on his trip through the West and was later used to bring back to the White House the body of the chief executive has been shunted into the yards of the Pullman works here. The "Superb" will be overhauled, reconditioned and the name of the car changed, officials of the Pullman Company said.

Purvin Connally, former manager of the R. & R. Lindsey Theatre was here Monday from Sweetwater where he is in the employ of the R. & R. Corporation. Mr. Connally has a host of friends who were glad to have him in Lubbock again.

National Champion and Only 17

Helen Wills, 17 year old California girl, is the new National Women's Tennis Champion, defeating the seven time champion, Mrs. Mollie Mallory at New York last week. Her flight sets, 62, 61. Now the youthful star is returning home to take up esthetic dancing to improve her footwork upon the courts. She will not play in any more tournaments this year.

See the New Dress Suits and Coats

The new fall season presents a wide array of the styles changes that are at once clever and attractive. There are many little touches here and there about these garments that make them distinctive and that are sure to win your favor.

DRESSES

Dresses from silk materials lead in popularity. The color range shows many very new shades that are typical of the fall season. The slender silhouette stressing straight lines feature the new models. Prices range in easy stages from \$19.85 up as high as \$98.85.

SUITS

Suits are shown both in long knee-length coats as well as in the short jacket effects. There are many little braided styles as well as embroidered effects from staple blue materials and brown and tan shades in rougher weaves, prices range from \$24.85 to \$98.85.

COATS

Coats have a most prominent place in style plans for fall. The lines are long and slender and the materials range from the black glossy pile fabrics to the rough Paris La Mode. Many pretty sport styles are to be had and the prices are most attractive. The range is from \$19.85 to \$74.85.

Humphill-Price Co.

Enjoy Yourself!

If You See Something You Want Ask For It!

Lubbock and the great South Plains wants you to have the finest time of your life. We'd do anything (nearly) to make you and help you have that kind of a time. We want you to know that we appreciate getting that Geat Tech College. At your feet we lay our pledge to all Texas that whatever we can do to make our town and section worthy of the geat tribute paid us we stand as a unit to do it.

Be Sure and Visit the Tech College Site

We, Lubbock and South Plains people, know you will be glad when you see what a beautiful plot it is. Sometimes (we hope in the very near future) you will visit our little City and great section again and see your boys and girls proudly walk from the Halls of Texas' Greatest School of Learning!

SANTA FE NEW MEXICO HAS EVERYTHING SET FOR THE ANNUAL CELEBRATION OF FIESTA AND INDIAN FAIR

SANTA FE, N. M., Aug. 28.—The stage is all set for the annual riot of color, panorama of picturesque history and spectacular yearly celebration by the Indians of the Southwest, known as the Santa Fe Fiesta and Southwest Indian Fair, September 3 to 7 inclusive. Five Pueblos, Santa Clara, Santo Domingo, Tesuque, San Juan, and San Ildefonso—are to be present in force to put over a score of the most elaborate and thrilling Indian ceremonial dances ever seen in the Southwest. The Government has given the Indians time from their village labors to devote to making these dances the most and beautiful ever presented at the Fiesta. The Southwest Indian Fair will be bigger and better than ever, held with the co-operation of the U. S. Indian Bureau, and bringing to Santa Fe the cream of the arts and crafts of all American Indians from North Dakota to California. Blankets, beadwork, basketry, carving, silver work, leather, drawing, painting, woodwork and every cunning craft in which the Indians excel.

The most imposing spectacle of the Fiesta, the entry of Don Diego de Vargas and his Spanish conquistadores and priests into the ancient Plaza, will be more brilliant than ever before. It occurs on the first day of the Fiesta, Monday, September 3, "De Vargas Day" and is the chief feature of that day, following the grand formal opening by Governor Hinkle and State officials.

Tuesday will be "Indian Day" starring the Fiesta Frolics and the ever popular Fountain Quaffet of Las Cruces in Spanish and Mexican folk songs and dances under direction of Col. J. D. Bena.

The gifted Princess Tsamoa, the beautiful Indian maiden who has become a permanent part of the Fiesta and will be featured on the program again this year. Her glorious voice and radiant personality have made her one of the favorite of the nation.

Among the Indian dances to be given are the Beer Dance, Buffalo Dance, Basket Dance, Mountain Sheep, Sun Dance, Peace Dance, Comanche Dance, Bow and Arrow Dance, Yellow Corn Dance, War Dance, Navajo Dance, Tablita Dance, Rabbit Dance, Race of the Clouds, Eagle Dance and Matachines.

With three fine new hotels, other comfortable-hotels and rooms, available in the best homes of Santa Fe for the overflow, the New Mexico capital is in better shape than ever before to show her visitors the time of their lives, and every person attending the Fiesta may be sure of a comfortable place to stay and good things to eat. The Chamber of Commerce Fiesta Committee, in general charge, with President Carl Bishop as director, heads a compact and efficient organization this year which is giving close attention to every detail of the performance and every need of the visitor at the one unique annual celebration on the American continent. Reserved seats have been selling rapidly and an unusually large number of guests from eastern cities will be present.

Don't forget the dates—Santa Fe Fiesta, September 3, 4, 5. Southwest Indian Fair and Arts and Crafts Exhibition, September 3, 4, 5, 6 and 7.

urgently, she is understood to be selling her rights of redemption of these jewels.

The "Florentine" is one of the world's most famous diamonds and weighs 139.12 carats. It is valued today at 30,000,000 Italian lire. Its early history is tragic. Four and a half centuries ago a peasant, looting the dead outside the walls of Nancy (France) during the siege of that city by Charles the Bold, Duke of Burgundy, discovered the jewel on the finger of a body which had been half eaten by wolves. The body was that of the Bold Burgundian.

The peasant sold the ring to a Jew for a few silver coins, and through various channels, and at every increasing price, the "Florentine" found its way to the coffers of the famous Borgia family. Thence, in the course of years, and by methods which have always been regarded as of doubtful legality, it reached the Hapsburgs.

In the downfall of the Austro-Hungarian empire, the Italian government claimed the "Florentine" among its share of the Austrian crown jewels handed over under the Versailles treaty, but the Emperor Karl had other views and took it with him when he left Austria hurriedly. Karl used it to raise money, but the Italian government never admitted the legality of his possession of the jewel, and now that Zita is reported to be selling it, the Rome authorities are taking action to prevent the sale.

People just back from summer resorts may enjoy learning one has burned in New Hampshire.

The watermelon crop is short. This is verified by statistics and by dry cleaners.

Italy seeks famous gem from ex-empress

GENEVA, Aug. 27 (United Press)—Rome messages indicate that the Italian government will try to prevent ex-empress Zita disposing of the famous diamond known as the "Florentine", which formerly adorned the family jewel chest of the Hapsburgs.

The stone was pledged, with other jewels, by the ex-emperor Karl, to a Swiss bank, to finance his last ill-fated dash for the Austrian throne, but as Zita needs money

STAMFORD, Aug. 27.—Early last spring a swarm of bees took up their abode in the home of Mr. John P. Donalson, in the west part of Stamford and at the time no one took the matter seriously and in fact, the matter was almost forgotten unless perchance now and then a bee came in too close contact with the family, until last week when Mrs. Donalson discovered that honey was leaking thru the ceiling and on investigation found that the bees had gotten between the upper and lower floor and had stored in this inaccessible place their summer's crop of honey.

When a bee charmer, in the person of Mr. William Fuqua, was employed to dislodge the colony of honey gatherers, he had to destroy the entire tribe of bees before he was able to safely remove the floor and thin to his surprise and Mr. Donalson and family, there was more than 10 pounds of the very finest honey hanging to the underside of the upper floor. Some two years ago lightning struck the house at the edge of the corner board and the junction of the weather boarding their entrance and began their industrious work of accumulating their next winter's supply.

Mr. Donalson was in the West Texas Chamber of Commerce office today and verifies the above as true and adds that the fellow who said "A Cow, Sow and some hens were the salvation of the farmer" left off something very important, as the cow, sow and hen must be watered as well as proper quarters to protect them and be fed, while the bees only require three or four feet of weather protection to make \$25 to \$30 per annum.

Midlothian man well pleased with West Texas

R. P. Burks, of Midlothian, arrived in Lubbock Monday to attend the celebration today.

He is very favorably impressed with Lubbock and commended the people of West Texas for the splendid manner in which they have gone into the celebration of the location of the college showing a spirit of co-operation that is not to be found anywhere outside of West Texas.

Youngest grandmother

DETROIT, Mich. (United Press).—A new claimant for the minimum age record for grandmothers has appeared. This time it is Mrs. Mabel Roosa, 30 years old, of Detroit. Her daughter, Mrs. Edna Babcock, only 14 years old, has presented her with a granddaughter. The youngest grandmother claiming the record before Mrs. Roosa was 34 years old.

Babe Ruth, former baseball player, has started playing again.

London aviator striking for more pay stood his ground and got it.

Bees take up abode in house—family gets honey

STAMFORD, Aug. 28.—H. R. Dorsey, secretary of the Texas Grain Dealers' Association, in a communication to the West Texas Chamber of Commerce advocates the intervention of the Texas Grain Dealers' Association and the West Texas Chamber of Commerce, jointly, in the Oklahoma Grain Complaint case recently filed with the Interstate Commerce Commission, which case is predicated upon the securing of lower grain freight rates between Oklahoma and Southeastern points. The Oklahoma case does not allege discrimination against Texas, but it is the contention of Secretary Dorsey that if in the adjudication of the Oklahoma case as filed, the

Commission should grant lower rates from Oklahoma to the Southeastern states the same reduction should be granted to Texas. The West Texas Chamber of Commerce has acquiesced in the suggestions of the Texas Grain Dealers' Association, and has so petitioned the Interstate Commerce Commission.

West Texas C. of C. asks protest against tariff reduction

STAMFORD, Aug. 28.—In order to effect a West Texas wide protest against effort being made by certain industrial interests in New England and the East to have the United States Tariff Commission lower the duty on cattle and vegetable oils, which would be very harmful to the cattlemen and cotton

raisers of Texas and the Southwest, the West Texas Chamber of Commerce has requested all of its affiliated towns to file protest petitions at Washington with the Tariff Commission. These protests are now being sent in daily. It is expected that more than 250 petitions of protest will be sent to Washington. Each petition protest will contain the names of from 25 to 200 citizens, merchants and ranchmen.

In April, 1916, Congress granted a thirty-day vacation with pay to every employe, both shop and office, of the arsenals of the United States government who had served twelve consecutive months, and this has become the standard vacation for all government employes.

We will have nutting parties soon after nut coal.

SPAIN IS WORRIED OVER ITS PRINCES

HENDAYE, France, on the Spanish border—(By mail to United Press.) Will Spain become a republic some day because of the shortage of kings?

This is the question about which few people of Spain dare talk, that fewer dare believe, and that the newspapers avoid for several reasons, such as lack of information, censorship, etc.

However, the truth is that, although the present King of Spain is not ill, his first son, the Infante Alfonso, Prince of the Asturias and heir to the throne, who was born in Madrid on May 10, 1907, is in very poor health and may not live as long as his father.

The news has leaked out, little by little. It is known that the Prince is suffering from a malady of the spine, which prevents him from walking, except with a crutch under each arm, his body almost bent double.

A pathetic incident occurred recently, when the royal family decided to leave Madrid to go to the north of Spain, where it has summer residences on the seashore, at San Sebastian and Santander. Prince Alfonso was in condition to make the trip by railroad, but what would the crowds say and think when they see him, crippled, he, their future king? How embarrassing it would be for him and others attending the official ceremonies in places where the train stops. On the other hand, it was so terribly hot in Madrid that he could not stay there, and his parents would not leave him alone. Wherefore, the King decided to take his son to Santander, which is about four hundred miles northwest of Madrid by Automobile.

One morning at 5 o'clock a huge torpedo car left the royal palace. It was driven by the King himself, and carried the Prince, a doctor and the chauffeur. After dashing through the towns of Castille and Navarre, the car reached the Miramar palace of Santander at noon.

Prince Alfonso, almost covered with blankets, had passed unnoticed everywhere in the clouds of dust. The King came back to Madrid the next day, and a week later returned to Santander with the rest of his family.

Of course, what the Spanish papers said about the trip to Santander was that the King went with the Prince.

The situation would not be critical if the other sons of the royal family were in better health, but it is known too they are not well. The second, Don Jaime, who is now 15, stammers and suffers from hereditary deafness, for which he receives care from an American doctor.

Don Juan Carlos, 10 years old, although his condition is not as serious as the other two, is weak and does not grow properly for his age.

It is easy then to understand the anxiety in official circles on account of the health of the possible successors to the throne, especially should King Alfonso not survive long. It is not surprising, either, that those who know the inside are wondering what will be the outcome and what further difficulties may arise when Spain loses its present ruler.

SOCIETY

A Shower

Mrs. J. C. Sanders, Misses Clarice Shipman and Esther Stagner entertained with a miscellaneous shower honoring Mrs. Edwin Martin, nee Miss Jewel McDonald.

Mrs. Liff Sanders, home on sixteenth Street was the scene of the enjoyable affair. Pink and white flowers and other bit flowers were laying out the color scheme were seen in profusion.

Guests on arriving were asked to

register in the guest book and later to write a recipe for the bride.

Beneath a lovely bower the bride was seated and there presented with a large basket piled high with beautiful gifts. The basket was borne by two young maidens in pink and white, little Sibyl von Rosenberg and Mary Ann Niblack, niece of the bride.

Mrs. C. C. Sanders gave a toast to the bride as follows: Here's to the bride so blythe and gay

Who starts anew on life's highway Whose winning smile and sparkling eyes Have proven all the while she's a prize desired.

She is possessed with talents and Arts And is also a lover of books But cupid is every busy with hearts So she has changed and learned to cook.

May her life be full of joy and ever free from care, May her pleasures many be and sorrows very rare.

Then here's to the bride, happy, smiling and gay, Here's hoping your star will never grow dim.

And happiness will always be near you.

The bride then responded in a short rhyme: To all my good friends Whose faces I see here, I thank you sincerely Your memory I'll hold dear.

Removed from your midst I must soon be away, But in Mineral Wells you'll always

be welcomed Just as you were.

So now farewell to one and all, And may real blessings forever on you fall.

After viewing the gifts the guests were served punch. Miss Luff Denham delighted the guests with a number of selections on the piano.

Those taking part in the shower were: Mesdames Gassaway, L. H. Simpson, J. A. Phillips, Davie, T. V. McKinney, S. A. Ribble, J. L. Hunt, Garner, C. W. Payne, O. R. Phillips, J. W. Bacon, Zula Guss, Jack Tubbs, W. A. Hood, W. N. Green, J. W. Hooker, T. A. Niblack, A. F. McDonald, Albert Darby, J. W. Pepper, Wesley von Rosenberg, E. A. Shepherd, I. G. Trimble, J. C. Sanders, J. J. Andams, T. A. St. Clair, John Moore, J. K. Shipman, L. O. Burford, J. C. Burns, Misses Etsher Stagner, Modelle Simpson, Betty and Connie Travis of Ralls, Fannie Gillispie, Mary B. Hood, Lottie Mae Cowart Lena Darby, Stella Brown, Alma Moore, Clarice Shipman, Pauline Felker of Eastland and the bride Mrs. E. D. Martin.

Poetry Written by Plainview Girl. The following poetry was written by Katherine E. Malone, age twelve, of Plainview, who is the guest of Mrs. Sue McMurray:

Congratulations, Lubbock, You've worked and you won And we, Plainview, are sure The thing was well done.

The Committee unanimously

Gave it to you Though it made night forty towns

Feel powerful blue. We are ready and want to help

Don't you see, Make a great, great success Of your great jubilee.

We'll come, we'll shout, And sing a song of praise, Just wait and see the dust Plainview can raise.

We, as a whole, Are greatly elated, Three cheers for LUBBOCK

Where the TECH is to be located, Katherine E. Malone, age 12, Plainview, Texas.

ABILENE IS WITH US

The Reporter hopes that a good many Abilene people will attend the Tech celebration at Lubbock Tuesday, and that they will let the crowds know that they represent Abilene. Thousands of people from all parts of West Texas will attend the celebration, and while Lubbock will understand that the reason Abilene does not send a big delegation is because Abilene business men have just visited Lubbock by special train, a good many other places might not understand it. It would look strange to delegations from other towns not to find any Abilene people at the celebration.—Abilene Reporter.

Lubbock Daily Avalanche

Published Sunday morning and every Afternoon except Saturday by

THE AVALANCHE PUB. CO. (Incorporated)

JAS. L. DOW, Editor Neal Douglass, Jr., City Editor J. E. Griffith, Adv. Mgr.

Entered at the Postoffice at Lubbock, Texas, for transmission thru the mails as second class matter.

NOTICE—It is not the intention of the Avalanche to cast reflection upon the character of anyone knowingly, and if through error we should, the management will appreciate having our attention called to same, and will gladly correct any erroneous statement made.

AVALANCHE PUB. CO. SITE SELECTED FOR COLLEGE.

The official locating board has designated Lubbock as the site for the new Texas Technological College. The decision was based upon conclusions drawn from the briefs filed by the thirty-six applicant towns and from an inspection tour extending over twenty-five days.

Farm and Ranch congratulates Lubbock. Even to a larger extent does she felicitate that vast dominion for whose service the western institution has been designed.

and ranch homes of the western part of Texas. It is the men and women, not stone and brick, who make greatness. It is zeal and courage and a generous spirit that are going to put the new institution at the forefront of agricultural education.

It is not alone the ambitious youth of West Texas who are to be blessed. It is West Texas agriculture, West Texas manufactures, West Texas enterprise of every description.

The Plains country is a good place to do these things. Lubbock is 3,241 feet above sea level—high enough, it would seem, for the observing student to catch a true vision of what the West Texas panorama means in terms of opportunities.

With the site selected, West Texans may be pardoned if they indulge in air castles for a while.

ed as a model.—Farm and Ranch.

LITTLE AVALANCHES

The women are seeking equality of the sexes in the courts, while men demand it in the homes.

The politicians are trying to get the people worked up about the straw ballots, but the straws that interest the most now are those they insert into the ice cream soda.

After they get the base ball rules fixed up for another year, the people will be prepared to think about amending the constitution.

The people are making up their minds whom they want for president, but the politicians will decide whom they will have.

As Mrs. Coolidge is reported to be a good cook, no one should refuse an invitation to dinner at the White House for fear he will not get enough to eat.

Scissored Editorial

THE PARKING HOG

Plainview Herald. Even after the City Marshal has gone to the trouble of marking the streets white lines within which to park individual cars, the parking hog pays no attention to the markers.

We've thought some very unpleasant things about the parking hog, but can't express all of them at this time, so we'll present what our friend Homer Steen, of The Floyd County Hesperian, has to say.

Think of the other fellow. Park at the proper angle and close in to the other cars. This means YOU!"

AT THE CHURCHES

Christian Endeavor Cumberland Presbyterian Christian Endeavor Program of the Amarillo Presbytery, to be held at Lubbock, Saturday night, Sept. 1.

Leader—F. W. Groce. Song—All Endeavors. Scripture—1 John, 3:10-24. Prayer—Floydada.

Business Session—Election of officers. How does Brotherhood aid in Christian Service?—Ralls.

The Christian Brotherhood in our Endeavor—Miss Julia Adams, Floydada. What our Christian Endeavor has accomplished—Quannah.

Does Church and Endeavor Work Harmonize?—Robby. Special Music—Parr and Baum—of Floydada.

How Can We Help the World to See the Inner Life?—Mrs. Barney Saxon. What committees in the C. P. E. are essential and why?—John Burgett, Floydada.

Prayer—Floydada. To what extent is our society responsible for the social life of the community?—C. H. Peck, Lubbock. Reading, Kate Styles, Floydada.

Quartet, Peter Shurg. What should be our goal for 1924?—Quannah. Read and Discuss Hebrews, 11:20. Lorraine.

Name and discuss three essential organizations of the church.—E. D. Hurd, Lubbock. Song—All Endeavors. Benediction (The Lord's Prayer in unison).

Those people desiring to park for several hours at a certain space should content themselves by taking a space on a side street and leaving the business sections open for the fellow who wants to drive up for a few minutes, execute his business and depart.

People should have enough respect for their fellow men to try to give them their half of the public conveniences, and not have to be reminded by a big, glaring sign.

DO YOU KNOW?

Q. Is Ty Cobb to be replaced as manager of the Detroit Tigers? R. O. E.

A. It was reported that Bill Donovan was going to manage the Tigers next year, and that Cobb was going to buy into a major league club.

Q. Who is coach of the Yale football team? For how long? W. A. D.

A. Tad Jones is football coach at Yale, and indications point that he will be there some time. He recently became interested in the coat business in New Haven and, apparently, is planning to make his home there for an indefinite period.

A. A tourist tells us the speed limit is often one mile an hour.

SOCIETY

A Shower

Mrs. J. C. Sanders, Misses Clarice Shipman and Esther Stagner entertained with a miscellaneous shower honoring Mrs. Edwin Martin, nee Miss Jewel McDonald.

Mrs. Liff Sanders' home on sixteenth Street was the scene of the enjoyable affair. Pink and white astors and other cut flowers carrying out the color scheme were seen in profusion.

Guests on arriving were asked to register in the guest book and later to write a recipe for the bride. Beneath a lovely bower the bride was seated and there presented with a large basket piled high with beautiful gifts.

Mrs. C. Sanders gave a toast to the bride as follows: Here's to the bride so blithe and gay Who starts anew on life's highway...

Have proven all the while, she's a prize desired. She is possessed with talents and Arts. And is also a lover of books.

May her life be full of joy and ever free from care. May her pleasures many be and sorrows very rare.

Then here's to the bride, happy smiling and gay. Here's hoping your star will never grow dim.

The bride then responded in a short rhyme: To all my good friends Whom I see here...

Removed from your midst I must soon be away. But in Mineral Wells you'll always be welcomed.

Just any future day So now farewell to one and all. And may real blessings forever on you fall.

After viewing the gifts the guests were served punch. Mrs. Lula Deham delighted the guests with a number of selections on the piano.

Those taking part in the shower were: Mesdames Glasgow, J. H. Simpson, J. A. Phillips, Davis, T. V. McKinney, S. A. Ribble, J. L. Hunt, Garner, C. W. Payne, O. R. Phillips, J. W. Hanson, Zula Grass, Jack Phillips.

W. A. Hood, W. N. Green, J. W. Hooker, T. A. Niblack, A. F. McDonald, Albert Darby, J. W. Pepper, Wesley von Rosenberg, E. A. Shepherd, I. G. Trimble, J. C. Sand-

ers, J. J. Andama, T. A. St. Clair, John Moore, J. K. Shipman, L. O. Burford, J. C. Burns, Misses Elsher Stagner, Modelle Simpson, Betty and Connie Travis of Falls, Fannie Gillipie, Mary B. Hood, Lottie Mae Cowart Lena Darby, Stella Brown, Alma Moore, Clarice Shipman, Pauline Felker of Eastland and the bride Mrs. E. D. Martin.

Poetry Written by Plainview Girl. The following poetry was written by Katherine E. Malone, age twelve, of Plainview, who is the guest of Mrs. Sue McMurray:

Congratulations, Lubbock, You've worked and you won And we, Plainview, are sure The thing was well done.

We, as a whole, Are greatly elated. Three cheers for LUBBOCK Where the TECHs to be located.

Katherine E. Malone, age 12, Plainview, Texas.

Social Service Superintendent Here Mrs. J. G. Merritt, Social Service Superintendent of the Ladies' Missionary Society of the Methodist churches of the North-West Texas Conference will deliver a lecture to the ladies of the church at four o'clock Wednesday evening. A large attendance is expected and each lady of the church is urged to attend.

Personals Mesdames Dun Biggers, Aleene King and Wilford Long of Fort Worth, are guests of Mrs. Clara Abney and Sue McMurray.

Misses Mary Doughton and Miss Edith Harrison of Canyon, are house guests of Mr. and Mrs. W. B. Powell at 1202 Avenue N.

Jerry Clayton of Muleshoe, is the guest of Mr. and Mrs. W. B. Powell. Mr. and Mrs. Rex Lotzpeich of Crosbyton spent Tuesday in Lubbock attending the celebration and visiting Mrs. Lotzpeich's parents.

Mr. and Mrs. Paul Earnest were here Tuesday from their home near Logan, attending the Tech celebration.

Mr. and Mrs. W. D. Arnett and daughter, Aleene, from the North Spade ranch, accompanied by Erna Douglass of Littlefield, attended the celebration Tuesday.

John T. Johnson, an official of the Western Windmill Company, is here from his home at Sweetwater. His company has made very extensive developments here, which reflect well upon Mr. Johnson's confidence in Lubbock as a trade center.

Sam Hand and daughter, Laura, are visiting their many friends in Lubbock. They formerly resided here before moving to Seagraves, their present home.

Come to Lubbock!

See the New Dress Suits and Coats

The new fall season presents a wide array of the styles changes that are at once clever and attractive. There are many little touches here and there about these garments that make them distinctive and that are sure to win your favor.

DRESSES

Dresses from silk materials lead in popularity. The color range shows many very new shades that are typical of the fall season. The slender silhouette stressing straight lines feature the new models. Prices range in easy stages from \$19.85 up as high as \$98.85

SUITS

Suits are shown both in long knee length coats as well as in the short jacquet effects. There are many little braided styles as well as embroidered effects from staple blue materials and brown and tan shades in rougher weaves, prices range from \$24.85 to \$98.85

COATS

Coats have a most prominent place in style plans for fall. The lines are long and slender and the materials range from the black glossy pile fabrics to the rough Paris La Mode. Many pretty sport styles are to be had and the prices are most attractive. The range is from \$19.85 to \$74.85

Hemphill-Price Co.

Enjoy Yourself!

If You See Something You Want Ask For It!

Lubbock and the great South Plains wants you to have the finest time of your life. We'd do anything (nearly) to make you and help you have that kind of a time. We want you to know that we appreciate getting that Geat Tech College. At your feet we lay our pledge to all Texas that whatever we can do to make our town and section worthy of the great tribute paid us we stand as a unit to do it.

Be Sure and Visit the Tech College Site

We, Lubbock and South Plains people, know you will be glad when you see what a beautiful plot it is. Sometimes (we hope in the very near future) you will visit our little City and great section again and see your boys and girls proudly walk from the Halls of Texas' Greatest School of Learning!

Medlock's Dairy

SPORT NEWS

HUBBERS WIN PENANT SERIES IN HARD FOUGHT GAME ON THE LUBBOCK DIAMOND TUESDAY EVENING

Dick Morgan again yesterday afternoon proved himself invincible against the Amarillo Gassers when he held them to three hits, and the Hubbers took one of the hardest fought battles of the season over the northern "ball hounds" 2 to 0, giving them the "pie" game of the pennant series, and a win of the pennant of the Panhandle-Pecos Valley League.

The Gassers had a count of four to two when they came to Lubbock on last Sunday, making it necessary for the Hubbers to win three straight over them in order to carry off the pennant. They proved themselves equal in every respect to the occasion, issuing to the Gassers two shutouts in the closing games, both games going by a count of 2 to 0.

Morgan took his fourth straight victory for the series and was seemingly unhittable, giving up only three singles, retiring the visitors as they faced him in practically every inning, and with the exception of the seventh was never in danger. In this inning Farley opened with a single, Lowrance went out Morgan to Mueller, and Battle booted Shaw's grounder, allowing both men on. But Morgan worked steadily, and Burleson and Pipkin both went out on infield balls, retiring the side.

Woodriddle, former Hubber, and who has been undefeated since he left the Hubber camp, although pitching an excellent game, was little wild, walking five men, which coupled with two hits, two of them being doubles, and the locals took a one run lead in the second inning. Battle opened this inning being thrown out Woodriddle, Lowrance, Mueller was walked, and Allen doubled to the right field wall, fielding a double play, one of the crowd overflowing into the outfield, preventing him from scoring. Mueller later scored on a wild pitch.

In the eighth Dick Morgan lead off with a regular double, but the third base line, Jackson followed with a walk. Shepard pitched advancing both men. Sloan then drove a long one to center, which was fielded by Province. Morgan scoring on the play from third, but Jackson was thrown out in an effort to reach third, retiring the side.

One of the largest crowds ever seen in a ball park at this city, was with enthusiastic interest in the entire contest. The game being overflowing the stadium, grounds long before the opening of the game, and taking to the benches and foul lines, which before long were a solid mass of cheering humanity. Many of the crowd were lined across the right field fence, making it necessary to enforce ground rules during the exhibition.

Governor Pat M. Neff, who was present for the Tech Jubilee, tossed the first ball across the platter at 4:03, formally opening the contest, and the battle which gave to Lubbock the honor of flying the pennant of the Panhandle-Pecos Valley loop over the Hub City for the coming year.

The box score:

| Amarillo | | Hub City | | | |
|------------|---|----------|----|---|---|
| AB | R | H | PO | A | E |
| 1 | 0 | 0 | 0 | 0 | 0 |
| Whitehead | 3 | 0 | 0 | 1 | 0 |
| Province | 4 | 0 | 0 | 1 | 0 |
| Farley | 2 | 0 | 0 | 0 | 0 |
| Lowrance | 1 | 0 | 0 | 0 | 0 |

Tournament Singles Goes To Amarillo; 25 Men In Contest

Some of the fastest tennis matches ever seen in West Texas took place on local courts the last two days. Twenty-five men were at the draw yesterday and started in the match in the afternoon. Many of the preliminaries furnished exhibitions of fast tennis.

Results of first round: Waters, Matney, Toler, McCrummin, Edwards, Parker and Fenton, drew byes. Howard defeated Younger 6-3; 6-3. Robertson defeated Clark, 5-7; 6-3; 6-2. Preston defeated Dow 6-3; 13-11. The second set of this match was one of the hardest fought sets of the round. Hart defeated Mowery, 1-6; 6-2; 6-2. Bush defeated Felty, 1-6; 6-4; 6-1. Bennet defeated Bourland 6-2; 6-0. Elder, Bush and Ragan were through the first round by default.

Second round: Waters of Lubbock defeated Matney of Canyon 6-3; 6-4. Howard of Colorado City defeated Toler of Sweetwater 6-3; 6-2. Preston of Littlefield defeated Robertson of Sweetwater 6-1; 4-6; 6-1. Bush of Amarillo defeated Hart of Littlefield 6-2; 4-6; 6-3. Ragan of Colorado defeated W. E. Bush of Amarillo 6-4; 6-4. Walter Elder of Amarillo defeated J. L. Bennet of Colorado 0-6; 8-6; 7-5. McCrummin of Lubbock defeated Edwards of Tahoka 6-1; 6-1. Fenton of Tahoka won over Parker of Roscoe by default.

Third round: In this round the matches became tighter every match furnishing fast tennis. Howard of Colorado defeated Waters of Lubbock 8-6; 3-6; 7-5. This was a very tight match. Mr. Howard seemed to have the edge on placements and finally won. Bush of Amarillo defeated Preston of Littlefield 6-0; 7-5. Elder of Amarillo defeated Ragan of Colorado City 7-5; 6-1. McCrummin of Lubbock defeated Fenton of Tahoka 6-1; 6-0.

Semi-finals: Bush of Amarillo defeated Mr. Howard of Colorado in straight sets each giving an exhibition of real tennis. Score 6-3; 6-4. Elder of Amarillo defeated McCrummin of Lubbock 6-1; 6-0.

ADVENT CAMP MEETING CONTINUES AND MANY PEOPLE COMING

The interest in the Adventist camp meeting continues to increase, and additional arrivals are constantly coming upon the ground. Evangelist B. E. Beddoe, of Washington, D. C., who arrived at the camp Sunday, delivered a very interesting discourse Monday night on "The Missionary Program of Seventh Day Adventists." He stated that in accordance with the plan of the denomination to carry their message to all the world, two thirds of their 7,500 ministers and other workers are found in countries outside of America. These workers receive their training in 114 colleges and academies operated by the denomination, and their message is being taught in more than 150 languages. The 200,000 members, scattered over the face of the whole earth contribute ten million dollars annually for its support and advancement of their cause, as a per capita of \$50 each per year.

The regular services at the Auditorium were dispensed with for the day, in order that the official speakers' program for the Tech Jubilee might be carried out in the auditorium. At 7:30 tonight, the regular preaching service will be resumed. Evangelist B. E. Beddoe will speak upon the subject announced, "Court Week in Heaven."

The only commercial radio telephone link in the world, which for the past three years has been handling telephone business between Catalina Island, 30 miles off the coast of California, and the wire lines of the Bell System, has been replaced by a submarine cable. The license of the radio "talk bridge" expired on August 1st, and the Department of Commerce has requested that its operation be discontinued making its wave lengths available for broadcasting.

The capacity of the ether for radio messages is distinctly limited and when such services as broadcasting, ship-to-hore telegraphy and telephony, radio compasses, etc., which can be handled only by radio have been accommodated, the available wave lengths of the ether are about exhausted. Consequently, the change from radio to cable in a case like Catalina Island, where the cable is not only feasible but more economical than radio, is for the good of the service.

At the 11 o'clock hour, Prof. A. W. Peterson, of Oklahoma City, the Union Conference educational secretary, gave a stirring talk on the principles of Christian education, answering the important question: "What does a Christian Education Mean to Our Youth?" The Adventists have developed their own system of education, which is operated and maintained by the denomination wherever their work is sufficiently established.

At the service last night at the camp, Evangelist B. E. Beddoe, spoke to an interested audience upon the subject: "The Law and the Gospel." Prof. Straw, of Keene, Texas, conducted the devotional service in the Auditorium this morning.
