REBELS BLOCK RAIL LINE

Interests Seeking New Railroad West

POST INTEREST CONFERS WITH LOCAL CAPITAL

NEW ROAD WOULD LEAD FROM LUBBOCK WEST INTO COCHRAN CO.

S. B. Bardwell, manager of the Post estate on the plains of Post City, passed through Lubbock yesterday en route to Cochran county. Intimation was given that he would have a few minutes talk with W. L. Ellwood, who has been confined in a local hospital for several weeks, upon his return from Cochran county late yesterday afternoon.

Those who are working toward securing a railroad outlet west from Lubbock extending to a point somewhere near the center of that county, believe that Mr. Bardwell's conversation with Mr. Ellwood yesterday possibly has something to do on the future plans of building such a road. It is known that both the Post estate and W. L. Ellwood are very much interested in securing the road and it is reported they are working toward securing the necessary bonus to make building possible immediately. Mr. Hawk, president of the Post estate is also expected in Lubbock within the next few days.

It is widely known that the bonus proposition for the road out of Lubbock has been under consideration for some time and actual work has been done on the proposition. One concern, it is stated, owning a large acreage which would be affected by the railroad, has held back, and now parties owning that body of land have recently disposed of it to a Mr. Reed of Austin. It is stated that the new purchaser is willing to go into the bonus proposition and will likely meet Mr. Hawk when he comes to Lubbock to take the matter up.

Local parties who have been working on this railroad most eagerly were highly elated over prospects yesterday and they are confident that the proposition will be put through immediately.

INTERNAL OBLIGATIONS VIRTUALLY REPUTIATED

BERLIN, Jan. 18.—Germany has virtually repudiated her internal obligations, including war loans. Minister of Justice Emminger ruled Friday that state and community obligations cannot be collected at face value in gold.

This means that state and city loans, as well as war loans will be met with paper currency. A bond of 1,000 gold marks, worth \$250, could therefore be paid with 1,000 paper marks—of no value at all.

The decision is equivalent to repudiation of the obligations, as no one would bother to collect the trifling sums they would receive.

TENTATIVE PAVING PROGRAM MADE WHEN CITY COUNCIL MET WITH THE ENGINEERS HAWLEY & ROBERTS FRI.

A meeting of the city council was held at the city hall Friday afternoon.

While it has been pointed out that all business pertaining to the paving work is being looked into, and nothing definite can be done for some time yet, a thorough discussion of the problems confronting the commission was gone into with Engineers Hawley and Roberts present.

The main topic of discussion before this meeting was that of determining what type of paving will be used. This, too, will be discussed further at a future meeting of the commission when more data has been looked into.

The members of the commission were unanimous, as were the members of the advisory committee which is composed of leading business men, that the city will not pave any residential streets more than feet wide, and that if the property owners desire the pavement to be wider, they will be obliged to pay for the additional paving. Broadway is expected in this case and will be paved forty feet wide to the west line. It was pointed out by a member of the commission that all paving done by the city will reach from curb to curb, and where the streets are originally wider than the order for paving calls for, the curbs will be extended out from the property lines to the paving. This will insure the

ALL PREVIOUS ENROLLMENT BROKEN AT CANYON NORMAL

CANYON, Texas, Jan. 18.—All previous enrollment records for the West Texas State Teachers' College have been broken, according to announcement of the administrative authorities. At the end of enrollment for the winter term the records show an enrollment of 914 and only 124 of that number are in the training school. Up to the present date the enrollment of college students has exceeded that of last year by 100 persons.

BOND WOULD PREVENT ATTACK ON NEIGHBOR

CHICAGO, Jan. 18.—"It must be terrible to be a sheik," With this comment Judge Jacobs placed Mrs. T. C. Lickey under peace bond of \$1,000 to prevent her from attacking Miss Esther Trepton, the girl next door, for flirting with Mrs. Lickey's husband. The women just went let me alone, Lickey told the court. Miss Trepton is a pretty, young business woman. Lickey is 50 years old.

GIANT GASSER IS DISCOVERED AT ARTESIA

ROSWELL, N. M., Jan. 18.—Sufficient gas to supply every city and town in the Pecos Valley has been discovered by the Illinois Producers Company, drilling across the Pecos river, east of Artesia.

The gas was discovered at a depth of 1820 feet and estimates on the amount of gas the well is now producing have been placed at from 6,000,000 to 10,000,000 cubic feet every 24 hours.

The roar of the gas escaping from the well can be heard for a distance of a mile and a half. This is the largest amount of gas ever found in a well in the Pecos Valley and drillers and operators are confident that as they go deeper even a greater amount of gas will be encountered. It is expected that the gas from this well will be piped into Artesia shortly and eventually into Roswell, Carlsbad and other towns in the Valley.

MOLLA MALLORY BARRED FROM U. S. OLYMPICS

NEW YORK, Jan. 18.—Finally barred from playing in the Olympic tennis matches as an American, Mrs. Molla Mallory, former national champion of this country, probably will resume the Norwegian colors which she wore in competition in the Olympic games in 1912 at Stockholm.

The United States Lawn Tennis Association makes the announcement of Mrs. Mallory's definite rejection as an American entrant by ruling of the Olympic committee. The reason is that an Olympic athlete may appear for only one nation, regardless of changes of allegiance. Mrs. Mallory became an American citizen when she married.

HELD AT SWEETWATER FOR DEPOT ROBBERY

SWEETWATER, Texas, Jan. 17.—Tom Hughes of Pioneer has waived examining trial and is being held under \$2,000 bond here for the grand jury on a charge of highway robbery in connection with the recent robbery of the Santa Fe depot in Sweetwater. Hughes was arrested in Cisco early in the week and brought to Sweetwater.

SWEETWATER GIVEN MORE FREIGHT CARS

SWEETWATER, Texas, Jan. 18.—S. G. Dickerson, division freight agent, Gulf, Colorado & Santa Fe railway, has advised the West Texas Chamber of Commerce that daily freight service will henceforth be maintained from Sweetwater for points destined to Slaton and beyond, one car containing freight destined to Lubbock and beyond and one destined to Plainview. In addition local cars moving on Monday, Wednesday and Friday will take care of shipments destined to points between Sweetwater and Southland.

FORD RENEWS BID FOR MUSCLE SHOALS

DETROIT, Jan. 18.—Henry Ford's offer for Muscle Shoals still stands. The automobile manufacturer has wired members of the house military affairs committee to that effect.

"My only interest in Muscle Shoals is to preserve for the American people a source of nitrates that is not in the hands of international financiers," Ford said. "A source of nitrates which is developed wholly in the public interest is necessary to our farmers in time of peace and to our national defense in time of war."

A telegraphic appeal to Ford from Gray Silver, American farm bureau federation representative at Washington, prompted the manufacturer to renew his offer. One or two unimportant items were the only changes made from the original bid made by Ford, it was said.

Silvers said that "in no fight in Washington before has there even been such a powerful combination of power, fertilizer, chemical and banking interests banded together as now are lined up in a determined fight to defeat acceptance of your offer by congress, and this fight is now in the open with these interests against you and the farmers."

Silvers charged that Wall street and international bankers were back of the fight and were asking "the house military committee to sell Muscle Shoals at auction and knock it down to the highest bidder."

Declaring that offers made by power and chemical interests to pay \$100,000,000 for Muscle Shoals concealed an attempt to swindle the government, Silver said, that "for every dollar of increase in their interest payments to the government over that offered by you, they propose to charge the farmer practically \$4 in his fertilizer bill at nitrate plant No. 2."

Silvers said the General Electric Company, the Union Carbide Company of Niagara Falls, and the American Cyanamid Company have combined in a bid for Muscle Shoals and that this offer is already in the hands of Secretary Weeks.

TEXAS CAN BUY U. S. BONDS WITH SURPLUS

AUSTIN, Texas, Jan. 18.—State monies now credited to special funds in the treasurer's office may be invested in government bonds, the attorney general's department ruled today.

There is now about \$5,000,000 in these special funds, which can be expended only for the purpose the legislature designated them. They have no connection with the general revenue fund, which now has a deficit of \$5,000,000.

ARE YOU INFORMED ON SOUTH PLAINS' DEVELOPMENT?

Do you know whether there is a postoffice in Cochran county or not? What is it called? When will an election be called to organize Cochran county? These questions and others will be answered in an article dealing with South Plains rural development in the Sunday Morning Avalanche. There is other information too, such as how many different tracts are being cut into farms, the prices, terms, depths to water, proximity to railroads, etc. Better reserve your copy.

U. S. TO PROTECT OWN INTERESTS

SECRET UNDERCURRENT BELIEVED LEAD CLOSER TO INTERVENTION

By RAYMOND CLAPPER.

WASHINGTON, Jan. 18.—Behind a screen of secrecy, this government is taking measures to protect American interests which are threatened by the Mexican revolution.

Dispatch of warships to Tampico to keep that Port open for oil shipments to the United States was discussed at the cabinet meeting and a series of conferences lasting all thru Friday. There were strong hints from high officials that a decision to send warships had already been made, but no official statement was issued.

At the same time, the objection of Acting Governor Davidson of Texas, has postponed temporarily, at least, the plan of this government to aid Obregon by permitting a detachment of 2,000 federal troops to pass thru American territory and re-enter Mexico for a rear thrust against the revolutionists.

Oil Interests Confer.

The situation precipitated by the Mexican revolution has reached such a critical stage that a delegation of 20 oil men, representing all of the leading oil interests with holdings in Mexico, conferred for an hour and a half with Secretary of State Hughes. They are concerned over the blockade which the de la Huerta revolutionists have put into effect at Vera Cruz and Tampico, and fear that oil shipments to the United States are about to be interrupted.

Intervention Believed Near.

A feeling of apprehension over the Mexican situation is growing in congress as each succeeding development brings the United States closed to armed interference. Because of the seriousness of the outlook members are guarded in their comment until the facts are obtainable.

There is much criticism of the way in which the state department has moved forward by steady steps since the announcement that arms and ammunition would be sold to Obregon to help him suppress the revolution. That was followed by an embargo forbidding private individuals in the United States from shipping arms to the revolutionists. The de la Huerta faction was warned that vigorous action would be taken if he permitted his blockade at Vera Cruz to interfere with American commerce.

It is recalled that an unusual complement of marines was taken south with the fleet which is now maneuvering at the Panama Canal. At the time of their departure, there was a feeling among the "leather necks" that they might see action before they returned home.

Many in Washington believed Friday night that orders had already gone out from the navy department to the fleet commander at Panama to send a detachment of warships to Vera Cruz and Tampico, and that the orders were being kept secret for the time being. Previously the armored cruiser Tacoma was sent to Vera Cruz but floundered on a reef just outside the harbor. She was sent ostensibly to furnish radio communication, after the cable station at Vera Cruz had been interrupted, presumably by revolutionists.

Confer in Secret.

After the cabinet discussions, Secretary of State Hughes conferred with Assistant Secretary of the Navy Roosevelt. Hughes saw the oil men. Afterwards he went back to the White House. About 3 o'clock word was circulated that Hughes and Secretary of the Navy Denby would have formal statements on the Mexican situation within an hour. Later both announced they would have

(Continued on page 8)

TROOPS MAY PASS THROUGH TEXAS

By United News.

AUSTIN, Texas, Jan. 18.—Objections of Acting Governor T. W. Davidson to the movement of Obregon troops across Texas were believed to have been overcome Friday night, when representatives of the Obregon government announced they had abandoned their original plan of taking the troops through the Laredo.

They asked permission to transfer the soldiers from the New Mexico line to El Paso, over 18 miles of Texas territory. Davidson is inclined to favor the project, it is said.

One Killed in Plane Crash.

SANTIAGO, Chile, Jan. 18.—One man was killed and two injured when a hydroplane crashed at Valparaiso Friday.

SICKNESS HOLDS UP TESTIMONY DINES CASE

By United News.

LOS ANGELES, Calif., Jan. 18.—Horace A. Greer, Mabel Normand's chauffeur, accused of attempting to kill Courtland S. Dines, wealthy Denver oil man, expected Friday night to be free on bail within the next few hours.

Friday, Greer's bail was reduced from \$10,000 to \$5,000 after the trial at which only one witness, Edna Purviance, testified.

Mabel Normand has suffered a relapse and could not appear, her attorneys said.

Dines cannot leave the hospital until next Monday, Dr. Guy Cochran told the court.

Mrs. Edith Burns, Miss Normand's companion, is also ill, attorneys said, but will probably be in the court room Monday when the case is resumed.

Justice Hanby ruled that, despite all the illnesses, the hearing would convene and then adjourn until Monday. Entering the court room attired in a sports suit, the blonde star of Charlie Chaplin's comedies, was hardly recognized by the crowd. When she answered Justice Hanby's questions concerning the party in Dines' apartment, Miss Purviance was plainly flustered.

"I was in the bath room going from the bath room to a mirror in the bed room," she testified, "when I heard three shots. They sounded like the cracking of a whip. I don't remember exactly what I did."

"I saw Mr. Dines with his hands on his chest. He had been shot and he said—"

Miss Purviance was interrupted by Clarence Colin, Greer's attorney, who objected to testimony as to what

TWO SOLDIERS KILLED AND A WOMAN INJURED

ATTACK INCOMING MUNITION TRAIN CAUSING WRECK IN YARD

By United News.

MEXICO CITY, Mex., Jan. 18.—Federal forces are pursuing the rebel army of General Maycotte, following a battle at El Carmen, between Esperanza and Tehucan, in which 200 rebels are said to have been killed.

Meanwhile Mexico City thrills to news of a sensational rebel attack on the Laredo-Mexico City train, in which two soldiers were killed and a woman seriously wounded.

Rebel troops under General Cavazos have blocked the railway line at Aragon, 85 miles from Mexico City. When the train bound from Laredo to Mexico City pulled in, it was stopped. Passengers were ordered to disembark, and were then relieved of valuables, the rebels taking about 40,000 pesos from the travelers.

The fact that the passengers had left the train prevented a disaster. A military train, manned by Federal, approached the station behind the Laredo express. Rebels fired on the train and the engineer put on all speed, driving ahead. He crashed into the rear of the passenger train standing at the station, telescoping the last Pullman car.

With the two trains locked together, the rebels hurriedly spiked the artillery pieces carried on flat cars of the military train, and destroyed ammunition. Apparently their hand was small, for they made no attempt to remove the valuable munitions.

A freight train was also held up by this band.

Passengers made light of the incident, beyond regretting delay in reaching Mexico City and although wild reports are current here as to the military importance of the attack, the government does not express anxiety. The Laredo train left here on time Friday, and will depart at Marisale if the wreckage at Aragon has not been cleared.

The war office expects no further trouble from the Cavazos forces and the fact that no passengers cancelled their reservations for Laredo indicates public confidence in the official declarations that the route is safe.

Dispatches from Tampico report that the rebel blockade of the port is still in effect, and that traffic has been entirely suspended. No American ships have appeared off the port.

Three Courses Open.

EL PASO, Texas, Jan. 18.—Three courses are open to Mexican federal officials for the transportation of troops from Sonora to Chihuahua.

(Continued on page 8)

REQUESTS MADE OF CONGRESS WOULD REMOVE PRACTICALLY EVERY TAX NOW IN EXISTENCE

By United News.

WASHINGTON, Jan. 18.—The little tax show at the capital is drawing to its close.

The last of the actors will appear Saturday. For several days they have inquired their way to the house ways and means committee room and told their grievances.

They have been so numerous that their adoption would mean that there would be no tax bill.

All the committee now has to do is to frame a bill—before February 11. The work will begin Monday.

These petitioners have asked mostly for repeal of taxes that the outside of the pale of any general tax reduction program. They have dug up taxes that had never come into the minds of members of the committee and others that have been considered but regarded as impossible of relief now. The committee was asked Friday to abolish the tax on leather hand bags,

on the ground that it costs the government more to collect it than is received.

A spokesman for the "poor" man wants the tax on billiard tables and bowling alleys abolished, to lighten the burden on the "poor man's club."

Down with taxes on candy, cries another, who brought in samples before the committee.

Augustus Thomas, arbiter of the theatre, asked that tax on theatre admission be removed, as it was resulting in "sterilizing" the intelligence of the nation. He made an interesting plea for "art," which was challenged by former friends on the committee.

Members have estimated that the various changes in minor taxes requested would increase the government's revenue by \$350,000,000, which would wipe out the surplus and still leave out the reduction of normal taxes and other cuts asked by Secretary Mellon.

12-REEL PICTURE OF WEST TEXAS WILL BE MADE

SWEETWATER, Texas, Jan. 18.—W. H. Clack, vice president of the Pacific Film Co., of Culver City, Cal., arrived in Sweetwater Tuesday to lay preliminary plans for the staging of a 12-reel, super-picture entitled "The Prodigal of the Lone Star."

Clack came here from Gonzales, San Antonio and other Texas points where he has been "on location," looking over the ground and preparing for his company to take a large number of Texas scenes.

Much of the actual picture will be "shot" in and around Sweetwater where the company, including approximately 40 well known film characters, will spend five weeks. The cost of the production is estimated at \$350,000 with more than 3,000 people taking part.

The picture deals with Texas during the early days and especially with Sweetwater and the Panhandle. It has a historical background and covers a period of time from 1833 to 1890.

Wade Hampton Clack, the author, stated that it required five years for him to complete the scenario and judging by advance notices of various dramatic critics, who have edited the work it will rival even the largest productions. The book will be off the press within three months.

Clack is himself a Texan, having been born on the edge of the Plains where he spent most of his youth and later engaged in ranching. He takes a great deal of pride in the fact that he knows Texas and is able to depict its characters and re-establish scenes that will carry old-timers back to days of the long ago.

SNYDER BOY SKIN GRAFT. ED; IS DOING NICELY

Bob Ritchie of Snyder, whose right arm and forearm was badly mutilated in an accident at a Snyder gin two weeks ago, following which he was rushed to a local sanitarium for attention, underwent a skin grafting operation Friday afternoon and all indications are that the wound is doing nicely at this time.

Three brothers of the injured man, and one of his friends contributed skin for the operation, in which some 40 square inches of skin was used.

The arm was caught in the saws of the gin while Ritchie was at work, and before the machinery could be stopped the flesh had been torn from the hand and arm almost to the shoulder, and his condition for a while was considered very dangerous due to the loss of blood and also to the fact that dust from the gin settled on the wound before he could be taken from the gin.

Ritchie will be able to be at work again after a few weeks, it was announced Friday afternoon.

RALLS MAN RECOVERING FOLLOWING OPERATION

S. S. Copeland, of Ralls, who underwent a very serious abdominal operation at the Lubbock Sanitarium Tuesday, will recover, according to a report from the physician in charge Friday.

Copeland's condition was such that the members of the family, fearing that he could not recover, were summoned to be with him just prior to the operation.

RAILROAD MEN ARE MEETING AT SAN ANTONIO

SAN ANTONIO, Texas, Jan. 18.—Railroad men representing 30 lines of the United States gathered here today for the annual convention of the Passenger, Ticket and Freight Agents' Association of Texas which opens tomorrow.

More than 500 of the 673 members of the association are expected to be on hand when the meeting is called to order by Elbert Blair, southwestern freight agent of the Chicago and Alton Railroad, president of the association.

Special cars brought the men to San Antonio. A side trip to Monterrey, Mexico will be one of the features of the gathering provided the revolution in Mexico does not make the excursion dangerous.

The convention program includes invocation by Reverend Hugh McClellan; welcoming address by Mayor John Tobin; response by Elbert Blair. Other speakers will address the convention and questions of interest to the delegates will be discussed.

A reunion of the organizers of the association who met first in San Antonio 18 years ago, will be one of the features of the program. There were 13 original members of which number three are dead and two have retired. The first convention met January 6, 1906.

BOYS AND GIRLS CLUBS BEING ORGANIZED IN DAWSON COUNTY

LAMESA, Texas, Jan. 18.—County Agent, C. T. Watson and Home Demonstration Agent Miss Erath Garrison are busy organizing the boys and girls into agricultural and live-stock clubs and into home economics and home demonstration club work, however in 1923 the entire work was directed by the County Agent, at the beginning of 1924 Miss Garrison was employed as Home Demonstration Agent and will have supervision over the girls' and women's work.

POLICE AFTER DOPERS IN HOUSTON THIS WEEK

HOUSTON, Texas, Jan. 18.—Houston soon is to be the scene of one of the most drastic clean-up "dope" raids in the history of the state.

J. E. Wells and J. H. Fleming, recently appointed narcotic agents for Houston, have established headquarters here and are laying plans for the campaign.

Every establishment under suspicion of selling narcotics illegally will be investigated and their owner charged with violating narcotic laws if found to be trafficking in "dope."

The attack will center on dope smugglers, it was learned. The federal agents plan to close every avenue of dope smuggling into Houston from the ship channel, Galveston and the Mexican border.

INCOME TAX REPORTS

PUBLIC ACCOUNTANT AND AUDITOR T. B. ZELLNER

Room 103—Phone No. 208 Security State Bank & Trust Company Building.

as they discuss the terms of the bill now being formulated.

When the house ways and means committee settles down next week to draft its bill, democrats will be invited to participate in the discussion.

The purpose of this method is to line up enough democratic support inside the committee while the bill is being drafted to assure passage when the fight moves to the floor of the house.

After all, what the republicans want is tax reduction and they will consider their efforts successful if they can push some measure through even though it contains certain features of democratic origin. It is a question of playing with the more conservative democrats or else forcing a coalition of democrats and progressive republicans which would kill the whole proposition.

10,000 EGG INCUBATOR BEING INSTALLED IN SWEETWATER

SWEETWATER, Texas, Jan. 18.—With the arrival of a ten-thousand egg incubator in Sweetwater Wednesday, the poultry industry of this county is beginning to take on definitely enlarged aspects.

The big incubator is being financed by the Poultry Breeders of the county and is for the purpose of relieving them of the burden of hatching their own stock. It will be available for use by anyone.

It had not been definitely decided Wednesday just where the big machine will be located, according to G. A. Lackey who is in charge of the proposition. It is possible that he will take it on his farm south of town if no more suitable location can be found.

The big machine cost approximately \$2,000 laid down in Sweetwater. It is of the very latest type and by ingenious automatic controls, the whole 10,000 eggs can be turned at once. It is very compact, occupying a floor space of 7x10 feet and is 7 feet high. Kerosene is used for fuel.

A meeting of the Poultry Breeders of Nolan County has been called to meet today in Sweetwater. Officers will be elected for the coming year and plans for the annual show initiated at that meeting.

Buy your groceries today—at Martin & Wolcott; it means a big saving to you. Read our Saturday Specials ad in this paper.

DAWSON COUNTY COTTON CROP MAY REACH 25,000 BALES

LAMESA, Texas, Jan. 18.—There is yet about 500 bales of cotton in Dawson county to be ginned. A few more days of warm weather and the 1923 crop will be gathered. Dawson county will make between 22,000 and 25,000 bales from her 1923 planting. This amount of cotton has meant prosperity to the citizenship of Lamesa's trade territory. It is estimated that there will be at least 50,000 acres more planted to cotton in 1924 than was in cotton in 1923. Estimating the low yield this means that Dawson county will probably produce between 35,000 and 40,000 bales in 1924.

UNUSUAL LETTER RECEIVED FOR TRANSMISSION THROUGH MAELS

DALLAS, Texas, Jan. 18.—Most unusual of all letters that have passed thru the Dallas postoffice was one received recently. It was addressed to "Mr. Jesus Christ, Chicago, Ill."

Investigating postal authorities found that a "Holliness Worshiper" living in a small community near Dallas, had mailed the letter.

PRESBYTERIANS WILL LEAVE FOR AFRICAN FIELDS

AUSTIN, Texas, Jan. 18.—Reverend and Mrs. W. F. McElroy and Edgar C. Priest were expected to leave here today for St. John's, New Brunswick, where they will sail with six other Presbyterian missionaries for Africa on January 30.

The missionaries will sail on the steamship Minnedosa to resume their duties in the missionary field on the dark continent.

Priest spent the holidays with friends and relatives in Eusk and Austin. He goes to Africa as business utility agent and will be stationed at Bihangu Kabinda, under contract for three years.

CUT-OFF MOTHER'S NOSE TO AVOID MARRYING WIDOW

By the United Press FRANKFORT, Jan. 17.—To save himself from marrying an aged and ugly widow, Franz Murn, 21, sliced off his mother's nose while his prospective bride was striding, hastily down the aisle toward the altar for the wedding ceremony.

Murn's mother bullied him into agreeing to marry the widow Pauline Bernart, 63, owner of a rich farm. The young man agreed to marry the widow in order to restore the Murn family fortune.

But when he stood by the altar on his wedding day and got a look at the bride, he lost his nerve. He decided on quick action to avert the coming martial doom. The first thing he thought of was to grab the dagger that all Bavarians carry and cut off his mother's nose. The horror-stricken widow dashed out of the church and the wedding was called off.

BUILD A HOME!

LIBERTY SCHOOL ERECTS SHED AT SCHOOLHOUSE

Liberty community has just completed a nice shed, 10 by 60 feet, for the stock of children who ride to school. The cost of the shed was approximately \$150 and was raised partly by a box supper held at Liberty school house. The balance was raised by subscription. Idalou was very generous in her help and donated liberally, which was very much appreciated. The construction of shed was donated by Messrs. Hightower, Parks, Tomlinson, Newton, Cox, Emery and Fred. A shed like this is needed at every rural school and our community appreciates the untiring efforts of its citizens in movements of this kind.

LUBBOCK'S GROWTH NOT TOO RAPID

There are still a few of the tribe of the old lady who upon seeing her first steam boat exclaimed: "They will never start her." She stood and looked at the huge craft, and finally when the big smoke stacks began to belch forth a cloud of smoke and the steam began to shoot forth from the mighty engine and the old ship began to move up the river, she exclaimed: "They will never stop her." There are people in Lubbock today, very few however, who live on excitement. For years when the town was struggling along trying to get a real foot hold they were heard often to say: Lubbock can never make a city. These same fellows are now excited about the way the town is growing. They say the town is growing entirely too fast. It can't keep it up, and that there will be a back-fire to it. No don't trouble yourself about that, dear friends, Lubbock is growing just simply because she has to grow. Lubbock is growing from natural causes. It is not oil or gas boom that is building Lubbock. It is the development of the country round about us that is causing Lubbock to put on this wonderful growth. Fact of the business the city of Lubbock is not growing any faster than the surrounding country.

The entire South Plains is enjoying a wonderful development, which as we have explained before is due to the changing of the big ranches to farms, and while the program is all set and many more ranches will be divided into farms, still they are not yet offered for sale, but those that are being offered now are being sold rapidly, and farmers are moving on to the property, and will begin to improve the land. Many have bought who are not yet here, in fact a large percent of them are not, and this will mean that a large number of people are not here yet, who will buy their supplies at this place.

A trip to the country will reveal astonishing development. If these excited individuals will take the time to investigate their fears will be forever removed, and that can settle down to a peaceful sane program, and enjoy life. No brother, Lubbock is not growing too fast, she is not overstepping the conditions of the program, and is not getting top heavy. A special article is being prepared for Sunday's edition of the Morning Avalanche which will bring to you much information regarding the development of not only Lubbock county but other counties of the South Plains, which mean that Lubbock is right in the center of this wonderful development. The Avalanche has never favored building a town in a section of the country that could not or was not being developed in proportion to the growth of the town, and we are confident that there need be no need for alarm along this line at the present time.

When the Santa Fe railroad system sees fit to turn loose seventy-five or a hundred thousand dollars on improvements you may rest assured that there is evidence of substantial development, and a real need for the expansion program that they are putting on.

FEDERAL RESERVE BANK WARNS AGAINST ALL COTTON

Farm and Ranch has heretofore commented upon the seriousness of the feed shortage in Texas and has expressed the fear that high priced cotton will induce farmers to again increase cotton acreage at the expense of a well balanced farm program. That a shortage of feedstuffs and food products that should be raised on the farms is considered a serious condition by bankers who are called upon to finance the farmers, is indicated in the January report of the Federal Reserve Bank of Dallas from which the following is quoted:

"The present situation of farmers is not wholly free from disquieting aspects. The high prices realized for cotton offer the farmers a distinct temptation to branch out; to secure more land than they can well cultivate or pay for; to produce more cotton and less feed, meat and provisions. In such circumstances the necessity for a careful policy in dispensing credit in 1924 is imperative. The shortage of feed in a great many sections of the district is more acute than it has been for the past several years. In fact, this is the most serious problem that confronts the farmers and bankers of the Southwest on account of its importance as a decisive element in the production cost of the 1924 cotton crop. A further enlargement of the cotton acreage in 1924, at the expense of the feed crop acreage, would undoubtedly prove a costly economic mistake, on account of the loss that the farmers would sustain in sacrificing a large portion of their margins of profit on the cotton crop because of heavy purchases of feed. That it is unnecessary to incur this loss seems obvious, since by intensive culture methods they have it in their power as a rule to increase the production of lint cotton per acre without sacrificing their home-grown supply of essential feedstuffs."

The man with an annual income of \$10,000 is no better off at the end of the year if he has to spend it all for things he considers necessities, than the man who makes \$2,000 a year and gets along on it, not nearly as well off as the man who has been able to save a few dollars, no matter

how small his income. The man who stakes his all on cotton will have to spend his cotton money for feed and food, providing he makes any cotton. If he doesn't, he is out a year's labor and expense. Nothing can beat a well balanced crop program in the long run even here in Texas where cotton is produced in such large quantities. Feedstuffs and food crops may not bring in a large amount of money when you have them to sell, but their purchasing cost is something almost prohibitive.

POULTRY ON EVERY FARM

Farms without good poultry are more common in the Southwest than they should be. Notwithstanding the fact that it is estimated that the number of chickens and turkeys in the Southwest has more than doubled since the 1920 census, there are yet many farms that either have no poultry or are stocked with scrubs. Every farmer with purebred poultry cannot become a successful breeder, but every farmer should have a flock of purebred poultry to provide his family with eggs and meat, and perhaps, a slight surplus production, depending upon the availability of good markets. Well selected purebreds are more apt to be good producers. Attention to culling will reduce the number of boarders and make any flock profitable to the family.

The number of successful breeders of poultry is increasing. Those who have made a study of the business are enlarging their plants and meeting the ever increasing demand. Many have had obstacles to overcome, but patience and study have put them over the top. It takes time, patience, attention to details and constant study and watchfulness to make the poultry industry a success. Few farmers who have spent a lifetime in crop production or in livestock raising are able to get down to doing the detail work of poultry raising. Generally, however, some member of the family will supply this deficiency to the extent that a good flock can be maintained as a side line to other farm ventures. At any rate, every farmer who becomes interested in purebred poultry will find that it pays even though the industry is not developed to a standard where chickens are in demand for breeders or eggs sold for hatching. Let those who are best fitted in temperament do the breeding and hatching. If most farmers produce their own needs with a little surplus for pin money, all will be well.

LUBBOCK AS THE RAILROAD CENTER

For many years the people of Lubbock have striven to make Lubbock the railroad center of the South Plains. Up to the present time they have succeeded in doing this, and there is every indication that more railroads will come to Lubbock, and other roads will be built from this point extending farther west, but this is no time for the people of this community to lose sight of the necessity of cinching several other roads that are pointing westward in the direction of Lubbock. To go to sleep at the switch now would be dangerous for Lubbock, and it might mean disaster. Lubbock people, and Lubbock organizations should be wide awake to the importance of getting for Lubbock some important connections with eastern points, also the western outlets that are important to the development of the Lubbock trade territory. Lubbock is the logical point, this is acknowledged, but this does not necessarily mean that these roads are a dead certainty for Lubbock, and other towns are offering inducements and are working on the job to secure them. Lubbock has not grown to the point yet that railroads are going to buy right of ways here, as important as she has become, and as great as we would like to feel that she is. The Avalanche would sound this note of warning, and have the leaders of the progressive program get actively on the job and get in touch with every railroad that is likely to come this way within the next few years.

ADOPT A PLATFORM OF KINDNESS

If only people could be made to believe that one of the surest passports to success is kindness, they would find their way through life smoothing out astonishingly. It always pays, and it always is a passport that lies in ones own hand and may be had with a wee bit of trouble, an infinitesimal amount of repression. It will do so much for anyone, get so many favors and make the pathway so much easier and more pleasant that from a very selfish viewpoint, if no other, one would do well to adopt a platform of kindness.

There are gracious people who count their friends by the score, friends won by the power of kindness. There are cross grained creatures who bewail their friendless condition when all the time the trouble is of their own making. Most of us know salesmen who act toward customers in such an overbearing and insolent manner that the exasperated purchaser shakes the dust of the establishment off his shoes and never returns.

On the other hand there are salesmen who hold their customers year after year through quiet courtesy and endeavor to please. The proprietors know these, and other proprietors come to know of them—therefore there is always a place and always a little better salary offered.

It will make things so much more pleasant, and will bring friends and all that makes life worth living. Unkindness is always repelling, and there never yet was anybody who was won by an ugly demeanor, nor a snippy manner, nor a grouch that never wore off.

Little Avalanches

A bigger hotel is the crying need of Lubbock today.

Lubbock must have another postoffice building, or the present one may have competition.

If you are inclined to want to cuss the public officials just ask to be allowed to perform their duties for a day, that will cure any symptoms of profanity.

BANK FAILURES NECESSITATE GOV'T AID

WASHINGTON, Jan. 18.—An unusual number of bank failures, many of them in the middle west, has forced the administration to consider steps to meet the situation. During the long cabinet session Friday, it was decided to authorize the War Finance Corporation, and the Comptroller of the Currency to extend such help as is possible.

President Coolidge feels that one cause of the situation is that there are too many banks. In North Dakota, there is one bank for every 800 inhabitants, a ratio which he regards as indicating that some sections of the country are over banked. Bankers in Chicago, Minneapolis and St. Paul have been consulted already by treasury officials and relief measures are being planned.

The situation is so serious that hundreds of persons in South Dakota are transferring their money from banks to the postal savings bank at Sioux Falls, S. D., are at the rate of \$20,000 a day, and Huron, \$6,000 a day is being deposited.

A delegation headed by Senator Norbeck, of South Dakota, will discuss the bank situation with Coolidge Saturday. Norbeck has been informed by the South Dakota bankers of an extremely serious condition which is tying up funds of many small banks.

Some light on the banking situation has been provided by John Skelton Williams, comptroller of the currency under the Wilson administration. He has been three times as great as under the Wilson regime. In 1923 alone, there were 540 bank failures, nearly twice as many as occurred during the last five years of Wilson's administration. Of these failures, 70 were among national banks, more than in the whole eight years between 1913 and 1921.

NEW EQUIPMENT ADDED TO MANUAL TRAINING DEPT. AT CANYON

CANYON, Texas, Jan. 18.—Thru the purchase of a modern blue-printing machine this week, Professor R. A. Terrill, head of the Department of Manual Training at the West Texas State Teachers' College, has greatly increased the capacity of his Manual Training department for architectural work.

The addition of an up-to-date Buckeye printing machine will make possible the printing of large abstracts, town plots and other plans requiring large drawings, besides speeding up the production of large sectional drawings. Much practical designing is done by Professor Terrill's classes. The American Legion Club Home and the Canyon City Hall was planned by the students with the aid of the instructor.

ROAD BONDS TO BE ASKED FOR IN JONES COUNTY

ANSON, Texas, Jan. 17.—Two good roads elections were ordered for portions of Jones county Monday by the commissioners court.

The first election ordered is the "re-titling of Anson vicinity for a road east and west through the county on a designated highway and the bond issue called for it \$200,000. The other election was a result of a petition from the north part of the county calling for the improvement of approximately 150 miles of roads. The amount asked for in the election is \$600,000.

The elections were set for different days. The Anson project will be voted on March 1, 1924, while the Stamford-Hamlin-Leuders issue will be voted on March 8, 1924. Sentiment is very strong in Anson for the good roads movement and the leaders are very optimistic since the election has been ordered. Sentiment is perhaps just as strong in the other vicinities.

If carried, the amounts to be expended will be considerably in excess of the amount voted because of the state and federal aid features. There are three designated highways in Jones county. There is one east and west through the county through Anson, another north and south from Haskell county via Stamford and Anson to Taylor county and another from Leuders to Stamford. The one east and west highway through Anson is in the Anson good roads scheme and about 40 miles will be in the other section. It is expected that the usual grant of \$2.00 for \$1.00 will be granted these highways.

STOLEN CAR IS FOUND IN CANYON NEAR LUBBOCK

On finding a Ford automobile in the canyon east of Lubbock Friday morning with the water boiling in the radiator, two small boys decided they had something worth telling the officers about.

They had no more than made their report to members of the police force when a message was received from Plainview that a Ford had been stolen there, and instructed them it was headed toward Lubbock. The car fitted the description given by the Plainview officers, but due to the fact that it had been abandoned, only the car was recovered and no arrests were made.

CROSS CURRENT PREVAILS IN STOCKS

NEW YORK, Jan. 18.—The stock market Friday manifested a tendency toward cross currents which are expected to dominate throughout the month of January.

This tendency, without doubt, will prevail largely among the industrial issues, and the trend will be due to the adjustment of values of various stocks to the prevailing industrial developments.

The last few days have been almost devoid of constructive industrial influences. Some were evident Friday, but they were of a minor character and had no definite bearing on the basic trend.

Specialties again came to the front, and some of the lower priced rails showed to advantage. St. Paul was again well bought, crossing 70 still in the ascendant, Lehigh Valley in response to the appearance of "rights," under the segregation plan on the curb market, at prices ranging from 33 to 31 1-2.

The industrial favorites were generally depressed under the profit taking and a bit of hesitation over the industrial outlook. While the main list is expected to react until the end of the present month, a number of special issues certainly will go to higher levels.

The mercantile reviews for the week were not unduly optimistic. Trade and industry tend to quicken gradually as January advances, but weather and other seasonal conditions make for considerable irregularity in the pace reported.

Neither the volume of general consumption nor the rate of production have changed very much so far in the new year. Says Duns, Demand still lags in certain trades, it is added, as in leather and foot wear, but in some others, as in iron and steel, and to a moderate degree in textiles, there is moderate buying.

Low priced oils were again to the fore in the trading Friday. Issues with Mexican connections bore up better on the expectation that something would be done to help the government below the Rio Grande. Generally, however, the oils were reluctant to show appreciative values due to the pending prospect of consolidation.

SATURDAY SPECIALS

For Saturday only we will offer our patrons extraordinary values in groceries—do your shopping early today and take advantage of these big values.

Fresh Country Eggs, dozen	50c
10 lbs. Sugar	\$1.00

GREB RETAINS MIDDLEWEIGHT CROWN OVER WILSON

WILSON IS SHOWN SHORT GREB'S CLASS

By WESTBROOK PEGLER
United News.

RINGSIDE, MADISON SQUARE GARDEN, NEW YORK, Jan. 18.—Harry Greb of Pittsburgh, who won the middleweight championship of the world from Johnny Wilson at the Polo Grounds last fall gave Johnny a chance to win it back in this ring Friday night but Wilson was still several miles short of Greb's class.

Greb won the decision after the fight had gone the full distance of 15 rounds and even Wilson himself appeared to have no doubt that justice had been done. They met at the middleweight limit of 160 pounds and it had been supposed that Greb, who is naturally a light heavyweight, would be seriously weakened by the reduction of his poundage, as he was the first time they met.

Greb was surprisingly lusty, however, and was scampering from rope to rope at the end of the fight with the speed of a bike racer.

Wilson relied on a plunging motion of both fists at the body in the early part of the fight he had the baffling style of Greb pretty well solved. He picked off many of Harry's schemeless rushes and when Harry tried his long overhand swings at the head they were blocked off by Johnny's wrists or shoulders. Until about the seventh round Wilson was doing the better fighting and if he had been able to hold the pace he would have won.

Wilson came out for the eighth with lead in his shoes and dragged around patiently under much punishment. He never attained any more and when Greb came whirling in like a twister down a dusty road, Johnny had little heart to defend himself. If Greb had had any force behind his blows he would have smashed Wilson down and out, for he battered him, slapped, hammered, poked and cuffed him with a most insulting disregard for Wilson's listless counters.

Eleven thousand customers came to the party, contributing \$50,737, of which Greb was said to have received a guarantee of \$27,000.

Wilson carried rather heavy backing into the fight as he had beaten several tough mangers up Boston way since he lost the title, and although he was the most despised champion in all fight history when he held the title, he drew a loud roar when he entered the ring at 9:40. He seemed to be more popular as a challenger than he ever was as a champion.

SHOCKER WITHDRAWS PLEA AGAINST ST. LOUIS BROWNS

By United News.
CHICAGO, Ills., Jan. 18.—A financial settlement proposed by the St. Louis Browns induced Urban Shocker to withdraw his plea for permission to become a free agent, according to belief prevalent here following announcement Friday that the controversy had been adjusted.

The \$1,000 fine imposed on the star when he left the Browns last season and back salary are understood to have been paid Shocker, Commissioner Landis understands that St. Louis reimbursed the pitcher, he said.

Shocker, with his wife, called on Landis Friday and withdrew his petition, announcing that he had reached an agreement with the club management. The difficulty developed out of Shocker's demand that he be allowed to take his wife on an eastern tour.

PIRATES NEGOTIATING FOR SHORTSTOP MARANVILLE OF BOSTON BRAVES

By United News.
BOSTON, Mass., Jan. 18.—The Pittsburgh Pirates are considering an offer of the Boston Braves for Rabbit Maranville, the clever but temperamental shortstop.

Whether the deal will go through is problematical but it is known that Vice President Emil Puchs of the Braves made President Dreyfuss of the Pirates an offer for the Rabbit while Dreyfuss was in New York last Sunday for consultation on the schedules.

Maranville, who it is understood, will give up his place in the Pirate line-up next season to young Glenn Wright, the former University of Missouri and Kansas City star, would probably be used at second base on the Boston team, alongside of Manager Dave Bancroft.

PLANS COMPLETE FOR BOUT HERE NEXT WEEK

Billy Londos, welterweight wrestler, who hails to the Hub City from Amarillo, but who recently came to Texas from Chicago, has cast his lot in local sportdom. He says that he is now open for bids in the mat realm, and bars none that are within a reasonable range of his weight.

He has completed arrangements with local officials for the use of the community auditorium on next Friday night, and although he has not closed up with an opponent for this match, several bids are pending, and Londos says that a good program can be looked forward to. Chief among these bids is a match with Cal Farley, Amarillo welterweight, and who claims the championship of the A. E. F. in his weight.

Londos recently met Farley at Amarillo, at which time Farley was awarded a decision over him, but he says that he is not satisfied with the decision, and is therefore issuing another challenge for a match here. Whether or not this match can be effected for next Friday remains to be seen, but efforts are being made in this direction.

Londos is a Chicago product. He was born in that city August 5, 1898. In speaking of his history he goes on to say: "When I was two years old, my parents being Greek by birth, returned to their native land, taking me with them, but when I was 13 years old I returned to the dear old U. S. A. alone. I secured a job with the Western Electric Co. of Chicago."

"My brother, Jim Londos, who holds the Greek heavyweight championship, and is recognized as a strong contender for Strangler Lewis' honors, came to Chicago and encouraged me to take up wrestling. I specialized on the mat game and made good progress, working for a time on the road with my brother, and eventually horned into the professional class."

He says that he has been in about 250 matches with men of his own weight and slightly heavier, and has lost 35 of them.

Fresh Country Eggs for 50c a dozen—want some? Phone 309.

WESTERNERS DEFEATED IN FIRST CONTEST OF DOUBLE BILL BY THE CANYON YEARLINGS AT CANYON

CANYON, Jan. 18.—In the first contest of a double bill here, the Lubbock high school Westerners met defeat tonight at the hands of the Normal Yearling quintet 16 to 6.

The local lads drew first blood in the opening quarter when they hung up a total of eight points, while the visiting cagers were only enabled to count by one free toss at the hoop. Opening the second quarter, the Westerners breezed in with a much stiffer defense, and held the Yearlings scoreless, and at the same time gradually were overcoming the lead taken by the locals.

An awful burst of pep was again shown by the visitors in the third quarter, and again the Yearlings were unable to count, but in the final accounting the locals, evidently realizing their predicament, took the bits in their mouth and came back with an almost unheard-of defense, counting eight points and taking a lead which the visiting lads could not approach.

Hill, for Canyon, was the outstanding star of the occasion, ringing five field goals, and sending three free losses through the basket, for a total of 13 of Canyon's 16 points. Barnes, for the Westerners, also figured in the spectacular work with his heavy defensive attacks.

The line-up: Lubbock: Forwards, Hensley and Castleberry; Center, Haney; guards, Barnes and Hankins. Subs: Cates for Haney; Edwards for Cates.

Canyon: Forwards, Hale and Brown; center, Hill; guards, Laws and Sanders.

Referee: Lockhart, Canyon.

JOHNNY DUNDEE FACED WITH BLINDNESS

By United News.
NEW YORK, Jan. 18.—Johnny Dundee, who has withstood the punching of the hardest battlers of his weight for the last 15 years, appeared in the Cauliflower garden Friday wearing rubber tired spectacles, evidence that the thumping about his head had at last damaged his vision.

Dundee said his eyes were suffering only from a slight strain. However, that is the way blindness began to creep on several other well known battlers who have been forced to retire from the business during the last few years.

Dundee said he really needed his glasses only when reading. A germ of news was concealed in this statement, too, for it was the first intimation that boxers were taking to the receiving end of literature, although many of them have flourished as authors in the past.

Dundee fights Pal Moran in the Garden February 1, at 135 pounds. Thus Dundee's featherweight championship will not be involved.

CARPENTIER PROBABLY MEET MACON HI SCHOOL LAD

By United News.
MIAMI, Fla., Jan. 18.—Georges Carpentier, the Frenchman, and Young Stribling, Macon high school boy, will meet in the fight ring here if plans being made by Edward Douglas, local promoter, materialize.

Douglas has started negotiations for the bout during Carpentier's proposed visit to this country.

BAPTIST PASTOR IS NAMED IN DIVORCE

By JAMES McCLAIN.
United News Staff Correspondent.

CHICAGO, Jan. 18.—The Rev. Carl D. Case, pastor of the fashionable Oak Park Baptist church, will attempt to prove in court that he never "kissed or made love to" Mrs. Albert R. Leland, wealthy and ardent worker in his church.

The minister, who is 56 years old and a grandfather, is named as co-respondent by Leland in a divorce suit based upon his wife's confession of an "affair" with the Rev. Case.

Indignation at these charges brought against their pastor, deacons and congregation of the church have joined the Rev. Case in his fight to clear his name. Mrs. Leland's confession is branded as "preposterous and without foundation." It is unfounded and the result of the woman's hallucinations, they claim.

The infatuation of the middle aged church worker for the preacher dates back more than a year, although it was not until recently that her husband extracted a confession, which led to his suit for divorce. The affair, however, appears to have been a church scandal for several months, upon which the deacons deliberated behind closed doors frequently.

Judge Charles M. Foell, who has signified his intention of granting the divorce on the basis of evidence contained in a 14-page confession made by Mrs. Leland, will hear the

MIDDLEWEIGHT EASILY DEFEATS BRITISH CHAMP

By United News.
BOSTON, Mass., Jan. 18.—Jack Malone, classy St. Paul middleweight, easily won the decision over Roland Todd, British champion, in their ten round bout here Friday night.

The brilliant Jock, considered by man to be Harry Greb's most logical challenger, carried the fight to Todd from the start.

In the second round he floored Todd with a right hook.

Malone was Todd's master in practically every round of the fight. The were weights were announced as Todd 157 and Malone 155.

In the semi-final bout Dick Finnigan sprang a surprise by winning over Joey Fox, former featherweight champion of England.

pastor's story, probably Saturday, before taking any further action.

The pastor in his petition to the court declared that he "was never guilty of indiscretion" with Mrs. Leland; and that he "never kissed nor put his arms around her, nor took any liberties with her whatsoever;" that he "never at any time made love nor talked love to her, nor discussed sex matters with her"

The only letters he ever received from Mrs. Leland pertained to church matters and were opened and read by his wife, the minister claims.

His wife stayed up all night New Year's eve to write the story of her love affair, Leland claims. When this document was presented to the court, the judge read it, blushed, coughed a couple of times and withheld it from public inspection.

SAYS BECAME PHYSICIAN AFTER THREE LESSONS

By United News.
WASHINGTON, Jan. 18.—Harry T. Brundige, St. Louis newspaper man, retold the sensational story of how he became a full fledged physician in three lessons before the senate diploma mill committee Friday.

The first witness in the inquiry into the nation-wide issuance of fraudulent medical diplomas, Brundige astounded the investigators with the hard facts of the situation.

He told how he arranged through Dr. Robert Adcox of St. Louis, to become a chiropractor without going to school. After three lessons, lasting but a short time, from Dr. Florence Barra of St. Louis, he was given a diploma from the Progressive College of Chiropractors of Chicago, for \$89.50.

The astonishing fact that the diploma mills had been in operation for more than 11 years was disclosed by the newspaper man.

IN HARNESS BUSINESS 22 YEARS AT FORT WORTH

FORT WORTH, Texas, Jan. 17.—Following the craft of his father, Albert Zabel has manufactured and sold harness in his shop on Houston street here for the last 22 years.

"The business is not what it used to be," says Zabel. "Now the only trade for serviceable leather goods comes from Montana, West Texas, Oklahoma and Mexico."

The popular demand now, he says, is for the fancy English and army type saddles without safety horns.

Zabel well remembers Winfield Scott. Scott used to buy a new set of harness every three years from him. "I've sold lots of saddles to the late Captain Burk Burnett too," he says.

COLLEGE CO-EDS TEST ENDURANCE STRENGTH

EVANSTON, Ill., Jan. 17.—Which is the more healthy—the girl from the west or her sister from the east?

The Sunflower state has won first honors for the west in an endurance contest which will settle this absorbing question to the satisfaction of Northwestern university co-eds.

Myruth McCoy of Coffeyville, Kansas, walked out into the chilly waters of Lake Michigan until the waves came above her knees. Then she sat down on a cake of ice.

Her opponent, Miss Alma Rodenberg of New York, waded in up to her ankles, stopped, squealed and retreated hastily to the beach, a fire and warm clothing.

Both wore bathing suits, while cheering co-eds, bundled in big fur coats to cut the sting of zero weather, watched from the shore.

C. C. HORNSBY HAS BUILT HOMES IN LUBBOCK WHICH WERE SOLD ON PLANS THAT COULD BE EASILY MET

C. C. Hornsby announced Friday that the sixth home he had built this season was to have been finished Friday evening, and that workmen had started moving dirt preparatory to building an addition to the C. C. Hornsby Machinery & Supply Company building.

While the residence just completed yesterday is the sixth for this season built by Mr. Hornsby, it makes a total of thirty two or thirty three homes built here in all by him during the past four years, all of which have been sold on easy terms.

"Many who bought these homes are about to get them paid out. They are good citizens, the kind of young men and women Lubbock may depend on, and they are needed here, but possibly could not have been so comfortably situated unless their homes had been purchased on easy payment plans, and we were pleased with the opportunity to help Lubbock grow to this extent," Mr. Hornsby said.

Lubbock is growing.

BIG SPRINGS IS A GROWING CONCERN

W. W. Rix, of Big Spring, and a member of the Rix Furniture Company which has stores at Lubbock, Big Spring and Lamesa, is here helping the force in the local store for a few days.

Mr. Rix stated that the business men and farmers of Big Spring and vicinity are very optimistic over their present financial condition, which is reflected in the volume of business that is being done there.

The deposits in the Big Spring banks have neared the three million dollar mark, which is the very biggest showing in deposits made by those banks.

A brick building in the business district is under construction at this time, and a recent bond election authorized the issuance of bonds to provide for the construction of a \$35,000 addition to the Big Spring High School.

On the 12th of February the city of Big Spring will let a contract for the construction of a sewerage system to cost \$75,000. This improvement will be made just as soon as it is at all possible after the contract has been let, and will be a great benefit to Big Spring.

POSEY

There seems to be quite a bit of complaints about bad colds, most every one has suffered from an attack, but so far no serious illness has occurred.

School is progressing very nicely now. The house has been completed and the primary teacher is teaching in one room, Mr. and Mrs. Stephens are living in the other.

Mr. C. C. Thornton's twin brother and also an other brother from Henderson county, have been visiting here the past week. One of the brothers is a preacher and preached at the school house Sunday afternoon and again Sunday night. They left here for a visit with their mother at Memphis, Texas.

Last Friday afternoon the basketball team from Acuff came over for a game. We understand the results were in favor of the visiting team. There were games for both boys and girls.

The Community Club met at Mrs. C. C. Fine's Wednesday afternoon. A quilt was quilted to be given the West Texas Orphans Home.

J. L. Benton, and W. C. Bennett are attending the Farm Bureau convention at Dallas this week.

G. C. Casey of Portales, N. M., has been visiting his sister, Mrs. Fine and while here had Dr. Hutchinson remove an eye, that was injured during the war, and has since given him so much trouble that in order to save his other eye had to be removed. We are indeed thankful that we have doctors that are competent to care for all ailments, without having to leave home for treatment.

Mr. and Mrs. Snell of Post were visiting Mrs. Snell's parents, Mr. and Mrs. Robert Maker, Sunday.

Mr. and Mrs. Robinson of Amarillo were visitors at their cousin's, W. E. Bennett's last Sunday.

Mrs. Conner and family were dinner guests at the Thornton home Sunday.

Mr. and Mrs. Rogers of Lubbock attended church at Posey Sunday afternoon.

A few more days of sunshine and most all the cotton will be gathered. Some of the farmers have already begun listing their land, preparing for a bumper crop this year.

O. R. Patterson is shipping feed here from Texico, Texas.

Several if not most of the farmers are having to buy grain to make this year's crop.

MOORE BROTHERS RACKET STORE TO BE MOVED HERE

H. L. Willeford, proprietor of Willeford's Grocery, is closing out his grocery stock, and that building will later be occupied by Moore Brothers Racket Store, which will be moved from Shallowater, and will be cared for by J. G. McCarroll, who has been manager of the store at Shallowater.

Mr. Willeford will concentrate his efforts in looking after the construction of three modern five room homes on west Tenth street.

PRES. HILL OF CANYON NORMAL EXPECTS BIG SUMMER ENROLLMENT

CANYON, Texas, Jan. 18.—President J. A. Hill, of the West Texas State Teachers' College believes that more people will seek the invigorating climate of Northwest Texas as a place to do summer school work in 1924 than at any other previous time. Already preparations are under way to take care of the large number

of students who will be in Canyon. A bulletin describing the summer school and summer normal work which will be offered is in progress of making. Both the summer normal and the summer school will open on June 4; the summer normal will close with state examinations on August 4, 5, 6 and 7. The summer school will close August 26, after two terms of six weeks each.

L. F. Sheffy, who is doing work in the University of Chicago, R. P. Jarrett who is at Geo. Peabody Col-

lege at Nashville and J. L. Dufflot who is working at the University of Chicago are heads of departments now on leave of absence, who will be back at their posts in June. Miss Edna Haines of the kindergarten section of the department of education and Miss Marion Witt, of the English department will return for the summer; Miss Haines has been studying at Columbia and Miss Witt at the University of Wisconsin. Plans are being made to bring to Canyon for the summer school

some of the best known educators in the United States who will offer lectures and conduct conferences. The administrative authorities of the Teachers College believe that the attendance will far outreach that of last summer when it was approximately 1700 students from more than a hundred counties of the state.

"I Sure 'Poured it on' Those Lubbock Guys"

Yes sir! All in the world I had to do was to get a bunch of old "automobile wrecks" together, slap a dollar's worth of paint on them, slip a little graphite into the motors so as to make 'em run smooth and, Oh! Boy! I got THE CASH!

Now here I am in Fort Worth, Dallas, Wichita Falls, or any other town where old automobiles are plentiful, with a harvest of profits, and those poor old Automobile dealers out at Lubbock who are so silly as to invest many thousands of dollars in display rooms, etc., paying out their hard-earned money in taxes, in donating to things that will make their town better, while I dropped in and reaped the "jack" without bothering with investment, taxes, etc.

My conscience hurts me only when I stop to think about some of the sales I made and how those fellows who bought the cars will be disappointed when they really know the truth.

WHY PAY TAXES! WHY INVEST! Just get a vacant space and pour it on 'em today and leave tomorrow.

Legitimate automobile dealers in Lubbock who are anxious to protect the interests of the automobile buying public published the above with hopes that the man "from somewhere, with nothing" will not work Lubbock as sometimes it has been worked.

LAMESA OFFICIALS ARE INSPECTING PAVING FOR THEIR CITY

LAMESA, Texas, Jan. 18—Mayor Jesse Walker, W. S. Moore, C. H. Mc-

Cormick and County Judge J. R. Williams have just returned from a tour of paving inspection. No definite contracts have been made as to the kind of paving, several kinds were inspected and it is probable that another trip will be made at an early date in order that definite conclusions be made and the contract let. The paving bonds have not been sold yet, bids will be received up until January 25th. The school bonds and the paving bonds will be offered for sale on the same date.

The Sophomore class of the Lubbock High School will give an oyster supper at the Army Building Friday night at 7:30 o'clock. Orchestra music will be furnished during the supper hour, and fifty cents a plate will be the charges. This is a class benefit and you are urged to attend. 69-1

HOUSE ADOPTS RULE CHANGE PETITION

WASHINGTON, Jan. 18.—The democratic-progressive coalition has won its fight to abandon "gag rule" in the house after a five days campaign.

Following an all-day debate Friday the house finally accepted the last reform, a rule allowing a bill to be called from committee after 30 days upon petition of 150 members. The vote was 253 to 114. Democratic and progressive leaders were highly satisfied with the rule finally adopted.

Regular republicans, led by Representative Tilton, of Connecticut, tried to defeat the last referendum in an eleventh hour rally. They were beaten and afterward the whole rules revision resolution was adopted by unanimous consent. Its other outstanding provisions are: Repeal of the Underwood rule, which practically prevented amendment to revenue measures on the floor. Abolition of the "pocket" veto, by an amendment requiring the chairman of the rules committee to report out a rule for a bill three days after the rules committee had framed it. A rule is necessary to determine the method of handling legislation. If the chairman does not report the rule out in three days, another member of the committee is designated nine days thereafter to report the rule. This amendment was to remedy a situation such as arose when a chairman of the rules committee in the last house held back several bills from the floor until the end of the session. Three minor amendments were adopted: Raising the personnel of the new veterans committee from 17 to 19 members; prohibiting a rule reported from the rules committee from going into effect the day it is reported, except by a two-thirds vote of the house and preventing the circulation of a petition for calling out a bill. Such a petition must be placed in the house chamber or some prominent place for signature.

TENTATIVE PAVING PROGRAM IS MADE BY CITY COUNCIL

(Continued from page 1) paying being uniform. While it is impossible for the commission to announce just what streets will or will not be paved, the following tentative program has been outlined and the engineers instructed to prepare a chart of the probable cost of this paving and report to the commission at a later date. This program is only tentative and the commission reserves the right to change it in any way that may be necessary.

Pave Avenue H north to railway 40 feet wide; Broadway east to railroad 40 feet wide; Avenue I to 19th street 30 feet wide; Main street to Baptist church 72 feet wide, and 40 feet wide from the Baptist church to west line of old town section and 30 feet wide from there west to the end of the street; Avenue Q from 19th street to K. Carter school; 17th street from Avenue I to Avenue Q. It was also voted to enlarge the business district pavement on 13th street from Avenue G to Avenue J; then on Avenue J from 13th street to Broadway; Avenue J from Broadway to 10th street; 10th street from Avenue J to Avenue H; Avenue M from 19th street to 7th street; 7th street from Avenue M to Avenue Q. The fact that this program is only tentative was stressed by the commissioners because they do not yet know how this program will fit the amount of money to be used on the paving project, and many meetings will probably be held before a definite program can be mapped out.

THAT ISSUE WILL KNOCK 'EM COLD!

Simpson, the electric man was an early visitor to our office yesterday morning and bought a considerable number of copies of the Morning Avalanche. He says "That issue will knock 'em cold. I want to send a batch of them to people away from here." More than fifty copies were bought for that purpose Friday. The Morning Avalanche is every day in every way getting better and better, says the people of Lubbock.

REBELS BLOCK RAILROAD LINE

(Continued from page 1)

hua, now that Acting Governor T. W. Davidson has refused permission for their passage to Juarez, Mexican consul General Ruiz stated Friday.

"The best of these is for the troops to entrain in Arizona and be carried to the Mexican border near the El Paso smelter, eight miles above the city and then march to Juarez," Mr. Ruiz said.

"The second best plan is for the men to entrain at Columbus, N. M., 73 miles west of El Paso on a direct line and from there march to Juarez in event the El Paso authorities did not like the idea of entraining near the smelter.

"The third is for a march from Sonora to Chihuahua across the chain of mountains similar to that of Villa when he transferred his force from Juarez to attack Agua Prieta several years ago.

Columbus was the scene of the Villa massacre in March, 1916, that led to an invasion of the Southern Republic by American troops under General Pershing in an effort to capture the bandit.

UNITED STATES TO PROTECT OWN INTERESTS

(Continued from page 1)

nothing to say. Likewise the oil men emerged from the state department conference with sealed lips.

There is a growing feeling among many senators and congressmen that the administration has been hasty in becoming entangled with the Mexican internal situation and that a mistake was made in actively supporting Obregon.

There is a disposition to draw a sharp line between siding with any particular faction in a Mexican internal disturbance and protecting American lives and property in Mexico. The reason for aiding Obregon was that the United States, having recognized his government, desired to assist him in repelling the revolutionists, a reason which was severely questioned by a number of senators.

PLANS ARE MADE FOR MEETING DEMOCRATS

NEW YORK, Jan. 18.—Fight as they will over the candidates and policies, members of the democratic party along this section of the eastern seaboard are agreed in one respect—the national convention at Madison Square Garden this summer will be the most stupendous success within memory, so far as the arrangements are concerned.

"It will be the greatest ever," was the announcement of Cordell Hull, chairman of the national committee, after he and his aides had inspected the Garden and became acquainted with the changes which Tex Rickard promised to make in the hall.

Hull said he was completely satisfied with the alterations which Rickard planned and believed the present prize fight chamber would be converted into the most inspiring convention hall that ever looked to the speeches and cheers of either political party.

The enthusiasm manifested by Hull and members of the democratic arrangements committee was heightened when Rickard explained how he would extend the balconies of the garden so it would hold 9,000 more persons. This will bring the total seating capacity from 18,000 to 27,000.

The arrangements committee will remain in session here until Saturday night. After Hull's return to Washington, George F. Mara, former secretary to Homer Cummings will remain in New York with offices at the Garden to continue arrangements. Mara was one of the leaders in arranging for the San Francisco convention. Before concluding their session Friday, the democrats arranged for space at the Madison Square hotel, adjoining the Garden, where the committees on rules, resolutions, credentials and permanent organization, will have their headquarters.

Three committees were appointed with the following chairmen: Press, Clark Howell, Georgia; transportation, Walter Moore, Alabama; badges, Mrs. Emily Newell Blair, Missouri.

The Waldorf-Astoria was selected as headquarters for the democratic committee during the convention.

New York's political party will cost the city just \$500,000, a figure set by the Merchants Association. Already \$200,000 has been pledged and the rest is expected to come with little effort. A large sum will be realized in the distribution of tickets to the convention.

Tex Rickard promised Madison Square Garden would be ready June 1, for the exclusive use of the democratic national committee. Rickard said fight promoting would be suspended on that date.

AGREEMENT IN IRRIGATION REACHED

EL PASO, Texas, Jan. 18.—Water users along the Pecos river in New Mexico and in West Texas have reached an agreement on the division of the river waters for irrigation purposes which will be a working basis for the commission.

It is this: Vested water rights in 77,000 acres in New Mexico and 28,400 acres in Texas will be undisturbed. Over and above those requirements, water will be divided equally, "according to acreage irrigated."

C. T. Pease, representative of the United States reclamation service on the river commission, took the view that vested rights in New Mexico include decrees in process of perfection and it is proposed to put about 50,000 acres more of New Mexico lands under irrigation and cultivation.

This additional acreage includes about 20,000 acres more at Carlsbad, 10,000 more at Fort Sumner and some near Hope. Mr. Pease also expressed doubt as to whether four acre feet of water would be enough to raise crops on New Mexico lands.

SICKNESS HOLDS UP TESTIMONY IN DINES CASE

(Continued from page 1)

had been said unless the actress had seen Greer in the apartment.

Justice Hanby sustained the objection because Miss Purviance had not seen the chauffeur.

"What did you do when you saw Mr. Dines holding his chest?"

"We helped him into the next room, Miss Normand and I," she answered. "I believe Miss Normand was in the bedroom with me when the shooting occurred."

Further important evidence as to whether Dines and Greer had quarreled was overruled. It is expected that all important witnesses will be present when the hearing is resumed.

Homer Lynch, employed as Miss Normand's chauffeur before Greer told reporters Friday of warning Greer against Dines. Miss Normand, Lynch said, relied upon him to get her away from parties which lasted too long.

"When the time comes, you just come in and get me," Lynch said Miss Normand told him. He described a scuffle he once had with Dines, which was given as the reason for warning Greer.

Milton Cohen, the star's attorney, explained Miss Normand had visited the Sennett studio Thursday and returned home late in the evening, "completely broken down."

SOCIETY NOTES

Blue Bird Shower Honoring Bride.

On Monday evening Misses Irma Pryor and Novella Richmond delightfully entertained in honor of Mrs. Ralph Bedford, a recent bride, at the home of the former 1212 Ave. M. The rooms were made beautiful by the use of numbers of blue birds and pink ribbons artistically arranged.

On arriving the guests registered in a lovely painted bride's book. After each one received and read a slip of paper on which was written her future, a telegram was delivered to Mrs. Bedford with the following instructions: "For aid and assistance in feathering your nest. Let blue birds lead you to the end of your quest." This she promptly did and at the end of a line of blue birds extending through the rooms, she found a large nest filled with many pretty and useful gifts.

Delicious refreshments consisting of tea, crackers, salad and cake were served to the following: Mesdames Elmer Cone, V. T. Swenson, Earl Moore, J. O. Jones, Hinton, Pryor, Matthews, Hugh Slagle, W. Jackson, C. Gamble, Benson, and honoree, Mrs. Bedford, and Misses Roxy Nugent, Beulah Starnes, Browning, Mabel Marsh, Mary Meador, Beulah Dixon, Ivey Huddleston, Pearl Hen-

sley, Marjorie Leland, Floy Pryor, Charlie Jackson, Curry and hostesses Nevilla Richmond and Irmo Pryor.

Personals.

R. G. Way and son of Crosby county was here yesterday looking after business matters. Paul Selmann of Ralls was here yesterday looking after business matters. Paul was at one time a citizen of this city.

J. R. McDaniel, traveling salesman for the Graham-Paper company, was in the city yesterday looking after the needs of the people of Lubbock in the paper line.

Mr. and Mrs. C. O. Lynch have as their guests, the former's mother, Mrs. B. C. Lynch of Roswell, N. M. and the latter's mother, Mrs. E. S. Murphy of Abilene.

Mrs. M. L. Dysart of Los Angeles, Calif., who has been a guest in the home of Mr. and Mrs. C. A. Pierce, of 1411 Eighth St., will leave the first of the week for her home.

AT THE CHURCHES

Service at Episcopal Church. There will be a memorial service in honor of Bishop Temple at 11:00 o'clock Sunday morning, at St. Paul's Episcopal church. A further notice will appear in the Sunday Avalanche. All are cordially invited to attend. Rev. John L. Showell.

CANYON CHAMBER OF COMMERCE GETTING ACTIVE

CANYON, Texas, Jan. 18.—The chamber of commerce of Canyon met last night for its first session since the employing of the executive secretary Louis Hart, of Fort Worth. More than seventy five members were present at the meeting.

A surprise feature of the evening was a short concert given by the band of the West Texas State Teachers' College. Just as the dinner was being completed the forty piece band led by C. E. Strain, director, came into the dining room and played several numbers.
