METHODIST CHURCH: Sunday School 9:45 a. m., the pastor preaching at 11:00 a. m., and conducting the Sacrament of the Lord's Supper. This is one of the sacred times of the Christian religion and we look for a good attendance to this service.

The leaguers meet at 6:45 p. m., and we hope to have another member's meeting at the same hour. The pastor will preach at 7:30 p. m., on some subject of interest to the people of the community.

The subject will be on the book we are studying and the work of the church. The choir meets Thursday night. Mrs. Reynolds will have something of interest to all the members of the choir this Thursday night meeting to be held at the home of Mrs. E. C. Beavers.

ONE CANDIDATE: County, state and national elections have been over for several months yet forgotten all about them—and some who, perhaps never will, doubtly remember their trip for many moons yet to come.

Jaunty Journalettes: Muleshoe car owners need not be afraid of good cars. The one that crumples your fender is always an old Model T worth about \$15.00.

377 Cars Poultry And Eggs Shipped From State in Dec.

Austin, Texas, Jan. 30.—Poultry and egg shipments from Texas in December totalled 377 cars, an increase of 35 per cent over the 646 cars shipped in December, 1931, according to the University of Texas Bureau of Business Research.

Notwithstanding there will doubtless be several important questions coming up this year to vote on, there were only 499 Poll Tax receipts issued up to midnight of January 31, this year by Tax Collector Jim Cook, of Bailey County.

There is little doubt but the Prohibition amendment will be up to vote sometime during the year, and there are probabilities of two or three Constitutional amendments to also be submitted to the vote of the citizens.

THE JOURNAL'S NEWS AND

They Will Stage Inaugural Show March 4

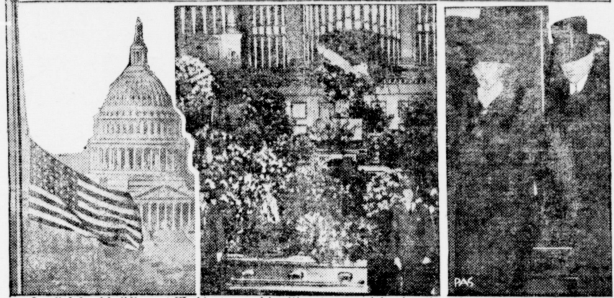

Although plans for the inauguration of President-elect Roosevelt into office March 4th, are still indefinite, here is the committee in charge of the event. It is reported that simplicity will mark the ceremonies in accordance with the wishes of Mr. Roosevelt. . . . Those in the picture are, seated, left to right: James A. Farley, National Democratic Chairman and Admiral C. T. Grayson, chairman. Standing: John F. Costello and John B. Colpays of Washington.

A Pole-Cat Pet

"Cute little fellow, this pole-cat," says Miss Ruby Knight of Atlanta, Ga., who has him for a pet. His name is "stinky"—which is unfair, inasmuch as he has long since been denatured and is the sweetest and most loving "guy" imaginable.

Nation's Flags at Half Mast for Calvin Coolidge

On all federal buildings at Washington, and in cities, towns and hamlets throughout the nation, flags are at half mast for 30 days in honor of Calvin Coolidge, who now sleeps with his forefathers on a Vermont hillside. Photos show, left, flag at half mast on the Library of Congress with the Capitol in the background; center, body of the former president lying in state at the church in Northampton, Mass. Battered Gray Fedora—Still In The Ring

President-elect Franklin D. Roosevelt tossed his hat into the presidential ring several moons ago. It was kicked about quite a lot but it came through, battered a bit 's true. Now it rests secure in a safe at Albany, awaiting a jaunt to Washington. . . . The President-elect is mighty particular about that hat. . . . a gray fedora which came to be known throughout the land. One of his first acts on November 9th, was to place it away.

Largest Gyro-Stabilized Mercantile Liner

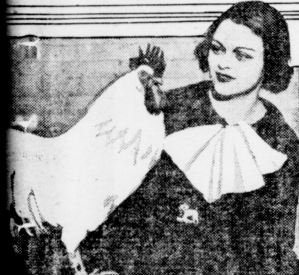

The introduction of the Elmer Sperry Gyro-Stabilizer in the new-era 48,500-ton Conte di Savoia, Italian liner, due to arrive in New York on her maiden voyage, December 6, is pronounced one of the biggest innovations of the century in ship construction. Installed at the cost of \$1,000,000 the three Sperry Gyros, an American invention, can generate a steady force sufficient to keep the liner on even keel and offset the force of the worst hurricane. Photos show, above the Conte di Savoia, which averaged 29.4 knots over a two-way run of 9 hours each way on her trial trip and below: One of the Sperry Gyro-Stabilizers which keeps her from rolling in heavy seas.

with unctuous assurance, the promise of eternal punishment for a large proportion of the race. Among the worshippers was a gentleman of unfortunate reputation but keen mind, whose name lingers unforgettably in our history. As he left the church a lady spoke to him:

"What did you think of the sermon, Mr. Burr?" she asked.

"I think," responded Aaron Burr, "that God is better than most people suppose."

That was the message of Jesus—that God is supremely better than anybody had ever dared to believe. Not a petulant Creator, who had lost control of his creation and, in wrath, was determined to destroy it all. Not a stern Judge dispensing impersonal justice. Not a vain King who must be flattered and bribed into concessions of mercy. Not a rigid Accountant, checking up the sins against the penances and striking a cold hard balance. Not any of these... nothing like these... but a great Companion, a wonderful Friend, a kindly indulgent, joy-loving Father.

For three years Jesus walked up and down the shores of his lake and through the streets of towns and cities, trying to make them understand. Then came the end, and almost before his fine firm flesh was cold, the distortion began. He who cared nothing for ceremonies and forms was made the idol of formalism. Men hid themselves in monasteries; they lashed themselves with whips; they tortured their skins with harsh garments and cried out that they were followers of him—of him who loved the crowd, who gathered children about him wherever he went, who celebrated the calling of a new disciple with a feast in which all the neighborhood joined!

His last supper with his disciples was an hour of solemn memories. Their minds were heavy with foreboding. He talked earnestly, but the whole purpose of his talk was to lift up their hearts, to make them think nobly of themselves, to fill their spirits with a conquering faith.

"My joy I leave with you," he exclaimed.

"Be of good cheer," he exclaimed. Joy... cheer... these are the words by which he wished to be remembered. But down through the ages has come the wicked falsehood that Jesus never laughed.

Loan Accredited To Muleshoe Excites Much Speculation

Much interest was created locally Friday last week when, in a published statement of the loans made by the Reconstruction Finance Corporation given out that day, among other listings was that of a loan granted to the West Texas Mortgage Loan company of Muleshoe in the sum of \$1,450,000.

General public knowledge of such a corporation apparently was unknown to citizens of this vicinity, but a search of the county records at the courthouse here reveals the recording on page 359 of volume 10, mortgage records of an instrument giving as security for the sum of \$1,800,000 a tract of land totaling 72,183 acres, located in Bailey county and known as the north end of the WYN ranch, including a promissory note and deed of trust by W. H. Fuqua, Inc., to the West Texas Mortgage Loan Co., of Amarillo, the instrument drawing interest at the rate of 10 per cent per annum and being filed April 4, 1932.

Officers Scouring This Section For Killers of Sheriff

Officers are still in a quagmire as to the whereabouts of the bandits killing Sheriff J. C. Moseley, of Swisher county.

Early Friday morning of last week a car, said to meet description requirements of the bandit car, was burned near Lovelland.

The same afternoon a deputy sheriff was shot and killed at Rome, this state by a party composed of two men and a woman, and thought to be the Moseley killers.

The only way the bandits could have got from the burned Ford near Lovelland in time to kill the sheriff that afternoon would have been by airplane. Officers still are guessing.

Later on the hunt centered at Olan, in Hampton county, then officers at Clovis, N. M., were notified and were guarding all highways entering that city.

Latest public information is to the effect that the woman in the case has been arrested, identified and has confessed, giving the name of the two men who were with her and did the slaying.

A posse of officers were in Muleshoe Tuesday night, and are reported to be scouring this section of country in quest of the killers. It is stated their names are now known, and a battle is expected when they come upon them. No detailed information is being given out at this time.

The FAMILY DOCTOR

BY JOHN JOSEPH GAINES, M. D.

THE EXPECTED ARRIVAL

I write this letter at a time when every couple of moderate means or, perhaps less, are looking with a per cent of apprehension on the coming visit of the old stork. Adult garments are being made over into dainty baby clothes, and conferences are being held as to how to obtain the best and safest service for the least possible outlay of money.

The young father with a \$30 a week salary, may engage hospital services that will put him two years in arrears with his meager income—but he loves his dear ones. The hospital two weeks, special nurse one week, operating room, and the specialist in obstetrics—they all cost you know—but he loves, and wants the best. His credit is good, but it may be "the beginning of the end" for him financially.

The humbler couple cannot even think of a hospital service. They engage the family doctor several months in advance. He knows of a nurse who came within a few months of graduating; she is capable, and will work for a fraction of the sum required to hire a registered nurse. She needs the work, and will do her utmost. The home is prepared for the event. Antiseptics, dressings, a sanitary bed—all are arranged under the guidance of the family doctor.

"Mother and babe doing well," reports the home nurse next day. The parents get out of it with the minimum of expense—maybe have little left, if they have "saved up" as they should have done months in advance.

I wish we all were well-to-do, but wishes do not get us very far these days when it takes action to get results. My readers may get something out of this talk—I hope.

The Difference Between Cold and Comfort

The striking of a match and the turning of a valve is the only difference we may immediately realize. But to produce comfort instead of cold requires several hundred miles of pipe lines and an army of men who work diligently at their task of furnishing you with good gas service.

Gas Service

Eternal vigilance on the part of all employees is necessary to insure you against discomfort in such weather as the recent cold waves. Daily in the face of beating storms, through ice and snow and over wind-swept roads, employees carry on—for on them is the responsibility of preventing an interruption of the unflinching gas service you have come to expect.

LAMB CO. TEACHERS VOTE ON RURAL SCHOOL TERM CHANGE

Sudan, Jan. 30.—By a vote of 61 to 13, Lamb county school teachers went on record as favoring a plan for rural schools to open their terms in August and after six weeks to close for cotton picking. School would resume as soon as possible, with time out for gathering of the crop. The action was taken at a meeting of the county teachers association.

Advocates said schools would complete nine months by June 1. An alternative was for school to begin November 1, which would make the closing about July 1.

The teachers in a resolution strongly condemned the legislative report that would remove technical courses from Texas Tech and change the W. F. E. C. at Canyon to a junior college. Copies are to be sent to Arthur P. Duggan, state senator and A. B. Tarwater, state representative.

You'll say: "Whoa, Engine! what's got into you?"

Here's gas to excite motors. It makes them quick on the trigger... fast on the move. Choking is hardly required for a quick, snappy start and a take-off like a quail on the wing.

Even old motors... wheezy, snorting, complaining motors... cut capers you just can't believe. If you doubt it, just try it. It's like rich, raring blood injected into old veins.

This gasoline is so new... so "different"... so quick, fast, powerful, and economical, it's hard to give it a name. Perhaps YOU can. When you FEEL your motor's response, it may come to you like a flash.

Ask at any Conoco station for the new bronze-colored, high-test gasoline—and an entry blank. Help name it and describe it. You may win a part of \$10,000.00. You are SURE to win a grand, new thrill, and that is worth a heap. Make the test TODAY.

South Plains Good Roads Association Organized At Meeting Held Friday At Lubbock; Would Protect Gasoline Tax

The South Plains Good Roads association was organized at Lubbock last week, nearly 200 citizens from various counties of this section attending. Those participating in the organization from Muleshoe were Judge J. E. Adams, Nell Rockey, K. K. Smith, R. L. Brown and Jess Mitchell, all of whom became members.

A. B. Davis, manager Lubbock Chamber of Commerce, was temporary chairman of the meeting, introducing Dr. Barr who gave the welcome address. Percy B. Rails, of Rails, was unanimously elected president, while Phillip Young, Lamesa, Dr. Ira Woods, Littlefield, M. D. Ratliff, Lubbock, were chosen vice-presidents. Rails is also a director of the state organization. J. C. Watson is secretary of the new organization.

Cly R. Johnson, Lubbock, divisional highway engineer, using a chart, explained how much road building had been accomplished in the Plains area, how much was under development and some of the plans for future building. Marshall R. Diggs, financial secretary of the state organization, was present and gave an instructive address on the purposes of the association. "The purpose of the association," said Mr. Diggs, is to protect the investment Texas motorists have made for years and make every time they buy a gallon of gasoline and pay the five cent tax that goes with it. This investment is in the highway system of the State, and it will be seriously in danger if any of the two cents of the gasoline tax which go into the highway fund is diverted to any other purpose. Efforts are being made to divert money from this fund now, and it is necessary to have an organization like the Texas Good Roads Association, manned by the most alert and influential leaders in the state, to successfully oppose such efforts.

Texas motorists, as individuals, can do very little to see that highway construction is continued. It is only through an organization such as this that a connected system of highways can be completed, with all that such a system means to Texas.

"Every time a car owner buys a gallon of gasoline he pays five cents as a toll for the use of good roads. One cent of this toll, or road rent, is a federal tax, one cent goes to the school fund, and one cent to retiring highway bonds already voted by the counties. The remaining two cents, constituting an annual revenue of about \$15,000,000, goes to the highway fund, and this fund must remain intact.

"Here are some of the disastrous effects that would come from taking any more money from the highway fund:

"In the first place, 40,000 men who are dependent upon highway activities for employment would be thrown out of work. More than 100,000 men, women and children would be without a livelihood. Complicating an already serious unemployment situation to that extent would be disastrous.

"In the second place, more than \$50,000,000 of tourist trade would be turned away from Texas each year. Nearly every type of business in the state profits from the tourist trade, and if money is diverted from the highway fund, so that road construction must come to a standstill, tourists will avoid Texas on account of its bad roads and take their business elsewhere.

"In the third place, Texas would lose \$7,000,000 of federal aid for highway construction each year. This \$7,000,000 is given to the highway fund provided it is matched dollar for dollar by state money, and diverting even half a cent from the highway fund would not leave enough money to get federal aid, allowing some other State to get what Texas should be receiving for road building.

"In the fourth place—and this is important to every motorist—road building would practically come to a standstill and road maintenance would be seriously crippled. This means detour signs and bad stretches of road cropping out all over the State, uncomfortable drives, loss of time and money is increased car operating expense. And it means cutting farmers off from a market and so adding to the distress of an already impoverished industry.

"In view of all the above, it is easily seen that no Texas motorists can very well afford NOT to pay the small membership fee to protect the money he is being paying for years and is paying every time he buys a gallon of gasoline. He cannot afford NOT to insure the success of an organization that has for its sole object the completion of a highway system in Texas, thus keeping 40,000 men employed, retaining \$50,000,000 a year of tourist trade, and benefiting himself, as a car driver, materially.

"Individual memberships are necessary to add weight to the work of the association, and progress is rapidly being made toward reaching the goal of 100,000 members in Texas. The demands of such a number cannot be ignored.

"This organization is actually a consolidation of regions; roads that have long been advocating the completion of a good system of roads in Texas. The Texas Good Roads Association is not a political organization. It is neither for nor against the incoming administration. It stands for good roads being built by the two cents of our gasoline tax at the lowest possible cost.

Jack Sullivan Gets 20 Years Olton Bank Job

Jack Sullivan, Thursday of last week was convicted in the Hale County District court at Plainview, for the armed robbery of the Olton State bank last summer by a jury in Sixty-fourth district court and his punishment was set at 20 years in the penitentiary.

The trial started the previous Monday. Arguments of attorneys were completed late Wednesday night and the jury went to bed without making a report.

Escaped Jail at Plainview
The Olton State bank was robbed of \$2,987 last July 15. Sullivan was arrested first at Mountainair, N. M., Sept. 13 after a gun fight with officers of Texas and New Mexico. Suffering from wounds received in that altercation, he was placed in the hospital ward of the Lubbock county jail from which he escaped Nov. 17. About a month later he was arrested at Vernon after a chase by officers through the business district.

Sullivan had been in jail at Plainview since Dec. 21.

To Ask New Trial
Defense attorneys began preparation of a motion for a new trial and pending its outcome, sentence was deferred and Sullivan will be held in the Hale county jail.

It was the first conviction in connection with the Olton robbery in which three men participated.

Three others were indicted, Lee Peboworth, one of them, is now serving 99 years in the New Mexico state penitentiary for the slaying of Harve Bolin of Plainview, who was employed by Lamb county as a special officer when Peboworth's ranch was raided by Texas and New Mexico officers Aug. 20. Peboworth has not been arraigned for the Olton robbery.

Two Others Indicted
Glen Huntsucker and Henry Reed also were indicted. Huntsucker, who has not been arrested, Peboworth and Sullivan were charged as the three who robbed the bank and Reed as an accomplice.

Sullivan was captured in Vernon as he and a woman walked from a hos-

pital where he had gone to have wounds treated.

The defense rested Wednesday afternoon, introducing eight witnesses to support Sullivan's alibi that he was at Wolf-orth in Lubbock county at the time the Olton bank was robbed.

Defendant Identified
Two previous witnesses, Tom Matthews, Lamb county deputy sheriff, and W. T. Sanders, employe of an Olton lumber company, testified they saw him in Olton. Matthews declared Sullivan was the man who told him to "stick 'em up" when the deputy entered the bank, in his shirt sleeves and unarmed while the robbery was in progress.

BOARD OF EDUCATION MAY LIMIT GAGE GAMES
Austin.—The State Board of Education in its biennial report last week, recommended that Texas High schools be allowed only eight football games a season. The board also recommended that basketball contests be limited to 15 between Dec. 1, and March 1.

Under this recommendation football games would be played on Saturdays and holidays, with practice of holding them on Fridays or other days being discontinued.

As to contests on school days, the board reports:

"It is true that some high school coaches wish to be free to attend college games on Saturdays. It is true that gate receipts in some communities will be smaller on Saturday. None of these reasons have any appreciable weight when compared with the interference with the school program of games on school days."

PERFECT PRISONER AT TYLER TAKES HIMSELF TO THE JAIL
Tyler, Jan. 30.—Here's the perfect prisoner. Arrested on a misdemeanor charge, he was left at the sheriff's office while his captors went out to clean up unfinished business. Returning four hours later, deputies were amazed to find him still there.

"Go on down to the jail and tell the jailer to lock you up," Sheriff Earle Price told him.

The man wanted to go home and change his clothes. He reappeared 30 minutes later and was locked up.

As last the foxes will meet at the furrier's.

TEAM WORK.....
.....COUNTS BIG

Hard Times may be HELPFUL, after all, for we are then all dumped together in one boat. All of us having our different and various troubles, we are more helpful to one another.

We learn that when our competitors prosper, we also may prosper. We learn that success comes through team work. Cooperation takes the place of competition very largely, for it is often a case of "all hang together or else be hung separately," as Benjamin Franklin one time said.

During these times of economical exigency it is a case of all of us having to buckle down and pull our share of the load.

This bank, now as always, is trying to do its share—and the more patrons we secure, the better we can serve you and the public generally.

Farmers Of North Plains Organize In Protection Of Homes

Grain faced determined, 400 property owners, chiefly farmers and cattlemen of Roberts, Hemphill and Gray counties met at Miami, in Roberts county last Saturday and organized themselves for a vigorous effort to obtain relief from mortgage foreclosures of different kinds.

Speeches explaining the seriousness of the situation and urging that immediate action of self-protection be taken were made by several prominent citizens of that section.

In the district courtroom packed with men and women who, through no fault of their own, face the ordeal of losing accumulations of a lifetime, the assembly heard Mr. E. Simpson, Amarillo attorney, and Gene A. Howe, widely known Amarillo publisher, plead for united action leading to the prevention of foreclosures.

The principal speakers emphasized the importance of following the most peaceful and law abiding method possible to avert foreclosures.

B. F. Jackson, pioneer cattlemen of Roberts county, who called the meeting, presided and was elected president of the permanent organization.

Officers Named.
Other officers elected were Joe Corfee, Miami insurance man and Roberts county commissioner, secretary; and members of a constitution, by-laws and resolutions committees. They include J. M. Smith, former Roberts county judge; R. B. Haynes, editor of the "Miami Chief"; Corfee, J. B. Osborne, Hereford cattle breeder, and E. F. Ritchey, Miami attorney.

A second meeting was held by the organization Monday afternoon in the same building. The constitution was adopted at that time, and a name given the organization. Since the organization is designed for no particular county, appeals were made for representatives of as many Panhandle counties as possible to join the movement.

Urged Peaceful Means
Major Simpson urged the men not to go to extremes of violence practiced in some sections of the nation recently for relief through the courts, but to peaceful but consistent pressure on national and state legislatures for emergency relief from foreclosure laws.

Any method used to avert mortgage foreclosures first should be discussed with local attorney, Major Simpson warned.

The Amarillo attorney pointed out a moratorium on debts as a possibility, but only in that such procedure would afford extension of time in which a probable solution might be reached.

"If the national government can extend debt moratoriums to debtor nations, why can not bank and loan agencies which are branches of the federal government extend moratoriums to debtor individuals?" Major Simpson asked.

BEATS CASE IN J. P. COURT
Bently Gwynn charged with "swindling with worthless checks" was tried in Judge E. Yausen's Justice of the Peace's court last week, and acquitted and released by a jury of his peers.
