VOLUME 9

MULESHOE, BAILEY COUNTY, TEXAS, THURSDAY, NOVEMBER 12, 1931

NUMBER 41

Muleshoe Wheat Growers Will Realize \$18,000 Extra Value On Their Wheat Through The Increased Market Prices

Survey of Acreage Show About Thirty Per Cent Decrease With Crop Conditions Set At 80 Per Cent of Normal Due to Short Rainfall

With the acreage reduced approximately 30 per cent and the present condition about 80 per cent of normal the wheat crop of Bailey county and the trade territory surrounding Muleshoe bids fair to be considerably lower in bushings the coming year than it was last year.

Several hundreds of acres that were in wheat were not planted again this year, and much of that which has been planted is not quite up to normal condition because of moisture shortage in the ground, the rainfall during October only being 72 of an inch. It is estimated by Ray Griffiths, local grain dealer, that there is approximately 20,000 acres planted to wheat in the Muleshoe territory this year.

Here and there throughout the Blackwater valley where irrigation is in vogue, there are small acreage tracts of wheat, running from five to 20 acres, which have had a flood of water from the pumps, and these tracts are in a flourishing condition, proving the extra profits and surty of this system of farming.

Taking the Panhandle area as a whole, reports indicate an approximate reduction in the wheat crop of about 20 per cent, and the condition of much of it is 50 per cent of normal. The present estimate for the Panhandle crop next year is placed around

20,000,000 bushels on an acreage of 2,200,000 extent, nearly half of this being volunteer or poorly prepared ground.

It is stated that better than normal conditions must exist during the coming winter and spring months if the present predicted number of bushels is increased.

Moisture conditions generally are below normal, in some sections farther north there not having been sufficient rainfall to sprout and bring up the planted seed. Most wheat farmers, however, are apparently not worrying very much over the prospective shortage, as they are looking for a higher price next year which will largely offset the lower yield.

Farmers Make Money

In the Muleshoe territory it is estimated that the wheat growers have held back approximately 20 per cent of their 1931 crop, and that there is about 40,000 bushels in this area that has not yet been sold. Considering the increased value of this grain now over the low price of 22 cents per bushel, when wheat went to its lowest in the local markets, and the present price of 40 cents per bushel that is now being paid, it is estimated that those of this territory who are still holding their wheat will realize an extra value of approximately \$18,000 in the sale of it today.

BEN SAVES LABOR IN LAYING HER EGGS

Lamesa, Nov. 11.—A Rhode Island roe hen belonging to Herman Pettway of the Five Mile community has figured out a way for economical production. Mr. Pettway states that for the past several months this hen has been laying one egg a week averaging from three to three and one-half inches in length. The eggs have been found to contain two or three yellows. The hen is of average size, weighing about six pounds, and goes about her business scratching around for worms six days out of every week.

H. Montgomery Held On Liquor Charge By Sheriff

Henry Montgomery fell into the toils of the law Thursday last week when he became the victim of the sheriff's department on a charge alleging "possession of intoxicating liquor for the purpose of sale," according to Sheriff H. Sterling.

Montgomery was arrested at his tent located on the north side of the Santa Fe railroad tracks. At the same time a pint of liquor was taken. According to Sterling, who was assisted by Deputy Jim Cook in making the arrest, they had another pint of liquor in their hands which was broken by Montgomery. They further stated that other bottles were broken before the arrest was made.

Montgomery was lodged in jail, his bond set at \$500 dollars, he to be held until the Grand Jury meets next Monday morning.

P.-T. A. Held Meet Monday Night, Will Buy Emergency Cot

A very interesting meeting of the Muleshoe Parent-Teachers association was held last night in the High school auditorium and attended by about 150 patrons and friends.

The program was furnished by teachers of the school, the principal number being a play, entitled, "On Helpless Feet." The cast for which was as follows:

Raymond Osgood R. B. McHorse
Heel Dawson Marguerite Hicks
Mrs. Pinchback Ruth Evans
Expressman Arnold Atkinson
Miss Beatty was coach for the play.

In the business meeting that followed, it was decided to buy a cot for the grade school, to be used in case of emergency sickness, accident etc.

Following the literary program those present went to the gymnasium, where several games were played and ice cream cones were served before the crowd departed.

The next meeting will be held November 30.

ART NAMES RETURNING

Art Names own famous company with their big tent theatre who played here just a year ago, will be in Muleshoe all next week. All the plays will be entirely different this season, and the admission prices will be even lower than they were last year.

Next Monday Art will admit every man, woman and child in this community to his show absolutely free at the front door and the reserved seats will be exactly the same price they were last season: 10 cents for the children and 15 cents for the adults.

TO GIVE OPERETTA

Mrs. M. P. Smith, local music teacher, will play her piano and violin pupils in an operetta, entitled, "Let's Go Traveling." Friday night, beginning promptly at 7:45 o'clock at the High school auditorium.

The participants will all be in costume representing the different countries, having singing and speaking parts. There is no charge for admission and a cordial invitation is extended the public generally to come and enjoy the evening.

2,610 BALES OF COTTON HAVE BEEN GINNED HERE

Rev. W. B. Hicks Left Monday For Conference Meet

Rev. W. B. Hicks, pastor of the Muleshoe Methodist church left Monday for Vernon where the Northwest Texas Methodist conference meets, Nov. 12 to 16, inclusive, Bishop Hiram A. Boat, presiding.

The event will mark the culmination of spiritual and financial affairs of all Methodist churches within that prescribed conference boundary, and at this time all pastors of churches will make their reports, and new appointments will be made for the churches during the coming fiscal year.

Rev. Hicks has spent four years in Muleshoe as pastor of the Methodist church, during which time the local organization has made great strides both in numbers and spiritual zeal. Especially marked in the minister's pastorate here has been his successful work among the young people.

Rev. Hicks stated before leaving that he did not expect to return to Muleshoe for another year, but like all other itinerate ministers of that denomination, had no idea where he would be located in the future. He expressed his great love for the people of Muleshoe and his sorrow at parting, since his long residence here has made the place seem much like home to him.

He stated that practically all financial obligations of the church here had been met before the quarterly conference held last week, and would doubtless be able to report everything in full at the coming annual conference. Rev. Hicks and his family have made many strong friendships here and will carry away with them their heartiest good wishes for success in their church work wherever they may be located.

City Publishes An Annual Statement For Information

Elsewhere in this issue of the Journal will be found a statement relative to tax collections, delinquencies, indebtedness, and sinking funds of the City of Muleshoe is a copy of a record on file in the County Clerk's office reflecting the condition of the City of Muleshoe in that respect for the fiscal year ended August 31, 1931. This report is required of counties, cities and towns, school districts, and all other local bits of government within the county authorized to levy and collect taxes, or to issue bonds by the passage of H. B. No. 575 in the last regular session of the 42nd Legislature. "Section 3" of this new law requires the county auditor or county clerk to "maintain a file in his office to be open to the inspection of any taxpayer, of all reports submitted to him in compliance with the provisions of this act."

Due to the fact that some of the citizens are not familiar with the provisions of the new law, especially in regard to "Section 3," the City Commission at a recent meeting expressed the desire that the taxpayers and citizens be notified by publication of the statement in the Journal.

A diligent effort is being made by City Secretary-Treasurer, Albert H. Isaacs, to keep in books as required by law a proper record of the receipts and expenditures of the City. According to Mr. Isaacs the totals were set up from auditor, H. E. Cormack, report closing the City's fiscal year on April 4, 1931 and the receipts and expenditures are being recorded in their proper classifications as the City's business progresses. The method now in use meets the approval of the City Commission and it is believed that in the next audit of the City's affairs the checking of the receipts and expenditures through the bank will be greatly facilitated.

LED DEFEATED SPRING LAKE

Littlefield High school football defeated the Spring Lake team in a game played at Spring Lake last Friday the score being 21-0.

Three touchdowns, a safety and one point after touchdown gave Littlefield its scores.

The Spring Lake teamsters fought gamely, but were decidedly outclassed by the Littlefielders.

Sheriff Warns White Cotton Picker When 8 Arrested For Dice

Deputy Sheriff J. F. Strickland, of the Enochs diocese, came into prominence last Sunday afternoon when he unlimbered his artillery from its hip holster, silently slipping upon a "crap" game enjoyed in that community, and corralled all the participants, bringing them to the county hotel located in the courthouse at Muleshoe.

There were four white men and four negroes engaged in the dice game and early Monday morning they were arranged before Justice of the peace J. P. Vaughn who, upon their pleas, slapped a fine of \$5.00 each, totaling \$33.00 each upon the offenders. In lieu of the necessary cash to liquidate their indebtedness to the county, they were trailed back to the county jail where they will remain for a period of 34 days each unless liberated by some one to pay their fines.

All eight of the men charged were transients, being engaged in cotton picking in the southern part of the county, none of them being known here.

Sheriff Sterling takes opportunity at this time to impress upon other white men cotton pickers to keep away from "negro crap games." "Some one is liable to set into serious trouble; there'll be a killing perhaps as the result and then a negro may get bruched."

If you are going to shoot craps, don't do it with the negroes, many of them are sharper at the game, and—in any event don't let me or any of my deputies catch you rolling the dice anywhere, because if you do it's sure going to cost you something," said the Sheriff.

AGGI MAN IS COMING HERE

The Journal is authorized to announce that G. M. Moore, representative of the Feed and Seed office, Department of Agriculture, will be in Muleshoe each Friday, at the court house, to confer with government borrowers relative to their loans.

Moore states that these loans are now being paid in very nicely, and that he is looking for a still larger increase in these payments as farm products increase in value and business conditions become better.

Running up bills soon runs down a reputation.

MAYBE HE'LL ORDER RAW OYSTERS AGAIN

Los Angeles, Nov. 11.—Vincent S. Kearns, insurance salesman, ate his oysters raw last night. He bit something hard.

"Walter," thundered Kearns, as he removed from his mouth what might have been a tooth. In the light it proved to be round and opalescent. A jeweler, seated nearby, said it was a pearl.

"Never mind, waiter," said Kearns, returning hastily to his oysters. When he had finished 13 pearls lay about his plate. The jeweler, Kearns reported, said they were worth \$600.

Armistice Day Is Observed By A Patriotic People

American Legion Has A Big Feed Following Program at the School

Armistice Day was very properly and appropriately observed in Muleshoe Wednesday.

Following the issuance of a proclamation by Mayor C. C. Mardis, calling upon all people to recall the sacredness of the occasion and its great meaning to civilization, and especially to the United States, practically all business concerns in town began closing their doors at 10:00 o'clock in the morning and the proprietors and their help, accompanied by many town citizens and some from the nearby countryside gathered in the High school auditorium, where a very interesting and patriotic program was rendered under auspices of the school and directed by Superintendent W. C. Cox.

County Judge J. E. Adams in a timely address explained the meaning of Armistice Day, its significance in the history of the world, and the duty devolving upon all citizens in becoming good Americans, thus maintaining that which was won for the nation by the armies of the World War.

Other numbers on the program were as follows:

First Aid Program.
Patriotic Mother, by Mary Johnson.
Banner Class.
Armistice Day, Primary Room.
Flanders Field, by Mable Rogers.
Answer to Flanders Field, by Joyce Pierce.
Song—Flags in the Air.
Drill and Song.
War Song.
Flag Drill, Miss Miller's pupils.

Legion Has Feast

Following the program at the school house, members of the local post American Legion entertained about 300 members, their families and friends in a big feast fit for the occasion. It was indeed a sumptuous past befitting the commemoration of such an important event in American history, and every guest present did full justice to the event.

There was also a sepak-fest, purely extemporaneous in its participation, in which both serious and jovial thought was expressed, yet all of a patriotic kind, by those taking part.

The Muleshoe Legionnaires are now in the midst of a membership campaign, several new members having been added to their roster during the past week, and the post will be greatly strengthened for future service.

Buy it in Muleshoe.

CHURCH HONORS BIRTHDAY

Rev. W. B. Hicks, retiring pastor of the local Methodist church, was the recipient of a delightful surprise birthday dinner last Sunday upon following the morning service.

There were about 250 members of the church and congregation, with a few visitors who participated in the delightful occasion, bringing in well laden boxes and baskets of choice culinary preparations as soon as the eulogy was pronounced over the morning service by the minister.

An excellent birthday cake was prepared by Mrs. B. W. Gates, and appropriately decorated with 39 candles, which the minister acknowledged to be the number of his years of life.

TAX DISCOUNT CONTINUED

At a meeting of the Muleshoe School Board held last Monday night, it was decided that the five per cent discount allowed for payment of school taxes should be continued until December 15.

COUNTY HEALTH OFFICER WARNS THE PEOPLE OF THIS SECTION TO CLOSELY INSPECT ALL CAN FOODS BEFORE USING

Since the reported death of two people from botulism germs, in a nearby city, much interest has been manifested by folks in this section. Newspapers reported that the botulism germs probably came from vegetables put in containers that were not thoroughly sterilized.

During the past season there have been thousands of cans of different kinds of vegetables put up by people living in Muleshoe and all over Bailey county, and many of these people are now wondering if there is any danger from eating these canned vegetables.

Dr. T. R. Matthews, local physician, says there is no danger at all if the housewives are quite sure if the containers were well sterilized when they were filled with the food. As a matter of precaution, however, when these cans are opened for eating during the coming winter, if they do not look just right and do not taste right, their contents should be immediately discarded. Botulism germs are rather rare, but one never knows when they may be contacted, and it is always better to be safe than sorry, the doctor says, and then he added, it is not likely anyone will be affected by these germs, though it will pay to be safe.

The disease called botulism is not common nor is it generally known. Material medica does little more than mention it, said Dr. Matthews. It is the result of eating food contaminated with the bacillus botulinus, and because of the exceedingly quick development of the symptoms, many physicians believe its danger is due more to a toxin or poison developed in the

BAILEYBORO BOY INJURED

Elmer Davis, whose left arm was seriously cut and mangled, when it became caught in the machinery of the Baileyboro gin last week, has been taken to a Lubbock hospital by Manager A. T. Biggers, of the gin, where he was employed.

At first it was thought the arm would have to be amputated, but it is now thought it will be saved if no further complications arise.

QUAIL SEASON OPEN IN N. M.

Several Muleshoe and Bailey county citizens took advantage of the opening of the quail season Tuesday this week in New Mexico to enjoy their favorite sport with dog and gun.

The season lasts from November 10 to December 10, and the daily bag limit is 12 birds.

Birds of this kind are reported quite plentiful in New Mexico borders.

ARTHUR HUSTED ESTABLISHES RECORD WHEN HE PULLS 2512 POUNDS COTTON WILL USE MONEY TO ATTEND COLLEGE

What is considered a record for this section and perhaps for the entire state in pulling cotton, was established by Arthur Husted last week, when he pulled 2,512 pounds of cotton in 13 hours.

The pulling was done on the farm owned by Ray Bryant, living six miles north and one mile west of Muleshoe, and was done in a field of cotton that averages around a bale per acre. Husted is here from Weatherford, Okla., and the weighing was done by O. A. Rick, of Carnegie, Okla., who also did the weighing for other pickers in the field at the same time.

Husted is a man of ordinary build, weighing 160 pounds and is 25 years of age. He is picking cotton to make money to finish his way through college next year. Apparently he has no sleight of hand methods in gathering in the fleecy staples, merely straddling the rows and working both hands with lightning speed, thus keeping a constant stream of bolls flowing into the long cotton sack trailing behind him. His fastest picking for that day was when he stored 346 pounds of bolls in a sack in exactly 19 minutes.

Husted comes from a family of champion cotton pickers and pullers his father having a record of 2,300 pounds of pulled cotton for his days young, and the son's ambition to beat "Dad" was achieved last week when he made his record pulling. His average pickings run around 2,000 pounds daily.

Running up bills soon runs down a reputation.

CITIZENS WOULD HAVE THE SCHOOL FINANCES AUDITED

About 40 citizens and patrons of the Muleshoe School district gathered in mass meeting before the School Board at the High school building Tuesday evening, in discussion relative to auditing the books of the Board over a period of past years.

It was the statement of some present that numerous patrons of the district were desirous of an audit, and charges of alleged irregularities were made by some. President H. A. Bekler, of the School Board, stated that an audit at this time would approximate a cost of \$50 for each year covered by the auditor, Nell Hockey, member of the Board, stated he was not in favor of an audit at this time, because of money shortage, preferring that such money be used to keep the school going. His sentiments were voiced by other members of the Board and by patrons present.

Putting the matter up to those present as to whether the audit should be made at this time, it was voted down by large majority. Another motion was then made asking the School Board to make an audit of the school finances for the past year at the close of the present school term next year, and if money was available at that time, requesting that the books also be audited for as many years previous as would be necessary to satisfy the Board and patrons as to their proper condition. This motion was carried practically unanimously.

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor.

Subscription Rates
In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas.
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

BANK FAILURES

Bank failures are now about as thick of the past, and Muleshoe citizens are happily shaking hands with themselves that they have been spared participation in this dire experience. While it is true that hundreds of people have been the victims of bank closures, yet it is also true that many banks have closed because they were victims of the people. It is our belief that fully half the closed banks in Texas are monuments to the malicious prattling of idle gossip.

The figures are supported by the recent declaration of Commissioner of Banking, James Shaw, that 15 of 26 state banks closed in the past two months are reopened and transacting business as before. "A large per cent of the banks in Texas have closed," said Mr. Shaw, "because of unbelief and unfounded rumors rather than because they were unsound or unsafe."

Generally, the man or woman who peddles gossip about "shaky banks" doesn't know what a bank is or how it operates. A bank has a function to perform other than the safekeeping of your money. Cash that lies in the bank is idle money, serving neither God nor Mammon. Cash that is loaned by the bank, upon sound securities, is working money—money that seeps into the blood stream of commerce and fertilizes the fields where property is sown and reaped.

If a bank kept all of its deposits in the form of "cash on hand," it would be a pretty poor excuse for the thing a bank is supposed to be. It would have no money to loan upon good secur-

ties; it would contribute nothing to the expansion of trade and the creation of wealth by manufacture and building. In fact, it would be nothing more than a glorified strong-box and eventually would lose its substance to the expense of operation.

Any bank, no matter how large or small, that can immediately liquidate its deposit-obligations is no asset to the community. It pretends to serve, but is a glorified strong-box and a grossly mismanaged bank that could pay every depositor, in full, the same day, every week, or even the same month the demands were made. It is the obligation of a bank to provide a safe depository for your funds, to maintain itself in such condition that it can meet any reasonable withdrawal demands and still provide a reservoir of credit for the requirements of its community.

No cry is more heart-rending than the one occasioned by a derelict bank, yet it is true that depositors often bring financial ruin down upon their own heads through their own ignorant or malicious talk and ideas. And it is a credit to the citizenry of Muleshoe and Bailey county that during these times of financial stringency the people have held their heads and tongues largely in control.

With the present improvement and settling of conditions, the financial interests of this county may now step forward with sturdy strides of confidence.

OUR TAX SITUATION

Our tax muddle calls for a great deal of sane thinking.

Texas' destiny is tied to the apron strings of her tax policy, and her tax policy is involved in a deplorably bad state of financial affairs. It is a dangerous condition, particularly dangerous for the reason it will be so easy to become panicky and do things now we shall regret later.

For months we have been spending money we hope to collect later. In plain words, we have been writing checks when we had no funds in the bank. We permitted the cost of legislation to soar to unprecedented heights; we spent a lot of money in the military occupation of the East Texas oil fields. While our expenses mounted, our income dwindled. The low price of oil sharply reduced the revenues usually derived from the production tax on petroleum, and delinquent taxes piled up an alarming total.

In the last year of the Moody administration we faced a deficit of about four million dollars; this year we spent more and collected less.

Anticipating this crisis, the legislature recently gave us the sales tax on cigarettes. It promises, upon the basis of present returns, to give us new net revenues aggregating around five million dollars a year. But this is only temporary relief, since we stand to lose six to eight millions a year when as and if the homestead-exemption amendment passes.

It is, therefore, a tough problem that will be passed to the next revenue session of the legislature. Under such stress, it will be very easy and very human to do something for which the state may pay through the nose in the following 10 years.

WHAT'S OUR ANSWER

The roll call of the Red Cross in Muleshoe and Bailey county started Wednesday, and it should have a special appeal to all folks here in this county by the nature of the organization and more hundreds of dollars dispensed by the local Red Cross auxiliary.

Yet it is all a debt not charged to us. We are not asked to repay as in the case of the government loans. We are simply asked to carry on the work the Red Cross organization continues to do. There are other sections that will need the assistance of this organization, and it is but right and proper that those who have received assistance during the past year should pass on to other needy ones, as they can afford, some of the assistance that was rendered them in a time of need, for the mission of the Red Cross knows no end. Wherever we suffer, there the Red Cross may be found doing its deeds of mercy.

No large donations are expected this year—just a response to the membership roll. Only \$300. Can any family do less than take out a membership—and many of us can take out a membership for each person of the family.

DEMOCRATS LEAD

Developments during the past week in the way of Democratic victories, indicate that party now has a majority in Congress and that John N. Garner, veteran Texas Congressman, will occupy the speaker's chair in the House of Representatives at Washington, D. C. This, for the first time in many years, and in spite of the fact that "Hoover hard times" are getting very much easier.

It is generally conceded that President Hoover has largely been the victim of circumstances over which he had no control, and during the past 60 days he has made wonderful strides toward a comeback for reelection. Nevertheless, present indications are that the citizenry has made up its mind for a change, and the Democratic party will be in the ascendancy during the coming 12 months of campaigning. Suffice it to say, it will be their great opportunity to prove the merits of their tenets, and proving such, the American people will rise up to call them blessed.

Turkey Crop Moving Slow, Prices Advance

The turkey market in Muleshoe has started off in a very sluggish manner, according to Elmo Head, local produce buyer. The market opened paying 12 cents per pound for No. 1 turkeys; 9 cents per pound for toms, and 6 cents per pound for No. 2 turkeys. Tuesday the market went up to 15 cents for No. 1 turkeys.

While the turkey crop in this vicinity is at least 30 per cent short of last year's raising, reports are to the effect that over the entire state the yield is heavier than in 1930. It is estimated by local poultry dealers that perhaps one-third of the birds raised in this area are now ready for the Thanksgiving market, the present indications are to the effect that most of them are going to be held in hopes of better prices during Christmas time. "The market this year is exceptionally uncertain," said Mr. Head. "There has been a big yield of turkeys in

California this year, and also in many of the eastern states not accustomed to growing this particular bird, and it is very difficult to figure definitely on market conditions. Three times during the past 10 years the Thanksgiving market prices have been better than those paid at Christmastime, and just what it will be this year none of us in West Texas know."

West Camp News

Rev. John Cundiff filled the pulpit Saturday night, Sunday morning and Sunday night. Mr. and Mrs. Ed Knowles, accompanied by Virgie and Vera Adair, went to Clovis Sunday afternoon. Margaret Dotson, who is attending school at Farwell, visited her parents during the weekend. Doris Rae Adair spent Friday night with her aunt, Jeanne Marie Adair. Wesley Vaughan, who has been seriously ill, is able to be up again. The farmers of this community are progressing nicely with the gathering of their crops.

... SUCCESSFUL HOMEMAKING

By RUTH MAVIS STONE

QUICK BREADS NUTRITIOUS AS WELL AS ECONOMICAL

Home-made bread is the most satisfying, the best tasting, the most fragrant, the most nourishing and the most economical food in the world.

Every mother should make bread at home not only to please her family's palate and to save money but to give her youngsters a nutritious, wholesome food.

In addition to making yeast breads and rolls there are so many delicious quick breads that the housewife can quickly make. To make these quick breads, time, money and ingredients can be saved by using self-rising flour

Quick Breads Are Easily Made.

which is pre-leavened or prepared flour. Who doesn't like nut bread or for a change orange bread?

For nut bread proceed as follows:

- 3/4 cup sugar
- 1 cup milk
- 2 tbsp. fat
- 1 cup nut meats
- 1 egg
- 1 1/2 cups self-rising flour

Place the sugar, fat and egg in a bowl; beat until thoroughly blended; then add the flour and liquid alternately, then add the nuts; pour into a greased bread pan, and bake in a slow oven (300 degrees F.) about fifty minutes.

Remove is merely memory that has fermented.

Progress News Notes

The P.-T. A. will meet again Nov. 19. Everyone be there. Rev. Roy Bayless preached at Progress last Sunday night. We were glad to have him back with us again. Misses Violet Taylor, Erma Willard, Mansel Taylor and Albert Ray Willard spent Sunday in the J. L. Dorsett home. Mr. and Mrs. Johnnie Rogers spent Sunday evening with Mr. and Mrs. A. R. Penton. Fuller Reed and Clarence Hankins spent the weekend with Buster Reed. Kenneth Burton visited Marson Dorsett, Sunday evening. Glenys Berger spent Friday night with her grandparents, Mr. and Mrs. Jim Berger.—Reporter.

ALCOHOL IN THE BODY

A New York toxicologist, who has shared in over 30,000 autopsies, says his experience indicates that the human brain normally contains half a drop of pure alcohol, the liver three drops and

the blood five drops. This is usually found in the bodies of non-drinkers as well as those who indulge. This scientist is now trying to ascertain the part of the body that manufactures alcohol and why.

STORY WITH A MORAL

A tale is going the rounds in Phoenix, tells how an old bachelor found attached to a pair of socks a note from a factory girl, pining for a soul mate. He responded and after waiting with high

hopes for some days received this: Dear Mr. Blank: Your note addressed to my mamma, pleases me very much. I am now 18 years old. It's odd you should have been all this time getting her note, but I suppose the merchant from whom you bought the socks did not advertise.—The Branding Iron.

CONGRESSMAN MARVIN JONES RECITES NUMEROUS SUBJECTS DEMANDING THE ATTENTION OF CONGRESS NEXT MEET

By Congressman Marvin Jones
The next session of Congress promises to be an interesting one. The House is almost evenly divided between the two parties.

If the Democrats should organize the House, John N. Garner will be elected speaker. He has served in Congress for 30 years, knows all of the ins and outs and is the dean of the Texas delegation.

Texas has been in the Union since 1845 and has never had the speakership. It would be a rare pleasure to address a Texas man as speaker for the first time.

Many important questions will be presented. One of the chief of these will be the money question. A little group of men have perverted the Federal Reserve System from its original purpose, and have again centered the money control in the hands of a few men in the East. Chief of these is Mr. Mellon, and his politics have become known as Mellonism.

There are a number of contributing causes to present day conditions, but the chief one is the contraction of the currency. In 1920 there was a per capita circulation of \$33.01. According to the late Treasury report, it is \$33.53, a reduction of more than 25 per cent. And yet we have one-third more gold than we had in 1920.

When money is scarce it becomes more valuable because of its scarcity, and property becomes lower in value. Nothing would do more to restore normal conditions than an increase in the volume of money. This would make money more plentiful and would increase the property value thus stimulating prices of property and products, encouraging trade and furnishing work to a vast number of the unemployed.

Naturally this centralization of money has resulted in mergers, monopolies and the lessening of individual opportunity.

In the meantime some immediate changes need to be made. The lopsided tariff, which is destroying our foreign trade, should be revised.

Provision should be made for taking up the current instalments due the Farm Loan Banks and placing them behind the other instalments. I introduced a measure a year ago, H. R. 16,258, to do this. Several other members introduced similar measures. But due to the opposition of the bank officials and the administration these were defeated.

These measures will be reintroduced, and in view of a recent statement by the President, indicating that he now recognizes the necessity for such action, it is to be hoped that some such measure will be enacted. This is more important than any foreign moratorium, as home ownership is one of the greatest safeguards of our national life.

The centralization in government and business must be checked. The encouragement of mergers and monopolies should cease, short selling should be stopped, and business big as well as little given to understand that they must obey the law.

These are but a few of the subjects that will be presented. Economies should be practiced wherever possible, excessive salaries reduced, a free circulation of money restored, the control of local affairs restored to local people, and Mellonism should be destroyed.

STATEMENT OF TAX COLLECTIONS, DELINQUENCIES, INDEBTEDNESS AND SINKING FUNDS, OF THE CITY OF MULESHOE, BAILEY COUNTY, TEXAS.
For the Fiscal Year ended August 31, 1931, as required by H. B. No. 275, passed by the 2nd Legislature. Original on file in the County Clerk's office.
Total Taxes collected for all purposes \$ 4,868.17
Total delinquent taxes at end of fiscal year \$ 3,582.18
Outstanding Time Warrants \$ 8,000.00
Total Outstanding Bonded Indebtedness \$38,000.00
Total amount to credit of Sinking Funds to retire bonded indebtedness and time warrants \$ 1,819.28
Remarks: In addition to the above there is outstanding \$3,819.00 in Sewer Equipment warrants, series, 1929; principal payment \$500.00, semi-annually, beginning December 1, 1931; interest at 6 per cent. Revenue to meet this obligation is derived from the rent of sanitary toilets.
I certify that the above statement is correct.
ALBERT H. ISAACS, Secretary-Treasurer, City of Muleshoe, Tex.

DOAK GOES TO DALLAS
Rev. D. B. Doak, former presiding elder of this district, and pastor of the First Methodist church, Plainview, has been transferred by the Bishop to the pastorate of Kessler Park Methodist church in Dallas.

Rev. Doak held a series of meetings in Muleshoe last summer, and is well known here as a strong preacher.

CARD OF THANKS
We take this opportunity of expressing our sincere thanks and appreciation for all the kindly acts and words of sympathy extended us during the recent illness and death of our father I. A. Johnson.

Mr. and Mrs. G. G. Johnson, E. W. Johnson.

Auto Drivers Not Stopping For Bus May Be Prosecuted

That there are continued and persistent violations of the new school bus law which requires people riding in vehicles to come to a full stop when school buses are loading or unloading pupils, are the reports coming to County Judge J. E. Adams, who throws out the warning that bus drivers have been instructed to take the names of future violators and turn them over to the County Court. It may be necessary to prosecute and fine some of these offenders said the Judge, but at any rate, the law will be enforced and the lives of the school children must be protected.

For the information of bus drivers and also for other vehicle drivers who travel the same road, the law is quoted from the statutes in full, as follows:

"Art. 301b, Sec. 1. All vehicles used for the transportation of pupils to or from any school or college, shall have a sign on the front and rear and on each side of said vehicle, showing the words 'School Buses' and such words shall be plainly readable in letters not less than six (6) inches in height. It shall be the duty of the operator of such 'School Buses' vehicle to see that such signs are displayed as above provided, and it shall be unlawful to operate any such 'School Bus' vehicle unless such signs are so displayed thereon. When any such 'School Bus' vehicle stops, every operator of a motor vehicle or motorcycle approaching the same from any direction shall bring such motor vehicle or motorcycle to a full stop before proceeding in any direction; and in event such 'School Bus' vehicle is receiving or discharging passengers, the said operator of such motor vehicle or motorcycle shall not start up or attempt to pass in any direction until the said 'School Bus' vehicle has finished receiving and discharging its passengers.

"Sec. 2. Any party who violates any of the provisions of Section 1 of this Act shall, upon conviction thereof, be guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than Ten (\$10.00) Dollars, nor more than Five Hundred (\$500.00) Dollars, or confined in the county jail not to exceed ninety (90) days, or both such fine and imprisonment; provided, however, that if death results to any person caused by the act or recklessness by a noncompliance and violation of any of the provisions of this Act, then and in that event, the party or parties so offending shall be punished as is now provided by law."

Local Garage Men Urge Tuning Up Of Autos Before Winter

With the coming of wide temperature ranges experienced at this season of the year, motorists are going to find it to their advantage to have their motors retuned and adjusted, according to local garage men, some of whom are now offering special inducements to have this work done before real cold weather sets in.

One of the distinct advantages of the modern automobile over its early predecessors is found in the fact that the motor today can be adjusted to give maximum performance in all seasons. A motorist who drives through the winter with a car adjusted to summer weather conditions deprives himself of much of the car's capacity for performance and needlessly increases its operating expenses, the motor experts say.

The carburetor should be checked, and the valves should be adjusted to prevent loss of compression. The ignition system, especially the timing, should be well cleaned and checked for proper adjustment. The proper functioning of the ignition system is essential to easy starting on cold mornings.

Other suggestions made by local auto mechanics and dealers include a thorough flushing out and cleaning of the cooling system; draining and flushing the crankcase and refilling with a good grade of oil. And, perhaps most important of all, the brakes should be adjusted, or, if necessary, relined.

KELLUM AND MASSEY ESCAPE FROM JAIL IN LAMB COUNTY

S. W. Kellum, who was arrested here two weeks ago on a charge of aggravated assault on his father-in-law, H. B. Dooley, and who afterward led Sheriff H. Sterling to finding a number of allegedly stolen articles taken from a Littlefield store, broke out from the Lamb county jail at Olton Friday night of last week and made good his escape.

Kellum was turned over to the sheriffs of Lamb county, and with him also was James Massey, who was implicated in the Littlefield robberies. Massey went out of jail with Kellum.

They pair made their exit by crawling through a narrow opening between the floor above and the top of their cell, getting into the furnace room, and then lifting a heavy grating above a basement ventilator, escaping to the outside. Officers died to see their escape.

A hick town is a place where the telephone lines get crossed and nobody notices the difference.

UNEXPECTED EMERGENCY

Two Irishmen ordered to conceal themselves in a cowhide. Pat in the front legs and Mike behind, were pretending to graze along to get over the German lines.

Best it back. Pat" hissed Mike suddenly, as he prodded his buddy in front. "What's the matter?" asked Pat. "Migosh, don't you see the German coming with a milk pail?"

SLIVERS AND KNOTS

Vol. 1 November 12, 1931 No. 56

Station Panhandle Lumber Co. Clarifere Goins, Announcer

Mr. Jess Thornhill of Oklahoma is improving his farm near here.

Punny thing, we've been called out of bed many a time to fill an order. Were you ever called out to write a receipt for an account paid in full? No, we weren't either.

We still have the bargains, that Number three 2x4's, 2x6's and car siding at \$25.00 per thousand. Remember STALL RUN, NO THROW BACKS.

We still have an Easy Feed grinder, the best for money, look it over, it's a hammer mill.

We understand that prices of cotton and grain are making an appreciable advance. We trust so and hope the growers will receive full benefit.

Mr. DeBord and Mr. Maxwell are building a garage for Mrs. Tivis, our efficient and accommodating Tax Assessor, at her home in the Southwest part of the city.

Now wouldn't it have been fine if a little had been spent for a granary last June.

Edgar Broyles has just hauled out material for a hen house and John Whitrow is also building a "Home for the Biddies." Good investments, what?

But then the hogs and chickens can be housed. Witness L. M. Day's new hen house.

Lots of people aim high but forget to load the gun.

Katherine—Being engaged to Hamilton makes me feel like I'm in the seventh heaven.

Dorothy—Maybe that's because you've been engaged six times before.

A partnership of ability and reliability knows no failure.

Louise—Do you know why your hair has electricity? Cleveland—No, why? Louise—Because it is attached to a dry cell.

We don't exactly disagree with vegetarians, but we do think the taste of an onion is improved greatly by adding a sirlon steak.

Candidate—If I'm elected your husband will have more work. What business does he follow? Woman Voter—He is a grave digger.

It is not the high cost of doing business that hurts; it's the high cost of not doing business.
