DENBY RESIGNS AS SECRETARY

M'ADOO IS GIVEN UNANIMOUS VOTE OF CONVENTION

DELEGATES WOULD HAVE HIM CONTINUE IN RACE FOR PRESIDENT U. S.

By HARLAN S. MILLER (UN Staff Correspondent)

CHICAGO, Feb. 18.—Unanimously the \$150,000 Doheny retainer, in the opinion of his ardent supporters, William G. McAdoo remains in the race as the leading democratic candidate for the presidency.

With no dissenting voices, and with few allusions to the looming stigma of oil that had brought them together, 300 delegates who, although undoubtedly of McAdoo sympathy, nevertheless, seemed to represent the preponderance of strength in the democratic party, endorsed their leader and sent his name conventionward with renewed momentum.

As a formality, a vote was taken which revealed the giving unanimous favor of McAdoo's continuance in the race. But from the first rousing address, the issue was never in doubt.

Even the exclusion of M. A. Dinnmore, an attorney of Birmingham, Ala., who sought to participate in the conference, did not cause an ebullient in the flood of enthusiasm. Dinnmore was barred, according to the announcement from the platform, because he "is not a real McAdoo delegate."

HOUSE COALITION DEFEATS TAX AMENDMENT

WASHINGTON, Feb. 18.—Conservatives, republicans and democrats of the house combined Monday to defeat an amendment to the tax bill abolishing tax-exempt securities, offered by Representative Frear, of Wisconsin, by a vote of 140 to 67.

Frear asked that all state, county and municipal bonds be taken from the exempt list. This precipitated a lively debate. Representative Mills, of New York, stated it was the opinion of the "best legal minds in the country" that this amendment, of which he had previous knowledge, was unconstitutional.

McCumber, counsel for the wheat council, said financial conditions in the wheat territory were so depressed that farmers would find it impossible to operate at a gain despite an increase in the tariff.

By RAYMOND CLAPPER (Copyright 1924, by UN.)

WASHINGTON, Feb. 18.—True to the tradition of the service in which he was schooled as a gobbet, Secretary of the Navy Edwin Denby has gone down fighting with his flag at top mast—the first official casualty of the Teapot Dome scandal.

"I go gladly and fearlessly," the secretary said in a statement explaining his resignation. The resignation is announced in an exchange of letters with President Coolidge made public late Monday. It is effective March 10.

SOCIETY

A Charming affair

One of the most charming social affairs of the season in Kid-Key College was the Forum-Tea and Housewarming in the Kid-Key club room. This tea was planned by the social and membership committees of the Forum under the able chairmanship of Miss Lucy McLaurin of Vicksburg, Miss.

The guests were received by Mrs. Julia Johnson, president of the Forum, and her officers. A Japanese decorative scheme was effectively carried out in lanterns, chrysanthemums, and cherry blossoms. Tea was daintily served by five little Japanese maids, Elizabeth Sparlock, Marshall and Carolyn El-

more, Kathryn Merrick and Claytie Woods Pace. The program opened with a Japanese fan dance by the little Misses Elmore. Miss Juanita Richardson sang a Japanese love song; Miss Mary Margaret Anders gave several enjoyable readings, and Miss Josephine Butterly concluded the program with a piano solo, "In Lotus Land," by Cyril Scott. The housewarming was the occasion for the receiving of gifts from campus friends of the Forum for its club room, which is the distinctive social center of the college, and the property of the girls themselves through their clubs. MAY PETERSON TO SING AT AMARILLO FOR ROTARIANS

When May Peterson, the charming prima donna of Metropolitan Opera company fame who is to appear in Amarillo in concert, Friday, Feb. 22 started for Europe the first time, besides the three hundred dollars she had in her pocket which represented her entire capital, her most treasured possession was an alabaster lamp which she has preserved to this day as a memento of the past and when anything goes particularly wrong with her she goes to it and, like Aladdin and his Wonderful Lamp, she rubs it and the genie lives in the lamp, if he doesn't at once shower her with pearls and precious stones or whisk her off in a magic carpet to Paris, Bagdad, Timbuctu or some other delectable place, at least rid her of her "blues." When she remembers the struggle she had to make both ends meet that first year in Florence, when she recalls the spaghetti and ragouts and coffee and tea that had been made on that lamp and how difficult it was sometimes to get the spaghetti, the ragout, the coffee and tea, to say nothing of the alcohol itself (and Italy has no vodka law) she chivers up at once and "all's well with the world."

Very few girls have gone abroad to study singing with the slender material equipment which accompanied May-Peterson and have been able to return a successful artist. But May Peterson was the daughter of a Methodist circuit rider, she was one of nine children and she had learned how to do for herself and make much of little. She had courage and persistency, imagination and resource and she found means to make money in Europe which helped through to the end. She gave English lessons, sang in the American churches, played accompaniments—any job was a good job if it brought in some money honestly earned.

MISS MAY PETERSON

can churches, played accompaniments—any job was a good job if it brought in some money honestly earned.

It was fairly difficult at times, especially in the winter when one can get colder and stay colder in those stone-floored rooms of Florence than anywhere else in the world, and cold is a mortal enemy of the singer. But Miss Peterson was blessed with health as well as courage and she came through the ordeal unscathed.

Miss Peterson will sing in Amarillo at 8:15 o'clock the night of Feb. 22 at the municipal auditorium under the auspices of the Amarillo Rotary club. The proceeds will be used to defray expenses of the club to the Texas district convention at Wichita Falls in March. The club is asking the support of Rotarians throughout the Panhandle and music lovers. Prices have been made reasonable and the concert by this famous soprano is within the reach of all.

CONFINED TO BED

Birmingham Lady Took Cardui for Relief of Change of Life Troubles and Says It Helped Her "So Much."

Birmingham, Ala.—"I first took Cardui for that tired, worn-out feeling that comes from being dreadfully run-down," says Mrs. Catherine E. Smith, of 2106 Stout Street. "Twenty-five years ago, I was suffering from womanly weakness."

"I read of Cardui in an almanac, and thought I would try it. I got a bottle and it helped me from the first. After that, during the whole of my married life, I took Cardui when I needed it."

"About four years ago, change of life came on me. I grew weaker and weaker, and was confined to my bed, where I lay on my back for days. I was told that only a surgical operation could do me any good, and this depressed me very much, for I dreaded such an ordeal."

"I remembered how Cardui had helped me for female trouble in the past and I had read of how it had helped other women during change of life, so one night I told my husband to go to the drug store and get me a bottle. I began taking it at once. From the first dose I could feel myself getting stronger. I continued to take Cardui until I was entirely through this very trying period of a woman's life."

SUITS AND COATS

ARE THE BIG FEATURES IN LADIES' GARMENTS FOR SPRING

From their rather obscure position in the fashion parade, suits this season have taken a place well to the front, and rightly so for who can think of a garment more suitable for so many occasions as an attractive suit. The styles are new and different, the colors spring like. You will surely like them. Coats also have a decided popularity this season, more than ever before. In both these lines, we are now showing many most desirable garments that we would like to have you inspect.

CHOOSE THESE SUITS FOR THEIR NEWNESS

In boyish type, suit from light weight spring fabrics is a decidedly new idea this season. Very dressy and very tailored they are sure to make a decided hit.

The costume suit with three-quarter jacket also is new, with flaring collar and a decorative touch here and there, they have a very distinctive air.

In pretty sport styles many varied materials have made their appearance this season. Colorings are bright, styles are striking and the fit graceful.

NEW COATS ALSO ARRIVE

New coats added to our showing over Sunday have greatly added to the appearance of our racks. One especially striking coat in fine tan twill material with touches of fur here and there is sure to excite the desire to possess. Others just as pretty are also among the new arrivals at prices most moderate.

'Planting the Home Grounds Adds Beauty and Increases Value

It takes more than a house to make a home. Likewise it takes more than a beautiful building to make an attractive place. A simple cottage or bungalow beautified with shrubbery, trees, grass and flowers is far more attractive and homier in appearance than the most luxurious and costly mansion without these plantings.

It is positively pitiful to see the many homes that are without plantings of any kind. Such places may often be seen not only in the country, but in the cities and towns as well. When one can so easily and so inexpensively beautify these bare places with a small amount of shrubbery and trees, grass and flowers, it is nothing short of a calamity for it not to be done.

Everyone Likes Beautiful Grounds
It is true that one may live just as long in a home that is not properly beautified with trees, shrubbery, etc., but in such a place, one can never get the most out of life. It matters not how little beauty may mean to some people; the person never breathed who would not think more of a home properly beautified with trees, shrubbery, etc., than one built out in the open with nothing in the way of shrubbery and grass to tie to old mother earth.

We would therefore make an earnest plea that the home grounds be planted. Do it now, as this planting work can be done any time during the winter or early spring before the plants begin to swell.

Many people imagine that it is very expensive to properly plant the home grounds. We believe this is one of the outstanding reasons why so many homes are not planted. It is a mistake to think that a large amount of money is necessary to beautify the home grounds. Of course much money may be spent for this purpose if one has large grounds and wishes an elaborate planting. But the small home or even the large one, may be properly planted with trees, shrubbery, etc., at a price that is well within the reach of everyone.

We have seen many small cottages and bungalows practically remade in appearance by the planting of only \$5 to \$10 worth of shrubbery and trees about the place. True, more than this amount should be spent if possible, but if more than \$5 or \$10 cannot be spared for this purpose, then by carefully selecting the kinds of shrubbery and trees one can make a very good showing with this small amount of money. By spending \$25 to \$50 or \$75 to \$100 in enough shrubbery and trees to make a most excellent planting about the home. If something elaborate is desired, then a few hundred dollars will bring the desired results.

Planting the Grounds Increases Value of Property.
When looking at this matter from the dollar and cents standpoint only, it pays to plant the home grounds. The very minute one properly plants \$25 to \$100 worth of shrubbery, trees, flowers and grass on the home grounds, the value of the property is increased anywhere from \$500 to \$1,000. This has been demonstrated over and over again, and even if beautifying the home grounds means little to one, they should be beautified from the standpoint of making the property more valuable in case it is sold.

Another reason why many people probably do not plant their grounds is because they think it is a difficult job and they do not know how to arrange the trees, shrubs, flowers, etc., so as to secure the desired result. This is not a real difficulty because expert advice along this line can always be secured free of charge from the Horticultural Department

of the various State Colleges, Experiment Stations, and Nurserymen growing and handling shade trees and shrubbery. These folks are always glad to supply home owners with information as to the proper location of shrubbery and shade trees the best kind for the different sections of the country, etc. In other words, this lack of information as to planting and location of the shrubbery and trees need not prevent anyone from beautifying the home grounds, because this information may be secured from the above and other sources, free of charge, by any home owner.

We would especially urge therefore, that every home owner whose grounds are not planted, make a beginning right now by getting in touch with the Horticultural Department of the State Agricultural College and Experiment Station or Nurserymen growing shrubbery and shade trees. Any or all of them will gladly supply reliable information along this line that will result in beautifying the grounds and adding \$500 to \$1,000 more in value to the property.

EDITOR'S NOTE: This article has been prepared by a well known horticultural writer who is not in the nursery business. It is guaranteed to be reliable and so written as to give helpful information to those interested along this line. We will print a series of these articles in the Morning Avalanche. You may get them by sending for them, or by reading all of them.

Another Reason Why— Buick Body Construction

In constructing its open car bodies, Buick uses bolts in fastening the metal braces to the wood, instead of ordinary screws. These bolts passing completely through the wooden frame prevent joints from loosening under driving strains. A more than usual number of bolts secure the Buick body to the chassis, holding it rigidly in position and entirely eliminating all squeaks and rattles.

OPPORTUNITY OF PANHANDLE IS RECOGNIZED

AMARILLO, Texas, Feb. 18.—The Panhandle Plains region of Texas, Oklahoma and eastern New Mexico offers greater opportunity to colonists than does the Argentine and other sections of South America, was the declaration of Dr. Colin Ross, German traveler and writer, who was here this week. Dr. Ross is making a tour of the world and writing articles for a syndicate of 14 German, Austrian and Swiss newspapers.

He stopped in Amarillo for the purpose of obtaining information on the agricultural possibilities of the section, as unsettled conditions in Middle Europe have caused great interest in colonization. The fact that 10,000,000 acres of virgin land ready for the plow is available in this section, together with its comparative freedom from insect pests gives it a great advantage over South America, he said. Farming on the Plains can be begun at less expense and with less work than in the Argentine, the visitor asserted.

He expressed astonishment when told that practically every county maintained a farm agent whose duty it is to work with farmers and instruct them in cultivation methods of this district.

Dr. Ross, who is accompanied by his wife, went from Amarillo to the Grand Canyon. They will sail for the Orient on February 28.

HOUSTON WOMEN WILL CLEAR UP MOVIE BUSINESS

HOUSTON, Texas, Feb. 18.—"Bad movies must go."

Committees from the various clubs have been assigned to view current films and report to a joint meeting next week. One movie was forced to suspend showing a film as a result of the censorship activities of the women.

The women plan to make their organization a vital force for the uplifting of Houston. Later on they will extend their supervision to public places other than the picture shows.

NOTHING NEW NOW, NOT EVEN 'BACK TO THE FARM'

HOUSTON, Texas, Feb. 18.—Nothing's new now-a-days.

The slogan "back to the farm," believed to be "right up to the minute," was first used in Houston in an editorial in the Houston Telegraph in 1859, a perusal of library files shows.

"Among the thousands of emigrants that are now constantly arriving in our country, we notice with regret too large a portion of young lawyers, physicians, clerks and recent graduates of eastern universities," the editorial reads.

The writer pictured the streets filled with professional men rapidly going to seed and advised the new arrivals to forget their special training and take up tilling of the soil, whereby sacrifice and persistence they might win a competence from the rich, black lands.

Mr. Lykes is completing three buildings on Avenue H, all of which will probably be rented before actual construction work has been completed, which shows the demand for substantial business houses here.

DREAMS OF WORLD PEACE ARE LEGACIES TO THE NATION.

One of the most prominent political writers of the nation today says that the United States has seen two of its presidents pass into the Great Beyond in the same year and that each were exponents of peace.

Wilson and Harding had different visions of the means to prevent war. Both of them were called away before their dreams came true, though Mr. Harding had the greater satisfaction of seeing his program partially adopted.

After he became President, Mr. Harding viewed with much greater sympathy than previously the Wilson program, because he came in touch himself with the influences which sought to defeat and ultimately did defeat American participation.

TAXES WILL BE REDUCED.

The defeat of the proposed amendment to the Constitution forbidding future issuance of tax-exempt securities indicates that a bill may be proposed to tax these securities under the Sixteenth Amendment.

CONGRESSMAN McFADDEN WOULD MAKE RADICAL CHANGES IN NATIONAL BANKING LAWS.

Congressman McFadden, of Pennsylvania, has proposed a radical change in the national banking laws. His bill would enlarge the scope of national bank activities by permitting them to open branch banks in any city where state banks are now operating.

The Chicago Plan Commission contemplates a great two-level street at South Water Street—one for traffic in one direction and the other for opposite traffic.

BEGINNING AT THE WRONG END

As is the case in many things, the politicians begin at the wrong end of the trouble to have any luck correcting it. The great hue and cry of the present age is reduction of taxes.

There should be some drastic changes in this erty throughout the state in valuation. Then West Texas would not be burdened with such a tremendous unproporionate amount of taxes.

With the oil scandal, the Veterans Bureau prosecution, the Indian affairs, the Treasury dupli-cate bond disclosures, the proposed investiga-tion of governmental protection to Mexican and other oil interests, the demand for an investiga-tion of the alleged Alaskan railroad steal, and a showing up of the Shipping Board transactions, coupled with the fight for tax advantages and the banking condition in the Northwest, Con-gress will appreciate a vacation.

MARKET LEADERS TAKE HEAVY REDUCTION

NEW YORK, Feb. 18.—Price levels in a large number of instances sank Monday beneath the lows of last Friday's recession and losses of from 1 to 5 points were in order right through the list of the market's recent industrial leaders.

The question of politics and the new origination thereof. The prospect of a 40 per cent surtax in the tax program and the almost certain ruthless mutilation of the Mellon plan.

The afternoon decline was so general and uniform that scarcely any group of stocks stood out more conspicuously than the railroads. Railroad stocks as a rule, were not as weak as the industrials.

LAW VIOLATION CLAIMED BY RANCHMEN

A dispatch carried in a recent issue of the Dallas Times-Herald had the following important information relative to violations of Texas laws as complained by Cochran county cattlemen:

A detachment of rangers will be sent to the New Mexico line, to combat violations of Texas laws against the driving of scabby cattle into the state, Adjutant General Thomas D. Barton assured J. E. Boog-Scott, chairman of the livestock sanitary commission, and C. C. Slaughter, large ranch owner in Cochran county, Tuesday.

According to complaints of ranchmen of Cochran county, made through Slaughter, a wholesale dis-regard of these laws and the almost unchecked drive of scabby cattle across the New Mexico line threatens to destroy the work done by the ranchmen in the county during the past two years, which resulted in the raising of the quarantine. Cattle, it was pointed out by Boog-Scott, cannot be dipped at the season of the year.

No Officers in Cochran. Those driving the cattle into Texas are declared to have declared their intention to continue, law or no law. Cochran county is the only unorganized county of the state, and there are according to local officers to enforce the law.

SPORT NEWS

THE LUBBOCK DISTRICT UNIVERSITY INTERSCHOLASTIC LEAGUE TO HOLD CONTEST MEETING HERE APRIL 18-19

Supt. M. M. Dupre, of the Lubbock public schools, announced Monday that the Lubbock District University Interscholastic League meet will be held here on the 18th and 19th of April.

Eighteen counties are included in the district, all of which are represented by practically one hundred percent of the rural and urban schools at each meeting of the league, and a host of prizes will be given champions in the various classifications here.

While no definite announcements

have been made as yet, it is predicted that the usual number of awards will be offered for meritorious work on the part of the contestants, as in this connection with the University league the business men of Lubbock are foremost of any set of business men in West Texas in offering prizes that are designed to create more interest in the various contests.

Lubbock will be filled "to capacity" for the two days, and plans are being worked out now for the entertainment of the many visitors.

LEWIS AND ZBYSKO SIGN AGREEMENT TO MEET FEB. 26

By United News.

CHICAGO, Feb. 18.—After much beefing over terms Stanislaus Zbyszko and Ed "Strangler" Lewis signed articles of agreement Monday to meet February 26 in the stockyards pavilion.

The struggle will be the only one barred. The two wrestlers so far have not agreed on the referee.

Zbyszko wants a heavyweight while Lewis favors one in the 145-pound class, fearing that the presence of another behemoth on the mat might deflate the air cushions in the mat.

FAILURE TO ANNEX PENNANT THIS YEAR BY SOME WESTERN CLUB MAY CAUSE UNTOLD GRIEF, PEGLER SAYS

By WESTBROOK PEGLER.

NEW YORK, Feb. 18.—In the Florida peninsula and in other scattered localities of sunny disposition and southern exposure, the grocery business will begin to feel a spring-time stir of trade before the end of this week and the lazy air will furrow by the first fogs of the baseball season.

From a hundred places of hibernation where, it is understood, they subsist on roots and herbs and dried berries during the winter, the players and apprentice players of the major league baseball clubs will start by day coach on the combination trains for the main line stations. Then they will acquaint themselves again with the softness of the pullman seat and the luxury of the napkin and three kinds of spoons on through trains, converging toward their training points down south. It is, in a manner of speaking, spring again.

CHANCE MAKING EFFORT TO RECUPERATE TO REPORT FOR WORK

LOS ANGELES, Calif., Feb. 18.—Frank Chance will not quit. The "peerless leader" has sent his resignation to Charles Comiskey, owner of the Chicago White Sox today.

His health for the past two months was given as the reason. "We are counting on you," Comiskey telegraphed Chance from Chicago in reply, "and you are the only one to handle the club. I don't care if you report two months after the season opens. We will get along somehow until you are able to report. Do not worry about it. I will not accept your resignation."

Pleased with the boss' attitude, Chance has changed his mind.

"I'm taking a new kind of treatment and it is helping me more than anything I have tried," he said. "It begins to look as if I can't escape the job, so I'll try and get there as soon as possible."

Chance is suffering from lung trouble.

WHITE SOX AFTER NEW PLAYING MANAGER

By United News.

CHICAGO, Feb. 18.—President Comiskey of the White Sox began preparations Monday to choose a manager to take Frank Chance's place. He received reports from Los Angeles concerning Chance's condition which indicated that the player may never return to the game.

Although Chance resigned over the week-end, Comiskey telegraphed him telling him his place still was open. Chance wrote that he might join the club in a few weeks, but that he did not feel equal to piloting the team.

Eddie Collins, captain, and second baseman, Ray Schalk, catcher, Johnny Evers, coach and Harry Hooper are among those being considered by Comiskey for a better job. Collins and Schalk are said to be the favorites.

Chance has advised Comiskey to appoint Collins. For a time Comiskey was considering dividing authority between two leaders but he has abandoned this plan.

PROMINENT MERKEL LADY DIED LAST MONDAY

MERKEL, Texas, Feb. 18.—The funeral of Mrs. Yates Brown, which took place here Monday afternoon at three o'clock, was perhaps the most largely attended funeral in the history of Merkel. The public schools of the city closed for the afternoon and business houses closed during the funeral.

To say that the First Baptist Church, where the funeral service was held, was crowded would be putting it lightly.

The crowd overflowed the church and corridors, and extended into the street.

AT THE CHURCHES

Church of the Nazarene
Attendance and interest were good Sunday throughout the day, in spite of the fact that several of our people were too ill to attend any of the services. The subject of the morning service was "Isiah's Vision and Call to Service." He had a vision of Divine majesty and power of the reverence and humility with which he should be approached. He saw himself and his great need and cried to God until touched by divine power; after which he heard the call to service. He at once answered obediently: "Here am I, send me."

"Sin" was the subject of the evening hour, being shown as disease that has affected the entire human race. It has a powerful author who is our foe.

Sin is recognized by all classes as something universally wrong in the moral fibre of the human race. Reformations tend to subdue it but only the transforming power of the blood of Jesus can eradicate it.

COLLIN MYATT HOME IS DESTROYED BY FIRE SAT.

SLATON, Feb. 18.—The home of Collin Myatt, three miles west of Slaton, was destroyed by fire Saturday afternoon. The cause of the blaze is unknown, but it is believed that it caught from an oil stove.

Mr. Myatt and his family were in Slaton at the time of the disaster, and consequently no one was at the farm home when the flames broke out. The building and all of its contents burned to the ground.

The loss is partially covered by insurance, it is said.

MAN ARRESTED AT CHILDRESS FOR THEFT OF CAR THOUGHT TO BE THE HEAD OF A GANG, IS IN JAIL HERE

Sheriff Bud Johnston and W. A. Izard, proprietor of the Izard Driverless Ford Station, returned to their homes here Saturday night after visiting at Childress, Quannah and other points in that section of the state.

They returned D. Matthews to Lubbock and placed him in jail on a charge of theft in connection with the theft of one of Mr. Izard's rent cars, which they recovered at Childress after Matthews had spent some seventy dollars on extras for it which had been put on the car in an effort to change its appearance so it could be driven to Denver, Colorado, according to information given by Matthews following his arrest at Childress.

Matthews, according to officers, had been in Lubbock several weeks, posing as a captain in the U. S. secret service.

He is said to have sent several telegrams through the local Western Union office to which he signed his name "Captain D. Matthews, United States Secret Service," and as members of the sheriff's force had suspected him, they did not lose any time getting on his trail when it was learned that he had left town in the rented car.

Mr. Izard was at first dubious about having the man arrested even after the car had been gone several days, as he had received more than one hundred dollars from Matthews while he was in Lubbock for car rental. Los George, deputy sheriff, insisted however that the man was up to taking the car into his own possession, and had him held by the marshal at Childress.

When Sheriff Johnston and Mr. Izard arrived at Childress and were taken to where Matthews was being held, he admitted that he was caught trying to take the car, whereupon an investigation was made concerning other property in his possession and when the officers searched his suit case they found a number of pieces of jewelry, numerous articles of clothing, etc., which were believed to have been stolen.

Members of the sheriff's force believe that Matthews is the ring leader of a bunch of operatives between Fort Worth and Denver and that his arrest may lead to the arrest of others of the gang.

Canada exported to the United States 79,762 bushels of wheat last month as compared with 44,843 in January, according to reports shown.

Pensions totaling \$254,675 were paid to employees of the Bethlehem Steel Company last year.

SNAKE DEN IS FOUND IN A CISCO GARAGE

CISCO, Texas, Feb. 18.—A battle in a garage here between spectators and a large rattlesnake came near ending in complete victory for the reptile.

After a raid on a snake den several of the largest serpents were brought to town and placed on exhibition in the garage. A small boy took one of the snakes from the box and placed it on the floor to show how harmless it was when chilled.

At the same time the sun came out and when the warm rays struck the snake it immediately became active. It struck at the lad and missed. A lively battle ensued. All rounds went to the rattler until a mechanic made a lucky throw with a monkey wrench and the snake took the count.

COLLEGE WOMEN TALLER THAN EVER BEFORE

AUSTIN, Texas, Feb. 18.—"College women today are an average of two inches taller than they were one hundred years ago," according to statistics mentioned by Dr. William Palmer Lucas of the University of California, who recently visited the University of Texas.

"This notable difference in the stature of the mature women of a century ago and now is attributed to the more sensible, less confining dress and more vigorous exercise which those who are interested in the growth and development of children as to what the effects of proper care of their children will be."

"Whether a child is a victim of malnutrition cannot be decided altogether on whether its weight and height meet the standards that have been set by various scales for them. The color of the skin, the expression of the face, with especial attention to the eyes, the luster of the hair, the manner of walking, and the response to exercise are all valuable indications as to whether the child is getting the right kind of food. Out of the large number of children who were examined in an investigation in New York City, only 12.4 per cent of them would have been placed under observation if the weight and height test had been the only criteria upon which conclusions were based. As it was, 34 per cent of them were placed under medical observation."

"Loss of sleep, excesses, and infections were found by the army tests to be causes for loss in weight. In like manner, the same irregularities on the part of children will cause malnutrition."

"One fact which all those who have the care of children from twelve up should remember is that a ration which is suitable for an adult will not sustain a child at this rapid growth period. Statistics have shown that a nervous, dynamic child needs about twice as much food as a quiet child; and that the active child needs more food than the quiet child. Violent muscular activity without the proper nourishment is detrimental to the healthiest child. However, the most vigorous exercise that any normal child is likely to take will not be too much for his physical strength if he has a sufficiency of good food."

Punchbowl, the largest extinct crater on the Island of Oahu, Hawaiian Islands, will become one of the greatest athletic stadiums in the world, if the plans of prominent athletic officers of Hawaii are consummated.

NEW MEXICO MEN LODGED IN JAIL HERE CHARGED WITH AUTO THEFT

Chief Deputy Sheriff, Les George, assisted by Deputy Johnson of Fort Sumner, New Mexico, arrested Ralph and Broadus Smith, brothers, of Fort Sumner, near Carlisle Monday on a charge of theft.

The Smith brothers are alleged to have taken a Haynes automobile from a resident of Fort Sumner, which they wrecked near Amherst in an accident.

They are said to have abandoned the car and went to the home of relatives near Carlisle where they were arrested Monday.

The fact that this car was stolen during the last week shows something of how fast the officers worked to affect the arrests.

Chief Deputy George has several automobile thieves arrested to his credit, and he is helping to make this territory unsafe for such criminals.

BIG ATTENDANCE AT CATTLEMENS CONVENTION

AMARILLO, Texas, Feb. 18.—With 10,000 invitations to the Panhandle Livestock Producers' convention and the annual sale of the Panhandle Hereford Association being mailed out, preparations are being made for handling the largest crowd that ever attended this great get-together affair of Southwestern cattlemen.

Reduced fares are in effect from Kansas City and St. Joseph, Mo., as well as from Texas, Oklahoma, Kansas, Colorado and New Mexico points, and visitors to the recent Kansas cattlemen's meeting at Wichita report that a strong delegation is coming from that state. Many northern feeders take advantage of the Amarillo convention in order to meet with ranchmen and arrange purchases.

Outstanding men in the cattle world will address the morning sessions of the convention, and evenings will be crowded with shows, dances and other entertainment for the visitors. Afternoons are left open for the reunion of old friends, and this feature of the convention has become one that is highly prized by visitors.

Although the number decreased during January, there are 1,277,000 jobless men in Great Britain.

WICHITA FALLS IS GETTING READY FOR ROTARY

WICHITA FALLS, Texas, Feb. 18.—Wichita Falls Rotarians are living up to their promise of something new and different for the district Rotary conference to be held here April 3 and 4, judging from the announcement that preliminary plans for the conference and the details of the program will be made public through the means of the radio.

The first announcement regarding the district conference program will be made Monday night from the Dallas News radio broadcasting station, when Hubert M. Harrison, of the Wichita Falls club, will deliver a short talk between the hours of 7:30 and 8 o'clock. All Rotary radio bugs are expected to tune in at that hour and get some first hand information regarding the conference.

Hubert Harrison's announcement will be followed shortly by other similar announcements. This method was decided upon because of the widespread interest in radio and the opportunity offered to give towns in the district fresh news concerning the conference.

LONE STAR LAND CO. OFFICIALS ARRIVED IN LUBBOCK SUNDAY WITH PROSPECTS; MANY DEALS CLOSED

W. P. Soash, president of the Lone Star Land company of Fort Worth, accompanied by District Manager Jack Carter and Herbert Slaughter, of Abilene, who will have management of the Lubbock branch office of the company, arrived in Lubbock Sunday afternoon with some fifteen men to whom they have sold a number of tracts of land in Hockley county near Leveland.

Mr. Soash and associates will arrive in Lubbock each Sunday with prospectors, and will return to the headquarters office at Fort Worth each Tuesday, leaving Lubbock Monday evening, this being the initial trip of the men representing the Lone Star Land company.

Mr. Slaughter, who has been at Abilene, will move his family to Lubbock in the near future and will be associated in the management of the company's local office by his sons, Billie and Herbert.

Mr. Soash did not return to Lubbock until late last night from Leveland where he took several of the members of his party on a prospecting tour of the company's properties in that section. "We are bringing a high class citizenship to the plains, and are proud to have a part in settling this fine country with such people," Mr. Carter said last night.

The Lone Star Land company will be an active agency for settling and developing the plains country.

A special car will be operated between Lubbock and Dallas in bringing the company's buyers to their headquarters.

Mr. Soash is in charge of the company's business in Lubbock and it is assured that a large volume of business will be handled by him.

The party left last night for their homes at Fort Worth.

DENBY RESIGNS AS SECRETARY (Continued from page 1)

vice in which so many years of his life have been spent, he concealed them bravely.

He smiled to the correspondents filing into the room, many of whom he knew personally.

"There must be something in the wind," he laughed as the crowd jammed his spacious office.

With steady hand he took up the sheaf of papers concerning the resignation and in a clear strong voice he read them all.

In giving out the correspondence relating to his resignation, Secretary Denby issued a statement, defying those who have attacked him under protection of senatorial immunity.

"My resignation is to take effect March 10th which gives plenty of time for impeachment proceedings to begin," he said. "Therefore, any one who says that I am resigning for fear of impeachment simply lies."

Challenges Investigation.

He challenged investigation before an unprejudiced tribunal, and reiterated that he believed his actions were beneficial to both the government and the navy.

Implying that he is a victim of politics, Denby said that within a month after signing the first lease, nearly two years ago, he explained the transaction to a senate committee, "and yet nothing was done to stop them until the passage of the Walsh resolution."

"My own vindication and that of the navy department will come with the proper ventilation of all questions connected with these leases in the impartial courts."

"The president has stood up manfully for right and justice. The sportsmanlike thing for me to do is to relieve him of further embarrassment caused by the political maneuver and partisan political trickery."

Denby's resignation was no surprise here. The United News predicted it the day Edward L. Doherty told of his \$100,000 loan to Fall

resignation and President Coolidge's reply.

"My Dear Mr. President: "Heretofore I have verbally expressed to you my deep appreciation of your strong message in regard to the Robinson resolution.

"No one appreciates better than I how difficult your situation has become. I fear that my continuance in the cabinet would increase your embarrassments. Therefore, I have the honor to tender to you my resignation as secretary of the navy.

"As there are a few pending matters which should receive my personal attention, I suggest that my resignation be accepted as of the date of March 10th, 1924.

"It will always be a gratifying thought to me that neither you nor anyone else has at any time advised me to resign.

"I assure you again of my appreciation of the many courtesies you have shown me and of your last great act in resigning to accept the department of the navy as secretary of the navy.

"With cordial regards to you and Mrs. Coolidge, and best wishes always,

"I am,

"Very Sincerely Yours,

"EDWIN DENBY."

"My Dear Mr. Secretary: "Your resignation has been received. I am conscious that you tendered it from a sense of public duty. It is with regret that I am to part with you. You will go with the knowledge that your honesty and integrity have not been impugned. I treasure and reciprocate your expressions of friendship. I shall remember the fine sense of loyalty which you have always exhibited toward me with much satisfaction, and always wish to you and yours contentment and happiness.

"Very Truly Yours,

"CALVIN COOLIDGE"

Ambassador To Peru Mentioned As Successor To Denby.

WASHINGTON, Feb. 18.—Miles W. Poindexter, ambassador to Peru, is mentioned by a well-informed official close to President Coolidge, as a possible successor to Edwin Denby as secretary of the navy.

Poindexter was prominent on the senate naval affairs committee until he was defeated in the election of 1922. Just before Harding made Poindexter ambassador to Peru, there was talk of Denby stepping out to make room for him at the navy department. The official who mentioned Poindexter said that the president had decided upon no successor as yet. The inference was that he has communicated with Poindexter to learn whether he would accept.

If assistant Secretary Roosevelt has not resigned by March 10, he will become acting secretary of the navy during the time between Denby's resignation and the arrival of a successor. It is probable that Roosevelt will be retained until after the change of secretaries has been made. No successor is likely to be appointed until after March 10.

SENATE OPENS NEW SENSATION
(Continued from page 1)

Wheeler and Walsh, before the latter left town.

Information which Lambert brought to the senate coincided with that which had already been furnished to Senator Walsh. Whether McLean will be brought before the committee to tell what he knows has not yet been decided. This is one question which will be brought before the committee in its executive session Tuesday.

With the investigating committee in a temporary recess, the new disclosures came with an abrupt shock and were the subject of numerous secret conferences at the capitol all day Monday.

For several weeks there has been rumor after rumor connecting government officials with speculation on the stock market on advance information of the lease of Teapot Dome. Most recently, this has taken the form of a report that the government had been sent here by New York financiers to compensate certain officials for losses in oil speculation.

From Miami, Fla., McLean wired denial of any knowledge of such denial, and immediately caught the train for the capital. His denial was followed by that of Otto H. Kahn, New York banker, who was also at Miami.

It was learned Monday that the new revelations concerning alleged speculation by government officials have in connection with the stories of a slush fund, except that some of the officials who were mentioned in connection with it are named in the new disclosures.

Senator Lenroot, of Wisconsin and Allen Pomeroy, one of the special attorneys general, had knowledge of the new allegations when they visited the White House late Sunday night.

McADOO IS GIVEN UNANIMOUS VOTE OF CONVENTION
(Continued from page 1)

Teresa M. Graham, Theo. J. Hamilton and Bruce Sterling, and was unanimously adopted.

Another resolution, submitted by

the railroad brotherhoods and embodying an endorsement for McAdoo on behalf of organized labor, was also adopted as a supplement.

In another resolution, Senator Walsh was commended for his support extended McAdoo.

CONSTRUCTION TO BEGIN ON "HOME BEAUTIFUL" SOON

At a meeting last night of the different contractors and furnishers of the Morning Avalanche "Home Beautiful," at which meeting final plans for the home were worked out, it was decided that actual construction work will begin as soon as the material can be placed on the ground. This will probably be Wednesday morning.

Neither time nor expense are being spared by the committee in charge of this work to make this into a real model home, and at the same time they are planning a home, not for its size and elegance, but one that is roomy, comfortable and conveniently arranged.

Actual construction has been held up on account of a delay in shipment of tile, which will be used, but it has arrived and will immediately be placed on the location at 15th St. and Ave. X, and it is planned now to break ground for the foundation Wednesday morning.

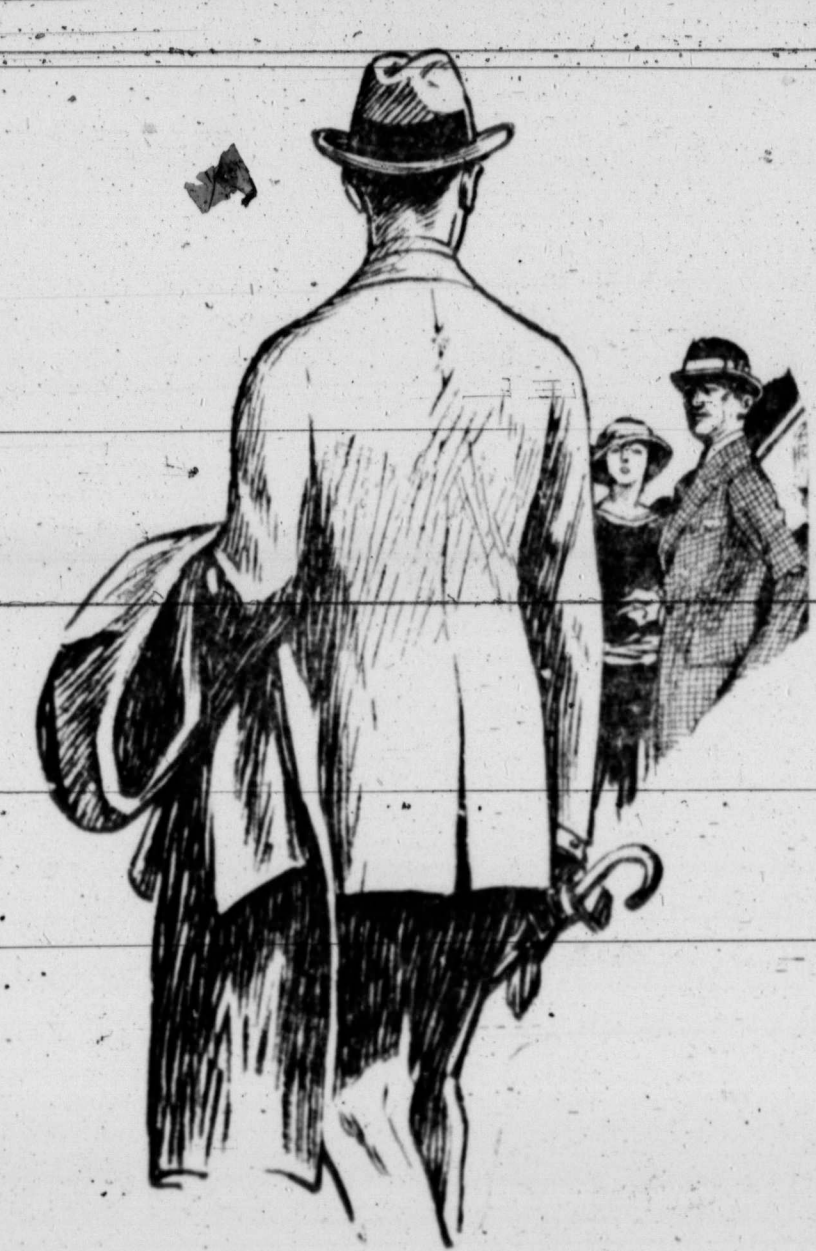

Not much is heard from the man who used to say the human race now and then needs a war to cleanse it.
