JAP EXCLUSION ENTERS HOT FIGHT

SENATE URGES CONFERENCE ON WORLD AFFAIRS

PLAN WOULD ESTABLISH INTERNATIONAL COURT OF 16 JUDGES

By RAYMOND CLAPPER (UN Staff Correspondent) WASHINGTON, May 8.—Heavy pressure behind the Harding-Hughes world court plan has forced Senator Lodge, chairman of the senate foreign relations committee, to yield in his opposition to the extent of proposing a new tribunal of similar nature, but which would be divorced of all connections with the league of nations.

His plan did not have the sanction of the administration before it was made public. Behind this proposal, embodied in a resolution which the Massachusetts senator offered Thursday practically without document, is a fascinating story of the gradual crumbling of the wing of irreconcilable senators who were all powerful four years ago and of the influence which has been developed by a carefully organized drive of practically all religious leaders in the United States.

When Harding proposed membership in the permanent court of international justice a year ago, Senate irreconcilables snorted and Lodge struck the plan into the most remote pigeonhole in his desk already the irreconcilable group had lost a good deal in numbers and prestige, but Lodge still felt strong enough to ignore the plan. He secretly attributed it to secretary of state Hughes who is regarded as a covert friend of the league of nations.

But as a matter of fact, the irreconcilables were already on the way to the wings. They had ruled this a mighty hand for a time. But now had died. New had been fostered for renomination: Johnson was seeking the presidential nomination. Borah had shifted round to more moderate ground. McCormick was engaged in a doubtful fight for renomination which he is since lost. Moses was beaten for a place on the convention delegation of his own state.

Meanwhile, a new rising spokesman in the person of Senator Pepper, of Pennsylvania, favorable to the extended international affiliations, had taken his place on the foreign relations committee. Pepper is chairman of the subcommittee which has been holding hearings on the Harding court plan. Representatives of practically every church organization in the country opened and hailed resolutions endorsing the court were carted.

All the while Coolidge was addressing the court in his message and speeches, Hughes was arguing for it on every platform appearance. Then, too, the democrats are taking every opportunity to ride Lodge with pigeon holding the pen, and were creating considerable political capital out of the situation. All of these circumstances have

WITNESS ADMITS EFFORT 'SMEAR' WHEELER

By United News. WASHINGTON, May 8.—Pursuing their attempt to show that the republican national committee had a hand in the indictment of Senator Wheeler of Montana, the Brookhart committee investigating the department of justice heard testimony Thursday purporting to show that deliberate efforts were made to "smear" both Wheeler and his colleague, Senator Walsh, the chief Teapot Dome investigator.

A. A. Grout, former law partner of Wheeler, and once assistant attorney general of Montana, related a conversation with Blair Coan, who investigated the Wheeler case for the republican national committee. "I told Coan I knew something about the Campbell case on which Senator Wheeler's indictment was based and there was nothing they could convict Wheeler on in it," the witness said.

Coan agreed but said they would have the indictment to hold over Wheeler anyhow. District Attorney Slattery did not want to bring the case before the grand jury, Coan said, but the department of justice made Slattery go through with it. Coan told me he wanted something to smear Senator Walsh with. He said they had Wheeler where they wanted him, and now could get something on Walsh.

Coan said the department of justice had 22 men in Montana. He quoted Coan as saying: "We have Wheeler sewed up nicely. We'll see that his case does not come up to trial for a long time. We will just hold it over his head. We don't expect to get any place with it."

LAXITY RUM LAW ENFORCEMENT IS DENIED

By United News. SAN ANTONIO, Texas, May 8.—While some thirty leaders of the chamber of commerce and other civic activities Thursday met in protest against alleged misrepresentation of San Antonio law enforcement conditions in telegrams to Washington, United States District Attorney Hartman was preparing a report on the question "whiskey rebellion" here in response to a demand from United States Assistant Attorney General Holland.

A further development was a report that signers of telegrams to senators and the attorney general describing local law enforcement conditions, especially with regard to liquor violations as intolerable, would be called before the county grand jury.

Holland telegraphed Mrs. J. M. Glass, president of the W. C. T. U. he was calling on Hartman for explanation for his alleged failure to accept cases turned over to federal prohibition officers by state rangers. The prohibition agents have rejected cases where dwellings were raided without search warrants.

El Paso Bank Receiver Named. ARKANSAS CITY, Kansas, May 8.—Albert H. Denton, president of the Home National Bank here Thursday was named receiver of the El Paso City National Bank which closed its doors early this week.

MAYFIELD FACES GRAFT CHARGE

By United News. WASHINGTON, May 8.—Opening of the investigation in the election of Senator Mayfield of Texas has brought a charge that the senator tried to raise \$33,000 from oil operators to finance his campaign for the senate.

This charge was made before the senate sub-committee by Mike McNamara, former employee of the public utilities commission of which Mayfield was chairman. McNamara said he was called into Mayfield's office before the candidacy had been announced. "He told me he was going to run for the United States senate and that it would cost a lot of money," the witness said. "As supervisor of the oil section of the commission he said he thought I should have some influence with the oil men and could make them kick in."

"He apportioned the proposed sum, \$33,000, among various prominent operators. W. B. Hamilton, of the Texas Home Company, the Texas company and various others should come through with \$5,000 each."

The witness said he eventually raised \$200 in Graham, Texas, and sent it to Senator Mayfield. This was contributed by a Mr. Morrison. McNamara stated that the money was sent in June, 1922, by registered mail and that he received a return slip notifying him that the letter had been received.

At the beginning of the hearing Thursday, Counsel for Mayfield asked dismissal on the grounds that George E. B. Peddy, who is contesting the election, is now a government employee. W. F. Sumbrum, chief counsel, said that Peddy is now assistant district attorney at Houston, Texas. His motion was held up by the committee until he can submit a brief of his contentions.

STATE SAVED BY LITIGATIONS MARRS SAYS

By United News. AUSTIN, May 8.—Text book litigation saved the state over half a million dollars this year, despite the final upholding of book contracts, S. N. Marrs, state superintendent of education declared Thursday. He lost in his attack on validity of new book adoptions but several beneficial results, he declared, came from his course "for which" he said "I have no apology to offer."

The text book contracts which were being fought by Marrs were declared valid by the state supreme court Wednesday.

WEST TEXAS TEACHERS COLLEGE MOTHERS DAY PROGRAM

CANYON, Texas, May 8.—The West Texas State Teachers' College will give a Mothers' Day program Sunday, May 11, especially dedicated to the mothers of the students of the college. Invitations and programs have already been sent out to the mothers of all the students now attending this institution.

Rev. J. W. Shearer, of Amarillo, will deliver the sermon in the college auditorium, and a special choir selected from the college chorus will give two numbers from Mendelssohn's saratoria "Elijah."

Tyler—Construction work totaling over \$600,000 now under way. Austin—Attorney general approves \$55,000 Kaufman county road bonds.

DAMAGE SUIT FILED ON U. S. GOV'T. BY IRATE WAREHOUSE OWNER

CHICAGO, May 8.—Pursued by Cooties which emigrated from France with the American doughboys returning home, George H. Shanks, warehouse owner filed a suit against the United States government here Thursday for \$6,999 damages. Shanks leased his warehouse to the army medical corps during and after the war. His complaint said that the minute pests had permeated every corner of his warehouse from soldiers clothing stored there and that he himself had been subject to frequent attacks from his unwelcome visitors.

CHURCH DEACON GIVEN PRISON SENTENCE

By United News. HOUSTON, May 8.—Two men, deacons in the same church, faced one another across the bar of justice in federal court Thursday morning.

One was federal Judge J. C. Hutcheson, Jr. Oscar L. Pardue who entered a plea of guilty to charges of using the mails to defraud was the other. After several minutes of earnest conversation, Pardue was sentenced to serve a term of two years in the penitentiary at Atlanta and pay a fine of \$25,000.

No comment was made by the court in passing on Pardue, neither was any advice given. The two talked together and laughed over some joke before sentence was passed.

Pardue was clearly affected by the sentence he received. He walked slowly back to his seat, and sat with bowed head while his former partner was being sentenced. It is understood that he has made every possible effort to escape the stigma of prison bar, even offering to give up all his worldly goods.

Rev. William States Jacobs, pastor of the church to which both Judge Hutcheson and Pardue belong sat tensely in the audience while the final disposition of the case was being made.

FARM BUREAU SPEAKER TO BE HERE

L. O. Barford, president of the Farm Bureau Cotton Association, has just received a telegram from J. W. L. Hall secretary of the Texas Farm Bureau Cotton Association, stating that J. E. Orr, president of a association, will be in Lubbock on the 26th as scheduled and will speak at the courthouse at two o'clock and can appear on the program at the entertainment the Lubbock County Farm Bureau members will give the business men of Lubbock that evening at the Acuff school.

Mr. Orr is an able speaker and is well versed in the principles of co-operative marketing as applied to Farm Bureau management, and his talks will be enjoyed by all who hear him.

BLINDNESS NO JUSTIFICATION FOR CRIME IS JUDGES' RULING

By United News. KANSAS CITY, Mo., May 8.—Blindness does not constitute a justification for crime, Federal Judge Arthur L. Reeves told two confessed blind bootleggers arraigned before him Thursday. Fletcher Stratton, 58, one of the prisoners said he lost his sight 30 years ago in a mine accident and had to turn to the manufacture of "corn" as a means of gaining a living. Harvey Duncan, 64, admitted possessing a half pint of whiskey when arrested October 10. "The community in which you live is just as responsible for your plight as you are," Judge Reeves said. "If residents did not patronize you, you could not operate." Sentence was deferred until May 28.

PNEUMONIA CURE IS BELIEVED FOUND

By United News. NEW YORK, May 8.—Discovery of a new treatment which holds out a definite hope of reducing the country's deaths from pneumonia from 25 to 50 per cent has been announced here as the result of exhaustive experimentation by Dr. Lloyd D. Felton of the Harvard Medical School.

Dr. Felton has found a method of precipitating and concentrating the anti-bodies in anti-pneumonia serum. The concentrated anti-body solution has been used with encouraging results in about sixty cases at the Boston City Hospital and in as many more cases here. The Harvard scientists studies have dealt with the virulence of the pneumonia germ. He has sought to isolate the protective element in the serum taken from a horse immunized against pneumococcus.

The serum itself is weak and produces reactions in the forms of chills, serum sickness and rashes which radically diminish its value for the use of private practitioners.

While making the studies with carbon dioxide precipitant, Dr. Felton observed that a very heavy precipitate was formed in the serum when diluted in plain water. Convinced that the white fluffy substance produced, carried with it the protective element of the serum and left behind the harmful substances, he tried it out on mice.

The value of the discovery to mankind cannot yet be measured. There is not sufficient data to make more than an estimate, yet the most skeptical of those familiar with Dr. Felton's work agreed that the pneumonia mortality rate will be greatly reduced.

STATE GREETING BE EXTENDED M'ADOO

By United News. AUSTIN, Texas, May 8.—Greetings to Wm. G. McAdoo as the "standard bearer of Texas democracy" from Governor Neff, who for three weeks fought an instructed Texas delegation, will be handed to the presidential candidate Friday morning when McAdoo spends 20 minutes in Austin.

Governor Neff will be in Meridian to fill an engagement made a month ago, and could not personally meet McAdoo, so he wrote a letter late Thursday, before leaving it will be taken to the train by a friend of the governor.

"Democrats of Texas sometimes fight among themselves," Governor Neff told the candidate, in the final reference to the anti-instructed delegation campaign, "but when the party speaks, contending factions cease, and all keep step beneath democracy's banner, fighting for a common cause."

"The democracy of Texas, speaking through its county conventions Tuesday of this week, selected you as the presidential standard-bearer of the democratic party, and as such I extend to you a cordial welcome to Texas, and sincerely trust your journey through the state will be both safe and pleasant."

Governor Neff said he had accepted an invitation over a month ago, which caused his absence from the city, "which denies me to the opportunity of welcoming you in person."

MAN PICKED UP IN BAY AT GALVESTON IN DAZED CONDITION

GALVESTON, Texas, May 8.—One man was picked up in a dazed condition while clinging to an overturned skiff in Galveston bay on Thursday afternoon. The whereabouts of his companion, who was seen with him in the boat a few minutes before, is still uncertain. Although the man was in an apparently dazed condition, he immediately walked away upon being set ashore without giving his name or address or any information as to who his companion was. He was picked up while calmly hanging on to the overturned skiff, making no effort to attract the attention of a nearby boat.

REJECTION OF COOLIDGE PLAN BELIEVED SURE

ADMINISTRATION FORCES WHIPPED, LEADER OF PARTY SAYS

By LYLE WILSON (UN Staff Correspondent) WASHINGTON, May 8.—Half a dozen groups opposed to Japanese exclusion, none of them in complete agreement with any of the others may cause the rejection of the Coolidge proviso which comes up in the house Friday.

The Coolidge plan would extend the effective date of Japanese exclusion to March 1, 1925.

A regular republican leader in the senate who has been in touch with the entire immigration fight expressed fear Thursday night that the administration forces were whipped and would fail in their effort to sustain the presidents wishes.

Regular republican leaders in the house reiterated their belief that the bill would survive the point of order which is to be raised against it and would be sent to the senate with the Coolidge paragraph intact. Cause for this optimism lies in the reluctance of democratic leaders to assist in an effort to overrule speaker Gillett when, as he is almost certain to do, he refuses to sustain a point of order that the bill as reported by the conferees, contains new matter not originating in either chamber which cannot be submitted under the rules.

Acceptance of the Coolidge alteration to the bill would remove from the control of the house the matter of Japanese exclusion and would set a precedent of withdrawal from the legislative branch of the government jurisdiction in purely domestic matters, opponents of the bill declare.

Once such a matter has been settled by treaty, the president and senate may alter or abrogate the arrangement without consulting the house and way would be open to similar transfer of authority Representative Sabath, of Illinois, a member of the conference said.

Senator King, of Utah, a conferee, denied that the house would not be able to act in the matter if it desired to do so. King favors the presidential proviso but will vote against the bill as a whole.

"It is a domestic matter," Senator Ashurst, of New Mexico, declared. The real point is not whether one or one million Japanese enter this country, but whether Japan is to dictate a domestic policy."

Representative Albert Johnson, of Washington who headed the house conferees, protested Thursday against "making the question of Japanese exclusion a political football."

"They don't understand the bill," Johnson declared. "It will put Japan on a quota after July 1, and by March 1, 1925, just eighty will have been allowed to enter the United States on the quota."

"I don't care whether they vote for it or not," Johnson declared. Johnson spent a busy day in his own wing of the capital listening to sarcastic banter and in conference with Senators across the way. Johnson was tired, disgusted and angry after one day of explaining why he acceded to President Coolidge's request that the effective date of exclusion should be advanced nearly one year.

Senator Johnson of California said that he had reason to believe the bill would increase the Japanese population of the United States by 24,000.

ALUMINI BANQUET TO BE HELD IN CANYON

CANYON, Texas, May 8.—The annual Alumni Banquet at the West Texas State Teachers' College will be held May 30 at 6 p. m. Invitations have been sent to all alumni of the college, and a large number of guests are expected. Miss Mary E. Clark is chairman of the program committee.

Just Folks by Edgar A. Guest THE KINDLER WORLD. On the fish begin to bite And the stream begins to run, And the clouds are fleecy white In the glory of the sun, In another world than ours seems to beckon me away, Are the birds and trees and flowers And they laugh and sing and pray. In a world wherein we dwell And go tolling through the years, So much of pain to tell With its oft repeated tears, So much of care and grief, That another world was made The weary soul's relief, Filled with sunshine and with shade. For the people are the trees, And the butterflies a-wing, And the golden coated bees And the birds that sweetly sing;

J. K. WESTER CANDIDATE FOR REPRESENTATIVE.

J. K. Wester, after a great deal of persuasion on the part of the people of Lubbock, and also people from other parts of the district, has consented to make the race for the important position of Representative. Mr. Wester is a man that will make West Texas a strong representative. He is a good thinker, and a man familiar with legislative activities, and also knows the needs of West Texas. He has devoted a great deal of his life to school work, has made the problems of schools in Texas a study, and therefore is a man that can be of much assistance in mapping out school measures, and as the next few years are going to mean much to the school system of the state of Texas, men of his ability and type are needed at Austin, and we are sure that he will represent the entire state well in the capacity of representative.

Mr. Wester will hardly have time to make a canvass of the district. He states to the Avalanche editor that he did not have a long list of promises to make to the voters, and that we might say in connection with his announcement just about anything that we might see fit to say, and we feel at liberty to say that he will be worthy in every way of our vote. He is not seeking the office for the honors that it may carry with it and it is certain that he is not seeking it for the money that is in it, for it will not pay expenses, but through patriotic motives, and the belief that he can be of service to the people of West Texas in the legislature, he has consented to make the race, and we respectfully ask that the voters of the district give his candidacy serious consideration.

THE SMITH BOOM.

Those democratic managers who at the outset dismissed the possibility of the nomination of Governor Smith because he is known as "a wet," and therefore too great a risk, are now facing developments that must cause them concern. He would carry New York, of course, they calculated, but the opposition elsewhere would be too great; obviously he would not do. Yet now they find that the Smith boom is formidable outside as well as within the state of New York. At this writing he is actually far ahead in the number of instructed delegates, having 123 to 65 for McAdoo, the next numerically strongest candidate. Smith sentiment is reported to be strong in both Massachusetts and Pennsylvania, and there is said to be a persistent out-cropping for him in a number of state delegations where the McAdoo element has claimed control. The movement has passed far beyond the stage of mere home-state favoritism, and already it is predicted that Smith will have at least a third of the instructed delegates. If even a cautious convention should be forced to nominate Governor Smith, a "wet" and a "Roman Catholic" the event will be a sign of the times inviting much comment. In case election should follow nomination the comment, after reflection, would reveal the general conviction: (1) that the majority of the people are not for prohibition, (2) that a man's religion is no longer a political handicap, and (3) that "from the log cabin to the White House," is not now the only road whereby the poor American boy can reach the highest political honor.

The Smith boom has really developed into a more serious situation than the majority of the politicians had first thought, and he seems now to be really a serious possibility in the Democratic Convention. If the Democrats of the nation are not careful they will certainly be placed in a very embarrassing situation in the matter of nominating a man that the general public will be in harmony with.

The protestant world certainly would not be satisfied with a Roman Catholic at the head of the government, but it is getting quite dangerously near to this condition, and in our opinion, it will burst the Democratic party asunder if this man is nominated.

THE CHILD LABOR AMENDMENT.

The overwhelming vote in the House of Congress in favor of submitting an amendment to the constitution to regulate child labor may be taken as an emphatic expression of the people "back home." The employment of millions of children of the tender years in mines, mills and factories who ought to be in schools, is not only a pernicious system, it is degrading and a deadly blight on any nation or people that poses as Christian. The only argument against the amendment is that it may be construed to interfere with state rights. It is the same argument in every particular that was employed to perpetuate slavery, and back of it is found the great mill, mine and factory employees chief object and purpose in life seems to be the accumulation of a few more dollars, no matter how or how many lives are sacrificed.

In this respect it is interesting to note that

in the vote in the national House of Representatives by which the motion was passed, members from the Southern States where the people have clung most tenaciously to the theory of State rights, and where the people have been under the severest condemnation for their continued employment of young children in the producing industries, were strongly in favor of the amendment.

By way of contrast, the vote of representatives from the great manufacturing state of Pennsylvania brands them as decidedly reactionary or under questionable influences.

It is hardly conceivable that any sovereign commonwealth of the Union will deliberately attempt to impede this vital step in human progress. But stranger things than that have happened. Twice a federal act has been passed with the purpose of forever stamping out the evil complained of, and twice selfish interest has encompassed its nullification by the courts and that has brought the courts into disrepute.

The campaign for ratification no doubt will be stubbornly opposed, not by the states as such, but by industrial organizations and political influences that will endeavor to defeat affirmative action by controlling the legislatures of a few of the states. It is against these that the forces of humanity and progress must ally themselves.

THE CHURCH AND WAR.

Five of the largest Christian denominations in America are to meet in their several stated conferences during the next few months. From present indications the real, big, outstanding issue before all these conferences will be the outlawing of war. The Methodist conference has already prepared a resolution which will no doubt be accepted as the basis of all other denominational conferences, which declares that the church "can give neither our blessing nor our aid, nor permit our organization to be used for its promotion." It further declares that all preparation for war aerial, chemical and industrial—shall cease at once," and calls for an international conference to agree upon a plan for the disbanding of all forces within a specified time.

It is claimed that several thousand preachers in several different denominations, have already made solemn obligations to denounce war, to protest against the use of the church for that purpose or to recognize war preparation in any manner. This attitude is based on the belief that the churches were "buncoed" into a false Christian attitude during the last war.

PLAYING THE GAME OF SAFETY FIRST.

Said Abraham Lincoln, "I don't think much of the man who is not wiser today than he was yesterday." No truer words could be written of the Safety First Game. If you would be a winner, each day must find you wiser, keener and more alert than the day before. It is a contest in which we match our determination to have no suffering from accidents to ourselves and fellow men against little acts of thoughtlessness and carelessness that bring these results.

Nor is this game ever ended. Each day calls for a better score! New conditions surround us, and all of our facilities, the best that is in us, is challenged to increased effort. To have our work really well done, it must be safely done, and none of us wants any less than the best.

For your own sake—for the sake of the family at home, the wife and children, the mother or sister, play the game and play it well. Play it with the interest, the spirit, the enthusiasm that will make you win. It will take all your skill and ability to play it right!

AFTER FIVE YEARS.

More than five years ago the government instituted action against a number of air craft manufacturers involving about \$40,000,000, said to have been fraudulently collected at the end of the war. In less than another year they will be outlawed by the statute of limitations. The Daugherty investigating committee has asked for these records and Secretary Weeks insists that the facts be withheld from the public as publicity might prejudice the government's claims. The public may well wonder why the government has not long since moved to collect this great sum of money. A little publicity may stimulate judicial action. From this situation one may judge that Mr. Daugherty's offenses have not all been acts of commission.

A bill has been introduced to increase the pay of Congressmen from \$7,500 to \$10,000 per year. If half the members really represented the people there would be little objection, but the record shows that a large percentage of both houses are attorneys whose standing and influence at home is greatly enhanced because of their membership—and then, too, the resignances might be expected. Back of this, however, is the thought that some speculations in central Europe who were nipped sharply by the recovery in francs are seeking revenge on the slightest pretext. Thursday set-back in the leading exchange rates was the most severe since the upward movement began early in March. The market rallied in the later dealings.

Morgan's return Thursday was the signal for renewed gossip concerning the proposed loan to Germany. But Morgan, running true to form, did not comment himself and the eager ship news reporters had to be content with generalities.

Sentiment was not very pronounced in the commodity market. Grain and provisions sustained varying declines. Cotton was off 5 points to up 13, with sugar showing about the same trend, while coffee slid 22 to 29 points lower.

The haphazard movement of the securities market in general has been likened to mid-summer madness, for there was certainly little in the scheme of affairs to suggest basic changes if the economic situation were forcing allocations of prices.

Reductions in Ladies' Coat-Suits and Dresses

The season for bargains in ladies garments is at hand. There are now many pretty dresses, suits and coats on our racks that we wish to move quickly. These are all new—this season's purchases, correct in style and colorings and garments that you will enjoy wearing. We know of no better way to quickly place them in your hands than to reduce the prices. At the prices they now bear, they are most assuredly wonderful values for you.

SILK DRESSES IN THE PRETTIEST STYLES NOW REDUCED ONE-THIRD

Dresses from all the wide range of correct silk materials are included in this reduction. Roshanara, Crepes, Georgettes and a few Flannels. The styles are good, every one in a different model. MARKETS

CONSTANT SHIFT IS QUANDARY IN STOCKS

By EDWARD J. CONDLON (United News Financial Editor.)
"NEW YORK, May 8.—The uneven finish of the general list of active stocks following a session of hit and miss trading, leads the observer to wonder what all the shooting is about. News which should affect the steel stocks strikes the oils and strikes them hard. Statements calculated to bolster up the market for the petroleum shares carooms off and starts a spurt in rails. Truly, the writers of market letters these days are hard put to "call the turn."

Broadly speaking, attention is slowly shifting to the railroad group. New Haven led the lower priced rails, reaching the highest level in recent months at 20 1/2. It was D. L. and W., however that first honors in the rails must be given. This issue led the high grade rails with a net advance of nearly three points.

The real excitement of the day came in the foreign exchange market. Francs topped half a cent and sterling some 2 3/4 cents before midday on selling from abroad on the news that some 450,000 miners have gone on strike in the Ruhr and that other communistic disturbances might be expected. Back of this, however, is the thought that some speculations in central Europe who were nipped sharply by the recovery in francs are seeking revenge on the slightest pretext. Thursday set-back in the leading exchange rates was the most severe since the upward movement began early in March. The market rallied in the later dealings.

Morgan's return Thursday was the signal for renewed gossip concerning the proposed loan to Germany. But Morgan, running true to form, did not comment himself and the eager ship news reporters had to be content with generalities.

Sentiment was not very pronounced in the commodity market. Grain and provisions sustained varying declines. Cotton was off 5 points to up 13, with sugar showing about the same trend, while coffee slid 22 to 29 points lower.

SPORT NEWS

OLSON-PASHA MATCH AT AUDITORIUM TONIGHT PROMISES TO BE ONE OF BEST EVER OFFERED TO LOCAL FANS ONLY TWO GAMES ALLOWED IN MAJORS

Following his defeat Cal Farley at Amarillo Wednesday night when he took two falls out of three, Chas Olson, local man has announced himself in readiness for his match tonight when he meets Kala Pasha, "The Terrible Turk" at the city auditorium.

Both Olson and Pasha have now met and won a decision over Farley, and as both men hold championships in different sections of the country in the middleweight class, they are now running true to the old saying that they want to be "up and at 'em". Olson holds the middleweight championship of Canada, while Pasha holds the same crown in Texas and the southwest.

This match tonight promises to be one of the best ever exhibited for the approval of local fans.

According to records, both of these men are clean, on the mat and off, and this statement is borne out by the Olson-Farley match Wednesday night, when one of the cleanest matches ever recorded in the history of Amarillo was seen. Both have met and defeated the best men in the country.

Olson carries many newspaper clippings in his scrap book showing a record of clean matches from Chicago to Los Angeles, and from many points in Canada where he has wrestled.

A good card of preliminaries has been arranged, including several local lads who are tricky with the mitts.

The program is being staged under the auspices of the local Post of the American Legion, and officials of the Post are making every effort to bring more men here to meet Olson, who has located in the city.

The program, they promise, will be kept absolutely up to the highest standard of cleanliness and good sportsmanship in every respect, and they will use every possible means to insure against anything that would not be fully approved by the most skeptical of fans.

The program tonight will begin at 8:30 o'clock at the auditorium. Tickets are on sale at Bowen's Drug store and Martins Bakery.

Sloppy weather and the sort of chill that congeals the enthusiasm of the customers caused the postponement of all but two games in the major leagues Thursday.

And those two, both in the American league, involved the more humble clubs.

The Browns struggled to the height of fourth place by defeating the Indians in Cleveland four to one. George Sisler's vision which is said to be marred was good enough on this occasion for he banded one of Sherrod Smith's shoots over the wall for a home run, scoring a man ahead. This happened in the fifth inning. The blow brought the count to four to one which was maintained the rest of the way.

In the other game of the day, Howard Ehmke, of the Red Sox, reversed the action of Wednesday's game with the Senators in Boston. He outpitched old Walter Johnson and carried his team to a 4 to 2 victory.

At the early stage of the game, St. James was regarded at the best of the 1924 three-year old horses. His trainer, Jack Joiner, does not know how long the horse will be off the track, but his traveling arrangements have been cancelled and the horse will remain at Jamaica for the time being, under close observation and gentle treatment.

LABOR PLATFORM DEMANDS 12 MEASURES

By United News.

WASHINGTON, May 8.—Presenting 12 demands as its opening challenge in the 1924 election campaign organized labor asks exclusion of immigrants, 2.75 beer, adjusted compensation, and measures designed to protect its legal rights.

"By these demands, platforms, men and parties will be measured in the impending struggle," said Samuel Gompers, president of the American Federation of Labor which issued the platform Tuesday night.

"We are on the threshold of a great campaign in which it is our purpose to carry forward the great victories of two years ago. We have witnessed revelations that stagger the imagination, and we have seen the representatives of reaction and special privilege fighting to protect the enemies of the public welfare."

Labor demands are set forth as follows:

1. Immigration; strict exclusion is asked for many years to come.
2. Child labor; labor will insist upon adoption of the child labor amendment to the constitution.
3. Adjusted compensation; labor insists upon adjusted compensation for all Americans who served in the world war as a matter of simple justice.
4. Protection of rights; labor demands absolute recognition of the

rights to organize, to bargain collectively, bestow or withhold patronage.

5. Labor injunctions; labor demands final and complete abolition of the power of courts to issue injunctions in labor disputes, under circumstances where no injunctions would lie if no labor disputes were in existence.
6. Railroads; the railroad labor board is declared a "failure" which must be replaced by voluntary arbitration and conciliation.
7. Anti-trust laws; labor demands repeal of the Sherman anti-trust law which "has been perverted to deprive wage earners of their rights" and new legislation to make more effective labor section of Clayton act.
8. Powers of supreme court; final authority in making of laws must be restored to congress by constitutional amendment empowering congress to override decisions of supreme court involving constitutionality.
9. Aid for agriculture; labor will support every constructive measure offered by agriculture.
10. Taxation; labor favors sharply graduated income and inheritance taxes, favors reductions mainly for those of small income, oppose sales tax.
11. Volstead act; the act is declared "improper interpretation" of the eighteenth amendment. Labor favors 2.75 beer.
12. International relations; labor favors entrance into the League of Nations and the world court.

both the state and the defense ready for trial in the case of the State of Texas vs. Hugh Barber, charged by indictment with unlawful transportation of intoxicating liquor in Lubbock county.

Barber offered a plea of guilty to the charges, and Deputy Sheriff Vernice Ford, who arrested the defendant on east Broadway in Lubbock on June 9, 1923, was the only witness.

The jury was instructed by the court to assess his punishment at not less than one nor more than five years in the state penitentiary. The jury was out only 22 minutes and returned a verdict sentencing the defendant to one year in the pen.

The Barber case was the sixth to be disposed of by the court this week and the jury for the week was finally dismissed, the trial of non-jury cases to occupy the remainder of the week.

UNUSUAL INTEREST SHOWN IN TECHNICAL AGRICULTURE

CANYON, Texas, May 8—If one is to judge by the letters which have reached the Agricultural Department of the West Texas State Teachers' College in the last few weeks, there will be more students in this department of the college in the last few weeks than there has ever been before. Many requests have been received from high school students who offer to do work on the college farm to pay their necessary expenses while in school. There are far more applicants for places on the farm than

can be given work. However, those in charge expect to use every effort to secure places in town where worthy students may work to help in paying their expenses.

The number of students in the Agricultural Department has trebled in the last few years.

AGRICULTURAL HEADS WILL VISIT NORTH PLAINS

CANYON, May 8.—Mr. Phillips of the Agricultural department of the West Texas State Teachers College will co-operate with Mr. Coleman of the Division of Predatory Animal Extermination of the United States Department of Agriculture in educational work on the North Plains.

Mr. Phillips and Mr. Coleman left Wednesday for the purpose of visiting schools and communities in Lipscomb, Hansford and Sherman counties.

Among the lecture and exhibit

material which was taken on the trip was the farm-shop exhibit which has attracted so much attention in educational circles of the Panhandle in the last few months.

Mr. Phillips will deliver the graduating address at Stratford on Friday evening, May 9.

"Yimmie" will make you laugh. See him in the junior play tonight at the high school.

Woman Killed Chasing Hat.

By United News

CHICAGO, May 8.—A scurrying gust of wind seized the pretty spring hat of Miss Cathrine Boldt, lifted it from her bobbed head, and sent it tumbling over the rails of the elevated. She ran after it and was killed.

KIWANIANS ACCEPT INVITATION TO ATTEND DINNER TO BE GIVEN BY THE FARM BUREAU AT ACUFF MAY 20TH

A very interesting program was conducted at the regular weekly luncheon of the Lubbock Kiwanis Club Thursday with G. E. Maedgen in charge.

Attorney Homer L. Pharr, of the law firm of Bledsoe & Pharr, spoke of the "Needs of Our Schools" and having been identified with the schools of the country, and thoroughly interested in the development of the local schools, he handled his subject in a very frank manner, expressing the need of general education of all Americans as a means of raising the standard of citizenship throughout this country.

T. W. Sawyer, local real estate man and a very active Kiwanian, gave some interesting facts and figures on the growth and development of the schools, showing how many students are enrolled at this time and giving a detailed account of the money that has been spent in building and equipping schools in Lubbock and Lubbock county.

Douglas Pounds, prominent farmer of the Acuff community and a member of the Lubbock County Farm Bureau, extended an invitation to all members of the club to attend a dinner to be given to the businessmen of Lubbock by the Farm Bureau at Acuff at 7:00 o'clock on the evening of May 20th. Needless to say, this invitation was unanimously accepted, and Mr. Pounds was assured by several of the Kiwanians after the meeting had been dismissed, that a one hundred per cent attendance could be depended upon.

THE HAMILTON CLEANING WORKS WILL BE OPENED MON.

J. B. Maxey, contractor, will complete work on the Blair and Arnett building on Avenue K Saturday, and the machinery of Hamilton's Cleaning Works is being assembled in the building and everything is being made ready for the opening of that business Monday morning.

Mr. Hamilton announced yesterday that three employees, together with himself and Mrs. Hamilton, will take care of the business for a while. Frank Brantley, who was an employe of the Hamilton Cleaning Works at Roswell, will take care of all deliveries, while T. G. Waldrop will do the pressing and Mrs. Lena McElroy will have charge of alteration work. Mr. Hamilton will do the cleaning work and Mrs. Hamilton will have charge of the books.

Mr. Hamilton has been in the cleaning business for twenty years, and has equipped the new plant with the very best machinery available, all of which is new, and the plant is said to be as good one as can be found in the state.

An underground storage system, DeLaval continuous flow clarifier, 2 washers, an extractor, a steam drying tumbler and two presses, all of which is brand new and said to be of the most improved type, compose the machinery now installed in the plant. Mr. Hamilton declares that the steam drying tumbler is responsible for the motto adopted by the company, "We Keep the Smell," as a continuous force of fresh air is fanned into the tumbler at all times and a larger fan takes the air from the container where the clothes are dried.

Mr. Hamilton has a modern plant at Roswell, New Mexico, that he has operated successfully, and he is confident that he can establish a good business in Lubbock and those who have visited the building where his plant is being located feel that he has every right to expect a good patronage.

THE LEADER WINDOW HAS ATTRACTED MUCH ATTENTION

A beautiful window display, depicting mountain scenes that have a special appeal to everyone during the summer days, has been arranged in the windows of the Leader Department Store, the hand painted background having been painted by Miss Watkins, of Watkins Art Shop, while the arrangement of the scenery and a well balanced display of sporting goods and clothes was made by Bryan Moore, of the Leader.

The window has attracted much attention and both parties responsible for its appearance have been commended on its arrangement.

HAVE VISITING PREACHERS SUNDAY

Hugh Clark, minister of the Church of Christ, at Winters, Texas, will preach here Sunday 11:00 a. m. and 8:00 p. m., for Church of Christ on Broadway. Evangelist Clark is the son of Mr. and Mrs. A. J. Clark of this city, and is one of the leading young preachers of the Church of Christ in Texas.

Much of the young man's life was spent in Lubbock. The church of which he was formerly a member is rejoiced to have him with us and we extend a cordial invitation to our friends and neighbors also to former acquaintances of Brother Clark to attend services here Sunday and hear this splendid preacher.

T. M. CARNEY

AMAZING STORY LIQUOR DEALS REVEALED

By United News.

WASHINGTON, D. C., May 8.—An amazing story of liquor and tax deals arranged in the little green house in K street where Howard Mannington resided, was told to the senate Daugherty committee Wednesday.

M. P. Kraffmiller of LaGrange, Ill., testified that he had given thousands of dollars to Mannington, intimate of Daugherty and the Harding group, and formerly attached to the Harding campaign headquarters in Marion, Ohio, for liquor permits and assistance in fixing tax cases.

Kraffmiller said he lived at the little green house with Mannington and told of high officials, including George B. Christian Jr., secretary to President Harding; Governor Crisinger, of the Federal Reserve Board and Prohibition Commissioner Roy Haynes, slipping in and out of the little house where Mannington held forth.

Describing his deals with Mannington, the witness mentioned specific transactions say that he:

1. Split \$20,000 received from the General rug Company, of Chicago, with Mannington for liquor withdrawal permits.

2. Gave Mannington \$5,000 and kept \$2,500 of the \$7,500 obtained in the Maryland Refining Company tax case.

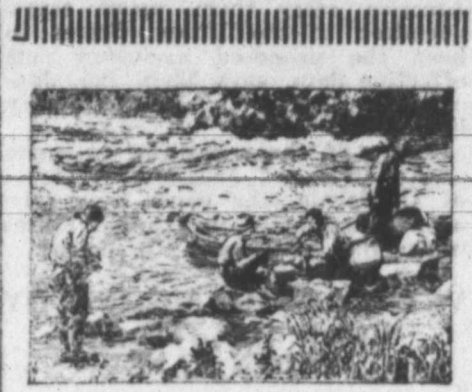

3. Obtained \$5,000 from Meacham and Babcock Ship Building Company, and split it with Mannington.

4. Gave Mannington \$2,500 obtained from General American Tank

cases. Kraffmiller described transactions about which he had only partial information such as the \$25,000 alleged to have been paid by the J. B. Scheur Company, of Chicago, for liquor permits. He did not know who received the money. Kraffmiller also told of a visit to Mannington by Nick Cimino, of New York, who protested because he got only 50 cents per case as a cut on liquor deals.

Mannington left town and went either to Louisiana or Mexico when word was passed to him that he was to be indicted on a liquor charge in New York, Kraffmiller said.

"Roy Haynes, prohibition commissioner, came to the K street house to consult Mannington about appointment of a prohibition director for Ohio," Kraffmiller declared.

SHOE REPAIRING A SPECIALTY PRICES THAT ARE RIGHT

HEMPHILL-PRICE COMPANY WILL OCCUPY BUILDING ON AVENUE J TO BE COMPLETED BY SEPT. 15TH

Announcement has just been made that the Hemphill-Price Company of Lubbock, has made an agreement with Mrs. Percy Spencer, of Lubbock and John P. Lewis, of Waco, to rent a brick building that is to be erected on Avenue J between Broadway and 13th streets, and which will adjoin the brick structure that is being built by the Rix Furniture and Undertaking Company on the corner of 13th and J.

This building will be 50 by 125 feet, and every modern arrangement to accommodate the dry goods business that will be located in it will be provided.

Peters & Haynes, local architects have been awarded the contract to prepare plans for the building, the contract on which is to be let in the near future.

According to the agreement made between the store management and the owners of the building, it is to be completed and ready to be occupied by the 15th of September.

W. M. Hemphill, president of the Hemphill-Price Company of Lubbock and of the Baker-Hemphill stores at San Angelo and other cities in Texas, has been visiting in Lubbock the past two days looking after the interests of his business.

JAP EXCLUSION MODIFICATION GRANTED

WASHINGTON, May 8.—Severe pressure from the White House has led house and senate conferees on the immigration bill to modify their attitude on the Japanese exclusion provision by making it effective on March 1, 1925, and requesting that in the measure the president negotiate with the Japanese government regarding abrogation of the gentleman's agreement.

This action was taken late Wednesday after Coolidge had summoned Senator Reed, Pennsylvania, and Representative Johnson, Washington, republican conferees to the White House and called in secretary of state Hughes to present the international aspects of the situation over which the executive has been greatly concerned. Coolidge and Hughes insisted strongly that to enforce exclusion by legislation July 1 of this year would cause serious international complications because it would not give the necessary time to negotiate an agreement and would

result inevitably to deep wounding of Japanese sensibilities.

The result was that the conferees went back into session and considered their action of Tuesday when the president's plea for more time was rejected.

The conferees inserted this proviso in connection with the exclusion action:

Provided that this subdivision shall not take effect as to exclusion until March 1, 1925, before which time the president is requested to negotiate with the Japanese government to abrogation of the present arrangements on this subject.

Although the conferees reversed their position they did not go as far as the president desired. He asked that the exclusion provision be made effective March 1, 1925, but the conferees chopped a year off this period of grace.

The next question is whether the house and senate membership will accept the compromise.

As soon as he heard of the change of front Senator Shortridge of California, announced he would fight the new provision by raising a point of order against the conference report on the ground that the conferees had inserted new legislation in the bill.

"I understand the conferees agree to provision which would permit negotiations," he said. "If the object is to abrogate an existing agreement there is plenty of time between now and July 1. If there was an ulterior motive, however, an extension of time of course was necessary."

The proviso, it was noted, only requested the president to negotiate regarding abrogation of the gentleman's agreement but it imposed no barrier to negotiation of a new agreement which would be in harmony with the new legislation.

A bitter fight is likely in both the house and senate when the conference report comes up. It probably will be considered in the house on Friday and by the senate afterward. "A partial poll of the senate

shows the bulk of senators satisfied with the agreement reached by the conferees and I am confident that the matter will have been acted and passed by the house and senate by Saturday night," Senator Reed, of Pennsylvania, declared.

"No suspension of the rules is necessary to permit the inclusion of the provision offered by the house conferees at the request of President Coolidge. When the measure is returned to the senate Saturday, it will have priority over every program of legislation less than 24 hours."

He said only senators Shortridge and Johnson, of California, contemplated offering serious objections.

6,000 Japs Await Entrance.

SAN FRANCISCO, May 8.—Six thousand Japanese, including 2,000 brides of bachelors who went from America after them, await transportation to the United States to beat the proposed exclusion acts effective date, says Nichi Bei, Japanese newspaper published in San Francisco.

Many of those desiring to come are relatives of Japanese residents of California, the paper says, who are admissible to the United States under the gentleman's agreement.

WORK ON THE ABERNATHY ROAD HALTED TO WIDEN LANE

L. O. Burford, construction overseer for the State Highway Department, reports that work has been completed grading the road between Lubbock and Abernathy, from Abernathy ten miles south, but due to the fact that the lane a part of the way is only 40 feet wide and it will require several days to have the fences set back, work on grading the road all the way to Lubbock will not be completed for some time.

Mr. Burford reports that two tractors are being used on Highway No. 7 out of Woodrow toward Lubbock.

Why buy 50 by 100 ft. lots when for the same money you can own 2 1/2 or 5 acres in Tech View? See John W. Jarrott, Leader Bldg., Phone 346. 163-6t

NEW MEXICO EDITOR IS FINED \$300 FOR CONTEMPT

PHOENIX, Ariz., May 8.—W. J. Spear, editor of the Arizona Republican was fined \$300 for contempt of court by Judge Stephen Abbey, of the Pinal county superior court Wednesday refused to pay the fine and was ordered jailed.

A writ of habeas corpus was granted by the state supreme court later in the day and Spear will be returned from Florence to Phoenix for a hearing.

Spear, editor of one of the strongest newspapers in the state, was sentenced because of an editorial he wrote commenting on a life sentence imposed by Judge Abbey on a miner who confessed to murdering his wife with dynamite several weeks ago.

He was fined an additional \$10 for appearing in court with an unlighted cigar in his mouth. Dwight B. Heard, publisher of the Arizona Republican, and candidate on the republican ticket for governor was also cited to appear in Judge Abbey's court but the charge against him was dismissed.

INTO THE PRIMITIVE

Plunged from the most congested area in the United States, to its least civilized spot within a few days—that was the experience of Lois Wilson, featured player in Paramount pictures, when she went to the Tonto Basin, Arizona. A few weeks before Miss Wilson was jostled by vast crowds in New York. From a skyscraper she looked down the canyon of Broadway. Within a short time she stood upon the "Rim" and looked down into natural canyons and into the valley

where a wagon wheel has never turned, Miss Wilson prefers Arizona to New York for she is a lover of the out-of-doors. She has the featured leading woman's role in "To the Last Man," a Zane Grey production adapted from the author's famous story which comes to the Lindsey Theatre today.

The story concerns a feud fought to a finish in the Tonto Basin in the late eighties. One man survived the battles and his descendants who still live in the valley appear in the mob scenes in the picture.

If you want to enjoy a good laugh and forget troubles attend the junior class play tonight.

NEAR FIGHT AVERTED IN COMMITTEE MEETING

By United News.
WASHINGTON, May 8.—No weapons were barred in the fight which resulted in the house district of Oklahoma committee Thursday when Representative Blanton, of Texas called Representative Hammer, of

North Carolina "a garrulous old grandmother."
Blanton had been criticized by Hammer for complaining that he was not notified of the committee meeting.
"That's absolutely untrue and you haven't the courtesy of a dog for saying it," Hammer shouted.
"That's a lie," Blanton shouted, lunging across the committee table. Hammer seized a heavy bound volume as if to throw it.
Witnesses intervened and chairman Zihlman hurriedly adjourned the meeting.
The two congressmen shook hands admitted they had lost their heads and declared peace.

FORMER DISTRICT ATTORNEY IS SENTENCED FOR EXTORTION

By United News.
CAMBRIDGE, Mass., May 8.—In the same courtroom where scores of times he heard sentence pronounced on defendants he prosecuted, W. J. Corcoran, former district attorney of Middlesex county, recently received a sentence of from seven to ten years in the state prison.
Corcoran had been found guilty by a jury of threatening to accuse Kenneth Merrill, a wealthy textile manufacturer, of a statutory crime with intent to extort money from him.
J. Warren Kane, who acted as one of the detectives in the attempted shakedown was sentenced to from three to five years, and Mrs. Theresa Dugan, "lure" in the case, was given a sentence of five years in the state reformatory for women.
Defense counsel obtained their release on bail, pending the disposition of a motion to set aside the sentences on the ground that they are disproportionate and excessive.

HONOR STUDENTS NAMED AT STATE UNIVERSITY

AUSTIN, Texas, May 8.—Announcement of the honor students for the winter term in the College of Arts and Sciences at the University of Texas has just been announced by Dr. H. Y. Benedict, dean of the college. In compiling the honor roll, both the quality and the quantity of work is considered. Rank on the list is determined by a point system, in which A's count 12, B's 9, C's 6, and D's 3. The total score of a student places him in one of five groups of descending rank. Students from Lubbock who won the distinction of having their names on the honor roll for the past term are: Louie W. Mosley.

DECOMPOSED BODY OF MAN FOUND IN TANK

By United News.
MEXIA, Texas, May 8.—When they were inspecting the equipment and machinery on a small wildcat test well near here Wednesday, the decomposed body of a man was found in a small tank by B. L. Walkup and M. R. Darby, of this city.
The discovery was made after sickening fumes attracted the attention of the men.
Authorities were notified.

SACRAMENTO WATERFRONT IS SWEEPED BY FIRE WED.
By United News.
SACRAMENTO, Calif., May 8.—One third of Sacramento's waterfront is in ruins Wednesday night, the result of a fire of unknown origin that was followed by an explosion shortly after noon. The loss was estimated at \$2,000,000.
Twenty freight cars, six loaded with produce and about 12 automobiles and trucks were consumed as the fire swept down the water front.

Southern Pacific railroad officials estimate it will cost approximately \$1,000,000 to rebuild wharves belonging to that company destroyed by the flames.
Who is Yimmie Yonson? You will meet him at the junior class play tonight.

POLICE KILL MAN IN MYSTERY ATTACK

By United News.
KANSAS CITY, Mo., May 8.—While police sought vainly to piece together the shreds of a broken romance, the body of Peter P. Ghaslin, 27, shot to death by two policemen was being prepared for shipment to his home in Arcadia, Michigan, Thursday night. Ghaslin, elighted at the Union Station Thursday morning, carrying a bible in one hand and a revolver in the other. Through the busiest streets in town he strode unmindful of the excitement he was causing.

He wore a corduroy suit, high top leather boots and a broad sombrero hat, tipped at a rakish angle. He appeared to be pre-occupied with other thoughts, and when early morning risers gave him a wide berth in passing, he looked neither to the right nor the left.

Finally Ghaslin arrived at the Federal hotel and walking up to the desk ordered Mark Phillip, 65, the desk clerk to hold up his hands. Phillip did. Then Ghaslin turned to three seated in the lobby who arose as one man saying, "Do you all believe in God?"

Before an answer could be given to his question, Ghaslin pointed to one and through clenched teeth he asked "What did you do with my girl you stole a year ago from the North Hotel. Will you help me find her?"

Seeking healthier climes the three readily agreed to an endless search if it was necessary and departed Phillip had taken advantage of the situation to call police. When the motorcycle officers arrived, Ghaslin fired through the window. He dropped to the floor a few minutes later with four bullets in his body.

Police began picking up Ghaslin's trail before he came from the North. They believe he sought solace in religion after a disappointment in love and had plunged into its study with all fervor he could muster, resulting in an unbalanced mind.

He was identified by papers in his pockets.

DEATH BREAKS UP DREAM OF WAR VET.

By United News.
KANSAS CITY, Mo., May 8.—Death alone finally succeeded in snuffing out the faint spark of independence which I. V. Barker, 77 year old Civil War veteran nursed for ten years while within the stone walls of the old soldiers home at Leavenworth, Kansas.

The same proud spirit which caused him to shoulder a musket and face fierce fighting unflinchingly rebelled at being a government charge, and from the small monthly pension he received, Barker stinted himself to put away a few dollars toward his dream—a small grocery store.

Fellow inmates chided him and derided his efforts. After this month, there will be another month, they said carelessly, and besides the government isn't just exactly what one might term "broke."

But Barker turned a deaf ear toward them. Each month he waited the fund grow larger and larger, slowly to be sure but it was growing.

At last his little hoard was of sufficient proportions for him to venture forth, and proudly bidding his companions farewell Baker came to Kansas City, Monday his dream of independence was realized—he had spent his savings for a little store.

Neighbors found him happy as a child. He had put in a small stock of cigars, candy, cookies and canned goods.

"My little girl, my granddaughter you know," he assured his new patrons, "is coming in a few days to clean up the place for her grandpa."

But the "little girl" never came. Barker, not discouraged, continued to operate his little store. Business would pick up he said. But a tired body won again over an undaunted spirit. The old soldier was found dead Thursday by a customer who had stopped in to purchase some tobacco. He wore a frayed union army uniform. Death resulted from a heart attack, physicians said.

Meanwhile the coroner is searching for "grandpa's little girl" who was to have "tidied up" the store and whose name was on a card the aged veteran carried in a shirt pocket, nearest his heart.

SIX CONVICTED MEN TO HANG FRI. NOON

By United News.
AMITE, La., May 8.—Six convicted murderers, whose fight for liberty has cost nearly a quarter of a million dollars and thrown this section into turmoil will be hanged at noon here Friday—three years and a day after the slaying that sends them to the gallows.

The men are all Italians. Anonymous threats of revenge have poured in on officials who brought them to justice. With the approach of the moment when the men must die, hundreds of people have arrived at Amite. There are the usual hordes of morbidly curious; these eyes are hard with the lust for vengeance.

To prevent any attempt at jail delivery by enraged countrymen of the condemned men, Amite has been turned literally into an armed camp.

National Guards sentries, stationed at intervals of ten yards, pace to and fro before the prison while a manned machine gun is posted in the jail yard itself. More troops arrived Thursday by train and marched through the streets to reinforce the company already on duty.

During the day the troops dug a four foot moat about the prison and filled it with water, presumably to stem any sudden rush.

At 7 o'clock Thursday evening guards and members of the 108th cavalry doubled the line about the prison and thereafter admitted no one. At 6 a. m. Friday this will be extended to take in the entire courthouse block and patrol the moat.

None except official witnesses, peace officers and newspaper men are to be permitted to go inside the square where the men will die on a double gallows. Their friends and relatives must remain beyond the trench kept back by the cordon of troops.

Governor John M. Parker refused to accept the plea for clemency advanced by Dallas Calms, Jr., son of the man they killed. Although the men were said to be facing death calmly Thursday night, it was reported earlier in the day that they had become panic-stricken for a time and that some of them were near collapse.

The six men are Joseph Bochio, Joseph Rini, Joseph Giglio, Natale Deamore, Rea Lamanti and Roy Leone. Leone is still suffering from self inflicted wounds, having stabbed himself five times in a suicide attempt.

The crime for which they will hang was committed on May 7, 1921. On that date six men attempted to rob a bank at Independence, La., but were driven off. As they fled Dallas Calms restaurant proprietor, called on them to halt. He was shot dead.

Together with their relatives and

friends, the defendants spent about \$150,000 in their fight. The legal battle cost the state of Louisiana and the parish of Tangipahoa \$100,000.

When the men were first arrested there was talk of lynchings here. Now the sentiment of residents of Amite seem to have swung more in favor of the men as the hush of approaching death lies over the town.

Meanwhile by car and train, more swarthy folk pour into Amite. The guards pace their sentry beats and watch.

GARMENT MAKERS PROTEST PRISON-MADE ARTICLES

By United News.
SAN ANTONIO, May 8.—Prison made garments are threatening Texas garment makers prosperity, said members of their state association, meeting Thursday here. Garment makers in Texas factories receive \$1.50 to \$2.00 per dozen garments while garments made in prison at one third the cost are being sold in competition, and this is unfair,

SENATE URGES CONFERENCE ON WORLD AFFAIRS

(Continued From Page 1.)
 resulted in the convergence of a terrific amount of pressure on Lodge. This accounts for his proposal Thursday.

The plan put forward by Lodge was not approved either by President Coolidge or Secretary of State Hughes before it was offered.

Briefly, the resolution calls upon President Coolidge to convene a third Hague conference for the purpose of establishing a new international court of 16 judges who would be selected by an electoral commission composed of representatives of signatory powers. The chief objection to the present world court is that the judges are elected by the council and assembly of the League of Nations. Harding proposed a reservation by which the United States would vote through representatives designated for the purpose so that membership in the league would not be necessary. But this reservation did not satisfy the anti-league senators.

Lodge's plan provides for compulsory jurisdiction in disputes involving the interpretation of a treaty, on the questions of international law and breach of international obligations. The present world court provides compulsory jurisdiction only in cases involving countries which have signed the optional compulsory clause. Other countries may not be called into court against their will.

There is a little likelihood of the Lodge plan, or any other plan going through senate at this session. The move further complicates the situation by injection of a new issue—namely, the wisdom of proposing a new court entirely as against the Harding-Hughes plan of asking admission to the existing court under certain reservations which are designed to avoid affiliation with the league of nations.

MAKE YOUR FACE AS LOVELY AS YOU ARE

All most people see in anyone is what is on the outside. Naturally those who are handicapped by pimples, blotches, "breaking out," eczema, etc., on their skin are not going to get any attention.

You can "make the frame as lovely as the picture really is" by simply getting rid of those skin disfigurers, if you will just use Black and White Ointment, and Soap. Then your good nature and sweet ways will stand out without any drawback, and folks will want to be round you. They are economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap.

Dainty Collar and Cuff Sets are Much in Favor

These stand out prominently as one of the foremost fashion favorites for the trimming of Spring and Summer suits and dresses, mainly for the reason that the tailored styles are so popular and lend themselves so well to this chic and stylish treatment. They are shown in our Neckwear section in a varied array of fabrics and styles.

NEW GLOVES

The short black kid glove applied in white and with a narrow frill at the wrist—too narrow to be called a gauntlet cuff, is so popular in Paris now that it is even worn with the shortest sleeve frocks. And naturally it is just the thing for the tailored suit. So you really must have a pair. And these low prices mark your buying time.
