TWO AIRMEN BURNED IN BALLOON

Insanity Plea To Be Filed For Slayers

OTHER CRIMES ALSO FACED BY CHICAGO YOUTHS

MILLIONS OF DOLLARS BE THROWN INTO "MILL" TO SAVE YOUTHS

By United News. CHICAGO, June 3.—Crim spectres of fear, morbidity, cruelty—even death—that stalked through the subliminal selves of Nathan Leopold, Jr., and Richard Loeb "intellectual slayers," will be conjured up thru the medium of alienists highly paid attorneys, and scores of witnesses, in an effort to save the youths from going to the gallows for the murder of 13-year-old Robert Franks.

State Has Much Evidence. The decision was reached following a series of conferences between Clarence E. Darrow, retained as counsel for the prisoners and several wealthy members of the Leopold and Loeb families. Information emanating from the state attorney's office that a mass of evidence was accumulating tending to connect the youths with at least two murders, besides the Franks slaying, and a series of gland robberies as well, was the direct cause of the insanity plea decision, it was learned.

Mental and physical abnormalities, that caused the two rich men's sons to become members of a group which called itself above the run of ordinary men in brains, education, social prestige and scholarly attainment, and that used, these supposed attainments of mind as a whip to drive their bodies into strange paths will be assembled in a new laboratory test of human emotion.

This display will be wholly unlike the one which led Loeb and Leopold, according to their own amazing confession to slay young Franks, the son of a millionaire neighbor. Its purpose will be to show the two killers were and are insane.

With the shadow of the gibbet casting its sinister gloom over the two prisoners and a mass of evidence pointing to them as the perpetrators of other atrocious crimes accumulating in the hands of State's attorney Robert E. Crowe, relatives, after consultation with Clarence E. Darrow and Benjamin Bachrach, noted criminal lawyers, decided insanity was the only way out for the young men, the only possible course which would thwart outraged justice.

The prisoners had been identified as the two men who kidnapped Charles Ream, 23 years old, last

(Continued on page 3)

2 KILLED WHEN TRAIN HITS DERAIL

WORCESTER, Mass., June 3.—Two men were killed and another was probably fatally injured here late Tuesday when the Boston-New York Express on the Boston and Albany line ran through a split switch and was derailed. The wreck occurred about an eighth of a mile east of Worcester station.

Cecil F. Taylor, of Allston, Mass., a fireman, was almost instantly killed while another fireman died later, Engineer Wm. F. Staples also of Allston was said to be dying in Worcester hospital.

SEARCHERS FIND RUN-A-WAY COUPLE

NEW YORK, June 3.—The thin flame of a camp fire glowed into the night and crouching beside it sat a girl, in torn evening dress, her legs and feet cut and bruised by stones, and a gaunt-eyed young man.

Thus searching parties found Helen Cole, 25 year old art student of New York and California and Charles Carter, her friend, still camping in the New Jersey woods Tuesday evening, almost three days after they had disappeared from a gay week end house party, leaving behind them a note saying that they were going into the woods to live as did primitive man.

They had had no food since Sunday and the girl broke down and wept as watershed inspector, member of the parties that have scoured the woods since Sunday came upon them at dusk near New Foundland, N. J., 25 miles from the house from which they disappeared.

Friends rushed to them with clothing as soon as they were discovered. Thus far there has been no explanation of the extraordinary adventures.

Miss Cole and Carter disappeared Sunday evening from the home of Mrs. James Crowell at Mountain Lakes, where they were week-end guests.

During the evening, the party had discussed a book written by a novelist living in the neighborhood. The novelist's theme had been that of a couple who abandoned civilization and went into the forests barehanded to gain a living, as best they could. Miss Cole asserted that it could be done and declared she might possibly do it herself. In the morning both she and Carter were missing.

CONGRESS TO ADJOURN JUNE 7

MOVE KILLS ALL HOPE OF FARM RELIEF AND RAILROAD AID

WASHINGTON, June 3.—Congress will go home at the end of this week, leaving farm relief and railroad legislation in the pot.

The decision was sealed Tuesday by action of the senate in voting adjournment by a vote of 52 to 36 despite the clamor for continuation of the session, and a vigorous filibuster led by Senator LaFollette of Washington insurgent leader to defeat passage of the adjournment resolution.

LaFollette was joined in his move to prolong the session by several western republicans and a sprinkling of democrats, beside the insurgent group, gaining more power than had been expected. His resolution providing a recess from the 7th of June until July 7 and a resolution by Senator Frazier, of North Dakota, republican, extending the date of adjournment until June 21, were both killed before the house resolution for adjournment June 7, was passed.

The defeat suffered by those seeking further legislation at this session came almost simultaneously with another in the house where the McNary Haugen agricultural bill, a farm bloc measure was killed 224 to 154. This adds to the set-back of the progressives Monday when Representative Barkley of Kentucky democrat, withdrew his bill abolishing the railroad labor board. These two defeats kill all hope of either farm relief or agricultural measures at this session.

The senate was in a turbulent mood when it took up the matter of adjournment Tuesday. Senator Lodge called up the resolution and there were several sputters from the senators who wanted the session continued. There was flare over Muscle Shoals. Senator Morris of Nebraska, chairman of the agricultural committee, said it would be impossible to consider the legislation if congress adjourned Saturday. Senator Curtis, of Kansas, republican whip, suggested that the question might be settled by night sessions the rest of the week but Senator Borah of Idaho, scouted the idea.

"I plead with you all to stay here and do your job—the country's job which has been entrusted to you" Senator Norris said.

Norris succeeded in adding Muscle Shoals to the program set out by LaFollette in his sub-division which called for congress to return here July 7 after a months recess and take up farm, railroad and reclamation legislation.

Senator Lodge tried to hold up LaFollette's resolution on a point of order but was overruled by the chair. The vote killing the LaFollette resolution was 52 to 36.

Senator Frazier, of North Dakota, then offered a substitute extending the date of adjournment to June 21. It was defeated, 53 to 36, tending the date of adjournment to on all the votes.

In spite of failure of efforts to postpone adjournment, those desiring a decision on Muscle Shoals will attempt to get a vote before the week is over. Immediately after passage of the adjournment resolution, Senator Underwood, of Alabama, asked unanimous consent that the legislation be considered after the two pending pension bills are disposed of. LaFollette objected.

"With agriculture generally in dire distress, I feel as a representative of a state in that region compelled to oppose a request for any legislation other than that affecting agriculture," he said.

Outside of possible action on Muscle Shoals, there is no outstanding legislation left on house or senate calendars. A few minor appropriation matters only remain to be completed.

Albania Capital Captured

By United Press. ROME, June 3.—Tirans, capital of Albania, has been captured by the nationalist revolutionary forces, according to a Brindisi dispatch to the Tribune. The dispatch states that the city fell Monday after an attack in which 100 were killed and wounded.

CABINET ROW IN GERMANY ENDED

DAWES PLAN ADHERENTS GAIN SIGNAL VICTORY IN NEW CABINET

BERLIN, June 3.—German cooperation of the Dawes report was sustained and the anti-Dawes junkers of the national party received a set back when Wilhelm Marx, who resigned as chancellor a week ago, reformed his old cabinet without nationalist cooperation.

The cabinet crisis ended Tuesday after a week of wrangling in which the nationalists basing claims for increased cabinet representation on their gains in the elections recently, kept the internal political situation in turmoil.

In the end, the group of middle parties, tired of nationalist delay, flatly demanded that the reactionary wing outline their policies. The answer exhibited all nationalist indignation against the Dawes plan, and nationalist excitement over the so-called Guittie—the declaration that Germany was responsible for the world war.

The nationalists declared that the first plank in their platform was the forthcoming government, in outlining its policy before the reichstag, should avoid reference to continuing the present foreign policy.

This meant, in effect, that they decided to evade carrying out the experts reports. They further demanded nationalist cabinet representation in proportion to the nationalist election gain.

They insisted that the question of German responsibility for the world war should be brought up, so that such responsibility might be repudiated.

When it became evident that Marx was planning to form a cabinet without the nationalists, however, they endeavored to crawl out of these demands.

A report was circulated that what they really meant by the declarations on the Dawes plan was that they favored acceptance of the plan, but must conceal this fact temporarily so that nationalist voters would not realize that they had backed down.

WORLD PEACE BE SOUGHT BY WOMEN

LOS ANGELES, Calif., June 3.—Threads of organization details were gathered together here Tuesday as the 17 biennial convention of the general federation of women's clubs moved toward the actual opening of its executive sessions.

Committees from the various conferences met to outline in final form resolutions which they will introduce in convention gatherings. In all discussions platforms of a sound world peace, as opposed to pacifist doctrines, occupied prominent positions.

The upper Missouri valley conference adopted a resolution which will ask the national convention to go on record as being in favor of adequate military and naval armaments. Vigorous denial of Pacifist tendencies is urged.

Following the opening mass meeting of the convention Tuesday night at which Mrs. Thomas G. Winters federation president will preside, delegates will settle down to business Wednesday morning when reports of convention committees officers and standing committees will be read.

New Jersey entered the race for the 1928 convention Tuesday when state delegates combined with Pennsylvania to urge Atlantic City as a meeting place.

Oil Worker Killed

BURKBURNETT, June 3.—F. B. Privett, 24, was instantly killed when he fell from the top of a 96-foot derrick in the oil fields here Tuesday morning.

YOUTH IS FOUND GUILTY MAN SLAUGHTER

By United News.

BEAUMONT, June 3.—Frank Raley, 20 year old youth who shot and killed George W. Lucas, 30 here on Sunday afternoon, May 18, was found guilty of manslaughter by a jury in the fifty-eighth district court at 5:30 Tuesday afternoon and a five year suspended sentence was recommended. He was charged with murder. He was given a quiet, private lecture by Judge George C. O'Brien, who presided over the trial, before he was released from the custody of the court.

Self-defense was given as the reason for the shooting of Lucas, who was at the time of the shooting living with Mrs. Mary Spurgeon, sister of the accused boy at 1048 College street, where Raley shot him. Mrs. Spurgeon was in the courtroom with her brother all during the trial, but sat two seats from the young man. However, she was the first to reach Raley when the verdict was found.

The jury was out less than half an hour.

LAXITY CHARGES UNFOUNDED IS VERDICT

By United News.

SAN ANTONIO, Texas, June 3.—The Bexar county grand jury's long expected report on its investigation of the San Antonio "Whiskey Rebellion" was made Tuesday and declared this city to be lawabiding. The report branded as unfounded charges in telegrams to Washington protesting alleged lawlessness here. These messages, the grand jury informed the ninety fourth district court, were not signed by individuals whose names appeared thereon, but apparently were written by the secretary of a secret organization with authority of the individuals delegated at a meeting which considered vice control here. The grand jury championed neither rangers nor federal prohibition agents in the search controversy, declaring the issue to be a question of law.

COTTON ACREAGE ON INCREASE IN VALLEY

By United News.

EL PASO, Texas, June 3.—Cotton acreage is on the increase under the Rio Grande irrigation project in the Mesilla and Rincon Valleys. Figures compiled by C. B. Stevens, from records of the reclamation service and county farm agents, shows a total of 62,554 acres, to be put in cotton this year. This is nearly double the acreage planted last year when a total of 28,000 acres was raised in this section.

About 200 bales are yet to be ginned. Mr. Stevens estimates the production cost as low as 7 cents per pound average, in some instances lower. This, he states, is because of the high production of the land, running more than a bale to the acre.

McADOO LEADING STATE IN FLORIDA ELECTION

JACKSONVILLE, Fla., June 3.—With about one-fourth of the votes of the state counted, it was apparent Tuesday night that W. G. McAdoo would have a substantial lead in the contest for the democratic presidential nomination.

Major returns in the election race of W. J. Bryan for delegate to the democratic convention seemed to show he would lead the state. John W. Martin and Frank E. Jennings, both of Jacksonville, both appeared to be running close in the contest for governor.

LIGHTNING HITS BALLOON DURING TEST FLIGHT

WEATHER BUREAU OFFICIAL AND ARMY OFFICER KILLED IN FLIGHT

By United News. MONTICELLO, Ill., June 3. The elements took their toll Monday night of two brave men who had gone up in a balloon to test air currents during storms. The bodies of Lt. James T. Neely and Dr. C. Leroy Meisinger, found Tuesday with a burned balloon bag near here told the story of the tragic finish of their attempt.

Some time during Monday night, while a thunder storm raged, the balloon the U. S. Army craft S-3, was struck by lightning and came down about two miles north of Bement, Ill.

Dr. Meisinger, one of the foremost meteorologists in this country, an official of the Weather Bureau at Washington, was found in the balloon basket. His head was partially crushed but he had escaped burning.

The body of Lt. Neely was found almost half a mile away partly buried in soft ground. The balloon bag was burned and portions of the basket were charred.

Radio and Meteorological equipments were smashed. For some time the two aviators had been engaged in testing air currents during storms, and they had experienced many narrow escapes.

The last flight of the balloon, was undertaken for the purpose of preparing a chart of the current at an elevation of 1,000 feet. The balloon had left the flying field at Belleville, Ill., late Monday afternoon. When last seen, it was traveling northeast.

Experts said lightning had struck the bag and caused an explosion of the gas within.

CONFERENCE ON TAX LAW BE CALLED

By United News.

WASHINGTON, June 3.—Before renewing his fight for tax reform at the next session of congress in December, President Coolidge will summon a conference of state governors and administrative officials to discuss co-relation of state and federal taxation. In his statement commenting on the new tax law, the president said that when the new 4 per cent maximum state tax is added to the inheritance taxes of many states, the effect will be virtually confiscation of capital. Many states now have their own income taxes, so that the amount of taxation carried in the federal law represents only a portion of the burden placed upon the taxpayer.

President Coolidge will call this conference to meet here probably in November following the elections. This will give ample time in which to include suggestions of the conference in the administrative tax program.

MAN SHOTS WIFE AND TURNS GUN ON SELF

By United News.

KANSAS CITY, June 3.—Angered because she would not consent to a reconciliation, Floyd Knapp, 25, a truck driver, shot his wife, Gladys, 18, here Tuesday and then turned the gun upon himself.

Both were taken to a hospital where Knapp probably will die. His wife's condition is not serious.

WEATHER

WEST TEXAS.—Fair tonight and Wednesday warmer east central portion Wednesday.

THE MANY

Some go sailing out to sea For a glimpse of the thing called poetry.	'Mid the cold gray walls or the busy town.
And many find this precious yield In a clump of woods or a clover field.	Not for them are the calm retreats They must find their God on the city streets.
A few there are may ride the sky And catch its thrill where the eagles fly.	In the drab, dull tasks must the many find Beauty and courage and peace of mind.
Some in a soldier's camp may hear The voice of mystery whispering near.	Yet I watch the throngs as they come and go, And something is keeping them brave I know.
But oh, for the many there cannot be The clover field of the changing sea.	And there's never a life so bleak and bare But something lovely is cherished there.

Of Interest Society To Women

Open House at Country Club Postponed.

Open house at the country club has been postponed from this evening to next Wednesday evening, June 11th, on the account of the death of Mr. E. M. Jones.

Epworth League Will Serve Luncheon.

The regular weekly Rotary Club luncheon will be served at the Armory today by the Epworth League. The proceeds will go to defray a part of the expenses of the conference to be held here in the near future.

Personals.

Mr. and Mrs. O. Duncan of 503 Avenue Q, returned Monday from a trip to Nevada, Mo., Grand Junction, Colorado and other points in the states where they spent a short vacation.

Mr. and Mrs. W. D. Arnett and daughter, Miss Alene, of the North Spade ranch spent several hours in Lubbock, Tuesday.

Astronomer Is Killed While Studying Air Currents

International News Service.

BELLEVILLE, Ill., June 3.—The storm gods, who Dr. Leroy Meisner, defied while studying upper air currents, during a gale, from an army balloon, was hurled to the earth, by a cyclonic disturbance, and the mangled body of he and his companion, James T. Nelly, were found near Montivello this morning.

SMITH NOT USE LIQUOR PLANK PLATFORM

By United News.

NEW YORK, June 3.—Regardless of Governor Al Smith's views on the prohibition question, there will be no beer barrel rampant on his banner at the democratic national convention. There may be some bitter attacks on the 18th amendment by a few individual members of the New York delegation, but they will not be sanctioned by the New York Democratic organization which stands as a committee working for the New York governor.

This much is revealed by Franklin D. Roosevelt delegate at large from New York and Smith's campaign manager.

"Certainly not," insisted Roosevelt when he was asked whether the New York delegation would join a fight for modification of the Volstead act.

This was not taken to mean, however, that the delegation will restrain itself from bucking any attempt of the strong McAdoo element at the convention to insert

the party platform. Roosevelt was silent on this point but indicated that the Smith men or at least the New York contingent would insist that the prohibition question was a matter to be decided in congressional elections and not in the main contest for the presidency.

Some announcement from the governor himself on the question of law enforcement as connected with prohibition is likely to be forthcoming sometime before the convention.

These tidings have not surprised many politicians in New York. It has generally been conceded that Smith, while making no effort to hide his record on the prohibition question—the high spot of which was his signature of the repealer to the Mellon-Gage state prohibition law—would refuse to become the national standard bearer of the wets. Throughout the country his workers have been picturing him as a law enforcer of the first type.

Most of the national dry leaders who are already here for the big democratic meet apparently favor a middle-of-the-road attitude on the wet and dry issue—one not too dry and yet not too wet.

It is pointed out that Woodrow Wilson had wet tendencies, but that both the 18th amendment and the Volstead act were passed while he was in the white house—the latter even over his veto. Hence in the opinion of most democratic leaders, the platform should not attempt to bind the candidate to other than enforce the laws as he finds them on the statute books.

CENSURE OF WAR DEFEATED BY BAPTISTS

MILWAUKEE, Wis., June 3.—Extreme pacifists who attempted to have delegates to the Northern Baptist convention here resolve against participation in any war "unless justified by the conscience of the world, as made vocal by an international world court" were overwhelmingly defeated Monday.

An attempt to have the convention declare in favor of a "reasonable preparedness" also failed. The pacifist resolution defeated

by a tremendous chorus of "noes" after a few "ayes" was introduced by the Rev. F. B. Fageberg, Springfield, Mass., who told the convention he believed the resolution against war should contain "teeth." He then presented the following:

"Reaffirming the independence of the church from the state, establish right of the individual to determine his own acts in accordance with the dictates of his conscience, we believe that the Christian church cannot consistently take part in any future war unless justified by the conscience of the world as made by an international world court."

The amendment to the resolution presented by the official committee declaring that the convention while opposed to war, believed it would support a policy of consistent preparedness for war was offered by the Rev. L. R. Griffin, Illinois.

It was voted down after S. M. Lindsay, chairman of the committee, explained that the purpose the committee had in mind was to express opposition against all war but had assumed that all Baptist stood for and with the exception of the United States and would never fail to support it.

BRAZIL MAY BAR JAPANESE FROM CITIZENSHIP

RIO DE JANEIRO (By mail to United Press).—Japanese may also be excluded from Brazil if plans reported from Tokyo for emigration of large numbers of Japanese to this country are put into effect.

Brazil so far has not given Japanese immigration any great degree of consideration and no restriction whatever are placed on immigration from the Oriental Empire, but with the United States excluding the Jap-

anese, it is felt that there may be too great a rush of Japanese for Brazil.

The 1920 census revealed that there were 40,000 Japanese living in this country, largely farm laborers working on the large coffee plantations and in the rice fields of the state of Sao Paulo. During the three years since 1920 between 1,500 and 2,000 Japanese immigrants have been received at Brazilian ports, but discontented Japanese immigrants have departed from this country at an average of 60 per month during the past two years.

The discontent among these immigrants has been accredited to living conditions on Brazilian farms and devaluation of Brazilian money. The Japanese farmer is better paid for his labor in his native country than in Brazil, and he also finds fault with accommodations on Brazilian farms.

However, should Japanese start migrating to Brazil in such large numbers as it would appear by Tokyo reports they plan to do, it is believed certain that restrictive measures would be adopted by Brazil.

Judge D. E. Kemp, prominent attorney of Slaton, was in Lubbock Tuesday attending to business interests.

C. E. Burton business man of Southwest Nebraska, was in Lubbock Tuesday, transacting business.

Judge C. W. Beene, of Lorenzo, was in Lubbock Tuesday looking after business interests.

Ed. N. Harrison, of Idalou, was in Lubbock Tuesday looking after business.

SNAKES EAT FISH IN LOPEZ CANYON

By United News.
SAN LUIS OBISPO, Calif., June 4.—Water snakes have made trout fishing in this section almost useless, local anglers say.

The fish, especially the trout in the streams in Lopez canyon, are so scared by the exceptional large number of water snakes that they will not bite and hundreds are

being destroyed daily by the reptiles. Fishermen report that in several instances fish have been snatched off their hooks by snakes.

The unusual condition is due to a forest fire that swept Lopez canyon last year and that killed most of the rattle-water variety. The fire also killed the field mice, gophers and other small animals which the water snakes generally feed on, forcing them to turn to the trout streams for food.

ELDERS CAUSE CRIME WAVE IS CLAIM

By LISLE WILSON
Copyright 1924 By United News.
WASHINGTON, June 3.—Responsibility for much crime such as the fiendish murder of the Franks boy at Chicago by two college students can be traced largely to the bad example set by one class of American fathers, is the opinion of the Rev. Jason Noble Pierce, pastor of the First Congregational church where President Coolidge worships. Discussing the Chicago murder case with the United News, Dr. Pierce said that boys imitate their elders—not necessarily their own fathers.

"The influence of man is tremendously effective in shaping the lives of boys," he said. "Responsibility for the crime rests largely with the fathers of America. The loose ideals and wild escapades of grown men are imitated by boys, sometimes their own sons, and oftener as apparently in this case by the sons of other men.

If the fathers of Nathan Leopold and Richard Loeb seem to be men of exemplary conduct and irreproachable ideals, the cross currents of evil influence have swept from other men and engulfed their sons. Knowing, as they must, that youth is susceptible to precept, the fathers of America have permitted sources of evil to exist and for this reason they must share the blame. To allow much evil influence to flourish after this awful proof of the contamination which must result is unthinkable.

America is toughened to many horrors, Rev. Pierce continued, "but

America is shocked beyond expression at this murder.

"Not only to the families of the murdered boy, but also to the families of the murderers, the heart of all America goes out in sympathy and sorrow. It is a crushing blow to all concerned. God bless and comfort the parents of all these lads.

"In their reversion to primitive savagery, the guilty youths seem abnormal. Apparently they were ruined by riches. Fast motors, strong drink and other evils have been mentioned in the newspaper dispatches. Would they have acted indifferently if they had known manual labor, less money, more democratic companions."

PEP COMMUNITY IS GROWING RAPIDLY

C. W. Alexander of the Texas Land Exchange, declared Tuesday that the Pep community is witnessing greater development than any other community on the plains, and all indications are that the crops this year will meet the heartiest expectations of the farmers, all of whom have just improved their places, for it has been less than a year since the first plow was taken into that community.

Pep is located just a few miles west of the famous Yellowhouse ranch headquarters, is ideally located as to being surrounded by rich farm lands, and the type of farm-homes that have been built there is of the very best.

P. F. Seheh, of Lockhart, who

has had twenty years experience in cotton breeding, has established a cotton breeding plant near Pep, and will within a few years have one of the big plants of the state.

Mr. Seheh made five prospecting trips through West Texas prior to locating his station at Pep, and it was after he had spent some time inspecting the land there that that site was decided upon.

Mr. Alexander says the development of the Pep community is being carried on with unexpected rapidity, and that within a few months it will be entirely settled.

IDALOU C. OF C. MAN SAYS BUSINESS IS GOOD

Dr. Harkey, prominent business man of Idalou, and who is taking active interest in the chamber of commerce of that city, was here Tuesday looking after business.

Dr. Harkey stated that business conditions in Idalou are as good as could be expected, and that business men of that city are continuing the building program that has been so instrumental in making Idalou the outstanding little city of the plains.

Purdy's Philos
Jed Brown tossed his hat into the political ring last week. He says it can't cost any more than checking it at some of these big city hotel dining room doors.

SPORT NEWS

DOUBLE VICTORY GIVES GIANTS GOOD LEAD

By United News.

A pair of victories over the Brooklyn Dodgers in a double-header at the Polo Grounds Tuesday by scores of 9 to 2 and 3 to 2, placed the Giants still further in the lead in the National league. The second place Cubs were idle again and consequently the chasm between them and the Giants widened to three full games.

Jacques Fournier, first baseman of the Dodgers knocked his 11th homer of the season in the first game of the twin bill with the Giants. Jacques is leading the National League in this violent specialty with Cy Williams of the Phillies trailing far behind with six circuit smashes. Babe Ruth heads the American League with 13 homers and is still ahead of his 1923 record.

The Cincinnati Reds emerged from a slump and gave the Braves a 5 to 1 thrashing in Boston. The victory elevated the Reds to within easy reach of third place, now occupied by the Dodgers.

Clarence Mitchell pitched the Phillies to a six to nothing win over the Cardinals in Philadelphia. Only two Card batsmen registered a safe blow off Mitchell's delivery.

The half game lead separating the Yankees from the Red Sox in the American League remained stationary when both clubs performed victoriously in their respective games. The Yanks victimized the White Sox in Chicago by a score of 6 to 3, while the Red Sox extricated themselves successfully from a tight game with the Browns in St. Louis 8 to 7.

Fitcher Zachary of the Senators worked brilliantly in a game with the heavy hitting Tigers in Detroit yielding but two hits—both to third baseman Haney—and helping his team to an 11 to 1 victory.

The Athletics-Indians match in Cleveland was postponed because of rain.

ACCUSED WOMAN GRANTED NEW TRIAL

By United News.

ALBANY, N. Y., June 3.—Mrs. Anna Buzzi, a fat woman and one of the few women ever sentenced to death in the state of New York, will soon be returned to New York City for re-trial on a charge of shooting to death her strayed sweetheart, Frederick Schneider, a wealthy contractor of affectionate disposition but errant tendencies.

The court of appeals in its leisurely way reached Mrs. Buzzi's case after she had spent several months in the Sing Sing death house and following profound deliberation decided that the conviction should be set aside. So the woman who made an almost fatal mistake in allowing herself to grow fat with the advance of years, will have another chance to prove that she did not kill Schneider, or at least that she only meant to shoot him slightly.

MEXICAN BOY DROWNED IN WHITE OAK BAYOU

By United News.

HOUSTON, June 3.—Cralos Dillar, 13-year-old Mexican boy was drowned in White Oak bayou near here Tuesday afternoon while swimming with two companions. It is believed he was taken with cramps while in the water, drowning before aid could reach him.

Thomas Lewis, 13-year-old negro boy recovered the body after 30 minutes of diving.

Poundage was a curse to Mrs. Buzzi. In her younger days she was a ballet dancer in the Grand Pageant of a circus and tripped around the show ring in silks, tossing flannel roses and geraniums in the path of Cinderella or Cleopatra or Helen of Troy. And, if she was not exactly beautiful, she certainly was not fat. In time she married an Italian in humble circumstances named Buzzi, but when Schneider came along with his motor car and his winning ways, Mrs. Buzzi was said to have taken up residence in an apartment which he furnished.

Then the scales began to taunt her. She dieted, but her youthfulness was gone. Her slimmness was transformed into unshapely abundance and Schneider formed other friendships. Mrs. Buzzi was philosophical about it or pretended to be. But the state disbelieved her. She was described as a woman scorned who had borrowed a pistol from a relative and shot Schneider because his love diminished in proportion to the increase of her weight. The jury could not sob for a fat woman and found her guilty in the first degree.

The bodies were recovered arms out about each other. The Frazier boys were sons of S. S. Frazier of Wichita Falls, employe of the Denver road and with their mother were visiting in Wortham.

The best that human hands can do in the way of tailoring is to be seen in our suits.

Such popularity must be deserved

OLD records to break, new ones to make! Grilling tests of speed, stamina, power! And for the winner—popularity, hard-won and deserved. So with everything else. To win popularity even a cigarette must deserve it. Chesterfield, for example, has long been winning an average of over 1000 smokers a day. One thing alone—Chesterfield's better taste—can account for such popularity.

They Satisfy—millions!

BETTER TIMES IN STORE FOR FARM REGIONS

International News Service.
DES MOINES, Ia., June 3.—Better times are ahead for the farmers and farm land brokers, William E. Herren, field secretary of the National Association of Real Estate Boards, said in an exclusive interview today.

"In the Middle West the farm land situation is still bad enough, but the worst is over. Debts are largely paid, losses have been taken, and the farm prosperity should be on the mend. Most farmers have gone back to work. Work is the one big solution.

"The inflation of after-war conditions has largely disappeared, and farm lands are back, in most cases, to where they were in 1916," he said. "The farmer is in a better position today than he has been since 1920. Farm lands are beginning to sell, and a general spirit of optimism is becoming prevalent in the great farming industry of our country.

"There has been considerable increase in the sale of farm lands in the past year. While indications are that there will be a definite improvement in the market, this improvement probably will be slow.

"The decrease in farm population continues in some sections. Only those sections which have diversi-

fied farming and are developing new lands are reporting an increase in population on the farms.

"The greatest difficulties now confronting the farmer are the high rates of taxation in proportion to his income, inability to realize adequate proportion of the price paid by the consumer for the farmer's products on account of present methods of marketing and labor shortage, due to the high prices being paid in the cities for labor.

"The sections which have suffered most from the depression are the one-crop areas. Greater diversification of crops will minimize losses in the future.

"Assistance should be given the farmers in the one-crop sections,

particularly the Northwest, but in the future greater stress should be laid upon diversification of crops and greater success will result."

ENGLAND TRUST BUSTER IS BOTHERED

By United News.
LONDON, June 3.—England has fifty-five trusts and doesn't know what to do with them.

Sidney Webb, who is president of the Board of Trade and as such

those shared with their men and the consuming public the benefits of co-operative production and marketing while the "bad trusts" shared "nothing with nobody."

Trust regulation is a pet subject of Webb's and the Board of Trade has been working on the question for some time. Several experts have made a close study of the workings of the "Sherman Anti-Trust Act" and there is a good deal of curiosity to see whether the British government will borrow anything from American experience.

Meanwhile Webb's plans are a closely kept secret.

They are all over the place, from shipping to building materials and cotton thread. Some of them, like the wall-paper trust, pay wages twice as high as they paid in the "good old days" of cut-throat competition and are, for that reason, firmly entrenched in the affections of the English workman.

But some others are not conspicuous for benevolence. As the Englishman sees it, Theodore Roosevelt was right when he said there were "good trusts" and "bad trusts," the "good trusts" being

those shared with their men and the consuming public the benefits of co-operative production and marketing while the "bad trusts" shared "nothing with nobody."

Trust regulation is a pet subject of Webb's and the Board of Trade has been working on the question for some time. Several experts have made a close study of the workings of the "Sherman Anti-Trust Act" and there is a good deal of curiosity to see whether the British government will borrow anything from American experience.

Meanwhile Webb's plans are a closely kept secret.

Relief Measure For Irrigation Farms Submitted

International News Service.
WASHINGTON, June 3.—The revision of the reclamation laws for the relief of settlers on irrigation projects in Western States, including Texas, was provided in a bill reported to the house today.

Under the provisions of the law the government would exempt settlers of the payment of twenty-five millions due on unprofitable agricultural lands.

ONCE GOVERNESS BELIEVES IN LEOPOLD

By United Press
MARTINEZ, Calif., June 3.—Nathan Leopold, of Chicago may have shocked the world with a crime but he still has left at least one friend.

That friend is Mrs. Pauline Van Den, wife of a worker in the oil refineries here; mistress of a neat cottage; mother of two children and once Leopold's governess.

"I love him despite his meanness," she told the United News Tuesday night.

"I love him like one of my own children."

She told a brief simple story of the events of the early life of the young man who now is in Chicago facing death, unless the already famous "fifteen million dollar defense" can save him from paying that penalty for the alleged murder of 14 year old Robert Franks.

"From 1916 until 1918 two years—I was governess in the Leopold home" Mrs. Van Den Mosch told the correspondent.

"Nathan was brilliant. He was the most brilliant of all the Leopold children.

"But he was mean. Despite his meanness, though, I loved him and I still love him.

"I hope they don't hang him, but I think it would be best if they would confine him for the remainder of his life at hard labor—something that would dull his brilliant mind.

"As a boy, he had a mania for killing and collecting birds for a little museum which he kept at his home.

"The death of an animal never seemed to have any effect upon

STAR PARASITE REMOVER
Given chickens in drinking water absolutely rid them of lice, mites, fleas, bluebugs and all insects that kill young chickens and destroys the value of fowl. Also is a good tonic and blood purifier. Prevents disease and increases egg production or money refunded.

him, unless perhaps one of enjoyment.

"I remember one afternoon he shot a bird on the lawn and the shot narrowly missed the nurse at the Schaffner home which adjoined.

"I upbraided him and tried to tell him of the consequences of such carelessness.

"I should give a damn" was his answer.
"He always was headstrong and he never did have any respect for his parents.

"Go to Hell," he frequently told them.
At one time, Mrs. Van Den Bosch said young Leopold was associated with persons who attempted

to turn him against his parents.

"I think that had something to do with the peculiar turn of his mind" she commented. On leaving the Leopold family Mrs. Van Den Bosch was married and later came to California and until a year ago received letters regularly from the lad.

"To me this is a terrible shock," she concluded, "yet I love him and I hope he will not hang."

Down Fifty Points
Father (trying to entertain young man caller): "Do you think Ford will get Muscle Shoals?"
Dense Daniel: "I dunno. I hear that Shoals fellow is quite a wrestler."

PROGRESSIVES OUTCASTS AT CONVENTION

By RAYMOND CLAPPER (UN Staff Correspondent)

WASHINGTON, June 3.—The status of progressive republicans at the Cleveland convention has been fixed definitely as that of poor relatives. They may come and partake of the inspiration but it is hoped they will remember their place when the refreshments are passed.

There have been no unkind words, no family scenes. The progressives have not been read out of the party—they have just been frozen out. The geographical west, but not the political west, will be represented. Republican senators are in somewhat the same category. Lodge and his bad little boys will not be allowed to eat turkey at Cleveland. They must sit on the rear seat with the progressive outcasts.

The slate of convention functionaries just completed shows conclusively that this is to be the president's convention. The list was completed Tuesday when it was announced that the permanent chairman will be Frank W. Mondell, of Wyoming and the chairman of the resolutions committee, Charles B. Warren, of Michigan. Both are regular organization republicans of marked conservative leanings and of course, neither is identified with the senate. The Coolidge convention slate as now completed is:

Temporary chairman, Representative Theodore E. Burton, of Ohio.

Permanent chairman, Frank W. Mondell, of Wyoming.

Chairman resolutions committee, Charles B. Warren, of Michigan.

To place President Coolidge in nomination, Dr. Marion Leroy Burton, president of the University of Michigan.

To be chairman of national committee, William Butler, of Massachusetts.

Progressives will scan the list in vain for one of their tribe. All the senate gets is an ex-senator in the person of Representative Burton. He is a pronounced conservative. Mondell, who served in congress many years was castigated by Theodore Roosevelt for opposing progressive legislation. Warren, before entering the diplomatic service was republican-national-committeeman from Michigan, a regular and a survivor of the Newberry campaign. He is now ambassador to Mexico and recently served at Tokio. Dr. Burton is an educator of distinction and has never been active in politics. Butler is a New England manufacturer who studied politics with Coolidge at the feet of Murray Crane.

It will be observed that Lodge, permanent chairman of the 1920 convention, Watson, chairman of the resolutions committee and other senators who controlled that convention, do not appear on the Coolidge slate. They and all other senators have been relegated to the rear ranks. They haven't even a real candidate in sight for the vice-presidency.

The white house made it known Tuesday that Coolidge will not attempt to dictate the choice of a vice-presidential nominee. It is his convention and he is entirely willing to let the delegates pick the man. It is safe to say that no one unacceptable to Coolidge will be chosen.

Lowden and Hoover are most often mentioned. But sentiment has not crystallized around any one.

INSANITY FLEA TO BE FILED FOR SLAYERS

(Continued from page 1)

fall, and performed a gland operation on him.

Dr. Joseph Springer, of the coroner's office, after careful investigation, announced that a bullet taken from the body of Freeman Louis Tracy, 24 year old University of Chicago student, fitted one

of the two automatic pistols found by detectives in young Leopold's room.

Tracy was shot and killed Nov. 25, 1923, while he was returning from a dance in the neighborhood where Leopold and Loeb lived. It was the early morning of November 20, when Ream was kidnapped and mutilated.

Grand Jury Hears Evidence.

And a grand jury had been convened Tuesday morning to listen to evidence in one of the most remarkable cases in the history of the criminal jurisprudence, the story of revolting crime, which, according to the youths who confessed perpetrating it, was committed as an experiment, one of the list planned for months.

Although the confession made by Leopold and Loeb were not introduced at Tuesday's grand jury session, and will not be used until Thursday, states attorney Crowe said he believed many important fragments of the case were cleared up. The states attorney is hopeful that the result of Thursday's session will be indictments for murder, he said. Wednesday, he will resume the presentation of witnesses and documentary evidence which will lead up to the denouement Thursday when Crowe expects to have the confessions read to the grand jurors.

Father of Victim on Stand.

Jacob Franks, father of the slain boy, was the first witness and in an unflinching voice he described how his son had left home the morning of May 21, and had never returned alive.

"When did you last see him alive?" Crowe asked the father.

"When he left our home that day to go to the Harvard school," Franks replied.

"When did you next see him?" Crowe asked.

"I never saw him alive again. I saw him dead in an undertaker's," Franks answered.

During his testimony Franks made a new disclosure about the afternoon of May 22, when he sat in his home awaiting a telephone call from his boys abductors.

"After I was told to get \$10,000 and informed that I would receive directions over the telephone, I went to the bank, drew out the money in the denominations specified and returned home," Franks said.

"It was shortly before 3 o'clock in the afternoon, I waited and waited, it seemed to me."

"Then the bell rang and I was told that my boy's body had been found in a swamp. That stunned me. That information is the only thing which prevented me from turning over the \$10,000 to the kidnapers or their agent, for they tried to collect the money from me after my boys body was discovered. I have been certain, after reflecting on the affair, that those murderers were sure I would not find out that my son had disappeared for several days."

"It was just providence that stepped in and found my boy and saved me from paying that money. God knows I was willing to pay the money—I would have paid all I had to have my boy returned to me."

Franks voice grew bitter as he related his efforts to find his son and the shock which he sustained when he learned his "baby" was dead.

Leaving the jury room Franks manifested the same iron nerve which had enabled him to go through trying days attending conferences with police officials and assisting them to plan the apprehension of the slayers. Franks keen mind that helped him to amass a fortune, after he had started in a business career without a cent, many a time detected flaws in police arrangements to catch the murderers.

FORMER FORT WORTH MAN SENTENCED TO HANG

LOS ANGELES, June 2.—A. F. Champion, formerly of Fort Worth, has been sentenced to hang at noon, August 15th, for the murder of J. E. Goldy during a gambling game two years ago.

THOUSANDS SEE PARADE OF SHRINERS

By United News

KANSAS CITY, Mo., June 3.—Caught in the whirlpool of revelry and excitement Kansas City awaits each new morsel of the shiner expectancy.

More than 20,000 of these handsome sons of the desert swept thru the city Tuesday amid all of the pomp and splendor of a medieval spectacle.

Tens of thousands jammed all available space along the line of march. Hundreds stood on tops of buildings; grandstands hastily erected to take care of the crowd creaked beneath their load. Women fainted. One woman overcome by the excitement collapsed and died before medical aid reached her.

Everywhere bands, chanters, fifes and drum corps were heard. John Phillip Sousa, famous band director, headed the Dallas Texas delegation and was widely cheered when recognized by the throng.

Mascots of all kinds and ages were in the parade. The arrival of Conrad V. Dykeman imperial potentate of Brooklyn, whose motor car flanked by members of the honor legion of the New York police department, was the signal for prolonged cheering. A motor carrying James E. Chandler of Kansas City, deputy imperial potentate, who by right of succession replaces Dykeman followed close behind.

Then came the uniformed men of seventy temples an endless sea of colors, smiling faces happy musicians—the shriners' escort to the imperial potentate.

Two more parades will be held before the disciples of Kalif Alu begin their retreat across the hot sands. The monster celebration to be featured by a lavish display of fireworks will be Friday night.

Meanwhile the exotic hordes have succeeded in turning the city into a national playground. Streets are nightly converted into dance palaces; play houses are packed; sightseeing tours are being staged.

The shriners are enjoying themselves.

A tinge of sorrow invaded the jollification of Shrinedom when word was received of the death of the mother of E. M. Augbe, a visiting noble from Des Moines, Iowa. Augbe left immediately to attend the funeral.

California Ban Modified.

SACRAMENTO, Calif., June 3.—Oregon and New Mexico Tuesday announced modifications of bans placed against California products two months ago in the hoof and mouth disease control fight.

MANY SCHEMES MAY RESULT FROM TAX

By LYLE C. WILSON (Copyright 1924 United News.)

WASHINGTON, June 3.—Publication of names, addresses and amount of income tax paid as provided in the new revenue bill will mean the completion of a national sucker list, and may lead to all sorts of ingenious schemes of unscrupulous promoters while permitting taxpayers, by making inflated returns to boost their credit.

There are two of the harmful effects of the new tax publicity provision foreseen by treasury experts. Probable abuses of the new law were described to the United News by an expert at the treasury department, who is not permitted to be quoted by name.

"A crook could file a return showing his liability to tax as thousands of dollars more than it should be," he said. "With the posting of the faked figures such an individual might easily turn his paper wealth to some account by imposing upon credulous and ill informed persons."

"Only 25 per cent of the fake tax would be demanded upon filing the return and later an appeal to the bureau of internal revenue would effect an adjustment in line with actual liability. But the correct information, if ever reached the postoffice bulletin board, would be too late to save an incautious investor."

"One of England's great liquor concerns was operated with money lent by bankers on the strength of the owners padded income tax returns."

port. The specious borrowers check in February of this year, and his income, like assets, was found to be nil.

There is no mathematical equation which will compute the exact amount of income from the published tax payment but schedules of liability already prepared by the treasury will serve the purpose partially.

Dealers in names and addresses, the so-called 'sucker list' for which good prices are paid will extend their organization to every cross roads hamlet," the official declared.

"In a small community where the

residents are likely to know the number of dependents and whether amounts of income comes from salary and business or bonds, discovery of his net income would be a simple matter of looking at the charts."
