WILL WORD MURDER CASE OPENS HERE

'Ma' Ferguson Strikes Back at Injunction Opposition

MOVE MADE FOR POLITICAL PULL IS HER CHARGE

WOULD BAR HER NAME TO ELECT REPUBLICAN ANSWER STATES

By United News. AUSTIN, Texas, Sept. 22.—'Ma' Ferguson struck back at her enemies here Monday.

In answer to an injunction demanding that her name be kept off the November ballot as the democratic gubernatorial candidate, Mrs. Ferguson charged that the attack upon her standing and the legality of her filling office under state statutes were made "for protection of political rights" and not for legal rights and in respect for the state constitution.

Mrs. Ferguson, who, if permitted to make the race which is tantamount to election in Texas, will be the first woman governor of a sovereign state, declared that Chas. Dickson, San Antonio attorney, was making for the injunction "in order to secure the election of the republican opponent, well knowing that the restrainer would prevent the name of the democratic candidate from appearing on the ballot."

In reply to the Ferguson answer, Dickson's counsel denied any effort to confound voters and denied that no other nominee could be made by the democratic party in the event Mrs. Ferguson was disqualified.

Supporting the allegation against Mrs. Ferguson, Dickson charged that former Governor James Ferguson, and his wife, the nominee, conspired before the primaries to return the impeached governor to office, and in support of this contention presented several copies of the paper the Ferguson Forum published in Temple.

Counsel for Mrs. Ferguson argued at length upon the wording of the state constitution where the provisions "He and she" are used in reference to the governor. It was their contention that the pronouns referred to the whole people and if they had meant only men it would have been so specified.

It was pointed out that the woman suffrage act automatically placed the female in line of office and showed that several women now are holding elective and appointive offices in the state unchallenged.

The hearing closed last Monday and will be resumed Tuesday morning. Mrs. Ferguson and her daughter, Mrs. Nell, were present in court. "Farmer Jim" was in Houston attending a meeting of the democratic state executive committee.

LU CONSOLIDATES NEAR WALLS FOR HEAVY ATTACK

By United News. SHANGHAI, Sept. 22.—The forces of General Chi Hsieh Yuan have launched another attack on the lines of Lu Yung Hsiang, who has consolidated his position by falling back on Shanghai, thus shortening his lines of defense and his lines of communication. Heavy firing has been under way at the front since noon. In the foreign settlement the volunteer guards have again been mobilized, because despite Lu's tenacity in holding his new positions, it is felt that a retreat upon Shanghai is inevitable.

Dispatches from the north report that Chang Tao Lin's Manchurian forces have captured three cities in Chi Hsieh and that he has taken 5,000 prisoners.

Another source of aid has opened up with the return of Wm. G. McAdoo from Europe. He called just after the democratic convention a bitterly disappointed man. He felt that he was entitled to the nomination because he obtained a majority of the delegates at the convention where he was recognized as the sturdiest of the minority led by the Smith forces.

Many of his loyal followers nursed large sore spots after the

LEA IS NAMED HEAD OF TEXAS HIGHWAY ASS'N

HOUSTON, Sept. 22.—W. E. Lea, Orange, was elected president of the Texas highway association at its third annual convention here Monday.

One member of the association indignantly left the convention Monday afternoon following a heated discussion of a proposed resolution favoring increasing of salaries of state engineers. Motion to adopt the resolution was tabled as a deviation from the association policies.

INSURANCE FOR FAIR IS TAKEN

WILL PROTECT ORGANIZATION IN CASE OF RAIN DURING FOUR DAYS

If the officials of the Panhandle South Plains Fair Association are good guessers they have protected the organization against loss to some extent from rain during the big exposition next week.

According to Chris Harwell, president of the Association, today bought \$16,000 worth of rain insurance for the fair, \$4,000 for each day, and the insurance was bought for these hours each day which the records at the experiment station here show are most likely to catch the precipitation, if there is any.

The insurance was bought from four to nine o'clock each morning and from four to eight o'clock each afternoon. The records show that there are the hours when rain is most likely to fall, \$2,000 worth of insurance was bought for each of these periods daily, this being \$4,000 worth of insurance each day, or \$16,000 for the four days.

According to the experiment station records out of 115 rain periods during September and October for the past ten years, 67 rains fell from 6 p. m. to 6 a. m., the majority being in the early morning hours. Twenty three rains fell from 3 p. m. to 6 p. m. leaving out last year's record only 15 rains have fallen in the day from 9 a. m. to 3 p. m.

One interesting feature in connection with the rain record is that during the past ten years it has rained only once on October 1, 2, 3, 4, 5, and 6, and that on October 1 last year's record for three dates is as follows: On October 1st it rained the night period it rained .19 of an inch. On October 2nd there was no rain. On October 3rd it rained .44 of an inch between 3 a. m. and 9:15 a. m., and on October 4th it rained .06 inch between 1 p. m. and 2 p. m.

DEMOCRATS INSIST SMITH REMAIN IN POLITICS

By United News. WASHINGTON, Sept. 22.—After a long period of sluggishness the democratic presidential campaign is now taking on a more aggressive aspect.

Al Smith is expected to be roped again for governor of New York. Smith has declared that he wanted to go back to private life and build up a competence for his family. But he has been under terrific pressure because of the feelings of many democrats that they cannot carry New York unless Smith is on the ticket. If Smith can pull New York to Davis, the chances of the democratic presidential candidate will be enhanced by exactly 45 electoral votes.

Smith's presence on the ticket will put new life into the Davis campaign in New York.

Another source of aid has opened up with the return of Wm. G. McAdoo from Europe. He called just after the democratic convention a bitterly disappointed man. He felt that he was entitled to the nomination because he obtained a majority of the delegates at the convention where he was recognized as the sturdiest of the minority led by the Smith forces.

Many of his loyal followers nursed large sore spots after the

COVENANT OF 15 ARTICLES TO BE GIVEN LEAGUE

SIGNERS WOULD PLEDGE THEMSELVES NEVER TO ENGAGE IN WAR

GENEVA, Sept. 22.—The disarmament commission of the League of Nations met Monday with the intention of studying and adopting the full text of the draft treaty of arbitration, security, and disarmament before its final presentation to the league assembly Tuesday.

The protocol consists of a preamble of 15 articles, in which the first provides that all signatories accept the full obligatory jurisdiction of the Hague court as provided in Article 36 of the court's protocol.

Signatories under the treaty would pledge themselves never to engage in war except with the consent of the council against an aggressor state.

The draft provides that all disputes be settled either by the council, the Hague court, or a commission of arbitrators appointed by the council.

Signatories pledge themselves to fulfill arbitration and other findings court and also pledge themselves to abstain from all aggression. If they discover war preparations in any country they will immediately notify the league.

An aggressor is defined as follows: 1—State refusing to accept a pacific settlement as provided by the protocol.

2—Any state committing an act of war or refusing to suspend all military aerial or naval movements upon order of the council.

3—Any state violating any measure taken by the council during the period when measures of arbitration or pacific solution are undertaken.

All signatories are to notify the council of possible naval, military and aerial forces they can contribute for immediate use following a declaration that a state has been found the aggressor in a quarrel.

The signatories have the right to employ their full armed forces under defensive alliances made previous to the going into effect of the new drafted protocol.

Such defensive alliances will remain open for any other states desiring to join them.

An aggressor state is obliged to pay for all military, naval and aerial action taken against it, and must make reparations for all damages done by it.

The signatories would pledge their joint action never to violate either the territories or the independence of the state against which they act.

All disputes arising under the protocol will be referred to the Hague court.

This draft, drawn up under the direction of foreign minister Benes, of Czech-Slovakia, is in fact a compromise between the many conflicting viewpoints advanced by the states assembled in Geneva. It will undoubtedly be modified by the assembly, but it forms the basis for the ultimate treaty of arbitration, security and disarmament, which all Geneva now believe will result from the present discussions.

OFFICERS URGE MILITARY WORK BE COMPULSORY

KANSAS CITY, Sept. 22.—Two hundred reserve officers of the Reserve Officers Association of the Seventh Corps Area, in annual convention here, Monday unanimously agreed that there should be compulsory military training for youths between the ages of 18 and 21.

"The time when adequate national defense is needed will come perhaps within the next four years," declared Major Jas. F. Hill, of Wichita, Kansas, who advocated military training during certain periods of the year.

"The American youth needs the period of instruction and the nation needs to have its manhood kept fit," the officers argued.

CROSBY COUNTY FAIR OPENS 25TH INDICATIONS POINT TO THE BEST FAIR EVER HELD IN THAT COUNTY

CROSBYTON, Sept. 22.—The Sixth Annual Crosby County Fair will be held next Thursday, Friday and Saturday, September 25th, 26th and 27th.

The fair committees say that everything seems to be in fine shape for the best fair the county has ever had.

A greater number of general exhibits will be in evidence this year at the fair grounds.

An important feature of the three day fair will be the amusement program. This will be complete inasmuch as a big amusement company has been secured for the three days' attraction but no objectionable shows.

The exhibits will be opened to all farmers of Crosby county are urged to bring in something to exhibit that will make the fair a bigger and better fair.

County Agent Palmer, who is general manager of the Fair Association, and C. V. Morgan, secretary, together with others are busy getting the exhibits lined up and ready for the fair this week.

Crosby county is a great agricultural county together with our products, poultry displays much better results will be obtained in the future. The fair primarily is an educational institution and together with the wholesome amusement, it will be worth all the money and energy spent in its behalf.

This exhibit will be of great value to the county in demonstrating to the prospective settler what can and is being grown in Crosby county. To get the full benefit from this, every section of the county should have the very best display possible.

Another big feature of the fair this year will be the boys' and girls' club work sponsored by Miss Carlisle, our home demonstration agent and Mr. Palmer, our county agent.

Texas Kid, the big amusement company to be here, has a world of amusement for both old and young.

The big ferris wheel, roller, one hundred piece band and many other attractions during the three days.

Three big days of education, fun and amusement.

FLOOD WATERS DO BIG DAMAGE BRECKENRIDGE

ONE DROWNED, TWO MISSING WITH PROPERTY DAMAGE NEAR \$100,000.00

BRECKENRIDGE, Sept. 22.—One man was drowned, two persons are missing and damage totaling \$100,000 done by flood waters here Sunday when Gonzales creek which runs through the city, went over its banks.

Searchers found the body of E. Seales, 41, whose car had plunged through a washout. Two other persons seen riding in the flood's path are believed to have been drowned.

The water destroyed oil and gas lines in the city, and demolished 100 houses, making 300 homeless. More than four inches of rain fell in two hours.

44 Killed in Wisconsin. MILWANKEE, Sept. 22.—Forty four persons lost their lives more than 300 are reported to have suffered serious injuries and \$1,500,000 worth of property was destroyed in the tornadoes that swept over Wisconsin Sunday.

Partial communication was restored late Sunday and several of the outlying sections are still cut off from the world. Indications are that these figures will be increased and that new tales of sorrow and suffering are yet to be told.

Clark county suffered from the most violent of the cyclones, with a death list of 22 reported late Monday of Thorp, Owens and Redmond from the farming community.

At Zanborn, Ashland county, six lives were lost. At Westboro, Taylor county, seven persons perished and Rhineland reported three dead in a cyclone in eastern Oneida county. At Couderay, Sawyer county, two children were killed and at Gilbert, Lincoln county, a baby was crushed to death. The woman was killed at Leigh, Barron county.

At Muskego, Waukesha county, in Southern Wisconsin, two men were drowned when their motor boat was swamped by a heavy wind on Lake Muskego.

Three lakes, a village of 500 population 21 miles east of Rhineland, was practically wiped out. The main street, comprising several stores and garages and two hotels were directly in the path of the storm was reduced to chaos.

Communication with Three Lakes is not expected to be restored for days and until normalcy is reached it will be impossible to get any idea of the suffering that the tornado brought to the little town.

The storm began its course of death and destruction near Thorp and tore over the country side in a northeastern direction. Farms houses collapsed, fences were snapped up by the tornado and carried for miles.

A steel bridge near Redville, was jerked from its piers and tossed in a twisted mass on the banks. Soon line tracks on both sides of the bridge were torn up.

FIVE JURORS SELECTED IN WORD MURDER CASE

The following men were selected Monday from approximately half of the special venire of 100 men summoned in the Will Word murder case, which opened here Monday morning before District Judge Clark M. Mullican: J. L. PRESTON, T. R. PRESTIGE, F. J. DARWIN, W. P. FLORENCE, and E. R. YOUNG.

It is believed that the jury will be completed by noon today.

FAIR TICKET CONTEST OPENS

UNIQUE PLAN FOR SALE OF SEASON TICKETS TO START WEDNESDAY

Beginning this morning a contest will start for the sales people of the dry goods and drug stores, with perhaps a few others, to see which sales person can sell the most season tickets for the Panhandle-South Plains Fair, which starts Wednesday of next week.

The Fair Association is offering a cash prize of \$15.00 to the sales person selling the most tickets in dollars and cents and from present indications the competition is going to be keen, not only between the sales people in each store, but also between the forces of the various stores.

Each store will be issued so many tickets on receipt and the manager of each store will keep the records of its own salesforce. At the end of the contest the management will certify to the Fair Association the sale of the employee selling the most tickets, and the employee will be awarded the fifteen dollar cash, who has sold the most tickets.

To create more interest and competition the Fair Association is also offering a season ticket to the sales person making the best record in each store, which means that the employee who sells the most tickets will be rewarded even though they do not win the first prize.

Adult Season Tickets, good day and night during the fair, sell for \$2.50. Child's Season Ticket, good for children up to 12 years of age only, sell for \$1.00.

Auto Season Tickets, which entitle every owner to a special parking space where every possible protection will be given the cars and where they will be parked systematically in such a way that they may be gotten out at the owner's desire, will sell for \$1.00.

Every individual citizen of Lubbock should purchase a season ticket, and everyone is urged to visit their particular friend who is it sales person and purchase from him or her to help in the contest.

SAN DIEGO GREETS WORLD FLYERS TO HOME STATE

SAN DIEGO, Calif., Sept. 22.—America's sturdy army flyers are again in California after a 26,000 mile air voyage which has taken them around the world.

With business and school activities at a standstill, San Diego turned out this afternoon in a body to greet Lt. Lowell Smith, Erik Nelson, and Leigh Wade at the city stadium.

The airman, escorted by a convoy of 16 navy planes, reached Rockwell field North Island at 10:33 a. m. They had flown from Tucson, Arizona, in two hours 45 minutes. As the big Douglas planes dipped to earth, they were greeted by the blaring strains of "California, here I come," and the din which echoed from countless whistles and sirens.

CONTINUANCE ON INSANITY PLEA IS OVERRULED

FIVE JURORS SELECTED FROM APPROXIMATELY HALF OF VENIRE

The case of the State of Texas versus Will (Peg-Leg) Word, who is charged with murder in connection with the fatal shooting of Dr. S. H. Windham, prominent doctor-ranchman of Lynn and Terry counties, got under way here Monday morning before District Judge Mullican, when the court delved into the selection of a jury from a special venire of 100 men. Preceding the selection of the jury the defense attorneys filed a motion to sever the insanity plea from the murder charge, and to try the insanity case first.

The court immediately overruled this motion, and both sides announced themselves ready for trial. Five jurors were selected from a list of approximately half the venire called. Work of completion of the jury will continue this morning, and it is believed that the 12 jurors will be secured by noon.

Most of the morning session was spent in hearing this motion and other details concerning the beginning of the trial that came up, and it was not until afternoon that the defense attorneys filed a motion for a new hearing, declaring that Dr. S. G. Eastham, principal defense witness, and whose home is in San Patricio county, has not appeared.

This motion trial was overruled, and after both sides in the case announced ready for trial work of selecting a jury from the special venire of one hundred men who had been summoned was begun.

The late Dr. S. H. Windham, who Word has confessed shooting to death, was well and favorably known throughout Terry and adjoining counties and his friends are showing more than usual interest in the trial of the alleged murderer.

District Attorney Gordon B. McGuire is assisted in the prosecution by County Attorney Neill of Terry County and George E. Lockhart of Tahoka.

W. P. Word, father of the defendant, is here from his home in Hamilton county. He is uneasy about his son but does not believe he will be convicted for murder but that he will be compelled to remain in the asylum for the insane, according to statements made here. "I do not want my boy to be out where he might commit another such regrettable tragedy but I do not want him to have to pay the supreme penalty," he said.

Twenty-seven defense and twenty-five state witnesses will be used in the trial of the case.

More than two hundred Terry county citizens were here Monday morning to attend the trial of Will (Peg Leg) Word, charged with murder in connection with the killing of Dr. S. H. Windham near his Terry county ranch, home late in the afternoon of April 22nd, this year.

Windham's body was found near his automobile late that night by employees on his ranch who were attracted to the car by its lights, and who found upon approaching that the motor was running. Windham was found dead, five 22 caliber bullets having pierced his body.

A large posse of citizens and officers was formed and a search was begun for his slayer. Early in the morning two days after Windham had been killed, one of the cowboys on his ranch was shot through the shoulder when he went to the barn yard to feed the livestock. The shooting attracted the attention of the posse to the place, but not until after another of the cowboys on the ranch was shot through the

## THE MEETING OF THE LIBRARY BOARD.

The Library Board met at the public library Wednesday, September 17, with most of the Board present. Mrs. Joe Hilton who took the presidency of the Junior Twentieth Century Club when Mrs. Earl Hunt resigned took her place as a member of the board.

The question of making application for a county supported library was discussed and the Librarian read the requirements that must be met before application could be made. An index system and book binding department must be added and the board voted to ask the library committees of the women clubs to raise twenty-five dollars each in order to meet the requirements.

The library is already catalogued by the Dewey Decimal system, one of the requirements of the County library.

The library will soon be moved into the room built for it in the new City Hall and will have more room, more shelves, and be able to have a better system when the new quarters are occupied.

Two hundred and forty memberships have recently expired and the new book committee, composed of Mrs. Prudeaux, Mrs. W. D. Green, Mrs. S. P. Robbins and Miss Mary Meador will ask for renewals so that the money raised in this way may be spent for books. The policy of spending all membership money for new books is a good one and keeps literature and up-to-date reference books in the library at all times. Thirty-one new books have recently been ordered.

The librarian read the report of her recent trip to Santa Fe to the board. The next meeting of the board will be held the third Tuesday in October.

## BUSINESS WOMEN'S CLUB TO GIVE PARTY

The Business Women's Club will present a home talent musical comedy on November 3rd, entitled "Mr. and Mrs. Polly Tick." This has been successfully presented in many Texas towns. It will be under the direction of a representative of Wayne P. Sewall.

The money received from the venture will be used in supporting the High School Orchestra which the Business Women's Club is to take care of this winter.

## MARRIAGE LICENSES ISSUED THIS WEEK

Mr. Roy Tullis and Miss Nell Keykendall.  
Mr. Albert Hoffman and Miss Virginia Crouch.  
Mr. Roy B. Andrews and Miss Theresa Diffenderfer.  
Mr. John M. Anderson and Miss Elizabeth Addington.  
Mr. Thomas J. Prather and Miss Mary Thompson.

## PERSONALS

Judge George W. Neill, of Brownfield, is here this week attending the trial of Will Word charged with the killing of Dr. S. H. Windham, near Brownfield, April 22.

Mr. and Mrs. J. L. Hilton, of Elkin, Kentucky, and Mrs. J. E. Connor, are in Lubbock visiting the Connor and Hilton families.

Mr. and Mrs. Henry French and Mrs. Lowe of Brownfield, are in Lubbock this week attending the World trial which was transferred to this court from Terry county.

Mr. and Mrs. W. A. Kennedy and Mrs. J. D. Bos of Pittsburg, Texas, were visiting in Lubbock last week.

Mr. Minter of Canon, Texas, was in Lubbock Saturday looking after business interests here.

W. B. Downing, of Brownfield, is here this week attending District court as a witness in the Word case.

Miss Mary McCormick of the Chicago Grand Opera, who recently appeared in a program at Amarillo.

What is the Great Secret of

# KARNAK

—its power to make you feel well again?

What is the great secret of Karnak? What is it that gives this famous remedy of the noted M. Pierre Andre, the power to make so many suffering people well and happy again—to bring back the joy of splendid health to those who have been struggling hopelessly to provide for the family when they neither feel nor look equal to the task?

This wonderful secret is really contained in one rare herb, which, as M. Andre says, makes Karnak the greatest medicine the world has ever known and enables it to bring relief never before accomplished.

For years scientists knew and recognized eight of the valuable ingredients contained in Karnak for their remarkable soothing and healing effect on the diseased stomach, liver and kidneys, but it remained for M. Andre to blend these medicinal properties with an additional

apent Sunday night and a part of Monday in Lubbock in company with her brother.

W. B. Downing, formerly of Lubbock, was here yesterday and will be here for a few days, he is here attending the district court during the trial of Will Word.

Mr. and Mrs. T. P. Collins and baby, accompanied by Miss Collins all of Floydada were here yesterday. They visited their relatives Mr. and Mrs. H. O. Waters.

Dr. and Mrs. Rex Critter, who have been visiting their relatives will return to their home in California.

## BUMPS AND BLOTCHES CAUSE FOLKS TO BE BACKWARD

Help them wherever you see that they are standing back, afraid to assert themselves simply because they feel sensitive about their pimply, red and rough face.

Thousands of people all over the country are praising Black and White Ointment and Black and White Soap, because they get rid of their skin troubles when everything else they tried did them no good.

Tell your friends, who are struggling under this handicap in life, to get Black and White Ointment, and Soap, from any dealer. They will be delighted with the quick results they will get from it. They are economically priced, in generous packages. The 50c size Ointment contains three times as much as the 25c size.

## LUBBOCK PEOPLE APPRECIATE DR. MORROW

The pastor of the First Baptist church arrived home from the Holy Land Thursday, and has again put on the pastoral harness and is back at work. His flock was attended during his four months tour of the East by Rev. J. M. P. Morrow of Fort Worth. Rev. Morrow has endeavored himself to the people of this congregation, and to all with whom he came in contact with while here. He is to leave Monday for his home in Fort Worth, and the people of the Baptist congregation adopted the following resolutions at a conference held Wednesday night complimentary to him and his work.

"Whereas our people of the First Baptist church of Lubbock have been served by Rev. Morrow while our pastor was absent studying in Egypt and the Holy Land, and:

Whereas since Brother Morrow's coming to us on the first Sunday in June, he has fully identified himself in all possible activities with every proper phase of the work of this church, and has unreservedly given all his powers, physical, mental and spiritual into the battle for advancement of the growth and influence of the church in Lubbock, and the strengthening and glorification of God's Kingdom in our midst, and:

Whereas, he is soon to take his departure from us to go to other friends and to other fields of usefulness and service to God and to man, be it Resolved that we witness the going of our beloved brother with our hearts filled with love for him and his noble wife, and with a deep and abiding sense of his value as a man, a citizen, and as one of God's great preachers, and:

Resolved, further, that our warmest and most sincere appreciation goes to him for his faithful ser-

vices to our church, his loyalty to its best interest, and his friendship sent pastor, and we thank him for our absent pastor, and we thank him for his wise advice, his suggestions, his prayerful and sympathetic treatment of our problems, and for his splendid sermons, and our hearts and prayers shall follow him and Sister Morrow into whatever work, and whatever company they may go, and we thank God for such a man, for his work, his influence, his sanctified common sense, his service and his prayers.

## MANY LOCAL FIRMS REPRESENTED ON TRADE TRIP

Carrying a message of a bigger and better Panhandle South Plains Fair and a friendlier Lubbock the following firms made the second trip to Ropes, Meadow, Brownfield, Lamesa, O'Donnell, Tahoka and Wilsonton.

- The A. B. Conley, Sr.—Elmer Conley.
- Anderson Jewelry Store—J. C. Anderson.
- Avalanche Pub. Co.—Jas. R. Dow.
- Bean and Klett—Judge E. L. Klett.
- Ballew and Burrus—C. A. Burrus.
- Carrington Tire Shop—Carrington.
- City of Lubbock—J. O. Jones.
- Cone Seed and Grain Co.—S. E. Cone.
- Cox and Rogers—Earl Moore.
- Davidson Feed Store—H. A. Davidson.
- Miller Gin Co.—W. T. Rayborn.
- Gulf Refining Co.—J. T. Trigg.
- Goldman, Jas. H. Lawyer.
- Garretts Dry Goods Co.—W. J. Garre.
- Guarantee Abstract Co.—Amos H. Howard.
- Hollingshead Co.—C. D. Warren.
- Lubbock Grain and Coal Co.—B. C. Dickinson.
- Lubbock Battery and Electric Co.—J. E. Connor.
- Lubbock Insurance Co.—S. P. Robbins.
- Lubbock Drug Co.—G. G. Johnson.
- Lubbock Tailoring and Lynch.

Hat Works—"Shorty" Lynch.  
Lubbock Tire Co.—W. H. Logan.  
Lubbock State Bank—Jno. Demm.  
Lubbock Variety Co.—W. B. Hilton.  
Montgomery Transfer—A. D. Montgomery.  
Moore Brothers—Ralph Moore.  
Morning Side Realty Co.—W. E. Bush.  
Martin and Wolcott—W. A. Hood.  
Myrick Hardware Co.—W. A. Myrick, Jr.  
Nielsen Hardware Co.—Oscar Nielsen.  
New Method Tailors—T. H. St. Clair.

## LUMBER FIRM DOES BIG WHOLESALE BUSINESS HERE

The Higginbotham-Bartlett Lumber Company, which became identified with this section of the plains in November, 1922 when that company bought the local interest of the A. G. McAdams Lumber Company, it took up the program of the oldest established lumber business in Lubbock and has carried on successfully.

Perhaps one of the most interesting features of the transaction which was made between the big lumber companies was that in selling the office fixtures of the A. G. McAdams Company, W. B. Atkins, who had been with the McAdams Company here since 1910, became involved in the deal and retained his place at the head of the business but a survey of the books failed to show whether he was transferred as "stock" or "office" fixtures.

Regardless however of how the transaction was made, the friends of the lumberman were glad the deal did not make it necessary for him to leave Lubbock, as he is a most valuable citizen.

Mr. Atkins is a member of the Lubbock Independent School Board, is president of the Chamber of Commerce and is an active member of the Kiwanis Club. He is a real booster and while he is strict in looking after the business of the company, he finds ample time to do much work for the betterment of Lubbock.

In 1912 the Lubbock Sash & Door Company was established by the McAdams Company and when the retail lumber business was sold to the Higginbotham-Bartlett Company this feature of the business was included in the deal, and is now one of the biggest wholesale institutions of the city.

Mr. Atkins is ably assisted in the business by Miss Alene and L. G. West, bookkeepers.

Steve Hopson, yard and stock man; Otton Pool, assistant yard man; and W. B. Dresser, yard man are efficient in looking after the interests of the lumber business.

The Lubbock Sash & Door Company gives employment to a number of skilled workmen as follows: Chas. Albright, shop foreman; A. P. Mahons, clerk; Lewis Christian,

RAPIDLY INCREASING BUSINESS INDICATES GROWING POPULARITY OF MINTER-GAMEL STORE; BUSINESS POLICY IS WELL DEFINED

The Minter-Gamel store, located at 1107 Broadway, one of the comparatively new institutions of Lubbock, is reaching into every field of the Lubbock Trade Territory, and with the well defined business policies of the company known to and appreciated by a large number of the people of this section, the store is growing in popularity all the time.

Minter-Gamel Company, which is owned by W. A. Minter, Jr., and Geo. L. Minter of Abilene, and J. W. Gamel of Lubbock, is under the management of Mr. Gamel, an able business man, who is giving much of his time and attention to the development of Lubbock and the trade territory. He is a member of the local Chamber of Commerce and the Kiwanis club, in which organizations he has been active in committee work, where he has proven a valuable and willing helper.

For twenty-one years Mr. Gamel has been in the west in business similar to that in which he is engaged here, having been just prior to coming to Lubbock, associated with a big institution of this kind in Roswell, New Mexico, as a buyer and merchandise man. Though he has not been a resident of Lubbock many months, he is popular among the business men among whom he has many friends.

Messrs. Minter are well known throughout this section of the state due to their well earned reputation in their popular business in Abilene, where they have been engaged in the general merchandise business for the past twenty-five years, doing a general dry goods business today of one half million dollars per year. While this business is under separate incorporation, the stores at Abilene and Lubbock are closely allied in buying, and through their exceedingly large purchases of the various lines of high class merchandise, affect very notable savings, the advantages of which are given to their patrons through the policy applied in both stores of rapid turnover of stock through materially reduced prices.

W. A. Minter is president of the firm, with Geo. L. Minter, vice president and J. W. Gamel, secretary-treasurer. Mr. Minter pointed out that the business was organized in Lubbock because of the many advantages and opportunities for success. The store is doing strictly a cash business, selling at a close margin of profit, which policy they expect to enable them to obtain a volume of business justifying such policy.

Since establishing the business here, the volume has been very satisfactory and such increases are being made from month to month as to show that the people of this territory appreciate the service offered and their purchases are causing the business to be making such strides as to be highly encouraging to the management.

The selling force of the Minter-Gamel store is composed of thoroughly capable people who are selected because of their capability and friendliness in serving the public, and their strict adherence to the policies of the store and alertness in waiting upon the trade has had its influence upon leading to the popularity of the store.

The Minter-Gamel Company is making an enviable record in carrying only standard lines of merchandise, which the management believes to be the only way in which a substantial business may be built. J. K. Kimble has charge of the shoe department and assists in other departments. W. J. Culp has charge of the furnishing goods department. Miss Ruth Roach is in charge of the ready-to-wear and millinery departments, assisted by Mesdames Reynolds and Minor. Mrs. C. B. Collier is in charge of piece goods and kindred lines and Miss Selva Anderson has charge of the hosiery, notions and kindred lines. These two departments are supported by four other efficient saleswomen.

Miss Lora Anderson is in charge of the office work and is efficient in handling this important feature of the company's business. The K. Carter building, which was built especially for the accommodation of the dry goods business, and which was erected by the late K. Carter and was first occupied by his store, is one of the neatest appearing structures in the city and the spacious display windows at the front which are neatly and artistically decorated at all times, add much to the attractiveness of the store.

Who is the Cyclone of Lubbock? Hear him on the court house lawn, Thursday night, Sept. 25th, 281-4t.

CROWDED CONDITIONS OF CHURCH CALLS FOR TWO SERVICES.

KANSAS CITY, Mo., Sept. 22.—Because of crowded conditions, the Linwood outeard Christian Church has been compelled to hold Sunday evening services. The double service was first held last Sunday night. Dr. Barris A. Jenkins, pastor, delivered the same sermon at the 8 o'clock service as at the 6:30 p. m. service. The church auditorium seats 1800 persons and was filled to capacity both times.

50TH ANNIVERSARY OF ADVENTISTS IS OBSERVED

The fiftieth anniversary of the Seventh Day Adventist Foreign Missionary Movement was celebrated at the church Saturday on the corner of Ave. H. and 15th street. Pastor J. E. Brown, himself an ex-missionary, gave an interesting address on the progress of the movement. His text, Mark 1:11, reads as follows: "For from the spirit of the sun even into the going down of the same my name shall be great among the Gentiles; and in every place where I shall be offered unto my name and a pure offering; for my name shall be great among the heathen, saith the Lord." He recalled the day when Mrs. Rachel D. Preston, of Washington, N. H., a Seventh Day Baptist came in contact with a company of about forty people who believed in the advent of Christ. She became much interested and in turn taught them to believe in the seventh day as the Sabbath. Thus was formed the first Seventh Day Adventist church in 1844. It has since been learned that there were at this same time some believers in Germany. From 1844 to 1874 a period of

thirty years the church grew to seven thousand," he said. "It was at this time that young James Erzenberger, of Switzerland, came to America, to seek the Adventist he had heard of and to ask for a missionary. In answer to this call, Elder J. E. Andrews was sent to Switzerland. From that time on the church has doubled its membership every ten years until in 1914 the church had 125,842 members; in 1924 there are 200,000 members.

"This fiftieth anniversary of the sailing of J. N. Andrews" he continued, "we are here to celebrate today." Think of it, fifty years ago we were only seven thousand strong, today two hundred and twenty thousand. Fifty years ago we had only one school with three or four teachers; today we have twenty three schools doing college work, seventy six academies, one thousand two hundred and fifty nine elementary schools with fifty thousand students and three thousand teachers.

"Fifty years ago we preached in about three languages now two hundred and twenty. Fifty years ago we printed our literature in three languages; now in one hundred and fourteen. We sold then some seven thousand dollars per year, of our literature; today four million five hundred thousand dollars yearly. There we had only a few books, journals and pamphlets, today 154 periodicals, 877 bound books, 556 pamphlets, 2,317 tracts, a total of 3,904 separate publications, containing 310,128 pages.

"About fifty years ago our first health institute was started, today we operate over one hundred and more than one hundred more are operated by private individuals who co-operate with the denomination. These institutions employ some 2500 workers, including 200 physicians. They care for 200,000 patients annually. All of these health institutions treat the sick with natural methods, such as hydrotherapy, massage, electricity, etc.

"At the present time the denomination employs 14,000 workers of different kinds, making one for every 14 members of the church. Our missionaries have belted the globe in every direction. They are in the northern most parts of the inhabited world, also in the most southern. In Africa the missionaries that started in from the North, and those from the East Africa now great those from the west. We are established in every country in Europe, and every country in Asia except India-China and Tibet

two mountainous countries to the north of India. Every country in South America has been entered except two Guianas and missionaries are ready to enter them in the near future, also Tibet has had a missionary on its border ready to enter as soon as religious liberty is given. Much literature has been sent into Tibet; but, as yet we have no convert. Australia and the islands of the sea have not been forgotten. Our missionaries have penetrated everywhere.

To sustain this great forward movement the Adventist have given in the past ten years up to and including 1921 \$59,973,115.71, an average of \$42.95 given by each individual per year. Pastor Brown closed his discourse by a brief review of the work done in the city of Lubbock the past year, and outlining his plans for aggressive work for the future, and a strong appeal for every member to get the missionary spirit and pick up the banner where the honored dead have laid it down and carry it on to triumph. Sabbath school every Saturday at 10 o'clock, preaching at 11:00 Sunday nights, preaching and prayer meeting Wednesday night.

FUNERAL SERVICES I. H. W. TERRY SUNDAY P. M.

Funeral services for I. H. W. Terry, pioneer Lubbock man who died at the family home at nine o'clock Friday night, were conducted at the First Methodist church Sunday afternoon, by Rev. D. C. Ross, who for many years was a close intimate friend of the deceased. The many friends of the family attended the services, which were very impressive. A fiery cross, symbolic of the invisible empire of the Ku Klux Klan was exhibited, perhaps bearing mute testimony with that organization, which according to his close friends, he believed was designed for the betterment of the country. Interment was made in the Lubbock cemetery where friends in the Masonic lodge conducted the services.

## FARMERS PAYING HIGHER PRICES FOR NECESSARIES.

Farmers were paying higher prices for the necessities they bought on January 15, 1924, than on the same date of the previous year, according to a report of the Department of Agriculture recently issued. At the same time they were receiving less for many of their products last January than in the same month of 1923.

In the latest Year Book of the Department of Agriculture (page 1152) appears a table showing "prices of articles bought by farmers, 1923 and January 15, 1924." There are 69 articles in this list. All but fourteen of them cost the farmer more last January than on January 15, 1923. The increases in 1924 over the prices in 1923 ranged from a fraction of 1 per cent to 15 per cent.

Four of the fourteen articles which were cheaper in January this year than last were agriculture products, bacon, beans, flour, and linseed meal, which the farmer himself supplied.

Agriculture machinery and implements showed considerable advances in 1924 when cereal grains were selling for less money than for a long time previously. Harrows that cost \$53.36 on January 15, 1923 were priced at \$57.74 on January 15, 1924; horse-drawn riding plows that sold for \$85.10 in 1923 were \$95 in 1924; grain binders were \$201.61 in 1923 and \$222.81 in 1924. Wagons increased from \$123.26 in 1923 to \$135.68 in 1924; two-horse sulky hay rakes, from \$40.67 to \$44.91; 5-foot mowers, from \$74.39 to \$81.22; centrifugal hand cream separator of 250 gallon capacity, from \$79.10 to \$85.31.

The same relative increases are to be found throughout the list. Barbed wire went from \$4.87 to \$5.19 a 100 pounds; dairy milk can (10 gallons) from \$4.85 to \$5; binder twine, from 13 2-10 cents a pound; leather horse collars, from \$5.06 to \$5.40 each; rubber boots, knee length from \$4.28 to \$4.32; wire nails, from 5 8-10 cents to 6 2-10 cents.

## EVERLASTING AND FOREVER

The wonders of the wireless continue to increase. Marconi has recently carried on a conversation of nearly six thousand miles with South America, again demonstrating the imperishability of sound and visible images.

It is a physical law, indisputably proven and capable of easy and perfect demonstration, that no sound or motion is ever lost. A friend speaks; we hear the words vanish into air; but the sound is only gone beyond our hearing-somewhere in the universe, far and forever beyond our ken, those words are flying through space, and will continue to move on and on down the corridors of the ages as long as time is. It is the same with all motion—our every action is recorded imperishably somewhere in the outer void—everlastingly hurrying toward infinity. As fast as light travels, scientists tell us that the light from the brightest star in the heavens has been a year and a half reaching our eye, and if the star were to disappear tonight, its light would continue to stream through space for a year and a half before we would be conscious of its extinction. If an observer of a strange race, on another planet than ours whirling somewhere out in illimitable space, an unconceivable distance from our world, was to look at this earth through a telescope of miraculous power, he would behold not us and our present day doings, but the personages and activities of centuries ago. If the strange observer in the far distant sphere, was also equipped with a microphone of corresponding power to his telescope, he could hear the speech of the actors he saw on the world stage. All the words that have been uttered since the world began exist somewhere, and their ghosts haunt the universe forever. The Biblical assertion that a man's words and deeds live after him, is amply verified by science. There's a hidden truth in the ancient myth of the Recording Angel.

## MILLIONS CUT IN DEBT AND INTEREST

Figures made available by the United States Treasury Department show that the Government is deducting its debt-carrying charges by considerable more than \$100,000,000 a year and the nation's total debt has been whittled down by the hundreds of millions of dollars since the end of the war. Reduction in outstanding third 4 1-4 per cent Liberty bonds alone has exceeded \$1,000,000,000. In 1923 the interest on the nation's public debt was \$1,055,923,690 and for the fiscal year ended last June 30 the interest on the public debt was \$840,602,913, a reduction of \$115,320,777. This is largely accomplished by paying off outstanding notes and issuing short term treasury notes at a lower rate of interest, in some cases being one-half less.

An operation equally important is going on in outstanding Liberty bonds. The third 4 1-4 me-

ture in 1928; they are non-callable, and consequently can be taken up only two ways: through purchase in the open market by a sinking fund specifically provided for debt service and through purchase by the British Government. There were issued originally \$4,175,650,050 of the third 4 1-4 per cent bonds. Nearly \$100,000,000 have been retired and the department expects to have them half paid when they mature in 1928. It is hoped, too, that payment of foreign loans will materially reduce the outstanding bonds and cut the interest charges that American taxpayers are really paying on what other nations owe us.

## IS IT THE OTHER FELLOW, OR YOU?

There are many men and women, in business and out of it, who absolutely refuse to admit, even to themselves, that they are to blame for things that don't happen to turn out right. They are never wrong! It is always the fault of somebody else, or of fate or fortune or chance or circumstance or any other old thing that can serve as an excuse. Once in a while such a person has counteracting qualities which enable him or her to win. But as a class, self-excusers are self-defeatists. They fight their own shadows and cleave empty air. Many a local merchant insists that his town is "different." The successful advertising methods of another town will not apply here because this is "different." They never recall the fact that a circus advertises with the same posters and in the same manner in every quarter of the nation. They find no differences in communities or people. If a business venture does not prove profitable one way, it will another, and some other fellow will do it—and has done it. Too many of us persist in attempting to educate people to his idea of what they should read, eat, drink, wear, or believe. The self-excuser is also very much in love with himself. When he does one little thing he thinks everybody should applaud the performance but this is a busy world, and humanity does nothing of the kind, and the landscape is dotted over with tombstones erected "in memory of." There are all sorts of courage in the world, but the best and bravest courage of which we know, is for a man or a woman to sit down calmly, take an inventory of faults, weaknesses and other detrimental qualities, then start in to eliminate them just as one would pull weeds out of the garden. Excuses are useless. Analyze but don't explain or apologize. Just get the thing done.

## FAITH

Faith is one of the mightiest forces in life. All theories are eventually proved false—from Columbus knocking out the scientific theory that the earth was flat, to Einstein proving that parallel lines do meet if indefinitely prolonged. The history of science is a history of exploded convictions—shattered faiths.

The controversy between religion and science, about the theory of evolution, simmers down to the problem of how much one is willing to accept "on faith."

The scientists claim that religion is based on faith rather than proven fact, but overlook the fact that about 95 per cent of their knowledge is also based on faith.

Yet we're all like the scientist, and about 95 per cent of what we "know" is accepted on faith alone. This also applies to our politics, to our religious creeds and to our home life. We are what we are because—well, because our fathers or forefathers were—and someone told them.

Because of faith we unite in marriage. The business of the world is transacted on faith. It may not be "good" business or "sound" business, but it has been a matter of education and custom.

Faith in our government makes it what it is. When that faith is shaken or destroyed laws will not avail.

Faith is one of the mightiest forces in life.

## EUROPE BUILDING RAILROADS

While government ownership or management of railroads in the United States is strenuously decried. Wall Street financiers find a great part of its present outlet for loans among the government-owned railroads of Europe. There are six key railroad systems in France, four of which, are internationally known and ranked among the large systems of the world. One of these obtained money last week. Jugo-Slavia also received a substantial loan for railroad improvements. Other countries in which development of railroad systems is expected are Italy, Spain, Czechoslovakia, Poland, Austria, and sooner or later, Russia. Germany is not expected to come into the market for this account as her railroad systems are reported to be in good shape. Throughout the entire period of mark collapse the nation kept improving its transportation facilities. Europe is on the threshold of a railroad building era that has not been seen there before. In support of the program are the governments of the various nations concerned, and in this regard the European railroad is regarded as in striking contrast with that just ahead of the United States where very little new work has been done during the past ten years.

The dries don't care whether the wets are convinced of the value of prohibition or not. Their effort is no longer to convince them but to convict them.

Jealous Maiden (to rival with skinny beau): "Well, Mayme, I see you're planning to have a new fellow." "Whatcha mean, planning to?" "Well, I see you've got the framework."

"The rich can take care of themselves," says Coolidge. That's not all they can take. A G. O. P. Tariff, they have found is a big help to taking.

As we understand the German position, the Germans are perfectly willing to adopt the Dawes plan if the Dawes plan will adopt the Germans.

It seems the Germans will eventually succeed in borrowing from the world what they started out to take from it.

# At The Churches

## FIRST METHODIST CHURCH

Six hundred attended the Sunday School service, and with a number of new pupils enrolled. Indications point to a revival of interest in Sunday School work and officers of the school are expecting a continually increased attendance for several weeks until the peak has been reached at the beginning of the winter months.

An offering of \$62.76 was made at this service, which will aid materially in advancing the work of the school.

In the afternoon a meeting of the Sunday School officers and members was held at which time arrangements were made and a campaign was outlined to extend a general invitation for all people of this city now already in Sunday School to attend services next Sunday, with a goal of not less than one thousand in attendance at all meetings through the day, established.

The program is now being practiced for a great Sunday School day, during which time all services of the church will be given over to Sunday School programs.

The regular Sunday School service will be rendered at the regular hour, and the eleven o'clock regular preaching hour will be given over to a program to be rendered by teachers and members of the Cradle Roll, Beginners, Primary and Junior departments.

The evening service hour will be given over to a program, of a musical nature, to be rendered by those in the Intermediate, Senior and Adult departments. Choruses, solos, duets, quartets and organ selections will be featured with special numbers rendered throughout the program by Hamilton's Orchestra.

Every Methodist in the city is urged to attend one or all of these services.

## CHURCH OF CHRIST

A day full of helpful services characterized the first Lord's Day following the meeting.

In spite of the fact that many were absent in attendance at the Plainview, Shallowater, Carlisle and Wolfarth meetings the audience was large who heard Bro. Carney at the morning hour of worship.

Five placed memberships with the church who had just moved to our city and were warmly welcomed. A baptismal service followed the service at the community auditorium which was solemnized at the church. For a few weeks the church cannot be used for a place of meeting on account of the work on the building.

The meeting resulted in twenty odd members added and the church much strengthened. Bro. Dunn endorsed himself to all by his courageous teaching of the Bible, which led

## POLITICAL ANNOUNCEMENTS

Subject to General Election in November.

For State Senator:  
W. H. BLEDSOE, Lubbock.

For Representative:  
J. K. WESTER, Lubbock.

W. E. (Walter) GRICE

For Public Weigher, Precinct 5:  
C. E. MERRILL, (Shallowater)

For Constable, Precinct 1:  
J. L. McCULLOCH.

the sinner to Christ and stirred all to a deeper sense of duty to God and man.

May we accomplish greater things for God. "Safety first in Religion" was the subject for the morning sermon. "Wherefore the other brethren give diligence to make your calling and election sure. Now if ye do these things ye shall never fall"—2 Pet. 1: 10, was the scripture read. Many references were given exhorting Christ's followers to be safe in following the guide in religion also surging in consecration, faithfulness, Godly living, etc.

Certain false doctrines believed may result in luke-warm souls the zealous, faithful soul will receive the crown of life.

God gives the way for escape but man must do the escaping and, if we would be perfect we must conform our lives to the things that make us perfect. The New Testament is the Christian's guide, the old was only a shadow of the good things to come. Let us therefore read, we'll learn to really imitate Christ, then we'll learn to give and live for Him who died for us.

## FIRST BAPTIST

Rev. and Mrs. J. M. P. Morrow have been in Lubbock the past three months during which time he was acting pastor of the First Baptist church, left Monday morning early for their home at Fort Worth.

Rev. Morrow is a great preacher and has done much good in Lubbock and has made a host of friends here, including both members of his congregation and others.

Rev. Bowen was at his place in the pulpit at both hours Sunday and many of his friends attended the services, glad for the opportunity to welcome him home.

All services were well attended at this church Sunday.

## WHEELER TELLS OF ALLEGED INTRIGUE IN MEANS CASE

(Continued from page 11.)

victed in New York in a charge of bribery and conspiracy. Wheeler said, "After this conviction in New York, he came to me and stated that he was broke; that he did not have money enough to get out the record on his appeal to a higher court; that his associate was still in jail, and that he had been approached by Blaid Coan, the detective for the republican national committee and that Coan wanted him to repudiate his testimony."

"I told him that I appreciated his position and that he should do what his conscience told him to do. Later he came back and

FAILURE

"Were you a failure today?"  
I heard a voice ask,  
And I hurried to say:  
"I completed my task!"

"Not enough, not enough!"  
Said the voice speaking low,  
"You were overly rough  
With a boy that I know."

"Your work you performed  
In a suitable way,  
But you raved and you stormed  
At a youngster today."

"You were cruelly curt,  
And a girl hung her head,  
And she went away hurt  
By the things that you said."

"Did it enter your mind  
When they blundered and fell

That you could have been kind  
And succeeded as well?  
"The day brought its gain  
And the task is complete,  
But must you give pain  
To make victory sweet?"

"And what do the boy  
And the girl now declare?  
Do they praise you with joy,  
Or pronounce you unfair?"

"You got, as you say,  
What you set out to get,  
But what of today?  
Is it free from regret?"

"You call it 'success,'  
But now what of those two?  
Do they think more or less  
Of a fellow like you?"

(Copyrighted 1924, by Edgar A. Guest)

told me Daugherty had agreed to help him out."

A portion of Wheeler's speech was a continuation of his attacks on Daugherty.

His issue of honesty at Washington is likely to fall on more interested ears now that the department of justice scandals have become the center of a new discussion due to the various statements of Gaston B. Means regarding his testimony. Whereas his first statement repudiated his sensational testimony regarding payment of money and general corruption among Daugherty's intimates, Means now says that he is willing to go before the committee

and not only defend his previous testimony but produce new charges which he asserts will be even more sensational than those he made last winter.

## BLOODHOUNDS AID SEARCH FOR SLAYERS OF DEPUTY

WARSAW, Mo., Sept. 22.—Bloodhounds from Kansas City, Kansas, were sent for Monday, to assist in the search being made for the slayers of Garrett Groomer, sheriff of Benton county.

Sheriff Groomer was shot down by bandits whom he surprised as they were looting a hardware store here late Sunday night.

## "YOU CAN'T GET AHEAD OF AUNTIE DEMOCRACY"

By MORRIS.

The Democratic National Committee began yesterday energetic steps to capture the pipe vote which had threatened to flock to General Dawes. In the face of the inverted and complicated pipe smoked by the Republican vice Presidential candidate, the Democrats are flaunting the old corncob. Distribution of the corncobs has started. They bear the pictures of Mr. Davis and Gov. Bryan, with word "Victory" in red, stretching for the "V" in Davis to the "Y" in Bryan. The corncob was officially adopted by Gov. Bryan Sept. 3. Several hundred thousand will be distributed."—News Item.

DODGERS WIN AS PIRATES AND GIANTS LAY IDLE; SENATORS AND YANKS BOTH WIN WITH SENATORS IN TWO-GAME LEAD

While rain was splashing over the polo grounds and preventing a work out of the Giants' and Pirates' pennant aspirations...

The score was 2 to 1 and the wildly heralded tenseness in the national league situation became tense.

Eight games still to play and a standing of .593 tell the Pittsburgh story after a day of loafing with the Giants.

Washington, New York and Detroit all won in the American league and they retain their order on the league roster of honor.

The senators took their game away from Chicago 5 to 3, chiefly by the courtesy of the Sox pitchers, Covengros and Lyons who permitted 14 safe hits to bounce off the visitors bats.

In Detroit, Boston submitted a 3 to 1 licking that began in the first inning and was all over at the end of the 5th.

In Philadelphia, and St. Louis put in a strenuous afternoon in which 5 pitchers yielded a total of 26 hits.

TEXAS COACH WORKS WITH NEW MATERIAL

AUSTIN, Texas, Sept. 22.—With the opening of the 1924 football season of the Southwest only a week off, Coach Doc Stewart is working hard to try to develop an eleven from a big squad of green rookies who will cope with the veteran teams of Baylor, A. & M., S. M. U., and T. C. U.

Baseball Summary

Table with columns: AMERICAN LEAGUE, P, W, L, Pct. Rows include Washington, New York, Detroit, St. Louis, Philadelphia, Cleveland, Chicago, Boston.

Sunday's Results: Washington 6; St. Louis 4. Detroit 4; New York 3. Boston 2-11; Cleveland 0-5. Philadelphia 4-5; Chicago 1-12.

Tuesday's Games: Washington at Chicago. Philadelphia at St. Louis. Boston at Detroit. New York at Cleveland.

Table with columns: NATIONAL LEAGUE, P, W, L, Pct. Rows include New York, Brooklyn, Pittsburgh, Chicago, Cincinnati, St. Louis, Philadelphia, Boston.

Sunday's Results: Brooklyn 2; Pittsburgh 1. Chicago 3; New York 0. Only games scheduled.

SHALLOWATER BEATS LITTLEFIELD IN CLOSING ODE

(Special to The Morning Avalanche.) SHALLOWATER, Sept. 22.—Jumping on the offerings of Bissel in the fifth inning here Sunday afternoon for four bingles, coupled with two errors and a hit batsman for 4 runs to overcome a lead taken by Littlefield in the preceding inning...

Twelve hits against the visiting moundman, including a grand slam by Blackmon, and a triple by Wayne Gaither, put a discouraging face on the matter, while Patrick, local ace, was letting his opponents down with seven bingles.

Box score table for Shallowater vs Littlefield with columns: ab, r, h, o, a, e.

Score by innings table with columns: Inning, Shallowater, Littlefield.

Summary: Home run Blackmon; three base hits W. Gaither, two base hits, Taylor, Britton, Gray; bases on balls, off Patrick 5; hit by pitcher, Bissel (W. Gaither) (Bunter) struck out by Patrick 5; Bissel 6; stolen bases Jackson, W. Gaither, H. Gaither.

NATIONAL AMATEUR GOLF PLAY TO OPEN TODAY

BY WESTBROOK PEGLER. MERRION CRICKET CLUB, PHILADELPHIA, Pa., Sept. 22.—There will be blasting in the stone quarries and stamping in the jungle on and about this golf course Tuesday morning, when 32 of the first amateur golfers in the United States and some from Great Britain go out in pairs to play for the national amateur championship.

The qualifying play ended in the rain Monday evening when Rudy Knepper, who was captain of the Princeton golf team in his rah-rah days, dribbled a 15 foot put into the cup for a three on the play off hole thereby qualifying for the real championship tournament and eliminating four others who had tied with him at 158.

Tolley was a few inches short of the pin for his fourth shot on the playoff hole, and seemed certain as any one ever has a right to be in this game if fifty fortunes, of dropping his fourth, winning the playoff and qualifying for the championship. In fact, he was giving his

stick a few preparatory waggles white onion, threatened it a couple when Knepper crouched over his of times and then cued it gently into the well.

The playoff contested in a soupy atmosphere as the melancholy day burst. Its restraint and wept, was necessitated by some bad mathematics turned by one of the earlier players, Louis M. Washburn, of the Merion Club, who stood well up among the qualifiers, but after turning in his score, he ascertained that he had erred by one stroke in his calculations.

This compelled the officials to dig deeper into the list for a thirty-second qualifier. They discovered that there was no 32nd. Five players, with scores of 158, were tied for that position so the pairings for Tuesday's matches were held up, while those who went out and played one hole head. When the draw was made for Tuesday Knepper incurred Chick Evans as his opponent in the first match.

Hope plays Bob Gardner, Tuesday; Torrance encounters Wood Platt and Hazlet will make the journey in the company of Max Marston, the defending champion.

THOUSANDS SWARM SCOREBOARDS AT WASHINGTON

WASHINGTON, Sept. 22.—Thousands of fans, including many girls and women, stood around baseball score boards for two hours in a chilly rain Sunday afternoon to get every detail of the Washington-White Sox game, so intense has the baseball fever become here.

Traffic has been shut off from downtown streets in the vicinity of newspaper boards so that larger crowds can be accommodated. Scores of innings are received at the White House offices and relayed to President Coolidge. The baseball fever which has gripped the capitol since the Washington team went into first place has become more intense as the end of the season draws nearer.

Table with columns: City, Score, Innings. Rows include Indianapolis, Milwaukee, Morton, Elller and Krueger; Wiloughby, Winn, Shinsbald and Young.

Clark Griffith, owner of the Washington club, has cleared space at his park for extra bleacher stands to accommodate world series crowds.

While the baseball situation has presented a problem for President Coolidge. Before the possibility of Washington witnessing the world's series games appeared, the president agreed to speak at the unveiling of the first division monument here October 4, at 2 p. m.

WESTERNERS PLAY INITIAL GAME WEDNESDAY

The Westerners are going to have their first game here at the Fair Park on Wednesday of this week and the coaches are very hopeful of the outcome.

Temporary bleachers have been erected for the game and they will hold the most of the crowd. The game will be called about four o'clock and if possible they wish to have a good crowd out.

Read tomorrow's paper for the lineup of the first game. Coaches Miller and Davis will both have all their teams here and it promises to be a very good game.

STANTON RHEA OPERATED ON FOR APPENDICITIS SUNDAY MORNING

Stanton Rhea, of the Lubbock Tailoring Company, was taken to a local hospital Sunday where he underwent an operation for appendicitis Monday morning.

The attack was sudden and immediate attention had to be given, but late reports from the sanitarium were that he is resting as well as could be expected and the operation was successful in every way.

Stanton has been a resident of Lubbock several years, is well known among the young people and the

# UNUSUALLY DRY YEAR IN WEST TEXAS ALTHOUGH THE CROP PRODUCTION IS ONE OF HEAVIEST IN HISTORY OF THIS SECTION

By WELTON WINN  
Agricultural Editor of Weekly  
Avalanche

For about half of our life, we lived in East Texas with only a historical knowledge of the plains, or even of West Texas. We were always well impressed with the good things we heard from time to time about the plains, but when we left East Texas we only came part of the way to the plains. We remained 22 years in Coleman county, then made the balance of the journey to these plains. One only has to be here but a short time to become thoroughly imbued with the spirit of this peculiar part of the Lord's creation.

There is one peculiar thing about these plains that we can hardly understand, that is, there seems to be some universal infatuation that causes most people to become ever-widened and want more of the land than they can reasonably pay for, or that they really need.

This idea has in many cases injured to the disadvantage of very many people; there seems to be something about the bigness of the country that makes "few comers" think that they need about all they behold. This of course, is not the safe idea; but on the other hand the fertility of this large domain makes it only necessary to own very little to be able to make a good living. Another reason this is true is that this fine body of land, the like of which cannot be found anywhere else in Texas, and of course, nowhere else in the United States; and we doubt, if a tract can be found anywhere else on the face of the earth with as large tract, all good agricultural, all in one body.

We can well remember when this plains country was considered worthless only for stockmen, their help, prairie dogs, jack rabbits and coyote wolves, but it was not made in vain, but for the habitation of man. It is indeed unfortunate that so many people of Texas have failed and still fail to see and realize the true greatness of this plains country. It is indeed so wonderful that we can hardly tell the "truth about it without lying."

Well we want briefly to tell what we think is the outlook for this section of the greatest state in all the constellation of states, Texas. As we look over this vast domain and consider how many people back in East Texas and clear back to the Atlantic ocean that are working old, almost worn out land, we think what a pity they could not and do not know of this great section of country. Still we have millions of acres not yet touched by the plow, with nothing to do but "rear-up" or "crank up" and begin to plow, no grub or trees to be in the way and with the first year very often as

good crops can be made as can at any any time later. The sad part of the story is that this land has been recklessly squandered and has gotten into too few hands. The owners of the land are not altogether to blame for this; for the state has had this land on the market for about 40 years hoping to sell it, to actual settlers. But our Texas people refused to make investigation, and were content to remain back on the red hills, and sand hills of East Texas, while others have come and made use of the state's generous offer on this great heritage.

That there has been wrongs, even fraud, practiced against the state's liberality, no one who is familiar with this country will deny. What a great pity it is that the state had not kept ownership of his land until now, and the children of the state now could receive the benefit of the present advanced prices.

This land is now being sold at prices say from \$15 to \$40 per acre and land that can now be bought for that price, will often in a reasonable or good crop produce enough to pay for the land.

The good part of all is we are now learning to handle this land, that crops here are as sure as in most any part of the state, and the reason for this is found in the fact, that all the water that falls on this land must of necessity go into the land, as there is no creeks or branches to carry it away, as we learn to conserve this rain fall by proper cultivation of the soil we remove all doubt of crop failure. Farmers are rapidly learning to do this. We are also learning that this is a great fruit and truck country, and with our general acquaintance over Texas, we can conscientiously say this is as safe a place to farm as any part of Texas. We have seen, and we have been in Texas almost three score and ten years. This country is now developing into the best cotton country to be found anywhere in the cotton belt. The seasons here seem to fit right into the nature of the cotton plant; this high altitude and pure air seems to comply exactly with the requirements of the cotton plant, and these plains can produce enough cotton to supply the entire United States, and we think we can when we get most of this land into farms, supply at least the present world's demand for cotton.

There are many food crops that grow extremely well here such as sorghum, maize, wheat, feterita, sudan, alfalfa, clover and we have always succeeded in growing profitable crops of Indian corn, but to do this certain rules must be observed. Then for wheat, barley,

oats and rye this is a great place to produce these crops. When we understand the true principles of the nature and growth of these, for we have many farmers now who do grow them, while others say it cannot be done.

Our farmers are turning their attention to dairying and this is proving to be a very profitable branch of farming, and the demand seems to come from outside sources unlimited as long as Texas buys 15 cans of Butter per month, we have nothing to fear from over production.

There is another industry just now being developed that of growing watermelons. Our East Texas brethren would be surprised to come out this way and find better and larger melons than they can grow in what they think is "Paradise" (East Texas).

All our towns and cities are building rapidly it is almost unbelievable to see the rapid building of whole kale houses in these plains towns. All this shows that we are not over drawing the farmers' outlook, for the men of big business would not think this is the coming section of Texas.

The poultry business is assuming large proportions, on these plains. There is one poultry plant near Lamesa in Dawson County that is claimed to be the largest in the state. We are not sure of this, as we have not seen it and are not up on the poultry business, but we have several wholesale poultry houses here in Lubbock both doing a large business.

Taken all in all we do not think there is a place in Texas or in any other state, that would be a more profitable place for farmers to cost their lot than in the South Plains of Texas.

There is one other thing we want to mention, and that is our splendid schools. We are sure that the plains will compare favorably with any other part of Texas and it has been said of this section of Texas that it ranks ahead of many much older parts. This we think was clearly proven by the selection of the plains for the Great Technological College. The committee that made this selection acted "wisely" and other generations will come on and call them blessed, for the wisdom and clear sightedness they manifested in making the selection they did make.

One other thing we want to mention is our Churches in every town on these plains will be found one or more splendid church buildings, there are some very fine church buildings, the equal of those in and in many of the larger towns much larger and older cities in central and East Texas.

Finally we extend a cordial invitation and welcome to all who read this paper to come to the plains. Give us the privilege and pleasure of showing you this wonderful section of Texas if you will go this we feel sure you will say as did one of old. "The half had not been told."

# VOGUE EMPORIUM IS ONE OF THE MOST POPULAR SHOPS ON THE PLAINS AND IS PATRONIZED BY EXCLUSIVE CLIENTELE

That business women have a place in the business life of this city is plainly shown through the success that has been enjoyed by Mrs. W. L. Barnes and Miss Tessa Rhea in the management of their business, The Vogue Emporium which is located in the balcony of the Leader Building.

The Vogue Emporium has had the distinction of presenting to the buying public in Lubbock the first style patent hats out of St. Louis ever exhibited here. Many of these lovely new models are still in stock, though many have been sold.

The Vogue Emporium is conducted along very progressive lines, the two members of the firm making regular semi-annual visits to the eastern markets where seasonable new merchandise is bought and shown just as early in the seasons as possible.

The present owners and managers of the Vogue Emporium bought the business in 1920 from Martin Sisters. Through handling such splendid and recognized lines as Edison, Keith, King, Brinsmade, Gaier & Stroth and other nationally advertised hats, they have succeeded in making this one of the most popular shops on the plains.

**DEMOCRATS INSIST SMITH REMAIN IN POLITICS**  
(Continued from page 1)

convention feeling that their candidate had not received a fair deal. This all served to retard

the building up of a strong Davis campaign organization. There was an additional complaint from some of the democratic national committee at Clarkburg made Frank Hague—a Smith man—third vice-chairman of the national committee crowding of Bruce Kremer a McAdoo man, who was a vice-chairman and desired re-election.

McAdoo people felt that Davis could have kept Kremer and regarded his failure to do so as an indication that he preferred to put his campaign in the hands of anti-McAdoo men. But McAdoo's plan to make a series of speeches for Davis, will have a beneficial effect on the democratic campaign.

Furthermore, McAdoo, having had the support of klan candidates will be able to correct any defections that occurred when Davis hit at the klan.

Democrats expect to profit also

by the row among New Jersey republicans which culminates at the state primary Tuesday. Senator Walter Edge, and Hamilton Kean the republican national committee men have worked themselves into a heated fight over the senatorial nomination. Drys have threatened to run an independent candidate if Edge wins. The republican organization is badly split. Frank Hague expects to turn this schism to account for Davis.  
Meanwhile, Davis has just returned to Locust Valley for a breathing spell after his first western trip. On the whole, he is well pleased with the trip, though there were some unsatisfactory episodes

like that of the klan row which he ran into in Colorado. Whether Davis made many votes or not, he did get the feel of the grass roots and is eager to get back out for a second trip into Illinois, Missouri, Ohio, Indiana, and perhaps several of the border states. Before he embarks on this trip he will spend ten days making speeches in New England and the east.

Whatever disappointment there has been over the failure of Chairman Shaver to get the organization functioning promptly and efficiently is for the most part removed by the encouraging crowds which Davis is drawing.

# Our Formal Opening

THURSDAY, SEPTEMBER 25, HOURS 5 to 8 p. m.

We take pride in announcing the formal opening of our new two story fireproof home at the corner of Avenue H and 13th Street and take this occasion to invite everyone to visit us on Thursday, September the 25th and help us celebrate this event. The whole building will be open for your inspection.

## Reminiscences

For over 22 years this Abstract plant has been rendering prompt and efficient service to the people of this section and we know of no business in this city that has been operating this long with as few changes in the management and we want to take this occasion to thank each and every one, from the depth of our heart, that have in any way contributed to our success thus far.

## Abstracts One-Half Price

In order to show you our appreciation in a more substantial way than mere formal words, we will give 50 percent off of the regular price on all orders for abstracts either given us in person or sent us by mail. Remember this offer only holds good during the opening and if you are going to need any abstract work, place your order opening day.

## Music For The Occasion

We have engaged an orchestra who will play during the hours of our opening. Be sure to arrange to be there, we will appreciate your visit and assure you a pleasant time. Souvenirs for all. Bring the whole family. The hours of the opening are 5 to 8 p. m.

### FROM SMALL FRAME STRUCTURE IN 1914 INTO MODERN BRICK HOME IS PROGRESS MADE BY JOE HILTON'S CADILLAC GARAGE

Since 1914, Joe Hilton's Cadillac Garage has been an outstanding business in Lubbock, and is today one of the most modernly equipped and efficiently managed automobile and repair businesses in the city. Handling perhaps one of the largest stocks of general automobile accessories to be found on the South Plains.

Good service above all things has been a feature of the business that has been offered the public by Joe Hilton, who has been on the job actively engaged in the management of his garage excepting in 1917 and 1918 when he was in the army during the war.

The garage was first established in a frame building on the corner of Main and Avenue J where the Lub-Tex Motor company building now stands. The business was operated in this structure for a period of one year, when it was moved to the spacious brick building at the corner of 13th and J where the Star Mercantile Company store is now located, where it was operated until the early part of 1922 when it was moved into the brick building at the corner of 10th and Avenue J where it is today.

Service is given on Cadillac cars by Cadillac specialists, while all other makes of automobiles are

served by equally efficient workmen, there being between eight to ten men in the employ of Mr. Hilton at all times, looking after his feature of the business. A wash rack, tire repair shop and other service features are provided which are liberally patronized by automobile owners of the Lubbock territory who have come to learn that good service is offered in each and every department of his business.

Kelly Springfield and Firestone high pressure and balloon tires are distributed by the Cadillac garage. The Firestone people were pioneers in the balloon tires field and produce a tire that is accorded much popularity by automobile owners everywhere, especially in the territory served by the Cadillac garage.

The McQuay-Norris line of pistons, pins and rings; Gabriel snubbers; Amalie and Mobiloils, Texaco gas are among the nationally advertised autoists needs sold by this company.

The ample storage room provided in the company's big building is a feature of the company's business that, being located near the Lubbock Inn, one of the best known hotels on the plains, is patronized by many traveling men as well as local car owners.

### ENVIABLE SALES RECORD ESTABLISHED BY CITY DRUG STORE OWNER-MANAGER ACTIVE IN CIVIC ORGANIZATIONS HERE

The City Drug Store, which was established in its present quarters on Broadway in 1917 by E. L. Robertson, present owner and manager of the business, is not only one of the leading retail stores of the plains, but it holds first place in the list of Retail stores in towns of this size in the state in the amount of sales made last year, and is sixth in the state in amount of sales including all the Rexall stores which to say the least, is an enviable record.

Mr. Robertson, manager of the business, devotes a great deal of his time to the interest of the retail druggists business on the plains and to the interests of Lubbock and her various civic organizations.

Mr. Robertson is a director in the local Rotary Club, a director in the South Plains Fair Association, a director of the West Texas Childrens Orphan Home, vice president of the West Texas Retail Druggists' Association, president of the Rexall Clubs of Texas, is chairman of the program committee of the Texas Pharmaceutical Association and has membership in other business organizations in which he is very active.

The popularity of the City Drug Store has been gained through days, weeks, months and even several years of consistent effort on the part of all employees and the manager to build its trade through service, and the motto of the business, "The Store that Service Built" is true, and will hold true as long as that store is conducted on the present plan.

The City Drug Store is a friendly store, where every want of the customer is given every attention by thoroughly experienced and highly trained druggists. This is perhaps the only store in this section of the state where all of the clerks are registered druggists. The fact that there are two proficient, registered druggists in the store during all business hours to wait upon the public proves the manager's eagerness to offer service of the better class at all times.

H. J. Lowery, registered druggist and experienced salesman, has been a member of the force since the early part of 1918, a few months after the business was established. Mr. Lowery's strict attention to business and courteous treatment of the patrons of that institution makes him a valuable asset to the store as well as the buying public.

S. L. Lightfoot, who entered the service of the company in September last year, is also a registered druggist and knows a great deal

about the retail business. His alertness and efficiency in waiting upon the trade is a feature of the store's service program that comes in for a due amount of credit for its exceeding popularity.

Frank B. Barclay, who has been a resident of Lubbock several years and who has spent a great deal of his time in the drug business, is also a member of the force. He too, is a thoroughly capable pharmacist and like all other members of the force helps to wait upon the trade.

The experience of these men, coupled with that of the manager, Mr. Robertson, who is a registered druggist and who has spent the most of his life in that business, gives the patrons of the City Drug Store such service as is not attained in the usual retail business.

Ralph Carpenter, graduate of the Lubbock High School and who has been in the employ of the City Drug Store since shortly after it was established, is responsible for its neat and artistically decorated window displays, and also has charge of the store's delivery service. He is an ambitious, hard working young man, whose success in the drug business is assured by his strict attention to his work and his close study of the business.

The well arranged stock counters and shelves, and the large fresh stocks of merchandise carried in the City Drug Store lend much to the popularity of the business.

### WILL WORD MURDER CASE CALLED HERE

(Continued from page 1)

arm by Word's rifle. Both wounded men were brought to a local sanitarium and recovered. Word is charged with assault with intent to kill in connection with the charge of murder on which he is being tried. A machine gun crew of Battery C, 121st Field Artillery, commanded

ed by Lt. H. H. Griffith and M. M. Mitchell, joined the more than one hundred officers and citizens in their attempt to dislodge Word from his hiding place. The machine gun was stationed in the loft of the barn, commanding range of the premises, and beginning about noon, bombarded a boiler house in which Word was believed to have been hiding. The small building was shattered and it is yet a mystery how he was able to hold his position in a pigsty twenty feet from this building during the bombardment.

He was not dislodged however until a group of officers armed with pistols, shotguns and rifles, rushed the place. He thrust his rifle, stock up, into the air and was arrested without mishap.

He was rushed to Lubbock, where he was questioned concerning the killing of Windham and the shooting of the two cowboys, and confessed to having committed them.

During the initial questioning, Word talked freely, but following his incarceration in the Lubbock county jail he has assumed an attitude of stubbornness which has been shown toward everyone approaching him in any manner, and has even shown such unwillingness to talk of the case with his attorneys as to be a serious handicap in handling the case.

When the court adjourned at five o'clock Monday afternoon, five of the twelve jurors on both sides and one half of the special venire was exhausted.

Court attaches believe that the jury will be completed by noon today and that work of taking testimony in the case can be started at one o'clock.

Much impatience was shown by all concerned with the slow progress with which the preliminary work in the case was done, due to the fact that attorneys on both sides of the case have fought for every advantage point to be gained. Word, however, did not share with the others in being impatient, but sat grinning in the same manner that marked his features when he emerged from the pigsty at the time of his sensational arrest on April 23rd.

### MARKETS

(Continued from page 7)

ever and market kicked back promptly every time. Volume of business was moderate. Market closed strong in face of sharp break in corn. All recessions developed liberal exporting buying.

Corn—Support was largely confined to shorts and a few local bulls, but they held their buying largely to extreme breaks and did not follow up-trends. There was steady liquidations by commission houses and some local pressure which caused set-backs from every rally. Predictions are for light frosts tonight in the west and "orthwest" but it appeared to be the opinion that light frost with clear skies would be more beneficial than harmful on the crop at this time. Cash corn was particularly weak. Anything lower than contract grades was difficult to sell and the discounts were al-

**HAGGARD, PALE**  
Texas Lady Suffered from Womanly Weakness, Pains and Aches; Says She Took Cardui and Got Well.

Dayton, Texas.—Mrs. E. H. Weidel, of this city, writes that she has, for a long time, known of the value of Cardui from personal experience. "I don't know where I would be had it not been for Cardui, for it made a new woman out of me," says Mrs. Weidel.

"I was haggard, pale—worn to a frazzle all the time. My health was wretched. I had womanly weakness, painful . . . pains and aches.

"I heard of Cardui, and decided to use it. Cardui built me up. I grew well—like another woman—hence the praise I give it. Cardui is the best medicine I ever saw in my life."

Cardui, which this lady found so helpful, is a purely vegetable, medicinal tonic. For more than forty years, Cardui has been taken by thousands and thousands of women, everywhere, and praised by them for the beneficial results obtained from its use. If you are a woman, and suffer as many women do—

Take Cardui! NC-140a

most twice those of Saturday. The market looks lower.

Oats—Fairly active trade. There was selling because of weakness in corn with indications for another increase in the visible. While good buying developed on breaks and was credited to eastern interests and beginning about noon, bombarded a boiler house in which Word was believed to have been hiding. The small building was shattered and it is yet a mystery how he was able to hold his position in a pigsty twenty feet from this building during the bombardment.

### SAN DIEGO GREETED WORLD FLYERS TO HOME STATE

(Continued from page 1).

preparing to install new motors into the world flight machines. This will be accomplished tonight and the planes will be tested Tuesday before the hop off to Santa Monica. The parents of Lt. Smith were at his side during the day's celebrations. Mr. and Mrs. Jasper Smith reached the flying field five minutes before the planes landed and were the first to greet their son. As Lt. Jack Harding clambered out of the machine which Lt. Nelson has piloted around the globe, he was met by his mother who had come from Los Angeles with the Smiths.

While San Diego was not the official starting point of the world flight, two of the planes that are here now were the ones used by Lt. Smith and Nelson when they were here in March, just before leaving for Seattle and the official taking off place.

### FORMAL OPENING OF WILSON BUILDING THURSDAY

Ira Wilson, owner and manager of the Wilson Abstract company, has announced that the formal opening of the new fireproof home office company will be held Thursday afternoon and evening, from five to eight o'clock.

Music refreshments and souvenirs will be offered for the entertainment of those who attend the opening.

ing, who will be insured through the many offices of the large and beautiful new structure which is one of most spacious and expensive Abstract homes to be found in the state.

Borden's Bluebird orchestra, a well known local organization, will furnish music for the occasion. In commenting on this feature of the evening's program Mr. Wilson stated that he appreciated the work Mr. Borden has done in organizing a band in Lubbock and that he was glad to secure the services of the orchestra for the evening.

Abstracts will be offered at half price during Thursday.

The Wilson Abstract company was established here in May, 1902, by W. D. Benson, who in 1916 sold the plant and business to R. A. Holland who operated it until September 20, 1920 when the business was bought by Mr. Wilson.

The fact that only three parties have had management of this business since its establishment more than twenty-two years ago, is unusual, in that such record is not held by many institutions that have been in existence that long.
