## Queen Lubbock and her Train be Conspicuous in Fair Pageant

Duchesses and Maids are preparing to be present and take part in the Pageant "King Cotton" to be presented the first two days of the fair.

The names of Duchesses from many South Plains towns have been received at the Chamber of Commerce office and many others are expected before the week is over. The officials of the fair are busy planning entertainment for them and a ball has been arranged for Tuesday evening September 30.

The Duchess of Littlefield, Miss Woody Light, will be here with her Maid of Honor, Miss Ruth Courtney; the Duchess of Idalou, Miss Irene Allen and her maid of Honor, Miss Merle Baily; Miss Jewell Looney, will be Duchess of Lamesa with Miss Eroltha Garrison as her Maid of Honor, and Miss Fay Rollins, Duchess of Seminole will have as her Maid of Honor, Miss Iona Cunningham. Miss Ola Myers has been chosen Duchess of Abernathy but her maid has not been named.

Miss Mabel Marsh has been chosen as Queen Lubbock and has in turn chosen Miss Myrtle Lemmons as her Maid of Honor. The Pageant will be a very brilliant affair and will be enjoyed by many South Plains people.

## "Circle Sixteen" Club Meets with Mr. and Mrs. Trinkle

Mr and Mrs. O. B. Trinkle delightfully entertained the Circle Sixteen forty-two club Tuesday evening at their home Thirtieth street. The home was invitingly decorated with many cut flowers and at the close of the evening entertainment white layer cake and pink and white brick cream was served to the following members and guests:

- Mr. and Mrs. H. W. Sims, Mr. and Mrs. Geo. Morris, Mr. and Mrs. H. W. Stanton, Mr. and Mrs. C. Reed, Mr. and Mrs. Sam T. Davis, Mr. and Mrs. F. U. Brown, Mr. and Mrs. F. E. Wheelock, Mr. and Mrs. W. C. Rylander, and Mr. and Mrs. A. B. Ellis.

## CHORAL SOCIETY MET MONDAY EVENING

The Choral Society directed by Mr. Pfaff, met Monday evening at the Methodist church with about fifty members present. The class would be glad to welcome several more men singers, as a well balanced chorus is desired and at present there are more women than men. The society will meet again next Monday evening at eight o'clock.

## THE BUILDERS CLASS OF THE METHODIST CHURCH

The Builders Class of the Methodist church will entertain at the home of Mrs. M. B. Hilburn on Ave M, Thursday evening of this week. Sections A, B & C, will be hosts to section D. Every member of the class is invited and urged to be present.

## MRS. JENKINS AND MRS. GEORGE TO GIVE PARTY

Mrs. J. H. Jenkins and Mrs. Raymond George will entertain a large number of their friends Friday evening at the home of Mrs. Jenkins.

## SUPPRESSED DESIRES.

The comedy-farce "Suppressed Desires" which will be given in connection with the Rotary Minstrel next Friday and Saturday evenings is predicted to be a principal drawing card for the show. Many Lubbock people enjoyed the sketch when it was presented earlier in the summer for the benefit of the West Texas Orphans' Home and will be delighted to hear it again.

Mrs. Wm. Green appears in the star role as Mrs. Brewster, supported by Mr. Harold Griffith as Mr. Brewster. Mrs. Sid Hill will appear as Mrs. Brewster's sister, Mabel.

The play will be presented under the direction of Mrs. James H. Goodman whose well known ability coupled with the talent of the actors assured a delightful evening.

## PERSONALS

Mrs. Mattie Pickens Meriwether of Colorado, Texas is here visiting her nieces, Mrs. W. R. Spencer and Mrs. F. E. Perkins. Mrs. S. H. Stewart is in Waco

## THIS NIGHT may convince you

Sallow skin is more than skin deep. For that tired, worn out, listless feeling, keep your stomach, liver and bowels free from impurities, biliousness and constipation.

**Chamberlain's Tablets** will open your closed bowels. Take two tonight. They will not make you sick and you will feel good tomorrow. 10¢ a box.

this week visiting friends and relatives.

Mrs. John F. Blevins of Tahoka is spending the week in Lubbock the guest of her aunt, Mrs. J. L. Stinson.

Mrs. Hub Jones is visiting and shopping in Dallas this week.

J. W. White was here from his Lynn county home yesterday.

Neal Douglas, Sr., was here yesterday from Littlefield and reports that town still building rapidly.

Rev. J. T. Howell, was here yesterday from Tahoka. He reports everything moving along nicely in that city. Cotton is coming in briskly now, and will increase every week for a while at least.

Tom Preston, prominent Terry county cattlemen, and who is now identified with the Windham ranch near rownfield, is here attending the trial of Will Word, charged with murder in connection with the fatal shooting of Dr. S. H. Windham on April 22nd.

George Turin remained in Lubbock throughout Wednesday attending district court.

Dr. J. G. Eastham, of Odem, Texas, is here to appear as a defense witness in the Will Word murder case.

Bert King and wife, of the Windham ranch near Brownfield, are in attendance at district court. They are state witnesses in the trial of Will Word, who is charged with murder in connection with the killing of Dr. Windham, April 22.

## TRAINING SCHOOL FACULTY ANNOUNCED AT CANYON

CANYON, Texas, Sept. 22.—Professor R. P. Jarrett, head of the department of education at the West Texas State Teachers College, and acting superintendent of the training school, stated today that everything is in readiness for the opening of the training school. Miss Edna Haines, Miss Anna I. Hibbets, Miss

Erna Guenther, Miss Emma Jean McCleskey, Miss Ethel Jackson, Miss Mae Simmons and Miss Mattie Lee Boyd are members of the faculty who are on hand. Alvin R. Jackson will have charge of a portion of the boys' athletics in the upper grades.

Of the training school faculty, Mrs. Ethel Jackson and Miss Erna Guenther have spent the summer touring in Europe. Miss McCleskey has studied at Peabody College, Nashville, Tennessee. All three come back to their work with many new ideas.

## J. L. DUFLLOT RETURNS FOR YEAR'S WORK AT CANYON

CANYON, Texas, Sept. 22.—J. L. Duflot, of the Teachers College faculty, and his family, returned yesterday from Chicago, where he had been studying at the University of Chicago for the past year. Mr. Duflot was formerly a member of the Amarillo high school faculty and is now head of the department of sociology at the college here.

Miss Emma Jean McCleskey has also returned from her summer's study at Peabody college at Nashville. She is a member of the training school.

## FOLKS SHUDDER AT "BROKEN OUT" FACES

Folks simply can't help showing that pimply, blotchy or rough faces are unpleasant to them to look at, much less associate and become intimate with people who are so afflicted about their appearance as to let these skin blemishes rule their destiny. No wonder it seems like "cold chills" run down their backs as they pass by.

Black and White Ointment, and Soap, by healing the skin tissue, remove such skin disfigurements, and they quickly get rid of them is responsible for their popularity and tremendous sale of more than two million packages a year. Your dealer has them both. They are economically priced, in liberal packages. The 50c size Black and White Ointment contains three times as much as the 25c size.

# WOMAN PRINCIPAL IN HIGHT MURDER COMPACT-ALMOST INSANE WITH WORRY AS CORONER VERDICT IS AGAINST HER

By United News.

MOUNT VERNON, Ill., Sept. 24.—The drama of the circuit rider who loved a miner's wife persuaded her to kill her husband, and then killed his own wife that they might pursue their romance unimpeded moves on in a triangle formed by three southern Illinois towns.

Mrs. Elsie Sweetin, who has been ordered held without bond here in the Marion county jail for the grand jury following the coroner's verdict that her husband, Clifford Sweetin, "came to his death by means of arsenic, wilfully and maliciously administered by his wife, at the instigation of Hight" in conformity with an agreement between them, is almost insane from worry. She is in charge of her physician, Dr. S. A. Thompson, of Mount Vernon. She has retained the services of two Mount Vernon attorneys to fight for the minimum punishment of her crime. In spite of her physical breakdown Hight has not left her.

Nearly 40 miles away, in the Washington county jail held without bond on the charge of poisoning his wife, Anna, and of complicity in the poisoning of Sweetin, is the "poisoning pastor" the Rev. Lawrence M. Hight, his calm shattered into tremulous nervousness his hope entirely vanished. He wants to plead guilty and throw himself on the courts' mercy.

At the other point of the trouble the two families of children, thus bereft of both parents, are trying to readjust their lives.

Mrs. Marie Patton, Hight's oldest daughter, is in Iowa, preparing to take the younger children Milledred, 16, and Robert, 14, to her home in Tamora, Ill.

In the Sweetin home in the same little town of 400, Mrs. Sweetin's brother cares for Byford, 15, Stanton, 13, and Harry Lee, 8. Mrs. Sweetin has expressed a wish that he be placed in a Masonic orphanage. The Sweetins owned their own home and Sweetin had two in-

urance policies of \$1,000 each. One of which lapsed only a few days before his death.

The children refuse to believe in their mothers' guilt, and even father of the poisoned husband, Christopher Columbus Sweetin declares that his daughter-in-law was lovable as could be, and that he believes that she never did a wrong thing until she met the minister. The grandfather thinks that perhaps a farm would be the best home for the children.

Over in the Salem jail, Mrs. Sweetin her blue eyes darting back and forth under the emotional distress of her condition has laid the entire blame for the crime to which she has confessed on the pastor.

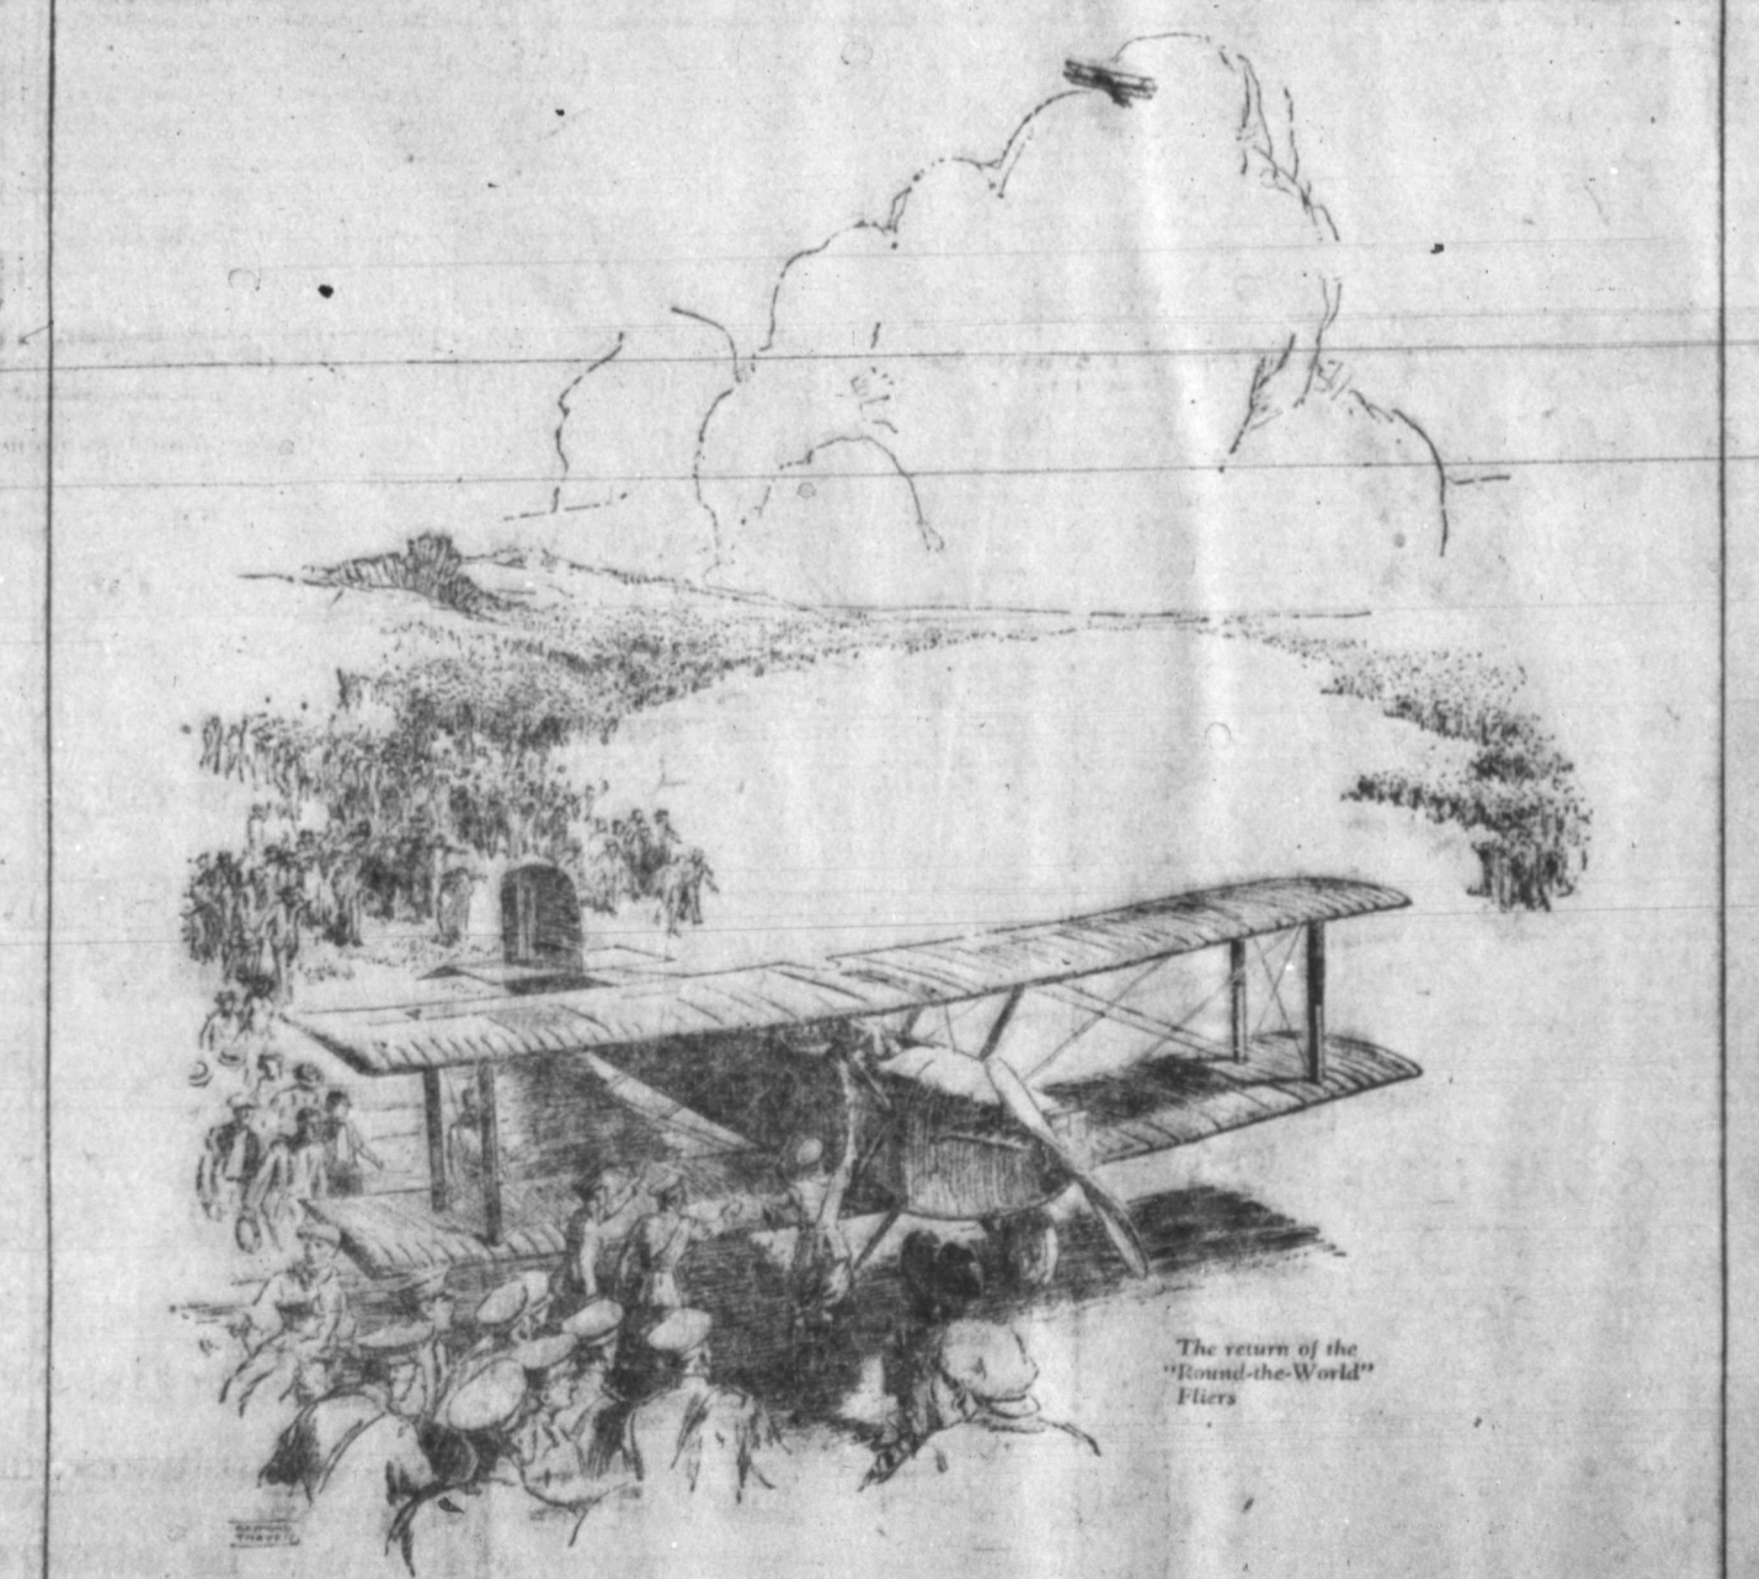

"I am very, very sorry for what I did," she said. "I don't know why I did it. He must have had some kind of influence over me."

The pastor told me to do it and gave me the arsenic," she kept repeating. Hight, too, does not know why he did it, and says that the devil must have been pulling him.

States Attorney Frank G. Thompson has indicated his intention of asking for the death penalty for Hight. He has not said what penalty he intends to ask for Mrs. Sweetin.

## DEMOCRATIC PRESIDENTIAL CANDIDATE ALWAYS ON NOVEMBER 4TH

As the popularity of John W. Davis spreads throughout the country there is a growing interest in the historical fact that since the birth of the Democratic party every Democratic presidential candidate nominated in a year having November 4 as election day has been elected. This began with the election of Jackson in 1828 and was repeated in 1856, 1884, and 1912, the respective years in which Buchanan, Cleveland and Wilson were elected.

The return of the "Round-the-World" Fliers

## Hats off to 'em—they deserve it!

THE first men in all history to circle the earth by air! Trackless, treacherous seas, savage jungles, blazing deserts, nor desolate fields of ice could bar them from their goal. They dared greatly, and won—and the millions who watched their perilous flight rejoice to welcome them home, to honors richly earned.

Hats off to 'em! To quote our own slogan, "Such popularity must be deserved!"

Such popularity must be deserved

**Lavatory on Running Board Carries Water and Soap**  
Added comfort is afforded the motorist by a patented lavatory fitted under the running board of the car.

to supply water and liquid soap. The outfit consists of a supply tank, bolted to the frame, and faucets and filler nozzles, which are placed under the hood. The tank has a large compartment for water and a smaller one for soap. The faucets fold out of sight when not in use.

### Great Increase in Farming Lands is Seen in Next Fifty Years

It is estimated the United States will contain by 1950 approximately 28,000,000 acres in addition to the present crop-producing lands in this country, government statisticians declare. The extra acreage, it is figured, would suffice for domestic consumption and still leave a surplus for export. An increased yield per acre was taken into consideration in arriving at these figures. There are said to be between 600,000,000 and 800,000,000 acres of potential crop land, of which some 220,000,000 acres lie in the forested regions of the eastern part of the country.

### Queer Jobs Undertaken by Women to Make Life Interesting

New ways of making life interesting while earning a living are constantly being found by women whose tasks now range from observation and charting of the skies and planets to cooking food and feeding it to swarms of plant germs, which are kept for the purpose of scientific study in laboratories of the government. Although women have practiced law, medicine and dentistry for some time, they were installed in large office buildings as elevator operators, as attendants in automobile filling stations and placed in other departments of industry formerly occupied entirely by men. In research lines connected with the study of natural specimens of insect and small-animal life, women are to be found recording the habits and structure of subjects in many museums. Posters and drawings of value to cattle raisers and dairy farmers are the result of observation made by women trained for the purpose, while horticulturists are aided by women experts who specialize in learning the secrets of developing fruits and vegetables of better quality. A great number of exhibits to be seen in natural-history exhibitions are the work of women artists, who prepare and set up the specimens composing such groups and design the artistic foliage and landscapes which make up the lifelike backgrounds.

### Emergency Tire Patch

One night after discovering a flat tire on an autoist removed the casing and inner tube to repair the leak, and then found that he had no cement. Being a long distance from any auto-supply store he faced the necessity of driving along on the rim. First, finding a small roll of electrical's friction tape in the toolbox, he wound several layers of it around the tube and found it held as well as a patch. With this temporary repair, he rode around for two weeks before applying a regular patch.

### Pulling Motorboat on Beach

At a summer cottage, where a regular dock is not available and where the only safe method of "docking" a boat for the night is to drag it up on the beach, the usual method of doing this is generally too much for one man; he can easily do it alone, however, by using a simple winch of the kind shown in the drawing. A point on the beach near a large tree is selected as a landing place. A deep hole is drilled into the tree, to receive a length of large pipe or heavy steel rod. If available, a piece of an automobile axle will do. A strong rope is tied to the prow of the boat and a loop is tied at the other end. By slipping a stout piece of lumber, or a crowbar if handy, through the loop and twisting the rope around the pipe as shown, the boat will be slowly pulled up on the beach. Skids under the boat will reduce friction and prevent damage to

the bottom of the boat. This method has been used in actual practice and found entirely satisfactory.

### CLOTHING PRICES RISE AS TEXTILE WORKERS THREATEN TO STRIKE

Predictions of higher prices for woolen clothing are made by Alfred Decker, of New York, head of the firm of Alfred Decker & Cohn, manufacturers of clothing, at almost the moment that textile workers in New York and New England are threatening to strike in protest against a reduction in their wages. Mr. Decker declared that American consumers have been misled about the prospect of lower prices for clothing. Instead of lower prices, he said, there would be an advance in prices if the quality of garments was maintained.

### SLATON MAN TO OPEN 10,000 EGG HATCHERY

H. M. Binion, of near Southland, has purchased a five-acre tract of land from Mr. Frautz, just south of town and is having erected thereon a nice six room modern residence. Mr. Binion states that he will build on this place a 10,000-egg hatchery and will wholesale baby chicks this next spring. Mr. Binion has had several years' experience along this line and understands this business. Thus has Slaton taken another step forward and now we are to have a hatchery and wholesaler of chicks this next spring. Mr. Binion has had several years' experience along this line and understands this business. Several of our enterprising citizens have been working on this proposition for several months, under the direction of the Chamber of Commerce and at last they have been successful in interesting a man of wide experience to take hold of the proposition. Let every citizen of Slaton and this immediate territory boost Mr. Binion and his hatchery. Buy your baby chicks from him next spring.—Slaton Slatonite.

### MITCHELL COUNTY NOW HAS 33 OIL PRODUCERS

COLORADO, Texas, Sept. 22.—Mitchell county now has thirty-three producing oil wells, according to figures received from the nine operators associated with production in the field. Total production is placed at 2,750 barrels daily, 2,300 barrels of which is being taken by the two pipe lines entering the field. The plant of the West Texas Refinery Company at Colorado is now running to almost full capacity, and is handling 4,200 barrels of crude daily. The Gist No. 1, of M. E. Eddie-mann, et al, one the A. C. Gist survey, three miles north of Colorado, is on top of the sand at 2,856 feet, with a good showing for production. This is the first test to be drilled in that section of the country, being ten miles east of the nearest producer, near Westbrook.

### SPECIAL REDUCTION OFFERED BY DODGE

Causes Surprise as Advances Seem To Be in Order

In view of the upward trend in automobile prices, considerable surprise was occasioned by Dodge Brothers recent announcement of a reduction in prices of the special type cars. Dodge Brothers were able to do the unexpected, according to the factory announcement, on account of the increased volume of their purchases of special equipment for the special type cars. Dodge Brothers special types consist of the standard cars equipped with accessories which produce the utmost in comfort and convenience and appearance of the car. Among these are steel disc wheels, five balloon type tires, nickel-trimmed radiator, nickel-plated bumpers, automatic windshield wiper, rear view mirror, scuff plates, cowl lights and motor meter lock. A special body tripe is also provided. Manufacturing and buying these

accessories in quantity, Dodge Brothers are naturally able to install them at prices considerably below what the owner would have to pay at retail. The public was quick to sense this and the demand for the special types grew steadily from the moment they were made available. Their convenience and appearance has elicited the greatest admiration everywhere and those who know the volume that has been attained can readily understand how Dodge Brothers were able to make a reduction when others were announcing advances.

Four Dodge Brothers cars are affected by the reduction—the special Touring Car, special Roadster, special "A" Sedan, special "B" Sedan, special Business coupe and special 4-passenger coupe. The "B" Sedan and the business coupe have also been added to the line of special types. As the reduction was made possible by economies effected in the purchase of equipments used exclusively on the special type cars, the standard types are in no way affected, according to W. W. Royalty, local dealer. The prices of all standard types remain unchanged.

### MANY PEOPLE ARE MOVING DURING FALL MONTHS

Fall finds many Texas people moving or selecting new homes for the winter. Already thousands of changes are now being made by the telephone companies of the state under the Texas Public Service Information Bureau. The Dallas Telephone Company alone, expects to move something like 1200 telephones during the month of October in addition to several hundred inside changes and new orders. Most people move on the 1st and 15th of the month, according to telephone records. Invariably, the largest number of move orders for telephones come in the day before the move, usually the 14th and 20th of the month.

In Dallas there are eight different central offices and persons moving from one office area to another will have new numbers assigned to them. The changing of numbers must be carefully handled and entails much office work. Considerable work is involved for the telephone engineers in reference to the handling of the plant facilities, before the installer can be sent out to make the new connections necessary for a change. The telephone instrument is a very small part of the telephone equipment used by the subscriber and a change means much more than the mere connection of the new instrument with the complicated plant system, which connects the subscriber with every other telephone of the city and the nation, as well. Subscribers should always notify telephone companies several days in advance before making a change. By doing this they can get much better service.

### NEWTON HOLDS HIGHEST BIRTH RATE IN KANSAS

TOPEKA, Kas., Sept. 22.—Newton, railroad division town in Harvey county, has had the highest birth

Cleveland. Bottle sold by all good drug stores.  
BOWEN'S DRUG STORE.

### BINGHAM GIVEN GOOD HEARING HERE LAST NIGHT

George Bingham, known throughout the United States for his "Dogville" and "Punkinville" paragraphs, spoke to five hundred Lubbock people here last night at the community auditorium under the auspices of the local Boy Scout organization. Mr. Bingham proved an able entertainer and his every two minutes change in subject gave much variety of thought and action as to keep his hearers thoroughly interested throughout the more than one hour he spoke. Human nature, in all its trivialities, its bigness and its shortcomings, was revealed to his hearers in a manner that brought hearty cheers and drove home to each of his hearers the idea that an individual is after all so thoroughly imbued with human faults and so equally supplied with virtues as to make every man a walking possibility, the importance of which depends largely upon one's willingness to stay within the confines of the narrow path and give the other fellow a chance, remembering always that there are right ways to pursue along every course. To hear George Bingham was to hear the best in American wit and humor that has been presented in Lubbock for many, many months. He talked with ease with which he writes, and declared that among those in his audience he could see the forty-nine characters, centered about their native haunts in the Kentucky hills, about whom he has been making paragraphs for the past seventeen years. Members of the local Boy Scouts, directed by L. S. Hawkey and F. H. Sawyer had charge of the meeting, and looked to the comfort of all in attendance. W. C. Rylander, in his usual able manner, introduced the speaker.

### McKELLAR SAYS FEDERAL EMPLOYEES ARE FORCED CONTRIBUTE TO GOP FUND

Federal employes in Tennessee are being compelled to contribute part of their salaries to the Republican campaign fund, Senator McKellar of that state charged in a public statement issued in Washington a few days ago. Senator McKellar called attention to the law prohibiting the solicitation of such contributions from postmasters, letter carriers, and other persons in the service of the Government, and declared his intention to call for an investigation by the Senate when Congress convenes. On a previous occasion Senator McKellar showed that the Republican National Committee of Tennessee had collected money from applicants for Federal appointments, but the Harding administration refused to take any action.

### COOLIDGE TO SPEAK AT PHILADELPHIA CELEBRATION

By United News. WASHINGTON, Sept. 24.—President Coolidge makes a flying dash to Philadelphia Thursday to speak at the 150th anniversary celebration of the first session of the Continental Congress. The president will leave here at 3:30 p. m. going directly from his train to the Academy of Music. He leaves Philadelphia about 10 p. m. returning here shortly after midnight.

### PLOT OF SCHOOL BOYS BROKEN UP BY ONE ARREST

ROCKY FORD, Colo., Sept. 24.—The "terrible ten" are taking their meals standing up and their intended victim, W. A. Wiley, truant officer, continues to remain a bugaboo to all kids who would rather do anything but straddle with the three "R's" in the school room. Somehow, it got noted about that ten boys, ranging from 11 to 13 years of age, were planning to do away with Wiley. The town marshal took Bill Staley, 13, into custody, after he had learned that his youth was the leader of the "terrible ten." Then the town cop got an earfull. Stanley admitted that Wiley was not what you might say, appreciated by his gang, but there seemed to be considerable argument about the best way to slaughter him. The marshal solved that problem. He called the parents of the boys. "Nuff said."

### GOP GIVEN HARD JOLT IN RELEASE OF WILBUR SPEECH

(Continued from page 1). The department scandals tumble out on the floor in plain view again just when republicans thought they had them securely locked up for the duration of the campaign. In one sense, however, these incidents, together with the discovery that LaFollette is running stronger in the west than was formerly suspected, optimism here which has bordered on over-confidence and some republican workers felt that it was better for the other party to get a good jolt now and then on the morning of November 5. The reports of these developments they say will be to shove workers harder and eliminate the danger of over-confidence which had caused many of them to lean back and wait for election day.

### MANY FARMS ARE LEFT VACANT IN MISSOURI

JEFFERSON CITY, Mo., Sept. 22.—The exodus from the farm to the city, still continues, according to a survey just completed in Missouri by the state and United States department of agriculture. A total of 28,540 farm houses fit for habitation are vacant in Missouri because 55,000 men have left farms in the state during the past year, the survey shows. Of these 32,000 or 58 per cent, were married. During the same time 32,000 new farmers took up agriculture in the state so, the net loss in farm workers was only 18,000.

### LOWLY SNAIL AT LAST GETS TAX EXEMPTION

PARIS, Sept. 20.—Slowly the snail has crawled his weary way through parliamentary procedure. Four cabinet ministers examined him carefully and submitted reports about him before he reached the desk of M. Doumergue. The president of the Republic, with a flourish of the pen and a snark of the lips, gave him his freedom. The "Journal Officiel" has published the following:  
"The President of the French Republic,  
"In accordance with Article 34 of the law of December 17, 1814:  
"In accordance with the law of January 11, 1892, on the tariff of customs;  
"In accordance with the decree of April 7, 1924, carrying the establishment of tax on certain merchandise.  
"And on the report of the president of the Council (premier), the minister of foreign affairs, the minister of commerce and industry, the minister of agriculture and the minister of finances;  
"Be it Decreed:  
"Art. 1st.—The repeal where it concerns snails of this tax of 10 per cent ad valorem."  
"Art. 2nd.—The president of the council, minister of foreign affairs, minister of commerce and industry, minister of agriculture and minister of finance are charged, where it concerns him, with the execution of this decree.  
"Then follows signatures and seals. All quite appropriate, for the lowly snail, of "Lescargot," makes up a tasty dinner dish, widely loved in France.  
"Beavers repaired a dam near Bellefonte, Pennsylvania, that was two hundred feet wide and from four to ten feet deep. Farmers and fishermen had considered repairing it but had been deterred because of the expense involved.  
"Liberty is far more easily destroyed by those who abuse it than by those who oppose it."—Ramsay MacDonald.

### SOCIETY MUST KEEP YOUTH STRAIGHT EXPERT SAYS

By United News. KANSAS CITY, Mo., Sept. 22.—Society can no longer raise its dignified eyebrow at an erring girl or boy and proceed calmly to lay the blame at the doorstep of the parents. Although in many cases they are greatly at fault, Dr. Edith Hale Swift, social hygiene exponent and former medical adviser at Wellesley College, believes society itself must keep America's youth on the straight and narrow path. "Girls and boys are out to investigate life," she declared. "The thing to do is to see that they get the right kind. More effective work can be done with them directly than with their parents. Most of the mothers and fathers were reared in the age of whispering, and silences and they are not able to understand or to cope with problems their children meet." Education for marriage and the establishment of proper marriage ideals will do much to decrease the business of the divorce court and to make more contented homes, Dr. Swift believes.

THE ROTARY STUDENT'S LOAN FUND

The annual minstrel show will soon be here for the Lubbock Rotary Club. This entertainment is given with one thing in view, and that is for the betterment of the boys and girls of the community.

The Rotary club could not invest money in any better proposition than in the Loan Fund, for it is shaping the lives of the men of tomorrow.

RUSHING THE FAIR.

Have you been out to the fair grounds during the past week? Well if you have not you should go out there and take a squint at what is going on out at the fair grounds.

In fact, the fair is going to be much bigger, better and more interesting than ever before.

The management says that they have had perfect co-operation on every thing except the parking system, which they have mapped out to charge twenty-five cents for parking space in the fair grounds.

One can purchase a season ticket for the car and it will not cost over a dollar, and you will have your car looked after.

You will not complain at this if you look at it in the right way and you should give the management your most hearty co-operation.

The South Plains fair is no longer a small affair, but a real big thing that carries with it great responsibility, and the cost of operating it is getting to be a tremendous thing, and much revenue must be derived if we are to make it a success.

"I suppose you are familiar with the ins and outs of politics?" "Only the ins," answered Senator Petroleum. "The outs haven't enough influence to make familiarity worth while."

Tom Taggart says: "I am personally wet and politically dry." So are the others.

THIRD PARTY DOES NOT HOPE TO WIN THIS YEAR, BUT PAVING WAY FOR THE FUTURE

In a long and thoughtful editorial entitled, "How to Head Off a Third Party," the New York Times analyzes the present political situation, discusses the significance of the attempt of the La Follette group to control government by blocking it, and urges the election of John W. Davis as the safe course to progressiveness without the risk of paralysis.

After reminding its readers in effect that the spread of the La Follette movement is likely to be more rapid and disturbing following the presidential election, the Times says:

"They (La Follette and his followers) do not expect to win this year's election. The utmost they hope for is to prevent anybody from getting a majority in the Electoral College.

The outcome of this movement, the Times believes, would be a "division among our citizens, not according to sectional lines or political principles, but according to the supposed interest of a single body among our citizenship."

"What can be done to prevent it?" the Times inquires, and declares that, "Whatever is to be done must be done quickly. It is a thing which must be taken in hand before the coming presidential election.

The editorial points out that "the republican party has come to stand in the public mind as the party predominantly of the well-to-do, of conservatives who dread all changes, of people who live in constant fear that their property rights may be impaired and their special privileges cut down."

"If the democratic party wins," says the Times, "the case will be plainly different. By tradition and inheritance, that party numbers within its ranks many more than the Republicans can pretend to of those representing the very kind of political material which Senator La Follette hopes to draw to his support.

The editorial declares that: "The question is one for patriotic citizens, be they republicans or democrats, to consider conscientiously for themselves."

These citizens can not shut their eyes to the fact that "the democrats have taken for leader this year a man of unblemished character and unusual capacity," says the Times.

REPARATIONS IN OPERATION

On the plan worked out by the American expert finance commission, Germany made her first payment of 20,000,000 gold marks. This is an advance payment of the forthcoming loan to the German government that is being raised in England and the United States.

Too Long: A farmer came down to town to insert a death announcement. "How much do you charge?" he asked. "Ten shillings an inch," was the reply. "Heaven! He was over six feet high!"

NEW SENATORS IN CONGRESS THIS YEAR

By PAUL R. MALLON (United Press Staff Correspondent) WASHINGTON, Sept. 24—A decisive change in the personnel of the United States senate is in prospect as one of the most important results of the November presidential election.

The primaries moved into the senate personnel this year as never before. A half dozen familiar heads already have been lopped off and each primary to come holds similar forebodings.

Seventeen Republicans, fourteen Democrats and one Farmer-Laborite are up for re-election. The Democratic majority is being whittled down to a Third Party, one will be formed. That constitutes a political peril still distant but visibly threatening.

The Democrats are certain not to return are Nathaniel B. Dial of South Carolina, Robert L. Owen of Oklahoma and John K. Shields of Tennessee.

As the situation lines up the Democrats have an excellent chance to capture the upper house of congress. In West Virginia a Davis landslide might pull in a Democrat to replace Elkins.

The line-up of the present senate stands 51 Republicans, 45 Democrats and two Farmer-Laborites. If the Democrats can capture four Republican seats, they can deadlock the majority through the two-Farmer Laborites who have not failed to vote with them on every occasion during the recent session.

Besides the eight already defeated for re-election, senators up this year for reelection include: Borah, Republican, of Idaho, who is almost certain to come back.

Edge, New Jersey Republican who is facing a hard situation within his own party in his own state.

Glass, Virginia Republican who is sure to come back if he remains in good health.

Harris of Georgia, Harrison of Mississippi and Hefflin of Alabama—all Democrats—who at the present writing seem certain to return.

Magnus Johnson, the Farmer-Laborite from Minnesota who is a favorite to win in his section.

Keyes, Republican of New Hampshire, who probably will come back.

Phlips, of Colorado, Republican, who may be defeated by Senator Adams, his youthful Democratic opponent.

Ramsdell, Louisiana; Robinson Arkansas; Sheppard, Texas; Simmons, North Carolina and Stanley of Kentucky, Democrats who are almost certain to return.

The National Bureau of Economic Research estimated the economic worth of 17,700,000 housewives in 1909 at \$500 each, making a total of \$8,850,000,000.

The new woman is an owner of property. In 1920, 712,639 women reported a total income of \$2,185,840,000, an average of \$3,058 each.

There are three women teachers to one man in our public schools. These women built the temperance sentiment that made the nation dry.

The new woman is in politics to stay. She is in politics by right of her strategic position, as a spender, as an educator of American youth, she has a right to a voice in the political affairs of the city, the county, the state and the nation.

There are many fine sentiments in this tribute with which we are in hearty accord. We would not for one moment underestimate the contribution woman has made to our national life through channels other than the home.

History shows that every great civilization has come to the point where women were child-bearing for social and political life. It is clearly shown that this movement among women has been the beginning of the end of that civilization.

No one questions the strong practical influence of mothers upon their young. No one questions the molding power of mothers in the rearing of their children. No one questions the fact that mothers have done more than fathers to produce leaders in all walks of life with fine moral stamina and high Christian ideals.

"The new woman is a Christian mother." He is painfully correct in his analysis.

Just Folks by Edgar A. Guest

AN OLD FRIEND When the old heart feels like bursting with its load of grief and pain And the secrets you have hidden there from all the common train, When you've locked your lips on trouble and have stored your wrongs away 'Till it seems you cannot hold them to yourself another day, There's but one to whom you'll tell it from start unto the end, So you hasten with your burden to an old and trusted friend. Oh, I guess God understood us, and I'm sure he truly knew There'd be many things we suffer and be many things we'd do Which we couldn't tell our own folks and yet - couldn't bear alone, And we wouldn't tell to strangers who might elsewhere make them known: So He fashioned for our purpose one on whom we could depend And He gave us for our comfort, each and all a loyal friend. When comes the spilling time of care and hearts must overflow, To one who's known and loved us long in confidence we go; And we grow better for his faith— The pressure of his hands Upon our shoulders, make us feel he truly understands; His words restore our falling strength we see new hope ascend, We face life with a lighter heart because we have a friend. Oh, good old trusted friend of mine, how often to your door I've come through darkness and despair to tell my troubles o'er! I've spilled my burdens at your feet until my heart grew light, Always to have you say to me: "These things work out all right." And so far all the cares you've shared these simple lines are penned— I should have broken long ago without you, good friend!

(Copyrighted 1924, by Edgar A. Guest)

EAT WHALE MEAT AND AVERAGE OLD JONAH

By United Press. YANCOUVER, B. C., Sept. 23—West Africa is avenging Jonah. Descendants of the whale that swallowed the Biblical character are being swallowed in large quantities by the inhabitants of the West African coast.

PANHANDLE SCHOOLS ARE EXPERIENCING VERY RAPID INCREASE

CANYON, Texas, Sept. 22.—The rapid rate at which Panhandle towns are growing is shown by the fact that superintendents W. H. Younger, of Tulsa; S. R. Van Buskirk, of Muskogee; O. R. Bridges of Happy, and C. L. Nickel, of Shamrock, have sent calls to the West Texas Teachers College asking for teachers to take over-flow rooms in their schools. Many schools expect to have to add additional teachers when the cotton picking season is over.

Who is the Cyclops of Lubbock Klan? Hear him in the court house lawn, Thursday night, Sept. 25th. 281-4t.

INDUSTRIAL EDITION

Stamford, Texas, September 23, 1924.

Lubbock Avalanche, Lubbock, Texas. Gentlemen: We want to take this opportunity to congratulate you upon the very remarkable issue of the Lubbock Morning Avalanche, Sunday, Sept. 21st. It is really difficult to realize the changed conditions that are responsible for such a paper appearing at Lubbock at this time.

Cordially yours, Porter A. Whaley.

# DARKNESS HALTS DIXIE OPENER AT 3-ALL COUNT

## FIRST OF CHAMPIONSHIP TILT CALLED AT END EIGHTH WITH SCORE STANDING 3-3; "BIG BOY" KRAFT HELD HELPLESS

Special to the Avalanche.  
MEMPHIS, Sept. 24.—In the initial exhibition of the Dixie series here which will ultimately decide the championship of Class A ball in the south, Pate, Panther port-sider and Warmouth, Southern league ace, battled eight innings in a pretty duel, which was called at the end of the eighth on account of darkness. Warmouth had a little edge all the way, holding the slugging Cats to seven safe bingles, whiffing as many, while Pate was hit for nine safeties, and struck out four of the local stickmen.

But for the wild rampage of Warmouth in the fifth, when he walked two men and later scored them on wild pitches, he should have had an easy victory.  
Kraft, the "Big Boy" from Texas, who all but broke the world's record this season for home runs, was helpless before the delivery of Warmouth reaching first only once, when Anderson dropped a throw from Prothers. He struck out twice.  
The game in detail:  
FORT WORTH (first inning). Calvo, cf, singled; Phelan popped out to LaMotte; Sears struck out. Calvo out trying to steal second; Kohlbecker to LaMotte. 1 hit, no runs.

The Box Score:

Fort Worth	AB	R	H	PO	A	E
Calvo, cf	4	0	2	1	0	0
Phelan, 3b	4	0	1	0	3	0
Sears, lf	4	0	0	3	0	0
Kraft, 1b	4	0	0	7	0	1
Palmer, 2b	3	0	1	4	0	1
Edgington, rf	2	1	1	2	0	0
Tavener, ss	1	1	1	0	2	0
Bischoff, c	3	1	1	6	1	0
Pate, p	2	0	0	1	3	0
Totals	27	3	7	24	9	2

Memphis	AB	R	H	PO	A	E
Barber, cf	4	1	1	0	0	0
Gleason, 2b	3	0	0	1	1	0
Prothers, 3b	4	1	2	1	0	0
Smith, lf	4	0	0	3	0	0
Carlyle, rf	4	1	1	0	0	0
Kohlbecker, c	4	0	2	7	3	0
Anderson, 1b	4	0	1	6	0	1
La Motte, ss	4	0	2	5	0	0
Warmouth, p	2	0	0	1	0	0
Totals	33	3	9	24	6	1

Score by innings:  
Pt. Worth 000 030 00—3 7 2  
Memphis 100 020 00—3 9 1  
Called end eighth account of darkness.  
Summary: Hits off Pate 9, Warmouth 7; bases on balls off Pate 2, Warmouth 2; struck out by Pate 4, Warmouth 7; wild pitches, Warmouth 2; two base hits, Prothers; sacrifice hits, Tavener; left on bases Fort Worth 4, Memphis 8; time of game 2 hours; Umpires Kane (Texas) balls and strikes; Brennan (Southern) first base; Daley (Texas) second base; Johnson (Southern) third base.  
No runs, no hits, no errors.  
Called end of 8th on account of darkness.

### Long Shots By Heavy Artillery

Wednesday's Home Runs:

### club next Wednesday by reviewing the parade of local fans who will meet the players at the Union Station and escort them up Pennsylvania avenue. The invitation to participate was extended the president at the White House Wednesday by the committee in charge.

### POSITIONS REMAIN STATIONARY IN MAJOR LEAGUES

When the major league pennant scramble is under way, the finishing line early next week in completion of two of the most exciting pennant races in modern baseball history, the Dodgers and Yanks may learn that runners never win marathons by simply keeping pace. Winning, they may discover, may be accomplished only by out-distancing your opponent.  
This philosophical lesson suggested itself Wednesday when they took another battle game from the Pirates at the Polo grounds.  
Playing with a considerably weakened line up, minus Frankie Frisch and Henie Groh, both incapacitated by injuries, McGraw's men slipped out a 4 to 2 victory over the team from Pittsburgh. Virgil Barnes, the youthful Giant hurler, scored the victory over Emil Yde, Pittsburgh's two-run came off the bat of Earl Smith, the former Giant catcher, who knocked a pair of home runs.  
The defeat virtually set the pennant aspirant Pirates out of the running. It widened the gulf between them and the Giants to three and one-half games, a large span for this stage of the race.  
However, the Pirates still have a mathematical possibility of climbing into first place.  
Burleigh Grimes supported the pennant hopes of the Dodgers. He led them to a 6 to 5 win over the Cubs in Brooklyn.  
Dave Bancroft's humble Boston Braves handed the first division Cincinnati Reds a pair of surprises in the form of a double defeat at the hub ball park. The Braves who are trotting at the tail end of the procession won 7 to 6, and 5 to 3. The two defeats almost jolted the Reds out of fourth place which they held by the scant margin of a half of a game.  
St. Louis won from the Phils in Philadelphia 9 to 4.  
The games separating Washington from New York in the American league remained unchanged as both clubs won in their respective matches. The Senators won from the White Sox in Chicago 6 to 2 while the Yanks beat the Indians, 2 to 0 in Cleveland. The Athletics won the only other American league game from the Browns in St. Louis by a score of 4 to 2.

### KLAN FORCED INTO POLITICS, EVANS SAYS IN TALK

By United News.  
KANSAS CITY, Mo., Sept. 24.—The Ku Klux Klan was forced into politics and any one in doubt of its strength might do well to ponder over the turbulent days of the democratic national convention.  
Dr. H. W. Evans, imperial wizard, declared in his keynote speech at the biennial convocation of the order being held here.  
"The fight in the democratic convention demonstrates to the entire country that the charges made by the Klan against the Roman Catholic hierarchy—charges most used to prove us guilty of religious prejudices and un-Americanism are true," the imperial wizard said.  
More than 2,000 Klan leaders who from the legislative body of the order, were in their seats when Dr. Evans began talking. All carried courtesy cards of varied colors, some red, some white, others blue and black. Husky gate keepers stood on guard at each entrance to convention hall where the meetings are being held and carefully scrutinized the credentials of those seeking entrance.  
In defining klansmen, Evans said: "Klansmen are men who see and deplore the ills of the present and who likewise have a vision of redemption."  
"You are of superior blood," Evans told his listeners. "You are more—you are leaders in the movement in the world at present which exists solely to establish civilization that will insure better government, adequate law enforcement, the elevation of society and a more perfect national patriotism. Klansmen and klanswomen verily are 'the salt of the earth' upon whom depends the future of civilization."  
Dr. Evans dwelt at length upon the growth of the Klan which he said was poverty stricken when he took it over and now had millions of members and was bound financially.

### SLATON IS READY FOR THEIR TWO DAYS' FAIR

The circulation manager spent some time in our beautiful sister city, Slaton, yesterday afternoon, arranging for space in their exhibit hall to give to all citizens of Slaton and the many thousands of fair visitors that will invade their fair city Friday and Saturday, Sept. 26 and 27th.  
While there we attended a mass meeting of their citizens who were arranging for the big parade to take place Friday at 10:00 a. m. This parade will start from the High School building promptly at ten o'clock and every business house in the city will close from 10:00 a. m. to 12:00 a. m., so that all can take part in this parade. It is a united effort upon the part of Slaton to make a success of the business men and citizens their fair, and it is now a assured success.  
The secretary of the Chamber of Commerce has all in readiness for the farm, fruit, textile and other exhibits and the various committees will be at the city hall today ready to receive and classify the various exhibits. The poultry and livestock sections are also in

### POLICE GRILL TWO IN PROBE HUNN KILLING

By United News.  
PASADENA, Cal., Sept. 24.—With two contradictory stories of the killing of Mrs. Clifton R. Hunn, to unravel, police spent Wednesday in grilling examination of Harry Connor, known also as Harry Garbutt, and P. E. Gibson, both of whom admit they were present when the wealthy Chicago and Pasadena woman was slain last Friday night.  
Connor, following his arrest Tuesday night admitted Wednesday that it was a bullet from his gun which struck Mrs. Hunn, but said that the weapon was discharged during a struggle with Gibson, who, according to Connor, was beating the woman with a hammer when he intervened.  
Police chief Chas. Kelly has instructed his detectives to check on where the hammer was purchased, hoping to tear down or build up one of the two conflicting statements.

### FUGITIVE LEADS REBEL FORCES IN PARNA, BRAZIL

By United News.  
BUENOS AIRES, Sept. 24.—General Isodoro Lopez, fugitive leader of the recent revolutionary outbreak in Brazil, is commanding strong rebel forces in the Brazilian state of Parana and has clashed with government troops there, according to reports from the border.  
Only fragmentary dispatches are reaching Buenos Aires, coming from Rio Grande do Sul, the southernmost province of Brazil, but it declared that Lopez' force met and defeated the government troops marching toward Rio Grande do Sul.

### DAVIS CUP PLAYERS BEAT CALIFORNIA'S BEST

By United News.  
LOS ANGELES, Sept. 24.—French Davis cup players made a clean sweep Wednesday in three matches against Southern California's best tennis talent.  
Jacques Brugnon beat Tom Ferrandini 2-6, 11-9, 7-5.  
Jean Borotra won from Harvey Snodgrass, 10-8, 6-0. The French team then defeated Snodgrass and Walter Westbrook in doubles 6-2, 1-6, 6-4.

### MUST SIGN PLEDGES FOR PRESERVATION OF BOOKS

OKLAHOMA CITY, Okla., Sept. 22.—"If you love me, look on Page 163," no longer will be found in Oklahoma school books.  
The state board of public instruction which this year will supply \$950,000 worth of free text books to Oklahoma school children, has put its foot down on text books romances and love messages. Before a child is issued a free text book this year, he will be required to sign a pledge not to write in his books, to keep them clean, and return them in good condition to his school principal.

### "MISSING LINK" OF FRUIT FAMILY BELIEVED FOUND

By United Press.  
DALLAS, Sept. 23.—Dallas county commissioners are looking for an expert to classify or identify what has been termed the "missing link" of the fruit family.  
Commissioner Wright started the commotion by introducing a council meeting a specimen "something with a seed like a peach, having a pear shape and a banana skin." Each commissioner sampled the fruit and reserved his opinion. Volunteers were asked for.

### HEAD COLDS Conquered in 5 Hours

Every trace of the sniffing, depressing Head Cold will go in 5 hours or less with Dr. Platt's Linex Prescription, a new treatment which gets at the internal cause in the blood. Complete relief guaranteed in 3 hours or your money back. You can have a trial treatment free, by writing to the Clinical Laboratories, Cleveland, Ohio, and sending 10 cents to cover packing and postage. But you take no risk in getting the 11 packages direct from the dealer. On sale in this city at:

BOWEN'S DRUG STORE.

—just watch it ride!

CLEAR out of the lot! You know just what to expect when the King of Swat steps into one. He always packs a wallop—that's why he always packs the stands.  
—A cigarette, too, must run true to form. Chesterfield has come up fast because smokers have found that they can depend on it—not only for the same superior blend, the same uniform quality, but for the same untiring good taste, always!

Such popularity must be deserved

FIGHTING FIRE WITH SLOGANS

Nation-wide Contest to Promote Cause of Fire Prevention Offers \$2,000 in Prizes For 100 Best.

ONE of our outstanding needs in the fight to cut down the appalling annual destruction of human life and property by fire is slogans.

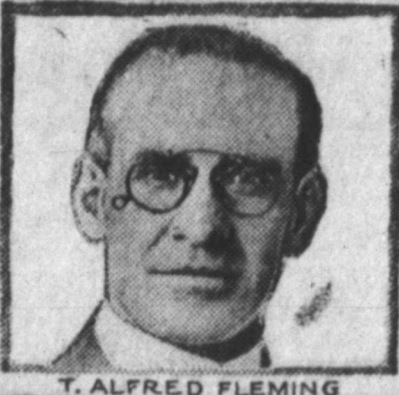

This statement by T. Alfred Fleming, Chairman of the Fire Prevention Week Committee of the National Fire Protection Association, has resulted in the inauguration of a nation-wide contest in which prizes aggregating \$2,000 for the 100 best fire prevention slogans will be awarded.

"Effective slogans are of tremendous value in our educational work," said Mr. Fleming, in discussing the contest. "Thousands of business concerns and hundreds of organizations are always ready to cooperate with us by giving wide circulation to slogans by printing them on their letterheads, envelopes, billboards and advertising material. One difficulty has been the lack of a sufficient number to supply the demand. One of the most successful local fire prevention campaigns last year was based on the following slogan written by a Texas school boy: 'A match has a head, but no brains; when you use it, head, use your brains!'"

The contest, which is being conducted by the Glenn Falls Insurance Company and its national forces of over 5,000 local agents, is free and open to the entire public, except those directly or indirectly connected with the company.

At the close of the contest all slogans submitted are to be turned over to the National Fire Protection Association for use in its educational work. There is no limit to the number of slogans any person may submit, but each slogan must be written or typed on a separate sheet of paper and mailed or delivered to a local Glenn Falls agent not later than October 15, the last day of the contest. Slogans must be sent to the post office in care of National Fire Protection Association, 150 N. Dearborn St., Chicago, Ill.

The winners of the contest will be selected by a jury of 100 judges.

THE THREE JUDGES

In 1924, by a national board of three judges, as follows: T. Alfred Fleming, Chairman, Fire Prevention Week Committee, National Fire Protection Association; J. H. Tregoe, Secretary-Treasurer, National Association of Credit Men; and Frank R. Bell, President, National Association of Insurance Agents.

AMERICA HOPES TO TAKE SEAPLANE RACE IN OCT.

By United Press PHILADELPHIA, Sept. 23—

America hopes to win the international competition seaplane contest at Baltimore on October 24 and 25 for the famous Schneider trophy as the result of speed tests by Navy planes over the Delaware River Course here.

Lieutenant G. T. Cuddeby, flying a CR-3 with a wing spread of only 22 feet six inches, established a record over the course by piloting his machine 197.6 miles an hour during a test flight.

Lieutenant R. A. Ofsie drove his plane in a trial flight 190 miles an hour. Certain alterations will be made on his machine to materially increase its speed and it is expected to do around 195 miles an hour in the race.

With Italy having won the trophy twice, England and America once, the cup goes for good to the country winning three times in five years. Thus the United States and England will do their utmost to prevent Italy winning this year and taking the trophy.

America is more than anxious to win this year for it is generally felt the winner at Baltimore will capture the 1925 sweepstakes.

The United States represented by the Navy, Italy and England are the only countries entered this year. France will enter the 1925 competition having remained out this year to make great preparations for the next contest.

Three Navy planes will be entered by the United States at Baltimore. These machines will be at Bay Shore Mr. by October 1 for final trial flights.

Lieutenant F. W. Weade is in charge of the American preparations for the contest. He hopes to have a Curtis and a Wright seaplane groomed to do 220 miles an hour before the races start.

Lieutenant David Rittenhouse, who piloted the successful American plane in the contest last year at the Isle of Wright, will pilot a Curtis seaplane while Lieutenant A. W. Gorton, another veteran racer, will drive a Wright. Lieutenants Ofsie and Cuddeby will pilot Curtis machines.

While four planes will be used in the tests only three will be used in the actual races.

A grove of giant redwood trees in Kettlewell, California, was dedicated to the memory of the late Franklin K. Lane, former Secretary of the Interior and an advocate of forest conservation.

Herds of muskox are reported within a day's run of the north shore of Great Slave Lake.

RACE EVENTS AT ABILENE A BIG ATTRACTION

ABILENE, Sept. 20—Entries for the two days of automobile races at the West Texas Fair have reached the highest notch ever attained here so far.

Twenty-five drivers actually listed. Mid-night May was the date set for closing lists; officials stated that eleven hour entries, already in the mails would swell the list of racers to over thirty, who will participate in the speed events on Wednesday and Friday, September 24th and 25th.

The "Indomitable Red" Shaffer, premier hero of the Abilene track is following his usual tactics of waiting until the last minute for filing entry; he was scheduled to come here from Syracuse, N. Y., where his most recent and spectacular victory was staged.

The greatest number of really big racers ever competing on the West Texas Fair track is seen in the line-up for this year's contests, which will feature the handiest racers and will again have the big drawing card of the "dustless track" for the efficiency of the drivers and comfort of the fans.

Entries in the fair races are: L. M. Hall, Greenville, Studebaker Special.

J. C. Kenner, Abilene, Kenner Special.

Red Fondren, Houston, Fondren Special.

F. A. Crawford, Abilene, Chevrolet Special.

Harry H. Norris, Houston Hudson Special.

Matt L. Ward, Burk Burnett, Essex Special.

Fitzhugh Lee, San Angelo, Star Special.

W. Tennill, Taylor, Ford Special.

Lee Bammel, Taylor, Ford Special.

H. V. Garner, Breckenridge, Chevrolet Special.

Dick Calhoun, Childress, Crestwell Special.

Jim Antram, Hollis, Okla., Ford Special.

Bob Stilwell, Breckenridge, Ford Special.

STAGE COMPLETED AT FAIR GROUNDS FOR PAGEANT

Preparing for one of the biggest shows in the history of the South Plains Fair, and one of the most entralling which has ever been presented in the state, Mrs. Lomax who is in charge of "King Cotton"

The Pageant of the Magic Fleece which will be staged here in connection with the free entertainment of the Panhandle-South Plains Fair, is working overtime in an effort to bring the cast of characters into thorough knowledge of the many different parts in connection with the stupendous production, and according to her statement is meeting with huge success.

The stage, from which the show will be rendered, was completed and turned over to the Fair management Monday. This consists of a platform 60 x 80 feet, four feet high, on which is erected the throne of "King Agriculture," with a lighting effect that will add greatly to the gigantic production. Over 600 persons are connected with the cast of characters for the play.

The first general rehearsal of the spectacle was held Tuesday at the Fair Park, at which the principals of the five episodes were present. It is planned that one more of these general rehearsals will be held, probably on the day preceding the first staging, which is the opening day of the Fair, October 1st.

The story which will be presented in the spectacle depicts the introduction of cotton into this country with the landing of La Salle at the mouth of the Mississippi, giving the difficulties encountered in its early history, including the ravages by the Indians and pestilence. It is brought down through the gradual stages of development, the introduction of the spinning jenny, and later the cotton gin by Eli Whitney, of which steady improvements have been made. On down through the good times in Dixie just preceding the civil war, showing the darkies on the large plantations, and the southern ladies and gentlemen the story goes, until in 1910, the staple is hit by the ravages of the boll weevils, and other pests, depicting the impoverished farmer and the vultures of hard times. At this stage King Shiloh is introduced with his bevy of henchmen, including ignorance, prejudice, dumping, competition, and speculation, all enemies of Prince Cotton, who is struggling for life.

Then in the last episode comes the bright spot in the magic picture with the restoration of Prince Cotton from these enemies, showing the value of co-operation among the farming class of people.

In short, this spectacle, world wide in its nature, will hold its audience entranced from the beginning with its sheer beauty and magnificence, all of its participants being marred in the costumes representing their day and generation.

The smallest fish in the world are the gobies of Lake Buhu in the Philippine Islands. They are only half an inch long when mature. They are eaten fried when freshly caught and pressed into cakes and dried when the market is overstocked.

Spider webs are used for the cross hairs on surveyors' telescopes. The web is taken from the insects by allowing them to drop from a loom. As they drop the web is wound on the spool and stored for future use.

NORTHWEST TEXAS FAIR WELL ATTENDED AT SPUR

SPUR, Texas, Sept. 22.—The Northwest Texas Fair opened here with a large attendance. The livestock exhibit was larger than usual and all the attractions were finer. One attractive feature of the fair was the community floats from each neighborhood in county, which exhibited products of the community.

### EFFECTS DISARMAMENT CONFERENCE OF LEAGUE OF NATIONS FAR-REACHING; U. S. WILL ENTER IF TERMS SATISFACTORY

By RAYMOND CLAPPER  
WASHINGTON, D. C., Sept. 24—Far-reaching effects of the League of Nations disarmament conference set for next June may be expected on this side of the water. Officials of this government have made no formal statement of their attitude, but it can be said that the United States will participate provided here is nothing objectionable in the agenda which is to be drawn up in advance at the conference. This development probably will put an end to President Coolidge's plan for holding a second Washington conference.

Developments at Geneva are causing this government to give deep thought to the future relations between the United States and the League. Complications arising out of America's effort to remain out of the league and yet participate in its major activities are increasing. The present situation may have arisen too late to become much of a factor in the present campaign, but it is certain that the league—barring a fiasco at its armament conference—will be done of the vital issues four years hence. Already a good many democrats are beginning to lament the side step at the New York convention. They are finding some enjoyment however, in the difficulties of the republicans in devising a formula which will square with the party's record and which will at the same time satisfy the country. The task is complicated by the influence which Senator Lodge continues to exercise in the senate. There is a general feeling however, that as soon as he releases his control on the hill, a new whiff will be worked out. Secretary of State Hughes was a pro-league republican four years ago and in pursuing his present policy he is only playing his part as a dutiful soldier.

The first big complication occurred over the world court which Hughes wanted to join. Lodge blocked this and sponsored a plan for a substitute tribunal, which in substance, if not in form, was a proposal to divorce the court from the league. But that plan has become futile because the league, by its arbitration plan is tying up the court closer than ever, making it the supreme judicial body of the league. It will be difficult for the United States to adhere to any armament and arbitration plan worked out at the league conference unless it also signs the world court protocol. The alternative of keeping out of the whole business will be difficult, assuming that an effective plan is adopted at the armament conference. This government's dilemma will be eased considerably, however, if the league makes land armaments, rather than naval armaments its

chief concern. American officials have regarded the league essentially as a league of European nations. They regard the question a European problem since the United States has only a trifling standing army compared with those maintained by European powers. But if the league becomes heavily entangled in the question of naval armament this government will have vital interests at stake. The proposal to make the British navy the league's naval police force already has caused considerable concern here. If anything like that really is in the air the United States must be considered.

### MODERN SHERLOCK SUED FOR INCOME TAX PAST DUE

WASHINGTON, D. C., Sept. 24—Sherlock Holmes, most famous detective in fiction, never seemed able to accumulate sufficient guineas to move from his "modest digs" on Baker street. But Gaston B. Means may yet become the most famous detective in actual history, has put the financial plans, according to the government records, that he is now being sued for an alleged unpaid income tax which is a good fortune itself.

Working under the American plan Means has piled up a fortune, variously estimated at from \$600,000 to more than \$1,000,000 in the last three years, while sleuthing here and there, spying on senators and congressmen and prying into their papers, according to income tax records.

This was revealed when Means was sued in the district supreme court by the government Tuesday for non-payment of back taxes, the total amount involved being \$267,614.40, of which \$214,091.52 was tax, and the rest penalty for failure to pay. The tax is for the years 1921, 1922 and 1923. On the basis of an approximate tax payment of \$71,000 due each year from Means, the income represented would be \$200,000 a year, without any allowances, according to an income tax expert in the treasury. It might represent an income anywhere from \$200,000 to \$500,000 a year or more, it was explained if deductions were allowed. The lowest possible figure for the income during the three years would be \$600,000, with a possible maximum of \$1,500,000. It was known that the investi-

gator had a comfortable fortune. Means during the three years in which he has received such an income, was reported in the various activities whose relation in the investigation at the capital created such a sensation. The income tax case against Means will be expedited as well as the other action now pending against him in New York, attorney general Stone said Tuesday, declining to discuss the case filed at the district supreme court. Means is out on bail pending the appeal from his conviction and sentence to two years in jail and a \$10,000 fine for defrauding the government.

Stone said that "after his appeal is decided against him" the investigator will spend a long vacation in the Atlanta prison. While these developments took place here Tuesday, Means was resting with his wife and son, at Concord, N. C., his old home. In a statement given out there, he declared that an agent of the republican national committee had approached him some time ago and promised that if he would keep quiet and give out a statement that his testimony was false, he would come out all right and would be protected. Means said he signed the statement in a New York hotel and that Harry M. Daugherty was at the Waldorf Astoria the day he signed it. He claimed the statement was prepared by a prominent Washingtonian, whose name figured in the Teapot one investigation.

### MODERN PIED PIPER USES TRAPS TO CATCH RATS

HOUSTON, Sept. 22—The modern Pied Piper has made his appearance here. But instead of musical instruments this modern rat-burster uses traps—and with a vengeance. The reason: During the past few weeks rodents have ganged in and about the new \$2,000,000 Deepwater lighting plant of the Houston Electric Company and their favorite dish has been the varnish on the high voltage power cables. The varnish is said to be strawberry shortcake for the rats and they pay for this rare dish with their lives for a short circuit is inevitable when they eat through. But the company pays dearest. It means a shut down in service of usually half an hour.

So an expert Pied Piper was employed. He uses dozens of traps and guarantees that the rats will feast no more.

### CONNERLY DECLINES JOB ON ACCIDENT BOARD

AUSTIN, Texas, Sept. 22.—R. H. Connerly, who has been offered a place on the industrial accident board Saturday informed Governor Neff that he would not accept the position. Mr. Connerly will thus continue as clerk at the Third Court of Civil Appeals, a place he has held for many years. It is not known who the Governor's next selection for the place will be. J. E. Proctor, whose term expired in Sept. 1, 1923, held the job.

### KIWANIANS WILL GO ON BOOSTER TRIP THURSDAY

Sure, there will be no Kiwanis luncheon today.

Did you ever see the members of this club fail to respond to a call to go out into the towns surrounding Lubbock and boost the South Plains Fair? Well, they are still making good their record, of sending so many or more boosters than any other such organization in the city, according to Secretary Geo. Brewer, and have postponed their regular meeting from Thursday to Friday in order that as many members as possible can go on the trade trip.

A dandy good program is being worked out for Friday, however, and those who make the trade trip may rest assured that on the day following, regardless of how they feel following the day's activities, they will be well fed and highly entertained. The manner in which all of the clubs and Chambers of Commerce respond to any opportunity to boost the fair is more than anything else responsible for its constant growth and development and due to the efforts of the memberships of these organizations the attendance at the fair this year will exceed by large numbers, the attendance at the fair last year when the attendance was greater than at any past fair here.

### POSSIBILITY FOR FREEDOM FRANKS SLAYERS SEEN

JOLIET, Ill., Sept. 24—Nathan Leopold, Jr., and Richard Loeb, sentenced to life imprisonment for murdering 14-year-old Robert Franks want their freedom. And they are not sure that they'll get it. They admitted this much to their attorney Clarence S. Darrow, when he paid his first visit to them since they came here.

Darrow told his young clients that he saw no chances for them ever to be free, at least not until they were old men. But some of the prison officials and prisoners saw in arrow's visit a possible conference between Loeb, Leopold, and their chief counsel during their trial, with a view to obtaining some change of sentence, or possibly a pardon. Loeb and Leopold are not exactly happy over the prospect of remaining in Joliet the rest of their lives. And, furthermore, the two youths, who once did about as they pleased, have to work every day. Loeb recently told fellow prisoners that the "only way for a lifer to get out of this place is to go crazy."

Darrow asked whether he believed either of the youths had become

### TRAILING "BAD MAN" IS PLEA OF NEGRO "SLEUTH"

VICTORIA, Texas, Sept. 22—He was the graduate of a detective training correspondence school, and had been on the trail of a "bad man" for many months, all of which gave him the right to carry a big pistol, declared Kid West, negro, when arrested here recently for carrying a pistol.

But even his diploma from the "detective college" failed to save him from a sentence in the jail here.

insane since reaching Joliet, or whether he thought both might become insane, replied: "One can never tell what will happen. There is no present indication that either one of them has changed. They undoubtedly have mental disease, which falls short of the legal definition of insanity."

"I would never have known either one of the boys," arrow said. "Their appearances have changed."

Darrow, Foreman Leopold and Allen Loeb drove here from Chicago. They were closeted with the two prisoners for more than an hour.

## Our Formal Opening

THURSDAY, SEPTEMBER 25, HOURS 5 to 8 p. m.

We take pride in announcing the formal opening of our new two story fireproof home at the corner of Avenue H and 13th Street and take this occasion to invite everyone to visit us on Thursday, September the 25th and help us celebrate this event. The whole building will be open for your inspection.

### Reminiscences

For over 22 years this Abstract plant has been rendering prompt and efficient service to the people of this section and we know of no business in this city that has been operating this long with as few changes in the management and we want to take this occasion to thank each and every one, from the depth of our heart, that have in any way contributed to our success thus far.

### Abstracts One-Half Price

In order to show you our appreciation in a more substantial way than mere formal words, we will give 50 percent off of the regular price on all orders for abstracts either given us in person or sent us by mail. Remember this offer only holds good during the opening and if you are going to need any abstract work, place your order opening day.

### Music For The Occasion

We have engaged an orchestra who will play during the hours of our opening. Be sure to arrange to be there, we will appreciate your visit and assure you a pleasant time. Souvenirs for all. Bring the whole family. The hours of the opening are 5 to 8 p. m.

### NOTICE!

To the Stockholders of the South Plains and Santa Fe Railway Company:

You are hereby notified that the Board of Directors have called a meeting of the stockholders to be held in the City of Lubbock, County of Lubbock, State of Texas, at the principal office of the Company on the eighteenth day of November, 1924, between the hours of 10 o'clock a. m. and 4 o'clock p. m., to consider and act upon a proposition to authorize the execution by the Company of a mortgage or deed of trust to be called "first mortgage" or by such other name as may be determined, on all of its railroad properties now owned or hereafter acquired to secure bonds to be hereafter issued in series, as much of such bonds as may be necessary to be used from time to time in paying or exchange for the indebtedness of the Company, other bonds to be issued to be used for the acquisition, construction or extension of railroads, additions and betterments to such railroads and properties now or hereafter owned, and for other lawful corporate purposes, each series of bonds to be issued to mature at such time and provide for the payment of such lawful rate of interest, to be tax free or not tax free, to be convertible or not convertible into shares of capital stock as may be determined by the Board of Directors, and to contain such other terms and conditions as may be determined or prescribed by said Board, and such mortgage to contain such terms and conditions as may be prescribed or authorized by the stockholders at said meeting.

W. S. POSEY, Secretary.

### SHERIFF'S SALE

The State of Texas, WHEREAS, By virtue of an Order of Sale issued out of the District Court of Lubbock County, Texas, on a judgment rendered in said Court on the 17th day of May A. D. 1924, in favor of J. H. Martin and against Hill Christian No. 1666 on the Docket of said Court, and to me, as Sheriff, directed and delivered, I did, on the 3rd day of September A. D. 1924, at 3 o'clock P. M., levy upon the following described tracts and parcels of land situated in Lubbock County, Texas, and belonging to Hill Christian to-wit: The Southwest one fourth (S. W. 1-4) of Survey No. twelve (12), in Block R-G, in Lubbock County, Texas, which said land is located about two and one half miles south

## MARKETS

### GENERAL ADVANCE BELIEVED UNDER WAY ON EXCHANGE

BY EDWARD J. CONDLON  
NEW YORK, Sept. 24.—The performance of the stock market this week which culminated Wednesday in a turnover of a million shares led to predictions that the general advance had again gotten under way. For the first time in several days railroad shares took the lead, at least from the standpoint of net gains for the session. Record highs, new tops for the year and new peaks on the movement featured proceedings. Though the standard dividend payers among the rails and industrials scored sizeable gains, the best improvement occurred in the specialties, particularly those in which pools have been active. Wednesday the fact that Gordon and the old leaders returned to favor, with specialties evidently accumulating on a large scale.

One section of the stock list which has given a good account of itself this week in the face of disquieting market news is the petroleum group. The cuts in crude and refined oil prices at the start of the week somehow have failed to shake confidence in the belief that the worst news concerning the oil industry is out and that any important change must therefore be for the better.

The fact that Gordon and company officially denied that they are contemplating a new bond issue, lends color to the reports that the optimism is prevalent in some sections of the oil trade at least. However, no hope was held out that the increase in Pacific coast crude oil would be the forerunner of increases in mid-continent crude in the near future.

Prices slid off in both cotton and grains, in the former on profit taking following the rush-up of Tuesday and in the latter on account of nervousness over the decline in foreign orders. The weekly weather report indicated that conditions were generally favorable over the cotton belt and that picking had been interrupted by frequent rains.

**New Orleans Cotton.**  
NEW ORLEANS, La., Sept. 24.—(Via Private Wire)—The cotton market went through a sobering down process today and values eased off about 40 points as a result of this. There was enough hedging at the start coupled with some short selling to cause a 50 point drop. After this let up values slipped about 40 points but slipped again in the afternoon.

There was very little news to account for the decline as the basis was reported some higher, the demand from abroad is good. Dry-goods markets were more active at a substantial advance and looking point to heavy exports for the remainder of the month. Some advices also indicated there is a good deal of cotton yet to be bought to fill September commitments. Yesterdays government estimate has made crop figures of 42,000,000 and above, obsolete but there is a large element in the trade who still believe that 12,500,000 bales will prove ample to go around in view of the unwillingness of American

of Idalou, Texas, on the 7th day of October A. D. 1924, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day at the Courthouse door of Lubbock County, Texas, in the town of Lubbock, I will offer for sale and sell at public auction, for cash, all the rights, title and interest of the said Hill Christian in and to said property. Witness my hand this 3rd day of September, A. D. 1924.  
H. L. Johnston,  
Sheriff of Lubbock County Texas.  
255-4 Thur.

### DALLAS SPECIALIST SHOWS INTEREST IN COLLEGE

Dr. John T. Turner, nerve and mental disease specialist of Dallas, who is here to appear as a state's witness in the Will Word murder case, is a lifelong friend of Senator W. H. Blodsoe, they having grown to young manhood together in Bosque county, and have enjoyed visits one with the other at intervals since those early days. Both men are apparently enjoying the doctor's visit to Lubbock, and just to prove to the Dallas man that Lubbock is the home of a sure enough college, the senator drove him to the Tech site late Tuesday afternoon where they inspected the buildings now under construction. The doctor exhibited much interest in the project and was surprised at the construction work that has already been done toward building it.

### SUGAR PRODUCTION DECREASES UNDER FORDNEY-McCUMBER TARIFF LAW

The pretext upon which Senator Smoot of Utah who is interested in and is spokesman for the Beet Sugar Trust, forced the high duty of 1.7648 cents per pound on Cuban sugar imports into the Fordney-McCumber Tariff Act, was that it would stimulate American production and save American consumers from the clutches of the Cuban sugar growers.

For the seven-year period, 1914-1920, when the Underwood-Simmons duty of one cent a pound on sugar was in effect, American sugar production, beet and cane, averaged 2,855,031 tons annually. In no year since the emergency tariff rate of 1.6 cents went into effect in May, 1921, or the Fordney-McCumber rate of 1.7648 cents per pound went into effect in September, 1922, has American production equalled that during the years of the Underwood-Simmons once-cent rate.

For 1921-22, with the emergency rate in effect, it was 2,387,530 tons or half a million tons below the Underwood-Simmons law period average. For 1922-23, it fell to 1,895,462 tons, a falling off of a million tons under the even higher Fordney-McCumber rate, and figures for 1923-24, actual and estimated, fix production at only slightly more than 2,000,000 tons, probably about \$2,100,000.

This duty not only has not stimulated production, but production has heavily decreased, yet it has added a minimum of \$216,000,000 to the consumers' annual sugar bill.

Who is the Cyclops of Lubbock? Hear him on the court house lawn, Thursday night, Sept. 25th. 281-4f.

Leaders of Southern Churches Plan for Religious Teaching of Children in the Holy Lands

DR. JAMES I. VANCE, NASHVILLE, TENN., and BISHOP JAMES CANNON, JR., BLACKSTONE, VA.

CHURCH leaders from every part of the South are taking a large interest in the post-war problem of religious education for the remnants of the Christian races in Bible Lands. This interest recently crystallized in the departure for Palestine and Armenia of Bishop James Cannon of the Methodist Episcopal Church and Dr. James I. Vance, pastor of the First Presbyterian Church of Nashville.

CHARGES KLAN WITH "GAG RULE" ON REPUBLICANS

COTTONWOOD FALLS, Kas., Sept. 23.—Wm. A. White, nationally known editor began his campaign as an independent candidate for governor here Monday with a vigorous attack upon the Ku Klux Klan, charging that it has applied "gag rule" to the republican party.

party by the invisible government in the Kansas primary. "A few weeks later," the fiery editor continues, "the cyclops, pterodactyles, klegles, wizards and willopus-wallupes began parading in Kansas cow pastures, passing the word down to the shirt-tail rangers that they were to go to Kansas primaries and nominate Ben Paulen.

PROBE DAUGHERTY REGIME MAY BE RESUMED SOON

WASHINGTON, D. C., Sept. 23.—Investigation of the Daugherty regime in the department of justice may be resumed soon as the result of the new sensation caused by the disputed repudiation by Gaston B. Means of his amazing testimony here last winter.

GOVERNMENT ENTERS BUFFALO MEAT BUSINESS

MOISE, Mont., Sept. 23.—Because buffalo, elk and other wild animals have become too numerous on the Montana national bison range, the government has decided to enter the wholesale meat business.

HUMAN HAIR ACTS AS FOG WARNING

WASHINGTON, D. C., Sept. 23.—As the fact that human hair stretches under moisture has been applied by the United States Light-house Service in the operation of the newest form of electric fog bell which is made to ring automatically when the atmosphere reaches a certain degree of dampness.

LOWEST DEATH RATE IN HISTORY OF THIS COUNTRY

NEW YORK, Sept. 23.—The death rate for the first six months of this year is the lowest for the first half of any year in the history of the United States and Canada, according to an estimate in a life insurance statistical bulletin.

CITY MANAGERSHIP SYSTEM IS URGED BY EX-MAYOR

COLLEGE STATION, Sept. 22.—Lowest taxes can be secured only through the city manager system of city government.

ship eventually will take its place with medicine and law as one of the professions. "To be a city manager, a man must learn how to meet every problem of city government," Spence continued.
