Why Illinois Cattle & Proop Medicine is superior to other preparations.

1st. Because it contains each and every ingredient mentioned in our formula.

2nd .- The Tobacco used in its manufacture is bet ter than is ordinarily used in a preparation of this kind, it is free from dirt and sand and is used in larger quantities, 25 per cent tobacco being used. Tobacco is also used as an antidote to poisons.

3rd .- We use Pure Ground African Ginger Root, (not exhausted ginger) and this ginger being the best we can buy is used by us in sufficient quantities to serve the purpose for which we seek.

4th .-- We do not use too much Sulphur because it is cheap but just enough to do the work.

5th .- We use Soda Bicarbonate in sufficient quantities to keep the stomach sweet and to prevent fermontation of the food but do not use any more than should be used.

6th. we put in just enough Charcoal in these goods to take up any gas that might start in the stomach and only enough to act as a disinfectant and deoderizer to the stomach and intestines but do ot put in chargoal to make up weight or bulk.

7th. Iron Sulphate is used in the exact quantity as an appetizer and we absolutely know the correct amount that should be used, too much might have a harmful effect and not enough would do no good, whatever.

8.h. Sulphate of Soda in the correct amount is used as a cleanser to the stomach and intestines, too much would have a tendency to scour both cattle and sheep by making their bowels too loose, which would be harmful, while just enough is beneficial as a laxative.

9th. We use Areca nuts as a vermicide and as an antidote to poisons taken into the stomach from growths of different kinds that are found on the western ranges.

10th. We use just enough Sodium Chloride, (Common Salt) to satisfy the demand for salt and not too much because it is cheap. We know the correct amount.

Illinois Cattle and Sheep Medicine is not sold as being the same or just as good as other preparations but it is superior, different entirely and better-We never change our formula when we run out of some certain drug. Our medicine is always the same, every batch, every bag uniform.

We sell ILLINOIS upon its own merits claiming it is superior and our friends would be doing as a great injustice should they feel or say that our goods are the same, or in substance like other products that are being offered for sale.

We have never knowingly made a statment regarding Illinois Cattle and Sheep Medicine that we cannot substantiate with facts. Our idea is to supply superior goods all the time that are more effective.

Be sure you buy the best and see the bag and know that it is branded ILLINOIS CATTLE AND SHEEP MEDICINE

I AM GLAD TO ENDOR PE-RU-NA

Glad to Try Anything "Three years ago my system was in a terribly run down condition and I was broken out all over my body. I began to be worried about my condition and I was glad to try naything which would relieve me. Perma was recommended to me as a fine blood remedy and tonic, and I soon found that it was worthy of praise. A few bottles clauged my condition materially and in a short time I was all over my restoration to health and strength to Perma. I am glad to endorse it."
