

THE DEVIL'S RIVER NEWS

VOLUME 36

SONORA, SUTTON COUNTY, TEXAS, FRIDAY, JULY 15, 1927

NUMBER 2,010

GOOD RAINS FALL OVER WEST TEXAS

Wednesday night this section was visited by a general rain, which started falling about twelve o'clock, and continued intermittently until the precipitation amounted to one and one-quarter inches. It is believed that the rain covered the entire State, as reports from Ozona, San Angelo, Del Rio, Big Lake and other places are to the effect that good rains had fallen.

This part of the country, especially in the immediate vicinity of Sonora, was needing rain badly. The rain here will greatly improve range conditions and feed crops.

W. C. Bryson, who ranches about twenty-five miles southwest of here, states that the rain Wednesday night was the first he had had since the cyclone swept Rocksprings away, and that he received only about one-fourth of an inch.

Present indications today (Thursday) look promising for more rain, which would be welcomed by ranchmen and citizens over the country.

Neill-Harris

A beautiful home wedding occurred on Saturday morning, June 9th, at 11 o'clock, when Miss Elizabeth Harris, daughter of Mr. and Mrs. W. F. Harris, became the bride of George Harman Neill of Sonora, Texas. The simple but impressive ceremony was performed in the presence of the bride's immediate family and a number of relatives, with Rev. A. H. Clark officiating.

The bride and groom entered together and stood before an improvised altar in the living room to exchange their marriage vows. A beautiful console mirror entwined with lace ferns provided a fitting background for the floral setting. Tall pedestals on each side of the mirror held baskets of bride's roses and ferns, while floor basets grouped with these marked the space where the bridal party stood. Prior to the ceremony, Miss Lea Mangham sang sweetly, "God Touched the Rose," by Leo Bruin. She was accompanied on the piano by Mrs. LeRoy Hamilton, who also played the wedding march for the entrance of the bridal party.

Miss Bertha Harris served as maid of honor, being charmingly gowned in a lovely powder blue georgette afternoon dress. She carried a beautiful tiara. She wore a small hat to correspond and carried a beautiful colonial bouquet of Premier roses and ferns. The bride wore her going-away costume of navy blue crepe, a beautiful two-piece model, and with which was worn a small navy hat in tailored style. She wore an exquisite corsage of Columbia rosebuds and lilies of the valley. The groom was attended by the bride's brother, Hunter Harris, as best man.

Following the ceremony, an informal reception was held when the bride and groom received congratulations and good wishes from those present. A delicious plate luncheon was served with Misses Florence Hunter and Nettie Evelyn Lockart assisting in serving the guests. Mrs. Joseph Edgar presided over the bride's book. Mr. and Mrs. Neill left immediately on a bridal trip in their car, and later will be at home in Sonora.—Cuero Record.

Mr. Neill has many friends in Sonora, gained since his coming to this city. At present he is assistant cashier of the First National Bank of Socharge of this responsible post. The News, together with the many other friends of this estimable young man, wish for the young couple all the joy and success possible.

Mrs. Shurley Buys Renfro Chickens

Mrs. Merton Shurley has purchased 100 pedigreed S. C. White Leghorn pullets from Mrs. Renfro's flock of hens. The pullets will lay from 200 to 297 eggs a year, and are said to be among the best strains in the State. Mrs. Shurley expects to continue to trap these chickens, and keep them in the best of condition.

Mr. and Mrs. Renfro have leased a place near Menard where they will make their home. Their many friends in this county regret their leaving, and wish for them much success.

DO YOU KNOW?

ANSWERS

1. Five. Torrid, South Temperate, North Temperate, South Frigid and North Frigid.
2. John Bunyan. Daniel Defoe. Dean Swift.
3. San Davis.
4. Leland Stanford Jr. University. University of Alabama. Notre Dame. University of Michigan. University of Illinois.
5. They were drowned in the Red Sea.
6. Ben B. Lindsey.
7. Zillaha.
8. As often as. By what right? In fact.
9. Mendelsohn. Lohengrin.
10. Three. William J. Bryan, Robert Lansing and Bainbridge Colby.
11. Pekings, Indian Runners, Rouen Muscovies, and Cayugas.
12. In the 13th century. In China.
13. About 4,000 years ago.
14. Three. Andrew Johnson, Grover Cleveland and William J. Bryan.
15. The Philippine Islands. \$20,000,000.00.
16. Vodka. Whiskey. Beer.
17. Surveying.
18. A brigade of South Carolinians commanded by Gen. Bernard Bee, were being driven back; in order to rally his men, General Bee pointed to Jackson's command, and said, "There stands General Jackson like a stone wall." The name stuck, and General Jackson was ever afterward known as "Stonewall" Jackson.

O. S. T. Makes Much Progress in Building

Work on the Old Spanish Trail this past year has been pushed rapidly, and the completions are numerous. The eastern section of the transcontinental highway has made wonderful progress in disposing of serious obstacles, and that section now shows more completed roads than the western section. As an instance of the progress being made toward making this highway one of the best in the nation, figures recently released show that there has been spent \$60,000,000 on both old and new construction on the highway this year, with new construction the past year completed and opened totaling more than \$21,000,000.

Among the more important stretches or obstacles that have been thrown open to travel during the past year, the following deserve special mention: January, Iberville bridge, in Mississippi, \$350,000; February, Sugarland to Richmond, Texas, concrete paving and bridge, \$1,000,000; March, Dayton, Texas, concrete paving, \$250,000; June, Mobile Bay bridge, \$2,500,000; July, Liberty county and East Texas, bridges and paving, \$3,806,000; Labor Day, at Live Oak Florida, completed paving Talahassee to Jacksonville, \$5,900,000; September, Sabine River bridge, Texas-Louisiana line, \$1,000,000; July, Gila River bridge, Gillespie Dam, Arizona, \$500,000.

Other works include numerous paving completions in the east and in the Mountain Springs grade, concrete, in Southern California and numerous other bridges. The Bay of St. Louis bridge two miles, in Mississippi; the Pascagoula River bridge, in Mississippi, which will complete the span of three miles over that bay will be opened this winter.

Forty-two per cent of the mileage from San Antonio to St. Augustine is now paved. The projects financed and officially authorized indicate the prompt completion of paving from San Antonio to St. Augustine—also northward through Mobile and Alabama to the northeast—other major improvements from the north southward to the OST insured paved trunklines for the eastern Old Spanish Trail and connections with the North. This program of construction is so remarkable in cost and achievement that people will realize its meaning only as they now discover how rapidly and splendidly the roads are opening.

MRS. STUART HOSTESS TO BRIDGE CLUB TUESDAY

Mrs. Louie Stuart was hostess to the Tuesday Bridge Club this week. Three tables of players enjoyed the afternoon. Mrs. Wilson was the winner of the high club score; Mrs. Kelley the low club score, and Miss Guila Lowrey the high guest score. The afternoon was terminated by serving dainty refreshments.

RATTLER BITES MAN ON PET CORN

We have heard of mosquito bites, ant bites, and such like, but we never heard of a snake biting a man on his pet corn. This sounds more like a fish story, but nevertheless it is true, for E. F. Vander Stucken will verify the statement. A Mexican employed on the E. F. Vander Stucken ranch 25 miles south of here, had been laboring near the ranch house, and when meal time came he stepped into his place of abode to wash his face. He had only begun when, to his surprise, a rattler bit him on a corn that was projecting through a hole in his shoe which had been cut for that purpose. This may lead to a new discovery for corn curing or removing. The Mexican still remains in Sonora under the care of a physician but is not considered to be in a serious condition, according to Dr. Blanton, who stated that the fangs of the rattler barely penetrated the flesh and that the poison was obstructed.

Miers-Ogden

A wedding of more than usual interest took place last Sunday afternoon, July 9th, at which time Mr. Cyrus Ogden of Sonora and Miss Alma Miers of Harriett were united in marriage. Rev. Hay, pastor of Emmanuel Baptist Church of San Angelo, performed the ceremony, which was witnessed by a small number of relatives and friends of the contracting parties. The marriage was consummated in San Angelo at four o'clock in the afternoon. After the ceremony, the young couple left for Sonora, from which place they left last Tuesday for Corpus Christi, at which place they will spend two weeks on a honeymoon trip, after which they will return to Sonora to make their future home.

The bride is a daughter of Mr. and Mrs. T. L. Miers, prominent people of Harriett, near San Angelo. She is a host of friends in that section who speak well of her, and wish for her joy and contentment in her venture into matrimony.

The groom is a home boy, having spent all of his life in Sonora and Sutton county. He has been employed for some time as a mechanic at the Sonora Motor Company. He has a host of friends here who wish for him and his bride their share of success, happiness and the other good things of life, with none of the sorrows.

Livestock Deals Made This Week by Benson

T. L. Benson reports the following livestock deals:

Sold for J. C. Montgomery of Ozona to Frank Lacy of Brownwood, 500 yearling steers.

Sold for Phillips Bros. of Ozona to Lacy and Penn of Brownwood, 3,000 mixed lambs.

Sold for R. A. Hamilton to Featherstone & Hayes, 100 cows and calves.

For Albert Schweining to Weaver & Latham of San Saba county, 1,000 yearling nannies.

For A. F. Clarkson to Dee Finley of Ft. Worth, 1,600 mutton sheep.

Sold to Thompson & Freeman of Kerrville, for following parties: Cleve Jones, 600 chevons; Kelsey & Son, 200 chevons; Jim Rogers & Son, 250 chevons; Montgomery & Williams, 150 chevons.

Sold for Featherstone & Hayes, 100 cows and calves to Earl Avery of Llano.

Sold for R. E. Taylor, 250 nannies for Walter Lee of San Angelo.

INDUSTRIAL EDITION OF THE SAN ANTONIO EXPRESS HERE

The News is in receipt of the Southwest Texas Historical and Industrial Edition of the San Antonio Express, issued on June 21. The edition is a most splendid example of the printing trade's art, is bound in expensive cover paper, and altogether is a most commendable piece of work.

The issue carries articles about all of Southwest Texas, from Alpine and Del Rio on the west to Austin and New Braunfels on the east, taking in all of the livestock section of Texas and extending to the Gulf. The ten sections of the edition cover all the resources and advantages of South and Southwest Texas. It should be a source of pride and gratification to the men who are responsible for the edition.

HUMBLE PIPE LINE WORK PROGRESSING

Good progress is being made on the Humble pipe line, which is being laid from McCamey to Corpus Christi. About thirty-five miles of the line have been completed, according to reports, with work on the ditches being carried on at several different places along the route of the line. Moving of the camps was completed last week from sections where the line has been completed.

The Oklahoma Construction Company has the contract for ditching and back-filling, and it is supposed that the Humble Company is doing the pipe laying, since it has about three hundred men on the work, while the Oklahoma Construction Company has about a thousand men working with ditching machines, backfillers and blasting materials. One section on the route is being dug without the aid of a ditcher on account of the hard rock formation encountered. This section is presumably in the eastern section of Edwards county.

After the line is laid to San Antonio, the Humble will take charge of the line and complete it to Corpus Christi.

Station A, located about twenty-five miles west of Sonora on the Sonora-Ozona highway, is now being constructed, with seven houses to be completed within a few weeks. Other construction work on the camp will include such conveniences as will make the stay of the employees at the camp equal to living in town. The camp is situated about eight miles to the east of the highway.

Considerable more work is necessary on Station B than was necessary on Station A. A road has to be constructed through the country to the station site, which is about thirty miles east of Sonora and fifteen miles south of the Sonora-Junction highway. Station B has not yet been located.

News Awards \$5 Prize

In the contest staged by the News last week, there were no correct lists brought in to the office. A number of them were almost correct, and the two best lists, those belonging to Mrs. Mans Hoggett and B. Hamilton, were named prize winners. The first prize of five dollars was equally divided between the two, since they were both tied for first place with 48 errors out of 54. Below is given the corrected list of errors:

Annual Round-Up at Sub-Station 14

The annual round-up, barbecue and celebration indulged in at the Sonora Experiment Sub-Station No. 14 will be held this year on August 9th and 10th. Leading men in the livestock industry in the State and Nation will take an active part in this celebration, as they have done in the past, assuring an interest in their part of the program. Following is given the complete program, which shows the many attractive features provided:

Tuesday, August 9th

8:30 a. m.—Inspection of ranch Experiment Station.

10:00—Bugle call for assembly at the pavillion (sheep shed).

10:01—Address of welcome, T. O. Walton, president of Texas A. & M. College.

10:15—Response to address of welcome, Judge James Cornell, attorney for the Sheep and Goat Raisers' Association, San Angelo.

10:30—The Ranch Experiment Station and Its Opportunity for Service to Southwest Texas, Dr. B. Youngblood, director, Texas Agricultural Experiment Station.

10:50—Address, T. A. Kincaid, president of Sheep and Goat Raisers' Association of Texas.

11:10—Address, H. M. Kleberg, president Texas & Southwestern Cattle Raisers' Association.

11:30—Address, Hon. Claude B. Hudspeth, member of Congress, El Paso.

12:30 p. m.—Barbecue dinner on grounds of Ranch Experiment Station

1:45—Trend of Beef Production, Professor W. A. Cochel, managing editor, Kansas City Star, formerly secretary American Shorthorn Breeders' Association.

2:15—Address, E. J. Kyle, dean of school of agriculture, Texas A. & M. College.

2:30—Round table discussion of dis-eases of livestock, H. Schmidt and W. L. Black, leaders.

4:45 to 3:30—Women's meeting in Veterinary Laboratory Building.

a.—Health Standards for Growing Children, Dr. Jessie Whitacre, chief, division of Home Research, Agricultural Experiment Station.

b.—Home Tinting and Dyeing, Mrs. Dor R. Barnes, clothing specialist, Extension Service, A. & M. College.

3:30—Polo game.

4:00—Supper and Recreational hour.

8:00—Moving pictures.

8:30—Dance.

Wednesday, August 10th

9:00 a. m.—Address, President H. L. Kent, New Mexico College of Agriculture and Mechanic Arts.

9:20—Poisonous Plants on the Range, Dr. C. D. Marsh, in charge of investigations of stock poisoning by plants, Bureau of Animal Industry, U. S. Department of Agriculture, Washington, D. C.

Round table discussion led by V. L. Cory, grazing research botanist, Ranch Experiment Station, and J. D. Jackson, ranchman, Alpine.

10:20—Safe Farming and Ranching, C. H. Alvord, director, Extension Service, Texas A. & M.

10:35—Cost and Method of Range Livestock Production, Roy Aldwall, ranchman, Sonora.

Discussion, led by L. P. Gabbard, chief, division of farm and ranch economics, Texas Agricultural Experiment Station.

11:00—Rate of Growth, and Development of Beef Cattle on the Range, J. L. Lush, animal husbandman in charge of breeding investigations, division of range animal husbandry, Texas Agricultural Experiment Station.

Discussion, led by Geo. W. Barnes, beef cattle specialist, Extension Service, A. & M. College.

11:30—Results of Wool and Mohair Tests, W. H. Dameron, wool and mohair specialist, Texas Agricultural Experiment Station.

Discussion, led by J. M. Jones, chief division of range animal husbandry, Texas Agricultural Experiment Station.

12:00—Barbecue dinner on grounds of Ranch Experiment Station.

1:30 p. m.—Demonstration in judging fine-wool sheep, J. V. Drisdale, Juno, Texas.

2:30—Demonstration in judging Angora goats, Bob Davis, Uvalde.

3:30—Boys' sheep and goat judging contest, Sterling C. Evans, boys' club agent, Extension Service, A. & M. College.

5:00—Adjournment.

COMING HEADLINERS AT THE LA VISTA

"Tin Gods" is a flashy picture with a punch. In the cast are Thomas Meighan, Renee Adoree, Sileen Pringle and six other well-known characters. Thomas Meighan is willing to stand on "Tin Gods" as the highlight of his career. Renee Adoree, wistful, lovely and has a part in this picture that can well be compared with her "Melisande" in "The Big Parade." Miss Adoree's rise to fame in the past year has been the talk of the industry. Aileen Pringle in this picture is given ample opportunity to display her versatility. "Tin Gods" is considered one of Paramount's best efforts for 1927.

On Tuesday night you will be entertained with the great Universal picture, "Perch of the Devil," from Gertrude Atherton's sensational novel Supported with these well-known stars: Pat O'Malley, Mae Bush, and Jane Winton, this one of the "Universal Jewel" pictures, and one of their best efforts.

On Wednesday night in the Pathe picture, "Percy," with Charles Ray, Charlie Murray and Betty Blythe, as well as many other screen celebrities too numerous to mention, you will see the Mexican Oasis for thirsty Americans, Tia Juana and Mexicali. If you have never been so fortunate (or unfortunate) as to visit the twin hills on the border, you will see a very good likeness of the same in Charles Ray's second Pathe picture, "Percy." The Red Owl Saloon is typical of the dance halls in these two towns. Renegades from all nations gather here, with a goodly sprinkle of thirsty Americans tooting them up as usual.

The elaborately stocked bar will be seen, and every sort of gambling device known to the border will be shown as well as the stoutest American bank roll is warranted to fade quickly. See it all in "Percy."

On Thursday night William Fox presents "Bertha, the Sewing Machine Girl," a love and lingerie edition of the great melodrama, with Madge Bellamy, Allan Simpson, Sally Phipps and others. Friday night, Carl Laemmle presents Laura La Plante and James Kirkwood in "Butterflies in the Rain." This is another "Universal Jewel" and the two leading characters are so well known that you are guaranteed a first class show in every respect.

Saturday night will wind up this week of wonderful attractions with a First National production, "Just Another Blond." Oh, boy! It is putting it mild to say you will get a punch and a kick out of this show. As well as a world of enjoyment. Look who is putting it over. It's bound to be great with Dorothy MacKall, Jack Mulhall, Louise Brooks and William Collier, Jr. Immediately after this performance, the Sheep and Goat Raisers will put on a film, and lecture on the same. No charge of admission for this part of Saturday night's program. On account of the additional attraction, the doors will open at 7:30. Show starts at 8:00 o'clock sharp. Please be on time.

To my patrons, I wish to say that I am doing everything in my power to give you the best of entertainment. Look over the above shows; compare the shows and the great variety of the same with any show house in the State of Texas, big or little. You can't beat them anywhere. In a few days we will have installed a large ceiling fan under the gallery. Just as soon as the electricians can get to it, the work will be done. This, with the added improvements being made at the Sonora Light & Power Company plant will contribute greatly to your comfort, and the added power will give the pictures much better light and showing in every way.

Also, here is something else that will please you—have just bought eight brand-new double rolls of music which will go on immediately. Hoping this will meet with your approval, we are

Yours to serve,
K. V. E. Scott, lessee and manager.

MRS. EARWOOD ENTERTAINS LADIES AID SOCIETY AT HOME

Mrs. Loraine Earwood was hostess to the Ladies' Aid Society at her home last Wednesday afternoon. After proper business was disposed of, the ladies enjoyed a social hour. Delicious refreshments were served.

Theo Savell was in from the ranch the first of the week visiting and attending to business.

Mrs. Ben Wayne Greig and little son are here visiting Mrs. Greig's parents, Rev. and Mrs. J. A. Stephen. They will be in Sonora for some two weeks.

Pink Glasscock, who was suddenly taken ill last Wednesday and who is now in the San Angelo Hospital, is reported to be improving rapidly.

Mrs. W. F. Luckie and daughter, Miss Ever, are visiting with relatives in Eden.

Jim Caldwell is doing some repair work on the Jap Holman ranch this week.

Little Miss Jean Saunders is spending the summer with relatives in Balinger.

Miss Etoile Hamilton of Abilene is visiting Mrs. Frank Bond on the ranch this week.

*** * * * ***
Personal Mention
*** * * * ***

Bob Taylor of Mason was a business visitor in Sonora last Monday.

Let Joe Oberkamp at Ozona do your plumbing work. adv. 2t.

Mrs. J. A. Witcher visited Mrs. W. E. Glasscock during the week-end.

Miss Virginia Murray of Menard is visiting with her cousins, Misses Mary Lee and Muriel Simmons.

FOR SALE—Duofold with mattress slightly used at a reasonable price. See or phone Mrs. Mike Murphy. 1t.

Mr. and Mrs. Guenard Stephenson and children were in from the ranch on business last Monday.

J. B. Lee, stage line owner, made a business trip to Del Rio last Monday.

FOR SALE—Extra good five-year-old milch cow. See T. L. Benson, Sonora, Texas. 2t.

Miss Rita Merck visited her father, S. L. Merck, last Sunday, coming down from San Angelo.

Miss Thelma Johnson, San Antonio is visiting her uncle, Alvis Johnson. Miss Johnson will attend school in Sonora during the coming school year.

Get my prices on plumbing before you have your work done. I can save you money. Joe Oberkamp, Ozona, Texas. 2t.

Mrs. L. E. Johnson was accompanied by her son Lamerle to San Antonio last week. Lamerle will be given a medical examination while in the city.

Mr. and Mrs. J. Lee Corder and daughter, Juanita, spent the week-end in Sheffield. The Corders are contemplating moving to Sheffield to make their future home.

A fishing party composed of the following Sonorans enjoyed a fishing on the Llano last week: W. Burn Dunn, Earl Merck, Leonard Caldwell, Joseph Trainer, Bill Mittel, James Caldwell, Billy Caldwell, and W. Caldwell. They report having had a fine trip, and caught more fish than they could eat.

Texas Fifty Years Ago

The Devil in Hell, we are told, was chained
A thousand years he there remained

He neither complained nor did he groan,
But determined to start a Hell of his own,

Where he could torment the soul of men
Without being chained in a prison pen,

So he asked the Lord if he had on hand
Anything left when he made the land,

The Lord said yes, I had plenty on hand,
But I left it down on the Pio Grande,

In fact, old boy, the stuff is so poor
I don't think you can use it for a Hell any more.

The Devil went down to look at the truck,
And said, if he took it as a gift he was stuck.

But in order to get the stuff off his hands
The Lord promised the Devil to water the land

He had some water—or rather some dregs
A regular cathartic and smells like bad eggs.

The trade was made, the deed was given,
And the Lord went back to his home in Heaven

The Devil said to himself, now I've all that is needed
To have a good Hell, and hence he succeeded.

He put thorns on the trees,
And filled the sand with millions of fleas.

Put thorns on Cactus, and thorns on toads
And scattered tarantulas along the roads,

The rattlesnake bite, the scorpion stings,
Mosquitoes delight you with their buzzing wing,

The heat in summer is a hundred and ten
Too hot for the Devil' and too hot for men.

He filled the mud with millions of ants,
That when you sat down you needed soles on your pants.

He lengthened the horns on the Texas steers,
He built an addition on the Jack Rabbit's ears.

And the wild boar roams through the black Chapparal
"T'was a hell of a place he had for hell."

Conditions have so changed in fifty years
That the old original Devil would not know his old home now.

Crocodile leather in various bright colors is being tried experimentally in the manufacture of men's shoes.

Many of the splendid abodes of the aristocracy in Britain are being dismantled and abandoned owing to the heavy expense of upkeep.

Sonora Business Holds Up During the Summer

Contrary to general expectation, business in Sonora has remained good, even after the annual celebration had been held. As a usual thing, business during the summer months in small towns is not as good as at other times. While this may be true in Sonora, there is no reason for business men or other citizens to complain at the status of business in this city. It is probable that advertising in the News had something to do with business keeping up during the summer vacation months. Continued advertising will make it even better this fall. Don't forget that we are here to help you keep your business before the public. Unless you advertise, we can't boost your business.

Noah Schrier was in Sonora from Mertzon on business last Monday.

New Goods Received at the Friendly Store

In keeping with its desire to be of the very best service to patrons and keep before them at all times a line of goods, etc. of the best quality, pro-Friendly Store, J. W. Trainer, proprietor, has received a new line of fall and winter suit samples and styles which he places at your disposal to inspect and select your new suit. Mr. Trainer states that the samples and styles this year are better than ever before, that the materials offered are wonderful values, and that the price as usual, is right. If you are contemplating the purchase of a new suit, or overcoat, or other made-to-measure wearing apparel, you should see his line of samples and styles before choosing.

A suit case on wheels is a recent invention. The carrier folds up when not in use and only the small wheels project.

MRS. CORA NICKS, Prop.

We extend to the Humble people an invitation to eat with us when in Sonora.

Good food with good clean service

Personal Mention

Progress in Texas

PETERSBURG—Contract has been let and work is underway on a light and power plant for this place. A Throckmorton contractor has charge of the work.

BIG SPRING—Farmers of Howard county are milking more cows, feeding more chickens, and hoeing more gardens than at any previous time. Neither the acreage usually sown in cotton nor that of feed is as large in this section for 1927 as it was for 1926, due to the lateness of rains.

Glen Rose—Work on the road from Glen Rose to Walnut Springs will soon be completed. The local chamber of commerce raised more than \$300 to supplement the county fund used in this project.

Stamford—The July issue of "West Texas Today," official publication of the West Texas Chamber of Commerce, will be in the nature of an educational number, and will feature, as did the annual school issue of last year, Texas colleges and educational institutions. It will be off the press about July 15th, according to present plans.

Claude—Natural gas for Claude has been contracted for and assured by September 1st. The line will be laid with two or three inch pipe, and will be tapped from the one serving Panhandle at a point one mile east from that city.

Personal Mention

Dr. Fred R. Baker, well-known eye specialist, was in Sonora Thursday on one of his periodical visits. Dr. Baker has been making visits to Sonora for the past several years. He was formerly located in Fort Worth, but is now permanently located in San Angelo.

Tuesday on business and B.F. B. F. Wall was in from the ranch Tuesday on business and mingling with friends.

Junior Erashier, efficient telephone operator, is the proud possessor of one of Henry Ford's products—a Ford chassis. Junior was seen with tears in his eyes Thursday morning, weeping because his "limousine" had to stay out in the rain.

Mrs. J. S. York, a son and daughter of Gordon county arrived Wednesday to visit in the home of Mr. and Mrs. B. N. Weatherby.

Cy Ogden and his new bride left Monday for California where they will be for about a month.

Giles Hill, Jr. is sporting a new Master Buick roadster.

Mr. and Mrs. Alton Ridley of San Antonio, and Mr. and Mrs. V. A. Saul of Bandera spent the week-end with Mr. and Mrs. C. O. Ridley.

Mrs. Harry Hoffman and Mrs. and Mrs. Guest of San Antonio, Mrs. F. F. Cooke of El Paso, spent Wednesday with Mrs. Cooke's brother, Robert Rees.

"Bud" Stokes is driving a new Pontiac Sedan.

Notice to the Public.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon being brought to the attention of the publisher at the office.

NOTICE TO PUBLIC

Subscribers and other patrons of the Devil's River News are hereby advised that H. V. Stokes, for some time with the News, has no further connection with the business in any manner, and those desiring to do business are asked to see either M. A. Wilson, the owner and publisher of the paper, or some of the shop force. Persons who have news items for the paper, or wish to transact other business, should call in person, or phone the News office. In this connection, we wish again to bring to your attention that we are not well-acquainted with Sonora people, and any news item which you may see fit to hand us will be more than appreciated. Miss Audrey Rankhorn has been appointed as local correspondent, and your news items, if given her, will be properly handled by the News force.

It's a trait of human nature, we suppose, for individuals to neglect or ignore the things that would be of the most general good. Just such a case is that of the matter of a wool warehouse for Sutton county. The need of such an institution is so obvious, and its benefits so plain, that we see no need of going into details about it. A wool warehouse would benefit everybody in the county, and especially the ranchmen of this section. Its cost would not be

great and the revenues derived from it would make the warehouse a most profitable business venture.

WHERE THERE IS SMOKE, THERE IS ALWAYS FIRE

We have been taught to believe that "Where there is so much smoke there must be some fire." But, in spite of much smoke caused by a free discussion there has been an abundance of talk about the new hotel, but apparently there has been nothing done toward actual construction of the proposed building. It takes a considerable sum of money to erect a new hotel, but finances are not standing in the way of the building. There is something else, which, for lack of a better term, we will suppose is a lack of initiative on the part of our citizens in the matter. There should be no trouble in securing the hotel for the town, if some one or more persons would develop enough initiative to start the move. Financial matters could be arranged easily, a building site could be secured with no trouble, and there would not be enough opposition to the move to occasion any difficulty. Just why somebody doesn't take up the matter with the citizens is not known. It would seem to us to be the part of our good judgment, and business to give Sonora as much as possible in the way of hotel accommodations, as good hotels are among the town's best assets—tending to not only keep a town in a progressive mood, but actually developing its business and its resources. Sonora business men are losing money every day by not going ahead with hotel plans. The Chamber of Commerce is failing in its duty toward the town and the people by not investigating the matter. The citizens are failing in their duty to the town by not insisting that something be done toward having a new hotel built for Sonora. Somebody start something!

TEXAS COUNCIL OF SAFETY PLEADS FOR FULL SUPPORT

AUSTIN, Texas, July 14.—Some interesting facts have been revealed in the annual report of the Texas Council of Safety. According to the report recently submitted by Director W. E. James to the Executive Committee of the Council, the organization prepared and distributed more than 100,000 pieces of safety literature during the past twelve months.

This literature consisted mainly of posters, stickers, pamphlets, booklets, circular letters, etc.

In addition to the literature distributed, the Director delivered approximately 75 safety addresses at different places throughout the state. These addresses were given before civic organization meetings, churches, teachers meetings, student assemblies, and conventions of various kinds. The Council also aided in organizing several local safety councils and has held two safety conferences.

Perhaps the most effective work accomplished by the Council during the year was among the boys and girls in the public schools. Director James prepared and distributed a safety booklet to be used as a guide for teachers in presenting public safety in the schools. Thousands of children have been given practical safety training by means of these booklets.

Due to lack of help and funds, no extensive statistical work has been undertaken. However, the Council has succeeded in securing information concerning the number of accidental deaths and injuries accruing in the State each week. This information has been reported weekly to the leading daily papers since September 1, 1926.

The State Organization has aroused much interest in the safety movement and the accident situation in Texas by conducting, with the co-operation of teachers in the schools, four safety contests in which various prizes were offered for the best essay, poster, cartoon, and poem prepared by pupils. Pupils entering the contest were required to make a study of the accident problem in the state and to prepare and submit an original piece of work. Several hundred boys and girls participated in these contests and the interest manifested was gratifying.

Due to unforeseen difficulties, the work of the Council made little progress during the first few months of its active operation. Many of these obstacles have been overcome, however, and most satisfactory results are now being accomplished. In spite of the fact that the movement is new, the force small, and the finances limited, a real foundation has been laid and thousands have been sold on the idea of public safety.

The organization is rapidly gaining in favor with the people. Its work has been heartily endorsed by leading civic clubs, the State Teachers Association, county teachers institute, West Texas Sheriffs Association, the League of Texas Municipalities, the Texas Press Association, and other important organizations.

Because of increased traffic, the situation is constantly becoming more appalling and the need for organized effort is daily growing greater. In 1926, 90,000 people in the United States were swept into eternity by means of accidents. From September 1, 1926 to March 1, 1927, a period of six months, there were 399 people killed and 4,891 injured in street and highway accidents in Texas, exclusive of those at grade crossings. During the same period, there were 18 deaths and 273 injuries resulting from accidents at grade crossings alone in the state. In addition to these unspeakable tragedies, there were 496 fatalities and 965 injuries from other types of accidents in the state during the same six months period.

Surely the conditions are sufficient to justify the greatest co-operation and effort to save humanity. All worthy movements must have adequate financial support if they accomplish the purposes for which they are created. The Texas Council of Safety is no exception. With adequate support, the Council can render a service to humanity that is commensurate with the needs and opportunities that are before us.

Quite a bit of interest was manifested this week in the misspelled word contest which the News staged in its last issue. A score or more people sent corrected lists to the office, many of them being near perfect. However, since the prize of five dollars was to go to the first one who sent in a correct list, all the others were disappointed. Results of the contest will be found elsewhere. It is the intention of the News to stage these contests at frequent intervals, or some contest similar in nature. It creates reader interest for the paper and helps our advertisers. Then, too, it gives everybody an equal chance to win some little sum of money for which a use can always be found. Watch our paper for an announcement of another contest.

The antiquity of the game of football is indicated by the record that one of the first official acts of Augustus Caesar was to revise the rules of football, a game learned by the Romans and the Greeks.

FOUR HUNDRED AND FIFTY TONS STEEL—TWO CARLOADS BAKING ENAMEL USED IN 1928 AUTO LICENSE PLATES

Texas auto license plates for 1928 will total about 1,225,000 pairs, according to information received from the Kittle Manufacturing Company to whom has been awarded the contract by State Highway Commission for furnishing the plates.

With regard to material used in the manufacture, it is interesting to know that these plates are made from 26 gauge sheet steel, are 5 inches by 14 inches in size and have a brown background and white numbers. The total number for 1928 is about 1,225,000 pairs. This will require approximately 450 tons steel, 2 carloads of baking enamel, 1,225,000 envelopes, and 25,000 shipping cartons. All of this material is purchased and manufactured in Los Angeles, the steel being supplied by the Columbia Steel Corporation, who have their rolling mills here at Los Angeles and their blast furnace at Provo, Utah.

The various operations of manufacturing are, cutting and punching, stamping the numbers, applying the background enamel, applying the numeral enamel, packing and shipping.

The background and the numerals each have two coats of enamel, this being baked after each coat. All of these operations, with the exception of packing, are done to start the manufacturing of the plates about July 1st, and will turn out approximately 18,000 pairs per day until the order is completed.—Texas Highway Bulletin.

JUNCTION MAKING PLANS TO INCORPORATE CITY SOON

JUNCTION, Texas, July 12.—Business leaders, city officials and citizens are attempting to create sentiment that is favorable to the incorporating of Junction. They point out that the tourist trade should be increased, the trade territory developed and the city in general improved.

The citizens here feel that with incorporation of the city that city owned waterworks, sewers and other conveniences will follow. Also they feel assured that the fire insurance key rate will be greatly reduced from its present \$1.00 rate. The population is 1,400, and this makes an extremely high rate. An active campaign is being carried on for the incorporating procedure.

DO YOU KNOW?

In this column will be found each week 20 questions, covering topics of live interest. See how many you can answer, then turn to page eight for the correct answer. You will find this an amusing, entertaining, instructive and enlightening pastime. Score 1 point for each correct answer.

QUESTIONS

1. How many zones are there? Name them.
2. Who wrote "Pilgrim's Progress?" "Robinson Crusoe?" "Gulliver's Travels?"
3. Who said "If I had a thousand lives I would give them all before I would betray a friend?"
4. What football team is coached by Glenn Warner? Wallace Wade? Knute Rockne? Fielding Yost? Bob Zupke?
5. What disaster overtook the Army of Pharaoh as they pursued the Israelites?
6. Who has been Judge of the Juvenile Court at Denver, Col., for more than 25 years?
7. What are government districts in India called?
8. What is meant by the expression "toties quoties?" "Quo jure?" "De facto?"
9. Name two composers of famous wedding marches.
10. How many men served as Secretary of State in President Wilson's cabinet? Who were they?
11. Name five popular breeds of domestic ducks.
12. When was paper money first used? Where?
13. When did girls first begin playing with dolls?
14. How many men have made three races for the Presidency and who were they?
15. What archipelago did the United States acquire by purchase from Spain and what was the price paid?
16. What is the great national beverage of Russia? Scotland? Germany?
17. What was the early occupation of George Washington?
18. How did "Stonewall" Jackson acquire his nickname?

Personal Mention

Mrs. W. J. Fields is driving a new Chevrolet car.

Paul Turney and family are in from the ranch this week visiting.

Miss Cloma Ethridge of Blanco is in Sonora this week visiting her sister, Mrs. Beal Freeman.

Miss Hattie Ory is visiting her uncle and aunt, Mr. and Mrs. Tom Turner, at Comstock this week.

I have fine range for 150 head of grown cattle. Telephone or write at once. Mrs. E. Honeycutt, Rock-springs, Texas. 2t.

Reese Hill, employed at the light plant, had the misfortune to fracture an ankle last Monday when he inadvertently fell.

Fletcher Cravey and Mr. and Mrs. Albert Williams of Cross Plains visited last Sunday with Mr. and Mrs. Neil Roueche. Mr. Cravey is a brother-in-law of Mrs. Roueche.

Mrs. Fritz Streigler and children, Mabel and Katherine, were in Sonora the first of the week visiting and attending to business. Mrs. Streigler and children have been visiting with Mrs. Streigler's mother at Fort McKavett.

Mrs. W. E. Glasscock and children have just returned from a two-weeks' visit with relatives and friends in Hopkins county. Mrs. Glasscock reports that there has been an abundance of rain in that section; and that a few weeks of sunshine would be of real benefit to the farmers.

Mecklenburgh Independence Parade

Colorful parade wending its way through streets of Charlotte, N. C. to commemorate the signing of the Declaration of Independence in Mecklenburgh county, North Carolina, 152 years ago. This declaration was a series of resolutions resembling, more or less closely, the Declaration drafted by Thomas Jefferson and adopted by the Continental congress.

Mobeetic—The Pampa to Mobeetic mail route, now tri-weekly, will soon operate six days a week, giving it daily classification. The chamber of commerce has been working to get this classification.

Fishermen on north Pacific coast have established a new industry in obtaining pearl essence from the scales of herring, sardines and shad. The substance extracted from the waste fish is known as guan, and is used in the manufacture of artificial pearls.

NOTICE TO GOAT RAISERS

The Angora Stud Raisers of Sutton county and Sonora, Texas, cordially invite the public to attend a free showing of films, "From Field to Fabric," depicting the Mohair industry. Saturday evening, July 23, 9:30 to 11:00 o'clock at the La Vista Theatre.

Angora goats on our Sutton county ranches supply mohair to the Sanford Mills, of Sanford, Maine, where are woven the famous "Velmo" (velvet-mohair) that goes into our finest cars, and the finest of dress goods also made in that city. This picture and lecture will be presented by Mr. A. C. Gage of the Angora Journal, Portland, Oregon, who is one of the best-posted men in the United States on mohair.

Natural (hair) cowhide is being used for women's coats, hand bags and hat trimmings, showing the natural shades of Jersey, Guernsey, Holstein and Old Red Cow.

The Ptarmigan, snow bunting and dotterel are the only birds that make their homes in the High Alps, as the Alpine country of Scotland is called.

Personal Mention

Jim Cauthorn returned this week from Temple, where he had gone to have histonsils removed.

Mrs. Charles Evans and Dr. Smith were San Angelo visitors Wednesday.

Mr. and Mrs. Perry Mittel were in town last Wednesday on business.

Charles Evans was in San Angelo last Wednesday, meeting with the Sanitary Board which is making a test for stomach worm remedies. The outcome of the test will be published later for the benefit of ranchmen of the Southwest.

Ira Green was a visitor to San Angelo last Monday, going up to meet with the Livestock Sanitary Board, taking part in a test being made by the Board to determine best means of exterminating stomach worms in livestock.

George Whitehead was up from his Val Verde county ranch Wednesday.

Adah Miers, Hazel and Bernice Stokes, Gwen Rutledge, Nan Karnes, Jamie Gardner, Edgar Muller, Ernest McClelland, George Edward Allison, Houston Stokes, Lawrence Grimland, and Ray Glascock enjoyed an outing this week at the home of Mrs. Rector Cusenbary.

Mrs. Cusenbary has as her guest Miss Emily Kitchens of Ft. Worth.

Miss Frances Adams was a visitor in San Angelo last Tuesday, going to that city in company with Mr. and Mrs. Paul Turney.

Misses Addah Miers and Bernice Stokes spent the weekend in Del Rio.

Dan Payne of Galveston is in Sonora for a few week's visit.

Virgil Powell of Menard was in Sonora last Wednesday, enroute to Big Lake his former home, to transact business and meet friends.

Osborne Childs of Montell was a visitor in Sonora Tuesday, remaining overnight at the home of the editor and family.

Sherman Patton, who spent a few days in Sonora with his brother-in-law the editor, and family, returned home Tuesday to Rocksprings.

Mrs. Jack Sawyer left last Sunday morning for San Antonio, where she went for medical treatment.

H. O. Word and daughter, Miss Edith, of Ozona, passed through Sonora Monday evening enroute to San Angelo, having been called to that city because of the death of the three-week-old infant of Mr. and Mrs. Dea Word of that place. Mr. Word did not state what had caused the death of his brother's child.

Dennis Duke received painful injuries Thursday, which occurred as he was cranking a gasoline engine. The crank slipped off and struck him in the face.

Cal Johnson, foreman on the Aldwell Bros. ranch, came in Thursday to transact business.

George Allison came in from the ranch Thursday, wearing a big smile because of a nice rain that fell in that section Wednesday night.

Ben Cusenbary reported a good rain in his neighborhood Wednesday. A good rain fell on the G. W. Stephenson ranch Wednesday night.

Mrs. Vander-Stucken entertained a number of near-young people with a picture show party Monday night.

Merton Shurley and wife were in from the ranch the first of the week. Claude Baker was in town Wednesday, trying to dispose of his property here.

Work on the new residence being erected by J. W. Trainer in East Sonora is nearing completion.

Mr. and Mrs. Noah Schrier and daughters, Misses Hazel and Frankie Taylor, of Mertzson, were in Sonora Wednesday.

Mr. and Mrs. Jim Cauthorn and daughter, Miss May, left Thursday for a vacation trip to Maine and other places. While in Maine, they will visit with E. E. Sawyer and family at Sebolis. They took the southern route by Del Rio, New Orleans, Washington and Boston. On their return, they will travel the northern route, probably by way of St. Louis.

Mrs. Hollie McGonagill and son Francis, left Tuesday for their home in Dallas, after a pleasant visit with relatives in this section.

Ben F. Meckel and family left Tuesday for Dallas, where they will visit with Mrs. Meckel's sister, Mrs. Hollie McGonagill, and family.

Mrs. W. F. Covington of Plainview daughter of Mrs. J. L. Davis of this city, is reported as improving rapidly from a long and severe attack of illness.

W. C. Bryson was in from the ranch Thursday on business. Mr. Bryson states that he had only about one-fourth of an inch rainfall in his section of the country Wednesday night.

Dallas to Have Own Long-Distance Flier

To advertise Dallas and Texas the world as vitally interested in aviation and aerial progress, sixteen of the city, most prominent businessmen in association with The Dallas News and The Dallas Journal, have banded themselves together as sponsors for a Dallas airplane which, in the hands of a nationally famous pilot—Capt. William P. Erwin—will attempt a series of notable long distant flights, emulating the example set and the glorious results achieved by Lindberg, Chamberlin and other pioneers in the conquest of the heavens.

The Dallas airplane is bound to no individual project nor is it linked up with any particular prize contest. It is a free agent to be sent forth from Dallas as the city's official representative in the air. The sole motive of the sponsors in giving their money to the world at large that Dallas "Hat is in the ring."

"Lone Star Bill" Erwin, who will fly the official Dallas ship in the name of Dallas, is one of the great heroes of the World War. He wears the Distinguished Service Cross, with two oak leaves; the French Croix de guerre, and the Aero Club's Medal of Valor. He is officially credited with eleven enemy planes which he brought down by skillful flying and the courageous use of the machine gun on the fields of France. Captain Erwin was himself shot down six times by the Germans, escaped without serious injury. Erwin has spent more than 4,000 hours in the air and, in all that time, with the exception of the six times he was brought to earth by the Germans, has never "crashed."

The official airplane of Dallas is now in process of construction at the plant of the Shallow Airplane Company at Wichita, Kan. It will be delivered in Dallas on or about August 1, and shortly after that time will appear in its first challenge of the air. The plane will be similar to the one that Lindbergh used, but will have a greater wing area, and a cruising range several hundred miles greater than did the "Spirit of St. Louis."

The great ambition of the Dallas men behind the project is to have the Dallas airplane the first to cross the Pacific Ocean.

The possibility of a local market place for the marketing of West Texas products appears brighter since Tom Green County farmers have asked Dor Brown, county agent, to draw plans for such a place for San Angelo.

The ground on which the White House stands at Washington is appraised at \$10,500,000. The sixteen acres in the plot were originally purchased for \$1,600.

Foundation of House Shows Its Condition

Several suggestions that will help everyone who is contemplating the purchase of a house are made in a letter contributed by a reader to Liberty.

"Before you buy a house," he writes, "you should start with the basement and examine the walls for water stains and horizontal water lines caused by water seepage, or water standing in the basement."

"The foundation and retaining walls should be inspected for proper thickness," he continues. "A minimum width for main foundation walls below grade for a light-frame structure of one or two stories should not be less than ten inches, if of concrete; 13 inches if of brick, and 18 inches for stone."

"Concrete walls having a sandy or clayey appearance are deficient in cement, or else are constructed of bank sand and gravel containing a large percentage of loam. Such walls should be examined for sand and loam pockets, which are detrimental to the walls' structural strength and permit the entrance of water."

"The wall plate or mud sill, which lies directly upon the foundation and upon which the floor rests, should be minutely examined for dry rot and decay. This is generally the first member of a dwelling's superstructure that goes bad."

Plan Porch So It Is Part of House

Porches on the small house should be a part thereof rather than the excrescences they too frequently appear. Excessive grouping of posts is considered undesirable, as are ugly, short, round columns. The location of the porch has much to do with the exterior appearance and interior comfort. Porches are often built so as to shut off light and sunshine which are needed within. Form and mass are always the first points to be considered. Glazed porches, which serve a double purpose as sleeping and breakfast rooms, are greatly favored.

Progress in Texas

LOCKNEY—Work on the gas distribution lines over Lockney and Floydada will be underway here soon. It is expected that gas will be ready for use by fall.

SHAMROCK—An expenditure of \$16,000 for improvements in the Shamrock yards has been authorized by officials of the Rock Island Railroads. Included in the improvement program will be three additional spur tracks, two north of the depot and one south.

SAN ANTONIO—Traffic experts of the West Texas Chamber of Commerce have completed an analysis of the recent decision handed down by the Interstate Commerce Commission with references to what is known as the Common Point Freight Case after six weeks of intensive study. U. S. Pawkett, traffic manager, states that the sum-total of West Texas freight charges on traffic to and from the Southwest will be very considerably reduced under the new rates, and the distributions of the reductions spread out over practically the entire territory, excepting for more or less considerable increases that are made to and from points in Arkansas and Louisiana. The new order is to become effective December 5 next.

SAN SABA—San Saba's new hostelry, Hotel San Saba, will be erected at a cost of \$96,000 and will contain 35 rooms. The building as suggested would have space on the first floor for a drug store, barber shop and a telegraph station.

LAMESA—Approximately 400 acres of the Weaver Ranch, west of Lamesa, is being planted in sunflower seed, the Mammoth Russian variety being sown. The average yield expected is about a ton to the acre, and during the last ten years, the average price per ton for this seed has been \$90. It is thought a new industry will receive impetus from the Weaver Ranch project.

FORT WORTH—An All-Texas exhibit, to be a part of the Dairy-in-Dixie Exhibit of the South, will be collected and sent to Memphis, Tenn., in October for the fall session of the National Dairy Show which will be held south of the Mason and Dixon line this year for the first time in history. The exhibit will be sent through co-operation of the East, West, and South Texas Chambers of Commerce. B. M. Whitaker, exhibit-Agricultural manager of the West Texas Chamber of Commerce who arranged the prize-winning Sesqui-Centennial exhibit last year, will arrange the All-Texas display, working in conjunction with J. E. Stanford, exhibit-manager of the East Texas Chamber of Commerce, and with other members of the special Texas Committee.

The ground on which the White House stands at Washington is appraised at \$10,500,000. The sixteen acres in the plot were originally purchased for \$1,600.

The possibility of a local market place for the marketing of West Texas products appears brighter since Tom Green County farmers have asked Dor Brown, county agent, to draw plans for such a place for San Angelo.

Leaded Glass Available for Use in Small Home

Leaded glass in the old English manner, with medallions or heraldic crests suitable in feeling and cost to the small home, is now available in rectangles or diamonds for as little as \$1.25 a square foot in either domestic clear or colored glass. Medallions or centerpieces range from \$4 upward. Installation costs vary according to location. Here is news that will be really interesting to owners of small homes.

Much of the charm and individuality of early English, Georgian and Colonial houses was due to the use of leaded glass in their window openings. Along with a growing appreciation of these old-time homes has come a revival of interest in leaded glass such as was used in them. Leaded panes are so much more interesting than mere sheets of glass and give a room such a cozy, inviting appearance—at the same time adding a note of smartness to the exterior—that a house is materially improved and its resale value is increased through their use. And now, thanks to the owner of one studio, the twenty-eighth generation of workers in stained glass, leaded glass windows are obtainable at a reasonable cost.

The olden-time feeling that things made during the period when good craftsmanship was the rule is one of the most appealing things about these leaded windows. Color is another. A bit of color judiciously introduced in living room, dining room or stairway window brightens the interior and makes for charm and interest.

Paints That Are Not Discolored by Smoke

Smoke is the enemy of a white house. Look at the homes in your neighborhood that once were white. Smoke had a lot to do with their present appearance. There are specially prepared paints which, because of their chemical composition, are not readily darkened by smoke gases. If your house is white make inquiry regarding these paints.

9. Guaranteed to give you results or money back.

K-O FOR CATTLE

Assures large, thrifty, well-haired calves—prevents goitre—reduces abortion and sterility—overcomes depraved appetite and creeps. Fed to beef cattle it keeps them on feed, growing and thrifty. It brings them to best marketable weight sooner and their quality is better.

M-O FOR SHEEP

Puts strength and vitality into the breeding ewe—produces big, strong lambs—they will develop faster, have larger bones, will look much better at marketing time, and be free from worms and other intestinal parasites. Keeps them in a thrifty condition, resulting in more wool and bigger gains. But 1-8 of a pound GAIN per month shows a profit.

W. E. Caldwell stated Tuesday that material is being hauled this week to Pecan Springs, where a new school building is being erected.

A swimming party was given last Sunday evening, honoring Miss Grace Dungan, who is visiting her sister, Mrs. E. C. Garvin.

Mr. John Adams is back from Temple, where he underwent an operation.

Mr. and Mrs. Henry Mittel were in from the ranch Tuesday.

Dan Cauthorn was in from the ranch on business Tuesday.

Mrs. Louie Stuart was in from the ranch last Tuesday.

Mrs. Jim Cauthorn and daughter, Miss May, were in town last Tuesday.

M. R. Patton was in Sonora the first of the week from Rocksprings.

Mr. and Mrs. Bloodworth and family of Fort Worth are visiting Mr. and Mrs. B. M. Halbert. Mrs. Bloodworth is a daughter of Mr. and Mrs. Halbert.

H. V. Stokes and Mr. Hamby were visitors to Eldorado and San Angelo Tuesday of this week.

Joe Ross is beginning construction of two new houses in town this week.

Mrs. Frank Bond was in from the ranch this week.

Ruby Davis and family of Edwards county were here Sunday visiting Mr. and Mrs. W. E. Wallace.

W. H. Taylor, formerly an employee at the City Garage, was in town last Wednesday.

Mr. and Mrs. W. H. Taylor of Detroit, Mich., are visiting in Sonora after an absence of several years. Mr. and Mrs. Taylor are former residents of our town, and were well known for their singing ability. Mr. Taylor may locate here again.

Othro Adams of Ozona was a visitor in Sonora the first of the week.

Mr. and Mrs. Dock Friend are in Glen Rose this week taking a rest.

FOR SALE—8,000 acre combination sheep and goat ranch, well improved in Uvalde county, one of the best \$9 per acre ranches in Texas. Write or see W. H. Carver, Uvalde, Texas.

* * * * *
* **35 YEARS AGO** *
* * * * *

We, 69 citizens of Sutton county in convention assembled, say that Hogg must be our governor for two years more. That settles the question—Hogg it must be.

Newell & Mayer bought from Thos. Bond 1000 wethers at \$2.50 a head. They will ship to Chicago.

Chas. Schauer bought 1000 wethers from Cusenbary & Cooper at \$2.25 a head.

F. Mayer & Sons bought 250 young wethers from Wm. Prescott at \$1.75.

F. Mayer & Sons bought from F. Cloudt 200 young wethers at \$1.80.

Born, on Tuesday, July 26, to Mr. and Mrs. R. H. Wyatt, a boy.

Nat Dean, a prominent cattle and sheep man of Uvalde county, was in Sonora this week prospecting. He formerly was a neighbor to Wm. Guest in Runnels county, and when that country was taken by the cotton pickers, Guest moved to Devil's River and Dean to Uvalde. Mr. Dean now sees his mistake, but will rectify it at once. He will move his stock to Sutton county this fall. He says a great many of the best ranchmen of Uvalde and Bandera counties will move to the Paradise.

Basil M. Halbert of Coleman, who has been visiting his brother, R. F. Halbert's ranch for about two months was riding with a young man who was breaking a horse Monday evening. The horses collided and Mr. Halbert's horse was thrown and fell heavily on Mr. Halbert. Assistance was rendered as quickly as possible, and the injured man brought to the home of his brother, L. N. Halbert, in Sonora. The injury is in the head, and he did not recover consciousness for some time. We are now pleased to state that he is now recovering as quickly as could be expected. It was thought at first that he would not recover.

By MILLARD L. COPE
Special Correspondent

SAN ANGELO, Texas, July 14.—The contract for San Angelo Junior College will be awarded sometime in August and will be ready to begin its first term of work by September, 1928, according to an announcement by Supt. Felix E. Smith. The Junior College in San Angelo will offer West Texas youths their first two years of college training without having to go so far away from home to state institutions. The school will open with full college work fully accredited.

H. O. Crawford, a graduate of Austin College and former captain of the football team there, has been selected as assistant football coach for San Angelo High School and director of athletics for San Angelo Junior School. Bill Eissett, a graduate of Howard Payne College, is head coach and director of athletics at San Angelo High School. They plan to have one of the fastest football teams in the history of the school this year.

Evidence of growth and development in San Angelo is shown by June building permits. There is a total of \$321,636 in building permits in San Angelo during the month. Most of these were for residences, which assures a steady, substantial growth.

The San Angelo City Commission has taken another step, toward insuring home owners of San Angelo better fire protection. This body has authorized Mayor W. D. Holcomb to purchase the site for the first of four sub-fire stations in different parts of San Angelo. The first of these is to be in North Angelo. Others will be established within a short while, bonds having recently been voted to take care of their construction. This will insure adequate fire protection. Work will begin immediately on the first sub-station.

Money will be available for Tom Green County's new \$294,000 courthouse by August 1, it is believed by county officials at San Angelo. Work will be started tearing down the old structure by the end of the month, it is believed. The plan has not as yet been perfected whereby the new city hall, courthouse and auditorium will be built as one building for the development of a civic center.

Experiments are being made to determine the best and quickest methods of exterminating the stomach worm in sheep. The tests are in charge of Judge J. A. Whitten of the Live Stock Sanitary Commission on the Nasworthy ranch near San Angelo. Results will be broadcasted to West Texas ranchmen from San Angelo as quickly as the tests are completed.

San Angelo is anxious to entertain the 1928 convention of the Sheep and Goat Raisers' Association of Texas, and will extend a cordial invitation when that body meets in Kerrville late this month. Last year San Angelo, out of respect to the late Captain Charles Schreiner, waived its rights after practically winning the convention, standing aside to let Kerrville have the meeting. However, there was a general understanding that San Angelo would get the meeting in 1928. For this reason, San Angelo feels that it is entitled to next year's meeting.

San Angelo Baptists, in keeping pace with the growth and development of San Angelo, have launched a \$135,000 building program which is to include the building of a new church, a pastor's home, an educational building, and the purchase of additional land adjoining the present church site. Work will begin as soon as preliminary plans are completed under the direction of Rev. Elmer Ridgeway. Bids probably will be asked for within a short time.

Here In Sonora We Share the
Name of

GOODYEAR

The **GREATEST** Name in RUBBER

The greatest tire business in the world serves the car owners of this vicinity through our store.

Back of us stand the great Goodyear factories, back of them the cotton mills, cotton fields, rubber plantations, the colossal organization, resources and facilities, all Goodyear, all dedicated to your satisfaction in tires.
