SONORA SCOUTS SHOWCLASS AT MEET

Still fresh from their first experience in boy scout work and with nothing but practice before them, nineteen boys of the local Boy Scout organization participated in the meet held in San Angelo last Saturday and acquitted themselves most creditably. These boys competed with the strongest teams in eighteen counties and out of eleven events in which they participated they placed in six, a splendid record.

The Sonora scouts were warmly praised by Scout Executive Brice W. Draper of San Angelo, who stated that these boys would always be bidders for first places in scout work having the necessary qualities of ambition, determination and initiative. Events are given here in order: Morse Signalling—no Sonora entry; Semaphore Signalling—G. W. Archer, Lea Roy Aldwell, John Hull, Elwood Dunklin. The team placed third.

Archery team: Edwin Sawyer only Sonora entry; tied for second place but went to third place in the finals. This boy has been practicing bugling less than two weeks and in that time had become proficient enough to rank very high in this difficult art.

Wall Scaling—Sonora team, Wm. Taylor, Louie Trainer, Joe H. Brasher, Jr., Elwood Dunklin, Willie B. Wilson, Edwin Sawyer, John Hull, Lea Roy Aldwell. This team took second place, having been beaten by a scant quarter of a second by the champion team of the Council, Bronte. The wall was 9 feet and 6 inches high and scaling it is one of the real feats of a scout.

Message Carrying—Sonora team, Wm. Taylor, Louie Trainer, Seth Lancaster, Pat Cooper, Woodrow Norris, Chas. Evans, Jr. This team won third place.

Knot tying (tenderfoot) Sonora entry, DeWitt Lancaster, failed to place.

Knot tying (Free for all) Sonora entry, De Witt Lancaster, failed to place.

First Aid Team: no entry from Sonora.

String Burning—Jack Pfeister, James Glascock, failed to place.

Fireman's Carry Race: Pat Cooper, second place. This event is also ranked high among the feats performed by scouts and consists of carrying another boy in a scientific way. Pat Cooper placed second from the entire field in this event.

Water Boiling Contest: Chas. Faris and James Hutcherson won second place. These boys got their first fire, produced by flint and steel, the afternoon before the meet.

Bow Drill Contest—Jack Pfeister and G. W. Archer failed to place.

Summary of Sonora's showing in the meet—number of events entered, 11. Number of events placed in: 6. First places none; second places 2; third places, four.

None of the entrants in any of the events had practiced for more than two weeks and made this fine showing against boys who, for the most part, had been in the work at least two years.

The complete list of Sonora scouts who attended the meet follows: G. W. Archer, Jr., Lea Roy Aldwell, Joe Brasher, Jr., Pat Cooper, Jr., Elwood Dunklin, Chas. Evans, Jr., John Hull, Edwin Sawyer, Marvin Barnes, James Glascock, James Hutcherson, Charlie Pharis, DeWitt Lancaster, Seth Lancaster, Woodrow Norris, Jack Pfeister, William Taylor, Louie Trainer, Willie B. Wilson. The boys were taken to San Angelo by Roy Aldwell, Jim Pharis, E. E. Sawyer, Charlie Evans and Wade Grimland. During the day all the scouts enjoyed a free barbecue given at the fire station in San Angelo.

Mrs. Roy Aldwell Hostess at Bridge

Mrs. Roy Aldwell entertained at the Sonora's Woman's Club Wednesday afternoon with nine tables of bridge. Prizes were won as follows: High score, Mrs. Geo. H. Neill; low score, Mrs. Joe Brasher; high game, Mrs. E. F. Vander Stucken. In addition to these prizes, a cut prize was awarded at each table.

Delicious refreshments were served.

FOR SALE—Two houses and lots in Sonora, will take good car and give good terms.—T. L. Benson. 1t-c.

GUANA EXPERT VISITS SUTTON COUNTY CAVES

J. C. Keaton, an expert on bat guano fertilizer, and who leases caves containing this commodity for sale to fertilizer-producing companies, was here this week. In company with O. G. Babcock he explored the Dock Friend cave in Sutton County and the Devil's Sink Hole cave in Edwards County, about 7 miles from Rocksprings. This latter cave Mr. Keaton has under lease. The cave was worked for guano about 20 years ago and was at that time worked out.

Since that time, however, a considerable quantity of this valuable fertilizer has accumulated in the cave.

Mr. Keaton stated that the Dock Friend cave probably contains about three or four carloads of bat guano, but he has not yet leased this cave. This is due to the fact that the quantity is comparatively small, the cave is very inaccessible, and the present market price for bat guano is so low that it will not warrant the opening of the cave for that purpose. He stated however, that the cave would eventually prove a money maker.

Both of the caves mentioned above are well known to fertilizer men and those who make a study of the habits of the nocturnal vampires, naturalists and ornithologists.

Hollmig to Austin for State Meet

Alvin Hollmig, local track star, will enter the State Track and Field Meet at Austin on May 3, 4, and 5th, according to coach W. W. Halcomb who will accompany him. Mr. Halcomb stated that Hollmig's splendid record in placing first in the high hurdles, first in the pole vault and second in the high jump in San Angelo made him eligible to contend for Turner honors in the State meet.

SHOW MAN LIKES SONORA

J. M. Burnett, who came here from the oil fields to manage the La Vista for M. R. Williams, when asked how he liked Sonora made the following statement: "I don't believe there is a better town in West Texas to live in. Water here is second to none in Texas. Generally speaking I think I will like Sonora the best kind."

Mr. Burnett will, at an early date have his wife and four children here with him.

The News will welcome these good people of our town.

No Fatalities at Big Slipup Dance

At the dance held at Slipup, 35 miles from Sonora on the Llano River, on Wednesday night of this week, went off peacefully according to Sheriff B. W. Hutcherson. The Sheriff did not attend in person but stated that he talked to Slipup about 12 o'clock Wednesday night and that everything was reported as being "quiet along the Potomac" (or along the Llano, to be more exact).

Tradition credits these dances with being a trifle tough, at times, and it is almost a traditional affair for a good healthy brawl to be staged on such occasions. Wednesday's night's affair turned to be quite peacefully.

A large dance was held at Junction also, Wednesday night, Ray Hill's San Angelo orchestra furnishing the music. Several Sonora people attended, including Willie Miers, Buzzy Stokes, Curley Mullins and Roy Hoggett. About two hundred persons were present, they reported.

WAMBA COFFEE PROVING POPULAR

Last Saturday was Wamba Coffee day at the E. F. Vander Stucken Company store, at which time more than two hundred cans of this delicious beverage was sold. This, according to the Wamba Coffee representative, was more than any dealer in all West Texas had sold in one day on such an occasion.

With each can of coffee sold, two tickets were given to the purchaser which entitles holder to a free chance at a beautiful dinner set. The drawing will be this Saturday (tomorrow)

DUNBAR BUYS RANCH IN UVALDE COUNTY

B. B. Dunbar of Sonora has closed with O. Pratt of Encinal, Webb County, Texas, for the purchase of a 15,000 acre ranch in that county, 7 miles from Encinal and 38 miles from Laredo. This information was obtained from Mr. Dunbar here this week.

In addition to the 15,000 deeded acres which were purchased at \$12.50 per acre, representing a consideration of \$187,500.00, Mr. Dunbar leased an additional 6,000 acres, making a total of 21,000 acres in the ranch. This is one of the largest ranches in Webb County.

Mr. Dunbar stated that the ranch was best suited for cattle, being sandy land. Webb county land is considered desirable, not alone as ranch land but because of the oil play in that county.

BANK BUILDING WILL BE BUILT OF BRICK

The new home of the First National Bank of Sonora is to be of brick and cast stone rather than of native Sutton County limestone, according to announcement of the building committee. Roy Aldwell stated Monday morning that the reason for the change is that it was not certain that stone of the large dimensions required could be secured from the local beds, without flaws. He further stated that it was not certain that this was a fact, but that an investment for machinery to extract the rock to determine this point would prove too costly a speculation.

The new plans for the bank will call for a building of brick and "cast stone," Mr. Aldwell stated. No other changes are contemplated at this date he said, and added that the change in the building material would make no material change in the cost of the building.

LEGION CONVENTION

San Antonio, Tex., April 13.—The national convention of the American Legion and its Auxiliary, to be held here October 8 to 12, will surpass in wealth of entertainment, in interest and in notable events the great convention held by the organization in Paris last year, according to National Adjutant James F. Barton.

Barton, here to check over plans for the convention, expressed himself as especially well pleased with the convention entertainment program.

Entertainment features include a world's championship rodeo with the biggest prize money of the year and the leading cowboy and cowgirl contenders, a decision prize fight at Fort Sam Houston, with two principal contenders for the world's welterweight title, spectacular battle exercises by the Second Division using tanks, airplanes, liquid fire and all the latest methods of warfare, the greatest air circus ever staged in America.

Other entertainment specialties will be a Broadway show, a Mexican revue with the best actors, singers and dancers from the City of Mexico, the famous City of Mexico Police Band.

More than 100 Legion bands and drum corps from all parts of the United States are expected to be in attendance at the convention, according to Philip B. Stapp, general convention director. Distinguished visitors from abroad and leaders in many fields of American life will be present.

To the convention parade, always a spectacular affair with its thousands of marching men and women, the entire day of Tuesday, October 9, will be devoted, Mr. Barton decided. The marching columns will be reviewed on historic Alamo Plaza, where stands the Alamo, cradle of Texas liberty.

In addition to the convention entertainment planned at San Antonio, side trips will be conducted to various points on the border. One will cover Corpus Christi and the principal towns of the Magic Valley of the lower Rio Grande, ending up with a Spanish celebration at Matamoras. Others will go to Nuevo Laredo and Piedras Negras, where bull fights will be staged and a Spanish fiesta held. Elaborate preparations are being made for these.

EXPERIMENT MEN HARD AT WORK

Representatives of Experiment Sub Station Number 14, near Sonora, are scattered over West Texas at this time, devoting their attention to various problems of the ranching industry, according to W. H. Dameron, superintendent.

V. L. Cory, range botanist at the Station, and Mr. Carter of College Station, in the Department of Soil Surveying, are at present in the Chisos Mountains studying soil conditions in the famous petrified forest.

P. S. Davis, wool and mohair specialist of College Station, is here and will remain through the shearing season. He will visit the various ranches in this section while the shearing season is underway and will take samples which will be studied for shrinkage.

J. M. Jones, also of College Station is likewise at the Station and is particularly interested in visiting the various ranchmen during the shearing season. His work consists of taking samples for measuring work, ascertaining with the microscope and microscopic calipers the texture, diameter and average length of the strands of wool in each sample.

Dr. E. A. Tunncliffe, new veterinarian at the Station, is at present in Sanderson, Terrell County, getting information on fever conditions among the flocks and herds of that section. This country is in the heart of the wool growing section, and while no losses or case of fever have been reported, Dr. Tunncliffe desires to become familiar with the country in order to be of the greatest possible assistance to the ranchman if and when such trouble occurs.

Mrs. Josie McDonald will leave Sunday morning and make the excursion trip into the Rio Grande valley, via Del Rio and San Antonio. She expects to return in about a week.

D. J. Wyatt Buys Two Ranches in Uvalde

J. D. Wyatt, one of Sonora's first citizen and pioneer resident of Sutton County, has increased his extensive ranch holdings in West Texas through the recent purchase of lands in Uvalde County. One deal recently closed was the purchase of 5,600 acres in Uvalde County from C. S. Halcomb of Uvalde at \$14.00 per acre.

Mr. Wyatt has purchased another ranch between 11,000 and 12,000 acres in Uvalde County, but the location and consideration paid for same are not known at the present writing.

Bee Causes Driver to Turn His Ford Over

Andrew Milyko, San Angelo geologist escaped without severe injury when the Ford roadster he was driving turned over about three miles from Sonora on the San Angelo highway. Milyko was en route to Sonora, as was his brother who was driving ahead of him in another car. A bee flew into the car and it was while the driver's attention was directed to ridding himself of the bee that the car left the road, Milyko said.

New Auburn Has Class and Speed

A new Auburn "8" sedan shown her this week by Mr. Collett with the Shorty Johnson Co. of San Angelo attracted much favorable comment.

This is the car that broke the world's record, and it handles very smoothly at any rate of speed and under any condition.

Mr. Collett stated an agency would be established here provided a capable man could be located as an agent here.

NOTICE TO VOTERS

Please take notice that I will no longer serve as school trustee I have served for eight years and feel sure that this is long enough for one man. My friends will oblige me by not trying to get me to run as I absolutely will not, and will not serve if elected. W. E. Glascock (2-t-pd.)

RACING RULES DRAFTED FOR FIVE TOWNS

Drafting of rules to govern horse races and selecting of an executive board were high points in a meeting of the West Texas Fair and Racing Association, held in San Angelo Saturday afternoon.

The first race meet to be run under rules of the association will be at El Dorado, June 21 and 22. Following this there will be a race meet at Ozona on June 27, 28 and 29, and at Sonora July 4 and 5. Menard has not set the dates for its races, the San Angelo races to be held in connection with the All-West Texas Exposition in September. The five places have membership in the association. Fort Stockton being a prospective sixth member.

Barnes of Sonora Presides—W. R. Barnes of Sonora, president of the Association presided at the meeting Saturday. Others in attendance included J. M. Treadwell of Menard, George Williams and Don McCormick of Eldorado, Joe Pierce of Ozona, and Millard Cope of San Angelo, secretary.

The executive board of the association is to be composed of James R. Caldwell, Sonora; Paul Perner, Ozona; Don McCormick, Eldorado; J. M. Treadwell Menard; and Dick Waring San Angelo.

The rules under which the races will be run were adopted from the rules of racing as drafted and adopted by the Kentucky State Racing Commission, though the rules were modified to adhere to West Texas conditions.

Board Has Power—The principal items of interest include giving each town member the power to disqualify or suspend horse owners or a jockey, suspension in one member town preventing the owner or jockey from taking part in races in other member towns unless by consent of the executive board.

Organizers of the association believe that the formation of such an organization will bring about more co-operation among the member towns in getting more horses to each meet, as well as better horses. The forming of a circuit will permit an owner to travel farther and enter better blooded horses, as he stands a chance of winning in several towns.

Sonora Downs Big Lake, Score 12 to 3

Playing errorless ball, the Sonora Bronchos pawed the Big Lake Wildcats Sunday at Big Lake in the score of 12 to 3. Big Lake went hitless until the seventh frame when they scored two runs. A walk and a wild pitch gave the Wildcats their other tally in the fourth.

Big Lake garnered only two hits to the Bronchos 12. B. Hamilton featured at the bat with three hits, a triple, two base and a single in five times at bat. Smith is credited with ten strikeouts in the seven innings. Payne, pitcher for Big Lake got four strikeouts.

The Ozona Giants will be here Sunday week to engage in a fast game with Sonora. King, Miles star of several years, will do mound work for the visitors and Smith will hurl for Sonora. This promises to be a good game, as both teams are among the best home talent teams in West Texas.

Mrs. Clayton Murchison of Menard, was here Friday afternoon, visiting relatives. She is a niece of Mrs. Stella Stanley and a cousin of Mrs. Carl Morrow and Mrs. Johnny Hamby. Mrs. Murchison was Miss Wynn before her marriage, and was reared in Sonora.

County Commissioners Bond Logan, Jones and Hudspeth were in town Friday afternoon, attending the paving meeting.

Sam Hull made a business trip to Dallas this week.

W. E. Glascock was a visitor in Sonora Monday morning.

T. L. Benson reports the following deals through O. L. Richardson, his Sonora representative:

Sold to Northern feeder-buyers, the following yearling muttons:

For Gen Springton of Eldorado, 1000, for Tom Springton 1400, for Sam Williams, 600. These sheep are to go forward at once.

All City taxes not paid by the first of May will become delinquent. A. C. Elliott, City Tax Collector. 2-t-c.

SONORA WOULD GET FOUR BLOCKS PAVED

Roy Hudspeth, county commissioner presided at a mass meeting held Wednesday night in the Jackson building for the purpose of discussing hard-surfaced streets. Much interest from property owners and citizens and the commissioners was manifested at this meeting. Most everyone present favored the paving of our streets.

The State Highway has let a contract for the paving of the San Angelo highway north to the pavement in Schellicher County and on the O-S. T. East to the Kimble County line. The Highway Department proposes to build eighteen feet in the center of four blocks in Sonora provided the strips on each side of this is paved; and this is to be done by the property owners and the city together with county aid.

The total cost of pavement on the four blocks including curbing totals \$9,372.67, according to figures presented at the meeting. A committee of property owners and citizens was appointed by the chairman to work out means of proportionate costs to the city, county and property owners. The proposition made by this committee is that the property owners pay one-third the cost while the city and county will take care of the balance which will be two-thirds. The committee appointed are: Roy E. Aldwell, W. E. Caldwell and V. F. Hamilton, all property owners; Joe Berger and J. W. Trainer the other two.

This committee, after conferring with property owners, are of the opinion that everything is going smoothly and that the proposition should go over successfully. This committee is to confer with the city council and county commissioners. No definite plan, according to Mayor Dunklin, has been worked out to finance the city's part of the cost.

The cost to the property owner will be approximately \$150 per foot, which is very reasonable.

BRYSON RANCH SOLD FOR \$84,480 CASH

Mrs. J. W. Wilson has purchased the W. C. Bryson ranch of eight sections in this county for a consideration of \$16.50 per acre, it was learned here this week. The land adjoins Mrs. Wilson's ranch in the eastern part of the county, and swells the total acreage of the two places to around 20 sections of the best sheep and goat land in West Texas.

Mr. and Mrs. Bryson have purchased another ranch near Uvalde, it is said, and will make their home there. Their home in Sonora has been offered for sale, it is learned.

Ford Continues Parts for Old Fords

Detroit, April 20.—The manufacture of replacement parts for the millions of Model "T" Ford cars still in daily use continues to demand nearly one third the production capacity of Ford plants here.

Ford officials estimate, from reports of dealers all over the country, that there are still approximately eight millions of the Model "T" cars in constant use in the United States. Some of these cars are many years old. Every now and then there are reports of Ford cars of the old-brass bound radiator types of twelve or fifteen years ago, still running after more than a hundred thousand miles of service.

The next of the model "T" Fords is now nearly a year old, for the production of assembled Model "T" cars was suspended in May 1927 to make way for the new Model "A".

This suspension of assembled Model "T" cars did not affect the production schedule of Model "T" replacement parts however. Throughout the year the manufacture of Model "T" parts continued to occupy about one third the production capacity of the Ford plants.

A few days ago newspaper correspondents here asked Henry Ford how long he expected to continue making parts for Model "T" cars.

FOR SALE—75-pound capacity ice box, practically new, hygienic—phone 3812. 2-t-c.

Halbert Gathers Tub Hail Stones on Ranch

B. M. Halbert, who ranches eight miles West of Sonora passed through town early Thursday morning with a tub full of hail he gathered on the

ranch. Mr. Halbert said he was carrying the frozen balls to Mrs. Halbert for use in making ice cream. These stones had been in a heap covered with leaves and drift for over forty days. Mr. Halbert believes there will be hail on his ranch thirty days from now.

S. A. B. C. D. Employs Expert Dairy Man

SAN ANGELO, April 27.—The employment of a dairy expert, to work with chambers of commerce, county agents and dairymen throughout this section in furtherance of the dairy industry, will be a part of the 1928 dairy expansion program of the San Angelo Board of City Development, and T. R. Logan, chairman of the division, has made a great deal of headway toward mapping out the work that will engage the attention of the dairy expert.

Going before the board of directors of the Board of City Development with a recommendation that a field man be employed, and that the commercial organization take every possible step looking to the furtherance of that basic industry. Mr. Logan and members of the dairy division pointed to the ideal conditions in this section favoring dairying, and pointed to a program looking to its development as bearing great possibilities for helping to bring permanent prosperity to the rural population. The shortage of dairy products in Texas, the ever increased demand for these products and the important economic influence the industry can bring to West Texas were mentioned in the division's recommendation to the board, which was adopted in its entirety by unanimous vote following a motion by R. A. Hall, of the San Angelo National Bank, who pointed out that while the program will be one of long range, immediate results can be enjoyed after its inauguration.

John Burnside, a member of the board of directors, commended the work that has been done by the dairy division and expressed the belief that, based on the experience that has been had in other sections thru the cultivation of dairying, much may be gained toward bringing absolute financial independence to farmers of this section through that channel. The further development of dairying in this section, which fortunately has already reached pleasing proportions, will be accompanied by similar developments in the poultry field, and these have a big part in the well balanced farm program," Mrs. Burnside said.

Kyle.—This town is now 48 years old, having been laid out by Jay Kyle of New York in 1840 as the only town at that time between Austin and San Marcos.—Kyle News.

Brady.—Building and improvements now under way in Brady aggregate more than \$550,000.00, according to latest available figures.—Standard.

Lee Wilson Visits Sonora in New Plane

Lee Wilson, Buick agent at Ozona, in company with a Mr. Hunt, arrived "over" Sonora last Friday afternoon about 4:30 in his biplane with an exhaust whistle screaming. A few minutes later the plane made a landing near town.

Mr. Wilson has many friends here and his arrival in the plane caused quite a stir of excitement. He turned several "loops" and a few other maneuvers for the benefit of the spectators and returned home an hour later.

NOTICE FOR APPLICATION FOR PROBATE OF WILL

THE STATE OF TEXAS, To the Sheriff or any Constable of Sutton County—Greeting:

YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Sutton, State of Texas, and you shall cause said notice to be printed at least once each week for a period of ten days exclusive of the first day of publication before the return day hereof: And also to be posted at three of the most public places in Sutton County, one of which shall be at the court house door, and no two of which shall be in the same city or town, the following notice:

THE STATE OF TEXAS,

To all persons interested in the estate of JOHN HURST, deceased, MRS. ROSA HURST has filed in the County Court of Sutton County, an application for the Probate of the last will and testament of said John Hurst, deceased, filed with said application, and for letters testamentary of the estate of John Hurst, deceased, which will be heard at the next term of said court, commencing the third Monday in May, A. D. 1928, at the court house thereof, in the town of Sonora at which time all persons interested in said estate may appear and contest said application should they desire to do so.

HEREIN FAIL NOT, But have you then and there before said court this writ, with your return thereon endorsed, showing how you have executed the same.

Given under my hand and the seal of said court at my office in Sonora, Texas, this the 20th day of April, 1928.

J. D. LOWREY, Clerk of the District Court, Sutton County, Texas.

With Our Neighbors

Menard.—The greatest social event of the year as well as the realization of the most pretentious building improvement ever made in Menard will be the opening of the Bevans Hotel here on May 3rd. and 4th. The nationally famous "Seven Aces" orchestra has been booked to play for dances on each of the two nights. Invitations to the affair have been mailed broadcast over this entire section.—Menard Messenger.

Del Rio.—Major James Fitzmaurice, now famous aviator who, with his German companions made the first successful westward flight over the Atlantic, has relatives in Del Rio. He is a first cousin of Mrs. D. L. Anderson and a second cousin of Mrs. Homer Jones and Miss Ella Mae Anderson.—W. T. News.

Christoval.—The cold norther of last Friday with ice and heavy frost Sunday morning has completely killed the pecan crop. The young foliage on the trees appeared black as if burned with fire.—Christoval Observer.

San Saba.—Ira G. Yates is further improving his 23,000 acre ranch by construction of a 15 mile highway from the ranch headquarters to intersect the Pecan highway at Cherokee. The ranch home has been completely remodeled.—Livestock Reporter.

New Ford Parts Are Displayed in Sonora

An opportunity to see and examine all of the vital parts of the motor and transmission of the new Ford cars is being offered to local people by the Sonora Motor Company, who this week, have arranged an interesting display of all parts.

The oil pump of the new Ford, which is causing so much talk in motoring circles, is displayed in a jar containing oil, and the method of its operation is attracting much attention.

The public is invited to this display, according to Sam Hull of the Sonora Motor Company.

Carbon paper, second sheets, etc. at the News office.

Preferred Stock

In keeping with its announced policy the West Texas Utilities Company, a Texas corporation, will sell to its customers and friends shares of preferred stock. West Texans are familiar with the splendid growth and development which this company has experienced since its organization and know its dependable financial record.

Expanding and growing impressively since its beginning a few years ago, the West Texas Utilities Company has forged into the forefront of public utility companies of the Southwest. It stands today as a leader in the public utility field in Texas.

In five years, from early in 1923, to the present time, the West Texas Utilities Company has increased the number of communities served from eight to 102, which have a population of more than 200,000; its electric customers have grown from a little more than 6,000 to 49,087. In addition, it serves 17,603 gas customers and 4,695 water patrons.

The soundness, strength and stability of the West Texas Utilities Company, bolstered by the continuous development and rich possibilities of the territory in which it operates, make this company's preferred stock one of the most attractive and safest of any securities ever offered for sale to West Texas investors.

This company is offering for sale \$6 cumulative preferred stock (no par value) at \$96 per share. These shares are fully paid and non-assessable; they are preferred as to assets and as to cumulative dividends of \$6 per share per year. Dividends are payable quarterly on the first days of January, April, July and October, each year.

Full information concerning this stock is available at any office of the West Texas Utilities Company. Any employee will be glad to explain in detail.

West Texas Utilities Co.

Davis of Anona Is Chosen Scout Master

At a meeting of the Finance Committee of the recently organized ranch district, Concho Valley, B. S. A., Mr. Davis of Anona, Texas was elected to the position of Assistant Scout Executive, and will have charge of the five counties composing the Ranch District. These counties are Sutton, Schleicher, Menard, Crockett and Kimble.

Mr. Davis comes highly recommended for this work, having been a scout and scout officer for the past twelve years. He is a young man and one whose enthusiasm for the work has equipped him most admirably for the work. His duties will commence some time this week. He is an eagle scout, the highest rank of Scouts, and has won several medals, awards and a coveted scholarship.

The local finance committee reported the collection of nearly \$500.00 from the business men of Sonora. This amount must be supplemented with \$250.00 to \$500.00 more by individuals in order for Sutton County to meet her pledged quota, according to Roy Aldwell, chairman. Mr. Aldwell stated that he felt there would be little difficulty in raising this additional amount by individual subscription, since Sutton County parents were so wholeheartedly behind the scout movement. He made a strong plea for the support, both moral and financial, of the movement, and will make a further canvass this week.

Mr. Aldwell pointed out that if as much as \$1000.00 can be raised by Sutton County, \$750.00 of this amount will be used by the local chapter. Mr. Davis is to be paid by the district he stated.

Plans were formally announced at the meeting for the Boy Scout encampment, to be held this year near Menard on the San Saba River. It will open June 3 and last 10 days Mr. Aldwell said. It is hoped that Sonora will attend in a body.

T. S. Club Met With Mrs. J. W. McDaniel

Thursday afternoon, April 19, the Sonora T. S. Club met in the beautiful home of Mrs. J. W. McDaniel.

A short business meeting was held and after that a very pleasant afternoon was spent. Some busied themselves with hand work, while others engaged in conversation.

A delicious salad and ice course was served by the hostess.

The next meeting will be held with Mrs. Fields on Thursday, May 10.

The club met with Mesdames Lewis Bruton and W. W. Halcomb Thursday April 12. Different kinds of handwork were exhibited during the afternoon. After an hour was spent in sewing and conversation, refreshments were served by the hostesses.

Woman's Club Will Give "42" Party

The Sonora Woman's Club will give a 42 party on the night of May 1. Proceeds from the party will be used to buy more books for the club library. Those in charge of the party are: Mesdames E. E. Sawyer, Roy Aldwell, Orion Brown, B. W. Hutchinson, and Miss Alice Karnes.

The committee requests those desiring to attend to be ready to make reservations when called upon.

Mrs. Sam Hull and Mrs. Murphy were shoppers in San Angelo last Saturday.

People Pleased with Show Management

The citizens of Sonora and Sutton County are well pleased indeed with the La Vista Theatre under its new management, judging from attendance at the theatre during the first week since it was purchased by M. R. Williams.

That the management intends to supply the people here with consistent good shows is evident as all have been strictly up to standard.

J. M. Burnett, manager, states that several improvements will be made in the building including beautification of the entrance and box-office and the installation of curtains just inside the doors. These will permit the doors to be left open in warm weather without throwing a glare of light on the screen, he explained.

A piano tuner from San Angelo spent two days in Sonora this week, and gave the organ in the theatre a thorough overhauling. It is now in splendid condition. All new music is now being played, the old rolls having been disposed of by the management.

The audiences are also speaking very favorably of the vaudeville acts staged at the theatre this week.

Mertzton Mohair Sells at 74 and 85 Cents

Giles Hill, a director of the West Texas Wool & Mohair Association of Mertzton, returned from that place this week where he had been to directors meeting.

Mr. Hill reports that mohair sold there recently for 74 cents for grown hair and eighty five cents for kid hair. The warehouses were cleaned of all mohair during the sale.

The West Texas Wool & Mohair Association will stage a sealed bid sometime in May, at which time several thousand pounds will be offered for sale.

Mr. Hill states that the Mertzton section of the country is needing rain, but stock is not suffering now.

With Our Neighbors

Del Rio.—It will be necessary to import many laborers here to assist in the harvesting of the onion crop grown in the fertile valley of the Rio Grande section. Harvesting will commence at once.—West Texas News.

Junction.—S. S. Bundy of Roosevelt is in California purchasing more fine blooded Rambouillet bucks to add to his flock. Mr. Bundy is rated as one of the most scientific ranchmen in the business.—Junction Eagle.

Brady.—For the first time in over thirty years the town of Brady has only one newspaper, the Brady Sentinel having suspended publication last Saturday following the closing of the plant by the writ of sequestration. The injunction is styled "S. W. Hughes vs. W. S. Foster, J. H. Kavanaugh and Dan Huffer.—Standard.

Kerrville.—The road from Kerrville to Junction will be re-surfaced, starting at an early date. This is one of the several paving road-improvement projects called for in a "better roads" program being staged in Kerr County.

Mrs. W. L. Aldwell will make the excursion trip into the Rio Grande Valley, leaving Sonora Sunday morning.

Geo. J. Trainer Sr., agent here for Diamond Point roofing, reports that he recently sold the following ranchmen new roofs for their houses: R. A. Halbert, on ranch home; John A. Martin, on town residence and ranch home.

Mr. and Mrs. Dock Friend visited in San Angelo over the week-end. Misses Bonnie Glasscock and Guila Lowrey visited in Mertzton

last week-end. They report that Mertzton is thriving.

Mrs. O. R. Cauthorn and Dan were in from the ranch Monday morning. Fred Earwood was in from the ranch Friday afternoon.

Mr. and Mrs. Louie Stuart were in town last Friday.

Mr. and Mrs. Edgar Shurley were visitors in San Angelo last Saturday.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation will be cheerfully corrected upon being to the attention of the editor at the News office.

Yes, sir, Sonora is the best town in West Texas. We have here some of the most progressive men in the country; the best people on earth; the best water in this part of the State; good schools and churches, and the best all-around town anywhere, barring none.

Sutton County and this part of West Texas are needing rain to the extent that some of the ranchmen are beginning to get a little restless. One consolation is that every day that passes puts us closer to the rain. We will get the much needed moisture soon and you will see the broad smiles from the ranchmen.

Are you a subscriber to the News? If not, come in and let us tell you why you should be. The News is the best paper in Sutton County and Sonora and is always boosting the best town and the best people on earth. Have the News sent to your friends who have lived here or who have relatives here—they will enjoy reading the happenings of Sonora.

Who said Sonora was not going to have better streets? It is almost

assured now that we will have hard-surfaced streets in Sonora. All property owners and the City Commission are in favor of the move. This will be one of the most progressive steps Sonora has ever taken.

Sonora will soon rank with the most progressive towns in all West Texas. The \$40,000.00 sewer system is now being installed, the new bank building going, Hamilton Grocery will start construction as will the E. F. Vander Stucken Co., the West Texas Utilities building is nearing completion and several nice residences just finished, marks building features for Sonora at present.

Alvin M. Owsley, candidate for the United States Senate from Texas, has accepted an invitation from Throckmorton to make an address on May 4 in the program celebrating the arrival of the first train over the Cisco & Northwestern railroad. The occasion will be one of the most colorful in the history of Texas industrial progress and its importance in this record of achievement has appealed with particular emphasis to Mr. Owsley, he said in accepting the invitation to attend.

"My recent tours overland through Texas, especially west Texas, has made me appreciate more keenly than ever before the wonderful advance that is being made in the development of this State's resources," he said. "The construction of a new railroad through Throckmorton and adjoining counties is another step in this development and I am highly gratified to be able to take part in an appropriate recognition of its importance."

Owsley's continuous campaign, starting at Denton March 3, had taken him by auto into every section of Texas, he said, and has first hand knowledge of what is being done to bring Texas and her tremendous potential wealth into national recognition.

"I have come into close contact with the cattle raising industry and its problems," he said, "and I am confident that with governmental co-operation, especially in the tariff

RATES—\$1.25 and Up.

HOTEL McDONALD

schedules, this industry will once again come into its proper place as one of the leading industries of the Southwest both in magnitude and in money for those carrying it on. The oil industry is in the same situation and also the cotton and grain industries of West Texas, all of which must eventually be recognized and rewarded as the essential industries of this country. It is these industries and the extent to which they are developed in Texas that cause Texas to be regarded as the market basket of the world.

"Throckmorton and that section of the State now are to be linked with South Texas, East Texas and North Texas by railway so that its products may be distributed more quickly to better markets. They will now reach the ports of Houston, Galveston and the new and growing port of Corpus Christi without delay and high costs of transportation. It is a great occasion for Throckmorton County and all of West Texas, in fact, and it gratifies me exceedingly to feel that I am one of those to take part on this important historic event."

Mr. Owsley's address to the cattlemen at the recent Amarillo convention centered the attention of this element largely on his candidacy for the Senate. His tariff plank and its application to the cattle raising industry made him many friends and these have been urging him to make another visit to their section of the State. He will therefore meet many warm friends and supporters at the celebration on May 4 in Throckmorton.

B. W. George.

Claude—Mains have been completed at Claude for natural gas.

Wellington—The Wellington band is rehearsing in order to be in trim for the WTCC annual band contest.

Fort Stockton—A modern brick business building is under construction here by Tom Talley.

Gilmore Shows First "Icy Ball" Here

Although much has been said and written about the Crosley Icyball method of refrigeration, many persons examined the first of these machines to be displayed here by Gilmore Hardware Co., agents, and marveled at its simple though marvelous construction.

Many uses for this handy method of refrigeration are vouched for by its agents. It suits admirably the needs of the ranchman who does not have electricity at his ranch home and where it is impossible to purchase ice.

The mechanism of the machine is so simple that a child can understand it, although the scientific minds of the world were a long time in perfecting it. Everyone is invited to see this machine at the Gilmore Hardware Company.

Mexicans to Celebrate "Cinco de Mayo"

John Valasquez, proprietor of the Valencia Theatre, and one of the most prominent leaders among the Mexican population in Sonora, stated to the News this week that Cinco de Mayo, the fifth day of May, Mexico's independence day, would be celebrated here with a big dance at his theatre. He will also give a free matinee that afternoon. Everyone is invited to come.

Valasquez has been improving his theatre for the past few months and now ranks second to none among the Mexican theatres in West Texas. He is installing a cooling system this week which will add much to the comfort for the Mexican movie fans.

West Texas News

Alanreed—The chamber of commerce is meeting every Tuesday to care for the pressing needs arising from oil development here.

Carlton—The annual Carlton Fat Stock Show was held April 13 and 14, with large attendance from neighboring towns.

Quanah—The Greenbelt-Lower Panhandle district convention of the West Texas Chamber of Commerce convenes here May 14.

Lawn—W. L. Hughes of A. & M. College spoke at a recent mass meeting of Lawn citizenship on problems of rural education.

Clarendon—April 30 and May 1 have been set as dates for raising funds to take the local band to the WTCC Fort Worth convention.

Aspermont—Material is being placed on the ground to erect a new building covering four lots.

Stamford—Newspaper editors all over West Texas will be guests of the West Texas Chamber of Commerce at breakfast June 18 in the Fort Worth Club.

NOTICE OF TRUSTEE ELECTION

Notice is hereby given that an election will be held in the town of Sonora at the Gilmore Hardware Company store on the first Saturday in May, the same being the 6th day of May, for the purpose of electing three trustees to succeed W. E. Glasscock, Mrs. Maysie Brown and R. A. Halbert, who's terms expire. Cecil Elliott is appointed Judge to hold said election and authorized to secure such assistance as law requires governing such elections.

By order of the Board of Trustees of the Sonora Independent School District.

Given under my hand and the seal this, the 16th day of April, A. D. 1928.

Personal Mention

B. M. Halbert was in from the ranch Tuesday morning.

Sol Mayer was a visitor in Sonora Tuesday.

Miss Schylster and Miss Alma Lynn, Chautauqua directors, left Wednesday.

Miss Leola Custard returned to her home Sunday, having spent the week-end in Sonora.

William Fields, Jr., has returned to College Station where he will resume his studies at A. & M. College after spending the mid-term holidays with his parents in Sonora.

Mr. and Mrs. Shelton have returned to Sonora and are at the McDonald Hotel after an absence of a week or

more. Mr. Shelton is with the Dixie Oil Co's. geological party stationed here.

Andrew and Alexander Milyo, San Angelo independent operators, were here Tuesday.

Frank Miller of San Angelo and E. B. Dilley, vice-president of the National Oil Scouts Association, were here Tuesday morning.

Clayton Puckett was among the ranchmen visiting in town Tuesday afternoon.

A. F. Clarkson who ranches several miles southeast of Sonora, was here Tuesday on business. He had returned from a business trip to San Angelo.

B. M. Halbert, the model rancher, was in San Angelo last week-end on business.

Mr. and Mrs. Russel Martin were here from the ranch Tuesday afternoon.

Mrs. Alton Hightower returned Saturday morning from a two week's absence during which time she visited friends in Marathon, Ft. Stockton and Sanderson.

Mr. and Mrs. Dock Friend were in from the ranch Tuesday.

George Edward Allison was in town Tuesday morning.

Miss Gwynne Blanton was a visitor in San Angelo last Saturday.

Mrs. Tom Bond was in from the ranch Monday afternoon.

Allison Trainer, who has been working in Douglas Arizona, returned to Sonora this week.

Mr. and Mrs. Sid Evans and Billy Sid were in from the ranch Monday their first trip to our city in ten days.

Mr. and Mrs. Edgar Shurley were in town Monday afternoon.

Mr. and Mrs. Frank Bond were in from the ranch Monday afternoon.

Mr. and Mrs. Big Holman were visitors here Monday.

Mr. and Mrs. C. E. Leahmar, formerly of San Benito, Texas have moved to Sonora and placed two children in school. Mr. Leahman is the new barber at Long's Barber Shop and he likes Sonora fine.

Mrs. Sol Kelly was in from the ranch Monday.

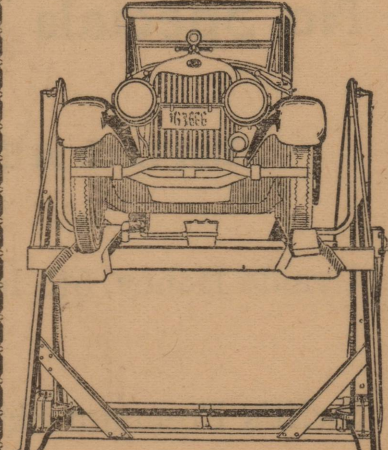

Mr. and Mrs. Byron Newby of Del Rio spent last Sunday visiting Mrs. Newby's parents, Mr. and Mrs. Hi Eastland, at the ranch.

Mr. and Mrs. Sam Allison were in from the ranch Monday afternoon.

E. M. Kirkland was among visitors in town Monday.

Mr. and Mrs. Rector Cusenbary, Miss Hattie B., Mrs. A. E. and Ben Cusenbary were visitors in town Monday afternoon.

THIS IS IT!

Above you see an illustration of the GLADISH HOIST about which we told you last week. This is the LATEST WORD in automobile servicing machinery and is just being installed in some of the largest cities in the country.

THE GLADISH HOIST raises the car high enough from the floor to enable the mechanic to grease and oil ALL VITAL Parts of your car. Remember that proper lubrication will prolong the life and usefulness of your automobile.

Drive in today and let us give your car a thorough greasing and oiling with this machine.

CITY GARAGE

BROADCASTING FROM SONORA

BY DANIEL O. PAYNE

Howdy, children! You're all the little folks this week? I hope this finds all the customers of this column in good health, spirits, form and humor. If it were not for having been badly fooled just three times so far since the first of April, we might have a little something to say regarding Spring. As it is, however, we do not feel safe in even saying "Spring," much less making any kind of talk about it. The worst part of that, too, is that another cold wave is predicted for the end of the month. Wouldn't that make you glare buttermilk? Cheese and crackers, got all muddy!

Hutch says that no matter how old it gets here that some of the boys are so warm natured that they don't even feel it, and that occasionally it becomes necessary to issue instructions to "cut down on the linen" up at our county bastille in order to keep them from sleeping too soundly.

Will, well, well. They tell me some of the folks have already started on the great national pastime of making home-brew. Can these be true? If so, Spring is undoubtedly here. But you just watch and see now, it'll turn cold by the end of the month.

Here's a little story. The young thing rushed in yelling "Help, help, the baby's swallowed a bottle of ink!"

"Incredible" remarked her better half.

"No, indelible" corrected the y. t. Ever since a while back we have heard someone saying that if it doesn't rain in another two weeks, this country is ruined. We've caught on to how that works now. Here's the idea. You start saying that when it gets real dry. If it hasn't rained inside those two weeks, why just say it again and wait another two weeks. Eventually it will rain and everyone will be perfectly right about it all the way round.

Which reminds us of the argument over at Long's Barber Shop the other morning, when two old timers were having a hot dispute over whether "chautauqua was pronounced "chatty-qwee" or "chatty-quaw." They finally compromised when Bill McCurdy took a hand in the affair and called it plain old "chawtaquaw."

Hutch says he knows one way of making a fellow see the light, and that is to tap him with one. Get the idea?

Still another one of our gentlemanly and industrious acquaintances of this fair city says that Spring fever is one of his year-round ailments. He just craves the springs he says, and can hardly wait until nine o'clock rolls around before he hits the hay.

Seems as though they might be going to build our new bank out of something besides Sutton county limestone. Well, be that as it may, we're glad that they thought for a while they would build it out of limestone. I made several columns of news out of that idea, and it made good stuff. A geologist friend of mine saw a piece in the paper about it, headed "Limestone Beds Found in Sutton County." He came around to me and wanted to know, confidentially, if I could take him right out to the Fields ranch and show them to him. He gave me a sort of scornful look and said what he meant was that as far as he knew there wasn't anything in Sutton County but limestone beds. He's silly—we have lots of other kinds of beds. We have flower beds, folding beds, ant beds and to be brief, beds galore.

This is Monday's contribution. We thought we'd be able to write this column a little more satisfactorily if we wrote a little each day. It doesn't work. I can't explain just wherein it fails, but it does. So, unless we hear or see something alarming, or even startling, we will let this be all for this week's contribution. And here let us say goodbye.

POLITICAL ANNOUNCEMENTS

Announcement fees for the following offices will be charged:

Precinct, \$7.50; County \$12.50; District \$15.00.

Mrs. Stokes Williams of Mertzon and Mrs. Bud Ellis of Eldorado were here Wednesday visiting their sister, Mrs. Stella Stanley.

Geo. W. Main was in from the Appelt ranch Wednesday morning. Mr. and Mrs. Theo. Savell and Miers were in from the ranch Wednesday morning.

PERSONAL MENTION

B. B. Dunbar was a visitor in town Wednesday.

D. W. Wallace was among those visiting in Sonora Wednesday.

Mr. and Mrs. Russell Martin drove to San Angelo Wednesday in their new buick sedan.

Fred Simmons was in from the ranch Wednesday.

Mr. and Mrs. Johnnie Martin were in town Wednesday, shopping and attending to other business.

Mrs. Clyde Gardner was reported as improving very rapidly from the effects of her recent illness, caused by the infection of a vaccination. Her many friends will be pleased to know that she is doing so well.

Ira Duke Wilson was a visitor in town Thursday morning.

C. E. Stites, proprietor of the Stites Motor Company, is serving on the petit jury of the Federal Court in San Angelo this week.

Jim Wright and a Mr. Browning ranchmen from Junction, were here Wednesday on business.

Buzzy Stokes, now of Rockspring, visited his relatives here this week.

J. W. Stockley of Uvalde was here on business Wednesday. He states that the country in that section is looking very dry and that rain is badly needed. No shearing is being done as yet, he said, though a few muttons will probably be sheared in April.

Ben and Rector Cusenbary were visitors in town Tuesday afternoon.

Clay Mann of the Mann Commission Co., San Angelo, was here on business during the middle of the week.

H. M. Phillips, who ranches in Sutton County but who makes Czona his headquarters, was a visitor in Sonora Wednesday.

Coach and Mrs. W. W. Hleomb and Miss Cauthorn visited in San Antonio the past week-end, arriving there Saturday. They witnessed the pageant of the beautiful Tournament of Roses, returning to Sonora Sunday night. The trip was made in Miss Cauthorn's car.

Arthur Simmons was in from the ranch Wednesday afternoon.

Tom Bond was a recent visitor in Rockspring.

E. C. Beam was in from the ranch Wednesday.

Ben Mittel, the dashing young ranchman, is displaying his picturesqueness on a background furnished by a beautiful new Auburn straight "8" sedan purchased this week.

Ira L. Wheat, well-known Edwards County ranchman, was here on business Wednesday.

Hazen Woods and Dick Dicken, geologists with the Atlantic, were here Thursday visiting friends.

Joe Logan, one of the County Commissioners, was here Wednesday night for the hard-surfacing street meeting.

Roy Hudspeth was in from the ranch Wednesday to attend the open discussion of the hard-surfacing street meeting.

Judge Harvey Walker was among visitors in town Wednesday. Mr. Walker a former member of the firm of Walker-Stites Motor Company, local Chevrolet dealers.

Harry Meckel and wife were here the fore part of the week on business.

G. H. Davis, wife and baby were in from the ranch the first part of the week shopping and visiting.

Plans for Hospital Are Being Drawn

Plans for the new \$18,000.00 hospital to be erected here are being prepared by three companies in San Angelo, Abilene and San Antonio, according to Dr. A. G. Blanton, promoter of the enterprise. The most suitable of these plans will be selected, Dr. Blanton stated, following which bids for construction of the hospital will be let. A location has not been definitely decided upon for the hospital as yet, he said, but several are under discussion as probable sites.

Ira Green Sells Medicine to Steen

Ira C. Green, agent for Uncle Sam stock medicine, reports that he recently sold 200 bags of this medicine to Lawrence Steen.

Mr. Green is now covering all the territory between the border and San Angelo, including Edwards County, and is kept busy calling on the various ranchmen in this large district.

Benson Continues to Sell Livestock

Sol Mayer & Son report the following deals:

Sold 3500 yearling ewes to Hal B. Ramsey of Marathon at \$10.00 per head for May 10th delivery.

Sold 400 mutton goats to Jack Wardlaw at \$4.50, delivered April 24th.

G. P. Hill, Sr., made the following recent sales:

To Lane of Paint Rock, 70 bucks at \$35.00.

To Ben Meckel, Sonora, 30 bucks at \$35.00.

P. M. Cooper has sold to W. B. Hutcherson 800 mixed lambs at \$7 per head for September 10th delivery.

Hadley Test Reaches 1345-Foot Level

T. C. Hadley's diamond core test on the Ross ranch in this County is reported drilling again at 1345 feet after installing new machinery recently. It is understood the Nantz test on the Allison ranch is still shut down, though the cause is unknown. Their latest reported depth was 70 feet.

35 YEARS AGO

From The Devil's River News of March 28 1891.

Thursday evening at 8 o'clock the marriage of Wm. H. Johnson to Miss Jennie Kilgore was solemnized at the residence of Mr. and Mrs. O. T. Word 10 miles South of Sonora. Justice Traweck officiating. The room in which the ceremony was preformed was tastefully decorated with evergreens. The beautiful bride was becomingly attired in cream albatross, trimmed with silk, lace and orange blossoms, with a wreath of orange buds. The groom, in black, ever handsome and manly, was particularly so on this occasion and proved beyond a doubt that fortune favors the brave. The presents, of which there were many, were sensible and well chosen. The attendance was very large, and after the wedding all enjoyed themselves to the utmost, tripping the light fantastic until early in the morning. The supper was one of the finest on record and Mr. and Mrs. Word should receive the premium as entertainers. It is doubtful if such a large gathering could be induced to attend elsewhere unless there were a few couples as popular and worthy of respect as Mr. and Mrs. W. H. Johnson, to whom The Devil's River News humbly tenders its congratulations and only expresses the sentiment of their many friends in wishing them a long and happy life.

F. M. Drake, one of the best informed cattlemen in the Stockman's Paradise, was in Sonora Saturday. A Mr. Wilson of Runnels County is now at work on the D. B. Cusenbary ranch, exterminating the prairie dog. Mr. Cusenbary is paying him \$100.00 for this work and states he is perfectly satisfied with the work and the number of dead dogs. John Martin, one of the popular boys of Gwynn, was in Sonora Saturday.

Bronch Yans Drub Schenecker Produce

While Sonora's regular baseball team was away at Big Lake last Sunday holding the Wild cats to three runs, the Sonora Yellow Jackets or "Rinkey-dinks" took on the Schenecker Produce Company's team in a hot struggle which took twelve innings to decide. The score was tied in the ninth inning and three more frames were required for Sonora to chalk up the winning score.

Leonard Moore and Clyed McCurdy split the twelve frames fifty-fifty, registering some tight hurling which brought lots of praise from the fans. Vernon Hamilton led the home crew for slugging, with the midget "Potty" Hollmig running a close second. Potty hit light but frequently. The Sonora lineup follows:
C, Bill McCurdy; P, Moore and McCurdy; 1b, Vernon Hamilton; 2b, Moore and McCurdy; 3b, Archie Ory; s.s., Dorsey Archer; r.f., Jack Trainer, c, f, Lester Ory, l. f. Potty Hollmig, umpire, Earl Merck.

The Yellow Jackets are feeling "puffed up" over their first victory and are talking seriously of taking on the Bronchs at the first available opportunity.

H. P. College Will Remain in B'wood

Brownwood, Teas, April 20—"Howard Payne College will not be moved or consolidated unless her Board of Trustees desire such a thing," said Dr. Edgar Godbold in a statement to the student-body recently. This statement brought a great feeling of relief to students and supporters of the College and the feeling of anxiety that has hung over the institution for some months was lifted.

Dr. Godbold stated in his message to the student-body that the State Educational Survey Commission of the Baptist general convention of Texas had infomed him that "we have no intention of consolidating or relocating Howard Payne, but are going to let her work her own salvation." He further stated that this is exactly what we have wanted them to do for some time, because we firmly believe that we can work out our own plan of rescue.

The principal discussion of Howard Payne College at the sessions of the Survey Commission, was in regard to the institution's deficit last year. The college must raise \$20,000, of which amount approximately \$11,000, has already been secured, Dr. Godbold said.

All thoughts that Howard Payne will be moved or consolidated can now be cast aside by those entertaining such an idea.

D. T. Speed, the congenial proprietor of the Sonora Dairy, was among business visitors to San Angelo last Saturday.

NEWS FROM THE U. S. CAPITOL

Washington, April 12—Congress is now fixing to slip the farmer another gold brick. The majority of the 591 members, it would appear, have never had any other idea. As the time approaches to fish or cut bait, this becomes more and more apparent. Invisible Government, with smudgy thumb turned downward, is on the job.

There will be no real farm relief at this session of congress unless the man behind the plow starts in now and raises so much hell that congress can't get away from it. His friends in congress know it; so does his foes. The cards are stacked against farm relief of a real relieving nature, and the best the farmer can hope for, apparently, is a sorry and shoddy thing—a one-way imitation of a two-way mechanism.

It isn't a pretty tale to spin this week, but your correspondent would be begging off from duty if he didn't tell it. Nor is this story of what is going to happen to the McNary bill. That bill may be the answer to the farmer's woes and then, again, it may not. Opinions differ. It so happens, however, that is the only remedy prominently before congress. And congress soon will consider it with one ear turned toward the White House and one eye cocked toward the firm-mouthed Vermont gentleman who lives therein.

The bill has been stripped of most of the things to which Mr. Coolidge objected in the past. It still retains the equalization fee which Mr. Sargent, the amiable Attorney General, has declared unconstitutional, and Mr. Jardine has said wouldn't work. Obviously, it is a bill written as a bid for the President's approval. It probably won't get it, although it may be that Mr. Hoover and Mr. Dawes and some other White House advisers will be able to coax the President to sign it.

Even so, it still remains a one-way expedient, in the opinion of the farmer's sincerest friends on Capitol Hill. The real way to get farm relief as these men see it, is fairly simple. It lies in making the farmer's bushel of wheat, or bale of cotton, or hundred-weight of hogs, or prime steers fetch as much, relatively, as they used to fetch in the open market in the good old days before Agriculture went up to its Gethsemane.

And that can be done only by some such expedient as the McNary-Haugen bill, plus a great deal more, as the farmer's real friends see it. The McNary-Haugen bill is designed to raise the level of prices of what the farmer has to sell. Maybe it will and maybe it won't; in any event, that is what it is designed to do. The other part of the business is to lower the prices of what the farmer has to buy. That part is just as important as the first.

Now the farmer's friends claim that everything he buys, or nearly everything, is kept at artificially high prices by the present protective tariff. Farm machinery, clothing, household goods, all the modern conveniences, are thus protected. To lower those prices, they contend, it would be necessary to lower the tariff.

No better illustration of this condition could be afforded than the record of Wall Street for the past month. A roaring market has tossed its 4,000,000-share days between bulls and bears. What were the stocks that climbed or fell? United States Steel, General Motors, Radio, the railroads and industrials—all children of the tariff, fattened by the schedules.

In all the 1,000 and more active stocks in that building cauldron of speculation, there was not a single issue of farm stock. The farmer was not represented. And while billions of dollars were lent to the speculators at 3, 4, or 4 1-2 per cent for purpose for gambling, the farmer was mulcted from 6 to 8 per cent—sometimes more—on the most stable property in the world, his real estate, and often couldn't borrow, even at those rates.

Mrs. Aldwell Hostess to Tues. Bridge Club

Mrs. W. L. Aldwell entertained the members of the Tuesday Bridge Club at the Sonora Woman's Club Monday afternoon. There were three tables of bridge, high prize going to Mrs. Fred Simmons. Cut prize was won by Mrs. Vernon Hamilton and guest prize by Mrs. A. G. Blanton. Non-member guests were Mrs. T. A. Williams of Rocksprings and Mrs. A. G. Blanton.

Delicious refreshments of ice cream and cake were served by the hostess.

Mr. and Mrs. Guernard Stephenson were visitors to San Angelo over last week-end.

* Personal Mention *

Mrs. Robert Halbert spent Saturday in San Angelo shopping.

Ben Meckel was in from the ranch Monday morning.

Ben and Bill Mittel spent Saturday and Sunday in San Angelo visiting their parents, Mr. and Mrs. Wm. Mittel.

Mr. and Mrs. Edgar Shurley were in from the ranch Thursday evening.

Mrs. T. A. Williams, Mrs. S. T. Gilmore and Miss Estelle McDonald returned to San Angelo from Abilene last Saturday. Mrs. Williams and Mrs. Gilmore returned to Sonora that evening and Miss McDonald remained in San Angelo over the week-end.

Sam Karnes was a visitor in San Angelo last week-end.

Mr. and Mrs. W. R. Barnes were in San Angelo last Saturday. Mr. Barnes attending the meeting of the West Texas Fair and Racing Association of which he is President.

Dick Mannen and Cliff Bowles, geologists stationed here, spent Saturday and Sunday in San Angelo last week.

Miss Bertha Green, of Henderson, Texas, is visiting her sister, Mrs. A. C. Elliott. Miss Green is well known here, having spent several months here last year.

Mrs. Kesee of Houston is visiting in Sonora with her sisters Mesdames J. E. Grimland and Jess Mayfield. She returned to her home in Houston this week, accompanied by her nephew, Wade Grimland of Tampico.

Mr. and Mrs. Johnnie Fields were San Angelo visitors Tuesday.

Wade Grimland left Sonora Thursday after a pleasant visit with his parents en route to Tampico. Mr. Grimland's many friends here were delighted to see him. While here Mr. Grimland subscribed for the News in order to keep posted with Sonora happenings.

Mr. and Mrs. Haynie Davis were in from the ranch Tuesday afternoon.

Miss Ada Steen was in from the ranch the fore part of the week, visiting relatives and shopping.

Adolph Ramsel of Mertzon has accepted a position at the Rutledge Cafe. Mr. Ramsel is a fine young man, and we welcome him to our town.

Otho Drake, of the West Texas Utilities, was in San Angelo the latter part of last week on business.

Is your subscription to the News due? Look on the label of your paper and you can tell when your time expires.

Mr. and Mrs. Joseph Vander Stucken came in from the ranch Thursday afternoon for the dance that evening.

Mr. and Mrs. Louie Stuart were among the young couples driving in from the ranch for the dance Thursday night.

Mr. and Mrs. Sam Allison, the popular young couple, were in from the ranch Thursday afternoon and at the dance Thursday night.

Sam Karnes was a visitor in town Thursday.

Lloyd Earwood, the popular young ranchman, came in for the dance Thursday night. This is the first time young Mr. Earwood has been seen here in quite a while, and we are glad to see him.

Mr. and Mrs. Louie Stuart returned this week from Austin, where Mrs. Stuart was given the test for hydrophobia at the Pasteur Institute. She was recently bitten on the hand by a cat, but it's head did not show signs of rabbies.

Willie Miers was among those enjoying a big evening at the dance.

B. M. Halbert Jr., was in from the ranch Thursday for the dance.

Louis Mayfield was here Thursday, displaying two new Durant automobiles. Mr. Mayfield's headquarters are at El Paso and his son-in-law, Mr. Juergens has the agency for these cars in San Angelo. Mr. Mayfield is the son of Jess Mayfield of Sonora, and was reared here. He was accompanied by C. B. Callahan, a partner of Mr. Juergens' in San Angelo.

Mac Cauthorn was in from the ranch Friday morning, his first visit in some time. He reported that shearing of sheep had commenced at the Cauthorn ranch and would last about four or five days. The Cauthorn sheep usually shear about 8 pounds on an average, Mr. Cauthorn said, but added that he doubted if they would hold up to this record at this time, due to early shearing, absence of the usual good grass and the consequent grease in the wool.

WHITE LEGHORN CHICKS

For sale after April 15th at \$15.00 per hundred. These chicks are from Pedigreed cocks and A. A. class hens. Pullets, if properly cared for, will lay at 4-12 months. Also have setting eggs at \$1.00 per setting. Phone 118 Mrs. Alvis Johnson t-f 4-6-28.

THEODORE VIRGEN

Telephone Number 216.

Ira C. Green, a ranchman and agent for Uncle Sam's Stock medicine, was here Thursday morning on business. Mr. Green reported livestock doing nicely, considering the dry weather. He raised sixty-five per cent lamb crop from a flock of two-year-old ewes.

Mrs. M. A. Wilson and baby returned from Brownwood today where they had been visiting relatives for the past ten days.

Quality and Price --
Yes, but don't forget
tire service

The kind of a tire you get and the price you pay for it are two very important things—but don't forget service.

Mounting and dismounting tires, changing them around. Inspecting them for cuts and other injuries. Checking wheel alignment. Removing rust from rim. Free air—these and other kinds of service we are always glad to render are of utmost importance and have a lot to do with the final performance and cost of your tire.

It might be nice to have a dependable place to go when anything happens to your tires.

When you buy a Goodyear All-Weather or a Goodyear Pathfinder from us you've established a tire home for life.

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ANY OTHER KIND.

Sonora Motor Co.
