VOICE OF

THE PEOPLE

The time is near at hand when the people of the nation will express at the ballot box their approval or disapproval of its public servants and national policy.

When the public speaks it always is portentous, significant and consequential. Whether the verdict applies to national politics, a public utility, a private business or an individual. It is an incontrovertible force in which judgment the victor or the victim must abide.

The public demands, and is entitled to service good service and constructive service—no other kind will develop confidence and trust or perpetuate loyalty and patronage.

This sort of service forms one of the basic principles upon which the West Texas Utilities Company is founded. It is with pride that we point to the thousands of satisfied customers who stand loyal and steadfast. We like to believe that it is a commentary to our unswerving efforts that our industry continues to grow and thrive in such gratifying proportions.

The fifteen minutes between halves proved an inspiration to the defensive work of the bucking Sonorans. Pat Cooper began an intensive campaign about the head and stomach of his unfortunate opponent. He practiced several different methods of preventing this fellow from enjoying the popular and manly sport. Pat was so busy with this work that he almost forgot to lend his efforts in stopping the man with the ball. Hillman Brown and John Me-Clelland became so consistent in stopping Ozona's offense that they almost came to the point of saying, 'This one is mine and the next one is yours,"these two boys are the back-bone of our defense. Woodrow Norris, one of the numerous first year men, showed signs of making

In the second half Ozona's touchdowns came to a sudden end and they made only a few first downs. Mc-Clellard's passing remained a puzzle and a mystery during the entire game, and Ozona was forced to be content with tackling the receiver.

In spite of the 32-0 score, the boys were out again Monday training harder than ever, and with a new the squad.

It takes a stout heart to keep working after having suffered a defeat. How many hearts in school Their first game is scheduled with and in town are stout enough to back a club that is losing, but trying?

W. L. Aldwell and Ben F. Meckel Charter No. 5466 left this afternoon for Dallas to attend the State Fair. They drove to San Angelo in Mr. Meckel's Hudson and took the train to Dallas. Mr. Aldwell will return Thursday.

Word has been received from Mrs. Woodie Martin who is in the Medical Arts Hospital for treatment at San Antonio that she is much improved. She will probably be home in about two weeks.

Miss Guila Lowrey was visiting and shopping in San Angelo the latter part of this week.

Speed Buys Dairy from Troy White

D. T. Speed has added eight more cows to his herd of Jerseys. He recently closed a deal with Troy White for the cows.

This addition will enlarge his 100,000.00 flock of good milchers.

100,000.00 Mr. White will, in all probability, 27,297.23 buy and sell furs this fall and winter. 3,000.00 He will be associated with Sid Evans who has been buying furs here for the past several years.

The Why of Mohair

Not only in the home, but in banks, millinary parlors, beauty shops and hundreds of other employments, mohair is gaining recognition. The smooth fabrics made by Goodall 762,854.99 Worsted Co., and marketed by Les-100,000.00 her, Whitman & Co., under the name 6,000.00 "Lesher Mohairs," are being adver-27,900.00 tised in the daily press of the large 4,900.00 cities most effectively.

240,717.12 Illustration of the difference in 5,000.00 fibers is vividly shown in the accompanying sketches. Why mohair \$ 1,147,372.11 does not catch and hold dust is clearly indicated. The designer of this advertising has caught an idea often 100,000.00 advanced by the Angora Journal as 100,000.00 the reason why mohair excels all 27,297.23 other fibers. As expressed in the 102 lectures given with the films of mo-812,261.50 hair, "Flock to Fabric," sponsored by L. C. Chase & Co., distributors of 'Velmo" for Sanford Mills, the reason lies in the structure or physical nature of the mohair fibre.. Scurs or scales exist on mohair just as they apart and less highly developed. There is no felting property to mohair. For that reason, mohair cannot be woven on a mohair worp, 35 per cent to 45 per cent of cotton being used to hold the mohair in position. All the wearing surface is of mohair, and it does not catch dust. Mohair holds dye, if the dye is dendbale in itself, making the fabric sunfast and washable. Thousands of patterns in these fabrics are being placed on the market, and it should not be surprising that mohair demand increases year by year. It is unexcelled as a textile material .-Angora Journal.
