M. D. JONES STORE ROBBED Saturday afternoon of this week at 2:30 p. m., a meeting of the executive committee of the Bailey County Inter- scholastic League will be held in Muleshoe to decide upon the place to hold the event.

North Carolina House of Representa- tives voted the Child Labor amendment bill last Monday.

BAILEY COUNTY PROGRAM OVER KFYO FRI. P. M.

Citizens Of Various Communities To Take Part In Plan.

Farm people from three commu- nities of Bailey county will participate in a radio broadcast from Station KFYO, Lubbock, Friday, February 5, at 1:30 p. m. This is one of a series of broadcasts in which the counties of this area, comprising Extension Dis- trict No. 2, participate in order. Bailey county has given two programs of this kind during the past few months.

Mrs. Albert Simmons and Mrs. Lon Lovett, farm women of Joyland community, will discuss the use of tile for subirrigating home gardens. W. J. Laney, Waicon community farmer, will talk over plans with the county agent relative to a complete home and farm demonstration which he and his family expect to initiate this year.

Citizens of this and adjoining coun- ties having radio are requested to tune in at 1:30 p. m.

FARMERS UNIT IN COOPERATION IS BEGUN IN CO.

Hon. Cliff Day and Lee Thompson Explain in Farm Ass'n Plan.

Organization of Bailey county farm- ers was begun Friday last week when Hon. Cliff Day, Plainview, vice-presi- dent of the State Farmers association, spoke to about 75 agriculturists at the court house, giving them opportunity of joining the county unit at the con- clusion of his address.

Thompson Gave Facts Among the outlined aims of the or- ganization are: cotton staple improve- ment, protection of locally produced fats and oils conservation of national gas, home ownership, development of needed farm credit, tax equalization of which Mr. Thompson said now about 75 per cent of the taxes paid in Texas was being borne by 25 per cent of the citizens.

Federal Range Plan Of Conservation Is Not Yet Given Out

"While it is known that some of the provisions of range conservation in this area will begin in February, said W. C. Taylor, Bailey county farm agent, yet all details of this plan have not yet been given to the county agents, and on the meagre and in- complete information at hand action in this and other counties of this sec- tion will have to be delayed for a few days.

Information from College Station this week stated that practices which will entitle ranchmen to pay under the range conservation program include deferred grazing, post-reseeded range, contour listing, contouring of terrace ridges, spreader terraces, spreader dams, earthen tanks, and reservoirs; establishment of fire guards and firebreaks; planting of prairie dog and kangaroo rats; and reseeded range land from prickly pear, cactus, cedar, mes- quite and lechuguilla.

\$15 Cash Awards Given Visitors To Muleshoe Monday

Notwithstanding a considerable drop in temperature, there was a very good crowd at the Trading Day here on Monday, at which time \$15 in awards were made to visitors. J. D. Cox, re- siding five miles north of Muleshoe, received \$7.00; L. W. Brooks, four miles north of town, \$5; John York, Jesko community, \$2; Acie Keiton, Long- view community, \$1.

In addition to the cash awards, numer- ous business concerns also gave mer- chandise awards of various kinds. Car- dealers distributed last week carried consecutive numbers, and much inter- est was created among visitors view- ing each other in visiting the various business concerns to determine if they held the proper numbers for such awards.

Another award of cash is schedu- led for next Saturday afternoon.

Because of the cold weather pre- vailing, there is little swapping and trading that day.

Glass Blowing Stunt Features Meeting Of Farmers at Progress

Joseph L. Cain, scientist and lecturer will give an elaborate exhibition in glass blowing, including of colors and other kinds of fancy glass work, at the Farmers' club meeting to be held in the Progress school auditorium, Friday night.

Mr. Cain, with his equipment set up on the stage will actually make bottles, jars and many types of fancy articles. The exhibition will be free. Mrs. More- ne Jackson will also render several musical numbers that evening.

Denver and Amarillo Celebrate Opening Of A New Santa Fe Line

Colorado and the Gulf coast coun- try were brought closer together with the completion of the Santa Fe system railroad line from Boise City, Okla- homa to Las Animas, Colorado, that event being celebrated this week by a 116 mile excursion train run from Am- arillo to Denver on which there were delegates from nearly every town and city in this western area of the state.

Banquets were held at both Amar- illo and Denver, and the Blodgett, president of the system; W. K. Eiler, operating vice-president and other prominent system officials taking part in the festive and visual occasion.

This new line not only opens a new stretch of country, but affords a sav- ing of much time and from 140 to 225 miles travel expense for passengers and freight over sections of the Santa Fe system.

R. L. Brown, president, Muleshoe Chamber of Commerce, represented this city on the excursion.

Muleshoe Boys and Girls Win In First I. L. Games Friday

The first games of the girls and boys basketball tournament of the Bailey County Interscholastic League were played Friday evening. The let week at the Bula gymnasium by Muleshoe and Goodland teams, both the local teams being victorious, the girls scores being 48 to 24, and the boys 48 to 25.

The games were fast moving and Muleshoe stayed far in the lead throughout the playing. Several substitu- tions were given the privilege of playing and getting good practice.

Tuesday night of this week the Bula and Goodland teams played at Bula.

Friday night of this week the Mule- shoe team will play with Bula teams. Winners of first and second places will receive the beautiful Bailey county Hooping trophies. The Muleshoe girls are now holding first place trophy, Bula girls second, Bula boys first, and Muleshoe boys second.

Boy Scouts To Hear President's Speech At Levelland Meet

In connection with the annual cele- bration of Boy Scout week, scouts of the Northwest district will hold a dis- trict Court of Honor at Levelland Mon- day, February 8, at 7:30 p. m. Floyd, Coffman, District Court of Honor chairman, presiding.

Troop 24 of Levelland, will be hosts to the troops from Muleshoe, Morron, Sudan, Littlefield, Bula, Circleback, Anton and Olton.

A rally will be installed in the Dis- trict court room and the broadcast of President Franklin D. Roosevelt will be heard, chief of staff of Dr. James E. West, Chief Scout executive.

GENERAL NEWS TEXAS AND SURROUNDING STATES

Hatcheries Are Open Folks Place Orders For Poultry Flocks

Egg hatching season has begun in this area, according to Ty Young, local hatcheryman, and there is every indi- cation, he said, that people are going to invest readily in baby chicks. Young started his big incubators to working about three weeks ago and already has a sizeable list of people who have made reservations for the first batch of baby chicks to pip the eggs.

There are several fine flocks of var- ious breeds in this section, many of them actually premium winners, and no difficulty is being experienced in obtaining high quality eggs of prac- tically every breed for hatching pur- poses. There are several breeders around Muleshoe who, every year secure new blood of highly pedigreed birds to head their flocks, thus keep- ing them up to the top notch of qual- ity and production. This section boasts of some of the best chicken breeders of West Texas, many of whom pull down leading honors at the various poultry shows held during the fall and winter periods.

While chickens have not maintained the highest possible market price in this area during the winter months, due possibly to the low price of turkeys, yet chicken eggs have commanded good prices. During the recent cold winter weather there have been times when chicken eggs were not available at any price on the markets locally, because of lowered production due to winter conditions.

Present conditions point to the rais- ing of a large quantity of chickens in this section during the coming year.

REGULAR MEETING

The regular Boy Scout meeting was held last Saturday evening under di- rection of A. A. Alexander, scoutmaster, and attended by Burgin Watkins, Raines Hayes, James Jennings, Gar- land Kennedy, W. H. Awtry, Lester Hannon, C. F. Garth, Herbert O- ran, Bob Cole, Horace Edwards, Ike Bayles, Derwood Mann, H. A. Douglas, Jr., Junior Charlton, Horace McAdams, Al Chiswick, Carl Goss and R. E. Owen, a visitor.

Wrestling and boxing was the prin- cipal diversion of the evening.

Cochran Co Well Is On Greater Flow Now Other Well Reports

Land leasing in southern Bailey county and as far north as the Sand range a few miles south of Muleshoe has been active during the past week, it being reported six oil companies get- ting their lawyers in probable "tie" while individuals are also showing an interest in procedures looking toward future development. Records at the girls scores being 48 to 24, and the boys 48 to 25.

The Claudell well No. 2, 30 miles west of Portales, N. M., is now report- ing a flow of 1450 barrels daily, being hindered much in drilling during the past two weeks because of unfavorable weather.

The Franklin test well 12 miles west of Muleshoe, N. M., is reported down 4400 feet, drilling in green shale and anhydrite.

The Cochran county well is reported to have jumped to a 600 barrel daily production and offset wells in that vicinity will soon be spudded in.

The contemplated wildcat which was to have been started in Bailey county 30 days ago, but held up on account of the driller forgetting contract, it is said interested parties are now closing an- other contract and expect to be able to make definite announcements in the near future. This well will probably be located about six miles north and two west of Enches in the southern part of the county.

ATTEND RECREATIONAL SCHOOL

The Bailey County "Women's council will send five women and girls to the Re- creation school to be held in Lubbock, Feb. 9 to 12, being accompanied on the trip by Miss Alma Stewart, county home demonstration agent.

Those to take part in the school from this county are: Mrs. Wm G. Kennedy, Progress community; Mrs. Grace Snider, West Camp community; Mrs. Glenn Thrush, Goodland community; Mrs. C. F. Moeller, Muleshoe; Miss Opal Snitker, Bula community.

The school will be under direction of Mrs. M. F. Feste Hobbs, of the Na- tional Recreation association, Wash- ington, D. C.

Texas trappers sell about \$3,000,000 worth of furs annually.

Texas is the leading sheep and wool producing state of the nation.

New Mexico this year produced an estimated 4400,000 pinnon nut crop.

Albuquerque, N. M., is to have a new municipal airport costing \$500,000.

Since the economic recovery irrigat- ed land in New Mexico is selling as high as \$225 per acre.

Practically all of the United States supply of helium, natural, noncom- bustible aviation gas comes from Texas.

The Court of Criminal Appeals, A. tin last week ruled marble boards, Texas a form of lottery operation.

Texas has an estimated reserve of 5,500,000 barrels of oil under ground being nearly half the total estimated reserve in the U. S.

There are 550 species of wild grasses found on Texas soils and 250 different kinds of fish in Texas waters, 100 of these species being fresh water kind.

Gov. Clyde Tingley, New Mexico, has officially estimated the coming annual expense of that state as \$5,851,202, or approximately two million more than visible income.

In 1936 Texas collected \$16,699,756 in motor vehicle registration fees on 1,568,700 vehicles. Of this total, the state received \$5,828,756 and the various counties retained \$1,071,224.

A company of capitalists, bankers and timber owners have organized a company at Dallas for building a \$5,000,000 newsprint mill somewhere in the South to use East Texas pine.

Texas is one of the leading hon- producing states in the nation. It has the largest number of cowboys in south, central and west of the state contributing to the wealth of the production.

Texas Manufactured products average approximately \$750,000,000 annual- ly. This state ranks second, and occasionally first in total value of ex- ports, averaging around \$400,000,000 annually.

Soil conservation treatment has been completed on 92,957 acres in the CCC camp demonstration areas in the Texas Panhandle, according to M. H. Pinnell, regional conservator, Amarillo.

Zack Miller, Farmer City, Okla., ousted monarch of the 101 ranch, once an inland empire of 101,000 acres, last week started a new fight in the courts to regain the remnants of the broad prairie domain.

Approximately 400,000 black birds have been killed recently in Wheeler county, this state by dynamiting their roosts at night. Immense flocks of them are reported to be damag- ing winter crops and grain stacks.

Hosten Begay, Navajo Indian, last week walked 105 miles through some of it being four feet of vital his wife who was sick in a hospital. Arriving there, he found he much improved. Government trucks took him back home.

Following the recent sudden death of Dr. J. G. Dealey, for many years editor of the Dallas News, J. J. Taylor for the past 33 years connected with that newspaper and widely known throughout the state as "State Press" has been made editor in chief.

The judgement of \$15,000 awarded Tom F. Hunter, Wichita Falls, twice candidate for Texas governor, was set reversed and remanded by the Court of Civil Appeals for several reasons. Hunter has sued the Houston Post newspaper for \$100,000 on libel charges.

WILSON SCHOOL, GIVES PLAY

A play entitled, "Here Comes Char- ley" will be given at the Wilson school house Friday night of this week, to which the public generally is invited.

There will be 10 people in the cast, there being three different scenes in the play, portraying a modern city home, a young girl 18 years of age from the hills who goes to the city to live with a young man who promised her father, on his death bed, he would take care of "Little Charley"; thought was a boy.

The fun really starts when Char- ley drives up to the young man's Miss Hines, who is direct- ing the public welfare admittance fee will

Subscription Rates: In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas. Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written on only one side of the paper, and must reach this office not later than Wednesday morning of each week.

Advertising that does not show in its text or typographic that it is paid for must be marked as an advertisement.

Obituary cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage other than the amount received by him for such advertisement.

Editorial

Every Great Attempt is Glorious Even If It Fails

M. O. CATALOGS

In legislative halls, for the old tax "goat" is appearing in new garb, and the milking process is about to be done over.

This time, unless all signs fail, the auto trailer is going to bear the burden, and the man who owns both a car and a trailer is going to be doubly scolded.

Trailers have become a nation-wide craze, and trailer-making has become a giant industry. Already the highways of the nation are alive with this new and popular vehicle.

Car owners around Muleshoe do not have to be told that the auto has long been the "tax goat" in this country, for they know from experience.

Trailers have become a nation-wide craze, and trailer-making has become a giant industry. Already the highways of the nation are alive with this new and popular vehicle.

Car owners around Muleshoe do not have to be told that the auto has long been the "tax goat" in this country, for they know from experience.

Trailers have become a nation-wide craze, and trailer-making has become a giant industry. Already the highways of the nation are alive with this new and popular vehicle.

Car owners around Muleshoe do not have to be told that the auto has long been the "tax goat" in this country, for they know from experience.

They serve notice that gardening time is coming on at a rapid pace and that early planting means better results and more profitable returns.

It isn't a bit too early to plan your garden, nor too late to remember that success lies largely in the planning.

It isn't what a Muleshoe folks to sleep tight; but don't try driving your car that way.

One trouble with a lot of Muleshoe folks budgets is they often are in need of a few bio-out patches.

It isn't what a Muleshoe man gives so much as the way he gives it that shows his real character.

The young folks of Muleshoe will be sure to surpass their fathers in at least one respect—they'll be bigger taxpayers.

When money talks, the average Muleshoe man doesn't always stop to investigate the truthfulness of his remarks.

There are still plenty of old-timers around Muleshoe who can remember when meals were opened with a blessing instead of a can-opener.

If Muleshoe citizens will form the habit of taking care of their pennies they will learn that tax collectors will take care of the rest of their money.

Muleshoe folks may witness more dust storms this year but thank goodness there will be no campaign oratory and not likely any floods out this way.

Frequently the Muleshoe man who has a half-hour to spend insists on spending it with somebody who doesn't want to spare that much time.

Our idea of ideal punishment that could be meted out to the average Muleshoe woman would be to lock her in a room with a dozen new hats and no mirror.

SNAP SHOTS

One trouble with the self-made man is that he often quits the job too soon.

When one's neighbors no longer seem impetive ergo why, it's a sign their impetive is getting better.

One can recognize the road to success by the discarded consciences scattered along the way.

Trouble is generally a very sensitive thing. It goes off and leaves one, if they quit thinking about it.

Sometimes it appears that the more vanity people possess the easier it is for them to be happy.

Americans may be pretty smart; but if they are why do inventors always try to turn out fool-proof machinery?

Say what you will but the lamb that could follow Mary now days would have to be on wheels.

This day in time it appears half the people make a pretty good living working the other half.

An eastern editor says, "The newly married wife is bound to make mistakes." Yes, and the newly married husband is bound to eat them.

The patent lawyers are still full of folks who were going to put the money back as soon as they could pick the winner.

They say the Spaniards are the most cool fighters in the world; but one don't read anything about them using poison gas.

A happy man is not the one who gets the most money out of his job, but the one who gets the most fun out of it.

The best decorated house is usually the one where the wife knows what kind of furniture she wants and the husband doesn't give a darn.

It is impossible for modernism to eventually succeed. Just imagine a big shot with knock-knees and distended paunch trying to high-hat somebody.

Pavement Pickups

Cecil H. Tate says he discovered a year or so ago that any man who holds a baby should buy his suits with two pair of pants.

We heard the other day of a Muleshoe wife who got a pair of milk pailons for Christmas and ever since she stands up all night in bed to keep them from bagging at the knees. No names called, understand?

Reading where state U. S. Treasury Department officials has said the average \$1 bill lasts about nine months.

It is reported during the recent cold weather some Muleshoe citizens have been drinking anti-freeze to keep warm; but O'Neal Roock says he is sure they didn't drink Prestone as dealers can't even get enough of that kind for cars.

Reading in the Elida, N. M., newspaper where that state has no law against a man whipping his wife nor the wife lambasting her husband, if she is big enough, it is wondered if there will be one reason why some families move from Texas to that state.

Cecil McLaury, deputy county clerk, while issuing a marriage certificate to a couple last week remarked, "Your form must be filled out properly or we can't issue you a license."

A Baileyboro community woman, a few days ago, objected to Muleshoe Trade Day because she had to come to town to get better of her tickets.

A man, evidently a grandfather, walked into the Famous the other day and told Geo. Shadid he wanted a dozen of the best diapers.

Frequently the Muleshoe man who has a half-hour to spend insists on spending it with somebody who doesn't want to spare that much time.

Our idea of ideal punishment that could be meted out to the average Muleshoe woman would be to lock her in a room with a dozen new hats and no mirror.

THE JOURNAL'S Weekly Scrapbook

Orange cakes: Two cup sifted flour; 2 teaspoons baking powder; 2 tablespoons butter or other shortening; 1 cup sugar; 1 egg, unbeat; 1 tablespoon grated orange rind; 1 cup milk; 1/2 cup orange juice.

A Kitchen Hint: Aluminum pots and pans that have become dull or blackened can be cleaned by rubbing them with a cloth dipped in lemon juice.

A Style Suggestion: Be sure that the stitching on your dresses run vertically. Wear straight-lined dresses and coats if you would give the appearance of greater height.

The Home Dressmaker: A piece of cardboard the exact width of the hem and about six or seven inches long is convenient as a marker when making hems.

The Battle of Flodden Field: The battle of Flodden Field was fought near the hamlet of Flodden in Northumberland, September 9, 1513, between the Scots and the English.

COOKING: The instant heat, hot and numbingly hot, and keeps the skin SAFE. That means Mennen Antiseptic Oil. It's used by nearly all the beauty hospitals.

BEFRIGERAT: Gas makes possible a purified refrigeration, using paraffin water. Low cost. WATER HEAT: Gas provides an abundant, penultimate supply of heat whenever you want it.

HOUSE HEAT: House heating with a completely efficient, No order or store. No boiler with, No discharge, Good Gas With "MENNEN".

GUARD YOUR BABY with this OIL RUB: Mother—heed the urgent advice of doctors and hospitals; do as they do; give your baby daily body rub with the antiseptic oil that chases away germs and keeps the skin SAFE.

MENNEN Antiseptic OIL: Meeting a man on the streets the other day, the stranger asked John Benson if he would give him a dime for a sandwich.

HOUSE HEAT: House heating with a completely efficient, No order or store. No boiler with, No discharge, Good Gas With "MENNEN".

HOUSE HEAT: House heating with a completely efficient, No order or store. No boiler with, No discharge, Good Gas With "MENNEN".

HOUSE HEAT: House heating with a completely efficient, No order or store. No boiler with, No discharge, Good Gas With "MENNEN".

HOUSE HEAT: House heating with a completely efficient, No order or store. No boiler with, No discharge, Good Gas With "MENNEN".

WE GARAGE FELLERS CAN OFTEN VERIFY THE STATEMENTS OF SOME FOLKS WHO SAY THEY'VE NEVER PAID A CENT ON THE WHEEL OF THEIR CARS.

THE SEED CATALOG

Just as the first falling leaves indicate the approach of winter, so the arrival of the first seed catalogs presage the coming of spring.

They are as welcome as ever were, too, with their pictures probably a bit more exaggerated in color and their descriptions as alluring as a circus poster.

They are missionaries of better and happier living and faint of heart citizens who can't work up a lot of hopeful dreams by perusing them.

They at least accomplish one good purpose.

USED CAR BARGAINS

- 831 Model A, 4-door Ford \$225.00
- 834 Chevrolet Coach, new tires, motor reconditioned \$335.00

Sanitation Pays in Raising Hogs

Quarters, Feeding, Handling Are Important Points as Economy Measure.

By PROF. JOHN P. WILLMAN, New York State College of Agriculture—WANT SERVICE.

The hog has been called "an animal that deserves its name," but when it comes to economy in converting feed into edible meat, the hog excels all other farm animals. As one of the best housekeepers, a hog will keep his quarters clean if given a chance. He should not be criticized too severely for digging holes in the ground or for wallowing in the mud, because this is the only way the hog has to cool himself.

Swine are not equipped with so many sweat glands as are other farm animals, and for this reason they like to dampen their bodies to become cool.

Many farmers would undoubtedly find that their hogs would be more profitable with more sanitary quarters and better feeding and handling. Every breeder should aim to produce the type of pig that feeders, breeders and butchers demand, and he should do his best to enable his swine to convert as economically as possible the various feeds suitable for swine into food for human use.

Plenty of Water, Salt, Life-Saver for Horses

Sudden hot weather, intense and continued for days, usually brings reports of horses being lost from over-heating. This is unnecessary. Good horsemen do not lose horses, no matter how hot the weather may be.

The Horse and Mule Association of America advises taking a couple of barrels of water, on a wagon or stoneboat, to the field, and allowing the horses opportunity to drink at the end of each hour. If this is done, and the animals are allowed access to all the salt they want in stables, or in pastures when turned out at night, heat losses will not occur.

The same plan—plenty of water and all the salt they want—allowed to men who work about coke ovens, where the temperature is about 175 degrees, has stopped heat prostrations among men. It works, with men or with horses, and is so simple, so easily adopted, that there is no excuse for losing horses from overheating, no matter how hot the weather is.

Common sense in working animals, water every hour and all the salt the animals want, is all good horsemen use in handling their work animals in hot weather. It will save work stock from heat prostrations.

Foot Rot in Sheep

Foot rot in sheep is a chronic infectious disease of the tissues of the foot, and remains more or less localized to that area. The economic importance of foot rot lies in the severe losses which the owner sustains from a long period of inactivity of the infected animals from the loss of body weight, from decreased wool clip, from the diminished milk production at lambing time, and finally from the probable infection of the newborn and others.

Music for Milk

"Music hath charms to soothe the savage breast"—and to make cows give more milk. A farmer in a village on the German-Czechoslovakian frontier plays the concertina every morning to his cows. He first noticed that one refractory animal became docile when it heard the strains of the concertina, and applying this lesson to the other cows found that they submitted more readily to milking and gave increased yields.

Agricultural Hints

Potato varieties do not cross in the field. New varieties are produced from real seeds.

Agricultural conditions in Great Britain are much better than a year ago.

Yellow corn meal has more of vitamin A than white meal, but otherwise the food value is about the same.

Trees grow best on well cultivated soil which slopes to the north or east. Loose, porous soil is much better than hard clay.

Probably no subject has taken more space in the bee journals or caused more study and discussion among beekeepers than the subject of swarm control.

Broccoli, known in Italy for more than a hundred years, was not widely known in the United States until 1918.

According to recent figures, nearly 1,000,000 rural boys and girls are enrolled in 4-H clubs in nearly 3,000 counties in the United States.

Trials show that forest soils soak up 50 times as much water as the same area of bare soils and from 3 to 20 times as much water as pasture land.

YOU WON'T NEED HORSES... IF YOU

Phill-up with Phillips for Instant Starting

Don't wait until you actually have starting trouble. Do something about it... now. Get a trial tankful of Phillips 66 Poly Gas and find out how this outstanding winter gasoline ends, at once and for all, the nuisance and damage of slow, hard starting. Because it is higher test, it kicks cold motors into instant action. Cuts down the need for money-wasting use of the choke. Warms your engine up fast. Because it is enriched with extra energy units by the patented POLYmerization process, it puts extra pep into every cylinder.

der. Gives more flexible, more lively response to the throttle. Delivers more miles per gallon than you ever thought possible. The colder the weather, the higher the test of Phillips 66 Poly Gas—which is always 100% custom-tailored to your climate. Yet it costs no more than ordinary low test motor fuels because Phillips is the WORLD'S LARGEST PRODUCER OF NATURAL HIGH TEST GASOLINE. Look for the Orange and Black 66 Shield. When you see it, drive in... fill up... pull out... and step on it! You will certainly feel that difference.

EVER AT 50° BELOW FREEZING... this scientific motor oil goes to work instantly, because it remains perfectly fluid. Protect your cold motor with this premium grade lubricant. PHILLIPS 66 MOTOR OIL.

Learning From Yesterday Our yesterday's follow us; they constitute our life, and they give character and force and meaning to our present deeds.

Tough Feeding Duck The mallard duck has to find most of its food by the touch system, as it does practically all of its feeding by sight.

First Power-Driven Post Plane The first power-driven plane to carry postal matter is said to have been designed and flown by Hans Glade, Germany, in 1909.

o Day Is Feature, Country Store

At three o'clock in the afternoon there will be another of the popular Country stores with more than one hundred gifts for Plainview visitors.

BLUE BONNET CLUB MEET

The Blue Bonnet club met with Mrs. Gilbert Wollard Friday afternoon of last week. Members discussed plans for gift week to be held soon.

Longview News

Cliff Odham and wife, Crib Odham and wife and J. W. Odham left Sunday for San Antonio.

Mrs. M. M. Scott is visiting her sons in Brownfield.

Mr. and Mrs. Robert Dun of Littlefield, visited in the W. B. Wagon home Sunday.

Mr. and Mrs. T. W. Watson visited relatives in Sudan, Sunday.

S. D. Neal visited Arthur Askew Sunday.

Mrs. V. Wagon and family of Lubbock visited W. B. Wagon and family Sunday.

Deck Lynsky was in Memphis Saturday on business.

The sixth and seventh grades are pleased with the increase in pupils. They welcome Sarah and Ruth Heard.

W. R. Carter and family were called to Christal, N. M. last week on account of the illness of Mrs. Carter's sister.

Perry Straughters and family of Ark., visited in the E. J. Conner home Thursday.

Mr. and Mrs. N. C. Moore, Wiley Cash, Arrena and Mrs. W. R. Young stopped in Lubbock, Friday.

R. O. H. CLUB MEETING

The last meeting of the R. O. H. club was held in the High school auditorium on Thursday of last week.

The girls discussed the new club member whom they are going to elect, also other business, after which Margaret Ann Cook entertained them with a reading.

Dolores Beller then rendered a very entertaining vocal solo, followed by a piano solo by Lela Mae Barron.

Club members then sang the club song, followed by a reading given by Lela Hupp and a tap dance by Virginia Thurman.

After the meeting adjourned and each girl left with the goal in her heart to make each club meeting as interesting as this one had been.

The Home Economics girls gave a very interesting skit in chapel Wednesday of last week in which the girls modeled the dresses they had made.

RESUME PRAYER MEETINGS

Beginning Wednesday evening of last week prayer meetings will be held at the Methodist church at 7:30 o'clock.

Members of the Young people's department directed the first meeting which proved to be very beneficial to those attending.

The meetings will be held every Wednesday evening from now on, and everybody is cordially invited to attend.

Maple News Items

The county wide singing was well attended here Sunday in spite of the rainy weather. Dinner was served in the school auditorium. There was plenty for all and lots left. Visitors were present from Lehman, Anton, Moberg, Progress, Fairview, Circle, Enochs and Causey, N. M. The singing will be at Enochs the 5th of May.

Mr. C. C. Fall and son attended at Muleshoe Wednesday.

Mr. and Mrs. Cliff Day here went to field spent

FARMERS UNIT IN COOPERATION IS BEGUN IN THE COUNTY
 (Continued from page one)

Thompson explained that the state organization would have affiliation with a national body, thus insuring them full recognition of Congress and other Washington officials.

Day's Address

Mr. Day reviewed some of the hardships endured by farmers in years past reminding them how, only a few years ago, so many bales of cotton were required to buy a Ford car, such requirement being entirely out of the realm of reason. He declared the automobile manufacturers were organized and could, therefore, regulate their output and the price it brought, while farmers not so organized; but acting individually, were at the mercy of the public.

"There are four sources from which all animal life obtains sustenance and wealth," said the speaker—"soil, rocks and air and sea—and it is but proper and right that the producers of such should have some rights of expression as to their expenses and profits in such operations."

"The time of individual action has long ago passed," said the speaker. For several years past practically all other industry has been well organized. Farmers, in some sections, have shown some co-operative action in organization; but the time has come when a much closer affiliation of mutual and common needs and interests of this particular industry is required to produce needed results. Right now both our state legislature and our national congress are in session, and to obtain recognition, achieve influence and favorable action with these law-making bodies, co-operative action and representation is absolutely necessary."

Organization Needed

Mr. Day explained how other large interests, when desiring a certain piece of legislation, wrote the bill, placed one or more skilled representatives in charge of it, contacted officials with powerful influences, and spent money to see that such ambitions became legal facts. "Farmers must do the same," he declared.

The speaker declared his favor of a train load of farmers being sent to Washington in the near future to let national officials know the needs and desires of the farmers, especially those of southern states. "You soldiers of the soil," he declared, "are one of the most important classes of American citizens; you must form yourselves into one great army to bombard high officials with educational bombs advising and convincing them of your needs."

Day told his audience that of 650 farmers living in Ochiltree county, north of here, 500 of them had joined their county farm unit upon first solicitation, several more had since joined and it was now confidently believed that county would become practically 100 per cent strong for the movement. Membership prices vary in different states, he said, some charging \$5, others \$10, while some run as high as \$15 per year; but in Texas the membership fee is at the very minimum, only \$2 per year being charged, and that charge including the entire family.

At the close of the meeting a large number of those present came forward and gave their names for membership. Jess Mitchell, local editor, country resident and farmer, had the honor of receiving the first membership receipt issued in Bailey county.

Progress News

Mr. and Mrs. Jess Murrah made a business trip to Tahoka Saturday.

Mr. and Mrs. Dave Sivall were visited by her brother, Vess Carter, and family, of Circleback, Sunday.

Mr. and Mrs. Jack Wright spent last week visiting relatives in Dimmitt.

Mr. and Mrs. Jeff White of Muleshoe have moved on the Ty Young place.

Gordon Murrah made a business trip to Morton Friday last week.

Rev. Hendrix, Methodist minister, filled the pulpit here Sunday morning.—Reporter.

SNOW AND COLD WAVE

Northwest Texas had a touch of real winter Monday night when the thermometer dropped to 14 above zero at Muleshoe.

While there was but a light fall of snow in town, yet west and south of here snowfall is reported in some places more than an inch deep, melting off during the following day.

Tuesday night there was another very light snowfall.

NOTICE OF SHERIFF'S SALE

STATE OF TEXAS, COUNTY OF BAILEY. WHEREAS, by virtue of an order of sale issued out of the 64th Judicial District Court of Bailey County, Texas, on a judgment rendered in said court on the 1st day of December 1936, in favor of J. R. Sanders and against A. S. Trawek, Arispy Trawek, Albert Trawek, J. S. Edwards and E. R. Hart Company, a private corporation, Muleshoe, Texas, defendants, and to me, as Sheriff, directed and delivered, I did on the 2nd day of February, A. D. 1937, at 4:00 o'clock P. M. levy upon the following described tract and parcel of land situated in Bailey County, Texas, and belonging to A. S. Trawek, to-wit:

The West one-half of Lot Number 13, out of the subdivision known as Lady's Acres, in Bailey County, Texas, and containing 5 acres of land more or less, on the 2nd day of March, A. D. 1937, being the first Tuesday in said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M., on said day, at the courthouse door of said Bailey County, Texas, in the town of Muleshoe, I will offer for sale and sell at public vendue, for cash, all the right, title and interest of said Gus Farrar, in and to said property.

And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks preceding said day of sale, in the Muleshoe Journal, a newspaper published in Bailey County, Texas. Witness my hand this 2nd day of February, A. D. 1937.

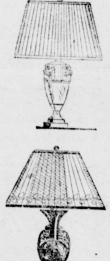

JIM COOK, Sheriff of Bailey County, Texas. Publ. Feb. 4, 11, 18, 1937.

THE STATE OF TEXAS) COUNTY OF BAILEY.) TO THOSE INDEBTED TO, OR HOLDING CLAIMS AGAINST THE ESTATE OF H. G. HOODING, DECEASED.

The undersigned having been appointed by Will as Independent Executor of the estate of H. G. Hooding, late of Bailey County, Texas, and by the County Court of said county, on the 18th day of January, during a regular term thereof, said having been duly probated in court, I, Cecil H. Tate, of Muleshoe, Bailey County, Texas, and as Independent Executor of such estate, by notice to all persons indebted to said estate to come forward and make payment and those having claims against said estate to present them within the time prescribed by the office of the said Cecil H. Tate, in the town of Muleshoe, Bailey County, Texas, where he receives his mail, the 2nd day of Feb. A. D. 1937. CECIL H. TATE, Independent Executor of the Estate of H. G. Hooding. Publ. Feb. 4, 11, 18, 25, 1937
