## Graduating Honor Students Win Places at State Meet

Three Sonora high school seniors took home honors at the state Interscholastic League meet in Austin May 8.

Carla Whitworth and Bill Elliott won first places in their divisions at the state meet. Cindy Galbreath won a third place in her division.

## Sutton Countians Receive \$16,780 From SS Benefits

A total of \$16,780 was paid to 304 persons each month in 1964 in Sutton County for old-age, survivors, and disability insurance payments through the Social Security Act. This figure shows a slight increase in payments, as last year \$15,966 was paid to 293 persons each month.

Persons who were collecting retirement insurance in 1964 numbered 149 and collected a total of \$10,189 as compared to 184 persons collecting \$9,183 in 1963.

In 1964, \$1,752 was paid for wife's and husband's old-age and disability insurance to 52 persons; 53 persons collected a total of \$1,896 a month for child's insurance; \$1,374 was paid to 25 persons for widow's or widower's insurance; and \$542 was paid to persons for mother's old-age and disability insurance.

The figures for 1963 and 1964 in all the above divisions changed only slightly.

Elliott's wins enabled him to take home an eighth place rating for Sonora in track events with more than 45 other schools competing.

Elliott is graduating fifth in a class of 37.

## CINDERS

By John T. King

I bet several people around town are glad Herbert Fields is running a particular ad in the "Devil" this week.

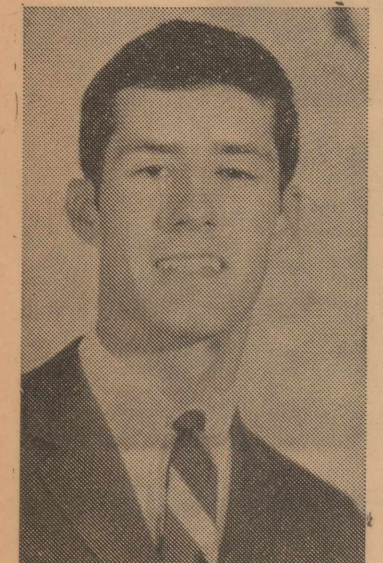

When Herbert ordered his year's supply of Toro lawn mowers the supplier threw in one of the "Flymo" type that has no wheels. It floats on air.

Now a flying lawn mower stretches one's imagination, especially when you're telling about the mower in a group of skeptics. In fact, most people had stopped telling about the mower because they found themselves being laughed out of the crowd.

But alas, the fun is over, the secret is out; yes, there is a flying lawn mower.

Hazel McClelland reports that the Welfare Council needs clothing and underwear for a 12-year-old girl. If you have useable items you can make a needy girl happy by dropping the clothing at 1005 Glasscock or calling Mrs. McClelland at 2-3831.

Clean Up Week should be coming up soon. Weeds and trash have a habit of creeping up on a property owner's blind side. It takes an organized effort each year to get everybody aware of the need of a town-wide clean up.

BE A BEDOUIN - AND LIVE

A team of research workers from the Hadasah-Hebrew University has discovered a way to avoid a coronary thrombosis. One merely has to be a Bedouin and live as these semi-nomads live.

report are plain to see. If we want to avoid heart attacks, we can live the simple life. If we spend time minding our sheep on some lonely hill, eating unleavened bread from the wheat we reap, drinking sour milk obtained from our camels, sheep or donkeys, and only occasionally indulging in a feast of sheep or young camel, our life expectancy may be increased.

Board, Staff, Auxiliary Recognized During National Hospital Week

By Lee Ann West

A hospital is a more complex unit than a combination of doctors and nurses working together to care for and cure sick persons. A hospital is a diversified network of people.

May 9-15 is National Hospital Week, and this year Hudspeth Memorial Hospital would like the public to become acquainted with the people who are behind the scene, so to speak, but yet without whom the hospital could not effectively function — the board of directors or trustees.

Doctors and nurses are always in the public limelight, and of course a hospital could not hope to perpetuate its services without the two. But too often the board of directors is left unheralded for the numerous and difficult tasks it assumes.

Hudspeth Memorial Hospital board of directors members include Joseph M. VanderStucken, president; Mrs. Mae B. Sawyer, first vice-president; Clayton Hamilton, secretary-treasurer; and members, Geo. H. Neill, Web Elliott, Mrs. G. H. Davis, Mrs. R. A. Halbert, Mrs. Jack Mackey, Mrs. Rex Cusenbary, Herbert Fields, Fred T. Earwood, Lea Allison, Ben F. Meckel, Hillman Brown, and Bryan Hunt. Albert Everett is the hospital administrator.

The definition of a hospital board of directors and its duties are wide in scope, just as the achievement of maintaining set standards and duties is often difficult for the board.

By definition the board of directors is the legally acknowledged unit that assures the provision of hospital services to the community, and the necessary personnel, facilities, supplies, equipment, money, and management in the proper amount.

The medical advisory committee reviews applications, obtains information and recommendations from the medical staff, makes recommendations to the board concerning appointments, promotions, and retirements of medical staff members. It develops policies concerning the responsibilities of the heads of services and recommends appointments of these heads. It also develops policies regarding the care of the patient. Members of this committee at Hudspeth are VanderStucken, Fields, Dr. J. F. Howell, and Dr. Charles F. Browne.

The ranch management committee supervises the purchase of livestock and activities for the

ranch that sustains the hospital. Members of the committee oversee all transactions which are connected with the operation of the ranch. Earwood, Hunt, Meckel, and Allison are all members of the ranch committee.

The landscape and homes committee provides for the purchase and maintenance of the administrator's home and the nurses' residence on the hospital grounds. Members of this committee are Mrs. Davis, Mrs. Mackey, and Mrs. Halbert.

Neill and Fields are members of the collection committee which supervises and makes recommendations on the collection of the income of the hospital.

The duties of the board of directors are not an easy lot. For this reason, the law demands that the trustee be one who is prepared to devote time and energy to the affairs of the hospital. Acceptance of such a position entails important duties and responsibilities and it is worthwhile that the public realize exactly what the board does.

Another group whose activities should be mentioned here as an important part in the hospital picture is the Hospital Auxiliary. The auxiliary is composed of persons who want to help to do the extra things that might never be done.

These voluntary workers promote several projects throughout the year. This year the auxiliary donated a high-low all-electric bed to the hospital. A Christmas party in honor of all the nurses was also given this year by the auxiliary.

Mrs. J. F. Howell, president of the Hospital Auxiliary, explained that the purpose of the auxiliary as set forth by the Texas Association of Hospital Auxiliaries is education: to dispense information regarding every type of health program, to sponsor and encourage organizations to serve hospitals and other health groups.

During recent years the auxiliary has viewed educational films on mental health, cancer, and problems of the aged; they have had informative talks on states' responsibilities to the indigent and the aged, on how to live to be 100, and on medicine and religion.

The Girl Scouts and various Sunday School classes have also been of service to the hospital through the auxiliary by making favors for patients' trays.

In addition to giving the hospital flowers, magazines, books, sewing aids, hand puppets, and stuffed animals the auxiliary has devoted much time and effort to the comfort of patients who might not have otherwise received special attention.

Other officers of the Hospital Auxiliary are Mmes. Bill Fields, vice-president; A. W. A-walt, secretary; Frank Potmesil, treasurer; W. L. Davis, recording secretary; O. G. Babcock, historian and reporter; J. E. Eldridge, parliamentarian; and C. M. Epps, auditor. The Rev. Arno Melz was named as the unit's spiritual advisor.

There are numerous persons to be remembered when it comes to expressing appreciation during National Hospital Week: doctors, nurses, the hospital administrator, the office staff, the maintenance staff, the grocer, the laundryman, the dietitian, the electrician, and all the middle men that are an essential part of this intricate hospital system.

It is important for the public to become acquainted and familiar with the groups of the hospital that are not often put in the spotlight. These groups function to make the hospital a sturdy, worthwhile credit to our community.

## YOUR MINISTER SAYS

By the Rev. Rodney Dowdy Pastor, First Baptist Church  
Last Sunday was Mother's Day throughout the nation. The newspapers estimate over eight million dollars was spent in order for our nation to show special attention and interest to the mothers throughout our land. Because last Sunday was Mother's Day, there was also an emphasis upon the homes. Let us give a few minutes of time to consider our homes.

The family lives by spiritual values: There is no action too small or too great to be connected with the spiritual side. We cannot divorce religion and spiritual values from life and the home. The family unit is God's method of preserving mankind. The family unit is the oldest divine institution. The home implies a man who works, a woman who is good, and a child who is taught. Only love that suffers long and is kind, vaunting not itself, can keep wedding bells from turning into tolling bells that announce the death of a home.

A real good can come from a family emphasizing spiritual values.

A home that is welded together by a constant consciousness of the presence of God will be cemented together. In hard times a family will stay together—in prosperous times a family will stay together. Individualism has run roughshod over the family as a unit. When Christ controls, the home will have a sense of "togetherness" so that outside forces cannot mar the family unity.

Placing spiritual values in the right proportions will build character in youth. More people own Bibles but a smaller percentage of people are reading their Bibles. We can't continue to live on the accumulated cap-

ital of our ancestors' Bible knowledge. Our young people need something besides frolic. Our boys and girls need something more than education. Good times and knowledge must be seasoned with parental Christian examples and Christ taught morals.

A successful Christian home is dependent upon both mother and father. Parents are divinely commissioned of God. "Train up a child in the way he should go, and when he is old, he will not depart from it." (Proverbs 22:6). The parents' responsibility is continual, as paraphrasing the words of Isaiah, "For precept must be upon precept, precept upon precept; line upon line, line upon line; here a little, and there a little." (Isa. 28:10). Someone has said one example is worth a million words.

### Good Prices Eyed For Sheep, Lambs

Smaller slaughter supplies, a smaller lamb crop, and a decline in the number of sheep and lamb in feedlots are expected to keep sheep and lamb prices for the remainder of 1965 above those of last year.

John G. McHaney, Extension economist, reports that prices for wool are not so favorable. Unfavorable factors, he said, include larger world wool supplies, lower mill use and increasing substitution of man-made fibers for wool.

## Letter To Editor

Dear Editor:

I wish I had words to express the feelings of a lot of folks when they pass by the "so called" memorial park, located at the edge of town on the San Antonio highway.

Here we are, about to begin preparations for a 75th anniversary celebration in our town. How many people have ever stopped to think if these boys, in whose memory this unsightly spot now stands, had not fought and died that it is possible that you might not be privileged to have this 75th anniversary.

I am just wondering if this little plot is going to remain as it is now, or will someone take it upon themselves to make it a spot of beauty; if not it would have been better to have just forgotten them, without this ugly reminder.

## Ethicon Opens for Public Inspection

The entire facilities will be open to the general public Saturday from 9 a.m. to 6 p.m. and Sunday from 12 noon until 6 p.m.

Special parking areas to the rear of the plant have been cleared and provision for several thousand cars has been made.

## The Devil's Workshop

By Della King

Last week's column about Little Red Riding Hood was written by John Tedford. We thoroughly enjoyed the story and thought its clever wit increased each time we read it. Reader reaction seems to have varied from pure pleasure to complete confusion.

John first came across the story in college when a sociology professor used it to demonstrate a pet theory. He distributed copies in a class including several Oriental students.

The students who had grown up speaking English as their primary language were soon laughing, but those who had learned English as a second language — even though they spoke perfectly and had for years — never understood the story.

The professor felt that this showed that persons who learn a language by speaking it as children then hear the words in their minds as they read, while others do not.

John, Dell, Greg, and Valerie are planning to leave this week for their summer stay in Dallas, where John will accompany the Summer Musicals.

We hope that by the time he gets back in August, John will have "Der Tree Ladle Pickles" ready for us.

## Sonora Graduates Honored by Church

The First Baptist Church will honor the members of the Sonora High School senior class who are members of the church at the Sunday morning service May 16.

The graduates will participate in the morning service with reading of the scriptures, leading the prayer, and taking part in the music program. Each graduate will be presented with a New Testament.

At the Sunday evening services the Youth Mission Program of the church will be featured, with the Sunbeams, Girl's Auxiliary, and the Young Woman's Auxiliary being honored. At this

service there will be a presentation of the Girls' Auxiliary, when the girls will be recognized for their achievements for the year.

# THE BIG INCH

The ruled box is a one-inch ad. It measures one column wide by one inch deep. It costs advertisers 70¢.

It looks kinda lonesome by itself.

But look at it this way.

What you get when you buy a one inch ad in the Devil's River News is not just a single inch of space in the paper, but one inch multiplied by 1,200 copies.

So you are really buying 1,200 inches, which at 140 inches a page would be some 9 pages of printed newsprint.

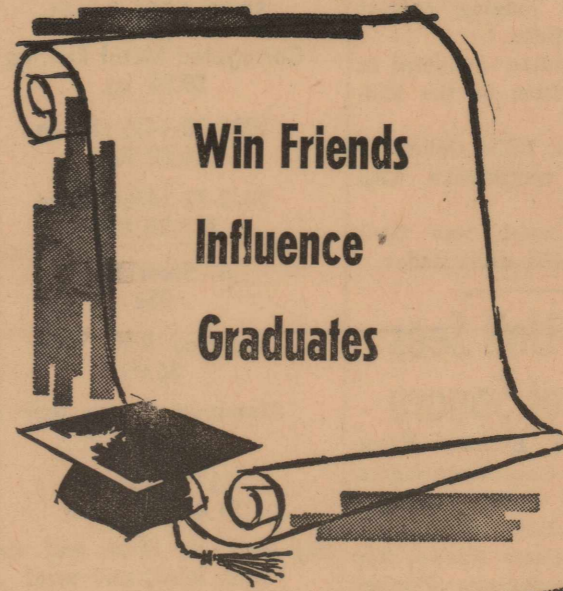

That's a mighty big chunk of space for a cost of only 70¢. And that price includes delivery to the reader's mail box. Just imagine the cost of reaching all those families by postcard. It would amount to more than \$48.00 just for the postage. But the "Devil" does it for a mere 70¢ per insertion.

So you can see that a little one-inch ad is really a pretty BIG inch when it's advertising space in the Devil's River News. And the figures show that it's the most effective and economical way possible to let people in this area know that you have wares and services that they could use.

Call 2-1241 and let a "Devil" advertising representative show you how a little BIG inch can wake up sales for you.

# STRONG CHURCHES

## Make STRONG COMMUNITIES

The future holds the secret, and it's anyone's guess! He may be a great statesman some day . . . or maybe a world-renowned athlete or actor . . . or perhaps a scientist . . . but most likely, just Mr. Average.

Of course, a lot will depend on his opportunities, his God-given talents, his character, and his training.

Anything could go wrong along the way — poor health, bad examples set by his parents and associates, a broken home, neglect, and false values. But why make a list? The possibilities for this child's failure in life are so numerous that it makes us shudder — and the worst of it, we can guarantee him nothing. But we can give him hope and faith.

Standing ready and anxious to help him is the Church and the precepts which it teaches. It is our duty and our privilege to help spread the spiritual principles of Christian living in practice as well as in word so that the youth of our nation will find some meaning to the path of life which so strangely twists and turns toward some hoped-for goal.

### THE CHURCH FOR ALL

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# Population Explosion Of Cars Troubles J.A.

Editor's note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River probably is looking too far into the future this week, but you never know.

Dear editar:

I don't know how many cars there are right now in the United States, I may have read the figure in a newspaper somewhere and probably put it in my files for future use but it's too far down to get to, which may need explaining. I file newspapers by stacking them in a corner and if something I want is on top it's readily accessible but if it's a few feet down I hesitate to pull it out, I've got forethought, I don't want the whole stack toppling over on me. You run your business and I'll run mine.

At any rate, there must be at least 30 million automobiles in the U.S. right now, maybe a lot more, but 30 million is a good enough figure for my purposes.

What I'm getting at is that I read in a newspaper last night that the automobile industry expects to produce nine million cars this year. This is first-rate business news, but it has its drawbacks. I mean, we're producing cars a lot faster than we're getting rid of them. Makes no difference how hard and conscientiously people try, they

can't get the wreck rate up to the production rate.

Therefore, say we're gaining four or five million cars a year. In ten years, instead of having 30 million, we'll have 75 or 80 million. In 20 years, 125 million. In 30 years, 150 million.

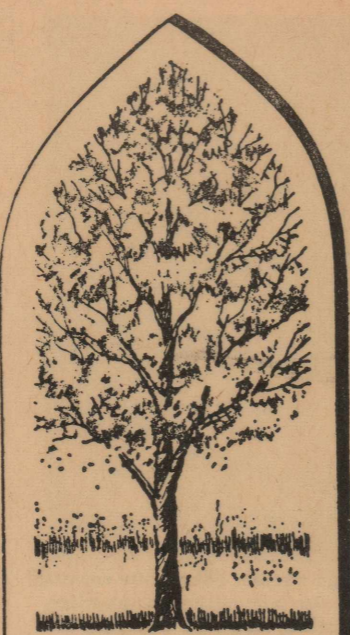

Have you stopped to think that in a hundred years from now we'll have over 500,000,000 automobiles in the United States?

Do you realize that if they all started in one direction at the same time, those stacked up behind would never get there?

Is Congress working on legislation now to establish Driving Days, as it should be? What I mean is, with that many cars, driving will have to be prorated, with one group allowed out on Monday, one on Tuesday, etc. I can see some smart people right now buying seven cars so they can drive one every day in the week, but Congress will catch on and plug that loop hole before it spreads.

Then there'll be the problem of developing underground ranching, as most of the land will be paved. I tell you, there are vast problems coming up in the future that are going to take a lot of forethought.

Yours faithfully,  
J.A.

## Challenges of Growth

SOIL STEWARDSHIP WEEK  
MAY 23-30, 1965

### Soil Stewardship Period Scheduled

By E. B. Keng  
Soil Conservation Service

The week of May 23-30 has been designated as Soil Stewardship Week. Churches throughout America are being asked to observe the dependence of man on the soil during this period.

The theme of Soil Stewardship Week for 1965 is "Challenges of Growth". The National Association of Soil Conservation Districts points out that "Around the world there is no surcease in pressure for food. There are three billion inhabitants in the world today and the total population will double by the year 2,000. All will want food and shelter, with dignity, at a price they can afford to pay. And the gnawing thought arises that peace itself is jeopardized. Not only by hunger, but by the inequities of food supply per person among the nations of the world."

Although there is a surplus of food in the United States today, there is a shortage in many parts of the world. With our rapidly expanding population every acre of good land will be needed to supply food, clothing, and shelter for the future. Man has the responsibility for stewardship of the land and water resources, and these resources must be used wisely and passed on to succeeding generations with full productive ability.

### El Paso Reports Earnings Increase

Earnings of El Paso Natural Gas Company and subsidiaries for the first quarter of 1965 rose to \$12,305,860 on record sales of \$140,944,545, chairman Howard Boyd and president Hugh F. Steen reported to shareholders at the company's annual meeting April 27.

The first quarter results compare with net income of \$12,302,219 on sales of \$138,548,856 in the similar 1964 period.

The company officials forecast "continued improvement in earnings in 1965," and said they anticipate "greater contributions from El Paso Natural Gas Products Company, particularly in its petrochemical operations," during the year. The Products Company, a subsidiary, has acquired an increasing stake in such diversified growth fields as petrochemicals and fertilizers.

The Astros will be seeking the same success which carried them to a 9-1 record over the Pittsburgh Pirates, New York Mets, and Chicago Cubs in the first homestand.

The Astros have lost in official play in the Astrodome only on April 12 to the Phillies and May 2 to the Chicago Cubs.

### Crusade Report Given at Unit Meeting

An incomplete report of the Cancer Crusade was submitted at the meeting of the Cancer Society Friday, April 30. Mrs. Alvis Johnson, president, announced that the Crusade had collected \$721.91. She added that the Sutton County Goal had been set at \$1,500, and that since the Crusade has not been officially closed, any further contributions will be welcome.

Mrs. Johnson also gave a list of Cancer Crusaders who had worked with her. They included Mmes. Vestel Askew, Lee Fawcett, L. D. Hollmig, Jack Raye, Robert Kelley Jr., Curt Schwiening, Charles Sims, W. B. McMillan, Bill Morris, Myrtle Sellman, Joe Lambert, and Beulah Cook.

### TS&GRA Reports Successful Drive

The Texas Sheep and Goat Raisers' Association reports gratifying success in its current associate membership drive among businessmen and professional people. By early May the associate membership for 1965 had exceeded 300. This is the largest in the Association's 50-year history.

Directors and general members are still making calls on potential associate members.

"We hope to more than double last year's associate membership by May 15," said Gaylord Hankins of Rocksprings, president. "The success of this drive shows that businessmen recognize the importance of the wool and mohair industry to the general welfare of business in the area. They are lending their support to sheep and goat producers in seeking answers to the difficult problems of the times."

A general membership drive is planned this summer to increase the number of producer members.

ACCENT ON HEALTH

**No Dozers Have Variety of Pet Remedies**

You can't sleep? You have lots of company. If you are one of those who find themselves staring dejectedly at the ceiling at three in the morning, maybe some of these suggestions will help. Make yourself as comfortable as possible before you retire. Make sure you've the right temperature in your bedroom. Use a comfortable mattress, not too hard or too soft; good bedsprings that won't hop coils into your ribs and won't sag in the middle; and fluffy, light blankets rather than heavy ones. Take a brief relaxing walk before turning in, or do some mild exercising to help tire you enough to relax. Again, there are all sorts of theories. Some people say coffee keeps them awake. Some prefer warm milk or a light snack. Many people read themselves to sleep, using everything from comic books and mystery magazines to rhythmical poetry. If you do encounter a sleepless night now and then, don't fight it. Just lie there and relax. The rest will do you good. Chances are, you will rest well and get enough sleep when you drop off. Worrying about not sleeping will only make you more awake than ever. If insomnia becomes a real health problem, see your doctor. He may be able to help you find relief. **San Marcos Co-Eds Earn Honor Awards**

Miss Elaine Mears and Miss Debra Cooper, formerly of Sonora, were among 312 Southwest Texas State students honored by the San Marcos College in its 11th annual Awards Day ceremonies May 5.

Miss Mears, daughter of Mr. and Mrs. L. F. Mears, received recognition in achievement and leadership in home economics.

Miss Cooper was recognized for scholarship in music and in education. She is the daughter of Mr. and Mrs. Roy Cooper of Kerrville.

The annual Awards Day ceremonies honored students who had proved themselves worthy of special recognition for scholarship, leadership, and other outstanding achievements.

The awards speaker was Dr. E. N. Jones, Secretary of the Christian Education Commission for the Baptist General Convention of Texas.

Count Henri Castro, a French citizen who became an American, was second only to Austin in the number of settlers he brought to Texas — some 700 persons — but he died a poor man in Monterey, Mexico, en route to France for a last visit. His burial place is now unknown.

With more than 500 kinds of birds recorded within its boundaries, Texas leads the states in the largest number of birds. If subspecies were counted, there would be more than 800.

**Telephone Revenue Reaches New Highs**

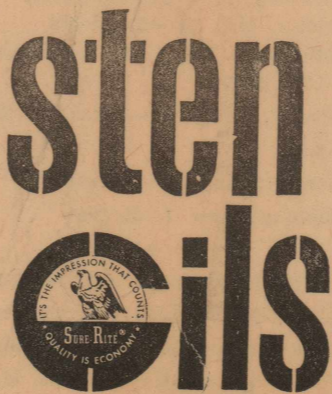

Revenues, sales, and net income of General Telephone and Electronics Corporation for the first quarter of 1965 again established new records for any comparable period in the company's history. Donald C. Power, chairman and chief executive officer, reported recently at an annual meeting.

General Telephone Company of the Southwest is a subsidiary of General Telephone and Electronics Corporation.

Consolidated net income rose 22 percent to a record \$34,414,000,

in comparison with a total of \$28,297,000 for the first quarter of 1964, the previous high. Power told an estimated 2,000 shareholders at the annual meeting. Earnings for the three-month period this year were equal to 39 cents per share, which was 18 percent greater than the 33 cents per share in the corresponding quarter last year.

Power pointed out that in addition to the continued upward trend in telephone revenues and manufacturing sales, earnings were also favorably affected by the reduction in Federal income tax rates.
