LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, OCTOBER 7, 1937 11

VOLUME 15 NUMBER 37

THOUSANDS ATTEND BAILEY CO. ANNUAL FAIR HELD HERE LAST WEEK; FINE EXHIBITS WERE SHOWN

Experts From All Sections of County Vie With Each Other in Showing Products Schools Have Floats; Carnival Fun.

That the Bailey County fair held here Thursday, Friday and Saturday last week was attended as stated in the fact of the immense crowds present during those three days, especially Saturday, when it was estimated the biggest crowd ever to gather in Muleshoe was present.

Magnificent exhibits from practically all communities throughout the county were on display exciting the due admiration of the many who viewed them more than 600 jars of food being entered for premium judging by women throughout the county. 342 jars also being entered in the Ball contest.

Six home demonstration clubs entered the educational exhibits for such clubs. Peggy Williams, West Camp and Barbara Lindsay, Stegal, two 4-H club girls winning first place in premiums, respectively, over the 340 other entries in the Ball jar contest. Roland Bigham, residing a few miles northwest of Muleshoe won the Home Demonstration cabinet contest which contained 76 jars of food of different kinds. Incidentally the women cleared \$68.00 on this contest, also made \$20 on the Ball contest, both sums to be turned over to the Bailey County Council for expenditure as needed.

More than 1,000 school pupils participated in the big parade of pupes, teachers and floats held Saturday morning. Muleshoe won first honors in numbers participating. Liberty school won first in having the most attractive float, while Progress school came in second place in that classification.

The Dudley carnival shows here all last week added much in pleasurable attraction to the annual event.

Awards for exhibits of various kinds were made by judges as follows:

The Premiums Awarded

Visitors at the three day Bailey County fair, held September 30 to October 2, observed with much interest when placings were made and ribbons awarded in the various divisions Friday, October 1. All divisions of women's exhibits and 4-H exhibits were judged by Mrs. Ruth E. Perry, Lamb county home agent, Amberst, while products in the Agricultural division were placed by Don Turner, Lamb county agent, Amberst and Roy Hickman, Cochran county agent, Morton.

Although few entries were made in some of the divisions, the quality of those entered received favorable comment by the judges.

Awards were as follows:

Mrs. Verne Snyder, Supt. of Ball Jar contest, announces the following grand champion awards in the Ball contest: 1. Peggy Williams on plums of West Camp; 2. Barbara Lindsay on peaches of Stegal; 3. Mrs. Henry Hart over on cherries of Goodland. Results of Ball contest for community 4-H and home demonstration clubs were: 1. West Camp and Enochs, Y. L.; 2. Goodland and Joyland, Y. L.

Vegetables

Individual results were as follows: Beets, 1. Barbara Lindsay, Stegal; 2. Pauline McIntire, West Camp; 3. Bonnie Traveek, Y. L.

String beans, 1. Mrs. Chas. Shaw, Maple; 2. Mrs. J. D. Witherspoon, Fairview; 3. Mrs. Homer Green, Enochs.

Greens: 2. Mrs. A. R. Haley, Fairview; 3. Mrs. A. Simmons, Joyland.

Corn (cannery style): 1. Mrs. Buford Butts, Muleshoe; 2. Mrs. T. G. Wisnamp, West Camp; 3. Mrs. Nell Rhoads, Enochs.

Corn (whole grain): 1. Mrs. Glenn Thrush, Goodland; 2. Mrs. S. W. Patterson, Enochs; 3. Mrs. Jack Hall, Enochs.

Okra: 2. Miss Elzada McMahan, Progress; 3. Mrs. Johnny Williams, West Camp.

Soup: 1. Mrs. E. L. Smith, West Camp; 2. Mrs. W. R. Adams, Enochs; 3. Mrs. Walter Rector, Fairview.

Fruits

Plums: 1. Peggy Williams, West Camp; 2. Mrs. A. Simmons, Joyland; 3. Mrs. Cardwell, Joyland.

Pears: 1. Mrs. Dixie Tipton, Watson; 2. Mrs. Macey Harrell, Enochs; 3. Mrs. Roy Helson, Enochs.

Peaches: 1. Mrs. E. T. Bryant, Y. L.; 3. Lillian Reper, West Camp.

Cherries: 1. Mrs. Henry Hanover, Goodland; 2. Mrs. J. E. Day, Y. L.; 3. Mrs. Amy Bennett, Goodland.

Tomatoes: 3. Mrs. L. H. Davenport, Baileyboro; 3. Mollie Hicks, Y. L.

Grape Juice: 1. Mrs. T. G. Wisnamp, Joyland; 2. Vivian Harris, Y. L.; 3. Mrs. Roy Pugh, Baileyboro.

Mrs. Vera Missfeldt, Supt. of the Home Canned Products Division, announced the following winners:

(Please turn to page five)

BAILEY COUNTY WINS AT CLOVIS, N. M. FAIR

Notice was received here last Friday evening that Bailey County had won third place in the Bi-State Fair held at Clovis, N. M., last week. The exhibit was gathered and placed by R. L. Brown and Levi Churchill.

While only \$15 premium was awarded, the exhibit got the value of publicity given as viewed by the thousands of visitors who attended the fair was worth considerable more, according to Brown.

Farmers county won first place, with Roosevelt county, N. M., placing second.

Farmers Will Select Cotton For Community Planting For Next Yr.

With the view of determining cotton varieties best adapted to Bailey county which will produce a staple length suitable to meet market demand, the Bailey County Farm Council, which also serves as the board of directors of the county agricultural conservators association, visited the Lubbock experiment station, Wednesday, September 29, and inspected the various varieties growing in the field in addition to studying long-time records of these varieties extending over a period of 10 years.

Those making the trip were W. L. Key, Lonnie Arnold, George Damon, V. E. Garner, W. G. Kennedy, E. L. Smith, Tom Rindley and W. C. Taylor, county agent. D. L. Jones, superintendent of the experiment station, gave the group the benefit of his observations concerning the varieties which have been tested for 10 years under the same conditions at the station.

The investigating committee, with the help of Mr. Jones, was able to arrange to get a group of two or three varieties best suited under the circumstances. All these varieties will be discussed at community meetings to be called later at which an effort will be made to get a group of farmers to select one variety for 1938 with the object to gin and sell cooperatively in order that the right price for quality cotton may be realized.

Mrs. Wm. G. Kennedy Named Vice-President State H. D. Association

At the annual meeting of the Texas Home Demonstration association held at San Antonio last week Mrs. W. G. Kennedy, Bailey county, was unanimously chosen vice-president of that organization for district 2. Mrs. J. L. Morris, Dawson county, was elected president for the ensuing year.

There were 360 official delegates from all over the state attended the meeting, only three being absent during the voting. There were also about 100 interested visitors present. It is stated this is the first time in the history of the association that its president has been named from a county so far north and west as Dawson.

The meeting was held at the Gunter hotel, the big room being filled to its capacity for the first time. Mrs. John Talmore, Bonham, retiring president, had charge of the meeting. Judge E. Schweppson, San Antonio, gave the welcome address. Dr. R. H. Mountgomerie, Austin, was one of the principal speakers.

This is the first time the association meeting has been held when in connection with Short Course at A. M. college, and it is stated all future meetings will be held separately from that of any other interest.

Mrs. Kennedy is president of the Bailey County Home Demonstration Council and a leading worker in that department, many citizens over the county keenly appreciating the recent honor which was so generously accorded her as district vice-president.

Other delegates from Bailey county attending the meeting were Mesdames Guy Berry, Enochs; M. A. Sluder and Willie Williams, West Camp; Claude Gage, Joyland.

Anticipate Hard Fight With Morton Team Here Friday P. M.

Muleshoe Yellow Jackets, High school football team, made just ordinary tom-cats of the Dimmitt Wildcat High school team last Friday when they met in mortal combat on the gridiron of Warren field for the first game of pigskin twirling played here this year.

Muleshoe and Dimmitt have been friendly but vicious rivals for several years past, sometimes one, then the other, taking the long end of games. Dimmitt has held the lead string for the past two years, and it was with considerable glee that Muleshoe realized last Friday the lads of her team had "grown up" and were now really good football players. The final score was 19 to 0. If being Dimmitt's third game of this season, while the Muleshoe lads played their first.

The game opened quite ragged, according to report, as was to be expected by new teams in their first contest, and while the final score was quite lopsided, yet it is said both teams did excellent playing throughout the entire four quarters.

Next Friday afternoon Muleshoe High school will set their yellow-jacket stringers for plunging into the Morton team from Cochran county, the game to be played here, beginning promptly at 2:30 p. m., according to Coach C. R. Stevens.

THE CITY SLICKER

FARM SECURITY ADMINISTRATION IN THIS DISTRICT ARRANGES FOR LONG TIME LOANS FOR FARMERS IN NEED

Recognizing the exceptional conditions obtaining in the wind erosion area of the Southwest and the necessity for a lending arrangement which could be adapted to the needs of that situation, the Farm Security Administration in Region XII, has been authorized, under special circumstances, to make loans to farmers with repayments extending over a period of 10 years, according to J. E. McDermott, in charge of that administration in Bailey county.

This announcement was made this week by Regional Director L. H. Hauser, following receipt of a communication from Secretary of Agriculture Henry A. Wallace, who outlined the following reasons and objectives for this federal agency to make long-term loans:

1. An economic unit sufficiently large to maintain a family on a satisfactory basis while following the type of agriculture most suitable to the land in this region.
2. Control by the borrower through lease or otherwise of an economic unit for a sufficient length of time to restore the land to its suitable use and to warrant the borrower in making improvement of the soil or equipment which are necessary for the effective operation of the farm or ranch.
3. The provision of suitable foundation herds which may be used for the development of the family unit with a principal emphasis on livestock.

4. The provision of credit for a sufficient length of time in order to permit borrowers with small means to put into effect the above mentioned practices.

5. A system of repayments which will recognize the variability of farm returns in the region.

Mr. McDermott said the new long-term loan policy will enable farmers to follow more closely those programs designed to salvage eroded lands and return them to their best economic uses. Under such a policy it will no longer be necessary for a borrower to gamble on large acreages of cash crops such as wheat. It will also enable those farmers living on farms or ranches, which are too small for their operations to lease adjacent land over a period of years with an option, where feasible to purchase the land at the termination of the lease.

This long-term program, Mr. McDermott said, will be administered in very much the same manner as the short term loans. It will be in charge of the county supervisors of the Farm Security Administration who have helped thousands of farm families rehabilitate themselves since the rural rehabilitation program was inaugurated in 1935.

NEW COTTON LOAN GRADES NAMED BY GOVERNMENT FOR COTTON NOT CLASSING AS THE HIGHEST GRADE

Six and Seven Cent Cotton Loans Included; Official Classers May Be Stationed at Designated Warehouses.

BUSINESS BAROMETER

Postal receipts from a given office are generally a good barometer of business conditions of that place, thus the fact that postal receipts at the Muleshoe post office for the first three quarters of 1937 totaled \$63.94 more than for the first three quarters of 1936, is indicative of a better business condition existing there. These figures having been submitted by A. J. Gardner, local postmaster.

Postal receipts for the first three quarters of 1936 were \$5,448.82; for the entire year of 1936, \$7,236.61; for the first three quarters of 1937 the total receipts were \$5,912.36.

A Heavier Acreage Of Wheat Predicted For Bailey & South Plains

Favorable weather, together with the good price received this year for wheat apparently is conducive to an increase in a larger acreage over both the North and South Plains area. Favorable moisture conditions have already brought about an increased acreage this fall and still more is being planned to wheat.

It is generally estimated the acreage planted to wheat in the South Plains last year totaled 1,415,000 in the 10 counties, compared with 1,569,000 planted this year, representing an increase of 155,000 acres. Some of the counties represented in this computation are most favorably situated for producing counties, Bailey being one of such.

However, while Bailey county produces more largely of wheat and sorghum grains, it has had last year a fair representation at wheat harvest. 150 cars of that cereal being shipped out of Muleshoe. It was estimated that between 8,000 and 9,000 acres of wheat were planted in the Muleshoe trade territory last year, while this year, grain men and county officials say the acreage will probably go to 10,000 before planting is finished. It has been estimated there were approximately 100,000 bushels of wheat raised in this county last year, while the production in the Muleshoe territory had an indicated yield of 200,000 bushels. In 1936 Bailey county produced only about 50,000 bushels.

Joe Damon Explains Lack Of Cones For The Children On Saturday

Joe Damon, proprietor of the local Dantron Distors, explains to the numerous children from over the county that it was not his fault they didn't get an ice cream cone for a head of maize or kaffir.

Mr. Damon, joining with other patriotic citizens, had broadcast information to school children all over the county that last Saturday, during the Bailey county fair, he would give an ice cream cone to every child bringing in a single head of maize or kaffir.

It was purely an act of generosity and good-will on the part of the drugist, but some would-be practical jokers obtained a pile of this grain which was distributed free to the youngsters with instructions to go to Damon's and get a free ice cream cone for it, according to report. Of course the supply of cream and cones soon ran out.

Perhaps the jokers did not realize the added expense the proprietor was put to, when Mr. Damon says he did not seriously object to; but he did seriously regret that all the children did not receive the cones to which they were entitled, and wishes them to know that it was no fault of his own they did not enjoy his generous proposition. Ice cream has to be ordered from Dantron, he says there was no way he could obtain another supply to accommodate the children.

DOUBLE HEADER BASKETBALL

A double-header preliminary basketball game was played Friday of last week between boys and girls High school teams of Bula and Whiteface. The Bula lads winning 55 to 29 over Whiteface, while the Whiteface girls won 24 to 17 over the Bula girls.

In the regular basketball schedule, Bula is scheduled to play her first game with Wayland college, Plainview.

Bula had an exceptionally winning basketball team of boys last year, and expects to again show good results this season.

HOCKLEY CO. HAS JAMBOREE

The Hockley county jamboree and fair is scheduled for October 14 to 16, inclusive, being held three levels south of the court house at Levelland.

Premiums totaling more than \$400 are being offered exhibit winners. A rodeo will be an attraction feature. Congressman Geo. Mahon is slated for an address the opening day. School parade and floats are on the bill. Wm. McCraw, Texas attorney general will speak the 16th.

HARVESTING N. M. POTATOES

Sweet potato growers of the Portales, N. M. valley the opening day. School parade and floats are on the bill. Wm. McCraw, Texas attorney general will speak the 16th.

The Commodity Credit corporation made two new grades of staple cotton eligible last Monday for government loans and increased the maximum loan on a third grade.

Although announcement of the new loans was made shortly after a drop in cotton prices to a four-year low, officials said additional loans had been under consideration for the last week, because of requests from western Texas, western Oklahoma and northern Alabama growers of short staple cotton.

Under the new regulations cotton shorter than seven-eighths of an inch grading strict low middling or equivalent, will be eligible for a loan of 7 cents per pound. Cotton shorter than seven-eighths of an inch grading low middling or equivalent, will be eligible for a 6-cent loan. Neither grade was eligible under the initial program, which covered about 90 per cent of this year's crop.

The 7-3-4 loan rate for cotton 7-8 of an inch and above in staple and strict low middling or equivalent grade was increased under the new regulations to 8-1-2 cents.

There was no change in the higher grades of cotton eligible for 9 cents.

"The objective of the modifications," the corporation announced, "is to afford uniform protection to all producers throughout the belt and to enable them to market their cotton in an orderly manner."

Congressman George Mahon, who with Representative Marvin Jones, Amarillo, led the campaign for a system of loans on cotton classified below the standards set out in the federal loan program, said Monday from Colorado he thought the move would be a "great break" for West Texas.

Both Mahon and Jones had recommended to the Commodity Credit corporation and to the Department of Agriculture that loans be made on cotton of lower grade and shorter staple than those required by the original government program.

A meeting was also held in Lubbock last week, attended by about 60 farm agents, farmers and other interested citizens, at which time further action was taken toward the reduction which was granted the first of this week.

A letter received the first of this week by County Judge M. G. Miller from John D. Goodloe, vice-president, Commodity Credit corporation, Washington, D. C., also indicates official classes may soon be placed at all designated warehouses to grade delivered cotton, thus relieving warehousemen of the responsibility, putting loaning concerns in a safer position and eliminating the delay to farmers who need the loan money as soon as obtainable.

PAUL BROS. TO FEED OUT SHEEP AND CATTLE HERE

Paul Bros., north Panhandle bankers and Bailey county ranchers, last Sunday evening unloaded 12 carloads of lambs and four carloads of cattle shipped from Sonora to their ranch here about 16 miles south of Muleshoe, where they will be put on winter feed.

These ranchers have two of the largest trench alics in the South Plains area and for several years past have been very successfully feeding out stock for the markets.

THIEVES IN THIS AREA

In keeping with the season and close economic conditions, burglars and thieves have made their appearance in this area, visiting neighboring towns at considerable loss to business concerns.

One concern in Lubbock last week lost \$200 cash and \$1,500 in jewelry, another lost \$100 cash and \$1,800 in merchandise. Several business concerns have been entered at Sudan and Ballis where money-and-burn merchandise have been taken.

Muleshoe business concerns are warned by county officials to be on the watch for strange characters in this city.

The first wire fencing for farms in the U. S. was sold in 1874.

EDITORIAL AND FEATURE PAGE

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor.

I. F. MITCHELL, Bus. Mgr.

Subscription Rates: In Bailey County, one year, \$1.50; Outside of County one year, \$2.00

Published every Thursday at Muleshoe, Texas. Advertising rates given upon application. Telephone No. 54.

Subscribers who change their address, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications are solicited and they should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All real advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed. Objections, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Editorial

Every Great Attempt is Glorious Even if It Fails

A THOUGHT FOR THE WEEK

This is a faithful saying and worthy of all acceptance, that Christ Jesus came into the world to save sinners—I Timothy 1:15.

To escape from evil we must be made, as far as possible, like God; and this resemblance consists in becoming just, and holy, and wise.—Plato

THE LOVE OF MONEY

The longer a man lives the more firmly he becomes convinced of the truthfulness of the old adage that "Money is the root of all evil;" but he can't figure out what it is about money that causes men to commit crimes and do heartless things to get it.

As the average Muleshoe man sees it, there is some excuse for a person stealing who is hungry or whose family is hungry and he cannot get work; but there is no excuse on earth for anyone else doing so. Today this country's greatest weak spot lies in the fact that it has too many men ready to crush competitors merely for the sake of adding to their already large fortunes; too many men with more money already than they can use grinding down their competitors, or working women and children at starvation wages. How fortunes accumulated by such means can bring happiness or satisfaction to anyone is past understanding, and yet America possesses many so-called law-abiding citizens engaged in doing those very things.

It is difficult to understand why anyone wants any more money than enough to live in comfort, to be able to buy the things desired, to do the things one wants to do, to educate one's children and be assured of a competence on which to live when old age comes on. The fact they can't take their money with them when they pass on doesn't seem to deter thousands of men from violating the laws—both civil and moral—by grasping for more than they need or will ever be able to make use of in the event they get it. Teach your boy these things and you will be laying the foundation for his future happiness.

SCIENCE FOR FARMS

As if raising one of the biggest wheat crops in history wasn't enough to thrill the farmers of America, now comes a bulletin out of Washington City to the effect that still greater results may soon be made possible by recent scientific experiments. It is said that a perennial wheat has been discovered in Canada which provides a new forage crop and promises to restore these sections of both Canada and the U. S. rendered sterile in recent years by the ravages of drought.

While the government of neither country will venture a prediction as to the value of the perennial wheat until further tests are conducted, the bulletin is sufficiently optimistic to warrant the belief the discovery is actually going to be of great value. It is explained new plants have been developed of a vigorous type with large wheat-like seeds which can be seeded down in dry lands where small-seeded grass is unable to take root. It is expected this crop will root down thickly to bind the soil and prevent drifting. It is expected to produce grass each year, with a good yield for hay or pasturage. Eventually the land so seeded would be restored to wheat planting.

Farmers around Muleshoe may or may not profit either directly or indirectly

from the new discovery; but they will welcome such news just the same. Anything that tends to solve farming problems, no matter in what part of the country the problem exists, interests all who are concerned with the welfare of their fellowmen at heart, and farmers in this community are certainly of that stripe.

RIGHT OF WAY

"I had the right of way" is a common expression, and one now heard offered as an alibi following almost every collision occurring on a highway around Muleshoe.

Generally speaking the traffic regulations give the auto on the right the right of way, and many insist on taking advantage of the rule, regardless of consequences, but it is a rule that is much better when insisted upon by a driver. Life is not so cheap one can afford to chance it on a traffic rule that a lot of drivers are in ignorance of, and a driver one has been injured, possibly for life, a poor time to gain any consolation that it was the other fellow's fault.

The safe way is to yield the right of way to the other fellow whenever there appears to be the slightest danger or doubt. There is nothing to be lost through holding back for a second and permitting the other driver to take the right of way without argument. There is all to be gained in staying out of hospital or navigating on a pair of crutches through failure to do so.

AN AFTER EFFECT

Summing up the net results of the late depression a Boston editor offers food for thought when he declares that the worst feature of it is a lot of people found out they are actually living without working. He refers, of course, to those who, having passed through a period of idleness without going hungry, are now determined to remain idle and let the taxpayers feed them, much as the ravens fed Elijah in Biblical days. Every community has its share of them, and it is not necessary to wander very far from Muleshoe to discover the type.

How to force such citizens to accept employment, and to again take up the responsibility of earning and paying their own way is a problem every section of the U. S. has to solve, and it isn't going to be an easy job. Loss of self-respect is a terrible thing, but even that cannot be defective if a man shows a willingness to try to regain it through honest labor. It is the one who prefers to become an object of charity creates the real problem, and provides the most pathetic result of the entire depression history.

DEFECTIVE FLUES

It would probably be safe to say that more lives at this season of the year can be traced to defective flues than to any other source. It is the season for erecting stoves and starting heating plants for winter service, and in performing that operation many are inclined to exhibit a measure of carelessness.

Naturally, no one wants to lose his home, and especially right at the outset of the winter season. What can be avoided through a careful inspection of flues, chimneys and stove piping, then such an investigation becomes highly important.

Be sure the chimney is free of all obstacles before setting up a stove, then make sure it is in perfect condition, and not damaged by rust. Make sure, too, that each joint fits perfectly. It may take a few minutes time to go over these things carefully, but those few minutes may prevent the loss of your home and its contents.

Jaunty Journalistes

A Muleshoe girl who would like to be seen in something nobody else wears might try a pair of cotton stockings.

A raise is something some Muleshoe folks get just before going into debt a little deeper.

It's our observation that the average man is just about as big as the things that make him mad.

Another expression heard entirely too often around Muleshoe is: "Don't tell anybody I said so!"

Some young Muleshoe folks these days who don't know where they are going apparently haven't time to stop and inquire.

No musical instruments were ever invented that are so pleasing to the ear of some citizens around Muleshoe as the sound of their own voice.

A Muleshoe girl is as old as she looks when he needs a shave, and a Muleshoe woman as a shade, and she looks right after washing her face.

More than one Muleshoe man can tell you that when his wife drives the car all he does is to just sit in the front seat and steer.

Some mothers insist on their babies learning to talk at an early age, then when they grow up a little insist on them keeping their mouths shut.

The three old-time R's of reading, writing and 'rithmetic seem to have been changed by several folks in and around Muleshoe to rest, relief and recreation.

One can generally tell the Muleshoe citizens who habitually snap and snarl at everybody. They are invariably the ones who are horrified and hurt when snarled at.

With the numerous loads of apples coming into Muleshoe this fall and purchased by local citizens, if the old adage "an apple a day keeps the doctor away" is true, looks like coming dull business for the medicos.

SNAP SHOTS

The school of experience can boast that its students wear a uniform—a pair of overalls.

"Remorse" is that sinking feeling that comes when one gets the fiddler's bill after the dance.

A summer resort is generally a place where the natives live on your vacation until summer comes again.

When Japs in China say they don't want war, it seems peculiar. Neither did our ancestors want any trouble with the Indians.

The only sure thing about the next war is that the first round will be over before you know whether it's a real one.

Pavement Pickups

W. M. Pool Sr., says, "If ignorance is bliss, a lot of us fellows ought to be enjoying life."

As Mr. Eason sees it, the only man who makes a cleanup in Wall street and gets away with it is a janitor.

Farmer Hammock of near Sudan wants it distinctly understood that "Papee" isn't any patent medicine; but a mechanism for making ensilage.

"Skeet," local tonorial artist, says about the best example of wasted energy he can think of would be telling a hair-raising story to the Muleshoe Journal editor.

Walter Moeller says he has tried numerous ways of keeping people from talking during picture shows; but the most effective method is to sneeze on the back of their necks. That'll sure stop 'em or start 'em in a big way.

It is reported that two prominent ladies of the garde avoirdupois proportions got onto the carnival Ferris wheel one night last week to take a ride; but the engine couldn't even start the wheel turning over.

Homer Henklein suggests that perhaps the reason President Roosevelt passed up the Grand Canyon on his recent western trip was because it would not vividly remind him of the hole Uncle Sam is now in.

George Harris, president of the local carpenter's union, says it's about as appropriate for Madame Perkins to try to settle any labor troubles as it would be for a woman to referee a boxing match between two big heavyweights.

Some one asked Herstine Beller the first of the month if he had his back ache rent paid, whereupon Herstine reared upon his hind legs of dignity and gave the enquirer to understand he didn't have any back home—it was all home planning.

Gienn Kosky, local musician-post, got offensive the other day with the following remark: "When Caesar was a babe in diapers, and charlots lacked windshield wipers; before Napoleon ever knew he would meet his Waterloo; when Clio was a howling brat, women were howling 'Buy one that!'"

Legislature Begins Oratorical Flashes Much Disagreement

With dark clouds of dissenting opinions, punctuated frequently by vivid forks of oratorical lightning, the Texas Legislature assembled last week in special session, got down to real business this week.

Apparently there is a considerable block of senators who are strongly against any further tax increases of new ones being added, and verbal clashes during the past week were frequent and common. Gov. Allred, who called this special session for the particular reason of providing measures whereby the state indebtedness might be liquidated all or in part and additional statements of the ownership, management and for other pensions recently authorized during the constitutional amendment voting in August, got on a high horse when the findings of the committee previously appointed.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.—Of The Muleshoe Journal, published weekly at Muleshoe, Texas, for Oct. 1937.

State of Texas, County of Bailey.

Before me, a Notary Public, in and for the State and county aforesaid, personally appeared Jess Mitchell, who having been duly sworn according to law, deposes and says that he is the editor and owner of The Muleshoe Journal, and that the following is, to the best of his knowledge and belief a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 4111, Postal Law and Regulations, to-wit:

That the name and address of the publisher, editor, managing editor, and business manager is Jess Mitchell, Muleshoe, Texas.

That the owner is Jess Mitchell, Security holders are none.

JESS MITCHELL Sworn to and subscribed before me this 8th day of October, 1937.

CECIL H. TATE Notary Public, Bailey County, Texas.

Modernize your home with GAS

West Texas Gas Co. "Good Gas With Dependable Service"

I'M FEELING FINE THIS MORNING

— FREE FROM THAT THROBBING HEADACHE AND READY FOR A GOOD DAY'S WORK.

All people who suffer occasionally from headaches ought to know this way to quick relief.

At the first sign of such pain, take two Bayer Aspirin tablets with a half glass of water. Sometimes if the pain is more severe, a second dose is necessary later, according to directions.

If headaches keep coming back we advise you to see your own physician. He will look for the cause in order to cure it.

The price now is only 15¢ for twelve tablets or two full dozen for 25 cents—virtually, only a cent apiece.

15¢ FOR 12 TABLETS virtually 1 cent a tablet

were made public, copy of which was received last week by this newspaper. The governor promptly challenged that attitude of the committee and in particular that of Senator Holbrook of Galveston. In opposing new taxes, Holbrook seemed willing to accept the thrown down gauntlet; but later both officials decided it better to pass the matter on to the legislature at large for adjudication and decision.

Apparently there is a very strong disposition among citizens all over the state favoring no increased taxes by the legislature, and a meeting of hundreds of these citizens was held in Austin last Tuesday at which time resolutions and remonstrances galore were made, while numerous legislators of both houses were individually and collectively button-holed and personal opinions from constituents freely expressed.

The South Texas Chamber of Commerce and the Mid-Continental Gas & Oil Co. have lined up against increased taxes, and other and smaller organizations together with numerous individuals are following suit along the same

lines. Some have already gone so far as to declare the present special session will do nothing in a financial way, and another may be called immediately upon conclusion of this one for consideration of other subjects not included in the present call, while there is a considerable number of other citizens and solons who insist the present issue is one of "dollars vs. humanity" and will be fought out on that line.

McCLEVEY OIL TEST STARTED

The McClevey oil test well on the Figure 3 ranch in southwest Bailey County was spudded in Friday of last week, and Sunday night was reported to be down 275 feet with good goods. Tuesday the well was reported down 1,200 feet.

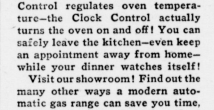

It is stated this well is to be completed within 60 days.

It is reported a seismograph crew is again making explorations in this county.

Needmore News

Rev. King filled his appointment Sunday and Sunday night, a large crowd attending both services. Sunday, Oct. 17, there will be a layman's address. The first Sunday in November there will be dinner on the ground and services at 11:00 a. m. and in the afternoon also. Everyone is welcome. The 3rd of November Wednesday at 4:00 o'clock the Presiding Elder, Rev. E. E. White, will meet with us. Everyone from Fairview and Needmore are invited. Mr. and Mrs. Tod Newman of Post, spent Saturday night and Sunday with Mr. and Mrs. Grady Newman—Reporter.

VISIBLE FARM TAXES

In addition to the taxes hidden in the price of the farmer's tools, the clothes he wears, and the many other things he buys, the farmer pays a large sum directly to the tax collector. Latest available figures show that agricultural corporations paid \$25,947,000 taxes to the government in 1934. In 1935, farmers paid \$271,000,000 in real estate taxes alone. This is an average of \$39.80 cents for each of the 6,812,000 farms in the country.

FARMERS EXCHANGE OPEN

W. A. Cook, local realtor, is this week opening in the same building, a second-hand store where he will buy and sell all kinds of new and used merchandise.

General News Over Texas And Adjoining States For The Week

During the first six months of this year 7,176 homes were built in Texas, according to federal report.

Mrs. E. W. Howe, mother of Gene Howe, (Old Tack) of the Amarillo News, died last Thursday.

Karl A. Crowley, Fort Worth, has entered the race as a Democratic candidate for governor.

Last year Roosevelt county, N. M., produced 1,525,000 pounds of butter. This year's production is running about 40 per cent higher.

Old age pension checks for 113,971 pensioners were mailed out from Austin last Friday, being 469 less than the September payment.

The estate of the late Frank B. Cotton, Rockville, Miss., amounting to \$66,000 has been bequeathed to the Texas College of Mines at El Paso.

The State of Texas last Friday realized \$150,774.10 in leases on its 13,000 acres of submerged Gulf coast-oil lands. Several other tracts are yet to be leased.

Julian Montgomery, some weeks ago chosen State Highway engineer to succeed Ben Gilchrist, who resigned to become dean of engineering at A. & M. college, took his new post Oct. 1.

State Tax Commissioner Albert K. Daniel has estimated that more than half of an estimated \$17,500,000 in delinquent ad valorem taxes owed Texas are uncollectible.

One of the greatest producing artesian wells in New Mexico was recently brought in near Artesia. It flows 3,000 gallons per minute from a 56-foot depth.

The Deaf Smith Canal electric grant of \$24,000 has been completed. This fund will build approximately 96 miles of line giving electric service to 146 people. The first section is now under construction.

An immense dam is being built at Buffalo Springs, 10 miles south of Lubbock which, when completed will hold 300,000,000 gallons of water, being more than three miles long and 35 feet deep at the deepest places.

Construction work on the New Mexico Farms resettlement project near Fort Sumner is progressing. Provisions being made for 23 farm families to occupy the lands, nine families already having been located there.

Ed Howe, 84, known as "the Sage of Potato Hill," father of Gene Howe, Amarillo News editor, died last Saturday at Atchison, Kansas from complications produced by old age. His wife died in Massachusetts just three days prior to his own demise.

McCulloch county turkey growers during the past season sold 239,799 turkey eggs to hatcheries for a total of \$33,747.40, or an average of nearly 14 cents an egg. The 288 members of the association received slightly more than \$141 each for their surplus eggs.

The bonded indebtedness of Texas political subdivisions Sep. 1 was \$654,316,825, according to State Auditor Tom King. Of that total 24.5 per cent was owed by counties, 35.1 per cent by cities, 18.8 by school districts, 10.1 by road districts and 11.5 by drainage, levee, irrigation and similar districts.

Pres. T. O. Walton last Friday announced that A. & M. college will be granted a \$2,000,000 loan through the Reconstruction Finance Corporation, Washington, for erecting needed dormitories. That school has an enrollment of 5,000 students with accommodations for less than half of them.

W. R. Ely, Abilene attorney and former chairman of the State Highway Commission, and Clyde R. Harwell, Houston sanitary engineer, were last Saturday named members of the Texas Planning Board's water resources committee for investigating methods of conserving the underground supply.

The Dallas Morning News, founded Oct. 1, 1885, celebrated its 52nd anniversary last Friday with a special 38 page edition. It now has a daily subscription distribution of 105,000 copies with 120,000 on Sundays. It began with 65 employees and now has 650 on its pay roll.

S. R. Little Starts Brick Business Bldg. Block West of Main. S. R. Little, who recently purchased some of the property on which the old Muleshoe hotel once stood, just a half block west of Main street, last week began laying rock foundation for a fireproof structure erection.

The building will be of brick and the composition, 27x8 feet in size, fireproof throughout.

When interviewed by a Journal representative, Mr. Little had not yet decided just how the building would be occupied. He stated he had parties desiring to rent it for various kinds of mercantile stocks, and he might decide to use it himself.

It is now estimated by the Texas Railroad Commission members that 65 per cent of the available natural gas supply of the U. S. is located in Texas.

THE REST OF THE RECORD

By James V. Allred Gov. of Texas

One of the ablest groups of newspaper men in America is reporting the present legislative session from the capitol pressrooms. Keen and intelligent, they do a good job of covering and reporting the daily happenings of the Legislature.

It is no criticism of their fine work in the mass of conflicting statements and reports which must be carried by the press. An example occurred this week when a good farmer friend wrote me that the farmers of his section "strongly opposed any increase in taxes, especially on farm real estate and taxes that affect farmers as a whole."

Now I have never had any desire for the legislature to pass that kind of a tax program nor have I ever sponsored such a plan. The record shows that I cast my vote with the state comptroller to lower the state ad valorem tax to 7c which is the lowest in over 20 years.

As I told my farmer friend, I am urging a tax program to raise money for a very small, unadvertised and over privileged group—interests able to pay the cost for saying to the total net profit of forty-one million dollars but aid altogether to the state the "tremendous" sum of \$5,647,390 in franchise taxes.

These are the kind of folks I want to see taxed—not to penalize them, but so that they will bear their portion of our state government cost.

The only group that I know who want to levy taxes that affect agriculture as a whole are the "sales-taxers." A sales tax would fall squarely on the shoulders of the farmers and the working people.

Lobbyists for all the big pipe line companies and other special interests watching the Legislature favor a general sales tax. Spoken for this group are sayings to the effect that "if I would agree to it."

Their strategy is to stave off any taxes as long as possible until our state is in such a terrible shape that some future governor out of desperation may turn to a general sales tax. To carry out their plan, this group has organized a campaign of propaganda to frighten the farmers and the business men into thinking that my tax program is going to hurt them.

They raise the hollow charge that I want to levy more tax burdens on the people. The taxes I propose would fall on the shoulders of the over-privileged groups which are able to pay.

A certain senator and his associates in the "sit-down" strike against adequate revenues for the needy charge that I have increased the cost of state government. They point to increased appropriations during the past ten years as though I were responsible for all of them.

I wonder why they are not fair enough to let the people know that represented in their figures is the money that is collected for unemployment insurance and for relief bonds which the people voted. Practically everything I have had anything to do with was voted by the people. The increased appropriations for ordinary purposes of government were voted by the Legislature against my recommendations.

Texas cannot have progressive government by launching destructive economic and institution- wrecking politics in order to save a few privileged interests from last taxation.

The people do not want to economize by cutting out unemployment insurance or old age assistance. The votes in every senatorial district registered overwhelming approval for aid to the blind, dependent children and the needy.

I believe that the majority of the legislators have the political courage and the patriotic purpose to provide for the state's unfortunates and to balance the budget.

The Bailey County Singing Convent

The Bailey County Singing convention will be held in the big auditorium at Proctor next Sunday, beginning at 10:00 a. m. and continuing throughout the afternoon.

At the noon hour a big basket dinner will be served. The committee, every one attending being asked to bring a basket filled with food, enough for themselves and some extra friends and attendants.

A delightful program of melody is anticipated by the hundreds of this and adjoining counties who contemplate attending, listening to and taking part in the soulful songs, intermingling one with another and meeting other music lovers.

Turkeys Bigger And Better In Southwest Prices Still Question

"That Texas turkey crop will be slightly shorter than last year; but this shortness will be compensated by a slightly larger production in Oklahoma, is government report," according to J. Clyde Taylor, local producer dealer, who further says the turkey crop of the entire central and south area will likely run in total only two or three per cent less than it did last year.

Short feed crops in the northwest and Rocky mountain states have materially reduced the crop of Thanksgiving birds of those areas; but similarly, a favorable feed production in the southwest has acted to increase the turkey crop, he said.

"However," continued Mr. Taylor, "present indications are that the birds shipped from this section will be bigger, more tender and much more desirable fowls than were those of last year. A large and varied feed crop, coupled with plenty of grasshopper diet in some small areas, has furnished better bird rations than were possible last year."

Mr. Taylor stated it was a little early yet to make any definite predictions as to prices that will be paid when the market opens proper in November.

Parish Same as County. In the state of Louisiana the word parish is used to designate what the other states call counties.

Dinosaur National Monument. The Dinosaur National monument, 80 acres large, is in northeastern Utah.

Davis, of Hamilton, spent the weekend in Lubbock visiting the former's aunts Mr. and Mrs. Watson, and attended the Texas Tech and Montana university football game played there Saturday night. A letter from Lev Jensen, Newton, Iowa, written Oct. 2, in which he was renewing his subscription to the Journal, stated the thermometer that day stood at 34 degrees and there was light frost on the ground. Crops in that locality this year have been good. The letter says "We hope Bailey county will be full of oil wells."

What's Happening In Washington And Other Cities Of Importance

The 1938 convention of the American Bar Association will be held at Cleveland, Ohio.

During the past century San Diego, Calif., has seen only two light snow flurries.

The Swift & Co., packing concern at Chicago, stockyards sustained a \$200,000 loss from fire last Wednesday.

It is predicted by the Institute of American Packers, Chicago, that prices of pork and beef will have a dip near the close of this year.

The new U. S. cutter, Nashville was christened last Saturday at Camden, N. J., and slid down the ways of the Delaware river to join the U. S. fleet.

Last Thursday Dr. F. E. Townsend, old age pensioner, told 10,000 people at a rally "his nefarious program of enticed poverty is going to be wiped out in this country by his \$200 a month pension plan."

Delegates to the annual conference of the Methodist Episcopal Church, South, in session at St. Joseph, Mo., voted 182 to one last Friday for union of that body with the Methodist Episcopal church.

Fifteen thousand feet of graphite outcroppings were discovered in the San Bernardino mountains of California last week, estimated at five billion tons. The vein also bears rich gold and some silver.

Patricia Maguire, the "sleeping beauty" of Chicago died Thursday night of last week in a hospital from pneumonia. The 32-year-old woman had been a victim of lethargic encephalitis (sleeping sickness) since Feb. 6, 1932.

Elder David O. McKay, head of the Mormon church, Utah, last week left the closed shop idea when he said five percent of the nation had no right to force 95 per cent along any particular line of action.

Charged with violation of the anti-trust law, the greatest legal fight between the U. S. and oil industry opened at Madison, Wisconsin last Monday. A big array of legal ability is employed for both sides.

Mormon officials last Saturday in a meeting at Salt Lake City frowned darkly upon members of their church smoking, drinking, maintaining homes without children, and maintaining a double standard of morality.

Officers and Teachers For Methodist School Installed

New officers and Sunday school teachers have recently been elected in the Methodist church and last Sunday was the first date they presided in their new positions.

Mrs. Good Harden is now superintendent of the children's department and the teachers are: Mrs. Jim Burbeck, cradle roll; Mrs. Earl Hicks, beginners; Mrs. Dudley Buzard, primary; Mrs. R. S. Watkins, juniors.

Mrs. R. N. Edwards is superintendent of the Young People's division and teachers are: Miss Elizabeth Harlow, intermediates; C. R. Stevens, seniors; Good Harden, young people; Mrs. S. C. Beavers, Fidelis class composed of young married people of the church; Howard Carlyle, men's Bible class; Mrs. H. M. Shofer, older women's class; Flaudie Gallman, general superintendent and Pat R. Bobo, assistant superintendent.

Miss Lucille Bartley is president of the Young People's Epworth League and Mrs. Buford Butts and Alvin Farrell are Sunday school secretaries.

Muleshoe Gym is Okehed Returns from Washington officials regarding plans for the new gymnasium to be built for the Muleshoe school were received last Saturday by Prof. Cox superintendent. Plans being accepted by federal authorities.

However, Mr. Cox stated there would have to be some revision made in the scale of expenditures, cutting such items as little more than \$100 before the school board would be ready to start construction.

Stomach Sufferers Mr. Sidney Smith who is manager of the Lubbock Hotel Laundry, states that he suffered for fifteen years with stomach trouble, but after giving Gas-Tone a trial now eats anything he likes. Gas-Tone are on sale in Muleshoe at Western Drug Store.

Ask him to explain the iron-clad guarantee that you must be pleased.

To keep your engine running smoothly, the oil you use must really do a job! Must cling to metal like the paper on the wall. Must supply a friction-fighting film that is tougher than tough.

That's where Phillips 66 Motor Oil comes in. It has high-degree oiliness. Its heat-resistant film does not thin out or squeeze out. It stays put in the bearings and on all moving surfaces. Stands up amazingly. Lasts longer. Holds your oil level high. All because it is specially refined from a costlier 100% paraffin base crude.

Next time, drain and refill with Phillips 66 Motor Oil. It's concentrated! . . . This year's big value in car lubrication. Look for the Orange and Black 66 Shield.

PRETTY SMOOTH

The Economy Champion

Miss Doris Buchanan Trainer For Teachers In 22 Counties of N. W.

Lubbock, Tex., Oct. 5—Miss Doris Buchanan, itinerant teacher trainer for 22 counties in Northwest Texas, arrived this week to establish headquarters in the Division of Home Economics at Texas Technological college.

Miss Buchanan is one of several teacher trainers sent out by the State Department of Education to work in centers where teachers are being trained for vocational home economics.

Cooperating with the department of home economics education at the college, she will teach some courses on the campus, besides doing extensive field work with home economics teachers in public schools throughout Bailey, Castro, Cochran, Collingsworth, Crosby, Dawson, Dickens, Fisher, Floyd, Garza, Hale, Hockley, Knox, Lamb, Lubbock, Lynn, Nolan, Parmer, Scurry, Swisher, Terry and Young counties.

Misses Vivian Johnson, head professor of home economics education, at Texas Technological college, and Geraldine Clewell, instructor, will work with Miss Buchanan in public school field work. A resident of Snyder and graduate of Texas university, Miss Buchanan comes to Lubbock from Ames, Iowa, where she was a member of the clothing and textiles faculty of Iowa State University.

MRS. WYER O. E. S. DELEGATE TO GRAND LODGE AT EL PASO

Tuesday night of this week the local chapter of O. E. S., met in regular session at the Masonic hall, with Mrs. Virginia Wyer, worthy matron in charge.

The petition for degrees of Mrs. Opal Brooks was favorably passed upon and she will be duly initiated into the order at a special meeting to be held, Tuesday, October 19, at which time it was decided to invite the Morton and Sudan lodges to be guests of the Muleshoe lodge.

Mrs. Wyer was elected as delegate to attend Grand chapter meeting at El Paso, the week of Oct. 24, several other members also planning attendance.

The local chapter will sponsor a 42 tournament and Halloween party, tentative date, Friday, Oct. 22. Committee in charge of plans is Mesdames Irma Mitchell, Jennie Beavers and Bonnie Isaacs. Full announcement will be carried in next week's Journal.

CONVICTS KILLED IN ATTEMPTED ESCAPE SUN. FROM PRISON FARM

Two convicts were killed outright and two others seriously wounded last Sunday when 27 inmates of the East-ham prison farm attempted escape.

Austin Avers, serving sentence for participating in the famous death house escape of the late Raymond Hamilton, Joe Palmer and others in 1934, Roy Thornton, husband of the late Bonnie Parker, notorious for her forays with Clyde Barrow, were the ones killed by guards.

Forrest Gibson, serving a 60-year term for killing a prison guard, and Clyde Thompson, young "thrill killer," sentenced for killing two brothers "just to see them kick," were among the wounded.

Escape had been made by convicts fashioning a "home-made" key. Some of them were armed.

The Statue of Freedom, surmounting the dome of the capitol at Washington, the work of one of America's greatest artists, Thomas Crawford, was hoisted into place on December 2, 1863, amid a salute of 35 guns.

The West Indies
The West Indies are the highest points on a great submarine ridge that is all that remains of a land that has vanished.

WITH BIG MERCHANDISE STOCKS NOW LAID IN, AND CROPS ABUNDANT, BIG BUSINESS IS ALL SET FOR FUTURE

Business concerns of various kinds in Muleshoe are all set for a big Fall trade. Stocks have been greatly increased, some buyers making several trips to markets in buying expeditions to accommodate their trade. Additional clerks have already been hired in some lines. Shelves and show cases are stacked with the newest and latest creations of Dame Fashion and staple merchandise, and already the big push of patronage has begun.

The local bank is showing a greatly increased deposit than general at this time of the year when harvest has only begun. There was a good wheat crop in this section which sold at good prices. A cotton crop now estimated to total 20,000 bales in this county, plus a big soxhump grain crop, will also furnish added finances for needed Fall and Winter buying.

While there are some growers who are inclined to feel a little "Blue" over probable prices for lower grades of cotton sold, yet state and federal officials are now active and it is confidently believed a plan will be worked out in the near future whereby government loans may be made on cotton which will not grade up to the required nine cent loan now allowed.

Livestock of all kinds is now bringing good prices, with pastures and ranges in excellent condition for putting on added flesh before selling. Poultry prices are going up, as is also that of cream. There is some building going on now in both town and country areas of the county. In fact everything looks propitious for good Fall business people all over this area being quite optimistic over future prospects.

Business increase for August through the state showed an increase of 11 per cent, according to the Texas Bureau of research at Austin. Employment, car-loadings, payrolls, crude oil runs, store sales and power consumption all showed good increases. Census statistics were favorable, new corporations chartered showed increases while firm capitalizations increased sharply.

This bureau says cash income from Texas farms continues to look favorable, while certain agricultural lines have bright activity outlooks. It declares there is every indication consumer buying power will be well maintained for many months yet to come, while farm buying power undoubtedly is on the upgrade. Texas farm cash income is going to show a big improvement over last year the bureau says.
