Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LITERA SCRIPTA MANET—THE WRITTEN WORD ENDURES

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, MAY 20, 1937

VOLUME 15 NUMBER 17

J. W. JACKSON SPEAKS FRI. TO SENIOR GRADS

Geraldine Robbins and Irma Willis Head Class Of 26

Commencement program for Muleshoe High school graduation class will be held at the school auditorium Friday night of this week, at which time pupils, patrons and citizens in general will be honored with the privilege of hearing Prof. J. W. Jackson, who will deliver the principal address.

Prof. Jackson is head of the Department of Government, Texas Technological College, Lubbock, and is a fluent speaker, invariably holding the attention and interest of his audience during his addresses. Being a school man of considerable experience and national repute, his presence here will mean much to the members of the graduating class and to the citizens generally who may have the privilege of hearing him.

The senior class this year is composed of 26 members, of which Miss Geraldine Robbins is valedictorian and Miss Irma Willis, salutatorian.

Other features of the commencement program will be as follows: Processional, Largo from New World Symphony, Mrs. Flaude Gailman. Class creed in union, senior class members.

"Climbing the Ladder of Life," Irma Willis, salutatorian.

"Carving Life's Marble," Geraldine Robbins, valedictorian.

Musical reading, "Your Journey," Miss Adella Beavers.

Presentation of scholarships and of graduating class to school board, Supt. W. C. Cox.

Presentation of diplomas, Geo. Johnson, president, school board.

NEW HOSPITAL FOR LFD

The new Payne-Shottwell hospital and clinic, located in the former Littlefield hotel building at Littlefield, which has been completely renovated, made over and modernized for such purposes, will be formally opened Sunday May 23, according to announcement.

This is the second hospital for that little city.

Some Teachers Will Study, Others Play During The Summer

Plans were announced the first of this week by teachers in the Muleshoe High and Grade schools as to where they will go and what they will do during the summer vacation months.

Prof. W. C. Cox will remain in Muleshoe most of the summer.

Mrs. Evelyn Boone will visit home folks at Camp Springs and later go to Fort Collins, Colorado and attend school.

W. H. KENNEDY TO WASHINGTON

Wm. G. Kennedy, Bailey county farmer and State Director of the Texas Agricultural association, left last week for Washington as one of a delegation of Southern farmers to confer with legislators relative to plans for a long-time agricultural program to begin in 1938.

Mr. Kennedy had been elected as a member of this legislative committee at a South-wide farmers' meeting in New Orleans the week before.

What's Happening In Washington And Other Cities Of Importance

Baptists in convention session at New Orleans last week agreed that 16 is young enough for girls to marry. They also decided that smoking was sinful.

Federal court ruled that James J. Braddock, champion heavyweight pugilist, will fight Joe Louis, negro challenger, in Chicago the night of June 22.

The WPA, Washington, is facing the task of cutting of at least \$25,000 persons from relief rolls this year, which state directors have been instructed to act on promptly.

Harold L. Tucker, secretary of foreign, has no objection to supply foreign nations with helium for their zeppelins providing they promise to not use the air boats against the U. S. in time of war.

The federal government's newest strong box, a million dollar fire-proof, earthquake-proof and robbery-proof mint on a solid rock foundation, built at San Francisco, was dedicated last Saturday. It is a story structure.

Mrs. Franklin D. Roosevelt told a convention of housewives the other day she favored an eight-hour day for housewives and that they should be paid a definite salary, for they earned it.

The Internal Revenue Board, Washington, decided last Monday that employers and employees may deduct from federal income taxes payments made under state employment insurance laws.

The U. S. Supreme court last Monday held constitutional a Louisiana statute imposing a graduated license tax on chain stores, based on the number of units operated throughout the nation and elsewhere, but it failed to pass on the constitutionality of the federal social security act.

It is announced that Duke of Windsor and Wallis Warfield will be married June 3.

The United Automobile Workers of America last Tuesday began mobilizing for its campaign to unionize the Ford Motor Co. It is said Ford will strongly resist the effort.

Supreme Court Bill Loses In Its First Round In Committee

The Senate Judiciary committee last Tuesday voted 10 to eight against the proposed U. S. Supreme court bill submitted by President Roosevelt, practically all amendments being rejected.

Seven Democrats and Senator Norris, Nebraska independent, voted for the bill.

Senator Wheeler said the president ought to withdraw the bill immediately. There was no excuse whatever for going ahead with the fight.

Co-incident with the adverse court vote was also announced the retirement of Associate Justice Willis Van Devanter, effective June 2, which Chief Justice Hughes called a "most serious loss" to the court.

Van Devanter is 78 years of age and was generally classed with the conservative element of the Supreme court judges.

W. T. C. OF C. OFFICERS NAMED

At the annual meeting of West Texas Chamber of Commerce held last week at Brownwood, officers for the coming year were elected as follows:

Milburn McCarty, Eastland attorney, president; Herbert Hilburn, Plainview publisher, first vice-president; E. K. Faucett, Del Rio rancher, second vice-president; D. A. Bandeen, was re-elected for the seventh term as general manager of the organization.

The next annual meeting will be held at Wichita Falls.

Senator Connolly In Favor Of Continued Low Interest Rates

Washington, D. C.—Senator Tom Connolly declared early this week he will actively urge the extension of the 3 1/2 per cent interest rate on certain federal land bank farm loans.

House Bill Number 6783, which would extend the 3 1/2 per cent interest rate, has been favorably reported to the House of Representatives. Unless this or some similar bill is passed before July 1st, the interest rate on such loans will automatically revert to the original higher rate of 4 1/2 to 5 per cent.

"I strongly favor and shall insist upon the passage of a bill to continue and extend the 3 1/2 per cent interest rate on federal land bank farm loans," said the Senator. "It would be utterly unwise to increase the interest rate on loans to the Federal Land Banks at this time. One of the greatest services the government can render is to make it easy for farmers to become owners of the land they till. The establishment of farm homes ought to be one of the cardinal policies of the federal government. Those farmers who have purchased homes and have loans on them in the federal land banks are making earnest efforts to complete their payments and become the absolute owners of the land upon which they live.

"The government can afford to continue the 3 1/2 per cent interest rates on such loans. By doing so it may enable farmers to meet interest payments and also pay a portion of the principal indebtedness. To increase the interest rate at this time would have the opposite effect.

"In the Senate I shall advocate strongly the enactment of the bill providing for the extension of the 3 1/2 per cent rate."

Lamb Co. Citizens Vote On A County Seat Change June 15

A petition signed by 430 Lamb county voters was presented to the Commissioners' court at Olton last week asking for an election to determine if the county seat shall be changed from Olton to Littlefield, it being presented by J. C. Hilburn, Littlefield bank president. The election was granted by unanimous vote of the court.

The voting will be held Tuesday, June 15. Citizens of that county have held two previous elections on county seat moving, each failing to order the change.

Amherst was located years ago near the center of that county so as to be able to control such a question on majority vote, while moving the county capitol to Littlefield, outside the five mile center radius, requires a two-thirds vote for favorable decision. At one time attempt was made to change the laws governing location and change of county seats through legislative action in Austin; but failed.

Removing the county seat from Olton, which has always been the organization of Lamb county, would be "like taking the baby from the cradle," as one Lamb county citizen remarked.

Littlefield is a larger town than Olton, feels the baby has grown quite a bit in recent years, and is no longer a question of "cradle."

Susan has generally voted about 50-50 with Olton and Littlefield in past elections, and always against Amherst, which has entered as a third point in the discussion at each election.

Federal Farm Sign-Up Is 640; Considerably Lower Than Last Year

Work sheets in connection with the 1937 Agricultural Conservation program, which has always held it since the above date though May 8 had been previously designated as the closing date for the county. Only those who appear eligible to participate in the program.

The total sign-up this year as compared with that of last year is considerably smaller, although, only about two-thirds of the farms covered last year were in compliance. Payments are now being made for compliance on approximately 650 farms.

TEACHERS ENTERTAIN PUPILS

Friday afternoon of last week, children in Mrs. A. A. Alexander's and Mrs. Ethel Fowler's rooms of the Muleshoe Grammar school were entertained with a party at the Alexander home.

Pupils had the privilege of inviting visitors and 75 children attended. Various games were enjoyed and delicious ice cream was served by the hostess teachers.

General News Over Texas And Adjoining States For The Week

The Fortales, N. M., Valley Sweet Potato plantation has sold 63 carload of potatoes this season.

The wheat crop in Texas is forecast as being 70 per cent of normal, or a production of 41,286,000 bushels.

The Fifth Court of Civil Appeals, Dallas, last Saturday upheld constitutionality of the Texas chain store tax law.

Oklahoma citizens will vote on a constitutional amendment providing for 77 members of its Legislative House instead of the present 177, and for 34 senators instead of the now 44.

Representative Percy L. Gassaway, Oklahoma's former "cowboy congressman," died last Saturday morning from a heart attack while in an ambulance enroute to a sanitarium at Ada, Okla.

After several days delay occasioned by failure to receive Federal funds, \$2,868 May pension checks were mailed out of Austin last Saturday to old folks.

A stray steer lounging on the Santa Fe railroad track near Albuquerque, N. M., last Monday was responsible for a constitutional amendment providing for return to the fee system. It had killed one man and sent five more to a hospital because of their injuries.

There are plenty of desert spaces on the earth; but the White Sands National Monument near Alamogordo, N. M., is now declared to be the biggest pile of sand in the world. More than 20,000 children annually play on its white surface.

Accurate Measurement Farm Land Proposed By Agri. Committees

College Station—Accurate measurements of farm lands in Texas will be available for future agricultural programs through the system now employed by the Texas Agricultural Conservation committee, according to E. N. Holmgren, executive secretary of the committee.

In 21 counties of the state, measurement will be by plane table, and only those farms which are participating in the current Agricultural Conservation program will be measured. Aerial surveys will be made on 80,000 square miles, or approximately 100 counties, and in this case all the land in the counties involved will be measured. The remaining counties in the state will check compliance on farms entering the conservation program on the system used in previous years.

The aerial survey will be continued by 1800 in all counties which have enough participation in the program to warrant the service, Holmgren said. The aerial survey enabled the state committee to have on hand permanent and accurate maps of each farm and will eliminate the annual expense of costly chain measurements.

Holmgren indicated that farmers who participate in the 1937 Agricultural Conservation program will receive a blue print of their farms when located in counties where aerial surveys are made.

Y. L.—MULESHOE H. D. CLUB

The Y. L. and Muleshoe home demonstration club met in the home of Mrs. Albert LaVigne, Thursday May 13.

Miss Alma Stewart, home demonstrator, gave a demonstration, contrasting fashions of today and a few years ago, including different styles, sleeves, necklines, colors and different finishes.

Mrs. O. N. Robinson and Mrs. C. C. Mardis gave a skit on changing patterns. There were 47 present, including new members and visitors.—Reporter.

RANCH SOLD FOR \$80,000

The A. A. Kinsler ranch, lying within a few miles of Muleshoe and which was sold about two weeks ago, brought \$80,000, according to authentic information from the 1937 Agricultural Conservation program. It is understood about \$50,000; but it is understood there are other considerations regarding this transaction not specifically named in the instrument.

Several hundred head of livestock, farm implements, etc., were not included in the land sale.

TRAIN SCHEDULE CHANGE

The west bound Santa Fe passenger train No. 92, known as the California special, has been changed in Muleshoe from the east at 3:23 p. m. will have a change made in schedule, effective Sunday when the train will arrive at Texon N. M., at 4:30 p. m., after leaving Muleshoe.

65 4-H CLUB BOYS NOW

The enrollment of 4-H club boys in Bailey county has reached 65 in number, according to records in the office of the county agent. This membership is distributed among nine communities of the county. The largest membership in is the Bula club, which has 40 members in the south part of the county.

Texas Legislature Is To Adjourn May 22nd Gov. Gives Warnings

The Texas legislature continued its session last week, officially expiring Tuesday, salaries of members automatically dropped from \$10 to \$5 per day to continue such deliberations until May 22, when it is said probable Governor Allred may call a special session unless certain important bills are passed during the interim.

Last week it passed a stricter license law for auto drivers. It eliminates the annual 50 cent examination fee, requires test and examination or suspension by state safety department and reduces court action for cancellation.

Rep. W. E. Pope, Corpus Christi, charged railroads of Texas were endeavoring to stifle all forms of competition in the freight car market.

Monday the Senate gave its support to an appropriation of \$780,000 for an international park to be established in the Big Bend country of the Rio Grande river.

With the date of adjournment fixed, Gov. Allred Monday warned again of the need of more revenue to meet state financial obligations.

Wednesday morning Gov. Allred sent a message to the legislature denouncing the salary plan of remunerating county officials and urged submission of a constitutional amendment providing for return to the fee system. It was in 20 minutes after its reading the House unanimously passed the order. According to the proposed provision, the fee system would not be mandatory but permitted the legislature to adopt any method it desired.

SOUTHWEST TURKEY GROWERS ASSN FORMS OFFICERS NAMED

At a meeting held at San Angelo the Southwestern Turkey Growers association was formed with a capital stock of \$200,000 and application made for state charter, headquarters to be at Plainview.

Ray B. Davis, Plainview, was named president; C. E. Clark, San Angelo, vice-president; E. A. Schonrock, Goldland, secretary-treasurer.

This organization expects to market four million pounds of Texas raised turkeys the coming season.

Muleshoe Nabs Clovis Scalps In Game Score Eight To Two Sunday

Muleshoe's "Mighty Muleaters" momentarily mauled the Santa Fe Shop Sluggers last Sunday in Muleshoe, in a victory score for the Texans the score being 8 to 2.

Twelve errors were chalked against the railroaders, while Muleshoe lads were fortunate in making only one. Perhaps the Sunshine states outside the Bailey county; but with a couple of blobs afield, the Jennyfoot jugglers pulled out in the end.

Muleshoe cued three pitchers, the Totten brothers and Burns, who struck out five batters in total, "Slat" League who started on the mound twirling the leather sphere for Clovis, held Muleshoe to four hits in seven innings, and struck out seven batters and got three of the six Clovis hits, "Lety" Lindley, who relieved him in the eighth frame, gave up only one hit in two innings, according to report.

PUPILS GIFTS APPRECIATED

County Judge M. G. Miller is this week in receipt of a letter from Gov. James V. Allred addressed to Bailey county school pupils, expressing in behalf of the New London School Memorial committee his thanks for the recent financial contribution of the county pupils and teachers of this county to the memorial fund being raised for that school when the recent gas disaster when about 300 pupils and teachers lost their lives.

BUYS STORE AT DUMAS

Irvin St. Clair last week purchased the Morton dry goods store at Dumas, taking charge last Tuesday.

Herbert Nell, formerly employed in the Muleshoe store, will have charge of the new business.

So chemistry is now used to check insanity. A certain college boy says it is going to check a crazy notion he had of passing.

DR. PEARCE IN SENIOR SERMON HERE SUNDAY

Versatile Program In The Baccalaureate Service

Baccalaureate service for graduates of Muleshoe High school was held last Sunday evening at eight o'clock at the school auditorium with a large crowd attending, all seats being taken and several stood up at the back of the room. The program was as follows:

Processional, Mrs. Flaude Gailman. Invocation, Rev. R. S. Watkins. Song, "Our Best," Senior class. Scripture reading, Rev. J. M. Reynolds.

Anthem, "Grant Us Our Heavenly Father," Choir.

Baccalaureate sermon, Rev. W. M. Pearce, D. D., presiding elder, Methodist church, Lubbock, district. Benediction, Rev. R. S. Watkins. Recessional, Mrs. Flaude Gailman.

The sermon delivered by Rev. Pearce was very inspiring. He expressed his heart felt regards to the graduates and sponsor or having received the invitation to speak to them on that important occasion. At the beginning of his sermon, while addressing the class members, he stated that this school had the best looking group of graduates he had ever seen, at Muleshoe.

He was at one time, while pastor of the Methodist church at Bovina, 25 years ago appointed to preach here one Sunday in each month and stated this was the first opportunity he had had since to attend any public gathering at this city. He is known by several pioneers of this community.

The 26 graduates occupied three rows of reserved seats at the front of the auditorium, while Supt. W. C. Cox, Rev. J. M. Reynolds, Rev. R. S. Watkins and Rev. W. M. Pearce were seated on the stage.

The rows of seats reserved for parents and relatives of the graduates were roped off with streamers of the school colors of gold and white. The stage was attractively decorated in the school colors and several pot plants of lovely roses and other flowers.

Members of other classes in the high school were ushers and handed out programs for the occasion.

Bailey County Oil Test Well Is Down Below 3,600 Feet

The oil test well being sunk in the extreme southeastern corner of Bailey county was down more than 3,600 feet early in the week, according to report. Its contract depth is 5,500 feet. Going has been good and quite rapid until last Saturday when hard formation was encountered which immediately put a check to the speed of the drop-pit bit. Officials connected with the well express their pleasure with rapid progress enjoyed, declaring formations gone through to date are all quite favorable.

Two offsets of the Duggan well, initial production in Bailey county, are reported soon to spud in. It is said one tract of 178 acres carried a financial consideration of \$75,000.00, and names July 1 as final date for starting the well.

No further information is available at this time regarding the Enoch or McCreely wells to be started in the south part of Bailey county. Willis test No. 2 west of Portales, N. M. is down below 3,600 feet, with a showing of gas found.

Leasing continues in Bailey, Hockley and Cochran counties. Prices paid varying from \$1 to \$15 per acre, according to approximation of speculative nearness to underground oil pools.

RAINS BOOST WHEAT CROPS PLANTERS ARE ALL BUSHY

Following the Federal rains of this area last week, farmers throughout Bailey and adjoining counties have been running planters overtime, putting cotton, hick, alfalfa and other seed into the ground, thousands of acres having already been seeded, and the work continuing with unabated activity this week.

Present indications now are the cotton acreage planted in this county this year will far exceed any plantings for three or four years past. Reports also are to the effect the sudan acreage will be increased, this notwithstanding sudan prices for the past two years have not been very favorable to growers.

Wheat conditions, following recent rains, are said to be greatly improved, some fields which held little promise of crop are now said to be quickening of fair yields.

END PLAINVIEW FRIENDSHIP DAY

The closing program of Friendship days in Plainview next Wednesday, May 26, will present another fine picture show at the Granada theatre at ten-thirty o'clock in the morning and the usual cash contests at the bandstand at two o'clock in the afternoon.

DO YOU KNOW

The 1937 Ford V-8 automobile is the most economical car Ford has ever built!

Numerous new appointments, great conveniences, superior mechanical construction, plus increased beauty, make it a much more wanted car than ever before.

They come in various models for every desire and demand—their rapid sales pushing factories to keep pace with orders.

COME IN, LET US SHOW YOU ONE OF THESE CHARMING NEW MODELS!

Motor Co.

PROVED BY THE PAST—IMPROVED FOR THE FUTURE

BAPTIST MINISTER SAYS SALE TAXES HAMPER RELIGIOUS ACTIVITIES, STATE GOVERNOR PROBABLY OVERLOOKED THIS

Austin, Texas.—Twenty-two States now have the principle of a general retail sales tax incorporated in their revenue systems and annually raise approximately \$300,000,000 from this source. It is exclusive of gasoline and cigarette taxes. This information is contained in responses to inquiries sent out from Austin to the various State Tax Commissioners by Rev. J. Earnest Stack of Houston, editor of the Christian American. More than sixty million people paid these sales taxes and the annual sales tax averaged \$5.50 per capita.

California leads in amount of annual sales tax revenue obtained, the total being \$81,000,000. Illinois derived \$66,500,000 from the sales tax; Ohio \$58,000,000 and Michigan \$55,000,000. The rate in these States is 3 per cent. North Carolina also has a 3 per cent levy. Alabama, Arizona, Arkansas, Colorado, Iowa, Kansas, Louisiana, Mississippi, New Mexico, North Dakota, Oklahoma, South Dakota, Utah, Washington, West Virginia and Wyoming have a 2 per cent rate. The levy in Missouri is one per cent, but a bill

has passed one House of the Missouri General Assembly increasing the rate to 2 per cent.

"I have concerned myself in such matters because I have learned from experience that high and unjust taxes are interfering with activities of the churches and hampering denominational programs in many communities," Dr. Stack said.

"The churches can obtain their sustenance only in contributions from whatever surplus the donor may have on hand after taxes have been paid. Under the present system of taxation or rather the lack of a tax system, the taxpayer can seldom accumulate a surplus and as a result, religious activities are retarded. Many of those who once supported the church in an adequate and substantial way have been forced to curtail their religious contributions. They are compelled to tithe to the politicians who have gone on a wild tax spending spree instead of supporting the Lord's work. Such a system is wrong and as an active Baptist minister I intend to let my voice be heard in protest for a policy of taxation that is soaking the churches."

MRS. ALVIS HOBBS SHOWERED

Wednesday afternoon of last week Mrs. W. H. Kistler and Mrs. Dudley Hobbs entertained in the home of Mrs. Kistler honoring Mrs. Alvis Hobbs with a stork shower.

Several games and contests were enjoyed, and a number of beautiful songs were sung, then the gifts were presented.

After the honoree had opened her many lovely gifts, refreshments of punch and vanilla wafers were served to the following guests:

Mesdames Mills, Barfield, Beulah Carles, Ray Griffiths, C. C. Mardis, R. L. Jones, Marvin C. Mason, Ray Burdard, Buford Butts, Jim Cox, F. L. Glasscock, J. F. Wallace, C. H. Buzard, Hertha Walker, Rufus Gibrath, John Gaede, R. L. Hobbs, Myrtle Huffstuffer, C. F. Moeller, R. N. Edwards, J. C. Olascock, Luella White, Jim Burkhead, C. R. Farrell, Essie Landrum, J. D. Thomas, Dudley Buzard, W. H. Kistler and the honoree, Mrs. Alvis Hobbs.

A number who could not attend sent gifts.—Reporter.

SECOND GRADERS HAVE PARTY

Friday afternoon of last week the second grade pupils, Mrs. Curtis Taylor teacher, went to the sandhills for a picnic. They had decided to divert from the regular routine of having a number on the closing program and celebrate the closing of school by going on an outing.

At 1:00 p. m., the children left the school house. Mrs. Jess Murray taking them in a school bus. Mrs. J. J. DeShazo, room mother, did not go but sent chewing gum for everybody. They appreciate the things she has done for them during the past nine months. Mrs. Bland Dennis surprised the group by serving home made ice cream in cones. Mrs. Murray is to be thanked for cookies and candy. At two-thirty o'clock Gladys Harvey brought out ice cold soda pop. Between playing in the sand, eating and drinking they made kodak pictures. At three thirty the group returned to the grade school.

Among the things the children have enjoyed during this school year was the birthday parties they had each month.

Word "Cheekmate" comes from the Persian "shah mat", meaning "the king is dead."

Attaining Ideal Goal Humanity is fortified in its belief that the ideal goal is unattainable by the very longing for it.

THIS STORE IS LEADING

For the latest in Summer Styles of wearing apparel for Men and Women.

MULESHOE, TEXAS

BAILEY CO. HOME DEMONSTRATION CLUB NEWS

By MISS ALMA STEWART Home Demonstration Agent

Uses Old Tables and Shelves
"One of my boys and I built my pantry. We used some old home made tables and shelves that we had in the cellar," said Mrs. W. W. Mead, home food supply demonstrator of the Maple home demonstration club.

Mrs. Mead has five shelves which are 10 feet long, which makes 50 feet of shelving. She puts her pickles, jelly and preserves on the top shelf because it is not so handy and the children can't reach it and because that is the warmest part of the pantry. These foods are preserved with sugar and vinegar. She puts tomatoes and fruits on the second shelf; leafy green and yellow vegetables on the next shelf because they are on an eye level and are more easily reached; other vegetables and corn on the fourth shelf and meals on the bottom shelf.

To Serve Well Balanced Meals
"I had 1190 feet for my part of the garden, from this I raised 735 lbs of leafy, green and yellow vegetables and canned 111 containers of food. I canned string beans, green carrots, brat and English peas," said Juanita Hughes garden demonstrator of the West Camp 4-H club.

Juanita and her mother have both canned food so that they could serve well balanced meals every day in the year.

Adds Sink to Kitchen
"My kitchen sink made from a model T Ford gasoline tank cost only 25c and saves many, many steps, and makes house keeping a lot easier," said Mrs. Chas. Long, demonstrator of the Progress home demonstration club.

Has Portable Closet
"We made a portable clothes closet of ply board two years ago and have moved it with us," said Mrs. Charles Long, demonstrator of the Progress home demonstration club.

The bed room Mrs. Long wanted to put this closet in was too small, so she put a hole in the wall the size of the cabinet and fitted the cabinet in. The closet does not take up any space in the small room and the space it takes up in the back room is not needed because there is much wasted space in that room.

The closet is divided in two sections. On one side she has a rod for adult's clothing and on the other side shelves for linen and clothing. It has two doors, the top bottom shelves and has put in a small rod, for her four year old daughter's clothes. This rod will be low enough that the child can take it, and she will be trained to hang up her own clothes. There will be no expense to improving this closet.

Mrs. Long likes this portable closet so well she plans making another just like it to put by the side of this one in the back for the boys to keep their clothes in.

Builds Sandproof Closet for \$5.00
"Our clothes closet is sandproof," said Mrs. Baker Johnson, cooperador of the Goodland home demonstration club. It is two feet wide and four feet long. Two holes were bored in two short pieces of 2x4 and these were nailed to each end of the closet for putting up an iron rod full length of the closet. This makes the rod substantial. The closet has a shelf for hats above the rod and shelves in one end for keeping linens. The shelves are made of sheet rock and put up with brackets. The door was made of beaver board. The total cost was \$5.00.

Mrs. Johnson put a shoe rack in one end of the closet and a rack on the door. She painted it a cream color so it would be lighter and would keep the moths away.

Pulls Walls Apart and Builds Closets
"We had only one small clothes closet for a family of four, so we decided to pull the walls apart and make a large closet for each bed room," said Mrs. M. A. Snider, cooperador of the West Camp home demonstration club. Each closet is 28 inches wide and seven feet long. Mr. Snider put four large drawers in the east end of each of the closets for storing linens and underclothes, and a drop door under these drawers for storing boots and shoe shining material. She can store at least 12 quilts or pillows above the drawers in each closet. She added a four foot iron rod for putting hangers on and a shelf above this rod for hats. She has several hat and shoe racks, but plans to make some more.

Mr. Snider did the work, and the only expense was for material which consisted of lumber, sheet rock, two new doors and locks, and handles for the drawers. The total expense of these two closets was \$20.00. They took such a little space from each room for the closets that they hardly miss the space in the rooms.

Legend of St. Cecilia
St. Cecilia, patron saint of the blind and of musicians, according to tradition was loved by an angel for her musical skill. A crown of martyrdom was bestowed both upon her and her husband. She is said to have been the inventor of the organ. Dryden and Pope wrote odes in her honor.

STRETCH YOUR MILEAGE

...with this 100% Custom Tailored Gasoline

Let's get right down to the facts. Let's talk about why and how Phillips 66 Poly Gas saves you money.

The reason is simple. Into every gallon of this new-type, cost-cutting gasoline, Phillips packs extra energy units by means of the patented POLYMERIZATION process. The result is twofold. Your motor not only gets more power out of every gallon, but also delivers more miles.

But sudden changes in climate would endanger the economy and improved performance of Phillips 66 Poly Gas. If it weren't 100% custom-tailored, matched in advance to your weather in accordance with U. S. Weather Bureau standards.

Why 100%? Because Phillips pioneered the idea of custom-tailoring gasoline to break the vicious connection between changes in weather and changes in motor performance. Because Phillips has carried the process further and made it function more successfully. Because Phillips has greater facilities for custom-tailoring than any other refiner.

That is why no other gasoline, not a single one, is so accurately matched to your weather as Phillips 66 Poly Gas! The Orange and Black 66 Shield is the sign that you can get this improved gasoline which does more—but costs no more.

RESETTLEMENT ADMINISTRATION HAS RENDERED AID TO 2,136 IN TOTAL OF 47 COUNTIES IN THE TEXAS PANHANDLE

Figures showing how the Resettlement administration has helped 2136 borrowers in the 47 Panhandle counties of Texas to attain higher standards of living and insure a more rugged, self-sufficient type of agriculture, have been released, according to Miss Eunice Florence, Resettlement administration home management supervisor for Bailey county. She gave the following interesting information as indicative of the great progress being made in the home life of the families who are being rehabilitated through loans from the Resettlement administration.

Among the basic factors on which the report is based the average size of a family is 4.6 persons with the health of 95 excellent, 1426 good and 549 fair. The average size of a home is 3.5 rooms with 98 houses in excellent condition, 854 good and 83 fair. One hundred sixty-two have excellent water supplies and 1446 have a rating of good, 318 fair. Families having water piped into the house number 268; 1800 use well water and 228 must haul water. Gardening irrigation is practiced by 241 families. Refrigeration facilities are used by 1610 families.

The 2136 borrowers own a total of 4065 milk cows, or an average of 1.9 cows per family; 265 have washing machines; 1929 have pressure cookers; 1125 have sewing machines and 261 have sealers.

The following figures show the number of families who met 75 percent or more of their classified dietary needs, according to the standard set up on the 1936 home plan. Families meeting milk needs numbered 1917; meat 1633; poultry 1645; egg 1632; potato 659; tomato 537; green vegetables 826; other vegetables 799; canned vegetables 611; stored vegetables 192; fruit 110 obtained fuel without cost and 25 purchased a part of their \$33,849.65, or an average of \$59.95 each.

Miss Florence cited those accomplishments as major factors in the rehabilitation of resettlement clients and the establishment of a sound-live-at-home program which will be continued this year. Greater progress can be expected with the experience of the past year as a basis for intensified effort, she said.

CIRCLEBACK 4-H CLUB MEET

The Jr. 4-H club met May 14 at the school house with 12 members present. After a few minutes of recreation, Miss Alma Stewart explained how to cut and sew our dresses. Each girl is interested in winning one of the prizes to be given in the dress contest.—Reporter.

A Giant Bell

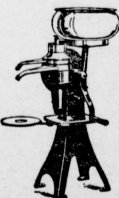

Chion-in Monastery, main temple of the Jodo sect, is one of the biggest temples in Japan. The buildings were erected in 1639. There is a nearby huge bell cast in 1633 in a nearby belfry. It is the second largest bell in Japan, measuring 12 feet in height, 9 feet in diameter, and weighing 74 tons.

McCormick Deering—the ONLY Cream Separator with STAINLESS STEEL DISCS with Electrically Welded Stainless Steel Spacers

Stainless Steel Discs—this amazing improvement in cream separators is another triumph for McCormick-Deering. Here is a cream separator that brings to your milk room the same positive assurance of cleanliness, sanitation, and safety that you demand of kitchen equipment.

Stainless Steel Discs are absolutely rustproof. They are made of tough, strong, closely grained metal that will stay the same for years—there is no soft coating to wear away. As a result, the bowl in the McCormick-Deering will remain in balance a great deal longer than one having ordinary tinned carbon-steel discs.

Call on us for a demonstration—see this latest and greatest achievement in McCormick-Deering Cream Separators.

Caution Against All Snake Bites Is Given Rattlers Don't Warn

Austin, May 17.—Dr. Geo. W. Cox, state health officer, urges every one to be careful when in the country to prevent snake bite. In Texas the chief offender is the rattlesnake; and, contrary to common belief, it does not always rattle before it strikes.

About 75 per cent of all bites occur on the lower extremities and could be prevented, to a large extent, by wearing high top boots and leggings. About 30 per cent occur on the hands and arms. Care should be exercised in not putting the hands in invisible places when climbing rocks, and to look before picking up anything that may be obscured by vegetation, brush or rocks.

If one is bitten, prompt action is

necessary and a physician should be obtained as soon as possible. No time should be lost in removing the poison by suction; this can be done by mouth or a suction cup. First a tourniquet should be applied above the wound, so as to increase congestion and assist in washing out the poison. A cross cut incision with a sharp, clean knife or razor blade should be made over each fang mark, or preferably to connect the two fang punctures. These cuts should be at least a quarter of an inch deep and at least that long. Suction should be applied for at least half an hour. The tourniquet should be released every ten or fifteen minutes for a minute at a time.

If bitten by a snake—do not run or get overheated; do not take alcoholic stimulants; do not take potassium permanganate (which is now known to be of no value as an antidote to cauterize the wound); and do not depend on home remedies.

Constipation

If constipation causes you Gas, Indigestion, Headaches, Bad Sleep, Pimples, etc., take the quick relief with AD-LE-HE-RA. Although, better and safer than any other medicine.

Goodland News

Rev. Clarence Coffman, of Plainview, filed his appointment here Sunday. A large crowd attended the services.

Mr. and Mrs. E. Brumblow and family left Friday for San Marcos where he will attend summer school.

Everybody is busy planting. Some are running their tractors day and night.

Mrs. W. W. Cagle and Miss LaVonne Tartion were in Morton Wednesday.

Mr. and Mrs. Johnnie Coyett and son, Elmer, were in Morton Saturday.

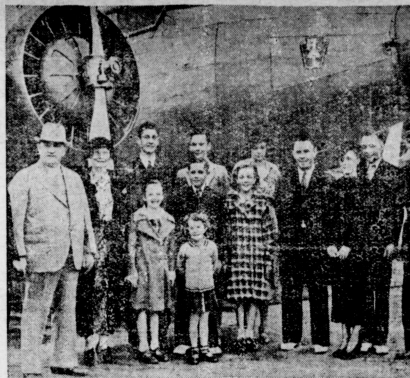

Claude Ferguson is seriously ill with pneumonia at the home of his mother at Sudan. His wife and children have gone to be at his bedside.

A light shower fell over our community Sunday afternoon.

Mr. and Mrs. L. D. Sanderson and children Bernice and L. D. Jr. visited Grandmother George who is seriously ill at the home of her daughter, Mrs. R. E. Reed at Com. going Saturday night and returning Sunday afternoon.

Attractive Appearance
Solid muscles and good general health are at the root of good posture and sound physical vitality, and these in turn are the basis for attractive appearance and force of personality. Drooping shoulders, shallow complexion, dull eyes or a fish hand shake never won a job or friends for any one.

They Took Their Annual Sky Outing

Every year the Hicks family of Detroit goes on a sort of aerial junket, and this season was no exception. Fred Hicks, a restaurant owner, Mrs. Hicks and the ten Hicks kids chartered a big transport plane, flew to Cleveland, circled the city a few times, and then returned, satisfied for another year. It all started in 1927 when one of the little Hickses promoted himself an airplane ride. Hicks, Sr., decided to take the whole family, and they liked it so well they've been doing it every year since.

Fairest Twins Hold the Youngest

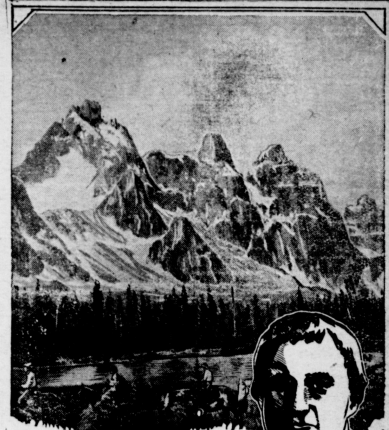

Twins from all over the country attended the national twins convention held recently in Ft. Wayne, Ind. Genevieve and Jeanette Dumas of Chicago were voted the most attractive pair, and are here shown holding Joyce and Joan Snider of Columbia City, Ind., four weeks old, the youngest twins present.

Printers' Progress Special

Sponsored by American type foundry and 23 allied manufacturers of printing equipment, the "Printers' Progress Special," first traveling exhibition operating heavy machinery under power, is on a coast to coast tour of the United States, embracing 72 cities. The three car train houses a practical printing plant with all accessories that will demonstrate the history of a print job from manuscript to the finished article. In the photograph are A. A. Mowbray, advertising executive (left), Frank E. McAvoy, electrical engineer (center), and S. W. Pierce, director of the train.

HIGHROADS OF HISTORY

A ROMANTIC episode in the history of the United States is perpetuated in the name of the section of Jasper National Park, Alberta, shown above, it is known as the Tonquin Valley, after the name of the ill-fated ship in which John Jacob Astor despatched the little company of adventurers that were to found his great fur Empire on the Pacific Coast. After the mysterious destruction of the Tonquin and a series of other ill-fortunes, the party which had established Astoria, at the mouth of the Columbia River, broke up and some survivors toiled eastward across the Canadi Rockies, finally reaching a trading post near this valley in what is now the world's largest playground, The Tonquin Valley, today, is noted for its scenic beauty. The lake in the foreground, Amethyst Lake, is famous for its rainbow trout fishing. The outlet of the lake is called the Astoria River. Inset is a sketch of John Jacob Astor, founder of the Astor fortune.

SUBSCRIPTION RATES
In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas.
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their address, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission for or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed. Objections, cards of thanks, and resolutions of respect will be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Editorial

Every Great Attempt is Glorious Even if It Fails

A THOUGHT FOR THE WEEK

Envy thou not the oppressor, and choose none of his ways.—Proverbs 3:31
There is no happiness for him who oppresses and persecutes. There can be no repose for him. For the signs of the unfortunate cry for vengeance to heaven.—Pestalozzi.

A BAD SUMMER

It looks like a bad summer for those insects which eat what man wants to eat. Last year grasshoppers alone destroyed an estimated \$80,000,000 worth of farm products, despite the fact that the government paid an army of 25,000 men to join with rural residents in an attempt to exterminate them. Now comes word from the government that while billions of grasshoppers were destroyed, there is every indication that the battle will soon have to be fought again—and the odds will be just as heavy against the growers.

Years ago it wasn't necessary to spray fruit trees. Today they must be sprayed three or four times each season if a crop is to be harvested. Why this change has come about no one knows, yet everyone around Muleshoe realizes that far greater destruction is being caused in this, and every other community, by insect pests than ever before, whether it be the work of grasshoppers, boll worms, corn borers, Japanese beetle or what-not.
The return of higher temperatures is bringing out the insect pests and from now on eternal vigilance against them is the price of a decent crop of any description. Neglect to start warning them until they have multiplied a thousand-fold is sure to prove costly. The time to launch the fight is right now, and there must be no let-up if you expect to keep them ever partially under control. Uncle Sam will aid you with advice if you want it, but the real work and constant watchfulness will always be up to you.

OIL TITLES

Titles on land supposed to be under laid with oil and gas must be valid, and attorneys for major oil companies leave no stone unturned to prove such validity. It's a good thing, not only for the oil companies; but also for the land owners leasing such property rights, for during the past 90 days since much leasing has been going on in Bailey county many flaws in titles have been found.
Some land owners have the vague

WOMEN'S CLUBS LIKE THIS HOUSE

When a house meets with the approval of women's clubs it sets a trend in home building. National Home Pictures picked a home which faces the Hudson River on Riverside Drive, New York City, and is one of the first of over 500 low cost steel houses of this style to be erected in as many American cities this year. It is architecturally unassuming, economical and to operate. The convenient, compact kitchen pictured is divided from the dining corner by an attractive low partition illustrating the elimination of waste space. Resistant to fire, winds, lightning, termites and earthquakes, this house is so well insulated it can be heated at reasonable costs in any climate.

Full gas equipment throughout includes house heating and hot water units, a refrigerator and range, all automatic in performance and economical to operate. The convenient, compact kitchen pictured is divided from the dining corner by an attractive low partition illustrating the elimination of waste space. Resistant to fire, winds, lightning, termites and earthquakes, this house is so well insulated it can be heated at reasonable costs in any climate.

Home merchants are honest, and offer honest value for your money. They can't afford to be otherwise. They depend on the same customer over and over again and for that reason cannot afford to overcharge you, get your money and then turn their attention to another victim.
If there is any place on earth where merchants have to be square with every customer it's in the smaller towns. They can't stay in business long if they don't. So be glad that you have this opportunity to save your pennies, instead of traveling to a distant market and parting with your dollars.
Stick to your home town merchant and help yourself and the entire community at the same time.

THE JOB-HOLDERS

Despite the efforts of politicians to hide actual figures on the matter, it has been established that something like 2,900,000 employees of state and local governments throughout the U. S. pay no federal tax, and that about 1,000,000 federal employees pay no state income taxes. All of which sets up a condition that is unfair to the taxpayers of the nation.
Government employers have no more reason to be tax-exempt than any Bailey county taxpayer has that right, nor should there be any state jobs providing tax exemption. All of us should share the expense of government according to our ability to pay. Government and state job-holders are no better than anyone else when it comes to footing the bill, and discrimination is not justified in any single instance.
Any man with a state or government job that pays him a wage or a salary should be shouldering his share of the cost of government and the sooner voters start looking into the matter and finding out why so many of them are not doing so the better off the country will be.

THE BEST REMEDY

The greatest menace on the highways today is the drunken driver and so far but one remedy to curb his kind has been discovered. That is a jail or workhouse sentence.

Taking away their driving rights or levying a fine do not have the desired effect. Fear of the law is the only thing that will wipe out drunken drivers, and there is no substitute for it. Paying a fine doesn't discourage a drunk driver, and neither does suspending driving rights for either a long or a short period; but if a few thousand of them are locked up—and kept locked up for a good long while—it will serve to create a fear and respect for law, and it won't be long until this greatest menace to safety is wiped out for all time to come.
If it is a case where the punishment must be the crime and a good stiff jail or workhouse sentence seems to just

THE JOURNAL'S Weekly Scrapbook

Some citizens of America are already wondering what is the real difference between Fascism and the New Deal.
Times haven't changed very much after all: once a rich uncle died and left us his money, we die and leave our money to a rich uncle named "Uncle Sam."
Judging from the strenuous objections Premier Stanley Baldwin presents against recognizing Edward of Windsor's betrothed as "Her royal highness," one might think he himself married a widow.
Members of the Texas Legislature who insist withholding action on horse-racing and betting, probably figure folks are going to lose their money anyway, so what difference does it make who gets it.

Pavement Pickups

If some Muleshoe man would like to get into a really slow business, let him take up raising snails.
Jeff White says the St. Louis preacher who declares there is no such thing as hell probably never had much experience with a used car.

In The Kitchen

The housewife who would have a regular supply of dry bread crumbs for thickening soups, making stuffings, meat loaf, croquets and escalloped dishes should keep these dustless white drying. A convenient system is to keep a cheesecloth bag in a cupboard which closes, and to place in this all scraps of bread left from a meal. They will be enough exposed to the air to dry, since the bag is porous, but will be shielded from dust.
Evergreen should have plenty of water. Spray the foliage frequently to wash off the dust and spiders, and keep down the attacks of red and leaf-rollers. If you work in the garden without gloves, wear a little soap on the nails to keep them from staining. . . . In setting out bedding plants be sure and put them lower in the ground than originally. This is a good general rule for all transplanting.

A Sewing Hint

When making a dress that has belt, use oilcloth to stiffen the belt. It will do as well as anything. Save to the store; by having some on hand the oilcloth will keep the belt sliding and wrinkling.
A dreary place would be this earth. Were there no little people in it; the song of life would lose its mirth. Were there no children to begin it.

"Compensation of Metals"

The term "compensation of metals" refers to an arrangement of different metals of varying expansivities so that the effect of temperature changes on the whole is compensated for. Thus a "compensation bar" or strip is constructed of parts of different metals so that its length does not vary with temperature, and a "compensation balance" is a wheel in a microscope constructed of different metals that variations of temperature produce such changes in its mean rim diameter as to offset the changes produced in the hair spring; and so on.

Early Ohio Church Workers

When a church was being built in early Ohio, it was customary for the women of the community to do their part by bartering their eggs, chickens and butter for nails.

Jaunty Journalettes

Flies are now the most likely candidates for the title of Public Enemy No. 1 in Muleshoe.

In the matter of styles, even a flat-breasted Muleshoe girl can keep abreast of the times.

As a general rule the heepped Muleshoe husband never appears to be feeling very cozy.

Time works wonders, and the Muleshoe girl who now uses a lipstick may get around to a braemstick later on.

We've observed some Muleshoe men are like gift cigars. One can never tell how bad they are until they are lit.

The worst wrong most of us Muleshoe folks suffer are the little ones that don't leave us quite mad enough to fight.

When the Muleshoe man asks for advice he means he wants something that will agree with his own opinion.

Another sign of old age is to be able to remember when Muleshoe grocers used a potato to plug up the spout of a coal-oil can.

Muleshoe folks should go drive down state highways that it won't be necessary to keep their license plates covered with greasy dust.

Whatever befalls the old-fashioned Muleshoe man who felt he could have a bushel of fun without having to spend a barrel of money;

It's all right for some Muleshoe men to boast about being open-minded; but we've noticed the closed-mouthed ones seem to be getting along better.

Muleshoe doctors may be able to control typhoid fever; but don't seem to be able to do much about spring fever—and here it's fishing time now.

Maybe you've never noticed it; but there are some folks in and around Muleshoe who never start putting on their brakes until they feel their clutch slipping.

SNAP SHOTS

Salvation may be free; but you have to pay a gas tax if you go after it in an auto.

The fellow who tries to make a big splash is usually the one who gets into deep water.

Most people in picking the "thinking people" of their community, pick the ones who think as they do.

Automobiles are not the only thing that change with the year's model. Husbands and wives do, also.

The Edward-Waly gas has been carried to about the same point of mental nausea as the Dionne quint.

After all, the end of the world is nothing to worry about. It's what happens in the meantime that's important.

HIGHROADS OF HISTORY

WHILE Columbus is duly credited as the discoverer of North America, it was Jacques Cartier, valiant navigator of St. Malo, France who first set foot on the mainland of the North American continent. In April, 1534, forty-two years after Columbus had made his famous voyage of discovery, Jacques Cartier set sail from St. Malo with two small ships bearing a total crew of 61 men. On July 3, seeking refuge from a storm, he cast anchor in what is today the Bay of Gaspé near the tip of the Gaspé Peninsula in Quebec and landing on the shores, he took possession of the land in the name of the King of France. On a hill-top overlooking the bay he erected a cross. Three hundred years later a pagan re-enacted the historic scene and the same cross, now known as the "Cross of the Bay," was spotted where the original cross was raised. The Bay of Gaspé was the scene of another world-famous event when in 1914 it sheltered the armada which conveyed the first Canadian Expeditionary Force to France. This was the largest expeditionary force ever to have crossed the Atlantic until the entrance of the United States into the World War.

WEEKLY LAY SERMON

'BEGINNING AT WASHINGTON'

By JESS MITCHELL

Great national movements invariably begin in their capitol cities. There are some exceptions, but such only serve to confirm the rule. Search the histories of the past and you will find this fact invariably true. I have a look in my library which contains the words, "Beginning at Jerusalem," and that ancient capitol city is so often referred to as initiating the leading events of that nation's history. It is scarcely worth while to think of anything much important starting elsewhere in that empire. That city, connected with temple and palace, radiant with intellectual acumen and with representatives of all the various tribes and divisions of its people, became the instigator of great national movements for the benefit of its people.

So it is with Washington, our own national capitol. It is the one spot where representatives of our 48 states,

delegates from our various other possessions all gather to legislate in behalf of the welfare of all our people. It seems to me quite right and proper that as ancient movements of Bible times began at Jerusalem, so important actions of modern times should begin at Washington. Just now our national Congress is in session dealing with the mighty and weighty problems confronting us as individuals and as nations. There are also hundreds of others there, not all officially; but all more or less interested in what is being done. Some have personal axes to grind, some have selfish interests of their own or else they represent some particular division of people or commerce for whom they lobby, while others making great sacrifices have gone to this capitol city to use their individual and collective influence in behalf of the general welfare of their fellowman without fear or favor and regardless of sect, creed or political advantage.

There are accidents in politics, of course, the same as in any other department of human activity; but for the most part, I believe the members of our U. S. Senate and House of Representatives are stalwart folks truly interested in the welfare of the people whom they represent. Most of them are well fitted for the important positions they occupy. They have good morals and mental endowment. They are the very "pick and flower" of American manhood and womanhood, faithful and sincere in their desires and deliberations. All their exertions, prayers and conversations are directed in the right channels, their tongues of eloquence become tongues of fire as of a modern Pentecost, their statesmanship burns with modern application of an ancient Moses or a medieval Paul. Their loyalty to duty, their fidelity to constituents and their patriotism to their nation, is

for the most part far beyond question. Considering all these salient factors and favorable motives, it is not only right and proper that great national movements should be conceived and carried out from Washington; but that all citizens, no matter their various social and economic positions in life, should lend their potent influence to our national legislators in assistance in equitably and righteously solving the great problems now confronting them for the welfare of all concerned.

During the past few years from some apparently unknown cause to which there have been attributed perhaps a thousand different reasons, some of all begin more or less relatively centrifugally, our nation has got into rather a chaotic condition not only economically; but socially and morally, as well. How to untangle the situation, straighten out the various knots and again align the intractable interests until all the wheels and cogs of this great democratic machine are again functioning smoothly and efficiently, is a mighty problem to analyze and solve.

During the past approximate century and a half of our national existence there have been some mighty men who trod Pennsylvania avenue and sat in the legislative halls of Capitol Hill. They gave of their best in deciding the stupendous questions of supreme judicialness. Today they are sleeping in Congressional or Arlington cemeteries, or else their manes are planted in some favored spot of their chosen state or territory. Their tongues are speechless, their eyes closed, their arms folded, their opportunities gone, their destinies fixed. How soon time prorogues parliaments, adjourns congresses, disbands cabinets, changes presidents, empties pulpits, rears new captains of industry and dismisses generations upon arrival of new ones. It's only a little while before an entirely new scene is spread before us. Every quadrum of the personnel of our national law-making body is almost entirely changed with only a few of the more staunchly faithful giants of intellect and statesmanship holding over for another term of official service.

We are all, no matter our position in life, whether one of affluence or poverty, interested in the further advancement of our nation. For personal and aggregate reasons, we want it to continue its ranking position at the head of the world's nations, exercising by precept, example and worthy inspired betterment upon other governments of earth. It is to be expected, and rightly so, that such faith and holy push and required consecration should begin at Washington, spread out over the entire face of this nation and to the four corners of earth, touching with their influence every other organized government of earth.

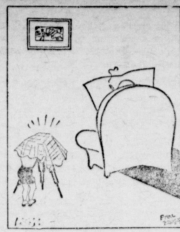

After all, no nation with the form of government we possess, can be any greater than the people who compose it. Our leaders in state and national affairs are no better than the majority of people who elect them. Ours is a government of, by and for the people, and the people themselves in the final analysis constitute and determine the quality of our government through the representatives they choose to effect it.

Perhaps it is admittedly a rather rude illustration; but our government since reminds me of the old-fashioned house-raising common when I was a lad. A young man and his bride sought to erect for themselves a home and they called in the neighbors from far and near. With mighty heave they would lift the heavy timbers in place for that future habitation. Sometimes there were accidents, some of the work was dangerous, men often put off their own work to assist their new neighbors in getting started. If it was a large house, it sometimes took mighty heaving to arrange the foundation and lift the massive timbers into place. Wives and others often accompanied their men folks to these house-raising and looked on with interest, held their hands up in horror or gazed with anxiety when some unforeseen accident transpired. In extreme situations they were sometimes called upon to assist.

So it is with our governmental affairs. Washington, our capitol city, is the scene of this great national house-raising. We have delegated our boss political carpenters and statesman mechanics to oversee the job, thousands of citizen neighbors have gathered at the designated site for assistance, the women too, now enfranchised, lend their mental acumen and spiritual initiative. Everyone there is straining of every latent energy, putting forth their mightiest endeavor. Altogether! Ye-heave! Lift or die!

That's what it means, for what 'begins at Washington' has its effect and influence throughout the entire nation.

THROUGH A Woman's Eyes
By JEAN NEWTON

WHICH IS THE BETTER WOMAN?

"THE longer I live," writes one of our readers, "the more I keep re-reading my definitions of what is good. And my reflections now are on a subject that should be of interest to all women."

"There is a man whom my husband and I have known for years. We were intimate with him and his first wife, and now, five years after her death, we have married again and we know his second wife equally well.

"The man is a good man, with no major vices, but, we always thought, with a good supply of the little perversenesses of disposition that cause most of the friction in married life. And with his first wife there was never a lack of friction. It seemed they were always differing. And we were inclined to blame this on his little stubbornness and eccentricities. He seemed always to be 'agin' things' with her. And she was a good woman after her kind and saved for him and knew no pleasures save those she shared with him. And she was ambitious for her husband."

"Now the man's second wife is a good woman too, but of a different type. She doesn't try so hard, nor take things too seriously. I believe she does her duty by him, but I doubt very much that she would dream of making the sacrifices for him which his first wife took as a matter of course. While I am sure there is nothing to hold against her, she does not have to be reminded to think of herself. And yet—and this is my point—she has made the man much happier. In fact she, who does not seem to try to control his faults, has indeed changed him. He seems to be a different man.

"I couldn't help observing and trying to analyze what she does. If I must admit the answer is very simple. She doesn't rub him the wrong way. She doubtless knew his faults as well as his first wife, but instead of criticizing him she flatters him. Instead of trying to correct him she makes him feel so satisfied with himself that he tries to please her. And now I ask you, if the proof of the pudding is in the eating, and this woman not only makes the man happier but makes him to all the world a better man, who are we to say which is the better woman?"

Well said, dear reader, who are we? The proof of the pudding is in the eating. And we have to live a long time to be sure of our sense of values. And for a word on the methods in question—they are approved for getting the best results with children, then why not with men who are really the current edition of the child?

Substitutes for Anything
The rich man in China can usually get a substitute to take his punishment, even sometimes to be beheaded.

YES MEN
By DOUGLAS MALLOCH

LIKE you I've had a man or two at times in my employ. And, when they tried to please me, then

They would the most annoy. With me they always would agree, Agree with might and main; Advice from them at any price I never could obtain.

Like you I've wished a man or two would let their right ear alone. I suggest some way they thought was best,

Some way that wasn't mine. No matter what I mentioned, that was just the very thing; Right then that crew of chorus men would all arise and sing.

Like you I'd like a man or two To say that I'm a mess. Although I know I'm not, I know I'm sick and tired of yes. For now they never tell me how My plan is not so good. I'd hire 'em (and very likely fire) A few who only would.

COW DELIVERS MILK
Zion, Ark.—A Jersey cow belonging to Loy and Leonard Halbrook, brothers near Zion, furnished milk to both families, adding the convenience of free delivery. Although the families live a quarter of a mile apart, the cow goes to the Leonard Halbrook home in the morning and he milks what he needs for the day.

Then the animal goes to the Loy Halbrook home each evening. The cow has never made a mistake in the schedule.

Oldest Vice Presidents
Vice Presidents Curtis and Tompkins were sixty-nine when inaugurated, the oldest to take office.

It stops chafing and rawness. Too. Buy it at your druggist's today.

COLUMBIAN Red Top GRAIN BINS
"You Pay for them Once—They Pay for Themselves Over and Over Again"

for SAFE LOW COST STORAGE

This is the year to make big money on your grain by storing it in a Columbian Red Top Grain Bin and waiting for highest prices. The extra profit you first year pay for your bin—and it will last 15 to 30 years.

And besides making extra money you'll save the big expense of storing your grain in terminal elevators. You won't have to dump grain on the ground. You'll have a safe, fire-proof, weather-tight place for storing everything.

These powder bins are easier to erect. Deep horizontal sweeps give double strength. Come in and see our proof.

Available in the following sizes: 500 bu., 1000 bu., 1500 bu., 2000 bu., and 2500 bu.

RED BOTTOM STOCK TANKS
WARRANTED FOR 3 YEARS—Be prepared for this summer. Have plenty of water for your stock at all times with these strong and durable Red Bottom Stock Tanks. Made in both round and round end styles with patent top, reinforcing triple sweeps, double lock screw bottom. We recommend these tanks above all others. Come in and get our lowest prices.

JAKE.

Dear Jake: OF COURSE—HE CAN MARRY ONE!

Annabelle.

Mother's Cook Book

FINE DINNER DISHES

THERE is no dinner dish that is more popular, if we except chicken, than ham.

Baked Ham.
Soak a ham over night. In the morning put it into a kettle with one onion, one carrot, six pepper cones, one bay leaf, six cloves and water to cover. Simmer for three or four hours until tender. Remove the skin and stick with whole cloves, make a stuffing and basting with the ham liquor and cider, using half of each. When the ham is well done stir some brown sugar into the cider sauce and spruce all over the ham and brown. Serve hot with the liquor from the pan for sauce.

Deviled Lobster.
Cook three table-spoonsful of onion, one table-spoonful of green pepper, three table-spoonsful of butter very slowly until tender. Add one and one-half cupfuls of lobster meat and sprinkle with two table-spoonsful of flour, one teaspoonful each of mustard, salt and paprika to taste, with a teaspoonful of Worcestershire sauce and a cupful of cream. Cook a minute or two. Place in ramekins or shells and bake well covered with buttered crumbs.

Fig Cake.
Beat three egg whites with one-half cupful of sugar and add a teaspoonful of vanilla. Beat three egg yolks with one-half cupful of sugar, the grated rind of an orange, a teaspoonful of baking powder sifted twice with a cupful of flour, and three table-spoonsful of orange juice and fold in the egg mixture. Melt four table-spoonsful of butter in a skillet, add one-half cupful of brown sugar, one cupful of chopped figs and a sprinkling of broken pecans. Pour over this the cake mixture and bake twenty minutes in moderate oven. When done turn upside down and serve with whipped cream. Stewed apricots, canned pineapple or any fruit desired may be used for this delicious cake dessert.

© Western Newspaper Union.

District Court Ends Tuesday, Only Four Charges, Light List

Bailey county spring term of District court adjourned Tuesday. The Grand jury returned only four indictments before being dismissed. There were very few criminal or civil cases on the docket ready for adjudication.

Earl McDuff pleaded guilty to a charge of forgery and was given two years in state penitentiary.

Leo Goodrich, charged with burglary, pleaded guilty and was given a suspended sentence of five years.

The case of Abner Mfg. Co. vs. H. H. Copeland, being a suit on note, was continued by agreement.

The case of LaVonne Tarlton vs. Hiley Boyd Jr., being a suit for damage and breach of promise, was dismissed on motion of the defendant.

Harry C. Livinggood vs. T. H. Adair, judgment for plaintiff.

H. G. Clark vs. E. Tiller and J. H. King, jury trial with judgment for plaintiff.

Ralph Brewer won a marriage annulment suit from Cora Davis, Brower vs. Cora Davis, and to S. T. Lawrence from Nellie D. Lawrence.

The court ordered collection of bond of C. C. Bagnadio, declared forfeited last term through failure of defendant to appear for trial.

State vs. Glenn Bowers, felon charge was dismissed.

Pioneer Round-Up Memorial Dedication At Plainview Sat.
Plainview, May 19.—A group of 10 Comanche Indians, under leadership of Chief Baldwin Parker, grandson of Cynthia Ann Parker and son of Quanah Parker, will appear in Plainview, Saturday, May 22, as part of the Ninth Annual Pioneer Round-Up, according to Miss Lena T. Gienn, president of the Plainview Business and Professional Women's club.
A memorial program observing the fiftieth anniversary of establishment of the Plainview post office is to follow immediately after the chuck wagon supper hour at six o'clock.
Highlighting the day's program will be the unveiling at two p. m. of the \$2,000 memorial shaft marking the old MacKenzie trail across the Staked Plains first traveled in 1871 by General R. S. MacKenzie, who commanded the troops that drove the Indians from the Texas Plains. The monument will be unveiled by Col. R. P. Smyth, Plainview pioneer.
A colorful parade, as well as complete from the standpoint of depicting Plains history, is being arranged by a committee headed by Miss Curtie Mae Rogers. This will move at 4:00 p. m.
Two dances are scheduled for the evening. Immediately following the program a square dance will be held at the City Auditorium with music by old time fiddlers. The American Legion will sponsor a round dance at the Legion Home to begin at 9:30 p. m., with the music by Logan Largent orchestra.

TEACHERS PLAY ON SAND
Monday night teachers of Muleshoe schools, accompanied by a few invited guests, celebrated the closing of their arduous duties during the past nine months with a picnic at Horsehoe Bend.
A basket lunch and plenty of cold pop was a feature of the evening. Games of various kinds were played on the sand and there was plenty of skidding and sliding down the dunes, fresh permanent and Sunday dunes, notwithstanding. One masculine instructor received a friendly gash in his lip, permitting his friend wife to do all the talking of that particular family for the next week, according to report.
A delightful evening is reported by participants.

BOB SHULER TO SENATOR
Rev. Bob Shuler, sensational pastor of Trinity Methodist church, Los Angeles, Calif., who some years ago achieved considerable radio fame and license finally denied him, beginning May 23 will conduct a revival at the Methodist church, Plainview.

Bula News Items
The buzz and hum of tractors began in our neighborhood last week some planting while some are knitting their land. The sound seemed a little prosperous to our ears, but would be more so if we could get a good rain.
Several from here attended the baseball game at Amberst, Sunday.
Mr. and Mrs. Brewer Gage left for Arkansas Thursday for their baby's health.
Mrs. Dyess of Lubbock is visiting her sister and family, Mrs. Will Carter. Jess Richardson and sister, made a trip to Marlow, Okla., Tuesday and Wednesday of last week, returning their mother to her home, after several weeks' visit here.
Mr. and Mrs. Robert Blackman and Miss Ruby Simpson of Jefferson City Mo., also, Edna Helen Blackman of Anamook, are visiting this week in B. L. Blackman's home.
Mr. and Mrs. C. L. Cameron stopped in Littlefield, Saturday.
The Bula Senior class spent the weekend night seeing and picnicking in the mountains west of Roswell, N. M.
Ladies of the Bula community met in the home of Mrs. J. A. Nickle, May 12 and organized the "Busy Bee" club. After a short business session, including the installing of officers, games were played. All enjoyed themselves and expect to get much more pleasure in the future. Next meeting is to be in the home of Mrs. Bearden, May 26.
Those present were Mrs. Grace Morrow, Lily Painter, Sybil Hubbard, Edna Jorrells, Wandis B. Nickle, Edna Nickle, Doris Reeves, Ellen Dennington, Mildred Cantrell, Ester Bearden, Pearl Nickles, Glyna Dean Kiker, Nannie Blackman.
Bobbie Aduddell of Pep, spent the weekend with her grand parents, Mr. and Mrs. B. L. Blackman.
Thomas Roy Redden, of Watson, visited his parents here Sunday.—Reporter.

West Camp News
Church was well attended Sunday morning. There was no sermon Sunday night as most everyone wanted to attend the Baccalaureate sermon at Farwell. James Robertson, Naomi Smith and Frances Luttrell of this community will receive diplomas.
Miss Wilma Smith who is attending a business college at Lubbock, visited with home folks this weekend.
Miss Margaret Dotson and Virginia Routh Robertson who are attending Tech at Lubbock, visited with home folks last weekend and attended the Mother's day program at West Camp.
Mr. and Mrs. Z. Z. Miller of Jacksboro have been visiting in the home of their son, T. A. Miller and family. Wedding bells are ringing. Lusky Green and Ruby Smith were married. The entire West Camp community wishes them many years of happiness.
The two small children of Mr. and Mrs. Lester Simms, from Hereford, are visiting with their uncle and aunt, Mr. and Mrs. Wayne Eskridge.
Mr. and Mrs. Harold Adair and sons, Mr. and Mrs. Luther Cottam and children spent last weekend with Mr. and Mrs. Virgil Stone at Muleshoe.
Mrs. Carrie Harding and Mrs. Zylene Pudge of Portales, N. M., spent Sunday with Mr. and Mrs. Luther Blackman and son, Gerald Lee.
Little Miss Anna Ann Walker, of Clovis, N. M., is visiting in the home of her grandparents, Mr. and Mrs. B. Walker.
H. S. Gibson of this community is having an irrigation well dug this week. Farmers are all busy planting.
Mr. and Mrs. B. Walker and family visited with their son, Raymond, Sunday, who is ill in the Santa Fe hospital in Clovis, N. M.

West Camp H. D. News
"Go gay this summer," said Miss Alma Stewart, home demonstration agent, of Bailey county to a group of West Camp women at Mrs. T. A. Miller's May 12.
Mrs. Grace Snider gave a report of the trip to Short Course held at Canyon, May 6.
An auction sale was held, after a motion was made and carried that at each meeting the hostess furnish a gift to be auctioned. The sale brought 60 cents. Mrs. Roark receiving a lovely flower bowl.
The club will sell polishing cloths to help raise money for the club treasury. Motion was carried that we send a delegate to Short Course this summer.
Those present were Mesdames Homer Missop, E. L. Smith, Chas. Pruitt, Joe Thompson, M. A. Gibson, Ana Smith, Harold Adair, Willie Williams, M. A. Snider, Roy Sheriff, Luther Blakeley, Roark, B. Walker, H. S. Gibson, Ethel Eskridge, Odes Thompson, Miss Alma Stewart, and the hostess, Mrs. T. A. Miller.
Next meeting will be with Mrs. Chas. Pruitt, May 26.—Reporter.

Charley Locke is entertaining his brother and family this week.—Reporter.

Baileyboro News
The Busy Bees met Tuesday with nine members present.
A quilt was quilted for Mrs. G. L. Blackshear.
Those present were Mrs. Faye Rogers, Faye Starkey, Apal Lone, Opal Waits, Susie Blackshear, Lyfion Moore, Lee Bell, Vern Mays and Jamie Lou Garth.
The club ladies are sponsoring a play to be put on Thursday, June 3. Everyone is invited to attend. The name of the play is "Up The Hill To Paradise;" time two hours.
Mr. and Mrs. Royace Garth were visitors in the G. J. Garth home Sunday.
Mr. and Mrs. C. D. Durham of Pettit, visited relatives here Sunday.
A big crowd attended the drawing at the V. B. Mays store Saturday.—Reporter.

Humble Work
It is a great mistake to suppose that the best work of the world is done by people of great strength and great opportunities. It is unquestionably an advantage to have both these things, but neither of them is a necessity to the man who has the spirit and the pluck to achieve great results. Some of the greatest work of our time has been done by men of physical feebleness.

Grain Combines
IN 6, 12 AND 16 FOOT SIZES
They are built to harvest grain at low cost. Easy to operate, of light draft, has simple but durable drive, ground driven reel. Each combine embodies the latest scientific mechanical features.
There are numerous new features we would like to explain and have you see for yourself. Call and let us talk them over with you.

O. E. S. Confers A Degree At Special Meeting Tuesday
A called meeting of the Eastern Star was held Tuesday evening at the Masonic hall for initiating Miss Lorena Spence. After the degrees had been conferred, she responded in a very interesting and appropriate talk.
The hall was beautifully decorated in colors appropriate to the order and bowls of roses and honeysuckle were placed in profusion lending their beauty and fragrance to the occasion.
Following the initiation, delicious refreshments of salad, snacks, iced tea and mints were served to the 30 attending, by a committee composed of Mesdames Virginia Weyer, Thelma Stevens and Cleo Golan.
Mrs. Emily Rogers of Gracemont, Okla., who is visiting here with her daughter, Mrs. Ray Eckler, was a visitor at the meeting. She is past worthy matron of the chapter at her home town and made a very pleasant and appropriate talk.

Children Thrive on Amazing New Tonic

I'M WORRIED ABOUT YOUNG. HE'S SO LISTLESS AND PALE. HASN'T A BIT OF APPETITE EITHER.

MY LITTLE GIRL USED TO BE THAT WAY TILL I GAVE HER PURSANG IT HELPED HER SO SHE'S THE PICTURE OF HEALTH

Today, thousands of men, women and children who were tired, listless, nervous—appetite poor—because of pale weak blood, are brimming with strength and energy as a result of the aid given them by Pursang.

For this scientific tonic preparation contains, in properly balanced and readily assimilated form, such elements as organic copper and iron.

Pursang acts to stimulate the appetite and build rich, red blood even in cases of simple anemia. When this condition is relieved, nervousness disappears.
