

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LETTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, AUGUST 19, 1937

VOLUME 15 NUMBER 28

EIGHT TEAMS TO PARTICIPATE IN 1ST BASEBALL TOURNAMENT HELD IN MULESHOE BEGINNING FRIDAY

Littlefield, Amherst, Sudan, Lariat, and Clovis New Mexico, Will Send Crack Teams To Compete For High Honors.

Big crowds are expected in Muleshoe during the week beginning Friday when the first baseball tournament of this city is held here with several visiting teams participating.

Manager E. C. Smith, of the local team, states no stone is being left unturned to make this one of the biggest and best baseball tournaments ever held in this section of the South Plains. Teams from Littlefield, Amherst, Sudan, Lariat and Clovis, N. M., will be in the contest for high honors—all of them good amateur aggregations, and some hard and close playing is anticipated.

Sixty-five per cent of the gate receipts will be divided into three graduation awards for the three teams leading in high standing when final scores are counted, Smith said.

All games will begin at 2:00 p. m. in the new Warren park just north of the Santa Fe railroad. This is ample seating accommodation for all fans and parking space for those who prefer to sit in their cars.

Everyone for miles around is invited to enjoy this series of swat.

TIPTON FREE OF CHARGE

Luke Tipton, Cochran county farmer, living near Maple in Bailey county, was last week set free of alleged charges implicating him in connection with some counterfeiting of cotton warehouse and check receipts in Lamb county.

Report is to the effect Tipton appeared for trial with a large number of character and other witnesses, following which the case was thrown out of court without hearing.

8,000 CASE BEANS CANNED

Approximately 8,000 cans of string beans have been put up to date by the canning factory at Portales, N. M., and canning continues, about 800 people being employed.

Canning of tomatoes is expected to begin this week.

Tech Football Games For The Season Now Named, Tickets Sell

Lubbock, August 16.—Season tickets for the 1937 football season at Texas Technological college will be put on sale August 21 at the athletic office, according to Bo Williams, manager. The six home games will cost the season ticket holder \$7.50.

Much interest is developing in the game with the University of Texas at Austin September 25. Williams has ordered 1,000 reserved seat tickets for the use of Tech students and West Texas fans, and it is likely that this number may not supply the demand. A special train to Austin for the event is planned.

The complete schedule follows: Arizona State, Sept. 18, at Lubbock. University of Texas, Sept. 25, at Austin.

Montana University, Oct. 2, at Lubbock.

Detroit University, Oct. 9, at Detroit.

Arizona University, Oct. 16, at Lubbock.

New Mexico University, Oct. 23, at Lubbock.

Oklahoma A. & M., Oct. 30, at Stillwater.

Lovola of the South, Nov. 5, at New Orleans.

Duquesne University, Nov. 11, at Lubbock.

Cantenary, Nov. 20, at Shreveport.

Crighton University, Nov. 25, at Lubbock.

GRASSHOPPER MORE NUMEROUS

Citizens from various sections of Bailey county south of the Sand range report grasshoppers becoming more numerous the past few days, and some damage being done to crops. It is thought many of them are invading fields from nearby pastures that are becoming dry for lack of rainfall. While few of them are of the flying type, yet many are large and destructive.

Jack rabbits and cottontails are also said to be over-numerous in the county many farmers now putting out poison bran putions for their eradication.

The danger has not yet reached the point where poison has been imported for relief, it is said.

MAHON URGES RE-ACTION

Congressman Mahon, this district, last week appeared before officials of the Rural Electrification administration, Washington, and urged favorable action on seven applications, totaling \$1,460,000, in this district. The projects urged by Mahon included Bailey, Terry, Lubbock, Floyd, Garza, Lynn and a joint Lamb and Hockley county proposal. He received little encouragement from officials, it is reported.

REA applications now pending from Texas total \$7,000,000, while the amount appropriated to this state for such purposes is only \$1,682,000.

FARM AGENTS MEET SEPT. 6

W. C. Taylor, Bailey county farm agent and Miss Alma Stewart, county home demonstration agent will attend a meeting of agents to be held at College Station, Sept. 6 under direction of the Extension department, A. & M. college.

BEATING THE BIG BASS DRUM

THE COTTON OUTLOOK

Early this season repeated warnings from state and federal officials were thrown out to farmers all over the southern part of the nation to not over-plant this year's cotton crop on the plea the market would be glutted and the price paid for such staple would be much below cost of production. It was said other producing areas of the world were planning excessive cotton plantings which would greatly hinder the profitable sale of U. S. plantings. Now, from statistics released, it appears such is not the case.

Notwithstanding the Department of Agriculture, Washington, last week predicted an estimated cotton crop in the U. S. of 15,599,909 bales, forecasts from other cotton producing nations clearly indicate a great reduction in the prospective production for this year.

Statistics say the Argentine crop forecast as 500,000 bales early this season is now estimated at only 192,000. Last year that country produced 373,000 bales; but drought, locusts and boll-worms are responsible for this year's

cut.

The cotton crop in Brazil, early this year estimated at 1,200,000 bales, is now set at not more than 800,000 bales.

India, the second largest cotton producing country in the world, has a large crop this year and it is officially reported that China may produce a record crop of 4,000,000 bales, though the war now raging in that country may have a lessening effect upon the amount of cotton for export.

Notwithstanding the use of various substitutes, cotton consumption appears to be on the increase, probably 8,000,000 or more bales being used of the nation's on crop domestically this year.

Increased indications of prospective war conditions in the Orient may bring very satisfactory prices to cotton growers of this nation.

The estimated cost of the new steam driven turbo-generator including boilers, auxiliaries and other improvements to be installed has been placed near \$380,000. All preliminary work incidental to the installation is finished and the machinery is expected to arrive at an early date.

The Texas-New Mexico Utilities company serves 53 towns and communities in West Texas and Eastern New Mexico and its transmission lines total more than 700 miles in length.

This vast improvement is in anticipation of the development of rural electrification and the use of electric power for irrigation and other purposes. To meet this prospective demand the Texas-New Mexico Utilities company has planned this extensive increase in its capacity to serve whatever public need is developed.

DEBTS SET TO DOWN

Farmers of 47 Northwest Texas counties have sealed down their debts \$612,755 through the resettlement administration, also paid taxes amounting to \$25,683.

It is said other tax reduction payments are now pending and still more debts will be paid this year through this governmental means.

CASH AWARDS GIVEN

Those who received the cash awards last Saturday afternoon were Mrs. A. E. Ward, \$5; J. J. Lawler, \$3; Mrs. P. D. Taylor, \$2.

The names of Mrs. Nora Williams, Mrs. A. G. Eberidge, Mary Ellis, Cran Shirley, Mrs. Ruth Ellis, E. M. Gates and George Bundrick were called but parties were absent.

COTTON PROSPECTS FOR SOUTH PLAINS INDICATE A PRODUCTION OF 1,877,075 BALES IS REPORT

County Aggri Agents Make Mass Report; Bailey County Listed For Ten Per Cent Increase Over 1936.

Cotton prospects for the South Plains based on reports from county agents, indicate a good crop for the area, as a whole, with rains coming at the proper time to promote growth and with a rather small acreage to be harvested.

Reports of county agents, generally considered conservative, show an increase of about 145,000 bales, not quite 10 per cent better than a year ago. Several counties show a decrease and a number show an increase.

Bailey county shows an estimated 10 per cent increase, while Hale, Briscoe and Floyd counties are in the decrease column. Lubbock county has the largest indicated acreage increase. Data from a few counties are not available.

Every county agent reporting, of course, qualifies his report on the reported rainfall necessary for crop development.

Comparative averages, with reports of last year, include the following:

County	1937	1936
Bailey	6,900	55,000

Briscoe	32,000	36,000
Borden x	6,000	6,000
Castro x	12,000	12,000
Cochran *	60,000	30,000
Crosby *	120,000	105,000
Dawson	190,000	185,000
Dickens *	84,000	75,000
Floyd	88,000	85,000
Gaines *	15,000	30,000
Garza *	65,500	50,000
Hale	83,000	100,000
Hockley *	150,000	125,000
Lamb *	170,000	150,000
Lubbock *	225,000	215,000
Lynn *	180,000	185,000
Motley *	55,000	50,000
Parmer x	28,375	28,375
Scurry *	100,000	80,000
Schwiber *	8,500	15,000
Terrill *	135,000	110,000
Yoakum	7,000	6,000

Total 1,887,075 1,688,375
x—estimated acreage
*—increase for the county
—Lubbock Aylancher

County Line Question Settlement Is Still An Unsettled Matter

Following a controversy existing among officials of Hockley, Cochran and Floyd counties, the respective dividing lines of these counties, and a hearing recently held at Austin attended by commissioners of Hockley and Cochran county lines, State Commissioner Wm. H. McDonald has held the south corner between Lamb and Bailey counties as established some 20 years ago, is correct.

Some time ago the question of correct division lines between Bailey and Cochran counties was raised; but soon settled between judges of the two counties, resulting in Bailey county obtaining about 8,000 added acres from Cochran county, an approximately equal sum being added to Cochran county from Yoakum county.

It is stated officials of some counties involved in the line controversy are not yet satisfied with recent rulings regarding the county boundary lines.

Some time ago it was reported that Bailey is entitled to a line establishment some 800 varas further east than is now the fact. It is reported commissioners of some of the county parties to the argument are manifesting little or no interest in the controversy. On the other hand, it is contended by other officials and interested citizens, such location is of major interest in the matter of added income to respective counties through collected taxes.

Available information is to the effect the subject may again be opened in the near future for further consideration.

METHODIST REVIVAL CLOSURE

A two weeks revival meeting, conducted by Rev. Caradine R. Hooten, pastor Methodist church at Plainview, closed last Sunday evening at the Methodist church in Muleshoe.

There were six membership letters placed with the church here from other neighboring towns and communities. Several recommitments and much spiritual interest was manifested during the revival.

Each night there were visitors from neighboring towns and communities and several out of town preachers attended.

Rev. Frank Beauchamp of McAdoo led the charge of the music and the young people group, and preached the last sermon of the revival Sunday evening.

Sheriff Norfies and deputies burned a murrhuanna growing field around Houston last week. The harvested plants, it is said, would have brought an income of \$3,000.

BAPTIST ASS'N W. M. U. MEETS HERE AUG. 24TH

Pastors From Various Churches Are On The Program.

The Wokers' Conference of the West Plains Baptist association and the Women's Missionary Union of that group, including 24 Baptist churches, will meet with the Muleshoe Baptist church, August 24-25, for a program and effect working plans following the Evangelistic campaign of this month and preceding the annual associational meeting at next month. More than 100 visitors are expected.

The following program has been outlined:

9:00 Devotional, Rev. J. E. Moore.
9:15 Enlarging Through the Sunday School, Rev. L. S. Jenkins, Amherst.

10:35 Enlarging Through the W. M. U., Mrs. Pat Boone, Littlefield.
10:55 Through an Adequate Visitation, Rev. Willis J. Ray, Littlefield.

11:15 Sermon, Rev. Barnard G. Clovis, New Mexico.
Lunch served by Muleshoe Church.

1:15 Meeting of the Board and of the W. M. U.
1:45 Enlarging through the B. T. U., Rev. A. V. Bradley, Anton.

2:05 Reports from the Revivals, led by Rev. A. A. Brian, Plainview.
2:35 Inspirational address, Rev. Jordan, Earth.

3:00 Adjourn.
The Baptist Training Union of the West Plains association will also meet with the Muleshoe church, the date being Sunday, August 28, at 2:30 p. m.

A unique program is arranged for the assembly. At this time, plans will be completed to send three cars from this district to the state B. T. U. convention meeting September 14 at Abilene.

BE-HAW BASEBALL GAME HERE

Thursday afternoon of last week one of the most unusual and comical baseball games ever to have been played in Muleshoe was staged when several business men and boys about town entertained with a donkey game.

Some traveling men with a large truck load of donkeys stopped at this city and their animals were used for the game. Two teams were organized and the battle began, several players being pitched practically as high as the baseball. At the end of the game the scores stood one and one.

Several fans were out at Warren park to witness the game.

MIDWAY SCHOOL BLDG. STARTS

The consolidated Jesko-Plainview school district, located just across the line in Farmer county, will, in the future, be known as "Midway" district.

The new building construction was begun last week, being located about three miles north of the present Plainview building. It will cost approximately \$6,000, will be 60x80 feet square, containing four rooms. Material from both the former buildings will be used in construction.

EDITORIAL AND FEATURE PAGE

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor. I. F. MITCHELL, Bus. Mgr.

SUBSCRIPTION RATES
In Bailey County, one year, \$1.50; Outside of County one year, \$2.00

Published every Thursday at Muleshoe, Texas.
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.
Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in the paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement, and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount recovered by him for such advertisement.

Editorial

Every Great Attempt is Glorious Even if It Fails

A THOUGHT FOR THE WEEK

Now he that planneth and he that worketh are one: and every man shall receive his own reward according to his labour.—I. Corinthians 3:8.
It is the amends of a short and troublesome life, that doing good and suffering ill entitles man to a long and better life.—Penn.

TAX BOOSTING

Last week notice was sent out by the Board of Equalization, Muleshoe School district, to various citizens notifying them to appear before that august body with logical reasons showing why the valuation of their property under said district should not be raised for school tax purposes.

While it is claimed that in numerous instances valuations have been cut in this district for tax purposes, yet it is a noticeable fact that all taxing bodies of various kinds still insist upon obtaining the maximum valuation possible. Apparently, every tax-raising agency is on the job 100 per cent, and will remain there until the paying public becomes fully aroused to the enormity of the situation, and rising up in its indignation, demands a reasonable modification of such amounts.

Recently the State Board of Education "took the bit in its teeth" and said the State would pay \$22 per capita tax to schools this year. While it is still a moot question as to whether this Board or the State Automatic Tax Board exceeded its authority, there is not much question but that educators saw a chance to "hog" the situation and lost no time in attempting to do so.

The Journal strongly upholds the American public school system; it pays its assessed taxes, as they come due, but it does frankly believe numerous officials and school teachers, in line with our politicians, are taking undue advantage of an apparent opportunity to overdo the collecting and paying system.

No doubt some schools need more money to care for deficits and engage in expansion; but it is also a fact that numerous schools are delegating to themselves curriculums and educational authority that properly belongs to higher institutions of learning. Numerous courses of study are being added which are unnecessary and expensive in various ways in many schools might be curtailed or avoided.

When it is considered that Americans must work nearly one full year out of eight—or about six weeks out of every year—just to pay the cost of the Federal government, taxes have really become a serious matter for citizens of this nation.

Total government costs have swelled to the almost unbelievable sum of \$170,000,000,000 per annum, which is approximately 28 per cent of the national income in good times. When the average citizen works four weeks, the public treasuries take his earnings for one of those weeks.

There is little question but during the coming two years this country is going to "make or break" so far as the tax problem is concerned. Every branch of government spending must be checked, from the national capitol down to the city and the smallest common school district. But it is also clearly evident that there will be no let-up in tax boosting until the voice of the people demand it!

THREATS OF WAR

The fact that Russian army aviators recently made a non-stop flight from their own country to the western coast of the United States does not mean that the average Muleshoe citizen, but when, after the feat is accomplished Russia boastfully announces that "We have demonstrated Russia's ability to successfully attack by plane the capital of any other nation," then Mr. Average Citizen is apt to sit up and take notice.

Russia's boast sounds very much as though she is lifting a chip to her shoulder, and may in time to come invite this country to knock it off, and the American people are not interested in invitations of that nature. That a great war, possibly a strike greater one than the world has yet witnessed, is in the making, no one doubts. With Italy, Germany, Japan and Russia working as never before to build up armies and navies, and munition factories working night and day, it is difficult to see how war can much longer be averted. That this country would eventually become involved is also a matter of general belief.

While no one wants the United States to stand idly by and fail to make all necessary preparations to protect herself, everyone does hope that a way will be found, when the lid blows off and the Old World again goes on a rampage, that this country will be able to remain out of it. Threats such as Russia makes cannot very well go unnoticed. It is going to take a pretty strong invitation next time to get the U. S. to enter into hostilities against any other nation, but it is comforting to know that she will not be found unprepared, as she was in the World war, and also worth something to know that her experiences in that titanic struggle will serve to stand her in good stead now.

SUMMER FIRE LOSSES

While the report of the U. S. Forestry Department that extensive forest and prairie fires are not so numerous this summer as last year, there is much to ponder over in a statement from the same authority that farm fires are running ahead of 1937.

The statement comes right at the most dangerous season of the year, and at the very time when more than the usual precautions must be taken against this destructive menace. Just at this time every section of the country is a veritable tinder box. Forests are dry, weeds and grass along the highways are ready to spring into flame from the tiniest spark. More campfires are being built than during any other month, and more vacationists are traversing the heavily wooded sections of the country.

If ever a warning against the care-

less use of matches and cigarette stubs was timely, it is right now. If ever a Muleshoe motorist is warranted in going to extremes to avoid causing a fire in rural areas, it is right now, and the warning cannot be made too emphatic. Break your matches before tossing them out of the car window. Extinguish every cigarette stub before dropping it. See that the camp fire embers have been smothered before driving away. Don't bring sorrow and financial loss to your fellowmen through carelessness.

A BUILDING TIP

Here's a tip for those around Muleshoe who postpone their building or improvement plans in early spring because of a slight advance in the price of hardware and building materials.

Prominent contractors in the larger cities are said to be rushing through orders for the fall delivery of building material in the belief that the real tilt in prices is going to come in 1938. If the big fellows are of the opinion that it will cost far more to build or make improvements, next spring than it will this fall, then the little fellow should profit by the hint.

There's going to be a lot of good building weather between now and the first of the year. If it is a small job, it can be done as quickly between now and winter as it would require at the opening of spring, or, in the event it is not convenient to do the work this fall, then there is still a chance to avoid next year's predicted rise in prices.

Buy whatever building materials you are going to need now and be on the safe side.

CRIMES' DIVIDENDS

The gates of the New Jersey state prison opened a few days ago to two men and a woman; the woman to spend the rest of her natural days within the prison walls, the two men to forfeit their lives in the electric chair. All three were convicted of first-degree murder committed in a robbery in which they beat an aged churchgoer to death. All they got from the robbery was 70c in cash, a gold watch of little value and several religious medals.

Parents of Muleshoe boys might read that to them with profit, for it is a striking illustration of the fact that crime's profits are usually terribly small when they are weighed against the loss suffered by those who engage in it. If your boy has not learned that "Crime doesn't pay," then tell him about these three criminals who committed murder for 70 cents—and lost their own lives, and liberty. It may make an impression on a youthful mind that will be both lasting and beneficial.

Jaunty Journalettes

There are very few dark and gloomy days for Muleshoe citizens who have learned to spread sunshine.

An egotist is the easiest person in Muleshoe to entertain. All one has to do is just sit and listen.

It's easier for most women in and around Muleshoe to make up their faces than their minds.

The radio will never supplant the newspaper in Bailey county homes, one reason being the radio can't be used to swap files.

Since that part of an argument most enjoyed by the average Muleshoe man is his own talk, perhaps he should confine his arguments to himself.

Outside the summer revival period, about the only uplift movement going on now around Muleshoe is the one done with an auto jack.

Now and then one sees a Muleshoe man driving a car so carefully one naturally comes to the conclusion it must be paid for.

Airplane manufacturers should not expect to sell much of their product to Muleshoe citizens until they stop putting the back seat in front.

SNAP SHOTS

After all, it doesn't take a lifetime of a car to last some drivers a lifetime.

Most colleges now days are measured by the size of their stadiums.

Lands ruled by a dictator have one advantage. They can act without waiting for everybody to get mad.

Germany is now rationing chewing tobacco. Probably a shortage of sawdust for saloon employees over there.

While numerous Texans are being made "weekends," overlooked citizens of such honors should console themselves with the idea that the kernel is the inside of a nut.

No one ever has to take their books home with them for night study while attending the School of Experience.

While it takes two to make a bargain, only one of them is necessary to make the money.

Seems there's a drawback to nearly everything. For instance, the better one's brakes the greater the danger to their rear fenders.

Pavement Pickups

Sam Lawrence declares he learned a long time ago if one lends a friend \$5 and never sees him again, it's worth it.

Homer Henington suggests summer is always bad enough with its hot weather, dog days and hay fever, without Congress sticking on the job.

Reading where a California man sold his wife for \$20. W. M. Gaston suggests even at that he may be guilty of price inflation.

Opal Kay Smith says the world will always be safe so long as it spends more for face powder than it does for gunpowder, and she is not necessarily boosting her own business at that.

"It may be kind of a rich man to enter the kingdom of heaven," suggests Booster Bob, "but that's no sign he can't become a trustee of the Second Baptist church."

Mrs. Irvin St. Clair says she discovered sometime ago that nearly all business concerns try to cover too much territory except those engaged in manufacturing bathing suits.

Noticing a restaurant the effect many auto wrecks were caused by operating old models, Clay Beavers suggests he has noticed plenty of modern would-be feminine models also get mixed up in them.

A concern has recently been organized in Los Angeles for manufacturing cottons and adobe tissue consulted Dr. Williams last week regarding reduction of her physical corporeity. "The best remedy," said the doctor, "is to leave cotton hungry." "I do better than that," replied the woman of large equatorial dimensions, "I always leave the table empty."

While journeying up one of the leading boulevards of Progress last Sunday evening, the editor was halted by one of that municipality's leading business men and advised that his Mayor, prominent antique of that city and locally famous for his loquacious longevity, being 171 years of age, had been married last week to a 33-year old Kansas show woman. The bride having had considerable experience in show work as a contortionist, and the alleged groom being a versatile ventriloquist and hypnotist, it is said decided to put on a show first response being very gratifying, the second, mediocre, and at the third no one came at all.

THE JOURNAL'S Weekly Scrapbook

Week's Best Recipe

Fresh Spice Cake— $\frac{1}{2}$ cup fat; 1 cup dark brown sugar, 1 egg, 1 cup sour milk, 2 teaspoon cinnamon, $\frac{1}{4}$ teaspoon salt, $\frac{1}{4}$ teaspoon nutmeg, $\frac{1}{4}$ teaspoon salt, 2 cups flour, 1 teaspoon vanilla, Cream fat and sugar. Add rest of ingredients. Beat two minutes. Pour into shallow pan fitted with waxed paper. Bake 25 minutes in moderate oven. Cool and frost.

Household Hints

A pinch of salt added to fruit sherbet will improve its flavor. Parsley may be kept fresh if the stalks are kept in cold water. To make sure berries will retain their bright color, be careful not to overcook them. If they are used in preserves store the jars in a dark place.

Worth Knowing

To remove white marks from furniture, caused by water or heat, wash well with warm water and soap. Wipe dry and sponge with alcohol (rubbing alcohol will do). Rub with furniture polish applied on soft cloth and you will be pleased with the results.

In the Sewing Room

To fasten buttons securely on men's or children's underwear, use dental floss or gossery string. When it is necessary to use a separate wire collar at the neck edge. When tying counterforts it is a good plan to tie them first in checkcloth, then put on the top cover. The cover may then be removed for washing with little trouble.

The Family Doctor

For ivy poisoning, wash affected

The WEEKLY CONSTITUTIONAL

by MAX BERNS

The Judicial Power

What is meant by the Judicial power?

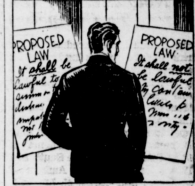

This is the power which our Constitution vests in the Supreme Court and other Federal courts to construe or interpret laws.

The Supreme Court, like a jury, merely passes upon cases submitted to it. And the judges, like jurors, are supposed to be impartial. Before being accepted for service, every prospective juror is asked whether he has any prejudice for or against the plaintiff or defendant and whether he will construe the law as written whether he likes it or not. He is not there to write, rewrite or repeal statutes or condemn or praise them but merely to decide controversies submitted in accordance with the law.

So also with the Supreme Court. It hears and acts upon no more than the case immediately before it as brought into Court by some litigant. If two laws conflict, a citizen cannot obey both of them simultaneously because in obeying one, he disobeys the other. Or, if enforcement of a statute causes a citizen to sacrifice rights guaranteed him by the

Constitution—by the Supreme Law—he seeks relief by going to Court.

The Court hears the arguments of both sides, and if constitutionality of the statute is challenged, it decides whether the statute conforms to or conflicts with the Supreme Law—with the Constitution.

Congress and Congress alone may write or rewrite laws or repeal them. All the Supreme Court does is to construe these laws and the Supreme Law—the Constitution. Copyright 1937 by Max Berns

parts with boris solution and follow with an application of zinc ointment. Wash off the ointment each day with the boris solution, dry and apply fresh ointment. Instead of the boris solution time water may be used, or vinegar in which a copper cent has been placed. If the poisoning is severe, a physician should be consulted.

The hall was beautifully decorated with cut flowers, which were placed in profusion about the hall by Mrs. Jackie Tate, Mrs. Clarence Goins and Mrs. C. R. Stevens.

Varnish, Paint, Different

What is the difference between paint and varnish? If you get paint on your hands it will be soft and oily—easy to remove with turpentine or gasoline; the varnish will require more scrubbing. Paint is made by grinding pigments (colors) in drying oils. Varnish is made by melting transparent gums and mixing the melted gums with similar drying oils, after these oils have been raised to a high temperature. Paint is opaque and is intended to hide surfaces. Varnish is usually transparent and is intended to reveal surfaces.

"Public Administrator"

A public administrator in some jurisdictions (as California), is an officer, usually one in each county, who administers the estate of a decedent where there is no one else entitled and willing to act. Sometimes also he may act as custodian of an estate pending settlement of a dispute or doubt as to the person entitled to letters.

The traffic in obscene matter through the mails is a million-dollar-a-year business.

Attractive? Yes! Why?

BECAUSE... she has turned man; hours of drudgery into freedom.

BECAUSE... she cooks the modern, clean, fast and economical way... the electric way.

BECAUSE... her electric range is a new Electromaster.

- Mrs. J. W. Edwards and daughter, Mary Lou, after visiting in Muleshoe for several days with her sister, Mrs.

LILLIPUTIAN COWS
On succulent shots of lawn and garden plants you'll find clusters of soft-bodied insects which we disgustfully call plant lice. But they're the ants' "milk cows."
Through those tubelike orifices seen on the rear of the aphids' abdomens there exudes a honeylike liquid of which the ants are fond; so they, in a way, care for the aphids, herd them, control them, and prize them.

If you will observe these insects with patience perhaps you'll get to see an ant "milking" one of his strange little "cows."
Kid Skin From France
A fine type of kid skin comes from France. The animal, which is the young of the goat, is carefully reared to avoid blemishes on the skin. It is slaughtered when a few weeks old, while still milk fed. This accounts for the fineness and delicacy of real kid.

BACK TO SCHOOL SPECIALS

We've picked the markets and now have assembled a big stock of **NATIONALLY** known merchandise for your selection at **POPULAR PRICES**. Send your children back to school dressed in clothes and shoes from Moore's that are known for their **DURABILITY, WEARABILITY and STYLE**.

THE MULESHOE STATE BANK

IS OF THE OPINION THAT THE CONSTITUTION AMENDMENTS REPEALING THE DOUBLE LIABILITY OF STOCKHOLDERS IN STATE BANKS SHOULD BE VOTED FAVORABLE. OUR REASONS FOR CALLING THIS TO THE ATTENTION OF OUR CUSTOMERS AND FRIENDS ARE SHOWN BELOW.

FEDERAL DEPOSIT INSURANCE CORPORATION
WASHINGTON
July 2, 1937

Our attention has been called to the proposed amendments to the constitution of Texas to be voted on by the voters in an election to be held Monday, August 22, 1937, which provides for the elimination of double liability on stock of state banks in Texas. The Federal Deposit Insurance Corporation favors the proposed amendments.

It is worth as more than 90 percent of the deposits in insured banks are fully insured against loss by the Federal Deposit Insurance Corporation, repeal of double liability will not affect their interests adversely. Double liability of stockholders in most national banks has been eliminated. Passage of the proposed amendments to the constitution of Texas will not stockholders of state banks in Texas on a par with stockholders of national banks, thus eradicating discrimination.

Very truly yours,
Leo E. Cassidy
Chairman

EXECUTIVE DEPARTMENT
AUSTIN, TEXAS
JULY 9, 1937

No money, August 22, 1937, there will be submitted to the voters of Texas, among other things, an amendment to the constitution of Texas which provides for the elimination of double liability on stock of state banks in Texas.

State double liability of stockholders in almost all national banks has been eliminated. I trust that the policy should also be extended to our state banks. The proposed amendments to the constitution of Texas will not stockholders of state banks in Texas on a par with stockholders of national banks, thus eradicating discrimination.

In my favor of the passage of this amendment and I advise you to the voters of Texas.

Very truly yours,
James O. Beant
Governor of Texas

The Federal Deposit Insurance Corporation insures depositors and banks pay the premium. Therefore, any assessment upon stockholders after they pay deposits insurance premium is unfair.

The major portion of the assessment would only be for the benefit of the Federal Deposit Insurance Corporation, and that Corporation does not want both our insurance premium and double assessment.

In its banking reform, the Congress of the United States, at the suggestion of Hon. J. F. T. O'Connor, Comptroller of the Currency, Washington, D. C., permitted removal of double liability from national banks as of July 1, 1937. The state banks should be placed on the same basis as the national banks.

Thirty-two states have already voted to eliminate the double liability of stockholders in state banks. We are asking the voters of Texas to do the same for state banks in Texas by voting FOR this amendment.

For the amendment of Section 16 to Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stockholders in State banks.

Against the amendment of Section 16 of Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stockholders in State banks.

THE THRILL OF A NEW CAR!

Perhaps at no period of the year does one get more thrill from a new car than during vacation time. To climb the mountains "in high" or to coast down the other side in second or with gentle pressure of four-wheel brakes and the assurance of absolute safety is an unexpressible satisfaction.

No one can fully realize what it means in extra power and plus joy until they get under a new Ford steering wheel and see for themselves what it means to "smooth out" the mountain grades and rough roads in mighty power and perfect performance.

Ford V-8's are fully equipped, models of beauty in performance and innumerable conveniences and any desired extras may be applied at your option.

COME IN TODAY AND LOOK OVER THE BEAUTIFUL FORDS. MAKE YOUR SELECTION BEFORE TAKING YOUR TRIP!

Motor Co.

PROVED BY THE PAST—IMPROVED FOR THE FUTURE

HEADLIGHTS OF ECONOMICS

HAPPENINGS THAT AFFECT THE DINNER PAILS, DIVIDEND CHECKS AND TAX BILLS OF EVERY INDIVIDUAL, NATIONAL AND INTERNATIONAL PROBLEMS INSEPARABLE FROM LOCAL WELFARE.

Not since 1917 has a major nation declared war. Yet in the intervening years there have been a number of far-reaching, sanguinary conflicts. What might be termed Mars' modern technique does not require a formal declaration of war—armies are mobilized, soldiers and civilians are slaughtered, cities are devastated and governments change even while, officially speaking, actual war does not exist.

In Italy's Ethiopian campaign, for example, war was not declared—but the result of the invasion was to eliminate the Ethiopian Monarchy and make the country into an Italian colony governed by the Italian Military. Russia and France have not declared war on the Spanish Insurgents, nor have Germany and Italy broken off relations with the Spanish Government—yet it is no secret that Franco's cause has been kept alive with the aid of German and Italian troops and equipment, while the Government forces would have collapsed long since had it not been for Russian airplanes and armaments and French military experts. Today in the Far East the world is again witnessing a war without a declaration of war that is of the utmost significance not only to the nations involved, but to the Western World as well.

Japan has gone to the limit in recent years to build up her army and navy. For a small country, she has an amazing military machine, far superior to that of the Chinese—though China herself has made progress in unifying and strengthening the country. China's greatest weakness has always been the corruption of her local governments; as Oswald Garrison Villard has written, "The purchasing of Chinese statesmen and generals is Japan's long suit; it

pan's conquest in the interest of her own trade, and so, in all probability, will the United States and France. And lastly, it is a question whether Japan's financial resources are sufficient to stand a long struggle—today more than 50 per cent of her government's budget is earmarked for the army and navy, and she has a soaring national debt.

So here is another grave threat to world peace—the gravest, perhaps that has yet appeared. Whether war is actually declared is only of theoretical importance—to all intents and purposes a major war is now underway in the Far East, and interests directly affecting every nation in the world are involved.—Industrial News Review.

Swimming Time Here Doctor Tells How Life May Be Brought Back

Austin.—"No elaborate equipment is needed to save a life from drowning," is the opinion of Dr. George W. Cox, state health officer. "In fact, actual harm has been done by the misuse of so-called lung motors. Modern resuscitation apparatus has been perfected so that oxygen and carbon dioxide can be used without inflicting more damage to cases of asphyxiation and drowning. It is tragic enough to have a drowning accident, but it is far more tragic if one is present at the time knowing how to save a life by artificial respiration.

"The prompt application of artificial respiration is of primary importance, and for this purpose the prone pressure method is the easiest, simplest and most effective. This should be done at once and continue rhythmically until natural breathing is established—this may take four or more hours. Procedure: First: Kneel, and straddle the patient below the hips, placing hands on small of back with fingers over the lowest ribs. Fingers rest just out of sight.

Second: with arms straight, while counting one, two, swing forward bearing weight on body firmly but not violently.

Third: Swing backward while counting one, straightening up and thus relieving pressure—this allows air to be drawn into the lungs.

Fourth: Rest in this position for two counts.

Fifth: Repeat these movements rhythmically, forward and backward, without interruption, about twelve to fifteen minutes until natural breathing is restored.

Sixth: Meanwhile, if assistance is at hand, a physician should be sent for, the patient's tight clothing should be loosened at neck, chest, waist and he should be kept warm.

The patient should not be moved until he is breathing normally and then should be allowed to get up and placed in a place where he can be kept warm and receive medical attention.

Economy In Reverse Legislative System Call For September

"Economy in reverse" is the description given the method of operation of the legislature in Texas. Appropriations are made first, then the taxes are levied, one newspaper points out as the habit in the last several years. "Strange to say, lawmakers who fix the rules and regulations under which the masses must live, go at the financing problem hind-end-to-front the way the people must work it," the Houston Post declares editorially. "If the private citizen has the magic power to command an increase in his income to offset overpaying, he is mighty lucky; otherwise, if he does not cut down his spending to come within his income, he will soon find himself painfully out of luck."

"But the legislature can accomplish that marvelous ledgerman. If the treasury grab-bag goes empty under the ever-increasing scramble of hands, all they have to do is to wave the fairy wand of a bill to be entitled an act and make some hapless citizens dig down in their jeans for more and still more taxes, and presto the treasury is replenished—until the next legislature comes along."

"So the Texas taxpayers face the uninspiring prospect of a tax session in September to balance a budget upset by appropriations of the last session. And who will be the hapless victims of this next tax raid? Probably natural resources and industry and business first, although there will naturally be a group sponsoring a sales tax. There has ever been a proposal to increase the sales tax on gasoline, already heavily burdened.

"That wouldn't it be a better procedure for the legislature to check on the present income and on prospective income under present levies with better enforcement methods?" asks John Steinhilber, Dallas. "This is a question the governor should consider before he calls the special session in September.

And shouldn't the legislature follow through on enforcement methods and support the collection of ad valorem taxes, particularly on personal property which is notoriously delinquent? One way to force a more equitable tax system is to vote a constitutional restriction on taxes, this to curb appropriations and to enforce collection of these levies.

Every governor and every legislature has been a "tax governor" and "tax legislature" as far as promises to do something about taxes goes. And in all instances the obligation is not met. Signs are that the "balanced budget"

SAMPLE BALLOT

Constitutional Amendments to be voted on by qualified voters of Texas, Monday, August 23

1. For the amendment of Section 16 to Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stock-holders in State banks.

Against the amendment of Section 16 of Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stock-holders in State banks.

2. FOR the Amendment to the State Constitution providing for assistance to destitute children under the age of fourteen (14) years not to exceed Eight Dollars (\$8) per month for one child nor more than Twelve Dollars (\$12) per month for such children of any one family, and providing for acceptance from the Government of the United States of America financial assistance for such payment.

AGAINST the Amendment to the State Constitution providing for assistance to destitute children under the age of fourteen (14) years not to exceed Eight Dollars (\$8) per month for one child nor more than Twelve Dollars (\$12) per month for such children of any one family, and providing for acceptance from the Government of the United States of America financial assistance for such payment.

3. For the Amendment to the Constitution of the State of Texas so as to authorize the Legislature to fix the manner and basis of compensation for all district, county, and precinct officers.

Against the Amendment to the Constitution of the State of Texas so as to authorize the Legislature to fix the manner and basis of compensation for all district, county, and precinct officers.

4. FOR the Amendment to the State Constitution providing that property shall never be assessed for taxes at more than its fair cash market value, and providing that in order to encourage the prompt payment of ad valorem taxes, the Legislature shall have the power to permit a discount for the payment of same before they become delinquent.

AGAINST the Amendment to the State Constitution providing that property shall never be assessed for taxes at more than its fair cash market value, and providing that in order to encourage the prompt payment of ad valorem taxes, the Legislature shall have the power to permit a discount for the payment of same before they become delinquent.

5. For the amendment to the Constitution providing that Harris county and any road district therein may upon a vote of the people therein adopt a road plan and levy taxes for road and bridge construction in lieu of the issuance of bonds.

Against the amendment to the Constitution providing that Harris county and any road district therein may upon a vote of the people therein adopt a road plan and levy taxes for road and bridge construction in lieu of the issuance of bonds.

6. FOR the Amendment to the State Constitution providing for assistance to the needy blind over the age of twenty-one (21) years not to exceed Fifteen Dollars (\$15) per month per person, and providing for acceptance from the Government of the United States of America financial aid for such payment.

AGAINST the Amendment to the State Constitution providing for assistance to the needy blind over the age of twenty-one (21) years not to exceed Fifteen Dollars (\$15) per month per person, and providing for acceptance from the Government of the United States of America financial aid for such payment.

R. Hart Co., Higginbotham-Bartlett Co., Robinson Shoe Shop, Palace Theatre, H. C. Holt, Magnolia Co., Quick Service Station, Phillips Service Station, Ray Griffiths Elevator, S. E. Cone Grain, Ray Moore Dry Goods, St. Clair Variety Store, Famous Dry Goods, Opal's Shoppe, Muleshoe Coffee Shop, Hosa Dora Cafe, Fry & Cox Bros., Sneed Bros., Reeves & Kemp, Muleshoe Motor Co., Valey Motor Co., O. J. Aycock Produce, Muleshoe Journal.

ADVERTISING MUST PAY

Prof. Glenn Frank, former president, Wisconsin university, is now editor of the Rural Progress, Chicago, published agricultural monthly magazine with a 2,000,000 circulation.

This periodical costs \$5.50 for a twelve-page ad contract, \$6.75 for the back cover.

A two-color page in Saturday Evening Post now costs \$9,500, while \$15,000 is received for its back cover.

Business concerns would not pay such high prices unless they got commensurate results. No doubt advertising in publications of lesser circulation have proportionate value!

BUDGET NOTICE

Notice is hereby given that the General Financial Budget for Bailey county for the year January 1, 1938 to December 31, 1938, has been prepared and is on file for inspection of those so desiring in the County Clerk's office. A public hearing on same will be held Thursday, August 26, M. G. MILLER, County Judge.

Income tax collections in the Philippines this year are nearly three times those of 1936.

St. Clair Variety Store MULESHOE, TEXAS

● J. H. Mothermal and daughter Miss Anabelle returned home to Muleshoe the latter part of last week from Mayeville and other points in Kentucky where they visited for several weeks with relatives and old acquaintances.

Rule Is Given For Estimating Yield Of The Cotton Grover's

At this season of the year many cotton growers of this area are beginning to want to know how their crop may turn out, and desire some system of estimating the likely production. The Journal herewith produces a method put out by Soil Conservation Service, Temple, which is commended as being quite accurate. Cotton growers will find it advisable to cut out this formula, pasting it in their scrap books for future reference.

"Step off seven yards in the row where cotton has an average stand. Count the number of bolls on stalks in the seven yards. Multiply this number by 10. This will give the number of bolls in a row of cotton one acre long. For example: 210 bolls by 100 bolls equals 21,000 bolls in a row one acre long. Step off 70 yards across the field and count the actual number of rows in this distance to obtain the number of rows in a square acre. Multiply the number of bolls in a row one acre long by the number of rows in a square acre. This will give the number of bolls on one acre. For example: 21,000 bolls in a row one acre long multiplied by the number of rows on one square acre, say 70, gives 1,470,000 bolls per acre of cotton in that particular field.

"Divide the number of bolls per acre by the number of bolls required to weigh one pound. The result will give the number of pounds of seed cotton per acre, at 100 bolls per pound, 147,000 equals 1,470 pounds cotton seed per acre, at 100 bolls per pound, 147,000 divided by 80 equals 1,837 pounds of seed cotton per acre, at 80 bolls per pound. To obtain pounds of lint per acre, multiply the pounds of seed cotton by the gin turn-out of the particular gin. For example, 36 per cent gin turn-out: 1,470 by 36 per cent equals 529.2 pounds of lint cotton per acre.

"In order to get the estimate as accurate as possible, the bolls should be counted in seven yards' length of row in at least three different places in the field, and then the average of the three counts should be taken."

● L. A. Harless and Wm. Henderson left last Monday for Dallas to bring back to school truck bodies recently purchased through the Valley Motor Co., this city, and to attend to pupil transportation in the Wilson school district.

LOCAL HAPPENINGS

● Rev and Mrs. J. Manley Reynolds returned home to Muleshoe Saturday last week from an extended vacation trip to various points in Colorado and New Mexico.

● Billy Merle Kistler of Pomonca, California, who has been visiting his grandparents, Mr. and Mrs. W. H. Kistler for several weeks, left Monday for his home.

● Mr. and Mrs. A. L. Robb of Electra, while enroute on a vacation trip to the mountains of New Mexico, stopped in Muleshoe a short time Sunday afternoon for a visit with their friend R. L. Brown.

● Mr. and Mrs. Silas Webb of Snyder attended to business in Muleshoe and visited relatives in the southern part of this county the latter part of last week.

● Mr. and Mrs. J. J. Williams returned home last Sunday from a week's vacation in New Mexico, visiting at Silver City, Albuquerque, Santa Fe and Lordsburg.

● Mr. and Mrs. Bill Goforth of Wellington, visited various friends and old acquaintances in Muleshoe Monday morning, going from here to visit relatives in the southern part of Bailey county.

● Miss Jamie Lee Watkins, daughter of Rev. and Mrs. R. S. Watkins left Monday for Hart's Camp school in Lamb county where she will teach this year. She was a graduate from Wesleyan college in Fort Worth the past spring.

● Mrs. H. A. Eckler and daughters, Misses Ruth and Gertrude, after visiting here for a few days with Mr. and Mrs. Ray Eckler and a number of former friends, returned to their home at Hamlet in the latter part of last week.

FOR SALE: The Dallas Semi-Weekly Farm News, regular subscription price for one year \$1.00, and The Muleshoe Journal, regular price \$1.50; both for \$2.00 per year anywhere in Bailey county. Apply at Journal office. 15-17th

● Among those from here who attended the Muleshoe and Sudan baseball game played at the Ambler second annual tournament Sunday afternoon were Glenn and O'Neil Rokey, Judge M. G. Miller, R. L. Brown and Delma McCarty.

● W. G. James of Cleburne, prospecting for a land location in this section, attended the meeting of last week. He seemed to be interested and complimented the agricultural prospects here.

● Rev. Frank Beachamp, who directed the music and had charge of the two weeks revival meeting, which closed Sunday evening at the Methodist church in Muleshoe, left Monday for his home at McAdoo.

● Mr. and Mrs. Eugene Smith and daughter, Miss Leola, of Fort Wayne, Ind., are here looking after their property interests in south Bailey county. While in Muleshoe they were pleasant callers at the Journal office. They are regular subscribers of this paper.

● Mr. and Mrs. J. T. Stell and family of Stamford are here this week visiting his sister, Mrs. Irvin St. Clair and family. Mrs. Stell has fallen in love with this Plains country and would like to buy a farm in Bailey county.

● Mrs. A. C. Gaede, confined in a Lubbock hospital, and last Friday reported in a serious condition, is now said to be somewhat better, though it is thought she may have to undergo a major operation before entirely recovering.

● Mr. and Mrs. Sylvian Robison, daughter Peggy Jewell, and son Rex, accompanied by Miss Lucy Robison left the latter part of last week on a vacation trip of several days to visit Mr. and Mrs. New Robison at Venita, Oklahoma and relatives in Oklahoma City.

● Misses Edna Mae and Mable Mongole of Clarendon and Miss Grace Chaplin of Petrola visited here with various friends and acquaintances the latter part of last week. Miss Edna Mae was a former teacher in the Muleshoe Grammar school and Miss Chaplin was at one time English teacher in the high school here.

● Mr. and Mrs. F. P. Simmons formerly of Muleshoe but now residing at Brownfield, spent the weekend here visiting Mr. and Mrs. Clyde Taylor and family. Dick Taylor accompanied his grandparents home for a few days' visit.

● A marriage license was issued in Muleshoe Thursday of last week by Mrs. Albert Isaacs, deputy county clerk. Miss Florence Pratt of Floydada, and Rev. T. L. Merritt of Lubbock. The couple plan to be married August 21 at Roswell, N. M.

● Mr. and Mrs. W. C. Taylor and Miss Los Stidham left last Sunday for a week's nomadic ruminant amid the mountainous heights of New Mexico. W. C. said he wanted to go where the icicles were hanging from off the roofs of the pines.

● Paul Lawrence, who is employed by a drug company at Phoenix, Arizona, came in Monday evening for a few days' visit to his home here. Paul says the South Plains country is so much cooler than southern Arizona he has several times wished for an overcoat since his return.

● Funeral service was held Friday afternoon of last week for the infant daughter of Mr. and Mrs. J. A. Steinhilck of Lubadzie, who died at a Clovis, N. M. hospital late Thursday. Burial was at Lubadzie and Johnson Brothers, morticians, had charge of the arrangements.

● A marriage license was issued Monday by J. J. Williams, county clerk to Miss Fannie Mack and C. A. Young, negro couple, of near Sudan. They were married the same afternoon by Judge M. G. Miller in his office at the court house, witnesses being Prof. W. C. Cox, Miss Elizabeth Harden and Charley Wiseman.

● Mr. and Mrs. J. E. Adams and daughter, Jimmie Marie, formerly of Muleshoe but now residing at San Angelo, spent the weekend here with old acquaintances, leaving Tuesday for Crosbyton to visit relatives. The Judge is connected with the Old Age Assistance commission at San Angelo.

● Kenneth Jennings, D. L. Smith and Myron Bayless left Thursday of last week for the refrigerating altitudes of New Mexico, leaving Tuesday for Crosbyton in the vicinity of Taos. It is reported they may take up temporary residence among the pueblos of that vicinity where fair Indian maidens are numerous.

● Mr. and Mrs. Louis Rice, Mrs. Nellie Dean, Mrs. Fred Rice and Mrs. W. C. Buey returned home Monday from a vacation trip of several days to Siloam Springs and various other points in Arkansas and Kansas where they visited relatives. They were accompanied home by Miss Holly Ann Buey who had spent part of the summer in Ark.

● Howard Davis, former seventh grade teacher in the Muleshoe Grammar school has resigned his position and Ira Davenport of Poolville, has accepted the position. They were accompanied by Mr. Davenport and his wife will reside at the Rokey apartments. Mr. Davis has accepted a position with an oil well supply company at Electra, and it is reported here that he has recently been married to a young lady at Leonard, Kansas.

● Mr. and Mrs. J. E. McDermett attended the twelfth annual pioneers reunion held at Crosbyton last week, nearly 8,000 people from over this western area being present. It was also the unveiling ceremony of the monument erected to Mr. and Mrs. Hanks Smith, pioneer settlers of Crosby county. This noted early couple were grandparents of Mr. McDermett. R. B. Smith the first white child born in Crosby county, was also an uncle to Mr. McDermett.

● George Shaddid, proprietor of the Famous Department store, this city, returned Friday of last week from a several days business trip to Kansas City where he went to buy Fall merchandise for his store. He reports the markets well filled with a large variety of new creations for the coming seasons, numerous styles a very distinctive nature being in vogue, some exceedingly appealing. Buyers from all over the country were present, ayng in large supplies of merchandise, and all predicting a favorable outlook for the coming seasons business.

Lightning and Snake Dances
Scribe dances of the Navajo and Pueblo tribes were inspired by jagged lightning flashes which the Indians believed were snakes in the rain clouds.

Tyroxin Controls Man's Life
One thousandth of an ounce of thyroxin, a mysterious chemical substance in the body, separates every normal human being from imbecility or death.—Popular Mechanics.

YOU CAN THROW CARDS IN HIS FACE ONCE TOO OFTEN

WHEN you have those awful cramps when your nerve aw all on edge—don't take it out on the man you love. Your husband can't possibly know how you feel for the simple reason that he is a man. A three-quarter wife may be no wife at all if she nags her husband seven days out of every month. For three generations a woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three decades of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age." Don't be a three-quarter wife, use LYDIA E. PINKHAM'S VEGETABLE COMPOUND and go "smiling through."

General News Over Texas And Adjoining States For The Week

The first telephone exchange in Texas was opened at Galveston August 21, 1879.

Annual meeting of the New Mexico State Poultry association will be held at State college, Aug. 26-28.

The Randall County library, Canyon, now has nearly 5,000 volumes of books on its shelves for public use.

Texas oil production taxes this year will amount to around \$16,362,000 of \$8,531,000 more than was collected in 1935, report says.

A total of 490 garments of various kinds were made by workers in the WPA sewing room at Littlefield during July.

Senator G. H. Nelson, this district, while climbing a stairway last week had the misfortune to slip breaking the bridge of his nose as he fell.

Judge R. W. Scarborough 53rd District court, Fort Worth, is reported to have begun his campaign for attorney general of Texas.

First frost of the season was reported at Colorado Springs, Colo., Wednesday night of last week. Garden stuff was damaged.

There are approximately one hundred thousand more men than women in Texas, statistics showing there are 2,952,994 males as compared to 2,858,721 females.

Two tons of food melons were consumed at the annual summer session Tech college meion party Thursday evening of last week at Lubbock, 400 people participating in the juicy "zigger" fruit.

Orville Carpenter, Texas compensation commissioner, says there are still 60,000 employees in this state who have either been inaccurately listed or not listed at all and will receive no security protection.

Pete Traxler, Texas escaped convict who was wounded while being recaptured in Oklahoma, was last Friday returned to this state to complete his penitentiary sentence of 90 years. His wife recently arrested on charges alleging aiding a convict, is now out on bond.

Despite the fact 33,000 babies were born on Texas farms last year, the farm population is decreasing, according to compilation of the Resettlement administration which says there is a decline of 26,000 Texas farmers last year.

Ghent Sanderford, chairman, State Board of Education, says the appropriation of \$22 per capita state funds for schools will stand, notwithstanding adverse action of the Automatic State Tax board which lowered the ad valorem rate. Further information indicates a conflict in laws controlling such appropriations.

Texas payrolls in Texas increased only about one-half per cent in July over June, and 9.3 per cent over July last year. Dunn & Bradstreet Inc. listed 15 business failures in this state during July, a 25 per cent increase over corresponding month of last year. Registration of automobiles were also much lower than last year.

West Camp News

The revival meeting being held at the church here will last through this week. We urge everyone to attend.

Roy Sheriff's brother and family from Oklahoma City are visiting with relatives here this week.

Wilma Smith, who has been visiting with her parents, Mr. and Mrs. E. L. Smith and sister, Naomi, returned to Lubbock, where she is attending a business school.

Jodie Bright's father is visiting in the Bright home.

Harold Adair is visiting with his parents Mr. and Mrs. Tom Adair of Winters.

Mrs. L. C. Gurley is visiting with relatives in Phoenix, Ariz.

Mr. and Mrs. Willie Williams have returned home from Hot Springs, N. M. Their son Don has been taking treatments there. He is improving.

Mrs. Luther Blackley and son Gerald Lee and Billy McCoy spent Thursday and Friday of last week with Mrs. Carrie Harding and Mrs. Zilene Fudge at Portales, N. M.—Reporter.

WEST CAMP 4-H CLUB PICNIC

Tuesday night, August 10, the 4-H club members enjoyed a picnic party at the home of Juanita and Maxine Hight.

There were several games played after which refreshments of sandwiches, iced tea, cake and watermelon were enjoyed by the following:
Juanita Hughes, J. C. Hughes, Leroy Hughes, Maxine Hughes, Kenneth Wayne Hughes, Francis Alexander, Ruth Alexander, Emma Lou Herington, Pauline McIntyre, Myrlice Herington, Ila Lorena Herington, Pat Sander, A. J. Tunnel, Mr. and Mrs. Hughes and Mrs. Jody Bright, 4-H club sponsor.—Reporter.

Spain Large in Area

Spain is the third largest of the countries of Europe in area.

What's Happening In Washington And Other Cities Of Importance

Helium gas has been discovered in the Mojave desert of California.

It is reported Nazis in Germany will top off two inches of their shirt tails as an economy move.

Russian officials executed 72 more of its citizens Wednesday of last week, bringing the known list up to 323.

Citine has contracted with the U. S. for 20,000,000 gallons of aviation gasoline to be delivered as soon as possible.

Jim Farley, U. S. Postmaster-General and New Deal manager, will soon become an executive in the Pierce Arrow Motor Co., according to report.

President Roosevelt last week named Sen. Hugo Black of Alabama to succeed Justice Willis Van Devanter, retired to a place on the bench of the U. S. Supreme court.

Farm population in the U. S., Jan. 1, 1937 was 31,729,000 as compared with 31,889,000 one year earlier and 31,801,000 in 1935. The net loss of 59,000 persons was the first net loss reported since 1929. Dearth areas had the greatest decreases. Pacific coast states had increases due mostly to migration from drought states.

There has been a decline of more than \$20,000,000 in the value of farm exports for 1937 fiscal year over that of last year, says report from Washington.

A mass meeting of self-assembled Arkansas Democrats last week nominated Rep. John E. Miller, that state for U. S. Senate to succeed the late Joe T. Robinson. The Arkansas governor had been previously named as a candidate to that office by the State Democratic committee.

Stars Mostly Very Hot
Most stars have a surface temperature of 3,000 to 35,000 degrees with a maximum of perhaps 50,000 Centigrade.

Verdi a Busy Producer
Giuseppe Verdi produced his first symphony at fifteen, a major opera, "Falstaff," at eighty.

Oil Notes

The Enoch well in South Bailey county, is reported down between 700 and 800 feet. It will be standardized at the 2,000 foot level.

The Ingleight-Duggan No. 1 brought in one-half mile west of the discovery well in Cochran county, and which yielded about 22 barrels per day after it was shut, is now thought will develop into approximately 600 barrels per day. Oil is standing 5.55 feet in the hole.

A "Harness Bull"
"Harness bull" is a slang term for a police officer, especially a uniformed officer.
