## Funeral Services For William S. White Accident Victim, Held At Sudan Methodist Church Last Friday

Funeral service for Wm. S. White, 35, who was the victim of devastating flames in an overturned truck Thursday morning of last week, were held from the Methodist church at Sudan Friday afternoon, with Rev. H. Hamilton, pastor, assisted by Rev. R. N. Huckabee, of Muleshoe, and interment of remains was made in the cemetery of that place, with Wiggins undertaker in charge.

The victim was cremated when the heavy six-wheel trailer-truck he was driving struck highway embankment guard posts and plunged approximately 25 feet over a culvert into a canyon five miles east of Matador—a mass of tangled, burning wreckage. Highway patrolmen and citizens of the area who went to the scene of the tragedy were unable to remove the charred remains of the driver until daylight because of the heat from the still smouldering wreckage.

Observers surmised that White had fallen asleep, allowing the truck to skid against one of the wooden posts, thus losing control. Site of the crash was on a straight-away portion of the highway shortly after a dangerous curve had been negotiated.

Small cans of oil carried on the truck were hurled 100 yards ahead of the scene of the crash. The motorists, who had to scramble down into the canyon-like cranny where the trailer portion of the truck had landed right side up, reconstructed the tragedy as follows:

White had reportedly refused, and reloaded at Wichita Falls about 8 o'clock Wednesday and started his run back to Muleshoe. Shortly after passing the dangerous curve, scene of several serious accidents the past few years, he probably dozed off, allowing the wheels to "kiss" the highway banister guard thus throwing the truck out of control. The heavy vehicle skidded and crashed through above the road, ripping away the steel ribbons which they support, then plunged some 25 feet down an embankment, catching fire.

Douglas Meador, editor of the Matador Tribune, who rushed to the scene of the crash described the scene as one of the worst he has seen in the history of the section. Parts of the victim's skull a ribs were visible and was a portion of a broken tire, the fleshy part being burned completely off those portions of the body.

Soon after the accident occurred, a passing motorist brought word into Matador and the town's chemical fire truck was rushed to the scene.

White was employed by H. C. Coit, Muleshoe distributor for Panhandle Refining Company.

According to Mr. Coit, the contents of the heavy load were kerosene, oil and naphtha, all divided to the compartments of the trailer portion of the truck. One of these either had exploded or opened to allow the liquid to run out, igniting most of the fuel for the rest. Parts of the tires and other portions of the truck were burned up, it was said.

Top of a 30 foot telephone pole at scene of the accident was burning when investigators reached the scene an hour after the crash. But, strangely enough, remainder of the pole was unharmed.

Besides his wife, the victim left three children, two daughters, Virginia and Joan, and a son. His mother, Mrs. W. H. White, of Sudan, all were present at the funeral services.

Others attending from Muleshoe were: Mr. and Mrs. H. C. Holt, and daughter, Miss Helen, Mr. and Mrs. Roger Holt, Mr. and Mrs. Clyde Holt, Mrs. Lester Barth, Mr. and Mrs. Coye White, and the following: S. Beavers, J. D. Border, Wayne Wallace, Mrs. Sina Wallace, Miss Irma Elrod, Mrs. Mills Barfield, Mrs. Claude, Mrs. S. R. Little, Mrs. Little, Mrs. Gladys McWilliams, and Mrs. Harvey.

### YOUNG MEN VOLUNTEER FOR ARMY SERVICE

The following young men in Bailey county have recently volunteered for service for the army, under selective draft, and will probably go on the next two calls, according to Ross Smith, clerk of the selective Service system in Muleshoe.

Marvin Alvis Finney, Robert E. Reeves, Jack Wilkinson, Harold Martin, Clifford Ray, Woodrow Wilson Walker, all of Muleshoe, and Raymond Self, Maple; Stephen Dance Justice, West Camp; and Christopher K. Pierce, Sudan.

## "THEY ALL HAVE TO CLIMB TOGETHER"

## Muleshoe Loses To Olton By A Score 22-23

Football season for the Muleshoe team has drawn to a close with several successful games to their credit. Basketball is now the order of the day, and the opening game for the boys was played in Olton Tuesday night with Olton, resulting in a hard fought game, Muleshoe losing by one point, the score being 23-22.

This was the first game under the new conference recently formed. According to report of those attending, the two teams were well matched and a thrilling and exciting game was witnessed by fans present. An accidental play by Muleshoe netted the opposing team their winning point, causing much hilarity among the players. It was stated the Olton team was allowed a goal throw on a foul by a Muleshoe player, but the Olton forward missed the basket, but in the scramble, a Yellowjacket man placed the ball through the hoop, giving the needed points to the rivals.

The second string also played the second string at Olton, winning by a score of 7-15; being good practice for the boys, but did not count in the conference games.

Friday night of this week, both the boy's and girl's teams go to Lubbock for games.

### RETURNS TO WASHINGTON

Lubbock, Tex., Dec. 4.—Congressman George Mahon, who spent last week in the District returned to Washington Saturday. Members of Congress had been authorized to return to their Districts, subject to the call of the Speaker of the House of Representatives. Mahon left for Washington immediately upon the receipt of a telegram from Speaker Rayburn advising that important legislation would be taken up by the House December 2nd.

Mahon's Lubbock office will remain open as he hopes to visit the District again before the New Congress convenes in January.

Strange, isn't it, what a raft of birds the draft of young men produced.

## Zach Lee Shot In Gambling Argument

Zach Lee, colored was shot and killed shortly after midnight Saturday night, resulting from a quarrel in a gambling spee, according to confession of Sam H. Williams, who stated he fired the shot that killed Lee in self-defense.

The killing took place on the Earl Black farm about two miles north of Bula. Sheriff W. E. Renrow was immediately notified of the killing and followed the accused to his home near Morton, where he had taken refuge in a dug-out. According to report, Williams denied the killing at first, but later confessed and pleaded self-defense, claiming he pulled a gun on him first.

The case was placed before the grand jury in session at the court house Tuesday morning, resulting in no bill. The accused is being held in jail here now, to answer to county court on a charge of illegal possession of fire-arms.

### SALES OF NEW CHEVROLETS

The Valley Motor Company, R. L. Brooks, manager, has recently been showing a big rush in the sales department of new Chevrolets. Following are those being so fortunate as to possess one of these new cars: C. F. Price, 1 1/2 ton truck, W. O. Laurence, special de luxe Chevrolet coupe; E. R. Hart, town sedan; L. L. Gunter, master de luxe; J. A. Littleton, master de luxe coupe; C. M. Baker, special de luxe town sedan; A. L. Hicks, 1/2 ton pickup, T. L. Kent, special de luxe town sedan; K. H. Needham, master de luxe coupe; A. E. Newton, special town sedan; Will Harper, master de luxe town sedan; E. D. Chitwood, special de luxe town sedan.

### CONSERVATION CHECKS

TOTALING \$11,269.26 RECEIVED

The Bailey County AAA office received another consignment of Agricultural Conservation checks last Saturday. There were 52 checks received which amounted to \$11,269.26, according to J. C. Smith, administrative officer Bailey County A. C. A.

## PROCLAIMING COTTON WEEK

WHEREAS, Thousands upon thousands of our people in Texas earn a livelihood from cotton, and the Cotton Industry is engaged in a wellnigh effort to solve the problem of cotton consumption in this country, and

WHEREAS, The life of our community is vitally affected by the welfare of the cotton industry, and

WHEREAS, The Governor of Texas has officially proclaimed the month of December to be "Cotton Christmas Gift Month," in our State, supported by an active campaign on the part of the State-Wide Cotton Committee of Texas; and the National Cotton Council of America for the whole nation, and

WHEREAS Merchants of our city have available for our people many useful and attractive new cotton gifts

THEREFORE, I, R. L. Brown, as Mayor of the City of Muleshoe, do hereby proclaim this Christmas to be a "Cotton Christmas" in this city and urge upon all my fellow-citizens to join so far as possible in the Cotton Christmas Gift idea, so that we may aid in bringing happiness to not only the recipients of the gifts but to millions of fellow-Americans who depend so much upon the purchase of cotton products.

## State AAA Committee Hopes For Big Vote In Marketing Quota Election Next Saturday, December 7th

### LONG TIME SUBSCRIBER

Among the out-of-state renewals for The Journal this week is one from the Jenmas, of Newton, Iowa. They are regular subscribers and have not missed an issue in many years. Their letter in part will be of interest to many people here:

"We had a very nice fall, but some very raw and cold weather before Thanksgiving. The ground is covered with snow now, and predictions are for more. Eight degrees above zero has been the coldest so far. We are sorry to hear of Mr. Mitchell's illness. Here we are wishing for his speedy recovery, and we wish you success with The Journal. The Jenmas."

We join with others in extending holiday greetings to our distant readers, and wish for them a happy Christmas.

### Compliance Checking Of Wheat Program Started Dec. 2

College Station, Dec. 6.—The 1941 wheat program is under way.

With most of the wheat in Texas already seeded, the Agricultural Adjustment Administration's performance checkers this week begin the detailed task of checking compliance with the program.

In a series of meetings which began December 2, officials from the state AAA headquarters in College Station are instructing county employees and committeemen in the proper procedure for measuring wheat acreage planted in the State, C. H. Mosely, state compliance supervisor, has announced.

In District 1, the Panhandle, five meetings will be held, the supervisor said, with county administrative officers performance supervisors, one county committeeman and time clerks from four of five counties attending each. In District 3 two meetings will be held with representatives from nine or ten counties attending each. The meetings will be held December 2 in Pampa, December 3 in Perryton, December 4 in Dalhart, December 5 in Amarillo, December 6, in Childress, December 10 in Graham and December 11 in Benjamin.

After these two districts have been covered, Mosely said, the instruction schools will move on through Districts 2, 4, 6, 7, 8, and 10, comprising the whole section of Texas. The series will be finished in December in time for similar schools to be held in commercial vegetable counties starting in January.

## The U. S. Cotton Crop Will Exceed Last Year's Total

College Station, Dec. 4.—The 1940 United States cotton crop will exceed last year's harvest by one million bales and stand only 700,000 bales below the ten-year average, the Agricultural Marketing Service reports.

From this source prospects for a yield of 12,847,000 bales is reported, exceeding the Department of Agriculture's October 1 report by 1,000,000 bales. Factors responsible for the increase shown in the November 1 forecast include maturing of bolls in the Carolinas due to unusually favorable weather in October. This resulted in an increase of 105,000 bales in the two states over prospective production a month ago.

Favorable weather also boosted yield prospects by 115,000 bales in Missouri, Arkansas and Oklahoma. Large crop outlook in the five states more than offset poorer prospects in Georgia, Alabama and Mississippi, the Agricultural Marketing Service reported.

Ginning is behind the corresponding period of last year over much of the cotton, but the crop's quality on the basis of cotton ginned, is showing somewhat better than at the same time in 1939, the Service reports. A large portion has stapled at medium lengths, and there has been some increase in the proportion stapling at 1 1/16 inches and longer.

Those attending the Chamber of Commerce banquet at Portales, N. M. Tuesday night were Cecil Tate, Ray C. Moore, R. L. Brown, Neil Rockey, H. O. Harbour and W. C. Cox. They report that the Muleshoe delegation was the largest of any of the neighboring towns represented, and that they enjoyed the visit immensely.

The outcome of the cotton marketing quota depends on very cotton farmer in Texas and the rest of the South, states J. C. Smith, local administrator.

For the votes of the hundreds of thousands of cotton producers in nineteen states will determine whether quotas will be in effect in 1941, whether the farmers who cooperate with the Agricultural Adjustment Administration program will be protected from those who refuse to comply, and whether non-cooperators will be penalized for their failure to plant within their acreage allotments.

That's what the Texas AAA committee, meeting in College Station, pointed out to the cotton producers of Texas, all of whom are eligible to vote in the referendum, in a final statement before the voting begins at 9 a. m. Saturday.

"It is not necessary at this late date to point out again that we have on hand a two-year supply of cotton or that the war has deprived us of nearly all of our export market, but every cotton farmer should bear these important facts in mind when he goes to vote," the committee said. "Ample information has been supplied all farmers in regard to these factors. All farmers already are familiar with quotas and know how they operate. Understanding these matters, they will realize who is so important that all who are eligible to vote do so."

The committee reminded farmers that everyone who shared in the proceeds of a cotton crop in 1940 is eligible to vote, regardless of whether he is complying with the AAA program. Two exceptions to this rule were mentioned: (1) those producing cotton 1 1/2 inches or more in staple length, which was not subject to quotas, and who are not producing other cotton, and (2) those, such as husband, wife and children, who participated in the production of cotton under a single or multiple cropping agreement or lease. In the latter case, the person who entered into the agreement or lease is eligible but the others are not.

No absentee voting by mail, proxy or agent will be permitted, but the voter who is outside his own district on referendum day may deposit his ballot in any authorized marketing quota ballot box.

No farmer, whether an individual partnership, corporation, association or other legal entity, shall be entitled to more than one vote, even though he may have been engaged in the production of cotton in 1940 on two or more farms or in two or more communities, counties, or states. In case two or more persons were engaged in producing cotton in 1940 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person is entitled to one vote, the committee declared. No poll tax is necessary.

After the balloting the votes in each community will be reported to the county committee which will then transmit them to the State AAA office where they will be tabulated and reported to Washington. A two-thirds majority of all votes cast favoring quotas is necessary for quotas to be in effect in 1941.

## AAA, Conservation District Meeting Held Monday

A joint AAA and Conservation District information meeting was held in the District court room at Muleshoe Monday evening of this week.

About 150 farm men and women attended this interesting program. Sam Logan and J. C. Smith and representatives from the U. S. Soil Conservation department at Lubbock explained the 1941 cotton program and gave details of the conservation district.

A feature of the evening's program was the showing of eight reels of exceptionally clear moving pictures by O'Neal Rockey, four reels on soil and wild life conservation, and four regarding the Ford factory showing the different types of material and machinery, the tunnel, and many interesting which contribute to the Ford finished product.

**W. S. C. S. Met In A Monthly Session At Church Annex**

The W. S. C. S. of the Methodist church met in their monthly business meeting Tuesday afternoon. An unusually good number were present.

The meeting was opened with silent prayer, after which the president prayed for the welfare of our world.

The secretary, Mrs. Arnold Morris, read the minutes. They were up to date and in excellent form. Mrs. Myrtle Holt, secretary of student work, requested that boxes be sent to the Methodist boys at camp and other boys who needed cheer.

Christmas dainties will be brought to the party Tuesday for packing. For this quarter Mrs. Olen Jennings, secretary of supplies, has chosen Virginia K. Johnson as the recipient of the society's gift, \$5.00. All members are requested to assist the class sponsoring an orphan girl at Waco for Christmas.

The parsonage committee will purchase a new chair for the living room.

The slogan for a few months is: Do you have a pig to feed for local work.

All church members are requested to get a registered pig before all are gone.

Mrs. Horace Holt is planning a most enjoyable Christmas party next Tuesday at 2:30 for all the ladies of the church in the annex. Each person is to bring a gift for exchange.

Mrs. Clyde Holt's treasurers report showed much progress under her efficient supervision.

The circle's leader's work is really telling from the time results in the business meeting.

Mrs. Finley Pierson, assisted by Mrs. Charles Musson, Mrs. Dick Rocky, Mrs. Houston Hart and Miss Norma Elrod presented the most enjoyable program of the year.

There will be no meetings after the Christmas party until January.

Those present were Mesdames Finley Pierson, Dick Rocky, H. E. Musson, Chas. Musson, R. N. Buck-abe, Houston Hart, Myrtle Holt, S. R. Little, Olen Jennings, S. C. Beavers, Arnold Morris, Roy Bayless, Lucille Farrell, Claude Farrell, H. O. Barbour, Clyde Holt, C. D. Gupton and Miss Norma Elrod.

**WHAT IS CAPITALISM?**

The head of one of America's largest banks recently had this to say concerning capitalism: "Business must have capital. What is capital? Savings. Whose savings? The peoples, yours, your friends, your neighbors."

Everyone who saves something from his earnings and puts that money to work, or has it put to work for him, is a capitalist.

"That is the American way, the way in which America has been built. Capitalism is democracy—at work." That's simple, and it's sound. Capitalism is a term too often used to mislead the unlearned and create political discord. The truth is that capital is the collective invested savings of millions of people—the man with a hundred dollars, the woman with five hundred.

That's what the capital in the nation's banks consists of. The average bank deposit is small. But put millions of those accounts together and you get real money—the money that goes to build homes, to start businesses, to expand industries, to make jobs, and to do the thousand and one things necessary to keep American industry expanding and employing labor.

The nation's bankers are simply the custodians of this capital. They don't own it. They are hired managers, responsible to their depositors and controlled by the strictest kind of laws. It's their job to put it to work where it is safe—and where it will be employed in building up the wealth and the resources and the economic and social values of America. The great majority of American families are capitalists. Their future security depends on invested savings in industries, in life insurance, in land, etc. Any political trend which weakens our private enterprise system, strikes at individual savings—capital.

Since 1100 the North Sea has swallowed up nearly 2,000 square miles of land and covered 144 towns and villages, according to figures just compiled by London experts.

**Call Issued For All Bailey Co. Cotton Growers To Vote**

A call for all eligible Bailey County cotton growers to vote in the marketing quota referendum on Saturday, December 7, is made by Roy P. Sheriff, chairman of the County AAA committee.

Reviewing the referendum background, Sheriff points out that there are two important facts for growers to consider: First, that a marketing quota is provided by the Agricultural Adjustment Act of 1938 when cotton supplies are 7 per cent or more normal, and second, that a two-thirds majority of the growers voting in the cotton belt is required to put quotas into effect.

Today's cotton supplies are 37 per cent above normal, he states. The world supply of American cotton is estimated at 25 million bales, as compared to the normal supply—which is made up of normal exports and domestic consumption plus an adequate allowance for re-export—of about 19 million bales.

Sheriff declares that increased world consumption of American cotton is not indicated in the immediate future. Past history shows that war conditions not only cut down the Nation's cotton exports, but also reduce world consumption, he says.

"Each grower has a vital interest in working toward the best price possible for his cotton," Sheriff states. "He needs to consider marketing quotas in terms of surplus cotton supplies and reduced consumption due to the present European war."

"Every farmer who produced cotton in 1940 should go to his community polling place on December 7, and express his opinion on quotas for 1941. A large majority of cotton growers voting will mean that the referendum outcome represents the true opinion of producers as a whole."

Cotton loans, which have helped this year in maintaining cotton farmers' incomes, can be made available to cotton growers in 1941 only if marketing quotas are approved in the referendum on December 7. The agricultural adjustment act of 1938 specifically provides that if quotas are proclaimed and then voted down, loans cannot be made, points out Roy P. Sheriff, chairman of the County AAA committee.

"With the present restricted export outlets, and in spite of an expanding domestic consumption, cotton today probably would be selling for the lowest price in history, were it not for loans which have placed a floor under the price," Sheriff asserts.

He pointed out that if marketing quotas were not approved in the referendum on December 7, the 1940 cotton loan program would have to cease at the time ballot results are announced, and a loan could not again be available until August 1, 1942.

If quotas are approved, and if loans are made available, growers who plant within their acreage allotment are eligible for loans on all cotton they produce in 1941, Sheriff says. Those who overplant their allotments are eligible for loans only on cotton produced in excess of their marketing quotas, and then only at 60 per cent of the loan rate for cooperating producers.

He stated that those who are interested in getting one of the reports on ground water and irrigation for the Plains area, may do so by writing him at 1003 Houston street, Plainview, Texas. Or to call at The Journal office within the next few days, as a few of these reports will be left here for those who might be interested.

**A FREE ENTERPRISE**

That's a literal description of this little book with the red, white and blue cover called "How Can I Help?"

The authors wrote it out of the love of their hearts and the disturbance of their minds. An artist read the manuscript and designed the cover without thought of recompense. The publisher whittled the cost of paper to the minimum and his printers offered to work on a holiday without charge in order to get it out on schedule.

It seems to have met a very definite need and swept the country as soon as it was out. It is being bought by all sorts of groups as well as by individuals. The boy scouts have distributed 5,000 copies of "What Can I Do?" and 5,000 more are ear-marked for them. Schools

have bought it and factories and clubs.

It talks in a language so simple a child can understand it but so intelligently the wisest person finds it food for thought. It tells what you and I and our neighbors down the street and our cousins in other states can do for our country now—this winter without leaving home or making any great change in our way of living. It tells what to do with our mind and our body to stabilize them for any emergency; it discusses the various good organizations in the community and how to stabilize the town still further for the good of America. It analyzes propaganda and fifth-columnism and tells how to meet them. It talks of sound labor relations and how to check unfair abuses of busi-

**SELL FINISHED TURKEYS**

It is impossible to fatten a turkey until it is mature. Therefore to command the highest price, turkeys should not be marketed until they are well finished. This is easily determined before they are killed by examining the under side of the wing to see that it is completely covered with feathers and that no "green" or immature feathers are present in the main tail. Birds showing maturity in this respect will be found to be well covered with meat over the back, and the pelvic bones, located on each side of the vent, will be completely covered with fat. Well-finished turkeys are much superior to immature, poor ones.—The Progressive Farmer.

It suggests how to work with new comers to this country who are still having trouble with our language and it talks of ways to know our South American neighbors much better.

It ends with a two page "Crystallizing of our creed" which high spots the activities that all of us can undertake and which will help us become a part of a "flood tide of national unity." And it is that unity that will mean as much to our national security and to our entire future as the army or navy or even a sky dark with planes.

**What Price Economy?**

There is no question but that "price" is important. But price alone is a poor gauge with which to measure value in either auto service or equipment. Many unwary motorists have found, to their sorrow, that a cheap price does not make a bargain. Used as a bait with which to snare the unwary motorist, many so-called "buys" turn out to be foolish extravagance.

True economy, as we see it, consists of quality (in service and merchandise) sold at a fair and honest price and backed by a guarantee that assures satisfaction. That is the unwavering policy of our organization, a policy that provides true economy for motorist and permanent patronage for us.

**BLUEPRINT FOR AGRICULTURE**

It will be New Year's resolution time almost before we know it. And here's one good resolution for progressive farmers: "I'll get behind the marketing cooperative movement and support it more aggressively than ever."

That's a resolution that shouldn't be broken. For marketing cooperation in all the important agricultural fields has proven itself worthy of any farmer's backing. It has gone through good times and bad, and it has done its job under all conditions. It isn't dominated by politics, and its policies don't switch with changing political winds. It's a real business, working on proved business principles.

Each year has seen an increase in the membership of the marketing cooperatives, and in their influence. The movement is out of the experimental stage. It offers a sound, long-time working blueprint for constant farm progress.

**U.S. Cotton Farmers Experience Better Protection Now**

College Station, Nov. 27.—Cotton farmers of the United States are better prepared through the marketing quota provisions of the AAA program to protect themselves from effects of the European war today than they were during the World War.

Through the adjustment provisions of the program and through marketing quotas, farmers have the means of keeping supplies of cotton in line with demand—something they did not have in 1914. D. L. Cottrun, state AAA committeeman and Lamar county cotton farmer declared.

"As a result of being unable to work cooperatively in adjusting production, farmers learned during the last war what happened when cotton was thrown on an over-supplied market," the committeeman said. "In 1914-15 the war weakened the demand for a large American crop and caused the price to drop from about 12 cents to 6 1/2 cents."

In contrast to that situation, since the European war broke out in 1939, the farm price of cotton, supported by government loans, has increased slightly despite the two-year supply now on hand, he pointed out.

"Cotton marketing quotas and acreage allotments are the farmer's tools for adjusting the supply of cotton to be placed on the market," the cotton continued. "During the World War the laws of economics worked against the cotton farmer. But now farmers can through the AAA program do their own adjusting and place on the market that amount of cotton which can be sold at a reasonable price."

With exports of cotton reduced as a result of the present war and other factors farmers are facing a serious situation. Despite the expected increase in domestic consumption estimated to be from 8,000,000 to 8,500,000 bales this season, less than one-half of the 25,000,000-bale world supply of American cotton

will be used this year, the committeeman said.

World consumption of American cotton since 1932 has been equal to or well above production in every year except 1937. That year when there was no adjustment program in effect a bumper crop of 19,000,000 bales was produced. This large crop brought the surplus back to the 933 levels, nullifying the work of four years of cotton supply adjustment. The 1937 crop has been responsible for the excessive supplies since that time.

Texas farmers will vote, along with the other cotton farmers of the nation, on December 7 to decide whether they want marketing quotas to be in effect on the 1941 crop. A favorable vote of two-thirds is necessary before quotas will be operative.

Messrs. Jones and Holland, alias Hearst and Carter of The Journal force extend thanks to John Scott for the fine cut presented them a week ago. Here's hoping that John never has a bad hunting day if he lives to be a hundred.

## Editorial

Every Great Attempt is Glorious Even If It Fails

### OUR PLEDGE

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

for not only the good of the country, but for their own personal happiness. This country has been faced with peril before, that was what tempered and steeled the forebears to make us an America. Their strength came when they found unity within and this has not changed with the years.

### STRENGTH IN UNITY

### OUR IMPORTANCE

Whoever was elected to the important post of our country's president, those same stars that shine will continue to do so be the administration Democratic or Republican. The brightness of those stars are no brighter for the victorious than for the vanquished. The sun is no warmer unless it shines on a unified people. Being Americans before we are pledged to party, we will now put our strength into helping fight the good fight together.

Whoever wins an election knows that he wasn't the choice of all of the people, only of the majority. May, through wisdom, tolerance and justice, the various sides join in holding the country intact from dissimulation, weakness and destruction.

We stress the importance of the working-together of all Americans

When trying to dial a favorite radio program and the air is crowded with big talk and loud music that drowns out your station and twisting the dials only makes matters worse, then is when you complain that all a fellow needs these days to start a broadcasting station is a coffee pot and a length of wire.

But with all of the listed radio stations in the United States there are only 21 stations located in towns under 10,000 population. There are 3,084 counties in the land and these 2,457 include no town of over 10,000 population.

Subtract the 21 and you can figure on 2,436 counties that have only one way of imparting the local news—the weekly newspaper. When you realize that 58.6 per cent of the total United States families live in small towns or rural areas, you can appreciate why the weekly newspaper feels important in Muleshoe.

## THE POCKETBOOK OF KNOWLEDGE

A RECORD OF PROGRESS—1882, THE AVERAGE AMERICAN WORK WEEK WAS 72 HOURS; IN 1890, 60 HOURS; IN 1929, 49 HOURS; AND TODAY, IT IS LESS THAN 40 HOURS.

### WHY U.S. DEFENSE JOB TAKES TIME—AT LEAST 8 FACTORIES CONTRIBUTE MAJOR PARTS TO A MODERN RAILWAY GUN

Control of the banks and other credit agencies is almost invariably the first step in any plan to socialize a nation.

You don't have to take a layman's word for this. You can go right to the revolutionary experts and get it from them. Lenin, for instance, who was the guiding genius of the Soviet revolution and the most brilliant disciple of Karl Marx the world has yet seen, said this: "One State Bank as huge as possible is 9-10th of the Socialist apparatus through the nationalization of the banks, they—the small business men—may be tied hand and foot."

G. D. H. Cole, who is one of the leading Socialists of England, put it this way: "Before a Labor Government nationalizes any industry, it should first nationalize the banks. With the banks in our hands we can take over other industries at leisure."

To come home to our own country, A. A. Berle, testifying before the TNEC hearing, made this observation: "The government will have to enter into direct financing activities now supposed to be private and a continuance of that direct financing must inevitably be control and own those activities. Over a period of years the Government will gradually come to own most of the productive plants of the United States."

Read those frank statements over again. Every thinking American should commit them to memory. Government-dominated banking and government-dominated credit are the surest roads yet discovered to some form of totalitarianism.

### SURE ROAD

If the Johnson Act is repealed, will we become embroiled in the war? No one can accurately answer that question. The controlled German, Italian and Japanese press continues to criticize this country, but their governments still formally regard us as a friendly power. Germany does not want us to enter the conflict—the American Navy would be a potent force on Britain's side, and might be the decisive factor. So the best guess is that, even if we do go to new limits to aid Britain, the Axis powers will not take any retaliatory action.

Another thing Britain is going to want from us is merchant ships. Her losses due to the German submarine and raider attack are alarmingly high. The present German policy is to sink enough British-owned and controlled shipping to starve the Isles. American shipyards may soon be busy with orders for Britain. British shipyards are working 24 hours a day now, but reports say that production of finished vessels is low.

### HITLER'S FRIENDS

Hitler has formally inducted some more little countries into his Axis. But that doesn't mean a great deal. Rumania, Bulgaria and the other minor Balkan countries are in peril of their lives. They must do what Hitler demands, or submit to military conquest. It is one thing to force foreign ministers to sign pacts and it is another thing to get the people of those countries to avow the Hitlerian philosophy. And, according to all the experts, the Balkan people hate Hitler even as they fear him.

Worst blow to the Axis has been Italy's fiasco in Greece. This has reduced Italian prestige to the vanishing point. And, say some, it has brought with it the possibility of internal dissension in Italy. The Italians didn't want war. They are suffering seriously from the British blockade. And a considerable proportion of the Italians heartily dislike Germany. It is noteworthy that the German press has lately begun to denounce Greece—Hitler may be coming to the conclusion that he will have to pull his friend Mussolini's irons out of the Athenian fire. And, in the past, press attacks in the German press against other European countries have been the prelude to military action.

In the long run, the Greek situation may prove a great boon to England. Reports say that the English are doing far more to help the Greeks than they admit. They have been swiftly developing important air and naval bases on Greek land, where their planes and battleships can strike against Italy. Britain's big trouble at home now is said to be lack of sufficient anti-aircraft equipment. Most of it has been concentrated about London, which explains why Germany has been able to carry on tremendously severe raids over the Midlands and elsewhere with few plane losses. It is believed the lack will be made up by spring.

### THE ZERO HOUR

The very noble bird, the turkey, approached the end of November in fear and trembling. Two Thanksgivings gone and Christmas yet to come! The fatter the fowl the greater the danger.

Back in the old days, the serving of a glistening, savory, brown-skinned bizzard was not such a rare occasion. We consider it sort of a let-day in Muleshoe when the menu contains turkey, for to most tables turkey is a party dish. Our rugged ancestors lacked much in the way of cauliflower, brussel sprouts, pistachio nuts and maple mousse, but they could certainly take their turkey as a matter of course.

As enjoyable as is the sight of the bird reposing in state on the flat of its back with garnishes and accessories spread round about, there comes a time when it loses some of its appeal. A slack season in the turkey appetite when we get it sliced cold, as hash, as turkey gumbo, as turkey croquettes, and trying to fool us in a gravy.

### RUTHLESS GOVERNMENT

Senator Bridges of New Hampshire, recently made the very serious charge that the Tennessee Valley Authority had misrepresented conditions to the National Defense Commission in seeking a large

appropriation for expansion of its facilities.

The TVA, said the Senator, "stated that it required 14,000 kilowatts of new capacity plant by the very process of powder manufacture, requires so much steam that it will supply its own power requirements from its own steam plant."

It is the duty of Congress to investigate that charge. If it is true, corrective steps should be taken. If not true, that fact should be proven in justice to TVA officials

**NOTICE OF ROAD BOND ELECTION**  
THE STATE OF TEXAS  
COUNTY OF BAILEY  
TO THE RESIDENT QUALIFIED ELECTORS OF BAILEY COUNTY, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID COUNTY, AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION.

TAKE NOTICE that an election will be held on the 28th day of December, 1940, in Bailey County, Texas, to determine whether or not bonds shall be issued by said County in the amount of \$400,000.00 for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, and whether or not taxes shall be levied upon taxable property within said County, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity, in obedience to an election order entered by the Commissioners' Court of Bailey County, Texas, on the 25th day of November, 1940, which said order is as follows, to-wit:

**ORDER OF ROAD BOND ELECTION**

STATE OF TEXAS  
COUNTY OF BAILEY  
ON THIS 25th day of November, 1940, the Commissioners' Court of Bailey County, Texas, convened in Special session, at the regular meeting place thereof in the Courthouse at Muleshoe, Texas, the following members of said Court, to-wit:  
M. G. Miller, County Judge.  
J. E. Schuster, Commissioner.  
Precinct No. 1.  
D. Warner, Commissioner, Precinct No. 4.  
John W. Alford, Commissioner, Precinct No. 4.  
Being present and participating: and Johnnie S. Williams, Commissioner, Precinct No. 2, absent; came on to be considered the petition of Jim Cook and 128 other persons, and having as follows to-wit:

**PETITION TO THE COMMISSIONERS' COURT OF BAILEY COUNTY, TEXAS, FOR AN ELECTION TO AUTHORIZE THE ISSUANCE OF COUNTY ROAD BONDS.**

WE, THE UNDERSIGNED, resident qualified property taxpayers, voters of Bailey County, Texas, respectfully pray your Honorable Body to order an election to determine whether or not the bonds of said Bailey County shall be issued in the amount of FOUR HUNDRED THOUSAND DOLLARS (\$400,000.00), bearing interest at a rate not exceeding Three and One-half (3 1/2) per cent per annum, and maturing at such times as may be fixed by the Commissioners' Court, serially, or otherwise, not to exceed twenty (20) years from the date thereof, for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, said bonds to be issued more particularly for the purpose of the construction, maintenance and operation of the following roads, or any parts thereof, in said County, to-wit:

A road running North from Muleshoe to the Farmer County line, a distance of approximately five and one-half miles.

A road running East and West through the town of Bula, across the county to the State line of New Mexico, a distance of approximately twenty-six miles.

A road beginning at a point on State Highway No. 84, extending West to the State line, intersecting with a road designated by the New Mexico Highway Department, a distance of approximately eighteen miles.

A road beginning at the East side of Bailey County, extending West to the State line, through the towns of Circleback, Needmore and Baleyboro, a distance of approximately twenty-six miles.

And whether or not a tax shall be levied on all taxable property within said County to pay principal of and interest on said bonds pursuant to authority conferred by the Constitution and laws of the State of Texas, particularly Section 52 of Article 3 of the Constitution and Chapter 16 of the General Laws, passed by the Thirty-ninth Legislature, at its First Called Session in 1926.

But it is herein expressly stipulated that if the proposition for the issuance of the proposed bonds is approved by the necessary vote of the qualified electors of said County at such election, the bonds will be issued and sold and the tax levied in payment thereof when and where the County receives from the Board of County and District Road Indebtedness definite assurance that the roads hereinabove described will be taken over, acquired or purchased by the State of Texas, and that the principal of and interest on said bonds will be paid out of funds lawfully appropriated by the proper State Agency; provided, however, that notice hereof shall be construed as releasing the Commissioners' Court, or any other county official, from discharging their performing any and all duties devolved upon them by law in respect of the assessment and collection of the tax to be levied in payment of said bonds, in event the State of Texas should at any time in the future withdraw its aid to the County in payment of the principal of and interest on said bonds.

DATED, this 20th day of November, 1940.

WHEREAS, this Court has ascertained and determined that said petition is signed by more than fifty (50) qualified resident property taxpayers of said Bailey County, Texas; and

WHEREAS, this Court has also ascertained and determined that the amount of bonds to be issued will not exceed one-fourth of the assessed valuation of the real property of said Bailey County, Texas.

IT IS, THEREFORE, CONSIDERED AND ORDERED by the said Court that an election be held in said Bailey County, Texas, on the 28th day of December, 1940, which is not less than thirty (30) days from the date of this order, to determine whether or not the bonds of said Bailey County, Texas, shall be issued in the amount of \$400,000.00, in conformity with the Constitution and laws of the State of Texas, for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof; said bonds to be issued more particularly for the purpose of the construction, maintenance and operation of the following roads, or any parts thereof, in said County, to-wit:

A road running North from Muleshoe to the Farmer County line, a distance of approximately five and one-half miles.

A road running East and West

through the town of Bula, across the county to the State line of New Mexico, a distance of approximately twenty-six miles.

A road beginning at a point on State Highway No. 84, extending West to the State line, intersecting with a road designated by the New Mexico Highway Department, a distance of approximately eighteen miles.

A road beginning at the East side of Bailey County, extending West to the State line, through the towns of Circleback, Needmore and Baleyboro, a distance of approximately twenty-six miles; said bonds to bear interest at a rate not exceeding 3 1/2 per cent per annum, and to mature at such times as may be fixed by said Commissioners' Court, serially, or otherwise, not to exceed twenty (20) years from the date thereof; and whether or not an ad valorem tax shall be levied, annually, upon the property of said Bailey County, Texas, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption of said bonds at maturity.

**THE SAID ELECTION SHALL BE HELD UNDER THE PROVISIONS OF THE COUNTY ELECTION ACT, LEGISLATURE, FIRST CALLED SESSION, CHAPTER 10.**

ALL PERSONS who are legally qualified voters of said Bailey County, Texas, who are resident property taxpayers of said County and who have duly rendered their taxes in said County, shall be entitled to vote at said election.

Any person desiring to support the proposition to issue the bonds shall have written or printed upon his ballot the words:

"FOR THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF."

Any person opposed to the proposition shall have written or printed upon their ballot, the words:

"AGAINST THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF."

THE POLLING PLACES and Precincts of said election shall be, respectively, as follows:

**Pres. Roosevelt Says Non-Defense Outlay To Be Reduced**

The new federal budget, President Roosevelt said, will provide sharp cuts in appropriations for all non-military public works. The Chief Executive explained to his press conference last week that by Spring and Summer the defense program will use the very greatest number of people out of work and wanting work.

Because this will cut down the total of the needy unemployed, he said new spending should be concentrated on defense.

Non-military projects will be cut to the bone, he continued, but small amounts will be set aside to finance engineering plans for such projects as are approved. These plans will be put on a shelf to be taken down when employment in defense industries slackens, the President said.

By this method, he declared, a serious depression would be avoided.

For highways, for example, Roosevelt and just enough money will be provided in the new budget (for the fiscal year starting July 1, 1940) to carry out the obligations called for by congressional acts already approved.

New river and harbor work, except those needed for defense, and purchases of public park and forest

lands, will be curtailed, he said. Asked whether WPA projects would be discontinued, the President replied that there would be an increased percentage of defense work by WPA.

# LOCALS

● Gale Holt, Neal Rocky and Con-  
sue Gupion returned Sunday from  
a week's deer hunt in the Big Bend  
section of the state. Mouths had  
been watering all week, with the ex-  
pectation of invitations to a big deer  
dinner on their return. But the only  
statement they would make was,  
"The big ones all got away."

● Dale Plummer, who has been  
convalescing at a hospital at Big  
Spring, has returned to Muleshoe  
and resumed his former position at

the St. Clair Variety, taking up his  
duties there Saturday of last week.  
His friends are very happy over his  
complete recovery from a nervous  
breakdown.

● Clifton Griffiths student of A. &  
M. college, after witnessing the  
football game at Austin between  
Texas and A. & M., arrived here  
Friday and spent the week-end with  
his parents. Mr. and Mrs. Ray  
Griffiths. Mrs. Griffiths accom-  
panied him on his return as far  
as Lubbock, where he took the bus  
to College Station.

● Mr. and Mrs. Edgar Little and  
son of Duncan, Oklahoma, attend-  
ed the funeral of her brother, Wm.  
S. White, at Sudan last week, and

visited his family here, also spent  
Saturday in the home of her half  
brother, H. C. Holt, and family.

● Miss Emogene Caraway, steno-  
grapher for Mayor R. L. Brown,  
spent the week-end in Lubbock vis-  
iting friends. Miss Caraway is  
greatly improved from the injur-  
ies received when a truck in which  
she was riding overturned about two  
weeks ago.

● Mrs. Kate Yarbrough and sister,  
Mrs. W. I. Williams, Muleshoe;

## WEST CAMP 4-H CLUB

The West Camp 4-H club was  
called to order by the president  
Nov. 28. There were songs sung  
and games played. Due to the ab-  
sence of the secretary and report-  
er, the minutes and roll call were  
passed. The business session of the  
meeting consisted in discussion of  
plan for a Christmas party to be  
held at the West Camp school  
Dec. 19. Each girl is to invite her  
mother and bring a present for her.  
Refreshments to be served are  
pop corn and home made candy.

**HALF CENTURY CLUB MET WITH MRS. GLASSCOCK**

One of the most enjoyable meetings of the year for the Half Century members was held at the lovely country home of Mrs. J. S. Glasscock, Thursday of last week, the occasion being in honor of her birthday, which was celebrated in true Thanksgiving style, with turkey and all the trimmings.

The time was spent in games, handwork, music and songs, with a very interesting program given after dinner.

Twelve members and seven visitors attended. There will be an all day meeting at Mrs. Anna Moeller's December 19, with a covered dish luncheon and Christmas tree, program and exchange of gifts. All members are urged to be present.

**GARDNER, GUPTON AND HOLDERMAN TO WACO**

A. J. Gardner, Worshipful Master of Muleshoe Masonic lodge, Connie Gupton, District Deputy, and Bud Holderman left Monday night for Waco to attend Grand Lodge, which convened there Tuesday.

Two of the South's outstanding speakers addressed the Masons on the opening day of the Grand lodge of Texas A. F. and A. M.'s 105th annual convention.

Dr. George W. Truett, pastor of the First Baptist church of Dallas, and Dr. Max Strang, pastor of the Central Congregational church of Dallas, spoke Wednesday. Dr. Truett addressed a banquet of approximately 3,000 Master Masons in Waco Hall at Baylor university. Dr. Strang spoke at the morning program on "Masonry Day by Day."

**HOUSE BURNS**

Fire at 10:00 a. m. Wednesday morning destroyed the home of L. A. Gatewood in the east part of town. The blaze was started from an oil stove explosion. Mrs. Gatewood was burned slightly when she rushed into the house to rescue a three-months old baby. Furniture and clothing were a total loss, and the Red Cross asks that contributions of clothing for four children be turned in to Mrs. Alex Paul. The children are three boys, three months to six years of age, and a girl, ten.

James Reid was in Hill county last week visiting friends.

**Week's Best Recipe**

Cauliflower with mushrooms: 1 cauliflower, 6 mushrooms, 2 1/2 T butter, 2 1/2 T flour, 1 1/4 c hot meat stock, 2 egg yolks, 1 T lemon juice, 1 t salt, pepper, buttered crumbs, 6 hot buttered rusks. Boil small cauliflower until tender. Separate into segments. Place them on buttered rusks. Break mushrooms into small pieces and saute for five minutes in butter, add flour. When well mixed add with meat stock. Stir to boiling point, simmer for 20 minutes. Remove from heat, whip in egg yolks beaten with lemon juice and add seasonings. Simmer 5 more minutes and pour over cauliflower. Sprinkle with crumbs and brown quickly on oven. Yield: 6.

**Woolen-Wise**

Wool is very sensitive to heat, friction and soap. At this season we launder many woolen pieces so be wise by washing them carefully. Use only lukewarm water. Keep your suds mild and foamy, being sure to rinse all the soap from the article. Don't soak woollens, wash them quickly in more than one water if they are awfully soiled. Don't rub them, squeeze gently or slush up and down. Never twist or wring them by hand. Dry in a warm place, not hot or cold. Hang blankets lengthwise and if sweaters, measure them on stretch before laundering and stretch to shape after washed.

**Cards for Children**

Let the kiddies make their own Xmas cards this year. Get your envelopes first and then let the children cut their paper folders for their cards. They can cut out figures from folded paper that make strange joining hands. Divide the figures, paint them and paste on colored papers with a personal greeting painting by the hands of the child. Use last year's greetings cards for pictures which can be cut and pasted on colored sheets. Let them cut out stars and paste them hit and miss, small and large, in all colors too, on heavy paper. Have seals at hand for the child will find a use for them as well as figured tissue.

**Washington Snapshots**

by JAMES PRESTON

The post-election question of the freedom of the press is being brought toward a head much sooner than many people expected.

With the result of the election known for only 48 hours, both the President and one of his chief cabinet followers, Secretary Ickes, opened the discussion.

Since the balloting is out of the way and the President says he will not seek a fourth term, it can be assumed that the issue is not being raised for partisan political purposes. Therefore, it cannot be partisan politics to report some of the discussions that are going on in Washington and elsewhere.

The first gun was fired by Secretary Ickes. He issued a statement asserting that only 23 per cent of the newspapers supported President Roosevelt for re-election this year. He described this as a "perilous situation" and saw a need for a "truly free press." He invited the comment of newspaper editors and publishers.

An early public comment came from Dr. Herbert Agar, editor of the Louisville (Ky.) Courier-Journal, which, incidentally, was one of the outstanding daily newspapers supporting the President's third term bid.

Dr. Agar said the press was subject to criticism on some points, but the fact that it opposes any individual is no indication that it is not free. The trouble, if any, he added, is that newspapers are run by "human beings" and not by the government or any outside pressure groups.

He might have added that the fact that a much smaller number than 23 per cent approves Hitler's doings does not indicate that the press is under the thumb of the British government, or of any other group.

The President raised even more pertinent questions. He quoted one newspaper story which said it was reported in "New Deal circles" that some cabinet changes might be made, and that it was said in "official quarters" that the Secretary of War might resign.

The President did not point out that the same story said those reports were discounted in other informed quarters. He simply insisted that the cabinet change report was not circulating in "New Deal circles" nor in "official quarters."

Significantly, he did NOT deny or confirm that some cabinet changes might be made. He only declared that the reporter involved had attributed his story to erroneous sources.

Next, the President assailed a newspaper story from London which said "high official sources" there reported an agreement in principle on defense cooperation in the Pacific between Great Britain, Australia, and the United States.

Again, the President neither confirmed nor denied that such an agreement had been reached. He simply said he was certain that such reports did not come from "high official sources."

All this preliminary discussion, informed Washington believes, must be leading toward something. The question is: What? Therefore, reporters in looking around have had their attention attracted to a pending bill which already has passed the Senate.

This column reported last week how the Labor Board was nearing the point where it could control small newspapers and retail businesses. So reporters were particularly interested in the so-called La-Follette "oppressive labor practices" bill.

This measure on its face is designed to prevent oppressive labor practices against employees. But its phrasing certainly raises a question as to whether a reporter who obtained, and a newspaper which published, information about the future plans of a labor union to strike or to do anything else might not be guilty of an oppressive labor practice.

That might be the direction of the next move.

**WHAT THE CCC IS DOING**

Fifteen hundred CCC camps, each containing 200 boys, staffed with men trained in administrative and executive duties, provide employment, training, and health surroundings for 300,000 boys the year around. Over 2,750,000 have been members of the Corps since its organization in April of 1933; in Texas alone, over 135,000 have been selected, returning to their families over \$40,000,000.

Each County Welfare Agency has the responsibility to carefully select only the very best available boys; those with anti-social ideas are not desired as members of the CCC. Good citizenship is stressed and boys are returned home with a greater understanding of their responsibilities, trained to work, healthy and ambitious as a result of having been members of the Corps. In our national preparedness one of the first needs is to have strong, healthy and alert citizens, and this is what is being ac-

complished by the CCC. Their outdoor-life tends to toughen and to build them up and become immune to diseases. The educational pro-

grams develop their minds and awaken ambitions toward the better things—the American way of life. Applications for enrollment in

January should be made at once with your County Welfare Worker. Buy it in Muleshoe!

Cotton Ginnings Exceed Figures For 1939 Date

For the first time this season 1940 cotton ginnings exceeded those of 1939 for the corresponding date.

Eleven counties in this area show increases over 1939; Bailey, Briscoe, Cochran, Dawson, Floyd, Gaines, Hockley, Lamb, Motley, Scurry and Terry.

Leading the state is Ellis, with 65,064 bales, compared to 71,274 a year ago; Collin is second with 64,879 bales compared to 58,628; Fort Bend is third with 49,751 bales compared to 52,831.

A higher portion of cotton now being ginned is going into the open market, as rains have reduced grade to below that acceptable to the Commodity Credit corporation.

Total cotton ginnings to date in Muleshoe are: 3,627 bales, with an estimated 1,000 bales yet to be ginned here.

Table with columns for County, 1939, and 1940. Lists counties like Bailey, Briscoe, Castro, Cochran, Crosby, Dawson, Dickens, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Motley, Parmer, Scurry, Terry.

22 Per Cent H. D. Club Women Under 30 Years, Estimate

College Station, Dec. 4.—How old are home demonstration club women? How many children do they have? How long have they been club members? What are their families' annual income?

She found that 22 per cent of the home demonstration club women in Texas are below 30 years of age, 29 per cent are between thirty and thirty-nine, 24 per cent are between forty and forty-nine, 17 per cent are between fifty and fifty-nine, and 8 per cent are over sixty years of age.

Forty-four per cent of the club women answering the questionnaire reported the family's net cash income for 1939 under \$500, while 31 per cent said their families' income was between \$500 and \$1,000.

More than half of the women questioned have been in home demonstration club work from one to five years, while about one-fourth of them have been club members from five to ten years.

Parson Hamilton says it has begun to leave very much on earth for the meek to inherit.

Boy Scouts Being Taught Many Useful Things

The proficiency that Boy Scouts show when they are called upon unexpectedly to do the things they deliver Thanksgiving baskets, direct traffic, hunt for lost children, or serve along the line of march in parades is not accidental.

In the matter of first aid and life saving, for instance, training starts almost as soon as the 12-year-old is enrolled. To advance from Tenderfoot rank he must learn the rudiments of bandaging and treatment.

Because of their tradition of service, Boy Scouts during the World War were able to perform hundreds of useful tasks.

Paralleling the current national defense program, the Boy Scouts are launching their own drive to prepare themselves to help the government.

Members of the Woman's Study Club and Junior Study Club of Littlefield, the 1935 Study Club of Sudan, and the Anton and Amherst Study clubs sponsored a book review, "Foundation Stone," presented by Miss Evelyn Oppenheimer of Dallas, Monday evening at the Methodist church in Littlefield.

Miss Oppenheimer has been declared one of Texas' most distinguished women. Among recent arrivals from beleaguered European nations have been many Boy Scouts. These lads almost invariably want to become associated with American Troops, and arrangements have been made to welcome them.

Miss Oppenheimer In Review "Foundation Stone" At Clubs

Members of the Woman's Study Club and Junior Study Club of Littlefield, the 1935 Study Club of Sudan, and the Anton and Amherst Study clubs sponsored a book review, "Foundation Stone," presented by Miss Evelyn Oppenheimer of Dallas, Monday evening at the Methodist church in Littlefield.

Miss Oppenheimer has been declared one of Texas' most distinguished women. Among recent arrivals from beleaguered European nations have been many Boy Scouts. These lads almost invariably want to become associated with American Troops, and arrangements have been made to welcome them.

Those fortunate to attend this review from Muleshoe were: Mr. and Mrs. Clay Beavers, Mesdames Earl Hicks, E. R. Hart, A. J. Gardner, Julian Lenua, Charles Lenua, A. E. Lewis, Irvin St. Clair, J. W. McDermott, Wessie Wagon, Hank Gowdy, Dudley Lancaster, Rev. and Mrs. R. N. Huckle.

CARD OF THANKS

We wish to extend our heartfelt thanks to all those who so graciously assisted us in any way, also for the beautiful floral offerings and the food brought us, occasioned by the death of our beloved husband and brother, W. S. White.

Muleshoe Study Club Talk Parliamentary Procedure At Meet

Mrs. Dorothy Green entertained the Muleshoe Study club in her lovely new home Thursday evening November 28.

The club was called to order by the president, Mrs. Mickey Lewis, who led the program in repeating the woman's creed, followed by the Lord's prayer.

Parliamentary procedure was discussed in its various phases by Mrs. Blanche Lancaster who spoke on Main Motions. Mrs. Mickey Lewis clarified several points on "How to Amend." Debate on "Speaking to the Motion" was covered by Melba Moore. "To Refer to a Committee" was the topic of Mrs. Jenette Wagon's contribution.

The motion to lay on the table was the subject discussed by Mrs. Elizabeth Gardner.

This program was highly informative and interesting and all parts were well given.

Mrs. Mickey Lewis presided over the short business session following which she gave the highlights of the State Federation of Women's clubs in Austin, which she attended as a delegate from the club.

Delicious refreshments of date nut pie and coffee were served to the members present.
