MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, JULY 3, 1941

NINETEENTH YEAR, No. 24

9 Bailey County Youths Register At Local Draft Office

Twenty-nine new names were added to the list for army service in Bailey County yesterday. This is the number of men registered here, whose address is a Bailey county post office.

There were quite a number registered whose homes are in other counties, and officials said there would be Bailey county boys registered at county seat elsewhere. These names are known within a few days. Names for the number registered in the United States runs have better than 40,000, officials said. Most of the boys were in high spirits as they registered, and some expressed a wish to start training as soon as possible.

Following is the list of boys living in Bailey county who registered here yesterday:

- Joe Bill Alsop.
- Joe Robert Starkey.
- S. L. Rollins, Jr.
- Randell Irvin Scott.
- Claude V. Riley.
- Ovel Preston Billingsley, Maple.
- Virgle Arval Obenhaus.
- J. D. Gray.
- Ted Callaway.
- Elmer Lee Nix, Circleback.
- Cecil Allen McGee.
- M. D. King, Jr.
- Buford Francis Ballard, Goodland.
- Joseph Bruno Young, Jr.
- James Dale Taylor, Goodland.
- Libburn Oliver Arnold, Sudan.
- Star Route.
- James Augustus Robertson.
- T. J. Sullivan.
- Victor Oscar Potts.
- Rimes D. Paris.
- Cecil Raymond Rundell.
- Albert E. Lee Adams, Goodland.
- Martin Lee Edwards, Maple.
- J. R. Moore, Jr.
- Walter Lee Coffman, Baileyboro.
- Lonnie Ray Smith, Baileyboro.
- Elmer Alton Wilterding.
- LOYD B. HENNINGTON.
- J. B. Head.

Farmers Urged To Combat Grass And Weeds

Johnson grass and binder weed, the two worst enemies Bailey county farmers have to fight to keep their land on a paying basis, are about to reach the stage of growth that makes the clorate weed killer most effective. The commissioners court has this killer for sale at cost to all users, County Agent S. T. Logan said today.

This killer, when properly used, is very effective on both these plants and is economical enough to use on small patches that would soon grow to cover entire fields. Anyone who has tried to destroy these parasites by the pick and shovel method will be glad to know that the clorate poison is more effective, much easier, and more economical to use when labor cost is taken into consideration.

The future of our land and civilization should be protected against these enemies. Bailey county is a great seed producing county, but if the spreading of binder weed and Johnson grass is not stopped we will lose our markets, Logan stated.

Whether we want to admit it or not, several fields have already been abandoned because of these two land destroyers. Don't let this happen to you.

Any ordinary garden spray capable of developing 30 more pounds of pressure can be used. The clorate is mixed with water at the rate of one and one-half pounds per gallon. Johnson grass should be sprayed after heading, but before seeds are formed. Binder weed should be sprayed when the plant is in full bloom. More than one application is usually required.

Congratulations To

Mr. and Mrs. John W. Morris of Star route 2, Fairview county, on the birth of a daughter, Friday, June 27, at the Muleshoe clinic.

Mr. and Mrs. Bill Miller on the birth of a daughter, Monday, June 30 at a local clinic.

July 4th Brings Rodeos to Southwest

Scenes such as the one pictured here will be re-enacted in hundreds of rodeo arenas throughout the West Friday as Americans observe the 165th anniversary of independence. When the rodeos and other affairs hold sway in the effete East, rodeos will be the principal attraction in the West on the fourth.

While no special observance of the holiday will be held in Muleshoe, many local residents will attend celebrations in other cities in this section.

Practically all business firms in Muleshoe will be closed throughout the day Friday.

New FFA Teacher To Meet With Youths

Monday evening, July 7, a meeting will be held at the Muleshoe high school auditorium to which all boys 14 years of age or over who will be in school next year and are interested in Future Farmers of America work are invited. Fathers of interested boys also are invited to attend the meeting, which will begin at 8 o'clock.

Sam Logan, Bailey county farm agent, and F. Winford Jones, recently employed agricultural teacher in the Muleshoe schools, will be in charge of the meeting. The nature of farm projects to be carried out will be decided upon and discussed at the meeting.

Mr. Jones was employed by the local school board at a special meeting last week. He graduated from Texas Technological college, Lubbock, in June, and came to Muleshoe July 1 to officially assume his duties as agricultural teacher. He will work with boys of this community and throughout Bailey county during the summer months.

The new agricultural teacher was a football star at Texas Tech, and was a member of the all-victorious Red Raider team of 1938, playing in the Cotton Bowl stadium at Dallas.

For the past several years, it has been the desire of many in Muleshoe and this school district that an agricultural teacher be employed here. Incidentally, Mr. Jones is a single man.

All boys who are interested in F. F. A. work are asked to tell all other boys about the meeting at the high school next Monday night.

Announcement

At the request of the Treasury Department we announce a new feature of interest and service to many readers who are buying or will buy Defense Savings Bonds and Stamps. This will be called the Defense Bond Quiz and will start in next week's issue.

The questions will be chosen from among those asked by most Bond and Stamp buyers. The answers will tell what the new Defense Savings Program means to the individual and to the nation.

The term "southpaw" describing a left handed pitcher, originated in the fact that baseball diamonds are laid out in such a way that the pitcher's left side is toward the south.

One Of Heaviest Rains Of Year Falls Tuesday

One of the heaviest rains of the year hit Muleshoe and immediate territory just before night Tuesday. The government station here recorded 2.47 inches, but to the northeast in the YL section, the rain almost reached cloudburst proportions. Cars on streets and country roads were stranded. Some farmers to the north of Muleshoe reported light rain, and stated that farm operations could be carried on, and even wheat harvest was expected to continue as usual.

Total rainfall for June was 5.77 inches and with Tuesday night's downpour, the total for the year is 25.85 inches. This is nearing a twenty-year record of 28.84 inches.

Weather has been very favorable over the county for the past week, with many farmers reporting an excellent growth on cotton as well as other crops. Many fields have been cleaned of weeds, and considering the unusual amount of rain, conditions are very good. There has been some complaint of shortage of labor, especially in the harvesting of wheat, but work in all lines is moving along better than was at first expected.

Muleshoe Girl Is Wounded By Accidental Shot

Suffering a gunshot wound in the thigh, Miss Marie Lambert, 20, of Muleshoe was taken to Memorial hospital at Clovis, N. M. Sunday. Her condition is not serious, according to the attending physician.

Miss Lambert received the wound when the gun was discharged as she was riding in the front seat of a car. It was thought the gun, which was resting against the seat, was accidentally discharged, causing a flesh wound.

Miss Lambert returned to Muleshoe Monday afternoon and was admitted to the local clinic for treatment of her wound.

Miss Lambert has resided in Muleshoe for several years.

Muleshoe Locker Company Buyers Of Cream, Poultry

Muleshoe Locker Company completed the installation of equipment for their cream station last week, and announce that they are now ready to serve their customers in this line. They are also buyers of poultry and eggs.

The management stated that there is an increased demand for lockers, and that they plan to increase capacity of the plant as soon as the necessity arises.

Customers find that the locker system is the most convenient way to put up food any season of the year, and especially fruits and vegetables. The locker company is well equipped to handle all classes of food.

August 1 is the deadline for transferring school children from one district to another.

Jim Cook, County Judge and School Superintendent.

O'Daniel Rallies To Pass Lyndon Johnson In U. S. Senate Race

Ahead For A While

In the lead until the votes from "way back" started trickling in, Lyndon Johnson, endorsed by the administration, apparently was second man in the race for the U. S. Senate seat vacated by the late Morris Sheppard. In first place is Gov. W. Lee (Pappy) O'Daniel. (Photo-Finish) O'Daniel.

Acreege Planted To Cotton Is Fully Defined

The National Bulletin of the Agricultural Conservation Program has been amended as follows:

"(7) Acreege planted to cotton means the acreage of land seeded to cotton, except that (1) if any acreage is disposed of before reaching the stage of growth which the bolls are first formed, (2) if any acreage is disposed of within ten days after notice of the amount of acreage seeded to cotton is given where such notice is not given ten days prior to the time bolls are first formed, or (3) if substantial all the cotton produced on a particular acreage is determined to be cotton the staple of which is 1 1/2 inches or more in length, then such acreage shall not be considered as planted to cotton. Provided, That if cotton is seeded but no cotton reaches maturity the smallest of (1) the acreage seeded to cotton, (2) 3 acres, or (3) 3 percent of the 1941 farm cotton acreage allotment shall be considered as acreage planted to cotton."

This amendment amends the definition of "acreege planted to cotton" by providing that any acreage disposed of before reaching the stage of growth at which bolls are first formed or within ten days after notice of the amount of acreage seeded to cotton is given, whichever is later, shall not be considered as acreage planted to cotton. Under the original definition, the acreage of cotton disposed of below the acreage allotment would still be classified as acreage planted to cotton. Without this amendment, farms on which the acreage planted to cotton was above the acreage which would qualify for full participation in the Supplementary Cotton Program could not qualify for full participation by disposing of cotton acreage. This amendment gives producers an opportunity to participate in the Supplementary Cotton Program by disposing of cotton acreage. This amendment also provides that if cotton is seeded but is prevented from reaching maturity, the smaller of (1) the acreage seeded to cotton, (2) 3 acres, or (3) 3 percent of the 1941 allotment shall be considered as planted in order to provide equitable treatment for farms on which, without this amendment, the acreage planted to cotton might be determined to zero even though some acreage was actually seeded.

Clovis Rites Held For District Judge

Judge of the New Mexico ninth judicial district, who died following a stroke Sunday, were held at 2:30 o'clock Wednesday at the Charles V. Steed Memorial chapel in Clovis.

The veteran member of the bar, who was 66 years old this month, was a native of New Mexico's outstanding pioneer citizens. He was widely known throughout the East New Mexico and West Texas area.

Judge Patton is survived by his widow, Mrs. Lillian Patton, a son, William Henry Patton of Washington, a daughter, Mrs. Lillian Patton Hobbs of Melrose, N. M., and a brother, William Edward Patton of Bentonville, Ark.

Coming from his native Bentonville, Judge Patton first settled in New Mexico in 1906, settling in Texico. Two years later he moved to Clovis, where he has made his home since.

Following a rising career before the bar, Mr. Patton was attorney general of New Mexico in 1917 and 1919. He was appointed to the ninth judicial bench 12 years ago. He was re-elected since for the district, which is composed of Quay, Curry, Roosevelt and DeBaca counties.

The State Fair of Texas will show more livestock in the 1941 Fair than has ever been shown in the entire South. Featuring this huge show will be a \$30,000 National Hereford Show and the National Aberdeen-Angus Show which is the first national show for this breed to be held in the Southwest.

MINISTER GIVEN POUNDING

Members of the Church of Christ and friends met at the local church Wednesday night of last week and after a period of Bible study gave their new minister and his wife an old-fashioned pounding.

The average depth of the ocean below sea level is 12,450 feet.

Washington Snapshots

by JAMES PRESTON

Washington is beginning to worry, but isn't doing much more about the hundreds and perhaps thousands of small and large plants which may be forced to

NEGLECT MAY INVITE PYORRHEA
An Astringent and Antiseptic that must please the user or Druggists return money if first bottle of "LETO'S" fails to satisfy.
WESTERN DRUG CO.

close down because of shortages in material caused by the defense drain.
Such shutdowns, of course, would leave many jobsless even if the workers could be transferred to defense production. Transitions always lag, and in many cases employees are not trained or equipped to do the kind of work required in a defense plant.
The situation is becoming, and threatens to become, more so. There is a present shortage in the case of many metals because defense production alone takes huge chunks of the metal available.
Scores of factory managers have anticipated such a situation. They have turned to substitutes for materials which are scarce. But the direction in which they can turn is being drastically limited.

A short while ago, many users of lighter metals like aluminum, arranged to use plastics instead. But now, because there is a shortage of fabricators and molders in the plastic industry, plastics are becoming increasingly hard to get.
Many of the larger factories have research staffs and well-trained industrial engineers, and other experts who can help in finding the way out of their "materials" difficulties. But the smaller plants have no such facilities, and they are unable to get the necessary help and suggestions from Washington.
Even the bigger factories have trouble. There is the case of the man from a Midwestern city who himself worked in a Washington defense agency where he became completely familiar with what is needed for defense and how it is bought.
After serving more than six months, he went back to his own business. He realized the product his company manufactured was not essential during the present emergency, so for the sake of his company and his employees he should produce something that was.

There are numerous cases very similar to that. And nobody in Washington apparently is making any plans about how to help them. In fact one official publicly said that as much as one-third of industry may be faced with the necessity of closing down before midsummer.
At the same time, government agencies aren't moving very effectively to end strikes which hamper plants that are in defense production. The action of the National Defense Mediation Board in the Bethlehem case won't help either.
In that case, the NDMB recommended that Bethlehem accept a "closed shop" contract — which means that every man who wants to work in that yard building ships to defend his country must belong to a union and pay union dues.
Strong friends of labor in government hope other unions won't take this case as a pattern. They fear, however, that they will. Some of the strongest pro-labor officials go so far as to describe the Bethlehem decision as a "boner."
The volume of big strikes, like North American, has dropped, but strikes still going on are proving almost as destructive to defense. The War Department says, for example, that a strike of 200 iron workers is delaying construction of a new airplane factory; that a strike of 250 more workers is delaying castings for gun carriages; that a strike of another 200 is preventing construction of a plant to make much-needed high octane gasoline for airplanes.

July 10th to 15th Is

BEAN PLANTING TIME

Plant soy beans on your diverted acres and wheat stubble. Soy beans are being used extensively as a substitute for cottonseed and might prove a very profitable crop.

We have a good supply of soy beans, Pinto and other varieties of bean seed.

NEW OIL BEATS

five other big-name brands in

TORTURE-TEST

Endures Sizzling Death Valley heat for
13,398 MILES ON ONE 5-QUART FILL

How this Certified Record can spell new Oil-Savings—new Engine Safety—for You

You get the oil that outlasted 5 other highly reputed brands by 74% to 161% in Certified Competition, when you change to this proved-in-advance new oil named

CONOCO Nth MOTOR OIL
—Popular-Priced

Your own engine can be fortified by new Conoco Nth motor oil right today, at Your Mileage Merchant's Conoco station. But before going on sale this new oil proved that a regular 5-quart fill could establish startling extremes of endurance, protection and miser-economy.

Fantastic Death Valley brings Your Evidence

Death Valley seems to shimmy—like heat at your furnace door. And down on this desert impartial observers watched 6 identical stock cars run at 57-mile speed, torture-testing 6 quality oils including new Conoco Nth oil. No let-up, day on day, till each oil gave out and junked its engine.

Even the best competitive oil in the test was outlasted 5,683 miles by Conoco Nth oil. And one "rival" was

outlasted all of 8,268 miles by new Conoco Nth oil. Certified.

All this New Economy how?

America has long known Conoco best for making it possible to give any engine OIL-PLATING... lubricant that can't all quickly drain down, but must stay PLATED UP—alert against wear in advance—not waiting till oil-flow starts. OIL-PLATING comes from a rare synthetic... man-made under the Conoco Germ Processed oil patent. And Conoco Nth motor oil still brings OIL-PLATING—but not only that!...

In addition this new oil brings Conoco's latest synthetic—Thialkene inhibitor. It inhibits—controls—the effect of foul "leftovers" produced by every engine's normal firing. Otherwise uncontrolled oil spoilage could easily start. In oils that let this spoilage start, it spreads like a rumor—gets worse, faster and faster. But now that's nipped in the bud by Thialkene inhibitor, in new Conoco Nth oil... U. S. Patent 2,218,132. This oil stays more like its own good self. Then your engine will, and that saves oil... as demonstrated by the long life of Conoco Nth in pitiless Death Valley.

You'll never give your own engine such a "trial by torture." You wouldn't pass up your regular time for draining. Authorities say, "Don't!" But you can

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

A. H. Jellin
Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

know that Conoco Nth outlasted other big-name oils by as much as 161%... Certified. So you can see your chance of big Summer savings in changing now to new Conoco Nth at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

Next Call For CCC Enrollees Is Set For July

July call for CCC enrollees! Miss Frances Allen, supervisor of the State Department of Public Welfare, Area 23, Lubbock, announces that information has been received that the tentative date for the next enrollment in the Civilian Conservation Corps will be on July 17, 1941, at which time all white boys, including Latin-Americans, between the ages of 17 and 23½ years of age may have the opportunity of enrolling. Any unmarried, white, American boy within these age limits with good health and moral character who is not enrolled in school is offered this opportunity, regardless of the financial status of his family. Miss Allen quotes James J. McEntee, Director of the Civilian Conservation Corps, as an example of what is being done at the camps in Texas. Mr. McEntee announced that a recent survey disclosed that on June 1, 8,800 young men and war veterans enrolled in Texas CCC camps were receiving training related directly or indirectly to national defense.

He states that all junior enrollees receive job training and basic CCC training which is of the greatest value to them, whether they are called to duty under the Selective Service Law or obtain jobs in national defense industries. The job training includes truck driving, tractor operation, surveying, drafting, etc.

Miss Allen urged that all those interested should make application at the earliest date possible. The local selecting agency, headed by Miss Lorry Covington, county welfare worker, is located at the court house in Muleshoe. The agency is open on Mondays, Wednesdays and Fridays from 8:00 a. m. to 5 p. m. Miss Allen suggested that Miss Covington will be glad to discuss CCC with any interested parents or relatives.

Ground Wheat Is Good Feed For Dairy Cows

COLLEGE STATION, July 1 — Farmers should get a larger return by feeding to livestock wheat which will not qualify for government loan than selling it on the market.
According to E. R. Eudaly, dairyman for the A. M. College Extension Service, ground wheat is equal to corn, pound for pound, for feeding dairy cows and is a satisfactory feed even over a long period of time provided it is fed in a suitable concentrate mixture and in a properly balanced ration.

Wheat should not be ground too finely on account of its tendency to cake. It is best to mix it with a bulky concentrate feed, such as ground ear corn or ground maize heads. Ground wheat can be balanced with cottonseed meal, Eudaly says, and then mixed with some cottonseed hulls or ground bundle feed to make a bulk feed. Since wheat and cottonseed meal are both high in phosphorus and low in calcium, two pounds of oyster shell or limestone flour should be included in each 100 pounds of this mixture.

If the low grade wheat is fed properly it should bring as much a bushel as number one wheat on the market will.

Present indications are that oats may be out of line in price as compared to corn, at least for a while. When corn is worth 50 cents a bushel and cottonseed meal 1.50 a hundred, oats are worth 28 cents a bushel. When corn is worth 75 cents a bushel and cottonseed meal \$2 a hundred, oats are worth 39 cents a bushel.

It was Eudaly's opinion that it would pay to feed more oats in the ration to dairy cows when that grain sells for less than these comparative prices. Ground oats are very palatable feed, but should be ground to a medium fineness for dairy cows. They need not be ground when fed calves up to six months of age.

Every school child in Texas has been invited to participate in the Educational Exhibits and Contests which are held at the State Fair of Texas each year. Listed are a Rhythm Band Contest, Public Speaking Contest, Spelling Contest, Choral Singing Contest, Hobby Show and exhibits of school projects completed during the year.

The growth of the aircraft industry in the United States has been tenfold in the past 30 months, compared with a seven-fold increase in the shipping industry during the entire World War.

The Red Cross operates under a charter granted by Congress in 1905.

Don't Be Fooled About VALVES

They Do Need Service
Some folks have been told that their valves will never need grinding or carbon removal. That's good sales talk, but it is a mistake. Valves burn. Stams get corroded. Seats pound out. Springs get weak. Stems get bent. All of which means poor performance, hard starting, noise and wasted fuel.

Over 100,000,000 valves are replaced in service every year because of neglect. Keep your valves in good shape and you will save expense.

If you will drive into our shop we will be glad to test your compression and you can see for yourself the condition of the valves in your motor. There is no charge for this test, so why not have it done for your own satisfaction?

ORDINANCE NO. 418270091
ORDINANCE FIXING AND LEVYING RENTALS AND CHARGES ON GROSS RECEIPTS TO PAID BY PERSONS, FIRMS OR CORPORATIONS EN- GAGED IN THE BUSINESS OF LING AND DISTRIBUTING

said deduction shall constitute the gross receipts upon which such rentals and charges shall be paid.
SECTION 3. The quarterly payments provided for herein shall become due, and shall be collected and paid as follows:

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF MULESHOE, TEXAS:

SECTION 1. Each person, firm or corporation owning, operating or maintaining any electric light plant, transmission lines or electric distribution system, the whole or any part of which plant, line, system or distribution system is located, operated, maintained or used within the corporate limits of the City of Muleshoe, Texas, and used for the distribution and sale in said city

SECTION 4. Such person, firm or corporation shall at the time of making any quarterly payment furnish to said City a statement, certified by a duly authorized officer or agent, showing the quarterly gross receipts as heretofore defined and the amount of deductions as heretofore provided for.

SECTION 2. The "gross receipts" upon which such rentals and charges are based is defined and shall be computed and determined as follows: From the total gross receipts from the sale of each electric current, energy and power within said city limits for any particular quarter of the year involved, there shall be deducted receipts from sales of electric current, energy or power to the federal Government, Federal Government Departments and agencies of said State, the County of Bailey, the City of Muleshoe, Independent School Districts, and any other public governmental authorities and sales to industries upon such utility's published industrial rate and the balance remaining after

SECTION 5. If any section, paragraph, sentence, clause, phrase, word, provision or other portion of this Ordinance, for any reason, is or shall be held invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the remaining portions of this Ordinance; or if it shall be determined upon and after its passage and publication as provided by law.

SECTION 6. This Ordinance shall be in full force and effect immediately upon and after its passage and publication as provided by law.

NOTICE OF INTENTION TO ISSUE REFUNDING BONDS
NOTICE IS HEREBY GIVEN, that on the 5th day of August, A. D. 1941, the same being the first Tuesday in August, 1941, the City Commission of the City of Muleshoe, Texas, will pass an ordinance authorizing the issuance of

the Refunding Bonds of said City, in the maximum amount of \$17,264.95 for the purpose of refunding and in lieu of a like amount of the indebtedness of said City, consisting of valid and legally issued time warrants, of said City, issued for the purpose of purchasing and installing water and sewer extensions in said City, and described as follows:

CITY OF MULESHOE, TEXAS, WATER AND SEWER EXTENSION WARRANTS, SERIES 1941, dated May 20th, 1941, bearing interest at 5 percent per annum, interest payable April 10, 1942 and semi-annually thereafter on October 10 and April 10 of each year, being warrants numbers 1 to 19, inclusive, warrant Number 1 being in the denomination of \$890.54, Warrant Number 2 being in the denomination of \$331.66, Warrant Number 3 being in the denomination of \$400.00, Warrant Number 4 being in the denomination of \$852.75 on April 10, 1944, and \$1,000.00 on April 10, in each of the years 1945 to 1959, inclusive, aggregating the sum of \$11,254.95.

Said refunding bonds shall bear a maximum interest rate of not more than four and one-half percent per annum from date, shall be dated August 5, 1941, shall be issued in the maximum amount of \$17,264.95, and shall mature, \$254.95 on April 10, 1942, \$1,000.00 on April 10 in each of the years 1943 to 1953, inclusive, and \$2,000.00 on April 10 in each of the years 1954 to 1956, inclusive.

This notice is given in accordance with the provisions of Chapter 163, Acts of the Regular Session of the Forty-second Legislature of Texas, enacted in 1931, and pursuant to an ordinance passed by the City Commission of the City of Muleshoe, Texas.

R. L. BROWN, Mayor, City of Muleshoe, Texas. (Published July 3, 10 and 17, 1941)

AUSTIN, July 1 — During the first five months of 1941, Texas state police said Monday, 694 persons were killed in Texas auto accidents.

LEGAL NOTICE
TO THE SHERIFF OR ANY CONSTABLE OF BAILEY COUNTY, TEXAS, GREETING:
YOU ARE HEREBY COMMANDED to summon, by making publication of this citation once each week for four consecutive weeks previous to the return day hereof in some newspaper published in Bailey County, Texas, if there is a newspaper published therein, and if not, then in the next county where a newspaper is published, FRANK M. OTTO and wife, HESSIE OTTO, CLIFFORD C. PATCHIN and wife, JESSIE PATCHIN, HARVEY W. HADDIX and his wife, or wives, the name, or names, of whom are unknown to plaintiff, F. W. JOHNSON and his wife, or wives, the name, or names, of whom are unknown to plaintiff, W. D. JOHNSON and his wife, or wives, the name, or names, of whom are unknown to plaintiff, L. O. SMALLIDGE and his wife, or wives, the name, or names, of whom are unknown to plaintiff, the unknown heirs, devisees and legal representatives of each and all of the aforesaid defendants, and the unknown heirs, devisees and legal representatives of each and all of said defendants, to be and appear before the District Court of Farmer County, Texas, for the 69th Judicial District of Texas, at the next regular term thereof, to be begun and holden at the courthouse in Farwell, Farmer County, Texas, on the second Monday in July, A. D. 1941, the same being the 14th day of July, A. D. 1941, then and there to answer the original petition of E. K. Warren & Son, filed in said Court on the 6th day of June, A. D. 1941, in certain suit pending in said Court, styled E. K. Warren & Son vs. Frank M. Otto, Et Al, No. 1221 on the docket of said Court wherein E. K. Warren & Son, a Michigan corporation with a permit to do business in the State of Texas, is plaintiff, and Frank M. Otto and wife, HESSIE OTTO, Clifford C. Patchin and wife, Jessie Patchin, Harvey W. Haddix and his wife, or wives, W. D. Johnson and his wife, or wives, L. O. Smallidge and his wife, or wives, the unknown heirs, devisees and legal representatives of each and all of the aforesaid defendants, and the unknown heirs, devisees, and legal representatives of each and all of the aforesaid defendants, are defendants, the nature of plaintiff's cause of action being as follows:

Plaintiff sues in trespass to try title, alleging that on or about January 1, 1941, it was lawfully seized and possessed of the following described real estate situated in Block X of W. D. Johnson and Bailey, State of Texas, to-wit:

The North 132 acres of Section No. 88 in Capitol League No. 10, Block X, of W. D. Johnson and F. W. Johnson's Sub-division No. 2, in Farmer and Bailey Counties, Texas, holding and claiming in fee simple said property; that on said date the defendants unlawfully entered upon and ejected plaintiff from said premises and unlawfully withheld from it possession thereof to plaintiff's damage in the sum of \$264.00; that the reasonable annual rental value of said premises is the sum of \$264.00; that plaintiff holds title to said premises by virtue of regular and unbroken chain of conveyances from the sovereignty of the soil.

Without waiving the foregoing plea, plaintiff also pleads that it has title to said premises by virtue of the three year statute of limitation; also by the virtue of the five year statute of limitation, and also by virtue of the ten year statute of limitation.

Plaintiff prays for judgment against each and all of the defendants for the title and possession of the above described premises, for its rents, damages and costs of suit for writ of possession, and for such further relief, general and special, in law and in equity, as it may show itself entitled to receive.

HEREIN FAIL NOT, but have you before said Court on said first day of the next term thereof, with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND AND THE SEAL OF SAID COURT, at office in Farwell, Texas, this 6th day of June, A. D. 1941, which is the date of issuance of this writ.

(SEAL) D. K. ROBERTS, Clerk, District Court, 69th Judicial District, Farmer County, Texas.

By Deavla White, Deputy.

Loans For Last Half '40 Reported By Texas Banks

Twenty-five percent of the banks in Texas made more than \$7,000,000 loans totaling \$609,000,000 to business firms and individuals throughout the state during the second half of 1940, according to the semi-annual survey of bank lending activity made by the Research Council of the American Bankers Association.

The A. B. A. loan survey was participated in by 203 Texas banks, or 25 percent of the 832 banks in the state. These 207 banks reported that they made between July 1 and December 31, 1940: 288,777 new loans totaling \$298,382,707. 167,092 renewals of loans totaling \$315,012,133. 2,084 new mortgage loans totaling \$5,689,865.

The survey showed that business firms in the state used less than half of the "confirmed open lines of credit" maintained for their use on the books of banks. A total of 30 banks in the larger centers of the state reported that they carried on their books \$77,540,450 in "open lines of credit" offered to and kept available for regular borrowers for use as needed by them. Of this amount, \$34,883,420 or 45 percent was used.

The average number of new loans made per bank during the six months period under review was 1,875 and the average size of loan was \$743.

The average number of loans renewed per bank was 807 and the average renewal was for \$1,885.

The average number of new mortgage loans made per bank was 10 and the average new mortgage made was for \$2,730.

Birthday Party Honors John Charles Gilbreath

Thursday afternoon, June 26, John Charles Gilbreath celebrated his fourth birthday anniversary when a group of his little friends gathered at the home of his parents, Mr. and Mrs. Rufus Gilbreath.

The children spent an enjoyable afternoon playing games, after which refreshments were served by the honoree's mother.

John Charles was recipient of a number of gifts. Those presented were: Jayne Key, Frances Kay Holt, Kay Frances Plummer, Ann Woodley, Junior Whittington, Jerry Bob White, Gaylord Tate, Scottie Lancaster, Jack Jones, Lewis Earl Hicks, Jimmy Hicks, Joy Lynn Harding, David Taylor, Joe Mack Wagon and the honoree, John Charles Gilbreath.

Local Happenings

Mr. and Mrs. Bill West of Houston and Jesse James of Dallas were here for a short visit with Mr. and Mrs. O. D. Ray last week. They were enroute to Santa Fe, N. M.

Mr. and Mrs. Tom Stell of Llan were here last Friday and Saturday visiting with Mr. and Mrs. Irvin St. Clair and M. F. Collins.

Mr. and Mrs. Bill Collins and daughters, Mr. and Mrs. M. F. D. where he was associated with Dr. D. D. Lancaster at the local clinic.

Collins and Bessie Collins were in Friona Sunday visiting in the home of Mr. and Mrs. Bill Johnson.

Lieutenant and Mrs. Herschel Alsop of Camp Bowie, are here this week visiting Lieut. Alsop's parents, Mr. and Mrs. J. L. Alsop.

Herschel is on brigade staff of the 61st Artillery Brigade.

Freda Kelly of Earth was in Muleshoe last week as the guest of Anna Lucy Bray.

By a new process ice cream is now made in ten seconds.

IF I WERE TWENTY-ONE
June, the month of college and university commencements, when many young men and women set forth to make their own way in the world, has been the occasion for frequent reprinting of "If I Were Twenty-One." This was written by the late Lafayette Young, publisher of the Des Moines (Iowa) Capital and a former United States senator from Iowa, who left his message to be read to his grandchildren on their twenty-first birthdays. It follows:

Every grown man thinks that if he had another chance and his age were twenty-one he would set the world afire in the way of achievement. He thinks he could omit every mistake which he feels he has made and make everything count. It is perfectly right for every man to feel this way but it is perfectly right for him to know that if he were starting over again he would duplicate his former mistakes and make more colossal errors. A man who has succeeded reasonably well might succeed better. Those who have failed would undoubtedly fail again.

If I were twenty-one I would devote more time to sport and less to work. I would work harder than I have ever been able to work. I would not search the world over for a location. I would not aspire to sudden wealth nor worldly standards all on a financial basis. At the age of twenty-one a man never expects to die. He attends funerals as a looker on without deep concern. He is sorry for the person in the coffin but the thought never enters his head that sometime or other people will be standing around his grave.

If I were twenty-one I would start with the firm belief that it is to be an eternal life after death. I would carry this belief with me in all my ambitions and undertakings. I would understand that though a great American has said that opportunity knocks but once that opportunity is knocking all the time in all lives there is any brain power co-operating with physical strength. If I were twenty-one I would form friendships of the right kind, intending that I would be useful to my friends and that I would expect them to be useful to me. Thus I would have a co-operative organization for our mutual welfare.

I should not ask my friends to indorse my note and seldom would I ask any one of them to loan me money. Fortunes that endure are those fortunes which start with one's own strength and will to achieve. I would try to make my fortune grow and I would enjoy a considerable part of it as I went along.

YOUR NAME?

By CHARLES DIDWAY

WILLIAMS

Williams is another of the ten commonest American family names in origin but adopted from the Normans who came from France in 1066 to conquer England. The name is derived from the Norman-French "Guillaume," the French form of William. It was adopted as a personal name by the Saxons and Welshmen more particularly the latter. In its original meaning, William was a popular name for a warrior and meant one of "willing resolution." Williams is shortened from William which meant, of course, "son of William." Other forms of the name are Willis, Wilton, Willis, McWilliams and the diminutives, Willet and Willat.

Famous Williamses in this country have included Roger Williams, English colonist and founder of Rhode Island, and Co. Ephraim Williams, founder of Williams college.

CANTRELL

The family name Cantrell is apparently an English diminutive of Cantler or Caunter, which were surnames given to chief singers in the early day churches in England. The name has other spellings. There is a Cantrell, Illinois, and a Cantrel, Iowa.

Numerous bearers of this name have been sea-faring men. One, Christopher Cassius Cantrell was a navy officer of note. While nothing about the apparent origin of the name hints at a love for the briny deep, it may be that the favorite songs of the family were rollicking sea chanties.

GARTH

When the Scandinavians overran England centuries ago, they left definite traces of their language, and "garth" is one of their words, meaning "yard, garden or enclosure." Many families have retained the name in its original spelling, while for other families the name has been compounded with other words (Hogarth, Booth, etc.). The name "Garthfield" was originally "Garthfield." Sir Samuel Garth (1661-1719) was an English physician and poet.

JORDAN

While most sources connect this family name with the river Jordan, others explain it as a derivative of the ancient Norse and Germanic personal name "Jord." It is also explained as having been adopted as a personal name in honor of John the Baptist. "Jordain," "Jordan," "Jordain," and in Italian it is "Giordano." David Starr Jordan was an American biologist and president of Leland Stanford University.

BUCHANAN

Buchanan is a Scottish local name, coming from Buchan in Aberdeenshire. The name is also from the Gaelic "buca," "boon," "deer" and means "one who lives in a locality abounding with deer." James Buchanan, 15th president of the United States, was of Scottish descent.

ROACH

From the French "Delaroch," (from the rock) comes this family name, which denotes "one who lives on or near a stony hill." "Roche" in French means "rock," and an ancient English spelling in being changed to Roach. Hal Roach of moving picture production fame, was one of the many famous bearers of the name in America.

What's In A Name, Anyhow?

ODESSA, Tex. — "We want to take this course so we can fight those foreigners," stated two men as they enrolled for the civilian pilot training program here. Their names are Plaskowski and Steinhausen.

THE PRESIDENT'S CHOICE

Time has given Mr. Roosevelt what Congress refused to give him when he proposed his Supreme Court enlargement measure — the right to staff the Court with Justices whose social and economic ideas parallel his. He has now appointed seven Justices, a record equaled only by Washington, who of course appointed the entire first Court, but it only numbered five Justices then. Mr. Justice Stone, a Goddard appointee who has been elevated to Chief Justiceship, has voted favorably on most New Deal legislation. Mr. Justice Roberts, a Hoover appointee, has a middle of the road record—he has voted for some New Deal laws, against others.

This Court will exert a great influence on the country for generations to come. Most of the members are young men. A long and important list of new precedents may be expected.

Dusty King and Lew Gordon "ad built up a vast string of ranches" which stretched from Texas to Montana. King was killed by his powerful and unscrupulous competitor, Ben Thorpe. Bill Roper, King's adopted son, undertook to break Thorpe's power. His first step was to start a cattle war in Texas. He made this decision against the opposition of Lew Gordon and the tearful pleading of his sweetheart, Jody Gordon. With the aid of Dry Camp Pierce and other outlaw gunmen, Roper conducted a raid after raid upon Thorpe's herds. Roper, manager of Thorpe's "B" herd, soon killed what was left of them. Gunmen drove off cattle by thousands.

Presently it began to appear that the tough, notoriously trouble-making outfits under Cleve Tanner were not holding together as they always had before. Here and there men were beginning to desert the Tanner outfit; sometimes fired because they had failed, sometimes voluntarily deserting to the ranks of the raiders who were now almost openly punishing the Thorpe-Tanner holdings.

Mid-August, in the season of drier heat— Into the Potosis, by a little used trail, a black-sombered horseman rode. He was a tested gunman, a proven man whose name was known and feared half the length of the Great Trail. Trouble-shooting for Cleve Tanner now, he was moving out to sometimes find out what had gone wrong with some of Tanner's choicest herds. He had come fast, changing horses frequently, riding far into the night.

Loping down the almost invisible trail through the dark, his horse suddenly dropped from under him, heading into nothingness. The pony might have stepped into a prairie dog hole—or it could have been the foot of a rope. But as the dizzy rider struggled up, his mouth full of dirt, a rifle was prodding his belly, and a voice was saying, "Don't you think you might have took the wrong Texas?"

West Texas, far up the lonely Pecos— One of Cleve Tanner's outfit bosses was talking to the Ranger stationed at Mustang Point. "Such damn outback of lawlessness has cut loose here as I never seen before," he said. The ranger here was Val McDonald. He had gone out nineteen times in a battle, sometimes against Mexicans, sometimes against the Comanches, and he had hunted white renegades galore.

"Awfully tough," he said in his own sympathetic way. The foreman of the outfit that was busted up was fit to be tied. "I'm not you, we're being stolen blind," he raved. "Not just a calf here and there, either—they take 'em in swoops and bunches. It's the boldest thing I've ever seen. Even when I was trying to do things clear with any cattle, they're game to stampede a cut herd that it's took weeks to round up, and scatter it from hell to no."

"Does that mean—" "Well! How many times has Cleve Tanner passed out the word, 'The Rangers be damned?'" He put more obstructions in the way of things Val was trying to do than any other one man. Who was it had the legislature cut down our pay until we practically did for nothing, and furnish all our own stuff?"

The question here is whether we're going to have any law, or are we going to have— "From what I heard," McDonald said, "Cleve Tanner has left it to know that he's the biggest end of the law ninty-nine to talk to Cleve Tanner if you want law."

"My understanding is," the foreman argued, "that the Rangers are supposed to—" "I'll move out and straighten up your little old range," McDonald said. "I'll be glad to. Just as soon as I get orders from headquarters. I'm waiting for their right orders now!"

But the weeks rolled by, and headquarters was curiously still. "End of summer, a welcome end—" Cleve Tanner himself, the Cleve Tanner who represented Ben Thorpe in the south, master of breeding grounds, the man who controlled the roots of all Ben Thorpe's plains organization, was talking to the United States Marshal at San Antonio.

There hasn't been such a wave of outlawry since the horse Indians was put down. Damnation, man! It's set us back ten years. . . . You know what your policy has been. Your idea is to let us fight it out for ourselves, against Mexico, against the Indians, against all hell. But I sell you, this thing comes from inside; this thing might be something that I couldn't beat without help."

The United States Marshal at San Antonio smiled to himself a little smile, and he said, "Seems like this must be a terrible bad thing for you, Cleve!" "I'm telling you—" "Go ahead and tell me. You're a Ben Thorpe man, ain't you? A right leading Ben Thorpe man. Well—maybe I'll tell you a couple of things, some day. . . ."

There was law in Texas, even in those days; but there was no such law as could stand against the combined renegades of the long trail, with behind them a lawyer who could delay forever in the courts; and a reckless expenditure of money, the source of which some suspected, but which was not definitely known.

December day. The sky was low and heavy, and the bitter norther had brought a shroud of hard snow a long way to throw it sharply in his face.

He pulled up his horse a few yards from the kitchen gallery, then sat there looking at the house, his sheepskin hunched about his throat. Even now, having come this far, he almost made up his mind to go away.

Then Jody Gordon stepped out on the gallery in a willow-woolen dress and stood estimating the uninvited horseman through the dusk. Something like the strike of a buffalo lance went through Bill Roper; it was so long since he had seen that slim little figure that could so change everything under the sky, for him.

A split pole fence separated them; and after a moment she came across the few yards of space, leaning sideways against the latter wind, and stood gripping a bar of the fence as she peered up into his face.

"I knew it was you," she said. "Child," said Bill Roper, "you set back in that house. You'll freeze!" "Then you put up your horse and come in."

"Is your father here?" "He's in San Antonio." "Then you put up your horse and come in."

"Low Gordon has never turned away any rider without a cup of coffee; not yet." He gave in, then, and stepped down. He tied his horse to the fence, and followed her into the house. The fire in the big wood range made the room a dazing contrast to the cold sweep of the prairie; he threw his coat open, but did not take leave of it as he did on other days. "Of course," Jody said, "we keep hearing about you."

"That's too bad. I expect you wouldn't be hearing anything good."

Silence again. He didn't know why he had come; there wasn't anything he could say. He stood by the stove, his eyes brooding on the iron. Deep in the pockets of his coat there was a trembling in his slack fingers, not caused by cold. It was a strange and uncomfortable thing to be so near this girl again, and yet to be so far away.

"Still," Jody said, "you seem to be getting done what you set out to do."

He pulled up his horse a few yards from the kitchen gallery.

December day. The sky was low and heavy, and the bitter norther had brought a shroud of hard snow a long way to throw it sharply in his face.

He pulled up his horse a few yards from the kitchen gallery, then sat there looking at the house, his sheepskin hunched about his throat. Even now, having come this far, he almost made up his mind to go away.

Then Jody Gordon stepped out on the gallery in a willow-woolen dress and stood estimating the uninvited horseman through the dusk. Something like the strike of a buffalo lance went through Bill Roper; it was so long since he had seen that slim little figure that could so change everything under the sky, for him.

A split pole fence separated them; and after a moment she came across the few yards of space, leaning sideways against the latter wind, and stood gripping a bar of the fence as she peered up into his face.

"Still," Jody said, "you seem to be getting done what you set out to do."

Her voice rose sharply. "Can't you see there's no hope in this ghastly thing? Thorpe's grip is unbreakable." She came close to him, and her words came through her teeth. "It's your very life you're throwing away!"

Perhaps he misunderstood her then; for he grinned. "Maybe," he said, "that would be the least I could lose; the very least of all . . ."

Another display showing the Chemurgic possibilities of Texas will be a feature of the 1941 State Fair of Texas to be held in Dallas, October 4 to 19. The first such display held at a fair was held at the 1939 State Fair and officials are planning to make the 1941 Chemurgic Show larger and more complete than any previously held.

A couple who had lived together in peace and harmony for 40 years attributed their success to an agreement made early in their married life. It was to the effect that whenever one of them started an argument the other was to walk out of the house until the arguer's anger had cooled. The man was the perfect picture of health, it was said, due to the fact that he had spent so much of his life outdoors.

Mrs. Sanders Is Hostess To The Baileyboro Club

Miss Lillis Gentry, Bailey county home demonstration agent, made short bread and refrigerator cookies at Mrs. Frances Sanders' home in a meeting of the Baileyboro Home Demonstration club Tuesday afternoon, June 24.

The mattress making center will be set up at the school house Tuesday, July 1.

Pressure cooker testing will be held July 8 at the school house. This will take the place of a regular club meeting.

Twenty members and visitors were present at last Tuesday's meeting. Refreshments of iced tea, sandwiches, pickles and cookies (made by Miss Gentry) were served.

On July 22, Mrs. Dana Arnold will be hostess to the club. All members are asked to bring at least three of their favorite recipes.

Mrs. Frances Sanders.
Baileyboro H. D. Reporter.

Fairview Items

The Fairview Home Demonstration club met Tuesday, June 24 at the home of Mrs. Arthur Askew. Despite threatening weather, there were eight members present and four visitors. After roll call several minutes were devoted to the settling of some old business, after which there was a general discussion of an all-day picnic outing for club members and families.

It is the wish of the club this summer to plan some outing or entertainment in which most all club members and their families can participate. The previous trips that the club has sponsored to various pleasure resorts in New Mexico have been very successful, both educationally and socially, but it was thought that perhaps more actual club ladies could participate if the trip, picnic, or whatever is decided on, would consume only one day. No definite plans were made, but the matter will be brought up at a later date.

After a very pleasant hour of visiting, the following ladies were served delicious refreshments of pineapple ice cream and cookies: Visitors, Mrs. Boyd and Misses Mary Finley, Viva Askew and Monta Mae Tucker; members, Mesdames Berta Kitchen, W. E. Rector, Bobby Pierce, E. C. Gordon, M. E. Finley, Raldo Meacham, Everett Wallace, and the hostess, Mrs. Askew.

The mattress making under the supervision of Mrs. Beatty is well underway at the Fairview school house. A total of 22 mattresses were made last week and there are still a large number to be made.

Singing was well attended here Sunday night and altogether we had a very fine singing. Because of sickness in the community, bad weather and busy times, there had been no singing here for the past few months. However, we soon found out that the singers had not forgotten how, and very capably demonstrated this by rendering several special numbers in addition to the regular singing. There will be singing here again next first Sunday night and all are invited to attend. Mr. and Mrs. John Morris are the parents of a new baby daughter named Jana Fay, born June 27 at the Muleshoe clinic. Miss Viva Askew is in the Littlefield hospital, having undergone a tonsilectomy Monday, June 30.

Progress News

By Bessie Vinson

There were 62 present at Sunday school last Sunday. A new roll will be started next Sunday, and everyone is urged to be present.

The entire Sunday school will go on a picnic to Clovis, N. M. next Sunday immediately after Sunday school. School buses will be furnished for transportation. Everyone is invited to come and bring a basket lunch.

Mr. and Mrs. M. L. E. Hogan accompanied by "Uncle Shorty" Bartley, left last Sunday morning for a two weeks' visit in Tennessee and Kentucky. Mrs. Hogan will visit her father who is seriously ill.

Mr. and Mrs. Doc Whitte and daughter are staying with her sister, Miss Byrnie Hogan while their parents are in Tennessee. Mr. and Mrs. Cap Needham and son have as their guest, her father of Childers, Texas.

There were 24 votes cast in the senatorial election last Saturday. F. B. Stovall and Cap Needham were judges and Miss Bessie Vinson and Mrs. W. G. Kennedy were clerks.

Miss Crystal Kennedy and Miss Virginia Kennedy returned home last week after visiting in Roswell and Carlsbad, N. M., and the Carlsbad Caverns.

Buy it in Muleshoe.

Doris Jean Bearden Hostess To Progress 4-H Club Girls

The Progress 4-H Club girls met with Miss Doris Jean Bearden Thursday afternoon of last week.

The program for the day was the discussion of club goals. The girls decided to meet at the REA building in Muleshoe last Saturday and sell food and aprons or pot holders donated by the club members. They are trying to raise enough money to send our delegate, Miss Joyce Sheegog, to the 4-H Club Girls short course at College Station. We have seven dollars in the treasury at present. Numerous games were played, and songs sung. Miss Doris Jean Bearden entertained with several sections on her accordion, and Miss Joyce Sheegog sang a popular song.

Iced cocoa and cookies were served to one visitor, Miss Leola Addington, and members, Misses Betty Ann Hill, Emma Ruth Standefer, Joyce Sheegog, Mattie Hogan, Raye Deaton, Jean Hogan, Dorothy Morris, the sponsor, Mrs. Harold Morris, and the hostess, Miss Doris Jean Bearden.

The next meeting will be with Miss Mattie Hogan July 10. Members are urged to attend and all visitors are especially welcome.

Mattie Hogan, Club Reporter

Half Century Club Members Meet With Mrs. Duke

New officers for another year were elected in the Half Century Club at a regular meeting Thursday afternoon, June 26, when members were entertained by Mrs. Mattie Duke in the home of Mrs. "Happy" Wagon. Mrs. W. H. Kistler is the new president and Mrs. Clara Young is the new secretary.

Following the business session, an enjoyable afternoon was spent by guests playing games and visiting. Those present were: Mesdames Millie Lee, C. C. Mardis, Anna F. Moeller, W. H. Kistler, Stella Eason, Mary Snow Davis, Clara Young, J. F. Wallace, Martha Harvey, Hattie Rockyone visitor, Mrs. Reba Russell, who was visiting in Muleshoe with her sister, Mrs. Stella Eason, and the hostess, Mrs. Duke.

Members of the club will not meet this week. On Thursday, July 10, Mrs. Kistler will entertain the club.

Former Resident Given Farewell Gift Shower

Mrs. Lionel Childers, former Muleshoe resident who has recently been living in Clovis, was surprised with a shower when she entertained members of the Ace-Trey Club at La Vista Wednesday with an evening of bridge.

After four progressions of bridge, the prize for high score was awarded to Myrtle Cassidy and Ruth Shanklin won the prize for second high.

At the close of the evening, refreshments were served to the guests seated around one large table which was centered with an arrangement of garden flowers.

Attending were Mrs. Myrtle Cassidy, Berna Johnson, Mrs. C. A. Jopling, Mrs. Courney, Adelia Pool, Mrs. Helen Smith and the hostess.

Mrs. Childers visited in Muleshoe Sunday afternoon with her parents, Mr. and Mrs. H. A. Douglass. She and Mr. Childers left Clovis this week by plane for Galveston.

Mrs. Walter Witte Is Hostess To Needlecraft Club

Thursday afternoon of last week, members of the Needlecraft Club were entertained at the home of Mrs. Walter Witte at the regular meeting.

Guests spent the afternoon engaged in needlework of various kinds, and refreshments were served at the close of the meeting to the following: one visitor, Mrs. H. Barbour, and members, Mesdames Maude Young, Laura Bass, Lema Cook, Jessie Wright, Ruby Troutman, W. E. Renfrow, Myrtle Alsop, and Alesne Dyer.

The club will not hold its regular meeting Thursday of this week, but July 10 members will meet with Mrs. Myrtle Alsop.

Garden Clubs throughout Texas will be invited to participate in the fourth annual flower show to be held at the State Fair of Texas this fall. The flower show will again be held in the permanent Garden Center in the Horticultural building.

De LaVal World's Standard Series

DE LAVAL SEPARATORS

De LaVal Separators have been in choice with dairymen for 63 years because they are unequalled in lity, clean skimming and long life. Today, as always, the world's separator is the De LaVal World's Standard Series.

LOW STANDS

World's Standard and Series Separators... the No. 1 can be with low stands, and by electric.

Low Stands

Simplicity Is a Money Making Factor

Cultivator Facts for Your Benefit

Simplicity of Assembly—Only three slip pins are needed to mount each gang. A 2-row cultivator can be made into a 4-row cultivator by merely adding two outside gangs.

Simplicity of Construction—The individual cultivator gangs are supported through the parallel links by a heavy 2 1/2" square pipe which is attached flexibly to the tractor. Note the wide use of steel construction.

Quick Action—Power lift raises or lowers gangs quickly at row ends. 2 and 4-row power lift cultivator and 2-row hand lift cultivator are available.

Easy Row Spacing Adjustment is accomplished by merely sliding gangs along gang frame pipe as desired.

Ask for complete information on MM "Quick-on-Quick-off" pools at your first opportunity.

LOWER First Cost AND LESS COST PER MILE

For less than you guess, you can buy the first-line Lee DeLuxe... the quality tire which out-last and out-performed other leading first-line makes in the famous 5-mile Florida Road Test.

Imagine getting a tire that showed up to 14.4 per cent longer tread mileage than other first-line brands! And be prepared for a pleasant surprise when you ask the price.

You get real economy, safe economy, especially when it is backed by the two-way Lee guarantee: for life, against failure resulting from defective material or workmanship... and for 12 months, against specific road hazards.

Drive in for new low prices, trade-in offer, and easy-pay plan.

DE LUXE TIRES

LOOKING BACKWARD

FIFTEEN YEARS AGO
(From files of July 2, 1926)
Tuesday was another "red letter day" for Muleshoe after the returns of the waterworks election were announced. The bond issue carried by big majority, 83 for and five against the bonds.

Funeral services for Little Leonard Denton, nine-year-old son of Mr. and Mrs. Edwin Denton, were held at the Methodist church. The child passed away in a Lubbock hospital following an appendicitis operation.

The Muleshoe Order of the Eastern Star was organized Monday night with 18 charter members. Officers for the first year are: Mrs. Mabel Milligan, worthy matron; R. J. Klump, worthy patron; Mrs. Nelle D. Lawrence, associate matron; A. V. McCarty, Jr., secretary; Mrs. Pauline Aldridge, secretary; Mrs. Dora McCarty, conductress; Mrs. Gladys Gupton, associate conductress.

The house on the R. L. Brown farm, eight miles east of town, was practically destroyed by fire Wednesday morning at about 9:30 o'clock. The house was occupied by I. G. Green, colored.

E. R. Hart Lumber Co. started this week tearing down the old sheds and yards at the old location on the highway and construction was started at the Panhandle Yards location on the new shed; for the gigantic stock of lumber and building material.

TEN YEARS AGO
(From files of July 2, 1921)
H. T. Kennedy, Muleshoe baker, was instantly killed Monday night when his car collided with a truck on Highway 60. The accident occurred about four miles west of Parwell. Mr. Kennedy was returning to Muleshoe from a business trip to Clovis.

On two acres of alfalfa, J. O. Crawford, 10 miles northeast of Muleshoe, cut and baled 107 bales of hay, the first cutting May 22. The second cutting, June 23, was considerably heavier than the first.

One of the feature events in Muleshoe social circles of recent date was the surprise miscellaneous bridal shower tendered Mrs. A. E. Lewis at the home of Mrs. Beulah Motheral, with Mesdames E. R. Hart, Julian Lenua and Miss Ellen Abbott as joint hostesses.

Judge and Mrs. J. H. Tate of Giddings, accompanied by their son, Edward, and their niece, Miss Jean Bausher, arrived here Saturday and spent the first of the week visiting their son, Cecil R. Tate and wife.

FIVE YEARS AGO
(From files of July 2, 1926)
Two unmasked men who forced three employees and a customer into the vault of the State Bank at Friona, 23 miles north of Muleshoe, escaped Monday with approximately \$965 in cash. The bandits overlooked \$5,000 in cash in another vault.

Glenn Rockey left the latter part of last week for Cincinnati, Ohio, for an indefinite stay to study music.

Boating, Fishing Fanatics Urged To Play Safe

AUSTIN, Tex., July 1 — The fishing and boating season is well underway. Texas has been fortunate in having a dearth of accidents on lakes and streams, but the executive secretary of the Game, Fish and Oyster Commission is issuing his annual don'ts for fishermen and boaters. Observation of these simple rules by operators of all crafts, whether they be rowboats and canoes or larger boats, will do much in holding down the list of drownings.

Never overload a boat, nor allow occupants of a boat to stand up in it.

Do not use a motor of too large horsepower for the size of the boat. It is also unsafe to use a small horsepower motor on a large boat because in case of a storm the boat will be unmanageable.

Every boat should be equipped with one life preserver for each person in it, fire extinguisher, lights and good oars or paddles.

Every outboard motor should be equipped with a chain or good rope because motors will frequently come loose and be lost at the bottom of the lake or stream.

Never leave a motor unattended while it is running. The motor may give a quick turn and throw you into the water.

And most important of all: leave your bottle at home; water and alcohol do not mix.

A guinea hen will not lay eggs in a nest touched by a human being.

THIS BUSINESS OF Living

BY SUSAN THAYER

Drive out along "the river road" some evening soon or follow the "old turnpike," widened and paved now but the same road your great grandparents knew. The sights and smells — all peaceful, in even rows is growing tall as it has in early summer ever since you can remember. The meadows are almost ready for cutting and Snively's grove is groomed for the 4th of July picnic.

Stop a moment in the soft summer evening. Turn off the motor and listen and look and breathe the country air. Here are comforting familiar sounds and smells — all peaceful. You can almost make yourself believe that nothing unusual is happening to the world and that wars and rumors of wars are some terrible nightmare.

Then a great plane roars overhead breaking in on your reverie. A line of trucks rumbles by and you drive on. You go a little way and see the outlines of a great factory that wasn't there last summer. Still farther on you see the lights of an old plant that is working now 24 hours a day. You are brought face to face with the knowledge that things aren't the same. Something tremendous is happening in America as she builds the armaments necessary to defend our chosen way of life.

Our skill as mechanics... our genius for mass production... our vast resources have made us the world's greatest industrial nation. But until now we have never really "done our stuff." We have never gotten "all out" for any one production job. World events have changed all that and are making us go to work in earnest. Before long we are going to discover what the greatest industrial nation in the world can do when it devotes itself to the building of planes and tanks and guns and ammunition. We're going to learn at long last what our capacity for production really is!

Eventually, after the emergency is over and there is no longer any necessity for producing the implements of war we will be left with the equipment and organization for producing a greater amount of peace-time goods than we have ever dreamed was possible. This frightens many people and the changeover from defense to peace-time productivity will be difficult. But already industrial leaders are getting ready for this time of readjustment and laying plans for manufacturing more of the good things of life and for getting them to more people than ever before.

If we cling to our system of free private enterprise we will be able to adjust in an American way to the post emergency period. Then by using our production facilities expanded by this defense effort, for turning out an even greater quantity of peace-time commodities, our already high standard of living can become even higher and there can be still greater opportunities for every individual in this great free land.

Only One American Breed
Sportsmen general don't seem to know the most of our sporting breed of dogs are "furriners." The Chesapeake Bay retriever is an American breed. Some handlers say the Kentucky Foxhound and some other dogs are also American breeds, but there seems to be some doubt about them.

Jonah of the Fish World
The Lufkin News, an East Texas daily newspaper, says that Jonah, who lived to tell about the whale swallowing him had nothing on this minnow. Three weeks after the minnow flipped out of the stomach of a crappie being dressed at the home of Joseph W. Rodes of San Antonio, the tiny fish is swimming about in a small tank and thriving on malt meal. How long the minnow had been in the crappie's stomach nobody knows. It has been named Jonah.

Quail Lore
A large percentage of quail nests are located within 30 feet from the edge of a field. If there are not too many roaming cats and dogs, the quail seems to prefer nests along roads, paths and occasionally close to dwellings.

Valuable Cows
William Mercer, who lives near Middlebourne, West Virginia, noticed that his cow's noses were greasy and that their milk had a gaseous odor. Then he found oil covering his spring and gas bubbling up, so he built a dam. Now he is collecting about a barrel of crude a day. "First time I ever heard of an old cow finding an oil well," Mercer remarked.

SOUTHERN WILDLIFE

Brother Angler!
One of the sea's rarest and oddest fish is the deep-sea angler. The largest males are 1 to 2 inches long; the largest female about 3 feet. Displaying a monogamous tendency almost incredible, the male attaches himself by a little fringe of flesh to his mate's body and proceeds to grow there, becoming entirely parasitic. The female has a mouth almost a foot wide, over which dangles a long growth with a beautiful tassel-like affair at the end. This natural fish lure has a light in its tip, furthermore, to make it doubly attractive. Quite confident that things will come her way, the female just lies on the sea floor with her mouth open, dangling her luminescent lure. As the smaller fish swim toward the lure, she swishes it out of the way, and that's that. The female is fed directly; the male, through his now tightly grown alimentary canal, being fed indirectly.

Blackbird Pictres
It has been suggested that starlings, prepared in "blackbird pie," make quite an edible dish, and that idea, if passed around, may be some of them out of circulation. They are getting to be a real nuisance in some of the Southern States.

Cigarettes for Measuring Fish
It might save you a fine, and besides it is sportlike to take underize fish. When you are caught without a rule, remember that the length of any standard cigarette is 2-3-4 inches and that of the new "longies" is 3-4 inches. Lay your cigarette end to end beside the fish in doubt and add the total.

Conference for Measuring Fish
The singling school is going on nicely and there has been good attendance each night. There are two sides, the Red and Blue, that are having a contest. E-cigarettes are invited. Come and join the Red or Blue and help make more scores for your side by bringing others. Luther Rudd of Slaton is teaching singing school. Miss Odessa Ball is still on the sick list. She was carried back to Littlefield for medical treatment Thursday.

Yarna Jean Hall and sister are visiting Zane Rhea and Lillian Carter.

There are two cases of typhoid fever in this community, according to reports.

Mr. and Mrs. James Long and son, Jimmie Lee, visited Mr. and Mrs. George Tyson and family Saturday.

Some of Mr. and Mrs. Hart's children are visiting them and other relatives.

Mrs. Demitt is putting in a cafe at Maple.

Agriculture Is Playing Big Role In Nat'l Defense

Agriculture's part in the national defense program was the dominant thought at the national AAA conference held in Washington recently. Texas delegates to the meeting pointed out on their return, according to Lonnie Arnold, chairman of the Bailey County AAA committee.

The committee chairman declared that the conference gave a practical demonstration of the unity of agriculture in its determination to do its full share in the defense of the nation.

The conference, which was attended by farmer state committeemen and AAA officials from every state in the nation, adopted a number of resolutions relating to defense, including a recommendation that farmers avoid speculative expansion and reduce debts, and build up reserves of cash and farm commodities during the present period of industrial activity. As measures to prevent inflation, the conference urged higher taxes on excess profits, incomes and luxury items and more intense efforts to sell defense bonds and stamps. It also urged that, due to shortage of

farm labor in some areas, priority be given to production of farm machinery and parts, and that a program be maintained between farm and industrial prices.

The national conference proposed a change in the method of computing farm payments, which would eliminate the payment made on general crops such as oats, barley and rye, and would make funds formerly used for this purpose available for carrying out additional soil conservation work. Farmers would still receive acreage allotments on such surplus crops as wheat, cotton and tobacco and earn payments for planting within their allotments of these crops, the AAA committeeman was informed.

Strengthening of the ever-normal granary and marketing quota provisions of the national farm program also were recommended and new soil-building practices were proposed, including a special practice by which low-income families may receive seeds, plants, and fertilizers for use in increasing home food production. The cost of the materials would be deducted from the payments earned by such families. Under the practice, low-income families also could earn additional payments for live-at-home practices.

The recommendations of the national conference were taken under suggestions made by farmers from all over the country through their community and county committees. All recommendations are subject to the approval of the Secretary of Agriculture.

Youth Caravan To Meet At Sudan From July 19 To 26

A Methodist Youth Caravan, headed by Miss Thula Maude Jetton of Hale Center, superintendent of Young People work in the Plainview district of the Methodist church, will be in Sudan for a six-day rally beginning on July 26. Rev. H. H. Hamilton, Sudan pastor, announced last week.

The rally will be one of two to be conducted in the Plainview district this year. In the youth caravan will be Charles Perry, County of Georgetown, Sue Everson of Norman, Okla. Luther A. Harrell, Jr. of Vidosta, Ga., and Margaret Taylor of El Paso.

Afternoon and night sessions will be conducted throughout the week with a picnic supper at the church each evening.

Young people from Amherst, Littlefield, Muleshoe, Earth, Jones circuit and Bula circuit will participate in the rally. The other rally to be conducted by the group in this district will be at Plainview. Last year the youth caravan held rallies at Floydada and Ceta Canyon.

Young people between the ages of 12 and 23 years are invited to attend. No distinctions as to creed or church membership are made.

The group making up this caravan has just completed a week's training course at McMurray college, Abilene. They are conducting meetings at Levelland, Pampa, Borger, Canadian, Dalhart, Sudan, Plainview and Tahoka during the summer.

Roping Champion Loses Title When He's 'Knocked Out'

ROSWELL, N. M., June 30 — Bob Crosby of Roswell, past champion steer roping of the world, was recovering in a hospital here Monday from injuries received in an accident which Sunday afternoon cost him his title.

Although Crosby, who suffered a sprained back, a neck injury and a small concussion, was not entirely conscious Monday morning, hospital attendants said there was no reason to doubt he would recover and noted improvement in his condition.

Crosby was pinned under his horse when it was tripped by the rope on his tenth steer out Sunday afternoon in his \$5,000 match with Carl Arnold of Buckeye, Ariz. At the time Crosby had a lead on nine steers of 23.2 seconds. Contest rules gave the match to Arnold when Crosby was knocked out.

Several thousand spectators witnessed the accident. It was estimated that at least \$20,000 was wagered on the outcome of the match, in which Crosby was the favorite. He had beaten Arnold in a similar contest at Carlsbad May 4 by 2.8 seconds.

Two challengers were ready to attempt to take the new steer roping crown from Arnold. Dick Truitt of Stonewall, Okla., lost to King Merritt of Cheyenne, Wyo., in a three-steer match for first shot at the title.

Crosby's friends said it would not be long until the veteran of 24 years of roping would be a challenger, too. Crosby has been injured before, once seriously, at the Southwestern Exposition and Fat Stock Show in Fort Worth.

WHEN A TOWN DIES

When a town dies there isn't any funeral, no flowers, not even pallbearers—it just DIES.

When a town dies somebody or many somebodies have failed to administer the proper dosages of civic pep and pride.

When a town dies the mapmakers save a speck of printer's ink. When a town dies the trains run on past it, the sidewalks revert back to their native elements, the birds build nests in the town hall and the cows graze in the public park.

It's a sad and sorry thing when a town dies, for it hasn't the satisfaction of even knowing who killed it.

But when a town dies, it just dies and dies and believe us, it's a DEAD ONE.

One automobile company, which is making Army trucks and other defense equipment, purchases its parts and materials from some 200 communities located in 21 states.

Special Training For Defense Is Being Given

AUSTIN, July 1 — Special training for national defense industries is being given to 12,644 Texans in an educational program designed to provide skilled workers in rapid order, according to James R. D. Eddy, State Director of National Defense Training.

With Texas defense work constantly increasing, it is estimated that 17,500 additional skilled workmen will be needed in vital industries before another year has passed. The demand for shipbuilders is particularly strong in Texas. A total of 103 vessels, costing an aggregate of \$181,142,425, are now under construction or on order in Texas shipyards at Beaumont, Orange and Houston.

"Eighty-five percent of trainees who have completed national defense courses in Texas have found employment," Eddy stated. The placement of men in state industries is handled by the Texas State Employment Service.

DENVER CITY PLANS JULY 4TH CELEBRATION

DENVER CITY, July 1 — What was started as a chamber of commerce Fourth of July program has become a community-wide rodeo program which will last all day and night here Friday, said Mayor L. B. Patton in announcing the raising of finances for the affair had met with success.

Two rodeo performances are planned, 2 o'clock in the afternoon and 8 o'clock at night, in a huge arena built in the north part of town. "Bill" Harris has been named as in charge of the rodeo, which is open to amateurs only.

DEER NOT VERY CHUMMY

Deer liberated in the Wardlaw restoration area of the Texas Game Department in Tom Green and Teton counties can hardly be called sociable, according to reports to the Austin office by game managers. The new deer seem to prefer their own company to that of the deer upon the area previous to their arrival, there being no evidence of the two groups associating in any way.

I AM THE PRINTING PRESS

I am the printing press, born of the mother earth. My heart is of steel, my limbs are of iron, and my fingers are of brass.

I sing the songs of the world, the cratorios of history, the symphonies of all time.

I am the voice of today, the herald of tomorrow. I weave in the warp of the past the weft of the future. I tell the stories of peace and war alike.

I make the human heart beat with passion or tenderness. I stir the pulse of nations, and make brave men do braver deeds, and soldiers die.

I inspire the midnight toiler, weary at his loom, to lift his head again and gaze, with fearlessness into the vast beyond, seeking the consolation of a hope eternal.

When I speak a myriad of people listen to my voice. The Anglo-Saxon, the Celt, the Hun, the Slav, the Hindu, all comprehend me.

I am the tireless clarion of the news. I cry your joys and sorrows every hour. I fill the dullard's mind with thoughts uplifting. I am light, knowledge, and power. I epitomize the conquests of mind over matter.

I am the record of all things mankind has achieved. My offspring comes to you in the candle's glow, amid the dim lamps of poverty, the splendor of riches at sunrise, at high noon, and in the waning evening.

I am the laughter and tears of the world, and I shall never die until all things return to the immutable dust.

I am the printing press.—Anon.

CARD OF THANKS

I wish to thank my friends and neighbors for their many courtesies and acts of kindness, also for the beautiful floral offerings during the illness and death of Daniel B. Carles. etc. Mrs. Beulah Carles.

Indians in America were formerly with rubber before Columbus discovered the continent.

DEGREES SEAL CHILDHOOD OATH

"We cross our hearts... and solemnly swear to stick together." Thus five little girls who graduated from Texas State College for Women June 2 took time off from skipping rope and playing dolls to form a secret society in fourth grade days in Belton.

Years have flown by since the quintet, Mary Alice Garner, Jean Singleton, and Rosemary Polk standing left to right; and Violet Beville and Gladys DuBose, seated; banded together for the first time, but they've gone through grade school, high school and college, the closest of friends.

WEEKLY SCRAPBOOK

Week's Best Recipe

SAVORY BOOTS: 3T butter, 1T chopped onions, 1T chopped parsley, 2T flour, 1/2 salt, 1/4 paprika, 2t granulated sugar, 3 T vinegar, 1-1/2 C boiling water, 3C cubed cooked beets. Melt butter and simmer the onions and parsley 3 minutes. Mix in the flour, salt, paprika and sugar. Add other ingredients. Cook slowly five minutes. Serve immediately.

Slip Covers

Now is the time to make covers for your furniture. Have them fit tightly like upholstery. Be sure to buy material that is already shrunken. Make sure that your material has a guarantee against shrinkage printed on the selvage. In this way you can size your material so that it is exactly the measurement of the furniture. Also be sure that your trimmings for edges such as bias bindings, welts, fringes, pleatings, carry a guarantee of being washable. Make the cover fit like a glove and a tight glove at that.

This is Grand!

If you can secure one of those chairs used in schools that have one broad arm for note-taking, grab it for your kitchen. It comes in a mighty handy for shelving peas, peeling potatoes and apples, for the broad arm serves as a grand shelf for sacks and pans.

Housecleaning Hints

Keep legs of stepladder from slipping by binding tips with cloth held in place with rubber bands... Fix up the old wooden table top by cementing on its surface a piece of attractively patterned linoleum. Varnish the top and you will have an attractive new table for breakfasting... Slip a cotton bag over the broom to brush down the walls. It will stay on better than a straight piece of cloth. Keep the bag clean for clean walls... To clean leather chairs, sponge the surface with mild suds, then dry apply a thin coat of shellac which will not harm the leather and leaves a nice finish... To clean rugs, use corn-meal and ammonia. Take one pint of coarse meal and enough ammonia with a cloth. Let stand a short time and sweep off with a broom.

Inspirational

A pound of pluck is worth a ton of luck.

CHILD CRUSHED UNDER BARRELS, IS BURIED

HEREFORD, June 30 - Funeral services were conducted here Saturday morning by Rev. James Alken, Jr. for Max Lord Sullivan, two-year-old son of Mr. and Mrs. Loyd Sullivan of Los Angeles, Calif.

He was killed instantly Thursday when the trailer on which he was playing became unbalanced, and water barrels stacked at one end rolled down the trailer bed, crushing the child. The accident occurred near Ft. Sumner, N. M., where the parents are temporarily employed.

GERMAN BELIEVED STATE STILL WILD AND WOOLLY

SAN ANTONIO, June 28 - Herbert Spiro was a little disappointed when he came to the United States from Germany. But he wasn't disappointed so much with the United States as a whole as he was with Texas.

"The first thing I expected to see in Texas was a whole flock of wild west heroes and Indians," he says. "You see, that's what we believed in Germany about Texas."

The 16-year-old Hamburg, Germany boy said that Nazi youths accept most western fiction as fact. One German, he said, had grown quite popular as the author of 60 books dealing with wild west heroes and Indians, with Texas as a locale.

Ants have rubbish heaps where they throw things they do not need.

Bone, the most solid bodily substance, is twenty-seven percent water.

To preserve rubber in hot water bag rub occasionally with glycerine.

To dry up fever blisters a alcohol or camphor frequently.

To relieve tired feet, soak warm water containing epk salts.

The tallest known tree in lifornia is in Humboldt county is 364 feet high.

It was unlawful to play in England in the reign of VIII.

NOTICE!

Kill your garden insects to bugs, squash bugs, thrips, tomato horn worms, and other pests with Watkins' RATENONE INSECT DUST.
