

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, AUGUST 14, 1941

NINETEENTH YEAR, No. 30

Former Texas Tech Star Is Chosen To Coach Yellowjackets

After a meeting of the Muleshoe school board Monday night, it was announced that E. J. McKnight of Mexia, was hired to coach the Muleshoe football squad for the coming season. McKnight was, for three years, one of Texas Tech's most famous football players. In fact, there were few men in the nation who received more publicity, especially the last two years of his career at Tech. Always among the highest scoring members of the varsity team, he was a favorite with the fans and students alike. He will also teach science and history at the school. Patrons and students feel that they are fortunate to secure the services of such a man. McKnight is the second Texas Tech football star to be put on the Muleshoe faculty this year. F. W. Jones started his duties here last month as vocational agriculture teacher.

The board also announced that Miss Ruth Taylor of Quitaque will teach Spanish and coach the girls' basketball teams.

Closing Date Set For New Wheat Growers' Requests

Lonnie Arnold, chairman of the Bailey county AAA committee, has been advised by the state office that Nov. 30, 1941, is the closing date of accepting requests for 1942 new grower wheat allotments.

Farmers who have not planted any wheat for harvest during 1939, 1940 and 1941, are to plant wheat for the first time in 1942. An acreage considered new growers. The acreage which new growers will receive is taken from a county reserve, which in most cases, represents approximately 3 percent of the county allotment.

AAA farms receiving wheat acreage allotments for the first time this year, regardless of the size of the acreage, will be classified as non-allotment farms. Regulations also state that the larger of the wheat acreage allotment, or 15 acres, may be harvested without incurring deductions. Non-allotment farms will not be eligible for either conservation or parity payments, but in case marketing quotas are in effect, loans may be made on that basis of the wheat in excess of the farm marketing quota.

Requests for new grower allotments should be filed in the county AAA office as soon as practicable. Arnold pointed out, since no applications may be filed after the closing date.

Levelland Lists Five Lettermen

The Levelland Loobes, conference opponents of the Muleshoe football team in a night game at Levelland October 3, will be strong again this year, according to advance reports from the Hockley county seat.

Only five lettermen are back from last fall's undefeated team but promising squadmen of 1940 and several newcomers brighten the outlook.

Leading the contingent of veterans reporting to Coach Billy Stevens September 1, will be Billy Green, a stocky 175-pound backfielder, who won all-district honors last season.

This fall Levelland will compete in the northern division of District 5-B, a 14-team league, which includes, among others, Muleshoe, Morton, Littlefield, Sudan and Otton.

WHEAT SHIPMENTS

Up until Wednesday afternoon of this week there had been a total of 64 carloads of wheat shipped by Santa Fe rail from Muleshoe. Every day for the past several weeks, two, three, or more cars per day have been shipped from here to Government storage places.

In low cost diets milk is prominent because it provides high quality protein, calcium and vitamins A and C cheaply, according to a U. S. Department of Agriculture bulletin.

Getting The Terracing Job Done

Young county's terracing machine, top, constructs a 40-foot terrace on a farm operated by Pete Reynolds of Newcastle, lower left. D. A. Adam, county agent, gives instructions to John Downey, terracing machine operator. Lower right James H. Crawford, Young county AAA secretary, confers with Adam about the AAA's conservation materials and services program which is being used for terracing work in Young county for the first time in Texas.

Earth Man Dies Tuesday After Tractor Mishap

Wilburn Strickland, about 37, a ranchman of Earth, died at 6 o'clock Tuesday night in a Lubbock hospital of injuries suffered in a tractor accident Monday afternoon.

The body was taken to the Roy G. Woods Funeral Home in Plainview, where it was announced funeral services would be conducted at 10:30 o'clock Thursday morning at the funeral chapel, with burial in Plainview cemetery.

Surviving are the parents, Mr. and Mrs. H. M. Strickland of Plainview; a brother, Pvt. William E. Strickland of Fort Sam Houston, and a sister, Mrs. H. V. Stevens of Plainview.

Complete details of the accident were not available since Strickland's condition was critical when he was taken to the hospital.

He was said to have suffered a fractured pelvis, fracture of the left leg and other serious injuries. The mishap occurred near Earth, where Strickland was working.

County Farmers Are Combating Leaf Worms

Since last week's notice of leaf worm menace in cotton, fields all over the county have become infested, and poisoning, in many places, has been practiced this week. Some farmers are using lead arsenate, two pounds to fifty gallons of water, and others are using calcium arsenate, two pounds and nine pounds of hydrated lime to fifty gallons of water.

However, the writer, with F. W. Jones, vocational agriculture teacher, witnessed what is perhaps one of the most economical methods used so far. E. T. Bryant of the YL community is using kerosene, which he says has been effective in stopping the insects on two occasions in the past. Mr. Bryant used kerosene in 1937 and again in 1939.

The method of application is simple. A two-by-four, about 14 to 16 feet long, is bolted on the frame of his tractor. The length is sufficient to cover six rows. On this a gunny sack is nailed for each row, so that the full width of the sack drops over the row of cotton. Each sack is saturated with kerosene. Two applications are used, from two to three days apart.

There are several advantages to this method. First, the kerosene stays on the plant, and the worms will not stay. Second, it is economical. Mr. Bryant stated that "three quarts to the acre was ample, and the kerosene cost seven cents a gallon. As far as could be learned, the kerosene did not kill the worms, but they left the plants and died on the hot ground. If the weather is cool, they leave and do not infest the plants again, as the kerosene stays on the foliage for several days.

Where farmers have started early enough there has been only slight damage, but in some fields the insects have already caused severe loss.

MOTHER OF ENOCHS WOMAN BURIED AT WELLINGTON

Funeral services for Mrs. E. E. Farmer, prominent Collingsworth county resident for the last 30 years, and mother of Mrs. E. E. Jones of Enochs, were held Thursday afternoon of last week in the Methodist church at Marella.

Mrs. Farmer died suddenly at her home August 5.

Born in Benton county, Tenn., 65 years ago, she had made her home in that state until she moved to Collingsworth county.

Besides Mrs. Jones of Enochs, Mrs. Farmer is survived by her husband, six other children, and a brother.

ATTENDS FUNERAL

Jack Cox left Tuesday for Ellsworth, Kansas, to attend the funeral of Mr. J. E. Fry Wednesday afternoon. Mr. Fry had been in ill health for some time. He was a brother of T. B. Fry, who passed away here a few weeks ago.

Bailey County Wheat Growers To Vote In Another Referendum

Canning Plant Is Operating Under Capacity Here

Cans of fine quality beans started rolling off the line last Friday afternoon as the canning factory started its 1941 pack of Muleshoe vegetables. J. H. Case stated that the plant was not operating at full capacity yet, but an average of 7,000 pounds per day are going into cases.

Only the shift is on, but there is not sufficient labor for another, the management stated. There are about 55 employees, but the plant is short of capacity by 2,000 cans per day.

The early bean crop will last for several days, Mr. Case said, and by the time these are packed tomatoes will be ready. The plant will also put up sweet potatoes this season, and with these, there will be employment for several weeks longer than usual. The late crop of beans will come on the latter part of September, it was stated, and prospects are very good, so the farmers say.

First Parity Payments Made In 8 Counties

COLLEGE STATION, Aug. 13.—Cotton parity applications from eight Texas counties have been certified for payment, according to B. F. Vance, state administrative officer for the AAA.

From Austin, Camp, Coke, Delta, Galveston, San Patricio, Sevier and Titus counties, 2,047 applications have been certified for payment in the amount of \$211,274.50, the AAA official said. A total of 32 counties have submitted 5,212 cotton parity applications to the state AAA office to date. Vance estimated that 342,000 applications for \$22,250,000 would be made in 1941 cotton parity payments to Texas farmers.

The rate of payment for 1941 is 1.38 cents per pound as compared with 1.55 cents per pound last year, however, the average normal yield of lint per acre for the state is 167 pounds for 1941 as compared to 161 pounds for 1940.

Cotton parity payments are made to farmers who plant within their cotton acreage allotments as set up under the agricultural conservation program and, are made in addition to regular conservation payments.

Other counties which have sent applications to the state office are Bosque, Cameron, Cherokee, El Paso, Fannin, Fisher, Franklin, Henderson, Hopkins, Jones, Lamar, Marion, Morris, Newton, Nueces, Rainey, San Saba, Schleicher, Tom Green, Travis, Webb, Willacy, Williamson and Wood.

New Cafe Open For Business Here

A new business establishment in the form of a modern, first class cafe opened for business in Muleshoe recently, being located just west of the Panhandle Service Station, operated by Horace, Clyde and H. C. Holt, at the junction of Highways 214 and 70.

The management of the cafe is catering to tourists as well as local people with wholesome and delicious foods.

All new and modern cafe equipment has been installed in the new place of business, which has been named the "Panhandle Cafe."

Mrs. Arvil Williams and Mrs. Ardie Cox are employed at the cafe.

MULESHOE FACTOR IN REVIVAL AT SUDAN

Rev. R. N. Huckabee, pastor of the Muleshoe Methodist church, will conduct a revival meeting at the Sudan Methodist church Sunday evening, August 17.

Reverend Huckabee will exchange services with Rev. H. H. Hamilton, the Sudan pastor. Reverend Hamilton has been assisting in a revival in Muleshoe.

Bailey county wheat growers will vote in a national referendum before June 10, 1942, to determine whether they want to continue marketing quotas, according to J. C. Smith, secretary of the Bailey county AAA committee.

This announcement by Secretary of Agriculture Claude R. Wickard is being made now to give wheat growers ample time to make plans for 1942 plantings before seeding time, Rennels continued.

In accordance with the AAA act, a proclamation must be made prior to May 15 of any marketing year when it appears the wheat supply will exceed a normal year's domestic consumption and exports by more than 35 percent. The national referendum which will be voted on before June 10, 1942, must be approved by two-thirds of the farmers voting before quotas will be in effect on that year's crop.

"Since marketing quotas on wheat serve to protect loan collateral government loans would not be made on the 1942 crop if marketing quotas were voted down," the AAA official explained.

Wheat quotas are in effect for the first time on the 1941 crop as a result of the 81 percent favorable vote in the national referendum May 31. Texas farmers approved quotas by 94 percent. Approval of quotas made loans at 85 percent of price possible.

The 1942 national wheat acreage allotment of 55 million acres was announced May 22, and Texas farmers have been issued allotments totaling 3,748,141 acres. "The carryover will all have on July 1, 1942, as a result of the above normal yields and reduced exports is going to be the largest carryover in the United States and a 1941 crop even as low as 358 million bushels would bring the supply up to the quota level," he said.

American wheat farmers face the same problems confronting the growers in other exporting countries. Unless the United States farmers as effective and as democratic program to protect their prices, Rennels said, pointing out that American farmers are getting far better prices for their 1941 crop than farmers in other wheat exporting countries.

The purpose of marketing quotas is to divide a limited market equitably among all growers and to protect wheat prices and income by keeping part of the surplus off the market until needed.

When producers plant within their specified allotments, they make adjustments at seeding time and may continue to market their entire production in the normal manner. Producers who exceed their allotments when the wheat is planted are called upon to adjust marketing. The smaller the normal or actual yield on the acres in excess of the allotment is subject to penalty.

The marketing penalty, which is intended to discourage marketing of excess wheat, amounts to 50 percent of the basic loan rate. For 1941, the national average loan rate is 98 cents, making a penalty rate of 49 cents.

The penalty on excess wheat may be postponed if the excess is kept off the market and stored under bond, or it may be avoided if the wheat is taken out of market channels by delivery to the Secretary of Agriculture for relief purposes. Or, it may be converted into free wheat in which case it will be the amount by which a producer seeds below his allotment for next year, measured in terms of his normal yield, or the amount by which his next year's extra production falls below the normal yield of his allotted acres, Rennels said.

GOSPEL MEETING BEGINS SUNDAY AT ENOCHS

Beginning Sunday, August 17, a gospel meeting, sponsored by the Church of Christ of Enochs will be held at that place.

Lester Hathaway of Mobeetie, Texas, will conduct the preaching services, which will begin at 8:30 o'clock each night.

Everyone is invited to attend.

Patriotic Rally To Be Held At Church Here

Foods, Defense Program Held At Gym Friday

A Christian Patriotic Rally is to be held at the Methodist church Friday night of this week and ex-service men and their families are invited to attend if at all possible, as well as the younger men of the service who are home on leave.

The revival services, which have been in progress since last Sunday, are drawing large crowds with Rev. J. W. Watson of Morton, and Rev. Herbert Hamilton assisting the local pastor.

The entire community is invited to attend and engage in all the activities of the services. On Thursday night of this week, an old time ice cream supper will be held on the church lawn, and for this occasion too, the community is extended an invitation to attend.

Rev. R. N. Huckabee asks that everyone do their part in making the rally Friday night a success.

Louisiana Scouts Stop In Muleshoe

Twenty-five members of Troop 63, Boy Scouts from Shreveport, La., stopped in Muleshoe Tuesday evening for supper. They were enroute to Camp Philtrum at Cinarron, N. M., for their summer outing. The boys were traveling in a special bus and were thoroughly enjoying themselves as it was the first time for many of them to visit the West.

Camp Philtrum is one of the most picturesque camps in the United States. Comprising some 20,000 acres, it is rich in stories of adventure and romance. The camp is a place for those who have learned the technique of and rewards of outdoor living.

FOR HOME MAPLE TEACHERS

J. E. Biggs, who has been principal in the Maple school in southern Bailey county, moved to Hale county the first of the week, where he has accepted a position in one of the schools in that county. He was accompanied by his wife, and son, Jimmy.

Throughout the past school year, Mr. and Mrs. Biggs conducted the group of children known as the "Maple Melody Makers," who received recognition over the Plains area.

Before leaving Bailey county Tuesday morning, Mr. Biggs was a caller at The Journal office, leaving his forwarding address so that he might continue receiving The Journal.

Buy Defense Savings Stamps.

STATIONED IN ICELAND

Word received here recently from Babe Barbour revealed that he is now located in Iceland, where the U. S. Government has recently established a Navy and Army base. Evidently there are a few Marines on hand, too, in order to "keep the situation well in hand."

FOR SALE USED TRACTORS

We have some of the best values to be found anywhere in Used Tractors. These tractors have been completely overhauled and are **READY TO GO**. Don't wait until you are badly in need of one before starting to find what you want. It might be too late. Listed below are some bargains you will be unable to find again soon:

- 1 Farmall, 2-Row Equipment
- 1 WC Allis Chalmers, 2-Row Equipment
- 1 CC Case, 2-Row Equipment
- 1 CC Case, 4-Row Equipment

LOCALS

Mr. and Mrs. Bill Boothe left Sunday on a vacation trip of several days to various points in California.

Buck Ragsdale of Baileyboro transacted business and visited in Muleshoe Monday.

Ernest Rudd of Sudan was a Muleshoe business visitor Monday afternoon.

J. M. Phillips of Hart visited friends and attended to business here Tuesday afternoon.

Mr. and Mrs. Arnold Morris visited in Amarillo Sunday with Mr. and Mrs. K. K. Smith.

Attorney Pat R. Bobo and Rev. F. B. Hamilton were in Amarillo Saturday of last week visiting with K. K. Smith, who is receiving medical treatment in the Veterans' hospital. They were accompanied as far as Canyon by Dick and Jack DeShazo, who they visited their mother, Mrs. J. J. DeShazo, who is attending summer school at West Texas State College.

Mr. and Mrs. Levi Churchhill, and daughter, Miss Doris Churchhill, accompanied by Mr. and Mrs. John Bickle visited relatives and friends in Amarillo Sunday.

Miss Grace Churchhill, Robert and Johnny Starkey visited friends in Plainview Sunday. Robert went from there to Floydada.

J. A. Fisher and J. E. Culpepper of Morton were in Muleshoe last Thursday visiting friends and attending to business.

A. W. Wiseman and W. A. Conley of Soper, Okla., transacted business in Muleshoe last weekend.

Sam Davis, representative of the York-Harper Oil Co. of Midland, was in Muleshoe Monday and Tuesday attending to business.

State Representative Grady Roberts was elected president of the West Texas Press Association at the annual convention held last week. Mr. Roberts is the publisher of the Munday Times.

High Producing Dairy Cows Are Most Profitable

Records for 1940 of the Texas Dairy Herd Improvement Association show that high producing cows are the most profitable, says G. G. Gibson, assistant dairyman of the A. & M. College Extension Service.

The total feed cost of a 400-pound butterfat cow was \$44 more than for the 100-pound butterfat cow. At the same time, the income above feed cost for the 400-pound producer was \$61 more than for the 100-pound butterfat animal. The low producing cow had a total feed cost of 25 cents a pound butterfat while the feed cost for the high producer was 17 cents, or eight cents a pound less.

Costs for roughage and grain increase with production, Gibson says. But dairymen expect to feed more grain or concentrates to the high producing cows in order to get more production. For example the records show that grain costs increased from \$10 for the low cost to \$47 for the high, but the income above feed cost was \$10 and \$24, respectively.

"Now and then we find dairymen who question the advisability of feeding for capacity production," Gibson observes. "It is unwise to push dairy cows to the point where there is likelihood of doing physical injury. On the other hand, it is poor business to allow a cow to loaf along at half capacity. Dairy animals should carry a capacity load like any farm equipment. When we have a dairy cow capable of 350 pounds of butterfat a year under ordinary herd conditions we should give her a 350 opportunity to produce."

"This does not mean that we should try to make a 400 butterfat producer out of a 300 pounds butterfat inheritance. By using our dairy herd improvement association records to feed each cow according to production, we can steer clear of that difficulty."

HALF CENTURY CLUB MEETS AUGUST 21

Members of the Half Century Club will meet at the home of Mrs. Anna F. Moeller, Thursday afternoon, August 21. All members are urged to be present.

Attractive Every Day Foods

By LILLIE GENTRY
Following the county wide Foods for Defense meeting held in Muleshoe August 8, came numerous requests for menus and recipes which were used by Mrs. Jennie Camp, food production specialist from College Station in her demonstration on "Attractive Everyday Foods for Defense."

Here is a suggested dinner menu taken from the foods prepared:

Roast with vegetables.
Slaw with shredded parsley.
Corn pone.
Baked berry crescents.

Milk.
These are just every day foods and yet, if carefully and attractively prepared, anyone would be more anxious to eat them. And they're nutritious, too! Try some of these recipes this next week and watch the Muleshoe Journal for those which are to follow.

Roast with Vegetables
Use chuck, short ribs, brisket or outside round. Wipe meat with a clean cloth, salt, pepper and dredge with flour. Brown on all sides in hot lard. Add small quantity of liquid. Cover closely and cook until done. When almost done add whole Irish potatoes and cook until tender in gravy. Serve on large plate and garnish with parsley.

Corn Pone
2c yellow corn meal, 1 salt, hot water to hold mixture together (about two-thirds cup), shape into pones, place on greased pan and bake in a hot oven until brown (45 minutes to one hour).

Baked Berry Crescents
Two quarts fresh or canned berries. Two cups sugar. Mix berries with the sugar, put in medium oven until the sugar is melted and the berries begin to simmer. Drain off the juice. Use the berries for fillers for pie crusts.

Plain Pastry
Two cups flour, two-thirds cup fat, 1t salt, three to five t cold water. Sift flour and salt, cut in fat until pieces are the size of small peas. Sprinkle with water, using fork with a tossing motion. Drampen all mixture. Press flour and fat together. Roll one-eighth inch thick. Cut in four inch squares or rounds. Place filling (meat or fruit). Press edges together. Bake in medium oven. Serve hot in a deep dish to which hot berry juice has been added.

Handy Guide For Navy Recruits

The following are twenty-nine different ways of saying "I love you," in various languages in case you plan to join the navy:

American—I love you.
Annamite—Toi thu'ong be laun.
Arabic—Bahabek.
Armenian—Yes kee seerem kee.
Cambodian—Khnhom nearkh sreanh.
Chinese—Ono ngai ni.
Danish—Jeg holder af dem.
Dutch—Ik bemint U.
Egyptian—N'achqueb.
French—Je t'aime.
German—Ich liebe dich.
Greek—Sas agapo.
Greenland—Univfigsnaertdnuinolerironajungnarsigujak.
Hoped-for answer is just as long, but well pass that up.
Hawaiian—Nui kouou aloha no oe.
Hebrew—Ani ohev osoch.
Hindu—Main tym ropjar karyn.
Hungarian—Eno oni szeretem.
Japanese—Watakusiva anata suki masu.
Malay—Dikasi uleh hamba.
Persian—Chouma ra doust daren.
Polish—Kocham cie.
Portugese—Eu vos amo.
Rumanian—Ve iubesc.
Russian—Ja vas ljubliu.
Spanish—Te quiero.
Swedish—Jag tycker om eder.
Turkish—Ben senee seveysyevor.
Yiddish—Ich lieb dir.

ALVERTA CROW, GEORGE STEVENSON ARE MARRIED

Wednesday, August 6, a marriage license was issued in Muleshoe by County Clerk M. G. Bass to Miss Alverta Crow of Star Rt. 2, Muleshoe, and George Edwin Stevenson, of Star Rt., Sudan.

The couple was married by Rev. F. E. Woolery, pastor residing in the Circleback community.

CLARKSTON-PETTIGREW WEDDING EVENT OF AUGUST

At the courthouse in Muleshoe, Texas, August 8, a marriage license was issued to Miss J. Clarkston and Hearn Pettigrew, both of Justiceburg, by Justice Clerk M. G. Bass. The couple was married in an evening in Post Office by Carroll F. Sanders of the Bar of the Nazarene.

Dramatize Your Rooms With Crocheted

THE vogue for rug-making is sweeping the country—it's fascinating work, and the finished rug will do wonders for your rooms on a limited budget. A crocheted scatter rug such as this one in cotton rug yarn will fit in the smartest living room and be equally charming in a bedroom, nursery, sunroom or playroom. Use colors that will pick up the tones of your curtains and your upholstery and tie your room together. There's no upkeep cost to a cotton crocheted rug—it can be popped into the tub when soiled, and its lovely colors will stay fresh as a daisy because the new rug yarns are ballfast. Directions for crocheting this rug may be obtained by sending a stamped, self-addressed envelope to the Needlework Department of this paper, specifying design #4.

DARING DESTRUCTION TEST in Fearful Death Valley

Gives New oil a Plain Record for Long-Lasting Protection

Why 5-Quart fill—none added—lasted 13,398 miles... Certified

When you're wringing wet these days, just think of Death Valley. It holds the official U. S. record of 134° hot. Wild animals there rarely come out in the heat of day. You'll admit that's a hot spot for testing any motor oil. And that's exactly where 6 representative oils got a fair trial for their lives—to give you up-to-date certified mileage figures.

NEW CONOCO Nth MOTOR OIL gave more than **Twice** the mileage averaged by all others tested

This Death Valley mileage record is today making sales records for Conoco Nth oil—popular priced. And here's how this oil was proved for you in advance—by a daring Destruction Test:

6 identical new stock coupes were broken in alike. Test officials had checked engines, part by part, insuring uniformity. The Referee bought 5 big-name oils at retail. The other oil was the same new Conoco Nth that you can buy today. The Referee put one strict 5-quart fill in each engine; locked it up tight. Never a drop could be added. All cars ran 57 miles an hour—in the same Death Valley desert—on the same sizzling days. Drivers switched around to even up human factors. Impartial observers eyed every move—every mile.

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. W. Jaclin
Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

The finish came only as one brand of oil after another quit work entirely, causing final engine destruction. And Conoco Nth oil far outlasted all others; outlasted the runner-up by 5,683 miles; outlasted another by all of 8,268 miles. Conoco Nth outlasted the average of the 5 others tested by 7,057 miles... Certified.

Man-Made new Economy aid in Conoco Nth

In this patented oil there's an extra life-giver. Man-made. It's full name is *Thial-hene inhibitor*—an inhibitor being something that does the job of keeping a thing in check. Now your engine's normal explosions can't help causing foul leftovers. These must be properly kept in check to keep them from making your oil "fester," get weak and pass out. But you know how Conoco Nth oil "beat the rap" in Death Valley. It stood up better... by as much as 161%. Of course you're not in the business of test-driving, doing all the most furious tests. You just want to run every fill right up to as many miles as qualified authorities say is safe for your car. And

without trying to "stretch it out," you still ought to save plenty on Conoco Nth. For you can figure by the record that Conoco Nth can take you a whole of a way between quarts. Change today at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

AND CONOCO Nth OIL OIL-PLATES YOUR ENGINE!

Long the keystone of Conoco success, OIL-PLATING comes from another great Conoco synthetic... man-made under the famed Germ Processed oil patent. By magnet-like action, OIL-PLATING is bonded to inner engine parts. Then it can't all drain down—not even overnight—not while you use Conoco Nth. So OIL-PLATING is so guard against wear *in advance*... and helps mileage, as it did in Death Valley. An OIL-PLATED engine is one more economy you get from a change to popular-priced new Conoco Nth oil.

"Coverettes" Are New Type Of Work Clothes

COLLEGE STATION, Aug. 13—Patterns for a new type of work clothes for farm women and women who work in factories have been released to pattern makers and the clothing trade by the USDA's Bureau of Home Economics.

One, called a "coverette," was designed especially for farm women, and Mrs. Dora R. Barnes, Extension Service specialist in clothing, believes it will be popular in Texas.

The coverette is a one-piece outfit with a surplus closing. To get in it, all one has to do is step in, put it up, and tie the sash ends.

Designers who planned the new work clothes studied particular duties of farm and factory workers, then worked out sensible outfits to suit those jobs.

Some children "pile" sugar on their food. Too much sugar dulls the appetite for other foods and may blur the eyesight or injure the health.

Here are some other facts the doctor gave these parents: Some children "pile" sugar on their food. Too much sugar dulls the appetite for other foods and may blur the eyesight or injure the health.

Use firm peaches for canning, and for preserves choose those which are soft when pressed with the thumb. These have a little sweeter flavor, which is transferred to the preserves.

Eat peaches for health's sake, the horticulturist counsels. Yellow peaches are an excellent source of Vitamin A, which helps growth and is Nature's strongest defense against diseases of the eyes and throat.

C. S. HOLLAND, Editor R. L. JONES, Business Manager

In Bailey County, one year, \$1.50; Outside of County, one year, \$2.00

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements are paid in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Courtesies, cards of thanks, and resolutions of respect will also be charged for at the same rate. Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon being brought to the attention of the publisher. In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Washington Snapshots

by JAMES PRESTON

The influence of Dr. John Maynard Keynes, the British economist who visited Washington recently, is seen by Washington observers in reports that Administration officials are considering a plan to give a man money but not let him spend it—that is, not for some years to come.

The proposal under discussion is a tax plan that is not a tax plan for the money that is collected now in taxes would be repaid later on.

Briefly the idea is to keep money received as the result of wage increases from forcing prices upward, causing inflation. The taxpayer would be given a credit up to a certain maximum in baby or defense bonds, savings stamps, or special postal savings certificates equivalent to the increase in taxes resulting from reductions of exemptions under the income tax law.

Some government officials estimate that as many as five million citizens may be brought into the income tax structure under the plan.

The plan, it is felt, goes through it will probably be labeled a "compulsory savings plan," or some equivalent designation, in the knowledge that the word "savings" has a good connotation which is readily acceptable to the people.

One school of thought in Washington has held consistently over a period of months that rising living costs justify labor's demands for wage increases. Figures just developed, however, raise an interesting question regarding this argument.

Living costs, it is revealed, increased 3.5 percent between last October and the end of June. Factory wages, on the other hand, increased 22 percent from October, 1940, through May of this year.

At a time when business men serving the government in Washington are generally agreed that "business as usual" is no longer possible and at a time when industry after another is curtailing normal production in the interests of defense, Washington observers wonder when political spokesmen summed it up as follows: "The first order of the day is naturally the production of arms, equipment and supplies necessary for the Army, the Navy and civilian defense to protect America. Anything that hampers or impedes this prime objective should be rejected promptly or deferred for consideration at a later date. The seaway project should be definitely rejected because it will result in a tremendous diversion of labor, funds and materials to a non-essential project."

The preacher finished his sermon with "All liquor should be thrown in the river," the choir ended by singing "Shall We Gather at the River?"

THE DEVIL AND ADOLF

The Devil sat by a lake of fire On a pile of sulphur logs; His head was low upon his breast, His tail between his legs.

A look of shame was on his face, The spark gone from his eyes— He had sent his resignation To The Throne up in the skies.

"I'm down and out," the devil said; He said it with a sob. "Another has outclassed me, And I want to quit my job."

"Hell isn't in it now With the land along the Rhine, I'm a 'has-been' and a piker. So, therefore, I resign."

"I hate to leave the old place, The spot I love so dearly, But I'm no longer up to date In the art of raising Hell."

"One ammunition maker, With bloody shot and shell, Knows more about damnation Than all the imps in hell."

"So give my job to Hitler, The author of this war, He'll understand it better A million times by far."

be second-rate, has, according to some reporters who have seen it in action, actually proven equal and even superior to the German. Most important of all, the morale of the Russian people—military and civilian alike—seems to have proven far more staunch than anyone expected.

YOUR NAME?

By CHARLES DIDWAY

ANDERSON This common family name, meaning "son of Andrew," is of both English and Scandinavian origin. Andrew, one of the twelve apostles, was the patron saint of Scotland, accounting for its popularity as a personal name in that country.

In the Scandinavian countries, Anders is abbreviated from Andrew. The Scandinavian Andersons are of Swedish extraction, while those who spell their name Andersen are of Danish or Norwegian ancestry.

The name Andrew from which Anderson is derived, is from the Greek "andros," meaning "manly, strong, courageous."

Alexander Anderson was the first wood engraver in America. Robert Anderson was an American general who defended Fort Sumter at the outbreak of the Civil War.

BAIN

Held personally responsible for one person changing this name to the one identifying the author of this column, the writer approaches its interpretation cautiously. Coming from the Gaelic "ban" (fair, white) the name Bain is deep rooted in the soil of Ireland and Scotland. It is the Gaelic equivalent of the English name White. The Bains of the Scottish Highlands "clanned" around with the MacKays.

Alexander Bain (1818-1903) was a Scottish metaphysician and author.

COOK

This is one of those occupational names which means exactly what it implies. It is derived from the Old English "cooc" (a cook). The necessity of denoting a son of this name from his father accounts for the surname Cookson. In Scotland, the name is frequently found as McCook, meaning "son of the cook."

Other noteworthy bearers of this name besides Bailey County's own Judge Jim Cook, included Captain James Cook, English navigator.

DOUGLAS, DOUGLASS

A Scottish name of the first order, Douglas was given to ancestors of a family who came from Flanders and were of Belgian and Dutch descent. The name Douglas means "dark water" from the Gaelic "dubh" (dark, black) and "glas" (water). The river Douglas is in Lanarkshire, Scotland and received its name from the colors of the water. The town and estate were named after the river and the family of Douglas after the estate. Stephen A. Douglas, statesman was perhaps the most famous bearer of this name in America.

The preacher finished his sermon with "All liquor should be thrown in the river," the choir ended by singing "Shall We Gather at the River?"

THE SMOK LEADS

By ALAN LE MAY

Dusty King and Lew Gordon had built up a vast string of ranches in the West. King was killed by his powerful and unscrupulous competitor, Ben Thorpe. Bill Roper, King's adopted son, was determined to avenge his death in spite of...

CHAPTER XV—Continued

When Lew Gordon spoke, his voice was so quiet that his very stillness carried threat of imminent destruction. "Bill Roper sent a man to you?"

"I didn't say that. He's a man who was with Bill Roper in the Texas Rustlers' War; I doesn't seem to be in the Montana rangers."

"Who was it?" Lew Gordon rumbled. "What's his name?"

"Shoshone Wilce."

"Wilce! I know that name. I know it all. I'd rope and drag him in a second, if I caught him talking to you!"

"This man has talked with Ben Thorpe in Dodge," Jody told her. "A lot of strange news working down to Thorpe from up here in Montana. Some bands of rustlers are slashing up and down Montana throwing lead and leather into the Thorpe outfits under Lasham's eye."

INSTALLMENT II

THE STORY SO FAR:

the opposition of his sweetheart, Jody Gordon, and her father. During raids upon Thorpe's Texas holdings wiped him out of the state. Roper then prepared for a great raid upon the vast herds on Thorpe's Montana ranches. Several easy throw together three hundred head in a couple of days. That gives us a nice bunch of any two thousand. The more the better—but with two thousand we'll make our drive."

"Yes, mam, I kind of did, I guess, and I got to be getting on there, Miss Gordon. If you'll just give me any message you want me to take, I'd sure like to be pulling out of here before—"

"All right. You be here with two good horses just after dark."

"If you could just let I'd sure give me the message now, I'd leave like to—"

"There is no message. I'm going with you to Bill Roper."

Shoshone Wilce looked like a man entranced. "I can't do it! Your father—I just won't do it, Miss Gordon!"

"All right. I'll make the ride by myself."

"Hey, look! You can't!"

"Bill Roper isn't going to like this, Wilce."

Shoshone studied her searchingly, but found nothing to reassure him. It was in his mind that this girl would do exactly as she said. "My of a dozen—I should hope."

"Ben's a six hundred head Lord Almighty, Bill. Figures they're worth twenty dollars apiece, and allowing that all the other boys do as good, we're liable to get out of here around eighty thousand dollars worth of cattle. You realize that?"

But Roper was thinking of the letter in his pocket; the appeal of a girl who needed him in some unknown way, and who did not even know why he couldn't come.

All the same, if he worked to throw the little bunches together into a trail herd. Not all of them had done as well as Tex Long and Kid Johnson, but most of them had done well enough. And then, at last, the herd gathered in the Great Raid began to roll. A long unsteady moving river of cattle poured northward, a dark welter in the thinning fall of the snow. White-faces, mainly, bled out here and there. But Roper counted two thousand six hundred odd!

Pressed hard by the heavy force of cowboys, the cattle bawled but lumbered on. The herd was in the valley of the Prairie Elk.

Rounding up within a day's ride of Miles City itself, Roper's men had taken their herd almost out of the very corral of Lasham's outposts.

It was Roper's plan that he and Tex Long, with twelve men between them, should make the most daring raid of all: a raid upon the big herds which Lasham held between the headwaters of Timber Creek and the Little Dry. Of all the ranges in which the wild bunch was interested, this was the nearest Miles City—the most accessible, the most closely watched, the best protected. How many cattle he could transfer from this range to the starving Canadian Sioux, Roper did not know; but it was his hope to raise such a conspicuous and stubborn disturbance as would mask the operations of the rest of the wild bunch, and permit Roper to work unimpeded.

"The fourteen of us will split seven ways," Roper told them now. "Lew Gordon's look-out camp is southeast. We'll comb every way but that way. I'm not telling you how to gather stock. Hunt 'em like you know how to hunt 'em. Move in on the day's spotting you cow bunches. Next day pick 'em up and work 'em this way. And on the third day throw your gather against a coulee or something where one man can hold 'em, and the other man of each pair ride back and meet me here. I figure this range is heavy with cattle. I don't see any reason why two good men can't..."

"That'll never happen while I live," her father said flatly.

A silence fell between them, presided over by the girl. "He asked me to ride the outlaw trail. I wish I had. To the last day I live, I'll wish I'd ridden with him then. And now I'll tell you something more. If ever he asks me again, I'll go."

"For several moments he stared at her, more shaken than he had been since the death of Dusty King. Then his face congested, and he rose up on his boot heels to tower over the girl."

"By God," he said, his voice unsteady with the repression he put upon it, "that closes the deal I've kept my riders off him because of you. Now you've got to go with me and on, rounding up a range was run and closed to busted King-Gordon. But when it comes to tampering with you—it's the end! I'm through, you hear me?"

"He caught up his battered sombrero, and his spurs rang as he turned toward the door."

"Dad, what are you going to do?" "Thorpe has a reward on Bill Roper's head. King-Gordon is going to double that reward."

He went storming out, his face black and violent with portent of war.

For several moments Jody Gordon stood motionless where he had left her. Then she turned and went into of the house to the long shed-like stable.

Shoshone Wilce was loitering there in the first of the rear wall, an unsteady and restless figure.

"Did you find out where Bill Roper can be reached?" Jody demanded.

Shoshone Wilce was loitering there in the first of the rear wall, an unsteady and restless figure.

"Did you find out where Bill Roper can be reached?" Jody demanded.

AN APOLOGY

It's seldom we have to make an apology for the actions of Bailey County citizens when they are away on vacation, but it will probably happen occasionally in the best families. As far as we know, a public apology has never been necessary for any of our people up to this time.

However, we will have to apologize or make a mighty good excuse this week for Mr. Dee Warner, respected member of the commission's court. We know that Dee was going on a trip down East to visit the "folks," and a few days before he left, gave him some advice on how to conduct himself while down in the "Big Muddy" country.

It so happened that he attended a family reunion down in the Rainy county, and of all people for him to disregard good advice, it had to be there. And of all the people to be present and see him was none other than W. E. Reid, editor of the Italy, Texas, News-Herald. And did Mr. Reid waste any time telling about it? Well, possibly thirty minutes, which was just time enough for him to get to a typewriter and hand it to us hot. Here is a typical sentence or two:

"Dee really got filled up, probably for the first time since he left East Texas." And: "You could tell by the way he ate that he hadn't had anything in several years."

Our seven thousand subscribers will remember Mr. Reid's editorial blasts at West Texas last spring (that was just before we had to start building boats in order to visit our neighbors) and elegiac discourses on the virtues and advantages of the deep east, and can well picture in their minds his gleeful, sarcastic chuckle as he typed the above sentences.

We don't blame Mr. Reid. Mr. Warner is the guy who played the wrong card. We know that he left here with a month's supply of food, which included plenty of ham, chicken, flour, meal and dozens of cans of fruit and vegetables.

The only explanation is that he gave it all away to the starving and penniless after he reached the land of unbalanced diet. Deeds don't stand to see hungry people. Nevertheless, he should have exercised more restraint while within the borders of the Philistines. Therefore, in behalf of the home folks, we wish to apologize to the people of Hains and Ellis county for the unthoughtful actions of one of our officials. Just wait until that mug gets home.

Our Want Ads Get Results.

THE HALF-WAY SYSTEM

The vote in the National House on the Draft Extension Bill shows that the folks "back home" are not entirely satisfied with the way administration leaders have taken them into their confidence. This is not only true of the selective service law, but many others. During the past two years, especially, it has seemed to be the policy of the administration to give the people questions on which they would have taken them into their confidence. This was true with the selective service act, when the claims were made that one year would be sufficient time for the men to serve. Congressional leaders knew when the service act was introduced, and the people suspected that under existing circumstances the need for the boys to stay in the service indefinitely was nearer the truth.

If, in the beginning, the president had told the boys flatly that a crisis existed and that to serve the nation in the armed forces, there would have been few dissenters.

As it is, they were assured that one year would positively be the limit, then, over night, it was decided to extend it. There is no objection by the American people to assist in the defense of the nation. They merely want to know when and how much, and when the proposition is put to them in halves, they are likely to let someone know just what they think about it. That is the reason for a House vote of 203 for the Extension Bill and 202 against.

THE WINNER (?)

In wars, as in horse races, the long shot occasionally upsets the dog and comes through for a win. Some of the experts are now cautiously hazarding the guess that this may prove true of the Russians.

When the German machine began, the bulk of the military authorities reluctantly agreed that Hitler was probably right when he said that it would be over in six weeks. Those six weeks and the Russians, instead of retreating in confusion, are said to be planning gigantic counter-attacks. The Germans have not taken any areas of major importance. The Red air force, which, according to German claims, was almost totally destroyed in the early days of the fighting, is still very much in evidence and is giving excellent support to the Soviet land forces. The Red mechanized equipment, which was supposed to

LYNN-EVINS WEDDING

A marriage license was issued in Muleshoe, Saturday, August 9, by M. G. Bass, county clerk, to Miss Ethel Lynn, 19, and James H. Evins, 24, of Star Route, Sudan, Saturday evening and will make their home at El Paso, where he is stationed with the Post Service Co., Fort Bliss.

A California scientist says inexpensive substitutes for novocain, antiseptics, and possibly sulfanilamide and its derivatives may soon be made from corncoobs, oats, hulls, and other farm waste materials.

Eggs provide proteins of a quality which are easily and quickly digested, absorbed and used in building and mending tissues.

THIS BUSINESS OF Living
BY SUSAN THAYER

This is the time of year to discover America, as a good many thousand vacationists are doing right now. Those who live in cities have taken to the woods and the mountains and the sea shore. And those who live in rural districts are wandering around New York and Chicago seeking for themselves the sky-scrapers they've read so much about. Easterners are going West. Westerners are coming East and everyone is finding out what an immense, varied and beautiful land this is.

Each section of the United States has its local color and traditions. New England with its colonial history and neat white houses is one thing. The South with its old plantations and tree-draped in Spanish moss is another. California with its fabulous orchards and amazing new industries is as different from the Middle West as can be, and the great Pacific Northwest is still another way of country.

But along with these differences and local characteristics is a great basic similarity. A person from one section of the United States is immediately at home in another section. For one thing, our industrial system serves the country as a whole so that the same breakfast foods and cosmetics and automobiles are sold in

Maine as in California. The same magazines are read in Florida and Oregon. The same radio programs are listened to in 48 different states. More important still, the same ideals of freedom and the dignity of the common man hold sway throughout the length and breadth of this great land.

This country was settled by men and women who wanted greater freedom and opportunity than they had in the Old World. It was developed by their children and their children's children who were not afraid of taking chances and going out to live on the frontier where no white man had ever lived before. It was built up to still greater heights by men who had the vision and audacity to develop mass production methods and so raised the standard of living to unheard of heights. Today it is being strengthened for defense by men and women who believe that the American way of life must be maintained not only for our own sake but for the sake of generations yet to come.

So today as we travel from country to city or from East to West we should be conscious of our common heritage and common destiny and of the fascinating variations of this amazing land!

LOCAL HAPPENINGS

Mr. and Mrs. M. C. Ledbetter and Mrs. J. A. Gowdy, Sr., of Morton visited in Muleshoe Friday in the home of Attorney and Mrs. James A. Gowdy.

Mr. and Mrs. Bert Mathis and children were in Lubbock Sunday attending a family reunion at McKenzie Park.

Mr. and Mrs. Harold King left Monday afternoon of this week on a vacation trip to Brownwood, San Antonio, and other Texas points.

Mr. and Mrs. W. C. Cox left Tuesday morning for Winnsboro, Tex., for a few days' visit with Mrs. Cox's parents.

Mrs. Ollie Abrams, Mrs. Kenney and two sons and Mrs. B. M. Corcoran of Lawton, Okla., are visiting this week in the home of Mr. and Mrs. Bose Abrams.

Mrs. Rubie Riddle, son and daughter, accompanied by her mother and brother, returned to Muleshoe last weekend from Michigan, where they spent several weeks with Mr. Riddle, who is employed in that state.

Mr. and Mrs. Dick Willman have been vacationing in Colorado and New Mexico for the past several days.

Ross Smith, Mrs. George Johnson, Misses Nona Faye and Margaret Johnson returned to Muleshoe Thursday afternoon of last week after a few days' vacation trip to Athens and other East Texas points.

Mrs. Thy Young and son, Jack, left Thursday of last week for a visit of several days with her mother and friends at Shamrock.

B. J. Young of Arlington visited here last week with his brother, Lyle Young, and sister, Mrs. H. L. Towry.

Mr. and Mrs. Joe Damron, son Bobby Sam, and daughter, Jane, left Sunday for Duncan, Okla., for a visit with relatives.

Mr. and Mrs. Ross Glaze and family were in Canyon Sunday to attend graduation exercises at West Texas State College. Their daughter, Ida Lou Long, has been attending summer school there. She is a teacher in the Longview school in Bailey county.

Rev. F. B. Hamilton, pastor of the Muleshoe Baptist church, left Sunday afternoon for Idalou to conduct a revival meeting in the church there.

Mr. and Mrs. Lud Taylor, daughter, Geraldine, and son, Carter, left Sunday on an extended vacation trip in Colorado and New Mexico.

Mrs. Eddie Lane left Monday for Waco, where she will visit her parents and friends for several days.

More than 40,000 tung trees were planted last spring in test orchards throughout the Gulf Coast region. Department of Agriculture scientists expect this will be the beginning of a successful tung oil industry in the United States.

Maple Melody Makers Hold Farewell Party

The Maple Melody Makers, their parents and a group of friends met at the home of Mr. and Mrs. J. F. Carter last Saturday night in a farewell party given to Mr. and Mrs. J. E. Biggs, and their son, Jimmy.

The children spent the evening in playing games and discussing some of the happy events of school life.

Ice cream and cake was served to a large group of friends.

After refreshments were served, the honorees were presented with a host of presents. Each donor seemed to know just what teachers wanted most and they were

appreciated very much. Mr. and Mrs. Biggs resigned their positions as principal and primary teacher in the Maple Wilson school and have accepted a school in Hale county.

Packing is not necessary in filling a trench silo with threshed grain. Wet the grain to about the extent of a heavy dew. Fill the trench so that the contents in the center will be higher than the level of the ground or walls.

Batteries Wear out The Same As Tires

But you can't see it happen. You can tell at a glance if your tires are about worn out and need replacing because they are in plain sight. But your battery which is one of the most vital units of your car is seldom thought of in terms of wearing out until it fails. Then we begin to appreciate the important service it has been rendering us.

Batteries need to be checked regularly to insure proper operation. Why not have us check your battery regularly to forestall battery failure?

This service is waiting for you at all times.

Traffic Deaths High Among Texas Soldiers

AUSTIN, Tex., Aug. 13 — Why, since the beginning of 1941, has a Texas soldier been killed every three days in an automobile collision?

A survey of military personnel involved in accidents showed today that 60 soldiers, sailors and marines were killed and 423 injured from January 1 to June 30, State Police Director Homer Garrison, Jr., announced. In these same collisions, 14 civilians were killed and 109 injured.

Bolling the accidents down to common factors, Garrison found that the typical soldier-accident occurs this way: The soldier-driver is rushing back to camp between 11 p. m. and 2 a. m. on Sunday night after a weekend leave, driving a car in mechanically safe condition over a straight, level, dry asphalt road. Suddenly he either hits an oncoming car head-on, runs off the road and turns over, or strikes a bridge or other fixed object, killing one or more persons, perhaps injuring several.

There were no obstructions to the driver's vision. He was not passing another car. Condition of the road was entirely favorable. His lights, horn, brakes and steering were all right. Furthermore, the driver had between six and 10 year's driving experience.

Then why a collision? Was he speeding? Maybe not, legally, but nearly always he was driving too fast for conditions. Some of those conditions were: He was fatigued by lack of sleep

and hard driving, so that his reflexes were slow, his alertness dimmed.

Though not necessarily drunk, he had been drinking, again with the result of slowing the reflexes and dulling his power of concentration.

Talking and laughing with his companions, his attention was diverted from the serious responsibility of driving.

Or, despite his driving experience, he may have been one of those all too numerous individuals who never develop any particular skill in handling a car, one of those "human wrecks just waiting for a chance to happen."

"This approximation of an 'average' accident is of course not strictly accurate," Colonel Garrison said, "because many varying factors are present. But it does show forcibly and accurately that the driver, and not the car, causes most of these accidents, and that the driver's errors of omission or commission are almost entirely within his control."

More military accidents occur in large cities than on the open highway, but highway deaths are nearly six times as great because highway speed makes for greater, more fatal impact.

"No law, no Highway Patrolman, can make a man use his judgment or keep his mind and eyes on the road, or keep him from becoming fatigued or going to sleep," Garrison observed. "There's some hope for the flagrant speeder and the drunken driver, because we can apprehend and perhaps reform him. But the law provides no remedy for automotive hari-kari."

John Benson was in Matador, Texas last weekend, returning home Saturday with Mrs. Benson who had been visiting in Matador for the past two weeks.

Prominent Earth Couple Married Friday, August 1

Miss Leona Bulls and Eldon Parish, both of Earth, were united in marriage at Springlake August 1 at 10 a. m., with Rev. J. E. Smith of Dallas, uncle of the groom, performing the double ring ceremony.

Due to the fact that the bride's aged grandmother was ill, vows were exchanged at her bedside in the home of Mr. and Mrs. Bruce Whitford. Only close friends and relatives attended the wedding.

The bride wore a navy marquisette with white accessories. She is the daughter of Mr. and Mrs. Crill Bulls of Earth, and attended Springlake high school, and is a graduate of a beautician school in Lubbock. For the past year, she has been employed in an Earth beauty shop, and for several weeks this summer worked in a beauty salon at Littlefield. She is an accomplished musician and has taken an active part in social and church affairs in Earth.

The groom is the son of Mr. and Mrs. W. H. Parish, a prominent Earth family, and is employed by the Springlake Packard Milling Company. The couple are making their home at Springlake.

Mr. and Mrs. Ray Eckler have moved to Hamlin, Tex., where Ray is employed by a gravel company.

Mrs. H. A. Eckler is visiting in the home of Mr. and Mrs. John Benson.

Airplane parts, instruments and accessories received in the United Kingdom from the United States in a recent month were valued at \$1,500,000.

SCHOOL BOARD MEETS, BUT

Tuesday evening of this week members of the board of the Independent School District for a special business meeting. Attorney James A. Gowdy, Mrs. W. C. Bucy of Muleshoe were among those attending.

POTATO SHIPMENTS

The first carload of this year's potato crop was shipped by the Pe from Muleshoe Tuesday evening of this week to that city. Potato harvest has been in full swing for several days in this vicinity, that employment for many local people.

ANNUAL REUNION

The annual reunion of former residents of Eastland county is to be held this year on Sunday, August 24, at McKenzie Park Park, Lubbock. All the ex-residents of Eastland county are asked to attend, bringing a basket lunch.

At Waterloo Station, England, an American, arriving by that boat train, engaged a taxi to drive him to his hotel. Steamers, trunks, hat boxes, dispatch cases, overcoats and walking sticks were piled on the taxi. The driver peered out through a crack in the mountain.

"Is that all?" he asked. "Yes," said the American, "that's the lot." "Well, well," replied the driver, "I suppose they wouldn't let you bring the Statue of Liberty."

Lighter Tare On Cotton Wrapped Cotton Bales

The marketing division of the surplus Marketing Administration is asking approximately 5.5 buyers of cotton to sign an agreement to make an allowance seven pounds for lighter tare cotton wrapped cotton bales according to George E. Adams, director and state agent of Texas Extension Service.

county agricultural agent and county AAA committeemen will cooperate in obtaining the signatures. The Surplus Marketing Administration estimates that approximately 2,000,000 bales of the 1941 cotton crop will carry cotton wrapping. A cotton pattern weighs 4 1/4 pounds compared with about 12 pounds for a pattern of jute. Due to gross weight trading this difference in tare penalizes the farmers who use cotton bagging about seven pounds a bale unless merchants make an allowance differential.

The S.M.A. points out that mills having 60 percent of the spindles in the United States now are cooperating in making the allowance. M. L. Wilson, director of extension work, and I. W. Duggan, director, Southern Division, AAA, in a joint statement said: "We are advised that other mills will cooperate if the allowance is made by the cotton buyers to farmers. For cotton buyers not to make the allowance will deprive farmers at present price levels of about \$1 a bale and unjustly enrich themselves of a possible total of \$2,000,000."

Merchants Will Indicate Cotton Stamp Articles

"Retail merchants dealing in cotton goods will be one of the most important groups in the Supplementary Cotton Program. They comprise tens of thousands of salesmen for America's most important cash crop — cotton. With foreign markets for American cotton sharply curtailed by war — America's merchants have a greater responsibility than ever before to help increase our domestic consumption of 100 percent American grown, processed, and manufactured cotton products."

This statement was made today by Irvin St. Clair, chairman of the Cotton Industry Committee for Bailey County.

In explaining how our local merchants could assist Cotton Stamp customers and the general public to identify 100 percent American cotton products in the Supplementary Cotton Program, St. Clair said that the merchants could assist Cotton Stamp customers and the general public to identify 100 percent American cotton products in the Supplementary Cotton Program. In explaining how our local merchants could assist Cotton Stamp customers and the general public to identify 100 percent American cotton products in the Supplementary Cotton Program, St. Clair said that the merchants could assist Cotton Stamp customers and the general public to identify 100 percent American cotton products in the Supplementary Cotton Program.

"After participating, farmers receive their cotton-order stamps. It is up to the merchants to see that farm customers and others can readily find the American cotton products they are looking for. Adequate stocks and attractive window and counter displays will be to the mutual advantage of merchants, farmers, and the general public.

"Merchants who segregate their stocks of All American cotton piece goods, women's dresses and housecoats, men's overalls and shirts, sheets, men's pants, children's clothing, men's underwear, blankets, work gloves, plowlines, stockings and numerous other cotton products in attractive displays and advertising will contribute materially to the effectiveness of the program and at the same time develop profitable new business," concluded Mr. St. Clair.

Lubbock Man Dies In Crash Near Farwell Saturday

W. C. James, a Lubbock singer, was instantly killed late Saturday evening, a few miles south of Bovina, when the car in which he was traveling collided with a machine driven by Lee H. Sudderth, prominent Farmer county farmer-rancher.

The accident happened at the road intersection near the J. R. Caldwell farm, northeast of Farwell. Tall weeds that had been allowed to grow at the road intersection, were blamed for the tragedy.

James' three daughters, W. C. Rutledge, the driver, and Marie Kelly, all of Lubbock, who were in the car with James were uninjured except for minor bruises. Sudderth also escaped with only minor injuries.

Sheriff Earl Booth, who investigated the scene of the accident, gave it as his opinion neither of the drivers was at fault. "It was just a case of neither driver seeing the other car," Booth said, adding that both machines were hit on the front end. The James car was traveling north, and the Sudderth car approached from the east.

James' body was taken to Clovis by an ambulance from the Steed Mortuary, and later taken to Lubbock, where he was buried Tuesday.—State Line Tribune.

Mrs. T. B. Fry, and daughter, Susie, left Tuesday for Ellsworth, Kans., to attend the funeral of I. E. Fry.

Mrs. Leonard Lusk, and daughter, Jo Beth of Tulsa, visited in Muleshoe last week with her sister, Mrs. Woody Lambert. Mrs. Lusk formerly lived here.

Mrs. Billy Jo Ann Smith, Ruby Hart, Beulah Moeller, Dorothy Barron, Hazel Gilbreath, and Mildred Lambert were in Clovis Monday evening of this week playing tennis and attending the show.

Army Induction Of Men Over 28 Years Ordered Postponed

All Selective Service Local Boards in Texas have today received instructions from State Headquarters to postpone the physical examination and induction of men who were 28 years of age or over on July 1, 1941, except those who volunteer for induction.

The State Selective Service Director, said that this directive has been issued on the strength of the status of age deferment legislation pending in the National Congress.

It is estimated, the director said, that approximately one-half of the 825,429 men who registered in Texas last October are affected by this order.

Local boards have also been instructed to postpone the induction of men who were or will be discharged from the Regular Army or the Coast Guard for the convenience of the Government within six months prior to the completion of the regular three year period of enlistment, inasmuch as the age deferment legislation in its present form includes a provision which would relieve such men from training and service.

Spindletop Oil Field To Have A Birthday Party

BEAUMONT, Tex., Aug. 13 — Spindletop, the most famous oil field in history, will have a birthday party this year.

Discovered forty years ago when the Lucas gusher blew in with a roar heard around the world, Spindletop will furnish the theme for a national oil anniversary celebration to be held here Oct. 9, 10 and 11 by the Texas Mid-Continent Oil and Gas Association.

Highlighting the birthday observance will be the dedication of a huge monument to be erected to the Lucas gusher and the pioneers of Spindletop. Made of Texas granite, the shaft is the result of the efforts of the Lucas Gusher Monument Association, headed by J. Cooke Wilson of Beaumont, and scores of oilmen who have contributed to its completion. It will be the second tallest monument in Texas, yielding only to the stratospheric San Jacinto memorial.

Spindletop, first gusher oil field in the United States, was the beginning of the modern petroleum industry. Oil was found here in 1901 in such tremendous quantities that it could be used not only for lubricants but also for fuel and power. As the inscription now being carved on the monument base points out, "Petroleum has revolutionized industry and transportation; it has created untold wealth, built cities, furnished employment for hundreds of thousands and contributed billions of dollars in taxes to support institutions of government. In a brief span of years, it has altered man's way of life throughout the world."

In Texas, the petroleum industry has grown in the four decades until it is now the largest business in the state. Production last year was almost half a billion barrels from nearly 100,000 wells, and expenditures for Texas labor, supplies, etc., totalled \$750,000,000.

Taking part in the birthday celebration will be leading oil men from all parts of the country, many of whom entered the business at Spindletop. Both the convention program and its entertainment will carry out the anniversary theme, according to Mr. Wilson, who is convention chairman. E. L. Smith of Dallas is president of the Texas Mid-Continent Oil and Gas Association research and service organization of Texas oilmen which is planning the observance.

NOTICE OF PUBLIC HEARING BAILEY COUNTY BUDGET

The Bailey County Commissioners' Court will meet Monday, August 25, 1941, at 10:00 o'clock A. M., at the Courthouse in Muleshoe for the purpose of adopting the county budget for 1942. Any citizen may meet with the Commissioners' Court and protest any item in the budget.

Jim Cook, County Judge.
Mrs. L. S. Lewis, mother of Dr. A. E. Lewis, is in a Lubbock hospital this week, where she underwent a major operation. She is getting along very well, it was learned Wednesday.

Mrs. W. L. Taylor returned from Lubbock last week, where she underwent major operation at the West Texas hospital.

Mrs. Royce Garth, and daughter, Latain, are spending the week with Mrs. Garth's parents at Baileyboro.

District Boy Scout Meeting Is Held At Littlefield

District committee members of the Northwestern district Boy Scout committee held their monthly meeting at the Littlefield Presbyterian church at 8 o'clock Tuesday, August 13, to cover the regular Scout business for the month of August. Dr. W. N. Orr, Littlefield, district chairman, announced.

Joe Hutchinson, Sudan, chairman of camping and activities, reported that 32 Scouts in this district had attended Camp Post this summer. He also announced that Troop 75, Amherst, and Troop 26, Littlefield, were going camping at Ceta Canyon this month and that several troops would attend Camp Haynes on August 16-17.

Reed Markham, Sudan, chairman of finance, announced that all was in good condition. A. J. Gardner, Muleshoe, chairman of health and safety, set up basic plans for troop meeting place inspections in September. Troop reports were given by O. K. Woodall, W. D. T. Storey, and Raynes Sparks, Littlefield; C. A. Duffey and B. M. Nelson, Amherst; Joe T. Salem and Dr. H. E. Grube, Sudan, and Bob Cantrell, Muleshoe. Jim T. Duglass, district commissioner, reported on the condition of Scouting in the district.

J. C. Grimes, field Scout executive, gave a resume of the duties of the advancement committee and the program it hopes to accomplish.

MIXING MILL NEARING COMPLETION AT SUDAN

A \$5,000 mixing mill is nearing completion at the pens of the Sudan Feed & Livestock Co., east of that city.

All kinds of grinding and mixing of feeds may be done in the new mill, which will prepare feed for the several thousand head of cattle the company fattens regularly.

SEPTEMBER CALLS FOR DRAFTEEES ANNOUNCED

AUSTIN, Aug. 12 — The twenty-third and twenty-fourth calls on Texas' 351 local boards for 2,571 trainees were announced today by state selective service headquarters.

On the twenty-third call 2227 white trainees will be sent to induction stations between Sept. 23 and Sept. 30, while on Sept. 22, 344 colored men will report for induction to fill the twenty-fourth call.

Noah Kinser returned last week from Port Huron, Mich. Noah stated that Michigan was a fine state, but Texas suited him better.

Fashion Joins the Vltzkrieg via The First "V for Victory" Dress

Now the first "V for Victory" dress joins up with the wild-fire "V" campaign launched by Prime Minister Churchill. Millions of women all over the unoccupied world will soon be making and wearing this new "V" dress.

Miss Josephine Johnson, 1940 glamour debutante, chose this version of the "V" dress, made up

in light grey wool. It has v-shaped shoulder sections outlined in bold red applique. V-shaped pocket flaps embroidered with the opening notes of Beethoven's Fifth Symphony — three long and one short, the equivalent of the gallant letter "V" in Morse code.

Fidelis Class Meets With Mrs. Ray Griffiths

The Fidelis class of the First Baptist church met in the regular monthly business meeting, Thursday, August 7, at the home of Mrs. Ray Griffiths.

The meeting was called to order at 3 p. m., with the following members present: Erma Ray, Blanche Lancaster, Opal Ware, Mabel Bristow, Mrs. Plummer, Mrs. Horace Taylor, Mrs. Lane, and Mrs. J. C. Smith.

After the business session, delicious refreshments of ice cream and cookies were served.

The next meeting will be with Mrs. Bill Garrett Thursday, September 4.

Pierrette Club Entertained With A Breakfast

Wednesday morning of this week, members of the Pierrette Club entertained with a "Come As You Are" breakfast at the home of Mrs. John Smith.

Throughout the early morning hours, club members called for guests and took them to the Smith home where they were served delicious breakfasts.

Summer flowers were used attractively throughout the dining rooms for decor.

Miss Hattie Ray Griffith turned Tuesday afternoon, California, where she has been visiting with her sister, Mrs. W. Evans.

Make Every Farm a Factory Every Day of the Year

TIMES CHANGE . . . KEEPING STEP . . .

There is constant progress, and each season we face different conditions and varying financial requirements. Almost every day we are confronted with new problems and service demands.

A bank or other institution—serving all the people of the community—can only progress in proportion to the services they render. The officers of the MULESHOE STATE BANK try at all times to keep abreast of changing conditions so that we may do our full part in promoting the well-being of our clients as well as advance the common interests of all the people of this section.

WE INVITE YOU TO USE ALL OR ANY OF OUR FACILITIES!

LOOKING BACKWARD

FIFTEEN YEARS AGO

(From files of Aug. 13, 1926)
Mrs. Joel Lee surprised her daughter, Miss Mildred, with a dinner Friday in honor of her fifteenth birthday. Those present were Misses Katherine Brown, Jewell Haney, Babe Green and Katherine Neal.

T. J. Burns, family and stepchildren of Indianola, Okla., were in Muleshoe this week prospecting. T. B. Gordon, the stepson of Mr. Burns, owns two lots near The Journal office. He has been offered almost double the money he paid for the lots and still refuses to take the offer, for he says there is a bright future laying ahead for this city of ours.

S. D. Beller of Rocky Ford, Colo., has rented the K. K. Smith farm for next year and will move there about the first of the year.

Mrs. Emil Priboth is recovering from an attack of typhoid fever.

Miss Iva Mae Dean of Springlake is back at her old position, assisting Mrs. Hoskins at the telephone office.

TEN YEARS AGO

(From files of Aug. 13, 1931)
Muleshoe public schools will begin the fall term Monday, September 7. Teachers elected for the coming year are: W. C. Cox, superintendent; D. L. Kendrick, principal; Mrs. Good Harden, Misses Evelyn Boone and Lucille Beatty, Grammar school; Fred Bryant, principal; Mrs. Bronza Cox, Mrs. Vertna Lewis, Misses Margie Moore, Mildred Miller, Beth Mardis and Chas. T. Roberts.

Mrs. Beulah Motheral received painful bruises on her arms Wednesday of last week while canning beans. A series of explosions caused the injuries.

Clarence Goins and family left Sunday for a 60-day vacation in the mountains of New Mexico at near Peeco, where Mr. Goins hopes to receive health improvement.

Mr. and Mrs. A. P. Stone left Sunday for a two weeks visit with relatives and friends at Gonzales and other Texas points.

L. A. Matthews of Dimmitt, son of Dr. Matthews of Muleshoe, was here last week buying hogs. Among other purchases, it is reported he bought the entire hog herd of Mr. Stidman for which he paid over \$400, many of the animals being pure-bred Poland Chinas.

FIVE YEARS AGO

(From files of Aug. 13, 1936)
I. T. Hollis was killed last Sunday afternoon when the truck in which he was riding collided with an automobile driven by Frank Rowan of Frederick, Okla. Mr. Hollis lived eight miles west of Muleshoe.

A deal involving approximately \$100,000 was closed Saturday when Higginbotham-Bartlett Co. purchased nine lumber yards from the Panhandle Lumber Co., one of them located in Muleshoe.

Fry & Cox Bros. are erecting a new ironclad building at the rear of their present machinery establishment into which they have moved their blacksmith and woodwork shop.

Funeral services for Mrs. G. O. Jennings were held Saturday afternoon at the Methodist church in Muleshoe. Mrs. Jennings, a prominent resident of Muleshoe, died following an illness of only five days.

Mr. and Mrs. Bob Bradley are the parents of a baby girl born Friday August 7, and given the name Jerana Sue.

LICENSES EXPIRE AUG. 31

AUSTIN, Tex., Aug. 13.—Warning that all types of licenses issued by the Texas Game, Fish and Oyster Commission expire August 31, was issued today by the executive secretary of the Commission. Licenses for the 1941-42 fiscal year are being mailed all license deputies in the state and specimen, commercial fishermen, fur dealers and all other persons required to purchase license under the law, will be able to obtain them during the last week in August.

POWDER OUTPUT

Production of smokeless powder by Hercules Powder Company is now 10 times that of a year ago, the company announces. Hercules is on or ahead of schedule with each of its many national defense construction and operating contracts.

Progress News

By Bessie Vinson

Attendance at Sunday school increased greatly last Sunday. All teachers and other officers were present. Everyone has an invitation to attend each Sunday morning at 10 o'clock.

Singing was well attended last Sunday night. Everyone is invited to come back and bring someone with them the fourth Sunday night.

Among those from Muleshoe who attended singing were Tye Young and Mr. and Mrs. Doe Wilhite and daughter.

Tom Radney, Miss Dyalitha Swift and Miss Bessie Vinson were Lubbock visitors last Sunday afternoon.

Mrs. Carrie Wilhite, and son, Lonnie, attended church and visited old friends in Friona Sunday.

Ross Goodwin, and sister, Mrs. Mannel Self, have returned from Sentinel, Okla., where they visited with friends and relatives. Mrs. Ross Goodwin, who had been visiting there, also returned.

Miss Maxine Malby, daughter of Mr. and Mrs. G. T. Malby, was able to leave the hospital last Sunday in Lordsburg, Kans., following an appendectomy July 26.

Lonnie Wilhite and Melvin Barker attended the Amarillo-Friona baseball game.

Mr. and Mrs. Troy Atkinson, and children, Mr. and Mrs. Manuel Self and Max, Mr. and Mrs. R. M. Waller and children, and Ross Goodwin enjoyed an ice cream supper in the home of Mrs. Carrie Wilhite Sunday night, August 3.

W. G. Kennedy attended an agricultural meeting in Lubbock last Friday.

Mrs. Harold Mardis, Miss Bessie Vinson, Miss Dyalitha Swift, Mrs. W. G. Kennedy, Mrs. Vita Self, Mrs. D. O. Smith, Mrs. Marie Malby, Miss Evadna Holley, Tom Radney and son, Thomas, attended the Food for Defense meeting in Muleshoe Friday.

Mrs. Jewell I. Sparks, teacher in the Progress school this coming term, visited in the home of Mr. and Mrs. Schroeder last week.

Walter Hapke of Clovis, N. M., visited his sister, Mrs. J. J. Gross, last Sunday.

Mr. and Mrs. Harold Mardis have as their guests this week, her brother, R. C. Myers, and a cousin of Lindreth, N. M.

Dyalitha Swift Is Hostess Tuesday To Progress Club

Tuesday afternoon of last week, members of the Progress Home Demonstration club met with Miss Dyalitha Swift.

Miss Lillie Gentry was in charge of the demonstration. She showed the preparation of English peas and rhubarb for the cold storage locker. Next she showed how to prepare carrots to store for winter use. The food for the cold storage locker should be frozen and stored as soon as possible after preparation.

Miss Evadna Holley gave an interesting report on her trip to the Texas A. & M. college short course.

Mrs. Fern Davis was elected to be in charge of the comforter making when the center is established.

Miss Bessie Vinson and Mrs. W. G. Kennedy were appointed as a committee to see about hiring a school bus for the club trip to Beaumont September 1.

Mrs. Marie Malby gave the council report.

Cake, fresh peaches and lemonade were served to all present.

Visitors: Mrs. J. M. Bellar, Mrs. R. M. Shanks, Mrs. Jewell Sparks and Miss Esther Schroeder.

Members: Misses Bessie Vinson, Evadna Holley; Mesdames Fern Davis, J. J. Gross, Carrie Wilhite, Iva Smith, W. G. Kennedy, Ada Murrah, Vita Self, Ross Goodwin, Lela Mardis, M. A. Springtub, Lela Gully, R. M. Waller, Miss Lillie Gentry, and Miss Dyalitha Swift, hostess.

The next meeting will be next Tuesday afternoon in the home of Mrs. Ada Murrah. Everyone is invited.

Commenting upon the fact that the House of Representatives while considering means to raise some three and one half billions in revenue, takes time out to consider an appropriation bill to spend over seven billions for the Army, Navy and Maritime Commission, one Congressman was heard to say: "That's catching up like the frog in the well that slipped back two hops to every hop forward."

KILLS BLACKJACK RABBIT

The first blackjack rabbit to be reported to the Texas Game Department was killed recently by J. G. Candie of Willey county. A black cottontail was found in Jack county several years ago. Black denizens of the wild are extremely rare, although a black buck deer was captured recently by a rancher in Comal county. The blackjack rabbit is being mounted and will go into a collection owned by Gene Smith.

SANTA FE CARLOADINGS

The Santa Fe Railway System carloadings for the week ending Aug. 9, 1941, were 22,526 compared with 18,324 for the same week in 1940. Received from connections were 8,279 compared with 5,385 for the same week in 1940. The total cars moved were 39,805 compared with 23,709 for the same week in 1940. The Santa Fe handled a total of 31,124 cars during the preceding week of this year.

for MODERN living

In the early days, medicine show quacks sold crude oil for a dollar a bottle as a cure for all human ills. Today hundreds of essentials for modern living are made from oil. It supplies heat for the home. It provides power for the Nation's machinery and transportation. It lubricates the gears of industry. It furnishes fuel for your car. It has shortened distances to make our Nation one big community.

America is safer today because of petroleum. The oil man's initiative and enterprise have made available to the United States the world's largest supply of petroleum.

In all this, Texas plays a leading part. Last year we supplied 36 per cent of all the Nation's oil, and now have over half of the Nation's oil reserves.

You and every American live more comfortably and safely today because of Texas petroleum.
