Rule farmer has first bale

Haskell County's first bale of 1988 cotton was produced by Russell Beakley and brought to the Rule Co-op Gin last Thursday (Sept. 15).

Beakley will receive a \$50 check from Rule Compress for the first bale of cotton this year.

Reward offered in missing case

Commodore Savings Association of Stamford is offering a \$1,000 reward for information leading to the safe return of Courtney Clayton of Stamford.

Mike Lisle, vice president and manager of the firm's Stamford branch, made the announcement Tuesday.

Courtney, 7, disappeared on the evening of Sept. 2 after purchasing a drink from a Stamford grocery store near her home.

Anyone having information regarding the whereabouts of the girl should contact the Stamford Police Department, the Jones County Sheriff's Department or the FBI in Abilene.

Post game party at church Friday

"Frolickin' Fellowship in FAC at FBC," will be open to young people following the Haskell-Electra football game Friday night.

Doors at the Family Activity Center of the First Baptist Church will be closed 30 minutes after the game and entry thereafter will be by special permission only, said Randy McLelland, youth director.

There will be fun, games, entertainment and food, McLelland said. The party will end around midnight.

Church announces 6 \$100 winners

Last weekend's St. George Catholic Church's "Jamaica" was a big success despite the weather.

Winners of six \$100 give-aways were:

Eva Ibarra, Felix Lerma of Knox City, John Abila, Ndsca Rincon of Rule, Guadalupe Nerio of Rochester and Adam Diaz.

Dala Harris is Fair Queen

Dala Harris was crowned 1988 Haskell County Fair Queen Tuesday night. First runnerup was Tori Jenkins and second runnerup was Brandy Strickland.

State-ranked Electra next for Haskell Indians

Off to their best start in several years, the Haskell Indians will have to turn in a superior performance this Friday if they are to stay in the ball game.

The opponents are the unbeaten Electra Tigers, proud owners of three consecutive victories and a high ranking among the state's Class 2A

powers.

Friday's game at Indian Stadium will be the first of three consecutive home games for Haskell in a season which includes six home games.

Last week while the Indians were escaping with a 15-14 win at Merkel, Electra rolled over Bridgeport, 34-13. The Tigers also own victories over

Bowie and Paducah.

Haskell stands 2-1 for the season, with a win over Seymour and a loss to Munday to go with last week's win at Merkel.

While Haskell coach Nelson Coulter was glad to have the victory at Merkel, he hasn't taken much time to enjoy it as he attempts to prepare his team for the invaders from Electra. "Except for one player, they're the same team on offense we played last year," said Coulter of the Tigers.

"We'll see a lot of the same things we saw at Merkel," said Coulter, "but by a better team." He was referring to a lot of stunting and an assortment of formations which gave the Indians plenty of trouble at Merkel, especially in the first half.

The coach also said that Electra has been able to keep the other team's offense off the field by grinding out yardage and controlling the ball.

On defense, the Tigers have six sophomore starters who are getting better every week.

Haskell played its best offensive game last week. The Indians netted 237 yards on the ground and another 132 in passing. A penalty wiped out one Haskell touchdown and a couple of dropped passes prevented two more.

Coulter said quarterback Chan Guess played his best game ever as he passed for one touchdown and ran for the other.

Defensively, he said the Indians played pretty well, especially in the second half when Merkel netted only 27 yards rushing. The coach was disturbed, however, that the Badgers were able to break several long runs when it appeared they had been stopped.

One of the bright spots of the game was the performance of Davis Chapman who replaced the injured Robert Swann at nose guard. "He did a real good job," said Coulter.

After this week, the Indians will have only more non-district foe, that being Rotan which comes here next week. Then it will be time for the district campaign, which begins here in two weeks when the Hamlin Pied Pipers come to town.

INDIVIDUAL STATISTICS

Merkel Game

Rushing: Billington 14-113; Guess 15-96; Dever 2-11; Shaw 2-8; Reid 1-7; Johnson 4-2.

Passing: Guess 11-22-2 132 yards.
Receiving: Dever 1-55; Alvarez 4-38; Reid 3-23; Johnson 1-9; Billington 2-7.

Weekend rain measures 5.04

It was wet in Haskell last weekend.

Officially, Saturday and Sunday rainfall totaled 5.04 inches, said Sam Herren, official weather recorder. Several home gauges measured around 7 inches and some outlying areas reported even more.

Ticket holders must present season passes

All season ticket holders are requested to present their season passes as they enter the reserved seating section at Indian Stadium.

No person without a season ticket will be admitted to the reserved section. All children, except for preschoolers who sit in parents' laps, must have reserved seat tickets to enter the section.

The policy is designed to reduce traffic flow, confusion and loss of seating accommodations for season ticket holders. It is hoped the procedure will ensure the enjoyment and safety of all spectators.

In addition, all football tickets sold at the gate are \$3. Advance student tickets are \$2. Advance student tickets are sold in the high school office the week of the game until 2:35 p.m. on Friday.

Food Festival

Participating in the Food Festival of the American Heart Association at The Drug Store last Wednesday were these members of the Home Economics Committee of the Extension Service. From left, they are Frances Fischer, Hazel Thomas and Mildred Robertson. The women served healthful snacks.

City to spend less next year for water

The City of Haskell's monthly demand charge for water next year will be \$13,033.33, a little more than \$900 a month less than this year's charge of \$13,984.00.

City administrator Robert Baker told the City Council last week that Haskell used 46 percent of the water consumed by the four member cities of the North Central Texas Municipal Water Authority. The monthly demand charge for next year (beginning Oct. 1) is based on the usage this year.

Only one person showed up for the city's public hearing to consider street improvements in the southeast part of town. The council tentatively agreed that about 30 blocks of paving will be included in the proposed project. After a second public hearing Oct. 25, required by law, the city will finalize an application for a \$250,000 grant from the Department of Commerce. The city will be required to put up 15 percent of the grant amount in cash and/or in-kind consideration.

In other action at last week's council meeting, the council:
--Accepted a bid of \$316 from Jim Williams to buy a used lawn mower from the city. Williams was one of six bidders.

--Approved recommendations of the Zoning Board to allow the placement of two mobile homes in residential areas. One request was from Kayla Pannell to place a mobile home in the 300 block of Avenue B East and the other was from Gary Hawkins for a mobile home at South 3rd and Avenue C East.

--Heard a report from Mayor Greg Melton on a drug task force meeting he attended recently in Abilene.

--Voted to hire an attorney as needed to handle city legal business instead of having a regular city attorney on a retainer basis.

--Learned from Baker that Dowell Schlumberger, an oil well service company, has donated a 1,500-gallon tank trailer to the city. Baker said the trailer will be modified and used as a water truck.

Funds OK'd for ramp at Miller

The Texas Parks and Wildlife Department has approved \$205,313 in matching funds for construction of a boat ramp at the Miller Creek Reservoir.

Word of the approval was received last week by the North Central Texas Municipal Water Authority.

Since federal funds are being utilized for the project, the grant must be approved by the U.S. Fish and Wildlife Services.

Final designs, specifications and construction drawings will be prepared by Freese and Nichols Engineering in Fort Worth when contracts for the grant are received.

Catalog dedicated

Fair board member Alice Yates presents a 1988 fair catalog to Lou Gilly, to whom the catalog was dedicated.

1988 Haskell County Fair Queen candidates

Couple renews marriage vows

On Sept. 3, 1988, their first anniversary, John and Monica Childs of Midland renewed their marriage vows in the First Assembly of God Church in Midland with Raymond Schaeffer, pastor, officiating.

Church organist Sandy Sullivan played and sang love songs. She played "The First Time Ever I Saw Your Face" as Mr. and Mrs. Childs approached the altar. The chancel was flanked by heart-shaped candelabras with rose candles.

Mr. and Mrs. Childs wore vintage clothes purchased in a classic clothing store in Midland. Mrs. Childs also wore a pearl head band and carried a bouquet of magenta and white roses. For something old, she wore a ring belonging to her maternal great-great-grandmother, her head band and shoes were new and she borrowed a bracelet from her maternal grandmother and wore a blue garter.

Mrs. Childs' attendant was her sister, Lucy Stillwell of Odessa, who wore a street length dress of magenta. Flower girl was Julie Stillwell, niece

of Mrs. Childs. Her dress was lace over rose and she carried a basket of silk open roses and rosebuds.

Ushers were Flint Nanny, brother of Mrs. Childs, and James and Jereld Childs, brothers of Mr. Childs.

A reception was held following the ceremony in the fellowship hall. Mrs. Childs' table was covered with lace over rose. A tiered cake and silver punch bowl were centered in Mrs. Childs' and the attendants' bouquets. Serving were Suzy Lundy, aunt of Mrs. Childs, and Jona Foreman, sister-in-law, both of Odessa.

Mr. Childs' table was covered with a rose cloth. A heart-shaped chocolate cake and coffee were served by friends, Vanessa Sims and Machele Mitchell of Midland.

Mrs. Childs is the daughter of Charlotte Foreman of Odessa and Joel Nanny of Haskell, and granddaughter of Lois Redwine and Mr. and Mrs. Otho Nanny, also of Haskell. Mr. Childs is the son of Glenda Childs of Bryan and Wayne Childs of Big Spring, and grandson of Mrs.

Angelne Richardson of Carizozo, N.M., and Mrs. Isabel Childs of Liberty, S. C.

Mr. and Mrs. Childs live in Midland with their son, Alan Paul. Mr. Childs is employed by the Midland Fire Department and Mrs. Childs works part time with Associated Builders and Contractors of Odessa.

Out-of-town guests were Glenda and Tabitha Childs of Bryan; Mr. and Mrs. Wayne Childs of Big Spring; James Childs of Virginia Beach, Va.; Jereld Childs of Waxahachie; Mr. and Mrs. Joel Nanny, Ryan and Flint, and Lois Redwine of Haskell; Mr. and Mrs. Vern Foreman, Suzy Lundy, Mr. and Mrs. L. V. Foreman III, Jarryd and Bryan, Mrs. Jack Monzingo of Odessa and Mr. and Mrs. Tommy Cross of Carlsbad, N.M. All of the bouquets, corsages and boutonnières were hand-made by Mrs. Childs.

Shanna Mueller joins Kappa Chi

Shanna Mueller of Haskell will be a member of Kappa Chi at Western Texas College this school year.

Newly elected officers for the organization are Kevin Combest of Snyder, president; Kevin Pruitt of Snyder, vice president; Lori Tate of Hermleigh, treasurer; and Missy Trull of Snyder, secretary-reporter. Roy Rosson and Jim Judah are faculty sponsors.

Kappa Chi works to provide recreation and Christian fellowship for students at WTC and membership is open to all students.

Tidwell reunion draws 164

The family of D. G. and Carrie Tidwell met for the annual family reunion over the Labor Day weekend at the Civic Center with 164 present.

The three remaining children of Mr. and Mrs. Tidwell were present: Florence Larned of Haskell, Mary Jarman of Dallas and Edna Calloway of Kaufman.

The annual auction was held Sunday afternoon with many homemade items sold.

Everyone reported having a good time visiting and are looking forward to next year.

Towns represented were San Antonio, Haskell, Wichita Falls, Pasadena, Dallas, Fort Worth, Fairfield, Granbury, La Porte, Hurst, Nacogdoches, Plainview, Abilene, Branklin, Deer Park, Keller, Mesquite, North Richland Hills, Tahoka, Tyler, Gladewater, Mineral Wells, Dimmitt, Borger, Potosi, Port Neches, Port Archer, Vernon, Midland, Stamford, Chicago, Ill, Phoenix, Ariz., and Alamogordo, N.M.

Hazel Thomas host to Josselet club

The Josselet Extension Homemakers met Sept. 14 in the home of Mrs. Hazel Thomas. The hostess read the "Thought for Today."

Everyone read the TEHA prayer in union. Stressing home safety, roll call was answered by 13 members, each of whom told her most memorable household accident. There were two visitors present, Mrs. Connie Pace and Mrs. Karen Brown.

The minutes of Aug. 9 were read and approved as read. Hazel Thomas, club treasurer, gave a report of the club's finances.

A council report was given by Margaret Jones. She reported on the fabric sale and on the fact that the club will be host for the September council meeting. The booth at the County fair was discussed with ideas thrown out for discussion. The

Josselet booth will be entitled "Exercise and Weight Reduction." A vote was taken by secret ballot for "Woman of the Year."

The program concerning the construction and decoration of T-shirt dresses was given by one of the visitors, Mrs. Connie Pace, with Mrs. Karen Brown acting as a model and helper. It was very informative and interesting and was enjoyed by all.

Those enjoying the refreshments served by the hostess were Margaret Wall, Margaret Jones, Gladys O'Neal, Martha Toliver, Hazel Thomas, Mildred Robertson, Eloise Perrin, Reatha Mullins, Flo Holder, Sara Hodge, Phylecia Bailey, Edna Anderson and Mary Abbott.

Edna Anderson's name was drawn for the door prize.

Crop insurance details explained

The crop insurance program announced for 1989-crop winter wheat will enable producers in Haskell County to tailor a policy to their own needs and budgets, says the area claims specialist for the Federal Crop Insurance Corporation.

Ross Smith said the coverage

options permit selecting both the yield guarantee and the amount of the indemnity to be paid per bushel in the event of a crop loss.

The streamlined policies also make it easier for wheat growers to obtain production guarantees based on their own previous yield experiences. A record of high yields increases the maximum amount of protection, Smith says.

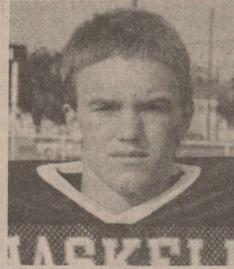

Until now, producers have had to provide detailed, year-by-year records to qualify for yield-based production guarantees. Under new rules, only a signed yield certification statement is needed, along with records that can be supplied on request.

The deadline to apply for insurance on wheat is Sept. 30. But Smith suggests that interested producers should apply as early as possible to provide agents with time to determine the most favorable and affordable level of available coverage.

Texas economy is improving

The Texas economy continued to improve in August, with the statewide unemployment rate at 6.7 percent. Statistics released this week by the Texas Employment Commission show the lowest August unemployment since 1985.

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOVEMBER 8, 1988

PROPOSITION NO. 1 ON THE BALLOT

Senate Joint Resolution 8 proposes a constitutional amendment providing that when the federal government reimburses the state for expenditures of state funds dedicated to acquiring rights-of-way and for constructing, maintaining, and policing public roadways, such federal funds must also be used for those purposes.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment and/or clarification providing that federal reimbursement of state highway dedicated funds are themselves dedicated for the purpose of acquiring rights-of-way and constructing, maintaining, and policing public roadways."

fer monies from the fund into the general revenue fund to alleviate a temporary cash shortage in general revenue. The legislature could make appropriations from the fund on approval by a three fifths vote of each house to make up the difference between anticipated general revenue and appropriations. On approval of two thirds of the members of each house of the legislature, the legislature could appropriate monies from the fund for any purpose.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment establishing an economic stabilization fund in the state treasury to be used to offset unforeseen shortfalls in revenue."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 5 proposes a constitutional amendment that establishes the Texas growth fund. All investments of the Texas growth fund must be directly related to furthering economic growth and employment opportunities in Texas. At least 50 percent of the fund must be invested in equity and/or debt security for the initial construction, expansion, or modernization of business or industrial facilities in Texas. Not more than ten percent of the fund may be invested in venture capital investments. Of the funds available for venture capital investments, not more than 25 percent may be invested unilaterally, and the remaining investments must be matched at least equally by funds from other sources. The Texas

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 2 proposes a constitutional amendment to establish an economic stabilization fund in the state treasury. The fund would consist of one half of the unencumbered balance of general revenues at the end of a biennium and three fourths of the difference between the net oil and gas production taxes received in a fiscal year and the net oil and gas production taxes received in the 1987 fiscal year. During any fiscal biennium, the amount in the economic stabilization fund could not exceed 10% of the total deposited in general revenue in the preceding biennium.

The state comptroller and the state treasurer could decide to trans-

growth fund will be managed by a board of trustees consisting of four members appointed by the Governor and one member from and elected by the membership of each of the following: The Board of Regents of the University of Texas System; The Board of Regents of the Texas A&M System; The Board of Trustees of the Teacher's Retirement System of Texas; The Board of Trustees of the Employee's Retirement System of Texas; and the State Board of Education. The trustees may set the investment policy of the fund, enter into investment contracts, and take any action necessary for the creation, administration, and protection of the fund. The amendment authorizes the Board of Regents of the University of Texas System and the State Board of Education, in managing the permanent university fund and the permanent school fund, to acquire, exchange, sell, supervise, manage, or retain any kind of investment, including investments in the Texas growth fund. The fund will be phased out after the tenth anniversary of its creation, but the Legislature may create a second growth fund by a two thirds vote of each house.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the investment of the permanent university fund, the permanent school fund, and public employee retirement systems in the Texas growth fund created by the amendment, which will directly create, retain, and expand job opportunity and economic growth in Texas."

COUNTY HEALTH FAIR

CALL 864-2546 FOR APPOINTMENT

According to the American Cancer Society, one out of ten women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as the result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate.

A mammogram can detect a cancer this small, even before it can be felt.

Appointments may be made by calling 864-2546.

The Mobile Breast Cancer Detection Unit will be in Haskell on Friday & Saturday at the Fair.

The American Cancer Society has established guidelines for a mammography in asymptomatic women. (Women who have no symptoms of disease). Those guidelines have been adopted by the American Academy of Family Physicians, American College of Obstetricians and Gynecologists, and The American College of Radiology. Those guidelines are:

- 35-40 years of age - One baseline mammogram.
- 40-50 years of age - A mammogram every 1-2 years depending on breast type and risk factor.
- 50 years of age and over - An annual physical examination and annual mammogram.
- Asymptomatic women under 50 years of age with

significant high risk factors should be examined at appropriate intervals. These risk factors include previous breast cancer and family history of cancer.

A symptomatic woman should have a mammogram at any age when she experiences a mass, nipple discharge, skin changes or unexplained breast pain.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination.

The charge for the screening mammogram is \$50.00. The Unit accepts cash, check, VISA, MasterCard and American Express.

For more information or to make an appointment call 864-2546.

Activity Director

Thanks to the East Side Baptist for the wonderful lunch and fellowship last Thursday. Residents look forward to all this month. RSCH had 8 to go: Gussie Ford, Oscar Tooley, Joe Teague, Frieda Carter, Virgie Bledsoe, Laura Parker, Anna Roberts and Judy Wolsch. Afterwards, everyone at RSCH were given manicures in preparation for the Country Band Thursday night. Good music and dancing by several was enjoyed.

This Thursday, residents will be kept busy with the monthly birthday party and the Sweethome Singers.

We said goodbye to Isla Corley Monday and were happy for her to be able to go home. Welcome back to Henry King who has had a lengthy stay in Abilene. Also welcome to

You're never too old to quit blowing smoke.

RSCH Era Davis.

Gladys Potter and Loretta Dawson from Cedar Hills visited Stella Glass; Jan, Eudora Bradley and Beth Woods visited Elsie Eastland; Lodena Tooley Cove visited O. W. Tooley; John Neeley visited with Lucy Harrell.

Unstable oil prices hurt Texas

The Texas economy will continue to be sluggish until stability in the price of oil is implemented, Texas Railroad Commissioner Kent Hance said this week.

"Oil prices have been on a downhill slide for more than a year," said Hance. "One week prices are up and the next week prices are down. The Texas economy will not turn around until stability returns to the energy industry."

Art club starts off new year

A Victorian tea and meeting was held by the Brazos West Art Association Sept. 12 as the club year got off to a good start with a large attendance of members and guests.

Discussion included that of area art shows to enter and attend and the possibility of workshops to be sponsored by the club.

Everyone is urged to enter their art in the Haskell County Fair. All art will be in the Corral Building. The club will have a potpourri of art and crafts in part of the Corral Building for public viewing and purchasing.

Guest artist was Betty Gibbs of Paducah who brought a selection of her work and talked on using oil paint on canvas pastel paper.

Tea was served by Gladys O'Neal, Iva Lee Gipson and Omitene Amonnet from an elaborate setting of antiques and culinary specialties.

Next meeting will be at 7 p.m. on Oct 12 and the public is welcome to attend. In the meantime, "Come to the Fair."

OBITUARY

Ida Patterson

Ida Matthews Patterson of Tyler, former long-time resident of Haskell, died Sept. 12 at Mother Francis Hospital in Tyler. She was 83.

Graveside services were held Friday morning (Sept. 16) at Willow Cemetery with Dr. Troy Culpepper officiating. Burial was under direction of Holden-McCauley Funeral Home.

She was born Oct. 18, 1904, in Granbury, the daughter of Cary Wood Matthews and Mattie Lee Moulder. She came to Haskell County from Granbury in 1920 and lived here until she moved to Tyler in 1979.

She was married to Homer Franklin Patterson in Haskell on Nov. 23, 1924. He preceded her in death on Jan. 2, 1969. She was a member of the First Baptist Church of Haskell.

Survivors include a daughter, Mrs. Jeannie Stephens of Tyler; three sisters, Ada Gaither of Fort Wrth, Mrs. Louis Newsom of Odessa and Ruby Alvis of Haskell; one grandchild and one great-grandchild.

Unclaimed property nets \$47 million

State Treasurer Ann W. Ricahrds last week reported that the state collected more than \$47 million this fiscal year in unclaimed property such as abandoned checking accounts, safe deposit boxes, securities and utility deposits.

At the same time, the treasurer transferred \$25 million in non-tax revenue to state coffers that accrued as interest earnings on \$1.25 billion in cash management notes issued a year ago.

Federal grant approved for area agency

The Aspermont Small Business Development Center which serves Haskell, Jones, Kent, Knox, Stonewall and Throckmorton counties will receive \$173,755 in federal funding, U.S. Sen. Phil Gramm announced last week.

Funding will be provided by the Urban Mass Transportation Administration, a agency within the U.S. Department of Transportation with jurisdiction over mass transit issues.

The ASBDC grant is one of seven approved for West Texas community-based organizations.

"Most of the funds will be used to improve the access and safety of bus and van services in rural areas," Gramm said.

Steers roll on

Rochester remained unbeaten Friday as the Steers took a 34-14 victory over Rule in an all-Haskell County shootout. Rochester now stands at 3-0.

The Steers struck first in the opening period when Kevin Conner went over from 2 yards out and Danny Tibbets kicked the extra point.

Tibbets ran 5 yards for another score and Conner clicked off a 14-yard touchdown run in the second period before Rule got on the board with a 14-yard pass from Cody Wilson to Paul Leonard to make the halftime score 22-6.

Rochester struck for two more touchdowns in the third quarter, the first coming on a 15-yard run by Conner and the other on a 22-yard pass from Brad Bevel to Tibbets.

Rule got the game's final touchdown in the fourth quarter when Keith Vanderbilt ran 64 yards for a score.

Conner was Rochester's top ground gainer with 127 yards in 22 carries. Corky Speck picked up 47

yards in 15 carries. Bevel was 9 of 11 for 105 yards in passing and Tibbets caught 5 passes for 63 yards.

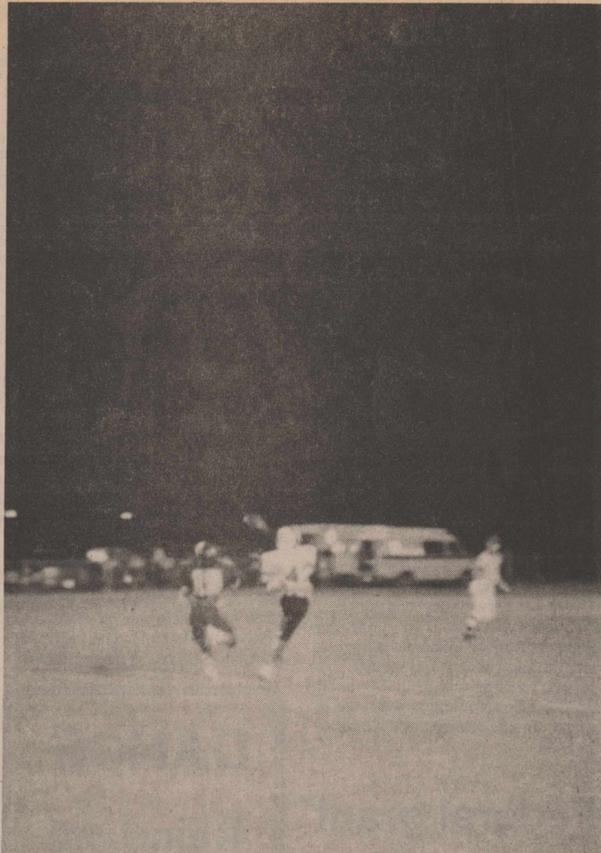

Defensively, Morgan Walker was credited with 9 tackles and a fumble recovery; Tibbets 10 tackles and a fumble recovery; Bevel 9 tackles, a fumble recovery and an interception; and Robert Ortiz 8 tackles.

This week Rochester will play at Newcastle.

Favorite colors

Not satisfied with your tomato crop? The solution may be as simple as changing the color of mulch in the garden.

According to *National Wildlife* magazine, researchers have found that vegetables respond favorably to particular wavelengths of reflected sunlight. Tomato plants grown over red mulch produced 20 percent more top quality tomatoes than those grown over black plastic. Potatoes and green peppers, on the other hand, show a distinct preference for white mulch.

Touchdown

Haskell's Jonathon Dever hauls in a pass from Chan Guess and then takes it in for a 55-yard pass and run touchdown for Haskell's first score against Merkel Friday night. Merkel's Davy DeLeon is the defender.

Paint Creek wins Friday over Goree

By Monica Howeth

Three first-quarter scores and a superb overall defensive effort gave the Paint Creek Pirates their first victory of the season Friday.

The game opened up with the Pirates playing defense. After three downs and a punt, the Pirates marched down the field with three passes and scored first with a 21-yard pass from Daniel Acosta to Kelly Williams. The score came with 7:38 remaining in the first quarter.

After the kickoff and two plays by Goree, Pirate junior Johnny Hoadley came up with a Goree fumble. The next play Acosta hit Williams for 24 yards this time and with 6:22 left in the quarter the Pirates were up 12-0.

Goree then received the ball and got their first first down. The drive stalled out after that and following a 30-yard punt return by Pirate senior Michael Guerrero, Acosta hit sophomore Dane Morgan on a 24-yard scoring strike to put Paint Creek up 18-0.

Goree finally scored through the air early in the second quarter. The Pirates retaliated with senior Guerrero taking it on 12-yard run following a 42-yard scramble by quarterback Acosta. Acosta was hit on that play after falling out of bounds and suffered a hyper extended elbow and

missed the rest of the game. Before leaving with 3:27 left in the second quarter he had piled up three rushes for 58 yards, completed three of five passes for 164 yards and had seven tackles.

Senior Michael Guerrero then took control and scored once in each of the next two quarters thus making up the 36 total points.

Guerrero on the night scored three times, caught one pass for 22 yards, carried the ball 16 times for 175 yards, had 17 tackles and one pass interception. More than that though, through his leadership he caused the players around him to play beyond their potential after the loss of Acosta.

Other stats included: Chris Cockerell, 9 tackles; Johnny Hoadley, 6 tackles and a fumble recovery; Dane Morgan, a touchdown, 3 receptions for 82 yards; Kelly Williams, 2 touchdowns, 5 receptions for 70 yards and 8 tackles; Tanner Childress, 8 tackles; Rodney Medford, 6 tackles; George Mayen, 8 tackles; Mo Green, 3 tackles; Rodney Tsoodle, 3 tackles; and Roman Morgan, 3 tackles.

Next week Paint Creek plays at Hermleigh's homecoming. Come out and watch.

Haskell dumps Merkel, 15-14

Add 'em up:

- A 55-yard touchdown pass,
- a 27-yard touchdown run,
- a one-point conversion kick,
- a pass for a 2-point conversion.

Those were the statistics of Chan Guess in Merkel Friday night, resulting in 15 points, exactly the number the Haskell Indians needed to paste a 15-14 defeat on the host Badgers.

The victory over the Class 3A Badgers boosted the Indians' 1988 record to 2-1.

Twice the Indians fell behind, and twice Guess responded. After Merkel had taken a 7-0 lead on the final play of the first period, the Indian quarterback uncorked a 55-yard scoring pass to Jonathan Dever and then booted the bonus point to tie the score at 7-7.

And after the Badgers scored again to take a 14-7 lead into halftime, Guess led his team 67 yards for a score following the second-half kickoff, getting the final 27 on a perfectly executed option. He then passed to Derrick Billington for the 2-point conversion, which as it turned out, spelled victory for the Indians.

Except for a couple of dropped passes and a Guess touchdown nullified by a penalty, the Indians might have posted a more one-sided verdict.

Merkel took the opening kickoff back to its 30 and in nine time-consuming plays moved all the way to the Haskell 11, but two passes fell incomplete and the Indians took over.

They were able to pick up two first downs, but the drive stalled at the 40 from where Guess lofted a 60-yard punt into the end zone.

With quarterback Kenneth Jowers clicking off a 36-yard run, the Badgers moved to a first down at the Haskell 33. Two running plays netted just 4 yards and on third down Jowers threw incomplete. With fourth-and-6, Ray Cobb broke loose for a 29-yard touchdown run as time ran out in the first quarter. Corey Hines converted to give the hosts a 7-0 cushion before the Indians had their second possession.

After being unable to advance the ball on their next possession, Haskell had to punt the ball to Merkel which took over on its own 42. With a 14-yard gain on a reverse by James Dayhoff being the big gainer, the Badgers moved to the Haskell 34, but from that point Jowers fumbled and the Indians' Scottie Martin recovered at the 38.

Guess ran 7 yards to the 45 and on the next play, he found Dever downfield and hit him with a perfect strike. The Indian receiver hauled it in and raced into the end zone. Guess' extra point boot tied the score at 7-7 with 7:26 to go in the half.

After an exchange of possessions, Merkel gained possession at the Haskell 38 when Jowers recovered Billington's fumble. An interference penalty against Haskell and an 18-yard run by Davy DeLeon helped move the ball to the 4-yard line from where Jowers took it over two minutes before halftime. Hines' extra

point brought the score to 14-7.

Rodney Johnson returned the ensuring kickoff to the Haskell 22. Guess connected on three consecutive passes, 5 yards to Josh Reid, 9 yards to Alberto Avarez and then 12 yards to Reid to bring the ball out to the 48. After an incompletion and a 12-yard gainer by Billington, Guess passed to Alvarez again, this one for 9 yards. But on the next play, his pass was intercepted so the Indians had to go into intermission with a 7-point deficit.

After the second-half kickoff gave the Indians possession at their own 33, the Haskell offense came to life. Guess picked up 16 and then 2 yards. Jonathon Dever made 6 and Billington 4. After Johnson lost a yard, Billington made 6 and then 5. Guess picked up 2 to the Merkel 27, and then on the next play the Indian quarterback kept on an option play and ran it in for the touchdown. Guess then passed to Billington for 2 points and the Indians had their first

lead of the night at the 8:50 mark of the third period.

Merkel made a serious threat after taking over on its 30 following the Indian kickoff. A 28-yard pass from Jowers helped move the ball to the Haskell 34, but the Indians' Bo Watson pounced on a Jowers fumble 10 yards behind the line of scrimmage at the 44.

Guess passed 12 yards to Alvarez, picked up a yard, threw 6 yards to Reid, threw incomplete and then passed 5 yards to Billington to the 32. Johnson picked up 3, Fred Shaw made 1 and Guess added 8 more to give the Indians a first down at the 20. A penalty moved the ball back to the 25. After two incompletions, Merkel's John Walsch intercepted a pass to put down the threat.

The Indians got the ball next at their own 48 in time for one play in the third quarter, a 7-yard run by Reid on a reverse. Guess added 7 more on the next play to give Haskell a first down at the 38. One yard by Guess,

Indian 32 and made Haskell realize the game was not over. But a couple of penalties against the Badgers moved the ball back to the 47. With 4 seconds remaining, Jowers faded back and threw a hail Mary toward the end zone, but the Indians' Reid intercepted it as time ran out.

Haskell hosts first rehab stock sale

The first of eight livestock sales which benefit West Texas Rehabilitation Center will be Saturday at Haskell Livestock Auction Co.

Other sales scheduled in conjunction with WTRC's annual Cattlemen's Roundup for Crippled Children will be in Abilene, Coleman, Stephenville, Junction, San Saba and Brownwood. "Eighty head of cattle and horses are among the early arrivals for the first sales," said James Alexander of Abilene, CRCC general chairman.

Donated livestock are collected at

designated points in each area, and sale dollars are used to provide outpatient treatments for the 11,000 handicapped children and adults who will be treated this year at WTRC facilities in Abilene and San Angelo.

"Cattlemen's Round-up is a vital funding event for our organization," said Shelley V. Smith, WTRC president/executive director, "and also a symbolic effort by livestock producers who consistently have shown their support despite problems of their own."

Those wanting to make donations of livestock or cash should contact the CRCC chairman in their area or call WTRC in Abilene at (915) 691-7200.

Heart workers

Volunteers for the American Heart Association were passing out literature, recipes and diets to customers of Modern Way last Wednesday to emphasize wise eating patterns. The workers, from left, were Norma Richardson, Donna Spikes and Debbie Solomon.

O'Brien homecoming scheduled for Oct. 8-9

The 1988 O'Brien homecoming will be Oct. 8 and 9.

Registration will begin at 10 a.m. Oct. 8 (Saturday) in the O'Brien school.

The business meeting will begin at 2 p.m. in the O'Brien cafeteria. The homecoming queen and king will be recognized and classes will be recognized by years.

A memorial program is planned for the afternoon, to be followed by music and visitation, and an evening meal consisting of stew, cornbread, dessert and drink. Places for games and visitation will be announced at the afternoon meeting.

A homecoming dance will be from 9 p.m. to 1 a.m. in the Benjamin Community Center with the band, "Country Gold," playing.

Church services will be at 11 a.m. Sunday (Oct. 9) in the O'Brien Baptist Church with the Rev. Travis LaDuke in charge of the preaching. Don Roberts will be in charge of the music, accompanied by Linda Underwood, pianist, and Sue Stephens, organist.

Charles Massegee to lead revival here

Charles Massegee, renowned evangelist from Ranger, will be preaching in revival services at the First Baptist Church in Haskell Oct. 9-13. Services will begin at 6 p.m. on Sunday, Oct. 9, and at 7 p.m. on weekdays.

"We are pleased to have secured Brother Massegee's services for this revival," said the Rev. Jimmy A. Turner, pastor. "I am convinced that his preaching will make a difference in the future of our church and of our city."

Massegee is in great demand nationally. Due to his popularity, his crusade must often be booked well in advance.

Massegee was born in Ranger where he lived until graduating from high school. He was literally "raised in church" since his father was pastor of the Second Baptist Church of Ranger and the parsonage was located on the third story of the church

Charles Massegee

building. Under the influence of Christian parents, he was led to accept Christ as his savior at the age of 9.

He devoted his talents to God's service throughout his high school years and as a star football player at

Hardin-Simmons University. When he was 18, he accepted God's call into evangelism.

Massegee's commitment to evangelism was sealed as a college student in an experience whose impact has never left him. "In an evening of intense prayer," he says, "God showed me the direction my life must take. Ever since then I have known that evangelism is my life. I must preach or die."

Massegee has been in full-time evangelism since 1953. He has become a major figure in the Southern Baptist Convention, serving as president of the Evangelists' Conference for three consecutive terms beginning in 1969. His revivals have taken him into almost every state in the union.

While he is excited about the spiritual awakening in this age, he maintains no illusions about the forces of evil at work in the world. He says, "The church is now facing the hardest battle in its history. To combat the outpouring of God's spirit in these days, Satan is mounting a great onslaught against the church."

"The days of mediocre Christianity are gone. No longer can a Christian survive spiritually by just attending church once or twice a week and forgetting about his religion the rest of the time. Consequently, we are seeing Christian people react in one

of two ways: either they give up and lose their interest in the things of God, or they become strong, dedicated witnesses for the Lord. The battle between good and evil in the world today is producing some of the boldest Christians in history."

Massegee's dynamic and animated style of preaching reflects his attitude toward Christianity: "People are sick and tired of dull, levitical religiosity. Many have tried to be pious. They go to church, they pray, they read the Bible. But they find religion in itself to be unsatisfying. What we all need is a personal relationship with Jesus. Only that can give life to our religious practices. Christianity is not a legal system of do's and don'ts, but is an exciting of fulfilling walk with the Lord."

The public is encouraged to hear Massegee during the revival.

Cholesterol screening is offered

The Wichita County chapter of the American Red Cross will offer cholesterol screening between 9 a.m. and 4 p.m. Saturday at the Haskell Memorial Civic Center. A fee of \$5 is requested to cover cost of supplies and equipment.

Those who are screened will undergo a simple, three-minute test to determine whether their cholesterol level is above levels recommended by the American Heart Association and National Institutes of Health (NIH).

Scientific studies accomplished by NIH indicate that people with high blood cholesterol are more likely to develop coronary heart disease than those with lower cholesterol levels, and that the chance of developing heart disease in proportion to the amount the cholesterol is elevated.

Rodney Medford heads PC FFA

Garland Medford was elected president of the Paint Creek chapter of the Future Farmers of America when members met Sept. 8 at the ag shop.

Other officers: Rodney Medford, vice president; Cyndi Moseley, secretary; Monica Howeth, treasurer; Chris Cockerell, reporter; Roman Morgan, sentinel; Kelly Williams, student advisor; Johnny Hoadley, Francine Barnes and Chris Cockerell, refreshment committee members.

After the meeting, homemade chocolate and vanilla ice cream was served by the refreshment committee.

FFA members are looking forward to an exciting year as they already are planning banquets, parties, fund-raising projects and other activities.

One-third of Haskell County residents below poverty line

The number of poor people in Haskell County rose by 805 over the past seven years while the number of poor Texans climbed by about 1 million.

An estimated 32.8 percent of Haskell County residents, or 2,390, were living below the federal poverty line in 1987. That's up from 20.8 percent, or 1,585, in 1980.

The figures come from the Texas Department of Human Services and the Texas Department of Health as reported Friday by the Harte-Hanks Austin bureau.

Haskell County's 32.8 percent below the poverty line was just slightly below Knox County's 33.9 percent, tops in the area.

Under federal poverty lines, a family of four with an income of less than \$11,200 is considered impoverished.

Haskell County's rate is far above the 18.4 percent for the state as a whole. Statewide, however, the number of people below the poverty line climbed to 3.06 million in 1987, compared to the 1980 figure of 2.03 million.

Poverty lines climbed in 235 Texas counties, fell in 18 and remained the same in one. Rural areas showed the largest escalations in poverty.

By region, South Texas led the state in poverty, followed by the South Plains and East Texas.

Presidio County, in Southwest

Texas on the Mexican border, showed the highest rate of poverty at 55.1 percent. On the other end, Loving County, in a remote West Texas area and with a population of only 114, showed no poverty.

The data will be used for state aid distribution and also to "help get the story across with the Legislature of the needs here," said Sherron Heinemann, spokesperson for the Department of Human Services.

The state's troubled economy, particularly in the oil industry, probably helped raise the rate, she said.

Children are most hurt by the increase in poverty, said Weston Ware, who represents the Texas Baptist Christian Life Commission. "Texas for children is a tough place to live," he said. "Only one of four poor children in the state are on welfare or Aid to Families with Dependent Children. Many of the parents are the 'working poor' who work 40 to 60 hours a week."

Poverty figures for area counties are:

Baylor, from 652 people, or 13.4 percent, in 1980 to 980 people, or 19.1 percent in 1987.

Eastland, from 3,096 people, or 16.7 percent, in 1980 to 4,670, or 22.1 percent in 1987.

Fisher, from 955 people, or 16.5 percent in 1980 to 1,440, or 25.2 percent in 1987.

Haskell, from 1,585 people, or

20.8 percent in 1980 to 2,390, or 32.8 percent in 1987.

Jones, from 2,765 people, or 16.4 percent, in 1980 to 4,170, or 22.2 percent, in 1987.

Kent, from 210 people, or 18.6 percent in 1980 to 320, or 30.8 percent in 1987.

Knox, from 1,194 people, or 22.9 percent in 1980 to 1,800, or 33.9 percent in 1987.

Shackelford, from 470 people, or 12.2 percent, in 1980 to 710, or 16.6 percent, in 1987.

Stonewall, from 388 people, or 16.5 percent in 1980 to 580, or 23.5 percent in 1987.

Throckmorton, from 392 people, or 19.3 percent, in 1980 to 590, or 25.3 percent in 1987.

Fidelis class has long history

The original Fidelis Sunday School class of the First Baptist Church of Haskell was made up of business, professional and working women with the motto "Once a Fidelis---Always a Fidelis."

"An Evening Prayer", (words by C. M. Battershy and music by Chas. W. Gabriel), the theme song "of gospel singer Edward Mac Hugh, was chosen as the class song and was sung each Sunday morning before beginning the lesson.

Under the guidance and teaching of Mrs. R. J. (Hazel) Reynolds, Mrs. J. F. (Jewel) Cadenhead Sr., Mrs. H. R. Jones (affectionately called "Miss Connie"), Mrs. R. L. (Maye Bell) Foote and Mrs. R. C. Couch Sr., the class carpeted, purchased chairs and air conditioner for the room assigned the Fidelis class in the annex built just north of the old church which was located on the same corner as the present building.

The class project was chosen: To send a native girl to school each year in Brazil where Maye Bell Taylor, a member of the Fidelis class, was serving as a missionary. Several individual members of the Sunday School class paid for girls other than the one selected to receive the class' annual scholarship. At this time the fee was \$25 for each girl each year.

Years later in a futile attempt to standardize the Sunday School the members of the Fidelis were placed in other classes. (The class has been made up of all ages, the only requirement being that members worked). Some moved away but

always there was a bond that existed among the original class and a desire to keep in touch among active, inactive or associate and former members. This became a reality in 1960 through the efforts of Artie Mae Burkett and Edna Mae Lyles. After the death of the teacher, Mr. R. J. Reynolds, the group met and organized the Hazel Reynolds' Memorial Association for the purpose of continuing the fund started earlier for the education of a Brazilian girl to be selected by Maye Bell Taylor as long as she was active in the foreign mission field in Brazil. The annual cost had increased, but the group gave generously and two girls were sent to school each year. The group met annually for this project until Maye Bell retired and returned to Haskell to live.

She taught the Fidelis class eight years (five of the original class remain in this class) following her return to Haskell First Baptist Church. At the time of her retirement a permanent annual scholarship was set up by the organization for a Brazilian girl at the school where Maye Bell taught in Brazil.

Upon the death of R. J. Reynolds the name of the organization was changed to include the former teacher's husband's name and became "The Hazel and Robert Reynolds Memorial Association" and remains

that way. Members, active, inactive, and former members continued to meet annually with as many out-of-town members attending as possible. At a very important business session, with legal consultant's advice and help, the organization invested funds from members' dues, contributions and memorials in the Baptist Foundation and turned to other projects after Maye Bell Taylor's retirement.

Among these projects: A generous donation to the local Civic Center, a Baldwin upright studio piano for the choir room at the First Baptist Church with a plaque stating the donor and the year given, and two \$500 scholarships have been established for senior students from Haskell High School to be presented each year. The first scholarships locally were given to graduates of the 1986-87 classes.

So, the motto "Once a Fidelis---Always a Fidelis" stands. The projects established by the Hazel and Robert Reynolds Association continue and the words from the class song, "An Evening Prayer," linger--- "O guide me, love me and my keeper be."

--Weinert--

by Myrtle Plemister
Weinert was the recipient of a resounding "bull-frog chorus" on Sunday, as the rains finally arrived, bringing more than six inches, possibly seven, in our area. There were no high winds, just a general gentle downpour for which we feel grateful. There was some flooding, some roads closed.
The damage to opened cotton is not determined yet but wheat and range land is greatly benefited. Those who had dry-sowed wheat are worried that broken terraces will cause problems.

Hurricane (or was it Hisicane) Gilbert brought some South Texas guests to Weinert. Scott and Linda Moody of Kingsville with Damon and Jason and Mrs. Ila Moody, arrived to spend the weekend with Linda's mother, Lucille Adams, and other relatives, after boarding up their home against the storm.

Mr. and Mrs. Cecil Edwin Jones of Amarillo were in town to visit friends and spent some time in the home of Mildred Guess.

Missy Teague of Haskell and her cousin Melissa Mayfield of Tyler spent the weekend with their great-grandparents, Clyde and Otie Mayfield while their dads, Jeff Teague and Forest Mayfield did some dove hunting.

Donnie Crump spent Friday and Saturday in Blue Grove and attended the Clay County Pioneer reunion with his parents, and other relatives.

Alton and Mildred Sanders returned safely from Hawaii on Thursday, from a Lay Renewal Revival meeting with six other Texans, held at the Kailea Baptist Church in Kailua, Hawaii.

While there, Mildred conducted a training workshop for leaders of the

Childrens classes. They report the attendance was good, interest was stimulating and the pineapple delicious. To prove it, they returned with a couple of crates of the fruit to distribute as gifts.

Eric Turnbow has been accepted into the U. S. Navy and is stationed at the Recruit Naval Training Center based at Great Lakes, Illinois near Chicago. His wife will remain in Wichita Falls while he is in basic training.

Eric is the son of Woody and Georgia Turnbow, and has been attending Midwestern University in Wichita.

Toby and Alice Yates, with grandson, Lane Murphy were weekend guests of their daughter, Linda and Ricky Wade with Taylor in Kermit.

Doris and Jerry Walker were in Wichita Falls on Sunday to visit their daughter, Cindy and Stacy Parrott,

Randy and Justin. The boys spent the weekend in Weinert.

Jerry and Wanda Hester with Stacy attended the Haskell-Merkel ballgame the past weekend. They were met in Abilene by their daughter, Laurie, who is a student at Tarleton State U. in Stephenville.

Darlene and Kerry Therywanger were here to visit her parents, Dale and Doris Carroll and to admire the Carroll's newly remodeled home.

Bob Wood and Roy Forehand, contractors have done a superb job in the remodeling.

Our sympathy is extended to the Hutchinson and the Curd families upon the decease of Ben Curd, son of Mrs. Price Curd of Haskell and husband of Jean Hutchinson Curd of Arlington.

Memorial services were held in Arlington on Friday with graveside rites in the Pleasant Valley cemetery on Friday afternoon at 4 p.m.

Sympathy is also extended to the Bob Woods, and to the Weinert

Community as we see the closing of the Weinert Grocery store.

The demolishing of the old barbershop building which has been the Maple Center for many years, is also a "sign of the times" for Weinert as we watch the gradual demise of our town.

Among the Haskell County Fair Queen contestants will be Shanna Murphy, daughter of Ed and Mary Murphy, who is being sponsored by Bill Wilson Motor Co. of Haskell

Also Tina Herricks, daughter of Rex and Tinka Herricks will be sponsored by Matlock and Associates Insurance Co. of Haskell. Congratulations to both girls.

Tina Briscoe, of Ft. Worth, was in town for a visit with her dad, Bill Briscoe. Tina has accepted a job in Ft. Worth.

Brenda and Kenneth Sanders, with Kent and Kole, were in Denton for the weekend for a visit with their son Gregg, who plays on the North Texas State football team.

They attended the game and watched NTSU beat the Arkansas

State team 49-21.

L. Q. Green of Snyder was in Weinert for a weekend visit with his daughter, Tinka and Rex Herricks, and granddaughter, Tina.

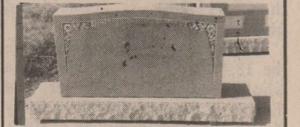

Have a nice day!

Rule getting face lift

(From Twin Cities News)
Downtown Rule is looking good with the beginnings of a new face.

Thanks to the efforts of Maxine Herttenberger and crew, many of the buildings downtown are being spruced

up with a new coat of paint. Maxine's dream is to have every building painted in time for the Rule Jubilee Oct. 1. Downtown also will look nice for the homecoming Oct. 28.

Slim Sorrells Park also is taking on a neat, clean appearance due to efforts of A. B. Arnett. Tables and barrels have been painted white and blue. A new water well helps with water to green up grass and trees.

Come time for Jubilee and homecoming, the efforts of all concerned will show some pride in the small town.

Entertainment for the Jubilee is shaping up nicely. Food booths inside the park as of this writing will be those of local civic organizations, the Eastern Star, drill team, Philadelphain Club and Booster Club.

Confirmed entertainment includes Imitation Stats of Seymour, Stonewall Senior Citizens Rhythm Band, Haskell County Squares, Hometown Harmonizers of Munday, Minor Chords of Munday, Top of Texas Tumblers of Haskell, the Drill Team and the High School annual staff of Rule.

The parade, which will begin at 2 p.m., will include floats, antique cars, riding clubs, Girl Scouts, Boy Scouts and more.

Anyone or any group which would like to be in the parade, entertain or have a food booth should contact A. B. Arnett.

Chicken sausage may help fat intake

Low fat is the way to go in today's diets, and a new chicken sausage could help lower fat intake at breakfast.

Sausage prepared from a combination of white and dark chicken meat and fat components from chicken or other animal components has the potential of providing a low fat breakfast sausage.

Sausage made from a combination of white and dark meat chicken, plus added fat, seems to be an acceptable product, said Fernando Gomez-Gonzalez, researcher with the Texas Agricultural Experiment Station.

"Chicken has not been used extensively as a breakfast sausage product before due to the lack of texture and fat needed for flavor," said Gomez-Gonzalez. "Mixing chicken meat and a small portion of fat from other meats creates sausages with adequate flavor, yet they are low in fat content and cost."

Four sausage formulations were evaluated to determine which fat species produced the most desirable sausage product when combined with chicken.

Lean chicken tissue was combined with about 10 percent added fat (either chicken, beef, pork or high oleic acid pork fat) to give a final fat content of 15-16 percent in all four sausages, Gomez-Gonzalez said. The sausage

products were then presented to a consumer taste panel to determine tenderness, juiciness, flavor and overall acceptability.

Sausage containing chicken meat and chicken fat was chosen to be as good as any other treatment. Normally, breakfast sausage contains about 35-40 percent fat. Also, when chicken fat is used, there is a better ratio of unsaturated fatty acids than with the other mixtures, said Gomez-Gonzalez.

"The combination of chicken fat (or other animal fats) creates an economical product low in fat and high in taste quality," said Dr. Dave Mellor, poultry marketing specialist with the Texas Agricultural Extension Service. "Also, the use of chicken dark meat will expand the market base for this product and benefit the poultry industry."

"This new chicken sausage may be the entry of poultry meat into the breakfast."

"DECISIONS MADE EARLY"

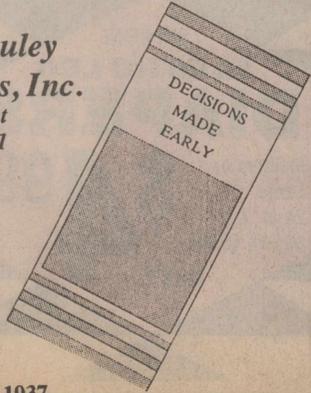

Many people plan for what might happen—fire, burglary, injury, and accidents. Now more and more people are planning for what will inevitably happen. It simply makes good sense to prepare for that which we can not avoid.

Pre-need funeral arranging allows one to control the type of service they would prefer, select a means of financing it, freeze the prices at to-days price, and save loved ones the anguish of deciding these matters at a later date. Really it is the loving thing to do for your family.

Simply come by or call and we will come by to see you.

Americans urged to cut fat in diet

The first Surgeon General's Report on Nutrition and Health declared war on fat in the national diet, but didn't give much specific advice to people who are waging the daily battle of the bulge.

Surgeon General C. Everett Koop's report, released July 27, calls on Americans to drastically reduce the amount of fat in their diets, citing its link to heart disease, stroke, cancer and diabetes.

The report supported recommendations already contained in the U.S. Department of Agriculture's Dietary Guidelines and those given by the American Heart Association and the American Cancer Society.

The major health organizations now advise Americans to reduce their fat consumption from about 37 percent of their total calories to 30 percent of their total calories.

"The problem for most people is not knowing that they should cut back on fat, but actually doing it," said Dr. Alice Hunt, a registered dietitian and nutrition specialist with the Texas Extension Service.

She said cutting down on

eliminating fried foods from your diet will significantly reduce intake of vegetable fats, but not remove them completely.

"Vegetable fats are also found in commercial baked goods, boxed and frozen prepared foods, salad dressings, chips and snacks," she said. "Some of these vegetable fats, like coconut and palm kernel oil, are also highly saturated fats."

"The easiest way to reduce intake of animal fats is to always select lean meat, trim the visible fat from meat, remove the fat and skin from poultry and eat only low-fat dairy products."

"It's also important that the fat be trimmed before the meat is cooked, since research has shown that some of the fat will migrate into the lean during the cooking process."

According to the specialist, USDA research indicates that while Americans have reduced their intake of animal fats in the last several years, consumption of vegetable fats has increased.

Hunt said that a 1987 USDA study of middle- to upper-income women found they had cut back on eating red

meat, for example, but were eating more croissants, ice cream and other high-fat foods. While their fat intake stayed about the same, the women were getting less iron, zinc and other minerals because they ate less meat.

"Cutting back on red meat or any other food may not significantly reduce fat intake, unless you're careful about what foods are substituted," said Hunt. "With both more low-fat products and premium, high-fat foods available it's easy to fall into contradictory eating habits."

Wonder worm

A 12-foot long worm that makes a sound like a bathtub draining may not seem like much of a tourist attraction, but the bizarre giant earthworm has proved the economic salvation of one Australian town.

According to *National Wildlife* magazine, after the local coal mine shut down, the townsfolk of Korumburra (pop. 2,800) turned to their one notable resource: the great Gippsland gurgling earthworm.

Colorful toy earthworms began appearing in shop windows and the town launched an annual worm festival complete with parades and an earthworm queen.

Wheat program provisions

Deputy Secretary of Agriculture Peter C. Myers has announced a required 10 percent acreage reduction and other provisions of the 1989 wheat program.

Other provisions of the program include:

--A price support loan and purchase rate of \$2.06 per bushel, a 20 percent reduction from the basic loan and purchase rate of \$2.57. Myers said the downward adjustment was determined necessary to maintain U.S. wheat competitiveness in domestic and international markets. This is the statutory minimum and seven percent below the 1988 loan and purchase rate of \$2.21 per bushel.

--The established target price is \$4.10 per bushel, the statutory minimum, and down three percent from the 1988 target price.

--A paid land diversion will not be implemented.

--No marketing loan or related program provisions will be implemented.

--Producers will be required to

maintain in acreage conservation reserve an area equal to 11.11 percent of program payment acreage.

The Secretary of Agriculture reserves the right to initiate later cost reduction options as outlined in section 1009 of the Food Security Act of 1985. These options may include re-opening or changing a program contract entered into by producers if they voluntarily agree to change.

Other provisions common to program crops will be announced at a later date.
