Rule's LeFevre award nominee

Larressa LeFevre, McMurry junior physical therapy major from Rule, has been selected to represent the National Association of Intercollegiate Athletics District VIII as its nominee for the Emil S. Liston award.

The prestigious award is given to a junior basketball player who excels in both academics and athletics. The student must have a 3.50 grade-point average to be nominated.

The national recipient will be selected by the NAIA Council of Faculty Athletics Representatives in mid-April.

"Larressa LeFevre is an outstanding example of the high ideals and standards held by each member institution with the NAIA," said John Utendale, chair of the NAIA Council of Faculty Athletics Representatives, in a letter congratulating LeFevre. "McMurry University should be justifiably proud to have itself represented by such a fine student."

Program planned for applicators

A program for pesticide applicators will be conducted Friday at the Haskell Civic Center.

Registration will be from noon until 1 p.m., followed by five 45-minute programs, concluding at 5:15 p.m.

She served on numerous committees during her 17 years on the board and at the time of her resignation was vice chairman of the board.

A resolution was passed by the board commemorating her for the past years of service. She was presented with a plaque.

Superintendent discusses amendments

By William H. Stewart
Superintendent
Haskell CISD

On Saturday, May 1, you and I have some important decisions to make. I am not going to tell you how to vote, but simply give you the facts as I see them.

No one is sure exactly how schools will be affected if the propositions do not pass. I believe either way that your and my taxes will eventually go up. It has become quite clear that the Legislature is not really serious about solving the school funding issue, and they have continued to

pass more and more of the school funding requirements on to you and me as taxpayers.

There are several things which could occur if Proposition 1 fails. They are as follows: 1) Schools could close, 2) Massive school consolidation, 3) State income tax.

Looking at these possibilities, Proposition 1 is probably the lesser of two evils. Personally, I will probably vote for Proposition 1, even though it angers me greatly that our so-called trusted elected officials put us in this position in the first place, and I have little confidence they will rally promptly

to solve the problem.

Proposition 2 will probably help schools more than the other two propositions. It does put some hold on the Legislature in terms of passing laws which make us, at the schools, spend considerable amounts of money and then not funding the mandates or laws. Proposition 2 is a step forward in the fact that it begins to put, in the future, the burden of funding back on the Legislature. I can, without too much reserve, support Proposition 2.

I have a great deal of trouble supporting Proposition 3. The

taxpayers in Haskell CISD have been very tolerant of all the renovation and expansion necessary to make our district what we want it to be. We are basically through with major construction and it is all debt free, thanks to our gracious taxpayers.

Proposition 3 will allow the sale of \$750 million in revenue bonds to loan schools for construction projects. However, the school probably will not pay the money back fully. This means that you and I as taxpayers will do so. As far as I am concerned, we paid for our renovation and construction of our

facilities, and so can the other districts.

I hope this information and opinion will help you decide for yourself how to vote. If you have questions or want more information concerning the propositions please call me at 864-2602 or come by. I will gladly give you the information I have.

Whatever happens, thank you all for supporting our school and for putting our school children first. Our legislators seem to have forgotten that their children and grandchildren go to school also.

The Telephone Companies Are Talking Out Of Both Ends Of Their Receivers.

The Texas Telephone Companies Are Asking The Texas Legislature To Deregulate Their Industry.

A Presentation Of Their Claims And The Real Facts:

Telephone Claim: "We are not making enough money to really invest anything back into the Texas telephone infrastructure."

FACT: They made record profits last year. They say they can't afford to invest in Texas, yet they invested in Mexico's telephone system, bought an overseas cable company and are one of the brand-new owners of the San Antonio Spurs basketball team.

Telephone Claim: "We want deregulation so we can be competitive. It really has nothing to do with the rates we will charge customers."

FACT: The telephone companies under their proposal will be able to increase consumer rates as much as 10 percent a year (25 percent in some cases). Their bill is all about money - more for them, less for the consumer.

Club has program on roses and irises

The Haskell Garden Club met April 8 in the Haskell National Bank community room.

Marsha Whittemore presided in the absence of Mona Gibson.

The roll call was answered with thoughts of an iris or rose. The Haskell County Fair, with the Garden Club participating, was discussed. The club voted to have a show if there is a fair.

The topic for the afternoon study was "Rose and Iris Mini Show." Juanita Rhea showed an arrangement symbolizing Easter. It was knarled wood in the shape of a cross with a Madonna and foliage with red berries denoting blood. Many members brought irises, lilacs, jasmine and red branches and other plant specimens.

Leone Pearsey spoke on irises,

commonly called "flags." The Greeks called them rainbows. They are the royal flower of France. They are grown worldwide and require easy care. The soils should be slightly damp, fed and fertilized.

Molly Carlisle gave new ideas for using roses in the garden. Use rose hedges for spectacular landscaping. "True" roses come back from their own roots, rather than a graft. They are easily cared for and disease resistant. Tree roses may be planted in pots and they are a "showy accent specimen." Floribundas grow well in "whiskey barrels." For small areas, miniature roses are compact and very pretty. Climbing roses required support and should be cut back after blooming.

Lorene Dewey told about the care of roses. The location should

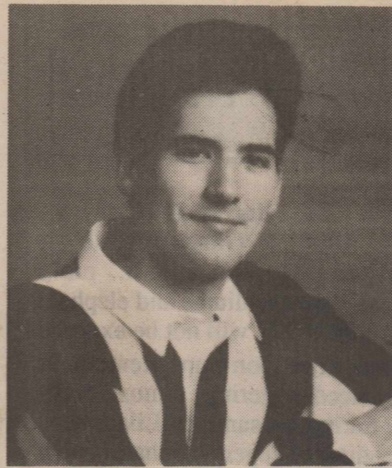

be carefully chosen with morning sun. Don't keep the roots wet. Soak and then let the rose dry. They should be fertilized every two or three weeks during blooming season. Use a mulch for winter. Dry clippings or hay may be used. Roses can survive neglect and abuse, but will not be as colorful and healthy as those that are cared for.

The speaker's table was decorated with an Easter theme. Refreshments were served by the hostesses, Margie Dorner and Peggy Burnett.

The club will meet at 11:30 on May 13, at the Haskell City Park for lunch in the park. All members are to bring a sack lunch and drinks. For a plant exchange, members are to bring plants.

There were 14 members present, along with one guest, Lois Looman of Palm Desert, Calif.

Baptist revival at Paint Creek

Paint Creek Baptist Church will host a revival next week. It begins Sunday and continues through Wednesday.

Sunday morning worship services begin at 11 a.m. Sunday evening services will be at 6 p.m., and Monday-through-Wednesday evening services at 7.

Speaker will be Mike Thibodeaux. Mike was born in Amarillo and grew up in Palacios. He is now a senior at Hardin-Simmons University and will graduate in May with a bachelor of arts degree in Bible and a minor in Psychology.

City sales tax rebate takes dip

The City of Haskell saw its sales tax rebate check from the state comptroller take a dip this month, but the city is still ahead of last year's pace.

The check received this month was in the amount of \$14,136.05, which is 7.27 percent less than last year's check of \$15,243.94 for the same period.

But for the four months so far this year, Haskell has received rebates totaling \$73,901.47, or 4.46 percent more than the \$70,746.54 received in January, February, March and April of 1992. Haskell's decrease followed a

statewide trend. This month's rebate was from sales taxes collected on February sales and reported to the comptroller in March by businesses filing monthly returns.

Rule's rebate this month was \$1,453.55 and Rochester received \$761.07. Neither O'Brien or Weinert received a check this month.

For the four months of 1993, the five cities of Haskell County have received \$84,595.75 in sales tax rebates. Last year's rebates for the same period totaled \$81,682.05.

Haskell's rebate is based on a 1.5-percent local tax.

Belated news:
Kris MacGregor and daughter, Jaydee Kaye were home for "Hee Haw" weekend as well as a guest Ann Criswell, all of Big Lake.

Many thanks to all who helped make the 23rd production of Sagerton Hee Haw a big success. Especially the cast and the singers and musicians, those in charge of the curtain and sound. It is the combined unity of the entire community working together that makes this show possible every year. Thanks also for the floral tribute from Billie Kupatt.

Mr. and Mrs. Jack Tabor of Pryor, Ok., Mr. and Mrs. Larry Griffin and son Hunter of Little Elm, and Bill Tabor of Sweetwater, spent the weekend in the home of Mrs. John L. Brooks.

Other visitors on Friday and Saturday evening were Mr. and Mrs. Bobby O'Neil of Rochester.

Mr. and Mrs. Alvin Bredthauer took Alfred Bredthauer to the doctor in Abilene one day last week.

-Green Thumb-

By Gladys O'Neal
Haskell Garden Club

April is vine month: plant vines. Plant caladiums and elephant ears where they will not be exposed to hot afternoon sun. Remember they need watering, almost every day during the summer. Lilacs need a feeding of superphosphate with a little lime.

The irises are beginning to bloom, and they are so beautiful. Shallow cultivation is necessary as irises are a very shallow-rooted plant. Keep well weeded and remove leaves that have been diseased with leaf spot. When they cease to bloom, the green leaves are a source of plant food and the production of flower buds for next season's blooms. Do not over-water, heavy wet soil, old crowded plants, and the presence of bores may cause the development of root-rot.

Commercial fertilizers recommended for our area are 16-20-0 instant Vigoro, 10-10-5 and 6-10-4. Plants need nitrogen for growth and color, phosphorus for root development, maturity, fruit and flowers; potash for strength and vigor. The first numeral in a commercial fertilizer designates the nitrogen, the second the phosphate, and the last the potash. Our area needs more nitrogen, most phosphorus and least potash.

Now many plants can be put directly in the soil, some for this area are zinnias, cosmos, marigolds, sunflowers and morning glories.

When you are hanging baskets for spring and summer, consider different kinds of flowers or foliage to give variety in color, texture and form. For example, narrow leaf zinnia, white petunias make an attractive color combination; also purple-leaved jewel and ageratum, or ornamental kale and sweet alyssum are nice.

Cannas, dahlias, gladioli and tuberose can be set out now.

After Easter lilies fade, plant the bulbs in a sunny, well-drained spot. Let the foliage remain all summer; then cut it back with the perennials as they die next fall. The probably won't bloom next year for Easter, but should bloom by late spring or early summer. (Mine did bloom, but I was surprised.)

Some time this April or May, you may find your perennial flowers are doing well, and you'll have an excess of nice plants. That's the time to share a cardboard box full of some of those plants for your friend or new neighbor who just moved in down the street. Some people think that well-kept stone walls and fences make good neighbors. But I believe sharing perennial flowers do an even better job. "Enjoy and Share!"

Stolen wallet

Editor: Would who ever took my wallet from my car Wednesday night, April 7, either at Dr. Ray's office or 401 N. Ave. B, please return my driver's license and Social Security card and check books?

Everyone in Haskell knows me and knows how hard I work to meet my financial needs. But if you feel you need the money worse than I do, you can keep it.

I just need the other things bad. I will pray for you who ever you are. I just think everyone in Haskell is as honest as I am.

Social Security

Editor: I am a member of The Seniors Coalition and I oppose the Clinton tax on Social Security.

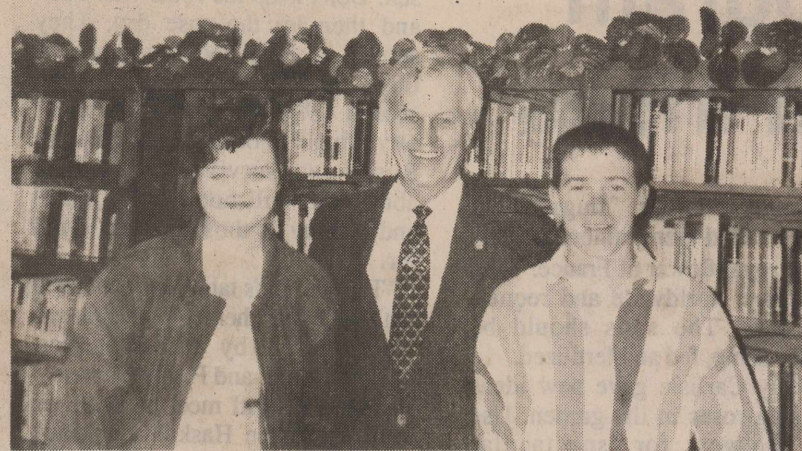

I have written my U.S. Senators and my Congressman urging them to sign The Seniors Coalition "Congressional Pledge" that says:

"I pledge to oppose any new taxes or cuts in Social Security." Social Security is not adding to the federal deficit--it's running a surplus. It's unfair to balance the budget on the backs of seniors.

For more information, please call The Seniors Coalition's Washington office at 703-273-5449.

Congressman visits

Paint Creek students Mandy Payne and Jeremy Andress visited last week with Congressman Charles Stenholm. Paint Creek juniors and seniors visited with Stenholm during classes Tuesday.

--Paint Creek--

by Mabel Overton

Hasn't this past week given us some beautiful weather? I've hoed, and mowed and sowed, and now I could use a good rain. I haven't asked the men in the family if they want a rain. I think they haven't finished plowing. But we can always use a good rain in the spring.

Mrs. Peggy Garner, who is on the State Water Commission was in Paint Creek Monday. She was invited by Mrs. Hobgood to come see our school, and visit with the students about our environmental emphasis. The State Water Commission is composed of three members and it is good that they have one woman on it.

Mrs. Hobgood received a beautiful plaque from the Governor. It read "Governor's Gold Star School". Recognizing that success in education must begin with innovative schools. Paint Creek School is designated a Partnership School to be a

Club studies food preparation

The Paint Creek Homemakers Club held its April meeting at the Haskell Extension Office.

Mabel Overton called the meeting to order and four members and two guests were present.

A very interesting and hard-to-answer roll call was "A habit I need to break."

The minutes and treasurer's report was given by Dolores Medford. The council report also was given.

The program was given by Lou Gilly, Haskell County extension agent, on "What's New in Food Preparation?" Several new things are recommended on canning and different items are used in canning fruits and vegetables. It was a very interesting and informative program.

The group discussed the April 14 meeting in Archer County.

Everyone enjoyed refreshments served by Mabel as an Easter theme was used.

Present were Dolores, Frances and Lorene, and guests Faye Jetton and Lou Gilly.

Next meeting will be May 3.

Mrs. Burgess hostess to Weinert club

The Weinert Extension Homemakers Club met April 7 in the lovely home of Lavita Burgess.

Myrtle Plemister, president, called the meeting to order. Members repeated the TEHA prayer and the hostess read a poem, "Knowing When You Are Growing Old."

Program for the day was "How to make a broomstick skirts and a tote bag" by Lou Gilly, agent. This was an interesting program, especially the thin material was better for the broomstick skirts. She demonstrated how they could be inserted in the stocking for traveling. The tote bag could also be used for different purposes.

The business meeting was opened by the president. Roll call was answered by 12 members and Lou Gilly (I've been sewing for how many years?). Of the 13 ladies present, there were 738 years altogether that the ladies had been sewing.

TAX PLANNING

Written By
Gerald Rodgers, CPA

HOME IMPROVEMENTS, REPAIRS, AND TAXES

Generally, the costs of improvements and repairs to your home yield no current tax benefit. But such costs can reduce the amount of gain which could be taxable when you sell your home.

What is the difference between an improvement and a repair? An "improvement" prolongs the life of your home or adds to its value. The costs of improvements are added to the basis (tax cost) of your home, thus reducing any potentially taxable gain if you sell. A "repair" serves merely to maintain your home in operating condition and is not added to the basis of your home.

Examples of improvements include substantial landscaping, installation of central air conditioning, remodeling the kitchen, or installing fire or burglar alarms. Painting, cleaning the furnace, refinishing floors, and filling cracks in the driveway are typical repairs.

Repairs, or "fix-up" expenses, provide a tax benefit to you only if the expenses are incurred in connection with the sale of your home. Such expenses reduce the amount which you must reinvest in a new home in order to defer the recognition of any gain from the sale of your old home.

If you have deferred gains on the sales of prior homes, you should keep good records of improvements to every home in order to verify the basis of your present home. Good records are necessary because the basis of each home you buy is reduced by the amount of gain deferred on the sale of the prior home. The IRS may ask you to document your basis in a home sold many years before to ensure that a current taxable gain is reported correctly.

Youthful Maidens ready for district

The Haskell Maidens made their final preparations for the district meet by competing in the Haskell Relays last Saturday. The district meet will be this Thursday and Friday in Haskell.

The Maiden team is very young but it has done well in the meets in which it has competed. The Maidens were sixth at Anson, sixth at Jayton, second at Aspermont, second at Seymour and fourth at Haskell.

The inexperienced Maidens weren't sure how well they could compete at the beginning of the season, but now believe there is a possibility of some members advancing to regional.

The Maidens have just 15 members on the team but what they lack in numbers they make up for with youth and enthusiasm.

Freshmen on the team are Tonya Burson, Veronica Gonzalez, Heather Guess, Charissa Huff, Jamie Johnston, Lisa Rodriguez, Carol

Thornhill and Rebecca Unger. Sophomores are Jennifer Comedy, Heather Hobgood, Micca Jordan and Nacole Lefevre. Juniors are Tréci Burson and Shelly Stewart. The lone senior is Holly Hobgood.

Some of the Maidens' best chances to advance to regional include: any one of Tréci Burson, Jennifer Comedy, Charissa Huff or Tonya Burson in the 1600-meter and 3200-meter runs; the 800-meter relay team; Heather Hobgood in the long jump; and Veronica Gonzalez in the 400-meter dash.

Results from the Haskell Relays:
3200: Tréci Burson, 4th, 13:33.77; Charissa Huff, 6th, 13:43.00.

400 relay: Rebecca Unger, Heather Hobgood, Veronica Gonzalez, Holly Hobgood, 4th, 52.40.

100: Heather Hobgood, 4th, 13.12.
800 relay: Rebecca Unger, Holly

Hobgood, Jamie Johnston, Heather Hobgood, 2nd, 1:53.39.

400: Veronica Gonzalez, 4th, 65.41.

200: Holly Hobgood, 3rd, 27.63; Nacole Lefevre, 6th, 29.02.

1600: Jennifer Comedy, 3rd, 6:08.32; Tréci Burson, 5th, 6:17.11; Tonya Burson, 6th, 6:19.47.

1600 relay: Nacole Lefevre, Rebecca Unger, Jennifer Comedy, Veronica Gonzalez, 5th, 4:33.94.

Long jump: Heather Hobgood, 3rd, 16-1; Rebecca Unger, 6th, 15-3/4.

Around town

The home of Alma and Travis Solomon was open for Easter lunch to her sisters and their families.

Families of Gracie Griffis, Janice Tuttle and Linda Ford were present. Also present were John and Florence Larned and the Solomon daughters, Judy and Hollis Callaway with Cole and Andrea and Becky Howeth with Rusty and Bucky.

Those present numbered 28. Food and games and a walk to the Haskell City Park were enjoyed.

Josselet reunion on Easter

On Easter Sunday, April 11, 188 descendants of the late Victor J. and Catherine Josselet gathered at the Haskell Memorial Civic Center for their bi-annual reunion.

An abundance of food was brought in and enjoyed by all. After the meal, Bob Aycock, president, conducted the business meeting.

Recognized as the oldest male in attendance was Weldon Turnbow, 82; oldest female was Lois Josselet, 76; and youngest child was Austin Rath Green, 3 months, son of Heath and Jane Green. Traveling the longest distance were Buster and Lee Medford of Dover, Ohio.

A memorial service and prayer were given by David Josselet. He also told stories about the group's ancestors.

Officers elected for the 1995 reunion are Sam Toliver, president; Paula Everett, vice president; Mollie Moeller, secretary-treasurer; Debbie Brister, reporter; and Julie Harrell, historian.

While the adults enjoyed an auction of homemade items, the children were entertained by Randy McLelland who did magic tricks and sang songs. Children also had a big Easter egg hunt.

The food, auction, clown and egg hunt were all big successes. The group is looking forward to the 1995 reunion.

Building Blocks For a Lifetime

In the faces of children we see the joy of the present moment and the expectations of the future, but those little hopes are easily shattered by the tough circumstances of the world in which we live.

There are gifts you can give a child which last a lifetime. A strong foundation in Christian values. The extended family found in a church setting. The guidance of other adults who share your appreciation of your child's uniqueness. A safe and caring place to learn and play.

Come on home to the United Methodist Church. We're building blocks of values for you...for your child...for a lifetime.

We want to express our appreciation to all of our dear friends in Haskell County who have shown such love and concern during the progressive illness and death of that very special man, our husband, daddy, and "Ponky," Pat Hale.

All of the cards, visits, and phone calls before were a strength and pleasure, and for so many of you to take time to come to Austin for the funeral meant so much to us. The cards and phone calls since the funeral have been uplifting.

Haskell will always be dear to us. We love you, and hope you will continue to pray for us as we deal with this terrible empty place in our hearts.

ONE-TWO PEST CONTROL HIGHER QUALITY CROP.

Protecting your cotton crop from weed competition and insect damage can pay off in higher yields. And we have a great combination to help you do just that.

WEED CONTROL PROWL® herbicide delivers long-lasting control of certain broadleaf weeds, without root pruning, stunting or carryover. And less root pruning helps improve insecticide uptake. That means your cotton gets off to a fast, healthy start, for a higher-yielding quality bottom crop.

INSECT CONTROL THIMET® 20-G soil and systemic insecticide provides

early-season control of aphids, thrips and mites in cotton. And applied at planting, it also controls aphids, leaf miners, leafhoppers, black cutworms and white flies.

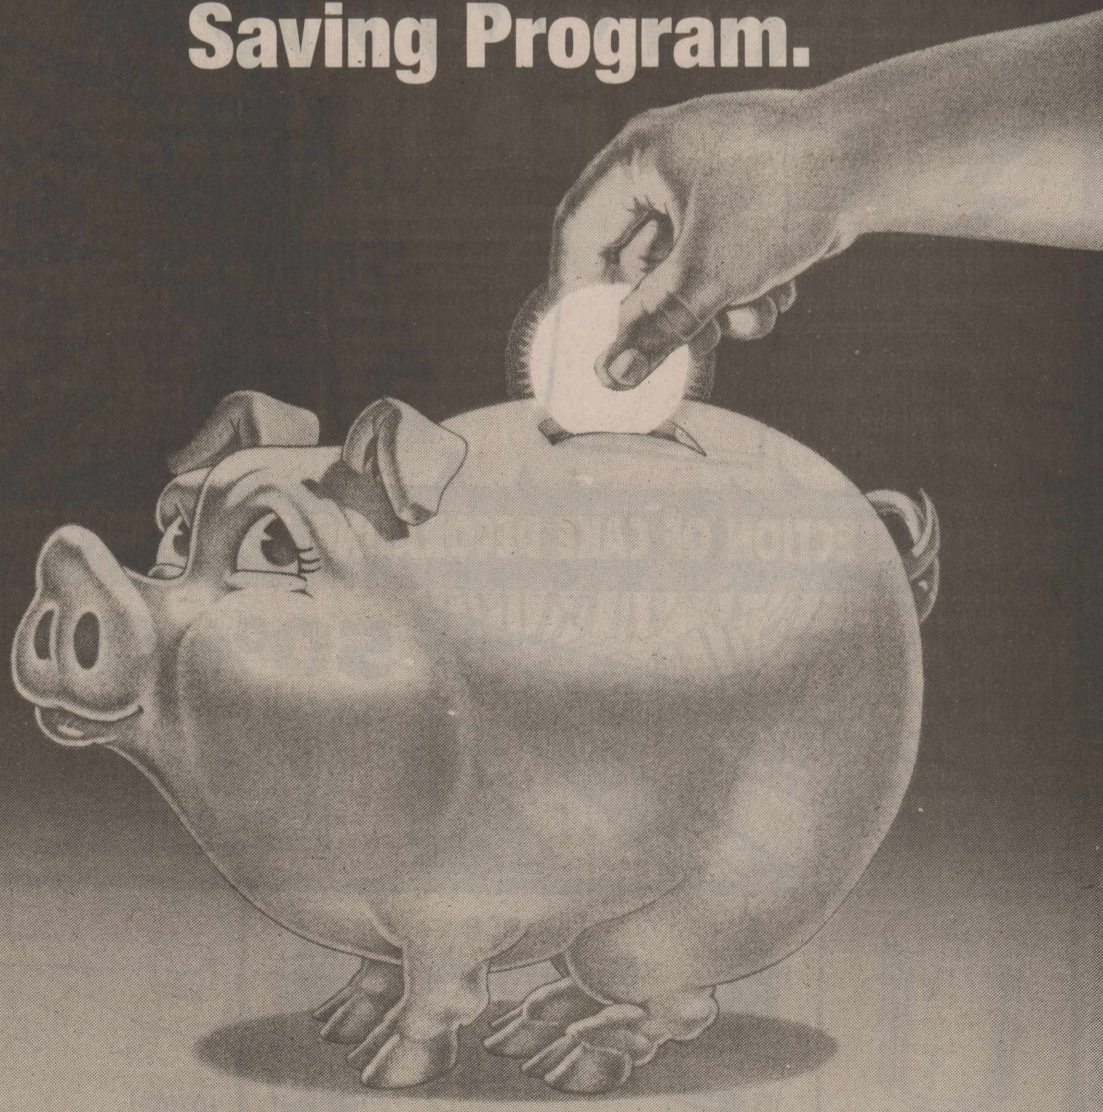

See us today about the one-two combination that helps you get the most out of your cotton crop. We're your local Cyanamid AgriCenter™ dealer.
