## Mayor's Proclamation

One of the obligations of those who are participating in this war on the home fronts to help maintain the moral of those on the battle line. One of the threats to morale is fear about health and welfare of relatives back home. At this time of the year we are reminded annually by the Woman's Field Army of the American Society for the Control and Cure of Cancer. That one of the Four Horsemen is Disease, and that one of the most lethal diseases is cancer.

During the first year of the war, cancer killed 160,000 citizens of our country—more than did the enemy. To-day, when manpower in production is one of paramount interest, the preservation of so many lives is definitely part of the war effort, as well as being a humanitarian project. Authorities say that from half to two-thirds of these annual deaths could be prevented if every one knew the early signs of cancer and to impress on all of us the necessity for prompt treatment if death is to be prevented.

The object of the Woman's Field Army is to teach everyone the early signs of cancer and to impress on all of us the necessity for prompt attention if death is to be prevented.

I therefore designate the Month of April 1st 30th as "Cancer Control Month" in Baird, Callahan County, urge every one to familiarize himself with the facts about cancer and to participate as actively as possible in the work of the Woman's Field Army.

HUGH W. ROSS, Jr., Mayor.

## Coast Guard Now Open To Volunteers

Acceptance of a limited number of volunteers for induction into the U. S. Coast Guard Reserve for service with the Mounted Beach Patrol has been authorized by the Coast Guard Headquarters, the local recruiting station in Abilene, Texas announced Saturday.

Men between the ages of 18-38 who are thoroughly familiar with the care and management of horses will be eligible for this service, according to Lieutenant F. Herman Ahrens, Enlisted Personnel Procurement Officer for the Eighth Naval District.

Men meeting the required qualifications are urged to apply to the Coast Guard Representative at Room 203 in the Federal Building, Abilene, Texas, furnishing a statement containing full details as to his qualifications together with three occupational references. No waivers for physical defects will be made, Lieutenant Ahrens said.

In the event the applicant is accepted, he will be sent a letter from the District Coast Guard Officer, for presentation to his local selective service board, and will volunteer for induction. He will then be sent to the Armed Forces Induction Station.

In addition to experienced horsemen the Coast Guard will similarly accept a small number of men for induction as Radio Technicians, Lieutenant Ahrens said.

They give their lives. Are you lending your money? This is war.

Good intentions can lose the war. Invest in the Second War Loan, if you mean to win it.

Tell him in that V-mail letter, you backed him to the limit in our Second War Loan Drive.

## To Hasten Victory

No American wants this war to go one minute beyond the time we can bring it to a victorious end. To hasten that victory—to save possibly the lives of millions of our boys on our far flung fronts—it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives—you lend your money.

## Will Americans Be More Tender With Their Money Than Lives of Their Sons

Washington, D. C. — A blunt challenge—whether Americans will be more tender with their money than with the lives of their sons—confronts U. S. citizens as they prepare to meet the appeal of the government to put an additional 13 billion dollars into the fight in the next three weeks.

American dollars which run off to some cozy shelter to hide while American boys are dying to defend our cities and towns from destruction and invasion will face a rising demand from all classes of patriotic citizens to come out and fight.

No matter whether Americans buy the familiar Series E Bonds or 2½ per cent bonds or 2 per cent bonds or tax certificates, they will be doing their part to make the Second War Loan drive a success.

Consumer Spending Too High. Consumer spending in 1942 was

much too high to meet the war situation of 1943. Last year more than 82 billion dollars of our soaring national income went to feed the desires of Americans for clothes, recreation, foods and luxuries. As these items grow scarcer, more of our income must be diverted from such expenses into government bonds.

During 1942 millions of our fathers, sons, relatives and friends were in training here and abroad. Some were already in action. Casualties were beginning to bite into every community. War Bonds became a vital link between the home and fighting fronts.

Today sacrifice has become a way of life for America's fighting men. Civilian spending on the 1942 scale must go out the window if the home folks are to attempt to match the heroism of our boys at the front.

Not every American can take his place in a bomber or in a foxhole or on a fighting ship but he can fire away at the enemy by lending money to the government.

## April 21st Is Circus Day In Baird

Next Wednesday, April 21st will be "circus day" in Baird and that means the most popular form of clean amusement there is. The circus has a universal appeal for all sorts and conditions of men. It is amusing, thrilling and instructive and also demonstrates a perfect organization.

The Dailey Circus is comprised of several distinct units. The dog and pony section delights the children and dog fanciers; the wild west will thrill the rodeo fans; the horse fair and its beautiful display will please the lovers of horse flesh; the acrobats wit ththeir dangerous stunts will thrill the crowds; the pretty girls on beautiful horses make a picture not soon forgotten; the clowns with their several burlesque in affairs of the day; the three ring circus itself will be the tops of the two hour entertainment, a show that is a real bargain counter in the way of amusement.

The circus coming reminds older people of their first circus and how they carried water to the elephants. The boys today are always on hand to carry water or to do other little deeds around the circus to work their way into the big top, the real fairyland.

There are so many acts, most of them real headliners on the two hour program of the Dailey Circus, that it is not fair to mention any in particular. There has never been so many clever, young girls with a circus as will be seen with this circus and the impressive part of it all is that each one of them is already a star in her line of professional efforts. Little Norma Davenport, 12 years of age will win the hearts of women and children present while little Evaline Rossi, in her teens will amaze the crowds by her daring stunts and win admiration on account of her beauty and figure. The show is coming here from Abilene. Will give performances at 2 and 8 P. M. Wednesday, April 21st.

The Baird High School is sponsoring the circus and it will receive a liberal share of the admission ticket sales, an dtheir share of the receipts will be applied to athletic purposes.

**This Dinner-Table War**

**Is Your Family in Fighting Trim?**

OF COURSE it's more trouble to feed a family in wartime! . . . That's what war is: trouble. But even so, aren't America's dinner tables banquets, compared with those in the other nations that are fighting to save mankind's freedom? That's why American women can swing market baskets and count ration points, and think nothing of it. They are helping to win. And in this war, we win or we die.

**Gas Ranges Simplify Nutrition**

If you take good care of your modern Gas Range, it can feed your family for years and years. Put it through its paces. THE 2<sup>nd</sup> WAR LOAN DRIVE IS ON!

# America...you've got to get tougher!

**A**MERICA—Let's be frank about it . . . so far, many of us back home have been fighting this war from an easy chair. Many of us have bought War Bonds out of extra cash, out of money we didn't miss too much. We haven't been really tough with ourselves.

But this war is a hard, down-to-reality war. And many of our boys are dying in it.

**We've got to buy MORE**

So your government asks you to buy Bonds and more Bonds—to get really tough with yourself. We're asking you to give up the frills and "extras."

We know how human it is not to make sacrifices until the crisis drives us to it. In England they felt the same way until the bombs started falling.

Bombs are such persuasive things. But just as persuasive ought to be the spirit of our brothers, sons, husbands.

**If you could see**

Look at it this way—suppose you had a magic carpet that could take you to Africa and New Guinea. Suppose you could hear the groan of American boys wounded, and American boys dying. . . . Saw now, how many Bonds would you buy?

**That kind of war**

THEY . . . are dying. And they will keep on dying until we drown the enemy in an over-

whelming torrent of bombs, bullets, guns, tanks, planes, ships, and shells.

That's why we're asking you, in this one month of April alone, to lend Uncle Sam 13 billions of dollars—by buying War Bonds. 13 billions of extra dollars—over and above any buying that you'd be doing anyway!

**A lot of money**

Of course, 13 billion dollars is a lot of money. It'll take sweat and tears to raise it. It'll mean going *without* now. But also—it will mean savings now—to buy later. It'll mean giving up *everything* you can't square with your conscience, so that we, us, our children, can have a better, more decent place to live in when this war is won.

**The drive is on**

So during this month of April, if someone calls on you to ask you to buy War Bonds in this 2<sup>ND</sup> WAR LOAN DRIVE, will you buy to the limit—and then buy more?

Better yet, will you go to your Bank, Post-office, or wherever you're used to buying your Bonds—and buy NOW? Will you lend extra money this month? Money that can hasten the day of Victory? Money that can help to save American lives.

**Money buys money**

Remember, what you're really buying with your money is still *more* money. For after all, these Bonds are *money!* Money plus! Every

dollar you put into War Bonds will bring you a dollar *plus* interest.

So the more Bonds you buy the better for you. Americans—Get Tough—with yourselves—for your country.

## LONE STAR GAS COMPANY'S WARTIME CANNING BOOKLET AID TO VICTORY GARDENERS

Lone Star Gas Company's new Wartime Canning Booklet, to help the home-front prepare vitamin-packed foods from victory gardens and orchards and patriotically off set rationing restrictions, is now available for customers without charge according to company officials. The book was compiled by Miss Albertine Berry, nationally known food expert and home economics director for Lone Star.

The book will be distributed at a series of Victory canning schools to be conducted by the company, and copies also will be available at gas company's offices. Theme of the book is contained in a footnote: "Let the fighting men HAVE most of America's canned goods; you can fill a proud shelf of your own. Just be sure the foods you put up are fine-flavored and FRESH."

The Wartime Canning Booklet describes the most modern, efficient and simple methods of canning fruits, vegetables and meats, using recipes that "hold onto vitamins." It is fully illustrated. The four methods of canning are described in separate chapters.

Of the pressure cooker method, the book says, "This is the nearest approach to commercial canning, and will handle any kind of food. Use it especially for vegetables and meats."

The water bath method is "Recommended for canning fruits, tomatoes and tomato mixtures," as is the oven method of canning which requires that the oven be equipped with thermostat control. The open kettle method "may be used for canning fruits, tomatoes preserving and pickling."

Separate chapters give recipes for canning vegetables, fruits, and meats poultry and fish; jellies, and preserves, jams and butters; pickles and relishes. The book contains charts on food quantities and approximate number of jars needed, and separate charts on preparation and processing of vegetables, fruits and meats. A jelly chart shows the quantity of sugar to one cup of juice; another gives combinations of fruit for jellies. Recipes with sugar substitutes and those requiring minimum sugar are given.

A chapter is devoted to containers under which are discussed tins, glass jars, with a warning to use only tempered jars; types of lids and sterilizing. Other points stressed are pre-cooking or blanching of fruits and vegetables, and how to detect food spoilage. The book warns, "Don't throw away food value! In pre-cooking fruits and vegetables, use the cooking liquid to fill the jars. Val-

uable minerals and vitamins leach out into the water, and will be lost forever if the water is discarded."
