Haskell Lions Club hosts hamburger supper before last home game

The Haskell Lions Club will be serving mesquite grilled hamburgers with all the trimmings, chips, cobbler, tea or coffee this Friday night from 5 to 7 p.m. in the Haskell High School cafeteria prior to Haskell's last home football game of the year. The cost is \$4.50 per person.

The money raised by the Lion's Club hamburger supper provides eye exams and glasses for needy children in our area, scholarships

for deserving students, special camps for blind, crippled or diabetic children, as well as a host of other local, state, national and international charities and services.

Lions Clubs International is the world's largest service club organization with over 37,000 clubs and a million and a half members in some 150 countries. Lions International was founded in 1917. Helen Keller challenged the Lions to take up the plight of the

world's blind.

Since that time, Lions have provided exams and glasses to millions. Lions also provide sight for thousands through its tissue and eye banks. All Lions services are provided to those who need them free of charge.

Come out Friday night and support the Lions and the Haskell Indians in their game against the Hawley Bearcats.

Congressional candidate visits Haskell

Dr. Rudy Izzard from San Angelo, who recently announced his candidacy for the United States House of Representatives in the 17th Congressional District of Texas, was in Haskell Thursday morning for a brief stop on his Announcement Tour.

Izzard, a former Mayor Pro-tem and current City Councilman in San Angelo, and a rancher and dentist, briefly discussed major points in his platform, which includes support for Congressional term limits, welfare reform, a national energy policy which will

stabilize the U.S. oil and gas industry and balancing the budget without placing the burden on the American taxpayer.

Izzard said, "I had been to 26 of the 32 counties in the district prior to my announcement. During this tour, I intend to announce formally in every county in the district. We expect the tour to end in a couple of weeks. Then we will double back for various meetings, speaking engagements and fundraisers. But right now the most important thing is to get my message to the voter."

Izzard is a dentist in private practice in Ballinger. He was voted "Best City Council Member" in 1994 and 1995 by the readers of the San Angelo Standard Times. He is a member of the Texas & Southwest Cattle Raisers Association, the Texas Midwest Communities Network, both the Texas and American Dental Associations and the Abilene, Ballinger, and San Angelo Chamber of Commerce.

In addition to his private dental practice, he is a cattle rancher, running a cow-calf operation on approximately 1,000 acres in Tom Green County.

Haskell Volunteer Fire Dept. receives grant

The Haskell Volunteer Fire Department was notified last week that they would be receiving a \$7500 grant from the Texas Commission on Fire Protection. The grant will be used for 11 sets of bunker gear and two full scholarships to Texas A&M Fire School in College Station.

Haskell Fire Chief E.J. Stewart said the funds will be put to good use. A complete set of bunker gear including helmet, coat, pants, gloves and boots is in excess of \$600 per set. "With 32 volunteers we cannot purchase new and updated gear but this grant will sure help," said Stewart.

"The two scholarships for firefighter training at Texas A&M will provide the best training in the state," said Sam Watson, City Manager. A&M offers complete firefighter training for new volunteers as well as seasoned veterans. Courses include fire fighting skills as well as fire prevention, safety, rescue, and detection.

Lions need your glasses

The Haskell Lions Club is asking for your discarded eye glasses, according to Brian Burgess, president of the Haskell Lions Club. Burgess said that Lions International takes used glasses and distributes them to needy people in third world countries.

You can help people around the world have a better life. Eye glasses may be given to any Haskell Lion or left at Burgess' State Farm Insurance office across from the High School.

TSSAS monetary awards made to Haskell High School

Monetary awards in the amount of \$1,708.67 were made to Haskell High School in the Haskell Consolidated Independent School Dist. as part of the Texas Successful Schools Awards Program (TSSAS), Bob Pheil, Superintendent of the Haskell CISD announced Tuesday.

The school is being recognized for gains in student performance in indicators that are part of the Academic Excellence Indicator System (AEIS), more commonly known as the state's school report card.

The Haskell CISD High School is among 1,236 cash-winning schools statewide receiving awards for exemplary or recognized performance and 401 schools receiving awards for recording gains in their performance over last year. The awards are based on schools' spring 1995 performance on the Texas Assessment of Academic Skills (TAAS) test, which measures performance in reading, writing, and mathematics. Schools also had to meet performance standards for dropout and attendance rates.

Cash awards ranging from \$1,000 to \$10,000 per school were given. In the exemplary category, schools had at least 90 percent of all students and students in each student population group (White, African-American, Hispanic and economically disadvantaged) passing each section of the TAAS, a 1993-94 dropout rate of one percent or less for all students and each student group, and a 1993-94 attendance rate of 94 percent or greater. These schools also had to have passing rates on the TAAS tests given at Grades 3

through 8 and 10 that exceeded the spring 1995 state average for all students and student groups.

In the recognized category, schools had at least 70 percent of all students and those in each group passing each section of the TAAS, a dropout rate of 3.5 percent or less for all students and each student group, and an attendance rate of at least 94 percent. The change in TAAS performance from 1994 to 1995 also had to be high enough so that the passing rate for all students and those in each student group would be at least 90 percent within five years.

To be eligible for a significant gain award, schools had at least 25 percent of all students in each student group passing each section of the TAAS. In addition, a school's gain in performance from spring 1994 to spring 1995 had to be in the top 20 percent of the school's demographic group on overall gain for all students and each student group and average at least 5 percent gain across all subject areas for all students and each student group.

Under law, the AEIS computes a demographic index based on campuses' percentages of minority, economically disadvantaged, limited English proficient, and highly mobile students and the wealth of the school's district. The index is used to array campuses and form 24 groups of roughly equal size. A school's performance is compared to other schools that are in its same demographic group.

A total of \$5 million is being awarded to schools this year under the TSSAS program.

Haskell City Council awards pickup bid

Members of the Haskell City Council appointed Tim Everett to serve as a director on the Appraisal District Board representing the City of Haskell, at their Tuesday night, Oct. 23 meeting.

The Council opened bids on the new pickup to be purchased for the City of Haskell. Three bids, one each from Medford Buick GMC, West Texas Ford and Bill Wilson Ford Motor Co. were received. The bid was awarded to Bill Wilson Ford Motor Co. for a 1996 Ford

pickup at a purchase price of \$18,033, if it meets bid specifications.

City Manager, Sam Watson, reported on the sewer grant work. He said that pre-construction work had begun with sites for manholes being spotted already. Watson also reported on a grant that the City will receive which will allow them to buy 11 sets of fire gear and fund two scholarships to the Texas A&M Fire School.

Knox City makes the switch

Knox City moved into the 20th century in telephone technology, Thursday, Oct. 26, when GTE officials activated the new digital phone system and services for the community.

However there was a "switch" in the "switching on" ceremonies. The service was supposed to be activated at 10:45 a.m. on Thursday morning, but employees of GTE who had worked diligently to install the new system and get everything just right, were anxious to see if it was all working correctly; so at 1 a.m. (just after midnight) the new system was activated.

Dave Thompson, publisher of *The Knox City News* said that when the switching occurred, it also activated the town's storm warning system and needless to say, it was quite a rude awakening for most citizens of the community. "The phone company workers were inside the GTE building and were not aware of the sirens blasting outside. So it was pretty much turmoil for a little while before the sirens could be deactivated." But finally everything settled back to normal, the community settled back in for the night a second time and by 10:45 a.m. that morning, the ceremony proceeded on schedule.

GTE Texas and New Mexico Regional President, Kathy Harless, was in Knox City to preside over the

day's activities. Other GTE company representatives attending were, Oscar Gomez—GTE Vice President of Regulatory and Governmental Affairs, David Russell—GTE Director of Public Affairs, Hardy White—GTE General Manager of Customer Operations and Charles Watkins—Operations Manager.

State Representative David Counts and Senator Tom Haywood were also on hand for the ceremony. According to Harless, Rep. Counts was instrumental in getting the new system in Knox City.

The new services available for Knox City residents are: Automatic Busy Redial; Automatic Call Return; Call Block; Special Call Acceptance; Special Call Forwarding; VIP Alert; Call Tracing Service; Call Waiting; Cancel Call Waiting; Call Forwarding; Speed Calling; Three-Way Calling; and Calling Number ID. Knox City residents will also have expanded local calling and will be able to call or receive calls from Benjamin, Haskell, Munday-Goree and Rochester without paying for a long-distance call.

GTE spokesman, Charles Watkins, said that eleven communities had received the new digital service this year and that 30 more communities are scheduled to receive it in 1996. According to Watkins, Haskell is scheduled to receive the new system toward the end of 1996.

GTE DIGITAL PHONE SYSTEM RIBBON CUTTING AT KNOX CITY—Knox City Mayor, Bud Reynolds, cuts the ribbon at Thursday's Ribbon Cutting Ceremony for the new digital phone system recently installed by GTE. On Reynolds' left is State Rep. David Counts and to his right, GTE Texas/New Mexico Regional President, Kathy Harless and State Senator Tom Haywood. Members of the community also participated in the ceremony.

Hypertension can remain undetected for years

Most medical disorders can be identified by their symptoms. Physical clues will suggest that you may have this or that ailment. Unfortunately, this approach does not work with high blood pressure. In fact, it's possible to have high blood pressure for years without even realizing it.

Most affected persons have no symptoms. Even a physician cannot readily tell that you have high blood pressure until he or she actually measures the pressure by using an instrument called a sphygmomanometer (cuff and pressure gauge). Some people think that headaches, dizziness, or nosebleeds are symptoms of high blood pressure, but this is not necessarily true.

"High blood pressure" and "hypertension" are interchangeable terms that refer to the fact that your blood is traveling through your arteries at a pressure that's too high for good health. This increased resistance to blood flow means your heart has to work harder to pump the same amount of blood.

Although high blood pressure generally is symptomless, this does not mean it's not dangerous. High blood pressure has been called the "silent killer" because about 60 million Americans have it but don't know it. The danger lies in the long-term damage that hypertension can produce in your

heart, blood vessels and kidneys, causing problems that can lead to an early death.

In the majority of cases, the cause of hypertension is unknown. And although it cannot be cured, it can be treated and controlled. Sometimes the best strategy is to make lifestyle changes: shed extra weight, decrease salt intake in your diet, restrict the use of alcohol and

caffeine and increase physical exercise. A program of medication may be required.

Recognition and control of high blood pressure is essential for avoiding damage to vital organs. Therefore, the key to detecting this silent killer is to have your blood pressure taken on a regular basis.

Tex. Economical Dev. Council honors city

The City of Haskell was recently honored with a Community Economic Development certificate from the Texas Economic Development Council, a statewide association of more than 800 economic development professionals.

The presentation of the certificate was made by David Scott, WTU community development consultant, to Haskell Mayor Ken Lane at the Haskell City Council chambers on Wednesday, Oct. 25.

The award is presented in

recognition of efforts to create job growth and business development opportunities by inspiring creativity, leadership and partnerships through community improvement.

"West Texas Utilities Company congratulates the volunteers and leaders of the City of Haskell whose dedication to community development is being recognized by this citation," said Eric Geisler, WTU's director of business development. "Having nominated Haskell for this citation, we are proud to be partners Geisler added.

We would like to say thank you to so many who did so much during Tommy's hospital stay and since he has come home. You have been great. May God bless you in His own special way.

New manager at Allsups

Allsups announces the appointment of Michael Manuel as new manager at their Haskell Store. He is the son of Mike and Mary Manuel of Knox City.

Manuel graduated from Knox City High School and served in the United States Army for three and one half years.

He was recently employed by Allsups and went through managerial training. Manuel plans to do some reorganizing and upgrading of the local store. He invites both old and new customers to drop by the store to shop or to get acquainted.

School Book Fair, Nov. 13-17

Haskell Secondary School is hosting a Scholastic Book Fair on the week of Nov. 13-17, in the secondary library at the south end of the high school.

This reading event features a wide variety of titles from many publishers, and gives students, teachers and parents an opportunity to see the latest works by popular authors of books for young adults. Many of the materials will be aimed at the junior high audience, but older readers should find items

of interest also. There will be one bookcase of elementary materials for young readers, parents and teachers.

Everyone is invited to attend the book fair, beginning Monday, Nov. 13. The library will be open to the public from 8 to 8:30 a.m. each morning and from 3:30 to 4:30 p.m. each afternoon. Please enter by the south door of the high school. Proceeds will be used to purchase new paperbacks and other materials for the secondary library.

WORSHIP TOGETHER

Come to church,
good people...
— Alfred E. Housman

"Return unto me,
and I will return
unto you, saith the
Lord of hosts."
— Malachi 3:7

FAITH SHOULD NOT BE RESERVED FOR SPECIAL OCCASIONS

In many a House of Worship, occasionally the children from either its elementary school or the Sunday school enhance the worship service on the Sabbath by singing and dramatizing the songs that illustrate their religious teachings. This is to the credit of both the children and the teachers who direct them. On these occasions, the proud parents are always there to watch their offspring perform, which results in a "packed house." However, on the following week, when there is no performance, the attendance is often relatively sparse. Let us remember that God's love is always with us and that every week at our House of Worship is a special occasion, where we learn all about it. Let us then set those children a good example by our being there regularly.

RED RIBBON WEEK—Haskell Elementary celebrated Red Ribbon Week, Oct. 23-27, in an effort to promote awareness of substance abuse with a variety of activities. On Friday, 250 "Count On Me To Be Drug Free" red balloons floated home with kindergarten through third grade students. Kindergarten students are shown receiving their balloons on Friday.

Elementary celebrates Red Ribbon Week

Haskell Elementary School celebrated Red Ribbon week Oct. 23 through Oct. 27. In an effort to promote awareness of substance abuse, on Monday each class dedicated a portion of the elementary school as "drug free" by ceremoniously hanging fifty red ribbons in trees, on doors and in classrooms. Tuesday, students, teachers and anyone else in the elementary buildings wore "Proud to Be Drug Free" red ribbons and "Hugs Not Drugs" stickers. Wednesday, the early childhood classes declared themselves "drug free" with "Hugs Not Drugs" tattoos. Thursday, fourth, fifth and sixth graders received "drug free"

book marks and at 2:30 p.m. on Friday, 250 "Count On Me To Be Drug Free" red balloons floated home with kindergarten through third grade students.

Throughout the week, fourth, fifth and sixth graders were invited to come to the counselor's office to sign "drug free" pledge cards. Thirty-nine sixth graders, fifty-one fifth graders and nine fourth graders pledged to:

- live drug-free lives
- say NO to alcohol and other drugs
- help friends say NO
- do all they can to stand by their decision to lead a healthy and happy drug-free life

The week proved to be eventful and hopefully will promote drug abuse awareness at an early age.

Thank you to all those businesses displaying the drug abuse posters. A "special" thank you goes out to the following businesses who so generously donated helium for the balloons as well as "man power" for blowing up the balloons: The Carousel, Sue's, Conner's, Modern Way and The Drug Store.

CATARACT SURGERY CENTER
DEDICATED TO EXCELLENCE

We specialize in cataract surgery with intraocular lens implant and routinely use the small incision phacoemulsification technique. We have 2 modern, fully equipped operating rooms each with its own Zeiss operating microscope and Phacoemulsifier. We also have an observation room so that family and friends may view the surgery while it is happening. Our ambulatory surgery center is State licensed and Medicare approved. We have performed over 3,000 cataract implant operations since 1987. Our doctors accept Medicare Assignment and we think you will find our fees very competitive with most hospitals. Our friendly, dedicated staff is available to answer any of your questions. If you need transportation, we can help.

Indians destripe Tigers 35-19

The Haskell Indians started off slow in the first quarter of Friday night's game with the Anson Tigers, but then went on the warpath in the last three quarters and beat the Tigers 35-19.

At the end of the first quarter, Anson led the Indians 13-0, but the Indians put on their warpaint and went to work in the second quarter. Justin Lisle scored two touchdowns and tied up the score 13-13. Lisle then scored again in the 3rd quarter and put the Indians ahead by 8 points.

The Indians kept the Tigers from

scoring in the 2nd and 3rd quarter, but then Anson made their last score of the night in the 4th quarter. However the Indians scored twice in the last quarter, with Justin Lisle scoring one touchdown and Mik Everett scoring on a 13-yard pass from Cory Green.

Will Trammell led the Indians in rushing with 5 carries for 171 yards. Justin Lisle had 26 carries for 110 yards and Jace Yates had 19 carries for 99 yards.

On the defensive side, Bobby Ortiz led the Indians in tackles, three solo and four assisted. Turner

Frierson had two solo and four assisted tackles and Jace Yates had two solo and three assisted tackles.

The Indians are 3-5, 1-2 in District 7-2A. They will play Hawley Friday night at the Indian football stadium.
