NUMBER 15

Kitty's Korner

by
Kitty Montgomery

We want to apologize to Steve and Belinda Wilkins for the error in the headline last week "Girl to Wilkins," it should have read "Boy to Wilkinses," although they did not demand a correction, we are happy to oblige. Also, we managed to leave Jana Harris off the annual honor roll list. Since she was the third-ranking student in the class, we don't see any real harm done, but regret the error just the same.

We have no apology to offer in getting the Beans instead of the Bears in the T-ball story. Quite simply, the Bears looked like the Beans on the hand-written copy which was turned in, and we wrote the story that way. I personally feel the Mexican-American woman who called this office anonymously and insulted a member of our staff, accusing us of deliberately using a racial slur, needs to apologize to us. I think that's the silliest thing I've ever heard of and I don't blame her for remaining nameless.

Why on earth should she be offended when beans are the staple food for all West Texans, certainly not just the Mexican-American. We also have a prominent ranching family in this area with the surname, Bean. Although there is a number of them, not one called and complained.

I can deal with an angry subscriber who has a legitimate gripe and faces me up with it, but an anonymous phone call about something so petty gets my dander up and I'd be more than happy to discuss the matter with the caller if she will drop by the office any day except Tuesday.

kk

We'd like to congratulate the Circle Bar Racing crew, Chet, Tom and the whole bunch who went to the race. It really put Ozona on the map and got a lot of statewide and national attention. We understand Chet earned \$40,000 for his sixty laps around the race track and getting taken out by a rear-end collision was certainly nothing to be ashamed of. It was quite an honor just to make the Indy the first time

CONT'D ON PAGE ELEVEN

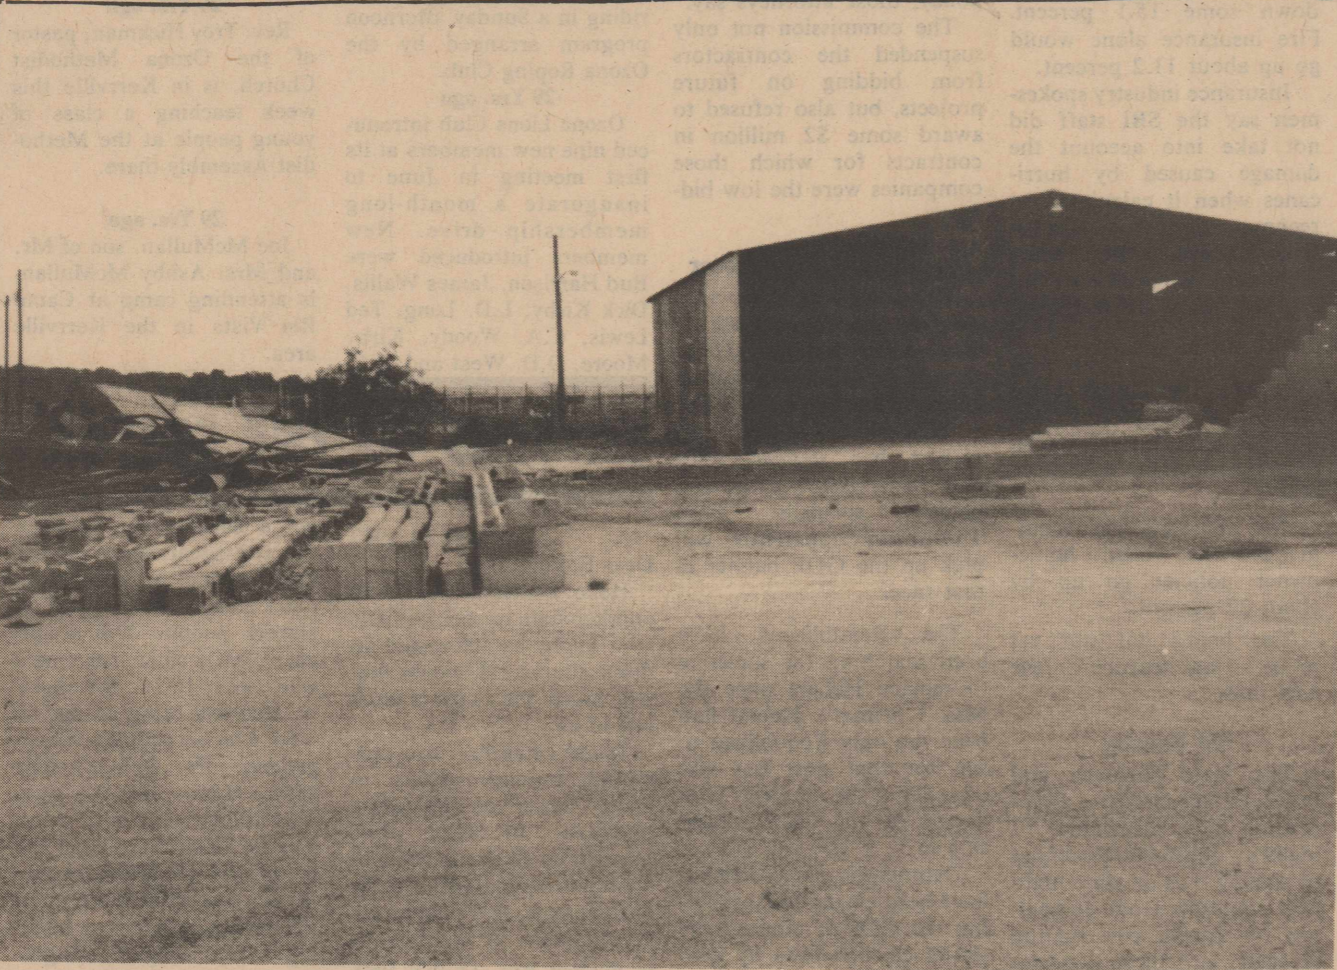

Turland services here Tues.

Funeral services for Walter Edward Turland, 64, were held Tuesday morning at graveside in Cedar Hill Cemetery under the direction of Sizemore Funeral Home. Rev. Larry Bailey conducted services.

Mr. Turland died at 9 a.m. Sunday in Four Seasons Nursing Home in San Antonio, following a lengthy illness.

He was born February 20, 1918, in Gooseneck, Tx. He married Margaret Richards, August 16, 1946 in Seagraves. He was a veteran of World War II and before his retirement was a drilling consultant for Pennzoil.

Survivors include his wife, Margaret, of Ozona; two sons, Charley George Turland of Austin and Billy Tom Turland of Ozona; two sisters, Cassie Tarbors and Minnie Adams both of Salado; one brother, Frances Turland of Galveston.

WIND WRECKS HANGAR here Saturday night. The hangar was picked up by the wind from the foundation at the right and dumped to the left with the roof and other parts of it farther back in the left. The plane inside the

hangar at the time did not even get so much as a scratch, leading several to believe a small twister touched down and destroyed the hangar.

New Primary School Principal named-

Assistant Superintendent of Schools arrives here

Ozona schools rolled out the welcome mat this week for the new Assistant Superintendent of Schools, a first for the Ozona system. Garland E. Davis took up the duties when he arrived last week.

Mr. Davis, who comes to Ozona from Austin where he was Administrative Assistant to the State Commissioner of Education, said "having been in Ozona and on the job at the school for a week now, I am very impressed with the school and the community. I am looking forward to my work here and am pleased to have the opportunity to be associated with such warm, friendly and dedicated people."

Davis comes with impressive credentials. Before his most recent employment, he was superintendent of the Medina Independent School District from 1972 until 1981. He began his career in education at the Robert Lee Independent School District, where he was a teacher-

coach from 1956 until 1963. He served as elementary school principal in Robert Lee before taking over the reins of high school principal, where he served until 1972.

Davis attended San Angelo College and received his Bachelor of Science degree from West Texas State University in 1959, and his Master of Education degree in 1965. His undergraduate major was speech and English and his graduate major was school administration. He holds certificates in driver education, high school teacher, administrator and superintendent.

In other education related leadership roles, he has served on the Texas Community Schools Advisory Panel, Texas Community Schools Association board of directors, has been president of the Texas Association of Community Schools, was chairman of Region 20 Education Service Center Executive

Committee, and other panels and committees.

Davis and his wife, Rose Marie, have three sons, Glenn, 22, a senior student at Angelo State; Gary, 15, a high school sophomore; and Copie, 11, a fifth grader. Mrs. Davis and the boys will join their husband and father here around the end of this month, when the boys finish with summer activities they are now engaged in.

Another position was filled in school administration last week also. Walter Spiller was named Ozona Primary School

Principal to fill the vacancy created when Jack Probst moved to high school as a coach and teacher.

Spiller graduated from Odessa High School and attended Odessa College. He graduated from Sul Ross with a BS in history and masters in mid-management administration.

Spiller taught school in Big Lake for three years and was youth director in Crane for four years. He came to Ozona in 1966 as girls basketball coach and junior high history teacher, a position he held for five years.

He has been teaching history in Ozona High School for the past eleven years. His wife, Margaret, is a teacher in the Ozona school system. Their son, Mel, is a student at Sul Ross.

Thieves rip off trailer

Thieves ripped off a horse trailer and got away with around \$2,000 worth of merchandise here Thursday night. The trailer was parked under a guard light at the Jim House residence at 313 Ave. J.

Stolen were two saddles, five bridles, saddle blankets and leggings. Sheriff's officers are investigating the theft which occurred between 11:00 p.m. Thursday and 5:00 a.m. Friday. Officers have the serial numbers of the saddles.

Swimming lessons to begin

The North Swimming Pool opened on June 1, with large numbers of Ozona's big and little taking advantage of this way to beat the summer heat. The facility was repainted just prior to opening.

Lessons in beginning swimming will be taught by Molly Womack starting next week. Parents interested should bring their children to the pool on Monday morning at 10:00 a.m. Children should be five years or older to take this course.

Voter turnout light Saturday

Crockett County election officials spent much of the day with nothing more to do than twiddle their thumbs Saturday when a total of 104 persons voted in all precincts in the Democratic primary run-off election.

Voters here picked John Hannah for the Attorney General nomination by a vote of 56 for Hannah and 43 for Jim Mattox. Mattox won the nomination statewide by polling 51.3 of the vote. Mattox will face Republican nominee Bill Meier of Eulless, in the general election in November.

Local voters also picked their former state senator Pete Snelson for Land Commissioner, giving Snelson 75 votes to 29 votes for Garry Mauro. However, Mauro, who ran second to Snelson in the first primary, won the nomination statewide with 53.4 percent of the vote. Dan

Kubiak and George Fore, unsuccessful candidates in the first primary, both endorsed Mauro. Mauro faces Republican Woody Glasscock of Hondo in the general election.

Crockett County voters went along with the rest of the state in the run-off for Judge, Court of Criminal Appeals, Place 1. The local vote was 46 for Charles Campbell and 43 for John Humphreys. Statewide Campbell, an Austin lawyer, beat Dallas attorney Humphreys by 52.6 percent of the vote. Campbell is the winner by virtue of the absence of opposition in the general election.

Local voters also bucked other state voters in giving Bill Black 56 votes to 31 for Charles Miller in the race for Judge, Court of Criminal Appeals, place 2. Miller won the nomination by polling 53.3

percent of the vote statewide.

Local voters were not the only apathetic group. Officials estimate only 8 percent of registered voters in the state turned out for the run-off. There was no second primary for the Republicans. The election results were unofficial as of Monday, but with 5,606 precincts of 5,609 reporting, chances of any change were highly unlikely.

Brian Gries receives A&M degree

Brian L. Gries of Ozona received an undergraduate degree in nuclear engineering at Texas A&M University's spring commencement exercises.

A total of 3,115 degrees were awarded, including 2,689 undergraduates, 347 master's and 79 doctorates.

TALK ABOUT A BUNCH OF ONIONS-This four or five hundred pounds of onions were harvested from Gene Fowler's garden Sunday morning. There are three different varieties, white bermuda, yellow and a sweet red onion. To say Gene has a "green thumb" is an understatement as he produces a truck farm each year from the small garden next to his house on Cedar Drive.

BRINGING HOME THE LOOT from the Rankin Rodeo were the five Ozona wranglers who won a total of ten silver trophy buckles in the event. From left to right they are George

Guerra, Cody Sutton, Kim Bishop, who was also named rodeo queen; Clay Childress, and Ira Childress, who won best all around.

U.N. FUNDS TERRORISTS

By Edwin Feulner

The United Nations has been giving a helping hand to terrorist groups and American taxpayers are helping to pay for it.

Yes, Pilgrim, \$116 million has been spent or budgeted since 1975 on what the U.N. calls "national liberation movements" (NLMs), which in plain English means organized terror and violence. One out of every four dollars has come from the United States, according to an investigation by U.N. analyst Thomas Gulick.

The Palestine Liberation Organization (PLO), one of the most ruthless and notorious guerrilla groups in the world, has been a major beneficiary of U.N. support. If that sounds outrageous, it is.

Only months after the PLO murders of Israeli Olympic athletes in Munich, the official PLO newspaper, the *Spokesman*, gave the world a clear picture of just how cold-blooded and sleazy this group is: "We have to kill the most famous," the paper said. "Since statesmen are difficult to kill as they are well protected, we have to kill artists and athletes."

Two years later, the PLO's chief headhunter, Yassar Arafat, was welcomed by the U.N. General Assembly as the one and only "representative of the Palestinian people." Following this outrage, full observer status was granted to the PLO by several other U.N. agencies — including the International Civil Aviation Organization (ICAO). The ICAO added insult to injury by inviting the PLO to meetings on "air security." Since the PLO has considerable experience in air security (as the pirates), the rationale was that they could provide valuable advice at these meetings!

There also is evidence that the PLO has infiltrated the United Nations Relief and Works Agency's (UNRWA) programs for Palestinian refugees. UNRWA's annual budget is \$200 million. The United States contributed \$62 million to UNRWA in 1981 while the oil rich Arab states contributed only \$18 million. Whether or not the PLO directly gets any of the money is not the point; what's important is PLO access to refugee camps that Gulick says are being used as recruiting centers, and, according to some Lebanese officials, as actual military installations.

Another terrorist organization, the Southwest African Peoples Organization (SWAPO), was granted U.N. observer status in 1976. Closely tied to the Soviets, SWAPO has a well-documented history of terrorist attacks against civilians, which doesn't seem to faze the humanitarians at the U.N. Quite the contrary, the U.N. and its specialized agencies have allocated approximately \$40 million in direct or indirect aid to SWAPO since 1977. The U.S. paid about 30 percent of this.

U.N. support of such groups — the PLO, SWAPO, African National Congress and the Pan-African Congress — comes mostly in the form of food, shelter, and access to propaganda channels. It also provides them with instant "credibility" by honoring them with diplomatic privileges, instead of the condemnation they deserve.

Since nobody really knows how much money and in-kind support terrorist groups get from the U.N. directly, and from the U.S. via the U.N., the General Accounting Office and the U.S. Congress should conduct a full investigation of the funding of all U.N. agencies.

At a time when the debate rages on how best to cut the federal budget, it wouldn't seem unreasonable to argue that we should stop our role in helping to bankroll terrorist operations.

(Feulner is president of The Heritage Foundation, a Washington-based public policy research institute.)

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

Austin—The Texas Legislature made quick work of its special session agenda, heading home after only a week and leaving political observers to sift through the aftermath.

In five days of work, the Legislature passed four constitutional amendments, two appropriations bills and scores of resolutions memorializing everything from railroad pensions to asking Poland to end martial law.

Included in those constitutional amendments was the state property tax repeal, which was the reason Gov. Bill Clements called the Legislature back into session in the first place.

Texas voters will get a chance to pass judgment on the property tax repeal when they go to the polls Nov. 2. If the repeal is approved, 17 state colleges and universities that do not participate in the Permanent University Fund will be without a dedicated source of construction funding.

Other constitutional amendments passed during the brief special session and which will be on the general election ballot include measures to increase the amount of interest the state can pay on water bonds, to clear up the intent of legislation exempting farm tools from local property taxes and to correct an error in an earlier amendment setting a limit on welfare payments.

The two appropriations bills provide nearly \$200 million to tide the colleges over until the Legislature can find them a permanent source of funding in 1983 and to speed construction of new prison units to ease the overcrowding that caused the Texas Department of Corrections to refuse to accept new inmates last month.

Officials have estimated that the special session cost taxpayers some \$60,000 per day, meaning the five-day extravaganza ran up a bill of about \$300,000.

The voters' decision on the constitutional amendments in November will tell us whether it was worth it.

Insurance Rates

Homeowners may be getting a break on their insurance soon if the State Board of Insurance approves a rate reduction recommended by its staff.

The SBI staff has asked the board to cut homeowners rates by an average of 16.3 percent. However, an insurance industry group has asked for a reduction of only 2.9 percent.

Under the staff recommendation, homeowner policies would go down about 20 percent and extended coverage policies would go down some 15.1 percent. Fire insurance alone would go up about 11.2 percent.

Insurance industry spokesmen say the SBI staff did not take into account the damage caused by hurricanes when it calculated its recommendation. Those officials admitted that some reduction is justified, but not as much as the staff wants.

While rates for those who own their own homes might be going down, persons who rent can expect a substantial increase in their insurance bills.

The SBI staff has recommended that tenant homeowner policies go up by about 22 percent.

The board has not yet made a final decision on the new rates.

Bid Rigging

The State Highway and Public Transportation Commission has suspended 17 highway contractors accused of rigging bids on state highway contracts from competing for future construction projects, and those contractors say they may sue the highway department.

The commission placed 17 contractors who have either pleaded guilty or no contest to federal bid rigging charges or who are presently facing similar charges on indefinite suspension under emergency rules adopted earlier this year.

Many of those contractors already have agreed to pay damages to the state and are

cooperating in the ongoing investigation. They say the suspension could put them out of business and adversely affect their ability to pay the damages they agreed to.

Attorneys for at least two companies — Schwabe and Mikes Paving Co. of Shiner and Stafford Construction Co. of Lubbock—say they will file suits against the commission to stop the suspension.

The alleged bid rigging activities reportedly occurred before the commission adopted the new suspension policy, those attorneys say.

The commission not only suspended the contractors from bidding on future projects, but also refused to award some \$2 million in contracts for which those companies were the low bidders.

Agriculture Commissioner

The Republicans have finally found a candidate to take on Democrat Jim Hebert in the agriculture commissioner's race.

Waller rice farmer Donald Hebert has stepped aside and Texas A&M University poultry specialist Fred Thornberry apparently will pick up the GOP banner in that race.

The Republicans have been searching for someone to replace Hebert since the May 1 primary. Hebert had been the only Republican to file for that post but was considered to be too little known by the GOP leadership.

Democratic party officials have been crying foul, claiming the GOP is abusing the state's election laws by substituting candidates after the primary.

The Democratic complaints should offset similar complaints made earlier by Gov. Clements and other Republicans when Democratic candidates began dropping out of the runoff races to avoid divisive campaigns.

The GOP also has been shopping around for a replacement for state treasurer candidate Millard Neptune.

The Newsreel

A re-run of "The Ozona Story" as gleaned from the files of the "The Ozona Stockman"

Thursday, June 11, 1953

Grass judging and wool judging teams from Crockett County 4-H Club, winners of first place among teams of District 6, will resume practice judging this week in preparation for entry in the state contests later this month.

29 Yrs. ago

Joe McMullan, son of Mr. and Mrs. Ashby McMullan, is attending camp at Camp Rio Vista in the Kerrville area.

LETTERS TO THE EDITOR

May 30, 1982

Dear Editor,

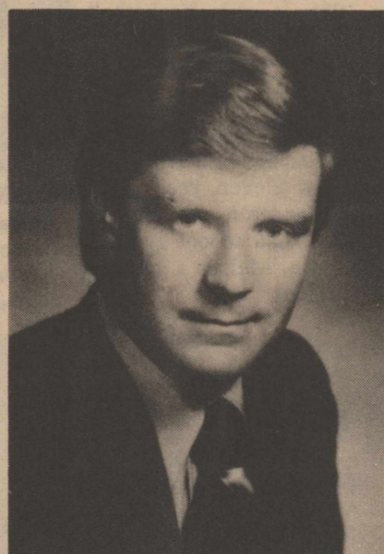

Hello! I decided to write to another state to seek penpals who might be interested in discussing world events that will touch the lives of each one of us.

World conditions are promoting intense anxiety in every corner of the globe because mankind has brought us all to the brink of annihilation from pollution or nuclear war. And people are so frightened by the thought of nuclear war, (which they view as Armageddon,) that nearly every segment of society is involved in searching for some striking new way to bring in peace and security. I Thess. 5:3. You have no doubt noticed that around the world people are advocating everything from an immediate freeze on the arms race to a total dismantling of present nuclear weapons.

However, Armageddon is not a nuclear war between the two great super-powers and it cannot be avoided by quick action on the part of sincere people. The scriptures clearly show it is God's war. (Rev. 16:14, 16) Shortly, God will bring an end to wars everlastingly by Armageddon. (Ps. 46:6-11) (LB) says... "Come, see the glorious things our God does, how he brings ruin upon the world and (thereby) causes WARS TO END throughout the earth breaking and burning every weapon." Right-hearted persons who respond to God's word now can hope to survive through it all into a world brimming with real peace and happiness. Ps. 37:9-11, 29. A nuclear war by man would not allow ANY such hope of survival.

I enjoy writing to penpals, and I will answer anyone who takes the time to write. Sincerely, Lynne Eytel, Rd. #5, Box 224, Clarks Summit, Pa. 18411

NOTED HYPNOTISTS IN OZONA TO HELP SMOKERS & THE OVERWEIGHT

Wade M. Genthner, F.A.I.H.

Director of Techniques for Living

ARE YOU OVERWEIGHT OR A CIGARETTE SMOKER? HAVE YOU TRIED TO LOSE WEIGHT OR STOP SMOKING, ONLY TO FAIL TIME AND TIME AGAIN?

IF YOU FIND YOURSELF ANSWERING "YES" TO EITHER OF THESE QUESTIONS THEN THE TECHNIQUES FOR LIVING SEMINAR, UNDER THE DIRECTION OF WADE M. GENTHNER F.A.I.H. AT THE OZONA INN OF THE WEST, WEST AVENUE A, WILL BE THE PLACE FOR YOU TO BE ON MONDAY, JUNE 14, TECHNIQUES FOR LIVING WILL BE CONDUCTING THEIR FAMOUS LOSE WEIGHT-STOP SMOKING SEMINAR WHICH HAS HELPED THOUSANDS OF PEOPLE THROUGHOUT THE UNITED STATES. TECHNIQUES FOR LIVING IS A NATIONAL ORGANIZATION DEDICATED TO HELPING AMERICANS SOLVE THESE AND OTHER PROBLEMS THAT HAVE KEPT THEM FROM ENJOYING THEIR LIVES TO THE FULLEST.

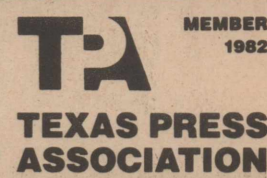

THE SUBJECT OF NUMEROUS NEWSPAPER AND MAGAZINE ARTICLES AS WELL AS TELEVISION APPEARANCES, MR. GENTHNER AND HIS STAFF HAVE BEEN CONDUCTING THESE SEMINARS THROUGHOUT THE COUNTRY. IN A COMPREHENSIVE AND FASCINATING THREE HOUR PROGRAM, THOSE WHO ATTEND THE SEMINAR EXPERIENCE THE RELAXING AND BENEFICIAL EFFECTS OF CLINICAL HYPNOSIS. NOT ONLY DO PEOPLE PERMANENTLY LOSE WEIGHT AND STOP SMOKING AS A RESULT OF THE SEMINAR, THEY ALSO REPORT THAT THEY SLEEP BETTER, FEEL MORE ENERGETIC, AND GENERALLY ENJOY LIFE MORE THAN THEY HAD PREVIOUSLY.

MR. GENTHNER'S SKILL IN CLINICAL HYPNOSIS WAS NOTED BY DAN RATHER OF CBS' "60 MINUTES", WHO REFERRED TO HIM IN A NATIONALLY TELEVIEWED REPORT AS A WELL-TRAINED AND HIGHLY EXPERIENCED HYPNOTIST.

"CLINICAL HYPNOSIS IS THE EASIEST WAY THERE IS TO SOLVE THESE PROBLEMS", GENTHNER SAYS. "SIMPLY PUT, IT HELPS TO ELIMINATE THESE TYPES OF PROBLEMS PERMANENTLY."

GENTHNER SAYS THAT THE REASON CLINICAL HYPNOSIS IS SO SUCCESSFUL IS THAT "IT REMOVES THE CAUSES OF PROBLEMS, NOT JUST THE SYMPTOMS." FOR EXAMPLE, HE EXPLAINS: "PEOPLE WHO ARE OVERWEIGHT GO ON DIETS. A DIET IS ONLY GOOD FOR AS LONG AS YOU CAN FOLLOW IT. ONCE YOU STOP THE DIET YOU REGAIN THE WEIGHT. HYPNOSIS IS PERMANENT BECAUSE IT ELIMINATES THE CAUSES OF OVER-EATING, NOT JUST THE SYMPTOMS." THE SAME HOLDS TRUE FOR SMOKERS WHERE THE NEED TO PREVENT CRAVINGS FOR CIGARETTES OR WEIGHT GAIN IS JUST AS IMPORTANT. BOTH PROBLEMS ARE COVERED AT THE SEMINAR, AND EACH SEMINAR LEADER IS PERSONALLY TRAINED BY MR. GENTHNER. FURTHER INFORMATION CAN BE OBTAINED BY CALLING, TOLL FREE, 1-800-645-5454.

Two and two still make four, in spite of years of progress in other fields.

Strawberry Bread
2 1/4-3 c. (2pt.) sliced fresh strawberries
1/4 c. salad oil
1/2 c. sugar
3 c. flour
1 tsp. baking powder
2 c. sugar
1/2 tsp. salt
1 1/4 c. salad oil
4 eggs, well beaten
1 tsp. red food coloring
1 c. chopped walnuts
Wash, hull, and slice strawberries. Sprinkle with 1/2 cup of sugar. Stir lightly. Allow to stand at room temperature about 30 minutes while preparing cake. Combine all remaining dry ingredients in large mixing bowl. Make a hole in center of the mixture. Add eggs, oil, and food coloring. Mix by hand until thoroughly combined. Reserve 1/2 cup berries. Stir remaining strawberries and nuts into batter. Mix well. Pour into 2 well-greased and floured 9"x5"x3" loaf pans. Bake at 325° for about 1 1/4 to 1 1/2 hours or until done. Or bake in a 10" tube pan or bundt pan at 325° for 2 hours or until done. Cool thoroughly. Prepare glaze with remaining 1/2 cup strawberries and powdered sugar. Drizzle over loaves.
Note: 2 (10 oz.) packages of frozen strawberries can be used in place of the fresh strawberries and 1/2 cup of sugar.

Debra Says

By Debra Price

Convection ovens "a la counter top" need a cook's fine touch for placing food just right if there's lots of it cooking at once, but the result is a high-quality product—if you don't mind a bit of noise.

They're also great for thawing foods—just turn the temperature dial off—and for dehydrating rather small amounts of food.

However, be prepared for that bit of noise since their main feature is a fan. Of course, some are noisier than others.

Because air circulation in today's convection ovens is not perfect, loaves of bread, pans of cookies or layers of cake loaded on more than one rack at a time do not bake evenly.

It helps to stagger the pans. Or when baking larger amounts, divide food into smaller pans.

Allow space for air circulation both around the oven walls and between the baking pans.

Food placed directly in front of the fan of a counter-top oven will brown before the food that is placed away from the fan.

This is most common in ovens with "back" fans or "side" fans. Ovens with "top" fans will brown food on the top layer of the oven first.

Convection ovens turn out high-quality food items.

Meats are especially successful. There is less shrinkage with roasted meats and poultry.

Breads are evenly browned, have a beautiful, tender crust and "excellent crumb," meaning they're moister and more evenly textured.

Before making a decision to buy a counter-top convection oven, answer these questions:

Is convenient counter space available for its use?

If counter space is available, is adequate clearance

available for both sides, back and top?

Is an electrical outlet on a 20-amp circuit (without high demand for other appliances) close to the counter space or cart where the oven will be used?

How much or how often will the oven be used?

Will it be used often enough to make the original cost of \$100-\$300 worth it?

Is the oven cavity size large enough to cook the largest item that will be baked or roasted?

Remember, most appliances have "pros" and "cons". The wise consumer knows both and considers both before making a choice.

MUDDY RIVER BOTTOM BARS

This recipe is by courtesy of Laura Jacobs, Parmer County Texas Extension Agent, Home Economics. It was a fantastic success at the Judges' and Commissioners' conference in Amarillo!

1 can (8 oz.) crescent dinner rolls

¾ cup brown sugar

¾ cup margarine

1 cup nut pieces or halves

1 package (6 oz.) semi-sweet chocolate pieces

Preheat oven to 375 degrees. In small saucepan, combine brown sugar and margarine; boil one minute on medium heat. Separate crescent dough into two large rectangles. Place in ungreased 10x15-inch jelly roll pan; seal perforations. Pour sugar mixture over dough. Sprinkle with nuts. Bake 14 to 18 minutes, until golden brown.

Remove from oven; immediately sprinkle with chocolate pieces. Slightly swirl pieces as they melt, leaving some pieces partially melted or whole. Do not spread evenly. Cool and cut into bars.

COUPLES GOLF

There was a tie for first place among the twelve teams out for golf Tuesday at the Country Club. Rip Sewell, Wanda Stuart, Jeanette and Bob Bailey tied with the team of Steve Pogue, Kay Braden, Geniece and Pleas Childress. Third place went to Barbara and Bob Wallace and Katy and Demp Jones. Marilyn Cox and Bob Wallace were closest to the flagstick on number 9.

DUPLICATE BRIDGE

In Duplicate Bridge Club play Sunday afternoon at the Country Club, Mrs. Robert Cox and Mrs. Tom Montgomery won the top spot. There was a tie for second between Mrs. Sherman Taylor and Mrs. Sidney Millspaugh and Mrs. Bill Baggett and Evert White.

MRS. JASON WILLIS TURNER
...nee Miss Doreen Watson

Miss Watson becomes bride of Mr. Turner

Doreen Watson became the bride of Jason Willis Turner in a morning ceremony at South Eleventh and Willis Church of Christ in Abilene on Saturday, June 5, with Ian A. Fair officiating.

The bride is the daughter of Mr. and Mrs. Billy D. Watson. Parents of the bridegroom are Mr. and Mrs. Willis P. Turner of Temple.

The bride, given in marriage by her father, wore a gown of sheer organza and Chantilly lace. The bodice was covered with the lace and accented with embroidered beads, topped with a Victorian neckline. The bishop sleeves of Chantilly lace were finished with a deep cuff. The skirt featured a drop back waist accented with a bow and her cathedral length train was bordered with Chantilly lace. Her veil of silk illusion was caught with a band of silk orange blossoms.

Maid of honor was Janell Watson, Abilene, sister of the bride. Bridesmaids were Dee Norris of Midland and Juanita Turner, sister of the bridegroom, of Temple.

Best man was Justin Turner, brother of bridegroom. Groomsmen were Dale Rob-

inson and Dave Stevens of Abilene.

The bride's parents hosted the reception in the church fellowship hall and the bridegroom's parents hosted the rehearsal dinner at Wyatt's Cafeteria.

The bride is a student at Abilene High School and the bridegroom is a student at Abilene Christian University and is employed by Dono Oil Company, Abilene.

Following a wedding trip to San Antonio, the couple will live in Abilene.

GIRL TO STEPHENS

Mr. and Mrs. Randy Stephens of Loving, New Mexico are the parents of a daughter born May 27, at Guadalupe Medical Center in Carlsbad, N.M. The little girl has been named Jamie Lee. She weighed 8 pounds and 2 ounces. Mrs. Stephens is the former Kathy Adams of Ozona.

Grandparents are Mr. and Mrs. Jack Adams and Mr. and Mrs. Don G. Kilgore.

Mr. and Mrs. Oscar Kost and Mr. and Mrs. Dick Kirby were in San Antonio over the weekend to attend the showing of the 1983 Zenith television coordinates.

Tips For Gardeners

From The Ozona Garden Club by Mrs. Bailey Post

Now that the summer heat is upon us for several months, the daylight saving time provides an extra hour in early morning and late evening for more outdoor gardening. Too, it is the ideal time to enjoy our leisure time entertaining or maybe just relaxing. Outdoor living becomes more popular each year it seems.

With June comes some of the gifts from your early garden planning and labor. An armful of flowers, fresh flowers, and maybe some fruit and vegetables.

Perhaps some of you may have the problems of not having a large planting space around your home. To solve that, patio and container gardening on patios, balconies, door steps, porches or window sills are popular. Once planted, they will need attending by applying plentiful amounts of water and fertilizer. Give careful thought to the plants you select for container growth. Some of the types acceptable include bushel baskets, drums, barrels, plastic trash

cans, gallon cans, tubs, wooden boxes, ceramic pots, plastic and clay pots and hanging baskets of wire or wood.

An essential element for all containers is good drainage. Make drainage holes on the sides, if not already there, near the bottom. Then put a one-inch layer of coarse gravel in the bottom of the container.

When containers are ready for filling with soil, a synthetic potting mixture should be used rather than earth from a yard or lot. This soil is free of disease and weed seeds, holds moisture and nutrients better than garden soil and are lightweight to be moved for changing light and shade conditions.

The ideal exposure for baskets is on the north-east eaves of a building where plants are shielded from southerly winds and hot afternoon sun. They need to be watered at least once a day, perhaps two or three times.

Mrs. Taylor hostess for lunch and bridge

Mrs. Sherman Taylor entertained with luncheon and bridge at the Country Club Thursday.

The tables were centered with colorful arrangements of spring floral arrangements

and complimented with blue place mats and napkins.

Luncheon guests were Mrs. Robert Cox, Mrs. Embree Hunt, Mrs. Pete North, Mrs. Larry Braden, Mrs. Pleas Childress and Mrs. Lela Mae Nussbaumer.

Lady golfers meet for lunch

The lady golfers met Wednesday for a sack lunch and business meeting. Marilyn Cox presided over the business meeting. The 4th of July tournament was planned. Tee-off time will be at 8:30 a.m. on Saturday, July 3. Coffee and donuts will be at 7:45 a.m. All golfers are urged to come and bring a sack lunch to follow the day's play. The Ladies Invitational Select Shot tourney is set for Saturday, August 21. It will be a partnership tournament. The Couples Select Shot tourney on August 14 and 15, was discussed.

On Wednesdays play the team of Katy Jones, Jeanette Bailey and Wanda Stuart were winners. Kay Braden was low net, Wanda Stuart low gross, and Katy Jones, low putts. Others playing were Benny Gail Hunnicutt, Darolyn Webster, Mary Lou Lilly, Marilyn Cox, Jimmie Jacoby, Ella Clegg, Janet Stuart, Carol Hensley, Bobbie Fatout, Jonesy Williams, Chesta Stuart and Billy Gene Baggett.

Calling All Homemakers
Brought To You By Brown Furniture
In working out color schemes for your rooms, it might be helpful to know the four basic classifications that color experts use.
One is called monochromatic, which means using different shades and tints of one color throughout a room, with the possible addition of some black, white, or neutrals. A monochromatic room might have, let's say, basically green plus light greens and dark greens.
The next category is what are called analogous or related color schemes. That is, using colors that are side-by-side on the color wheel. For example, a room done this way could have reds and oranges, or greens and blues.
Then there is the complimentary or contrasting color scheme where you use colors that are opposite each other on the color wheel such as red and green, or yellow and violet.
The fourth category is called triad which uses not just two, but three basic colors which are spaced equally on the color wheel, such as red, yellow and blue, all in the same room.
You can do a beautiful job with any of the above classifications depending on your preferences and what you want a room to express, and this can give you a starting point. And remember we stand ready to offer you ideas and a good selection of furniture at **Brown Furniture**.

Expanding horizons for the blind

Talking clocks, oversized cards and domino sets, and infrared telescopes are literally expanding horizons for blind Texans.

These and dozens of other special devices are making it possible for those with even severe eyesight loss to get around town on their own, watch television, or see their minister's face during church services, said Ralph Stanifer, M.D., chief of ophthalmology at the Houston Veterans Administration Medical Center and assistant professor of ophthalmology at Baylor College of Medicine. Stanifer also chairs the Houston VA's Visual Impair-

ment Services Program (VIS) part of a statewide network. Other VIS clinics are located at VA hospitals in Amarillo, Big Spring, Bonham, Dallas, Kerrville, Marlin, San Antonio, Temple, Waco and an outpatient clinic in El Paso.

At the clinics, prescriptions are devised for spectacles, telescopes, and electronic devices that can help many legally blind persons see well enough to maintain an independent life-style.

Other devices help the totally blind lead active lives.

Randolph Greene, a VIS staff coordinator, knows from first-hand experience what a big difference these small

devices can make in a blind person's quality of life:

"I was an avid reader before I lost my sight. Now I use a talking book machine with a cassette for reading. I suppose the other devices that I depend on most are my Braille watch and my talking calculator that helps me do the statistical reports I have to turn in every month."

Blinded when he stepped on a land mine during World War II, Greene is among the 15 percent of legally blind persons who truly have no vision. For these people, special aides such as Braille writing devices open the door

to learning and communication--to schools and jobs.

However, the majority of visual impairment aids now on the market benefit the 85 percent of people who, although legally blind, have some remaining vision.

This group of people can often maintain good mobility with the help of rehabilitation programs such as those at VA medical centers.

E.M. (Al) Moody has been a patient in the Houston program for many years. A World War I veteran, 87-year-old Moody said he had seen other doctors before coming to the VA who never told him about low-vision devices.

Moody knew his sight was deteriorating when his wife had to read street signs for him and tell him to stop at traffic lights. Then a day came when he had a hemorrhage in one eye and doctors informed him he had a condition called macula degeneration that affects the most sensitive area of the retina used for discrimination of color vision and for reading.

Since developing this disorder which is most common in elderly persons, Moody has used a variety of devices to lead as normal a life as possible. Holding a small

telescope in the palm of his hand and raising it to his eye, he demonstrated how he's learned to keep the instrument from shaking by steadying his hand against his forehead, "I can do a lot with this--watch television, look for a bus."

Whipping a square-shaped object out of his pocket, Moody said, "I use this to read menus in restaurants and sign checks."

Moody is one of more than

1,700 visually impaired Texas veterans participating in the VIS program. Established by the VA in 1967, VIS is funded by the Veterans Administration and supported through voluntary activities by the Lighthouse for the Blind, Disabled American Veterans, and the Blinded Veterans Association. Visually impaired veterans who don't qualify for VA rehabilitation services are referred to local agencies and the Texas State Commission for the Blind.

Cut frills, cut cost

For a lower price tag on that new home--and to qualify for mortgage loans, home buyers may have to give up luxury frills, says Dr. Jane Berry, a housing and home furnishings specialist with the Texas Agricultural Extension Service.

Eliminating such things as fireplace, patio, sunken tub and a bar will help lower the price, she notes.

Some builders are offering stripped-down-model homes for less, too. The buyer can finish out or add onto these homes as money becomes available.

CARD OF THANKS

We would like to thank all that were so kind and generous during our mother's sickness and death, especially to Dr. and Mrs. Carlisle and to all the people that were so kind with gifts of flowers and food, prayers and all the other acts of condolences.

Sincerely,
Mr. and Mrs. Manuel Fierro and family
Casiana Fierro and family
Mr. and Mrs. Maclovio Fierro Jr. and family

PHONE NEWS TO THE STOCKMAN.

Understand contract before paying loan

Before you sign an installment loan contract--or decide to pay off such a loan early to save most of the finance charges (interest), understand the contract fully, advises Beverly Rhoades, a consumer information specialist.

Even if you're told the loan can be "paid in full" at any time without prepayment penalty, the interest dollars you save with an early pay off can amount to fewer than you might think, she says.

Most importantly read the entire contract carefully.

It may spell out exactly the amount of finance charges (interest) you will be refunded in case of early loan pay off.

On the other hand, your contract may contain terminology you don't understand. If this is the case, ask your loan officer for an explanation. If he or she cannot adequately explain the words or phrases, get a satisfactory explanation before you sign the agreement.

Look for words such as "sum of the periodic balances."

If your contract says this is the method your refund will be figured by, it means the refund will be computed by a formula commonly referred to as the "Rule of 78," Rhoades says.

This formula, provided in the Texas Credit Code, figures monthly payments with more of your interest loaded in the earlier installments and less in the later installments.

So, when you pay off a loan early, you still may have already paid most of the total finance charge (interest) that was originally computed.

Even if you pay off the loan after only a few months, you may avoid paying just a small percentage of the finance charge (interest), Rhoades says.

Remember, interest is charged from the day the loan is made.

Here's how the "Rule of 78" works:

If you have a one-year loan, you pay 12/78's of the total interest the first month. You pay 11/78's the second month and so on.

If you pay off the loan after six months, you already will have paid 73 percent (more than half) of the total interest.

In addition, the loan agency will not refund any of the amount you have already paid.

They will refund only the interest not yet earned--in this case only 27 percent of the total (just a bit more than a fourth of it).

WHY BUY A GAS GRILL NOW?

Now is a great time to buy a new gas grill. Choose from 7 quality models... save a big 20%... and take the heat out of your kitchen, too.

You'll really enjoy the convenience of cooking out with a natural gas fired grill... love the flavor of outdoor cooking without the mess of charcoal or the hassle of LP tanks.

Order your gas grill from any Energas employee now and make the most of summer.

PATIO KITCHEN

PK grills provide the convenience of natural gas fired barbecuing... have heavy top and bottom aluminum castings and H-shaped stainless steel burners for years of long wear... and exclusive Range Rock briquettes with controlled porosity for even heat and less flare-up.

PK DELTA 1

PERRYS

MRS. CLAYTON JONES
...nee Miss Danita Adair

Miss Adair and Mr. Jones are married

Miss Danita Lee Adair became the bride of Clayton Swayne Jones in a garden wedding at the home of the bride's parents in Wellman, June 5, at 10:30 a.m. John DeFoore of Boerne performed the double-ring ceremony.

Parents of the couple are Mr. and Mrs. Art W. Adair of Wellman and Marion Sue Jones of Boerne, and Jack Jones of Salida, Colo.

The bride, given in marriage by her father wore a gown of white organza and re-embroidered alencon lace. The lace embellished the empire bodice and formed the V-neckline as well as the cap sleeves. Appliques of lace delicately scattered the front of the gown's A-line skirting of organza which ended in a flowing chapel-length train. A Juliette cap of lace caught the long sheer illusion veil which was sprinkled with the lace appliques.

Matron of honor was Mrs. Terry Thrash, sister of the bride, of Plains. Flower girl and ring bearer were Melissa and Corey Thrash also of Plains.

Les Moore is honor graduate

Les Moore has been named valedictorian of Red Oak High School for 1982. Les finished his four years with an honors point average of 313.

During his high school career, he has participated in various scholastic activities as well as athletic events and has represented his school locally as well as on the national level.

He has been a member of the National Honor Society for 2½ years and served as president his senior year. He is in Who's Who Among American High School Students and the Society of Distinguished American High School Students for 1981 and 1982. He has received three awards from the United States National Achievement Association, one for leadership, one for English-creative writing, and one for general English. He has been Red Oak's Outstanding English Student for three years and this year also won the math award.

Les plans to attend Texas Tech in the fall where he will major in mathematics and run track.

He is the son of Mr. and Mrs. Brent Moore, the grandson of Mr. and Mrs. Buddy Moore and Mrs. Dottie Mason and the great-grandson of Mrs. Audra Moore and Mr. and Mrs. Martin Boone.

Crockett County Care Center News

BY ANN McCARTNEY
DIRECTOR OF ACTIVITIES & SOCIAL CARE

Care Center residents were treated to a very good church service when our fifth Sunday volunteers, members of the Calvary Baptist Church, brought our Sunday afternoon services. Mr. and Mrs. George Alexander, daughter and son-in-law of Paul Cavin shared Mr. Alexander's retirement cake with all residents Sunday afternoon also.

Monday morning found a table of dominoes and a table of 42 being played in the dining room. Residents participating included: Paul Cavin, Ola Mills, Nina Mayfield, Louise McWilliams, Nila Turnell, Maude Pettit, and Bertha Miller.

Monday we also welcomed another Candy Stripper, Pam Miles. Julie Reager has been on vacation with her family this week but Shelly Rumley and Pam have done an excellent job helping do every activity. We are proud to have these girls for the summer.

Tuesday morning bingo winner of the El Chato dinner for two was Grace Cotter. Volunteers were Barbara Davee, Georgia Kirby and Alice Ross, as well as our Candy Strippers.

Tuesday afternoon we had a fine Sing-along with Jerri Lee on the piano. Residents joined in with our rhythm instruments. Everyone had a good time. We will enjoy having Jerri come again.

Wednesday morning ceramics was led by Ruth Hester. Residents were thrilled to see the return of the pieces they painted last week, now fired and ready for display and for sale. Resident workers this week include: Ola Mills, Jessie Deaton, Vera Talley, Maude Pettit, and Moraima Perez.

We have found company kinsfolk make good volunteers too. Ruth Hester recently brought her sister-in-law Lorene Nugent to help with ceramics. Gregory and Starla McCartney, son and daughter-in-law of the J. McCartneys, came and hung our outdoor bird feeders this week while they were visiting his parents. We were happy to have these volunteers from Amarillo and DeSota.

We have also enjoyed apricots brought to us by Mr. and Mrs. George Hester, Mr. and Mrs. E. C. Alford, and Mr. and Mrs. Frank Edward Vargas.

Yet another big thank you goes to Willie Tooke for a case of chewing gum donated this week, to Donuts, Etc. for donuts, to Mr. and Mrs. E. C. Alford for a sack full of men's toiletries, and to Doris Hull for a memorial contribution.

Wednesday afternoon was Sunshine Hour on our schedule and it was also Mr. Max Schneemann's birthday. The two were combined when the Schneemann's treated residents and friends to a large watermelon party out on the front porch. Mrs. Bode Owens furnished background music from the piano which was an extra treat. Other

guests of Mr. and Mrs. Schneemann included: Mr. Bode Owens, Mrs. A. C. Hinde, Lucy Hinde, Mr. and Mrs. Buck Owens, all of Barnhart, Mr. and Mrs. Phillip Schneemann of Ft. Stockton, Mr. and Mrs. Bill Schneemann of Big Lake, Mr. and Mrs. Miller Robinson of Coleman, Mr. and Mrs. Ted White, Mr. and Mrs. Early Baggett, Mrs. Jess Marley, Jr., Mrs. Roy Henderson, Mrs. Charlie Fuantoz, and Carmen Gutierrez, all of Ozona. There were even more friends whose name we possibly missed. It's nice to have family and friends to give such a nice birthday party and to share it with everyone.

Bonnie Warth came by this week and shared with Ola Mills miniature hats she brought back from the state meeting of Federated Women. Ola in turned shared them with everyone and they can now be seen on display in our lighted display shelf.

Another visitor we were delighted to have this week was Faye Tandy. Many of our ladies enjoyed visiting with this old friend. She delighted all residents by singing and playing at the piano just before lunch on Monday.

Thursday morning beauty shop was manned by Dorie Hoffman. She enjoyed having our Candy Strippers help both with hair and with finger nails.

Thursday afternoon we had our regular Bible study brought by the Faith Lutheran Church group. This was followed by Spanish hour.

Friday morning bingo winner of the certificate from Clayton Village Drug was Ramona Lugo. Second place winner was Louise McWilliams. A new Candy Stripper arrived on the scene Friday. She is Kim Williams. Welcome to our group, Kim.

Friday afternoon a large group of ladies met for a Crochet party and visitation session. Dorie Hoffman met with the group and shared books and her latest crochet project. Ladies joining in the fun included: Juana Hernandez, Frances Borrego, Tomasa Ramos, Ola Mills, Jessie Deaton, Verna Talley, Louise McWilliams, Nila Turnell, Maude Pettit and Bertha Miller.

Knee surgery improved

Knee surgery automatically used to mean a large scar, several days in the hospital and weeks to months of rehabilitation at home.

The Texas Medical Association says that has changed in some cases recently with arthroscopic surgery, an operation on a joint using a small telescope called an arthroscope.

The relatively new procedure, which requires an anesthetic, leaves only small scars. The patient usually leaves the hospital within hours of the operation, walks within 24 hours, and resumes near-normal activity within weeks.

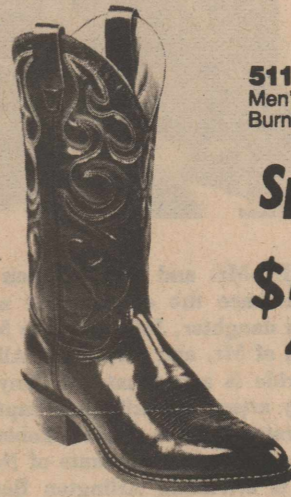

The arthroscope is about five millimeters in diameter. Commonly used to diagnose knee injuries, it is inserted into the joint through a small incision. The surgeon views the inside of the joint either directly through the arthroscope or with a lightweight television camera attached to the instrument. The camera provides a picture of the joint on a television screen. If the surgeon decides an operation is needed, he also inserts miniature cutting and grasping instruments through small incisions.

But not every joint operation can be performed arthroscopically. The ones that are include removing loose pieces, removing torn cartilage, realigning the kneecap and taking samples of joint wounds for microscopic examination.

The disadvantages of arthroscopic surgery are that it is expensive, requires costly equipment that many hospitals do not have, and is much more difficult for the surgeon to perform. Because the procedure did not gain popularity until the mid-1970's when the miniature surgical instruments were developed, not all orthopedic surgeons perform it routinely. But they can advise the patient on whether arthroscopic surgery would be appropriate.

To remove odors in a microwave, boil one cup of water and several tablespoons of lemon juice in the oven for five to seven minutes.

BPBA energy report

"The Permian Basin Petroleum Association is extremely concerned that Congress will place new tax burdens on the petroleum industry, and possibly royalty owners, to help lower the federal budget deficits," according to Arden Grover, Chairman of the Board of P.B.P.A. Grover, along with new association President, Ken McPeters of Hobbs, today sent out an alert to all BPBA members to make them aware of the seriousness of the possibility that Congress will take more money from the petroleum industry just when it's needed the most. The price producers are receiving for their oil is below last year and this has contributed to the fact that the rig count nationwide is down more than 1,000 and is down about 100, or approximately 25 percent in the Permian Basin.

Grover also pointed out that "The so-called oil glut is only temporary...and is probably over...and the progress we've made in reducing imports could be wiped out by any new taxes on the domestic petroleum industry."

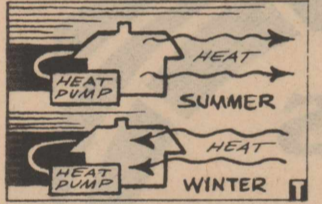

Grover continued, "Investment money is much harder to come by than last year during the boom, and the high interest rates add to the difficulty of financing new drilling and exploration."

McPeters commented that "the petroleum industry, or any industry for that matter, should not be called on the bail out the spending excesses of Congress. The federal budget has doubled since 1975 and tripled since 1970. It's time Congress get serious about really cutting the budget and doing it's part to help get interest rates down to a reasonable level."

In the Permian Basin our rig count for this week was 332. One year ago it was 432.

WATCH YOUR ENERGY

WE'RE HEARING MORE AND MORE THESE DAYS ABOUT ELECTRIC HEAT PUMPS. CAN THEY HELP OUR ENERGY PROBLEMS? HOW DO THEY WORK? HERE ARE SOME TIPS ABOUT THESE INGENUOUS DEVICES. **HEAT PUMPS** MOVE HEAT FROM WHERE IT'S NOT NEEDED TO WHERE IT'S NEEDED. IN SUMMER, IT WORKS LIKE AN AIR CONDITIONER, MOVING HEAT OUTDOORS. IN COLD WEATHER, IT MOVES HEAT FROM

OUTSIDE INTO THE HOUSE, WORKING LIKE A HEATER. A **HEAT PUMP** IS THE ONLY HEATING SYSTEM THAT CAN PROVIDE SPACE CONDITIONING EVERY DAY OF THE YEAR. IT DOES SO WITHOUT BURNING FUEL. IT HAS NO NEED FOR A CHIMNEY OR VENTING, AND WILL NOT POLLUTE. THESE TIPS ARE FROM THE NATIONAL ENERGY WATCH...THE ENERGY EFFICIENCY PROGRAM FROM THE ELECTRIC UTILITY INDUSTRY.

Craig Taliaferro, son of Mr. and Mrs. Warren Taliaferro, has recently been promoted to the rank of Captain in the U.S. Air Force. Craig, graduate of the Air Force Academy, is an instructor-pilot at Laughlin AFB.

ENGAGEMENT ANNOUNCED-Mr. and Mrs. Gordon I. Ellis of New Braunfels, announce the engagement and approaching marriage of their daughter, Julie Lynn, to Mr. Wayne Allen Whitworth, son of Mr. and Mrs. John Allen Whitworth of Ozona. The bride is a graduate of Canyon High School and is presently attending Arlington Baptist College. She is a TBS operator for the James Robison Evangelistic Association. Her fiancé is a graduate of New Braunfels High School and is attending Arlington Baptist College. He was college career director at Crestview Baptist Church and is presently employed in data processing in Fort Worth. The wedding will take place July 3, in Crestview Baptist Church in Irving.

Practice safety when fishing

Whether fishing in the farm pond or a large lake, safety should be practiced at all times, says Dr. James T. Davis, fisheries specialist for the Texas Agricultural Extension Service. A few safety precautions can prevent a tragic accident.

While in a boat, children should wear life jackets at all times. Cushions are now adequate for children or non-swimmers. Cushion type life preservers are acceptable for the fair to good swimmer if used properly. Davis says that cushions should never be worn on the back with arms through the straps. This has the effect of floating the person face down in the water. The cushion preserver should be worn either across the chest or with one leg and the opposite are through the straps.

Don't overload the boat. Most stern plates indicate the maximum safe load. If in doubt, don't go out. Balance the load in the boat with more weight in or toward the stern. If the boat does overturn, stay with it. It is usually farther to shore than it appears.

Around the farm pond or near fishing docks, a safety station should be established. Davis says that a simple safety station can be very effective if everyone is familiar with the use of the equipment.

A post set about 15 feet from the water and near the dock serves as a place to hang a rope, doughnut life preserver, innertube, pole or board. A 12 to 15 foot long fishing pole is very effective for rescuing someone who falls in the water near the shore.

For rescuing someone slightly farther from shore, a rope that can be easily thrown works best. Tie a very large knot in the end of the rope to make it throw better and to serve as a hand hold for the person being rescued.

A "doughnut" life preserver can be thrown 30 to 40

feet by most people. An inflated innertube can also be used but is difficult to throw any long distance. As an emergency measure, a dry wood board about six to eight inches wide and six feet long can be scooted across the surface of the water for someone to hold onto until help arrives.

Whatever rescue method is used, all persons should be familiar with the equipment available and how to effectively use the equipment. Davis says the objective is to rescue the person in trouble and any delay can be tragic.

Parents, know more about accident-prevention to protect your children from mishaps. Be aware of and alert for, factors that may cause accidents, such as improper storage of matches and lighters. Aware and alert parents are a major force in preventing child injuries due to accidents.

Ranchers Roundup will feature 100 speakers

More than 100 of the ranching industry's best noted experts and policy makers will present their expertise at the 2nd annual International Ranchers Roundup (IRR) Aug. 10-12 in the festive border city of Del Rio. In addition, tours of progressive Southwest Texas ranches are scheduled Aug. 9 and Mexico ranch tours, Aug. 13.

"Effective Ranch Management" is the theme of IRR-'82.

Headline keynote speakers include Raymond D. Lett, executive assistant to Agriculture Secretary John Block; Charles G. Scruggs, vice-president and editor of Progressive Farmer magazine; Susan McBee, Texas State Representative; Stan Parsons, Savory Grazing System consultant; Bob Bliss, Friona Industries; and Terry Mitchell, with the Australian Department of Agriculture.

Since the deadline for tour registration and the \$50 registration fee discount is July 15, prospective participants are urged to send promptly for registration materials. Both tours will be limited to the first 200 registrants. Registration material is available by writing to IRR, P.O. Box 1849, Uvalde, Texas 78801.

Last year's IRR, the first and largest of its kind ever held in the Southwest, attracted some 700 ranchers and industry leaders to the border area for five days of educational activities. Based on enthusiastic comments from many of those participants throughout the year, plans are being made to accommodate 1,000 registrants this summer.

Producer's comments ranged from "it was like trying to take the entire Texas A&M animal science curriculum in five days...just overwhelming" to "there were too many beneficial activities occurring at once... I didn't know which to attend first."

All general session talks will be presented Tuesday, Aug. 10, in the Del Rio Civic Center.

Concurrent sessions geared to more effective

management of beef cattle, sheep and Angora goats, meat goat production, range resources and wildlife will be conducted at Del Rio High School Aug. 11-12. Some programs such as ranch business management have been incorporated into major commodity discussions. Simultaneous translation will be provided in sessions important to Mexican ranching.

This year a special feature is being added for all female participants. "Woman in Ranching" will feature experts from around the country discussing such topics as "Protecting Women's Economic Interest in Ranching," "The Ranch vs. The Family," "Micro-computers in the Ranch Home," "Ranch Estate Planning" and "Together We Can!"

IRR participants will be treated to a Mexican Fiesta Aug. 10 in Ciudad Acuna hosted by that city's mayor and a country-western dance Aug. 11 following a steak

banquet. No evening functions are scheduled Aug. 12, allowing IRR participants to enjoy the many varied entertainment opportunities and dining cuisine available in this border area.

IRR is being organized by Texas Agricultural Extension Service specialists based at the Texas A&M Agricultural Research and Extension Center at Uvalde. The program is designed to present updated technology from a variety of experts in various fields which can make individual management ranching decisions easier and more profitable while providing an opportunity for idea exchange among participating ranchers from throughout the country.

YOUR TELEPHONE SERVICE - A REAL BARGAIN

Frequently, the convenience of the telephone is taken for granted. For instance, a few things you use your phone for:

1. Shop ahead, save gas.
2. Make appointments (doctor, sales calls, lawyer, preacher)
3. Emergencies (police, fire, ambulance)
4. Talking with loved ones in other towns
5. Conducting business via long-distance, save on travel cost
6. Calling scout troop, civic club, little league team, etc.
7. Visit with a friend across town.

Talk is cheap and also a real bargain. For a true picture, divide your basic local service rate by the days in the month. For just pennies a day, excluding long distance and special services, you have your town at your fingertips.

General Telephone  "YOUR TELEPHONE SERVICE - A REAL BARGAIN"

10 YEAR NO SWEAT WARRANTY

If Air Conditioning doesn't have it here it probably doesn't have it.

Gas Air Conditioning Has It!

No other air conditioner has a warranty like a gas air conditioner because no other air conditioner is built like a gas air conditioner.

Gas air conditioning has fewer moving parts and no compressor to wear out or break down. This means less wear and tear and lower maintenance costs.

That's why gas air conditioning is so dependable and why it has a warranty that's twice as long as other types of units... a full 10 years!

Find out more about the air conditioning that's backed by the best warranty available. Call Energas today for a free cooling survey and cost estimate. There's no obligation.

Remember, all air conditioning was not created equal. And we have the paper to prove it!

ENERGAS

Manufacturer's limited warranty covers all defects in materials and workmanship on the sealed refrigeration unit for ten years from the date of installation of the air conditioner when it is installed in a single family residence. All other parts are warranted for one year from date of installation.

The Scientists Tell Me . . . Rangeland Pricklypear Infestations Are a Hard-to-handle Problem

In 1980, pricklypear was estimated to infest 25.5 million acres of rangeland in Texas, which is about 28% of our total rangeland.

Of the total pricklypear infestation, over 40% of it occurs in the Edwards Plateau, according to Dr. D. N. Ueckert, a range scientist with the Texas Agricultural Experiment Station at San Angelo.

Ueckert is a member of a team of Experiment Station scientists assessing the problem of pricklypear control as part of the Station research effort of controlling unwanted range plants, including brush and weeds. Team members include G. K. Lundgren and R. E. Whitson, Departments of Range Science and Agricultural Economics; F. E. Gilstrap, Department of Entomology; and C. W. Livingston, TAES at San Angelo.

A survey of County Agricultural Agents indicated the extent of the pricklypear problem and how the magnitude of it varied by regions.

In addition to the already mentioned 40% of total pear located in the Edwards Plateau, 17% is in South Texas, 13% in the Cross Timbers and the remaining 29% in the High and Rolling Plains, the Blacklands, and the Trans-Pecos regions.

On a statewide basis, the infestation of pear is estimated at 1.8 million acres of dense stands, (dense indicating that pear dominates total vegetation); 7.5 million acres of moderate stands; (moderate being that pear is a significant part of vegetation); and 16.2 million acres of light stands, (light defined as scattered plants).

By resource regions, pear infestation ranges from a high of 54% of the total rangeland in the Edwards Plateau to a low of 1% in the Trans-Pecos.

Seriousness of the problem appears to be related somewhat to the density of the infestation. Producers in the Edwards Plateau and Cross Timbers appear to be most concerned, especially in certain areas within these regions.

Nearly 50% of the producers in the Edwards Plateau

are experiencing moderate to serious livestock health problems due to pricklypear. This is nearly four times the magnitude of any other region in the state.

Pricklypear is controlled by about 16% of the individual producers in Texas. The principal reasons for non-control are relatively light infestation in many areas as well as the high cost of control treatment.

The survey also indicated that pricklypear is considered to have positive values for livestock production in 60% of the counties and to have positive values for wildlife production in 80% of the counties.

Many ranchers consider pricklypear to be a mixed blessing. It represents a reserve food source that can provide the means for a low-cost livestock feed during extended drought periods. Ranchers may burn the spines off pricklypear during the winter and use it as supplemental cattle roughage.

However, Ueckert says pricklypear alone is not usually adequate for maintaining animals without weight loss. It has also resulted in reduced livestock production because it competes with grass and can increase herd health problems.

"Pear" has also been found to be of importance to wildlife, an important crop for landowners in recent years. It provides protection for quail and other birds and is important to various other species of wildlife.

The fruits, called "pear apples," are eaten by most animals, and the cladophylls (pear "leaves", actually stems) are heavily used by deer, cattle and goats. The pricklypear is the most important food item of the javelina.

Ranchers concerned with control of "pear" say control practices such as grubbing, piling, raking, raiing, and the use of herbicides are not economical and that more effective practices are needed.

A variety of chemical and mechanical means, as well as control by burning, are being used by producers who practice pricklypear control.

Chemical control is the primary method in each region except South Texas, where mechanical means are most often used.

Of the agents who specify use of chemicals, 2, 4, 5-T plus picloram is preferred.

The percentage of counties in each resource region where pricklypear is considered to have positive values ranges from 8% in the High and Rolling Plains to 60% in South Texas.

Pricklypear is considered to be of value for livestock production in 27% of the counties of the state. The major value of pricklypear is as an emergency feed source in 94% of the counties and to a lesser extent as winter feed, (6%).

The amount of pear that could be reduced without causing an adverse effect to livestock production, ranges from 68% in South Texas to 100% in the Trans-Pecos.

It is estimated that 88% of the pricklypear stands could be reduced across the state without adverse impact on the livestock industry.

Pear is considered to have greater positive values on wildlife production than for livestock production; it is believed to have positive impact on wildlife in 17% of the counties within the Cross Timbers and in 80% of the counties in South Texas. The major uses of pear by wildlife are for food and cover.

The majority of Texas counties do not have a serious problem with pear. In four of the six regions, less than 25% of the counties are judged to have a moderate to serious problem.

Pear is a moderate to serious range management problem in 45% of the counties in the Edwards Plateau and a moderate to serious range management problem in 55% of the counties in the Cross Timbers.

So, Ueckert concludes, there is a great diversity of opinion about pear, and how much of a handicap it is to the productivity of rangeland.

For those interested in control, expanded research continues for more effective, cost-efficient methods as a part of the Experiment Station's Rangeland Control of Brush and Unwanted Weeds.

ENGAGEMENT ANNOUNCED-Mr. and Mrs. William J. Wilson announce the engagement and approaching marriage of her daughter, Lori-Lynn Clayton, to Mr. Benny Jay Logan of Eldorado. The wedding is planned for August 7, in Ozona United Methodist Church. Miss Clayton is the daughter of Jon Michael Clayton and her fiance is the son of Mrs. Wilma Jean Logan and the late James Logan of Eldorado. Lori is a graduate of Ozona High School and attended Angelo State. She is employed by Ozona National Bank. Her fiance is a graduate of Eldorado and TSTI in Waco. He is self-employed in Eldorado where the couple will live.

Arrange eye exam for pre-schoolers

Youngsters off to school for the first time should have their eyes examined before entering, suggests Dr. Mary Ann Shirer, a health education specialist. Summertime is a good time to take care of this, she says.

Unfortunately, the specialist points out, far too many parents wait to see if the school uncovers any sight problems before taking children to have an eye exam.

"Many kids can have poor vision in both eyes but that's all they know, and they think that's the way everybody sees," she says.

Prime candidates for eye exams are children between ages four to six, Shirer notes. Warning signs of vision

problems parents can watch for are constant squinting, especially to see things in the distance, and holding everything very close to the eyes, the specialist says.

Cancer can be cured

Despite cancer's deadly reputation, one third of the approximately 800,000 people with new cases of it each year survive to lead normal lives for many years. Many are cured permanently.

The determining factor in most instances is early detection, according to the Texas Medical Association.

To help accomplish this, the American Cancer Society's Texas Division has developed a questionnaire that enables individuals to evaluate their cancer risk.

The pamphlet, "Cancer: Assessing Your Risks," uses the person's age, lifestyle and medical background to estimate his or her chances of contracting six types of cancer—lung, colon-rectum, skin, breast, cervical and endometrial (lining of the uterus).

Each answer to a series of multiple-choice questions is given a specified number of points. The higher the point total for each cancer, the greater is a person's risk in that category. People with a high risk are advised to discuss the subject with a physician.

In the lung-cancer section of the questionnaire, an example of a high-risk person would be one over age 50 who has smoked more than a pack of cigarettes daily for 25 years while working in an asbestos plant.

The cancer society's program has the support of the Texas Medical Association and the Texas Department of Health.

The questionnaire can be obtained for free from area and district offices of the American Cancer Society or by writing the American Cancer Society, Texas Division, Inc., P.O. Box 9863, Austin 78766.

Seafood cooking in microwave

Fish makes a tasty leap from ocean to microwave these days. Now that we have microwaves, cooking with seafood is fast and just as tender and delicious as if conventionally prepared, says Annette Hegen, a seafood specialist.

For a light summertime entree, Hegen suggests tasty orange and soy fillets.

- 1 1/2 pounds shark, drum, trout or other fish fillets
- 2 tablespoons soy sauce
- 2 tablespoons frozen orange juice thawed
- 1 tablespoon lemon juice
- 1 tablespoon catsup
- 1 clove finely chopped garlic

Cut fish into serving size portions. Combine all ingredients except fish in a round baking dish for serving. Dip fillets into mixture and arrange with thick edges toward the outside of dish. Cover with paper toweling. Microwave on HIGH for six to eight minutes turning dish once. Let stand three minutes, covered, before serving. Makes four to five servings.

Sprinkle entree with sau-

teed almond slivers or chopped filbert nuts, the specialist recommends.

Garnish with a lemon twist and sprig of fresh parsley.

Serve with wild rice and a vegetable dish for a complete meal.

Mask of the Soul

The face is the mask of the soul. It can convey a peace we do not feel, a strength we do not possess, a courage we hope for but haven't gained. With apparent concern for the dignity and privacy of the individual God permits us to shield our inner self from the prodding eyes of others.

But a calm face doesn't still the soul's turmoil or satisfy its need. Spiritual peace, spiritual nourishment must come from God.

The millions who come to church each week to worship do not look any different from their neighbors. But they are seeking earnestly to fill an emptiness which we all feel, yet hide from one another.

Why not be one of them . . . one of us who worship regularly each week?

Strokes; what to watch for

From the Texas Medical Association

Usually it occurs in people in their 50s and 60s, but children and even infants can suffer a stroke.

Regardless of the different causes that lead to the various types of stroke, all result ultimately from a change in the blood supply reaching the brain, according to the Texas Medical Association.

Sometimes a clot forms in the artery leading to the brain and blocks the blood's passage. Or the walls of the arteries begin to harden with deposits of calcium or fat that narrow the passageway and reduce blood flow.

At other times, a piece of a clot breaks loose and travels to the brain, plugging a vessel. Or during cerebral hemorrhage, stroke occurs when the wall of an artery ruptures, flooding the brain with excess blood.

Older people are more susceptible to strokes because the network of arteries and veins becomes less flexible with age. They harden and become less able to handle blood being pumped faster during sudden movements.

For this reason, doctors constantly warn older patients to slow down their movements, particularly if they awaken to use the bathroom at night. Statistically, more strokes occur then than at any other time. The person's blood pressure is at its lowest point, and suddenly he begins to move.

Major strokes result in paralysis of one or both sides of the body, depending on the side of the brain injured during the stroke. Loss of vision and speech can result. Still, 75 percent of those surviving a stroke eventually regain most of their lost abilities through rehabilitation. But this can take a year or two.

The main factor contributing to the majority of strokes is high blood pressure. Doctors say that more than 50 percent of stroke cases could be prevented with early treatment of high blood pressure. Other factors contributing to stroke are obesity and smoking.

Certain signals commonly precede a stroke: dizziness; numbness, tingling or burning sensation in toes and fingers; weakness in hand, arm or leg on one or both sides; slurred speech; low tolerance to alcohol; vision disorders; and a personality change, such as increased irritability.

COOKING CORNER

SUNNY CHAMPAGNE PUNCH

Spring is the time for a razzle-dazzle party drink. Pineapple juice, pure and unsweetened is the perfect mixer! For an extra-festive touch, freeze fresh strawberries and canned pineapple chunks in water in a decorative metal mold and use as a garnish for the punch bowl.

Want more delightful pineapple juice recipes? Just send a stamped, self-addressed long envelope to: Dole (Castle & Cooke Foods), Dept. JD, P.O. Box 7758, San Francisco, CA 94120.

- 2 cans (46 oz. each) Dole Pineapple Juice, chilled
- 2 bottles (750 mL each) champagne, chilled
- 2 cups sauterne wine, chilled
- 1 can (1 lb. 4 oz.) Dole Chunk Pineapple in Juice
- Ice cubes
- 1 lemon, thinly sliced

In a large punch bowl, mix together pineapple juice, champagne, sauterne and undrained pineapple chunks. Add ice cubes. Float lemon slices on top for garnish. Makes 1-1/2 gallons.

The high cost of clothing doesn't always ensure quality. Price of garments more or less depends on: quality of fabric, quality of workmanship, number of design and construction details, amount and quality of trim used, brand name or designer label, and prestige of store selling the garment.

OFF TO 4-H ROUNDUP AT A&M to compete in state contests were this group of Crockett County 4-H members. Leaving at 7 o'clock Tuesday morning were front row, l. to r., Ann Hoover, Karen Kellers, Bobbie Acton and Christy

Parks. Back row, l. to r., Kelly Sinclair, George Guerra, Capp Covington, Ira Childress, Will Hoover and Marty Acton.

Estimated tax due Tuesday

Tuesday, June 15, is the due date for the second payment of Individual Estimated Taxes (1040 ES). The Internal Revenue Service is currently mailing pre-printed vouchers to taxpayers who filed estimated tax declarations in April. These vouchers should be received no later than June 11, 1982.

Mail order shopping has its advantages

Working women, do you miss those weekly sales at your favorite department store because you work during regular store hours?

One alternative shopping method for employed homemakers that saves time and energy is purchasing clothes by mail orders.

When mail ordering any type of garment, shoppers should keep in mind a few advantages and disadvantages, reminds Fonseca, a home economics staff member of the Texas Agricultural Extension Service.

The use of mail-order companies provides the working woman with a variety of advantages.

A wide variety of merchandise is usually available.

You can shop from your home when you don't have time or transportation for a shopping trip.

You don't have to contend with crowded stores or fight for a parking space and you can often find "hard-to-find" clothing items quickly without having to spend hours looking through racks and racks of clothes.

Although the advantages of mail-order clothes make shopping less burdensome, some disadvantages should be considered. Since little or no personal

contact exists in mail ordering, it may be difficult to get questions answered.

A time lapse exists between the time the garment is ordered and when it arrives. In most cases, emergency purchases cannot be made.

Sometimes, problems may arise in determining correct size, and if the order can't be filled, it often results in disappointment and inconvenience thus garments have to be secured elsewhere.

HOSPITAL NEWS

Patients receiving treatment in the Crockett County Hospital last week were:

- Junior McCartney*
- Aurora Huereca*
- Robilyn Miller
- Josie Mendoza
- Julia Ramirez
- Juan Avila
- Margarito Galindo

* denotes dismissal

Take advantage of care labels attached to clothing--they've been required by law since July, 1972, and following them will add to the life and beauty of garments.

Stain and spot removal

Spots and stains--they're all too common on household furnishings and carpets, says Bonnie Piernot, a family resource management specialist.

How do you remove these hindrances from household items successfully?

Using a good spot removal guide that is easily accessible and taking a few precautions before attempting to remove stains favors best results, the specialist notes.

Act fast! The faster you treat the stain, the milder the remedy needed.

Blot dry or remove surface deposits. For grease stains, sprinkle thickly with an absorbent powder; fruit juice and wine spills should be covered with salt, and most other stains can be rinsed with cold water.

If using a stain remover, follow manufacturer's instructions.

Use a stain removal guide for relevant information on specific stain and removal procedures.

Once a stain is treated, dry fabric or carpet as quickly and evenly as possible.

Add "sparkle" to your current wardrobe--with accessories, trims or fabrics of metallic colors such as gold, bronze, pewter or silver.

Indian dancers to perform

As part of the Eden "Festival 100" activities, the internationally famous Sahawe Indians from Uvalde will set up a Teepee village and perform traditional Indian dances. "Sahawe" means long feathers, which are used in the construction of the colorful costumes. The group will feature such dances as the Taos Hoop Dance, Kiowa War Dance, Chippawa Feather Dance, and the spectacular Pueblo Comanche Dance. Each year the Sahawes travel many thousands of miles presenting their exciting shows to audiences of all ages.

Once one has seen the show, it is hard to believe that the performers are not real Indians, but are members of Explorer Post 181, B.S.A. They have been performing their famous interpretive dances throughout the U.S. and Mexico for more than 30 years.

The Indians will have their village open and be performing their elaborate dances between 1:00 p.m. and 5:30 p.m., June 12, on the Eden

city square. To add a touch of spice, the San Angelo "Muzzle-loaders" will be near-by demonstrating the care and loading of antique guns and wielding the ancient tomahawk into a wooden target.

Brown Furniture

DEBRIS WAS SCATTERED all over town following a windstorm here Saturday night which knocked electrical lines down and damaged electrical equipment throughout

Ozona, plus destroying a hangar at the airport. This large limb was carried by the wind from the park across the street.

Ozona kids top Rankin rodeo Sat.

Ozona cowboys and cowgirls swept the Upton County All-Kid Rodeo Saturday in Rankin, and high winds and rain failed to slow them down.

Ira Childress won the senior all around buckle, getting a first in calf roping and a second in ribbon roping. Kim Bishop was crowned Rodeo Queen.

Other Ozona youngsters who brought home one or more trophy buckles were George Guerra, who won second in both senior hair pulling and calf roping; Cody Sutton, second places in junior hair pulling and boys poles; Clay Childress, who won the junior calf roping, and Kim Bishop, third in senior barrels.

4-Hers win at Sutton horse show

The Sutton County 4-H Horse Show, held Memorial Day, saw several Ozonans in the win column.

Placing in the Pee Wee division was Tom Martin, fifth at halter and fifth at showmanship; Bonnie Martin, fourth in showmanship, fourth in western pleasure and second in western horsemanship.

In the junior division, Misy Bishop won the stake race, was fourth in the flag race and fifth in barrels.

In the senior division, Marty Acton won the western riding event; Bobby Acton was fourth at halter and western riding and sixth in showmanship. Kim Bishop won a first at halter, second in showmanship, second in western riding, barrels and flags, first place in the stake race and sixth in western horsemanship and poles.

Kim also won the Senior all around trophy.

T-BALL

In T-Ball play Friday the Roustabouts beat the Bears 31 to 19, and the Indians downed the Buccaneers 27-20.

In play Saturday, the Cowboys downed the Pirates 30-19.

Mary Hufstelder returned to her home here last week after recuperating from emergency surgery at St. John's Hospital in San Angelo.

Kitty's Korner

[Continued From Page 1] out.

I'm not an auto racing fan, but I watched the whole race that night. I was disappointed I only saw the Circle Bar car one time. After the collision, the announcer did say the car driven by Chet Phillip was involved, but he never did say he was out of the race so I just kept watching. I didn't know how our local bunch fared until the next day.

We regret the increase in the in-town subscriptions this year, but an unexpected increase in in-town postage forced us to go up. We pay the same postage to have papers put in post office boxes as other newspapers do to have them delivered by a postal carrier.

The Postal Service is the nearest entity to a dictatorship we know of, unless it's the Internal Revenue Service. When they say "frog" we don't jump, we just ask "how far?" And when they say "Pay more," we do.

CARD OF THANKS

May we take this opportunity to thank our many friends for the numerous acts of sympathy and condolences on the loss of our loved one. For the food, the floral offerings and the many other kindnesses, we are truly grateful.

The family of Manuel Camarillo

Some fat not fault of food

Have you ever wondered why some people can eat anything and not gain an ounce while others eat almost nothing and gain weight?

She explains that lower levels of an enzyme, adenosine triphosphatase (ATPase) were found in obese subjects. ATPase is necessary for pumping sodium and potassium across cell membranes.

"This exchange process accounts for 30 to 40 percent of the body's total energy needs. Lower levels of this enzyme may mean that overweight people use less energy or calories for this process, so they store the surplus as fat," she says.

Drilling picks up in county

C. F. Lawrence & Associates Inc., Midland, will drill the No. 1 Trapper, a 1,600-foot wildcat in Crockett County, 1 5/8 miles east and slightly south of the opener and lone producer of the Troylow (Queen gas) field, 3 1/4 miles northeast of the Ecklaw (Queen and San Andres oil) field and 14 miles north of Ozona.

Location is 2,100 feet from the north and 2,500 feet from the west lines of 13-OP-GC&SF. Ground elevation is 2,539 feet.

The Troylow opener, the firm's No. 1 Troy, drilled to 1,450 feet, was recompleted May 15, 1980 for a calculated, absolute open flow of 390,000 cubic feet of gas daily, through perforations at 1,114-124 feet. Original completion was June 15, 1978 as the San Andres opener of the field to pump 26 barrels of 32 gravity oil, plus 18 barrels of water from open hole at 1,443-450 feet.

The American multipay field of Crockett County gained its sixth Spraberry B producer and a 1 5/8-mile northeast extension to that pay with completion of Anderson Petroleum Inc., Midland, No. 1-66 Mayme K. Daniel "C", 32 miles west-southwest of Ozona, for 243 barrels of 38.4 gravity oil, plus one barrel of water, with gas-oil ratio of 111-1.

Production was through a 16-64-inch choke and perforations at 3,966-4,003 feet, which had been acidized with 2,000 gallons.

Prior to plugging back to 4,130 feet, it tested through perforations at 6,553-585 feet, which had been acidized with 1,000 gallons and fractured with 24,340 gallons and 16,500 pounds.

Scheduled to 7,900 feet as a Canyon sand test in the Ozona multipay field, it was drilled to 7,123 feet, with 4 1/2-inch casing set at 6,734 feet. It was amended to the above field and pay.

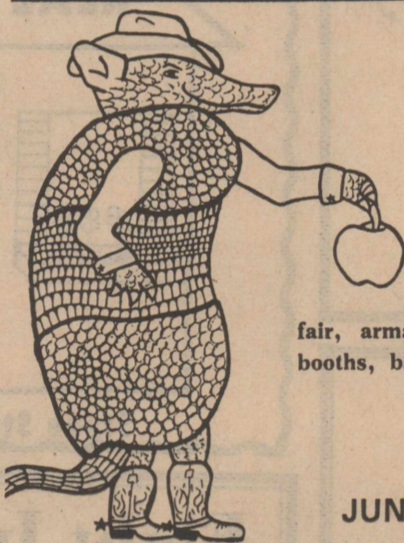

Location is 1,699 feet from the south and 707 feet from the west lines of 66-MM-T&SILRR.

The Crockett portion of the Aldwell Ranch (Canyon sand gas) field gained its second producer and a 3/4-mile west extension with completion of Anderson Petroleum No. 1-25 Joe Friend Estate "A", 28 miles southeast of Ozona, for a calculated, absolute open flow of 1,520,000 cubic feet of gas daily.

Production was through perforations at 8,782-827 feet, which had been acidized with 3,000 gallons.

Location is 1,200 feet from the north and 1,089 feet from the east lines of 25-G-GWT&PRR.

More than 98 percent of American homes have television sets, including some that don't have indoor toilet facilities, says Cindy Wilson, a family life education specialist with the Texas Agricultural Extension Service.

HAPPY BIRTHDAY, EDEN! EDEN FESTIVAL 100

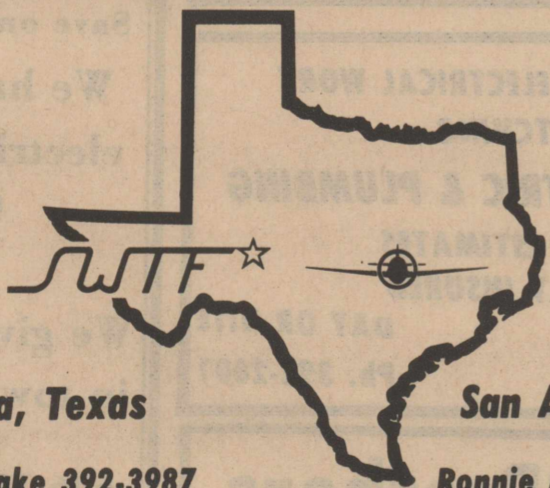

[It only happens once in a hundred years.]

Live bands and singers all day in the city square. Indian dancers, plus a big parade, helicopter rides, country fair, armadillo races, cow chip toss, craft and food booths, barbecue supper, cake sale, and street dance.

YOU

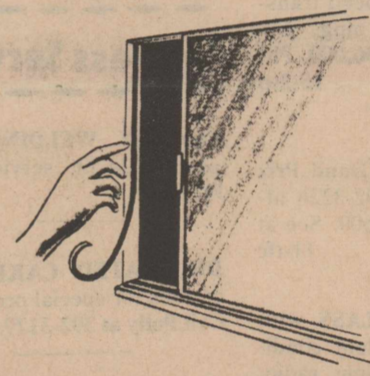

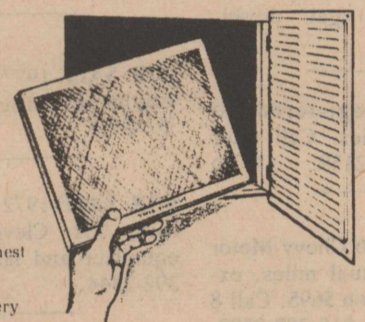

can control your use of electricity and your bill by using energy wisely.

Higher fuel prices and inflation have pushed electric costs higher in recent years.

But YOU still are a key factor in determining the size of your electric bill. Because only you can control the amount of electricity you use, a large part of the control over your bill is in your hands.

We offer these wise-use suggestions as a guide for getting the most out of every dollar you spend for electricity:

- Make sure your house has insulation equal to at least an R-19 rating in the ceiling and R-11 in the walls. Insulation pays for itself within a few years in reduced heating and cooling costs.
- Weatherstrip windows and doors, then keep them closed.
- Eliminate excess heat with draperies, storm windows, reflective films, window shades and overhangs.
- Set air conditioning thermostat at the highest comfortable setting, around 78 degrees.
- Clean or replace air conditioner filters every month or even better—every two weeks.
- Have leaky hot water faucets repaired immediately; they waste both water and the energy used to heat it.

- Check the temperature control on your water heater. For most needs, the correct setting is 135 degrees; water heaters used for baths only may be set at 110 to 120 degrees.
- By following these tips, you should be able to control your use of electricity—and the size of your bill.

PORTABLE WRECKERS FOR SALE

How much money did you lose last year because you did not have a wrecker for your business? Probably a lot!

The reason you didn't have one is probably due to the extremely high cost, approximately \$25,000 to \$40,000. Today however there is a new wrecker available that will begin putting more money making potential in your back pocket immediately, and the cost is only \$4,000! The best part about it is that it can pay for itself in a very short period of time. Why not give it a try? (We also need a few select distributors for this revolutionary new product!) For more info, write: Texas Wholesale Wrecker Distributors, 3606 Hialeah Dr., Arlington, Texas 76016. 15-1tc

I BET YOU DIDN'T KNOW

By Jerry Lay

Here's an interesting baseball question. There were 2 big league managers in 1950 who-unlike other managers-were not allowed to go out on the field to change pitchers or argue with the umpires. Why was that? They were the manager of the Dodgers, Burt Shotton, and the manager of the A's, Connie Mack-and the reason they couldn't go on the field is that they always managed in street clothes, and not uniforms. Baseball rules prohibit anyone from going on the field during a game unless they're in uniform. Shotton and Mack were the last big league managers to manage in street clothes.

Amazingly, the California Angels started the 1982 baseball season with eleven former All-Star players on their team. Don Baylor, Bob Boone, Rick Burleson, Rod Carew, Brian Downing, Ken Forsch, Bobby Grich, Reggie Jackson, Fred Lynn, Fred Patek and Bill Travers.

Here's one hard to believe, but it's true. The Chicago Cubs have now played 73 consecutive years without winning a World Series. Last time the Cubs won the World Series was 1908.
