NUMBER 17

Kitty's Korner

by
Kitty Montgomery

We knew it would happen sometime, but we didn't expect it last week when our printers got an engaged couple's picture above a bride's story, and the bride, nee Jennifer Nicholas, above an engagement announced cut line. We just expected them to get the wrong bride over the wrong story or the wrong picture over the right engagement. It never entered our minds they couldn't tell a bride from an engaged couple, especially since we take great pains to mark all pictures with the names and pages they are to be placed on. However, it happened and all we can do is say "we're sorry," and chew the printers out. Things like this happen due to pure carelessness on the part of the technician placing the PMTs over spaces left for pictures, and there is really no excuse for it.

We apologize to both the married couple and the engaged couple and regret any embarrassment it might have caused.

We can't even promise it won't happen again, since we have no control over the paper after it gets on its way to the printer. I suppose we have made mistakes just as big here in our shop, but we can at least take the blame with good grace. It's sort of hard to be gracious about a mistake someone else made.

Hard news has been scarce this week and the only big event coming up is the annual tennis tournament to be held this weekend. All entries must be in today. The event, sponsored annually by the Ozona Chamber of Commerce, has drawn many out of town entries, according to manager Beth Boyd, but local players have been slow to enter. If you are planning on being a participant, run right down to the chamber office and fill out an entry blank. The tournament is open to all ages from age 13 up to 100.

Richardson services held here

Funeral services for Wesley Glenn Richardson, 27, were held Thursday at 10:00 a.m. in Ozona United Methodist Church with the Rev. John Weston officiating. Burial followed in Cedar Hill Cemetery, under the direction of Sizemore Funeral Home.

Young Richardson was killed in a ranching accident on the Friend ranch near here Tuesday, June 15.

He was born December 12, 1954, in Ozona, he was a rancher and a member of the Ozona United Methodist Church. He was a director of the Texas Sheep and Goat Raisers Association and the Crockett County National Bank. He graduated from Texas A&M University in 1977.

Survivors include his parents, Mr. and Mrs. Glenn Richardson of Sonora; his twin brother, Wade Clay Richardson of Ozona, his grandmother, Mrs. W. E. Friend of Ozona and a nephew, Clay Wesley Richardson of Ozona. His grandparents were the late W. E. Friend of Ozona and Mr. and Mrs. O. L. Richardson of Sonora.

MOUNTAIN LION KILLED on Interstate 10. This male lion, weight 170 pounds, was killed Monday morning about 1:05 a.m., some 21 miles west of Ozona, when hit in the roadway by an automobile. William McLaughlin of LaMesa, Calif.

was traveling east on his way to Houston with his wife and infant daughter when he saw the big cat in his headlights. He was unable to avoid hitting him and the automobile was damaged to the extent it had to be towed to town.

Raging storm devastates south part of county

A raging storm Saturday afternoon, complete with rain, hail and high winds devastated the south part of Crockett County, and stranded fishermen for hours on Hwy. 163 south of Ozona. High winds flailed Ozona and knocked limbs from trees during a rain storm at mid-afternoon, but it was nothing compared to the damage wrought south of town. Apparently the storm centered about 20 miles south of Ozona and cut a wide swath from west to east, uprooting large trees and causing a great deal of damage in the Juno area.

Jake Miller, located 22 miles south of Ozona, clocked winds at 80 miles per hour at the height of the storm, where golf ball size hail beat leaves from trees and grass from the ground, leaving the ground white with hail.

The draws ran full and roads were closed from Ozona to Comstock Sunday from high water. Men who were fishing on Devils River south of Juno got out in haste, only to be held up at several of the high water crossings. One group who left their lease on the river shortly after noon Saturday, a distance of about 60 miles, were long after dark getting back to Ozona.

Southwest Texas Electric Coop employees were out most of the night Saturday and ran trouble calls all day Sunday, as a result of the storm damage to highlines and electrical power. Some reported signs of twisters near Juno, where some trees were uprooted while others still stood. However, V. I. Pierce, reported such high wind from the west, that the rain was blowing horizontally and failed to register in the rain gauge, although water covered the country from hill to hill and was as heavily flooded as during the 1954 flood.

Many people on ranches in the area were still unable to get to town late Sunday, even in 4-wheel drive vehicles. A carport roof was blown from its moorings at the R.W. Hodge ranch, located about five miles north of

Juno. It was blown some 200 yards into some power lines and found some distance over a hill with the lines wrapped around it.

Jake Mayfield, three or four miles southwest of Juno, had some heavy damage. Several large pecan trees were uprooted and came crashing down on his house, inflicting heavy damage to the roof.

On the Robert Cauthorn ranch, across from Mayfield Store, one barn was completely destroyed and another partially destroyed by the wind.

On the J. S. Pierce, Jr. ranch, some 30 miles down the Pandale Road, airplane hangars had doors blown off and a horse trailer was pushed by the wind some one-half mile across the country. Roofs were blown off several houses in the path of the storm.

The hail did not cover as large an area as the storm, which seemed to come in waves, the final blow coming after dark Saturday night.

The W. E. White ranch, located in Terrell County, just across the Crockett County line, had no hail, but reported three and one-half inches of rain in the space of 45 minutes.

The official gauge at the Water District office recorded .53 of an inch of rain from the storm Saturday afternoon, and .40 of an inch during a downpour early Monday morning, bringing the rainfall total for the month to 1.35 inches.

The family of Wesley Richardson has established a memorial scholarship fund through the Texas Sheep and Goat Raisers Association. The fund will be used for an A&M student.

Complete details have not yet been worked out. Those interested may call the Association in San Angelo.

Arrests made in criminal acts

The Ozona Sheriff's department has had a busy week. Besides the usual check of suspicious characters and family disputes, deputies have solved two crimes and are investigating a theft.

A 22-year-old Ozona resident was arrested and jailed for possession of a controlled substance after officers raided his home last week.

The man, Randy Lloyd, remains in Crockett County Jail in lieu of a \$75,000 bond. The raid was the result of an investigation by Bill Freeman of the District Attorney's office. Freeman, who is handling the case, said members of the sheriff's department were armed with a search warrant at the time of the search which turned up several kinds of illegal drugs. Lloyd previously resided in San Angelo.

Officers seized over four ounces of marijuana, a quantity of hashish and white powder believed to be methamphetamine. Other related evidence seized indicated that narcotic transactions had been occurring at the residence for some time, according to a report from District Attorney Bill Mason's office.

Also held in Crockett County Jail is George Rebus, 24, of Ozona. Returning to the scene of the crime proved Rebus' undoing.

Richardson memorial established

Complete details have not yet been worked out. Those interested may call the Association in San Angelo.

Complete details have not yet been worked out. Those interested may call the Association in San Angelo.

When he attempted the theft of a goat from the Jim House residence late last Tuesday night, he was taken into custody by members of the sheriff's department. The arrest resulted in a charge of theft against Rebus, who is still in jail under a \$15,000 bond.

Four bridles, two saddle blankets and tools were taken from a horse trailer in the driveway of the home at 313 Ave. J, the night of June 4. Following Rebus' arrest, all items were recovered at two Odessa pawn shops by local officers.

A brown box and tools valued at \$700 was reported stolen from a Phillips Petro-

leum Company truck Thursday night at the Shady Lane Trailer Park. Sheriff's Department reports indicate the theft took place sometime between 10 p.m. and 6 a.m. Friday, from the residence of Brent Collins. The tool box and tools are reportedly engraved. Officer Victor DeLaGarza is handling the investigation.

The department is still investigating the vandalism of the Ozona Primary School which occurred last week, when someone broke a window, entered the school and set off the fire alarm. According to reports, they have a suspect, but no one is in custody.

Weather forces inside services

Inclement weather forced the annual community worship services, sponsored by the Chamber of Commerce and usually held in the downtown park, to move to the Civic Center, Sunday. Chamber manager Beth Boyd said 100 persons attended in spite of the weather.

The services have been held in the park since their inception during the bicentennial. All churches are invited to take part in the event. After the welcome and introduction of pastors, the audience joined in the Pledge of allegiance and the pledge to the Christian flag.

Rev. Wayne Boyce, pastor of Ozona United Methodist Church gave the invocation and special music was presented by Templo Jerusalem Bautista singers, followed by prayer by their pastor Rev. Pedro Estrada.

Rev. Clint Eastman, pastor of Calvary Baptist, gave the scripture reading. Dr. Nelson Lanham delivered the sermon and the benediction was given by Charles Huffman, deacon from Faith Lutheran.

Musical selections were directed by Rick Rice, minister of youth and music at First Baptist.

Ozona youths compete

Three Ozona youths competed in a 5,000 meter (3.2 miles) race, Sunday, June 21. The "Run for Life" was sponsored by the American Cancer Society and Mr. Gatti's pizza of San Angelo. The race was held in Santa Fe Park in San Angelo, in conjunction with the Fiesta Del Concho activities. Running from Ozona in the 11-14 year old division and taking first place was Donna Sanchez with a time of 22:31, taking second was Diana Sanchez with a time of 22:32.

Jay Hufstetler competed in the 15-25 year old division and placed 33 overall with a time of 21:19. The Sanchez sisters work out regularly in Ozona and are members of the Jr. and Varsity Track Club of Ozona. June 9, Kay Thompson of Ozona competed in the "Run in the Sun", 8,000 meter race in San Angelo and was first in her age group and first female finisher. There were approximately 235 competitors.

Pricklypear--friend or foe; ranchers differ

Pricklypear is a controversial plant because some ranchers see it as a health hazard to livestock while others consider it a valuable part of range resources.

In 1980, pricklypear was estimated to inhabit 25.5 million acres of Texas rangelands, says Dr. Wayne Hanselka of Corpus Christi, range specialist with the Texas Agricultural Extension Service, Texas A&M University System. This means pricklypear infests about 25 percent of Texas' rangeland.

At least one species of pricklypear exists in every vegetational area of the state, Hanselka explains. Most common types are dog cactus, Englemann, nopal and plains pricklypear.

Pricklypear may be six feet tall or short and widespread, alone or clumped together. It is adapted to arid and semiarid climates, with modified stems, pads and spines for better water conservation, notes Hanselka.

Reproduction is by seeds and the ability of pads to root under favorable conditions. This ability has caused heavy infestations of pricklypear on rangelands root-plowed for brush control, says the range specialist.

When a pad is broken and scattered over the soil surface, it is capable of produc-

ing another plant, Hanselka explains. Each plant can grow 5 feet tall and 10 feet in diameter within four years. This means a light infestation can grow and develop in epidemic proportions and eventually render an area useless for grazing.

Pricklypear does best when ranges are in poor shape and suffering from drought but declines when ranges improve. However, recent research shows that it responds to fertilization with higher production and nutritional qualities.

As far as being a supplemental or emergency livestock feed, pricklypear is high in energy but low in protein content, Hanselka notes.

Some ranchers singe the needles off pricklypear with fire to allow livestock to feed on it, especially during drought conditions. However, livestock may continue feeding on them after burning has stopped, resulting in costly internal as well as external injuries. Such animals often remain in poor condition throughout the year, Hanselka points out.

The fact that sheep relish pricklypear fruit can become a problem since seed often become compacted in their stomachs, causing partial or complete blockage and often

death. Pricklypear is a favorite of some wildlife. White-tailed deer and javelina feed on pricklypear while bobwhite quail use the plant for nesting and cover.

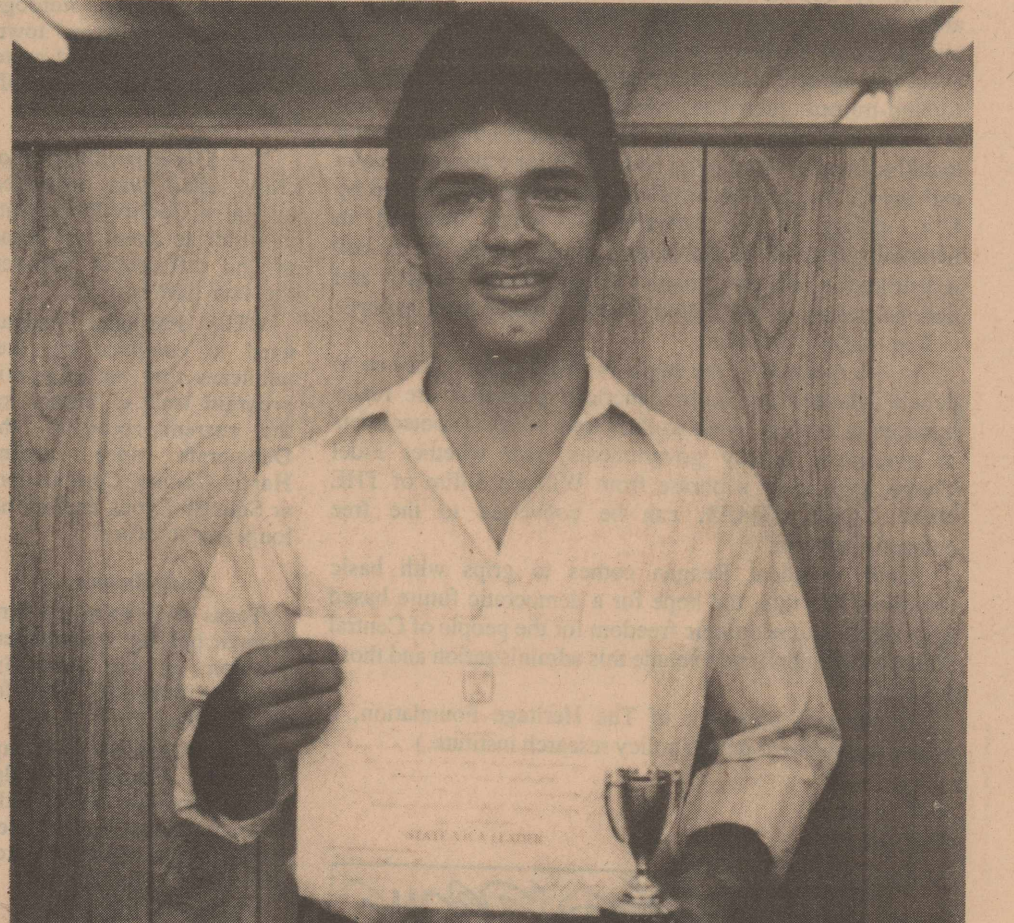

A recent survey of ranchers reflects differing opinions about pricklypear.

Nearly 50 percent of the ranchers in the Edwards Plateau have serious livestock health problems because of the plant, Hanselka points out, while in South Texas 60 percent of the ranchers consider it to have positive values.

In the final analysis, pricklypear advantages include cost reductions of supplemental feed during drought and winter, lessening of soil erosion and protection of grasses on overstocked ranges, and food and cover for wildlife.

Disadvantages are its low feed value, high costs for singeing needles to allow animals to feed on the plant, possible health hazards to animals and reduced total forage production due to its presence on ranges.

Ranchers need to deal with pricklypear according to their grazing management and personal objectives, advises Hanselka. It can be a friend or foe depending on how they view the spiny plant.

VICA AWARD WINNER Randy DeHoyos, represented Ozona High School at a recent VICA Leadership Development Conference in Dallas. Randy is an officer from District I. The meeting was a state meet with all officers in the Texas districts attending. DeHoyos received several awards, the state VICA Leader Certificate, an Outstanding Leader mug, and a trophy for most handsome-VICA leadership, 1982.

THE BIG MAC ATTACK

By Edwin Feulner

As acts of terrorism go, it was just a minor incident — the firebombing of a McDonald's hamburger stand in Guatemala City earlier this spring.

Yet, this small act of defiance by Cuban-supported leftists sent a loud signal throughout the country: Guatemala is on the Marxists' hit list, "The Ultimate Prize," trumpeted FORBES magazine in a May 10 headline.

To those of us who still believe in the domino theory, Guatemala is not, of course, the ultimate prize; that distinction goes to the United States. But certainly Guatemala and the rest of Central America come first.

To recapitulate what has happened in Guatemala over the last several months, I will start with March 7, when a new government was elected. On March 23, before the new leaders could move into office, a *coup d'etat* led by General Horacio Maldonado, General Efraim Rios Montt, and Colonel Francisco Gordillo put born-again Christian and former professor Rios Montt into office. The new junta suspended the constitution, declared the elections invalid, and organized a new government.

The incident was greeted with initial silence from the United States, which hoped the new government might end the corruption and violence of Guatemala's right-wing governments of the past.

After Rios Montt arrived at the presidential palace, the violence subsided — at least for a while. Both the guerrillas (infiltrating from Cuba and Nicaragua where they were trained in communist camps) and the death squads of the right (who had their own brand of "frontier justice") decided to cool their heels. The honeymoon abruptly ended with the McDonald's firebombing.

The situation is now explosive. During a recent visit with friends at Francisco Marroquin University — one of the few openly free enterprise anti-communist universities in Central America — a young American woman, living in Guatemala with her husband and small children, told me how two of their friends had been murdered just days earlier.

Though government officials, my friends at the University, and the American ambassador are all optimistic about the future of Guatemala, their optimism is tempered with a certain fatalistic realism. The government's forces, everyone agrees, have not really been tested yet by the foreign-trained guerrillas; whether they're up to the test is a matter of grave concern. There also is concern among local business leaders, who had hoped for a period of calm and prosperity, that local efforts are being undermined by U.S. policy in El Salvador — which resulted in nationalization of El Salvador's banks, confiscation and redistribution of the country's agricultural lands, and nationalization of the country's three major farm exports: coffee, sugar and cotton.

In the meantime, the sages in Washington continue to debate whether the Latin American guerrillas are really agrarian reformers, even as they train Marxist footsoldiers to overthrow nearby governments, and whether Fidel Castro, to borrow a phrase from William Safire of THE NEW YORK TIMES, can be converted to the free enterprise system.

Until President Reagan comes to grips with basic questions like this, the hope for a democratic future based on political and economic freedom for the people of Central America will continue to elude this administration and those to come.

(Feulner is president of The Heritage Foundation, a Washington-based public policy research institute.)

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN — The rich just keep getting richer—or so it seemed in Houston recently when Gov. Bill Clements set a new record for raising the most money at a single fundraiser.

The Republican governor, who is seeking his second four-year term, took in \$3.5 million at his \$1,000-per-plate shindig that was attended by not only President Ronald Reagan but former President Gerald Ford and three former Texas governors.

Clements broke his own previous record of \$2.9 million in campaign loot gathered in one event.

The Dallas Republican probably will put every cent of the \$3.5 million to good use since he is expected to spend some \$10 million in his re-election bid.

Among the 3,200 persons in attendance were former Texas governors Allan Shivers, John Connally and Preston Smith, all of whom have endorsed Clements for re-election.

And while the Republicans were enjoying champagne, Texas Democrats were feasting on hotdogs and beer at a cross town gathering that was not quite as auspicious as the GOP gathering.

The \$5-per-person Democratic affair was organized by Harris County Democrats in order to point out some of the differences between the two parties.

While President Reagan tried to convince the Republicans that his economic program isn't to blame for the current recession, the Democrats were hearing Harris County Commissioner Squatty Lyons explain his longevity in office.

Lady Justice

Texas will have its first woman holding a permanent position on the state Supreme Court—at least for six months.

Gov. Clements has appointed Houston Judge Ruby Sondock to fill the Supreme Court vacancy left when Justice James Denton died of a heart attack.

The only other time a woman has served on the high court was in the 1920s when Gov. Pat Neff appointed three women to hear a single case in which the

members of the all-male court had disqualified themselves.

Sondock will serve until January, when the remainder of Denton's term expires.

Denton had won re-election to the court by beating fellow Democrat Bill Kilgarlin in the May 1 primary. There is no Republican in the race.

The state Democratic organization will now pick a nominee to replace Denton on the ballot, and that nominee is expected to be Kilgarlin.

Democratic Party Chairman Bob Slagle congratulated Sondock, a Democrat, on her appointment, and said he was "not surprised by Gov. Clements' sudden sensitivity to women since he is running for re-election."

However, Slagle let Clements know that the Democrats plan to pick their own candidate.

Bell Rate Hike

Southwestern Bell Telephone Co. has announced it is prepared to ask for another rate hike from the Public Utility Commission.

Those who thought Bell just raised their rates are right. The PUC granted a \$244 million rate hike for Bell last year.

But that increase, the company says, just wasn't enough. This year's request is expected to be roughly equal to what the company sought in 1981—\$470 million.

The increase, which will be officially filed soon, will be the sixth sought by the telephone company in as many years.

The proposal will seek to increase rates for local service without affecting long distance charges.

Allen Education

The U.S. Supreme Court has struck down the Texas law allowing local school

districts to charge tuition to children of illegal aliens, and some officials are predicting the ruling could result in \$50 to \$60 million in additional costs.

Officials of school districts along the Texas-Mexico border in South and West Texas say they fear that the court decision, coupled with the current poor economic

THE NEWSREEL

A re-run of "The Ozona Story" as gleaned from the files of the "The Ozona Stockman"

Thursday, June 25, 1953
Mrs. Taylor Deaton and Judy White, both holding Red Cross live-saving and swimming instructors' certificates, plan to conduct classes in swimming and life saving when the Ozona pools open.

29 Yrs. ago
The Crockett County 4-H Club Grass Judging team will compete in the State Grass Judging Contest at Texas A&M College this week. The team members are Carl Conklin, Erbie Chandler, Bobby Sutton and Johnny Jones.

29 Yrs. ago
James R. Kersey, 77, a resident of Ozona for about 35 years, postmaster here for many years, former theatre operator and early-day manager of Ozona's Water and electric system, was laid to rest in Cedar Hill Cemetery.

29 Yrs. ago
Bats are flashing all over the campus of Texas Christian University as two hundred and fifty high school twirlers study the art of baton twirling. The twirlers from Ozona receiving instruction in everything from fundamentals to the most advanced formations for football bands include: Carolyn Stuart, Jan Jones and Ann Ratliff.

29 Yrs. ago
With work of building two swimming pools in Ozona rapidly nearing completion, the Commissioners Court is looking for applicants for the job as manager for each of the two County-owned pools.

29 Yrs. ago
Mr. and Mrs. Lloyd Meredith of Ozona are parents of a son born June 17 at the Crockett Co. Hospital. The newborn, named Craig Stevens Meredith, weighed 8 pounds at birth.

condition south of the border, could result in a new wave of illegal aliens coming to Texas.

Some officials have said as many as 30,000 students could be added to the school roles because of the ruling. Other officials, including U.S. Senator Lloyd Bentsen and Texas Attorney General Mark White, have indicated that, if the federal government thinks those children should have a free education, the federal government should pick up the tab for it.

Spokesmen for Mexican-American groups, on the otherhand, say they are "very happy and ecstatic" over the decision.

Border Dispute
Another U.S. high court ruling has stirred little debate.

The court recently decided that the border between Texas and Oklahoma should stay where it has always been—the south bank of the Red River.

It had been suggested that the boundary be changed at Lake Texoma, which is located on the Red River, so that the Texas boundary would be the south shore of the lake.

However, Texans weren't willing to give up that small bit of land, even though it's covered with water.

LETTERS TO THE EDITOR

June 18, 1982
Dear Kitty,

Four dead dogs lie on the shoulder of U.S. 290 east between the outskirts of Ozona and the dumpground cutoff, two of them barely a foot apart. They have been there for several weeks as of this writing. One was obviously murdered, evidenced by a strip of blue ribbon secured around its muzzle.

Imagine my dismay when I failed to see anything splattered across the front page of the Stockman concerning this tragedy. A disappointment, Mrs. Montgomery, especially in lieu of the thorough manner you have kept your editorial finger on the pulse of the public, as seen in your in-depth coverage of the incident in which another unfortunate canine met its demise at the hands of a villain.

This is certainly no less a crime than the aforementioned heinous act and deserves the same sensational, uh, full attention that other such acts of terrorism have received. Please don't deny your regular readers any of the extraordinary coverage of the "news" that has graced your pages in the past. Hereafter I have personally rated your paper among such publications as The National Enquirer and the San Antonio Light and, for me, it has been one of the few regular local amusements to remain intact for the eleven years I have lived in Ozona.

Kirby Kirklen concerned citizen
[Ed. note-We have to know about something before we can write about it. It is not uncommon to see dead dogs along a road in ranching country and we have no knowledge of "who, what, when, where and why," in this case. The other case mentioned concerned a child's pet. We became aware of it when the mother and tearful little girl came in to place a lost dog ad. When the little poodle was found dead under the bridge, the district attorney got into the act and issued news releases relating to the case. We are happy you find us amusing, but not amused to be compared with the National Enquirer. Do I detect a note of sarcasm?]

Sincerely,
Bill Sims

June 14, 1982
Dear Kitty,

Please find enclosed my check in the amount of \$12.50 for the renewal of my subscription to the Stockman.

I surely do wish to continue getting your nice paper. Thanks and with best wishes. Hal B. Stoneham, Jr. Pasadena, Texas 77502

Dear Kitty,
Please renew my subscription to the Stockman as I would miss it very much if I failed to get every copy. Thank you,
Mattie Cooper

June 18, 1982
Dear Mrs. Montgomery:

In reporting the results of the Democratic primary last month, the San Angelo Standard-Times erred in Crockett County results for the State Senate race.

They reported that I received 48 votes to my opponent's 56, when I actually received 492 votes to my opponent's 56.

I've had many good friends from Crockett County tell me how sorry they were that I didn't carry their county, after reading the Standard-Times' story. Certainly, no harm was done but I do want the people of Crockett County to know I appreciate their overwhelming support in the primary. I owe them many thanks.

Sincerely,
Dick Kirby

PUBLIC NOTICE

NOTICE TO BIDDERS
THE COMMISSIONERS COURT OF CROCKETT COUNTY, will receive sealed bids until 11:00 a.m. July 12, 1982, at which time bids will be opened and read at the Courthouse, Ozona, Texas, for the purchase of a Fire Truck Pump and equipment to be built and mounted on truck chassis. Truck chassis will be delivered to successful bidder.

Detailed plans and specifications may be obtained by contacting Dick Kirby, Box 266, Ozona, Texas 76943.

It is the intention of the Commissioners Court to pay for this contract after January 1, 1983.

The Commissioners Court reserves the right to reject any or all bids submitted.

Any bid received after stated opening time will not be considered and will be returned unopened.

Dick Kirby
County Auditor

JIM'S FOODWAY

Outdoor Cooking— Then and Now...

It all began when pre-historic man discovered how to make fire to heat their "homes" and found warm meat was better than raw. Man has been barbecuing ever since.

During the middle ages, whole animal carcasses were placed on spits and turned over roaring fires. In the early days of this country, wagon trains pulled around a center campfire where treats were cooked under the stars.

If Americans can't take credit for discovering open fire cooking, at least we can take credit for over 600 million charcoal grills used in the United States. Charcoal briquets are an American invention. Henry Ford used leftover wood from the production of early automobile frames for this new idea. He converted the wood to charcoal, ground it into a powder, mixed the powder with binders and pressed the now familiar shapes. Henry then designed a "stove" to use these small briquets. The Ford Stove was made of thin steel and was collapsible, of course, the familiar Ford name was then stamped on the stoves.

As weather warms, we begin to cook more and more outside. If you would like some new ideas, let me know. We are glad to help.

Debra Says

By Debra Price

Let me remind all 4-H families about the 4-H swimming party Friday, July 25. Swimming will be from 6:00 to 7:30 and hamburgers will be served at 7:30. All families are welcome.

If your steam iron is clogged up and scorched on the bottom you may want to try these home cleaning remedies.

"A commercial product is a good choice for quick cleaning, but if you have to find it at the variety store or super-market, there are some old-fashioned remedies using home products that are probably quicker and easier," said Susan Wright, Extension clothing specialist at New Mexico State University.

Thin Salt Layer. One method is to put a thin layer of salt between two pieces of wax paper, then iron over the paper with a cold iron. The iron's sole plate will get enough abrasion to clean it, but the wax paper will keep it from getting scratched, Miss Wright said. "You can also make a paste of baking soda and water and rub it onto a cold iron with a smooth cloth. This is not enough grit to scratch the sole plate, but it is enough to remove some soiled areas," she said.

COUPLES GOLF

Twelve couples enjoyed golf at the Country Club Tuesday. First place went to the team of Darlyn and Rick Webster and Katy and Dempster Jones.

Two teams tied for second, Ella Clegg and Red Greer-Jill and Randy Crawford with Chesta and Greg Stuart-Wanda and B. W. Stuart.

BENTWOOD GOLF TOURNAMENT

Three Ozona couples played in the Bentwood Country Club Couples Tournament in San Angelo Saturday and Sunday.

Jimmie and Pete Jacoby won third in the fourth flight. Kay and Larry Braden also played in the fourth flight, and Marilyn and Bud Cox played in the fifth flight.

FRIDAY BRIDGE CLUB

Mrs. Bailey Post entertained the Friday club in her home last week.

Mrs. Roger Dudley won high, and Mrs. J. J. Marley, second high. The bingo prize went to Mrs. Evart White.

Others playing were Mrs. Eddie Arnold, Mrs. Sterling Baker, Mrs. J. B. Miller, Mrs. Sidney Millsbaugh, and Mrs. Lovella Dudley.

Equal parts vinegar, water. Equal parts of vinegar and water, applied with a sponge or soft cloth, will remove buildup, too, she said.

Clean the steam iron's water chamber may also be necessary. This is especially true of older irons that are not self cleaning. If distilled water has not been used in the iron, there may be a buildup of mineral deposits in the water chamber.

Let clean overnight. "The best way to clean the water chamber is to pour one fourth cup of distilled vinegar into the chamber at night. Heat the iron and allow it to steam for about 15 minutes, then turn the iron off and leave the vinegar in the chamber overnight," Miss Wright said.

Next morning, pour out the vinegar and rinse the water chamber thoroughly with clean water. Heat the iron and steam a fabric scrap before using the iron for regular pressing, she said.

A water soluble, commercial steam iron cleaner can also be used, she said.

To cut down the need for repeated cleanings, Miss Wright suggests using distilled water in the iron's water chamber, "...and always use a pressing cloth when ironing."

CHOCOLATE PIE

1 cup sugar, 2 tablespoons cocoa, 2 tablespoons flour, 2 tablespoons cornstarch, pinch of salt, 3 eggs, 2 1/2 cups milk, 1 Tbs. margarine, 1 teaspoon vanilla, 9-inch baked pie shell.

Beat egg yolks lightly, add milk, stir in dry ingredients. Cook in double boiler until thick, stirring occasionally. Add margarine and vanilla. Cool and pour into baked pie shell. Top with meringue or whipped cream.

FROZEN CRANBERRY SALAD

One 8-ounce package cream cheese, 3 tablespoons mayonnaise, 4 tablespoons sugar, one No. 2 can crushed pineapple, drained; one 16-ounce can cranberry sauce, 1 large carton whipped topping, 1/2 cup chopped pecans (optional).

Cream mayonnaise and cream cheese, add sugar, pineapple and cranberry sauce. Fold in whipped topping, add pecans. Pour into a serving dish and freeze.

ENGAGEMENT ANNOUNCED—Mrs. Manuela Rodriguez announces the engagement and approaching marriage of her daughter, Angie, to Victor Olivares, son of Mr. and Mrs. Eliseo Olivares of San Antonio. Miss Rodriguez attended schools in Ozona and graduated from Los Angeles High School. She attended American Commercial College in San Angelo and TSTI in Waco. She is presently employed at Jay Miller Construction. Her fiancé is a graduate of Southwest High School in San Antonio and of TSTI in Waco. He is employed by a Houston engineering firm. The wedding will take place July 31, at Ozona Church of Christ.

Women's softball season progresses

The Ozona Women's Softball League has progressed very well this far in the season, due to the new field where all games are being played. Games are played three nights a week, Monday, Tuesday and Thursday. Game time is 7:00 p.m.

With one-third of the season remaining, one team is undefeated. JM Rodeo team is in the lead with a 8-0-1 record, followed closely by B&C Ranch, 7-1-1, the one loss being to the JM team. In third place is ONB with a 4-4-0 record and KRCT with a 4-5-0 record, and then Mayfield Construction with 0-8.

Pam Coates, league president, announced the women's tournament will be held July 23-25. This week's schedule pits ONB against Mayfield Monday night; JM vs. B&C Tuesday, with a make

up game Wednesday between B&C and KRCT. The Thursday game will pit ONB against KRCT.

Tips For Gardeners

From The Ozona Garden Club by Mrs. Bailey Post

Now that rain has passed us by for awhile, the watering problem will be the most difficult for gardeners, for it is really a chore, especially if you have a large area to keep and a vegetable garden also.

Pay particular attention to the moisture needs of shallow rooted ornamentals such as azaleas, camellias, hydrangeas, coleus, chrysanthemums and caladiums.

I notice that some of you are growing the old-fashioned plant french hydrangea. When these magnificent blossoms unfold they are among the most colorful of summer flowers.

One of the most interesting features of hydrangeas is the variation in flower color. The white selection is always white, but the pink and blues depend on soil PH for their coloration. Alkaline soils produce pink flowers and acid soils produce blue flowers.

For best landscape effect, mass hydrangeas beneath shade trees (pines especially good) or in a garden border. One plant can create a striking garden accent.

These plants are easy to grow, either from nursery grown specimens or a florist plant you have received as a gift. Choose an area of partial shade, and plant in moist, well-drained soil that is rich in organic matter. In clay soil, work an equal part of compost, leaf mold, or other organic matter into the backfill of each planting hole.

Fertilize in mid-summer, late summer, early spring, and very late spring. Use 10-10-10 and apply at the rate of 1/2 to 1 pound per 50 square feet of area. Young plants may not require pruning the first year or two, but older plants should be pruned every year to keep them 4 to 6 feet tall and dense. The only safe time to prune is

immediately after the plants flower for they bloom on the previous season's growth.

Perhaps some of you are interested in a simple process of glycerinizing magnolia leaves to last for years. After the new growth of your magnolia has hardened (lost its flexibility) take cuttings of the branches in June or July. Cut the branches to different lengths so you will have height variation in your arrangements.

At the end of each cut branch, make two 3-inch long cuts at right angles to allow the stems to absorb the glycerin-water mixture more quickly. Prepare a mixture of 1 part glycerine, 3 parts warm water. Place the branches in a large container and fill with enough of the

mixture to cover the cuts at the end of the branches. As the mixture evaporates, add enough water to keep the cuts covered at all times. It may take as long as two months for the leaves to be a consistent brown color and ready to be used in arrangements.

DUPLICATE BRIDGE

Evart White and Kitty Montgomery won the top spot in Duplicate Bridge Club play Saturday at the Country Club. Mrs. Robert Cox and Mrs. Sherman Taylor were second.

In play Sunday, Mrs. Cox and Mrs. Montgomery were first and Fred Atkins and Lottie Puckett of Sonora, were second.

Becher Montgomery is in Methodist Hospital, Room 335, in San Antonio. He will be there another week undergoing therapy following hip repair surgery.

BROWN FURNITURE COMPANY

Calling All Homemakers

Brought To You By Brown Furniture

One good way to add warmth, beauty and character to a room is with books and an exciting bookcase.

Both the books and the bookcase can bring new beauty to a room.

And the bookcase, of course, doesn't have to hold just books. You can display all kinds of accessories as well.

The bookcase itself can be a beautiful piece of furniture in its own right, and there are many types and styles to choose from.

The right bookcase can make a magnificent backdrop to a room. You can consider one that fills much of the wall, or one that becomes a focal point for just part of the wall.

If you want to consider different kinds of accessories to go along with your books on the various shelves, here are some ideas, all of which can readily enhance the decorator look of your bookcase. You might put in vases, figures, plates, pictures, flower arrangements, or almost any accessory you like--and they can be placed on shelves by themselves, or intermingled with the books, using some books plus some accessories on each shelf.

Meanwhile, for all kinds of decorating help and suggestions, and for all of your furnishing needs, stop in at **Brown Furniture Today!**

Happiness Is...

There's a great satisfaction in surf-fishing at sunset. Why?

Is it because happiness is the serenity of the evening hours or is it because happiness is serenity?

Our moods as well as our interests determine what happiness is for each of us. And our emotions, our longings, our appreciation of nature—all play a part.

What we believe makes a difference, too. There are countless individuals for whom happiness is faith. And there are others who lack this spiritual ingredient and they wonder why they aren't happy.

A scene like this gains new dimensions when you think of the sea as God's creation... and of man as God's child.

Morning Glory

Back Relief

Sleep in true luxury on the most comfortable mattress ever made by Morning Glory. Back Relief is downy soft as a pillow on top because of the double foam layers and deep-puff quilting of the rich designer cover. Underneath is just the firmness your body needs for a good night's rest.

And, of course, Back Relief has the famous Morning Glory edge support system that allows you to sleep all the way to the edge, giving you an estimated 25% more sleeping area. Come try this supremely comfortable mattress—and get an edge on tomorrow... tonight!

Brown Furniture

Bogus drugs pose problem

They look like real drugs, but that's where the similarity ends and the controversy begins.

Called "look-alike" or "counterfeit" drugs, the capsules and pills are sold through the mail or on the streets of Texas' larger cities.

The imitation drugs are almost indistinguishable in appearance from controlled substances that are widely abused. The look-alikes have the same size, shape, color and even imprinted letters

Crockett gets strike

C.F. Lawrence & Associates, Inc., Midland, completed as an unidentified Peruvian gas discovery its No. 1 Shannon D, one location northeast of a producer in the Noelke, Northeast (Queen gas) field of Crockett County and 12 miles east of Iran, for a calculated, absolute open flow of 426,660 cubic feet of gas daily.

Moran is EMT of the month

EMT for the month of June is Eleno Moran. Eleno has been with the Crockett County Ambulance Service for about a year and is very dedicated. He and his wife, Esmeralda have three daughters. He is employed by Spencer Welding

and numbers resembling those of legitimate manufacturers of controlled substances.

But the Texas Medical Association says the difference is that the imitations usually contain large doses of non-prescription, over-the-counter ingredients such as caffeine, a stimulant; phenylpropanolamine, an appetite suppressant and nasal decongestant; and ephedrine, a decongestant.

Magazine advertisements for the look-alike drugs make claims such as "strongest body stimulants and appetite suppressants available without a prescription" and "100 percent legal-safe."

The U.S. Food and Drug Administration thinks differently. It has noted increased cases involving phenylpropanolamine at poison-control centers and has linked look-alike drugs to nine deaths nationwide.

The FDA confiscated the drugs from several look-alike manufacturers on grounds that they are counterfeit drugs prohibited by the U.S. Food, Drug and Cosmetic Act. In addition, the U.S. Postal Service has filed complaints charging the mail-order companies with misrepresenting the safety of their products.

The main problem is that only 13 states have passed laws to combat look-alike drugs. Texas is not among the 13. The American Medical Association, however, has developed model state legislation directed at banning the manufacture, sale and distribution of imitation controlled substances.

Special skills completed

Dr. Don Carlisle, Medical Director for Crockett County EMS announced the completion of the Special Skills EMT class. To be certified as a Special Skills EMT, the student must be an EMT or licensed nurse.

The Texas Department of Health requires hospital observation time of 50 hrs. including operating room, intensive care, and emergency room. The student has to also complete 50 hrs. of time on an advanced life support ambulance and 90 classroom hours on IV fluid therapy and airway management. Students completing the class will also receive 6 semester hours credit from Midland College.

This advanced training will enable the ambulance service to provide even greater patient care.

To brighten aluminum utensils, place this solution in them: two tablespoons cream of tartar for each quart of water they hold. Boil five to ten minutes, says Bonnie Piernot, family resource management specialist with the Texas Agricultural Extension Service.

Getting back into shape by jogging

Out of shape? You may have been active in high school athletics, but now all that remain are the memories and the extra pounds. You decide to get back into shape by jogging.

Before beginning, candidly assess your physical condition, advises the Texas Medical Association. If you are over age 30, are overweight, or have a history of health problems such as heart or lung disease, high blood pressure or diabetes, a medical check-up is important.

A person who plans to jog regularly should buy a pair of running shoes that fit well and absorb shock adequately. Because they are designed for running, they will be noticeably more comfortable than other athletic shoes.

Set up a carefully controlled running program by initially jogging only a short distance, combined with walking. Gradually increase the jogging distance when you feel comfortable. How often and far a person should jog depends on the individual. Many physicians agree that about 15 minutes of jogging three or four times a week is adequate to provide a

"training effect," according to the National Jogging Association.

Your jogging speed is another consideration. One way joggers determine a suitable training pace is by checking their breathing with the "talk test". If you are out of breath and cannot talk comfortably while jogging, you should slow down.

Other signs of overexertion include dizziness, tightness in the chest, and nausea. Jogging, particularly at first, will include many small aches and pains. If any become pronounced, stop immediately.

With the arrival of summer, heat has become a factor. Jog early in the morning or late in the day. Drink adequate amounts of water to avoid dehydration. The main thing to remember is not to overexert yourself. And take it slow and easy at first.

Dr. Don Carlisle is recuperating from surgery at his home here. He is still unable to resume his practice. His daughter, Chris, is here visiting.

Womack selected to twirl

Molly Womack, daughter of Mr. and Mrs. Charles Womack, has been selected for the twirling corps of the Tarleton State University Texan Band for the 1982-83 school year.

Molly is a graduate of Ozona High School and will be a sophomore at Tarleton this fall.

Baptist women in meeting

The W.M.U. of First Baptist Church met Wednesday morning for Bible study with the pastor, Dr. Nelson Lanham, as teacher.

Plans were made for an evening vesper service to be held on Devil's River August 13, for the adults of the Church, sponsored by the W.M.U. The speaker will be Dr. J. Earl Mead of Denton, a well known Baptist leader.

The W.M.U. voted to give a monetary gift to the Ozona Mt. Zion Baptist Church, in observance of the Church's annual Appreciation Day of their pastor, Reverend Norvell Allen, who has served as pastor of the Church about seven years.

Those present were Mrs. Bud Coates, Mrs. Ben Williams, Mrs. Leon Dowdy, Mrs. Herbert Pipes, Mrs. George Bean, Mrs. Pleas Childress and Mrs. Lowell Littleton.

Maj. Kay completes course

Maj. James S. Kay has completed the U.S. Army Command and General Staff College Regular Course at Fort Leavenworth, Kan.

The 10-month regular course at the Army's senior tactical school produced graduates who are competent military problem solvers.

Kay received a master's degree in 1978 from Ouachita Baptist University, Arkadelphia, Ark.

His wife, Charlotte, is the daughter of Mr. and Mrs. J. W. Johnigan of Ozona.

Miss Larkin and Mr. Chilton are married

Miss Ann Larkin Watson became the bride of Stephen Howard (Chip) Chilton in a double ring ceremony Saturday afternoon, June 19, in Christ Episcopal Church in Tyler. The Rev. Martin Luther Agnew officiated.

Parents of the couple are Mr. and Mrs. Russel Breckenridge Watson, Jr. of Tyler, Mrs. George D. Moore of Fort Worth and the late Mr.

L. B. Chilton of Marlin.

Matron of honor was the bride's sister-in-law, Mrs. Matthew Watson of Dallas. Miss Miki Taylor of Fort Worth served as maid of honor. Bridesmaids were Mrs. Roger Fry of Tyler, Mrs. Scott Lane of Waco and Mrs. Earle Chilton of Fort Worth.

Best man was the bride's brother, William Watson of Tyler. Groomsmen were Mr. Earle Chilton of Fort Worth, brother of the bridegroom, and the bride's brothers, Mr. Russel Watson of Tyler and Mr. Matthew Watson of Dallas, also, Mr. Dennis Gabbard of Fort Worth.

Mr. Roger Fry of Tyler and Mr. Mark Gabro of San Antonio served as ushers.

A reception followed in the home of the bride's parents.

Following a wedding trip to Mexico, the couple will be at home in San Antonio. The bride is a graduate of Texas Christian University and the bridegroom is a graduate of the University of Texas at Austin, where he was a member of Kappa Sigma fraternity. He is a senior drilling engineer for Tennaco Oil Company, with offices in Ozona and San Antonio.

SS rep. to be here July 21,

Garland Gregg, Social Security representative for the San Angelo Social Security office, has scheduled his July visit to Ozona.

He will be at the county courthouse on Wednesday, July 21, from 2:00-3:30.

Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time.

Tax relief in sight for married working people

If you and your spouse both bring home a paycheck, you may be able to deduct up to \$1500 on next year's tax return. Differing rate schedules for single and married taxpayers gave rise to the so-called "marriage tax penalty" when two wage earners of relatively equal income are married.

The Economic Tax Recovery Act of 1981 will bring some relief to working couples who have been subject to the marriage tax penalty. The deduction from gross income is 5% of the qualified earned income of the spouse with the lower qualified earned income, or \$1500 whichever is less.

For example, if you earn \$20,000 and your spouse earns \$8,000, you would be taxed on \$27,600 (\$8,000 X 5% subtracted from \$28,000) rather than the \$28,000 combined income.

Although this new provision should provide some relief for many two-earner families, you should continue to keep track of your withholding to avoid owing additional taxes at tax time.

If you find that you are falling behind during the year, the two most common remedies for underwithholding are estimated tax pay-

ments or revised Forms W-4, "Employee's Withholding Allowance Certificate." Estimated taxes are paid directly to IRS in quarterly installments on vouchers that come with the Form 1040-ES, "Declaration of Estimated Tax for Individuals." The 1040-ES comes with instructions and a worksheet to help you determine how much additional tax you must pay to supplement the withholdings from your wages.

If you choose, instead, to give your employer a revised Form W-4, you can claim fewer or no allowances, request that your employers withhold at the higher single rate even though you're married, or, if you're already at the single rate, request additional withholdings.

Besides the unpleasant surprise of a big tax bill, failing to have enough withheld can bring about an estimated tax penalty. Making sure that your current year's withholding equals or exceeds your prior year's tax will insure that you avoid this penalty.

Additional information is available in IRS Publication 505, Tax Withholding and Declaration of Estimated Tax. The free publication may be requested by using the handy order form in your

tax package. Elimination of the marriage tax penalty will provide relief for many two earner families. But, a watchful eye to insure proper withholding is still important.

Campaign against oil field thefts

An aggressive campaign against oil field thefts in Texas has begun with the installation of a new permanent statewide hotline. The Petroleum Industry Security Council (PISC) is offering a reward of up to \$5,000 for information leading to the arrest and indictment of persons suspected of stealing crude oil or oil field equipment, or for information leading to the recovery of stolen oil field equipment. The new toll free hotline number is 1-800-645-2677 or 1-800-OIL-COPS.

Chartered as a non-profit corporation in January 1982, PISC was formed by petroleum industry associations in an effort to provide organized support to law enforcement in combating oil field crimes. The hotline is just the first step in a comprehensive program to reduce the oil industry's estimated \$100 million theft losses in Texas. Headed by Ed Richards, the former Investigator General of the Texas Department of

Human Resources and Department of Public Safety officer, PISC plans to develop a uniform marking system for oil field equipment, theft prevention programs for the industry, and a computer backed theft reporting and inquiry system. PISC also plans to place experienced criminal investigators across the state to cooperate with and support law enforcement efforts to reduce the theft problem.

The new hotline will replace the oil field theft hotline operated by North Texas Oil and Gas Association and supported by other petroleum industry associations. The old number, 1-817-723-1114, will cease operation on June 6. Any citizen having information about oil field theft is requested to call the PISC hotline or write: P.O. Box 15392, Austin, Texas 78761. Citizens are not required to reveal their name, just provide the information and they will be assigned a code number for identification.

DO YOU LIVE IN THE COUNTRY?

NOW YOU CAN HAVE COUNTRY TV WITH MORE CHANNELS AND CLEARER RECEPTION THAN YOUR CITY COUSINS.

Coming to you directly off satellite, a minimum of 24 channels: 24-hr. news, weather and sports, 9 movie channels, children's and Christian programming, plus cultural, educational, variety and Spanish stations and Las Vegas LIVE!!

KELCO offers two types of systems: Spherical and parabolic. The basic installation costs \$4,750. And there are two ways to go: Own your own home entertainment system (financing available) or lease our system for \$100 a month plus deposit. Fully warranted for one year, plus a free year's subscription of all the programming.

SS rep. to be here July 21, YOUR TELEPHONE SERVICE - A REAL BARGAIN

All things considered, talking is a real bargain. The chart below shows how your telephone costs compare against other goods and services you use daily.

(figures based on data gathered from U.S. Bureau of Labor Statistics from October 1976 to October 1981.)

| | |
|---------------------------|--------|
| GASOLINE | 125.2% |
| GAS & ELECTRICITY | 85.5% |
| HOME OWNERSHIP | 88.2% |
| ENTERTAINMENT COMMODITIES | 41.0% |
| MEDICAL CARE | 61.4% |
| FOOD | 56.5% |
| NEW CAR | 38.4% |
| TELEPHONE** | 22% |
| CONSUMER PRICE INDEX | 61.5% |

*Away from home
 **Basic local service in GTSW's Texas exchanges

Frequently, the convenience of the telephone is taken for granted. For instance, a few things you use your phone for:

1. Shop ahead, save gas.
2. Make appointments (doctor, sales calls, lawyer, preacher)
3. Emergencies (police, fire, ambulance)
4. Talking with loved ones in other towns
5. Conducting business via long-distance, save on travel cost
6. Calling scout troop, civic club, little league team, etc.
7. Visit with a friend across town.

Talk is cheap and also a real bargain. For a true picture, divide your basic local service rate by the days in the month. For just pennies a day, excluding long distance and special services, you have your town at your fingertips.

Sinclair named to deans list

Kimberly Sue Sinclair, a freshman from Ozona, has been named to the Dean's List for the Spring 1982 semester at McMurry College.

Kim had a grade point average (GPA) of 3.62 for the spring semester. In order to be named to the Dean's List, a student must have a GPA of 3.5 or better.

Two hundred and ten of the school's 1,500 students were named to the list this fall. The senior class led the way with 75 students. Forty-eight juniors made the list along with 44 freshmen and 13 sophomores.

McMurry College is a four-year liberal arts college founded in Abilene, Tx., in 1923, and is owned and operated by the Northwest Texas and New Mexico Conferences of the United Methodist Church.

Take care using herb teas

Some herb teas may have possible side effects that are more than just relaxing, says Dr. Cass Ryan-Crowe, a food and nutrition specialist.

Ryan-Crowe is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Reports have shown that senna tea can cause abdominal cramps and watery diarrhea, the specialist points out.

Deaths have even been reported in Africa from ingesting overdoses of senna preparations, she adds.

Chamomile, made from flower heads, can cause anaphylactic shock, an unusual or exaggerated reaction to a foreign protein, or allergic rhinitis in persons sensitive to ragweed pollen, she explains.

Many herbal teas don't have a list of ingredients, so be sure to ask what the teas contain before purchasing them, Ryan-Crowe suggests.

HOME CONSTRUCTION CALLED A "DISGRACE" BY BUILDING INSPECTOR

Many new homes in Texas are constructed so poorly that they constitute a disgrace, says a state specialist in training city building code inspectors.

Although nearly three-fourths of all Texas towns and cities have building codes, there are not enough inspectors to approve new construction, said George Stock of the Texas Engineering Extension Service (TEEX), which conducts year-round classes for inspectors.

The poor quality of some new homes stems from a heavy influx of new people into the Sunbelt and from political pressure from the housing industry to relax building code enforcement where boom times are best, said Stock.

Crockett County Care Center News

BY ANN McCARTNEY
DIRECTOR OF ACTIVITIES & SOCIAL CARE

Second Sunday services were brought by the faithful members of the Catholic Church.

Monday morning our usual foursome played dominoes. Monday afternoon Dorothy Doll brought a new craft idea to our ladies that was really enjoyed.

Monday night the Beard Band from Big Lake entertained. Charlie and his son delighted the group with music from the piano, fiddle, and guitar. His wife also helped him sing.

Tuesday's El Chato dinner for two was won by Frances Borrego. She also won first prize on Friday and the gift certificate from the Teacher Store. A tie for second was shared by Paul Cavin and Ola Mills. Tuesday volunteers were: Alice Ross, Georgia Kirby, Shelley Rumley, Pam Miles, Kim Williams, Nina Florez, and here the last two weeks, Albino Ortiz. On Friday Tomasa Ramos, Hilario Cortez and Virginia Russell had their daughters. Other volunteers included: Alice Ross, Liz Mary Pipes, and Anna Belle Patrick.

Ruth Hester conducted ceramics Wednesday morning and Doris Hoffman, Katy and Hazel Storms manned the beauty shop on Thursday.

Sunshine hour has a new group of volunteers for the summer. Members of the Lillian Henderson Sunday

school class of the United Methodist Church will serve refreshments while our residents sit outdoors. Volunteers this week, serving cake and ice cream, were Bonnie Warth and Mary Lee Jones.

We had our reading and discussion group outside after supper on Wednesday night. We also had a council meeting this week. The residents gave good input for future programs.

Thursday afternoon we had our regular Bible study conducted by the Faith Lutheran Church. Thursday night we had the Knox band consisting of Jamie Knox and J.D. and Don Kilgore. They brought a nice variety of music.

Friday afternoon a surprise going-away party was given for Doris Hoffman who is moving to Arizona. She was presented with a piece of ceramic made in our ceramic class. She will be missed!

We always miss volunteers when they leave us. If you, out there, are an "ex", think about coming back.

Junior McCartney is in St. John's Hospital in San Angelo, where he is recovering from back surgery. He is in Room 336.

Myrtle Post Garden Club holds meeting

The Myrtle Post Garden Club met in the home of Mrs. Jim Dudley Monday evening with Mrs. Hank Wellman serving as co-hostess.

Mrs. Dudley displayed an arrangement of yellow day lilies and Mrs. Wellman brought two arrangements, one of dried material and the other of marigolds. All three arrangements were beautiful and well designed.

Mrs. Grace Williams presided over the meeting.

Mrs. Jack Brewer gave a report on progress of plans for the club's first flower show to be held at her home, Saturday, Sept. 26. Further planning and discussion was held.

Mrs. Glen Sutton reported on the Litter Campaign project. She and other members turned in proceeds on the sale of bumper stickers. There was discussion on ways to disburse the remaining stickers.

The club voted to have Mrs. Lee Graves placed in the Presidents' Book. She is the current president of the club.

Members voted to order "Visions of Beauty" calendars for 1983.

Following the business meeting, Mrs. Graves brought the program on flower show procedure. She told members the purpose and value of a flower show, also requirements for a standard flower show. She explained required divisions and general procedure. Each member was given a workbook on successful flower show procedure and urged to study it.

A question and answer session followed. After the program, flower show chairman Mrs. Jack Brewer, appointed sub-chairmen for the show. Appointed were Mrs. Glenn Sutton, chairman of judges; Mrs. Grace Williams, staging, and Mrs. Hank Wellman, entries. Others will be chosen at the next meeting.

Members drew for the door prize, a book on flower arranging. Mrs. Polly Eppler was the winner.

A plant auction was held and refreshments were served.

Other members present were Mrs. T. R. Conner, Miss Leta Powell, Mrs. Scottie Houston, Mrs. Mike Vordick, Mrs. Myrtle Post and Mrs. Phillip Smith.

CARD OF THANKS

May we take this opportunity to thank our many friends who were so kind and thoughtful during the illness and upon the death of our husband and father. For the many condolences, we are truly grateful. May God bless you.

How to tell children about divorce

Parents can help their children deal with divorce, one of the most traumatic events in a child's life, second only to death, says Dorothy Taylor, a family life education specialist.

Taylor explains that there are three important steps in helping a child through these times:

Understand that divorce does impact children, choose a "least-stressful" time to tell them, and guide and assure children through the period after the divorce.

For children, divorce, like death, is the "loss" of a loved one except the parent is not dead—just gone, Taylor explains.

Research suggests that the really difficult part for youngsters, however, is the conflict surrounding a divorce, not the divorce itself, she says.

Once parents understand how divorce affects children, the next important step is choosing the best time to tell them about it—in the least damaging way, the specialist says.

Thoughtful planning for this step will set a "coping" direction for the adjustment period to follow, Taylor adds.

Here are her suggestions: Make sure the divorce is certain before you even think about telling the children. Don't upset them with this security-shaking blow before you've made the decision.

Talk to the children after you have calmed down, not following that "final, ferocious" quarrel.

When the time comes to tell the children, it is best for both parents to tell them. At this point, tell the children immediately so they will not feel left out—or be told by outsiders.

Tell the truth—evasions and half truths only return to haunt both parents and children.

Recognize that emotional disturbances, such as fidgeting, restlessness, withdrawal, thumb sucking, bed wetting or excessive crying may

be your child's response to the tension associated with divorce.

Difficult as it may be, the explanation should come from both parents, if possible.

Words come hard, but tell the child in a manner appropriate for his age and level of understanding.

Above all else, help the child understand that he did not cause the divorce—many children suffer tremendous feelings of guilt thinking they have somehow caused their parents' divorce.

When children plea for a reunited family, don't confuse the issue with long explanations about how the other parent is "wrong" or "no good." This only forces children to "take sides." And in the long run, this hurts a child. Children need both parents.

Finally, remember, just as a widow is apt to exaggerate the dead spouse's virtues, divorced persons tend to magnify the other partner's faults, Taylor notes.

Hearing either extreme is hard for children, because it shows them only a one-sided view of life.

Healthy lives for both adults and children involved in a divorce cannot be rebuilt until each person is free of guilt, harshness and revenge, Taylor says.

Mental Health is funded

Mrs. Joe Galvan of Ozona raised \$200.00 in the May drive benefiting the Mental Health Association in Texas.

Bellringer workers collected house-to-house during the Spring campaign. Proceeds benefit the non-profit, non-governmental agency whose members are dedicated to fighting mental illness while working on behalf of the mentally ill and their families.

"The Mental Health Association exists entirely on donations, such as those raised in the May campaign," said Mrs. Virginia Barlow, state president.

Barlow thanked Mrs. Galvan and the Bellringer workers in Ozona, calling them an important team in the movement to promote mental health in the state.

Consider taxes when selling farm or ranch

Many farmers and ranchers in Texas and other states are "selling out" because they see no way to survive financially. Of course, some farmers also sell their operations when they retire.

Whatever the reason for selling, certain considerations can reduce tax dollars. "A major factor in selling a farm or ranch is timing," says Dr. Wayne Hayenga, economist with the Texas Agricultural Extension Service, Texas A&M University System. "Since selling the business will likely produce a large amount of taxable income, it's best to spread the income. One way to do this is to sell livestock in the fall, sell machinery the next spring, and perhaps wait another year to sell the land."

Delaying certain sales until specific time periods have elapsed can also reduce the tax burden, notes Hayenga. For instance, breeding animals acquired after Dec. 31, 1969, must be held for at least two years. Delaying the sale of such animals can qualify the income for capital gains treatment.

"Another factor to consider is the allocation of costs to different assets," notes the economist. "An allocation of the sale price for land, buildings, growing crops, livestock and machinery should be agreed upon by both the selling and buying parties so that this will appear on the purchase contract. This will reduce many

potential tax problems."

Also, on land held less than 10 years, part of the soil and water conservation expenses that have been claimed will have to be recaptured as ordinary income.

Investment credit is another thing to consider when liquidating a farm or ranch business, says Hayenga. Investment credit has to be recaptured if the sale results in items being disposed of before the expiration of the useful life for which credit was computed.

Regarding the method of sale, the seller generally has three choices: sell for cash, sell on the installment method or a combination. The seller needs to determine his tax liability regarding each method before making a final decision. A large capital gain can mean additional taxes, notes the economist.

"When sale of a ranch or some of its components thrusts a rancher into a considerably higher income bracket than over the past four years, income averaging can come to the rescue," says Hayenga. "This allows part of an unusually large amount of taxable income to be taxed in a lower bracket."

A rancher who sells his operation, which also includes his home located on the land, must allocate part of the selling price of the land to the home, adds the economist. Special tax rules apply to the sale of a residence. If the farmer buys a

new residence two years before or after selling the ranch and home, only the gain from the sale of the old residence compared to the cost of the new residence is taxable.

Any sale of capital assets does not affect Social Security taxes or retirement benefits, notes Hayenga. However, sale of inventory items and growing crops does. Any time reported on Schedule F in the income tax return may affect Social Security benefits or taxes.

"When preparing to sell a farm or ranch the operator needs to determine whether he still receives two-thirds of his gross income from the business of farming or ranching as required for tax purposes," Hayenga points out. "Gains from sales of land and depreciable equipment are not considered farm or ranch income. So a rancher who sells his business may find he no longer qualifies as a rancher and thus must file a Declaration of Estimated Tax."

Hayenga advises any farmer or rancher preparing to sell real property to visit with his tax consultant or accountant. Also, the Economic Recovery Act of 1981 provides numerous changes in tax laws, including depreciation and investment credit. A rancher should be familiar with these changes before selling his business.

For a cooler summer wardrobe, select unlined garments in non-clinging fabrics.

Be sure they fit loosely enough to allow for air circulation between garments and skin, says Becky Saunders, a clothing specialist with the Texas Agricultural Extension Service.

Too slim or overweight? Mortality rates are highest among the leanest and the most obese elderly people, reports Judith Warren, family life education specialist aging with the Texas Agricultural Extension Service.

VA must not violate privacy

"Veterans Administration offices often are asked by a third party to supply information about an individual when the federal Privacy Act doesn't allow such release," said T.W. Myatt, Director, Houston VA Regional Office.

"Usually, such a request is very innocent," he said, "such as a husband asking his wife to call the VA for him while he is at work. But regardless of the reason, the VA in most cases is limited

by law in the amount of information that can be given. This is also the reason why a veteran, when calling the VA, is asked for information verifying his identity."

The same federal legislation prevents release of requested file information on specific veterans to the news media.

However, Myatt stressed, the VA can honor a request by a third party for information out of a person's file—if the person has given speci-

fic, prior, written consent. "There also are instances," Myatt added, "when the VA can release information from a claimant's file without prior consent. This is usually to another agency that has a need for the information in order to process something concerning that person."

Those rules generally hold true to most government agencies that have files on individuals, he added.

INCREDIBLE BUT TRUE!

In many cultures, the rite of manhood was equated with military service. Young men were called on to prove themselves by defending the honor of their village, tribe or country. Such service combined some of man's strongest sentiments: patriotism, loyalty, self-reliance and adventure.

Many young men and women who join today's Army seek adventure just as their ancient counterparts did. When their Active Army enlistment is up, the challenge doesn't always end. Many former Active Army soldiers choose to put on their Army greens one weekend a month and for two weeks of annual training as Army Reservists. They still get to serve their country, travel, camp, ride in tanks, fly in helicopters and climb mountains. The Army Reserve helps to add adventure to the lives of those returning to the civilian world.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective July 27, 1982, unless otherwise determined by the Commission.

It is expected that the requested rate schedule will furnish a 13.4 percent increase in the company's intrastate revenues.

A complete copy of the new rate schedule is on file with the Public Utility Commission at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

Notice to El Paso Area Customers

Effective January 1, 1982, Southwestern Bell adopted the Mountain States tariffs in effect for El Paso County. Southwestern Bell proposes to merge the separate El Paso tariffs with its tariffs applicable to the rest of Texas. The resulting new rate schedule is on file with the PUC and the El Paso area municipalities served by Southwestern Bell, and is available for inspection at our El Paso business office.

Notice to Customers of Other Telephone Companies

The filing includes, but is not limited to, proposals to increase rates for interexchange private line and foreign exchange (FX) service. Changes in such rates would also affect customers of other telephone companies because such companies provide interexchange private line and foreign exchange service in accordance with rates specified in Southwestern Bell's tariffs. While Southwestern Bell has proposed no increase in long distance rates, any change in those rates would also affect customers of other telephone companies.

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel para servicio de teléfono en Texas con vigencia a partir del 27 de julio, 1982, a menos que la Comisión haga otra determinación.

Se espera que el nuevo arancel que se ha solicitado rendirá un aumento de 13.4 por ciento en los ingresos intraestatales de la compañía.

Una copia completa del nuevo arancel se ha archivado en las oficinas del Public Utility Commission en Austin, Texas, al igual que en cada municipalidad afectada y servida por Southwestern Bell, y cada una de las oficinas de la compañía para negocios con el público en Texas tiene una copia para lectura pública. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios que resulten de la manera en la cual Southwestern Bell aplique sus tarifas.

Aviso a Clientes en la Región de El Paso

Con vigencia a partir del 1o de enero de 1982, Southwestern Bell ha adoptado las tarifas de Mountain States efectivas en el condado de El Paso. Southwestern Bell propone unir las tarifas de El Paso con sus otras tarifas que se aplican al resto de Texas. El nuevo arancel que resulta de ésta unión se ha archivado en la Comisión de Servicios Públicos (Public Utility Commission), al igual que en las municipalidades de la región de El Paso servidas por Southwestern Bell, y está disponible para inspección pública en nuestras oficinas de El Paso.

Aviso a los Clientes de Otras Compañías de Teléfono

El registro incluye, pero no se limita a, propuestas para aumentar las tarifas para servicio de línea privada entre centrales telefónicas (interexchange private line) y servicio de central telefónica extranjera (foreign exchange FX). Cambios en dichas tarifas de servicio también afectarían a clientes de otras compañías de teléfono porque dichas compañías proveen los servicios ya mencionados en conformidad a tarifas especificadas por Southwestern Bell. Aunque Southwestern Bell no ha propuesto un aumento en las tarifas para larga distancia, cualquier cambio en las mismas también afectarían a los clientes de otras compañías de teléfono.

Delgado gets aid award

The Office of Student Financial Aid at the University of Texas at Austin has announced the 1982 recipients of the Texas Achievement Awards.

Among those named is Felice Delgado of Ozona. The awards are granted to selected Texas freshmen from economically and culturally disadvantaged families. The competitive selection is based not only on high school performance and entrance examinations, but also on considerations such as participation in extracurricular and part-time work.

The scholarship is an award of \$1500 per academic year for a maximum of five years of undergraduate work.

I BET YOU DIDN'T KNOW

By Jerry Lay

Who was the heaviest man ever to play major league baseball? He was Walter (Jumbo) Brown who pitched for the Indians, Yankees and Giants from 1925 to 1941. Brown weighed 295 pounds. ****

One of the strangest horse races of all-time happened on Oct. 10, 1903 when 3 horses, High Flyer, Loch Lochie and Bardini finished in a triple tie for first-and then they re-ran the race and the same horses finished in a triple tie for first again! The odds are enormous on any triple dead heat, but for that to happen twice in a row defies any odds. ****

What's the best 18-hole score any golfer ever shot on the U.S. pro golf tour? The record is held by Al Geiberger who shot an incredible 59 at the 1977 Memphis Open. ****

I bet you didn't know.. L-B Motor Co., has a wide selection of pickups and cars to choose from. Stop and by and make your selection today!
