Kitty's Korner

by
Kitty Montgomery

There are two sides to every story, so the old saying goes. Of course, for those opinionated folks, like Yours Truly, only one side emerges as a clear-cut, proper, unadulterated fact, and that's on whatever side Yours Truly has taken a stance.

I would direct your attention to the Letters to the Editor column in this week's paper, where the Honorable Judge Williams takes umbrage at last week's report on the Commissioners Court meeting which states he demanded remodeling of the courtroom here. I stand guilty as charged, but from where I sit it seems his numerous requests have become demands. And since my definition of admonish is to express warning or disapproval, I felt the word "demanding" was not the least improper. In his first letter to the court, dated July 20, he wrote "I request complete modernization, tiling, and sanitation of the two restrooms, carpet in the court room, lowered ceiling with acoustic tile in the ceiling, sound pickups and speakers to transmit and collect voices." To my mundane mental capacity and no doubt due to my limited vocabulary, this sounded like a remodeling job. How can you restore or renovate something that's never been there? However, I bow to the wisdom of the learned judge, and if apologies are in order, I extend same, may the readers be the judge.

Certainly agree with those who believe renovating the courthouse is in order. After last week's meeting, I personally inspected the downstairs restroom, sans umbrella, and believe me, it's a disgrace. I don't think anyone would disagree with a little remodeling here. I did not inspect the men's room upstairs, but since the noxious waste downstairs was dripping from that quarter, I am ready to believe it needs some serious attention....

Another matter which needs attention is the eroding and molding of records and books in the clerk's office. This is probably the most grievous problem in the entire courthouse, and should be corrected at once, no matter what it takes to improve conditions which have caused it. Having had some problems with old books and manuscripts deteriorating, I can safely say that once they are in this condition, no amount of air-conditioning or dehumidifying is going to correct it. The moisture has to be taken care of and then the mildew treated chemically, preferably by experts. This has been a problem in this office for years. It periodically comes to the surface, but so far as I know, there has never been an opinion from a competent expert in restoration. Bickering needs to be set aside, and this problem needs to be addressed.

The courthouse grounds have become overgrown with weeds and wild grasses and it was a mess the last time I looked. However, we noticed Bill Cooper working on this at least two days last week and it probably shows some improvement. We don't wonder he was named "Citizen of the Year." There are do-gooders and good doers, and Bill falls into the latter category.

FESCO EXPANDING-Fesco has enlarged its facilities in Ozona to almost double the shop space originally built. The slow-down in oilfield related businesses the past few months apparently has not affected this oil and gas testing firm.

The firm has had an Ozona headquarters for five years and built the new building about four years ago across from the hospital next to the Civic Center.

The Ozona Lions, 1982, a pre-season assessment

By-Ross A. Alexander

The temperature on the field at Lion's Stadium was well above 100 degrees as David Badillo barked his signals to the starting unit. At the snap of the ball, the fluid, senior field general faked into the line and fired a perfect pass to Robert Massey who had sprinted past a bewildered cornerback influenced momentarily by the threatened run.

Both offensive units erupted into appreciative applause at the nice execution of just one of the many variations of Head Coach Don Abbott's option-laden, wide open, explosive offense installed this summer.

In a recent interview with this writer broadcast on KRCT, Coach Abbott praised the speed of the Lion running backs:

"This is an exceptionally fast offensive unit, powered by backs who've got the ability to get to the outside and turn it upfield with outstanding speed. We expect to use lots of quick-pitch, option-type running plays

this season to capitalize on the swiftness of backs like Willie Payne and Harvey Huereca and others who were successful sprinters during last year's track season."

In response to a question on offensive formations he will use, the new Lion head coach, who has a state-wide reputation for brilliant offensive strategies said, "We're basically planning to use the slot I and the Houston Veer. However, should the situation call for it, I feel we can bring our ends in tight and revert to a Power I type offense using the considerable size and enormous strength of Ed Borrego and Rowdy Holmsley in short yardage situations. We're going to surprise some people with the power and size we'll have up front."

The Lions appear to have depth in power and speed this season. Johnny Rodriguez, a bowling-ball-type fullback and Gino "the train" Tambunga have been very impressive and the terrific tandem of Massey and

Martinez promises to give the Lion QB a scoring threat whenever he chooses to pass the football this season.

As for defense, Coach Abbott has an interesting array of fronts to unfurl on Lion opponents this season. "In our coaching philosophy," he explained, "we refer to what we'll use this season as a 27 defense. In this basic 2 alignment, our two defensive tackles will line up on the offensive guards, with our two defensive ends on the offensive ends. We'll have three linebackers over the tackles and the center. However, the 7 technique calls for a slight inside shade of the offensive end. Occasionally we'll go to a 9 technique which is outside shade of the ends."

When asked about the rather reckless defensive surge which produced such disappointment in critical situations last season, the Lion's mentor simply smiled and said: "We won't be using an all-out, gung-ho defense this year. We'll use a slower, more deliberate, more conservative reading-type defense which we expect to effectively contain the offense and reduce their yardage production. Right now, I'm favorably impressed with Fabian Delgado at Cornerback and Greg Fierro at Safety. One of our team strengths is the sheer speed of our defensive coverage and we've designed coverages which will fully utilize the advantages which will result from all that speed."

The mild-mannered mentor had particular praise for Randy DeHoyos and Javier Sanchez, and he called David Tijerina a "real team leader."

Coach Milby Sexton, an unquestioned winner whose '81 squad went 2 weeks into the playoffs, is Coach Abbott's primary assistant in charge of the defense and the Lions are privileged and pleased that a coach of his caliber is on staff. Pete Maldonado, an Ozona mainstay, David Porter, John Curry and David McWilliams round out Coach Abbott's principal coaching staff for

Child abuse is serious threat

Child abuse has become a serious threat to the children of the nation and with the influx of families in Ozona plus the beginning of school, it is imperative residents of Ozona be aware of the problem and know their responsibility. The following article is a public service by the Stockman through the cooperation of Bill Mason, District Attorney, and Tom Cameron, County Attorney. Its purpose is to make residents of Crockett County aware of a prosecutor's role and how the community can work together to alleviate this serious problem.

The most serious threat to children in America is not disease or accidental injury but is injury intentionally inflicted upon children by their parents. Each year more children die at the hand of their parents than die from infectious disease, leukemia, or automobile accidents. Our children are being beaten with belts and clothes hangers, stabbed with knives, cut with razors, burned with cigarettes, scalded with water, bludgeoned with fists, struck with clubs and slammed against walls and floors. Children under three are the most severely injured and infants under one are the most often killed.

Child abuse can be physical, sexual or mental. Reported cases involving the sexual abuse of a child are on the increase in the United States. But many more cases go unreported. Department of Human Resources officials note: "In almost every case, we can relate some prior sexual experience with a parent to present sexual abuse of a child. A person with that in his past who feels rejected by society and yet feels accepted by his children will turn to his children for sex."

Child battery is usually the act of one parent and is passively accepted by the other. The experts in child abuse teach that abusing parents generally are not mentally ill or alcoholic, but are unable to cope with the problems and stress of life.

Abusing parents do not have the mental energy to meet the needs of the child. They are too busy trying to meet their own needs. In order to eliminate the demands of the child, abusing parents impulsively batter the child often striking out in rage. When the natural needs of a child are answered with a punch or a slap or verbal abuse, the child soon learns to make few demands on his parents. The child learns that he is unloved and unaccepted and avoids confrontation with his parents as far as possible often living in solitude. The very young, however, cannot withdraw because they depend upon their parents to satisfy their biological needs.

They must simply endure. In Texas, it is against the law not to report suspected abuse or neglect of children. The first step in solving the child battery problems is to identify the abused child. It is not necessary to identify oneself in making a report; it is helpful to do so, however, and the identify of the person making the report is never revealed. Usually it is observant and concerned teachers, neighbors, relatives, and often, strangers, who provide information which helps to uncover instances of abuse.

To make a report of suspected child abuse, call one of the local offices of the

Pam Young named extension agent

Pamela Lynn Young, an Ozona native, and daughter of Mr. and Mrs. Garland Young, has assumed duties as Extension Agent-Home Economics with the Texas Agricultural Extension Service for Edwards, Kimble and Real Counties.

She will serve as home economics program leader with responsibilities for organizing and maintaining the family living committee and Extension homemaker clubs. She will also share responsibility with agricultural Extension agents in the three counties for organizing and maintaining active 4-H clubs and adult leaders. The new agent will also plan, conduct and evaluate effective Extension homemaker educational programs based on the expressed needs of clientele groups.

Young, a graduate of Ozona High School, is an honor graduate of Southwest Texas State University with a B.S. degree in home economics education. She also attended Texas Tech University and Angelo State University.

Prior to assuming her current position, Young was a fashion consultant for Fol-

ey's in San Antonio. She also has extensive retail experience with fashion firms in San Angelo and Lubbock.

PAM YOUNG

Young is active in the Vocational Homemaking Teachers Association of Texas, serving as president the past year.

She is headquartered at the Texas A&M Agricultural Research and Extension Center in Uvalde.

Emerald House opening Sunday

The Crockett County Historical Commission cordially invites all interested persons to attend Open House at the Emerald House any Sunday afternoon in September from 3:30 to 5:30 p.m. The house is located in the Fairgrounds Park. Emerald House is being restored eternally and renovated to usability internally by the Historical Commission under the direction of Ron Barbutti, San Angelo architect. Various individuals and organizations have contributed funds and hours of work to the project.

Although restoration is incomplete it is now possible to visualize the dwelling's potential upon completion. So the public is being invited to "have a look". Some of the hosts and hostesses include

Roberta Cooper and Lucile Harrell, Sept. 5. Totsy Hagelstein, Mary Clayton and Geniece Childress, Sept. 12, and Lee and Joycelyn Graves, Sept. 19.

On September 9 and 10, the Commission will have as their guest Mrs. W. B. Blankenship of Lubbock who has worked as a consultant on some of the houses being restored in the Ranching Heritage Center at Texas Tech. She will advise with the Furnishings Committee at the Emerald House about wallpapers, light fixtures and furnishings. Mrs. Joe Clayton is chairman of the local Furnishings Committee.

So far as is known Emerald House is Ozona's oldest dwelling, having been moved into Ozona from the original townsite of Emerald.

JUNIOR HIGH CHEERLEADERS-This quintet has been busy all summer practicing routines to head up the Cub fan section. They will see first action Sept. 16, when the Cubs

host Big Lake in Lion Stadium. The girls are, 1. to r., Jena Allen, Camille Davidson, Diana Sanchez, Alma Gutierrez and Vickie Reagar.

TOO MANY PEOPLE OR TOO LITTLE FOOD?

By Edwin Feulner

First the good news: instead of 7.5 billion, as previously estimated, the world population will likely rise only to 6.1 billion by the year 2000. It now stands at 4.2 billion.

Now the bad news: some 20-million people die each year from chronic hunger and malnutrition, and millions more don't have enough to eat. This means, says farm expert Jack Early, "that to meet the growing needs we will have to stretch well beyond today's technological barriers into worlds unknown."

Dr. Early, president of the National Agricultural Chemicals Association and a former research entomologist, notes that the entire history of civilization "has been an attempt to accept nature's gifts but confront its threats to mankind. Scientific research in fields like medicine and agricultural chemicals has been an unending effort to fight man's natural enemies, whether they're microbes or insects."

Even today, he notes, "insects are man's prime competitor for the food we eat," destroying as much as one-third or more of the potential harvest each year, and half or more in some less-developed countries.

Dr. Gordon F. Snow, senior policy advisor on the Council on Environmental Quality, noted in a recent article that the United States is one of only eight countries in the world that consistently produces more food than it needs itself. "This didn't come about because farmers spend their time hand-picking bugs off their crops."

Last summer Americans watched as California agonized over an invasion of Mediterranean fruit flies. The medflies threatened the world's most-productive agricultural region with devastating losses. The infestation nearly got out of hand. A too-little, too-late chemical blitz ended up costing tens of millions of dollars.

Dr. Keith C. Barrons, author of *Are Pesticides Really Necessary?* (Regnery Gateway, Chicago, 1981), notes that chemicals are, and will remain, the farmer's "first line of defense" — not only against crop-destroying insects, but against weeds that choke off plant growth and plant disease. Chemicals, he adds, also are used to control rodents, protect us from insects that transmit human disease, guard food from insect and rodent damage after harvest, and even preserve wood products, making "poles, posts and structural lumber last longer saving vast forests from being cut." Though Ralph Nader's legions continue to agitate for tighter pesticide regulations, there is always the danger that the regulatory noose will get so tight it will choke off the kind of innovation necessary to meet the challenge of feeding six billion people. While it is necessary to recognize that the pesticides that have helped boost U.S. agricultural production to undreamed-of levels can, indeed, be dangerous, there also is the need to recognize that they are absolutely vital.

Fear, of course, will always persist. Yet there is reassuring news from the National Research Council, an arm of the National Academy of Sciences.

A June 16 study on *Diet, Nutrition, and Cancer* found "no epidemiological evidence" that pesticides "make a major contribution to the risk of cancer in humans." The report gave a similar clean bill of health to food additives.

Now, perhaps, Jack Early and his colleagues can go about the deadly serious business of finding ways to grow enough food for a population that will increase by 50 percent in the next 20 years.

STATE CAPITAL HIGHLIGHTS
By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—With Election Day barely two months away, Gov. Bill Clements surprised many by recalling the Legislature for a special session to keep the state's unemployment fund from going broke.

State officials predict a 2,700 percent increase in unemployment taxes paid by employers. In addition, employers face an estimated 33 percent hike in the federal unemployment tax, which was approved recently as part of President Reagan's \$99 billion tax package.

Clements earlier had said he would wait until after the Nov. 2 general election to call legislators back to Austin, and experienced politicians agreed it was not wise to mix state business with political campaigns.

But with a neck-and-neck governor's race at hand, the special session has the earmarks of a political powder keg.

Raising the unemployment tax would surely alienate many of the state's employers, especially mom and pop operations, while ignoring the unemployed voters is political suicide.

Calling the session is perhaps the first real risk that Clements has had to take since becoming governor.

However, postponing the session was also just as risky for Clements, who is running against Texas Atty. Gen. Mark White.

White and Clements have been accusing each other of every incompetency their public records can yield, and the unemployment trust fund is an embarrassment to Clements.

Roughly speaking, the Legislature can consider three basic solutions for replenishing the Unemployment Compensation Fund: 1) raising the tax paid by employers, 2) borrowing money from the Federal Unemployment Compensation Fund, or 3) use money from the state's general revenues.

Why Another Session?

The Governor's staff was informed earlier this year of the impending crisis by Texas Employment Commission officials, but the warning apparently fell through the cracks.

Now the Legislature must find emergency means to replenish the unemployment fund described as "dangerously small."

In recent months, unemployment in Texas dramatically increased and has depleted the fund. A legislative failsafe built into the trust fund allows for an automatic increase in unemployment taxes paid by Texas employers, if the fund drains below \$225 million.

On Oct. 1, the tax on employers will automatically increase from a minimum \$6 per worker a year to approximately \$126, unless the Legislature forestalls the increase.

The increase would become effective Jan. 1, 1983, and Clements was inclined to let the Legislature resolve the problem sometime between November and January.

But the 2700 percent rate would already have been set in October—one month before Election Day — and the ensuing publicity would be more than Clements would want to take. Most observers agree that Clements and White will run very close, and the tax increase could possibly shift the advantage and victory to White the Democrat.

So, knowing that it's going to hurt sooner or later, Clements apparently is opting for "sooner," hoping to fade the political heat and let the issue blow itself out.

Besides, by shifting the burden of responsibility to the Legislature, Clements can hope for a real solution, or at least a stop-gap measure and after adjournment he can go back to pointing out White's deficiencies.

But why, Sept. 7 — the day after Labor Day?

The Democrats will hold their State Convention on Sept. 10, and many legislators are delegates to that convention. The Democrat-controlled Legislature might be eager to approve the Governor's temporary solution and adjourn early.

That's okay with Clements, because the longer they remain in session, the more heated the issue becomes, producing publicity that would most likely be counter to Clements' campaign.

Savings and Loans

A Texas Savings and Loans Commissioner last week predicted that unless economic trends reverse, some 100 Texas thrift institutions, including over 30 on the brink of insolvency, will merge out of existence by next fall.

So far this year, 16 S&Ls have merged out of existence, Commissioner Alvis Vandyriff told the State Finance Commission.

Campaign Lawsuit

Republican attorney general candidate Bill Meier filed suit against his Democrat opponent Jim Mattox for so-called fraudulent advertising. Meier charged Mattox with misleading voters into thinking he was an incumbent attorney general. Mattox called the lawsuit "political rot."

Vital Statistics

Heart disease continues to rank as the number one killer in Texas, according to the 1981 Vital Statistics report released last week by the Texas Department of Health.

The report showed that the number of deaths overall in the state rose to an all-time high of 110,498, but due to increases in population, the number of deaths per 1,000 population dropped to 7.5 from 7.6 in 1980.

Total deaths resulting from heart disease rose from 37,581 in 1980 to 38,463 last year.

Cancer placed second in 1981 with 21,770 deaths. That figure also was up from 21,164 in 1980.

LETTERS TO THE EDITOR

August 30, 1982

Dear Kitty,
Will you please print this letter which was referred to in Commissioners Court last week this is not a commanding letter nor a demanding letter. I am not accustomed to commanding or demanding the County Courts.

Over 200 jurors complained in the last 12 months about the sound system in the Courtroom perhaps the Historical Society can help resolve the problem. Printing this letter should set the record straight.

Respectfully,
Troy D. Williams
District Judge

August 23, 1982

To the Commissioners Court of Crockett County, Texas Dear Friends:

Although I was invited by Judge Jones to meet with you at this meeting I had a prior setting and am in a jury trial in Pecos County this date.

I do not believe it necessary for the District Judge to meet with the Commissioners Court to admonish them concerning their duty to care for the Courthouse and annex.

In every County except Crockett County in the 112th District their (sic) has been painting, window washing, and general repairs and renovations. They have much to do but are making progress.

One only needs to look around at the ancient plumbing in the men's restroom—see the circled ceiling in the ladies restroom just below, look at the dingy-dirty tile.

The noisy air conditioning, the bare floor in the Courtroom, the lack of an adequate sound system, then the high ceiling which is beautiful but not practical—it is the only one left intact in the District. The lack of an elevator is something to think about in the future.

Across the way in the annex the plaster walls have been crumbling for years—one would believe the country is in the poverty level to look at the buildings. Cannot the Court raise the tax rate 4c or 4½c without having to have a public hearing, then use this increase in upgrading and restoring the Courthouse?

I have listened to lawyers and tax men for oil companies talk about how they have hoodwinked the Court into thinking they are real conservative business men, and at the same time these oil companies are taking out our resources and leaving very little in the way of maintenance much less improvements. They feel very smug about this.

Please do your duty and begin repairs and renovations.
Sincerely,
Troy D. Williams

August 26, 1982

Dear Editor:

It's been a long time since I corresponded with you. I sincerely hope that things are going well for you and your family. The basic structure of the Bowman family is still the same (son Bill and daughter Debbie who attended Ozona schools when we were there in 1961-62 and 63) might be interested in what happened to Bill Bowman. He graduated from the USAF Academy in 1968-became a fighter pilot and served in several assignments in the U.S. and overseas. He is now a Major and works at the Pentagon. He was recently appointed aide to General Gabriel, Chief of Staff-U.S. Air Force. Bill recently accompanied the General and his wife to Edwards AFB, CA. to be with President and Mrs. Reagan for the landing of the space shuttle Columbia. Bill sends his best to former Ozona schoolmates and friends.

I have enclosed a check. Please send me 2 or 3 copies of the paper. Give my regards to Ozona friends of the early 60's. Doesn't seem like 20 years have passed since our weekly Lion's Club lunches and other community get-togethers.

Sincerely yours,
W. C. Bowman
4509 Ashcroft Avenue
Sacramento, CA. 95841

Lt. Col. W.C. Bowman USAF was formerly stationed at the Ozona Radar Base which is now Crockett Heights. He is retired.

August 17, 1982

Dear Kitty,

I am thoroughly disgusted by Troy Williams' constant demands for remodeling-first his offices, and now, the courtroom. In my opinion, if the District Judge's Crockett County surroundings are not grand enough for him, perhaps he should move to Ft. Stockton.

The courthouse belongs to the citizens of Crockett County, and it is a treasure which should be restored-not remodeled. I hope there are enough people left who care about their heritage to keep our courthouse from being covered up with acoustic tile and indoor outdoor carpet.

Barbara Davidson Walker

Mr. and Mrs. Burl Myers and Robin spent a part of their vacation last week visiting Six Flags, where they saw the Crystal Gayle Show.

Strake Talk

TWO TERMS IS ENOUGH

Texans have a healthy skepticism of their elected officials, a wariness of entrenched power that they have embodied in the state constitution. They have historically refused to keep top state officeholders more than a few terms.

Now my opponent comes along, having spent nearly ten years in the Lt. Governor's office, one of the top state policy-making offices. Mr. Hobby wants yet another term to make it 14 years in that crucial job. That is unprecedented. Never in Texas' history has any Lt. Governor served that long—or wanted to.

His desire, frankly, puzzles me. You would think he would have other goals, other challenges he might want to tackle. As his primary opponent this year said, "If he had anything to get done, you'd think he would have done it by now."

My opponent will tell you that experience is what counts. I think voters need

to look at the experience they have had with him. After ten years, our high-ways are in bad shape, the quality of education has declined, we still do not have a new, statewide water plan and he has refused to tackle the growing crime problem. We can't afford more of that kind of experience.

I have a long-held belief in what I call the citizen-politician: someone who holds a job, serves his country or state for a reasonable time, then returns to that job and private life. For that reason, the first order of business after I am elected will be to have a constitutional amendment introduced in the legislature limiting the Lt. Governor to two terms—eight years. That is enough time for anyone. Too great a concentration of power for too long is bad. That is a principle of democracy.

If you have any thoughts on this subject, please write me at 1213 W. 34th, Austin, 78705.

Debra Says

By Debra Price

4-H Committees and parent groups will be organizing and planning the 4-H year in September. Things will be in full swing soon.

In September the Extension Service is offering programs on "Be a Super Snacker". You will want to watch for Snackman in our county soon.

You can watch your budget and your weight while you plan delicious meals with Texas rice. When selecting rice, choose the kind and grain length most appropriate for your recipe.

Brown rice has a nutlike flavor and chewy texture. Brown and converted rice takes longer to prepare than regular milled white rice. While instant rice is easier and faster to cook, it is more expensive than regular milled.

Also available is wild rice which is not really rice at all. It's the seed of a reedlike plant which looks and tastes like rice.

The amount of cooked rice provided per cup of uncooked rice varies with the kind of rice used. One cup of uncooked rice yields the following: 3 cups regular milled white rice, 4 cups brown and converted rice, and 2 cups precooked rice.

Rice is a complex carbohydrate with delicate starch cells, making it easy to digest and particularly good for infants, elderly and ill people.

The economy and versatility of rice allows you to serve it as a main dish, vegetable side dish, stuffing, soup, cereal, salad, or dessert. Rice can stretch high cost protein foods to feed more people. Its bland flavor allows it to combine deliciously with most other foods.

Uncooked white rice will keep almost indefinitely in an air-tight, moisture-proof container in a cool, dry place.

RICE DAINTY

1/2 cup cooked rice
1/2 cup powdered sugar

1/2 cup diced fruit or fruit pulp

1/2 cup cream, whipped
Mix the rice, fruit, and sugar; chill thoroughly; fold in the whipped cream just before serving. Pile in individual serving dishes; garnish with a bit of the fruit or a cube of bright jelly.

Suggestions for fruit are: diced or shredded pineapple; diced bananas or peaches sprinkled with lemon juice; cooked prune, apricot, or rhubarb pulp; or a mixture of several of these.

CHICKEN 'N RICE

1 box uncooked Wild Rice
1/2 cup butter
9 ounces sliced mushrooms

Pepper
4 1/2 cups chicken, cooked
3 tablespoons parsley
1/2 cup silvered almonds
3/4 cup chopped onion
6 tablespoons flour
Chicken broth
2 1/2 cups light cream
1/2 cup pimiento, diced
2 1/4 teaspoons salt

Cook onion in butter until soft, but not brown. Remove from heat and stir in flour. Drain mushrooms, reserving liquid. Add enough chicken broth to liquid to measure 1 1/2 cups and gradually stir into flour mixture. Add cream, cook, and stir until thick. Add wild rice, mushrooms, chicken, pimiento, parsley, salt, and pepper. Place in casserole. Sprinkle with almonds. Bake at 350 F for 25-30 minutes.

CLASSIC RICE SALAD

3 cups cooked rice, cooled
1/2 cup each finely chopped onions and sweet pickles
1 tsp. salt
1/4 tsp. ground black pepper

1 cup mayonnaise
1 tsp. prepared mustard
1/4 cup diced pimientos
4 hard-cooked eggs, chopped

Blend all ingredients thoroughly. Chill. Serve on lettuce leaves, if desired.

DUPLICATE BRIDGE

Winners in Duplicate Bridge Club play Saturday at the Country Club were Mrs. Evert White and Mrs. Jack Williams, first, and Mrs. Robert Cox and Mrs. J. B. Parker, second.

In play Sunday Fred Atkins and Lottie Puckett of Sonora were first and Mrs. Cox and Mrs. Tom Montgomery, second.

ENGAGEMENT ANNOUNCED-Mr. and Mrs. Cecil F. Hedrick announce the engagement and approaching marriage of their daughter, Reinita Cecile, to Layton Larry Brown, Jr., son of Mr. and Mrs. Layton L. Brown of Mason. The bride-elect is a 1982 graduate of Ozona High School. Her fiancé is a 1980 graduate of Mason High School and is employed by the State Department of Highways and Public Transportation. The couple plans to be married on September 24.

Basic craft program scheduled

A program on "Basic Machine Embroidery and Monograms" will be Thursday, September 9, 7:30 p.m. at the Civic Center. Opal McCleary, instructor at Sally's Stitchery in Dallas will present the one hour demonstration. Mrs. McCleary has taught sewing lessons for the Bernina Company for many years in the Dallas area. She is experienced in tatting, needlepoint, crewel, bobbin lace, and cut work. She has traveled extensively learning the art of machine work, and is a member of the Embroidery Guild of America.

Cost of the program is \$5.00 per student to cover the traveling expense and teaching supplies for the instructor.

The program will include the basics of machine embroidery, monograms, machine adjustments, and techniques. All individuals interested in home sewing are welcome to attend. Call the Extension Office at 2-2721 to enroll for the class.

PLEASE NEWS TO THE STOCKMAN.

Tips For Gardeners

From The Ozona Garden Club by Mrs. Bailey Post

After a summer of mostly dry, hot days, maybe we can look forward to September rains to start late fall gardening and usually my favorite weather of the year.

The main effort in late gardening is to keep plants growing. Weeds seem to get ahead of cultivation, and this can spell a loss to good growth.

Continue to separate and replant perennials as needed when plants become over crowded.

As the growing season moves into fall, survey the plants you have in hanging baskets to determine their needs. Are plants getting the amount of light they need? Ferns want indirect sunlight, while geraniums will tolerate full sunlight.

Turn baskets occasionally if necessary to allow light to reach all the foliage. As temperatures cool, less water will be required. Continue to feed baskets with a water-soluble fertilizer. Keep plants groomed to encourage compact new growth and a profession of bloom. Pinch off dead flowers and discolored leaves at least once a week. Keep a close watch for insects and disease problems. Remove infected plant parts and spray if needed.

To enjoy bluebonnets next spring you need to plant now. Soak the seeds in water for at least two days before planting and then sow them 1/2 inch deep in well prepared soil. If planting on a hillside broadcast for a native display.

If you intend to have a strawberry bed, now is the time to plant them. Ask for the varieties best for our area and plant in a sunny location.

The purple eryngo or thistle is or will be soon at its best along the highways and in pastures. Also, it is time to gather it for dried arrangements for your home, or in the fall plant and garage sale later. Hang it upside down to dry in a shady, airy place. Its color will last for months.

Too, I notice pampas plumes are ready to gather when about half open to cure and especially if it looks like rain which causes them to look stringy.

September Garden Planting Dates:

Above-ground Crops-18, 19, 20, 21, 22, 26, 27, 30
Root Crops-3, 4, 7, 8, 11, 12, 13.

Foot care for average adult

The average adult travels an estimated 1,000 miles a year by foot. It's no wonder, then, that feet hurt at times.

In addition to years of wear and tear, problems also can result from disease, ill-fitting or poorly designed shoes, poor circulation to the feet, or toenails improperly trimmed.

Corns, calluses and bunions are common foot problems. In each, the pain is caused by shoe pressure on an area with a prominent bone. The skin over the area becomes thickened, irritated and tender. Sandals, shoes with extra toe depth, and doughnut pad can help, but sometimes surgery is necessary.

Using a razor blade or acid preparation on corns and calluses is unwise and risky. The thickened skin protects the foot from shoe pressure. If too much of the skin is removed, an ulcer can develop and lead to infection and serious problems.

The foot also is susceptible to infections by viruses, fungi and bacteria. Viruses cause warts. Fungi cause thickened nails and athlete's foot. Bacteria can infect any area of the foot where the skin is broken.

Foot infections are particularly dangerous for diabetics. They have a loss of protective sensation in the foot and can develop foot ulcers and infection easily. Diabetics also have a lower resistance to infections. Individuals with circulation problems also develop infections. These two groups should bathe, powder and inspect their feet daily for breaks in the skin. They should not use heat on the foot when circulation is impaired and should avoid going barefoot where the feet might be injured.

A common infection a-

mong many people is the ingrown toenail. The corner of the nail can penetrate the skin and allow infection to develop. To prevent this, toenails should be cut straight across so the corners remain exposed.

CARD OF THANKS

We would like to express our deepest appreciation for all the food, cards, flowers, and visits after our accident. A big thanks goes out to Ralph Anderson, Dee Keilers, the ambulance crew and Dr. Owensby.

OVERCOMING PROBLEMS

There are many ways to improve the looks of your rooms--both in the selection of the right furnishings and in the way you use those furnishings.

And, this week we'd like to call your attention to one way furniture and accessories can overcome the problems any room might have.

There's an expression in decorating called "trompe l'oeil" which literally means "fool the eye", and is applied in decorating to creating the kind of illusion you want in a room. For instance, if you feel a room needs a feeling of more depth, you might, as one example, add a beautiful mirror in the right place.

This can give your room the illusion of more size and depth.

The selection of a certain piece of furniture, considering its shape, scale, color and placement can give a room a different illusion.

Do you realize that with good decorating you can actually conquer awkward dimensions in a room, and bring new beauty you never thought possible.

It's something worth thinking about, and we invite you to stop in and discuss your particular decorating needs with us. We can offer the furnishings and the ideas to help you have a warmer, more convenient, more beautiful home.

WHY THEY GET AWAY!

Fishin' is relaxin' — sometimes too relaxin'!
It's embarrassing to explain that the big one got away because you took a little nap with your rod in the sand.

It's no different explaining why souls get away!

There is a special worship time in the churches of our land . . . the time for parents and youngsters to keep a vital appointment with God. There's so much truth for kids to learn. And so many convictions for grown-ups to apply in everyday life.

In selecting his first disciples Jesus talked bluntly to those of us who understand fishin': He expects us to be fishers of men! Bring your children to church every week.

MEMBERS OF THE DEVELOPMENT ADVISORY COUNCIL for Rio Concho Manor, Inc. in San Angelo, are Mr. and Mrs. T. J. Bailey and Mr. and Mrs. R. A. Harrell. The council will be lending its expertise to the Rio Concho Manor

East project, a \$2.6 million facility for the frail elderly which is under construction and due to be completed by the summer of 1983.

Football contest underway

The annual football contest, sponsored by local merchants and the Stockman, begins this week. It will be found on the football page which lists schedules and photos of the Lions, also sponsored by Ozona merchants.

This year the jackpot will be \$20. The same rules apply as in past years. All entries must be in the Stockman office or postmarked before 5 p.m. on Friday. Fill out all games and fill in scores on the tie-breaker only. For a perfect entry, the pay-off will be \$50.

Reserved seats still on sale

Reserved seats for the 1982-1983 football games are still on sale at the Administration Office. Several good seats still remain to be sold. Reserved seats sale for \$3.00 each or \$15.00 per season.

Regular admission prices are \$3.00 for adults and \$2.00 for students. At the five home games, both adult and student tickets are available for advanced purchase at each of the four schools and the Administration Office. They will be available on the week of the home game from Thursday through Friday noon.

Adult health screening

An Adult Health Screening will be held Thursday, September 2, at the Civic Center from 10-12 and 1-3.

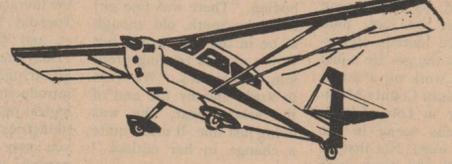

The Public Health Nurses from San Angelo will be testing adults for high blood pressure, diabetes, and anemia. Any adult who has not attended a screening this year is urged to attend.

A film titled "Breast Cancer, Where We are" starring Jennifer O'Neal will be shown at 11:00 and 1:00 in the small meeting room. Everyone is welcome to come view this film.

Texas pastures are ripe for wildfires

Current hot, dry weather is making Texas pastures and ranges ripe for wildfires.

"Some areas of Texas have had abundant grass growth from spring and early summer rains, so the fuel supply is there for wildfires," said Dr. B.J. Ragsdale. "Better managed ranges are especially vulnerable as there is an abundant

Drug news difficult to keep straight

Medical news about drugs is so prevalent in the media that it is difficult to keep it all straight.

The Texas Medical Association compiled these developments involving new drugs and a vaccine:

Production of the first hepatitis vaccine began recently. Researchers say the vaccine against hepatitis B is 95 percent effective. It is made from blood plasma of people who cannot donate to blood banks because they have had hepatitis. The vaccine, approved by the U.S. Food and Drug Administration, also may help prevent liver cancers linked to hepatitis.

Eli Lilly and Co. has voluntarily stopped selling its anti-arthritis drug Orflex, which had been linked to more than 70 deaths in the U.S. and Great Britain. Company officials nonetheless contended the drug is safe.

Several health groups had filed suit to have Orflex removed from the marketplace. The FDA acknowledged it had approved the drug without knowing its possible side effects—liver poisoning, jaundice, rashes and gastro-

intestinal problems.

Dr. Denton Cooley's Texas Heart Institute in Houston is testing an experimental drug that reduces the body's tendency to reject transplanted organs. In previous tests, cyclosporin A, extracted soil from fungus, has shown considerable promise in lessening rejection during liver, kidney and heart transplants.

Ragsdale urged county governments to develop or update rural fire fighting plans so wildfires can be

effectively controlled. Equipment should be in order and easily located.

Also, management of burned areas should be planned to insure reestablishment of forage plants. This should include grazing and wildlife management and possibly grass seeding to insure a ground cover.

"Fire, prescribed for use under specific conditions and controlled, can be a useful tool in land and natural management," Ragsdale said. "But uncontrolled wildfires can do severe damage and mar an area for a long time."

"Fire is a natural phenomena that had a major influence in developing and maintaining grasslands and savannahs," Ragsdale said. "And it is being proven as a valuable range improvement tool. Used under proper conditions, fire is a valuable asset. However, a wildfire can do untold damage."

Everyone stands to lose from wildfires. Desirable forage plants may be reduced in vigor or killed, forage for fall and winter is lost, wildfire habitats can be damaged, air and water quality is lowered, recreational value of the burned area is altered, and the burned area is an eyesore. Additionally, livestock may be lost and fencing and other improvements damaged or destroyed, noted the specialist.

"Prevention is the best cure for wildfires," Ragsdale said. "Use extreme caution with fire of any kind." He especially urged people who work outdoors and sportsmen to use care while the threat of fire is great.

Any wildfire should be reported immediately to the nearest authority, the specialist said.

Ozonans get ASU degrees

Three Ozona students at Angelo State University were among 209 students to receive degrees during summer commencement at the university.

Ruth Rebecca Seahorn Johnson received a masters degree of education, Vaden Ray Aldridge received a master of science degree and Kathy Gail Sewell Aldridge received a bachelor of science degree majoring in elementary education.

Retiree is successful in volunteer work

By-Thomas W. Pauken
Director of ACTION

His name is Powell Hollings, and he looks as distinguished as his name sounds—over six feet, blue eyed, white haired, eighty-one and on the go. He's just completed work on a mural for the Nassau County Medical Center in Long Island. It's a circus scene in the children's ward. Not that he spends all his time with brush in hand, but he does spend a great deal of time with young people.

That special relationship was begun about six years ago when he agreed to do some radio and TV commercials encouraging retirees to get into volunteer work. Suing his own actions to the work, he checked in at the Nassau County Department of Senior Citizen Affairs. Since then he's been a member of RSVP, ACTION's Retired Senior Volunteer Program, serving as a tutor and a teacher's aide at Westbury Powell Lane Elementary School.

He started with slow learners in the fifth grade as a math and reading instructor on a one day per week schedule. He came well-equipped for the challenge, not only because of his own careers in aviation, advertising, accounting, theater and films, but also because Powell Hollings is an understanding and patient man who has never forgotten what it's like to be very young and very unsure. Immediately he saw the magnitude of the scholastic problem and expanded his availability, spending three days a week with children in grades three through six. The teachers at Powell Lane cannot praise him enough.

Hollings gets through to those ten times younger than himself because he understands what motivates the very young who are up against difficulties; he can reach across the years and turn them on because he knows how to convert what appears to be a barrier into a pathway. "I give them encouragement," he says. "Once they start to see they can do it, they light right up. They come to me not knowing their ten math tables. I tell them they'll know nine of them in ten minutes. They don't believe it, and when they see it's possible—well, it makes my day."

It makes the teacher's day, too. Powell Hollings' students are mostly minorities—Black, Vietnamese and Cambodian. "There was one girl from the South, old enough to be in the fifth grade but with a serious reading problem," he relates. "We went to work, and by the end of the school year, she was doing just fine. It made quite a change in her outlook."

As for how his students look upon Powell Hollings, most of them call him Grandpa. He laughs, "That's great, particularly at the supermarket when they start hailing me."

Well, school is out for the summer now, but not for Grandpa Hollings. On Mon-

days he works with a group at the beach pool helping to teach physically handicapped children of all ages to enjoy the therapy of swimming. On Tuesday, he's a mural painter, and Wednesday through Friday he is involved with gifted high school graduates, introducing them to technological opportunities in area industries. On the weekends, you may find him in the garden, or with palette in hand, or maybe you won't find him at all because he's off somewhere helping someone to make the grade.

Powell Hollings has won numerous awards for his volunteer efforts, but he's just doing what comes naturally to him and enjoying every minute.

Labor Day weekend to claim 47, DPS

Although motor vehicle fatalities are down by five percent statewide as compared to the same time last year, the Texas Department of Public Safety is estimating 47 traffic deaths over the forthcoming Labor Day weekend.

DPS Director Colonel Jim Adams said he is not optimistic that the holiday period would reflect any fewer deaths than anticipated. However, he said that drivers could help limit the number of fatalities by using seat belts, maintaining a safe speed and refraining from drinking while driving. He said about half of the holiday deaths would probably involve alcohol.

"Some people tend to drink more during the holidays and then attempt to drive. By doing so, they show a low regard for the well-being of themselves, their passengers and other motorists. Drunk driving is obviously one of the most dangerous risk factors facing motorists today," he said.

DPS statistical reports show 23 percent of traffic deaths reported last year involved alcohol. However, Adams said, "about 50 percent or more of the traffic deaths in Texas are alcohol related."

"State law does not provide for mandatory blood alcohol testing on drivers who were believed to have been drinking. When we compare accident reports and national statistics, it is easy to estimate the number of accidents which involve the drinking driver," he said.

Last year during Labor Day, 50 persons were killed in urban and rural traffic accidents. Eight more persons died later as a result of injuries suffered from accidents which occurred during the 78-hour holiday.

At the discretion of command officers, the DPS will have extra patrols assigned to areas where heavy volumes of traffic can be anticipated or where drinking drivers can be expected.

*Local highway patrol

commanders will assign the additional troopers as they deem appropriate to assist the holiday traveler and to watch for drivers who violate traffic laws," said Adams.

The Labor Day holiday is traditionally one of the last holidays of the summer vacation period and extensive travel and heavy traffic can be expected.

The DPS is urging motorists who take long trips to utilize the many rest stops provided by civic and business clubs and the State Highway Department.

Additionally, the DPS will conduct Operation Motorcade whereby the city police departments, county sheriff's offices and troopers report the number of traffic deaths directly to the news media.

Public Notice

NOTICE OF ACTION TAKEN ON AN APPLICATION FOR A CHANGE IN LOCATION OF HEAD OFFICE

Notice is hereby given that the Comptroller of the Currency, Dallas, Texas, 75270, has accepted for filing as of August 17, 1982, an Application for a Change in the Location of the Head Office of Crockett County National Bank (In Organization). Through such application, Crockett County National Bank has requested approval of its request to move its Head Office from the north side of old U.S. 290 (Loop 446) approximately .5 miles east of the intersection of Loop 466 and Highway 163 to the northwest corner of the intersection of First Street and Highway 163, Ozona, Texas.

This notice will appear on the same day of two consecutive weeks, beginning September 1, 1982 and ending September 8, 1982.

Any person wishing to comment on this application may reply in writing to the Regional Administrator of National Banks, Eleventh National Bank Region, 1201 Elm Street, Suite 3800, Dallas, Texas, 75270, within 21 days of this notice. This application is on file in the Regional Administrator's Office in Dallas and is available for public inspection during regular business hours.

Date: August 31, 1982
Crockett County National Bank
North Side of Old U.S. 290 (Loop 466) approximately .5 miles east of the intersection of Loop 466 and Highway 163.

NOTICE OF APPLICATION FOR FLUID INJECTION WELL PERMIT

Sun Explorator & Production Co., P.O. Box 1861, Midland, Tx. 79702 has applied to the Railroad Commission of Texas for a permit to inject fluid into a formation which is productive of oil or gas.

The applicant proposes to inject fluid into the San Andres, Shannon Estate, Well Number 16. The proposed injection well is located 8 1/2 miles NE from Sheffield, Tx., in the Olsen Field, in Crockett County. Fluid will be injected into strata in the subsurface depth interval from 2314 to 2448 feet. LEGAL AUTHORITY: Chapter 27 of the Texas Water Code, as amended, Title 3 of the Natural Resources Code, as amended, and the State-wide Rules of the Oil and Gas Division of the Railroad Commission of Texas.

Requests for a public hearing from persons who can show they are adversely affected, or requests for further information concerning any aspect of the application should be submitted in writing, within fifteen days of publication, to the Underground Injection Control Section, Oil and Gas Division, Railroad Commission of Texas, Drawer 12967, Capitol Station, Austin, Texas 78711 (Telephone 512-445-1373).

27-1tc

PUBLIC NOTICE

Notice is hereby given that SOUTHWEST TEXAS ELECTRIC COOPERATIVE, INC. (the "Utility") intends to change its power cost adjustment rate for electric utility service effective September 29, 1982, or as soon as may be permitted by law. The proposed power cost adjustment changes the manner in which wholesale power cost are collected from the Utility's ratepayers. The change is applicable to all areas to which the Utility provides electric utility service. All classes of customers are affected by the proposed change. The proposed power cost adjustment is not expected to increase the annual revenues of the Utility.

Implementation of the proposed change is subject to approval by the appropriate regulatory authority. A Statement of Intent including the proposed revision is on file with the Public Utility Commission of Texas.

The Statement of Intent is available for public inspection at the general office of the Utility located at 21 E. Gillis, Eldorado, Texas.

Kitty's Korner

even though graduation exercises were held only yesterday (it seems) and although you would never know it from the weather, fall is sure to come. The dog days of August have a bad effect on all of us and when temperatures rise above the 100-degree mark for ten days on end, it's a strain on the community. This is a particular bad time for abused children, and it has come to my attention we have had such cases right here in Ozona. Therefore, I feel our lead story is pertinent this week and should be of interest to us all.

- Sept. 22-Jacinda Marley, Carlos Borrego
- Sept. 23-Peggy Skains, Dinky Sinclair
- Sept. 24-Israel Gonzales, James Fierro
- Sept. 27-Marty Martinez
- Sept. 29-Andy Dews
- Sept. 30-Sylena Sessom

NEW FACES IN OZONA

HIGH FACULTY

By-Melissa Galindo

John Curry is our new Basketball coach and civics teacher. He's also a Varsity Football assistant coach and has a study hall class.

Mr. Curry came to us from Van Horn, where he taught for more than thirteen years. "Everybody's very friendly here," commented Mr. Curry. "Classes are like I'm used to, very similar to the ones from Van Horn."

So, if you see a new teacher going down the hall with a big smile on his face, say hello. It could be Coach Curry.

Sherry York came from La Joya High School in Valley Mission, Texas, to be a library assistant and a Study hall teacher in Ozona.

"It's a smaller school than I'm used to, and I like it," said Mrs. York. "I think it will give me an opportunity to get to know the students better."

Mrs. York, who has been very busy in the library, said, "I hope to be here for a very long time."

STUDENT COUNCIL CLASS OFFICERS ELECTED FOR SCHOOL YEAR

By-Robbie Turnley

Last year's Student Council met last Monday to nominate four people for the 1982-83 Student Council at OHS. The student body voted and the top vote-getter of presidential candidates was elected president. Second vote-getter became vice-president. Also, the top vote-getter of the candidates for secretary and treasurer was elected secretary. Second vote-getter became treasurer.

Elected president of the Student Council was Randy DeHoyos. Also elected to the council were: Harvey Huerreca, vice-president; Zeke Martinez, secretary; and Evelyn Cervantez, treasurer. Other council members are: Seniors, Gino Tambunga and Leticia Tobar; Juniors, Oscar Vargas and Kristal Williams; Sophomores, Raul Delgado and Haley Anderson, and Freshmen, Bonnie Cameron and Harvey Fierro.

Class officers were elected Tuesday afternoon in class meetings. Henry Delgado was elected president of the Senior class. Vice-president is Rod Miller, secretary is Fabian Delgado, and Raymon Cedillo is treasurer. Sponsors are Mr. Curry, Mr. Maldonado, Mrs. Parks, and Mrs. Stuart.

Junior class president is Rowdy Holmsley, vice-president is Arnold Vargas, secretary is Lydia Maldonado, and Mark Dudley is treasurer. Sponsors are Mr. Hoover, Mr. Keathley, and Mrs. Taliaferro.

Elected as Sophomore class president was David Delgado. Teresa Lee is vice-president, Alfonso Ramirez is secretary, and Peery Holmsley is treasurer. Sponsors are Mr. DeHoyos, Mrs. Franco, and Mr. Scott.

Freshman president is Steve Sanchez. Serving as vice-president is Raedene Flores. Secretary is David Adams, and Julie Reagor is treasurer. Sponsors are Mr. Glaze, Mrs. Henderson, Mr. Hicks, Mr. McWilliams, and Mr. Porter.

A FRESHMAN'S VIEWPOINT

By-Irma Ybarra

A new student to OHS is fourteen year-old freshman, Raedene Flores.

Raedene plans to participate in basketball, band and possibly cross-country and track during her high school years.

Raedene is the daughter of Mr. and Mrs. Robert Flores, owner of Flores Shamrock station. She has two brothers, Robert Flores Jr., a junior in Ozona High School and a very fine athlete, and Roger Flores, an eighth grader in Junior High School, who is a "fine artist" and "pretty good" quarterback. She was also chosen Vice-president for the freshman class.

Her favorite foods are oranges, spinach and corn. Her favorite color is blue. Her favorite T.V. show is "Give me a Break." She enjoys dancing and watching her brothers compete in sports. Her idols are Vickie Longoria and Lupe Cervantez.

When asked how she liked high school Raedene commented, "It is very different, but it's okay, it is something I will always remember."

When asked if she has gotten lost, she said "I have to stop and think where I am going and where it is. It's the stars that get me lost really!"

Raedene feels worried, nervous and excited. She also commented it is a challenge to be in high school. She feels privileged to be in a school full of fine athletes and brains.

High school, however, is not what Raedene expected it to be. So far she likes most of her classes and teachers. She commented the teachers were kind of strict but their rules couldn't be argued with.

LION'S ROAR STAFF ASSEMBLED

Reporters and editors of the 1982-83 Lion's Roar and The Lion yearbook are senior class members of the Ozona High School Journalism class.

Editing the Lion's Roar this year is Karise Aycock. Yearbook co-editors are Gayla Bell and Cynthia Trujillo.

Other staff members are Robbie Turnley, Noemi Gonzales, Irma Ybarra, and Melissa Galindo.

Sponsor and teacher is Mrs. Jan Henderson.

BAND NEWS

By-Irma Ybarra

This year's band has probably been the better band of the past few years, according to Mr. Kelly Glaze, band director in Ozona for the past few years.

This year, the band intends to feature the trumpet and percussion sections during marching.

When asked how the

freshmen are doing so far, Mr. Glaze said, "They have shown quite a bit of maturity and musicianship."

This year there are ninety-nine members of the High School band, including Drum Major, Haley Anderson. All of these members will be attending marching contest in Brady in October.

BUSY BODIES

By-Karise Aycock

There have been two extremely busy groups around OHS this week. The cheerleaders and the twirlers are both getting ready for the upcoming football season, beginning September 3. Besides making up pep rallies, locker favors, and routines, the two groups have also been raising money through selling T-shirts and jackets.

The cheerleaders are, Sherri Buckner, head; Pam Wilton, Kristal Williams, Darla Lovell, Velma Fierro, and Lydia Maldonado. Beginning Monday, the girls started selling buttons with the slogan, "This is the year of the Lions." At the pep rallies each week, a spirit stick will be given to the most spirited Lion fan, voted by the cheerleaders. Also, between each class on Friday, yells and chants will be led in an effort to promote spirit. The cheerleaders want everyone, from the freshmen, to the faculty, to the seniors, to get involved, support the mighty Lions, and show some spirit.

The twirlers are: Jacinda Marley, Teresa Lee, Jana Lilly, and Susan Scott, all of whom have been working to raise spirit also, as well as to raise money. Purple Ozona Lion jackets are being sold and according to the twirlers, they are going very fast. The twirlers have been working really hard to polish up their routines and they are looking very good. Hand flag routines and a cape routine are among the special attractions the twirlers have thought about performing to add variety to their halftime show.

Also performing at half-time are the flag twirlers, Katrina Burger, Sarah Falkner, Tonya Ruthardt, Christy Parks, Dona Lilly, and Lydia Hayes.

PROFILE OF A NEW STUDENT

New to Ozona and OHS is Brock Jones, a freshman. He moved to Ozona from Austin, Texas where he has lived all of his fourteen years.

Brock's favorite color is blue and his favorite food is steak. He likes to listen to two kinds of music. They are rock and country. His favorite groups are Alabama, Beach Boys, Eagles, and Styx.

When asked if he liked OHS, he said he did because OHS is small. In Austin, his

class alone at Westlake Hills Junior High School had 350 people in it.

Most of Brock's relatives live here in Ozona, so he was already familiar with our town.

Brock plans to play football as his extracurricular activity.

When you see Brock around school, be sure to say hello to our new student. **TWIRLERS SELL JACKETS**

By-Gayla Bell

The 1982-83 Ozona Lion Twirlers sold jackets that had the Lion emblem on them from August 19 until August 26, and will continue selling them if there is a great demand. The twirlers plan to sell more jackets and reorder when the previous ordered jackets have arrived.

You may have noticed the posters and radio and intercom announcements advertising these jackets. The money raised will help pay for camp and for new uniforms.

The jackets are purple, trimmed with purple and white knit cuffs, collar, and waistband. They are also selling regular windbreakers.

NEW FACULTY MEMBERS AT INTERMEDIATE SCHOOL

By-Cynthia Trujillo

As you have probably noticed, our school's faculty has added some new members. We would like to acquaint you with these new teachers by telling a little about a few of them each week.

Our first interview was with Mrs. Dolly Abbott. She is a teacher at Ozona Intermediate school. Mrs. Abbott moved from Mason to Ozona at the end of last year. Mrs. Abbott is married to the head coach of the Ozona Lions, Don Abbott. The Abbott's have a daughter, Terrye, and two sons, Danny and Mickey. Mrs. Abbott moved to Ozona with her husband after he accepted the head coaching job for our Lions.

Mrs. Abbott commented that all was fine in Mason, but they were so impressed with our community and school facilities they decided to give Ozona a try. When asked what she thought about Ozona's school system, Mrs. Abbott said, "It is the neatest school system I have taught in."

Mrs. Abbott enjoys playing tennis, reading, walking, singing, and teaching. As you have probably noticed, Mrs. Abbott is very active. She likes the friendliness, politeness, and feeling of togetherness that was gained when she and her family moved to Ozona. Mrs. Abbott hopes that people will profit from her teaching here.

Blue is Mrs. Abbott's favorite color. She likes to

listen to pop and classical music. Joe Namath and Mickey Mantle are her favorite athletes. Mrs. Abbott loves to eat that delicious pizza, like so many of us. Cats are Mrs. Abbott's favorite animal.

Ms. Cathy Grendahl is another new member of our school's faculty. She is the special education teacher at the intermediate school.

Ms. Grendahl moved to Ozona because she likes small towns, and Ozona appealed to her. Ms. Grendahl also feels our school's system has adequate facilities and students' needs are always utmost in consideration.

Ms. Grendahl is a graduate of Angelo State University. She has a daughter named Stacy. Ms. Grendahl says she loved to teach and is glad she accepted Ozona's job offer.

FOOTBALL SCRIMMAGE

By-Noemi Gonzales

In a no-score scrimmage Friday, August 20, in Pecos, the 1982-83 Ozona Lions met with Fabens.

According to Coach Abbott and the Lion coaching staff, Friday's scrimmage was a disappointment. Neither team scored any points.

Junior Diego Leal led the Lions with the most yardage, followed by Senior Greg Fierro, both returning lettermen.

The second scrimmage for the Lions was Friday, August 27, against Stanton.

Senior David Badillo ran seventy yards for a touchdown. Other players who led the Lions in the most yardage and a one-to-one game were Seniors Willie Payne, Greg Fierro, Albert Borrego and Junior Diego Leal.

Coach Abbott said the Lions had improved very much. The Lion's goal was to pressure their opponents offense, which was done well.

Coach Abbott went on to say that he has high hopes for the Lions this year, with thirteen returning lettermen. He also stated that he could not ask for a better coaching staff.

When asked what the fans could do to encourage the

Lions, he said, "first don't criticize the players. They are human beings playing and trying very hard to win the game. Second, give the Lions time to get used to Coach Abbott's new offensive and defensive plays."

FRESHMEN ARE INITIATED

By-Cynthia Trujillo

Senior and junior girls had the pleasure of initiating the freshmen girls Saturday morning.

Initiation started out at the rodeo park. The freshmen girls were covered with whipped cream, motor oil, shaving cream, pumpkin pie filling, cooking oil, mud and flour. Afterwards, they were fed canned sardines. The freshmen then walked to the town square while the upperclassmen followed in trucks.

At the town square the freshmen played leap frog, danced, and did jumping jacks. Then they walked to the bridge on highway 290 and were free to go home.

Freshmen boys were initiated by Junior and Senior boys at the hunting camp the week before school started.

Both initiations were a great success this year, according to the Juniors and Seniors. For the freshmen, this will be just one of the many memories of high school.

To be informed, people must first be willing to listen and respect the opinions of others.

INTRODUCING NCAA FOOTBALL. SATURDAY NIGHT, LIVE.

SuperStation WTBS brings you the excitement of live college football every Saturday night, exclusively on cable TV.

Beginning the first week in September, our opening game promises to provide an aerial circus between Nevada-Las Vegas and Brigham Young, last year's top two passing teams. Later games feature teams from conferences like the Big Ten, Pac 10, Big 8, SEC and Southwest Conference, plus major independents.

If you have SuperStation WTBS, check program listings for the time and teams each week. If you don't have SuperStation WTBS, call us right away so you won't miss any of these live, prime-time NCAA games.

Crockett County Care Center News

BY ANN MCCARTNEY
DIRECTOR OF ACTIVITIES & SOCIAL CARE

Fourth Sunday Church services were brought by the Church of Christ.

Monday afternoon a group of ladies enjoyed reading and discussion about the good ole' days.

Tuesday morning winner of the El Chato dinner for two was Juana Hernandez. Friday winner of the gift certificate from Westerman Drug was Jesus Hernandez. Second place winner was Nila Turnell. Nina Mayfield won the special gift. Tuesday afternoon residents had a field trip to Clayton's Village Drug for a milkshake.

Wednesday morning Frances Borrego visited Ann Shaw and picked out some new ceramics to paint. Ruth Hester came at 10 o'clock and directed Frances as well as Moraima Perez, Jessie Deaton, Verna Talley, Tomasa Ramos, Juana Hernandez, and Ola Mills with ceramics.

Wednesday afternoon Grace Dorsey furnished sherry and cookies for Sunshine Hour.

Thursday morning Madye Jo Humphreys and Bonnie Warth fixed our ladies hair for another week.

Thursday afternoon the Faith Lutheran Church was back again for Bible study followed by Spanish Hour led by the Catholic Church ladies.

Friday Jo Cook gave an art demonstration on liquid embroidery. Ladies enjoying the demonstration included: Minnie Karr, Ola Mills, Verna Talley, Moraima Perez, Juana Hernandez, Bertha Miller, Tomasa Ramos.

Also Friday a group of ladies planted some vegetable seeds in our new black planter. Jonsey Williams and Myrtle Post directed this activity.

Volunteers this week for bingo were Ofilia Enrriquez, Dorothy Doll, and Anna Bell Patrick. For our trip to Clayton's Village Drug and bringing back drinks for all those who could not go was Leila Tambunga. Thanks, everyone!

A GARDEN WEDDING at the home of Mr. and Mrs. Billy Mills united Mrs. Mills' niece, Lisa Gay Mobley and Silas Evans Etheredge in matrimony Friday evening. Rev. Nelson S. Lanham officiated at the double-ring ceremony which was held at 8 o'clock.

Youngsters join 4-H

Each year, beginning in September, more than 100,000 Texas boys and girls ages 9 to 19 join millions of others throughout the country in the world's largest youth organization—4-H.

What is it and why do they do it? A brief look into the nature of the 4-H program and what it has to offer youth and their families can provide the answers to these questions.

First of all, 4-H is fun. 4-H'ers take part in a wide variety of enjoyable activities, club meetings, recreation, camps, learning laboratories and project work. Meanwhile their families have the joy of working together on projects, participating in fun days, and enjoying a host of other opportunities.

Secondly, 4-H offers educational experiences. Youngsters learn that learning can be fun. 4-H learning takes place in small group work, in

individual work on projects, and in conjunction with adult volunteers and family members. They learn at fairs and project shows of various sorts and in a variety of other "non-classroom" environments.

In a sense, 4-H education involves youngsters in a "learn to do by doing" atmosphere where useful and practical skills and facts are learned.

Finally, 4-H is for everyone—young or old, rural or city, male or female, regardless of race or ethnic group. Furthermore, 4-H requires no membership fee or dues. It is sponsored by the Texas Agricultural Extension Service which is a part of Texas A&M University System and by local, state and national donors.

So, become a part of 4-H. You and your family will have fun, meet new people, and take part in many new and interesting activities.

CARD OF THANKS

We would like to express our deepest appreciation for all of the food, cards and flowers sent to us in our time of sorrow. Also, we would like to thank Charles Sizemore for all of his support and Dr. Wes Wallace from Austin, Tx., for helping at the accident.

Mr. and Mrs. Don Morris and family

Super Snacker to be featured this month

Snack-Man is the official spokesperson for a new program called "Be a Super Snacker". The program will be featured across the state and in Crockett County in September.

"Be a Super Snacker" is a

Mrs. Bolen buried in Llano

Funeral services for Otilia Kathryn Bolen, 76, mother of Mrs. Frank Reavis, were held Monday at 10:00 a.m. in Our Lady of Perpetual Help Catholic Church, with graveside services at 4 p.m. in Llano Cemetery in Llano. Mrs. Bolen died at 8 a.m. Saturday in Crockett County Hospital.

Forum gives special bed to hospital

The Ozona Women's Forum has honored a Special Care Bed at Crockett County Hospital funds for the purchase came from the Robin Jones Memorial Fund which the club sponsors.

Mrs. J. J. Marley, Mrs. James Childress and Mrs. Dempster Jones along with hospital administrator James Conway, made the selection.

MS. COMPTON RECEIVES DEGREE

Katherine Ann Compton graduated with honors from North Texas State University, receiving her Bachelor's Degree and Master's Degree in Accounting.

Kathy will attend St. Mary's University School of Law in San Antonio. She is the daughter of Paulita and Roger Compton of Dallas and the granddaughter of Mr. and Mrs. Reyes Cisneros of Ozona.

statewide educational program to provide the Texas public with educational information on snacking that is nutritious, economical, and easy.

Super Snacker cards will be available in the grocery stores the week of September 20th. Families send in their card and will receive two free booklets on super snacks. One book is designed for children and includes snack recipes kids can prepare. The other booklet features snacks for adults. Quick and easy snacks, low-cal snacks, family snacks, and party snacks are included in the adult book.

Snack-man decals will be included with the free books. News articles and radio programs on snacking will be presented in September. Snacking has become part of the American way of life. You can make it your way to eat nutritious snacks. Kick the bad snack habit and be a super snacker.

COUPLES GOLF

Country Club Couples Weekly Golf Play winners for last week were the team of Jill and Randy Crawford and Katy and Demp Jones.

Tying for second place were the teams of Marie and S.L. White-Leslie and Tommy Wilson; Barbara and Bob Wallace-Sherry and Bobby Bailey; Rick and Darolyn Webster-Bobbie and Jerry Fatout.

Nearest the pin on number 9 were Marie White and Rip Sewell.

PUBLICATION GUIDELINES FOR WEDDINGS

Engagement announcements and pictures should be in this office not later than six weeks prior to the wedding. Wedding pictures and wedding information must be submitted the Monday following the wedding. The Stockman will no longer be able to give space to a wedding occurring prior to the first edition following the event.

Henderson to head up Clements drive

John Lee Henderson, Jr., an Ozona banker and rancher, has been named Crockett County Chairman for the Governor Clements Campaign.

Henderson attended Texas Christian University and is a graduate of San Angelo State University. A lifetime resident of Ozona, Henderson is vice president of Ozona National Bank. Active in politics for many years, Henderson worked in the 1978 Clements Campaign.

Henderson is a former president of the Ozona Rotary Club and the Ozona Volunteer Fire Department. He has served as a member of the Crockett County School Board for seven years and is presently a member of the Ozona Lions Club.

"I am supporting Governor Clements because of his good sound conservative leadership of the State of Texas," stated Henderson.

For campaign purposes, the state is divided into 18 regions. Crockett County is

in Region VIII, which is headed by Regional Chairman Dr. Bob Hunter of Abilene.

Library hours are announced

The Crockett County library will be opening this week with new hours. The library will now be open during all school days and on Monday and Thursday nights from six to eight. Community members are invited to come by at their convenience and meet the new librarian and browse through the new books. High school students are encouraged to use the library on Monday and Thursday nights to study and do research.

Mrs. Sherry York replaces Mary Helen Parks as librarian for both the high school and county libraries. According to Mrs. York, "we are expanding our hours in the hope that more people will have an opportunity to use the libraries."

Sports Fans

I BET YOU DIDN'T KNOW

By Jerry Lay
When was the last time a coach won the national championship in college football in his very first year as a head coach? It hasn't happened since 1948. That year, Bennie Oosterbaan led Michigan to an undefeated season and the national championship as a first-year head coach. It could happen this year. Some pollsters pick Pitt as the possible national champ this season and they are led by a new, first-year head coach, Foge Fazio.

How tough is it to become a player in the National Football League? Figures show that only one in ten-thousand high school football players ever makes it to the NFL.

When the United States Football League starts play next year, it will mark the seventh different time that someone has started a new major pro football league since the National Football League was founded in 1920. There was a league called the American League, in 1936-37 and 1940-41. Then there was the All-American Football Conference from 1946 to 1950, another American League from 1960 to 1970, and the World Football League in 1974 and 1975.

To our valued customers and friends

Work continues, but in the middle of the turmoil our new coffee room and lounge opened on the second floor.

Also in operation are the computer and bookkeeping areas. Come in, ride the only 3 floor (Basement included) elevator in Crockett County and use the lounge - coffee prices remain unchanged. Sincerely, John Parks, President

Ozona National Bank
